EPING BEAUTIES.

I heard tell of some pretty sleepers in my day, said my friend the other day, but I never met anything to come up to the performance of a servant girl I had seen some years back. She was a mighty good worker, and in my opinion used to get that tired afore turnin' in that she could ha' slept for a week if we hadn't changed her mind for her in the mornin'. If it hadn't been for the muscle she spread over her work we wouldn't ha' kept her a day; but decent gals is hard to get these times, and we put up with her for a good while on that account. After she'd been with us about a week, and had got into the habit of droppin' down to breakfast about eleven, we thought we'd settle the matter by buyin' her one of them alarm clocks that'll generally ring the inside of your head dry in half a minute if you're a plain, ordinary sleeper. But that didn't answer anyhow. The first mornin' the machine went off we heard it so plain downstairs that I had to get up and run out into the garden to dodge the ringin'; but Sairey she comes down about eleven o'clock as usual, merely remarkin' that she was afraid she'd overslept herself and had a lovely dream about the old home, where the church bells was a-ringin', which was a sign of a weddin', she said. This sort of discouraged us a little, but as I said, we didn't like to part with the gal on that account, though her being that industrious when she were awake. For a little while the wife she took to goin' up and handlin' the gal personally about seven o'clock in the morning. She used to have to haul the gal out o' bed, hand over hand as you might say, and stand her up agin the wall till she come to gradually. But after a while the wife she got tired o' that, so we had to invent something less troublesome. By and by I got an idea. I sawed off the leg of the gal's bedstead, which were a little wooden one and then fixed the leg on again, so that by pullin' a piece of cord I could bring the leg away and let the whole thing down pretty rapid like. We passed the cord under her door down to our bedroom, and in the morning when it was time to get her up, all I had to do was to pull the rope and the gal'd bounce off on to the floor. The girl herself was most anxious to do the square thing by us, and it upset her more'n anything to think she couldn't wake up like an ordinary person; and for a week or so she rather enjoyed the excitement. But they say custom'll harden you to pretty well anything, and by and by the girl got so that she could be jumped out o' bed and rolled under the wa'drobe without so much as even movin' in her sleep of her own accord; and it was only when she happened to hit a chair or something going along that she'd lose the thread of a dream, as it were, and start a fresh chapter. Soon after that I had occasion to go up in the city on business, when a allowed showed me a patent

Nervous Headaches

Mrs. Bailey, 635 Queen's Ave., London, Ont., whose husband is with the Globe & Mail Co., states:—"My nervous system was in an exhausted condition. I could not sleep well and suffered a great deal from headaches. Experience has proven to me the remarkable value of Dr. Chase's Nerve Food. I have found it a splendid tonic and can now say that I am free from headaches. I rest and sleep better than I have for a long time and feel real well in every way."

Nervous headaches can only be permanently cured by enriching the blood and setting the nervous system in perfect order. Dr. Chase's Nerve Food is not a relief for headache but a thorough and lasting cure. It creates new, rich blood and nerve force and makes the weak and sickly strong, well and vigorous. It is nature's greatest restorative. 50 cents a box, at all dealers, or Edmanston, Bates & Co., Toronto.

Dr. Chase's Nerve Food

bed he'd invented that was calculated to wake up anything short of a corpse. All you had to do was to wind all the wheels up at night and fix a little clockwork arrangement at the hour you wanted the machinery to begin, and the bed did the rest. It was really a wonderful bit of machinery, and, you might say, almost human. As soon as you woke up you had to press a little button and the works'd calm down. It wouldn't ha' done for anybody who wasn't conscientious, 'cause they could stop the show and drop off again; but I knew our gal was all right, and 'ud be only too glad of a chance to get up in fairish time. So I ordered one of those beds to be sent home, and the next day I went back myself to set it in working order. I didn't get home till late and the wife was asleep, so I just turned in myself, and reckoned it 'ud do to attend to the bed the followin' mornin'.

I don't suppose I'd been asleep more'n an hour or so when the wife wakes me up hurriedly like and says, Jim! she says, there's burglars in mother's room!

Whose mother's room? I says, thinkin' she must be in her sleep. I didn't tell you, says she gaspin' for breath. Mother come down on a visit last night and I gave her the new bed you sent down, which I'd had put in the spare room. What's that? Hark, Jim! They're murderin' of her!

I see how it was at once. The bed hadn't been fixed for any particular time, and the works had just been allowed to drop into line promiscuous-like. It were about two o'clock in the morning, and, to judge by the sounds from the spare room, the old lady was havin' rather a lively time. She warn't no particular friend of mine, the old lady warn't, so I thought perhaps the experience might be a bit healthy for her anyhow, and it 'ud give us a chance to test the apparatus. However, I explained the whole thing to the wife, and told her to run in and tell her mother to press the button and stop the works. When she opened the door we could hear the old lady shriekin' for the police about as hard as she could go, and as soon as the wife could get a light she sees the bed waltzing round the room on its hind legs, with her mother hangin' on to it, pretty well crazed. I thought then it was about time to dispense with ceremony and go stop the thing myself. I slips on my dressing-gown, and had just got to the door when the bed charges across the landin' and as near as anything missed runnin' me down. Of course I was after it in a minute, but it had a couple of seconds start, and I'm a poor sprinter anyhow. When it got to the top of the stairs I see there was a couple of wheels on it, and on them wheels it rolls smoothly down the whole flight, through the kitchen at the end, and brings up close agin the pump in the wash-us. Then a kind of claw arrangement shot out, gripped the pump-handle, and started workin' it. I got there just in time to press the button and stop the performance. If I had been a half a minute later I reckon the old lady would have pretty well had the skin washed off of her. Thinkin' the matter over afterwards, I reckoned that the bed supplied us with too much for the money, and I sent it back and gave the girl a month's notice instead. Still there was one thing about it; when mother-in-law comes to see us, now, she's pretty careful not to sleep in the house.

Sadie was 11 and Alice was 7. At lunch Sadie said: I wonder what part of an animal a chop is. Is it a leg? Of course not, returned Alice. It's the jaw bone. Haven't you ever heard of animals lickin' their chops?

A BLIND MOOSE.

WEST RIVER, Sheet Harbor, Sept. 22.—Two of our woodsmen, while locating some timber land in East river, Sheet Harbor waters, about ten days ago, had a singular experience with a moose whose eccentric movements surprised them. The moose, on close examination, proved to be almost, if not entirely, void of vision. She was accompanied by a calf about five months old. What brought her to their immediate notice was the flight of the calf unaccompanied by the dam, who appeared to be in a confused state on account of its affliction. The two men mentioned above, McDonald and Malay, had to be strictly on their guard, for at the sound of either of their voices, the moose would make a dash for the spot from whence the sound emitted. Once the animal ran against an obstruction, a windfall—and turned a complete summersault. By this time the moose became very angry on account of her offspring, supposing the calf had met with bad usage by the woodsmen. In fact she became frantic, making a spring for every sound she heard. McDonald thought discretion, the better part of valor, and climbed a tree, and from that elevated spot could talk bravely to the jailor below. Malay possessed a rifle and knew how to use it for many of those monarchs of the forest had tumbled at its report, but the close season had not expired, therefore he could not kill the game. Malay kept dodging about with his rifle, ready for immediate use if necessary for self-protection, in the meantime advising McDonald up in the tree to hold the fort, and also to hold his voice until some change in the situation would occur. After keeping guard over McDonald up in the tree, and giving Malay enough to do to take care of himself for one hour, the moose broke guard and walked into a small lake near by until the water was over her back, twisted herself apparently aimlessly around four or five times and then left. McDonald quickly descended from his fort, and he and Malay left for a more congenial locality.

M. McFARLANE.

A Convict's Sermon.

One Sunday morning, says Rev. Harry B. White, I was requested to teach the lesson to a class of convicts in the prison chapel. I consented. The subject of the lesson was christian courage. Scarcely had I opened the topic when a young prisoner raised his hand for permission to speak.

Are you a christian? he asked. Yes, I replied, somewhat surprised by the abrupt question. You are a minister of the gospel? I am.

