FRANCE NOT TO TAKE OVER THE RHINELAND

Control Along Economic Lines During Moratorium

Premiers of Britain, France, Italy and Belgium Meeting in London Today Preparatory to Brussels Conference on Reparations.

(Canadian Press) London, Dec. 9.—Premiers of Great Britain, France, Italy and Belgium met here today to sketch the latest and perhaps the most important chapter in the long story of German reparations.

The details, it is expected, will be filled in at the forthcoming Brussels conference to which the conversations beginning today are preliminary.

Premier Poincaré is the spokesman for the nation most directly concerned with the troublesome reparations problem, was expected to take the occasion at the first meeting with Bonar Law to state definitely that France has absolutely no desire to take over the Rhine-land.

Members of the French delegation believed that he would point out that running the railroad lines as a guarantee of Germany's promise to carry out the reforms that would insure payment of her bill.

It is generally believed that the London meeting will be confined to a discussion of a moratorium for Germany and the guarantees which France demands.

Premier Poincaré believes that the attitude of the U. S. prevents Great Britain from cancelling the French debt.

It seems impossible to reach an agreement this time on the reparations question, it is believed. Poincaré will only go to Bonar Law in London to be prepared to agree to a moratorium, but only on the condition that we take over administration of the reparations.

The conference will be held in two sessions today. The first session will be devoted to the discussion of the reparations question.

The second session will be devoted to the discussion of the reparations question.

THIS IS FIRST GOVERNOR GENERAL OF IRELAND

Police Rescue Chicago Man; She Fights Them

Says Relatives Were Trying to Spirit Him Away to Get His Money—Kozony a Skeleton and a Mental Wreck After Fearful Experience.

(Canadian Press) Chicago, Dec. 9.—Strapped to a bed, and lashed hand and foot, for four years by his mother, who did not want to lose him, James Kozony, 80 years of age, was rescued yesterday by the police who broke into the mystery house and found him in an unrecognizable, filthy, dark, cold room.

When his bonds were cut Kozony was unable to move. Four years of inaction made him a helpless skeleton and a mental wreck. Before they could cut him loose, two detectives had to subdue his mother who fought like a tiger.

The mother said her son had been twice in the asylum for the insane at Dunne. She said he was demented because of an accident in youth. She talked constantly of relatives "who are trying to spirit him away" in order to get possession of money she says was left him.

The mother said that because of his screaming she had removed him from the tight little room in the basement. There he was "spread-eagled" with feet and hands tied to the four corners of the bed. He had been in this position for four years, and had become so weak that he did not scream any more.

Paris, Dec. 9.—Three purses for a fight between Battling Sild and Georges Carpentier have been offered. Two of the purses, each for a purse of \$50,000, francs came respectively from a Marseilles merchant and a Paris bicyclist.

The latter concern deposited a check as a forfeit with the Matin. The third offer, of 400,000 francs, is from the National Boxing Ring. Still other purses are expected to be offered.

France is tired of this disgraceful dispute and "we want it settled in the honor of all concerned," it is said, "said the Marseilles merchant in making known his proposition.

Sild has not yet accepted the challenge made by Carpentier before the latter left yesterday for Brighton, England. The fight declared before he accepted he must receive his share of the \$24,000 francs, receipts of the fight of September 24, when he knocked out Carpentier.

The Six-Day Grid. New York, Dec. 9.—The last day of the six day bicycle race at Madison Square Garden found the Brooklyn Cobble and Guyton-Bellows still tied for the lead. At eight a. m. they had covered 2218 miles and 8 laps.

Arthur S. Fitzgerald, of Windsor, elected president of the newly organized Ontario Society for Crippled Children, which is a Rotarian organization. It will make a survey of all crippled children in the province, and a Rotarian will be allotted to each one needing care to supervise its treatment and progress.

San Francisco, Dec. 9.—Mrs. Agnes Risberg was granted a divorce here yesterday from Charles Risberg, former Chicago White Sox shortstop. Mrs. Risberg won on the ground that her husband was cruel and neglected her. She was given custody of their children. Since he is out of the organized baseball, she said, Risberg has been playing in the outlaw leagues under the name of Jack Mackay.

Washington, Dec. 9.—Increased mailing conveniences and facilities will accrue both to the U. S. and Canada as a result of the postal conference held in Ottawa. Postmaster Work said: "The reception accorded the American delegates to the conference was overwhelming in its cordiality and throughout the negotiations the spirit of reciprocity and amiability existed which has always characterized the relationship between the United States and Canada."

Boston, Dec. 9.—At counsel for John A. Nicholls, defeated prohibition candidate for U. S. Senator, Conrad W. Crocker has called upon Governor Cox not to issue to Senator Henry Cabot Lodge, Republican, the usual certificate of election. He said that Nicholls intended to contest the election.

Santiago, Dec. 9.—Cardinal Martin De Herreyra de La Iglesia, Archbishop of Compostella for 83 years, died today. He was 87 years of age. Before his transfer to the Arch-diocese of Compostella he was for several years Archbishop of Santiago, Cuba.

Hamilton, Ont., Dec. 9.—Opening the third hydro radial campaign here last night, Sir Adam Beck said powerful opposition to the hydro enterprise was nothing new. In the face of powerful and bitter opposition it had grown from a system of twelve municipalities until it stood, like a rock of Gibraltar, representing an investment of more than \$200,000,000 dollars and serving more than 300 municipalities.

WANT SIKK AND CARPENTIER IN RING AGAIN

SEES NO CAUSE FOR CHANGE IN LEADERSHIP

More Purses Offered for a Bout—France Tired of the Dispute.

Winnipeg, Dec. 9.—"I don't see any reason why the official opposition in the Federal House should be changed," declared Robert Forke, M. P., progressive leader, in a long distance telephone conversation from Pipestone, Man., with a local paper yesterday regarding a Toronto report that Hon. Arthur Meighan was "in danger of losing the official leadership of the federal opposition with the annual session of Parliament."

"We can and always could have claimed this title, our majority over the Conservatives at the last session of the House being fifteen," Mr. Forke said.

Asked whether a meeting of the Progressives would be called to consider the proposed change, Mr. Forke said no meeting was contemplated prior to the session.

Washington, Dec. 9.—Georges Clemenceau, repeating his plea for France in an address here yesterday interpreted a paragraph of President Harding's annual message to congress as an "overture" looking toward the sort of European rapprochement for which he hopes.

The president's words dealt with the four power treaty, and were as follows: "The four power pact, which abolishes every probability of war in the Pacific, has brought new confidence in a maintained peace, and I can well believe it might be made a model for like assurances wherever in the world any common interests are concerned."

After reading this extract Clemenceau said: "I hope the diplomats will make something of it."

Paris, Dec. 9.—Fleeing from a violent tempest sweeping the Mediterranean coast of Spain, the French mail boat Governor-General H. Hirman has struck on reefs at the entrance to the Harbor of Port Vendre, nineteen miles southeast of Perpignan, where it was seeking refuge. The passengers, all of whom are reported to have been saved, were put ashore after much difficulty, but the vessel probably will be lost. The mail boat was coming from Algiers.

This is one of many wrecks during the present storm, which has blown off many Spanish sailing and fishing vessels.

So far as the Edmonton strike is concerned, officials of the union have received no word from F. E. Harrison, Dominion labor inspector at organized operators, regarding a conference between the miners and operators to draw up a working agreement.

Calgary, Dec. 9.—Miners in the eight mines in the Drumheller field who went on strike on Wednesday were all at work again when the mines resumed operation yesterday, according to word received at the district office of the U. M. W. here at Word was received last night by the Drumheller miners that the local office was investigating their grievances with the operators.

As Hiram Sees It

Well, sir," said Mr. Hiram Hornbeam to the Times reporter, "me an' Turner Howard an' Ken Haley an' Doc Chipman an' Len Farquhar an' Harry Scott had a meetin' last night on City Road an' we decided that there East End Boys' Club. They was givin' show, 'em three or four older folks lookin' on—'em they all staid till the last two fellers done their part on the floor. It was gymnastics mostly—'em I bet you can't beat some of 'em in the hull town. Say, Mister—I seen that there Boys' Club when it was young an' full of Old Nick's last night. I seen it agin with some of the fellers that used to be little growed up, an' they leadin' the new crop that's comin' along. That's what I call doin' good. Fer a boys' show it 'ud be hard to beat what them boys done last night—'em Miss Heffer an' Walter Evans told me the wasn't a finer lot of youngsters anywhere. An' they're workin' to raise money to buy a red boys' club. Kin you beat it, anywhere in this town? No, sir—you can't."

Mr. Bolshevist: "So you won't jass with me again?"

Miss Labor: "Certainly not. You've done enough damage to my flock already."

—From the Bulletin, Sydney, Australia.

Bad Day at Lausanne

Turkey Apparently Has Broken from Russian Influence

Soviet Delegates Resentful, but are Accepting the Situation Relative to Dardanelles—The Details Being Worked Out by Experts of Near East Conference.

