## French and Belgians Agree On British Reparation Note

# TROOPS STAYS ARE OPENED

### PARIS GETS NOTE REPLY TO BRITISH

Belgians and French Are in  
Complete Accord on  
Reparations.

LIFT BLOCKADE?

Germans Claim Frontier Has  
Been Opened—No Word  
From Paris

(Canadian Press)  
Paris, July 26.—The French and  
Belgian Governments have reached  
an entire agreement on all the es-  
sential points respecting the British note,  
it was announced today. It was not  
made known whether there would be  
a joint or separate reply.

In Complete Accord.  
Brussels, July 26.—The draft of the  
Belgian reply to the British note on  
reparations which was sent to Paris  
yesterday is in complete accord with  
the French view, according to the  
most reliable information obtainable.  
It holds, it is stated, that the occupa-  
tion of the Ruhr must be maintained  
so long as Germany has not paid the  
reparations due.

As to an international commission  
to fix Germany's capacity to pay, the  
note is understood to express a pre-  
ference for U. S. experts rather than  
those of European neutrals.

Blockade Lifted?

Berlin, July 26.—It was reported  
from Dortmund in the Ruhr today that  
the authorities of occupation had an-  
nounced that the blockade of the oc-  
cupied areas had been raised, dating  
from last night. No confirmation from  
authorities sources was available.

Thousands Pass.  
Dusseldorf, July 26.—The frontier  
separating the Ruhr Valley from the  
rest of Germany was opened at mid-  
night.

No official reports as to the resump-  
tion of traffic had been received at  
French headquarters here up to noon,  
but thousands of Germans were pass-  
ing in and out of the occupied region,  
making haste to transact urgent busi-  
ness. They were anxious to accom-  
plish all possible during the present op-  
portunity because of reports that the  
frontier would be closed again in a  
few days.

### FUMIGATING GAS IS FATAL TO THREE

Workmen Caught in Mill After  
They Had Orders to  
Leave.

New York, July 26.—Bodies of three  
workmen, killed, police say, by the fumi-  
gating gas, were found in a flour mill  
of the Hecker-Jones Jewell Milling  
Company.

The mill was fumigated the previous  
afternoon, it was said, after orders had  
been issued for all employees to leave  
the plant. It was believed the three  
had started out, as one body was found  
near the door and the other two not  
far inside. One inhalation of the  
gas used, it was said, would be enough  
to cause unconsciousness.

Firemen wearing gas-masks search-  
ed the flour mill, which covers several  
city blocks, for other possible victims.  
They were forced to work in relays as  
the gas seeped through their helmets.

The first intimation of the tragedy  
came when a hysterical woman pound-  
ed on the door of the plant. She at-  
tracted so much attention that the of-  
ficials of the company was notified.  
Sobbing, she told him her brother had  
not been home since the day before.  
Two police women, dishevelled and  
crying, joined them.

The official quickly opened the door  
but was forced to flee as the heavy  
fumes swept outward. Dr. Robert  
Kahn of Gouverneur Hospital, who ar-  
rived in an ambulance, donned gas-  
mask and plunged into the plant. He  
stumbled on the bodies of the three  
men. Firemen carried the bodies out-  
side.

Police reserves were summoned to  
hold back a mob of 10,000 persons  
which quickly formed.

MISS CATHERINE NEVENS  
DEAD IN FREDERICTON

(Special to The Times)

Fredricton, July 26.—Miss Catherine  
Nevens died suddenly Wednesday  
afternoon at the home of her nephew,  
Clarence Nevens, of Long's Creek at the  
age of eighty-three years. Surviving  
are one sister, Mrs. Alexander Jewell,  
of Macnaquis, and two brothers, Wil-  
liam Nevens of Houlton, Me., and  
George Nevens of Woodstock. The  
funeral will take place Friday.

### Wreck Buildings to Stop Flames In Big Saskatchewan Blaze

Wynyard, Sask., July 26.—Fire  
which broke out at 7:20 o'clock last  
night within two hours resulted in  
the destruction of seven business  
buildings on Bowry street, caus-  
ing a loss estimated at \$125,000 and,  
until the wind changed, threatened  
to destroy the entire business dis-  
trict of the town. Wynyard is a  
divisional point on the C. P. R., 125  
miles east of Saskatoon. In an effort  
to stop the flames, two small stores  
were pulled down by a tractor.  
When the blaze was at its height  
the flames were clearly visible at  
Jansen, twenty miles away.

### 3 FREE STATERS SEIZED IN ULSTER

Trespass, However, Looked on  
as An Inadvertence in  
Belfast.

Belfast, July 26.—At Castle Saun-  
derland on the Fermanagh-Cavan bor-  
der, yesterday three Free State sol-  
diers, cyclists, were seized by Ulster  
specials after they crossed the border  
and allegedly refused to halt when  
challenged.

When the challenge was disobeyed  
the special fired a volley and the  
southerners dismounted and attempted  
to reply but the specials rushed in and  
captured them.

Castle Saunderson was the estate of  
Colonel Edward James Saunderson,  
a noted Ulster Orange leader.

The three prisoners were released  
and conveyed to the border where  
they were handed over to the Free  
State authorities. The prisoners thank-  
ed their captors for the courteous  
treatment accorded them.

The official view in Belfast is that  
the trespass was an inadvertence.

Bomb in Douglas

Belfast, July 26.—Civic guard police  
at Ballintra, County Donegal, had a  
miraculous escape when a bomb which  
had been placed on the window sill of their barracks  
exploded, wrecking the building and  
damaging a house opposite.

### BREAKS ARM IN A 60-FOOT FALL

6-Year-Old Boy Tumbles From  
Roof of Home and  
Lives.

Boston, July 26.—Frank, 6-year-old  
son of Vincent Korovek of South Bos-  
ton, fell 60 feet from the roof of his  
home and escaped with no more se-  
rious injury than a broken arm. Today  
he will stay there for a short time for  
observation.

In alarm neighbors summoned Dr.  
G. A. Murray, South Boston, when  
they saw the boy plunge screaming to  
the street. Dr. Murray said he had  
City Hospital, fearing that he had been  
seriously injured internally, and he  
will stay there for a short time for  
observation.

### BOY KILLED, FOUR HURT IN EXPLOSION

Shack of Fireworks Factory  
Near Philadelphia Scene  
Of Fatality.

Philadelphia, July 26.—One uniden-  
tified boy was killed and four other  
youths slightly injured today in an ex-  
plosion in a shack connected with the  
U. S. Fireworks Mfg. Company at  
Cardington, on the outskirts of Phila-  
delphia. The property loss was small.  
The dead boy was about seventeen  
years of age.

Indianapolis, July 26.—It cost Frank  
Hill \$11 and a six months sentence to  
the state prison farm to prove his man-  
hood to the satisfaction of his com-  
panion, Ruth Lawrence, by striking  
Wm. Hayes, aged 82, during a dispute  
in regard to an automobile parking  
space. The Lawrence girl was also  
given a fine of \$100 and costs and sen-  
tenced to ten days in jail by Police  
Justice Wilmett. According to wit-  
nesses, the Lawrence girl struck Miss  
Maude Speck, a bystander, because she  
remarked that it seemed "such a shame  
for such a big man to be hitting that  
little old man."

### Accepts Challenge Of Opposition Leader

North Sydney, July 26.—Hon. E. M.  
MacDonald, M. P. for Pictou, minister  
of defense in the King cabinet, has ac-  
cepted the challenge of Hon. Arthur  
McGlen, who, on Monday night here  
during the discussion of the use of  
military in connection with the Cape  
Breton strike, defied the minister of  
defense to appear on a public platform  
in North Sydney. Hon. Mr. MacDonald  
will speak at North Sydney on  
Saturday night.

### GUARANTEE EMPLOYEES STEADY JOBS

Proctor & Gamble Extend  
Their Profit Sharing  
Plans

48 WEEKS A YEAR

Shutdowns by Fire, Flood  
or Strike, Only  
Excepted.

(Canadian Press)  
Cincinnati, July 26.—Beginning Aug-  
ust 1 the thousands of employees of the  
Proctor and Gamble plants and offices  
located in thirty cities in the U. S. and  
Canada will be guaranteed steady  
employment, Col. W. C. Proctor, pre-  
sident of the company announced to-  
day.

This innovation is an extension of  
the profit sharing plan which was  
made the policy of the company many  
years ago. Under the new plan, an  
employee is guaranteed full time for not  
less than 48 weeks in the year, re-  
gardless of seasonal depression in in-  
dustry. The customary holiday closing  
or by a shutdown caused by fire, flood,  
strike or other extreme emergency,  
however is excepted.

The Proctor and Gamble Company  
operates soap factories in Cincinnati,  
New York, Kansas City and Hamil-  
ton, Ont., and has district sales of-  
fices and distributing centers in many  
other cities.

### IS FINED \$150 FOR KILLING A DEER

Conviction in Minto Case—  
Two Provincial Game Con-  
tracts Awarded.

(Special to The Times)  
Fredericton, July 26.—The Depart-  
ment of Lands and Mines has been  
notified of the conviction of Nehemiah  
Hudlin, colored, at Minto, on a charge  
of killing deer out of season. A penalty  
of \$150 and costs or three months in  
jail was imposed. Samuel Hudlin, held  
on a like charge, was let go.

Hon. P. J. Veniot has awarded two  
bridge contracts, Gulliver Bridge  
Parish of Hardwicke, Northumberland  
County, contract to be awarded to Whit-  
man Brewer of Devon, price about  
\$14,000. Semlwayen North Bridge,  
Parish of Nelson, Northumberland  
County, contract is awarded to Whit-  
man Brewer of Devon, price about \$11,000.

### SUGAR DOWN.

Halifax, N. S., July 26.—Grandtotal  
sugar took a drop of twenty cents  
today in Halifax this morning, and  
is now being sold at \$10.75 a hundred  
weight.

### Wire Briefs

London, July 26.—Official denial  
is made of a rumor which has been  
spread by the Duke of Devonshire wishes to re-  
sign from the colonial secretaryship.

Stockholm, July 26.—Dr. E. Y.  
Mullins, of Louisville, Ky., was un-  
animously elected today president of  
the Baptist World Alliance by the  
third congress of the alliance in  
session here.

Quebec, July 26.—Heavy rains in  
most parts of the province have  
very considerably improved the  
forest fire situation and it was  
hoped that most of the fires will  
be under control soon.

Dusseldorf, July 26.—The bakers  
of Dusseldorf, in protest against  
the poor quality of flour they say  
is being supplied, closed their  
doors today for 24 hours. Most  
of Dusseldorf's families are with-  
out bread.

London, July 26.—The report of  
a committee appointed to consider  
the question of further accommo-  
dation in the House of Commons  
for visiting Dominion parliament-  
arians, high commissioners and  
others has been laid on the table  
of the House.

Ottawa, July 26.—Eugene Pel-  
letier, a French translator, em-  
ployed in the department of agri-  
culture since 1880, died here yes-  
terday following an operation. He  
was 6 years old. At an early age  
he was correspondent for several  
newspapers, including Le Canada.

### Hour In Morgue; Decides He Is Not Yet Ready To Die

Lima, Ohio, July 26.—One hour of  
an enforced twenty-four-hour sen-  
tence with the dead in the local  
morgue convinced Charles Voorhees,  
that he was not ready to die, and he  
left the remaining twenty-three  
hours for some other more courage-  
ous man to serve. Voorhees made a  
clean getaway unassisted.

Police Judge Kenneth Jackson late  
yesterday ordered Voorhees locked  
up in the morgue after he had been  
arrested for attempting self-destruction  
by standing in the middle of a  
street car track waiting for a car to  
hit him.

### MORE TROUBLES FOR ANDERSON

Anti-Saloon League Leader Is  
Severely Rebuked By  
Jury.

New York, July 26.—A sharp re-  
buke was administered yesterday to  
Win. H. Anderson and the Anti-Saloon  
League of New York, of which he is  
superintendent, by the special grand  
jury which last week returned three in-  
dictments charging him with grand  
larceny and forgery and yesterday  
handed down the two additional in-  
dictments alleging extortion which  
Acting District Attorney Pecora an-  
nounced would be forthcoming.

"Impertinence" was what the jury  
termed statements issued by Anderson  
and the league after the first in-  
dictments and a presentment urging legi-  
slative investigation of the dry organiza-  
tion.

These statements, said yesterday's  
presentment, reflected on the jurors' in-  
tegrity.

The jurors' presentment charges that  
politics had played an important part  
in their findings and made it clear that  
the recommendation for a legislative  
probe had originated with them and  
not with Mr. Pecora.

### TELLER MISSING; POLICE BAFFLED

Montreal Bank Officials Deny  
Discrepancies in Any  
Of His Accounts.

Montreal, July 26.—The disappearance  
of George H. Thompson, head  
teller at the head office of the Bank  
of Montreal, has puzzled the local  
detective department. Since he de-  
parted from a street car to go down  
town Friday at nine p. m. no trace  
has been found of him.

Bank officials deny any shortage of  
funds or discrepancy in any of the ac-  
counts over which Mr. Thompson had  
supervision. The head teller had been  
working late in the bank for some  
time and it is thought that overstrain  
may have caused loss of memory.

Mr. Thompson, 40, was a native of  
Dr. J. A. Thompson, Sherbrooke, Que.,  
a brother and Mrs. W. Kingston of  
Kinross Mills, Que., a sister.

### TROOPS RECALLED

All Leave Stopped in Spanish  
Army—New Operations in  
Prospect.

London, July 26.—Despatches from  
Madrid received by Reuters' cables  
yesterday that he had been recalled  
saying that all leave of absence in the  
Spanish army at Melilla, Spain, have  
been stopped and that all members of  
the rank now on leave of absence have  
been urgently recalled.

