Miscellaneous.

WORK!

By CHARLES SWAIN.
Attend, all Men!
Uplift the banner of thy God,
Advance the ministry of man,
Through fetters deep of mould and sin,
Till—Man's heritage is Time!
Toll on!

Work on and win!
Life without death is best employed—
Work moves not moulds the mightiest birth,
And grasps the destinies of earth!
Work on!

Work sows the seed;
Even the rock may yield its flower—
No lot so hard, but heaven power
Exerts to one and all;
My conquer face and captive fame!
Press on!

Press onward still;
In nature's centre lies the fire
That slow, though sure, doth yet aspire;
Through fathoms deep of mould and sin,
It splits the rocks that bar its way!
Press on!

Heaven lies
Lay time beneath thy weight of earth,
When would her lullaby know birds,
This man through granite Fate, must tread
The pathless upward path—of Mind!
Work on!

Pause not in fear;
Press on, depending, scarce we know
Where we will go, though it be true
Strength each man may see to beat
Truth, law, and all its sinners!
Toll on!

Be firm of heart;
By action of momentary years
A Continent is carved in years!
Toll on, and nature's conquest share!
Toll on!

Within thyself
Bright, stern, and noble, and mightier,
Power, feeling, passion, thought and deed;
Harmonious beauty, prompt his breast,
Thine, Angus, love, and God hath blessed!
Work on!

Work on and win!
Shalt light from nature's depths arise,
And then, whose mind, thy words, thy skies,
Shalt show with fate, and truth prevail!
Toll on!

[From Fraser's Magazine.]

A LEGEND OF ONIAGARA.

By the Author of "Elen Clario, or The Nomades of the
Arctic," &c.

[RECEIVED.]

Rona had her side within the screen of leaves,
and spoke soothingly, and in the endearing accents
of the loved one.

"Why is my sister troubled?" he asked. "Rona
thought that his path only was sad and full of
sorrow."

"Talk not so, else I shall die," she muttered,
half-specifies with emotion. "Cover me with
your hands, spin me as you do with a creature
without faith or sin; spin me as you do with a
creature without faith or sin; spin me as you do
with a creature without faith or sin; spin me as
you do with a creature without faith or sin; spin
me as you do with a creature without faith or
sin; spin me as you do with a creature without
faith or sin; spin me as you do with a creature
without faith or sin; spin me as you do with a
creature without faith or sin; spin me as you do
with a creature without faith or sin; spin me as
you do with a creature without faith or sin; spin
me as you do with a creature without faith or
sin; spin me as you do with a creature without
faith or sin; spin me as you do with a creature
without faith or sin; spin me as you do with a
creature without faith or sin; spin me as you do
with a creature without faith or sin; spin me as
you do with a creature without faith or sin; spin
me as you do with a creature without faith or
sin; spin me as you do with a creature without
faith or sin; spin me as you do with a creature
without faith or sin; spin me as you do with a
creature without faith or sin; spin me as you do
with a creature without faith or sin; spin me as
you do with a creature without faith or sin; spin
me as you do with a creature without faith or
sin; spin me as you do with a creature without
faith or sin; spin me as you do with a creature
without faith or sin; spin me as you do with a
creature without faith or sin; spin me as you do
with a creature without faith or sin; spin me as
you do with a creature without faith or sin; spin
me as you do with a creature without faith or
sin; spin me as you do with a creature without
faith or sin; spin me as you do with a creature
without faith or sin; spin me as you do with a
creature without faith or sin; spin me as you do
with a creature without faith or sin; spin me as
you do with a creature without faith or sin; spin
me as you do with a creature without faith or
sin; spin me as you do with a creature without
faith or sin; spin me as you do with a creature
without faith or sin; spin me as you do with a
creature without faith or sin; spin me as you do
with a creature without faith or sin; spin me as
you do with a creature without faith or sin; spin
me as you do with a creature without faith or
sin; spin me as you do with a creature without
faith or sin; spin me as you do with a creature
without faith or sin; spin me as you do with a
creature without faith or sin; spin me as you do
with a creature without faith or sin; spin me as
you do with a creature without faith or sin; spin
me as you do with a creature without faith or
sin; spin me as you do with a creature without
faith or sin; spin me as you do with a creature
without faith or sin; spin me as you do with a
creature without faith or sin; spin me as you do
with a creature without faith or sin; spin me as

to be paid into the Treasury, as the House may determine.