(Canadian Press) Lausanne, Dec. 9.—Optimism reigned supreme in Lausanne today for the Near East conference had weathered what was probably its most difficult session to date. Ismet Pasha's statement that reconstruction on a larger scale would be undertaken on the Dardanelles question and the reply it brought from Lord Curzon on behalf of the inviting powers resulted in a general clearing of the conference atmosphere.

Turkey has apparently broken away from Russian control and is now a free nation. The details of the Dardanelles settlement were being thrashed out today by the naval and military experts in informal meetings and it was expected that several days would elapse before another general conference would be held to discuss the modified plan designed to satisfy both the Turks and the allied powers.

The problem of Turkish capitulations is being worked out by sub-commissions, which are said to be making good progress.

Even M. Tchitcherine the Bolshevist foreign minister, abandoned his previously extremely hostile attitude and expressed approval of the Turkish proposals for regulation of the straits, with the reservation that he must see the actual words of the sections covering the various points at issue before he could give approval to them.

Lord Curzon replied to questions on which Ismet Pasha had asked further information. His address indicated the most of the questions on which the Entente and the Turks differed were proper subjects for discussion in an informal way by military and naval experts, and expressed the opinion that such discussion would bring forward the necessary technical information which would undoubtedly form the basis for agreement.

The only hard note of the session came from M. Tchitcherine and M. Rakovsky, also of the Russian delegation, demanded that Russia be admitted to all informal discussions between the military and naval experts of the Entente and the Entente on the straits question. Lord Curzon held this would be impossible, as these discussions would be informal and wholly unofficial.

When flames threatened the city jail the doors were opened and about thirty-five prisoners released. The jail docket disappeared and no record of the released men could be found.

Prisoners from a lunatic asylum were released when flames seemed to threaten that structure. Three convicts were sent to be awaiting transportation to the state penitentiary district Attorney Erickson in removing law books and furniture from his office.

LOSS TWELVE MILLIONS; 24 BLOCKS RAZED

Twenty-five Hundred People Homeless in Astoria

City's Food Supply Commandered—Three Churches in Path of Flames Escape—Prisoners, Freed from Jails, Aided in Salvage Work.

(Canadian Press) Astoria, Ore., Dec. 9.—Astoria today surveyed its losses from the \$12,000,000 fire which yesterday razed twenty-four blocks of the city's business center, and set on foot measures to relieve the 2,500 persons made homeless by the conflagration.

With the heart of the city in smoldering ruins, plans for rebuilding were nebulous, but it was the general feeling that reconstruction on a larger and more substantial scale would start as soon as the more immediate relief of both the city and the allied powers.

The problem of Turkish capitulations is being worked out by sub-commissions, which are said to be making good progress.

Even M. Tchitcherine the Bolshevist foreign minister, abandoned his previously extremely hostile attitude and expressed approval of the Turkish proposals for regulation of the straits, with the reservation that he must see the actual words of the sections covering the various points at issue before he could give approval to them.

ASQUITH IS CHEERED AS HE MEETS ATTACK

Commons Hears Former Premier, in a Dignified Speech, Repel Insinuation of Labor Member.

(Canadian Press) London, Dec. 9.—The House of Commons listened feeling yesterday to a dignified statement by former Premier Asquith repelling an insinuation contained in a speech by the Labor member for Striling and Clackmannan, P. Johnston, at a late hour on Thursday night to the effect that Asquith's participation in the strong denunciation to the late government in regard to the Sudan loan guarantee, was associated with the fact that one of the non-Britishers, the family into which one of Asquith's daughters married, held a Sudanese appointment.

The ex-Liberal premier, amid loud and continuous cheering, said that during his forty years of public life he had never known anybody on the floor of the House to have the courage to make that insinuation. Mr. Asquith drew attention to the fact that the usual notice that such a charge was to be made, was not given him so that he might deal with it immediately.

Mr. Asquith explained that he participated in the denunciation contrary to the usual rule, because his government had passed earlier legislation on the subject and he was convinced that further financial assistance was necessary. Also, he did so at the request of his constituents in Paisley, whose welfare depended on the development of cotton growing in the Sudan.

EGGS DEAR IN PREDETERMINED. Eggs reached a new high figure in the production market this morning. Eighty cents a dozen was paid, and eighty-five cents was asked. Chickens also advanced to forty cents in some cases. The recent snow has made traveling in the rural districts excellent and there has been heavy killing of pork which has been offered in large quantities at steady prices.

PROHIBITION DEFEAT AT NEW ZEALAND POLLS. Wellington, N. Z., Dec. 9.—(Canadian Press)—Complete figures on the licensing referendum disclose a majority of 16,188 for continuance of licensing. The majority for continuance in 1915 was 3,282. The vote was a heavy one. The failure for prohibition is attributed to fear of its financial effect.

When flames threatened the city jail the doors were opened and about thirty-five prisoners released. The jail docket disappeared and no record of the released men could be found.

Prisoners from a lunatic asylum were released when flames seemed to threaten that structure. Three convicts were sent to be awaiting transportation to the state penitentiary district Attorney Erickson in removing law books and furniture from his office.

**REASONS GIVEN FOR BAD CHECKS**

**Unguarded Blanks, Improper Drawing, Lack of Theft Protection and the Use of Poor Paper Said to be Causes.**

Four principal reasons for the error of checks and other negotiable paper, which is such a problem to the bankers, were assigned by Burgess Smith of Rochester, N. Y., who has just returned from England, where he made an exhaustive study of the system in use there to prevent forgery. Mr. Smith was formerly expert of the United States Bureau of Engraving and Printing and is now director of laboratory research for a manufacturer of forgery-proof paper. While he has participated as to the reasons for checks, drafts and other forms of negotiable paper going wrong, the four principal reasons he enumerates, reduced to their elements, may be classified under the general head of carelessness.

"I do not mean to assert that only these checks which are drawn without any safeguards, whatever are the prey of forgers, for I do not underestimate the cunning of this genre," said Mr. Smith, who is at the Hotel McAlpin. "Indeed, since most of my life has been spent in the task of devising ways to circumvent them, I believe I know very well and quite in their work and I know that they are resourceful, ingenious, clever and untiring. It is a fact that ordinary care in the use of checks by the drawer will go a long way toward hampering the work of the criminal. The exercise of this ordinary care with the use of standard devices for the protection of negotiable paper will make the forgery and alteration of checks practically impossible.

"To any one who has given the matter even casual attention it is astounding and inexplicable how careless the average man is in the matter of guarding his checks against going wrong. No sane man will neglect to install an up-to-date, efficient system of book-keeping and cost accounting as a stop gap against losses in the conduct of the business.

"Nor will he be deterred in the matter of providing bolts, burglar alarms, time-lock safes and all the approved devices to guard against thieves. He is equally cautious in guarding his home and his household treasures against burglars. Yet that same man will ignore all the rules of caution in the use of his checks, which frequently represent more than his household and office goods worth total.

**\$50,000,000 Lost Annually.**  
"The business world only a few months ago was amazed at the statement that the annual losses in the United States through the forgery and raising of checks totaled \$50,000,000 or more and were increasing at the rate of millions of dollars annually. Yet to those who have conversed with the operators of the clearest banks in the whole criminal world and who know how comparatively easy the carelessness of check users makes their

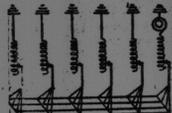

**FIFTEEN MINUTES OF RADIO EACH DAY**

By Edward N. Davis  
Formerly Technical Electrical Expert For U. S. Government

Lesson No. 177.

**THE MULTIPLE TUNED ANTENNA**

In some transmitting installations, instead of employing the usual form of flat top or umbrella antenna an arrangement is used known as the multiple tuned antenna. The multiple tuned antenna consists of a long flat top antenna of many wires sometimes a mile or more in length grounded at several points through loading coils. The leading coils at the end of each section permit each portion of the antenna to be tuned separately to the wave length on which it is desired to radiate.

In the diagram is shown the circuit of a multiple tuned antenna grounded at six points equidistant apart. By this novel method the ground resistance may be reduced to the resistance of a single ground connection divided by the number of ground connections. As ordinarily employed in high power stations the multiple tuned antenna is so constructed that the currents in each of the individual antennas which constitute the whole system are in phase. It is possible to construct the antenna with such dimensions and by the use of tuning coils to regulate the phase difference between the radiated waves of the various component parts of the antenna so that a decided directional effect is produced.

While the multiple tuned antenna has been employed chiefly in high power work at trans-oceanic stations operating on wave lengths of ten thousand meters or more, it is interesting to note that a form of multiple tuned antenna was recently employed at a broadcasting station operating on the wave length of 360 meters. In this case the antenna was grounded at one point in addition to the regular ground connection. By means of this form of antenna aerial wires of considerably greater dimensions than ordinarily employed for operation on the short wave length of 360 meters may be used. In the case of broadcasting stations it is not desirable to make use of the directional effect possible by phase displacement since this would defeat the purpose of the station.