Recently there have been no reports  
of unusual activities on the part of the  
Moorish tribesmen who are warring  
with Spaniards in Morocco. It is prob-  
able, however, if the Madrid reports are  
correct, some new military operation is  
in prospect.

### Says Woman Author Of Poison Pen Letters

New York, July 26.—Cleared by  
Judge McIntyre in general sessions  
yesterday, of indictments charging for-  
gery and authorship of scores of "pois-  
on pen" letters Geo. Maxwell, music  
publisher, announced he knew the au-  
thor of the letters.

"The thing will not be dropped," he  
said. "We know the author of the let-  
ters. It is a woman. I will leave no-  
thing undone to bring about just and  
legal retaliatory measures."

Mr. Maxwell refused to say whether  
he would take action against Allan A.  
Ryan, who was responsible for his in-  
dictment.

### GRINDING OUT MARKS BY THE TRILLIONS DAILY

Berlin, July 26.—The German money  
presses are now reeling off notes to the  
amount of more than two trillion  
marks daily. It was announced today  
the output is being speeded up in or-  
der to enable the Reichsbank to supply  
the demand for notes of large denomina-  
tions.

### AUSTRALIANS CRITICAL OF OUR POLICY

Obligation Regarding the  
Defence of the Pacific  
Stressed

IMPERIAL ATTITUDE

British Stand on the Tariff  
to Await Conference  
Debate.

(Canadian Press)  
London, July 26.—The London Daily  
Telegraph's Sydney correspondent  
quotes the Sydney Sun as commenting  
as follows on Premier Bruce's speech  
Tuesday, in which he demanded for  
Australia a greater part in framing  
the foreign policy of the Empire:

"We must do our share in the mat-  
ter of defence and call upon the other  
Dominions to do their share. If Canada  
refuses to play her part in the defence  
of the Pacific—the present contribution  
to its defence is only 16 pence a head  
compared with Australia's 98 pence—a  
pressing obligation remains. There is  
no excuse for Canada if she defaults."

The Sun further declares that the  
effect of Premier Bruce's plea for a  
stronger voice in the policy of the Em-  
pire is that Australia refuses to be  
dragged into the Empire's wars with-  
out the fullest enquiry and the most  
definite assurances.

Britain's Intentions.  
London, July 26.—When introducing  
the Colonial Office estimates in the  
House of Commons yesterday, W. G.  
Ormsby-Gore, Under Secretary for the  
Colonies, declared in answer to a ques-  
tion that the government would not at  
present disclose its attitude on the  
question of modification of tariff pre-  
ferences.

Asked by Captain Wedgwood Benn  
(Liberal) whether he proposed to pur-  
sue on tariff matters the forthcoming  
Imperial Conference, the Under  
Secretary replied:

"Certainly not. The matter will be  
raised by Australia, and until the  
views of the Dominions have been  
heard, it is not for me to say what  
the British Government will do here  
and now and they are going to agree to  
and otherwise. This is to be a confer-  
ence of equal Government, and to bang  
bar and close the door now would be  
resented by every Dominion."

This statement was greeted by  
cheers from the Government side.

"Our administration of the trust  
must stand eventually before the judg-  
ment of history, and thereon we will  
be judged as an Empire," concluded  
Mr. Gore.

The motion to reduce the Colonial  
Office vote was defeated by 207 to 186  
and the estimates were adopted.

### FARMER IS FLEECE

St. Esprit Man Claims He Lost  
\$4,000 After Winning in  
Card Game.

Montreal, July 26.—Octave Verne,  
a farmer of St. Esprit, told Chief of  
Police Boulianne, of Points Aux Trem-  
bles yesterday that he had been robbed  
of \$4,000 in a card game at Ste.  
Epiphane by two men. The men, he  
said, were negotiating with him for  
the sale of his farm and had been  
staying at St. Epiphane for some days  
past. They called yesterday and in-  
vited him to take part in a card game.  
Verne says he went to the bank and  
drew out \$4,000. After playing for  
some time and winning, he put his  
money on the table, thinking they  
would settle with him. One of the men  
took up his money and went down-  
stairs with it. The other followed on  
the pretext of seeing what the first  
was doing. Verne waited a short time  
and then followed the men in line to  
see them driving off with two other  
men in a motor car.

### MOTOR CAR HITS A COW MOOSE

(Special to The Times)  
Fredericton, July 26.—John McLean  
of McAdam while motoring to Vanco-  
ver struck a cow moose breaking both  
its hind legs. It got as far as Vanco-  
ver. Johnston located the animal, de-  
stroying it.

### Striking Operators Vote to Resume Work

Boston, July 26.—The striking tele-  
phone operators of New England in  
their ballot yesterday voted to return  
to work. Miss T. Sullivan, general sec-  
retary of the Boston local telephone  
operators' department International  
Brotherhood of Electrical Workers, an-  
nounced today upon the completion of  
tabulation of the vote.

### When a Sheikh's Not a Shiek!

A 19-year-old "sheikh," taken into  
custody by Chicago police, turned out  
to be a woman. She gave her name as  
Mrs. Blanche Voorhees McIntosh,  
Danville, Ill., and said she donned men's  
clothing to aid in getting a job. With  
her was a man alleged to be involved in  
five highway robberies. Mrs. Mc-  
Intosh denies knowing anything about  
any robberies.

### Jewish Seminary In New York Gets Gift Of 40,000 Rare Books

New York, July 26.—Forty thousand volumes, written by hand on parchment, some of them dating back as far as 640 A.D., have just arrived from abroad, and are being unpacked in the library of the Jewish Theological Seminary.

The collection, presented to the seminary by Dr. A. S. W. Rosenbach, was gathered in many years of travel over the entire civilized world by Elkan Nathan Adler, famous globe trotter, and its possession is said to make the seminary the Jewish cultural centre of the world.

### SPECIAL SESSION MAY END TODAY

Manitoba Premier Expects  
Liquor Bill to Be Enacted  
Tonight.

Winnipeg, July 26.—With the opposi-  
tion groups, according to the leaders,  
as eager as the Government to get the  
special session of the Legislature  
closed, the session is expected to end  
today. The session was opened yesterday  
afternoon by the reading of a message  
from the Governor-General, and was  
brought to a close tonight.

Premier Bracken, at any rate, gave this  
as his opinion after first reading of  
the measure and following seven con-  
tributions to the debate on the reply to  
the speech from the throne.

### Leslie Wilson Named New Bombay Governor

London, July 26.—It is officially an-  
nounced that Leslie Wilson, M. P.,  
Conservative, South Portsmouth, parlia-  
mentary secretary to the treasury,  
has been appointed Governor of Bom-  
bay in succession to Sir G. A. Lloyd,  
whose tenure expires in December  
next.

Col. Leslie Wilson was parliament-  
ary secretary to the treasury in both  
the Lloyd George coalition and the  
Bonar Law Government. He has also  
served as chief Conservative whip since  
1921.

Commander Evers-Moncell, now  
parliamentary and financial secretary  
to the Admiralty succeeds Col. Wilson  
in the treasury department and Major  
A. B. Boyd-Carpenter becomes finan-  
cial secretary to the Admiralty.

### Weather Report

Forecasts:—  
Clearing.  
Maritime—Moderate to fresh westerly  
to northwesterly winds; clearing;  
Friday fair; not much change in tem-  
perature.  
North Shore—Fresh winds; rain  
clearing on Friday.  
Ottawa Valley—Moderate winds;  
line; not much change in temperature.  
Friday mostly fair; showers in some  
localities.  
New England—Fair tonight and Fri-  
day; rising temperature Friday; light  
to moderate northerly winds, becoming  
variable Friday.

Muskegon, Mich., July 26.—"If you  
live in Muskegon County and operate  
a still in the house, your wife is equally  
guilty with you in violating the liquor  
law," Judge Vanderveer decided in the  
Circuit Court yesterday.

Judge Vanderveer announced that in  
future cases of home liquor-making,  
wives must suffer the penalty as well  
as their husbands.

"No married man can break the law  
in his own house, unless his wife con-  
sents," he said.

### TEN MINES RESUME AS STRIKE ENDS

Troops Stay in Sydney as  
Officials Seek Missing  
Mine Books.

POLICE REDUCED

Sydney Mine Collieries Are  
Expected to Start Early  
Next Week.

(Canadian Press)  
Sydney, N. S., July 26.—Military of-  
ficers in command of the troops now  
in Cape Breton declared today to the  
Canadian Press, they had no informa-  
tion official or otherwise, of the im-  
pending removal of the soldiers from  
the strike area.

Col. Eric W. MacDonald, commis-  
sioner of the provincial police said he  
was reducing his force about 90 per  
cent, but added that the troops would  
continue to remain in Cape  
Breton for at least a week or possibly  
two weeks.

Ten collieries are working in the  
South Cape Breton coal fields, so of-  
ficials of the Dominion Coal Company  
stated today and conditions are grad-  
ually returning to normalcy. At Syd-  
ney Mines the collieries are still idle  
and it is not likely that work will be  
resumed until early next week.

Books Are "Lost."

No trace has yet been found of the  
books, official documents and corre-  
spondence of the United Mine Work-  
ers' District 26, which have been miss-  
ing from the headquarters in Sydney.  
There is little prospect that they will  
be found to undergo the audit pro-  
posed by Silby Barrett, Provisional Pres-  
ident. No notice has been taken by the  
district leaders of an ultimatum issued  
by the lawyers for the provincial of-  
ficers that they must turn over at  
once all the missing property.

Is Given Ovation.

J. B. McLachlan, deposed secretary,  
arrived in Sydney yesterday and re-  
ceived a great ovation from 800 steel  
men.

Men are being hired steadily for  
work in the coal fields and there are  
few complaints of discrimination  
against the strikers.

Born Byng of Vimy, accompanied  
by Lady Byng, arrived in Sydney last  
evening and was given a rousing wel-  
come. A floral key to the city was  
presented by Lady Byng and an ad-  
dress of welcome read to the Governor-  
General. At the conclusion of His Ex-  
cellency's reply M. Ross, a striking  
steel worker, stepped forward and  
read an address on behalf of the strik-  
ers in which His Excellency was asked  
to try to bring about a settlement  
of the local labor trouble. Baron Byng  
made no reply on coming out of the  
city, and caused a loss of \$8,000. The  
vice-regal party will tour historic  
Louisbourg.

### A Big Seizure of Undeclared Gems

New York, July 26.—Customs of-  
ficials seized jewelry valued at \$10,000  
found in the baggage of Frank Audin-  
ore, "Millionaire Stereotype" of Brook-  
lyn, on his arrival yesterday on the S.  
S. Homerus. It was charged that he  
had failed to declare the gems.

### Bolt Hits In Four Places at One Time

Regina, July 26.—Simultaneously  
striking four objects, house, barn,  
windmill and small dwelling, a bolt of  
lightning about midnight last night set  
fire to buildings on the dairy farm of  
George Zaitz, two miles east of the  
city, and caused a loss of \$8,000. The  
storm followed a day of intense heat.

### Canada Gets Seaplane For Fire Fighting Work

Montreal, July 26.—The seaplane E.  
U. was launched here yesterday, made  
a short trial flight, at the end of which  
it became the property of the Canadian  
Government. It will leave for  
Ottawa today. It cost \$20,000 to build,  
and is equipped with 350 horsepower  
Rolls Royce engine. The seaplane is  
the first of six now being built here  
and will be used in fighting forest  
fires.

### Refuse to Dismiss Injunction on I. W. W.

Sacramento, Calif., July 26.—A  
motion to dismiss the temporary in-  
junction against the Industrial Work-  
ers of the World and its officers re-  
cently granted Sacramento county, and  
directed at the activities of the orga-  
nization throughout the state, was dis-  
missed in the Superior Court here yes-  
terday by Judge Giann.

## A LONE MAN WINS RICHES FROM SOIL

Lars Beck Comfortable Now Though He Began on a Desolate Tract.

New York, July 26.—In the Roman Valley, Montana, there was, seven years ago, eighty acres of untilled soil. The land was twelve miles from the nearest town, and it was bounded on the west by desolate hills where coyotes began to bark when night fell. Came Lars Beck, alone and with all his earthly possessions on his back. He eked off the eighty-acre tract and set about breaking the soil to make it ready for planting.

He married, sowed two acres of alfalfa and began grading two scrub beavers up to the point where they would become Holsteins. How he fared from then until the present is told by Rev. Ralph Carleton of Roman in an article written for the Reclamation Record.

"Each succeeding year he enlarged his alfalfa crop. Last year his eight Holstein cows brought him in round numbers \$1,000 worth of dairy products, and he had the by-products in the shape of humus which went back to the land and the milk which went into the production of calves and pork. His hogs, which had cost him practically nothing that he had not raised upon the farm, brought in another thousand dollars. Then, besides the hay consumed on the farm, he sold

## WHAT A BEEZER!

Imagine this old fellow with hay fever! You could hank a red lantern and half a week's wash on that beak. Well, what is it? 'S a big-nose monkey. Rare species from Borneo. This is the only one alive in captivity. He's in the Berlin Museum.

\$200 worth of beef cattle to our local butcher and \$200 worth of alfalfa. "He kept eighty chickens, which gave him an income of \$800 a year, and sold in the local market \$100 worth of fruit and garden truck. All of this added up amounts to the very neat income of \$2,600 a year, besides the food raised upon the farm and consumed by the family. At a conservative estimate this amounts to \$200 more."

Then Mr. Carleton tells how Lars

bought a Ford car, paying \$560 in cash, how he paid \$200 more for a manure spreader, \$150 for the latest model washing machine and \$80 for a gasoline engine and a roller mill.

"A store bill," wrote Mr. Carleton, "is an unknown quantity in his home. His house and barn and outbuildings are not large, but they are comfortable and convenient, and there are no mortgages hanging over them."

