BOB COOK AGAIN SENATE SEAT BY PROXY

BROKE PLEDGE TO PETITIONERS

And Rouville County is Cheated of Honors Due—Aggrieved Member Tells Trouble to La Patrie and Fat is in the Fire.

Ottawa, March 12.—(Special).—A sensation is promised in the house tomorrow when Armand Lavergne will ask Hon. Mr. Brodeur about the truth of a story in Montreal La Patrie tonight about the appointment of a successor in the senate to the late Sir William Hingston.

The enquiry will be based on an interview given by Alfred Girard, M.L.A. for Rouville (in Quebec), in which he is reported as saying: "When Senator Hingston died, my colleagues in the legislature, without first consulting me, prepared a petition to Sir Wilfrid Laurier asking for my nomination to the senate. When I heard of the movement I said that I could not accept without the authorization of my leaders.

This authorization, however, had been accorded in advance. All the pro-

ponents of the measure, in the interest of justice, the jury was entitled to all the facts. It was one of the most serious blows the judge has dealt the defence since the trial began.

Mr. Jerome's case will be introduced as witnesses to-morrow, Abraham Hummel and his stenographer. Then, if his plans carried, he would conclude the state's case with the testimony of three experts, Drs. Austin Flint, Carlos MacDonald and William Maben.

It was agreed that after the defence had presented its case, each side shall have one clear day for the summing up. The charge of the court will be read on Monday, March 25, upon the disposal of one day, the last of the two will not be examined until Monday next.

The defence will probably occupy the remainder of next week with rebuttal and the summing up will probably begin Monday, March 25, upon the disposal of one day, the last of the two will not be examined until Monday next.

On the faith of this promise I returned on the 11th, and on Friday, and on Saturday the governor-general-in-council appointed Mr. Desaulles of St. Hyacinthe. I was at Marieville when the news arrived.

I have received messages from all parts of the county, and you can say that the dissatisfaction is general amongst the Liberals of the County of Rouville.

JEROME DROPS INSANITY PLEA

Prosecutor Has New Witness by Whose Testimony He Attempts to Prove Thaw Was Sane. When He Killed White.

New York, March 12.—District Attorney Jerome has burned behind him all bridges leading to a lunacy commission, and has irrevocably pointed his course towards proving that Harry K. Thaw was sane the night he shot and killed Stanford White, and that, being sane, his crime constituted murder in the first degree.

Within ten days or two weeks the case should be in the jury's hands. Mr. Jerome to-day played probably the strongest card he holds, evidence which came to his knowledge but a few days ago, and undoubtedly influenced him to abandon the idea of trying to send White's slayer to an asylum, and to seek a conviction under the criminal statutes.

The evidence came from Mrs. Stanford White's brother, James Clmch Smith who told a remarkably clear and succinct story of the events in Madison-square Garden the night White was killed, and of a long conversation he had with Thaw just prior to the shooting.

It appears that Thaw sat for some time with Smith during the fatal first performance of "Mamelle Champosogro," and discussed the play, Wall-street common acquaintances, plans for the summer and many other things. Thaw said he and his wife were going abroad later in the summer. There was no hint anywhere of Thaw's intent to inflict bodily harm upon any person, and he was not, however, told Thaw, not having a reserved seat, roamed about the garden and continually looked in the direction of the spot where he subsequently killed White.

Mr. Delmas bitterly fought the introduction of this testimony for nearly two hours. He declared Mr. Smith was properly a witness-in-chief and should not be allowed to testify in rebuttal. Mr. Jerome replied that he had only known for a few days the real value of Mr. Smith's testimony and he appealed to the discretion of the court to allow the testimony to go in.

Justice Fitzgerald held that, in the interest of justice, the jury was entitled to all the facts. It was one of the most serious blows the judge has dealt the defence since the trial began.

Mr. Jerome's case will be introduced as witnesses to-morrow, Abraham Hummel and his stenographer. Then, if his plans carried, he would conclude the state's case with the testimony of three experts, Drs. Austin Flint, Carlos MacDonald and William Maben.

FIGHTING BOB COOK AGAIN OVERAWES ORANGEVILLE

"Bold Bad Man" Just Won't Be Arrested - and Officer Fails to Make Him Change His Mind.

Orangeville, March 12.—(Special).—There's a "bold, bad man" in town just like they used to talk about out west. And the town seems to have "knuckled-down" to him, just like they used to do out west.

Even a special officer had nothing to say when this "bold, bad man" fastened his hawk-like eyes upon him over the sights of a couple of "guns" and coolly stroled away.

Fighting Bob Cook, said to be the strongest man in Dufferin County, appeared on Broadway yesterday, after a season in the lumber shanties, he is said to be a fugitive from justice; at least, he completely routed three local constables last fall when they tried to arrest him on the charge of breaking jail in Grand Valley.

So no one offered to impede his progress until the constables, who had spied him lounging nonchalantly in front of the Commercial Hotel.

"You're my prisoner," said Marshall, tapping him on the shoulder. Cook's retort, which was in anything but ladylike language, was backed up by two revolvers mysteriously but rapidly extracted from somewhere in his clothes.

Marshall didn't seem to think of anything to say or do that would get the occasion, and Cook walked up the street, waving the revolvers and laughing.

It is said he went to his home, a short distance east of the town.

"NIP" NOT CONTROLLED BY THE GUGGENHEIMS

Ex-President Earle Makes This Statement and Others of This Cobalt Property.

That the Canadian shareholders of Nipissing stock are waking up to the fact that their interests are more or less at stake is evinced by the fact that Mr. Earle has already a large number of proxies, whom he will use in progress at the annual meeting of the shareholders at Augusta, Maine, on April 1.

The visit to Toronto of E. P. Earle of New York, ex-president of the company, yesterday afternoon, when he had a conference with David Fasken of Beatty, Blackstock & Fasken was significant.

Mr. Earle appeared in the best of trim and accorded The World man an interesting interview, in which he laughed over the matter of disgruntled Canadian shareholders, who had the idea that anyone could get control of Nipissing, pretended indifference to any such proposition and finally emphatically denied any knowledge on his part that the Guggenheims had or were now in possession of the control of "About Morton," continued Mr. Earle.

"What do you think of the statement made by President Newhouse before he left for Europe, that the two per cent. bonus was premature?" Both Mr. Fasken and Mr. Earle denied that, in their belief, the president had made any such statement.

