I lighted a 10 cent La Fortuna cigar at 7.31 p.m., and kept it burning continuously until 9.17½ p.m., being 106½ minutes, beating the Picton man's ton man's by 12 minutes."

Let us get it into our heads that Ontario needs drainage and good roads more than anything else if she is to be great and her people happy. The struggle against nature is our problem. We have contented our-selves by slipping by it instead of facing it. Yes, nature is severe in these parts, whether it be rain or winter snow or shine. Drainage of the farm lands and drainage of the roads mean paralysis. But there is something more : if our

National League Saturday. At Philadelphia-New York made a clean sweep of the series with Philadel-phia, winning the third straight game, 9 to 4. Batteries-Maroney, Humphries and Driving Park Saturday afternoon This, winning the third straight games is to 4. Batteries-Maroney, Humphries and Moren, and Cheek and Dooin; Marquard, Crandall, Wilson and Meyers. Umpires-fowells held the Chicagos to two hits and shut them out 1 to 0. Only two Chicago men reached third base. Brown was freely hit, but fine support saved him. Flynn kept up his good work, begun last Thursday, by batting in the only run of the game. Batteries-fowell and Ghoson. Brown and Needham. Umpires-Klem and Kane. Flynn had two two-base hits.
At Clincianati-Three Cincinnati errors counted for as many St. Louis runs to day. Harmon held the locals safe at all times. Huggins' howen, Gaspar, Clarke and McLean. Umpires-Gibn's how and Bernenan. At Boston-A batting rally in the nintings gave the Brooklyn Nationals a victory over Boston by 4 to 2. Batteries-Barger and Bergen. Curtis, Burke and Smith. Umpires-Rigler and Emsile.

### BRITISH POLITICS.

When the budget bill passed its third reading in the British House of trials. ons by a majority of 93, was forthwith transferred to the waiting second chamber and immediately read a first time, Mr. Asquith, unemotional as he is reputed to be, must have expressed an unusual feeling of satisfaction. It meant a straight win out for the Liberal fiscal policy and raises the government to a position unoccupled since the general election. The Conservative majority in the house of

Prangley v. Strathroy.-J. C. Judd, K.C., for petilioner. T. G. Meredith, K.C., for respondent. This was an application by plaintiff to quash Bylaw No. 642 of the corporation of Stratbroy, being a bylaw to prohibit the sale by retail of spirituous, fermented or other manufactured liquors in Strath-roy. The vote was 477 for and 309 against, which on scrutiny before the county judge was changed to 471 for and 310 against. Petitioner now sought to strike off ten more votes. OTTAWA, May 1.--(Special.)-The commons met on Saturday and put hru a mass of government business and estimates, the main militia and marine and fisheries items forming the ulk. The house was sparsely attend-

built. The house was sparsely attend-ed. Hon. Mr. Templeman, on the vote of \$74,000 for the operating expenses of the experiments with peat as a fuel and gas producer, said that about a thousand tons of peat had been prepar-ed during this month at Alfred, Ont., A sixty horsepower engine has been installed at Ottawa, and it is proposed to show the value of peat as a producer of power. The department of mines, thru Dr. Haanel, is prepared to de-monstrate that peat will make gas and produce power as cheaply as water-power. It is also stated that peat can be used for gas producer engines at less expense than coal. Records have been made of over a hundred peat bogs in Ontario and Quebec, and it is known that there are some valuable bogs in Manitoba.

Late in the evening, when militia es-timates were under consideration, Sir Frederick Borden explained that is addition to the 700 old style Ross rifles addition to the 700 old style Ross rifles which have been converted into the latest patterns, mark two, double star, at an extra cost of twelve dollars per rifle, one thousand new rifles of the latest design have been ordered. There was practically no difference in the rifles except that mark two, double star, had a longer barrel and weighed about a pound more. Sir Frederick said that the company claimed that the government should pay a higher price for the long barreled arm, but this was disputed by the department. He in-timated that the maiter would be arbi-trated by a board of experts, provision for which is made under the terms of the contract.

A motion to quash Bylaw No. 483, passed on 14th March, 1910, to prohibit the sale by retail of spirituous, fermented or other manufactured liquors, in the Town of Renfrew, on several grounds. The total vote cast was 600; of these, 370 voted for the bylaw and 388 against. On a scrutiny before the county judge, twelve of the votes in favor of the bylaw were struck off, leaving the vote 368 for and 233 against the bylaw. Petitioners now attack 18 more votes as irregularly cast. Reserved.