While the multiple tuned antenna is not adaptable to amateur wavelengths and spark transmitters it is interesting to note that many amateurs have increased the radiation from their transmitting equipment by applying some of the principles of the multiple tuned antenna system. Many amateur stations employ both counterpoise and ground connections on the transmitting set. In order to tune the open circuit employing the counterpoise to the same wave as the open circuit with regular ground connection it is necessary to employ more turns in the aerial tuning inductance in the counterpoise lead. This is due to the fact that the effect of the counterpoise is somewhat similar to the effect of a series condenser in the regular ground lead.

Some amateur stations have ground leads connected to water pipes, gas pipes, old wells, buried wires and other grounded objects. It is found that the total radiation can often be increased by inserting tuning coils in all the different ground leads and adjusting the coils until the circuits through all the ground leads are adjusted to the same wave length.

cooked operations, the only surprising thing about it is that the total of annual losses is not far greater. "The enormity of these losses will hardly be surprising when we stop to consider that in no country in the world is the use of checks so great as it is in this country. Americans, with their practical sense of economy and convenience of operation, have adopted the check as the best medium for the facilitation of business operations, and today 92 per cent of our business is transacted with checks. I can give you a better idea of what this really means in the expansion of capital by quoting J. W. Spahr's statement in 'Protecting the Nation's Money' that a volume of business totaling \$342,000,000,000 annually is done in this country with an actual currency of something like \$2,000,000,000.

"When you consider this enormous volume of business transacted through checks, and when you consider further that millions of checks are drawn without the observance of the most ordinary precautions against having them tampered with, it is only surprising that the annual loss through forgery and alterations is no greater than \$50,000,000. "But this is an enormous waste that may be in great part stopped by the exercise of ordinary care. The principal precautions that I would recommend are those formulated by the Forgery Prevention Bureau, recently organized in the city at 161 Broadway. Keep Them Locked Up. "Under the first head the bureau advises that checks be kept under lock and key; that they be numbered serially, and that the paper be on some special design or fabric that will be extremely difficult to successfully imitate.

truly difficult to successfully imitate.

"To guard against loss by improper drawing of the checks, the drawer should never have a check typewritten, but should have the payee's name typewritten in a good quality of ink. The figures also should be written in ink, with a minimum of space between each figure and the amount. Where the amount of the check is written by hand the writing should begin as close as possible to the left-hand margin and the unfiled space to the right filled in with two wavy lines, preferably in ink of a different color.

"A favorite method of the forgers gangs to get raw material for their operations is to rob the mail boxes of apartment houses and loft buildings. Where this is done they follow close in the wake of the letter carrier on the first morning delivery, and the construction of the mail boxes now generally in use is such that an expert has no great difficulty in extracting the letters he is after. Once in hand he rifles them, appropriates the checks, and wherever they are of the primitive type that lack careful drawing or any sort of safeguard, he skillfully changes the names of the payees and the amounts. Hundreds of thousands of dollars are lost right here in New York through this method.

"Under the fourth head there is little to be said, except that if forgery-proof paper and check-writing machines are used, together with the observance of precautions under the three others heads, the forger gangs will find the business so unprofitable that they will become discouraged. The use of such protective devices has the virtue of obviating the deficiencies due to the personal equation in the drawing of checks."

**MONKEY IS KILLED FOR HUGGING THE POSTMASTER'S WIFE**

A small monkey, which may have been the "baboon" which terrorized the countryside a few weeks ago, though some say the latter animal emphatically deny it, was shot and killed the other day after it had hugged Mrs. Samuel Powell, wife of the postmaster of Babylon, Long Island.

Mrs. Powell wasn't looking for monkeys. She was on her way to buy a goat and was driving toward Copiague in a surrey with Harry Kingsman, whose eye for a goat is about as keen as anybody's in Nassau County, when the monkey dropped in.

It dropped right into Mrs. Powell's lap and embraced her fervently. Mr. Kingsman obediently detached the monkey and flung it to the road. It scuttled toward the brush with a single reproachful glance over its shoulder at Mrs. Powell.

A hunter emerged from the brush at the same moment. His specialty is goats and he doesn't know much of anything about monkeys. Even if he had, he was so amazed to see the postmaster's wife in the embrace of one that he was powerless to move or speak until Mrs. Powell screeched him with a shriek for help.

"Take it off! Take it off!" she screamed. "I'll die!"

Mr. Kingsman obediently detached the monkey and flung it to the road. It scuttled toward the brush with a single reproachful glance over its shoulder at Mrs. Powell.

**BOY BANDITS PULL HOLD-UP IN PARK**

Take Money, Marbles and a Watch from Other Lads by Force.

New York, Dec. 8.—A band of boy bandits, who have been preying on the children of prosperous parents in Central Park for the last month, have robbed them of small amounts of money as well as of marbles, tops and other toys, is believed by the police to have been broken up as the result of four arrests. The roundup of youthful offenders followed the arrest of two of them after the robbery of a boy in the East Drive. One of the prisoners confessed to robbing a boy two weeks ago and his two companions, who were also arrested.

**WIFE, HUSBAND AND STEPSON SENT TO SEPARATE PRISONS**

New York, Dec. 8.—Three members of the family of Robert A. Carrick, sixty-one years old, who formerly lived at 16 Hawthorne avenue, East Orange, N. J., parted this week to serve sentences in different prisons for the same offense.

**REMOVE OPEN SAFETY PIN FROM SMALL BABY'S THROAT**

Toronto, Dec. 9.—An open safety pin he had taken part in the robbery of Charles Handley, 9, of 114 West Street, on Nov. 21, when three boys held up the Handley lad and took a wrist watch from him. Section named Alfred Edwards, 12, of 80 Amsterdam Avenue and John Murray, 13, of 72 Amsterdam Avenue, as his companions, and they were arrested.

DE PALMA BEGINS TEN-DAY JAIL SENTENCE FOR SPEEDING

Fresno, Cal., Dec. 8.—Ralph De Palma, automobile racer, surrendered to the Sheriff at Modesto, Cal., and began serving a ten-day sentence for speeding at Chowchilla last month. He valued at \$1,200 from the home of Hayward Hamblet of 188 Hillside avenue, Newark. According to Mr. Hamblet the defendants occupied his home during his absence, and when they left they took the furniture with them.

EXHIBITION BY EAST END BOYS. The East End Boys' Club's physical exhibition, given last night and Thursday night in the club rooms, will be attended on both nights and the very creditable performance of the boys elicited most favorable comment. For the first time the club had a class of boys trained by one of the club members. Mrs. McIntyre, a member of the second year leader course, having been the first to offer to train the Juniors, had carried his undertaking to great success. With Walter Evans, the physical instructor, Leo McIntyre took part in

New Kind of Light

Inventor Discovers Way of Producing Whiter Light than Electric from Kerosene Oil.

A new lamp has recently been invented which burns common kerosene oil and produces a soft, white light said to be even better than electric or gas. Tests by the Government and leading Universities prove this new light is superior to the ordinary oil lamp. It burns without noise, is simple and economical, requires no pumping up and has been approved by the Underwriters for insurance. The inventor, O. K. Johnson, 246 Craig St. W., Montreal, is offering to send one of these new lamps on ten days' free trial, or even give one to the first user in each locality who will help him introduce it. Write him today for particulars. Also ask him to explain his agency proposition.

\$5,000,000 U. S. CHECK IS PAID TO COLUMBIA ON ACCOUNT Washington, Dec. 8.—The United States has given the Republic of Colombia a check for \$5,000,000, its first payment under the \$20,000,000 treaty ratified in 1921 to cover certain damages incurred in the construction of the Panama Canal. The payment was due Sept. 30, but for some unexplained reason Colombia was not ready to receive it until this week. Under the treaty the remaining payments will be made yearly in \$5,000,000 sums.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., SATURDAY, DECEMBER 9, 1922

The Evening Times and Star

ST. JOHN, N. B., DECEMBER 9, 1922. The St. John Evening Times is printed at 27 and 29 Canterbury Street every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

ST. JOHN IS INTERESTED.

The National Council of Education is doing a good work in providing for a series of addresses on educational topics with a view to such co-operation through all the provinces as will make our educational system more truly national. The Council does not aim at complete uniformity, which would be impossible. Its purpose is thus stated in general terms:—

The corporate sense which moved Canada to federation, the spirit which moved her during the war are now invoked to make her one in education; not by centralization of authority and control, nor by uniformity of system and method, but by co-operation of effort towards a common ideal and the evolution of a high national purpose.

Such co-operation will be the more necessary because we are inviting immigration on a large scale, and there will be increasing numbers of people new to Canada and her ideals, whose children must be taught to be good citizens of the Dominion as well as of the province where they dwell.

When the National Council of Education was organized in 1919 it appointed a committee of fifty to study the question raised at the great conference in Winnipeg, and to report at a second conference to be held in Toronto at Easter next year.

At a banquet in Welland, Ont., this week, at which some of the guests were delegates to the convention of the World League Against Alcohol, some of the other guests are alleged to have used liquor very freely, and the visitors have entered a protest. Bootleggers and some banqueters are apparently in the same class. They have no sort of respect for the law.