"Why," said Mr. Earle, "that is only the vagaries of some newspaper man, the fact is that the company is not in a position to pay a bonus, but I do not know, nor does Mr. Fasken, what the dividend will be. That will not be known until the meeting of the directors in New York on March 20 or 21."

Mr. Earle, "I do not know him, no person here seems to know him, but if he thinks that the company is not run right, or that there is anything being done in an underhand way—further, if he thinks he wants control of the company, he has had an opportunity to do so, for we don't care. We are not getting anything out of the deal, but are doing everything we can in the interests of the company, and we are getting whatever about the mine. Every shareholder, Canadian or otherwise, is not a shareholder, but a shareholder of the mine or what has been done."

"And I can say as far as I know, and Mr. Fasken will back me up, the Guggenheims have never had control of the stock, have not now and as far as I know, have no idea or intention of trying to obtain such.

"I claim that we have managed the mine at a minimum of cost, as the result to shareholders show, and we intend as long as we are entrusted with the management to carry it on as an ordinary business proposition regarding the stock of what stock brokers may do or wish done, and every dividend that is taken out of the ground will be duly accounted for to the stockholders, and if at any time the stockholders think they can get others to give them better service, let them say so and we will be pleased to be relieved of the work."

Mr. Earle left for New York at 6:20 last evening.

CHANGES HIS CLOTHES AND SLIPS FROM COUNTY JAIL

Tillsburg Man Escapes in Woodstock While Awaiting Removal to the Central Prison.

Woodstock, March 12.—(Special).—Frederick Forbes of Tillsburg, under sentence to serve one year in the Central Prison for larceny, escaped from the county jail here to-day.

Spring housecleaning has been in progress at the jail for the last few days. This morning, while Governor Cameron was opening the rear door to take a ladder out, he noticed Forbes coming downstairs, and instructed him to go to the kitchen to get some water and start scrubbing.

The governor's attention was called elsewhere for a few minutes and, upon returning, he noticed a door leading out into one of the smaller yards was open.

Looking out he saw a pile of jail clothes in the corner. A search was immediately commenced and Forbes was found to be missing.

Apparently he had on a suit of civilian clothes under his prison clothes and, upon reaching the smaller yard, had pulled his prison clothes off and run out into the outer ward and thru the gates, which also were open.

He is young and has quite a police record. He is of medium height, fair complexion and weighs about 150 lbs. He is young and has quite a police record.

ONE KILLED; 5 HURT BY ICICLE

Niagara Falls, March 12.—A huge icicle dropped from the cliffs of the Niagara Gorge on a trolley car of the Gore-road this afternoon as it was passing the whirlpool rapids.

Conductor Everet Ramsdell was killed. Dr. and Mrs. M. B. Nery of Sioux City, Iowa, and Miss Nery were badly bruised and S. S. Lindsay and wife of Pittsburg were injured. The former having his hand smashed.

EIGHTY KILLED, HUNDREDS HURT AND BATTLESHIP DESTROYED IN DOCK AT TOULON BY EXPLOSION

Rear Admiral Injured and Captain Among Dead, Following Succession of Blasts Started by Bursting of Torpedo.

SAILORS CRAZED BY WOUNDS

Officers and Men Blown to Pieces and Asphyxiated by Powder Fumes on the Iena.

Toulon, France, March 12.—The powder magazine on board the French battleship Iena blew up this afternoon, resulting in the death of Capt. Adigard, her commander; Capt. Vernier, chief of staff of the Mediterranean squadron, and eighty bluejackets, and frightfully injuring Rear Admiral Manceron and hundreds of other men.

Naval circles are aghast at the catastrophe, and the public is stunned, coming as it does so soon after the loss of the French submarine boat Lutia, in which sixteen men perished.

Practically the entire afterpart of the Iena was blown to pieces. The bodies of the victims were hurled thru the air by a succession of explosions, and the panic-stricken workmen at the arsenal fled from the dock for their lives.

Scores of the men on board the Iena jumped either overboard or to the stone quays, and sustained serious injuries. The primary cause of the accident was the explosion of a torpedo. Why this instrument exploded is unknown, but the powder magazines of the Iena were set on fire and their contents, in exploding, ruined one of the finest vessels in the French navy.

The Iena had just undergone a final inspection of her hull and machinery. The latter had been completely overhauled, preparatory to her joining the squadron to-morrow.

The crew was at its full strength, being composed of the rear admiral, twenty-four other officers and 630 men. The magazine had been replenished recently and contained many tons of both smokeless and black powder, as well as a number of charges for torpedoes.

The crew of the Iena had just finished their midday meal, and had dispersed to various parts of the vessel. Most of the men were engaged in work connected with the approaching departure of the warship, but quite a large party had been detailed to attend a lecture which was being given forward.

Crew Dash About the Deck in Terror. The first detonation was extremely violent and shook the vessel fore and aft. It was followed by other shocks. The crew were thrown into a condition of panic. They rushed wildly hither and thither about the deck.

The men forward, who had been attending the lecture, clambered over the bulwarks and jumped down, some of them to the deck, and others to the stone quay. Many of these sustained fatal injuries.

The hundreds of men below deck were enshrouded in blinding smoke, and, while they groped their way toward the exits, suffocating fumes caused many of them to fall unconscious.

In the meantime, the explosions had become more frequent, and the entire afterpart of the Iena caught fire. Shells and charges in the magazines continued to burst and masses of metal were hurled into the air, to fall everywhere about the decks and the arsenal.

These flying missiles demolished the torpedo shed, the engine works and the pump-house nearby, and were a menace to the lives of those who made their way toward the ill-fated battleship to begin the work of rescue. Despite the danger, many heroic efforts were made to render assistance, but for the most part in vain. The Iena was aflame, which prevented approach.

It is declared that for 30 minutes the authorities were unable to discover the keys to open the locks with which to flood the drydock and submerge the ship; but, when they did finally open the locks, the water rushed onto the Iena and the explosions came to an end.

TORONTO WATER IMPURE.

Responsible for Nearly All Typhoid Cases—Council to be Memorialized

At the Young Men's Municipal Club last night Mr. Fellows, Toronto waterworks engineer, described the waterworks system of the City of Toronto since 1873 and gave a history of the methods of supply during that time.

It is claimed Mr. McFarlane orders his assistant to do mental work, and then makes fun of him. Part of the trouble is laid upon the fact that the assistant got his pay increased and the chief did not.

