(FROM OUR CORRESPONDENT.)
WINNIPES, Feb. 8, 1873.
The main street of Winnipeg is not a long. continuous one like King street, Toronto, but throughout, extending, as it does, nearly a mile north-ward from Fort Garry, consists for the most part of detached buildings, the intervals between which are rapidly becoming narrower and narrower. In the centre of that portion of the street which is most closely built up, and nearly opposite to Davis's Hotel, stands

60, o no change whatever in the programme of the Government.

The Imperial Parliament of Germany has been convoked for the 10th March.

Negotiations for the settlement of the miners' demands in South Wales have failed, and the strike continues indefinitely. The disappointment is a bitter one for thousands of families who depended on the resumption of work.

of work.

sentence commuted to imprisonment for life.

Tweed gave bail on Tuesday, on four indictments. In a few days he will have to give bail on invelve other indictments.

The Industrial Home for girls, at White Salphur Springs, Ohio, has been destroyed by fire.

The appeal of Edwin James for the readmission to the English bar has been

LEGISLATURE OF ONTARIO. allot such berths to be run out into ummary of Proceedings.

WEDNESDAY, Feb. 19, 1873. In resuming the debate on Mr. Rykert's resolutions, relative to the granting of timber imits,
Mr. Maodonald said it was a question
of vast importance, and should not be looked
as from a Party standpoint. The country
regarded its as great national questions and
many County Councils liad taken action by
petition. He warned the House that the result of this sale would before long inevitably

cover, as far as the constitutional poin volved was concerned, any arguments w showed that the Government, in disposin this large extent of property without sanction of the House, had not viola principles which they had contended for what is the legislature of the old Province of Carula permitted the Province of Carula permitted

And the second speech contrary to the industry without the consent of the House. (Cheers,) He moved in amountment to the said of representatives. He thought it is not the House such a value and proper reports the industry without the consent of the House. (Cheers,) He moved in amountment to the amendment of the said to the the said the contrary to the House such as well as the man series which the hon. member for Lincoln low out that course. That hon, gentleman had charged him (Mr. Wood) with having had 'his wheels greased,' and he challenged him to make good his insimuation or stand marked with the brand of infamy. He held in his hand the very fair and proper reports and he challenged any hon, gentleman to say that there was a single sentence in his second speech contrary to twist he had appeared in his fift. The real question was whether this Government to make good his nish and the very fair and proper reports which had appeared in his fift. The real question was whether this Government to the flours. (Henry house) the House (Cheers.) He moved in amountment to the amendment of Mr. Wood (Victoria), that all the words there 'That this House approves of the strunk out, and the house approves of the strunk out, and the heavest at the hands of the house of the strunk out, and the heavest at the hands of the house of the strunk out, and the heavest at the hands of the heavest and the heavest at the hands of the heavest and the heavest at the hands of the heavest and the heavest at the hands of the heavest and the heavest at the hands of the heavest and the heavest and the heavest and heaves

the them, he for one repudiated the doctime that the Government of the country should deal with any of Her Majesty's subjects in such a way that they would lose money by the transaction. (Hear, hear.) It had been said that the country, the timber upon which had been soult was autable for settlement, and that it was desirable to put it under license because the lumberman must precede the settler; and the Ottawa Valley had been referred to as illustrating the wealth that had been created solely by the enterprise of the lumberne. Was that true: Let the lumberman have even the whole credit of the improvement that had taken place in the Ottawa Valley, and what was it when compared with the improvement in other parts of the country. The one, it was true, had made a few men rich but the others had given homes and confort said abundance to thousands. He concluded by saying that these remarks would perhaps live after the man who made them had, passed that he was the true constitutional advocate of the people, while those who opposed him had simply used their position for the purpose of hoodwinking and bilinding the public, and that, as a distinguished statesman flid once characterized them, they were neither more or less than pharissical brawlers (Cheers.)

Hon. Mr. Mowat said the Government did not ask for the support of any member more or less than pharissical brawlers (Cheers.)

