URGE GOVERNMENT TO BECOME PARTNER IN COAL INDUSTRY WORLD-WIDE TIE-UP IS FEARED

Two Hundred and Forty Members of British Parliament Sign Petition For Inquiry by Royal Commission—Germany and France Have Coal Strikes—More Conferences in Prospect.

LONDON, March 11.—(C. A. P.)—A movement is afoot to petition Premier Asquith forthwith to appoint a royal commission to enquire into the question of industrial co-partnership as a likely solution of the present industrial unrest.

The Labor party oppose the project on the grounds that it would undermine trades unionism.

A GLOOMY OUTLOOK

A world-wide strike of miners—this is the alarming possibility that is thrusting itself upon the notice of the public.

German mine owners have to deal with 175,000 strikers and 100,000 more have quit in France on a 24 hour strike test.

In the United States the anthracite and bituminous operators have still to settle with their employees, and a national tie-up is feared, and a coal shortage in the event of a strike will be more acute because of the present drain on the coal supply of the U. S. thru the demands of large European and South American consumers, who customarily draw their coal from Britain.

Miners Will Confer.

LONDON, March 11.—(Can. Press.)—The National Miners' Federation announced last night to accept the prime minister's invitation to meet the coal owners and the representatives of the government at a round-table conference, at which Premier Asquith will preside.

The coal owners have not yet accepted the premier's invitation. They will meet tomorrow morning to decide this question. Even if the Welsh and Scotch owners stand aloof it is taken for granted that the English owners will accept the conference will be held tomorrow afternoon, but the miners' representatives are not authorized to agree to any reduction of the federation's schedule of rates, or to any scheme determining the rates without a new ballot of the miners. Therefore a settlement of the strike can be attained only if the owners agree to accept the miners' schedule, which is very improvable.

Miners to Vote.

The most hoped for from the conference is that some basis of agreement will be reached for the fixing of a minimum rate, which will be submitted to a ballot of the miners. That the strike will continue for another week is now regarded by the most optimistic as inevitable. It practically has been determined that the coal strike must be ended by agreement, or legislation will be invoked to bring about compulsory peace. A time limit for the negotiations is demanded on all sides, and Thursday is expected to see parliamentary action unless the extremists on both sides relax in the meantime sufficiently to enable a settlement by consent.

National Notice to Quit Work.

At present almost the entire nation is under notice to quit work. Including the miners there are probably nearly 2,000,000 persons idle, and should the strike be prolonged through next week, perhaps half of Great Britain's workers will be unemployed. The distress is widespread now, and the drain on funds is so great that some of the nations are already showing distress signals. The courts are refusing to grant judgments and summonses on the

Cost \$18,000 to Reach Pole

CHRISTIANIA, March 11.—(Can. Press.)—It is announced that Capt. Roald Amundsen's debts, on account of his south polar expedition, amount to approximately \$18,000.

A special committee which has been appointed has sent out an appeal to Norwegians to subscribe this amount, so as to enable the committee to cable Amundsen at Hobart that his debts have been paid.

Later a national subscription for the benefit of the explorer will be opened.

MOTOR SERVICE STARTS MAY. FIRST

Electric Buses to Carry Fifty Passengers Will Be Used to Relieve Congestion, and Promoters Agree to Pay \$525 to Use Machinery Hall at Exhibition as a Garage.

Toronto will have a motor bus service beginning in May this year. This fact was foreshadowed by an application to the parks committee at a meeting yesterday, when Julian A. Halford of London, Eng., asked for permission to use the machinery hall at the Exhibition Grounds, as a garage for the summer months.

H. G. and F. G. Sharp and Julian A. Halford of London propose to commence as soon as possible the operation of motor buses in the city to relieve present congestion in the traffic. These buses they hope to have in operation on the different routes by the early part of next May. The city will charge a rental fee of \$525 for the use of the hall.

It was learned that the promoters would put 50 cars on the streets and all would be of the double-deck type similar to those used in New York and London. The committee's favorable consideration of the application was an indication that the scheme was a substantial one, and would probably cause the city to sidestep its proposal to inaugurate a motor bus service in Rose-dale.

OUTLOOK CLEARS IN MEXICO.

