## Car Service Back To Normal Again Today

### Conditions As Before The Strike Are Resumed

#### NOT PULL POWER YET

Plenty For All Demands, However—Some Street Incidents of the Last Night—Liquor Dealers All Complied With Request

H. M. Hopper, general manager of the street railway, said this morning that the whole street car system was running on schedule, including all the branches. Asked if the conditions in the power house had returned to normal, Mr. Hopper said that it would be some time before they were normal again, but there was sufficient power being produced to meet the demands of the whole city. The appearance of the streets this morning was such that a person who had no knowledge of what had happened during the last few days, could not imagine that only a few hours before the streets were a scene of turmoil.

Many expressions of satisfaction because of the settlement were heard on all sides this morning. There are two copies of the agreement, one signed by the company directors and the other signed by B. Kneeland, C. B. McLean and F. V. Johnston, committee representing employees in the dispute.

The members of the militia who were out for riot duty were dismissed about one o'clock this morning and were allowed to return to their homes, in most cases for the first time since Thursday night.

**Bars All Closed**  
John B. Jones, inspector of liquor licenses, this morning expressed his appreciation of the company directors in closing the bars yesterday after he had conveyed to them the wishes of the mayor. Mr. Jones said that several of the proprietors had thought beforehand that it would be a good move and all complied with the request to close at seven o'clock.

**Incidents of the Night**  
The force detailed to guard the power house marched from the Armory to King Street and King Street to Dock Street and thence to Union Street, where they were halted and were detailed to their various stations. The force was also made up of men from the 6th and 7th battalions, Colonel J. L. McAvity in command and with him the following officers: Major J. V. Angell, medical officer; Captain Ronald McAvity, Quartermaster; Captain A. O. Dawson, Adjutant; Captain B. A. Fleetwood, B. H. Dunfield, H. C. Sturdee, T. M. McAvity, and George Keefe; and Lieutenants J. A. Fugate, R. D. McLaughlin, A. E. Day, and Lieutenant George Morrissey, 28th Dragoons (detached). The details were quickly ranged and the men grounded arms and stood at ease to wait for developments.

The force under Captain Sturdee was stationed at the corner of Nelson Street and North Wharf, another under Captain G. M. McAvity was stationed at the corner of Nelson and Union, while the balance of the force under Captain Dunfield was placed at the corner of Union and Dock streets. From 8:30 until after 10 o'clock there was not the slightest sign of disturbance whatever, and the men, standing in broken ranks, conversed, sang songs and pulled vigorously on the cigars which had been passed around through the courtesy of Mayor Frink, who was present with the detachment at the power house in his capacity as chief magistrate of the city.

In the meanwhile the cars manned by the strike-breakers had been running a very hap-hazard service and carrying but a few bold spirits who ventured on them as passengers. About a battery placed his men on the cars to give them protection. This Colonel McAvity declined to do, as such procedure is very expressly forbidden in the service regulations and told the men to take their cars away to the North End barns. This the strike-breakers refused to do, and after swinging their trolley poles to run in the direction of the car barns in the South End and again being refused the escort they demanded they took off their controllers and their cars were stalled at the corner of Union and Dock.

**With Fixed Bayonets**  
By this time the crowd began to thin out in Market Square and move in the general direction of the North End. Due to the efficient efforts of a detail of police under Sergeant Scott, the crowds were kept moving past Union Street and the stalled cars, but as an extra precaution

### Road House About Which Complaints Are Made

There is still work for the morality committee of the county council, according to complaints made by residents along the I. C. R. It is said that one of the most notorious of the road houses, which was not closed at the time the others were forced to lock their doors, is still carrying on its nefarious business.

The statement is made that the house is a nightly resort for men and women belonging to the city, much of the traffic being by the late train at night and the early train in the morning. On Sundays also, it is said, the place is frequented by many. Those who have seen young people of both sexes, many of them of respectable families, going to and from this place denounce it as even more serious in its effects upon the morality of the city than in the past, and they cannot understand why the county authorities do not act.

## PLANS FOR DOMINIONS ROYAL COMMISSION ON VISIT TO ST. JOHN

The members of the Dominion Royal Commission are expected to be in St. John on August 11th, 12th, 13th, and will hold sessions in the board of trade rooms during those days. They will be welcomed by Lt. Gov. Wood, Hon. George J. Clark, Mayor Frink and J. M. Robinson, president of the board of trade. Evidence will be taken on a number of subjects having an imperial bearing. One of the most important of these subjects will be our forest resources. Among those who will be heard on this will be Col. T. G. Loggie, deputy minister of lands and mines; department; Angus McLean, of Bathurst; and J. T. Gregory, St. John. Mayor Frink will speak of harbors, James Gilchrist, superintendent of immigration, and S. L. Harrison will on immigration. Hon. Mr. Murray, J. B. Daggett, secretary of agriculture, and A. G. Dunne, horticultural expert, will deal with aids to agriculture. F. P. Guelius will apply himself to the subject of government railways. There will possibly be other witnesses. The commission members will be given an auto ride and will also have an opportunity of inspecting the harbor works from the government cruiser Curlew. Mayor Frink will likely entertain the members at luncheon. On Friday, August 14th, the provincial government will take the party for a sail to Fredericton, the capital of New Brunswick. The Fredericton Board of Trade will show the party attention on arrival. They will return to St. John next day by C. P. R. and will then proceed to Charlottetown.

**GOING TO HALIFAX**  
About fifteen insurance men from this city will leave for Halifax on Monday evening to attend the annual meeting of the Dominion Life Underwriters' Association, which will open on Tuesday morning. Among those to attend from this city will be the president, Charles A. Ovens; the vice-president, Roy L. Sippell; the treasurer, W. M. Titus; and F. C. McLean, manager of the Metropolitan Life Insurance Co.

The detail at the corner of Union and Dock streets were called to attention at the power house in their capacity as chief magistrate of the city. By this time two batteries of the Artillery under Colonel B. R. Armstrong and Major W. H. Harrison and J. S. McGowan had marched from the head of King Street and up Dock to Union. After consultation of the officers commanding and the mayor it was decided to escort the two stalled cars to Westworth Street. So after one battery had lined up ahead and one behind the stalled cars, their temporary motormen and conductors came from the company's office, and while the men of the 62nd detachment held the crowd back the two cars were escorted with all due military ceremony to Westworth Street, by way of Prince William and St. James.

**A False Alarm**  
The last shot from the rioters was a false alarm of fire, rung in about midnight from box 184. The chemical responded, but learned to the chagrin of the firemen that would-be jokers had been responsible for calling them out of their beds. The alarm is at Long Wharf.

The western side of the city was free from disturbance during the strike and although large car barns are located there, no attempt was made by anyone to deface or destroy St. John's property nor to molest those in charge. Soldiers were on duty in the west end but there occurred nothing to call for special protection. One of the men running a bus line in Douglas Avenue told a Telegram reporter that he had taken in fares for one bus alone \$18 between two o'clock in the afternoon and eight in the evening and that he expected to take in at least \$2 or \$3 after that when the people were beginning to return from the city.

## ANOTHER DAY OF SENSATIONS IN NOW NOTED PARIS TRIAL

### One of the Judges Challenges Another To Duel and Mme. Caillaux Collapses In Court

At left Madame Caillaux at time of her marriage to the former prime minister of France and, at right, as she is today. Below is Joseph Caillaux.

Paris, July 25—A challenge to a duel was sent today by Judge Louis Albanel, presiding judge of the court trying Madame Henriette Caillaux for the wilful murder of Gaston Calmette, to Judge Louis Dagory, one of the three judges, sitting on the bench with him. The quarrel arose out of an incident at the Palace of Justice, late last night, the nature of which could not be ascertained.

The second appointed by Judge Albanel are General Jules Dalstein, former military governor of Paris, and Emile Brunel Labori. Madame Henriette Caillaux, soon after she was brought into court today, for the sixth day's hearing totally collapsed when the reading of letters handed in by Madame Gueydan began. She was carried insensible from the court.

