THE Evening Session will be resumed on MON DAY evening Oct. 1st. Hours from 7.30 to 9.30 RARE OPPORTUNITY. It having been represented to us that a reduction in tuition fees would be acceptable to many who were losers by the late fire, we will, until the sist Oct. allow a discount of 20 per cent to all purchasing scholarships or entering the Evening Classes for the Winter Term.

In addition to the above, those who enter the Evening Classes on the 1st Oct. will receive one month's tuition, free of charge.

In order that no one may feel any delicacy in accepting the above discount, we will extend the privilege to alt, whether losers by the fire or not. Scholarships secured how, by Post Office order, or otherwise, will be good for any future time.

Montreal Gazette, writhing under the castigation administered by Mr. Mackenzie, said:—

"A man should be sure his hards are clean/beforehe exposes them unnecessarily to the critical gaze of his fellowmen. Mr. Mackenzie has handled too much railway it rob, or steel, of late, to make it prudent for him to expose them unnecessarily.

"It is the special honor of Mr. Mackenzie has he belongs to the common people; and that he has by his own talent and industry, raised himself to the position which he occupies as one of the leading politicians, if not of the statesmen, of the country. This is, indeed, something of which he may well be proud. To be a stonemason or an ironmonger, as long as he performs well the functions of his calling, is no disgrace to any man, and to have found opportunity in the interims of to to acquire the education, and accumulate the knowledge, which has enabled in to play the part which he has played, is highly creditable to him. But he must know that to be a stonemason or an iron-monger is one thing, and to be the Premier of Canada is another and an altogether different thing; and what would be quite suitable to either of the two former of these callings would not be becoming in the latter. It may be all right for a man to work bare-handed handling stones in a quarry, or laying up a wall, but a gloved in the generally becomes a Prime Munister better. Or, to drop all figure, the style of address which may well enough become a man in any of the ordinary walks of common life may not become one who has been elevated to the highest office in the gift of his country."

Mr. Mackenzie, if he has erred at all in dealing with those whose whole stock in trade is calumny and slander, has a divining the disastrous retreats at Karabasanhoi and from Kara-Lom. In short, the total calcumptance, we should not be been seen to have found to the product of the two former of the statesmen, of the country. The Russian Losses.

This is without doubt the most disastrous campaign the Russian arms have ever suffered. Th Mr. Mackenzie, if he has erred at all in dealing with those whose whole stock in trade is calumny and slander, has erred on the side of moderation and forbearance. They have asserted that his hands are stained with fraud, peculation, and as a ferrman officer with the imperal headquarters remarked, "the Russians, without gaining a single important with the single s

TO THE FARMERS OF MIRAMICHI We have been Manufacturing IRON FRAME MOWERS

For the last four years, and are now offering to the farming community this, the BEST MOWER combining greater excellence of mechanical simplicity together with greater durability and entire reliability for all the requirements of the field, than any other Mower extant.—In ejenstruction they are similar to the celebrated Waller A. Wood's Iron Frame Mower, and the Richardson Buckeye, both American Machines. Of the former there are over 200,000 in use, and the extrabrillary number of 20,000 were manufactured and sold last season, by the Wood Company of United States. We have over 500 of our manufacture now in use, every one of which (no exceptions) stands as a monument of the grand and unprecedented success of home manufacture and our enterpoise. A list of our Agents in this section of the Province will be found appended, and larmers are reduceted to ask information of them relative to our Mowers in use in their respective localities, which will establish beyond doubt their unquestionable supernority over any other mower to be had in dur market. The facility of procuring all parts or pieces with n a nominal length of time must show beyond th hadow of a deubt the claims such an enterpris as upon the farmers of the Maritime Provinces.
