## TO REDUCE FIGHTING FORCE BY SEVEN BATTALIONS

Expeditionary Force of 150,000 Men Available for War, Will Be Largest Yet for Foreign Service.

**LESSEER FIGHTING FORCE.**  
War Secretary Haldane proposes: Expeditionary force of 150,000 men available for war, with a territorial organization capable of expanding the force abroad.  
Reduction of forces by seven battalions of infantry abroad and six battalions at home. No reduction in India, but colonies will have 25 instead of 30 battalions.  
Mobilization of 43 batteries of artillery out of a total home establishment of 98 batteries, leaving 55 batteries for training purposes.  
Expeditionary force will be 5000 men stronger than any army Great Britain has ever organized for foreign service.

London, July 12.—War Secretary Haldane in the house of commons today announced the government's plans for a more economical administration and a more efficient maintenance of the army. William J. Bryan was among those present in the house.  
Briefly, the government's proposal is to maintain an expeditionary force of 150,000 men immediately available for war, with a territorial organization behind it capable of supporting and expanding the forces serving abroad. This expeditionary force and its immediate supports would be administered directly by the military authorities, while the territorial part of the national army would be controlled by county associations, the command and training of all the forces being in the hands of general officers.

**Reductions.**  
Mr. Haldane's plan contemplates the reduction of the forces by seven battalions of infantry abroad and three battalions at home, including two battalions of guards. He proposes to reorganize for the mobilization of sixty-three batteries of artillery, as a proper complement of the expeditionary force, out of a total home establishment of 98 batteries, leaving 35 batteries for training purposes. He pointed out that the proposed expeditionary force will be 5000 men stronger than any expeditionary army Great Britain has hitherto attempted to organize for foreign service, and will only be possible of attainment if the reorganized militia engage for foreign service in time of war. For home defence, Mr. Haldane added, the country must look chiefly to the yeomanry and volunteers.

**Not Satisfactory.**  
In the course of his remarks the war secretary said that the state of the national forces was highly unsatisfactory from the point of view of both cost and organization, and that economy and efficiency were not inconsistent with democratic nations. However they might differ on other subjects, they were all agreed in the desire to lighten the crushing burdens due to armaments now resting upon them.  
The British government desired to share in this movement. He believed the proposed scheme would increase the fighting efficiency of the army by 50 per cent.

**Use Militia More.**  
The secretary thought that more use might be made of the militia, as was done by foreign nations, and that the reduction of the regular forces by 20,000 men, under his scheme the infantry would be formed into six divisions of three brigades each, with four cavalry brigades, representing altogether 150,000 men, made up of 50,000 regulars serving with the colors, 50,000 army reserve men, and 50,000 militia. It was also proposed to maintain as a war establishment five guns to every thousand rifles and sabres.  
Under the new scheme the terms of enlistment would be for the infantry and cavalry seven years with the colors, and five years with the reserves, for the field artillery six years with the colors and six with the reserve and for the garrison artillery eight years with the colors and four with the reserve.

**Same in India.**  
There would be no reductions in India under the proposed new arrangement. Fifty-two battalions will be maintained there as at present, but the cost will be reduced.  
Don't forget next Tuesday, Caledonian Excursion, Niagara Falls.

**The Dodge Co. Annual Picnic.**  
The fourth annual picnic of Dodge Manufacturing Company employees is being held at Lorne Park on Saturday, July 14. The order department will deliver will be made as usual "on the grounds."  
The coal bill goes down the steam up when the boiler in your cellar has "daisy" on it.  
**Orillia Old Boys.**  
Excursion to Orillia on Saturday next, July 14. Special train leaves Toronto at 10 a.m., stopping at North Parkdale. Returning leaves Orillia at 8 p.m. Tickets: adults, \$1.25; children, 65c; good to return Sunday, Monday, July 15 and 16.  
**Woodmen's excursion to Bobcaygeon** on Saturday, on Saturday, July 14th. Fares \$1.25 and \$1.20 respectively.  
**Autist Killed at Crossing.**  
New York, July 12.—Robert Shaffer, brother-in-law of Henry Phipps, the Pittsburgh steel millionaire, was instantly killed today when a Long Island Railroad train smashed the automobile in which he and a chauffeur were riding at a crossing near Sayville, L.I. Andrew Peters, the chauffeur, was badly injured. It is believed he will die.