Public Responsibility. The sentence of Tebo, the youthful Digby murderer, has been commuted because he is adjudged a mental defective. This moves the Halifax Chronicle to observe:—

TO THE CUCKOO.

(By John Logan) Halli' beauteous stranger of the grove, Thy messenger of spring!

What time the daisy decks the green, Thy certain voice we hear; Hest thou a star to guide thy path, Or mark the miller's way?

Delightful! With thee I hail the time of flowers, And hear the sound of music sweet From birds among the bowers.

The schoolboy, wand'ring through the wood To pull the primrose gay, Starts, the new voice of spring to hear, And imitates the lay.

What time the pea puts on the bloom, Thou flit' thy vocal vase; An annual guest in other lands, Another spring to bow.

Sweet bird! Thy bow is ever green, Thy lay is ever clear; Thou hast no sorrow in thy song, No winter in thy year!

O! could I fly, I'd fly with thee; We'd make, with joyful wing, Our annual visit o'er the globe, Companions of the spring.

Lighter Vein. Weary Willie scorns. Weary Willie slouched into the parlor.

How much will you give me for this overcoat? he asked, producing a faded but newly mended garment.

Isaac looked at it critically. "Four dollars," he said.

"Why," cried Weary Willie, "that coat's worth \$10 if it's worth a penny!"

"I wouldn't give you \$10 for two like that," smiled Isaac. "Four dollars or nothing."

"Are you sure that's all it's worth?" asked Willie.

"Four dollars," repeated Isaac. "Well, here's your \$4," said Weary Willie.

"This overcoat was hangin' outside the shop and I was wonderin' how much it was really worth."

Hootch, Man, Hootch! Convalescent (to a grateful friend): "Thanks very much for the brandy peaches. Although the doctor wouldn't let me eat the peaches, I enjoyed very much the spirit in which they were sent."

The Bright Side. "There's such a thing as overdoing the 'bright side' business," said Billings.

"The other night I was at the Joyce's, and Joyce—you know how absent-minded he is—put the lighted end of his cigar in his mouth."

MR. DOOLEY ON NEGRO PROBLEM

By Finley Peter Dunne.

"What's goin' to happen to th' nigger?" asked Mr. Hennessy.

"Well," said Mr. Dooley, "he'll either have to go to th' north an' be a subject race, or stay in th' south an' be an object lesson."

"I'm not sure that I'd not like to see th' nigger in Mississippi as taken to death in New York. If I was a black man, I'd choose th' cotton belt in preference to th' belt on th' neck fr'm th' policeman's club. I wud so."

"I'm not so much troubled about th' nigger who he lives among his oppressors as I am when he falls into th' hands of his liberators. When he's in th' cage, we can see up his mind to be lynched soon or late an' give his attention to his other pleasures in company."

"I'm not so much troubled about th' nigger who he lives among his oppressors as I am when he falls into th' hands of his liberators. When he's in th' cage, we can see up his mind to be lynched soon or late an' give his attention to his other pleasures in company."

"I'm not so much troubled about th' nigger who he lives among his oppressors as I am when he falls into th' hands of his liberators. When he's in th' cage, we can see up his mind to be lynched soon or late an' give his attention to his other pleasures in company."

Burnall Fuel Saving System

This System is installed on the furnace and burns the gases that ordinarily escape up the chimney. It increases the efficiency of the Heating Plant. It reduces the consumption of coal 20 per cent or over. It eliminates clinkers and reduces smoke. It reduces ashes 50 per cent. It is guaranteed to do all this or is removed without cost to the customer.

Why waste this amount of fuel? W. J. CRAWFORD & CO., Agents. Phone M. 820 12-11 169 Union Street

MORNING NEWS OVER THE WIRES. An agreement was concluded yesterday in Montreal between the special wage sub-committee of the Railway Association of Canada and a committee of officials of the railway employees' department of the federation of labor providing for a continuance of the rates paid employees in the shops trades since August 16 last. The reductions introduced on August 16 provided for cuts varying from five to nine cents an hour. The shopmen strongly opposed the reductions at first but now have accepted it. About 25,000 men are affected.

MADE OF MANY THREADS. (The Englishman, Calcutta). It has been repeatedly pointed out that the civilization of today is neither purely of the East nor of the West. Its outward forms as manifested in clothing, social customs, and the use of scientific appliances may have originated or been brought to perfection in Europe, but whatever of religion or education and sustenance and runs off spiritually there is in civilization was into the world.

Dame Rumor's Chance. (New Orleans Times-Picayune). Being "mentioned" for a political appointment is about as close to fame as many men ever get. According to the census of 1910, six out of every 100,000 persons in the United States are blind.

NOBODY OVERWORKED. (Los Angeles Times). Prof. William Palmer Wynne of England announces his discovery, arrived at through years of study and practice among the human species, that no person ever suffered from overwork. On the contrary, declares the astute student of the varieties of the human mind and nervous system, most people suffer from not having enough work to do. What a howl at all our preconceived ideas. Who has not at some time in his career indulged in a magnificent delirium of self-pity because of the heavy burdens placed on his bending shoulders and breaking back? And if this idea becomes widely prevalent how will it revolutionize our daily life. The chief excuse for idleness having been removed, people will have to retrace their steps and find their own way to work, and life will be as rosy and gay as youth dreams it is. More power to Dr. Wynne and his new idea.

TURNING BONES INTO BRONZE. Living men with bones of bronze may soon be a common sight, according to an important announcement to the Academy of Science at Paris by Prof. Doumer, disclosing a method by which large quantities of copper may be introduced into the human organism by means of electricity. The process consists of passing a weak current through two electrodes soaked with a solution of sulphate of copper, the electrodes being placed on the skin of the patient. It is thus possible to introduce five to ten centigrams of metallic copper daily, eventually saturating the organism to such a degree that the bones become metallic and the skin takes on a bronze hue.

BLIND INSECTS DAMAGE POLES. The latest enemies of the public utility company are insects, according to the Scientific American. Blind ants and carpenter bees are engaging the attention of electrical men throughout the country. The insects are causing much damage to electric light poles. They enter the pole below the ground, eating their way through the poles all the way to the top. Being blind, they instinctively seem to shun the light and confine their operations beneath the surface. Methods of checking the devastation are being considered.

REAL FELLOWSHIP. Queen Mary was never in closer touch with the members of her sex than when she joined them in a holiday country rush in a London department store.

**RECENT WEDDINGS**

**Duggan-Brown.**  
A wedding of much interest to many in this vicinity took place in New York at the Commodore Hotel on Monday, December 4, when Helen Christine Brown, B.N., daughter of Mr. and Mrs. M. D. Brown, of this city, was united in marriage to Joseph R. Duggan, son of Dr. and Mrs. J. J. Duggan, of Milford, Mass., by Rev. B. H. Neale.  
The bride wore a dress of brown Canton crepe with hat to match, with seal trimming. She was attended by Miss Hazel Morehouse, of Boston, who

wore black lace and satin hat trimmed with French flowers. The groom was supported by Mr. John P. Flemming, of Philadelphia. After the wedding ceremony Mr. and Mrs. Duggan left for Philadelphia, where the groom is employed by the U. S. Shipping Board.  
On their arrival they were tendered a reception dinner at the home of the groom's brother.  
The wedding presents were numerous and costly, among which was a substantial gift from the bride's father. The groom's present to the bride was a Buick car, and to the

Petit-Rodgers.  
A wedding of interest to many friends in this city took place on November 30, in St. Mary's Jesuit church, in Boston, when Rev. Father Arnold united in marriage, Dominick Petit and Miss Josephine Rodgers. The bride formerly resided in this city, living in the North End, but removed from her several years ago with others of her family to Boston, where they have since made their home. She was attended at the wedding ceremony by her sister, Miss Margaret Rodgers, and by Miss Elizabeth Walsh. The groom's cousin, Alfred Garo, was best man. The wedding was performed with nuptial mass and was followed by a honeymoon trip to New York. Upon their return the bride and groom will reside at 49 Montello road, Jamaica Plains. The best wishes of numerous

friends, in this city will be extended for their future happiness and prosperity.

**RECENT DEATHS**  
Mrs. Patrick H. Nugent.  
Many friends in the city and county will regret to learn of the death of Jennie, widow of Patrick H. Nugent, which occurred at her home, West Quaco, last night, at the age of eighty years. Mrs. Nugent was the daughter of the late George Smith, who in the olden days conducted a hotel at the head of Loch Lomond, and in the years prior to her marriage she herself had a large share in the management of the hotel. Through this connection she became widely known and was held in the highest esteem. She was of a very charitable and kindly disposition and greatly endeared herself to all who knew her. In 1865 she was married to Mr. Nugent and took up her residence in St. Martin, where she had lived since that time. On November 30, 1915, Mr. and Mrs. Nugent celebrated their golden wedding, and it was an occasion of hearty congratulation. Mr.

