On account of the rain Wednesday Trinity Church Sunday School picnic was postponed.

Lambton Orangemen celebrated the Glorious Twelfth at Chatham. The attendance from this district was not large.

Baseball at Waterworks Park this Friday at 5.30, Parkhill vs. Watford. On next Wednesday Strathroy will play here. See both games they promise to be good ones.

If people would cease trying to "keep up with the Joneses" they would be much happier and likely much better off financially. Try it for a year and let the Joneses go hang.

Ford dealers of Lambton County will stage the Big Annual Ford Picnic at Bright's Grove on Wednesday, August 8th—not at Sarnia as announced by some papers.

Last Monday the law providing that eggs be bought from the producer according to grade and that they also be sold to the consumer according to grade became effective.

Wallace Reid will be shown in his last picture, a screen version of the greatest of all stage comedy successes, "30 Days" the funniest of all his famous comedies, at the Lyceum tonight.

There is no right of way in the presence of danger in the warning given to motorists by a Canadian judge recently. In other words, if you have the right-of-way, be sure the other fellow knows it.

In the Congregational church on Sunday the pastor, Rev. T. D. Rayner, will preach in the morning at 11 a.m., and in the evening Mr. F. W. Mahony, manager of the Wire Works will conduct the service at 7 p.m. Everybody welcome at both services.

The only sound basis for decency in life and character is intelligence, proper training and association with gentle and right-minded people, in other words, education. The best safeguard, therefore, for youth is to teach them how to think and how to judge and to give them the example of decent-minded companions.

Watford will soon be recognized as a port of call for all transcontinental air trips. Two more aviators flying from New York to Flint dropped on the local landing field on North Main street Wednesday noon, and after lunching at Chateau Roche and replenishing their gas tanks, resumed their flight across the border.

The Board of License Commissioners for Ontario have issued a profusely illustrated booklet showing views of Ontario's playgrounds and the magnificent system of Highways which make a trip through Ontario a pleasure for the tourist. The booklet also contains a road map of part of the province and information as to custom regulations. Copies can be had from the Board of License Commissioners, Queen's Park, Toronto.

The Bank of Commerce crop report of July 5th date for the province of Ontario says:—The third week of June was very warm and during the last week showers have been general throughout the province and have stimulated growth wonderfully. Conditions generally show satisfactory prospects for a good all-round crop. Hay a big crop and cutting well under way. Clover excellent. Fall wheat is filling well and beginning to ripen. Indications are for a good average crop. Barley a good crop. Peas good. Corn a little backward but progressing rapidly. Weather conditions ideal for root crop. Spring wheat and rye acreage small. Both crops satisfactory. Fruit prospects fair with exception of raspberry, which are below the average. Pasture abundant.

To your surprise that friend of yours who you thought was about to die, is now healthier than you. Why? Because he took Chiropractic Adjustments, and had the cause of his ailment removed. A. C. The Congregational Sunday School picnic on Wednesday was held on account of the wet weather. The new arrangements will be announced on Sunday.

Famous for her mimetic talents, her beauty and delightful personality, her satorial supremacy, her chic and winsomeness, Gloria Swanson will be presented in her new sensational romance of two continents, "My American Wife" at the Lyceum next Wednesday, July 13.

The death occurred in Hamilton on Sunday evening of John F. Dynes, who lived in Watford some twenty-five years ago. He had been suffering for some years with complicated conditions due to lead poisoning. Interment took place in Hamilton cemetery on Wednesday.

The rear of Harper's storehouse and workshop was pulled down last week, prior to making improvements on the premises. This is one of the oldest buildings in town and relic hunters expected to find treasures as rare as those found in King Tut's tomb but were sadly disappointed, nothing but useless rubbish being discovered. The main part of the building will be raised and a new addition built at the rear.

The Presbytery of Sarnia met in the Mandaum Presbyterian church on Tuesday of this week. The docket of business was light so that the afternoon was free to Presbyters and their wives to picnic on Mandaum's well equipped athletic grounds. Those attending from Watford and Knox church, Warwick, were Rev. and Mrs. E. H. Sawers, Rev. and Mrs. H. V. Workman, Mr. W. D. McKenzie and Miss Jean.

Services in the Presbyterian church on Sunday next at the regular hours of 11 a.m. and 7 p.m., conducted by the pastor, Rev. H. V. Workman. At the morning service, the sacrament of baptism will be observed. Parents of the congregation desiring baptism for their children are asked to present them at this service. About sixty young people of Lambton County were in attendance at the Summer School at Courtright from July 1st, to 8th. Those from Watford Miss Lillian McKeercher, Miss Gertrude Fulcher, Miss Rhea Smith and from Knox, Miss Anna Auld.

PRESBYTERY OF SARNTIA

The regular quarterly meeting of the Sarnia Presbytery was held at Mandaum Tuesday with about sixty ministers and elders and their wives present.

The members of the Mandaum church gave the visitors a splendid welcome.

A business session was held from 11 a.m. to lunch time and a short one following.

The Presbytery sustained a call from the congregation of Bridgen and Bear Creek to the Rev. Mr. Bannintyne of the London Presbytery. Arrangements were made for induction, subject to the acceptance of the call by the minister and the approval of the London Presbytery.

The moderator of the Presbytery the Rev. H. D. Cameron of Forest, presided.

The ladies aid of the Mandaum church served fowl dinner and supper in the church hall and an interesting toast list followed. The Rev. Mr. McGinnis of Thedford replied to that of the King, the Rev. J. J. Mondes of Petrolia, to that of the ladies, and Mrs. George Chester, president of the ladies' aid to the toast to that organization.

Many complimentary remarks to the Mandaum church magazine, the only one published in the Presbytery were made by the visiting ministers. Later the visitors were entertained to games and sports on the church athletic grounds by the church community club.