In section 10, His Lordship refuses to consent to a reduction of salaries on the Civil List. He considers his duty in this respect, as in other respects, to be a duty of public faith.

Section 12. He acknowledges the right of the House to reduce the salaries of other public officers; but advises that they may be reduced so low as to afford temptation to men of the highest ability.

Section 13th instructs the Lieut. Governor that the Legislative Council is to be a purely judicial authority in perspective, he is not to give his assent to it, but that it must be passed with a suspending clause.

Section 14. His Lordship considers the Matter of the Rolls as placed on the same footing with the other Judges, and will not allow his salary to be reduced. He will not consent that the salary of the Surveyor General be singled out for reduction, or to the immediate abolition of the office of Recorder General, upon whose offices becoming vacant, he will consent to the abolition of the latter, and to the reduction of the salary attached to the others to £200 a year.

Section 15. He recommends the prosecution of public works, particularly Railways, but intimates that capitalists will not embark in such undertakings in the absence of the law which he proposed; and adds, that a single breach of the public faith, in reference to the engagements entered into by the Government in New Brunswick, of the confidence of English capitalists.

Section 17. He will not consent to a reduction of the Governor's salary, the country is too poor to support it. He will not consent that the Civil List be capable of bearing the charge.

Section 18. He regards the arrangement of 1856 as permanent and binding, but will endeavour as much as possible, as circumstances occur, to meet the wishes of the people, as expressed through their Representatives.

REPORTING THE DEBATES-STATIONERY.

Hon. Mr. PARTLOW said that there was nothing before the House, which might well have a bearing upon the subject. He had been thinking of the matter, and he meant to propose that Stationery should be provided for the use of the House, and for the use of the Members.

Hon. Mr. HANINGTON said he was in favour of paying Reporters, Papers containing the debates were sent into the House, and it would not look well to refuse to pay them.

Mr. TAYLOR was also in favour of paying Reporters. He hoped this House would do as the last House had done—pass resolutions at the commencement of the session, and not pay Reporters, and reverse the decision at the close of the session.

Mr. WILLIAMS hoped the House would come to a resolution at once to pay Reporters. The published debates contained information that the people required; the money was not thrown away, but would be paid. If Reporters knew they were to be paid, he thought they would exert themselves to the utmost to issue full and faithful reports.

Mr. SCOLLAR said it was quite useless for the House to vote that they would not pay Reporters, as they would be sure to give them grants before the session closed. He was for coming to a resolution at once. He believed the country required the information.

Hon. Mr. PARTLOW then moved a resolution to the effect that the Clerk provide the necessary Stationery for the use of the House.

MONDAY EVENING, 17th FEB.

A good many petitions were presented to-day by Messrs. Tully, Earle, Scullar, and Ryan, to repeal the laws on selling Spurious Liquors, and to make the sellers responsible for the results arising therefrom. Seventeen petitions were presented by Messrs. Earle, Taylor, Hatheway and Birdseye, to incorporate the Orange Lodges. A message on the boundary between this Province and Canada was laid before the House by the Hon. Mr. Partlow.

Mr. NEEDHAM moved a resolution to dispense with the members at the public expense, which was carried by 24 to 10. It was understood that the House was not to pay for sleighs to parties after business hours any more.

The Committee appointed to report on the expediency of paying Reporters for the House, reported in favour of paying Mr. Anglin £75, and Mr. Tully, £50, and the question will be discussed on Thursday. Telegraph to New Brunswick.

SCENARIOS.—The petition of James Bly, for a certainty of the votes polled for R. B. Fitzgerald, secretary of the County of Charlotte County, is ordered to be taken up for hearing on the 8th of March; and the petition of R. C. Gilbert, Esq., for a certainty of the votes polled for R. B. Chapman, Esq., a member for Westmorland, is ordered to be taken up on the 12th of March.