## IS NOT COMPETENT TO DEAL WITH BATTLE OF EMBARGO CONGRESS PASSES UP

Many Resolutions of Importance to Empire Rushed Thru in Closing Session of Big Meeting.

**BUST CLOSING DAY.**  
Congress closes with rush of business. Next meeting place yet to be decided. Victoria, B. C. candidate for honor. Resolution recommending removal of embargo on Canadian cattle defeated. Congress favors establishing uniformity of patent, copyright and insolvency laws.  
Motion favoring change in naturalization laws lost.  
Congress favors promotion of technical and commercial education.  
Congress recommends the railways of Canada should receive imperial consideration in any plan of imperial federation and defence.  
Arbitration of international, commercial and labor disputes favored.

**EX-PRESIDENT LOUDON**  
**PRESIDENT'S RESIGNATION RELUCTANTLY ACCEPTED**  
University Governors Unable to Induce President Loudon to Continue.

At a meeting yesterday of the university board of governors, the resignation of President James Loudon of the university was reluctantly accepted.  
As announced in The Sunday World, President Loudon a month ago forwarded his resignation to the authorities, and last week pressed that immediate action be taken.  
A deputation from the board waited on the president, with a request that he withdraw his request for immediate retirement, but without avail.  
Consequently, it was announced, the board had no other alternative but to accept.

**Not Satisfactory.**  
Another meeting will be held today. President Loudon had been president of the university since 1892, succeeding Sir Daniel Wilson. He was born in Toronto in 1841, and was educated at the public schools, Toronto grammar school and at U. C. C., matriculating at 16. In 1862 he graduated from Toronto University with the degree of B.A. and the gold medal in mathematics, and almost at once was appointed one of the teachers in University College. In 1878 he became professor in mathematics. In 1885 he became dean of residence, retaining that position until he became a professor, and it was during that period he first displayed those administrative qualities which form such an essential qualification for the presidency.  
In 1878 he was elected a senator of the university. In 1894 he was given the LL.D. degree, and in 1896 was similarly honored by Princeton University.  
In 1896 he was appointed a member of the educational council of Ontario, and in 1897 he was chosen vice-president of the British Association for the Advancement of Science.  
By thousands of Canadians his steps to be taken to establish uniform patent, copyright and insolvency laws through the empire.  
J. J. Lake, secretary, added words giving British literary and artistic productions the same protection in the colonies as at home.—Canadian.

**DUNCAN DEWAR DEAD.**  
**Prominent Montrealer Dies Suddenly While Visiting Toronto.**  
A sudden collapse, due to heart failure, caused the death yesterday of Duncan C. Dewar, manager of the Montreal office of the Bell Telephone Co.  
Mr. Dewar had been ill and under treatment in Montreal, where he was advised by Dr. Stewart to take a vacation. A trip on the lakes was suggested, and Mr. and Mrs. Dewar came up to Toronto by steamer, arriving on Tuesday night.  
Early yesterday morning he was awakened by an attack of heart trouble and was given some medicine. At 8 o'clock he was awake but told his wife that he would remain in bed for a while longer. During the morning she was absent for an hour, and on returning to the hotel about 11, found that he had gone worse.  
Dr. J. E. Elliott was summoned and he called in Dr. J. M. Cotton for assistance. Mr. Dewar was then in a very weak state and although every effort at resuscitation was made, death occurred about 4 o'clock.  
The remains were sent to Ottawa last night by Undertaker Millard.

**Spiked Switch Causes Wreck.**  
Petersburg, Ind., July 12.—In the wreck of a westbound freight train on the Southern Railway today, near here, Fireman E. Panning and Brakeman Luther Capehart were killed. Engineer W. B. Williams was scalded and crushed badly that he will die. After the wreck it was discovered that both ends of the switch were spiked.

## WEST YORK ORANGEMEN CELEBRATE

PARADE PASSING ALONG KEELE STREET, TORONTO JUNCTION.