Prize winners in a gentleman's contest were Rev. H. D. Cameron, first prize, and the Rev. Mr. McCleachern of Point Edward the hooby prize.

In the ladies' contest, Miss Grace Minniely won. Mrs. J. R. Hall and Mrs. H. D. Cameron tied for the consolation. Gertrude Cameron of Forest won the prize for shaking hands with the "mystery" man.

The ministers defeated the elders in a baseball game.

After supper Mandaum beat Ketch at basketball, and the community club put on a program on the outdoor stage.

DEATH OF MR. WM. MANDERS

Another old resident of Warwick, Mr. William Manders, departed this life on Tuesday morning at 7 o'clock after an illness of two months' duration in his 83rd year. Mr. Manders was born in Cork, Ireland, in the year 1840 and came to Canada at the age of eleven years, on a sailing vessel which took six weeks to cross the ocean. After residing in Plympton township for four years he went to Warwick Village where he learned the trade of shoemaking with Mr. William Luckham, working at this trade for eighteen years. In 1862 he was married to Miss Martha Hawn who predeceased him fifteen years the 26th of June. In 1875 he bought a farm west of Warwick Village and went farming, and in 1880 he removed to the farm on 15 sideroad, where he resided until his death. He was a man of keen intellect, sterling integrity and good judgment and was much respected in the community where he spent almost his entire life. In politics he was a life-long Conservative and in religion a Methodist.

He leaves to mourn his loss, two sons and two daughters, John on the homestead; Richard of the fourth line, Warwick; Mrs. Sanford Stapleford, Watford; Mrs. H. H. Dickson, Victoria, B. C.; nineteen grandchildren and eight great-grandchildren.

The funeral was held from his late residence, on Thursday afternoon and interment made in Watford cemetery. The Rev. W. K. Hager conducted the service, the pallbearers being six grandsons: Major R. H. Stapleford, Russel W. Stapleford, John Stapleford, Clare Manders, Murray Manders, Carleton Manders.

There will be service in Knox church on Sunday evening next, 15th inst. Rev. McIntosh of Napier will take the service.

NOTE AND COMMENT

The House of Commons last week passed a bill to reduce the maximum postal rate on newspapers and magazines from 1 1/2 to 1 1/4 cents per pound.

Public opinion will tolerate no suspension of the anthracite supply this year, says the U.S. Federal Coal Commission. But what do the operators and miners care for public opinion?

Six hundred wounded and 75 killed celebrating a "safe and sane fourth" in the United States. One wonders if the signers of the declaration of independence foresaw anything of this nature when making the country "the land of the free."

There will be no alteration in the O.T.A. until there has been another referendum. This cannot be taken until the Legislature decrees, and the House won't be in session before the latter part of January, at earliest. It is unlikely, then, that a referendum will be held before the autumn of 1924, and the result of it will have to be considered by the Legislature in 1925.—Toronto Telegram.

Parkhill Gazette: There are young people today who have never belonged to a "Union" of any kind but who have in some way imbibed some of the most pernicious ideas propagated by certain so-called socialistic leaders in our country. When these young people take a position, they feel that they must stand up for their rights as employees. There are certain things to do which they consider go with their "job." These things they will do and no more. The interests of their employer are not their interests. They will do so much for their money whether they earn that money and also earn a little something for their employers does not concern them. These young people are the kind of employees to keep a business going so that these same young people may have a position as employees. If the employer makes sufficient profit on his investment then employees have a safe and permanent position. If employees become adept at killing time so that they may accomplish only the amount of work which they consider their job calls for—their employer is a wise man if he finds that their services are not required any longer. This is the class of employees who never gets anywhere, who never reaches a position of trust and responsibility, who always remains in the ranks. And the pity of it is that we have so many of them and that they are really destructive socialists at heart and poor citizens from start to finish.

ARE YOU LEGALLY MARRIED

Toronto Globe: Mr. Justice Bruneau of the Quebec Superior Court has given judgment in a marriage annulment case in that Province which should engage the attention immediately of the Department of Justice so that some authoritative ruling may be made concerning the issue; Judge Bruneau declares that a marriage solemnized in Montreal in 1916 by a dignitary of the Greek Orthodox Church between a member of that Church and a young lady of the Roman Catholic Church was not a legal marriage at all because the clergyman was not a naturalized citizen, presided over no church, and was not the custodian of any church records. One hears not infrequently of visiting clergymen and clergymen who are American citizens taking part in marriage ceremonies in Ontario. It is clear that if Mr. Justice Bruneau's decision is sustained no clergyman in Canada who is not a British subject by birth or naturalization can legally perform the marriage ceremony. The matter is important, because the legitimacy and the property rights of the children of marriages performed by clergymen who are aliens may be set aside on the Bruneau judgment as it stands.

Flies are the filthiest, and most dangerous enemy of man. Every year they kill more people in Ontario than are killed by murders, lightning storms, cyclones and vicious animals combined.

A system of water supply for the home such as that being demonstrated by the Provincial Department of Agriculture has much to commend it. The installation of such a convenient system in farm homes especially would do away with much of the drudgery of which one hears so much and would be a long step towards making farm life attractive to the young.

After the first of October next the stamps to be affixed to cheques, receipts and other documents subject to the stamp tax, must be Inland Revenue stamps and not postage stamps. This being the case the Government should so provide that Inland Revenue stamps may be obtainable at the post office for the convenience of the purchasers. At present the public is under obligation to the banks in the matter of securing Inland Revenue stamps.

In experiments conducted at the Agricultural College at Guelph, it has been found that excellent results have been obtained from sowing alfalfa alone on a summer fallow in the month of July. When sown at that time on a moist soil, germination is rapid, and the plants are enabled to make growth before winter. There is not apt to be a prolonged drouth after July. By this method weeds are unable to produce seed in

the autumn, and the alfalfa has a good opportunity to get well established.