A vast number of petitions from all parts of the Province, (the majority of them containing a prayer for the abolition of the Slave Trade, and for the non-interference of the Government with the Slave Trade.) are being presented to the House.

Several Bills of interest to the City and County have been introduced by Alderman Needham, among which are—

A Bill to amend the Act relating to the Mayor of Saint John's Bill relating to the Municipal Corporation. A Bill to amend the Act relating to the Corporation of Saint John's City and County—A Bill House and Work House, relating to the Corporation of Saint John's City and County—A Bill to amend the Act relating to the Corporation of Saint John's City and County, to enable the Corporation to pay the salaries of the Council.

Mr. Earle and others have presented Petitions from holders of Orange Lodges in this Province.

A Bill to amend the Act relating to the Corporation of Saint John's City and County, to enable the Corporation to pay the salaries of the Council.

Mr. TAYLOR was opposed to both resolutions and amendment. Let the question be left open, let the Clerk provide, and let every Member get what he actually requires, and no more. Surely if Mr. Tully pay £50 a year, what right has Mr. NEEDHAM differed from the last speaker. The experience of former Houses had shown them that every hon. member could not be trusted. He would support the amendment, and would not consent that the House should be divided upon a matter which would be a great deal to the House. He would support the amendment, and would not consent that the House should be divided upon a matter which would be a great deal to the House.

Mr. SCOLLAR moved an amendment to the resolution, to the effect that a Select Committee be appointed to make arrangements for reporting the debates, and report to the House.

Mr. WILLIAMS would support the amendment. He did not think it possible that any arrangement could be made to have the debates published daily during the present session, but such an arrangement might be made in reference to future sessions.

Mr. WHARTY thought it much better if publishers would send Reporters to the House without pay; he wished to consider the subject, and in the meantime would not object to the appointment of a Committee.

Dr. THOMPSON would ask if the publishers of the Saint John papers had not subscribed to pay a Reporter? (An hon. member—Yes?) He thought that the proper way; he thought it added materially to the circulation of a paper that it contained the debates. He preferred circulating the Journals to the debates, because the information they contained might be relied upon.

Mr. TAYLOR was one of those who were anxious that the people should know what was going on in the House; and he believed the people were also anxious upon the subject. The Journals did not contain the like information, he would like to see it possible to send out 1,000 copies of the debates circulated by the House. What though the public money paid for it? It was money well expended, it had had no other effect, but to gratify a few editors, to relieve other; one man could not report all the proceedings in a satisfactory manner.

Mr. NEEDHAM thought the last speaker very much mistaken when he preferred the circulation of the Journals to the Debates. The former did not give hon. members' opinions, unless when a division was taken, and the names also; and not always in the order in which they were spoken. It was to-morrow, and the election on Monday next, 24th inst. The contest, it is thought, will be between Messrs. Charles Fisher and Charles McPherson only.

In Carleton County, the nominations will also take place during this week, and the election a few days later. There are said to be four candidates for the vacant seat, Messrs. J. Jacob, H. Dibble, R. English, and Charles Connel, Jr.

Among the new rules which have been established for the conduct of the business of the House, one which limits the duration of each Member's speech, on any particular question, to half-an-hour.

The Hon. W. H. Ouellet has taken the oath and his seat as a Member of the Legislative Council.

The Marston Charity Ball, under the Banquet of Alderford, took place at the St. John Hotel, on Thursday evening last (Valentine's Eve), and upwards of one hundred and twenty guests were present, and dancing was kept up with much spirit until four o'clock in the morning. The numerical success appeared highly pleased with the entertainment, which was reported in form of credit for their exertions in getting up so splendid an affair.—Courier.

Contribution for the Exhibition in London in 1851.—The ship "Pomona," D. W. Crook, master, which sailed from this port on Thursday morning last, for Liverpool, has on board a full cargo, eight feet high, carved by Mitchell, of this City. It is intended to represent a South American Indian Chief. A large number of gentlemen, many of whom are connoisseurs in this branch of the Art, inspected the figure, and pronounced it to be a fine specimen of the Art. It is thought that the Artist has succeeded in bringing out a most perfect likeness of the human face and form. Mr. Crook will stand indebted to Mr. W. O. G. for the loan of the "Pomona," for this bringing under notice this specimen of New-Brunswick genius and talent, at the forthcoming Exhibition.