## WEST YORK'S ORANGEMEN HAVE GRAND CELEBRATION

Biggest Gathering in Many Years and Representative of Several Counties.

Toronto Junction, July 12.—(Special.)—Toronto Junction was swept by an irresistible wave of Orangemen today. A procession measuring one and a quarter miles in length, including probably 2500 Orangemen drawn from adjoining counties and taking in a large contingent from the stronghold of Dufferin, and a gathering of 10,000 in the town park to listen to addresses by prominent members of the order, were features. The Orange touch was everywhere in evidence. During the morning there was lively animation, as visiting bands with brass and file and drum bands arrived by train, and proceeded to the park with banners flying. Besides West York there were representatives of the counties of East York, North York, Peel, South Simcoe and Dufferin, taking in contingents from thirty or more municipalities. It was the first demonstration held since the death of Hon. N. Clarke Wallace, and was recognized as the meaning of a tribute to the memory of the departed Orange chief.

**Parade.**  
Dufferin county was honored by a place in the van, while the West York county lodges brought the rear. The parade was led by the Dufferin county, followed by the West York county, and then the other contingents. The parade was a grand success, and the Orangemen were in high spirits throughout.

**Protests Against Repeal of Pensions, But Bill Goes Thru—Lougheed Protests.**  
Ottawa, July 12.—(Special.)—Senator Landry is under the limelight. He was prominent years ago when as a Conservative he moved a vote of confidence in Sir John A. Macdonald's government. The motion was so drawn that it had to be voted down. Very recently Mr. Landry, M.P., became a senator. Last year he threatened to block the pension bill by talking against time on prorogation for 24 hours, he proceeded to gain the repeal of the pension bill.

**Touching.**  
It was a touching sight to see the Laurier government insisting that the bill must be passed immediately. How long ago it was that the supporters of the government joined hands with the Conservative members in howling down the same measure when pressed by Mr. Maclean (South York)? It was then that Sir Wilfrid Laurier left by amendment. It should not be repeated. Is it not true that Mr. Wilson (Lennox and Addington) had repeatedly asked the government to make his subsequent measure of the same effect a government order?

**Not Creditable.**  
Senator Lougheed said that he never had been in favor of the pension bill. He did not believe it consistent with principles of democratic administration. However, the bill having been passed, was not to be credited to the government that they should a year later repudiate the obligation they had entered into with the beneficiaries under the Pension Act. The bill passed without division. An interested spectator was Hon. John Haggart, M.P.

## CALLS ON IMPERIAL HOUSE TO PROTECT LABOR MARKET

Parliament Suggests Enactment of Legislation Against False Representations.

Ottawa, July 12.—(Special.)—The house this morning, after some routine business, took up the resolution by Mr. Smith (Nanaimo) praying for imperial legislation respecting false representations in England regarding the condition of the Canadian labor market. The resolution went on to state that legislation against such false representations had been enacted by the Canadian parliament and suggests that good results would follow from similar action on the part of the parliament of Great Britain. This had been discussed at an early part of the session, and it was not debated today. It was adopted, and a copy will be forwarded to the secretary of state for the colonies.

## DREYFUS' RANK RESTORED

Victim of One of World's Greatest Conspiracies is Vindicated After Years of Suffering and Disgrace.

**BASIS OF JUDGMENT.**  
The court holds that three new facts have been established.  
First—That the document from General Merclor's secret papers, presented to the court-martial, in which the initials "D." was substituted for "P." was established the strong presumption of Dreyfus' innocence.  
Second—That another document from the secret papers, in which Dreyfus was alleged to have been shown to have delivered to Germans the plan for the railway mobilization, never reached the war department authorities, and, therefore, Dreyfus could not have secured possession of it.  
Third—That the Rennes court-martial failed to hear essential testimony calculated to establish the fact that Dreyfus was innocent.

Paris, July 12.—The supreme court today announced its decision, annulling the condemnation of Dreyfus without a retrial. The effect of the decision is a complete vindication of Dreyfus, entitling him to restoration to his rank in the army as though he had never been accused.  
The decision of the court was read by the presiding judge, M. Baillet-Latour, president of the court of cassation. Among these present were: Mathew Dreyfus, brother of Alfred Dreyfus; Maitre Mornard, counsel for Capt. Dreyfus, and many others who have figured in the celebrated case. Capt. Dreyfus was not present.