In reply to the question, What were lumber prices in Canada about 1850? the Canadian Forestry Association says that white pine, the chief construction timber, was about \$13 a thousand feet, as against five or six times that at the present day. It is the accepted opinion that Canada and the United States will never again see an era of "cheap lumber," as the toll of forest fires, set mostly by human recklessness, has so reduced the stands that raw material must remain very high in market value.

The Simcoe Reformer protests about horse-drawn vehicles being on the road at night without displaying a light of any kind. The wonder is that there can be any person found who will take the chance of driving along the road at night without a light being used as a safeguard. Especially where cars are travelling fast there are at times such clouds of dust that a horse-drawn rig can not be seen. The person driving at night with no light is taking a very long chance. Almost nightly near accidents are reported on our main roads. The remedy is to amend the law and compel all vehicles to carry lights, at night.

Storied Halifax -- The Warden of the Honour of the North

Halifax, where this year's convention of the Canadian Weekly Press Association was held, is the capital of the Province of Nova Scotia and one of the most important Atlantic ports of Canada. It welcomes home the returning wanderer; greets with friendly clasp, the new-comer to the Dominion, and bids God-speed to the departing traveller. The ships in leash at the docks are fed by the Canadian National Railways with lumber from British Columbia; golden grain from the prairie provinces; minerals and manufactured goods from Ontario and Quebec; products of the forest, field and mine from the Maritime provinces. From these ships the Canadian National Railways distribute imports from the British Isles and other parts of Europe, while to and

from them, year in, year out, thousands of travellers are carried. The city received its present name about the middle of the 18th century in compliment to Lord Halifax, Secretary of State in the British Cabinet. It retains more of its British origin than any other place in America. Historically Halifax has many points of interest, including the citadel which crowns the hill behind the city. From the old rampart of this fort a panoramic view of the country and ocean can be had. The quaint old clock tower on the lower slopes of Citadel Hill is another feature. It was built by the Duke of Kent and still records the time. In the city are many beauty spots. One of these is the Public Gardens, centrally located, a splendid botanical garden and playground combined. While the shady walks, flowers and

Sarnia, July 6.—But for an arrangement made to oblige a fellow employee, James Thompson, 40, and father of five children, who was killed in the blast at Imperial Oil last night, would be alive and well today. Thompson late Wednesday had agreed to take the duty turn of Francis Stewart, single, also employed as a fireman, who wanted to take the steamer trip to Tashmoo Park.

It is now established that Thompson was on one of the overhead walks near the still. His body was thrown in the air by the explosion and fell beside the still. On top of it came quantities of burning oil, and only a few charred remains were found after the fire was extinguished. For a time a number of stills containing oil and the whole plant with that part of the city, were in danger, but the company's fire-fighting organization proved wonderfully efficient and saved the adjacent stills.

Still No. 4, partly filled with oil, was a total loss, the damage being

set at \$50,000.

Houses in the extreme parts of Sarnia and in Port Huron were rocked with the force of the blast. Ornaments fell from their places and the whole city was alarmed. In the southward dozens of home windows were blown in.

AN OLD PIONEER

Mrs. John Woodley, mother of Mrs. John Oliver, Wellington street, Petrolia, is one of Enniskillen's oldest residents and is well known throughout the county of Lambton. Mrs. Woodley may well be proud of her family and grand children since she has four great, great grandchildren, 39 great grandchildren, 27 grandchildren and six children. Mrs. Woodley's eighty-sixth birthday was celebrated on Friday, June 29 at the home of her daughter, Mrs. Oliver. Mrs. Woodley, whose maiden name was Catherine Brisbin, was born in the township of Darlington, Durham county in 1837. She married John Woodley in 1858 and came west to Enniskillen in 1859. They settled on what is now known as the old Wood-

ley homestead just north of Petrolia, on the county road of Enniskillen. The old Woodley homestead was the "Mecca" of all Petrolia boys during the summer months. The famous Woodley swimming hole will be well remembered by any old Petrolia boy as one of the choicest spots around Petrolia. Through the long summer months the boys spent many hours bathing in the cool waters.

Mrs. Woodley recalls clearly the first discovery of oil in Oil Springs and later, in Petrolia, and relates how the oil used to be drawn by wagon in barrels from Oil Springs to Wyoming down the county road.

Mrs. Woodley was living on the old homestead when the present site of Petrolia was a virgin forest and when the oil boom started she recalls the rapid growth of the town.

Twenty-five years ago Mr. and Mrs. Woodley moved into Petrolia where Mr. Woodley died six years ago.

Mrs. Woodley who is of a sunny disposition is in excellent health and is very active. She had a family of six children, four girls and two boys, namely: Mrs. Norris Stotts, a resi-

dent of the blind line; William and John, both of Australia; Mrs. John Oliver of Petrolia, Mrs. E. B. Metcalfe, sixth line, of Enniskillen, and Mrs. Maitland, who lives on the old homestead.

FRUIT AND VEGETABLE CROP REPORT

The following extracts are from the Department of Agriculture at Ottawa July report for Western Ontario.

The total crop of apples throughout Western Ontario is now estimated at approximately 25 per cent heavier than that of last year. Winter apples generally are heavier than 1922, but the early varieties will be somewhat less. Between Hamilton and Niagara the crop of Duchess, Wealthy, Yellow Transparent and Astrachan is estimated at 35 to 40 per cent of that of last year. McIntosh and Snow 80 per cent. Baldwins, Greenings, Kings and Spies 75 per cent. The usual insect pests and fungus diseases are prevalent in unsprayed orchards, but in the orchards that have been well taken care of they have not yet made their appearance.