We have recently received a very fine specimen of alabaster or gypsum cut out of the mines at Hillsborough, and intended for the exhibition of 1851.—Telegraph.

REPORTING THE DEBATES.—The Committee named for the purpose consisted of Messrs. Crane, Cutler, Johnson, Gilbert, and Scullar. It was by their report, that the House is ordered to pay the expenses of the Reporters, and to make the sellers responsible for the results arising therefrom.

The census throughout Great Britain will be taken on *one day*—Monday, March 31, 1851, each household returning all the persons in its house on the preceding night. Means will be taken to ascertain the number of houseless poor, of persons travelling and on shipboard.

A life-boat has been invented in England by Mr. Holtbroock, which is quite novel in its design. It has eight seats all arranged in a row, and the bottom consists of open work of iron, so that the water passes freely through, and even sets the feet of the rowers. The advantage is, that the water inside and outside is on the same level, and the boat is ballasted and kept upright by the water itself.

The last of the Falmouth packets has sailed, and the establishment, which has existed there for 200 years has been sold. The ocean steamers and the railroad have outweighed the advantages and safety of the port.

The Amplitude, 25, commissioned at Portland, England, by Captain Frederick, is to proceed to the Pacific Station, taking up as large a supply of stores and provisions as she can stow for supplying the Arctic ships now engaged in searching for Sir John Franklin.

ARRIVAL OF FUGITIVE SLAVES IN LIVERPOOL.—We understand that William and Ellen Craft, who were taken to America, and who had been in Boston for a short time since, reached this port by the Cambria, more than a fortnight ago; but their arrival was made known only a few days in consequence of Mrs. Crafts having been attacked by a severe and serious illness, beyond that by the illness she was confined to her bed, and she passed through, just before escaping from the land of liberty. She is now convalescing and is staying at the house of the Rev. Francis Baugh, Mr. Crafts has left Liverpool, to meet and consult with an American friend at Edinburgh; but his wife was not well enough to accompany him.—Liverpool Mercury.

DESTRUCTIVE FIRE AT VALPARAISO.—The Valparaiso, Liverpool, Dec. 24, states that on the 22d, at 2 A. M., a fire broke out in a cigar shop, where a "wake" had been held over the body of a child, and a large number of buildings were destroyed, and a number of persons were injured. The fire was caused by a match, and was extinguished by the firemen, and valued at \$150,000, which were insured. They were occupied chiefly by mechanics and small trades-people and their families, and the destruction of most of their goods and furniture caused much suffering. The whole amount of loss was not far from \$250,000. In the Custom House, 470 packages of merchandise, nearly all of which were destroyed.

An earthquake also occurred at Valparaiso, on the 6th of December, which lasted from 15 to 20 seconds, and was more severe than had been experienced in Chili for many years. Considerable damage was done at the latter place.—The volcano of Parícuti had broken out in an eruption on the 5th, the day previous to the earthquake.

A fine new Barque, named the Adventure, of 285 tons, built at the Glasgow Dock, was launched recently at this port, and was owned by Messrs. Wm. Potts, Nathan Parlow, Thomas Brundage, and Geo. F. Thompson, all of this City.

The MARINE CHARITY BALL, under the Banquet of Alderford, took place at the St. John Hotel, on Thursday evening last (Valentine's Eve), and upwards of one hundred and twenty guests were present, and dancing was kept up with much spirit until four o'clock in the morning. The numerical success appeared highly pleased with the entertainment, which was reported in form of credit for their exertions in getting up so splendid an affair.—Courier.