Hon. Mr. Mowat said the Government did not ask for the support of any member when they did wrang, but hecontended that in this case they had not violated their principles, there being a great difference between asking the sanction of the House to the expenditure of money, and being obliged to ask to before selling an acre of land. The wisdom of the sale was generally admitted. A great deal of the timber in the Huron region was being destroyed by fire, and by the piracy of the American lumberment of the country. The subject had been very fully discussed; and he believed that inditionation at the policy only existed.

mitted. A great deal of the timber in the Huron region was being destroyed by fire, and by the piracy of the American lumbermen, and the sale was therefore wise in that view, as well as in the interests of the settlement of the country. The subject had been very fully discussed; and he believed that indignation at the policy only existed among those who had read The Mail. There was nothing in the circumstances of the sale too lead the members of the Government to case the slightest consure on the Commissioner of Crown Lands. (Hear, hear.)

Mr. Prince said the people of the country were not to be easily humbugged.

Mr. Guest believed that the Ottawa Valley would have been a wildermess to-day had it not been for the lumbermen. In 1867 he had lost considerably by the election, and some of his firends proposed to recognise his services. The present would have taken the shape of plate, but he had unhappy reminiscences of the cost of previous elections. He solemnly declared that he went to Quebec and Toronto without any hope of fee, gratuity or reward. (Government cheers.)

The Hone then divided on Mr. Lauder's amendment, which was lost—yeas 18, nays 33—on the following division:

Yeas—Mass. Boulter, Calvin, Cameron, Corvey, Crale, (Rissell), Crock, Croley, Williams, Outhann). E. (Cover, Crale, (Rissell), Crock, Croley, Williams, Kouth, Marciek, Read, Richard, Rivert, Tooley, Williams, Kouth, Marciek, Read, Richard, Richard, Risself, Glaske, Marcie, Risself, Glaske, Marcie, Risself, Content, Crale, Risself, Calvin, Marciek, Rasel, Rishard, Rivert, Tooley, Williams, Sout, Grey, Sott. (Glawa), Sexton, Sinclair, Smith, Stetsing, Mr. Striker, Waterworth, Wod, (Victoria, Mr. Parterson with Mr. Coyne, and Mr. Fairbairn with Mr. Coyne, and Mr. Fairbairn with Mr. Coyne, and Mr. Fairbairn with Mr. Bonlibee.