"This progressive farmer tells me that with his ever-increasing acreage of alfalfa, in a few years he will have twenty-five dairy cows, better graded than they are now, which at present prices will bring in \$8,000 a year. He expects to multiply his flock of chickens by two and a half and to expand in other ways."

Mr. Carleton says that while there is no "year" that Lars will die a millionaire, he is extracting a very comfortable living for himself and his "very fine" family and that Lars wastes no time "cussing the millionaires and hurling sulphuric bromine at the government," adding: "I honestly think that people of this type are extracting more of the right wealth than any man who ever dealt in the 'frenzied finance' of Wall Street."

## ROMANTIC FRUIT.

Miss Libbie Blacet (top) was a lemon wrapper in Pomona, Calif. A friend, as a joke, signed her name to a romantic note, and put it with the lemons. Tom Fagan (below) of Topeka, Kas., got the lemon, the note—and Miss Blacet. They're just been married.

## SUMMER COMPLAINT CRAMPS and DIARRHOEA

There is no other kind of disease that comes on so quickly and with so little warning as an attack of bowel trouble. One may retire at night, in the best of health, and before morning be awakened by terrific cramps and pains in the stomach followed by diarrhoea, dysentery, summer complaint or bowel trouble in one form or another.

At this season of the year, when bowel troubles are so prevalent, we would advise the precaution of always having on hand a bottle of Dr. Fowler's Extract of Wild Strawberry so that you will be ready for any and all emergencies. You will find that a few doses of this valuable remedy, taken promptly, will be the means of preventing a great deal of unnecessary suffering, and many a time save life.

Mrs. W. H. Judd, 174 Catherine St., S. Hamilton, Ont., writes:—"Last summer I had a very bad attack of summer complaint, cramps and diarrhoea. I tried many different remedies, but they did not seem to help me. I heard of Dr. Fowler's Extract of Wild Strawberry, so decided I would try it. I only took a few doses, and in a short time I was better."

Price 50c a bottle; put up by The T. Milburn Co., Limited, Toronto, Ont.

## MORNING NEWS OVER THE WIRES

Among the arrivals from Europe on the Canadian Pacific steamer Empress of Britain was Mr. Cloutier, Vice General Apostolic, representative of Quebec at Rome. He went to Rome in December last and has returned on a holiday.

Leon J. Camousa, claiming British Columbia as his home, has been arrested in Halifax charged with falsely representing himself as a promoter of a steamship company and with having

secured from Fong Quin, a Chinaman, a sum in excess of \$200. Hall has been fixed at \$1,500. Halifax detectives say that Camousa has been trying to promote a Halifax-New York-Shanghai steamship line for some time. He has been occupying the Sir Sanford Fleming estate on the Northwest Arm for some time and it was understood that he had leased it.

Two boys from Newcastle, aged sixteen and seventeen years, were arrested in Fredericton yesterday on advice from Newcastle. The boys had joined a construction gang going to Ontario without their parents' consent. They were sent back home.

A model of the White Star liner Majestic on display in Nagle and Wigmore's window, is attracting attention. It is five feet in length, and its construction is complete in every detail. It was built by Melvin Hamm of this city.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., THURSDAY, JULY 26, 1923

## NEW BAND OF TRUTH SEEKERS ARISES IN FRANCE

"Philosophers of the Forest"  
Hold Forth at Fontainebleau.

Paris, July 26.—A new band of truth seekers called the "Philosophers of the Forest" have sprung into being in Fontainebleau. Their aim in life is to develop mind and body, through the study of philosophy, gymnastics and the manual arts. Under the leadership of M. Gurdjieff, a Greek, who has traveled much in Tibet, Pamir, Afghanistan, Turkestan and Baluchistan, the little band has grown considerably, numbering among its members some Russians, Americans and Britons of high standing, notably the sister-in-law of the late Lord Northcliffe.

M. Gurdjieff seldom talks with visitors, giving as his reason the fact that he does not speak French very well. Little is known about him except that he returned from his travels filled with new ideas and intending to make his home in Russia. Finding this impossible, he went to Constantinople, then to England, leaving finally at Fontainebleau. He does not live in a glade, nor a grotto, nor in the hollow of a tree, as Le Figaro, "as might be imagined from the name of his followers. The abode of the Philosophers of the Forest is a neat little one-story building with many-paned windows, without curtains, through which the sunlight shines undimmed.

Visitors are sometimes ushered in by a man in an old waterproof cloak, hood in sabbots and wearing gold-rimmed spectacles. A woman of some thirty years, with a slight Russian accent, may be acting as guide. Both of these are students, for Gurdjieff's followers are taught to make themselves useful about the house. "We are not a religious sect," the young woman says, "nor an assembly of philosophers, but a band of pupils of a remarkable man who has undertaken the harmonious development of man."

The lessons are given by the conversational method in a room where the light shines mysteriously through various colored panes. At one end is a deep loggia, draped with curtains and filled with pillows.

This is where the master sits. His pupils are seated in a circle about him on animal skins. Theory similar to Steiner's. M. Gurdjieff's theory is not a new one. It resembles that of the Hungarian occultist, Rudolf Steiner, and consists in dividing man into three elements, thought, emotion and action; that is, in man there are three distinct persons, one that thinks, one that feels and one that acts. Gurdjieff does not put his pupils to special and become mere mechanics, doing the same task over and over, day after day. They should excel in many lines in order to develop harmoniously. Therefore he keeps no servants, and the students take turns in tending the door, doing the cooking, looking after the garden and waxing the floors. In this way the "action" part of man's development is not overlooked.

## Tied By Yeggs, Gets Police By Hitting Phone

Lynn Garage Man, Bound to  
Chair, Falls on Floor to  
Give Warning.

Boston, July 26.—Three men entered the O. Q. Tire Company store at 638 Broad street, West Lynn, recently, held up and bound to chairs the night manager, Michael H. Creamer, who took \$800 from the garage cash box and stole a number of tires. Creamer succeeded in notifying the police by knocking over the telephone and falling beside it to deliver his message.

A man entered the store first and asked for an inner tube. Then he thrust a revolver into the face of the manager, with the order to throw up his hands. Two other men came in at this point and the trio forced Creamer into a back room where he was threatened to shoot Creamer if he made an outcry.

When the police responded to his shouts over the telephone, they found him still tied, lying on the floor. Creamer said that he believed that the bandits had fled to Revere in an automobile, but because of delays in telephone service it was half an hour after the robbery before police of that city could be notified.

Creamer described one of the men as about 30 years of age, 5 feet 3 inches in height, weighing 160 pounds and speaking good English. The other two were about 5 feet 10 inches, weighed 160 pounds and appeared to be foreigners.

## How to Make the Most Delicious Raspberry Jam You Ever Tasted

New Certo process astonishes housewives  
Never fails—only one minute's boiling—retains the delightful,  
natural flavor of the raspberries—so easy to make—and  
your jam costs less—keeping quality excellent

Raspberries are now plentiful at very moderate prices. Sugar is cheap and housewives are putting down more raspberry jam than ever because they have discovered that by the use of Certo they can make the most delicious jam with so little work and at less cost than the old way.

Just take 4 level cups or 2 lbs. crushed raspberries, add 7 1/2 cups or 3 1/2 lbs. of sugar. Stir and bring to a vigorous boil over a hot fire. Boil hard one full minute, continually stirring.

## AN INVITING SPOT IN WOODS OF ONTARIO

Camp in the woods for sportsmen and tourists.  
Canadian Pacific Bungalow Camp near Kenora, Lake of the Woods. This camp with two others, one at French River and the other at Nipigon, where recently opened and they have provided a novel and most desirable means of tourist accommodation. In the heart of the best fishing country on the continent they provide in addition to the comforts usually found in country hotels, solitude and solitude. The establishing of these camps will no doubt go a long way in directing the American tourist trade to Ontario.

At yesterday's session of the British Empire Forestry Association in Ottawa a message of greetings and good wishes for the future was read from the Prince of Wales, president of the association. The delegates will leave Ottawa today for Quebec and the Maritime Provinces via the C. N. R. They will return to Ottawa on August 4 when business will be resumed until the week terminating August 11.

## CLOTHS FAVORED IN PARIS.

Fabrics in Use by the Couturiers and the Colors Selected.

The increasing value to garment manufacturers here of the mid-season preliminary showings of the French couturiers, which begin shortly, is commented on in a special bulletin issued yesterday by the fashion service department of the Botany Worsted Mills. "Certain progressive silhouettes and fabrics, in consistent relation," the bulletin says, "are established clearly at that time, although to a limited degree. This year the forecasting of the full fashion program of the August openings is a matter of special interest, owing to an uncommonly broad acceptance on the part of domestic coat and suit manufacturers of novel textures, or of standard cloths in a new color range for coats."

Advance information concerning the

dominant fabric range as accepted by the haute couture has been received from various sources and proves of decided interest. The great favor for wool velours, cashmere specialties and Rodier's series, the Marokkaines, the fall developments of the great spring success, Marokkaines, places this group at the top of the list. These cloths, in plain colors, bordered effects and mixed colorings are accepted by every important house.

In the velour group, Velour Jaspé, a fine wool and metal mixture, velours Gangee Pekine, a striped velour, velours Zibella, Popovella and Popovella Jaspé, are leading successes. Plaided velours are regarded with special favor, while Popovella, a wool velour with a rib, obtains recognition. "In the cashmere developments, Kashgarina is retained, as is Kashgarina, a fabric already known to the American market. Paquin will develop a silk and wool more."

"Among the hold-overs from recent seasons are Ralline, Perline, Frizelline (with a velvet version known as Frizelline), and Vellina, a brushed wool sports specialty. Perline, in particular, has been received with enthusiasm in plain colors. Agnelli, costing having obtained strong approval in America, will be watched with special interest. By Renee, a popular house with the

buyers of youthful styles for which Angella was designed, and are now shown in marbled effects.

"One of the most popular Rodier sport novelties was Crepella Pompon. In this country this was established quickly as a leading success in both street and sport shades, but for mid-summer has scored its greatest success in white. Its fall successor is Crepella Confetti, and has been accepted by Callot, Fremet, Paquin, Douillet, Drecoll, Vionnet, Beer, and practically every other house of importance. Oddly enough, the original pompon version was viewed with slight approval by these houses.

"Bordered cloths, showing the design in color and metal, are said to be in demand, the Chale d'Angkor and Cakemine de Ghazan having been retained with unqualified approval. For some time Rodier's arresting and widely varied braids have obtained a gratifying recognition. This year's collection has again been widely accepted."

E. Meyer & Co., have been especially successful in re-creating interest in their striking Brocade de Smyrne by presenting new patterns in beautiful multi-color handling. The entire costume has ordered this novelty. French, in particular, has won admiration. Owing to the high price of Ceres, a metal version, it has been received with some restraint, but it is to be shown to a limited extent.

"Caledonian velours shown in two-announced as among the popular features. In view of the long standing French approval bestowed upon late and gray as winter shades, the raising acceptance here of light cloths will be studied with interest by the American fabric manufacturer."

"Cashmere Mascarille, a novelty in striped cashmere and Velours, Mascarille, a striped multi-colored jacquard velours are also accepted without reserve by the couturiers.

"Colors announced as important for day wear are dark greens of bottle

THE EVENING TIMES AND STAR, ST. JOHN, N.B., THURSDAY, JULY 26, 1923

5

### JULY BRIDES

Hatfield-Breen.

A very quiet wedding took place in the Cathedral at six o'clock this morning when Catherine M. Breen and John M. Hatfield were united in marriage at nuptial mass by Rev. E. Reynolds. The bride was attended by her sister, Pauline, and the groom was assisted by Chas. F. Garnett, uncle of the bride. After the ceremony a dainty wedding breakfast was served at the home of the bride's aunt, Mrs. C. F. Garnett, 180 Britain St. Mr. and Mrs. Hatfield were the recipients of many useful presents of china and silver, including a chest of silver from the office staff of the N. B. Telephone Co., where the bride was employed, and a substantial check from the uncle of the bride. Mr. and Mrs. Hatfield left on the noon train for a short honeymoon through the province. They will reside for the summer at River Glade.

### RECENT DEATHS

Mrs. Paul R. Parker.

Last evening in the St. John County Hospital, Mrs. Paul R. Parker died after a lengthy illness. She was born in Chatham, N. B., but had been a resident of West St. John for some years. She is survived by her husband, an employee of the American Steamship line, also by one son George and one daughter, Marie, both of this city. They will have the sympathy of many friends in their bereavement.

### STEALING IN SCHOOLS.

(Montreal Gazette)

Chances for thefts of belongings of pupils attending the schools of the Protestant Board of School Commissioners of Montreal are to be reduced to a minimum by the installation of electrically controlled lockers. The system of electrically controlled lockers has been installed in the Herbert Symonds School, 287 Notre Dame de Grace avenue, and orders have been given out by the board for its installation in the new extension to the Rosemount School; the new Cote St. Paul-Ville Enard School, and in the Commercial High School. The system has

been in operation at the Herbert Symonds School since last April, and has given entire satisfaction, said E. B. Palmer, inspector of schools for the board. "Thefts have occurred, and are bound to occur under the ordinary locker system," said Mr. Palmer, as he declared himself to be a great admirer of the electrically controlled lockers. "Keys are perpetually lost by the pupils," he added. "With the new lockers, when the teacher desires to dismiss a class all she has to do is to push a button in the class room, and the doors of the lockers open automatically, so that the pupils can then march out and take

their belongings. When they come in and hang up their clothes, by shutting the door it is automatically locked and can only be opened again by the pressing of the button inside the class room."

Weather is so hot during July it leaves us no time to cuss the poor street car service.

### Skipper's Cat Plenty Joss

**CAPTAIN A. J. HAILEY, R.N.R.,** master of the Empress of Canada, and his favorite cat, "Speed."

"Speed" has first say on the big ship. This cat, according to Captain Hailey, does everything including talk.