Sir Frederick said, that if it were Sir Frederick said, that if it were shown at any time that Great Britain possessed an arm superior to the Ross rifie, the government could call upon the company, under the terms of its contract, to manufacture that arm. Several of the military members of the house urged a more generous scale of pay for volunteers in camp, and Major Sharpe suggested that the cost of the keep of the headquarters staff might be cut down and the money given to the militia.

given to the militia. The minister did not think the head-quarters staff was over paid, providing the work was being well done. He said

last modification of the tariff move-ment looks to placing British grown wheat on the free list while imposing a tax on imported flour, and it re-mains to be seen what effect this will have in the agricultural counties that went Conservative last election. The nature of the house of lords reform is still more nebulous; the only point that can be called clear is the absence by internal differences and losing ground in states and counties whose allegiance was accepted as almost a foregone conclusion. A United States of any intention to deprive the reformed chamber of its present political complexion. Oppositions, of course, foregone conclusion. A United States president, while chief executive of the republic, is also a partisan, and how-ever high his estimate of his duty to the whole people, he is no less con-cerned—sometimes more concerned— with the preservation of pasty har-mony. There also a spirit of positical independence is abroad. The old dis-ciplined obedience that subordinated everything to orders from the machine headquarters is giving place to the higher loyalty to principle and to the public good. LITTLE VIOLET HARLOCK **MEETS INSTANT DEATH** 

Mimice Girl Touched Live Wire-Playmate Who Ran to Help is Severely Shocked.

MIMICO, May 1.-(Special.)-Little 6-year-old Violet Harlock was killed, and her playmate, Cecil Johnston, 13

Removed to 571 College Street, Toronto Phone College 762 136 years of age, just escaped a similar fate by coming in contact with a live wire on Church-street, in Mimico, Saturday afternoon. Several children were plyaing in the

neighborhood of the fallen wire, all unconscious of their terrible danger, when the screams of their little play-WINNIPEG. mate were heard. Little Violet, in passing under the wire, had grasped it in her little hand so as to remove It from her path. Immediately she fell to the ground, and the other children rushed up to see what was the matter with her. Cecil Johnston, aged 18, realizing

her danger, went to her assistance, and tried to separate her from the wire. He, too, was thrown to the ground and the shock he received almost ended his life. Immediately Drs. Godfrey and Ser-

son were called, and arrived on the scene shortly after. Drs. Forbes Godfrey, the town coroner, stated that the death of the little girl had been in-stantaneous, and that the boy had had a narrow escape. Several citizens of Mimico say that

the wire had fallen on Friday night, and that the Interurban Power Co., who own it, had been notified several times, but had done nothing to ensure

the safety of the public. Dr. Godfrey will hold an inquest in Wednesday night. James Harlock, the father of the

unfortunate child, is employed as fore-iran in the G.T.R. yards at Mimico, and Alex. Johnston, father of the injured boy, is a Mimico milk dealer.

# The Morning Paper is the Real Home Paper

The "Calf's Path"

A famous writer once wrote an interesting story entitled "The Calf's Path."

The story tells how hundreds of years ago a calf went home thru the primeval forest and left a zig-zag and winding trail behind him.

The next day a dog followed the same trail and later still a bellwether sheep with the flock behind him; afterwards, men followed the winding path until it grew to the dignity of a lane.

Everybody grumbled and swore at its devious turns but nobody tried to remedy it.

Later it became a village street, then a busy city thorofare, and so on from generation to generation ; everybody followed the irregular, roundabout "calf-path."

As the poet says: "For this, such reverence is lent

To well established pre:edent."

The moral of this quaint story is particularly adapted to the case of those advertisers who stick to the old ruts.

The object of these heart-to-heart talks is to discuss as intelligently as our ability permits different phases of the advertising problem, and to remove, if possible, some of the mossgrown beliefs that have long since been abandoned by the most progressive advertisers.

As previously stated, there is an amazing credulity shown by certain classes of business men in the absurd theory that a daily paper, to be a home paper or read by women, must of necessity be an evening paper. This antiquated belief has almost become a tradition, due, no doubt, to the fact that once an idea becomes thoroly entrenched in the mind it is difficult to dislodge. Old theories like old habits cling tenaciously, not infrequently exerting an influence against our best interests.