MEXICO CITY, March 11.—(Can. Press.)—A decided feeling of optimism pervaded the capital to-day affecting foreigners and Mexicans alike. The popular demonstration of loyalty to the government has had the effect of stiffening the backs of government and private citizens. This fact was manifested to-day by a material increase in the number of enlistments for army service. Business men generally profess to see a great improvement in the outlook.

LAMARCHE STILL ON LAURIER'S TRAIL

Amendment Will Place Separate School Issue Squarely Before House, and Opposition Leader Can no Longer Stay Within "Torres Vedras" Line.

OTTAWA, March 11.—(Special.)—Paul Emile Lamarche (Nicolet) has given notice that, on the third reading of the bill to provide for the legislation on the boundaries of Manitoba, he will move the following amendment:

"That this bill be not now read a third time, but be referred back to the committee of the whole house, in order that the following clause may be inserted therein, after clause 7 of the said bill: 'Section 22 of the Manitoba Act, 1870, as Viet., chap. 3, shall apply to the territory added to the province under the provisions of this act, with the substitution for paragraph 1 of the said section 22, of the following paragraph:'

"(1) Nothing in any such law shall prejudicially affect any right or privilege with respect to denominational, or separate schools which any class of persons have at the date of the passing of this act, by law or practice, in the territory added to the province under the provisions of this act."

Mr. Lamarche states it is his intention by his amendment to move the opposition out of their lines of "Torres Vedras" on the rights of the minority.

Spanish Cabinet Forced to Resign

Vigorous Attacks in Parliament Make Course Necessary—Troubles for New Ministry.

LONDON, March 11.—(C. A. P.)—The Morning Post's Madrid correspondent wires that a cabinet crisis has occurred. A communication has been passed by both chambers asking them to suspend sessions until a new cabinet has been formed. Senor Canalejas has received royal authority to reorganize his government. A crisis was expected, as several ministers have been vigorously attacked in parliament, and it became impossible for them to continue the ministry.

Foster's Grain Bill Gets Third Reading

OTTAWA, March 11.—(Special.)—Our old friend the grain bill at last received its third reading and passed at 12.40 o'clock this morning, after engaging the attention of the house for almost the entire evening. It stood on the order paper for third reading, but Hon. Geo. E. Foster moved it back into committee to make a few changes.

ORDER TO DEPORT SUNDER SINGH ISSUED

Hon. Martin Burrell Announces That Exponent of Sikh Cause Evaded Government Regulations When He Landed at Halifax Three Years Ago—Over 5000 Hindus in Canada

OTTAWA, March 11.—(Special.)—In reply to a question by H. H. Stevens (Vancouver) in the house of commons this afternoon, Hon. Martin Burrell stated that up to date, 10,800 Chinese and 13,768 Japanese had entered Canada thru British Columbia ports.

With regard to Dr. Sunder Singh, he had landed at Halifax on March 12, 1909. He had not complied with the immigration regulations and an order for his deportation had been issued, but had not yet been executed.

Uncle Sam Slow to Pay. In answer to G. W. Kyte (Richmond, N.S.) Hon. J. D. Hazen stated that the pelagic sealing treaty of July 7, 1911, provided for an advance payment of \$200,000 by the U. S. to Great Britain on account of the fur seal skins it would be entitled to under the treaty.

Placed £5,000,000 Loan. In reply to A. K. McLean (Halifax) Hon. W. T. White said that a loan of £5,000,000 bearing 3 1/2 per cent. interest, due on July 1, 1910, with an option to redeem on or after July 1, 1930, on six months' notice, was recently placed in the London market to replace a 3 1/2 per cent. loan of 15,000,000 issued in June, 1908.

MR. HUGH SCOTT'S MARRIAGE LAW TEST IN MAY

Had Been Identified With Insurance Business for 54 Years, and Was Very Well Known.

Hugh Scott of the firm of Scott & Walmsey, underwriters, 32 Church-street, passed away at his residence, Sultan-street, on Sunday morning. Mr. Scott was born in London in 1857, and while very young came to Toronto, and had been a resident of this city since 1875. He has been identified with the insurance business since 1883, when he was established and which is probably the oldest firm of underwriters in Ontario to-day. He and his partner, Mr. Walmsey, organized several successful insurance companies, which are living monuments to his memory, and in connection with his associates he built the Queen City Chambers, the present offices of the different companies in which he was interested. At the time this building was built in 1878, it was considered one of the best office buildings in the city. Up to within a recent date Mr. Scott held the position of president of two of the companies, and at the time of his death was also a director of several others. He was a member of the first organization of underwriters in Toronto, and was one of the committee selected to compile the first tariff of rates adopted in his own city. In his earlier days he was looked upon as an authority on insurance matters, and was frequently consulted as an expert on many important questions. From his knowledge of insurance he wrote a work on government life insurance, a copy of which was printed at his own expense and placed on the desk of every member of the house of commons in London.