The Empress of Canada had a cat on board when she left Britain's shores, but when Captain Hailey took "Speed" aboard at Vancouver, it was on the upper deck, and the Canadian cat took this as a sign that he was to be supreme in the upper works of the ship.

Never, the cat that was part British and part French, and understood the continental party better than the rear of the lion, straddled forward to meet "Speed" when he decked here, but the effect was electrical.

"Speed" arched his back, negotiated a Sharky swing, and a Corbett hook, and finally made a roller coaster out of Frenchy as the latter sought refuge in the engine room. Since that melee, Speed has moved unchallenged on the main floor.

This does not mean that "Speed" does not go below. By instinct this cat knows when the Chinese crew is celebrating and trying grasshoppers. The big cat is fond of this particular dish and never fails to share it when the special goes along.

Captain Hailey tells a good story about "Speed." Several prominent Chinese were visiting the master of the ship in his cabin in Shanghai, and "Speed" was occupying a cushioned chair near the Captain's elbow. One of the visitors had the regulation Imperial finger nails, and stretched the long and tapering horns out on the table at times to emphasize his remarks.

Captain Hailey noticed the cat watching the long nails, and every time the Chinese fingers moved out on the table, "Speed" stretched his beautifully curved nails out in imitation of the visitor's.

In a storm, "Speed" will seek the rigging of the ship and in a high falsetto do a nocturnal watch that makes the blood of the man on the bridge run cold.

On the whole Captain Hailey says "Speed" is the most entertaining cat he ever owned, and the Chinese say he is a good Joss, and keeps bad luck away.

### Mott Street Incorporates Its Caruso, Raising \$10,000 For Ragini's Voice

Millionaire Offered the Money But Wouldn't Aid the Singer's Family — Then Neighbors Raise Cash — New York East Side Romance.

"Mike Angelo, Incorporated," is a stock not to be found on any curb market.

But the people of Mott street, New York, have so much faith in "Mike" as an investment that they are sinking their hard-earned dollars in him.

Some day, they believe, Michael Angelo Ragini will be another Caruso, drawing a fabulous salary as leading tenor at the Metropolitan Opera, and then the people of Mott street will get their money back, with interest.

But it is not so much the money, as wanting to help Mike Angelo get to the top, that has led Mott street to "incorporate" him, and now they are selling shares in Mike's future at \$25 a share!

As a result of this unique selling plan, this twenty-eight-year-old Italian with the quenchless ambition to sing, will board ship next October for Rome, where he will spend a year and a half in study under Italian vocal teachers.

A New York vocal teacher has taught Ragini for three years without pay.

Now that Mott street is sending him abroad, who can say when he comes home what Mike Ragini's future will be?

Mike says: "The Metropolitan, nothing less."

The main obstacle is poverty. Ragini has ten young brothers and sisters and a widowed mother.

Just how this young man of humble beginning has come to be a thriving "corporation" is a remarkable story.

The story begins years ago when a little black-eyed, brown-skinned boy of twelve found that, when he sang with the hurdy-gurdy man, just twice as big a rain of pennies fell as when the hurdy-gurdy man played alone.

So Mike and a boy companion who had a guitar set themselves up on business as street singers, and at night, when school was out, made the rounds of the cafes, Mike singing and the other boy playing the guitar.

When Mike was sixteen, his father died. Mike left school and went to work in a factory. Nights he boxed, but did not tell his mother. The boxing game in those days was not the gold-mine it might have been, and after a time Mike wearied of fighting nightly for \$5 or \$10, and taking his share of beatings besides.

He quit boxing and took a milk route. Working with characteristic enthusiasm he was given an office job with the company. He attended evening high school and later took evening extension courses at New York University in civil engineering, salesmanship and draftsmanship.

None of these appealed to him as a singer, however. He wanted to be a singer.

As if to answer this determination, the miracle happened. At the home of a New York millionaire, Michael Angelo Ragini was hired to sing one afternoon. When he had finished, a wealthy man drew him aside and offered to send him to Rome to study.

Mike accepted like a man in a dream. Then he asked permission to divert a small portion of the proffered \$10,000 to take care of his mother and younger brothers and sisters while he was gone. This his anonymous benefactor refused, so Mike declined the offer.

When Mott street heard of the refusal of the anonymous giver to help the Ragini, indignation was widespread, and the man who had offered \$10,000 to Mike, but not a nickel to Mike's family, was berated on all sides. The Mott street folks said: "Let Fifth avenue mind its own affairs, and we will send Mike Ragini to Rome!"

The "Ragini Testimonial Trust" was formed by Dr. Vincenzo Buffa and Joseph Mauro, which is well along toward its goal of \$10,000.

### HARM TO UNION LABOR.

(Hamilton Spectator)

The immense harm done to the cause of organized labor by these unauthorized strikes can scarcely be overestimated. For a union to defy headquarters and act contrary to orders is a direct assault upon the organized labor movement. Examples of the same kind of insubordination which has characterized the Nova Scotia disturbances have been frequent of recent times, not merely on this continent, but in Europe. In Britain the dockers' strike against compliance with terms agreed to by the leaders, is the most recent instance. The suspicion is strong that this form of lawlessness has a common foreign origin. The surest way to alienate public sympathy is to act like a Bolshevik. To call President Lewis "the servant of the corporations" because of his efforts to restore authority and compose the trouble, is to say that which is absurd. "The servant of the corporations" would not interfere with action, so well calculated to bring unionism into contempt!

### PROUD OF IT.

(Woodstock Sentinel-Review)

It is not likely that either Livingstone or MacLachlan will repudiate the charge of Bolshevism; it is probable that they are proud rather than ashamed of their Bolshevik sympathies and activities; but they can secretly expect to promote the cause of organization by their methods. It may not labor by their methods. It may not labor by their methods. It may not labor by their methods. It may not labor by their methods.

### LOOK RIDICULOUS.

(St. Catharines Standard)

The Montreal Star, says the Globe, has a right to its own views, but it has no right to make Canada look as ridiculous as it does itself. Canadians are not blue-ruinists, that's certain.

## Tomorrow—The Last Full Day For OAK HALL'S 35<sup>th</sup> Annual July Sale

**Sale Prices on**  
Trunks, Club Bags,  
Suitcases, Travel-  
ling and Motor  
Rugs.

**TOMORROW** will be a big day at this great event. Every article of merchandise throughout our entire store is marked at a substantial reduction. Furthermore, many lines which have become broken in size through intensive selling are now offered during these last hours at such sweeping reductions that it will be to your advantage to be on hand early Friday morning to profit by them. ## BOY SCOUTS ENJOY CAMPING TRIP

On Friday last the East St. John Scouts were visited by some of their parents. Among them were: Mrs. Robert Kirkpatrick, Mrs. Harry Franklin and two daughters, Bertha and Ruth; Mrs. O. J. Lawson and her son, Harry; and daughter, Jessie, and Mr. S. Edwards. When evening came the boys made a Council Fire and a good time was spent around the fire. Recitations and songs were given by Mrs. Robert Kirkpatrick and Mr. S. Edwards. The visitors stayed over night and were of great help in making the sports a great success that were held on Saturday morning. The starter was Scoutmaster O. J. Lawson; timer, Walter Washburn; judges, Mrs. H. Franklin, Mrs. O. J. Lawson, Mrs. S. H. Edwards. The results were: Swimming races—50 yards dash—1, Harry Jones; 2, Clyde Chandler; 3, Stewart Pelkey. Time 20 seconds. Beginners' race—50 feet—1, Clarence Taylor; 2, Walter Whipple; 3, Beverly Kirkpatrick. 20 yards race—1, Clyde Chandler; 2, Harry Jones; 3, Stewart Pelkey. Floating race on back—1, Harry Jones; 2, Clyde Chandler. Diving contest—1, Harry Jones; 2, Clyde Chandler; 3, Kenneth Franklin. Water polo—1, C. Chandler; 2, Pelkey; 3, Kirkpatrick; 2, K. Franklin, H. Jones, E. McAfee. Judges for the races for the afternoon were: Starter, Scoutmaster O. J. Lawson; timer, Walter Washburn; judges, E. R. Kirkpatrick, Mr. J. Pynn, C. Chandler. 50 yards dash—1, Stewart Pelkey; 2, Ernest McAfee; 3, Harry Jones. Shot throwing—1, Clyde Chandler; 2, Ernest McAfee; 3, Kenneth Franklin. Broad jump—1, Kenneth Franklin; 2, Stewart Pelkey; 3, Harry Jones; 100 yards dash—1, Stewart Pelkey; 2, Chandler; 3, Ernest McAfee. Time, 18 seconds. Base ball throwing—1, Kenneth Franklin; 2, Ernest McAfee; 3, Clyde Chandler. Distance, 207 feet, 2 inches. Wheel barrow race—1, Harry Jones and C. Chandler; 2, E. McAfee and S. Pelkey. Potato race—1, Stewart Pelkey; 2, Ernest McAfee; 3, Harry Jones. Three-legged race—1, C. Chandler and B. Kirkpatrick; 2, W. Whipple and H. Jones; 3, S. Pelkey and E. McAfee. Walking race—1, Stewart Pelkey; 2, Walter Whipple; 3, E. McAfee.

The boys left Oak Point on Monday for their homes on the Hampton, and all had a good time. Scoutmaster Lawson deserves great credit for his work with this year's camp.

## TO RELIEVE PAIN AND BACKACHE

Women May Depend upon Lydia E. Pinkham's Vegetable Compound

Minneapolis, Minn.—"I had heard so much about Lydia E. Pinkham's Vegetable Compound that when I realized I needed to take something to relieve my pains and backache, and to help build me up I began to take that. I had been sick off and on for years and barely weighed a hundred pounds, but now I have had such good results that I am recommending the Vegetable Compound to every one."—Mrs. J. J. BAKER, 3808 12th Ave. South, Minneapolis, Minn.

**Find a True Friend**  
"Every woman who values her health should be proud to have a true friend like the Vegetable Compound," says Mrs. W. E. Shaw, 2227 Walnut Street, Chicago, Illinois. "I had female weakness so badly that I could not stand on my feet. Half of my time was spent in bed and I had pains in my back which were unbearable. I tried everything I could think of to help myself, and when a friend advised Lydia E. Pinkham's Vegetable Compound I began to take it. I am now a healthy woman without hesitation."

A brilliant scene at Henley when, in perfect summer weather, the course was lined with pleasure craft. The photo shows Brasenose College defeating the Paris Rowing Club in the Grand Challenge Cup.

## HENLEY ROYAL REGATTA

Get two ounces of peroxide powder from any drug store—sprinkle it on a hot, wet cloth, rub the face briskly. Blackheads simply dissolve and disappear by this one simple, safe and sure method.

## PROPOSES TO GLUE UP RATS OF REVERE IN THEIR HOLES

Boston, July 26.—Revere's army of rats will founder in a sea of glue, if William C. Geckie's tangle-foot method of extermination is adopted by the board of health.

## SAVE WOMAN'S LIFE, SUED FOR DAMAGES

Paris, July 26.—Mme. Leonier preferred death to inability to become a mother. She was taken to a hospital to undergo a minor operation and the surgeon discovered she was suffering from a cancer.

The doctor performed a more serious operation which, while it saved her life, deprived her of all hopes of motherhood.

"I would rather die than go through life without children," said Mme. Leonier, filing suit for \$5,000 francs. The doctor should have arrested the minor operation, brought me out of the amnesia and consulted me concerning the other operation. I would never have given my consent."

The Paris courts decided against Mme. Leonier.

## HOW THEY DID IT

(London Daily Express.)  
Four race-gangs at Castle Bromwich, Birmingham, found that the only way they could reach Manchester in time for an engagement was to stop an air express.

They rang up a Daimler on its way from Croydon to Manchester, while it was over Watford, by means of the wireless telephone at Castle Bromwich aerodrome. The pilot picked them up. They were so delighted at reaching Manchester in time that they booked seats for Ascot by air.

At the request of the board, Geckie, a Boston sanitary engineer, investigated the rat situation in the Shirley avenue district on Beach street, Arcadia street and at Oak Island. He blamed unsanitary conditions at inland garbage dumps, in slaughter houses and in and around tenements.

His suggestion is that the rats be glued to their holes. By smearing heavy glue on boards at the entrance to the rats' quarters, 100 of them were caught in one Lynn building last week by Mr. Geckie's agents.

He also recommends that girls and boys organize Pied Piper clubs, and that the city offer prizes for rat catching.

## NEW SEA RESEARCH STATION

Scientists Invited to Use Bergen Museum Facilities in Norway.

New York, July 26.—A new marine biological research station has been opened by the Bergen Museum to replace the old one discontinued some years ago. In forming the American Association for the Advancement of Science of this fact, August Brinkmann, Director of the Bergen Museum, emphasizes the important services rendered to Norwegian and foreign scientists by the old station and say that

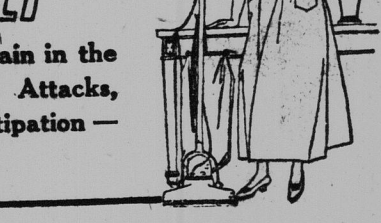

all facilities are again available to research workers of this country.

"The new station," Mr. Brinkmann writes, "is situated on the Island of Herdla in the archipelago, about seventeen miles from Bergen. There is a perfect supply of sea water, and the laboratories are as close to the work-

Children grow healthy and free from colds, diphtheria, whooping cough and other trouble if given it at the first sign of trouble. It is pleasant—always brings remarkable and gratifying results.

It is understood that the Chevrolet car, which was damaged when it backed against the side of the Bank of Montreal, Tuesday evening, is not owned by H. L. Blagden, of Fairville, as was reported. The car is listed at police headquarters as being owned by Mr. Blagden, but the latter says he sold his car of that make last fall.