And you have come down here to tell us the meaning of Christian courage, he continued, with a shade of irony. Now, see here, most of us fellows have been brought to this place by strong drink. You lock us up and let strong drink go free. You don't lock strong drink up and let us go free. And the reason you don't do it is because

you have not got the Christian courage.

The young fellow told the truth.

Sword and Rifle.

Lord Dundonald, the commander-in-chief of the Canadian militia, has practically abolished the sword as a cavalry arm. He has decided for the future that mounted troops shall consider the rifle as their principal weapon. They may use swords on parade, but not on the field. Drill of the simplest kind is to be provided in order that men may get into rendezvous formations, moving from place to place and getting rapidly into position for dismounted work. Rapidity in mounting and dismounting, outpost and reconnaissance, attack and defence of a position, defence of a bridge, arrangements for ambush, pioneering, map reading, how to find way by compass and stars are recommended as proper exercises to fit mounted troops for the best work. This order is in the direct line of evolution. With the disappearance of hand-to-hand encounters the sword loses its value and the arm of plication at long distance takes its place.

Messrs. C. C. Richards & Co. Gentlemen,—In June '98 I had my hand and wrist bitten and mangled by a vicious horse. I suffered greatly for several days and the tooth cuts refused to heal, until your agent gave me a bottle of MINARD'S LINIMENT, which I began using, and the effect was magical. In five hours the pain had ceased, and in two weeks the wounds had completely healed and my hand and arm were as well as ever.

PRESENTATION.

On Friday evening 3rd inst. the elders
and trustees of St. Mark's church, Dou-
glas town, met in the manse, and in name of the
congregation presented their pastor, the
Rev. D. Mackintosh with an address and a
purse of money. The following is the
address, which was read by Mr. R. Jessam-
in, who also made the presentation.
Rev. dear Sir.—It has been felt by many
in your congregation that the occasion of
your leaving us for a short time to visit
your native land, offers a favorable oppor-
tunity of making known to you in some
tangible form the esteem in which you are
held by us as a congregation, both in your
character and in your labours as a minister
of the gospel of Christ. As a minister, we
have learned to value your services very
highly. A distinguished student, you have
carried your studies into your profes-
sional life. The result is, that few
ministers of our church have such a wide
and accurate knowledge of literature as
you have. We are glad to perceive the
effect of your wide reading in your pulpit
ministrations from Sabbath to Sabbath.
While stating the truths of the gospel in
all their fullness to us, and commending
their morality, with loving earnestness, a
grace and beauty are manifest in your dis-
courses which cannot but commend them to
the most cultured, as well as make them
attractive to those who may not be able
to derive the secret of their charm. You came
to us six years ago as almost an unknown
man in so far as the North Shore is con-
cerned, but you have proved yourself to be
a workman that needeth not to be ashamed.
Diligent in your attendance upon the sick
and the sorrowing and ever welcome in the
homes of sick and poor, you seem to be the
right man in the right place. Few minis-
ters are so much loved in their congregation
as you are—loved as a man, revered as a
minister, trusted as a friend, and valued as
a counsellor. To know you and Mrs. Mack-
intosh is to love you, the longer we know
you the deeper has our respect for you be-
come. We shall miss you during the two
months you are to be absent from us, but
we sincerely hope that your visit to "Cal-
donia, stern and wild" will result in your
complete restoration to health and that
many happy and prosperous years are yet
in store for you as minister and congregation
of St. Mark's, Douglas town. Please accept
this purse of gold as a token of our appre-
ciation of your services and sincere regard
and esteem for you and your dear partner
in life.

JOHN RUSSELL,
Chairman of Trustees.

FOOT BALL NOTES.

We hear a great deal of talk about the
brutality of foot-ball mostly from those who
never indulged in a first class game. There
is no training which will make men of
our boys as quickly as foot-ball, it teaches
them to control their tempers to think
quickly and to act on the thought promptly
and builds up a muscular system that will
be a help to them as long as they live.
A meeting was held in the office of R. T.
D. Atkinson, City Clerk last Friday evening
for the purpose of organizing a senior foot-
ball team. A number of enthusiasts were
present and elected Mr. A. E. G. McKenzie
captain of the team. Practice was held on
Saturday afternoon on the Y. M. C. A.
grounds.

New Idea Woman's Magazine

The forthcoming November number of the
New Idea Woman's Magazine will afford
entertaining and profitable reading for
women in all classes and conditions of life.
It will be tinged, naturally, with the
Thanksgiving idea, but will cover the
ground of women's needs. A novel feature
will be the first of a series of bright letters
from an Englishwoman's pen, under the
caption of "The Journal of a London
Woman." "Dressing the Bride" will set
forth a new occupation for women, and
there will be half a dozen good stories by
the cleverest writers. "Autumn Novelties"
will illustrate the newest departures in
fancy work, and in "Good Housekeeping,"
excellent menus for Thanksgiving dinner
will prove helpful and suggestive.

THE DERBY AND BLACK- VILLE AGRICULTURAL SOCIETY.

The Derby and Blackville Agricultural
Society Fair, which was held at the Tem-
perance Hall, Millerton, on Tuesday of last
week, proved a grand success in every par-
ticular. In addition to the Exhibitors of
past years, several new competitors ap-
peared this year, and they all made a very credit-
able showing. Among the new Exhibitors
were, Messrs. McLaggan, Santry, J. W.
Vanderbeck and S. L. Crocker, all of whom
deserve mention for their fine exhibits.
Of the old exhibitors, Mr. F. H. Jardine
had a collection of roots which would be
hard to beat at any of the fall fairs. Mr.
B. N. T. Underhill showed some fine speci-
mens of grapes and took several prizes on
other exhibits.
Messrs. W. J. and R. R. McLaggan had
a number of fine cattle.

The Agricultural Society and their em-
ergetic committee of management, are to be
congratulated on the success of their fair,
and the good order that prevailed during
the day speaks well for the community.

An account of this exhibition would not
be complete without mention of the ladies
of the Methodist who served dinner in the
hall. The dinner was of the best, and the
ladies who served it were most obliging and
courteous.

POEMS OF THE DOMINION.

A CANADIAN ON BURNS.

O, hard of the winding furrow,
And the reaper's humble blade!
Sweet prospect of the landscape
In shaw, and glen, and glade;
Who lent to teach us patience,
And to pity him who grieves,
And to call the juster echo out,
For each man's soul to leave?

And now the world knows better
Than it ever knew before
That life is not a dream, and pain,
That life is not a dream, and pain,
The not the old-time feeling,
"For me, alone, my strife,"
But, "I come and know your brother-man,
And live with him his life!"

And whether we guide the furrow,
Or wield the sword or the pen,
Or earnestly heed the extended need
Of the lowly and the poor,
There's a manly stride beside us,
As of one who would help us learn,
Who sowed the seed for the world's good
And live with him his life!

Laureate, on the banks of Ayer!
And while we rear him monuments
Of marble or of bronze,
His ever-enduring memory rests
In the hearts of Scotland's sons!
As the old Miller thanks her lad who's
For their many hard "good turns,"
She whispers on ear, as she wipes a tear—
"The best of them all was Burns!"

SAME OLD SAVING.

Saving for the man who sells us meat,
Saving for the one who shows my feet,
Saving for the chap who leaves the bread,
Saving for the dinner, ere he dies me dead,
Saving for the day the rent is due,
Saving for the money to lease my pew;
Saving for the gown the evening gown,
Saving for the winter, when the dog days
draw,
Saving for wife, to buy her a dress,
Saving for her bargains: "Well, I guess
I've got 'em!"
Saving for the doctor and yard-long hose,
Saving for the dentist and kindred foes,
Saving for holidays, oh, what joy!
Saving to buy the latest fashions,
Saving for a brand new suit of clothes,
Saving to match it with the latest fashions,
Saving to pay the honest man's dues,
Saving to help the poor man,
Saving to be able to rattle the cash,
Saving to cut a wider dash:
Saving to pay for the week-end of love,
Saving for dollars and kindred ado,
Saving to lead, as the world calls it,
Saving ever, for the morrow:
Saving for the sport of spending,
Saving for holidays, indeed!
Saving in pain, saving in pleasure,
Saving up the golden treasure,
Saving in hope, saving in gloom,
Saving to purchase a splendid tomb:
Saving for friends to bury you deep,
Saving for bits to hang round and weep,
Saving, and if you've saved your pence,
Saved for the heirs from tears to sinless,
The great drops rattled on the pane.