**Manchester Robertson Allison Limited**  
KING STREET - GERMAIN STREET - MARKET SQUARE

Nugent died this year on April 24, and his widow did not long survive him. She had been ill for several months, not suffering from any specific trouble, but yielding to the burden of years. She is survived by four daughters, Mrs. Martin R. Dolan, St. John; Mrs. C. J. Heas, Boston, and the Misses Catherine and Ann, at home; five sons, George E., of St. John; J. B., of Moncton; Charles P., of Hampton, and Thomas and Aylard, both at home, and one brother, George Smith, of Chicago. The funeral will be held on Monday morning at half past ten o'clock from her late residence.

George and Donald Williamson.  
Mr. and Mrs. George A. Earle, 401 Union street, have received the sad news of the death, which occurred yesterday, of their twin grandsons, George Thomas and Donald Webster, aged four months, the sons of Mr. and Mrs. George G. Williamson, of Sydney, C. B. They had received word on Monday that the children were ill.

Dr. Charles Murphy.  
Dr. Charles Murphy, a well-known dentist, became suddenly ill in his office in Calais yesterday and died before medical aid arrived. Death was due to heart failure. He is survived by his wife.

John J. Irvine.  
One of the best known C. N. B. engineers in the Maritime Provinces passed away last evening at eight o'clock at the St. John Infirmary in the person of John J. Irvine, of 48 St. James street. Though his illness was a lingering one, death was unexpected to a large circle of friends and relatives.  
The late Mr. Irvine was born on November 6, 1857, in West St. John, thus making him sixty-five years of age at the time of his death. He was a son of the late Mr. and Mrs. Robert Irvine. His father was for many years the I. C. R. yardmaster in St. John.  
The late Mr. Irvine saw 45 years service with the I. C. R. and later the C. N. B. He was the holder of the Long Service Medal, presented by the King. Except for a short residence at Sackville, he had lived all his life in St. John. He possessed a wide circle of friends and was well and favorably known to the traveling public for many years. He was a member of Union Lodge of Portland F. & A. M., and also the Brotherhood of Locomotive Engineers.  
He is survived by his wife; four sons: Orville G., of Boston; David L., of Boston; Robert, of Detroit; John R., at home; three daughters: Mrs. James Riley, of this city; Miss Helen and Miss Marion, at home; one brother, Thomas Irvine, Boston; and three sisters, Mrs. W. B. Nelson, Mrs. J. Clarence Clark, and Mrs. Harry F. Graham, all of Calgary. One brother, the late Thatcher Irvine, yardmaster for the C. N. B., was killed in a collision at Coldbrook a few years ago. The funeral arrangements have not been completed yet.

Rev. J. C. Chisholm.  
(Canadian Press Despatch.)  
Antigonish, N. S., Dec. 8.—Rev. John C. Chisholm, pastor of the St. Joseph's church, Antigonish county, for the last twenty-six years, died in hospital here today. Father Chisholm was born at Pomquet River, Antigonish county, in 1845, and did not start his studies for the priesthood until more than thirty years old. He had previously been a telegraph lineman.

**POWER BOAT CLUB CONCERT**  
The social committee of the St. John Power Boat Club has secured a treat for the members in the form of a concert, which will be given by the Canadian Pacific Steamship Montcalm concert troupe, in the club rooms next Monday evening.

**If You Ask Them  
What They Really Want**

Almost every member of the family circle will say Footwear—Shoes, Slippers, Overshoes or Skating Boot—in preference to endlessly selected gifts that hold but fleeting interest.

WIFE CANNOT ADD,  
WANTS FREEDOM

Husband Asks Annulment  
of Marriage Because She  
is Poor in Arithmetic.

New York, Dec. 9.—Because his wife cannot add, subtract or multiply and thereby not qualified to manage the financial affairs of his household, Julius Berman, a cutter, of 321 Livonia avenue, Brooklyn, has decided that he wants to annul the marriage. He asked Justice Kapper in the Supreme Court, Brooklyn, to grant him an annulment because of the ground of fraud. This is the first suit of its kind ever brought in Kings County or the state, in the memory of court officials.

Her Heart Skipped  
Every Third Beat

Mrs. James Burleigh, 248 King St., Chatham, Ont., writes—"I think my duty to let you know what Milburn's Heart and Nerve Pills have done for me.

...ent to me that she was a fit person to manage the financial matters in the buying and disbursing of funds for the purchase of commodities and other articles for my household," said Berman.

Fisherman's Friend

The Forty Hours Devotion was started in St. Peter's church yesterday by a solemn high mass celebrated by Rev. James Woods, C. S. R., who was assisted by Rev. J. A. Cloran, C. S. R., as deacon, Rev. George A. Coffin, C. S. R., as sub-deacon, and Rev. Dennis Coll, C. S. R., as master of ceremonies.

MOTORS  
And Their Care

Practical Suggestions for Insuring Longevity of the Car

Care of Differential. A noisy differential may need lubrication or even a heavier oil. If it does not remedy the trouble, have the wear taken up at a service station.

Nerves So Bad That  
She Would Sit and Cry

Mrs. Mary Hocking, Madoc, Ont., writes—"Dr. Chase's Nerve Food has done me a wonderful lot of good. I suffered from general weakness and was so run down and my nerves were in such bad shape that I would sit down and cry and not know what I was crying about. I also used to have weak spells. Thanks to Dr. Chase's Nerve Food, however, I am real well now. I shall always keep a box of the Nerve Food in the house, and recommend them to my friends; they are a wonderful medicine."

DR. CHASE'S NERVE FOOD

30 Cents a box, all dealers, or Edmanson, Bates & Co., Ltd., Toronto

GANGSTER SLAIN,  
NEWSBOY ACCUSED

Benjamin Levinsky Shot and  
Killed on Broadway

New York, Dec. 9.—Benjamin Levinsky, 29, who had spent a considerable part of the last twenty years in reformatories and penitentiaries, was shot and killed Wednesday morning at 715 Broadway, where he was employed as a cutter by Levinson Brothers, William Levin, 19, a newsboy, of 278 Cherry street, is held for the murder.

They take away that tickle

"Put one in your mouth  
at bedtime"

Smith Bros.  
MENTHOL  
Cough Drops

dial surgical hospitals, says "The Westminster Gazette." The restorative work, involving replacement of extensive body losses to the face, jaw and limbs and plastic operations for treatment of injuries to the face, was all the more noteworthy, as this was probably the first time in which work of this very special kind was undertaken by army medical authorities in British campaigns. Most exceptional work was done in the way of literally reconstructing parts of the jaw and face.

ASPIRIN

UNLESS you see the name "Bayer" on tablets, you are not getting Aspirin at all

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

- Colds Headache Rheumatism
- Toothache Neuralgia Neuritis
- Earache Lumbago Pain, Pain

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists.

You Can Now Try This Newer  
Form Of Iron At My Expense

I First Compounded This Remarkable Remedy For My Own Neighbors And Their Praise Of It Has Spread So Rapidly That Now Over Four Million People Use It Annually—Read My Unusual Offer Below.

Years ago I began to wonder at the great lack of iron in their blood. Lack of iron in the blood is the greatest of all debilitating weaknesses. It is the iron in your blood that enables you to get the nourishment out of your food. Without iron, nothing you eat does you any good. Your heart, lungs and kidneys and all your vital organs get their nourishment from the blood stream, and when the blood lacks iron and is thin, pale and watery, you may suffer from the symptoms of a great number of diseases when the real and true cause of all your trouble is a lack of iron in the blood.

In the old days people often took metallic iron, which some physicians claim is not absorbed at all. In compounding this newer form of iron which I call Nuxated Iron, I employed a special form of iron, which is like the iron in your blood and like the iron in spinach, lentils and apples. Unlike the older forms of iron, it will not injure the teeth nor disturb the stomach, and it is ready for almost immediate absorption and assimilation by the blood. It is the people whose blood is rich in iron who possess great strength, force and energy. If you are not strong or well, you owe it to yourself to make the following test:

NOTE: The above company is known to be thoroughly reliable. Over 4,000,000 packages of Nuxated Iron are sold annually, and it has been used and highly recommended by former U. S. Senators, Members of Congress, Judges of U. S. Courts and many other distinguished persons.

USE SULPHUR TO  
HEAL YOUR SKIN

Broken Out Skin and Itching Eczema Helped Over Night. For unsightly skin eruptions, rash or blotches on face, neck, arms or body, you do not have to wait for relief from torture or embarrassment, declare a noted skin specialist. Apply a little Mentho-Sulphur and improvement shows almost at once.

Stomach Trouble  
"Indigestion"  
Relieved By  
Burdock Blood Bitters

The sufferer from dyspepsia, indigestion or other stomach troubles who has to pick and choose his food is the most miserable of all mankind. Even the little that is eaten causes much trouble, and is digested so imperfectly it does but little good.

Are You Coughing?

Why not cure it this very day? A few drops of Shiloh relieves that tickling in the throat that maddens you. A few drops heal up the sore and inflamed tissues in the throat and really banish that cough. 30c, 60c and \$1.20. All druggists.