**No Demonstration.**  
The reading of the decision lasted an hour and it was only as the close that the spectators realized the sweeping nature of the vindication.  
Maitre Dreyfus lastly dispatched a messenger to bear the good news to Capt. Dreyfus and Mme. Dreyfus.  
Outside the court the crowd recalcitrant the decision without making any demonstration.

"The way to think of a thing in business," said the Chicago pork packer to his son, "is to think of it first, and the men who years ago pre-empted the best locations on Yonge-street are realizing now the benefit of their foresight and tenacity. There is probably no more favorable retail situation in Toronto than the corner of the Dineen building, corner of Yonge and Temperance-streets, and with the constant opening of new and more attractive stores in that vicinity, the value is all the more apparent. Visitors in town are remarking about the improved appearance of Yonge-street generally, and the new spirit of enterprise which seems to have struck the shopping district."

RAINBOW REFLECTIONS

Curious and Interesting Facts and Fancies.

Many and fanciful are the myths connected with the rainbow. According to one superstition, a pair of golden slippers lies buried at the foot of the rainbow, which will bring good luck to the finder.

In contrast to these fancies, we have the matter-of-fact pronouncement that the rainbow is just a bow or arc of a circle, consisting of all the prismatic colors, formed by the refraction and reflection of rays of light from drops of rain, appearing in the part of the heavens opposite the sun.

The artist passes by these points of view and regards the rainbow solely for the pleasure it gives him. In this he is correct, for the rainbow, who is not interested in the rainbow as a rainbow, but rather as the name given to that excellent smoke—Rainbow Cut Plug Smoking Tobacco.

**DID CHARLIE VICKERY LIE?**

The Great Question That is Puzzling His Friends in Ontario.

Port Perry, July 12.—(Special.)—It is stated, and Stewart Bruce has made a declaration to it, that Charlie Vickery of this town spoke to Ex-Squire Nott concerning a possible reorganization of the commission of the peace for South Ontario, in which scheme a county or district magistrate was to be appointed. He hinted that Ex-Squire Nott was the man for the place and advised him to refrain, if possible, from discussing the matter till it was settled. In short, Charlie Vickery is said to have promised Ex-Squire Nott the position if the position was created. Thus the story runs. No man cares to put his name to it, and Charlie is not a politician. Was the position created? It was not. Hence it naturally follows Ex-Squire Nott was not appointed county or district magistrate. And from this groundwork of fact, the two-column edifice of fabrication, hypocritical moralizing and denunciation of Charlie Vickery and Charlie Calder has been reared. Had the position been created, and Ex-Squire Nott not appointed to it, then perhaps the charges of prevarication might lie, and then it might not, for Charlie Vickery might think it wise to break his silence and state the facts as they are. Charlie Vickery has such an honest look, not to say guileless guise, that one does not wonder that it was found necessary to have Stewart Bruce file a declaration, before giving him "the word." Why was Charlie not condemned out of hand? Where was this man Bruce, anyway, when the famous conversation between Ex-Squire Nott and Charlie Vickery took place? The good friends of Charlie say that he was with malice aforethought deliberately told Ex-Squire Nott a falsehood in the presence of Stewart Bruce, then indeed has the Whitney government fallen on its face. Charlie's veracity will be enquired into if necessary. But after all is said and done, not one complaint, except Ex-Squire Nott's, that he was put off the commission of the peace, and allowed at the honored age of 81 to spend his declining day in peaceful solitude on the good land he has won, and the have Charlie Vickery's innocent imagination has played with the fortunes of the Conservative party in South Ontario.

**GIVES UP THE KEYS.**

Meanwhile the game wardens presently appointed will also perform the duties of fishery overseers.

**IN SEARCH OF A CAPITAL.**

Ottawa, July 12.—An interesting visitor in the city to-day was George B. Edwards, a member of the House of Representatives in the Australian Commonwealth parliament. Mr. Edwards has been on an extensive tour of the old country and one of the objects of his visit to Ottawa is to size up the advantages accruing from the location here of the capital. While the Commonwealth parliament has decided on the district wherein its capital is to be fixed, the exact location is still the cause of much agitation and difference.