AFTER RAIN.

"For three whole days across the sky,
In sultry packs that boned and broke,
With biting clouds dim as smoke,
The columns of the rain went by;
At every clasp the wind sweetest
The darkness passed upon the plain,
The great drops rattled on the pane.
"Now piped the wind as far aloft
Fell to a sough remote and dull;
And all night long, with rush and hull,
The rain kept drumming on the roof;
I heard till ear and sense were full
The clasp, or allure of the leaves,
The gurgle in the creaking eaves.
"But when the fourth day came—at noon,
The darkness and the rain were by;
The sunward roofs were streaming dry;
And all the world was flecked and strewn
With shadows from flower and tree;
The harrowers were forth and gone,
And every rill laughed and sang.
"Then, too, on me that level as well
The world, despairing in her light,
Lifted with her least delight,
On me, as on the earth, there fell
New happiness of mirth and mirth:
I strode the valleys, pied and still;
I climbed upon the breezy hill.

"I watched the grey hawk wheel and drop,
Saw the mountain cloud and curled,
With forest ruffling to the top,
I saw the river's mouth unrolled,
Pale silver down the frosted plain,
Green trout and stately wild geese.
"Through miles of shadow and soft heat,
Where fold and follow, fence and tree,
Where all the world of greenery
I heard the robin singing sweet,
The sparrow piping divinely,
The thrushes at the forest's hem:
And as I went I sang with them,
—Audubon Chapman.

Rev. Gabriel Johnston, rector of
Trinity Church, Welland, writes: "I
had the deep gratification last week
of visiting Mrs. Jefferson Davis, the
widow of the late President of the
Confederate States. Mrs. Davis is
the guest of friends at 'Salem Com-
fort,' near Port Colborne. While the
sad events which have passed since
her husband's death have left their
traces on her physically, they have
in no way impaired her mental
strength and loveliness. She has the
incidents of the eventful history
through which she has lived beauti-
fully engraved on her memory, and
she converses of the scenes when her
able and distinguished husband
was the leader of the south in a
most interesting manner, and the
pathos with which she speaks of him
as Jeff goes straight to a southern-
er's heart. I don't it a great privi-
lege and pleasure to have met her."

BATHURST.

Bad weather again. After a glimpse of sunshine on Sunday evening, and a lovely day on Sunday, which encouraged the farmers that the weather had cleared, to day it is again simply raining, and shows no sign of letting up. This state of things is very bad for everyone who has to work outside. The farmers who have been fortunate enough to get their grain stored before the break in the weather cannot now get a chance to do anything with their root crops, and we are sorry to say a considerable quantity of grain, oats &c. etc. which is yet standing in a bad shape, with poor prospects of harvesting. This what looked like the best crops we have had in Gloucester county for a good many years may, unless sunshine comes soon, turn out disastrously.

This weather is also very bad for the lumbermen who are trying to get teams and supplies into the woods. Every portage road is almost a brook, and it is impossible to travel on them. Old settlers and weather prophets say we are going to have an early and long winter. If the brooks and swamps are filling up for winter now we certainly shall, but it is to be hoped we have some fine weather yet.

Hunting parties who have come out of the woods, report game very plentiful, but strange not one Caribou head, to our knowledge, has come out yet, and we have not heard of one being seen. Deer are also very scarce this autumn in Northern New Brunswick. A few were seen early in the autumn but lately very few have been shot.

Mr. Meserveau principal of the village school, who is we understand an expert with the rifle got a deer at Teagues Lake on Saturday, and we heard of one that came from Teague Lake, that is all.

As regards to Moose however every party coming out has a full quota. Dr. Knowlton and party of two gentlemen beside himself, who came from the head of the river last week, had three fine heads and we understand he saw many more, but having all they were allowed to shoot they were perfectly satisfied with one each. A Mr. Smith who had for guides Joseph Gray and Robert McEwan, and also had two friends with him also brought in three heads, all large moose. Dr. Moses of Boston with his wife, and a couple of friends who were on the head of the Teagues, with guide Tomlinson brought in four heads, one of which, as mentioned, was a deer. We learn that the lady shot the deer and one of the moose. There are several other parties up river and scattered about the country to hear from yet, but we venture to say they will all come in well satisfied. What a country for game! Where in the world can sportsmen go, and in the course of a few days bring in the largest game obtainable in North America in such numbers? We only hope they are not overdoing it, and shooting too many bulls in the rutting season. Sportsmen are gradually coming to the conclusion that there is not much of a trick in shooting the bulls at this season and that the Government should insist on stalking, as in the old country. This is a serious question. It is true that the sportsmen leave considerable money in the country and also quite true that the money is needed, but whether it is wise to allow such hunting year after year is a question for the department to very seriously consider.

Partridge are very scarce, in fact the hunters say that there are scarcely any in the woods, and account for it by asserting that the heavy rains in June and the early part of July killed nearly all the chickens. The larger saw mills are about all closed down for the season but the shingle mills are running yet and will run for some time.

Messrs. O. F. Stacy's new mill at the Nigadoo is doing good work with four machines, and Mr. Wm O'Brien is sawing spruce and pine for Messrs. Sumner at the mouth of the Millstream. Several other Rotary Mills are cutting yet, and there seems plenty of work for them.

We have heard that the Humberworth party, who were in Gloucester County last month looking over some lumber lands and water powers with a view to purchasing large tracts for the pulp business, are sending experts next week to examine and report on the water power on the Nepisiguit. These, as stated, are English capitalists who have been in America for some months, and who have examined all the pulp pulp plants in Canada and the United States, going as far as the Pacific Coast, and should they decide to come to Gloucester County we presume it would mean the expenditure of a large amount of money on the part of our people, and every-thing possible should be done to encourage them.

As mentioned in our last notes, there is a strong undercurrent of political feeling throughout the County, and the County which is as our readers know, the organ of Mr. Turgeon, is fanning the flame into a blaze. In its last issue the former

week's also the editor seems indignant because any person should dispute the right of Mr. Turgeon to speak for the majority of the electors in Gloucester. Mr. Turgeon, according to the Courier, has chosen Messrs. Curran, Boudreau and Morais to represent the Liberal party in the County, and because some correspondent in the western part of the county writing to "the Evangelist" assumes to think that Mr. Turgeon has no right to speak for a majority of the electors, or to choose three candidates without consulting any person but himself in the matter, the Courier is very indignant, and handles the unfortunate correspondent of the "Evangelist" without gloves. According to the Courier, there is not the slightest doubt that Messrs. Curran, Boudreau and Morais will be elected by a very large majority and that paper assures its readers that it speaks for all the Liberal party in the county. On the other hand if we can believe Messrs. Burns and his friends, who have also been all over the county, and consulted a large majority of the prominent electors therein, Mr. Turgeon and the Courier are altogether mistaken. We must say that considerable proof has been shown to us that quite a number of prominent men, particularly in the eastern end of the county, warmly supported Wm Turgeon at the last Dominion Election, very much resent his speaking for them in this matter. Many of them do not think that Mr. Morais, who is a very young and untried man, competent to represent the lower end of the county, where they have had two experienced representatives formerly, and there seem to be a good deal in their arguments. Then they cannot see by what particular right Mr. Curran, who besides being a comparative stranger in the county, has had no experience in political matters, and is not personally acquainted with one-tenth of the electors, and therefore cannot possibly understand their needs, should be elected in the place of gentlemen who, besides being natives of the county, have given their time and attention to the positions they have held for so many years, and have tried to do the very best they could for all concerned. We are sure anyone who is at all acquainted with Mr. T. M. Burns will agree with your correspondent that he generally tells the truth and is almost too honest for a politician, add when he tells us these things we are inclined to believe him. At the same time we have heard give both sides of the story, and when the election comes on it will then be seen who is the most reliable.

Mr. James P. Byrne and his bride arrived home after a very pleasant trip to Nova Scotia, and are receiving the congratulations of their numerous friends, and they are numerous, we use the word advisedly, for we do not suppose a young couple ever started out in life with more true and sincere friends.