CONTRIBUTION FOR THE EXHIBITION IN LONDON IN 1851.—The ship "Pomona," D. W. Crook, master, which sailed from this port on Thursday morning last, for Liverpool, has on board a full cargo, eight feet high, carved by Mitchell, of this City. It is intended to represent a South American Indian Chief. A large number of gentlemen, many of whom are connoisseurs in this branch of the Art, inspected the figure, and pronounced it to be a fine specimen of the Art. It is thought that the Artist has succeeded in bringing out a most perfect likeness of the human face and form. Mr. Crook will stand indebted to Mr. W. O. G. for the loan of the "Pomona," for this bringing under notice this specimen of New-Brunswick genius and talent, at the forthcoming Exhibition.

We have recently received a very fine specimen of alabaster or gypsum cut out of the mines at Hillsborough, and intended for the exhibition of 1851.—Telegraph.

REPORTING THE DEBATES.—The Committee named for the purpose consisted of Messrs. Crane, Cutler, Johnson, Gilbert, and Scullar. It was by their report, that the House is ordered to pay the expenses of the Reporters, and to make the sellers responsible for the results arising therefrom.

the last sixty years resided in Fredericton, where he was highly esteemed by the Methodist Society, with which he had been connected for fifty years, and by the inhabitants generally.

On the 7th inst., Mrs. Sarah, wife of Mr. George Anderson, of Fredericton, aged 25 years.

In Penfield, Charlotte County, on Saturday 8th, Joshua Knight, Esquire, in the 57th year of his age. Mr. Knight was an amiable man, in all the relations of life, a justly respected citizen, a good husband, father, or magistrate, his character stood peculiarly high, and the loss of such a man, not only the large and respectable circle of relatives and friends he has left behind him, but the Parish over, whose interests he exercised so parental a care, but the whole County have deep cause for lasting and sincere regret.

At Bascom, on the 6th inst., Katherine, daughter of William and Jeanette Knudsen, aged twelve months and two days.

In Philadelphia, on the 31st inst., Mr. Patrick McCollough, Merchant, a long resident of the City of St. John, and a native of the County Tyrone, Ireland, aged 40 years, leaving a wife and three children, with a large circle of friends and acquaintances to mourn their irreparable loss.

FALMOUTH.—The last of the Falmouth packets has sailed, and the establishment, which has existed there for 200 years has been sold. The ocean steamers and the railroad have outweighed the advantages and safety of the port.

The Amplitude, 25, commissioned at Portland, England, by Captain Frederick, is to proceed to the Pacific Station, taking up as large a supply of stores and provisions as she can stow for supplying the Arctic ships now engaged in searching for Sir John Franklin.

ARRIVAL OF FUGITIVE SLAVES IN LIVERPOOL.—We understand that William and Ellen Craft, who were taken to America, and who had been in Boston for a short time since, reached this port by the Cambria, more than a fortnight ago; but their arrival was made known only a few days in consequence of Mrs. Crafts having been attacked by a severe and serious illness, beyond that by the illness she was confined to her bed, and she passed through, just before escaping from the land of liberty. She is now convalescing and is staying at the house of the Rev. Francis Baugh, Mr. Crafts has left Liverpool, to meet and consult with an American friend at Edinburgh; but his wife was not well enough to accompany him.—Liverpool Mercury.

DESTRUCTIVE FIRE AT VALPARAISO.—The Valparaiso, Liverpool, Dec. 24, states that on the 22d, at 2 A. M., a fire broke out in a cigar shop, where a "wake" had been held over the body of a child, and a large number of buildings were destroyed, and a number of persons were injured. The fire was caused by a match, and was extinguished by the firemen, and valued at \$150,000, which were insured. They were occupied chiefly by mechanics and small trades-people and their families, and the destruction of most of their goods and furniture caused much suffering. The whole amount of loss was not far from \$250,000. In the Custom House, 470 packages of merchandise, nearly all of which were destroyed.

An earthquake also occurred at Valparaiso, on the 6th of December, which lasted from 15 to 20 seconds, and was more severe than had been experienced in Chili for many years. Considerable damage was done at the latter place.—The volcano of Parícuti had broken out in an eruption on the 5th, the day previous to the earthquake.

A fine new Barque, named the Adventure, of 285 tons, built at the Glasgow Dock, was launched recently at this port, and was owned by Messrs. Wm. Potts, Nathan Parlow, Thomas Brundage, and Geo. F. Thompson, all of this City.