Dr. McPhedran, who was supported by Dr. Amyot, government bacteriologist, declared that Toronto water is just about as impure as any that could be found in public use on the continent, and that it was responsible for almost every case of typhoid fever in the city, that for its population the percentage of typhoid outbreaks was larger than any other in America, and at any cost, no matter how great a proper system of filtration of our domestic water, should be established.

A resolution was passed to enable the framing of a committee to memorialize the city council on the subject.

HAMILTON HAPPENINGS HAMILTON GOING TO HAVE TEN MORE CONSTABLES

Commissioners Will Meet To-Day to Make New Appointments to the City Force.

Hamilton, March 12.—(Special.)—The commissioners will appoint ten new constables at a meeting Wednesday morning at 11 o'clock.

In spite of the fact that there is a feeling that the present city hospital site is not fit for hospital purposes, it looks as if there would be large additions to it.

To-day the governors agreed to accept William Southern's offer, with reference to building a \$15,000 wing for incurable consumptives, and it is likely it will be located on the Webb property on Copeland-avenue.

The governors talked as to the new hospital would be erected on their grounds. The rates for patients outside the city were boosted all round by about \$2 a week over the charge made to citizens.

Chairman Billings reported that the cost supplied by civic fund committee was not altogether satisfactory, and the governors will buy from local merchants.

The date for the opening of the new wing could not be fixed on account of the fact that the operating room walls are being replastered.

It is believed that the Cataract Power Co. will give the city an up-to-date street railway service in the near future.

Would Widen "Devil" Strip. The ground upon which this belief is based is the application of the commission for permission to widen the "devil" strip all over the city.

That would mean new tracks and the reason given for the application is that the present tracks, according to the new Railway Act, must be wide enough to accommodate the present cars, and they could not pass on the present tracks.

The manager of the company, W. C. Hawkins, says the permission is sought not only because the company only has one set of tracks, but also because, as called for by the railway board, but to be ready for the future.

Morley E. Scheck, who pleaded guilty to stealing Hamilton and Dundas Railway tickets to the value of \$23.50, was sent down for a month by Judge Monckey Sawyer Gusterson, the alleged "film-farmer," was remanded for a week.

A special committee has been appointed to straighten out the trouble between James McFarlane, engineer at the Beach pump house, and his assistant, J. Bain.

It is claimed Mr. McFarlane orders his assistant to do mental work, and then makes fun of him. Part of the trouble is laid upon the fact that the assistant got his pay increased and the chief did not.

George and Mrs. Allan, Mrs. Sanderson and Victor G. Hutcheon, the Centenary Methodist Church quartet, have resigned.

John A. Hall and his sister left for Medicine Hat this morning.

A letter threatening the occupants of 23 Augusta-street with death is in the hands of the police.

At the meeting of the Knights of Sheerwood Press, Uniform Rank of A. F. WOMAN'S WORLD.

HOME ECONOMICS.

The regular monthly meeting of the Household Economics Association, held in the Normal School yesterday, was addressed by Mrs. Hoodless of Hamilton.

The highest family life, said Mrs. Hoodless, must precede the highest education. Have we evidence that the present system of education adopted in Canada is conducive to, or furthers, the higher type of moral training?

I have been repeatedly asked why I devote so much of my time to the discussion of matters of this nature, and why I do not leave such complex questions to those whose education is especially along this line.

Another question which we might well ask ourselves is, whether the wisdom of the present day and generation are living up to our opportunities in the best possible way.

IN SOCIETY.

Mrs. William M. Wallace, 58 Springburn-avenue, South Parkdale, will receive on Thursday, the 14th, and not again this season.

Mrs. Brownly has issued invitations to her many friends to a farewell tea, to be held in April for Paris and other cities on the continent.

Mrs. J. M. Godfrey, 95 Close-avenue, will not receive again this year.

Miss McMillan is giving a dance at Simpson Hall, on Wednesday evening.

April 3, under the patronage of Messrs. Charles Brooks, Walter Alfred E. Hunt, Harry Res, Edward T. Bee, Harry D. Kahle, John Howe, Henry H. McPhail.

A very pretty wedding was celebrated at the home of the bride's mother, 89 Rose-avenue, Monday afternoon at 3.30, by the Rev. Robert Hebbleton of St. Giles' Church, when Miss Grace Bryce was united in marriage to William Macmillan of the Gordon Mackay Co., in the presence of only of immediate relatives.

The bride was gowned in white silk crepe de chine, with Brussels lace and an embroidered tulle veil, under a coronet of orange blossoms. She carried a shower bouquet of lilies of the valley.

The bride wore a white silk, with handsome lace trimmings, and carried the bride's train. The bridesmaid, Miss Bevie Moore, was gowned in cream crepe de chine with lace trimmings. George Herbert was groomsmen. After a dainty wedding breakfast, Mrs. and Mrs. Oliver left on a wedding trip to eastern points.

Miss Edith MacArthur, who has been visiting Mrs. Farnes of Hunter-street, left for her home in London yesterday.

Mrs. J. K. McCutcheon, 86 Lowther-avenue, will not receive on Friday next, but will receive for the last time on the following Friday.

Mrs. W. P. MacDougall, 225 Cottingham-street, will receive on Friday, and afterwards on the first and third Fridays of every month.

A household fair will be held at the home of Mrs. Charles Worden Dunning, 158 (78) Brunsvick-avenue, will not receive on Friday, March 15.

Monday night the Imperial Order of the Daughters of the Empire held a general meeting in St. George's Hall, at which pretty frocks, charming ladies' military uniforms, music and refreshments played an important part.

Centred in this program of social gaiety and charming splendor was an address by T. E. Moberly, upon 'The Importance of the Navy to Canada.' He displayed a number of maps of the world, showing the enormous possessions of the British empire, and the trades routes thru the ocean.

Mr. Moberly said it was an erroneous idea to look on the waters of the world as great barriers, they were the greatest of the world's commercial highways.

The tremendous value of the traffic over these ocean highways made naval protection necessary, and it was not reasonable or flattering to the British Empire to have the city of 'Jingo' or 'militarism,' when the question of arranging for adequate protection was raised.

There will be practical demonstrations in the art of cooking by the staff and students of the Lillian Masey school of Domestic Science at the pure Food Show. There will be a demonstration every day, alternating on the afternoon of one day and in the evening of the next. This will prove very interesting features of the show, and the demonstrations will doubtless be attended by a large number of housekeepers who are desirous of securing new ideas.