**HAY CROP IS LIGHT.**

According to Bank Reports—Western Crop Prospects.

Montreal, July 12.—(Special.)—The Montreal Bank has received from the managers of its branches throughout the country a full report upon the conditions of the crops in their sections. The reports from various portions of Quebec and from the Ottawa Valley section show that the hay crop will unquestionably be lighter than last year, and probably below the average for some years past. Reports from other parts of Ontario and Quebec also report light hay crops, but in nearly all instances the crop is much better than it was expected to be from previous appearance and is improving daily. Although some sections reported a poor crop of oats, the general tenor is to the effect that the oat crop will be largely both in Ontario and Quebec. Very few complaints are made of the potato crop. The fruit crop promised to be good, extra-thing included. The manager of the Winnipeg branch summarizes the 125 reports he received from different parts of the west as follows: "Never since the beginning of grain cultivation in western Canada have the prospects for an abundant harvest been more encouraging than they are this year." The manager at Edmonton says: "The cut worm has in some districts done considerable damage, but cannot say to what extent it will affect the total yield, as it only appears in some districts."

**THESE FENCES OFFENCES.**

Parkdale Restaurant—Who Object to Neighbourhood Disfigurements.

Aesthetic tendencies are developing themselves among the residents of Parkdale. J. P. Murray of the Toronto Carpet Co. visited the minister of works yesterday and expressed the regret of the community in the neighborhood of the Mercer Reformatory at the unsightly appearance of the fence around the institution. Mr. Murray did not suggest this as an intimation to the next Halloween's expedition to adopt the method employed some years ago at the Normal School grounds, but he pointed out that the old slat fence was not in keeping with the efforts towards beautification which the manufacturers in the neighborhood had exerted. The big buildings in this district are a pattern to the city in respect of neatness, their lawns and window gardens being generally admired. Mr. Murray said he intended to see the city hall people with regard to the bill-board fence around the grounds on the southeast corner of Dufferin and King-streets, which jarred the sensitive. Hon. Dr. Ross promised to see if anything could be done, and indicated his sympathy.

DREYFUS. Continued From Page 1.

court-martial shall be annulled without a retrial or be followed by another trial by a court-martial.

After a lengthy review of the document in the case, known as the Bordereau, the decision says it is not necessary for a new trial, and consequently the judgment in condemnation is annulled as unwarranted by the evidence.

In conclusion, the court noted Dreyfus' failure of pecuniary indemnity and ordered its decision to be transcribed on the records of the court-martial and also in five newspapers to be designated by the procurator-general and at the cost of the government in 50 papers of Paris and the provinces, to be designated by Dreyfus.

Back to the Army. The circumstances of Capt. Dreyfus' returning to the army have not yet been determined upon, but it is expected that he will take the grade of lieutenant-colonel of artillery, which he would have reached if his service had not been interrupted.

The cabinet will hold a special session at the Elysee Palace to-night to determine on the course to follow, in view of the decision of the supreme court. It has already been determined, however, that besides the restoration of Dreyfus to the army, a special bill will be presented to parliament authorizing the minister of war to restore Col. Picquart to the army, from which he was completely unjustified and without motive. Moreover, Dreyfus having a large fortune, one seeks in vain for any reason for his committing such a great crime.

The court therefore holds that, as all the accusations against the accused fell to the ground, there is no necessity for a new trial, and consequently the judgment in condemnation is annulled as unwarranted by the evidence.

In the course of an interview to-day after the announcement of the supreme court's decision in his favor, Dreyfus said: "This has been a long and terrible ordeal. I began to feel it would never end. It is clear that the decision restores me to my old place in the army, but I am not aware of the intentions of the government concerning my advancement in rank.

I have nothing to say against my accusers. Being again an officer, I am obliged to obey the army regulations of silence, but I am irresistibly thankful to the who have assisted in the maintenance of truth."