"The thought occurred to me that if our own maid was reading The World every morning the same thing was probably going on in thousands of other homes in this big city. I decided, however, to make another test and a few mornings later I arose earlier than usual and slipped quietly down; yes, there she was as on the previous morning quietly reading the Morning World.

"'Now Mary', said I, 'is it your habit to read The World every morning'? With some hesitation she answered in the affirmative, ex plaining that the interval before the family assembled for breakfast was usually occupied in this way

"Further enquiry elicited the fact that she seldom saw an evening paper, three or four nights each week being taken up with her household duties. Her own evenings off were spent in various pleasures the city afforded and she had no inclination on these occasions to read an evening paper.

"It came to me like a flash," said he, " that for years I had been spending my money to reach exactly this class of women through the evening papers and yet it was extremely doubtful if one in ten ever had the opportunity of seeing an evening paper. To me the field looked promising, I decided to develop it and began a series of 'ads,' in The World that brought us splendid results from the very first."

The above experience which converted an evening paper advertiser into an enthusiastic believer in the Morning World is only one instance amongst scores of others that will be shown in this series of articles.

The writer believes that business men generally will appreciate their significance. Can any intelligent business man doubt that similar incidents are occurring in thousands of homes in this city where the Morning World goes regularly each morning? Here is a class of women readers whose trade is sought for thru the evening papers.

Gentlemen, you are traveling along the "Calf's Path." Sit right

John A. Paterson, K.C., at Carlton-street Methodist Church, outlined the history of the Y. M. C. A. movement from the founding of it in 1844, by George Williams, a clerk in a London shop. It was first established in Am-erica in 1851, and at Montreal, and in 1855 it became a world-wide move-ment. He illustrated a common con-ception of the Y. M. C. A. by an incl-dent wherein a business man of the the church to child life, by referring in sympathetic and appreciative terms to the Y. M. C. A and Salvation Army; the first because it supplied young men of ability, faithfulness and honesty for his business, and the sec-end because it mended the ragged fringes of the social fabric. An Arm of the Church.

G. Tower Fergusson, at Dovercourt Presbyterian Church, showed how the Y. M. C. The associa-tion had outgrown its present head-quarters; these ought to be put up-to-date to keep pace with the building of larger banks of commercial houses, for the moral uplift is as important as improved facilities in educational and financial circles.

D. H. Gibson, at St. John's Presby-terian Church, showed how the efforts of the association influenced lives in every phase of life.

At St. James-square Presbyterian Church Dr. G. H. Locke, public libra-rian, was congratulated after his ad-dress by President Falconer of the University of Toronto. The people are awakening to the marvelous powers of fruit juice as a preventative and cure of disease. "Fruit-a-tives"—the only medicine in world actually made of fruit juice—has demonstrated the extraordinary value of fruit juice, even in cases that were apparently hopeless. The strange case of Miss Mabel Todd of Kingston, Ontario, well illustrates the wonderful properties of "Fruit-a-tives." From a happy, rosy-cheeked girl, she had become pale and thin and so weak that she could hardly stand. Her many friends knew that some thing serious was the matter. ionians ii, 3). Should we then be sur-prised if we find his words have come true, that for fifteen hundred years the Church of Christ has been deeply en-tangled with errors and superstitions, tangled with errors and superstitions, which make void the Gospel of Christ? Let us not then stop to find fault with our forefathers, and to upbraid them; let us rather, so far as possible, as-sume their honesty, their sincerity. Let us take the Bible standpoint, and realize that the difficulty has been the borner of our adversary the devil power of our adversary, the devil, and that he has deluded and ensnared not only the heathen world, but to a considerable extent Christendom.

Mark St. Paul's words, "The god of this world hath blinded the minds of them which believe not, lest the glorious light of divine goodness should shine into their hearts" (II Corintnians iv, 4). marriage to Clark Benton Parsons of Fairbank. The ceremony was conducted by the Rev. R. C. Tibb of Toronto, assist-ed by the Rev. Mr. Baker of Simpson-avenue, Toronto. The bride, who was beautifully gowned in white satin, with an overdress of lace, en train, and wearing the customary veil and orange blossoms, was attended by her cousin. Miss Elsie Campbell of Orange-ville, while Mf. Parsons of Toronto per-formed the same duties for his brother. The flowers were especially beautiful, those carried by the bride being white roses with trailing fern and lilies of the valley, while the brides were simi-lar in pink roses. In the tea room masses of white and rose carnations with white sweet peas were everywhere in evidence After the wedding supper, to which about 90 guests sat down, the bridal party left for New York and other eastern clites. The going-away dress was a navy blue broadcloth with hat to match. The wed-ding music was supplied by Miss Edith Campbell, who wore a dainty gown of pink with white lace. Among the many costly presents may be mentioned the hendsome dinner set presented by the Elsa Methodist Church congregation. Miss Stider having for years filled the position of organist. Among the many present were noticed the Rev. J. C. Tibb and Mirs. Tibb, formerly of North Toronto. Upon their return, Mr. and Mrs. Parsons will reside at Fairbank.