Mr. John Tobin of Winnipeg and his daughter Frances visited their friends in Bathurst last week. It is nineteen years since John Tobin a popular Bathurst boy sought fame and fortune in the west, and we are glad to know that he has found a fair share of both. When Mr. Tobin settled in Winnipeg the city had just commenced to grow and he has grown with it. New Brunswickers who visit the west tell us that there is not a more popular or better known man in Manitoba than John Tobin; that he is respected for his honorable dealing by all who know him and that it is difficult for a north shore man to avoid his hospitality.

Mr. Tobin and her daughter left for the west on Saturday morning, and their friends hope it will not be so long between their next visit. They were entertained by a host of friends in Bathurst who vied with each other to make their short visit a pleasant one.

DOAKTOWN.

The farmers have begun to dig their potatoes, the crop will be small owing to rot.

Three new houses have been built during the summer, they will add greatly to the appearance of the town. The combined cost is about \$4000.00.

J. E. Doak has added a shingle machine to his factory.

Last Saturday morning a moose, with a beautiful set of horns, stepped into Mr. Hannon's pasture, stood at the gate near the house and after being scrutinized by all present re-entered the woods.

John Mann, while working in Swin's mill Friday, received some very painful bruises by falling in front of the returning carriage of the rotary.

Miss Hendry who has been away visiting has returned home.

While hauling in wheat some days ago, Jas. Batts fell off the load in front of the

There are twelve hands working in Swin's mill and only five of them are over sixteen years of age.

WEDDINGS.

BLACKVILLE, Sept. 30.—The marriage took place today of Mr. Michael J. Donohoe one of our popular young carpenters, to Miss Bridget McCarty, daughter of Stephen McCarty, both young people very popular and very highly esteemed. A large number of friends assembled at the bride's home where a wedding repast was served, after which dancing and other amusements were indulged in. Rose's orchestra furnished the music. The bride received many beautiful presents. The young couple are to make their home in Newcastle.

At the residence of the Hon. A. J. Mossman, 36 Wabash Ave., Deadwood, So. Dak. on Sept. 3rd by the Rev. Dr. Straw, George Rose of Graham, Wyoming to Laura K. Scofield of Penos Allos, New Mexico. The bride is a Northumberland girl having been born at Blackville and is the eldest daughter of J. L. Scofield formerly of that place, but now residing at Penos Allos, N. M. The groom is a prominent stock raiser of Graham, Wyoming being junior partner of the well known firm of Rose Brothers of that place.

NATURE'S REMEDY FOR ALL SUMMER COMPLAINTS.

It only costs Twenty-five cents to have on hand a safe and sure remedy for all Summer Complaints, Diarrhoea, Cramps, and pains. Buy a bottle of Faller's Blackberry Cordial to-day there is no remedy "just as good," tried and tested for over twenty-five years, it regulates the bowels and relieves promptly. Useful alike to both children and adults; prepared by the Baird Company Limited.

The proposed Cape Breton beam-making industry seems to have a number of supporters.

LAMENESS IN HORSES, HARD AND SOFT LUMPS RELIEVED BY LEEHING'S SPAIN LINIMENT.

For curing lameness from whatever cause, sprain, curb, splint, ringbone and for removing obstinate lumps and all similar injuries or diseases. Cures when everything else fails. Do not confound this preparation with spavin cures and other preparations. Leehing's Spavin Liniment is different from any of them, the effects produced by the applications of Leehing's Spavin Liniment are certain yet comparatively mild. Prepared by the Baird Company Limited.

Yes, observed Cokovia Sage, stocks were certainly panicky, the last two days. The market, in other words, has flattened out.

Minard's Liniment Cures Dandruff.

DR. HAMILTON'S PILLS CURE CONSTIPATION.

Pa, said the little mosquito, what does perseverance mean, anyway? Perseverance, my child, replied the wise old insect, means finding a hole in a wire screen.

HAMILTON'S PILLS ARE GOOD PILLS.

Cholly—Miss Pepprey, how do you pronounce g-o-l-f? Miss Pepprey—I pronounce it perfectly idiotic.

FEAR OF THE FUTURE

Most people who dread the future are victims of some terrible disease. Mrs. W. Francis, 204 Colborne St., Kingston, was in a bad state with kidney disease. She had severe pains in back and legs, was gradually losing flesh and felt a dread of the future. A friend recommended Dr. Chase's Kidney-Liver Pills and the result was a complete cure. There is no medicine more reliable, none so certain to produce a thorough cure. One pill a dose, 25 cents a box.

It was a quiet wedding, I presume?

Oh, yes. The groom acted as if he had been hypnotized.

90 YEARS OF ITCHING PILES

Mr. Alex. McLaughlin, Bowmanville, Ont., writes that for twenty years he suffered terrible itching piles. Several years ago he asked a druggist for the best cure for piles and was told to use Dr. Chase's Ointment. He continued this treatment until entirely cured, and as he has never had any return of his old trouble considers his cure permanent and remarkable on account of the length of time he suffered.

Porcupine—You carry your head pretty high.

Giraffe—Well, if I do I am not stuck up as you are.

INFLAMED NOSE AND THROAT.

And such diseases of the respiratory organs as Bronchitis, Weak Lungs Cold in the Head, and Nasal Catarrh, and treated with marvelous success on strictly scientific principles by Catarrhoxone. The medicated vapor of Catarrhoxone quickly traverses every air passage possible to be reached by any treatment. All soreness, pain, congestion and inflammation are at once dispelled, and by means of the healing power of Catarrhoxone the irritated tissues are quickly restored. Where Catarrhoxone is used colds last only ten minutes, coughs half an hour, and Catarrh, Consumption, Asthma and Bronchitis if as from fire. A trial will convince any one of the startling merit of Catarrhoxone. Cost \$1.00 small size 25¢. At Druggists, or Polson & Co., Kingston, Ont.

How long has she been on the stage?

Only about three divorces.

Does she wear corsets through necessity?

No. It's merely a matter of form.

CHANGE OF LIFE. A TIME OF INTEREST AND GREAT IMPORTANCE TO WOMEN.

Wrecked health is produced by neglect during this trying period, and small wonder that women look forward with dread to its coming, for if not properly passed, it is but the beginning of an endless chain of troubles.

As soon as the unmistakable signs known to all women made their first appearance, Ferrozone should be used regularly, and if persistently taken will be a guarantee of happy, healthy, old age.

Nothing can bring more pleasure than to know that the days of sickness and suffering are over. This can best be accomplished by building up the system with Ferrozone, which produces blood, muscle, tissue, and strength to resist and ward off disease.

Ferrozone increases the appetite, strengthens and improves nerve tone, and digestive processes, thereby strengthening and invigorating the whole system. It gives tone to the heart, regulates its action, removes distressing palpitations, and it lays the sound foundation of perfect health.

Ferrozone is a sensible and efficient tonic; it brings back strength very quickly, and few people are so strong and healthy, that they would not be benefited by using it.

Be advised and try Ferrozone. It is very pleasant to take, one tablet after each meal. All reliable druggists sell it for 50c. per box, or three boxes for \$1.25. By mail from N. C. Polson & Co., Kingston, Ont. Sold by A. E. Shaw.

That fire must have occurred in St. John harbor when the water was out.

NEW USE FOR REFINED PARAFFINE WAX.

A new and important use for Refined Paraffine Wax seems to have been discovered by a prominent resident of Ohio, living near Lancaster, who had two trees badly damaged by storm, one being a maple and the other an apple. In each case a large limb was broken down from the trunk, but still attached to it. The limbs were propped up and fastened securely with straps, very much as a broken leg might be fastened with splints, and then melted refined wax poured into and over all the cracks. The "surgical operation" was entirely successful. The paraffine prevented the escape of the sap, kept out the rain and moisture which would have rotted the trees, prevented the depredations of insects, and the limbs seem thus far to be perfectly re-attached to the trees.

In Guatemala the Indian population tries to double its chances for the efficacy of prayer by worshipping at a Christian altar with images of its heathen deities hidden behind it.

COMPLETELY FAGGED OUT.