## THE KNOWLEDGE OF THE ANCIENTS HOLD TO THE ROAST BEEF

London, July 25—American hot weather foods failed to take with the London public during the recent tourist spell, when the thermometer touched 90 degrees in the shade. The English restaurants in the business section reported no falling off in the orders for roast beef and Yorkshire, steak and kidney pudding and peas and potatoes, although there was an unusual demand for currant roll.

"All this talk about summer diet and keeping cool is Tom's rot," said the proprietor of an inn celebrated for its steak and kidney puddings. "I believe in a man sticking to his grub." A customer ordered a glass of ice water from an old-fashioned waiter. "Stout or ale sir are very nice in this heat, sir." At the same time, the shops sell soft drinks did a heavy business during the hot spell. London's ice supply is very short and gave out entirely many sections of the city.

### EACH COUNTY TO VOTE ON HOME RULE MATTER

#### Chief Secretary Announces Government's Intentions in Regard To Ireland

London, July 25—Augustine Birrell, chief secretary for Ireland, in a speech in Cambridge yesterday, said the government will go forward with its proposals in regard to the amendment of the home rule bill. This will enable each county in Ulster to vote itself in or out of home rule. Mr. Birrell warned the public not to be bamboozled by the newspapers into believing that there would be a civil war in Ireland. He was convinced that such a thing would not happen. If it did the government would inevitably interfere.

## NEW BRUNSWICK TO SEND TWO CURLERS

London, July 25—The report of a proposed visit of Canadian players to Scotland next season was presented to the Royal Caledonian Curling Club in Glasgow on Thursday. Invitations have been accepted for the Canadian, Ontario and Manitoba branches to send eight players each, the Nova Scotia branch, four players, and New Brunswick two.

## AUTO MEN TO WORK AT ROAD FIXING TODAY

The New Brunswick Automobile Association is continuing the good work undertaken by them in the past in the way of improving the roads around the city. It is expected that about twenty cars will leave the city this afternoon laden with men and tools for work between Spruce Lake and Ludgate Lake. The members of the association will take off their coats and get busy, but will also be assisted by the employes of some of the members who are being sent along to help.

## PERSONALS

The engagement is announced of Miss Mary Dorothy Betts, daughter of Mr. and Mrs. Frederick P. Betts, London (Ont.), and Capt. Edward Seely Smith, of the Royal Canadian Regiment, Halifax, N. S. Miss Elizabeth Leavitt, of New York, and Mrs. Molly, of Boston, are guests at Mrs. Raymond Orange street, for the summer months. Mrs. Wilkins, wife of Dr. C. D. Wilkins, of New Orleans, arrived in the city on Wednesday to visit her mother, Mrs. George Estabrook, Elliott Row. Miss Josephine Lynch is the guest of the Misses McCaffigan, at Florenceville (N. B.). Dibble, of Woodstock, is the guest of her sister, Mrs. Hugh Bruce, Mount Pleasant. Miss Mildred Carvell of Woodstock, is visiting friends at Ononette. Yesterday she was in the city with her father, F. B. Carvell. Mrs. Carvell and Miss Carvell will probably accompany him to the west on his tour with Sir Wilfrid Laurier. James Mylan has left for his home in Boston after attending the funeral of Mrs. M. J. Doherty. Misses Mabel, Jennie and Vera Starkey, Lizzie Bartlett and Ethel Luskey will spend the week-end at Glenwood as guests of Mrs. Bonnell. Thos. J. Hollolan of Townsend Harbor, Mass., who has been enjoying his vacation at the home of his wife's parents, Mr. and Mrs. Geo. McSorley, in St. John West, returned home by train last evening. Mr. Hollolan will remain here for some weeks longer. Mrs. Olaf Langley, who has been visiting her sister, Mrs. MacGillivray, at her summer residence, Fair Vale, left on Friday for her home in Chicago.

## FEMALE POLICE FOR LONDON

London, July 25—Female "bobbies" will be a feature of London life if Lord Bessborough's amendment to the criminal justice bill is carried by parliament. He proposes that each metropolitan and county borough should have at least two women police constables. In the general bill, which is considered certain to pass, women officers are provided, to look after women prisoners out on probation, and each police station would have its matron. The men will also gain by the new law. Workers will be allowed seven clear days within which to pay fines, in order that a payday may be included in the period. It present, a prisoner unable to settle the fine on sentence has to take the alternative of jail.

## INCLUDE NEW BRUNSWICK

Halifax, N. S. July 25—In the Halifax Herald and Evening Mail's 500 mile auto tour to start from this city on August 11, places have been reserved for five New Brunswick cars and the itinerary has been so changed as to include a portion of New Brunswick. Further Testimony Toronto, July 25—Considerable improvement in business condition of the maritime provinces recently has been noted, according to Alderman J. J. Hines of Halifax who is in Toronto for a few days.

## Grave View Taken In The Chief Capitals

### RUSSIA MAY INTERFERE

London, July 25—In all the European capitals today there is taken very grave view of the Austro-Serbian situation, arising out of Austria's presentation of a virtual ultimatum to Serbia, demanding the suppression of the Pan-Serbian movement and the punishment of those concerned in the assassination of the heir to the Austrian Imperial throne. Diplomatic circles see in the dispute and in the added possibility of Russian interference on behalf of the little Slav nation, the danger of a general European war.

On the London stock exchange demoralization set in this morning, owing to a rumor that Russia had begun to mobilize her great army in preparation for eventualities. Dealers offered everything and British consols fell 1 1/2 per cent to 78 3/4. Rio-Tinto lost three points, Russian bonds 2 1/2, Austrian and Hungarian bonds two points, while the leading American stocks were quoted at \$1 to \$3 below parity.

Canadian Pacific, however, showed the most loss. A fractional hardening occurred before noon, but the market remained nervous and excited. Serbia Defiant The Serbian government had not until this morning given any hint as to what its reply to Austria's note would be, but in quarters which are not official it is held out that the answer will be favorable. It is held out that this turn out to be the best, unless Russia should be successful in her efforts to have the time limit extended in favor of Serbia. Austria will, it is pointed out, before many hours, take steps to enforce her demands.

It is argued in authoritative quarters that Austria-Hungary, if left alone, could crush her diminutive neighbor in short order, but it is feared that Russia may find herself unable to stand idly by and see a Slav nation practically extinguished.

Already part of the Russian press has assumed a defiant attitude, demanding that the government in St. Petersburg undertake the protection of Serbia. That a clash between Slav and Teuton would not be an unwelcome one in some quarters, where war is ordinarily regarded with repugnance, is obvious from despatches from several continental capitals. It has long been felt that a gigantic struggle between the Slavs and Teutons is bound to come, and there seem to be many reasons for supposing that the present is widely regarded as a favorable moment for the inevitable outbreak. It is felt that it would end the recurrence of a crisis which appears everything.

Paris, July 25—The attitude of Austria-Hungary has caused the gravest situation in which Europe has found itself for a long time, is the general content of the newspapers this morning. The opinion is expressed that whether there will be a conflict depends almost entirely upon the attitude of Germany and Russia.

Rome, July 25—The attitude that Italy will take in the crisis will be simply to safeguard her interests against any change in the equilibrium on the Adriatic and the Balkans.

Vienna, July 25—The Austro-Hungarian minister at Belgrade has been instructed to safeguard her interests against any change in the equilibrium on the Adriatic and the Balkans.

## ON SPECIAL DUTY

Robert Haislop, Herbert McGuire, W. A. Lawrence, Thomas Moore and W. A. Heighan were special policemen sworn in for strike duty yesterday.

## NEXT FRIDAY

The postponed power boat race for the Norton Griffith shield will be held in the harbor on the evening of Friday next, July 31.