Celery King is the thing  
to stimulate the liver, cleanse the bowels, purify the blood, banish headaches and make you feel the joy of better health and strength.

Are You Coughing? Why not cure it this very day? A few drops of Shiloh relieves that tickling in the throat that maddens you. A few drops heal up the sore and inflamed tissues in the throat and really banish that cough. 30c, 60c and \$1.20. All druggists.

MOTHER! BREAK CHILD'S COLD  
WITH "CALIFORNIA FIG SYRUP"

Hurry! Move Little Bowels with this Harmless Laxative. No matter what else you give your child to relieve a bad cold, sore throat or congestion, be sure to first open the little one's bowels with "California Fig Syrup" to get rid of the poisons and waste which are causing the cold and congestion. In a few hours you can see for yourself how thoroughly it works the constipation poison, sour bile and waste right out.

USE SULPHUR TO  
HEAL YOUR SKIN

more different counterfeit issues in the last year than in the two years previously. "The business is more intensive than I have ever known," he said, "and the trouble for us is that one violator of the law places the counterfeits in the hands of another violator, and the latter tries to palm it off on the innocent."

Stomach Trouble  
"Indigestion"  
Relieved By  
Burdock Blood Bitters

Even the little that is eaten causes much trouble, and is digested so imperfectly it does but little good. Before you can eat heartily and enjoy your food, you must put your stomach right so that it will manufacture its own digestive ferments.

Are You Coughing?

Why not cure it this very day? A few drops of Shiloh relieves that tickling in the throat that maddens you. A few drops heal up the sore and inflamed tissues in the throat and really banish that cough. 30c, 60c and \$1.20. All druggists.

HUGE MAGNETS USED  
TO RID INJURED EYES  
OF FOREIGN MATTER

Dominating Feature of War Surgery is Revealed; Restorative Work Accomplished is Told in Book. London, Nov. 29.—(By Mail)—Use of giant magnets to withdraw foreign bodies from the eyes of wounded soldiers was one of the operations performed by military surgeons in the war. This and many other marvels of treatment are described in the second volume of a history, one of the series of the "Medical History of the Great War."

"CASCARETS" TO CLEAN BOWELS

When Sick, Bilious, Headachy, Constipated, for Sour Stomach, Gases, Bad Breath, Colds. Clean your bowels—then feel fine! When you feel sick, dizzy, upset, and bowel poison and bowel gases are cleared away, you will feel like a new person. Cascares never sicken or cramp you. Also splendid for constipated children. 10 cents a box, also 25 and 50 cent sizes. Any druggist.

DON'T LOSE ANOTHER HAIR!

Hurry! It's your duty! Each day you see a little more hair coming out and you are making no effort to avoid it. Danderine is delightful—not sticky or greasy. Go to any druggist now and get a bottle. Use it. Have healthy, heavy, beautiful hair and lots of it.

NEWS OF THE CHURCHES

Satan's Empire  
Falling

"millions now living will never die"

Judge Rutherford

SATAN'S wicked influence has long been felt in every part of the world. Together with his associate devils he incites people to hatred, strife, murder, and induces war and anarchy, wrecking homes and driving millions to insanity and suicide. Satan caused the fall of man, and established his

EMPIRE. His wicked influence has over-reached the denominational churches, causing many clergymen to forsake God and unite with profane and politicians to control mankind. But the end is here and his empire is

FALLING; and Christ the rightful king, though invisible, is beginning to reign. Hence the distress of nations of which Jesus spoke. These troubles will soon reach a climax and disappear, followed quickly by peace and prosperity, as Jesus assumes control.

If you are interested in Bible study and the fulfillment of prophecy, you should hear the lecture by

## SAY VETERANS WERE BEATEN

Witnesses Tell Philadelphia Grand Jury One Soldier Patient was Killed by Orderlies.

Philadelphia, Dec. 9.—Charges that a shell-shocked World War veteran was beaten to death and if inhuman treatment of wounded veterans, including a "water cure," were heard by the Federal Grand Jury, which is inquiring into the former management of the Public Health Service Hospital in this city. Treatment of wounded soldiers in the hospital had been investigated by the department of justice at the suggestion of the American Legion. The facts were laid before the Federal Grand Jury.

The investigation has nothing to do with the present management of the hospital, against which no charges have been made.

Affidavits charging that orderlies in the hospital kept shell-shocked veterans in a bathtub of water of 98 degrees from 8 o'clock in the afternoon until 1 o'clock the following morning were placed before the jury. Details of the ill-treatment of veterans after operations horrified some of the jurymen.

According to an affidavit sworn to by J. H. Collins, a former orderly at the hospital, who had been a major in the army, Alphonso Swerts, a Belgian inmate, who had been in the American Army, was beaten by four orderlies and died twenty minutes later. The affidavit of Mr. Collins, which was read to the Grand Jury, said, in part:

"On Dec. 10, 1920, when I was an orderly at the hospital, I was placed in Receiving Ward A from 4 o'clock in the afternoon until midnight. The conditions as I found them in the hospital were disgusting, revolting and appalling.

"There was a 225-pound man in that ward who was constantly kept in a straightjacket and in a filthy condition, and received absolutely no attention. There was a wounded soldier in the ward who was suffering from an infectious disease. He, along with tubercular patients and other patients suffering from contagious diseases, were allowed to eat at the same table with other veterans who were merely shell-shocked.

"The name of one of the men who had this contagious disease was Scholes and I contracted the disease from him. His blankets were mixed with other blankets, and one week he would have a blanket and the following week it would be given to another patient.

"There were no supplies for tubercular patients at the hospital and those patients were herded with healthy veterans suffering from only mental trouble. They expectorated on the floor and no effort was made to stop them.

"Among the nurses who testified were Miss Victoria Robinson, Miss Whitehall, Mrs. Reed and Mrs. Felton, the head nurse; Miss Cecil Kennedy, a representative of the American Red Cross, appeared before the jury this morning. The nurses were at the hospital when Swerts died and Miss Kennedy attended the funeral of the veteran.

"Swerts was inhumanly treated," Shuey said today. "I found he had been long baths in hot water and had been assaulted by the orderlies."

"Shuey said he was present when Swerts' body was examined, three months after burial, and saw that three of the man's ribs had been broken.

"Mr. William Dobson testified that Swerts was badly bruised when he was received at the hospital, where he was brought from the Indiana County (Pa.) jail, where he had been confined because of his insane violence.

**CIGARETTES PROVED BOON TO MOUNT EVEREST CLIMBERS**

Value of Smoking Shows When Expedition Had Ascended 25,000 Feet.

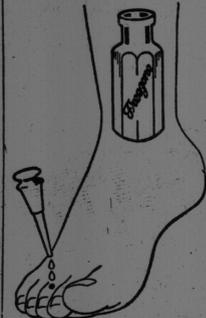

London, Nov. 20.—(By mail)—Reporting to cigarettes 25,000 feet up the Mount Everest explorers found them of unexpected value. Captain G. I. Finch, who took part in the expedition, made this revelation in an address to the Royal Geographical Society, reported by The Westminster Gazette.

He and two other members of the expedition, he said, camped at 25,000 feet for over twenty-six hours, and all that time they used no oxygen. About half an hour after arrival he noticed in a very marked fashion that unless he kept his mind on the question of breathing, making it a voluntary process instead of an involuntary one, he suffered from lack of air.

He had thirty cigarettes with him, and as a measure of desperation he lit one. After deeply inhaling the smoke, he and his companions found they could take their mind off the question

## CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

of breathing altogether. Probably the smoke acted as an irritant and took

the place of the carbon dioxide in which the blood was deficient at these high altitudes.

The Teachers' Association at its meeting in the Natural History Society rooms last night had an interesting and enjoyable programme. Miss Ida Northrup gave an account of her recent trip to England and France, under the auspices of the Overseas Educational League, and illustrated her address with a splendid series of slides. H. C. Ricker, the president, was in the chair and there was a good attendance.

## SCHOOL FOR CRIPPLE CHILDREN SOON IN TORONTO

Trustee Wemp Tells the Home and School Council of Benefits Derived from Such Schools in Other Cities.

(Toronto Telegram)

Progress of education was discussed in its various aspects of the public meeting of the Home and School Council in the Administration Building, when addresses were given by several members of the Board of Education.

That the Toronto Board is on the verge of establishing a school for crippled children, was the statement made by Trustee Bert S. Wemp, who gave figures which showed conclusively that much could be done for the child thus handicapped to make him a valuable asset to the community. Schools for crippled children had been established with success in a number of American cities. In one instance it had been found that 70 per cent of these handicapped children had been established with success in a number of American cities.

In one instance it had been found that 70 per cent of these handicapped children had been established with success in a number of American cities.

There are 140 children in Toronto who require just such a school as the Children's Hospital and the City Department of Health, a school in which medical rooms will be provided, for medical treatment, massage, etc., and sleeping rooms where the children may have daily rest. Wholesale lunch would be provided and a bus or buses would collect the children in the morning, returning them to their homes in the afternoon.