The west coast of Norway offers a very rich field for marine biological work, and, owing to the great variety of bottom and depth, the fauna is correspondingly varied. The archipelago, consisting of many smaller and larger islands, also makes the sea surface calm enough for this kind of investigation, in spite of the proximity of the open Norwegian Sea. The sea never freezes over, and it is thus possible to collect material throughout the winter, while at places even further south ice prevents this.

Concord, N. H., July 26.—Harold Eager, a federal prohibition deputy, was driving leisurely along the Daniel Webster highway this afternoon. A car passed him, going at a speed indicating a purpose to get somewhere in a hurry, but not so fast that an aroma, pleasing though suspicious, escaped Eager's trained nostrils. Eager gave chase and overhauled the car, held up the driver and showed his badge. "Look it over," said the man with a bored wave of his hand toward the back seat of the car. Eager looked and found four crates of melons.

Concord, N. H., July 26.—Harold Eager, a federal prohibition deputy, was driving leisurely along the Daniel Webster highway this afternoon. A car passed him, going at a speed indicating a purpose to get somewhere in a hurry, but not so fast that an aroma, pleasing though suspicious, escaped Eager's trained nostrils. Eager gave chase and overhauled the car, held up the driver and showed his badge. "Look it over," said the man with a bored wave of his hand toward the back seat of the car. Eager looked and found four crates of melons.

It is understood that the Chevrolet car, which was damaged when it backed against the side of the Bank of Montreal, Tuesday evening, is not owned by H. L. Blagden, of Fairville, as was reported. The car is listed at police headquarters as being owned by Mr. Blagden, but the latter says he sold his car of that make last fall.

The west coast of Norway offers a very rich field for marine biological work, and, owing to the great variety of bottom and depth, the fauna is correspondingly varied. The archipelago, consisting of many smaller and larger islands, also makes the sea surface calm enough for this kind of investigation, in spite of the proximity of the open Norwegian Sea. The sea never freezes over, and it is thus possible to collect material throughout the winter, while at places even further south ice prevents this.

## AIR SHIP CRASHES IN NEWPORT LANDING

H. Cary Morgan's Leg Broken as a Trip From New York Was Ending

Newport, R. I., July 26.—After having flown 20,000 miles safely since the opening of the line on regular and chartered trips, one of the air yachts of the New York-Newport Air Service, the "Fleet Wing," met with its first mishap here last Friday as it was making a landing after a fast and uneventful trip from New York. As a result H. Cary Morgan of New York is at the naval hospital with a compound fracture of the left leg below the knee.

The other passenger on the airplane, Harold Fowler, also of New York, escaped with no more serious injury than a ducking in Codding Cove. The pilot, H. H. Thorburn, was uninjured, though he was taken to the hospital for observation after being rescued from the water.

The airplane is badly damaged, having turned completely over as it struck the water. It was towed to the shore.

## CANADIANS SHOOTING WELL AT BISLEY

The photo shows from left to right: A. E. Swift, Inspector T. V. Savdys-Wursh (champion revolver shot of Canada), and Sergt-Major W. A. Hawkins, a previous winner of the King's Prize. The Canadians are making high scores at Bisley. In one event Sergt-Major Hawkins scored 46 out of a possible 50.

by two navy boats and an effort will be made to right it tomorrow to ascertain the exact damage.

The terminal of the line being so close to the naval station, there was a prompt response from officers and men there to aid in the rescue work. Their assistance was invaluable and the facilities of the naval hospital were immediately offered.

water hard. It came down on a slant and the lowest of the pontoons, striking the water first, "dug in." The momentum of the machine was such that it turned completely over.

After the accident Pilot Thorburn was at a loss to explain what had caused the machine to fall as it did after having run perfectly all the way from New York. Manager Grover Loening of the line, who was standing on the shore watching the airplane come in, was also unable to explain how the accident happened.

The belief is that the fall was caused by some fault in the wind.

Mr. Loening said that he regretted the accident extremely, but that the line's trips would be continued according to the schedule, and that the Sea Bird would take the place of the Fleet Wing. He took personal charge of the rescue work at the time of the accident and accompanied Mr. Morgan to the hospital.

### A He-Man Combination

**Mennen Shaving Cream and Mennen Talcum for Men**

Mennen Shaving Cream possesses an almost miraculous power to soften the beard. Requires no rubbing in. Gives comfortable shaves and contains Bor-glycerine, which keeps the skin in great condition.

Mennen Talcum for men is as popular as the Shaving Cream. It is compounded and tinted exclusively for the masculine skin. Use it either for "after shave" or after bath. Keeps clothes from sticking and limbs from chafing.

## KILLED IN QUARREL OVER A CIGARETTE

Staten Island Plumber Shot to Death on Street by War Veteran

New York, July 26.—August Santoro, twenty-nine years old, a plumber of New Brighton, S. I., was shot and killed by Pasquale Calantrone, twenty-nine years old, an ex-soldier of New Brighton, in an argument over a cigarette.

Santoro was shot through the heart.

Calantrone, according to witnesses, was walking through Stanley avenue with Angelo Francino, when a man headed in the opposite direction stopped them and asked Calantrone if he had a cigarette.

"Why don't you buy some?" Calantrone answered.

"I would if there were any stores open. I think you need a punch in the nose for getting fresh."

With that Santoro, a much smaller man than Calantrone, struck the latter on the face. Calantrone ran away, going, as it was later discovered, to his home. He returned a few minutes later and found Santoro where he had left him. When Santoro saw Calantrone approaching he leaped behind a tree, as persons near by warned him that the other man had a pistol. Calantrone, however, chased Santoro from his hiding place and opened fire. Santoro dropped dead at the first shot.

When he was returned to the West New Brighton Station he alleged that he had shot Santoro in self-defence, saying that if he had not killed Santoro the latter would have killed him. No pistol was found on the body of the dead man.

District Attorney Molloy and Captain of Police Van Wagener attempted to question the man later, but he remained silent. The dead man was married and the father of four children. Calantrone is also married and has one child. He had been a resident of New Brighton for four months.

THROUGH WINDSHIELD INTO VESTIBULE OF TROLLEY

Haverhill, Mass., July 25.—Nicholas Murphy of Maple street, Lawrence, was thrown headlong through the windshield of an automobile and into the vestibule of a street car here, when the machine crashed head-on into the car.

Fred Richardson, the motorman, escaped injury by jumping, but the front vestibule of the car was badly smashed. Murphy was taken to the Gale Hospital and treated for cuts in the head and severe bruises. He was accompanied to the hospital by his son, George, who was simply suffering from severe shaking up. Three other men who were in the machine ran away and could not be found. The automobile was registered in the name of George J. Atherton, 74 West Central street, Manchester, N. H.

Hawaii is importing a certain kind of bug from Australia to kill another that is doing great damage in Hawaii.

## FRANK CALLS FOR STIP CITY TO GET BUSINESS

Says Council Members Letting Trade Get Away to Other Ports.

A charge that the members of the Council were lying down on the job and letting trade for the port get away to other ports because of lack of effort was made this morning by Commissioner Frank at a committee meeting and he advised that somebody get busy and do some pushing for business and port facilities.

Mayor Fisher reported that he had arranged for the McLaughlin Motor Sales Co. to present their appeal from the 1922 assessment to the Council.

Miss Hazel Corker, representing the Tourist Guide, printed in Toronto, was introduced by E. E. McIntosh.

Commissioner Bullock moved that the difference between what he had received from the Workmen's Compensation Board and his full pay for time lost on account of injuries received while on duty. Laid over for further information.

Commissioner Bullock moved that the sidewalk on Rodney wharf be paved with asphalt at an estimated cost of \$1,000, the work to be done by the public works department and charged to harbor revenue.

Commissioner Frank said he thought it was about time the Council placed itself on record as to its intentions toward the port. On all sides one heard of the bumper crops in the west and of millions of bushels of grain going through Vancouver, and yet there was very little heard of St. John. It seemed to him the people here were getting a little small fish and letting the big fellows get away. It was high time for some one to do some pushing.

Mayor Fisher suggested the Commissioner of Public Works do some of the pushing himself and Mr. Frank replied that he thought it was a small credit to himself for what had already been accomplished.

Commissioner Bullock said he was ready to support any move to provide more and better facilities and if it was made plain the government would not act then he would favor the city spending its own money. He believed that if the C. P. R. and the city were acting together they could get action under the Tri-Partite agreement. He also suggested that the way to get business was to send a representative of the city as the most to deal directly with the shippers and transportation companies.

The motion to pave the Rodney wharf sidewalk passed.

## RED CROSS WORKSHOP IN THE HAMM BUILDING

The signing of the lease for the building in the two west side committee, the lease of the old Hamm building in Main street, lately used by the Parley Motor Sales Company. The building was taken on a nineteen month lease.

The executive of the local society signed with the two west side committee, the lease of the old Hamm building in Main street, lately used by the Parley Motor Sales Company. The building was taken on a nineteen month lease.

PROMINENT SCOUTS HERE.

PARKER—At the St. John County Hospital on July 26, 1923, after a lengthy illness, Annie Parker, wife of Paul R. Parker, leaving her husband, one son and one daughter to mourn.

Funeral on Friday from Brennan's, 715 Main street. Service at 2 p.m.

## Annexation Bugaboo Dead, Says Harding

U. S. PRESIDENT ADDRESSES LARGE CROWD IN VICTORIA

Pays Tribute to Dominion Government—First President in Office to Set Foot On Canadian Soil.

(Canadian Press)  
Vancouver, B. C., July 26.—"The annexation bugaboo of the U. S. scheme to annex Canada disappeared from all our minds years ago," declared President Warren G. Harding, speaking before a huge crowd in Stanley Park here today.

"Heaven knows," he continued, "we have all we can manage now, and room enough to spare for another hundred million, before approaching the intensive stage of existence of many European states."

"And, if I might be so bold as to offer a word of advice to you, it would be this: Do not encourage any enterprise looking to Canada's annexation of the U. S. You are one of the most capable governing peoples in the world, and you are one of the most patriotic."

"No, let us go our own gait along parallel roads, you helping us and we helping you. So long as each country maintains its independence and both recognize their interdependence, those lips cannot fail to be highways of progress and prosperity. Nationality continues to be a supreme factor in modern existence. Our very propinquity enjoins that most effective cooperation which comes only from friendship."

"It is in that spirit that I have stepped on my way home from a visit to our pioneers in Alaska to make a passing call upon my very good neighbors of the fascinating province of 'Kana-da' to whom, glorious in her youth and strength and beauty, on behalf of my own people, I stretch forth my arms in fraternal greetings, with gratefulness for your splendid welcome in the heart of the great northwestern corner of the world."

"You are not only a neighbor," he said, "but a very good neighbor, and we rejoice in your advancement and assure your independence, no less."

Referring to the fact that he was, with the single exception of his immediate predecessor, the first president to set foot on political foreign soil, the president stated that such inhibition, which developed into a treaty, might have been desirable in the early days when time was the chief requisite of peace. Assuredly, too, at present, the chief magistrate of a great republic ought not to cultivate the habit of internationalism, but to be a citizen of the earth. But Canada was an exception, a most notable exception, from every viewpoint of the U. S. A. Good Neighbor.

Twenty-five members of the Fredericton Golf Club have gone to Woodstock for an all-day match with the Woodstock Club today.

## Loaded For Bear, Police Land Pork

Detroit, July 26.—Four stalwart patrolmen sallied forth yesterday, armed to the teeth and loaded for bear, but found only pork.

A telephone call to police station carried the disconcerting information that a grizzly bear was roaming about Highland Park, a suburb. The officers, armed with rifles, responded.

After diligent search they learned the creature was penned in a garage. They opened the door and prepared for the worst. A bulky police officer had escaped from a farmer's wagon, greeted them with a friendly grunt.

These are the bear facts.

## No Police Clerk For Some Days

That no recommendation for the filling of the vacant office of clerk of the Police Court would be made for a few days was said at the committee meeting of the council this morning.

Mayor Fisher said there seemed to be a question as to who should make the recommendation, himself or the Commissioner of Safety, and he was not ready to make one if it came within his jurisdiction. In his mind it was a question whether there should be a promotion of a new man appointed, and he had not decided which would be best.

Commissioner Thornton said the official status of William Walton was as assistant to the clerk of the Police Court, although he had been appointed as clerk of the City Court, but the act was also clerk of the City Court. He expressed the opinion there was no hurry in making an appointment, as Mr. Henderson was carrying on very successfully.

## GOOD THINGS COMING TO THE THEATRES OF ST. JOHN

Marion Armstrong, Scottish-Canadian soprano, will sing two new numbers at the Imperial tonight, namely that dear old ballad "When the Swallows Homebound Fly (White), and "Her Love Song (Sister). Madame Nikoloff, pianist, will render that well-known classic "Prelude in G Sharp Minor" by Bachmannoff, and "Ragtime Dance," by Cyril Scott. While the Imperial has enjoyed especially large patronage already this week, it is still many music lovers who have been unavoidably prevented from hearing this new programme will display the talents of the performers quite as brilliantly as that of the earlier half-price week.

The picture feature is Herbert Rawlinson's stellar vehicle, "The Prisoner," a picture of George Barr McCutcheon's novel "Castle Crannycroft." Two comedies as well, "Tomorrow Jack Red" and "The Tiger's Claw" and a Sherlock Holmes story, "The Solitary Cyclist."

## AN OFFENCE AND A REMEDY

In the evenings and on Sunday afternoons hundreds of citizens make a practice of strolling down Dufferin Avenue, Portland Place, in order to admire the pretty lawns and flower gardens of the residents, who are working together and making this section one of the beauty spots of the city.