The world is full of sickly, dependent, tired, enervated people, all hoping to be well some day. The surest road to health is along the way of taking Ferrozone after meals. Ferrozone is a great appetizer and enables one to eat plenty of wholesome food without fear of indigestion or dyspepsia. This results in the rapid formation of an abundance of red, vitalizing blood, which will restore the nerves, increase flesh and vigor, and nourish and feed every organ of the body. Ferrozone is an ideal restorative and invigorant. It is a tonic of unequalled merit that anyone can use with benefit. Price 50c. per box, or six boxes for \$2.50, at Druggists, or N. C. Polson & Co., Kingston, Ont. Sold by A. E. Shaw.

The difference between a cop and a stock broker is, that the latter sells the stocks and the former stocks the cells.

CRAMPS ARE LIKE BURGLARS.

They come unexpected and when least welcome. Be armed with a one-minute cure in a bottle of Nerviline, which relieves cramp and stomach pains in five minutes. In Colic, Summer Complaint, Diarrhoea, Indigestion and Nausea, Nerviline is a remedy of remarkable potency, and acts promptly and satisfactorily at all times. The composition of Polson's Nerviline expresses the highest medical progress of the age, which accounts for its superior merit. Price 25¢.

Cheer up, you fellows who dropped your good money on stocks. Don't be discouraged, for the winter's coming.

The ragged creature with the battered hat and tangled beard came stumbling on the stage from the wings, looking as if somebody had ejected him therefrom with a swift kick.

You want cold victuals, I suppose, said the stage housemaid preparing to throw some of the remnants of the feast on the table at him.

Not he said hoarsely, I'm tired of chewin plester o paris biscuit an paper mache roast chicken six times a day for \$9 a week, I want waffles and real work!

I have here a little poem, said the caller timidly, which I would like to offer for your acceptance, if you think it worthy.

The editor looked up. Is it one you have just dashed off? he asked.

The editor read it.

There was a wastebasket at his side—not a yawning wastebasket—just one of the ordinary kind, without a yawn.

But he did not toss the poem into it.

Miss, he said with emotion, this is the best thing of the kind I have ever read. It's worth \$25. Here is your money.

But she didn't faint.

SIR OLIVER MOWAT.

Lieutenant-Governor of Ontario Passes His 82nd Birthday on July 22, 1902—A Very Popular Gentleman.

No citizen of Toronto is more widely known or respected throughout the Dominion than his Honor, the Lieutenant-Governor Sir Oliver Mowat, K.C.M.G., who was 82 years of age on Tuesday, July 22, 1902. Sir Oliver was born in Kingston on July 22, 1820, his father, John Mowat, of Canby, Calumet-shire, Scotland, having settled in that city in 1816. At the age of seventeen, having picked up as much of an education as the best schools then afforded, he entered the law office of the late Sir John Macdonald, who was a few years his senior, where he diligently studied the profession he had taken up, and in 1842 he was called to the Bar, commencing his practice in the city of his birth. Before long he realized that Toronto offered a wider field, and removed to that city, where he has since made his home. He became a prominent member of the Chancery Bar, and in 1856 was made a Queen's Counsel, and appointed commissioner for the consolidation of the statutes of Upper and Lower Canada. In 1877 he was elected to represent South Oxford in Parliament, and held the seat until 1884. He was Provincial Secretary in the Brown-Dorion Administration from August 2 to 1858. In 1861 he contested Kingston, but without success. He held the portfolio of Postmaster-General in the Macdonald-Dorion Administration from May 1865, till March, 1864, and occupied the same position in the coalition Government. At the fall of that Government he was raised to the Bench as Vice-Chancellor of Upper Canada, having previously been a member of the Union Conference which met in Quebec in 1864 for the framing of the confederation scheme. In 1872, in consequence of the retirement of Messrs. Edward Blake and Alexander Mackenzie from the Ontario House, owing to the provisions of the dual representation act, he was called on by the Lieutenant-Governor to form an Administration, and resigned his Vice-Chancellorship, to do so. He became member for North Oxford, being elected to that constituency by acclamation, and assumed the office of Attorney-General of the Province. Afterwards he was six times returned for the constituency, thrice by acclamation, and thrice after a battle at the polls. He was Premier for 24 years, the longest continuous term of office as Premier ever accorded to any man in Canada. He resigned in 1896 to join Sir Wilfrid Laurier's Cabinet, and left it later to become Lieutenant-Governor. For two years Sir Oliver was a member of the Toronto City Council, where he rendered great service, representing St. Lawrence Ward in 1857 and St. James' Ward in 1858. Sir Oliver is a member of the Presbyterian Church, and for many years was president of the Evangelical Alliance. He has always taken a deep interest in social and religious matters, and has contributed on several occasions to religious literature. In recognition of his public services Queen's University in 1892 conferred upon him the degree of LL.D., and Toronto University paid him the same honor in 1889.

An Incident in His Story.
Mr. E. F. Clarke, M.P., Toronto, has been up on the Muskoka River fishing. "I had some good fishing, and intend to go up again for a few days," I hooked one big fellow. I do not want to exaggerate, and so I'll not tell you how big he was, but he was too big for myself and another man to handle. We got him alongside the boat, and then he just threw himself aside and went off with the hook and part of the line. But I'm going back, and will try him another time if he is willing."

A man of 70 has eaten in his lifetime about 582 tons of food.

BROTHERHOOD.

That plenty but reproaches me
Which leave my brother here,
Not which glad me heart can be
While he is bowed with care.
If I go free, and sound and stout,
While his poor fetters clank,
Unaided still, I'll cry out loud,
And plead with Whom I thank.
Alas! then, Who was Father he
Of him, of me, of all
Draw us together, him and me,
That while we live, may fall him not—
The other's strength decline
No task or sorrow that he let
May claim for son of mine.
I would be fed, I would be clad,
I would be housed and dry,
But if so be my heart be sad—
What benefit have I?
Let he who dares, dare bear his share
The load that things are,
And not to call his lot severe.
Who dares that? with what aid?
—E. E. Martin.

GRAND MILLINERY OPENING.—A cordial invitation is extended to the Ladies to call at the Boutique, on Tuesday, Oct. 9th when I will exhibit the latest display of patterns hats and bonnets yet shown.

JOSIE NOONAN.

Through the kindness of Governor Snowball, who tendered his boat, the St. Nicholas, the visiting teachers had a very enjoyable trip on the river, Friday afternoon. The Governor's thoughtfulness was very much appreciated by his guests.

Hon. S. Adams, New York, when here last week did not forget the school children of his native place, Douglastown, for last Wednesday evening each pupil of Mr. Ben's, Miss Carney's and Miss Cameron's, department, received a well filled bag of fruit and candy, which was most highly appreciated.

We are informed, by unreliable sources, that two gentlemen of our town were driven down the coast when they espied a red boat full of them. One of the young men attempted to catch it, but was not strong enough.

A large number of people gathered at the bridge over the Northwest Miramichi to see the old span removed and the new span floated into place and fastened. When they left, the crowd looked like a lot of excursionists who had been running to catch a train and didn't connect. Owing to a miscalculation the dredging was not deep as was necessary to float the span, on which it was to be removed, under the old span.

The Mechanics Institute has been thoroughly overhauled and repaired. The old seating arrangement has been removed thus enlarging the floor space by one half, making now a floor space the full size of the building, 35x40. The ceiling has been white-washed, the top cornice painted a bright vermilion. The gable has been painted a sky blue, the lower cornice finished in a deep mahogany, which heightens the effect of the upper work. The walls are painted a bright salmon color. A new display floor has been laid and a tongue and groove wainscoting four and one-half feet high has been placed completely around the room. A stage erected for the orchestra 6 feet wide nearly the width of the building. To the left of the entrance is a cloak room for ladies connected by a door with the main hall, and to the right, a cloak room for gentlemen. A large basement that half of the building is at present used by the town as a storage room and the other half is reserved.

J. Aiken Sec.

Newcastle Oct. 6th, 1902.

Mr. Rayner of Rose Hall, Ont., lectured at the Farmer's Institute held in the Roman Catholic hall Rensselaer Bridge Friday evening 3rd.