Struck Old Oil Tank. A warehouse is being erected by the Canada Cloak Co. on the foundations of the old Reform Club, Wellington-street, which in former years had been the Manning residence and originally the Boulton Club. In excavation workmen came across strong indications of petroleum and afterwards the crude oil itself. Crumbling bricks revealed the outlines of an old tank, which a long time ago was evidently used for the purpose of storing it.

Sleeping Cars for the East. The Canadian Pacific Railway attaches through palace sleepers, berths a little higher than usual, usually, for Ottawa and Montreal, to the 10 p. m. train from Toronto every night. Montreal is reached at 7.30 a.m., Ottawa at 8.25 a.m., but passengers for the latter city may remain in their berths until 8 o'clock. Reserve berths early at C. P. R. city ticket office, Place Main 142.

BUCHANAN'S WIFE

HERBERT BUCHANAN. "It has just occurred to me," said the 5 o'clock train. I don't see— He should be here now. She turned her head once more towards the air-bordered drive, and the shadows beneath her eyes seemed to deepen and darken until there were dark circles there.

"I dare say the train is a bit late," said Arabella Crowley. "It often is. Besides, he has heaps of time before dinner—three hours." She laughed gently. "Dinner is the sole matter of any great importance," she said. "If you arrive anywhere in time for dinner, all is well. If you don't, you might better have stopped away. Wait until you are told that he is dead, and you will wake up each morning hankering God for another day with dinner in it."

"That might well depend upon the inner, I should think," submitted Stamboloff. "I am appalled at the thought of what tragedy a life like yours might contain."

"I never go anywhere," insisted Mrs. Crowley, "where I'm not sure about dinner. I am too old to be foolhardy."

Beatrice Buchanan gave a little, almost-smile—but those eyes of hers were moved after her, slipping her hand into the elder woman's, and she opened languidly, and the air-bordered drive.

"I suppose that might be twisted into a sort of compliment to my over-keeping," she said, "or at least my cook. Thank you, Aunt Arabella. She turned away with a quick sigh. "I expect I must go in to the others," she said. "They'll think I'm not civil." And as she went towards the window, little Miss Trevor, who had been sitting quite silent, sulking, as it were, over old Arabella's reproof of a few moments before, moved after her, slipping her hand into the elder woman's, and she opened languidly, and the air-bordered drive.

"Stamboloff," she said, "you are a man of sorrows, and I can't tell you a great deal. Tell me, she waved a hand towards the open window—"can sorrow do all that?" The Russian's mouth fell open, and he seemed and hollowed by grief, twisted into a wry smile.

"You are pleased to be cryptic, dear lady," said he. "Can sorrow do what?"

"But old Arabella's methods were different," she said, rudely. "You know quite well what I mean. Don't beat about the bush, Stamboloff. You know I had it. I know old people cannot speak frankly together, who can't I mean Beatrice Buchanan and the amazing change that has come over her these past two years—since her marriage, in fact. You see what she is now. Well, as girl, two years ago, she was something so amazingly different that I cannot express it at all."

"She can hardly have been more beautiful than that time," said Arabella. "She is to-day almost as beautiful as a woman can be."

"No, no!" said Mrs. Crowley. "She was not so beautiful. She was just an ordinary, thoroughly commonplace girl of good birth and breeding and position. She looked like a young girl, and she was very interesting in every way. I suppose they were less pleasing to the eye than that Russian girl was. The Blessed Damozel, or whoever it is, leaning over the gold bar of heaven (why do they have gold bars in heaven?) said that Rose was a thing. The Blessed Damozel, or whoever it is, leaning over the gold bar of heaven (why do they have gold bars in heaven?) said that Rose was a thing. The Blessed Damozel, or whoever it is, leaning over the gold bar of heaven (why do they have gold bars in heaven?) said that Rose was a thing."

"The Russian nodded his head slowly, and that still face of his softened again for a moment, as it had done before.

"Sorrow and one other thing, dear lady," said he. "Old Arabella drew a quick sigh. "Yes," she said. "I expect it was that all the time, but I wanted you to say it. This Harry Faring who is to come here to-day, I am afraid she has been in love with him almost all the two years of her marriage. I had heard of it when she married. It was nothing at all serious, I fancy, not with Beatrice, anyhow—but Harry had been away in Africa for a year or more when she married. Why he should have been asked here this week I cannot think. It seems to me most rash. Beatrice is much too nervous to run risks, and she's desperately unhappy, poor child! I'm fond of Harry Faring, but I wish he were not coming here just now. Where was I? Oh yes! I was just saying that Harry was away in Africa exploring something when she married."

"And then?" said the Russian, when Mrs. Crowley paused. "Then?"

"Why, then," said Arabella, "when she married and found what a brute Buchanan was, I expect she turned back upon her old affair with Faring and began to idealize that, and to paint it up in pretty mother-of-pearl rainbow colors. That would be like a woman."

Old Arabella shook her wise, white head. "It's a bit of a shock, Stamboloff," she said. "This plunging into marriage. It's a bit of a shock to a young girl, especially when the plunge must be made with a man for whom the girl has never felt the slightest spur of passion. She has been—unless she's one of these uttermost, neurotic young creatures who know about everything long before they experience it—she's been a child, practically, an ignorant child. She has at once she's made a woman. Oh, it's no light thing! Think of her rage and resentment and despair when she finds out what she has done! Think of her when she has married the other man, the one she did care for! When I think of all that, I am amazed at the amount of patient, long-suffering virtue I see about me. It is wonderful."

"You put me in mind," said the Russian, "of a story I read a long time ago—a French story. I have forgotten who wrote it. It may have been a great man. I have no memory. The story was about a man who married a girl practically from the convent, but, oddly enough, he happened to have fallen in love with her before the marriage. More oddly still, he was very wise, and he realized the truth of what you have just been saying, and he made an experiment—I might explain that he was no longer very young. A young man could not have done the thing. On the wedding-night he handed his bride to the door of her chamber, and kissed her fingers. He did not even kiss her cheek. He pointed out to her that the door could be bolted from the inside, and bade her good-night. She seemed a bit surprised and more than a bit relieved. Then this man set in, day by day, to make his wife fall in love with him, and he had had long experience to teach him how. He brought her flowers each morning, he rode with her, he flirted with her. He made love to her—but not too much. And every night he kissed her fingers at the door of her chamber and bade her good-night. Eh, he was wise!"

"Well?" demanded Arabella. Crowley, sitting up. "Well? Get on! How did it end?"