Trustee Wemp also stressed the need for a re-organization of our city school system from the bottom up. The Adolescence Act made it compulsory for children to attend school up to age of sixteen. What are doing in the additional two years, asked the trustee.

The additional two years in High school leaves the children at a ragged end. They have not progressed studies enough in their secondary school studies to efficiently prepare them for the business of earning a living. Something definite should be done with the spare time to make them count in the lives of the pupils. They might be taught bookkeeping and other commercial subjects, for instance, at a rate receive training on some line along which they had a natural bent.

The trustee also stressed the value of co-operation in achieving desired improvements in the school system.

The abolition of the whole institution of entrance examination was advocated by Trustee Wm. Houston.

The entrance examination was one of the most difficult institutions ever established, he declared. Until the entrance examination was made a thing of the past the province of Ontario would spend thousands of dollars on a comparatively useless system of education.

Trustee Dr. W. W. Beer emphasized the importance of school architecture and of up-to-date equipment.

Review of the advances made in the matter of light saving, lip reading, etc., was given by Trustee Mrs. E. G. Grosvenor. One of the encouraging features in the past few years, declared the speaker, had been the changes made in the school curriculum. Instead of cramming the child's brain full of so many facts and figures, he was now being taught how to develop rationally—he was being taught how to live.

The visit of Major F. J. Ney, of Winnipeg, to St. John on Monday will be an event of more than ordinary interest, because he comes in connection with the work of the National Council of Education. This Council was constituted at a national conference in Winnipeg in 1919.

As the Rotary Club of Canada, including the club in St. John, gave financial assistance which made that great conference possible, it is fitting that Major Ney should address the Rotary Club on Monday. He will, however, address another meeting in the Board of Trade rooms on Monday afternoon at four o'clock. One purpose of his visit is to form a local committee in this city to arrange for meetings to be held during the next

## OIL LIGHT BEATS ELECTRIC OR GAS

Burns 94% Air

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 88 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94 per cent air and 6 per cent common kerosene (coal oil).

The inventor, Johnson, 246 Craig St. W., Montreal, is offering to send a lamp on 10 day's FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency without experience or money make \$250 to \$500 per month.

year throughout Canada, under the auspices of the National Council.

The first speaker to come to St. John will be Sir Henry Newbolt, M. A., D. Litt, English author, poet and educationist, who was chairman of a special committee of the British Board of Education to report on the teaching of English.

Later will come Lady Powell, and Sir Michael E. Sadler, vice-chancellor of the University of Leeds, and described as one of the greatest educationists of the English-speaking world. These and other distinguished persons will attend a grand conference on Canadian education to be held in Toronto at Easter, and others than those named are expected to visit this province during the year. It is in connection with them that Major Ney comes to St. John on Monday.

## ARMED BAND GETS LOT OF WHISKEY

Yeast Corporation Plant at Pekin, Ill., Raided by 25 Men With Trucks.

Pekin, Ill., Dec. 9.—Officials are investigating the theft of stony barrels of whiskey from the Liberty Yeast Corporation at Pekin, Ill., by twenty-five armed bandits. They connect the raid with an unsuccessful one of the American Distillery here on November 21 last. It was said several of the Pekin robbers were identified as participants in the futile attempt here. The yeast corporation formerly was the Globe Distillery and the liquor had been stored there since before the Volstead act went into effect.

The raid was made just as the night shift of employes went on duty. None of the robbers was masked. They were armed heavily and moved with military precision. Some surrounded the plant while others entered and compelled the workers to put up their hands. Twelve barrels of whiskey were loaded on each of the five trucks, which were driven rapidly away towards Springfield. Trace of them was lost. It was reported one truck broke down five miles out of Pekin but a sheriff and posse in pursuit were unable to find it.

While breeding butterflies in his laboratory, Dr. J. H. Gerold, of Dartmouth College, discovered a number of blue caterpillars, says the Scientific American. They were found to breed true, and the color is probably the result of some mutation in the digestive system. So conspicuous are they against green leaves that sparrows pick them off while overlooking their green relatives, and it is likely that blue caterpillars have always existed, but that the birds have discovered them before man could do so.

**BLUE CATERPILLARS.**

While breeding butterflies in his laboratory, Dr. J. H. Gerold, of Dartmouth College, discovered a number of blue caterpillars, says the Scientific American. They were found to breed true, and the color is probably the result of some mutation in the digestive system. So conspicuous are they against green leaves that sparrows pick them off while overlooking their green relatives, and it is likely that blue caterpillars have always existed, but that the birds have discovered them before man could do so.

LOST-FAMILY OF 10 LEAVE SAD FATHER

All Pictures and Most of the Furniture Also Gone in Sudden Exit.

New York, Dec. 9.—"My wife and children. I am broken-hearted. Communicate with me at once. We can arrange matters. I am distressed and need you. Your father, B. Carlson."

In our own home towns and villages, hosts of satisfied friends buy RED ROSE TEA today, as they did 28 years ago—because it is still the same good Tea.

Buy a can of RED ROSE COFFEE—its flavour will surely please you.

Holeproof Hosiery. A box for each of the children Christmas! MADE IN CANADA

Wednesday. They pleaded with him to buy another house in Bay Ridge. He refused, saying that prices were too high this fall. He is positive that this was the only difference between them on Friday night. The next morning before Mr. Carlson awoke all ten had vanished.

For Quality MAPLE LEAF MATCHES. Call for them by name—it is your safeguard.

not like it where we live and want a house on Bay Ridge. "Last Friday, when I came home from work, my wife began arguing with me about the new house."

Borden's ST. CHARLES EVAPORATED MILK. It is pure, rich cows' milk—made to keep longer for your convenience. With the cream left in.

Ready for Christmas

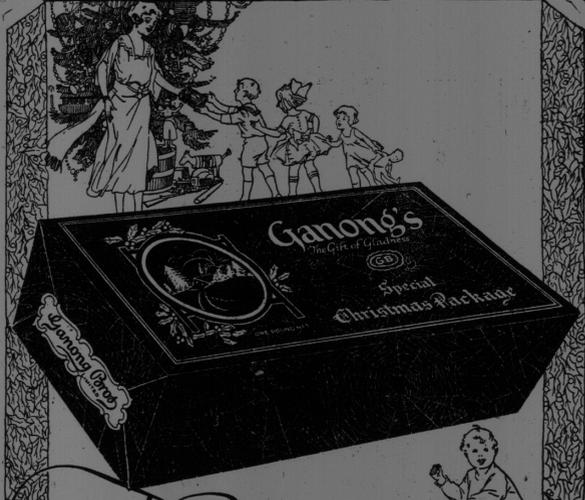

Ready with the greatest array of Christmas gifts we have ever shown! Ready with something appropriate for every member of the family!

Gifts of furniture have become the universal choice of thousands because furniture is a gift that combines beauty and utility, outlasting almost any other gift you could think of.

Grid of furniture items with descriptions: Doll Carriages, Bookcase, Tea Wagon, Bridge lamp, Rockers, Cedar Chest, Gate-Leg Table, Sewing Cabinet.

Ganong's CHOCOLATES

Sales Agents: Emery Bros., St. John, N. B.

BEAT 'DRY' SANDWICH MEN

German Wets Resist Poster Parade Staged by Prohibitionists.

Berlin, Dec. 8.—The prohibitionists of Schoenberg, a Berlin suburb, having been prohibited by the police from holding an open-air meeting engaged a flock of sandwich men to parade the streets with placards denouncing the evils of alcohol.

Mother's Mistake Fatal to Baby. A mother's mistake in giving her

baby lysol instead of castor oil caused the death of Levia Sertenti, eight-months-old daughter of Mrs. Marie Sertenti of New York. The child was taken to Gouverneur Hospital after the fatal dose, but it soon died.

A PROFITABLE PROFESSION FOR WOMEN

Paying from \$30 to \$45 a month and living while in training. McLean Hospital Training School for Nurses offers a three years' course in the care and treatment of nervous and mental diseases, with affiliations that also offer training in medical, surgical and obstetrical work.

REGAL FLOUR. It's Wonderful for Bread. Includes illustration of flour bags and a loaf of bread.

**Tonight Brock & Paterson and James Pender rolls.**

**St. Peter's House League.**  
In St. Peter's House League game last night the Thistles took three points from the Erins and in so doing became the winners of the first series played last night's game was the concluding one.

**ATHLETIC.**  
A. A. U. of C. Annual.  
At the annual meeting of the Amateur Athletic Union of Canada held in Montreal yesterday Ontario delegates sponsored a proposed amendment to the constitution prohibiting non-organizational delegates from the union of all other than officers and members in good standing. Strenuous objection was lodged by western delegates, who claimed to have received valuable assistance from former pros. The matter will be disposed of at today's meeting. Ontario delegates also proposed that souvenirs be awarded to amateurs taking part in any team game, but in no case to exceed in value \$100. This was also set aside until today. Efforts to prevent "camouflaged" amateurs from participating in sport were taken by preventing employees of any organization competing under the colors of that body, although in good standing they may compete with any club not paying them. A. W. Covey, president of the maritime branch, showed how in the east they put the men on their honor in the maritimes than in any other branch. Mr. Covey contended. Team athletics were also flourishing there. He stated the C. A. H. A. for its apathy towards the migration of hockey players to the United States and said they ought to be watched. He said, if he wanted to produce certain information that he possessed, he could throw a bombshell into the midst of the United States hockey association.