His subject was the farmer's fruit and vegetable garden. The speaker gave a practical discourse on the growing and management of the different varieties of fruit and vegetables. A great deal of interest was shown and many questions were asked regarding the subject and were answered in full. Other interesting addresses were made by Mr. John Betts, President of the institute, and Rev. Fr. Murdoch. After the meeting Rev. Fr. Murdoch invited those who took part in the discussion to his house and entertained them most royally.

The attention of our readers is drawn to the announcement on another page of this paper, which affords a splendid opportunity to secure that great family paper, the Family Herald and Weekly Star, of Montreal, absolutely free of charge for the balance of 1902. The Family Herald and Weekly Star is acknowledged to be in a class entirely by itself as a family paper, and the desire to introduce it into new homes has enabled us to make this arrangement with the publishers of that great paper. We learn that the Family Herald publishers will shortly announce their new premiums for this season, and the public will get a pleasant surprise. Read the announcement in this paper.

THE UNION ADVOCATE, WEDNESDAY OCTOBER 8, 1902.

The Country. An Epitome of Events Gathered by ADVOCATE Reporters

BATHURST.

Bad weather again. After a glimpse of sunshine on Saturday evening, and a lovely day on Sunday, which encouraged the farmers that the weather had cleared, to day it is again simply raining, and shows no signs of letting up. This state of things is very bad for everyone who has to work outside. The farmers who have been fortunate enough to get their grain stored before the break in the weather cannot now get a chance to do anything with their root crops, and we are sorry to say a considerable quantity of grain, oats &c. etc. which is yet standing in a bad shape, with poor prospects of harvesting. Thus what looked like the best crops we have had in Gloucester county for a good many years may, unless sunshine comes soon, turn out disastrously.

This weather is also very bad for the lumbermen who are trying to get teams and supplies into the woods. Every gorge road is almost a brook, and it is impossible to travel on them. Old settlers and weather prophets say we are going to have an early and long winter. If the brooks and swamps are filling up for winter now we certainly shall, but it is to be hoped we have some fine weather yet.

Hunting parties who have come out of the woods, report game very plentiful, but strange not one Caribou head, to our knowledge, has come out yet, and we have not heard of one being seen. Deer are also very scarce this autumn in Northern New Brunswick. A few were seen early in the autumn but lately very few have been shot.

Mr. Macneil principal of the village school, who is we understand an expert with the rifle got a deer at Tegogue Lake on Saturday, and we heard of one that came from Tegogue Lake, that is all.

As regards Moose however every party coming out has a full quota. Dr. Sawdon and party of two gentlemen beside himself, who came from the head of the river last week, had three fine heads and we understand he saw many more, but having all they were allowed to shoot they were perfectly satisfied with one each. A Mr. Smith who had for guides Joseph Gray and Robert McEwan, and also had two friends with him also brought in three heads, all large ones. Dr. Moses of Boston with his wife, and a couple of friends who were on the head of the Tegogue, with guide Imhof brought in four heads, one of which, as mentioned, was a deer. We learn that the lady shot the deer and one of the moose. There are several other parties up river and scattered about the country to hear from yet, but we venture to say they will all come in well satisfied.

What a country for game! We see in the world on sportsmen go, and in the course of a few days bring in the game obtainable in North America in such numbers! We only hope they are not overdoing it, and shooting too many birds in the rising season. Sportsmen are gradually coming to the conclusion that there is not much of a trick in shooting the birds at this season, and that the Government should insist on stopping as in the old country. This is a serious question. It is true that the sportsmen leave considerable money in the country and also quite true that the money is needed, but whether it is wise to allow such hunting year after year is a question for the department to very seriously consider.

Partial, are very scarce, in fact the autumn has been severely dry in the woods, and according to it by ensuring that the heavy rains in June and the early part of July killed nearly all the chickens. The larger saw mills are about all closed down for the season but the single mills are running yet and will run for some time.

Mealy O. P. Sney's new mill at the Nigadung doing good work with four machines, and Mr. Wm O'Brien is cutting up pine for Mealy. Summer at the mouth of the Millstream. Several other heavy mills are cutting yet also, and there seems plenty of work for them.

We have heard that the Harnayorth party who were in Gloucester County last month looking over some lumber lands and water powers with a view to purchasing the same for the pulp business are ending experts next week to examine and report on the water power on the Nepirung. These, as stated, are English capitalists who have been in America for some months and who have examined all the principal pulp plants in Canada and the United States, going as far as the Pacific Coast, and who they decide to come to Gloucester County we presume it would mean the expenditure of a large amount of money on our people, and every thing possible should be done to encourage them.

As mentioned in our last note, there is a student under current of political feeling throughout the County, and the Couriers, which is as our readers know, the organ of Mr. Turgeon, denouncing the Harnayorth as a blessing. In its last issue and the former

week's also the editor seems indignant because any person should dispute the rights of Mr. Turgeon to speak for the majority of the electors in Gloucester. Mr. Turgeon, according to the Courier, has chosen Messrs. Curran, Boudreau and Morad to represent the Liberal party in the County, and because some correspondent in the western part of the county writing to "the Evangelist" assumes to think that Mr. Turgeon has no right to speak for a majority of the electors, or to choose three candidates without consulting any person but himself in the matter, the Courier is very indignant, and handles the unfortunate correspondent of the "Evangelist" without gloves. According to the Courier, there is not the slightest doubt that Messrs. Curran, Boudreau and Morad will be elected by a very large majority and that paper assures its readers that it speaks for all the liberal party in the county. On the other hand if we can believe Messrs. Burns and his friends, who have also been all over the county, and consulted a large majority of the prominent electors therein, Mr. Turgeon and the Courier are altogether mistaken. We must say that considerable proof has been shown to us that quite a number of prominent men, particularly in the eastern end of the county, warmly supported Mr. Turgeon at the last Dominion Election, very much resent his speaking for them in this matter. Many of them do not think that Mr. Morad, who is a very young and untalented man, competent to represent the lower end of the county, where they have had two experienced representatives formerly, and there seems to be a good deal in their argument. Then they cannot see by what particular right Mr. Curran, who besides being a comparative stranger in the county, has had no experience in political matters, and is not personally acquainted with one-tenth of the electors, and therefore cannot possibly understand their needs, should be elected in the place of gentlemen who, besides being natives of the county, have given their time and attention to the positions they have held for so many years, and have tried to do the very best they could for all concerned. We are sure anyone who is as well acquainted with Mr. T. M. Burns will agree with your correspondent that he generally tells the truth and is almost too honest for a politician, and when he tells us these things we are inclined to believe him. At the same time we have tried to give both sides of the story, and while he is correct in what he says, it will then be seen who is the most reliable.

Mr. James P. Byrne and his bride arrived home after a very pleasant trip to Nova Scotia, and are receiving the congratulations of their numerous friends, and they are numerous, we use the word advisedly, for we do not suppose a young couple ever married so full of life with more true and sincere friends.

Mrs. John Tobin of Winnipeg and her daughter Frances visited their friends in Bathurst last week. It is nineteen years since John Tobin a popular Bathurst boy sought fame and fortune in the west, and we are glad to know that he has found a fair share of both. When Mr. Tobin settled in Winnipeg, the city had just commenced to grow and he has grown with it. New Brunswickers who visit the west tell us that there is not a more popular or better known man in Manitoba than John Tobin; that he is respected for his honorable dealing by all who know him and that it is difficult for a north shore man to avoid his hospitality.

Mr. Tobin and his daughter left for the west on Saturday morning, and their friends hope it will not be long before they will be back again. They were accompanied by both of their sons, who have just returned from the west, and who have had with each other to make their short visit a pleasant one.

DOAKTOWN.

The farmers have begun to dig their potatoes, the crop will be small owing to the weather.

Three new houses have been built during the summer, they will add greatly to the appearance of the town. The combined cost is about \$4000.00.

J. E. Doak has added a shingle machine to his factory.

Last Saturday morning a moose, with a beautiful set of horns, stepped into Mr. Hannon's pasture, stood at the gate near the house and after being scrutinized by all present re-entered the woods.

John Munn, while working in Swin's mill Friday, received some very painful bruises by falling in front of the returning carriage of the rotary.

Miss Hendry who has been away visiting has returned home.

While hauling in wheat some days ago, Jas. Betts fell off the load in front of the

Swin's mill narrowly escaped being destroyed by fire recently. The fire was caused by the friction of a belt against the wood. The fire was discovered in time to prevent its spread.