This morning a new type of garden pest is reported to have made an appearance, nibbling off geraniums, nasturtiums, marigolds and sweet Williams. Paris green, arsenate of lead, bug-spray and insecticides cannot be used as a remedy for this condition, as the blight struck the gardens in the shape of three boys, who were not so much interested in the plants as in the lawns. One of the residents who suffered the heaviest loss thinks that a good home remedy would possibly effect a cure, but it would have to be applied in the right place, at the right time and by the right administrator.

## RUNAWAY AUTO IN KING STREET

About 8:45 o'clock this morning a Ford truck, owned by J. Bates, United Garage Company, while standing in front of T. McAvity & Sons' store in King street, started down the hill unoccupied, and brought up to a halt curbing in front of the Lake of the Woods Milling Company's office in Market Square. Everett Hopp, 222, a driver, said that he had left the car with the brakes on and the wheels to the curb, and was at a loss to explain how the car got started. It ran down King and across Market Square. One hind wheel was broken and a rear fender damaged. The wheel was replaced later and the car taken away.

## WILL BE FULL REPORT ON SPRUCE LAKE MAIN WORK

Mayor Fisher at this morning's meeting of the council asked that a report be submitted by the city engineer on the progress of the repair work on the Spruce Lake water main, with special reference to the cause of the failure of the pipe. He said the citizens were very anxious to know what was being done and why the work was necessary.

Commissioner Wignome said it was his intention to present a full report, together with one from the engineer, when the repairs had been completed, which would be in about a month. The explanation given by the contractors was that the water had been turned on too quickly and it had shattered the pipe. The report were being made at the expense of the company who installed the main and there was no extra cost to the city.

## HARRY TAKES ON THE JOB.

Opportunity knocks but once at every man's door and if he turns a deaf ear he may as well fold up his hands. The man who is ready to take occasion by the hand may walk the broad highway of fame and mount at the end the throne of the victorious conqueror. So it was today with Harry Needham of the public works department. City.

Knocked in the form of a pressing invitation, backed by a strong delegation, to become the controller of the destinies of the Civic baseball team.

Mr. Needham, in a few well chosen words, managed to convey the impression that he would accept the honor. One of the delegates, George McKinnon, presented a bouquet in honor of the occasion.

## THE JUNIORS.

The Young Portlanders defeated the Bluebirds in the North End Improvement League diamond this morning, 6 to 2. The batteries were—winners, Fenney, Doucette, P. Yeomans; losers, Patterson, Matheson, Webster.

## PLENTY OF CACKLE AND LOTS OF FUN

Ancient and Honorable Blue Goose Order Picnic at Loch Lomond.

Though geese are supposed to be in their native element during a rain storm, there is one breed of geese that hunk in lusty protest against the rain one day in the year. That goose belongs to the class known as the Ancient and Honorable Order of the Blue Goose, and includes geese and goslings engaged in the insurance business.

In St. John yesterday they departed for Loch Lomond amid much noise and plans were all laid for a day in the great outdoors. An unkind fate, however, decreed that it should be a rainy day, and thus put a serious crimp in the outdoor programme. Some racing events which had to be postponed were expected, on information from the Royal Gander L. W. Nickerson contained in his opening address at Loch Lomond, to be run off today in Canterbury or Prince William street. Despite the utmost vigilance of the scribe, however, there was a good attendance of members and guests. Arrangements for sports were in the hands of C. W. Ellisworth. Refreshments were in charge of Keeper of the Golden Goose Eggs, F. W. Fowler, assisted by Peter Clinch. Transportation was in charge of Most Loyal Gander L. W. Nickerson.

Arrived at Loch Lomond a start was made at a baseball game between the Corkscrews, captained by Douglas McKean, and the Crown Caps, under Harold Fowler. The game had to be called in many cases. Among the events scheduled were a fifty yard race for the officers of the order, a seventy-five yard race for the adjutants, and a fifty yard race for managers only, a fifty yard race for guests only, a seventy-five yard race for adjutants, inspectors and others, a fifty yard race for returned soldiers and sailors, a seventy-five yard race for returned children, a fifty yard race for married men with only one wife, a free-for-all race for all who were willing to take part. The rule was laid down that contestants must weigh 170 pounds or more. Because of this there were no contests, three-legged races, a wheelbarrow race, a walking race, tug of war, quoits and table games. The latter, where the game was not hindered by the rain, were played with pasteboards and cube bones.

The committee in charge regretted that, owing to out-of-town work they had not had time to arrange for the laying out of an evening team. In this scientific and strenuous game, the most loyal Gander L. W. Nickerson table events were to be selected from those honorable and eminent gentlemen who had participated in these events. The thanks of the committee was expressed to A. E. Speight and R. C. Mitchell for the donation of a watermelon to be given to the winning team.

When the sports had been given the party went to Johnston's Hotel where an excellent meal was served. Most Loyal Gander L. W. Nickerson presided and among the charming and witty after dinner speakers were J. Cecil Mitchell, president of the board of fire underwriters; Peter Clinch, secretary of the board; Fire Marshal Hugh H. McLeod and George John J. Macdonnell.

The committee in charge of the sports were commended by R. D. Magee and R. D. Fugate.

## PORTLAND AFTER C. P. R. SAILINGS

That Portland, Me., still has hopes of having the C. P. R. running a regular line of steamer from that port to Liverpool and Glasgow was evidenced in an article in the Portland Press Herald on Saturday in which it was stated that a conference had been held between the controller of the new State Pier which will be ready for business this winter, and representatives of the Canadian Pacific. As a result of this conference it was stated that it was almost sure the C. P. R. would be operating a line of steamers from that port this winter.

## AT THE HOSPITAL.

Horace Williamson an employee of Robertson's Bakery met with an accident while at work this morning, losing the top of one of his fingers. He was taken to the hospital where the injured member was dressed. He was able to proceed to his home.

The condition of Joseph Doherty, injured at a North End Improvement League diamond this morning, 6 to 2. The batteries were—winners, Fenney, Doucette, P. Yeomans; losers, Patterson, Matheson, Webster.

## 'Clown King', Dead, Found Life Given To Laughter Not Wasted

Sixty-Six Years of Al Misco's Seventy-Five Were Spent in  
Circus and He Enjoys No Other Type of Player;  
Stage Folk Pay Him Tribute.

(New York Tribune)  
"Before Al Misco died—they held funeral services for the 'king of clowns' last night—he was asked whether he had not wasted his seventy-five years of life, of which sixty-six were spent in the circus, by only making people laugh."  
"Al was ready with his answer, as he always had been, but this time without a smile."  
"Well now, 'just making them laugh' isn't the easiest thing in the world by a long shot," he said, "and if you don't believe it try it yourself."  
"But there's a deeper philosophy than that back of the clown. If you will remember what the great French writer, Beaumarchais said: 'Praised by some, blamed by others, ridiculed by the fools and irritating to the wicked, I am compelled to laugh at everything for fear of being forced to tears.' And that motto of his appears every day in the work on the first page of the French newspaper 'Le Figaro.'"  
"Al Misco knew the great actors of his time, but he envied neither the tragic hero who ranked and sawed the air nor the matinee idol who played havoc with the women in the audience. A harlequin costume was all that Al wanted, for with one solemn wink he had barefooted urbane and otherwise worthless professors joining in a roar of laughter."  
"They don't know they're living unless they laugh," he said. "Why, I'll get them away from the lion's cage or the Siamese Twins any time, just to look at me and chuckle. I'm a god sent to them and they know it. I wouldn't change places with Edwin Booth or Henry Irving, whether you believe it or not."  
His wife for fifty-six years—they were married July 2, 1867, in Cairo, Ill.—was mightily proud of him. All that time they were partners for Mrs. Misco was Laura Smith, daughter of a famous circus proprietor and a trapeze performer until she met Al, when they joined forces. Surrounded by prominent show folk she restrained her grief, for Al wouldn't have liked that, and told how she hoped to join him quickly.  
Al was born Alfred Frisbie, in Con-

## FOSTERING ECONOMICS IN THE HOME

Addresses Given in H. S.  
Building—Value of the  
Budget System.

The New Brunswick Home Economics Association continued its meeting in the High School building yesterday afternoon, Miss Carrie Currie, the vice-president, was in the chair. Procedure relating to affiliation with the American Home Economics Association was discussed and it was decided to introduce a teachers' exchange of ideas which is to take the form of a monthly news letter.  
Miss Rheta M. Inch, of Hampstead, who has recently returned from Cornell University described the extension organization and the administration in New York State. She said extension was a system of education for rural people, the aim of which was to give scientific and practical instruction in agriculture and home economics. This service in New York State functioned through the County Farm and Home Bureau Association, which worked in co-operation with the state college of agriculture. Each county was organized to carry on a systematic and definitely planned program, based on the needs and problems of the people. In order to make the teaching as far reaching as possible a local leadership plan had been developed. Leaders were selected from the communities and trained in particular phases of home economics, such as nutrition, foods, clothing, hygiene, and sanitation, household management, child training and interior decoration and these leaders in turn taught the people of their own communities. Each home bureau also endeavored to foster some definite community enterprise, such as rural recreation or better schools.  
The Budget.  
Mary Heley Brown, director of home economics in Somerville Mass., in telling of how high school girls were taught budgeting, spoke of the course as being divided into three parts and dealing with budgets for personal expense accounts, for time and for food. For the personal expense accounts the parents were urged to give the girls an allowance, and the home economics teacher made a personal visit to the girls' home for this purpose. The girls then made up their own budgets from the allowances they were given under the supervision of the instructor. The practical side of this instruction was shown from the fact that one girl who worked on Saturday had been able to clothe herself and buy the clothes she needed for entering a hospital to train as a nurse.  
For the time budget, the girls prepared a schedule of their own daily routine and were given a realization of the fact that many people worked all the time simply because their time was not properly budgeted.  
For the food budget household expenses were considered, and the planning of the different meals. The girls kept an actual account of the meals in their own homes, and by learning the value of judicious spending of their money formed a good habit.  
MAN'S BEST FRIEND.  
(Baltimore Sun.)  
The dog appears to be the most intimate link between man and the kingdom of dumb creatures around him. And we grow to love this four-footed friend, whether he is well-bred, whether aristocrat or mongrel. Somewhere he gets hold of his owner's heart, somehow he makes himself a member of the family which he lives. Exactly how or why it might be difficult to explain, except on one theory—and that is the irresistible power of love. A dog loves with all his heart and mind and strength, and who can resist him?  
A typewriter manufacturing concern sold a consignment of typewriters to the Russian Government, receding in pay cable and seal skins.

## Sailors Refuse to Quit South Sea Maids

Honolulu, July 26.—(By A. P.)—The charms of two young and beautiful native maidens at Fulu, Island of Niuafoou, in the south seas, proved stronger than the call back to civilization for two members of the crew of the schooner Alert, according to the story related by Capt. Daniel McDonald, master of the Alert, who has arrived here aboard the Niagara, with six members of his crew. They are on their way to the United States.  
A sudden squall threw the Alert upon a coral reef off Fulu on June 10, Capt. McDonald said. The captain and the crew waited at the place a month for a passing ship to pick them up. Meantime Harry Terry and A. Olson, members of the crew, fell in love with two native girls, and when a rescue ship finally arrived, they refused to accompany their shipmates back to civilization.  
The mariners married the girls, Capt. McDonald said, and added:  
"I can't blame Terry and Olson, for their brides are very beautiful and exceptionally good housewives."  
The skipper said no suffering followed the shipwreck.  
The natives, he said, are very hospitable and the women, especially the younger ones, are "very beautiful."

## Police To Assist WITH THE COOKING

Reach Mrs. Adrian's Too Late  
to Save Fricassee  
However.  
Boston, July 26.—The telephone bell tinkled at the Somerville police station Monday at noon. The lieutenant took up the receiver and over the wire came the oddest message recorded in Chief Kimball's book, "Will you go down to my house and turn off the gas? I left a chicken to fricassee and I believe that it is all done now."  
The lieutenant called George Spurr who lives on the second floor of Mrs. William Adrian's house. George climbed through the bathroom window. The house was filled with smoke. The chicken was fricassee and the pot was burned to a frazzle. Mrs. Adrian and her husband had started on an automobile ride along the North Shore. She called the police from Haverly, where she remembered the cooking chicken.  
\$1,580 in Bank, Found  
Starving in Street  
Boston, July 26.—A man believed to be Patrick McCue, 72 years old, and having a past record on a Lynn bank showing deposits of \$1,580, but who had no money in his clothes when picked up by the Lynn police is in such condition from exhaustion and starvation at the Lynn Hospital that the doctors were obliged to place his name on the danger list.  
He was found unconscious in Houghton square and rushed to the hospital where a feeding was prescribed to relieve his condition, but he was so far gone that he failed to show any material sign of improvement up to midnight.  
A search was made by the police for relatives. While none could be found in Lynn, the officers obtained information that McCue has a brother in Lowell.

## The Board Wants More Information

At the afternoon session of the Public Utilities Board, yesterday, two applications for the sale of securities were received. F. C. Squires and H. B. Durston of Woodstock, sought permission for the sale of securities of the Premier Oil Shales Co. of Woodstock, who propose to produce oil from shales by the Hartman process.  
The J. M. Queen Co. sought authority to sell securities in connection with the expansion of an oil producing property in California, in which he is interested. Further particulars were asked for.

## Speed Up Shaving!

And find new comfort, doing it

When we started out to make the perfect shaving cream for you, we were not content to stop when we found a way to make shaving quicker. It took us 18 months—we made 130 laboratory experiments—but to that one advantage we added 4 others, to make shaving easier, to take away shaving discomfort.  
Now we offer you a free test. Millions of men have made it. Now they refuse to use any other than PALMOLIVE SHAVING CREAM.  
It multiplies itself 250 times in the richest lather.  
It softens the most "barbed wire" beard in one minute—without "rubbing in."  
If necessary the lather lasts 10 full minutes, on your face—moist, luxurious. Extra strong bubbles hold each hair erect—so that the blade cuts more cleanly, more easily.  
Finally, your skin is left amazingly cool, soft, comfortable, by the blended palm and olive oils.  
If you are skeptical, do us the favor to make this test. You will be that much more delighted. We are the only possible losers.  
Post the coupon today. Get your first 10 shaves free.