**BASKETBALL.**  
Y. M. C. A. Leagues Organize.  
A meeting was held in the Y. M. C. A. last night for the purpose of organizing the senior and intermediate house basketball leagues.  
In the intermediate league four teams are entered; the Harriers, St. David's, the Young Men's Club and the "Hi Y" club.  
In the senior league five teams comprise the league with the possibility that the Grey club may enter a team, which would make a six-team league. Four of the teams are named after the captains. They are Arthur Gillean, Bert Josselyn, Ned Ketchum and "Pete" Millidge. The other team is the dormitory men's team.  
The officers for the senior league are: Honorary president, Major C. W. Mesereau; president, Ned Ketchum; vice-president, "Pete" Millidge; secretary,

**Forget the Past!**

And Consider  
The Christmas Present.

It is always proper—early or late, in the month, week or day—to express the spirit of giving with something desirable, useful.

**HOW ABOUT MOTHER?**  
She truly deserves the finest gift.  
You're thoughtful and appreciate all she has done of course, but perhaps a Cozy Fur Coat hadn't been considered as giving five months of comfort each winter to mother.

Coats—Nice varieties—Conservatively smart styles—\$145.00 to \$725.00

**DAD DOESN'T WANT A THING, BUT—** see his smile for a new hat—a cravat or two—some handkerchiefs—a new top shirt—gloves, an umbrella

**FOR \$1.00, \$2.00, \$3.00, \$4.00, \$5.00—You'll Delight Dad AND FOR YOUNG WOMANHOOD'S DESIRES—** There are "Sunset Frocks" of many colors in differing silks ..... \$22.00 to \$38.00 There are delightfully youthful frocks of wool, too, in smock effects ..... \$18.00 to \$34.00

French Gloves—Dainty Silk Scarves—Lots of Things.

**THE BOYS OF COURSE**  
must have a sensible "something" all boxed and made Christmas. Remember he is a "boy" on Christmas whether 16 or 60.

**CAPS MUFFLERS CRAVATS**  
For \$1, \$2, \$3 \$1.75 to \$4.50 of especial worth, 75c.

**TOPSHIRTS COLLARS**  
\$1.50 Especially 25c. a Piece

EUROPE'S OUTLOOK  
NOT ALL GLOOMY

Little Nations are Showing  
Life and Energy, Says  
Curzon.

London, Nov. 17.—(By mail).—While the recent address of Lord Curzon, Secretary for Foreign Affairs, at an audience of business men in the city, dealt in large measure with the actual political situation in the Near East, the speaker also expressed some interesting ideas as to conditions on the continent. He does not believe that the future outlook of economic Europe is one of unrelieved gloom.

"I see the little nations of Europe pushing forward to a greater life of international unity during the next few years," said Lord Curzon. "In the states of Czechoslovakia, Jugoslavia, Rumania, Poland and Finland, and in the Baltic States, I see symptoms of life and energy, and the growth of a strong sense of national independence and power. But, on the other hand, if I look at the great powers, whether they emerged triumphant from the war or whether they were broken up by the disasters that ensued, I find that they are in a position of much greater disorganization and disturbance. Take our own country. Our financial position is much stronger, with the exception of America, than any other state that took part in the war.

"That at the same time we have a burden of heavy taxation which weighs down industry, and which is a burden upon every man in this country. France is weighted with a heavy debt and is sore about reparations. Germany is in a position of political instability and is debilitated by the other collapse of her empire. Russia is still outside the comity of nations, because she cannot make up her mind to accept the conditions which render her on that comity possible and stable. She is still enmeshed of communism, and persists in pursuing a communistic propaganda in every part of the world.

"Austria was saved only by the intervention of the powers when on the verge of perishing. Italy has been concerned with more than one convulsion and change of government. "What an ambition it would be for the statesmen of the great powers to combine and survey this situation; to liquidate it section by section; gradually to take the various pieces of the pie-saw puzzle which are lying about and fit them in their own places, and since more present a picture of a peaceful and united Europe."

LEARN TO MAKE  
HOCH IN CHURCH

W. C. T. U. Shown by Dry  
Agent How Still is Used.

New York, Dec. 9.—Members of the Women's Christian Temperance Union of New York County at their fall convention in the Washington Square Methodist church, 183 West Fourth street, had all the secrets of how to make hoch explained to them by C. F. Fortman, a representative of the Federal Enforcement Bureau.

"The agent brought with him a real still. Mrs. C. H. Burns, the corresponding secretary, who is also president of the Washington Heights W. C. T. U., said it looked to her like a milk can with another milk can attached by a rubber tube." She said she thought the still would hold a gallon. Federal agent went even further. "At the temperance lessons just made liquor by showing a film reel thing in the making. He showed them how to make it, and go over and over his explanation to satisfy the curiosity of the women in his audience. Fortman told the women they report all violations of the prohibition law. He said it was exceedingly hard to get convictions. It was announced with emphasis that the agent has a permit to take the still to the church.

The guest of honor both at the morning and afternoon sessions was Mrs. E. Yellowley, wife of the prohibition enforcement officer, Mrs. Yellowley is a member of the W. C. T. U. She made so speeches. Mrs. Yellowley said she was much interested in her husband's work, that the enforcement officials were splendid.

PIMPLES ON FACE  
FOR 3 YEARS  
On Arms. Very Sore.  
Cuticura Healed.

"Three years my daughter was d with pimples on her face. They were very large, and some of them festered very sore. Her face was red for a while, and she stayed ugly all the time. We tried different remedies but did not do any good so began using Cuticura Soap and Ointment. Her pimples were gone in three weeks. Her face was clear and her skin was soft. Cuticura Soap and Ointment cured her. (Signed) F. McDuffly, 20 Franklin St., N. H. Dec. 31, 1922. Cuticura Soap, Ointment and the daily care of your skin. Each box has directions. Sold everywhere. Cuticura Soap and Ointment made in U.S.A. Cuticura Soap always without stain.

**TURKISH TOBACCO TO GROW ON A CALIFORNIA RANCH**  
San Diego, Cal., Dec. 9.—Unsettled conditions in Asia Minor are said here to be directly responsible for the decision of a San Francisco organization of capitalists to start planting a high-grade Turkish tobacco in this county, where the soil and climate are believed suitable. The syndicate, headed by S. T. Eliopoulos of San Francisco, has purchased the Jamal ranch of 9,100 acres for the project. The announced price is \$145,000. Proposed establishment of a cigarette factory in this city also is announced.

**GIRL SCALPED BY MACHINE, AWARDED MORE THAN \$5,000**  
London, Nov. 16.—(By mail)—Scalped as a result of her hair being caught in a shaft working a fan, Miss Annie Davies, twenty, was at Liverpool Assizes awarded £1,760 damages against her employers, says the London Daily Mail. It was stated that Miss Davies was still in hospital and that six grafting operations had been performed, skin being taken from her legs and grafted on to her head. If the operations were not successful—and it would be two years before it would be known whether she would have a skin on top of her head again—Miss Davies would have to wear a metal sheet on top of her head for life. It was also doubtful whether she would even be able to wear a wig. Caps were provided for the girls employed at the works, but these, it was stated, were only ornamental.

HOST DIES AFTER  
FAREWELL DINNER

Knew End was Near—Asked Friends to Stay Till Death Came—Gassed in War.

East Orange, N. J., Dec. 9.—George Percy Evans, soldier in the war, who when he learned that he had only a few weeks to live, gave a dinner to boyhood friends in October, died here this week at his home, 478 Main street, with him were a few friends he had asked to remain until he had "gone west."

Evans served with the 502d Engineers in France and was badly gassed. He returned to his country an invalid and developed consumption. As he became worse, his friends, with whom he had grown up, and grew up, used to drop in to help him pass the time, for he had no relatives except a brother. On Oct. 26 he gave a dinner for them at the Washington Society Club, at which they joked about their boyhood days, sang war songs and told stories. Evans, who had got out of bed for the first time in weeks to attend the dinner, even made a short speech, telling of his gratitude of their friendship.

Sunday night there were a number of friends in his room, and at 10 o'clock they prepared to go home. "Don't leave me, boys," said Evans. "I don't think I will last long. Stay till I have gone." They did so, and Evans who had grown steadily weaker, died soon after midnight, holding the hands of two of them. While Evans was talking at the dinner the bells in the Church of Our Lady Help of Christians, which was Evans' church, began to ring, and he said that it wouldn't be long before the bells rang for him. Evans had made all the arrangements for his funeral, and also selected a plot in the cemetery of the Holy Sepulchre in Newark. Philadelphia has found that yellow makes the best colored paint for fire hydrants.

Safe and Sound!