In politics Mr. Scott has always been a staunch Conservative, and in 1891, 1892, 1893, 1894, 1895, 1896, 1897, 1898, 1899, 1900, 1901, 1902, 1903, 1904, 1905, 1906, 1907, 1908, 1909, 1910, 1911, and 1912 he was a member of the Ontario Conservative party, and a charter member of the National Club.

Three married daughters survive him in accordance with the wishes of the family the funeral services will be private.

A BIG INCREASE. Rev. W. Patterson, D.D., of Belfast, formerly of Cooke's Church, Toronto, writes in a letter to Rev. B. Haddon that his congregation has increased its missionary giving by 60 per cent.

The New Silhouettes.

Some of the new gowns made of silk or other light material show a decided departure from the closely fitting lines used so long in the skirts. The tunic sketched here is made of changeable taffeta in rose and old gold and is worn over a plain satin slip. The folds are kept flat across the front and back, but are allowed to puff out at the side below the natural hip lines. The trimming is made of the silk with the edges fringed except on the lower edge, where a silk fringe is used.

In honor of their niece, Miss Eileen Murray, the bride-elect of next Tuesday.

Mrs. Fred C. Scadding of Cleveland, Ohio, arrived in town last week, and is the guest of her sister, Miss Church, 405 East Roxborough-st., North York, on Saturday.

Receptions To-Day. Mrs. Robert Y. Eaton (Miss Ireland of Carberry, Man.) post-nuptial, afternoon and evening, at her new home, 83 Brunswick-avenue. She will be assisted by Miss Alice Murray. Mrs. and Miss Freland, 85 Chestnut Park, for the last time, Mrs. Charles Davidson (Miss Clara Scott), post-nuptial, afternoon and evening, 186 Hazelton-avenue; her mother with her, Mrs. Robertson, 267 Wellesley-street; Mrs. Juit of Orillia with her, the ladies of the Y. W. Association, at the Rosary Hall, 218 John-street; Mrs. Fred Armstrong, 707 Spadina-avenue, and not again.

Receptions. Mrs. O. B. Sheppard, Pembroke-street, who has just returned from the south, on Thursday, for the last time, will be the guest of her sister, Miss Church, 405 East Roxborough-st., North York, on Saturday.

World's Leap Year Mugs Please Those Who Get Them

Handsome Silver Gift Makes a Hit With Lucky Ontario Parents Whose Babies Arrived on February 29th.

The World's Leap Year Mug award has proved a greater success this year than ever before. Already 80 mugs have been sent out to the parents of children born on Feb. 29. This number equals the total amount sent out last leap year, and as the award this year remains open until the end of March, it is likely that a hundred or more mugs will be distributed.

The mugs are handsome examples of the silversmith's art, and that they are simply appreciated by those who receive them will be indicated by the following letters which have been selected from a large number received at The World Office:

St. Mary's, Ont., March 9, 1912.
Silver Mug Dept., Toronto World:
Dear Sirs,—Received your Leap Year prize mug for Baby Irene, and we the parents, appreciate your kindness very much. The prize is such a beautiful one we can hardly express in words our feeling to The Toronto World for its prompt delivery.

Thanking you once more for the present, we remain, yours very truly,
Mr. and Mrs. Orville C. Iredale.

42 Broadway-place, Spadina-avenue, Toronto, March 10, 1912.
Silver Mug Dept., Toronto World:
Dear Sirs,—It is with the greatest pleasure I beg to acknowledge the receipt of your beautiful present to our baby boy. The silver cup is, I must say, really delightful and beyond our extreme expectations.

I am sure we shall always feel indebted to the generosity of The World in years to come, as our boy grows up. Again thanking your right heartily, in which I am joined by Mrs. Warwick, believe we remain,
Yours faithfully,
George F. Warlow.