## Imitation Is Flattering

Nothing so tiresome to the merit of standard articles as the extent they are imitated. An army of "the too" and "just as goods" flock after the trail of the true standards. Wise dealers never offer the imitation when the real articles are called for.

It is not considered business ethics or a wise policy. There is larger profit in selling the imitations, but they do not build business. They disappoint and the public loses confidence in the store that sells them. The quality of the trademarked articles advertised in The Telegraph and Times from day to day is the kind of quality that makes reputation for the merchant who sells them.

#### A PLAID VOILE

This lovely afternoon dress is made of plaid voile combined with plain silk crepe de Chine. The skirt is of the fashionable waiting-maid design, while the bodice features the Japanese collar. The waist is also a splendid model to use separately, therefore today's lesson will deal principally with its cutting and construction.

Four yards of 44-inch checked material are needed for waist and bodice and 5 yards of 44-inch crepe for the lower part of the skirt. The voile is folded to cut the shoulder, collar and back, each of which is laid along the lengthwise fold. The vest is placed on a lengthwise thread. Opening the goods, the outer front, sleeve and flare out are laid upon it and then cut.

The lining is used as seams taken up and the front hemmed. The under-arm seam of the outside is then closed, after which the shoulder seam is closed. Turn under front edge on slot perforations. Sew Japanese collar to neck and front edge, center-back and notches even. Turn under edge of vest on slot perforations, lap on shield, notches and edges underneath even and stitch. Adjust vest and shield to position, lapping folded edge of front to small "o" perforations, notches even and stitch, leaving edges on left side free for opening. Gather lower edge of waist between double "x" perforations and, if desired, 2 inches above. Join standing collar as notched.

Close outer sleeve seam as notched. Sew flare out to lower edge as notched. Sew in armhole of outside as notched, easing in any fullness.

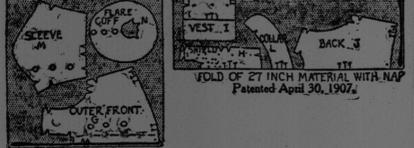

Arrange outside on lining, center and under-arm seams even; stitch lower edge together. Large "o" perforations in pleat indicate center-front. Turn hem at notches. Close back seam, new to lower edge of waist, centers even.

Trim with a satin belt and add a bow of the same trimming to the skirt, where it is looped at the back.

It is possible with the use of the cotton voiles, which come as cheap as 19 cents a yard, to duplicate this dress for less than \$2. They ruffles of fine lawn and batiste, finished with hemstitching or a plait edge are ideal finishes for the neck and sleeves when either expensive or inexpensive materials are used.

Afternoon dress in plaid voile and silk crepe de Chine trimmed with plain satin. The waist has a Japanese collar.

## A Shelf of Jelly.

Pick fruit just before it is ripe. Use only enough water to cover fruit when putting over to cook. Berries make best jelly by putting through fruit press to secure juice. Make jelly on clear dry day. Be accurate in measuring both material and time. Never gather fruit for jelly right after a rain. Jelly once begun boiling should not stop until done. Use wooden spoon for stirring jelly. Make small quantity each time. Sweet apples will not jelly. Skim jelly carefully. If jelly seems too thin set in hot sun for several days.

### HOUSEHOLDERS OF HALIFAX HAVE FORMED A LEAGUE

One Thousand Members is the Slogan of the Organization

Mrs. E. M. Murray Elected President—One of the Objects is to Endeavor to Reduce the High Cost of Living

(Halifax Chronicle.)

Most encouraging of those interested in the movement, and prophetic of vigorous and active efforts toward the reduction of the present high cost of living in Halifax, performing at the same time such adjunct services as demanding clean and sanitary shops, careful inspection of food, proper conditions relating to the markets, and the placing of propaganda teaching women who have the responsibility of buying, the best methods to pursue, and the places where the lowest prices are obtainable, was the organization meeting of the Householders' League held last night in the Technical College.

One thousand members is the slogan of the League at present, and the aim is to organize the women of Halifax in a co-operative body with power and influence enough to effectively combat the unnecessary high price of many commodities that are in common use with all householders, and the price of which particularly affects the pockets of the average family, and is also felt by the rich. Such, at least was the expressed aim of the meeting held last night.

Many Women Present.

There was a good attendance of women from all parts of the city, representative of all walks of life. There was enthusiasm and determination, and with a general willingness on the part of the women to work in the efforts of the league to improve conditions in Halifax.

Mrs. E. M. Murray, the convener of the committee which brought together the initial meeting, and one of those responsible for bringing Mrs. Wilson from Ottawa to lecture before the women, and who has been actively interested in many ways in the movement, was unanimously elected president of the new league.

Mrs. Dennis, president of the Women's Council, presided at the meeting to order, and presided until such time as the constitution was accepted, and the president elected, when she resigned in place of Mrs. Murray. From the very first the meeting went with a swing and the president-elect proceeded with the election of other officers all of whom were appointed unanimously as follows:

First Vice-President, Mrs. MacNab; second Vice-President, Mrs. H. M. Paine; Recording Secretary, Mrs. Pittman; Corresponding Secretary, and the woman upon whom much of the work will fall, Mrs. Fleming; Treasurer, Miss Alice DeWolfe.

**BEING A MAN.**

There are some "ifs" in the way, but listen to Kipling's "If" and be men.

If you can keep your head when all about you are losing theirs and blaming it on you.

If you can trust yourself when all men doubt you.

If you can wait and not be tired by waiting.

If you can be true when all others are untrue.

If you can dream—and not make dreams your master.

If you can think—and not make thoughts your aim.

If you can meet with Triumph and Disaster—and treat those two imposters just the same.

If you can bear to hear the truth you've spoken twisted by knaves to make a trap for fools.

If you can watch the things you gave your life to broken.

If you can stoop and build 'em up with worn-out tools.

If you can talk with crowds and keep your virtue.

If you can walk with Kings—nor lose the common touch.

If neither foes nor loving friends can hurt you.

If all men count with you, but none too much.

If you can fill the unforgiving minute with sixty seconds' worth of distance run.

Yours is the Earth and everything that's in it.

And—which is more—you'll be a Man my son!

**GUARD AGAINST CHOLERA INFANTUM**

Cholera infantum is one of the most fatal ailments of childhood and during the hot summer months thousands of little lives are lost by its ravages. The best way to guard against it is to give the baby an occasional dose of Baby's Own Tablets. The Tablets never fail to regulate the bowels and sweeten the stomach, thus preventing cholera infantum, diarrhoea, dysentery and all other stomach and bowel complaints. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville (Ont.).

**To Keep Skin White, Velvety, Wrinkle-Free**

C. M. W. says: "I permit an excessive dryness that powder makes my face streaky. Soap and cream make it greasy and shiny. What will help it?" Use a wash lotion made by dissolving 1 oz. powdered macaroni in 3 pt. witch hazel. This is immediately effective in any wrinkled or flabby condition. Use daily for awhile and results will be surprising.

A. F. G. writes: "My skin seems so rough and red, what is to be done?" Answer: A simple way to keep your skin smooth, soft and white is to apply ordinary mercuric wax before retiring, washing it off in the morning. This is immediately effective in the removal of flaking scales which constantly appear. The wax absorbs those worn-out particles, so the younger, fresher, healthier skin is always in view. An ointment of mercuric wax may be had at small cost at any drug store. Use 1/2 oz. cream—Apply daily in winter.

**King's Conference Failed.**

London, July 24.—The fact that the conference at Buckingham Palace between the leaders of the various political parties had been rendered abortive by its failure to agree on the area of Ulster to be excluded from the control of the Dublin parliament, was confirmed by Premier Asquith in the house of commons today.

### CAROLINE COE'S TESTED RECIPES

**To Keep Fruit Juices.**

When canning use the syrup or juice left for muddings or ice drinks. Put juice while very hot into bottle.

Have juice at least 2 inches from top. Wipe top perfectly dry, fill cork opening with cotton. Do not allow juice to reach cotton. No cork is necessary and the juice will keep perfectly.