M. Stamboloff emitted a little, gentle laugh. "After about a fortnight of this," he said, "the bride knocked on her husband's door with a hair-brush one night and said she was afraid."

"To be Continued."

DR. WOOD'S NORWAY PINE SYRUP. Always Stops the Cough. It combines the potent healing virtues of the pine tree with other absorbent, expectorant and soothing ingredients of recognized worth, is absolutely harmless, prompt and safe.

A cough is caused by the presence of phlegm in the throat and lungs, and continued coughing is liable to distend the bronchial tubes, congest the lungs and produce inflammation or hemorrhage.

A neglected cough can have but one result. It leaves either the throat or lungs, or both, affected.

A single dose of Dr. Wood's Norway Pine Syrup will stop the cough, soothe the throat and heal the lungs.

WORLD PATTERN DEPARTMENT

2350 No. 2350.—A NOVEL WAIST DESIGN.

Blouses are so important and so much worn that the usual designs are tame and over abundant. Anything novel in a waist is always welcomed, and the sketch may offer some suggestions for practical use. The blouse closes in back, the front panel being formed by two box pleats and a plain center portion. Narrow tucks extend to the sleeve and appear again in back with a box pleat at each side. The trimming of such a waist often individualizes it, and here is opportunity for clever arrangement. A cloth, woaded or silk would be suitable material, of which 3 yards 32 inches wide are needed for the medium size.

No. 2350.—Sizes, 32 to 42 inches bust measure.

CASIMIR PERIER, FORMER FRENCH PRESIDENT, DEAD

In Deference to His Expressed Wish, Family Vetoes Cabinet's Plan for National Funeral.

Paris, March 12.—M. Casimir-Perier, former president of France, died suddenly at 11 o'clock last night of embolism of the heart, at his residence in the Rue Nitot. The news was not published until this morning.

The former president had not been well for two or three days, but it is supposed he was suffering from influenza. He was not even confined to bed, but dined and worked with his family on Sunday and was in good spirits.

Brother of Oil Magnate Testifies He Paid \$200,000 for a "Great Crystal Palace."

St. Louis, March 12.—Frank Rockefeller of Cleveland, Ohio, brother of John D. Rockefeller, testified today in his suit against Henry Goss for the restitution of \$285,000 spent by Rockefeller for a zinc mine in Southwest Missouri.

Mr. Rockefeller said he inspected the mine previous to buying it. "I went down in a shaft," he said, "and my attention was constantly called to bodies of ore. In the centre room of the mine was a pillar, which appeared to be practically solid zinc ore."

There is an interesting resume of the signing of a baseball player.

Turner, shortstop of the Cleveland team, refused an offer of President Killebrew of a three-year contract at \$10,000 for that period. Turner held out until yesterday, signing a contract for about \$8,000 for the season. Turner went to Cleveland from Columbus for \$2,000 a year. In 1905 he was ill considerable of the time, and in the spring of 1906 he found his salary cut to \$400. He never said anything, and bled his time. He played great ball in 1906 and made up his mind to get the money this year. When Killebrew offered him \$8,000 he rebelled, and when the \$10,000 proposition came he refused it. He wanted the "cotton top" demanded \$4,500, but finally agreed to \$8,000.

One of the features of the New York Americans practice at Atlanta the other day was several important signings, in which Jim McGuire, the old Toronto veteran backstop, figured.

McGuire was first picked against the old man. McGuire started from first and Hoffman from left. As soon as the ball was pitched, Hoffman bunted it. McGuire dug out for dear life around the bases, with Danny Inhofe's grand slam. Hoffman's bunt was for fear he could not overtake the veteran. A half-hour later Keeler essayed to take McGuire's measure under the same conditions, and the veteran again won. Then, when Griffith challenged Mac, thinking the latter was all in, Jim took a nap. This was a close race. McGuire was pretty well used up by his previous efforts, but nevertheless he beat his manager to the plate by several yards.

The case of First-Baseman Hal Chase, who balks at signing a \$5,000 contract, has been a source of sympathy for the American Club.

The fact that Chase has not yet signed a \$5,000 contract over last year's salary has made numerous fans express the opinion that he has been fairly treated and that if he does not accede to the club's offer at a time when his services are needed he will be guilty of the greatest ingratitude. But reports from Atlanta would indicate that in case of a further hold-up by Chase his place will be filled accordingly by George Van Haltren, a well-known judge of ball players, has steadfastly maintained that Morarty possesses the ability to become one of the best first-basemen in the country, and Barrow does not stand alone in this belief.

Do it Now! Don't Wait Until It's Too Late!

KEEP your body clean! Most people are very neat and clean in their outward appearance, but how about the inside?

Are you clean inside? And if not, how can you face the world with clean thoughts, clear intelligence, a fair, just, bright mind and get your full share of capacity for work and enjoyment?

Neglect of exercise, rigid over-feeding and carelessness about stools, often leave the delicate internal mechanism in a nasty mess.

The small intestine is compelled to absorb the poison of decaying matter instead of wholesome nourishment.

The liver gets inactive; the bile doesn't "work off"; the eyes get yellow; the skin gets dead like putty and pale like dough, distorted with boils, pimples, blackheads and liver-spots.

There's only one solution to the problem: Keep clean inside all the time. That's the answer.

If you can not diet, or keep your mechanism going by proper exercise, take Cascarets, the sweet, fragrant, harmless little vegetable tablets, that "act like exercise" on your bowels, and gently but powerfully clean out and disinfect the whole digestive canal.

A Cascaret every night before going to bed will "work while you sleep" and make you "feel fine in the morning."

If you have been neglecting yourself for some time, take a Cascaret night and morning and break up the "constipated habit" without acquiring a "cathartic habit."

Cascarets are sold by all druggists, 10c, 25c and 50c. The 10c size trial box is a neat fit for the pocket or lady's purse.

Be sure to get the genuine with the "COC" on each tablet. They are never sold in bulk.

MINING TAX 3 PER CENT. ON PROFITS OVER \$10,000

Sliding Scale Abandoned—Tax on Natural Gas Precipitates Public Ownership Debate.

In the legislature yesterday the Mining Tax Bill passed committee, the figures of the tax being announced at three per cent, upon all profits over \$10,000 and two cents per acre for acreage tax.

At the evening session the government's proposition to place a tax of \$2 on every million feet of natural gas produced, brought on a keen debate.

The opposition maintained that municipal ownership was attacked in the measure, and a sharp tilt between the premier and opposition leader was a feature.