The Best Present.
Dear Sirs,—I must thank you for the silver cup you gave to my baby, and I am very pleased with it, and my wife

Health and Beauty Hints

BY MRS. MAE MARTIN

H. N. R.: To whiten and beautify the complexion you will find nothing better than a simple, inexpensive lotion made by dissolving 4 ounces of alum in 1/2 pint water (or hot water), and adding 1/2 teaspoonful glycerine. This lotion will freshen up and improve any complexion without giving that artificial, powdered look. It does not clog the skin pores like powder, and lasts much better. It gives to the skin a smooth, velvety tone and takes away freckles and skin discolorations generally. Apply twice a day.

D. L.: To quickly get rid of that saltiness simply wash your face, you should take a good evening shower, moving the impurities from your blood which come from lack of exercise and eating too much solid food in the winter. A good, old-fashioned tonic is made by dissolving 1/2 ounce of hard-dense in 1/2 pint alcohol, then adding 1/2 pint sugar, and not water to make a quart. Take 1/2 teaspoonful 3 or 4 times a day, and you will be surprised how quickly the look of perfect health will come into your face and your energy and ambition be restored.

Mrs. R. C.: Nothing is worse than a pale or grayish complexion. Always use fresh-made, grape-leaf complexion cream and your skin will not be oily or hair grow on it. By mixing into 1/2 pint cold water, 1/2 teaspoonful glycerine and one ounce simonpur, you have a complexion cream for cleaning, softening and beautifying the skin. This is excellent for cracked face and hands and keeps the complexion in perfect condition. Use it morning and night. The hair will be very luxuriantly smooth, refined complexion.

Ruby R.: Do not despair. You can easily save your hair, but not by using so-called hair tonics that have for their basis a quantity of quinine and 1/2 pint alcohol; mix these with 1/2 pint cold water, and use it morning and night. Your hair will stop coming out, and your hair will be very luxuriantly smooth. By preserving your hair with this tonic, you will save your hair from falling out, and you will have a beautiful, refined complexion.

Mr. and Mrs. Ed. Simpson.
154 Waterley-road, Toronto, March 7, 1912.
Silver Mug Dept., Toronto World:
Dear Sirs,—Just a word of thanks for the beautiful Leap Year Mug which we received to-day. Wishing the paper every success.

Yours truly,
Mr. and Mrs. Watson.

A Proud Boy.
Berlin, Ont., March 8, 1912.
Silver Mug Dept., Toronto World:
Dear Sirs,—A few lines to thank you for the beautiful mug you sent to our little boy. It is one week to-night since I have written telling you of it, and to-day we received it. I am sure the boy will be very proud of it after he is old enough to appreciate your kindness. Mother and baby are both doing fine.

Yours gratefully,
88 John-street, Louis A. Ziegler.

76 Arthur-street, Toronto, March 8, 1912.
Silver Mug Dept., Toronto World:
Gentlemen,—We thank you very much for the beautiful Leap Year Cup presented to our baby, which we received safely.

Yours truly,

FIX DISPUTES BY ARBITRATION

Miss Gertrude Barnum Tells Equal Franchise League of Best Method to Employ in Toronto.

Members of the Equal Suffrage League to the number of about 300, gathered at the Margaret Eaton School of Expression yesterday. The subject under discussion was "The Right of the Worker to Have a Voice in the Making of Conditions Under Which He or She Must Work."

The Protocol Arbitration Agreement drawn up by E. Filene, the Boston merchant, is discussed.

Miss Gertrude Barnum of Chicago addressed the meeting and made an ardent plea for the principles of arbitration and the creation of public opinion, especially in the consumer.

"The public is the third party in every dispute," said she, "and we should arbitrate towards the settlement of our present industrial crisis in Toronto."

At the conclusion of the Suffrage League meeting, a session of 150 women, representing many Toronto organizations, was called, and a resolution passed to the effect that the press of the city would be asked to enter into a free and full discussion of the present labor disputes.

Miss Barnum was also present at this meeting and stated that she had appeared before the provincial health and Presbyterian Ministerial Association in the morning and had outlined the arbitration agreement which they had promised to support.

BOY HAS RABIES
Bitten in the Face by a Fox Terrier at Barrie.

On March 4, a boy 16 years old was bitten in the face by a fox terrier dog in Barrie. The dog was killed and the head was sent to Toronto to be examined at the provincial health laboratories, 5 Queen's Park. The examination showed that the dog was affected by rabies and Pasteur treatment for the boy has been sent for from New York. The boy will be treated at the provincial laboratory at 5 Queen's Park. This is the first case, but commencing to-day every rabies patient taking the Pasteur treatment will do so at the laboratory.