A Celebrated Case. Captain Alfred Dreyfus of the artillery, member of a wealthy Hebrew family of Alsace where he was born in 1859, was on Oct. 14, 1894, arrested on the charge of communicating French military secrets to a foreign power. Two months later he was tried by court-martial and found guilty, and sentenced to be publicly degraded and deported to Devil's Island, near Cayenne, French Guiana, there apparently to spend the

remainder of his life. The friends and relatives of Dreyfus, notably his wife, always believed in his innocence, and devoted all their energies to the work of proving that he had been unjustly condemned.

Col. Picquart, when he became chief of the intelligence department of the French army, in 1895, examined the documents in the proceedings against Dreyfus, and formed the opinion that the evidence pointed to Major Count Esterhazy as being the guilty man. Soon afterwards Col. Picquart was superseded as chief of the intelligence department by Col. Henry, and then began a fight to preserve the honor of the French army.

Charged Esterhazy. Dreyfus, on Nov. 15, 1897, charged Esterhazy with writing the incriminating document, but the latter was acquitted by a court-martial.

74 CARDS FOR CATTLE AND HORSE FARMER

But Prices No Higher Than Tuesday—Hogs \$7.70, Highest of the Season.

Receipts of live stock at the City Cattle Market since Tuesday last, as reported by the railways, were 74 carloads, composed of 800 cattle, 1000 hogs, 1200 sheep and lambs, and 200 calves. The quality of fat cattle was much the same as on Tuesday.

Trade in fat cattle was a little brisker, and prices were not as high, but firm at Tuesday's quotations.

There was a good demand for fat cows on account of the better outside buyers for this class being on the market.

Exporters. Few were offered, and few wanted, trade being dull. The few that were offered sold at from \$4.00 to \$4.50 per cwt. Export bulls sold at \$3.50 to \$4.25.

Butchers. Best butchers' cattle sold from \$4.50 to \$4.70 per cwt.; medium to good loads of hogs and steers \$3.12 1/2 to \$4.27 1/2; fat of good cows at \$3.50 to \$4; common cows at \$2.50 to \$3.25.

Feeders and Stockers. Trade in stockers and feeders has been light, with prices easy at following quotations: Good steers, 900 to 1000 lbs., at \$4 to \$4.25; good steers, 800 to 900 lbs., at \$3.90 to \$4.10; light stockers, \$3.25 to \$3.60; medium stockers, \$3 to \$3.25; common stockers, \$2.75 to \$3.

Milk Cows. About 40 cows were offered and sold on Wednesday and Thursday at prices ranging from \$25 to \$24 each, several bringing the latter price. The sales and prices reported were so high that farmers cannot, or at least do not, wait to feed and properly prepare them for the market.

Over 200 calves were on sale. The quality, generally, of the veal calves offered was high, but the farmers cannot, or at least do not, wait to feed and properly prepare them for the market.

Sheep and Lambs. There was a fair run of sheep and lambs, over 1200 in all. Trade for sheep is easy at about \$4.20 per cwt., for the general run, with the probability of them going down to \$4 per cwt. at an early date.

Hogs. The run of hogs was again light, and prices were quoted 1/2c per cwt. higher by Mr. Harris. Selects, fed and watered, are quoted at \$7.70 per cwt., lights and darks at \$7.40 per cwt. Drovers from Ontario report finished bacon hogs as being scarce and hard to buy at even the present quotations.

Representative Sales. McDonald & Maybese sold: Twenty butchers' hogs, 18 lbs. each, at \$4.44; 18 butchers' hogs, 12 lbs. each, at \$4.45; 8 butchers' hogs, 12 lbs. each, at \$4.45; 7 cows, 1000 lbs., at \$4.10; 12 cows, 1410 lbs., at \$4.22; 22 cows, 1150 lbs., at \$3.87; 9 cows, 1000 lbs., at \$3.90; 10 cows, 1000 lbs., at \$2.85; 8 feeders, 820 lbs., at \$3.75; 6 feeders, 880 lbs., at \$4.45; 40 feeders, 800 lbs., at \$3.75; 60 lbs. each, at \$2.75; 6 milch cows, \$48 each; 1 milch cow, \$70; 10 sheep, 133 lbs. each, at \$3.00; 2 butchers' hogs, 12 lbs. each, at \$4.45; 1 lot of exporters, 1900 lbs., at \$4.93.