Currant Sherbet.

To one quart of water, add one pint of sugar, boil for twenty minutes in double boiler. Squeeze enough currants to make one pint of juice, add to syrup with the juice of two oranges. When cold freeze in freezer.

French submarines often carry forty men with three officers, and are as large as 800 tons.

**Baby's Welfare in the Summer**

THE great summer mortality of Babies is largely due to epidemic diarrhoea. Infected and decomposing milk and the contamination conveyed by flies cause diarrhoea and digestive troubles. During this distressing time, the great value of the "Allenburys' Milk Foods are abundantly proved. The "Allenburys' Milk Foods are made from fresh full-cream milk, so modified as to remove the difference between cow's milk and healthy mother's milk. The method of manufacture absolutely precludes all risk of contamination. The "Allenburys' Milk Foods are free from germs and need the addition of hot water only in their preparation. The use of these Pure Foods ensures Baby against dangerous infection and promotes vigorous growth and health.

**Scientific certainties Absolutely pure**

**When Baby Travels**

YOU often wish to visit friends, but the bother of Baby's feeding sometimes makes it awkward. This summer you will want to go away. Maybe you will be thinking of a short trip by steamer. The "Allenburys' Milk Foods are ideal when Baby travels. Packed in sealed tins, the foods are ready prepared, and need the addition of boiling water only. Think what this means on the train, on the steamer, at the summer cottage, or at your friends. No bother about milk, no risk to Baby's health. The "Allenburys' Foods are proved and sure.

**How Drugs Weaken the Heart**

So many people are doping their stomachs with drugs and never stop to think of the harm that will come of it. Constant drugging always weakens the heart.

You hear of a great many deaths due to heart failure, but you never hear of what makes the heart fail. The heart never fails without a reason. Find a reason and you will find the actual cause of death. I say that it is nearly always exhaustion of vitality, caused by drugging. The heart stops because the power that uses it is shut off. To trace this cause directly I would say that because the consumption of food in the stomach generates carbonic heat, which is electricity. Carried in to the nerves, it becomes nerve force, which is the motive energy of the heart. Naturally, if the heart does not receive a sufficient quantity of this nerve force its action will become weaker, and, like the engine, whose steam is run down, will stop altogether. That is heart failure.

Now, strong drugs weaken the stomach so that it cannot generate enough of this force, and a weakening of the heart's action results.

The reason any organ fails to do its work is because it lacks strength. If there is any nourishment in drugs they might bring a healthy change, but you know there is not. Drugs are drugs, stimulants, narcotics, antidotes, poisons, not food. Food is needed to build up new strength. Electricity is nerve food—nerve life. It soaks into your nerves and vital just like water—soaks into a sponge. It warms and strengthens the parts which drugs cannot reach.

Electricity is a relief from the old systems of drugging. It does by natural means what you expect drugs to do by unnatural means. It is Nature's way of curing disease, for it gives back to the nerves and organs the power they have lost, which is their life.

I believe in finding the cause of every ailment and removing it. If it is in the stomach, I restore the power there; if in the nervous system, I build up the nerve force; in the kidneys, the blood or the organs of generation, I find the cause and supply to the body the needed help, and after I have removed the cause Nature will cure the disease.

Dr. McLaughlin's Electric Belt is easily and comfortably worn next to the body during the day and night, and gives out a continuous stream of that strength-building, nerve-feeding force which is the basis of all health.

M. S. McLaughlin—The trouble for which I purchased your Electric Belt has entirely disappeared. It was only after a great deal of hesitancy and enquiry from patients that I bought one of your Belts, and I am now glad that I did. My back is perfectly well, and I never was so strong or felt as well as I do now.

Compromise Reached, Strike Is Settled And Men At Work Again

All Employes of Street Railway Company Reinstated, With Exception of Ramsay—Another Display of Riotous Spirit Last Night

A feeling of intense relief pervades the city this morning and the end of the terrible happenings, which have marked the last two weeks, has been reached this morning the whole street car service was running on its usual schedule and those who were striking from and to their homes all day yesterday and part of the day previous, were this morning seen travelling to work on the street cars, in most cases with a smile of happy contentment evident.

At 11:30 o'clock last evening the strike was declared settled and an agreement was signed by the representative of the company and of the strikers. There was danger of another outbreak last evening when several cars were brought out and put into service. In King street, they were surrounded by a howling mob who yelled "scab" and a few stones were thrown. The police protection was increased and fully ninety men for the force were about the city last night. The militia also were on hand to prevent trouble.

The agreement for settlement of the strike was drafted as a result of conference between Recorder Baxter, acting in the city's interest, the men and the directors of the company. At a meeting earlier in the day Mr. Ramsay himself submitted his resignation to the union and asked that it be accepted for personal reasons, he said.

At an early hour yesterday morning Recorder Baxter undertook to get both parties to agree to a basis of settlement. The agreement, almost the same as finally accepted by both parties, was drawn up. After a series of conferences which lasted all day and into the late evening, the agreement was finally signed by the representatives of both parties and the strike was declared officially off.

The text of the agreement is as follows: Agreement made this 24th day of July, A. D. 1914, between the John Railway Co. and its employes: 1. All men except Ramsay to return to work forthwith.

2. Before men return to work nine of the eleven men who have been discharged will be reinstated, the other two, Brasilian and Blendon, may appeal to the board of directors and have a prompt hearing. 3. No discrimination to be made against any employe because of membership in the union or because of having taken part in the existing dispute.

4. All charges heretofore preferred against employes shall be investigated by an official selected by the company and after the investigation, should the accused be found guilty he shall be reinstated for all time lost.

5. Any employe or committee of employes failing to get satisfaction before such official shall have the right to appeal at any reasonable time to the board of directors. Signed: Hugh H. McLean, president of company; F. R. Taylor, vice-president; W. H. Thorne, R. Emerson, directors.

Sidney Mosher, of Halifax, who has been in charge of the strike in an interview stated that he was glad it was called over. "Thank God it is over," he said. "I would like to thank through the press the citizens and officials and all who have assisted us in any way whatever. I hope I may never have to come back to St. John for another street railway strike. I am very sorry that the city and the company has suffered any loss but I believe that as a result of the strike the city, the company and the men all understand and appreciate each other better. I would like to thank the honorable minister of 'play' for what he did not do and if I knew just what part of the C. P. R. to locate his train, I would wire him to return back home again."

The Evening. About 8 o'clock the militia force divided into five sections and went to different districts. At the court house, Col. B. R. Armstrong was in charge of the Royal Canadian Artillery men. At the car sheds, Wentworth street, Major Frost was in command. Lieutenant-Colonel McAvity commanded most of the militia in charge at the power house and plant on Dock street. Another force was at the car sheds in Main street, and the Canadian Army Service Corps, which turned out sixty-five men, controlled the western section of the city and took up the quarters in the vicinity of the west side car sheds under command of Capt. L. W. Peters, of the 88th Dragoons, in command of Capt. J. Starr Tels, were assembled at the armory. Their horses were all in the stables with the swords all ready for use and every preparation possible was made for a prompt response to any emergency call. During the early evening the dragoons were engaged in drill on the Barrack Green.

Lieutenant-Colonel McAvity gave instructions that if any disturbance arose he would dispatch a horseman to the scene to give the alarm. There was a display of rowdiness, verging on riot at King street about 9:45 o'clock. A street car, unopposed by bricks and stones, but quietude was restored before the militia arrived and it was not necessary to bring the cavalry out. 390 Men Armed. The actual number of the troops mobilized was 150 of the 62nd Regiment, St. John, 150 of the 8th Canadian Infantry Battalion, Artillery; 70 men of the Army Service Corps and about twenty of the 28th Dragoons were kept in readiness. Major F. McKean of the Army Service Corps was also present but it was Captain J. A. Pugsley, of the 28th Dragoons, who led the corps as they left the armory and who did outpost duty at the west side sheds. The other officers who turned out were: 62nd Regiment—Major J. S. Frost; Captains, E. J. Fleetwood, J. R. McLaughlin, H. E. C. Sturdee, T. M. McAvity, and A. O. Dawson; adjutant, Lieutenants C. J. Morgan, J. E. Willett, G. Keefe, F. D. McAuley, E. H. Welch, A. E. Day, W. G. Thomson, J. A. Pugsley, M. Mackay and R. F. Macdonald; Quartermaster R. A. McAvity and the medical officer, Major J. V. Anglin.