the evening. It was the toast of the evening. "The Printer's Devil" and the sing-ing of "Auld Lang Syne" brought to a close an event which perhaps more than any other that has ever taken place in Markham Village shows the

warm place which true worth coupled with geniality may engender in the minds and hearts of fellow townsmen. "He's such a likeable fellow that we hate to lose him," said Reeve Speight and the sentiments enunciated by the reeve found a responsive chord in all present. To know J. O. Herity is to like him.

Chas. A. White's sensational story for Wm. Lorimer for the U. S. senate, and that he (White) also accepted \$900 as his share of an alleged legislature "hush fund," has met with denals on the part of all others. Lee O'Neil Browne of Ottawa, Illinois, Democrat leader at Springfield,

arrived in this city yesterday afternoon, as did Senator Lorimer, both friends knew that some-attention was sought, but denying the use of bribes in the most emphatic manner.

> have been the distributor of the Loris mer money, declared that White had rushed into print because he had failed in an attempt to use his story to secure hush money.

White to have doled out the "jackpot" at St. Louis, joined the chorus of denials. Browne admits having been at St. Louis at the time White alleged the jackpot was distributed. alleged the jackpot was distributed, but declares that the Democrats who had assembled there were partisans of Browne, who wished to arrange a ban-quet for him at his home. Browne, according to Wilson, frowned on the enterprise of his partisans and the banquet was called off. White in his charges stated that the ublic might expect to hear him call.

How It is Explained.

In the course of an interview to-day Mr. Browne said: "Since I be-came acquainted with White at the last session of the fegislature he ap-pealed to the several times for loans, saying he was in debt, hard up, etc. On three or four occasions I let him hence for accessions I let him have \$50 or how for which I hold his notes. This became too common and I wrote him a letter advising him to go

### to work and carn a living like other people. I even secured a position for him, but it paid only \$75; and he refused to take it. Then a coolness sprung up.

# leal Conditions Now Apparent On the Wall Street Market

MONDAY MORNING

### Collapse in Values During Week Has Partially Compensated for Period of Over-inflation.

World Office, Saturday Evening, April 30. The downfall in the New York mar-ket this week was inevitable, as point-ed out in these columns a week ago. That the break was of so small a character is the only surprise, but then there is ample time for further preaks and such as will convince the most sceptical that the make-up of New York securities is of the filmsiest ature. The dip of five or six points of money to the financial syndicates and temporarily provide a remedy for the derangement which has been caus-ed by the withdrawal of New York yold. There is still a big deficit how-ever, and more money will be raked in from the market followers later on. reseponsible for keeping prices intact began to take notice. Liquidation is the last thing desired now, and in nu-merous instances traders who have wanted to sell have been informed that there was no immediate market for the special shares held by them.

there was no immediate market for the special shares held by them. The wild speculation which has been carried on in Montreal for many months seems to have seen its finish. Somebody and some institutions must be carrying a fine wad of shares, and if many of these are forced out by the incoming money squeeze, the Cana-dian exchanges will later relate a tale of heavy losses. The list of new Cana-dian flotations is quite heavy and too much credence should not be given to the stories of the placing of big blocks of shares in London and Paris. Euro-pean buyers are quite as circumspect in their market dealings, and perhaps more so, than domestic investors. There is not a particle of evidence to support an argument for a rise in values on the Canadian exchanges at present, but there are many reasons which can be cited to the opposite. The markets will be here for a long time and three per cent, bank interest is one of the best investments until the clouds have passed. Those who have patience are likely to get what with a comparison with current prices might be spoken of as bargains.

from the market followers later on. The civilized world, and no section more so than the United States, has played havoc with real capital dur-ing the last few years. Credit has been expanded by every available method, and even England has been drawn into the "Maelstrom" of get-rich-quick speculation by its rubber and oil boom. The day of reckoning is gradually making its appearance, and the far-sighted financiers are pre-paring for such by getting in gold, the real and only reserve in cases of emergency. Wall-street was hopeful that London would be content with \$25,000,000 in gold. Not so, however, Nearly \$40,000,000 has already been sent out, and the strain for further of the yellow metal is not yet relax-ed. When it is considered that \$1 in gold is made the basis of \$4 of avail-able credit, it can be seen that the output already means a contraction in loanable funds of \$160,000,000.