Mr. E. B. Wood said he had an amend-Mr. E

The Treasurer had fallen into a trap to-day in givin the wrong return in the case of the woo and forests income. The Government at this great "Reform" Government which had promised so much and which he postponed the meeting of the Legislature which had promised so much and which he postponed the meeting of the Legislature a month, had brought forth absolutely; thing; and that a member of it, the Treasurer, actually did not know the revention the woods and forests. (Hear, he How. Mr. Crooks said the figures.)	possible as it would involve an extraord any amount of labour. Moreover there are not as the second of the second	tion be located near the city of Hamilton, the Government having been selected for the proposed Deaf and Dumb Asylum. This consisted of ninety-three acres of land in the Heevaship of Barton—on the mountain south and vest of the City of Hamilton. The price of this plot of ground was \$22,000, and including the necessary buildings for the accommodation of 100 patients, and the whole cost would be \$100,000. Mr. Cameron said the information was not sufficient to warrant the expense likely to be incurred. There was an asylum at orfilla which could be utilized for the purpose; and he thought that could be very the country of the countr	st of the second
ment, which could hever se charge with extravagance or want of practical a tivity. He defied the Treasurer and tombination of ingenuity on the Treasure benches to point to one solitary act of extravagance or corruption in the record of the combination. There could be no doubt the Treasurer had drawn his financial inspration from the record left in the Department by the hon. member for South Brant. In (Mr. Crooks) was the first Treasurer, exceed Mr. Mackensie, who had brought down the Estimates and the budget at one time. Trale of the hon member for South Brant was to give the House a full opportunity understanding the subject before making the budget speech. The Gornment dare not deay, in the pashes of the member for South Branthat they had not profited exceedingly that hon. gentlemans researches when he was in the Cabinet. The Treasurer had fallen into a trap to-day in givin the wrong return in the case of the woo and forests income. The Government on trelish the idea of the country hear that this great "Reform" Government on trelish the idea of the country hear that this great "Reform" Government on trelish the idea of the country hear that this great "Reform" Government on trelish the idea of the country hear that this great "Reform" Government on the woods and forests. (Hear, hee Hon. Mr. Crooks said the figures.	possible as it would involve an extraord any amount of labour. Moreover they as some information on the subject which should not be made public.  After some discussion and it being at After some discussion and it being at Glock, the House rese.  After some discussion and it being at Glock, the House rese.  After recess, Mr. Deacon said that the might as well move for copies of all the book in might as well move for copies of all the book in might as well move for copies of all the book in might as well and involve an immense amount of labour as would give no commensurate information to the House. No other Government had every comment for denying information to the district of the state of the standard of the	tion be located near the city of Hamilton, the Government having been for the proposed Deaf and Dumb Asylum. This consisted of ninety-three acres of land the site which some years ago had been selected for the proposed Deaf and Dumb Asylum. This consisted of ninety-three acres of land the state of the proposed of the proposed of the selection o	st of in school
ment, which could hever se charge with extravagance or want of practical a tivity. He defied the Treasurer and tombination of ingenuity on the Treasure benches to point to one solitary act of extravagance or corruption in the record of the combination. There could be no doubt the Treasurer had drawn his financial inspration from the record left in the Department by the hon. member for South Brant. In (Mr. Crooks) was the first Treasurer, exceed Mr. Mackensie, who had brought down the Estimates and the budget at one time. Trale of the hon member for South Brant was to give the House a full opportunity understanding the subject before making the budget speech. The Gornment dare not deay, in the pashes of the member for South Branthat they had not profited exceedingly that hon. gentlemans researches when he was in the Cabinet. The Gormment dare not deny, in the pashes of the member for South Brant hat they had not profitted exceeding that that they had not profitted exceeding the was in the Cabinet. The Transvers had fallen into a trap to-day in givin the wrong return in the case of the woo and forests income. The Government of not relish the idea of the country heart that this great "Reform" Government hat this great "Reform" Government which had promised so much and which had promised so much and which had promised accounts were wrong in that spect.  Mr. Rykert said the Treasurer sho carry the figures in his head of the country heart he private accounts were wrong in that spect.  Mr. Rykert said the Treasurer sho carry the figures in his head of the suppenditure of the Sandi Macdonald Government and ascept the proper figures. Hear, he The great manufage and in the treasurer in all most of the country heart the proper figures. Hear, he had not profit for the sandi them to bring down estimates amounting of the results and them to bring down estimates amounting of the proper figures in all most of the capital them to bring down estimates amounting of the supposition of	possible as it would involve an extraord any amount of labour. Moreover there are as some information on the subject which are also as the subject which are also as the subject which are also colored, the House reason. Bild that the might as well move for copies of all the book in the Crown Lands Department. It would not be made promised the subject which are the commensurate information by the subject with the session.  Mr. Rykert remonstrated with the commensurate information of the subject with the subject w	tion be located near the city of Hamilton, the Government having been fortunate enough to secure the site which some years ago had been selected for the proposed Deaf and Dumb Asylum. This consisted of ninety-three acres of land in the Wewnship of Barton—on the mountain south and vest of the City of Hamilton. The price of this plot of ground was \$22,000, and including the necessary building for the accommodation of 100 patients, together with the officer of the institution, which we will be simple to the property of the whole cost would be \$100,000.  Mr. Cameron said the information was not ufficient to warrant the expense likely property of the property of an hospital in an appropriate building property of an hospital in an appropriate building or cured or rented for the purpose, such as the office of an hospital in an appropriate building property of the property afternoon of the purpose, such as the office of the purpose, such as the office of the purpose of an hospital in an appropriate building property of the purpose, such as the office of the purpose of the purpose, such as the office of the purpose, such as the office of the purpose, such as the office of the purpose of the purpose, such as the office of the purpose of the purpose, such as the office of the purpose of the	st oo on we fest st oo on the s