390 Canadian Artillery—Major John T. McGowan, Quartermaster-Captain W. A. Harrison, Major S. S. Skinner, Major W. H. Harrison, Lieutenants S. K. S. McDonald, J. E. Sayre, C. F. Innes, F. S. Morrison, and of the third company (Portland) Major F. C. Mace and Lieutenants G. A. Gamblin, R. St. C. Hayes and S. A. Thomas. A fire was discovered in one of the West Side cars early this morning, but was extinguished by the west side firemen without difficulty. It is thought to have been started by electrical induction. King street was again the scene of trouble last night, when six cars appeared, manned by the men who had been brought to the city to break the strike. Two of the cars were stopped at the foot of King street and several stones thrown through the windows, but the crowd stopped at that. Despite the proclamation of the mayor, there were many people on the streets, including several women. When it became known that a settlement had practically been reached the crowd gradually quieted down and by midnight the streets were practically deserted and the police and militia heaved a sigh of relief.

The Army Service Corps mustered ninety per cent of their force at the armory at 6:30 o'clock under the command of Major F. P. McKean and Lieutenants J. Oliphant, A. G. Ralston and D. Edgson, and at 8 o'clock were armed and ready for service. Fifty of the men were sent to the West Side car sheds and the balance were held on duty at the armory. When proceeding along Prince William street to the ferry, the men presented a very creditable appearance and were given a great cheer as they passed along. Elinor Glyn's novel "Three Weeks" has been made into motion picture form and will be presented to the public in about two weeks. The play will be shown in five parts and will be offered by Moss and Brill. Have you seen Lucille Love? If you haven't you should do so at once. She will be seen in St. John every week for the next three months. Her adventures with a desperate spy can be seen at the Gem on Monday. On the occasion of the funeral of the Dowager Empress of Japan the Emperor commuted the sentence of 4,582 prisoners out of a total of 8,000.

Nobby Two and Three-Piece Suits Perfect Style and Extra Wear Will Commend These Garments Strongly to Careful Mothers The strenuous play of vacation time calls for suits that will stand up well under all conditions of wear, and boys who romp in M. R. A. stoutly made and stylish garments have an advantage in appearance and service which has made our kind of clothes most popular with mothers who know. Just now the range of choice is especially good, comprising late models, plain double-breasted and Norfolk styles, some suits with two pairs of bloomer pants. Cut This Out Famous Specialist's Recipe For Cataract Deafness and Head Noises If you know someone who is troubled with head noises, or cataract deafness, cut out this formula and hand to them, and you will have been the means of saving some poor sufferers perhaps from total deafness. Recent experiments have proved conclusively that cataract deafness, head noises, etc., were the direct cause of constitutional diseases, and that salves, sprays, inhalers, etc., merely temporize with the complaint, and seldom, if ever, effect a permanent cure. This being so, much time and money has been spent of late by a noted specialist in perfecting a pure, gentle, yet effective tonic that would quickly dissipate all traces of the cataractal poison from the system. The effective prescription which was essentially formulated and which has aroused the belief that deafness will soon be extinct is given below in understandable form, so that anyone can treat themselves in their own home at little expense. Secure from your druggist 1 oz. Parmit (Double Strength) about 75c. worth. Take this home, and add to it 1/2 pint of hot water and 4 oz. of moist or granulated sugar; stir until dissolved. Take one tablespoonful four times a day. The first dose promptly ends the most distressing head noises, headache, dullness, cloudy thinking, etc., while the hearing rapidly returns as the system is invigorated by the tonic action of the treatment. Loss of smell and mucus dropping in the back of the throat are other symptoms that show the presence of cataractal poison, and which are quickly overcome by this efficacious treatment. Nearly ninety per cent of all ear troubles are directly caused by cataract, therefore there are but few people whose hearing cannot be restored by this simple home treatment. Every person who is troubled with head noises, cataract deafness, or cataract in any form should give this prescription a trial. There is nothing better. Important!—In ordering Parmit always specify that you want Double Strength; your druggist has it or can get it for you; if not, send 75c. to the International Laboratories, 74 St. Antoine street, Montreal, P. Q., who makes a specialty of it. Returning to Canada. London, July 25.—The Bishop of the Yukon and Mrs. Stringer sailed for Canada by the S. S. Empress of Britain yesterday. As a result of his visit Bishop Bompa's Episcopal endowment fund of \$10,000 is now only \$1,800 short. Last wealth may be replaced by industry, lost knowledge by study, lost health by medicine, but lost time is gone forever.

FREE ADVICE TO SICK WOMEN Thousands Have Been Helped By Common Sense Suggestions. Women suffering from any form of female ills are invited to communicate promptly with the woman's private correspondence department of the Lydia E. Pinkham Medicine Co., Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence. A woman can freely talk of her private illness to a woman; this has been established a confidential correspondence which has extended over many years and which has never been broken. Never have they published a testimonial or used a letter without the written consent of the writer, and never has the Company allowed these confidential letters to get out of their possession, as the hundreds of thousands of them in their files will attest. Out of the vast volume of experience which they have to draw from, it is more than possible that they possess the very knowledge needed in your case. Nothing is asked in return except your good will, and their advice has helped thousands. Surely any woman, rich or poor, should be glad to take advantage of this generous offer of assistance. Address Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass. Every woman ought to have Lydia E. Pinkham's 80-page Text Book. It is not a book for general distribution, as it is too expensive. It is free and only obtainable by mail. Write for it today.

H. DORLAND, ESQ., Bronte, Ont., Oct. 31st, 1913. "For about forty years I was troubled with Lame Back brought on by Kidney and Bladder Trouble. I was never confined to my bed with the trouble, but it affected my spine and I had to rest for a time. I took advertised remedies that did not do me any good. I saw 'Fruit-a-tives' advertised and decided to try them. They did me more good than any other remedy. I would advise anyone suffering from Kidney or Bladder Trouble to use 'Fruit-a-tives'."

WHAT CIVIL SERVICE COSTS THE DOMINION

Salaries Have Increased Rapidly During Last Ten Years—Average Salary Now \$1,098. (Montreal Journal of Commerce) The figures giving the number of officials in the civil service together with the total annual salaries for the past twenty-one years are as follows:

Table with columns: Year, No. of officials, Annual salary. Data points for years 1892-1913.

It will be noticed that there has been a substantial increase in the rate of salaries, especially during the past 10 years. In 1892 the average annual salary was \$651. In 1913 it increased to \$1,098. This shows an average increase of \$347 per salary during the last ten years.

Bowell's House to Go

London, July 25.—In spite of the protests of persons and societies interested in the preservation of old landmarks, the building at 55 or 56 Great Queen street known as Bowell's House, is doomed to make place for a modern Freemason's hall. Besides its historical association with Bowell, Johnson, Garrick and other distinguished men of that time, the house is an interesting example of seventeenth century design. If not done by Inigo Jones, says one antiquary, it was at least the work of one of the Jones school.

To Men Earning From \$20 to \$30 Per Week

You don't have much left after paying expenses, do you? If some misfortune should deprive you of your income for a few months you'd probably run behind temporarily.

Now what about your family? How would they get along if your income should be permanently cut off by your death? Don't you realize that you should have at least \$5,000 of life insurance to provide for them after you're gone?