The present indications throughout Ontario are that the crop of the various kinds of tender fruits will be slightly less than that of last year. The prospects are that the peach crop of the Niagara District will not be more than 75 per cent of 1922, with the early varieties 50 per cent, Yellow St. John and early Crawford 100 per cent, Elbertas 40 per cent and the later varieties 70 per cent of last year. The crop of sour cherries will be about 90 per cent of 1922, while the sweet cherries will be equal that of last year, the Japanese plums are very light while European plums are estimated at 70 per cent. It is yet too early to give any estimate of the grape crop but the present prospects are approximately equal to those of last year.

Reports from Ontario indicate that there is every promise of a satisfactory crop of potatoes. The acreage planted in the Dryden district is well above the average and while they are not very far advanced at present, if the growing season from now on is favorable a good crop may be expected. Onions although showing a good stand are not in a very satisfactory condition. The continued dry weather is having a considerable effect, the total damage being estimated at 30 per cent. The tomato acreage is slightly less than 1922 and the growth has been held back by the cold dry weather. In the Leamington district damage estimated at 40 per cent was caused by heavy winds on May 27, and later by the cold dry weather. In the Waterford district 350 acres have been set to this crop.

The harbor at Digby, one of the beautiful Nova Scotia towns visited by the Canadian Weekly Newspaper Association during their annual convention.

Legislative Halls of Prince Edward Island

The Garden Province of Prince Edward Island has for its capital Charlottetown, a city of wide, tree-shaded streets, beautiful parks, splendid public buildings and fine homes. Being situated on the Canadian National Railways and at the junction of three rivers and hills, it is a large open square, which gives to that portion of the city an old-world atmosphere. Charlottetown was included in the Canadian Weekly Press Association's itinerary over the Canadian National Railways. The photograph shows the Parliament Buildings with a stretch of the beautiful park in front of them.

The Thriving City of Moncton, N.B.

Moncton, the headquarters of the Atlantic Region of the Canadian National Railways, was a point of much interest in the itinerary of the Canadian Weekly Press Association over the Canadian National Railways recently. This city, with a population of 16,000, is a thriving industrial and commercial centre. In the neighborhood of the city are oil and gas fields, in some of which exceedingly productive wells are in operation. At Moncton the famous "tidal bore" is seen at its best, the incoming wall of water being sometimes between four and five feet. The rise and fall of the tide there shows a difference of thirty feet between extreme high and extreme low. The photograph gives a general view of the city, showing the Canadian National Railways tracks elevated across one of the main thoroughfares.

Is Your Corn Crop Infested?

The European Corn Borer leaves no question of doubt as to its presence in a field of corn. Guard carefully against the infestation of your crop.

Beware of These Signs

The first easily observed sign of the infestation is the breaking over of the corn tassels.

Later the feeding of the "worms" begins to show on the stalks, which, being greatly weakened, break over.

Finally the cobs and shanks become infested and the entire stalk collapses to the ground.

The borer then seals itself for the winter in corn stubble or corn stalks, which must either be burnt up or ploughed under before June 1st of the year following.

THE WOODEN NECKTIE

Sweater Coats, Stocking and Neckties from Spruce Trees.

Wood Cellulose Furnishes the Lustrous Thread—Dyed and Woven Like Silk—Man and the Silk Worm—Chemically These Products Are Much the Same.

(Contributed by Ontario Department of Agriculture, Toronto.)

We all wear silken ties, and think or care little of the source of the material from which the tie was made. You may doubt the statement that the tie you are wearing came largely from a poison gas, carbon dioxide, a compound that is ever present in the air in which we live and breath. Silken ties should be beautiful, since such are born of a remarkable parentage, an invisible compound for mother and a sunbeam for father. If we walk into the spruce forest where the tall trees reach toward the sky, we pause with wonderment and ask how did it all happen. We can spend an interesting moment in tracing the development of the trees.

Much So-Called Silk Comes From Spruce Trees.

The tiny seed of the spruce, nursed by mother earth and bathed in the warmth of the sun, springs to life and pushes its tiny stem and leaves out to the light and air, out to the air that contains the carbon dioxide from which our tree will draw most of its substance for growth—out to the sunlight that activates the chlorophyll green of the tiny leaves, setting to work the chain of processes that make wood growth. Layer upon layer, the wood cells are added as the tree develops. Every new leaf increases the growing capacity of the little tree, doing its part in the transformation of the carbon dioxide gas to sugar starch and cellulose, the compounds in wood cell structure.

Wood Cellulose Furnishes the Lustrous Thread.

Wood cellulose is the tree material used by the manufacturers of silk, the lustrous silk of commerce, to make the silken threads that we all like to touch. The lumber-jack cuts the tree, the pulp-maker by chemical processes reduces the wood to flakey white cellulose. The next is nitration. This is done by treating the cellulose with a mixture of nitric and sulphuric acids in solution, taking care not to overdo the digestion process, and then thoroughly washing the pulp free from the active acid agents. The nitrated cellulose is then mixed with alcohol and ether, reducing it to the condition of viscous colloid.

Next it is filtered carefully and forced through minute orifices in a glass plate and on into a water bath where the fine threads solidify. As the threads solidify such are passed on over a roller and into another bath containing a reducing agent known as ammonium sulphide.

Dyed and Woven Like Silk.

Passing on from this bath our silken threads go over heated drums and spindles to be dried and twisted into larger threads. To have the silken threads we must give them color, so into the dye bath they go. This done, over the drums the colored threads pass to dry, by a route that leads to the spool or spindle. Delf fingers operate the knitting or weaving machine, an artist's mind controls those human fingers, which in turn control the forces that unite the colored silken threads into articles of wearing apparel such as sweater coats, neckties, and stockings.

Man and the Silk Worm.