ALONG THE BOARDWALK

But the boardwalk on which President Harding is shown walking above with his military and naval aids, is not the famous one at Atlantic City. It is the only kind of walk in the town of Metlakatla, Alaska. Mrs. Harding may be seen in the rear. The party had just left the transport Henderson.

See Air Commuting Within Ten Years

Experts Predict Development Like That of Automobiles 1905 to 1915

Washington, July 26.—Airplanes will be used for business and pleasure in the United States within the next ten years on a scale commensurate with the extension of automobile traffic between 1905 and 1915, it is predicted in a statement issued by the Department of Commerce.

Experts of the Bureau of Standards say that people of moderate wealth will find air machines useful for commuting, for business trips and for week-end and vacation trips.

"The effect of the airplane, if developed as is expected," the Government announcement says, "will be to extend very greatly the distance to which such trips can be made in a given period of time. They will permit commuting from distances of a hundred miles, while week-end trips can be made from New York to the Thousand Isles; from San Francisco to Yosemite; from Washington and Baltimore to the mountains of Virginia, and from Boston to the Maine woods.

"If the visions of the experts materialize, people whose business requires only occasional visits to the city can live almost anywhere they choose, while some of our wealthiest men can spend their winters in Florida and their summers in Nova Scotia, and still keep in touch with business interests in New York."

Possibilities such as these, the department's experts contend, indicate a considerable extension of the city's influence, with rise in real estate values and an increase in prosperity for many of the smaller towns.

"But it must be remembered," the statement adds, "that the airplane traffic will not be evenly distributed. The flying people go where landing facilities are provided. The towns that first provides these facilities should become popular with aircraft, and may in later years be the fashionable resort of the region."

"Good rail and motor roads, combined with beautiful scenery, have made our fashionable suburbs and summer resorts of today, and, even so, good landing fields, combined with other desirable characteristics, should help make the fashionable suburb and summer resorts of the future."

In discussing landing fields, the Department announces that the requisite dimensions, proportions, and equipment have been thoroughly studied by experts and the best modern knowledge on the subject is embodied in the National Aeronautical Society Code now being prepared under the auspices of the Bureau of Standards and the Society of Automotive Engineers.

Fields rated as first class will have hangar space, repair equipment, tools, etc.; supplied with fuel, oil, water, and spare parts, telephone communication, a hotel near, and convenient transportation to the metropolis for passenger and freight attendants at all times; guard to enforce field regulations, obstacle lights, course lights, and night ground wind indicators; visible beacon and radio communication.

Fields with less equipment are rated as second, third and fourth class. All fields must have good markings and good runways.

In addition, other places for emergency landings should be provided at frequent intervals, the statement says. The always section, office of the

Robin Hood Flour Like the Picture Is Well Worth the Slight Extra Cost

Chief of Air Service, War Department, Washington, is the registering agency for landing fields. Descriptions of all landing fields should be sent to this office and it should be notified of any changes or of abandonment of existing fields.

The office also is prepared to furnish advice regarding the design and organization of landing fields.

**SNAKE TAKES AN AUTO RIDE.**

Hides Under Hood of Car Until Routed by Driver.

Bridgeton, N. J., July 24.—Dr. Alfred Cornwell, Bridgeton physician, was making a call near the outskirts of the city and lighting from his car spied a big snake in the gutter. As the physician has compartments against killing snakes he picked up a stick and tried to chase the reptile toward a near-by woods. One poke and the snake disappeared. He searched his car, but found no snake.

When he stopped at the Post Office, en route home, he obtained a hose and with three postal employees cautiously lifted the hood. They spied a black tail and, turning the hose inside, a four-foot blacksnake arose. It had evidently settled down near the engine for a ride.

June brides are beginning to find that they are July housewives.—Border Cities Star.

Says He Is Dead But Refuses Explanation

Paris July 26.—"It is true that I died in 1903. It is also true, as you see, that I am alive today." The judge in Algiers who heard this rather surprising statement from a French cavalry captain named Francois Olivier Paul Henri de Vesian asked him civilly how, if he died in 1903, he could be standing there in the prisoner's dock talking.

Captain F. O. P. H. de Vesian shrugged his shoulders. "I am dead, but still alive," he insisted. An opponent in a legal dispute over

Soap that soaks clothes clean different from anything you have ever used before

Rinsol is an entirely new kind of soap, every granule made of pure materials perfectly combined.

Just by soaking, in its big lasting suds, the most ground-in dirt is gently loosened and dissolved. Only the very dirtiest places need to be rubbed at all.

Rinsol is made by the largest soap makers in the world.

**PRIZE FIGHTS AND EDUCATION**  
(Toronto Star)  
The contrast in the degree of interest taken by the public in the Dempsey-Gibbons prize fight and the world's educational conference at San Francisco has been given in the newspapers to the two events.

In New York, Chicago, Washington and Philadelphia, twenty-three newspapers gave 2785 columns of space to the prize fight and a total of 494 columns to the educational conference. These figures lead to a number of questions. Did the newspapers correctly estimate the relative interest in the two events? Is it the newspapers' business to go counter to public sentiment in such matters? And is the great interest taken in sporting events something creditable to the people?

A prize fight is not a ladylike affair, and it may develop features that appeal to the lower primal instincts. The spectacle of two huge humans trying to batter one another into a state of helplessness in return for a fortune is not elevating. But a world's champion was to be a fine specimen of a man, physically, with strength, agility, courage, striking force, skill, fortitude and endurance. Ring strategy calls for the education of his child than about the possibilities of brutality. So, while the professional pugilist may be a high-class citizen, and between successes he may live a loose life, and while the promoters may have a sordid regard for the money at stake in a

WANTED—Roomers, 11 Frederick St. 23189-8-2

**PRIZE FIGHTS AND EDUCATION**  
(Toronto Star)  
The contrast in the degree of interest taken by the public in the Dempsey-Gibbons prize fight and the world's educational conference at San Francisco has been given in the newspapers to the two events.

In New York, Chicago, Washington and Philadelphia, twenty-three newspapers gave 2785 columns of space to the prize fight and a total of 494 columns to the educational conference. These figures lead to a number of questions. Did the newspapers correctly estimate the relative interest in the two events? Is it the newspapers' business to go counter to public sentiment in such matters? And is the great interest taken in sporting events something creditable to the people?

A prize fight is not a ladylike affair, and it may develop features that appeal to the lower primal instincts. The spectacle of two huge humans trying to batter one another into a state of helplessness in return for a fortune is not elevating. But a world's champion was to be a fine specimen of a man, physically, with strength, agility, courage, striking force, skill, fortitude and endurance. Ring strategy calls for the education of his child than about the possibilities of brutality. So, while the professional pugilist may be a high-class citizen, and between successes he may live a loose life, and while the promoters may have a sordid regard for the money at stake in a

LOST—Watch, Tuesday, July 17, etc. returned shed cut of Millidgeville avenue. Finder please leave at 169 Millidgeville avenue. 22467-7-27

fight, there is no gaining the fact that the prize fight involves a severe test, if not the supreme test, of the human physique.

To some extent the birth of interest in a prize fight may be due to the ability of the promoter to induce news syndicates to send out advance notices that quicken speculation. Little difficulty is experienced in arousing the public. It is doubtful whether there is any kind of an event to which people respond more quickly. If it is a newspaper's duty to give the people the news, it is also its duty to give them the news of the prize fight, and the preparations for the same for which its readers look.

The great disparity between the interest in the prize fight and the interest in the educational conference is regrettable and unavoidable. It does not signify that the parent cares less about the education of his child than about the relative merits of two pugilists. The child's education is already provided for. A good school system is being maintained and is in the hands of experts. When the experts meet, the layman has little chance to determine

which expert is right. The parent rather naturally regards their discussion as a fact. But never did mankind show greater appreciation, both relative and absolute, of mental achievement, services to the community and kindness of spirit than it does today—a happy condition towards which the daily press has made a genuine contribution.

Learning by Degrees.  
Foreman—Yes, I'll give you a job sweepin' an' keepin' the place clean.

"Well, then, maybe ye better start on somethin' simpler."—Life (New York).

An English professor's wife who, entertaining certain guests to luncheon, remarked that she had had Lord Blank to dinner.

"Indeed!" remarked one facetious individual. "Did he bring his coronet?"

"Why, I didn't even know he played one," said the professor's wife.

She was comely and a widow. She married MacIntosh, her late husband, for eighteen months, and then from a crowd of suitors chose honest, homely MacIntosh for her second.

"An' ye ken," finished the widow, "all my linen's marked 'MacI'—that's why, Donald."

Hair imported from China is worth \$400 a bale in the United States. A bale contains 138 pounds.

## MR. CHARLES KEDDY HIS GREATEST FIND

Noted Prospector Crowns Interesting and Useful Career  
With Discovery of Dredo.

Mr. Charles Keddy of Lake Ramsay, New Ross, Nova Scotia, great grandson of the founders of the city of Halifax and whose parents and grand-parents bore almost equally distinguished parts in the early development of the city, is himself famous all over Canada as a successful prospector and mineralogist.

He located the first tin ore in the solid in Canada and discovered radioactive ore in the solid but it is doubtful if any of these successes brought him greater personal satisfaction than his timely discovery of Dredo and a health-builder.

Mr. Keddy, at 73 years of age found that years of hardship and exposure had told on even his robust constitution. Today, thanks to Dredo, Mr. Keddy is again active and strong and straight as a flagstaff. He feels fit enough to break again the trails of his vigorous youth. Here is Mr. Keddy's statement:

"For a long time I suffered from rheumatism so bad that I could not work. My back ached terribly and I was almost bent double. I had pains in my knees and feet and every time I moved, my joints cracked. Some time ago I had an operation for an ulcer just below my knee and was in the hospital for two months. After that my troubles seemed to start. My stomach and kidneys were in bad shape and my bowels were irregular.

"Thank goodness, I have found Dredo. It has relieved my stomach and kidney trouble; I have no more rheumatism and walk perfectly straight. My bowels are regular and in fact I am a new man and feel extra fine for my 73 years. I cannot praise Dredo too highly. The results I obtained surprised me and I gladly recommend it to anyone. I feel much stronger in every way and have gained five pounds in weight."

Mr. Keddy's picture published here, shows him as a hale and hearty man. It will be welcome news to his many friends in mining circles to know of the benefits his latest discovery has given him.

Dredo is made from herbs, roots, bark and leaves that tone and regulate the entire system. It contains no mercury, potash or habit forming drugs.

Dredo is being specially introduced in St. John by Ross Drug Co., 100 King Street; Moore's Drug Store, 105 Prince Edward Street; F. W. Munro, 357 Main Street, and in West St. John by Watson R. Dunlop. It is also sold in Fairville by T. H. Wilson, and by a good druggist everywhere.

## For Acidity or Bile

Beecham's Pills act as a splendid tonic to the digestive organs. They remove acidity and fermentation and excess of bile from the stomach and bowels and promote the secretion of the gastric juices. In thus correcting morbid conditions and stimulating the digestive processes Beecham's Pills naturally have an excellent effect upon the general health. If you have lost your appetite or are suffering from nausea, sick headache, constipation, or giddiness

**Cutshaw Disabled.**  
Detroit, July 26.—George Cutshaw, veteran infielder of the Detroit American, will be out of the game for the remainder of the season. He underwent an operation for appendicitis early this week.

**Pirates Recall Pitcher.**  
Pittsburgh, Pa., July 26.—Arnold Stone, a southpaw pitcher, has been recalled from the Hartford club of the Eastern League, by the Pirates.

**McCormick Makes Statement.**  
Charles McCormick, former manager of the St. Peter's baseball team, said last night that he had been given no power to hire or release players. He wished the best manager, Dan Connolly, the best of luck.

**Two-Team League Games.**  
The game between Moncton and St. Peter's scheduled for the St. Peter's diamond last evening was postponed on account of rain. The Vets are playing a double-header today at Fredericton, while the St. Peters will meet the Moncton team tonight at Moncton.

**AQUATIC.**  
Canadian Yachts Win.  
Waterloo, N. Y., July 26.—The "Riviera" representing the Toronto Canoe Club of Canada, sailed by W. G. Reilly, defeated the "Nacada," representing the same club, by about 20 feet margin in the first day's races for the Silas L. George cup for Class "B" yachts.

The Latonia, of Oswego, finished third and the Huskie, of Waterloo and the Chirya, of Kingston, fourth and fifth respectively.

**TURF.**  
Grand Circuit Meet.  
At the grand circuit meet at Columbus yesterday the feature event of the day the champion sweepstakes for three-year-old pacers, value \$9,200, was captured by Anna Bradford's Girl in straight heats, best time 2:05.1-4. The 2:13 trot was won by Mrs. Yerkes in straight heats, best time 2:06.1-4. The Shepherd and Swisher stake, purse \$5,000, was won by Bogalusa, two out of four heats, best time 2:04.1-4. The 2:15 pace went to Eastern Bells, two out of four heats, best time 2:05.3-4.

**Should Be Fast.**  
The management in charge of the horse races to be held next Tuesday and Wednesday at Moosepath are looking carefully after all the arrangements, and predictions are that the events will be among the best staged here for years. It is estimated that more than seventy horses will be entered in the various events. Over twenty-five men with teams and a road machine have been at work.