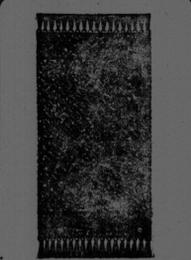

And, of course, you want the kind of assurance that's absolutely safe. And you want the "savings bank" kind under which you don't have to "die to win."

Write for free information about such an Imperial Life Policy—one to suit your particular needs. Do it today—tomorrow you may be unobtainable.

HOUSEHOLD HELPS Blocks of camphor dispersed in all corners of damp rooms in a new house will effectually banish damp in a very short time, even when fires have proved ineffectual. They should be simply laid on paper, or on the bare shelves of a damp room or linen closet. The blocks gradually decrease in size, and when they finally disappear should be replaced until their purpose is served. Cracks in furniture should be filled in with beeswax. Soften the beeswax until it becomes like putty, then press it firmly into the cracks, and smooth the surface over with a thin knife. Sandpaper the surrounding wood, and work some of the dust into the beeswax. This gives a finish to the wood, and when it is varnished the cracks will have disappeared. Putty used in the same way soon dries and falls out.

NEWS NOTES FROM NORTH END OF CITY

Complaints come from the North End in regard to the manner in which the part of Main street between Durham street and the car sheds has been left after excavations made for conduits.

Workmen are busy putting in a new switch in the street car line at the Junction of Paradise row and Main street and it is expected that a change will be made soon in the route of some of the cars and that some of the Main line or Douglas avenue cars will take the Haymarket square route.

Fire which is supposed to have started from a spark in a chimney damaged the engine house of Murray and Gregory's mill about six o'clock last evening to the extent of about \$6,000. The loss is covered by insurance.

Edward Tall, night watchman, saw the fire when he visited the engine room. The mill hands hurried to help and an alarm was rung in and although the department was on the scene, the mill hands had the fire pretty well under control. The company is grateful to both the mill hands and the firemen for the efficient manner in which the flames were subdued. The engines and belts are a total loss. Mr. Gross, engineer, lost a set of tools valued at \$175. He and his father, who is mill foreman, also suffered slight burns and Earnest Latham had his thumb dislocated. The men did excellent work in saving the main part of the mill from being destroyed.

W. E. Harries of Harries and Hall of Toronto, who is in the city in connection with the work of converting Fort Howe into a dominion park is quite convinced that the project as suggested by Hon. William Pughley can be carried out successfully. Arrangements have been made with the firm of Smith and Turnbull, surveyors, to make a detailed survey.

The fact that there was no street car service between the centre of the city and Indiantown yesterday, caused great inconvenience and general satisfaction is expressed that the cars will again run with their former regularity.

Diver W. Breen succeeded yesterday in raising the Monarch Dredging Company's scow which was sunk above the falls last year. The scow is in good condition. Slings were placed under it and it was brought to the surface by Lee's hoisting scow.

ECZEMA ON FACE, SCALP AND HANDS

Came Off in Scales. Itched Badly. Had to Tie Hands. Little Watery Pimples. Cuticura Soap and Ointment Completely Cured.

1307 Davenport Road, Toronto, Ont.— "My eczema first started when I was a baby, on my face and scalp. It seemed dry and when I scratched it, it came off in scales. It itched very badly and I was obliged to have my hands tied up so as to prevent scratching my face. Little white watery pimples came on my hands and face and I had to stay home from school for nearly two weeks. It caused my face and hands to look badly. This eczema took a very bad form, appearing on my face in little watery ulcers so bad that I could hardly bear to be touched. My hair being naturally very thick I found it to be getting thinner and wondered what could cause it to fall out. "My mother tried— and— and— and spent an end of money trying to get me better but it did no good. At last a friend recommended Cuticura Soap and Ointment and my mother used them. We applied the Cuticura Ointment to my face, head and hands and washed with the Cuticura Soap and the eczema began to disappear. Before six months had passed I was completely cured." (Signed) Miss Constance Jam, May 28, 1913.

Cuticura Soap and Ointment do so much for pimples, blackheads, red, rough skins, itching, scaly scalp, dandruff, dry, thin and falling hair, chapped hands and chaps on feet, that it is almost certain not to use them. A single set is often sufficient. Cuticura Soap and Ointment are sold by druggists and dealers everywhere. For a liberal free sample of each, with 25-pc. seal, send post-card to Foster Drug & Chem. Corp., Dept. D, Boston, U.S.A.

ARE USING THE CLIMB

The mountains of culm or coal waste which break the sky line throughout the anthracite coal region of Pennsylvania and which were for many years considered a nuisance, are now being made to serve a very useful purpose. There is at present a market for almost any grade of anthracite that will burn, and no more coal goes to the culm bank except for temporary storage and subsequent recovery by washers. Those ranges of artificial hills, unsightly monuments to former waste, are contributing their share to the total coal production and are rapidly disappearing. Even the waste from the culm-bank washers is being utilized, for it is flushed into the mines and partly fills old workings where it cements together and furnishes support to the roof where the coal previously left for pillars is removed.—Geological Survey.

SALARY LIST OF \$2,400,000

Manager A. H. Woods Controls Vast Interests

MANY STARS ON PAY ROLL

Again Uncle Tom's Cabin is in The Spotlight—Some Coming Attractions in The New York Theatres

Some idea of the magnitude of the interests of Manager A. H. Woods and of the army of men and women who will be on his pay-roll during the coming season may be gathered from the fact that if the New York Workmen's Compensation Law, which has just gone into effect is construed to include actors and actresses among the beneficiaries Mr. Woods will be compelled to pay more than \$12,000 for insurance premiums alone. Just what the actor's status is under the new law is now being considered and the decision is awaited with interest by all managers, but particularly by Mr. Woods, whose salary list looks more like that of a railroad or an army paymaster than a theatrical producer. Mr. Woods will employ more than 600 actors and actresses, ranging in salary from the modest stipend of the chorus to the "four figure" honorarium of the "star." A rough estimate of the weekly pay-roll during the season puts it at \$60,000 and for a season of forty weeks (and some of Mr. Woods' attractions are now booked solidly for more than a year ahead) that would amount to \$2,400,000.

In addition to the question of the insurance of the actors, there is a question as to whether or not the mechanical force or "crew" comes under the new law. Of the thirty odd companies in which Mr. Woods will be interested this season, twenty-five will be continuously "on the road," which brings up the question of interstate liability. The crew are already insured under the old liability act, but the underwriting companies have declared a higher premium on policies under the state compensation law of New York, which, in the case of the 100 or more employees involved, will amount to another tidy sum.

In the role of artists who will be on Mr. Woods' pay-roll this season are: Julian Eltinge, Lew Fields, John Mason, Douglas Fairbanks, Alexander Carr, Barney Bernard, Florence Reed, Pauline Frederick, Josephine Victor, Patricia Collins, Julian L'Estrange, James Lackaye, George Frohst, Robert McWade, Julius Tannen, J. E. Milten, W. L. Abington, John Emerson, Amelia Garding, John Findlay, Arthur Lewis and George Backus.

"Patsy & Peasblossom" have attained the dignity of "Outfitters to the Royal Family"—although it is laughable and partners have furnished to the rulers of England. The Prince of Wales slipped quietly into the Queen's presence and, instead of occupying a box, contented himself with sitting on the floor. He enjoyed himself so much that he told his royal parents and a few days later

Goodrich quality is essential for "Safety First" in tire service

Goodrich Tires are the standard by which all other high grade tires are judged. They are the accepted standard because of their quality. You never bought better tire service, longer mileage or more tire satisfaction than you get in Goodrich Tires today. This is because of Goodrich improvements in curing rubber, in inspecting fabric and in manufacturing methods.