COMMISSIONER JOSEPH POWER NOT APPOINTED DIED SUDDENLY

But Chas. E. Chambers in All Probability Will Become Head of Parks System.

The appointment of a man to succeed the late park commissioner, Robert Wilson, was to be made yesterday at a closed session of the board of control. But it didn't come out. The mayor and Council Church were in Ottawa and the meeting was therefore adjourned.

There is considerable speculation as to who will get the job. Chas. E. Chambers, a man who has been in the department for years, or an outsider, Thomas Hogg. It is thought that the board will recommend the name of Mr. Chambers, as he is the Big Man with the Big Eyes as regards water works in this city.

Mr. Power was a staunch Roman Catholic and for years attended the Holy Family, where Father Collins officiated. His death yesterday morning, in his 50th year, was a surprise to his family.

Mr. Power was a widow, one son, William Power, Jacksonville, and three daughters, Mrs. J. McVay and Mrs. L. H. Pearson of Toronto and Mrs. James Burns of Hamilton.

LOTTERYMAN MERTON IN TROUBLE.
OTTAWA, March 11.—A fine of \$600 or more in jail was meted out yesterday to a young man who pleaded guilty to the charge of managing a scheme or lottery for the purpose of depositing of certain articles, including gold watches, certain glasses, silverware, etc. Merton was arrested in Toronto about two weeks ago for practically the same offence and was subjected to a heavy fine. He was escorted to the city Saturday by a detective.

IS SICKNESS A HABIT?
With many sickness undoubtedly becomes to some extent a habit. "Attacks of indigestion," "Why not make loose from this ailment and get back the more joy of good health?"

It takes a little while to get used to a new habit, but you will find it is worth the trouble. It will help you, because you will be able to do more work, and you will be able to enjoy life more.

Mining Market Reflects Responsible Public Interest

Strength in Feeding Grains Helped to Hold Wheat Market

But Chicago Market Closed Generally at Decline For the Day—Corn and Oats Firmer.

CHICAGO, March 11.—Strength in the feeding grains helped to offset to-day the rather discouraging effect of the unresponsive foreign market. At the end of the day wheat was 1-3/8 higher to 3-8 decline, corn 1-4 to 3-8 gain, oats were up 1-4 to 3-8 and hog products ran from 2-1/2 down to 7-1/2 to the greater in cost.

Stubbiness developed in wheat at the outset, notwithstanding that European prices by no means reflected the advance scored here Saturday. Forecasts of stormy weather for the entire week made corn and oats tend to bulge, and thus had indirectly a hardening effect on the wheat trade.

There were also complaints from Baltimore regarding crop losses, but on all fronts the long were disposed to take profits, so that the close was irregular and comparatively deficient in firmness of tone. World shipments of wheat were 1,000,000 bushels under last week and three times that amount less than the total of a year ago. It was also an influence against the bears that the visible supply decreases turned out to be greater than expected. On the other hand, the plentiful supply of moisture wheat and south-west was counted upon to benefit fall-sown fields.

Corn Firm, Oats Strong.

Prospects of late spring planting aroused widespread interest in corn and resulted in a new set of high-price records for the season. Realizing sales, however, on the part of fortunate long took the edge off the market. There was a sharp flurry in cash corn at Peoria, but the gains at Kansas City and St. Louis were not so decided as here. May ranged between 72 1/4 and 73 1/4, closing easy 1-4 net higher at 72 1/8. Cash grades were firm.

In oats the advance was sharp in weeks. Shorts covered at a lively rate. Investment demand, too, at times ran out the offerings. The unpromising outlook for the starting of fall work was responsible.

Wheat and corn were up a dime and ribs were on a level with Saturday's close.

Northwest Receipts.

Receipts of cars at primary centres were as follows:

European Markets.

The Liverpool market closed to-day with wheat 4d to 1/2 higher, barley 1/2 and corn 1/4 to 1/2 higher. Paris wheat closed 1/2 higher, Antwerp 1/2 higher, Berlin 1/2 higher, and Budapest 1/2 lower.

Canadian Visible Supply.

The visible supply of wheat in Canada this week is 2,311,000 bushels, an increase of 74,000 bushels over a figure of a week ago. Oats are 4,834,000 bushels, an increase of 70,000 bushels.