**RING.**  
Healey Wants Return Bout.  
Roy Chisholm, manager of "Nedder" Healey, Maritime welterweight champion, has announced that Healey is willing to meet Johnny McIntyre in a return bout after his go here on August 6 with Gordon Farris. If Healey wins from Paris he will meet Freddie Warren in the Arena. Chisholm says that he is ready himself to take on John Alex if the latter will make 130 pounds.

**Draw In Montreal.**  
Montreal, July 26.—Frankie Bull, Ontario lightweight champion and Oscar Deschamps, Quebec champion fought ten rounds to a draw here last night.

## F. CAMPBELL WINS HUNDRED

Ahead of Gorman and Dalton—Maynes and Winchester Victors.

The first half of the Olympic trial tests were held on the Rousesay Collegiate campus last evening and despite inclement weather conditions the events were successfully carried out. The 100 yards dash was won by Frank Campbell with Charlie Gorman and "Tack" Eddie Dalton finishing almost abreast for second and third honors. The best time in this event was made by Gorman in the first heat. Bill Maynes won the 440 yards event quite handily, while Bruce Winchester romped home a winner in the mile race. Miller won the discus throw while Donohue captured the running broad jump.

The summary of events follows:  
100 yards. First heat: 1st, Gorman; 2nd, Campbell. Time, 10 and 2-3 seconds.

Second Heat: 1st, Dalton; 2nd, Errol Skinner. Time 11 seconds.

Final: 1st, Campbell, Y. M. C. A.; 2nd, Gorman, St. George A. A.; 3rd, Dalton, Y. M. C. I. Time 10 and 4-3 seconds.

440 yards: 1st, Maynes, Y. M. C. I.; 2nd, Monteith, Y. M. C. A.; 3rd, Koe, Y. M. C. A. Time 54 seconds.

Hammer Throw: Otto Miller, St. George A. A.; 2nd, N. W. Rubin, Y. M. C. I.; 3rd, E. Yeomans, Y. M. C. A. Time, 4 minutes, 31 seconds.

Running broad jump: 1st, W. Donohue, Y. M. C. A.; 2nd, Y. M. C. A.; 3rd, Gordon Wilson, Y. M. C. A. Distance, 19 feet, 5 inches.

Mile Walk: 1st, Koe, Y. M. C. A.; 2nd, E. Yeomans, Y. M. C. A.; 3rd, Y. M. C. I. Time 19 minutes, 2 and 4-5 seconds.

The point winners were: O. Miller, 8; Donohue, 8; Koe, 6; Campbell, Maynes, Winchester, 5 each; Gorman, and E. Yeomans, 4 each; Monteith, Rubin, and Lowe, 3 each; Dalton and Wilson, 1 each.

Officials were: starter, Frank White; judges, Lt. Col. P. H. McLean, H. Rich-  
ard and W. E. Striding; timers, Martin Dolan, Charles Coster and Lieut. R. Doe; clerk of the course, Captain William Bowles; scorer, P. J. Legge.

The events this evening will consist of the following: the pole vault, posted from last evening; the 220, the 880, the running hop, step and jump, running high jump, the mile run and relay race. They will start sharp 7 o'clock.

## Tennis Without The Kick, Latest Reformers' Fad

Ban on Windy Day Pictures  
Next—Ocean Beach Soon  
Only Refuge.

(By Franklin Collier in Boston Globe)  
England has decided to adopt drastic reprisals for United States prohibition by a form of prohibition all her own, as the English Lawn Tennis Association has ruled that press photographers cannot take any more pictures of their female tennis stars in poses similar to those taken of fallbacks making drop kicks of 60 yards.

Is it possible that tennis is getting too rough for the British? Or it may be the courts have become so crowded with photographers that the regular

events this evening will consist of the following: the pole vault, posted from last evening; the 220, the 880, the running hop, step and jump, running high jump, the mile run and relay race. They will start sharp 7 o'clock.

A man and a woman, riding in the auto pictured above, were killed when they crashed into a train near Erie, Pa. With them was their dog. The animal, injured, refused to leave the bodies and had to be forcibly carried away.

Persons could not see any of the game's fine points.

The question is, what are the tennis high mucky mucks going to do about the game in this country? Are we going to miss seeing photographs of our tennis stars merely because they take attitudes occasionally similar to that of trapeze performers?

If anybody in this country is going to complain about our tennis players, it should be Mack Sennet. He stands to suffer from the effects of modern tennis more than any other individual for what man is going to sit in a hot movie theatre and see pictures of his bathing girls when he can sit out of doors beside a tennis court and see the equal of them in real life?

Think what the women tennis players have done for the game! Only a few years ago eight men out of every ten you met could see nothing in lawn tennis. Now they see a plenty.

These reformers are taking the kick out of everything. Even tennis.

**Davis Cup Tennis**  
In Montreal Today

Montreal, July 26.—Fine coal weather was forecast today for the first Japan-Canadian Davis Cup tennis matches which will be played on the courts of the Mount Royal Tennis Club here this afternoon.

The courts, surrounded by newly erected stands capable of seating 1,000 spectators, are in excellent condition.

A match between Gerald Crocker, McGill University crack and Quebec amateur champion and Zeno Shibus, captain of the Japanese team, will open the proceedings at 3:30 this afternoon.

At 5:30 Leroy Rennie, of Toronto, singles champion of Canada plays Masamune Fukuda, junior member of the Japanese trio.

The wedding ring of plain gold, which is a survival of Saxon times, has outlived several attempts at change of fashion. For instance, at the marriage of Queen Mary of England to Philip of Spain, the English statesmen debated the question of the ring, and wished to have it jewelled, but Mary herself overruled by declaring that she would not have it set with gems, for she chose to be wedded with a plain hoop of gold like other maidens.

Read the advertisements today. They tell you when, where and at what price you can best buy the things you need today. Thrift consists as much in thinking carefully about things you have to buy as in bargaining closely.

## H. C. ROBERTSON TO TAKE CASE TO COUNTY COURT

More Developments in Matter of \$50 Fine on a Speeding Charge.

Harold C. Robertson, grocer, fined \$50 and costs in Magistrate Allingham's court on charge of speeding in Rotherham avenue on last Sunday evening is carrying the case into the County Court on appeal. The report to the magistrate was made by Provincial Constable Robert Crawford. Repudiation of his plea of guilty will be advanced through his solicitor, G. H. V. Belyea.

Mr. Robertson's case is that he pleaded guilty to speeding at a place where he was not speeding and that he can produce witnesses to support the statement. The defence contends there was no evidence that Mr. Robertson was speeding on the street forth and that the plea of guilty was a matter of misleading advice from a provincial constable. It is further asserted by him that statements published to the effect that he was reported for speeding in the county and that he narrowly missed four old people near Fern Hill have no one to substantiate them.

Mr. Robertson has applied to Magistrate Allingham for a copy of the proceedings and expects to have the whole matter reviewed before Mr. Justice Barry.

## INCREASE MORE THAN HALF A MILLION DOLLARS

Lumber and Products From Here to U. S. in Two Months \$1,587,961.

Total for corresponding quarter of 1922	\$1,587,961.23
Total for corresponding quarter of 1923	\$1,031,608.58

## RECORD YEAR FOR U. S. AUTOMOBILE TRAVEL IN N. B.

Bangor Chamber of Commerce Bulletin Tells About Us.

The province of New Brunswick is receiving some of the treatment through the bulletins of the Bangor Chamber of Commerce. Several articles, published by the local Board of Trade and Automobile Association, have been published this summer. The latest bulletin, issued on August 1, "Never before have there been so many U. S. motor cars rolling through New Brunswick as this summer. From near and far they have been coming, some as far distant as California, others from Ohio, Alabama, Indiana, Pennsylvania, Rhode Island, New York, New Jersey, Massachusetts, Connecticut, New Hampshire and other States. It certainly has been a lively period for the local hotels." This travel is attributed very largely to the improved roads.

## MISS BUNNELL GETS HOSPITAL APPOINTMENT

Miss Elizabeth S. Bunnell was appointed chief dietitian at a special meeting of the Commissioners of the General Public Hospital field last evening with the chairman M. E. Agor presiding.

Miss Bunnell is a resident of Sussex, and is a graduate of the Normal College at Fredericton and a graduate in Household Science from Mount Allison University. For the last four years she has been instructress in Household Science at the Rotherham Consolidated School, and during the last three months was a student dietitian at the hospital. Miss Bunnell, who recently to be married, assumes full charge of this department today.

The matter of bye laws also came up for discussion at the meeting last evening, but nothing definite was accomplished.

## WORKING ON REPORTS RE BREAKWATER

Alexander Gray, Dominion engineer in charge of St. John harbor, and his staff are working on reports on the extension of the Negro Point breakwater. He intimated that there would be none for a month or six weeks at least. A great many reports had been made on this work and the department had given him the various reports to assimilate and collate and this was a laborious matter. He is preparing his report which will be forwarded to Ottawa when completed.

## SHOWER FOR MISS JOSSELYN

Miss Maude Josselyn of East St. John was the guest of honor at a shower held last evening at the home of Miss Florence Gillen, 23 Victoria St. There were about twenty present. Two little girls, Doris Segue as the bride and Norman Armstrong as flower girl, presented to the guest of honor many beautiful and useful gifts. Games and music were enjoyed and refreshments served.

## REPORT SHOE MEN IF EARLY CLOSING NOT OBSERVED

Orders to Police—As to Merchant Who Makes Shoes Only a Line.

That under the recent by-law for the early closing of shoe stores all shops in which shoes were offered for sale must close and that he had given orders to the police to warn dealers to that effect and report offences, was the statement made at a committee meeting of the City Council this morning by Commissioner Thornton.

Mayor Fisher said that he had been advised by the city solicitor that in making up the list of dealers all who sold shoes must be included and that he had not yet had time to check the lists to see if the required 75 per cent. had signed the early closing petition. Commissioner Thornton said the law required the closing only of the section in which boots and shoes were sold, and said he had been so informed by the city solicitor.

Commissioner Bullock expressed the hope that the Commissioner of Safety would not have the law too strictly enforced until a ruling had been obtained from the city solicitor. Commissioner Thornton said he would take the matter up with the solicitor.

## They Talk Not Of Ships But Of Perils of Road

Some gentlemen of sea-faring aspect were standing on the end of Thorne's wharf this morning, indulging in general conversation. Were they talking about ships and charters and the perils of the sea? Not at all.

They were discussing the dangers of motoring on any road out of St. John. They told of thrilling encounters with speedsters and road-blocks, at curves and on a straight course. It was clear to one listener who gets his exercise with a baby carriage on a secluded sidewalk, and a reporter who just "snoots" around, that for a life of adventure one does not need to seek distance fields, but only to get an old "boat" of some sort propelled by gasoline and haunt the roads of the West coast.

Some of the conversation had a marine flavor, as when one man told of damage done to his car by a piratical enemy of the public weal who came over his guard with a boarding party before the crew could draw their rifles. It would be highly improper to print all he said.

## Pythians Prepare For Decoration Day

Active preparations for the observance of Decoration Day by the Knights of Pythias of this city were begun at a meeting of the committee from New Brunswick, No. 1, Union No. 21, St. John No. 30 and Capleton Town, No. 37 this week. E. L. Shepherd was elected chairman and J. E. Arthur, secretary of the general committee.

The parade will leave Castle Hall at 2 p.m. on Thursday, August 30, and march to Fernhill, where the usual service will be conducted and the graves decorated. In the morning of that day the graves in Cedar Hill and other cemeteries will be decorated by a committee. As the number of graves to be decorated is increasing every year the members of the club are anxious to send along plenty of flowers.

## WHY POLES IN SOME STREETS ARE SHORTER

It was announced from the office of the St. John Power Commission this morning that the transformers for the ornamental lighting system had arrived and were being unloaded today. No word was given out as to when it was expected to turn on the ornamental lights. Asked why longer poles were being erected in some streets than others the chairman, R. A. McAvity, explained that there was a primary system and a secondary system and that longer poles were necessary for the primary system than for the secondary, on account of the load carried.

## WHICH ONE OF THE TWO WAS ONE?

Did one o'clock come at one o'clock today or did it come at the minutes after? There were quite a few who were puzzled over this matter for they heard the fire alarm signal twice. The first time it came at what their watches told them should be just about one o'clock. Then, about five minutes later they heard the same sound again. There had been no alarm for fire for which it could be the "all out" signal and the many were puzzled. Chief Blake, when asked regarding the matter, said that it was probably the result of an accident in the handling of the alarm.

## REMEMBER WHEN—

Common Council resolved for the adoption of Atlantic Standard time, on Monday March 31, 1902. Clocks went ahead twenty-four minutes.

Steamer Lake Superior was wrecked on Muskeget Bar in harbor on Sunday March 30, 1902. Was sold at auction on April 19, 1902 to Connor Brothers Boston for \$26,000.

Boer attacks couldn't beat sturdy Canadians in desperate fight on March 31, 1902.

Mortgage for \$1,700 on Exmouth Street Methodist church was burned on Monday 14, 1902. John Frederickson, aged ninety years, applied the match.

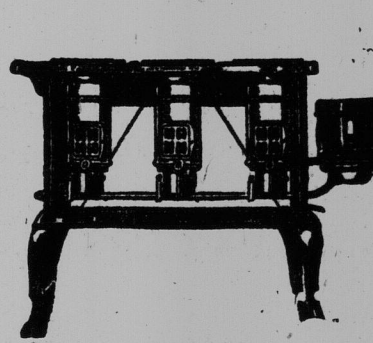

Application of J. Fraser Gregory and others on April 9, 1902 to Common Council for a lease of the three islands in the falls above suspension bridge to develop electric and other power by harnessing the falls.

C. P. R. changed names of number of stations between St. John and Fredericton on Monday April 10, 1902. Old Millville Indian names were used.

Dr. Walter W. White, was elected Mayor of St. John over Enoch B. Colwell by majority of 1911, on April 15, 1902.

SEND 'EM IN.