Goodrich Safety Tread Tires Best in the Long Run

Goodrich tires never carried better value to the user than right now. This means a great deal more than the money-saving feature—it means dependable wear and quality service. And now the Goodrich Safety Tread Tire—with its five bars and cross-tie, the Safety Tread Symbol for the motorist—gives you non-skid and non-slide protection every day in the year. It gives you longer service, better riding and longer mileage because of the extra thickness of tough Goodrich rubber in the treads at the point of contact with the road. The thick, tough, Goodrich rubber fingers dig down and grip the roadway. They stop the skid before it starts. They make the brake effective. Take no chances. Equip at least the rear wheels with the Goodrich Safety Tread Tires.

The manager of the theatre received a telephone message that a copy of Montague Glass' book was wanted for the royal library in Buckingham Palace. The manager also received an intimation that the king and queen would visit the theatre as soon as the present suffrage excitement had abated enough to warrant their appearance in so public a place.

Douglas Fairbanks has scored another big hit in "He Comes up Smiling," a new "motor-comedy in four cylinders" dramatized from Charles Sherman's novel of the same name by Byron Ongley and Emil Nityray, authors of "The Fly-Phoenix." Mr. Fairbanks made his debut as an A. H. Woods star at Atlantic City,

N. J., on July 6 and will make an early appearance in New York City. Another A. H. Woods star soon to occupy a New York theatre is Lew Fields in a new comedy entitled "The High Cost of Loving." It is rather unusual to see a musical comedy condensed into a one-act vaudeville sketch, but in "The Big Surprise," which is the headline act at the Toronto Hippodrome next week, song numbers, dancing and even a musical comedy plot will be presented. As a special attraction the Hippodrome management have secured one of the most pretentious posing acts ever offered. The Castilians, who are responsible for the offering, will be direct from New York.

It would look as though the theatrical world hesitates to sing the requiem of "Uncle Tom's Cabin." The Toronto Telegram says:—When William A. Brady, New York promoter, died four years ago to send Wilton Lockaye and an all-star cast on the road in "Uncle Tom's Cabin" there were many who doubted the wisdom of his course. The reception which the well-known play was accorded and the financial returns showed that his action was justified. Next week Adelaide Blood will present at Shea's, Harriet Beecher Stowe's gripping story of life in the south as it existed before the war. The dramatization has been made by Harkins and Barbour. a message from the Calgary Oil Fields concerning an investment that promises splendid returns in Lettermay Oil & Development Co. Limited

Lettermay Oil & Development Co., Ltd., oil, and gas holdings are among the most valuable in the entire Alberta Fields. Twenty acres are but one section away from the now producing Dingman well, which recently overlied its 12,000 gallon tank, 80 acres are near the Monarch; 640 acres near the Sweetgrass territory; 1,620 acres all told—alive with oil and gas indications.

Lettermay has just let contract for drilling—development work starts without unnecessary delay. ONLY A LIMITED NUMBER OF SHARES AT 25 CENTS PER SHARE

Share in the enormous wealth of Alberta NOW by an investment in Lettermay at 25c. per share. Eastern capitalists subscribing heavily have purchased outright 10,000 shares, and given an option for 25,000 shares at par. Negotiations now under way by cable for disposal of a large block of Lettermay shares in Scotland. Applications being received daily. This and development work must eventually raise the value of shares.

We advise instant action in Lettermay at the price of 25c. per share. Scores of wells are now drilling, others erecting derricks. Lettermay holdings are in the heart of active development work, and another strike is expected any moment. Shares would then rise rapidly.

Remember, Lettermay is a Development Company, pledged to drill for oil just as soon as sufficient funds are raised, and NOT a promotion or stock company. ## J. B. M. Baxter In Disturbed Mood

He Makes Something of a Scene Before The Royal Commission—Will Be Heard In Turn

ONE OF THE THINGS THAT CAUSED THE STORM

R. D. Hoban, accountant for the construction company in charge of building the Valley Railway, gave evidence on last Wednesday at the Duval inquiry of a check for \$500 sent to J. B. M. Baxter, M. P. F., for St. John County on Feb. 6, 1914, and returned by the local member March 25, 1914. The above is a facsimile of the check identified in court yesterday afternoon by Mr. Hoban.

J. B. M. Baxter, M. P. F., in an angry mood created a scene at the session of the Duval inquiry yesterday afternoon. He interrupted the evidence to demand a hearing of his statement regarding matters which have come before the court and proceeded with an attack on the leading counsel for Mr. Duval. Mr. Carvell did not take this quietly and gave as good as he received until the chairman found it necessary to order both gentlemen to sit down and to call upon the constable to preserve order. Mr. Baxter was finally told that he would be heard when his turn came.

One of Mr. Baxter's complaints was that he had been treated differently from other solicitors for the railway by having his accounts published. To meet this objection the account of Barnhill, Ewing & Sanford was put in evidence and a comparison revealed the interesting fact that Mr. Baxter had two more conversations with the other firm than they had with him.

The second contract between the railway company and the construction company, showing the advantageous terms given the latter company was put in evidence yesterday.

The examination of R. D. Hoban, accountant for the construction company, who has been on the stand since Wednesday morning, was completed and his cross-examination begun.

Before the court adjourned, to resume at two o'clock on Monday afternoon, it was announced by Mr. Carvell that he hoped to complete his evidence next week.

Mr. Hoban continued his evidence at the afternoon session. In reply to Mr. Stevens witness said that the \$15,000 entry for J. D. Seely's claim was taken out of the books in February.

The \$4,000 entry removed from the interest account on instructions of the auditor, was paid on account of the \$85,000 loan. This was said to be a mistake in charging and was later credited to general expense and charged in the proper account.

Witness explained that his statement of the cost of the railway submitted to the shareholders under date of Feb. 10, was a copy of the statement sent to the government for that month. It showed the revenue received from the provincial government through orders in council.

Such orders, when received by the company, were sent to the Prudential Trust Company at Montreal.

Witness did not know whether the securities mentioned in the minutes of the meeting of April 7 were the securities he had already mentioned as having been loaned to the company.

J. B. M. Baxter Appears.

Witness was continuing his evidence when J. B. M. Baxter stepped forward and said he would like to make an application.

"I hear you are considering the fixing of a day for the closing of the evidence in this matter. I submit that it would be unfair to allow the conduct which has been pursued in this case of issuing to the public material simply for the purpose of political exigencies. I submit it is unfair to apply to people who, like myself, are not parties to the case and whose reputations are attacked in the most cowardly and unfair way. It would only be just to let them appear before your tribunal and infuse into the evidence some injective of truth, a thing which it has not had in the conduct of the case hitherto. I was first attacked in an obscure paper, the Carleton Sentinel, which published before evidence had been given before your honor, a varnished and distorted version of what afterwards came out in evidence.

## An Easy Way To Increase Weight

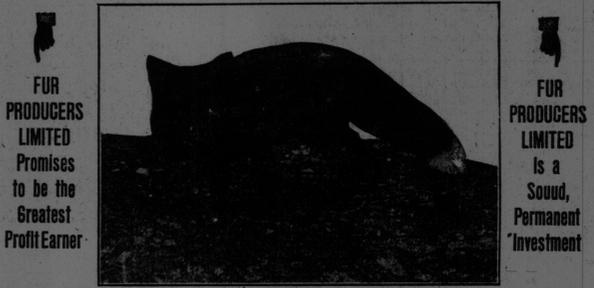

Good Advice For Thin Folks

The trouble with most thin folks who wish to gain weight is that they insist on dragging their stomach or stuffing it with greasy foods; rubbing on useless "fish creams," or following some foolish physical culture stunt, while the real cause of the thinness goes untouched. You cannot get fat until your digestive tract assimilates the food you eat.

Thanks to a remarkable new scientific discovery, it is now possible to combine into simple form the very elements needed by the digestive organs to help them convert food into rich, fat-laden blood. This master-stroke of modern chemistry is called Sargol and has been termed the greatest of flesh-builders. Sargol aims through its re-generative, re-constructive powers to coax the stomach and intestines to liberally soak up the fattening elements of your food and pass them into the blood, where they are carried to every starved, broken-down cell and tissue of your body. You can readily picture the result when this amazing transformation has taken place and you notice how your cheeks fill out, hollows about your neck, shoulders and bust disappear and you take on from 10 to 20 pounds of solid, healthy flesh. Sargol is absolutely harmless, inexpensive, efficient. Leading druggists of St. John and vicinity have it and will refund your money if you are not satisfied, as per the guarantee found in every package.