Dominion Fallures.

Dunn's Mercantile Agency reports the number of failures in the Dominion dur-ing the past week, in provinces, as com-pared with those of previous weeks, and corresponding week of last year, as fol-

output already means a contraction in loanable funds of \$160,000,000. \*\*\* The rise in call money at New York to 7 per cent, was forced by those who took advantage of the acute money situation. Hitherto there has been sufficient money in this market to ancourage speculators. This came from those who would rather accept small rates temporarily than have their funds fied up in stocks at fic-titious prices. The jump in money rates will attract funds to Wall-street as long as the demand is keen, but this is not likely to last, as further liquidation will epsue as soon as many frenzied individuals and finan-ciers come to their senses and a recog-nition of things as they are and not as they seem. Considerable juggling has been going on between the banks and loan and trust companies since the first of the year, but the situation has uncovered some of the financial subterfugges and a screen against publicity will not be longer of much avail. able to hold on, usually lighten their ating movement. We had the same sort of thing after the break on Feb. 8. But the general situation at present, is in many respects better than it was in February, altho there are some dis-uiteting factors. Certainly, the post-ponement of the trust cases is a re-assuring thing. Agitation against the anti-trust law may be productive of results before the supreme court can act on the cases in question. The crop situation is really better than was supposed at the time of the recent storm, and much replanting is now in progress. But as offsetting this there are weak spots in the industrial situation. Continued liquidation in cop-per stocks suggests need of much cau-tion. The "street" is predicting an-other poor copper producers' report, siving conditions as of May 1. To-day's sharp break in stocks, with prices closing around bottom, was at-tended with fear that the bank state-ment would be very poor. Expectations were realized. Even the actual position as of last night was very weak, surplus reserves decining \$,000,000. But loans were reduced somewhat.

Monday, May 2, 191 We Have a Range of \$21 Suits to Clear at \$9

YTHEN you have a free, fair choice of several suits at t same price you are apt to make your decision on very slight grounds. They are likely to be so nearly equal you must need hunt for little flaws in finish or little differences of trimming. And when you do choose finally you confess that it was merely a matter of fancy on your part, and that really each one was quite as good as the others,

As it is with you as an individual so it is with the public as a whole. decides in favor of one line when there is, after all, little to choose amongst them all. Take these \$21 suits for instance. They started out fair in the beginning of the season. But they had to bear comparison with others the public fancied more. Chances are if you saw them alone you would admire them at once. I you know how it is-with a lot of others to consider you hesitate in choosing,

We are going to overcome this little handicap to-morrow in regard to these \$21 suits which have not kept abreast with the other suits at a similar price. W are going to simply reduce them into popularity overwhelming!

About 100 in the lot -\$21.00 Suits-Reduced to \$9.75! No phone or mail orders taken.

New Waists in a New Department CHOULD anybody ask to see an instance of Canada's place in the progress and prosperity of the world, send them to visit the Waist Dept. of the Robert Simpson Company. It is situated at the Queen street section of the old building, and on the third floor. It extends over the greater part of what was but a short time ago practically the entire club room. And it contains numberless examples of the blouse maker's designing such as are found in the shops of London and Paris, as well as many a variation on the shirt-

# **Our Trimming Department Keeps** in Close Touch With Paris FOR real beauty of dress, real style and really nice taste commend

us to the Parisian,

· We have imported such a luxurious variety of garnitures this spring-Toronto has seen nothing like this display. Dazzling is the only word. And yet everything in perfect taste. Special attention should be directed to a new feature at this timemetal. You should see the 60 inch flouncings of gold, black and gold and oxydized silver !

By-the-way, we have something particularly exclusive on Tuesday, for a limited number of fortunate people. Paris model lace coats and mantillas, entirely out of the ordinary.