In the afternoon D. J. McDougall endeavored to extract from the government a declaration as to whether the mines as the Right-of-Way, which pays 25 per cent. of the output for a royalty, should have that amount exempted from the profit upon which the tax was to be levied.

Hon. Mr. Cochrane held that the 25 per cent. royalty was part of the cost of sale, and Premier Whitney, using the argument reductio ad absurdum, in reply to the contention that these royalty-paying mines should be exempt because held by deed from the government, pointed out that all land came from the government by deed.

The clauses dealing with the appointment of a mining assessor went through without opposition, but the minister of mines remarked that the proposal would have to seek the assent of the legislature.

An amendment was adopted to clause 13 providing that any statement made by a mining company as to profits would be taken as prima facie evidence. Instead of leaving it to the discretion of the mine assessor to make an investigation, such action will only be taken upon the order of the minister of mines himself.

The Natural Gas. Mr. Preston (Brent) opened the evening discussion by giving the opinion that natural gas should be in the same category as coal, and that as taxation went. It provided the people with fuel cheaper than coal oil.

Mr. Preston as a member of the late government's committee on taxation, Mr. Whitney reasserted the vote given by Mr. Preston as a member of the late government's committee on taxation.

Hon. Mr. Beak charged the opposition with having adopted a new set of principles from those that ruled when the government proposed a tax on power developed at Niagara Falls, resulting in the consumer having to pay the tax.

Mr. McKay announced himself as favoring the principle of encouraging municipal ownership of gas wells. Mr. Hicourt, who predicted that before the end of the year number of other municipalities would be applying the principle to their heating and lighting.

Mr. Reed (Wentworth) deprecated the possibility of a measure that would tend to increase the cost of gas to the consumer.

The Only Way. Hon. Mr. Matheson declared that it was impossible to put an export tax on gas, and the only way in which anything could be done toward encouraging the use of the output in Ontario, and stop the export was a tax along the lines proposed.

TANNERS' COMBINE ATTACK WINDS UP TARIFF DEBATE

Small Dealers and Their Difficulties—Provincial Bonds Discriminated Against.

Ottawa, March 12.—(Special.)—Upon motion to-day to go into committee of ways and means, Armand Lavergne asked the minister of the interior if it was true that a bonus of 10 shillings would be paid to bookkeepers for immigrants from Europe.

Mr. Wilson (Lennox and Addington) thought it unfair that small tanners should have been added after the tariff had been brought down. Was it fair to merchants who had ordered goods in a general way?

Mr. Borden replied that the statutes didn't say anything about "small tanners." What the statute said was that when the governor-in-council had "reason to believe" that a combination existed, etc., the governor-in-council may empower a judge to enquire, etc.

EASTERN TOWNS SUFFER BY RAILWAY'S NEGLIGENCE

Inferior Service and Poor Rolling Stock Furnished to Localities Along the Lake—G. T. R. Refused to Aid in Relieving Coal Famine Until Ordered by Commission.

Oshawa, March 12.—(By World's Special Commissioner.)—The World man today interviewed a number of the leading manufacturers and merchants of Oshawa and they are unanimous that the railway passenger rate discrimination in favor of towns west of Toronto was attributable principally to the fact that no competition exists here with the Grand Trunk Railway, and not because the traffic is lighter as compared with Western Ontario.

All the people want is equality. This they do not get. The railway may argue that the people of this and surrounding constituencies have a lower rate than the people of Western Ontario. True, this is the fact. But what class of rolling stock is used in the disposal of those traveling second rate? Cars that the immigrant going west would hesitate to enter.

The cars coming east from Toronto are in a fairly clean condition, because they are swept and washed in the yards there," said a prominent merchant, "but cars arriving at this town from the east are filthy. I have a branch of my business in Newmarket and usually, when the cars are decent, travel second fare. On one occasion which I distinctly recall I peeped into the car that was supposed to ride in and saw such a filthy, disgusting sight that I told the conductor he would have to replace the car if he wanted my ticket, refused to travel in it. It wasn't fit for a hog."

It is no enviable reputation, therefore, that the Grand Trunk Railway is gaining here thru its neglect to meet the public needs.

Council Starts Crusade. The town council has opened a crusade against the railway which is not to be an ephemeral one. The public are going into the battle to win.

The Grand Trunk management have not been awake to the requirements of the country. They are falling back rather than progressing. They are at least two years behind the growth of the country. They pay too much attention to many things and overlook their rolling stock," declared the president of the board of trade, Samuel McLaughlin.

"In November we shipped a couple of cars of sleighs to Montreal for our retail branch there. These sleighs were sideloaded so as to rush English freight thru to catch the last steamer leaving that port for the season. Snow fell and our sleighs remained on the siding at Point St. Charles, where they were left under the block, which was right under the eye of the head authorities—yes, the general manager, and our headquarters of the Dominion, those who required new sleighs had walked across the street and brought what they required for the public. The lighting scarcely allows one to recognize the people sitting on the opposite side of the west-bound room, and if a motorist struck the lamp, which is one that our fire-fighters would not be guilty of burning, as entirely out of place."

"The railway station is a menace to the public. The lighting scarcely allows one to recognize the people sitting on the opposite side of the west-bound room, and if a motorist struck the lamp, which is one that our fire-fighters would not be guilty of burning, as entirely out of place."

"Read" queried the mayor sarcastically. "Why, one can hardly parse his way out of a room without form, let alone the station and the railway commission authorized better fighting facilities at this station."

"The railway commission authorized better fighting facilities at this station. It was undoubtedly required, but now want the municipality to stand the cost of that lighting, which we refuse to do. The lighting is not in the town. If the lighting added our people in any way, whilst engaged in matters concerning town business, we would not hesitate to stand the cost of lighting, but as the people who go down that way practically all have a car, and are to be expected to have a car, and are to pay a higher fare than others, it is only natural that the railway should protect them by property lighting the treacherous surroundings. The sanitary conditions of the station threaten the public health of Oshawa."

"Are you satisfied with the timetable that the railway gives?" "There is not a fast train passing thru this station stops. All the limited fly thru as if this town were a burnt stump. We have a population of 6000, and yet we do not enjoy the speed of riding on fast trains that many of those who are at the mercy of the railway have missions equally imperative to those of larger centres. Oshawa is the 'Manchester of Canada,' and in proportion has more industrial employees on its pay rolls than any other town in the province. Our leading manufacturers have been reticent to take efficient steps, because they fear that the Grand Trunk will retaliate; thus they have to remain quiet and 'grin and bear.' I have made up my mind, however," he continued, determinedly, "that so long as I am mayor, I shall do my utmost to relieve the people of Oshawa of these gross impositions. The World is on the right track; push ahead the good work you are carrying on the Town of Oshawa to co-operate with you in every way," was the mayor's answer.