ment, which could never be charge with extravagance or want of practical a tivity. He defied the Treasurer and tombination of ingenuity on the Treasurer and tombination of ingenuity on the Treasurer and tombination of ingenuity on the Treasurer and the Combination of the combination. There could be no doubt the Treasurer had drawn his financial ingration from the record left in the Department by the hon. member for South Brant. If (Mr. Crooks) was the first Treasurer, exceeding the country of the country that the country had been department of the country had not profitted exceedingly that hon. gentleman's researches whe was in the Cabinet. The Treasurer had fallen into a trap to-day in givin the wrong return in the case of the woo and forests income. The Government the woods and the definition of the country heart that this great "Reform" Government which had promised so much and which he postponed the meeting of the Legislature of a month, had brought forth absolutely thing; and that a member of it, the Treasurer who carry the figures in his head go to his department and ascept her proper figures. (Hear, hearth of the country hearth of the woods and forests. (Hear, hearth of the country hearth	possible as it would involve an extraord any amount of labour. Moreover they are some information on the subject which should not be made public.  After some discussion and it being at divide the should not be made public.  After some discussion and it being at older, the House area.  After scess, Mr. Deacon said that the might as well move for copies of all the book in might as well move for copies of all the book in the Crown Lands and the Go ormant for denying information to the House. No other Government had every continuous control of the comment of the control of	tion be located near the city of Hamilton, the Government having been fortunate on the Government having been selected for the proposed Deaf and Dumb Asylum. This consisted of ninety-three acres of land in the Wewmahip of Barton—on the mountain south and vest of the City of Hamilton. The price of this plot of ground was \$22,000, and including the necessary building for the accommodation of 100 patients, and the proposed that the contrast of the purpose of the contrast of the whole cost would be \$100,000.  Mr. Canseron said the information was not sufficient to warrant the expense likely proposed and be thought that could be very been contrasted of the purpose of the purpose, such as the office of the purpose, such as the purpose of	store of the second of the sec
ment, which could never se carge with extravagance or want of practical a tivity. He defied the Treasurer and tombination of ingenuity on the Treasure benches to point to one solitary act of extravagance or corruption in the record of the combination. There could be no doubt the Treasurer had drawn his financial inspration from the record left in the Department by the hon. member for South Brant. F. (Mr. Crooks) was the first Treasurer, exceed the hon. member for South Brant. E. (Mr. Crooks) was the first Treasurer, exceed the hon. member for South Brant. E. (Mr. Crooks) was the first Treasurer, exceed the hon. member for South Brant. E. (Mr. Crooks) was the first Treasurer, exceed the hon. member for South Brant was to give the House a full opportunity understanding the subject before ming the budget speech. The Go ernment dare not deny, in the pashoe of the member for South Brant hat they had not profitted exceedingly that hon. gentleunan's researches with he was in the Cabinet. The Treasurer had fallen into a trap to-day in giving the wrong return in the case of the woo and forests income. The Government on trelish the idea of the country heart that this great "Reform" Government on trelish the idea of the country heart that they are the most of the Legislature a month, had brought forth absolutely it hing; and that a member of it, the Treasurer should be a supported that the spect.  Mr. Rykert said the Treasurer should be proper figures. Hear, he Hon. Mr. Crooks said the figures the printed accounts were wrong in that spect.  Mr. Rykert said the Treasurer should be supported by his department and assorb the proper figures. Hear, he Hon. Treasurer would lead the country bearing over \$90,000. (Hear, het The hon. Treasurer would lead the country be beit the said the second to be be the said the support of the said them to bring over \$90,000. (Hear, het The hon. Treasurer would lead the country hear in the besides the three was an immense m	possible as it would involve an extraord nary amount of labour. Moreover they are some information on the subject which should not be made public.  After some discussion and it being at 6 document of the should not be made public.  After some discussion and it being at 6 document of 6 document o	tion be located near the city of Hamilton, the Government having been fortunate enough to secure the site which some years ago had been selected for the proposed Deaf and Dumb Asylum. This consisted of ninety-three acres of land the state of the proposed Deaf and Dumb Asylum. This consisted of ninety-three acres of land the secure of the proposed Deaf and Dumb Asylum at the West and the State of the proposed of the secure of the proposed of the proposed of the whole cost would be \$100,000.  Mr. Cameron said the information was not sufficient to warrant the expense likely to be incurred. There was an asylum at Orillia which could be utilized for the pur phenomenant of the secure of the proposed of the proposed while the work of the proposed that the work of the proposed that are was not be stated on the proposed of the	store of the second of the sec