PROVING UP DISTRICT

Developments in That Section Closely Followed by Mining Men—Results Promising.

FORCUPINE, March 8.—(From Our Man Up North.)—With success rapidly being realized at the Crown Chartered property, will other sections of the Northern Tiedale territory make good? is a question often asked.

Those interested feel that with proper work lots now abandoned will show the yellow metal in paying quantities and to prove their statements point approvingly at the Wood & Noble's lot to the west and north of the Crown Chartered Davidson lot.

A Mining Riddle.

In tracing the veins it was found that to the east the ends came nearer together than at a point where the rock is in the depression and where the traces of the quartz disappear under a deep soil as completely as if acted upon by legerdemain.

Men have found in other instances that, during the formation process, so annoying a result was obtained by merely surface work.

A NEW FACE.

A prospectus has been issued by the Agurita Mines Ltd., which claims to be a "petering out" of the vein being followed by the Agurita Mines Ltd.

Properties Under Development.

The problem on the Wood & Noble lot is similar to other properties in the north territory. A quartz dome, it is even predicted, may be found underlying the rock capping on these lots.

South Porcupine to Be Model Town.

FORCUPINE, March 9.—(From Our Man Up North.)—Plans are laid by the Agurita Mines Ltd. for the development of the Agurita Mines Ltd. property.

Ont. Exploration Shows \$400,000 Profit.

Presumably Came From Sale of Hollinger Stock—Will Go Mining in Alaska.

LONDON, March 11.—The first report was issued Saturday of Northern Ontario Exploration Co., of which Beak-Moreling is general manager.

The operations in Porcupine and elsewhere since incorporation in January, 1911, yielded \$1,814,000 gross profit.

The directors have written off \$400,000 from the cost of the shares since only a limited amount of development work has so far been accomplished.

Cash at the bankers and cash receivable is \$101,000; other assets acquired at a cost of \$103,000; capital is \$213,000; the whole balance of profit is \$1,111,000; the whole balance of profit is \$1,111,000.

It would seem from the above that the company have disposed of the balance of their Hollinger stock, because last September their statement showed \$85,000 cash, which has now increased to \$101,000. About the only real asset they had was their Hollinger.

Apparently, also, the Beak-Moreling have been able to sell some Northern Ontario Exploration stock, for there now appears to be \$113,000 outstanding. Their ability to do so is considered rather remarkable in view of the circumstances under which it has not sold above \$150, which is under par in the Canadian markets during that period.

The report gives Northern Exploration a book value of about \$9 a share, which is more than double what they are selling for.

Responsible Demand is Noted

And Mining Market Holds Firm

Porcupine Stocks Maintain on Even Keel—Some Issues Score Advances—Timiskaming Goes Soaring.

World Office, Monday Evening, March 11. A quiet but insistent demand for the Porcupine stocks in the mining market on an even keel to-day and at the close of the session prices on the whole showed a firm undertone.

The big Porcupine issue, Porcupine Central, Southern and Northern, all of which continued on their upward path, scoring a further sharp advance. The movement was chiefly due to a covering of the idea being that some of the brokers, either here or in New York, have been caught on the short side of the market and that the insiders have brought about a squeeze.

Apocalyptic Movement.

The big Porcupine issue, Hollinger and Rea, did not succeed in breaking away from the apathetic speculation in the depression and not where the rest of the list moved much along the same plane, about on a par with Saturday.

APROPOS OF PORCUPINE

Recent news from the gold mining camp partakes of a highly favorable trend, and everything points to a resumption of activity in the mining markets at the very near future.

With the situation in its present state, there is a big field for a company, hence and another directory of the mining companies. This is admirably met by the Porcupine Handbook, which is finding a place all its own among the brokers and followers of mining in Ontario.

—Hogs \$7.10.

Receipts of live stock at the Union
Yards were 87 cars, comprising 2000
cattle, 220 hogs, 35 sheep and lambs, 20
calves and 8 horses.
There were a few lots of choice quality
cattle on sale and trade was quite active.
Prices for the best cattle, such as seat
of from \$6.50 up, were probably the per-
centage. The market was strong for the
better grades at last week's prices, and
fairly steady for the common and medi-
um cattle.
In other classes of live stock prices
remained steady, excepting choice lambs,
which are scarce, and a few sold at dis-