What is the connection between artificial silk and natural silk. It is very close; so very close that the expert chemist is frequently called in to decide on samples and determine if the product of man's art and industry or that of the silk worm. Man goes to the tree for his raw material, so does the silk worm. Man uses chemical agents and a machine of his own invention; the silk worm can't help it since nature gave it a body structure and a digestive system that would convert the green leaf of trees to silken cocoon covering threads.

Chemically These Products Much the Same.

Chemically the product of man's endeavor and the silk-worm's work are much the same. Few will know at first glance if your wooden stockings, wooden necktie or wooden sweater coat were made possible by the arts of a man or the green crawler so much loved by the people of the Orient.

Keep the trees growing, boys, that we may never want for silken clothes.—L. Stevenson, Director of Extension, O.A.C., Guelph.

LAKE ERIE TRAGEDY

Balloon Wrecked and Occupants Drowned

Lashed to the side of the basket, apparently having died from exposure in the cold and merciless waters of Lake Erie, the body of Lieut. L. J. Roth, missing naval balloonist, was found at 10 o'clock Monday morning by the crew of the fishing schooner Onajag, eight miles from shore, southwest of Port Stanley.

The body of Lieut. T. B. Null has not yet been found. Both officers were participants in the naval balloon race which started from Indianapolis last Wednesday, their ill-fated machine, A-6698, having been found floating in the waters of the lake early on Saturday morning by the passengers and crew of a boat plying between Cleveland and Port Stanley.

One of the outstanding features of the recent election was the meagre support accorded the U.F.O. candidates in the smaller towns and villages throughout the province. This opposition on the part of the urban people is to be regretted but it was used to good advantage by scheming politicians to further their own selfish ends. After listening to and reading reports of some of the speeches, if such they could be called, delivered during the campaign one would be justified in forming the opinion that the mere fact that a man was a farmer was sufficient proof that he was of a lower order of intelligence than the business or professional man, and the remarkable part of it is that some farmers swallow that sort of dirt and seem to enjoy it. Possibly the farmers themselves are to blame for these conditions due to the fact that too many of them have been too ready to apologize for being farmers. A person is respected only to the extent he respects himself, and it follows that agriculture is respected only to the extent those engaged in farming respect their occupation.

It is possible to understand this opposition on the part of the urban people to the political aspirations of the organized farmers, but why it should extend to the commercial organization is beyond comprehension. Practically all these smaller towns and villages are or ever hope to be they owe to the farming communities around them.

A few days after the election a member of the Farmers' Club was in a neighboring village and in discussing the results of the election with a business man there, the opinion was advanced that it would mean the end of the club's activities, and that was followed by the assertion that the club has no business shipping their own live stock or carrying on a business such as has been carried on here. Apparently this business man had never given five minutes of serious consideration to the question of co-operative marketing, and it is a question that should concern the business man as well as the farmer. Experience has proven that co-operative marketing of farm produce increases the farmers profits which means an increase in his buying power, which comes back to the business man in increased sales.

Those who read the addresses given in Ontario by Mr. Sapiro of California, the noted expert on marketing, will recall that he said the same opposition existed in that State as exists here, but that they had succeeded in showing them the errors of their ways until today we find business and professional men working hand and hand with the farmers to perfect their organization. In one small city \$80,000. was raised to put the farmer organization on its feet. The farmers of this province do not need and do not expect any monetary help, but they do expect and they have a right to expect the good will and the moral support of those engaged in other lines of business.

Sores Flee Before It.—There are many who have been afflicted with sores and have driven them away with Dr. Thomas' Electric Oil. All similarly troubled should lose no time in applying this splendid remedy as there is nothing like it to be had. It's cheap, but its power is in no way expressed by its low price.

Misses Farrell and Howe, retiring teachers of the public school, Alvinston, were presented with gifts and addresses by the pupils.

Dorothy Stephen of Strathroy C.I. won the Ross McCabe gold medal for the best standing in grammar and composition at the recent high school entrance exams.

The citizens of Blenheim have appointed a committee to get information as to the cost of establishing waterworks in that village for supplying water for domestic purposes and affording fire protection.

The death occurred at Courtright Wednesday of Mrs. Barbara Frederick, aged 92 years. The late Mrs. Frederick had been a resident in Courtright for 31 years, and was well known in the district.

Mrs. Charles Murby, of the 6th line of Metcalfe, was the owner of the lucky ticket, No. 334, which entitles her to the car given away by Langan Bros. drawn for during the U.F.O. picnic at Strathroy. The ticket, which was drawn by John Hay was announced by Mayor Wright.

Enos Douthwaite of Blenheim claims to have succeeded in finding out who was helping himself to his gasoline at his home. Enos mixed water with some gasoline and left it in the accustomed place. He says a certain car had to be towed to a garage recently as a result.

Two barns, stable annex and garage belonging to Dan McKellar, 2nd con. Bosanquet, were totally destroyed by fire shortly before midnight Sunday of last week. Two motor and about 15 tons of hay were also destroyed. A new car which was in the garage was the only thing saved. The fire is supposed to have originated from spontaneous combustion of the new hay.

The Catholic women's league staged a successful garden party at Larry Ryan's farm, con. 5, Plympton and Thursday. The music was furnished by the Petrolia band and A. Cooper gave a good impersonation of Harry Lauder in some of his new songs. Two little Scottish dancers in costume were well received. John Farrell, immigration officer for the district, made a witty and genial chairman.

The death occurred on Friday at the family residence, lot 13, concession 2, Caradoc Township, of Martha Dennis, wife of Peter Stover, in her 83rd year. Mrs. Stover was a well-known and highly respected resident of the township, having lived there for more than 60 years. Besides her husband she is survived by one son, Joseph, of Mount Brydges, and two daughters, Mrs. J. H. Walker of Caradoc, and Mrs. Finnington of London.