ment, which could have so charge with extravagance or want of practical a tivity. He defied the Treasurer and tombination of ingenuity on the Treasure ment of practical a tivity. He defied the Treasurer and town benches to point to one solitary act of extravagance or corruption in the record of the combination. There could be no doubt the the treasurer had drawn his financial inspration from the record left in the Department by the hon. member for South Brant. If (Mr. Crooks) was the first Treasurer, exceeding the third of the hon. member for South Brant. If (Mr. Crooks) was the first Treasurer, exceeding the budget at one time. Trule of the hon. member for South Brant was to give the House a full opportunity understanding the subject before ming the budget speech. The Government dare not deny, in the pashes of the member for South Brant hat they had not profitted exceedingly that hon. gentleman's researches whe was in the Cabinet. The Treasurer had fallen into a trap to-day in givin the wrong return in the case of the woo and forests income. The Government on trelish the idea of the country heart that this great "Reform" Government that this great "Reform" Government which had promised so much and which he postponed the meeting of the Legislature a month, had brought forth absolutely; thing; and that a member of it, the Treasurer show carry the figures in his head go to his department of the Sandi Macdonald Government to the Treasurer would like the Treasurer shound them to bring down estimates amounting \$2,771,000. There was an increase in almovery department of the Sarvice, the gincrease being over \$900,000. (Hear, her The hon. Treasurer would like the Treasurer so carpian the sound to selieve that there was an immense surp on hand, and his organ lately said that amounted to \$4,300,000. (Laughter.) would like the Treasurer to explain the amounted to \$4,300,000. (Laughter.)	possible as it would involve an extraord any amount of labour. Moreover ther was some information on the subject which are the should not be made public.  After some discussion and it being at After some discussion and it being at o'Glock, the House rese.  After some discussion and it being at o'Glock, the House rese.  After some discussion and it being at o'Glock, the House rese.  After receas, Mr. Deacon said that the book in the Crown Lands Department. Is would involve an immense amount of labour an attention to the commissioner of Crown Lands and the Go erament for denying information to the House. No other Government had every control of the commissioner of Crown Lands and the Go erament of Mr. Saudfield Macdonald had every tused an address of this kind. The collection of the most of the with the collection of the most of the with the collection of the with the collection of the with the aid of his followers might be down the resolution if they pleased; but they did, the people of the country word demand why important information of the character was kept back from the House at the public. (Hear, hear.)  Mr. McCall (Norfolk) believed the marine which the Oomanissioner of Crown Lands had dealt with the paties in question was honest and just.  Mr. Moreith did not believe that it we hould not a substance principal with the paties of the country word demand why important information. He did to believe the motion were "and interest was a monastrous principal" after the words as dever "principal" after the words after "principal" after the words after "principal" after the community of the interest was the refuse to give the information according to the Commissioner's attaction the the words after "principal" after the computation of the interest was the refuse to give the information according to the Commissioner's attaction the computation of the interest was the computation of the interest was the contract of the computation of the interest was the contract of the contract of the contract of the contract of t	tion be located near the city of Hamilton, the Government having been fortunate enough to secure the site which some years ago had been selected for the proposed Deaf and Dumb Asylum. This consisted of ninety-three acres of land the state of the proposed Deaf and Dumb Asylum. This consisted of ninety-three acres of land the secure of the secure of the mountain south and vest of the Scity of Hamilton. The price of this plot of ground was 22,000, and including the necessary building for the accommodation of 100 patients, and the secure of the property of the secure of the property of the property of the secure of the property of the	st on one of the control of the cont
ment, which could never be charge with extravagance or want of practical a tivity. He defied the Treasurer and tombination of ingenuity on the Treasure and tombination of ingenuity on the Treasure benches to point to one solitary act of extravagance or corruption in the record of the combination. There could be no doubt the Treasurer had drawn his financial inspraction from the record left in the Department of the treasurer and the treasurer and the treasurer, exceeding the training of the treasurer, the first treasurer, exceeding the training the subject before any time the training the subject before the same of the member for South Bras was to give the House a full opportunity understanding the subject before many the budget speech. The Gormment dare not deny, in the pashes of the member for South Bras was to give the House a full opportunity that hon, gentleman's researches when the training the subject before and forests income. The Government of not relish the idea of the country hear of the training the most of the Legislature a month, had brought forth absolutely a thing; and that a member of it, the Traurer, actually did not know the revent print the woods and forests. (Hear, he Hon. Mr. Crocks said the figures the printed accounts were wrong in that spect.  Mr. Rykert said the Treasurer sho carry the figures in his head of the supplies of the segment and ascept the proper figures. Hear, he from the woods and forests. Hear, he figures in his head of the country that the proper figures in his head of the figures in the spect.  The hon. Treasurer would lead the count on believe that there was an increase in alm every department of the Sanfia them to bring down estimates amounting the hole of the sanfia them to bring down estimates amounting the hole of the sanfia them to	possible as it would involve an extraord nary amount of labour. Moreover they are some information on the subject which should not be made public.  After some discussion and it being at older the should not be made public. lollege of Technology—Maintenence.... TELEGRAPHIC SUMMARY. EUROPEAN. The Ministerial crisis in Spain terminated by the election on Tuesday of the following Government by the National Assembly:— Figueras, for President of the Council, re-ceived 231 votes; Castelar, Minister of State, ceived 231 votes; Castelar, Minister of State, 237; N. Salmeron, Minister of Justice, 220; P. Y. Margall, Minister of the Interior, 226; Acasta, Minister of War, 149; Oreiro, Minister of Marine, 176; Tetuan, Minister of Finance, 169; Chao, Minister of Public Works, 192; Serna, Minister of Dolonies, 173. After the newly elected mambers had taken their seats, Signor Figueras addressed the Assembly. He declared that there would be no change whatever in the programme of the Government. be no change winace or in the Government.