Such is the history of affairs that the Town of Oshawa has had to battle with. The town council has as its chief purpose the abatement of the existing conditions.

ARCHBISHOP'S MOVEMENTS.

Program of Services to Be Attended During Next Few Weeks.

His Grace Archbishop Sweatman has issued a circular letter to all the Anglican clergy of the Diocese of Toronto, enclosing a list of the confirmation and other services which will be called to attend this spring. The list is as follows:

March 23, Saturday, Port Hope, Trinity College School; March 24, Sunday, Port Hope, St. John's Church; March 25, Tuesday, Toronto, Church of Redeemer; March 27, Wednesday, Toronto, St. Thomas and St. Matthew's Church; April 7, Sunday, Toronto, St. Luke's Church; April 9 to 12, Hamilton board of management; M.E.C. on Friday, Sunday, Toronto, St. Matthew's Church; April 17, Wednesday, Oshawa, St. George's Church; April 18, Thursday, Bowmanville, St. John's Church; April 19, Friday, Coburne, Trinity Church; April 23, Tuesday, Ingleton, St. George's Church; April 24, Wednesday, Toronto, Church of Ascension; April 25, Friday, Weston, St. John's Church; April 28, Sunday, Toronto, St. Peter's Church; May 12, Sunday, Toronto, St. Mark's Cathedral, Toronto, Church Sabbath School Association.

The city engineer reported to the fire and light committee yesterday that it would be quite feasible and advisable to have electric gas as well as other wires placed underground, but that it was doubtful whether the company could be compelled to make the change.

Assistant Engineer Fellows and Fire Chief Thompson will report.

Weston Wright backed up the petition that the Bloor and Spadina streets, should be created a brick fire limit, and thereby opened up a discussion on whether or not the city was not going in for a policy of too much extension of such limits. Mr. Wright said a good class of brick houses had been erected, and the prospect of a speculator building a number of cheap, roughcast dwellings had spread dismay. Chief Thompson was against the principle of creating brick limits for small sections, but the city engineer, Mr. Hales and Weston Wright were in favor of it.

The establishing of a fireproof limit in the central portion of the city was not favored because the probable result would be that old buildings would be torn down.

The technical school will not be built on the Bloor-street site, the board of education has decided. The decision of Chief Justice Mulock, refusing to allow the original bylaw to be repealed concerning the opening up of a street on the Bloor-street site.

Dr. Sheard will report on Dr. John Noble's complaint that there was no accommodation in the hospitals for consumptive patients.

Inspector Hughes' recommendation that a juvenile court be established was turned over to the property commissioner.

A trestle bridge over the railway tracks at Dufferin-street, may be too expensive means of safety for the inhibition visitors, the city engineer reports.

A block of land on the southeast corner of Gerrard-street and Jones-avenue, owned by the city and assessed at \$2,000, has been sold for \$24,000.

The city engineer is against the assessment commissioner's proposition for a line of groynes along the shore, west of Indian-road, while to build a breakwater south of the property in Ashbridge-maree, and to extend to the King Raditor Co., would cost \$64,000 for concrete, or \$50,000 for a wooden crib.

Stone in Kidneys Excruciating Pains Lasting Cure Was Effected Six Years Ago by the Use of Dr. Chase's Kidney-Liver Pills.

The passing of stones or gravel, as the uric acid formation is called, from the kidneys through the ureters to the bladder probably produces the most terrible pain that a human being was ever called upon to bear.

Mrs. Walter Hornbrook, Cody's, Queen's County, "I was a great sufferer from kidney disease, which the doctor described as the uric acid stones passing from the kidneys to the bladder. I was using similar cases being cured by Dr. Chase's Kidney-Liver Pills and sent for some. Altogether I used seven boxes and was completely cured. That was six years ago, and I have never had a pain in my kidneys since. We are never without Dr. Chase's Kidney-Liver Pills in the house."

There could scarcely be a more severe test for a prescription for the kidneys, and when Dr. Chase's Kidney-Liver Pills prove successful in such cases as this they can surely be depended upon for the relief of the most distressing ailments. DOWIE'S FUNERAL RITES FORMALLY CELEBRATED

Deacon and His Six Assistants Hold Services Such as Dead Leader Used for Daughter.

Chicago, March 12.—Funeral services were held last night for John Alexander Dowie, by the few persons who have stood by him in his troubles.

Refusing to accept conciliatory measures offered by Gladstone Dowie, in the form of a share in the last rites over his father's body, Deacon J. W. Currier and his six assistant deacons, chosen by Dowie as the ecclesiastical rulers of his church in Zion City, held formal services which, they said, were the only possible ceremonies under the Christian Catholic Apostolic Church in Zion.

The services were modeled after those conducted by Dowie at the grave of his daughter, Esther, including the singing of the psalm, Deacon J. W. Currier and his six assistant deacons, chosen by Dowie as the ecclesiastical rulers of his church in Zion City, held formal services which, they said, were the only possible ceremonies under the Christian Catholic Apostolic Church in Zion.

The meeting closed with declarations from every one present that they would remain in the present body until Dowie's will reveals whom he chose as his successor. Then they will look to his support. Many expressed the belief that this will be Overseer Bryant, now in South Africa.

Arrangements for the formal services of Thursday continue to show a conciliatory desire to unite all factions.

Overseer W. H. Piper, head of the faction in Chicago that revolted from Dowie after his victory, has been asked to sit upon the abutment platform with Deacon Speaker, head of the Chicago party remaining true to Dowie. The eulogy will be delivered by Judge V. V. Barnes of the Voliva faction.

The funeral promises to be spectacular. A large white hearse will be brought from Kenosha, the coffin will be white, and the hearse will be drawn by white horses. The coffin will be sealed hermetically and buried in a stone vault.

EMMA GOLDMAN TO-NIGHT. "Queen of the Reds" Will Address a Meeting in Labor Temple.

Emma Goldman, who is known as a real and very enthusiastic anarchist, will arrive in the city this evening, and at 8 o'clock will speak in Labor Temple on "Discontentment of Anarchism." She will also speak there tomorrow and Friday nights.