Two Harrow Men enjoying an automobile trip north of town one night last week, had the fact impressed upon them that every vehicle should carry a light after dark. Before they realized it their car collided with a horse and buggy and the horse was so badly injured that it died on the spot. The driver of the death car, we understand, made it up to the owner Saturday by scouring the township and getting a horse of value.

Another motor accident occurred on the Egremont road in front of John Ironsides' farm, on Monday evening, when a car driven by Miss Scarfe of Wyoming struck some loose gravel and turned turtle into the ditch. One of the occupants, Dudley Taylor of Wyoming received injuries to her shoulder and wrist and had to be taken to the office of Dr. Brown for treatment.

Dedication services were held Sunday morning, July 8th, commencing at 11 o'clock in Christ Church, Camlachie. A beautiful reading desk donated by Mrs. Fry of Brantford, in memory of her husband the late Rev. Henry Fry, who was rector of the Camlachie church, several years ago, was dedicated. This is the only rectorship ever held by Mr. Fry, he afterwards entering into foreign missionary work, and died while on furlough to this country.

John McRobie Selkirk, police magistrate and postmaster of Leamington, died at his home on Friday of last week. He was 88 years old and had been a prominent figure in Essex county affairs since 1864, when he first settled at Blytheswood. He was born in Beauharnois, Que. Forty five years ago he retired from his farm and moved to Leamington, where he was appointed to the dual position of magistrate and postmaster, holding both positions up to the time of his death.

A Memorial Park Gate erected to the memory of 22 sons of the surrounding municipalities was unveiled at Tilbury Dominion Day by Hon. James Murdock, Minister of Labor. The memorial was erected by the Tilbury Daughters of the Empire.

Never has Gloria Swanson appeared in so superb a production as her new sensational drama "My American Wife", an appealing love drama in an elaborate Spanish American setting with dazzling gowns and beautiful women, to be shown at the Lyceum next Wednesday, July 18.

More than 66 representatives of the McMahan family gathered at Bright's Grove recently, for the family picnic. A bountiful repast was served at noon, and the afternoon was devoted to sports and a social time, after which supper was served. Guests were present from Parkhill, Sarnia, Bridgen, Wyoming, Petrolia, Oil City, Camlachie and Osborne. The oldest and youngest members present were Thomas McMahan, Petrolia, and John Hunter, Wyoming, respectively. It was decided to make the outing an annual affair.

Leamington was visited by a severe wind and rain storm Tuesday afternoon. The rain was badly needed in the tobacco districts. The wind tore the ornamental trees on the streets, branches falling in all directions. When the storm ceased water covered the land to a depth of five or six inches in the flat districts and on the marsh and unon fields. This is the first really heavy soaking rain in this section for three years.

In the Niagara fruit district cherries are selling as low as 25 and 30 cents a six-quart basket.

A car owned by Alf Kirkpatrick and driven by Walter Douglas, had a narrow escape from destruction and the occupants from serious if not fatal injury when it went over a bridge six miles east of Alvinston on Saturday. The accident occurred when crossing a bridge, the front of the automobile striking the rear of a wagon and turning two somersaults before landing in the creek. In the car with Douglas were Fred Steadman, Ed. Johnston and one other workman. Steadman and Johnston were injured internally and will be laid up for several weeks. The car was badly smashed.

The urn containing the ashes of the late Tena McKellar were brought to Glencoe Saturday afternoon, June 30, by Mr. and Mrs. Donald Miller of Detroit, and buried in the grave with her father, the late Donald McKellar, in Oakland cemetery. Miss McKellar was a sister of the late R. R. McKellar, who for many years owned and conducted the McKellar hotel. She had lived for the past ten years in Los Angeles, where she died January 11th of this year. Her remains were cremated there on January 13th and placed in the mausoleum until a few days ago when they were forwarded to Detroit and brought to Glencoe as stated above for burial.

Over 100 friends and neighbors met at the home of Mr. and Mrs. S. Manning, Plympton, to bid farewell to Matthew White, before his departure from this community. A splendid program was given, consisting of music and speeches, after which Mr. White was presented with a club bag, in which was a set of brushes, also an umbrella and a signet ring. Throughout all the speeches and the address, Mr. White was very highly spoken of as a true friend and a neighbor ever willing and ready to help. He took a very active interest in the community and church, so that probably no one would be more missed. The sympathy in his recent bereavement and good wishes of all go with him during the coming years.

George Gardiner, 12-year-old son of Mr. and Mrs. Mac Gardner, Leamington, escaped instant death by electrocution by only a narrow margin last Friday afternoon. He was up in a tree picking cherries at the home of his grandmother, Mrs. Hoople, when he came in contact with a couple of hydro wires which he claims he did not notice passing through the tree. He was discovered by neighbors dangling apparently lifeless on the wires, a voltage of 2200 passing through his body. He was got down with difficulty and rushed to the Cottage Hospital where after a physician had worked over him for some time signs of returning life appeared, and he has since continued to improve. The boy is badly burned on the hands, also on his side head and arms but is now expected to recover.

The Oil of the People.—Many oils have come and gone, but Dr. Thomas' Electric Oil continues to maintain its position and increase its sphere of usefulness each year. Its sterling qualities have brought it to the front and kept it there, and it can truly be called the oil of the people. Thousands have benefited by it and would use no other preparation.

The "Fly" Cop

HERE we have I. Knockem Dead, the fearless fly hunter, with his famous Flyosan fly gun. Mr. Dead takes considerable credit himself but it is really Flyosan that flies fear.

Flies just can't stand Flyosan. A few sprays of this wonderful non-poisonous liquid will clear any room of flies inside of five minutes.

Flyosan's pleasant aromatic odor quickly disappears when a room is aired. It will not stain.

It kills practically every kind of insect pest such as mosquitoes, roaches, bedbugs, ants, moths and lice.