WEDDINGS.

BLACKVILLE, Sept. 30.—The marriage took place today of Mr. Michael J. Donohue one of our popular young carpenters, to Miss Bridget McCarty, daughter of Stephen McCarty, both young people very popular and very highly esteemed. A large number of friends assembled at the bride's home where a wedding repast was served, after which dancing and other amusements were indulged in. Rev. Mr. O'Rourke officiated. The bride received many beautiful presents. The young couple are to make their home in Newcastle.

At the residence of the Hon. A. J. Moosman, 36 Wabash Ave., Deadwood, So. Dak., on Sept. 3rd by the Rev. Dr. Straw, George Rine of Graham, Wyoming to Laura K. Scofield of Penne Alto, New Mexico. The bride is a Northumberland girl having been born at Blackville and is the eldest daughter of J. L. Scofield formerly of that place, but now residing at Penne Alto, N. M. The groom is a prominent stock-raiser of Graham, Wyoming being junior partner of the well known firm of Rine Brothers of that place.

LAMENESS IN HORSES, HARD AND SOFT LUMPS RELIEVED BY LEEMING'S SPAIN LINIMENT.

For curing lameness from whatever cause, sprain, curb, splint, singhose and for removing obstinate lumps and all similar injuries or diseases. Cures when everything else fails. Do not confound this preparation with spavin cures and other preparations. Leeeming's Spavin Liniment is different from any of them, the effects produced by the applications of Leeeming's Spavin Liniment are certain yet comparatively mild. Prepared by the Baid Company Limited.

DR. HAMILTON'S PILLS CURE CONSTIPATION.

Pa, said the little mosquito, what does "perseverance" mean, anyway? Perseverance, my child, replied the wise old insect, means finding a hole in a wire screen.

HAMILTON'S PILLS ARE GOOD PILLS.

Cholly—Miss Pepprey, how do you pronounce g-o-l-f? Miss Pepprey—I pronounce it perfectly idiotic.

FEAR OF THE FUTURE

Most people who dread the future are victims of some terrible disease. Mrs. W. Francis, 304 Oulton St., Kingston, was in a bad state with kidney disease. She had severe pains in back and legs, was gradually losing flesh and felt a dread of the future. A friend recommended Dr. Chase's Kidney-Liver Pills and the result was a complete cure. There is no medicine more reliable, none so certain to produce a thorough cure. One pill a dose, 25 cents a box.

It was a quiet wedding, I presume!

Oh, yes. The groom acted as if he had been hypnotized.

20 YEARS OF ITCHING PILES

Mr. Alex. McLaughlin, Bowmanville, Ont., writes that for twenty years he suffered terrible from itching piles. Seven years ago he asked a druggist for the best cure for piles and was told to use Dr. Chase's Ointment. He continued this treatment until entirely cured, and as he has never had any return of his old trouble considers his cure permanent and remarkable on account of the length of time he suffered.

CHANGE OF LIFE. A TIME OF INTEREST AND GREAT IMPORTANCE TO WOMEN.

Wrecked health is produced by neglect during this trying period, and small wonder that women look forward with dread to its coming, for if not properly passed, it is but the beginning of an endless chain of troubles.

As soon as the unmistakable signs known to all women make their first appearance, Ferrozone should be used regularly, and if persistently taken will be a guarantee of happy, healthy, old age.

Nothing can bring more pleasure than to know that the days of sickness and suffering are over. This can best be accomplished by building up the system with Ferrozone, which produces blood, muscle, tissue, and strength to resist and ward off disease.

Ferrozone increases the appetite, strengthens and improves nerve tone, and digestive processes, thereby strengthening and invigorating the whole system. It gives tone to the heart, regulates its action, removes distressing palpitations, and it lays the sound foundation of perfect health.

Ferrozone is a sensible and efficient tonic; it brings back strength very quickly, and few people are so strong and healthy, that they would not be benefited by using it.

Be advised and try Ferrozone. It is very pleasant to take, one tablet after each meal. All reliable druggists sell it for 50c. per box, or three boxes for \$1.25. By mail from N. C. Polson & Co., Kingston, Ont. Sold by A. E. Shaw.

That fire must have occurred in St. John harbor when the water was out.

NEW USE FOR REFINED PARAFFINE WAX.

A new and important use for Refined Paraffine Wax seems to have been discovered by a prominent resident of Ohio, living near Lancaster, who had two trees badly damaged by storm, one being maple and the other an apple. In each case a large limb was broken down from the trunk, but still attached to it. The limbs were propped up and fastened securely with straps, very much as a broken leg might be fastened with splints, and then melted refined wax poured into and over all the cracks. The "surgical operation" was entirely successful. The paraffine prevented the escape of the sap, kept out the rain and moisture which would have rotted the trees, prevented the depredations of insects, and the limbs seem thus far to be perfectly re-attached to the trees.

In Guatemala the Indian population tries to double its chances for the efficacy of prayer by worshipping at a Christian altar with images of its heathen deities hidden behind it.

COMPLETELY FAGGED OUT.

The world is full of sickly, despondent, tired, overworked people, all hoping to be well some day. The surest road to health is along the way of taking Ferrozone after meals. Ferrozone is a great appetizer and enables one to eat plenty of wholesome food without fear of indigestion or dyspepsia. This results in the rapid formation of an abundance of red, vitalizing blood, which will restore the nerves, improve flesh and vigor, and nourish and feed every organ of the body. Ferrozone is an ideal restorative and invigorant. It is a tonic of unequalled merit that anyone can use with benefit. Price 50c. per box, or six boxes for \$2.50. At Druggists, or N. C. Polson & Co., Kingston, Ont. Sold by A. E. Shaw.

The difference between a cop and a stock broker is, that the latter sells the stocks and the former stocks the cells.

CRAMPS ARE LIKE BUGGLARS.

They come unexpected and when least welcome. Be armed with a one-minute cure in a bottle of Nerviline, which relieves cramp and stomach pains in five minutes. In Colic, Summer Complaint, Diarrhoea, Indigestion and Nausea, Nerviline is a remedy of remarkable potency, and acts promptly and satisfactorily at all times. The composition of Polson's Nerviline expresses the highest medical progress of the age, which accounts for its superior merit. Price 25c.

Cheer up, you fellows who dropped your good money on stocks. Don't be discouraged, for the winter's coming.

The ragged creature with the battered hat and tangled beard came stumbling on the stage from the wings, looking as if somebody had ejected him therefrom with a swift kick.

You want cold victuals, I suppose, said the stage housemaid preparing to throw some of the remains of the feast on the table at him.

No! he said hoarsely, I'm tired of chewin plaster o paris biscuit an' papiermache roast chicken six times a day fur \$9 a week, I want work ma'am—real work.

I have here a little poem, said the caller timidly, which I would like to offer for your acceptance, if you think it worthy.

The editor looked up. Is it one you have just dashed off? he asked.

The editor read it.

There was a wastebasket at his side—not a yawning wastebasket—just one of the ordinary kind, without a yawn.

But he did not toss the poem into it.

Miss, he said with emotion, this is the best thing of the kind I have ever read. It's worth \$25. Here is your money.

But she didn't faint.

The library site is still doing business at the same old different stands.

SIR OLIVER MOWAT.

Lieutenant-Governor of Ontario Passed His 82nd Birthday on July 23, 1902—A Very Popular Gentleman.