Caution—While Sargol has given excellent results in overcoming nervous dyspepsia and general stomach troubles it should not be taken by those who do not wish to gain ten pounds or more.

## What Expert Fox Raisers Will Mean to the Shareholders of FUR PRODUCERS LIMITED

The history of the fox industry has been that the only risk attached to such an investment is the difficulty to secure really successful fox raisers to care for the foxes. A small company cannot afford to employ the services of an expert, but a company the size of FUR PRODUCERS LIMITED can profitably employ the services of experts and the cost of such services will be less than the cost of inexperienced help for a small company.

By employing experts the directors of FUR PRODUCERS LIMITED have removed the last and only risk attached to a legitimate fox investment. By securing the services of successful fox raisers to care for the foxes good production is assured and good production means good dividends.

D. J. Bonnell, director of the Fur Farmers' Bureau, Charlottetown, who is at present at the Dufferin Hotel, will be pleased to explain the whole proposition.

## For Week-End Outing Parties

Nothing fosters the purely social spirit like Good Old RED BALL ALE, the creme de la creme of summer drinks — delightfully refreshing and invigorating, it has just claim to a place in the lunch basket. Better jot it down while you think of it.

Simeon Jones, Ltd, - Brewers - St. John, N. B.

Mr. Carvell interposed and said he did not think it right to have such statements made.

Mr. Baxter—The obstruction brigade again. I have a memory of incidents in 1908.

Mr. Carvell—Oh, don't come here like a cur and a coward.

Mr. Baxter—Well, I don't come here like a thief.

The chairman (to the court constable)—Be prepared to put these gentlemen down or I shall have to put them in charge. (Laughter.) I shall not have them using the words thief and cur and coward here. Now, Mr. Baxter, what do you want?

Mr. Baxter—I want a time fixed for a public hearing in connection with slanders here and published in the press.

The chairman—Mr. Baxter, we were in the middle of the evidence of the finances of the company and in the rest money. The commissioners are not prepared to say at the present moment but if, by the consent of Mr. Carvell—

Mr. Carvell—don't think, in view of the language employed by my friend just now that he should have favors of me. I cannot do favors for his advertising purposes at my expense.

The chairman asked Mr. Teed if he could arrange to hear Mr. Baxter after all the witnesses for those supporting the charges have been heard.

Mr. Teed—If he had not come voluntarily I proposed to call him.

The chairman said that the most he could do was to say the application could be made when the evidence was complete.

Mr. Baxter—Then it may be necessary for me at some future time to apply to your honor for a commitment for contempt if such an article as appeared in The Telegraph this morning is repeated.

The chairman—All I read in The Telegraph this morning was the riot. (Laughter.)

Details of Gathering.

After Mr. Baxter retired Mr. Stevens proceeded with the examination of the witness regarding the minutes of the construction company.

The records showed in full the new contract, dated April 15, 1912, between the construction company and the railway company, made necessary by legislation adopted at that time by the provincial government.

The old contract provided that the construction company was to receive all

**Brooklyn 2; Alerts 1.**

The Brooklyn Blues won a hard fought game from the Alerts, of the East End League, 2 to 1, on the Marathon grounds yesterday afternoon. Reardon was on the mound for the visitors and pitched good ball, he was given gill edged support by his team mates. Lawlor was very effective for the locals and was touched safely only six times. Gibbons and Gallagher, of the Alerts, were conspicuous in the field and Graves and McNatt shone at bat, while Danner, of the Blues, was credited with a double and two singles.

**Cleveland Races**

At the Cleveland races yesterday, Frank Bogash Jr. paced a mile in 2:01 3/4, three-quarters of a second better than the record for the course. This horse won the pacing sweepstakes in straight heats. Ella Mackay, after seven heats, captured the 2:14 pacing class. Guy Nett won the 2:21 trot, the 2:19 trot went to Overton, the 2:13 class to Lucy Pat-chen and the 2:06 class space went to Guy Colonel.

### THE RIFLE

At Bisleigh

The Canadians are making a good showing for the King's prize at Bisleigh, and have six men in the finals. At 500 yards, Pte. Fabrum, of Alma, was in twenty-third place; he scored 44 at 800 yards and 41 at 600, with an aggregate of 150, eleven points behind the leader. Falconer got thirty-ninth place in the Elkington Match Cup, winning 21.

A junior barrister was hurrying across to the law courts when he almost collided with a cab. The driver, who had pronounced his opinion in plain English about absent-minded people, "Couldn't you see the bloomin' 'oss?" he asked with withering sarcasm.

"See him?" gasped the startled barrister, looking contemptuously at the animal between the shafts. Then he stepped onto the curb. "I didn't see your horse when I stood in front of him," he added, "but I can see something when I look at him sideways!"

### THREE FRIENDS IN MONUMENT

Paris, July 25—A monument which is to be unveiled soon in memory of Pierre Berthelot the great French chemist, in front of the College de France, is an unusual memorial. The sculptor, Paul de Saint Marceaux, has not only made a statue of the chemist alone, but has placed him in a bronze group which includes his wife and the great writer, Ernest Renan, author of "The Life of Jesus." All three were for years united in the closest bonds of friendship. Renan, who was the first to die, was long mourned by the Berthelots, who out-lived him some fifty years and who then died on the same night.

EAST ST. JOHN CAR LINE

The street car troubles in the city did not affect the progress of the work on the East St. John extension and the line is being rapidly pushed farther and farther; today the rails are laid to within a few hundred feet of the site for the new bridge near the Municipal Home. Men have been at work nearly all week on the temporary trestle bridge which will take the traffic while the new bridge is being placed in position. The trestle is being built on the west side of the road. It is expected that the new bridge will be placed in almost the same position as the present trestle, but will be double the width. The work on the trestle is about half completed. It will probably be ready for filling by the end of next week.

Two Farms Sold.

Alfred Bailey & Co. report the sale of two farms. The Bonnell farm, situate at Public Landing, consisting of 100 acres with house and barns and having a beautiful river front of thirty-two rods. The purchaser is Captain R. R. Longmire, who recently sold a farm in Nova Scotia. Captain Longmire's family have taken possession and will immediately make extensive repairs to the buildings and improvements to the farm. The Brazeal farm, situate at Cumberland Bay, has been purchased by Mr. Chesley, of Massachusetts. The farm consists of 200 acres and is a splendid property with fine buildings. There is a half-mile trotting track on the farm which has been the scene of many interesting horse races.

PLENTY TO TALK ABOUT

The leaders of the government party in this province seem to have reached the conclusion that it is time to do something. What the party has done in the past has been plenty, according to the idea of the average citizen, but some fresh move is believed to be under consideration.

The gathering of provincial Conservative leaders in St. John yesterday, including Hon. G. J. Clark, the acting-premier, the chief whip in the legislature, the assistant whip and other members of the legislative assembly suggested a caucus over the disturbed conditions.

What the object was has not been announced for the benefit of the public but developments of the last few days may be accepted as quite sufficient supply material for conversation among politicians meet.

CH OF PROMISES

First time in many years his province may be divided and deciding for or against a supreme court in Nova Scotia, New Brunswick, and Prince Edward Island, which may be decided by the Supreme Court.

PICTURES! PICTURES!

Our immense stock of Pictures is becoming too unwieldy for us to handle, and in order to sort up and make room for new stock, we are reducing the prices, in many cases below cost.

As a starter we have selected a large lot to sell at 95 cts. each, and we are showing them in our window.

Some of these sold originally at from two to three times the price mentioned and are all genuine bargains.