Get a can today. A complete outfit containing a pint of Flyosan and sprayer costs only \$1.00.

Alvinston H.S. Girls in "Isle of Jewels"

A very successful musical concert was staged in the Agriculture Hall on Friday evening when the local High School girls presented the fairy operetta "The Isle of Jewels." The first part of the evening was devoted to the above production which consisted for the most part of solos sung by the different "jewels" in honor of Princess Sapphire's birthday to which all fairies were invited by the ruler of "The Isle of Jewels," King Diamond (B. Zavitz). Many fine solos were sung by Lord Topaz (Augusta Burford), Lady Onyx (Hazel Goldrick), Lady Pearl (Ruby Lusas), Princess Sapphire (Kathleen Johnston), and Prince Emerald (Irene MacAlpine). Many choruses were also sung, music for which was provided by the Strathroy High School Symphony Orchestra which won high honors at Toronto and winners of the Challenge Prov. Shield. Many numerous artists, who also won high honors, contributed to the program. The latter part of the evening was devoted entirely to the music by the above artists. The cello solo with which Don Wright won a bronze medal was most highly enjoyed as was also the violin solo played by Billie Ellison of Port Stanley, leader of the orchestra. The Public School Orchestra and choir of little girls, who, it is hoped, will compete at Toronto next year, contributed several selections to the evening's program and little Virgie Clark, of Glencoe, played a violin solo which was played at Toronto and James Barnum, who won second place as soloist in Toronto, sang a very acceptable solo. The Wright Brothers of Strathroy delighted all with their Hawaiian guitar selections. The orchestra then played the selection which won such high honors for themselves and their conductor, Professor Howard Gordon, who also trained the young ladies in the "Isle of Jewels."

A very pleasant evening was spent at the home of Mr. John Chambers on Friday evening when a large percentage of the congregations of the Baptist churches of Alvinston and North Brooke gathered to bid farewell to Rev. Peter Pollock, prior to his departure for his new charge in Brantford. After the program which consisted of an instrumental duet by Misses Augusta Burford and Galdys McKellar, a vocal duet by Misses Elva and Alice Weed and solos by Hazel Goldrick and Elva Weed, Rev. Montie and Spracklin and Mr. D. H. Newcombe spoke a few words expressing the regret felt by all in Rev. Pollock's departure. Rev. Pollock was then called to the front and presented with a purse of money, his daughters with an Eversharp pencil and Mrs. Pollock received a handsome set of knives and forks. The address was read by Bruce Ross while Hazel Goldrick made the presentation.

Thomas Portsmouth, an employee of the Canadian Oil Cos. Ltd., was severely burned about his head and face on Monday by a puff of flame coming from oil that had accumulated at an ash pit. Dr. Chas. Dunfield dressed the burns which will prevent Mr. Portsmouth from doing any work for three or four weeks.

The fire brigade had a hurried call to Kerr's pumping house today, when fire threatened to destroy the frame building. The fire originated from the friction of a belt, which had slipped off a wheel. One end of the building was destroyed, but the prompt action of the firemen saved the building from total destruction.

MISS CATHERINE COWAN

The death occurred Monday morning at Seaforth cottage, Lake Huron shore, of Catherine Cowan, of Edmonton, aged 62 years, 2 months. The late Miss Cowan who was a sister of John Cowan K.C., of Sarnia, was taken ill in Edmonton where she resided but was brought to Sarnia five weeks ago in the hope that she would benefit in health. Cancer was the cause of her death. The funeral was held from Seaforth Cottage on Tuesday at noon to the Tunnel station. The remains were interred at Seaforth where the family was raised. She is survived by three brothers, John of Sarnia, Hector of Edmonton and James of Seaforth, and three sisters, Mrs. Mary Habkirk of Portland, Maine, Agnes of Sarnia, and Mrs. Dosrance of Edmonton. One sister pre-deceased her.

DEATH OF WM. CUTHBERTSON

There passed away in Sarnia Township on June 28, in the person of Wm. Cuthbertson, a man not only beloved by all who knew him, but one whose word was taken by the whole community as his bond. Born in Lanark county, on the 18th of April, 1852, he was only two years old when his parents moved to Sarnia township to the farm, lot 1, con. 3, where he spent his lifetime. In December 1880, he married Miss Annie Beer, who was born in London but was then living in Detroit. There were born five children, four sons and one daughter, Sadie, who pre-deceased her father by 15 years. There remains to mourn so kind a husband and father, the widow and four sons, Peter of Birmingham, Mich., Ross of Royal Oak, Mich., John on a nearby farm in Plympton Twp. and Allan at home. There are also three grandchildren. The funeral took place on Saturday, June 30, from the home to Wyoming cemetery where he was laid to rest by the side of his daughter, amid the regrets and sorrows of a wide circle of friends. The pallbearers were his four sons.

Wm. Watson, who recently underwent an operation for appendicitis, at Bad Axe, Mich., returned home this week accompanied by his mother, Mrs. Ida Watson, who had been with him for two weeks. Mr. Watson is recovering nicely.

A Ford car narrowly escaped destruction by fire and caused a lot of excitement on King street on Saturday evening about 9 o'clock. With the car were three young men, stranger to Forest people, and they had the tank filled with gasoline at C. King's filling station. The tank overflowed allowing the gasoline to run over the car onto the ground. As soon as the motor was started it back-fired and ignited the gasoline. In an instant the bottom of the car was aflame, also the gasoline on the ground beneath the car. By pushing the car by hand past the blazing gasoline on the ground and by hard work with a chemical fire extinguisher that was handy the blaze was subdued, without any apparent injury to the working parts of the car.

Weak Digestion Due to Poor Blood

Perfect Digestion Will Come if the Blood is Made Rich and Red.