She was to have addressed a meeting in Toledo, Ohio, on Monday, but Mayor Brand Whitlock gave orders that she should not.

"I had heard that Brand Whitlock was one of the great advanced mayors in the United States," said Miss Goldman, "but his actions disprove this. He is not nearly as up-to-date as Mayor Johnson of Cleveland, who never interferes with me when I speak in Cleveland."

She was entertained instead at the residence of Congressman Isaac R. Sherwood, where she spoke informally to about thirty people.

Archdeacon Mackay of the Diocese of Saskatchewan left the city yesterday for Toronto. He has been in the city several weeks.

HACKMEN CAN CHARGE MORE. Police Commissioners Allow New Schedule—One Loses His License.

Toronto hackmen fared well before the police commissioners yesterday. Hereafter, they can charge an extra 10 cents per person after 6 o'clock at night for single trips. The rate for double hacks was also raised to \$1 per person after the first hour. Motor vehicles will charge \$3 per hour for three persons, and \$1 for extra.

A deputation from the bowling clubs of the city asked that the hours of closing be prolonged an hour until 12 o'clock. League games and tournaments could not be finished at the early hour. The commissioners will allow late closing on a police permit when tournaments, etc., are in progress.

The license of a cabman was taken from him for overcharging customers. A couple of convictions are already against him, and the commissioners had several complaints of his conduct to parties he had driven to the Union depot.

It was reported to the commissioners that a policeman was seen in a compromising attitude with a woman at an early hour one Sunday morning. While the board thought he was foolish they did not think that the charge had been proved.

F. MacDonald resigned yesterday to go into business for himself in the west.

Hits Police Inspector. David Eastman, 284 Sherbourne-street, accused of assaulting P. C. Inspector Grackin at the fire last Saturday afternoon, was remanded until called on by Magistrate Kingsford on Monday. Witnesses stated that Eastman and Grackin had been used roughly by the police in maintaining the cordon.

HOME CIRCLES GROWTH.

Supreme Officers in Session—Fraternal Societies' Rates.

The Supreme Circle of the Order of Canadian Home Circles convened in Victoria Hall yesterday with Wm. Stark, supreme leader, presiding, and 249 members present. A motion was passed after smart opposition to increase the per diem of the attendance from \$2 to \$3 per day.

The report of the supreme leader, notwithstanding the general unrest in insurance circles, and reminded the order that the occasional extra assessments (three last year) saves the order from an increase of rates.

A motion to make Toronto the fixed place of meeting for the supreme circle was voted down.

In a discussion over the danger of "minimum rates" being imposed upon fraternal orders by the legislature, it was stated by W. A. Dowler, supreme leader, that such a proposition was not authorized or inspired by the fraternal association in any way; that the very next day a vigorous protest signed by the supreme officers was presented, and the assurance is given that the present government has no intention of committing itself to increased insurance rates for the fraternities.

The secretary's report showed receipts of \$26,402, and expenditures \$24,569, with 15 new circles organized. The sick benefit fund has a surplus of \$212, and the beneficiary fund \$58,889. The expectancy fund balance increased during 1906 to \$264,830.44. Since 1885 the order has grown from 87 members to 18,600, carrying \$5,500,000 insurance.

During the evening the supreme circle was visited by Ald. Graham, chairman of the reception committee of the city council, who was introduced by Past Supreme Leader Rev. E. E. Stevenson and Supreme Solicitor W. A. Dowler. Ald. Graham extended the greetings of the city council, congratulating them on its history and work; it had been the first of the beneficiary orders to admit ladies to full membership, which he approved, as he was a strong believer in women's rights and in the extension of the franchise.

A motion was passed to appoint a committee to consider the work of extending the order, in the west particularly. The following were appointed: Treasurer Somerville, P. E. Raines, Rev. E. E. Stevenson, W. G. Maybee (Winnipeg), and P. M. Pattison.

MOTHER'S GRATITUDE TO ZAM-BUK.

It Cured Her Boy of Painful Sores.

Nothing is more unpleasant to the eye and more painful to the sufferer than boils and ulcers. At this period of the year many adults suffer acutely from these painful outbreaks. When boils, ulcers, etc. occur on children, it is pitiful to see the little ones suffer.

Mrs. E. Holmes, of 30 Guise-street, Hamilton, is grateful for what Zam-Buk did for her little boy when in this pitiful plight. She says: "I wish to express my gratitude for the benefit my child received from your famous Zam-Buk Balm. He suffered from spring eruptions and then boils broke out on his neck. I tried blood purifying remedies, salves and ointments of all kinds, but nothing seemed to do him the desired good. The boils got worse and became so bothersome and unsightly that I could not send him to school, as some of the boils and ulcers could not conveniently be covered. About this time a sample box of Zam-Buk was given to him and we tried it. The small sample did him a little good, so I bought a 50-cent box. The result was really amazing. Inside a week's time the boils had begun to dry up, and in a very short time indeed every one of them was healed."

Zam-Buk is a sure cure also for eczema, scap sores, ringworm, poisoned wounds, chronic ulcers, chapped hands, cuts, and cracks, festering sores, eruptions and pustules, due to blood poison, etc. It stops bleeding and cures piles; it is used to a street car conductor, who later died from injuries sustained in an accident. Manager Fleming had offered \$10. Judge Morson ruled the doctor should have got further authority before proceeding with the case.

GENERAL WORRIED ODESSA. Transferred Because Would Be Assassinated Killed So Many Citizens.

Odesa, March 12.—It developed today that the recent transfer of Gen. Neplueff, commander of the fortress at Sevastopol, was due to the inhabitants of that city, who sent a petition, as their nerves were becoming shattered through the danger which they incurred whenever the commandant appeared in public.

THE SIMPSON COMPANY, LIMITED

A Great Sale of Footwear

Boots, Oxfords and Rubbers for Men, Women, Boys and Girls, selling with Dollars Saved.

WE HAVE PURCHASED from the J. D. KING COMPANY an immense quantity of Boots and Shoes at reductions so great as to give us room for profit on one of the biggest sales of footwear and some of the biggest reductions in prices we have ever undertaken.

The temporary embarrassment of the well-known manufacturers who made these goods—the J. D. King Company—reflects in no way whatever on the quality and high standing of their make of shoes.

In the meantime our customers will reap the benefit of this series of extraordinary prices in return for that more than ever valuable commodity at a time like this: Ready money.