No citizen of Toronto is more widely known or respected throughout the Dominion than his Honor, the Lieutenant-Governor Sir Oliver Mowat, K.C.M.G., who was 82 years of age on Tuesday, July 22, 1902. Sir Oliver was born in Kingston on July 22, 1820, his father, John Mowat of Canisbay, Caithness-shire, Scotland, having settled in that city in 1816. At the age of seventeen, having picked up as much of an education as the best schools then afforded, he entered the law office of the late Sir John McDonald, who was a few years his senior, where he diligently studied the profession he had taken up, and in 1842 he was called to the bar, commencing his practice in the city of his birth. Before long, he realized that Toronto offered a wider field, and removed to that city, where he has since made his home. He became a prominent member of the Chancery Bar, and in 1856 was made a Queen's Counsel, and appointed commissioner for the consolidation of the statutes of Upper and Lower Canada. In 1877 he was elected to represent South Oxford in Parliament, and held the seat until 1884. He was Provincial Secretary in the Brown-Dorion Administration from August 2 to 6, 1888. In 1861 he contested Kingston, but without success. He held the portfolio of Postmaster-General in the Macdonald-Dorion Administration from May 1866, till March, 1866, and occupied the same position in the coalition Government. After the fall of that Government, he was raised to the bench as Vice-Chancellor of Upper Canada, having previously been a member of the Union Conference which met in Quebec in 1866 for the framing of the confederation scheme. In 1872, in consequence of the retirement of Messrs. Edward Blake and Alexander Macdougall from the Ontario House, owing to the provisions of the dual representation act, he was called on by the Lieutenant-Governor to form an Administration, and resigned his Vice-Chancellorship to do so. He became member for North Oxford, being elected to that constituency by acclamation, and assumed the office of Attorney-General of the Province. Afterwards he was six times returned for the constituency, thrice by acclamation, and thrice after a battle at the polls. He was Premier for 24 years, the longest continuous term of office as Premier ever accorded to any man in Canada. He resigned in 1896 to join Sir Wilfrid Laurier's Cabinet, and left it to become Lieutenant-Governor. For two years Sir Oliver was a member of the Toronto City Council, where he rendered great service, representing St. Lawrence Ward in 1857 and St. James' Ward in 1858. Sir Oliver is a member of the Presbyterian Church, and for many years was president of the Evangelical Alliance. He has always taken a deep interest in social and religious matters, and has contributed on several occasions to religious literature. In recognition of his public services Queen's University in 1892 conferred upon him the degree of LL.D., and Toronto University paid him the same honor in 1899.

An Indefinite Day's Story.

Mr. E. F. Clarke, M.P., Toronto, has been up on the Muskoka River fishing. "I had some good fishing, and intend to go up again for a few days. I hooked one big fellow. I do not want to exaggerate, and so I'll not tell you how big he was, but he was too big for myself and another man to handle. We got him alongside the boat, and then he just threw himself aside and went off with the hook and part of the line. But I'm going back, and will try him another time if he is willing."

A man of 70 has eaten in his lifetime about 58½ tons of food.

BROTHERHOOD.

That plenty but reproaches me Which leaves my brother bare, Not wholly glad my heart can be While he is bowed with care. If I go free, and sound and stout, While his poor fetters clank, Unrested still, I'll cry out, And plead with Whom I thank.

Almighty, Then who Father be Of him and me, Draw us together, him and me, That whichever falls The other's hand may fall him not—The other's strength decline No task or sorrow that his lot May claim for son of Thine.

I would be fed, I would be clad, I would be housed and dry, But if so be my heart be sad—What benefit have I? Rest he whose shoulders best endure The load that brings me rest. And best shall be his joy secure Who shares that joy with grief.

A very religious (?) young man of our town remarked to a friend that the minister, in his sermon Sunday morning, seemed to centre his remarks especially on him. "Yes," replied the friend, "you were evidently the centre of depravity."

JOSIE NOONAN.

Through the kindness of Governor Snowball, who tendered his boat, the St. Nicholas, the visiting teachers had a very enjoyable trip on the river, Friday afternoon. The Governor's thoughtfulness was very much appreciated by his guests.

Hon. S. Adams, New York, whom here last week did not forget the school children of his native place, Douglastown, for last Wednesday evening each pupil of Mr. Benn's, Miss Carney's and Miss Cameron's departments, received a well filled bag of fruit and candy, which was most highly appreciated.

We are informed, by "reliable sources" that two gentlemen of our town were driving down the coast when they espied a red bear ahead of them. One of the young men attempted to catch it, but was not speedy enough.

A large number of people gathered at the L. O. R. bridge over the Northwest Miramichi to see the old span removed and a new span floated into place and fastened. When they left the crowd looked like a lot of excursionists who had been running to catch a train and didn't connect. Owing to a miscalculation the dredging was not done as deeply as was necessary to float the span, on which it was to be removed, under the old span.

The Mechanic Institute has been thoroughly over hauled and repaired. The old slating arrangement has been removed thus enlarging the floor space by one half, making new a floor space the full size of the building, 35x40. The ceiling has been white washed, the top cornice painted a bright vermilion. The cornice has been painted a sky blue, the lower cornice finished in a deep mahogany, which heightens the effect of the upper work. The walls are painted a bright salmon color. A new tin floor has been laid and a tongue and grooved wainscoting four and one-half feet high has been placed completely around the room. A stage erected for the orchestra 6 feet wide nearly the width of the building. To the left of the entrance is a cloak room for ladies connected by a door with the main hall, and to the right, a cloak room for gentlemen. A large basement the full size of the building is at present occupied by the town as a storage room and for which the institute receive rent. The management intend installing electric lights as soon as the town system is in operation. Also a furnace for heating purposes. The institute is a credit to the town and is to be congratulated on.

J. Aiken Sec.

Newcastle Oct. 6th, 1902.

Mr. Raynor of Rose Hall, Ont., lectured at the Tarver's Institute held in the Roman Catholic hall Ronous Bridge Friday evening 3rd. His subject was the farmer's fruit and vegetable garden. The speaker gave a practical discourse on the growing and management of the different varieties of fruit and vegetables. A great deal of interest was shown and many questions were asked regarding the subject and were answered in full. Other interesting addresses were made by Mr. John Betts, President of the institute, and Rev. Fr. Murdoch. After the meeting Rev. Fr. Murdoch invited those who took part in the discussion to his house and entertained them most royally.

The attention of our readers is drawn to the announcement on another page of this paper, which affords a splendid opportunity to secure that great family paper, the Family Herald and Weekly Star, of Montreal, absolutely free of charge for the balance of 1902. The Family Herald and Weekly Star is acknowledged to be in a class entirely by itself as a family paper, and the desire to introduce it into new homes has enabled us to make this arrangement with the publishers of that great paper. We learn that the Family Herald publishers will shortly announce their new premiums for this season, and the public will get a pleasant surprise. Read the announcement in this paper.

DROWNING ACCIDENT.

A sad drowning accident occurred on last Wednesday evening, when Joseph Norton, a young man of 22 years of age, son of Thos. Norton, lost his life. Deceased in company with another young man, Wm. Mullin, was crossing the river about two miles above the Big Hole when the canoe, which was a leaky one, filled with water and sank. Mr. Mullin swam ashore thinking that deceased was following him and when he reached the bank he called to him but was horrified to receive no answer. He at once went to the nearest house and a searching party was immediately organized. The canoe was found bottom up caught on a rock in the rapids but the body was not recovered till nine o'clock next morning in about fifteen feet of water and just where the canoe sank. It is supposed that the deceased never rose after striking the water.

Funeral was held at two o'clock Sunday afternoon from the residence of Mr. Thos. Norton.

The bereaved family have the sympathy of the entire community in their sad loss.

THE OIL WELLS.

MONROV, Oct. 2.—Pumping on a systematic basis at the oil wells at St. Joseph's has at last been commenced and with most satisfactory results.

Wednesday wells known as Nos. 4, 5, and 7, were united into one system and pumped from a central power. Well No. 7 proved to be the best of the lot. It is stated that it is pumping at the rate of 27 barrels per day.

Well No. 14 was torpedoed today. It, as well as No. 13, has given good indications. Oil sands in these were struck at the same depth and on the same line as No. 7, at 375 feet depth. Thickness of the oil and strata is forty-eight feet. The company now has four drills working and two additional drills will be set in operation this week, causing the company to be sinking six wells simultaneously.

THE STRENGTH MAKERS.

After sickness or when run down from hard work, when is the need of a reliable strength maker. The three agents highly beneficial are Beef, Iron and Wine.

BEEF

Is the great common nourishment of mankind. Beef extract carries strength to all parts of the body.

IRON

Is the important element of blood and bone. It is always lacking in quantity and quality in all cases of weakness and exhaustion.

WINE

In medicinal doses is a tonic to the weary organs, reviving strength and encouraging to new efforts.

Our splendid combination of Beef, Iron and Wine is need by those who need a True strengthener.