The Imperial Parliament of Germany has been convoked for the 10th March.

Negotiations for the settlement of the miners' demands in South Wales have failed, and the strike continues indefinitely. The disappointment is a bitter one for thousands of families who depended on the resumption of work. of work.

A despatch from Zanzibar, dated the 13th, states that Sir Bartle Frere has gone to Mozambique on a special mission.

The Rev. Thos. Guthrie, the English sur-AMERICAN. In Congress, on Monday, a message from
President Grant was read, recommending
that the necessary legislation, on the part of
the United States, relative to the Washington Treaty, be proceeded with at once.
In the House, Mr. Banks opened the debate in favour of the Fishery Bill, and urged
that England and Canadahaving done everything incumbent on them, it was the duty
of the United States to carry out their part
of the agreement. of the United States to carry out their part
of the agreement.

Mr. Butler, of Mass. said the bill seemed to
him a mere mockery of legislation. There
never was such an abandonment of American interests. He knew that the President
and Secretary of State had come to Congress
to urge the passage of this bill, but the time
und come when the President would be
sorry for that. Under this bill all the
sorry for that. Under this bill all the
the best of the British carrying trade for goods in
bend, and the Government would have to
keep up a preventive service of over 6,000
miles of custom house lines to prevent sumngmiles of custom house lines to prevent snuggling.

Mr. Banks closed the discussion, and
replied to the arguments against the bill.
The bill then passed—yeas 145, nays 30.
Efforts are being made to have Foster's

The Pawn-Shops of Paris.

M. Maxime De Camp, asys the Pall Mal Greette, who is now continuing in the Revue dow Date Moties his, interesting studies of Parisan life, devotes his last article to sign Moti de Piere. This institution met with the severest trial recorded in its history, as might have been expected, during the siege of Paris. Thus, while at the end of July, 1870, its reserve capital amounted to 8,000,000 france, in February, 1871, there only remained of this sum 62,000 frances. The Mont de Piete, on the point of bank-raptoy, was saved by a loan of 3,000,000 france and the managaines in which the articles deposited at the Mont de Piete are stowed away, and among them found some veritable curiostites. One of the stranget of the strange things pledged was the brounded leg of a statue which the sculptor had obviously not been able to finish. An umbrella was-shown which had been forty-seven years in pledged was the brounded leg of a statue which the sundptor had obviously not been able to finish. An umbrella was-shown which had been forty-seven years in pledged was the brounded leg of a statue which the sundptor had obviously not been able to finish. An umbrella was-shown which had been forty-seven years in pledged was the brounded leg of a statue which the sundptor had obviously not been able to finish. An umbrella was-shown which had been pledged in June, 1823, and after costing 35 francs in annual interest was sold the other day for 5 francs. In opposition to the received ballef on the subject, very few workmen, it seems, are benefitted or injured by the Mont of the strange things pledged to the sundpt of the strange things pledged to the sundpt of the strange things pledged to the sundpt of the strange things pledged to the strange things pledged to the sundpt of the strange things pledged to th The Pawa-Shops of Paris.