There is no tonic for the stomach that is not a tonic for every other part of the body. But the stomach depends, as does every other organ, on the blood for its energy.

There can be no perfect digestion unless you have rich, red blood: This is scientifically true. The way, then, to tone up the stomach is to enrich the blood.

Most stomach remedies try to digest your food for you. How much better it is to tone up the stomach so that it will do its own work, as nature intended. There is no pleasure in eating predigested food. Tone up your stomach, then your appetite and digestion will soon be normal.

If your digestion is weak and your blood thin, you need Dr. Williams' Pink Pills to restore the strength to your blood; in addition use care in the selection of your diet and your stomach trouble will soon pass away.

Mrs. Charles La Rose, Fruitland, Ont., suffered severely, and tells what Dr. Williams' Pink Pills did for her. She says: "I was a terrible sufferer from stomach trouble. The doctor called it nervous indigestion. Everything I ate distressed me, and I became so weak and run down I could hardly walk. I had a pain around my heart most of the time, and I slept very poorly. I was afraid I would not get well, as the doctor's medicine was not helping me. In this serious condition Dr. Williams' Pink Pills were recommended and I decided to try them, and I can truthfully say that they made me feel like a new person. I will always give this medicine a word of praise when I get a chance for I think there is nothing to be compared with it for dyspepsia, or any one weak, nervous or run-down."

You can get these Pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

TWO THINGS THAT HURT THE EYES

A person has been known to say, "I have ruined my eyes by reading too much." Not so—the eyes were made to use. One sure way to permanently injure the eyes is

READING BY INTENSE LIGHT

The light should come through ground glass to soften it. Never use clear glass for either gas or electricity. Oil lamps give out a soft light, therefore clear glass chimneys.

READING BY DIM LIGHT

Take our advice—do not read or sew by a dim light—it will be a direct strain upon the sight centres of the brain. On these two things hang the fundamental laws of sight economy. Never use cheap or pick-up glasses—come to us for advice about things optical.

Everything needful here.

Take good care of your iiiiii's!

SUMMER COMPLAINTS KILL LITTLE ONES

At the first sign of illness during the hot weather give the little ones Baby's Own Tablets or in a few hours he may be beyond aid. These Tablets will prevent summer complaints if given occasionally to the well child and will promptly relieve these troubles if they come on suddenly. Baby's Own Tablets should always be kept in every home where there are growing children. There is no other medicine as good and the mother has the guarantee of a government analyst that they are absolutely safe. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The Right Road to Recovery

So says Mr. Eaton of Dreco, in praising it for his recovery from painful sciatica rheumatism.

"Since November 22nd," says Mr. James Eaton, of 505 Nelson street, London, Ont., an ironworker in the London Rolling Mills, "I have had pains rolling my ankles and back. It was diagnosed as Sciatica Rheumatism. The pain was so intense it seemed I would have to quit my work at times. I walked the floor many times, as it seemed that when I would sit down or lay down, the pain would be more severe, and when I would lean over I could hardly get up again. I was unable to lace my own shoes and could hardly get out of bed mornings, my limbs were so sore and full of pain.

"Before this attack of Sciatica Rheumatism, I had been in perfect health and never knew what it was to suffer pain. I cannot really describe the torture I have endured. No one really knows unless they have experienced these agonizing pains. "Dreco was being so highly praised that my wife thought I had better try it. The first bottle helped me very little, but Mrs. Eaton insisted that I keep at it. I am now on my fifth bottle and practically free from pain. It is simply wonderful the way it has relieved my rheumatism so quickly. I can sleep good and get up in the mornings feeling fine.

"Both my wife and I have told many people of the great merits of Dreco and I feel sure our praise has started many on the right road to recovery."

Mr. Eaton's case—that of a hard working man, finding his livelihood endangered by the intensity of seemingly incurable sufferings—has many counterparts right in this district. Every sufferer will find the same benefits in Dreco that Mr. Eaton discovered. It quickly strengthens and regulates the kidneys, to which most cases of rheumatism are traceable and purge the system of poisonous acids. It acts as well on the stomach, liver and bowels and restores them to healthy functioning.

Dreco is compounded from the juices of twelve medicinal herbs and roots, bark and leaves and contains no mercury, potash or habit forming drugs.

Dreco is being specially introduced in Watford by Siddall's Drug Co., and is sold by a good druggist everywhere.

BACK ACHED TERRIBLY

Mrs. McMahon Tells How She Found Relief by Taking Lydia E. Pinkham's Vegetable Compound

Chatham, Ont.—"I took Lydia E. Pinkham's Vegetable Compound for a run-down condition after the birth of my baby boy. I had terrible pains and backache, and was tired and weak, not fit to do my work and care for my three little children. One day I received your little book and read it, and gave up taking the medicine I had and began taking the Vegetable Compound. I feel much better now and am not ashamed to tell what it has done for me. I recommend it to any woman I think feels as I do."

—Mrs. J. R. McMAHON, 158 Harvey St., Chatham, Ont.

Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has for nearly fifty years been restoring sick, ailing women to health and strength. It relieves the troubles which cause such symptoms as backache, painful periods, irregularities, tired, worn-out feelings and nervousness. This is shown again and again by such letters as Mrs. McMahon writes, as well as by one woman telling another. These women know, and are willing to tell others, what it did for them; therefore, it is surely worth your trial.

Women who suffer should write to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for a free copy of Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women."

OBBY THE RULES

"The whole trouble with the traffic situation," declared a Detroit policeman, "is this: The people do not obey the laws and rules. They have scant courtesy. Do most drivers hold out their hands in warning when they are about to make a turn? They

don't. Do the majority of them sound their horns when they wish to pass another driver? They don't. Do most of them obey the speed limit? No. The city can make laws until it has a headache, but what good are they if the majority of people neither obey the traffic laws nor show each other the common courtesies of the road?"
