"Sir Wilfrid Laurier, who celebrated yesterday his seventy-third birthday, will receive the sincere felicitations of the Canadian people, in whose service he has held for so nany years an important position. As leader of the Opposition in Canada, after serving fifteen years as premier, Sir Wilfrid has shown even in advancing age, all those qualities of mind and heart which made him, from his first entry into public life, an outstanding figure. While, like other political leaders, Sir Wilfrid has in his long career won and lost confidence of many electors, he has never lost the esteem and respect of his friends. Always he has been, as he is now, an ornament to the public life of his country, and he has retained the large place he won in his political youth in the heart of the Canadian public.

'The Daily Mail, which has not always agreed with Sir Wilfrid. claims the right of courtesy and regard to express the hope that Sir Wilfrid will be spared for many years more to render service to the nation. In youth, Sir Wilfrid evidenced a desire to imitate Mr. Gladstone; in old age, he will be enabled we trust to revive the traditions of energy and intellectual capacity established by the great Liberal leader of England who was 'in harness' at eighty-four."

Six Young Men Save Girl's Life By Giving Skin From Their Arms

[Special to The Advertiser.] WALKERTON, Dec. 2.—An unusually successful operation has been performed on Amelia, four-year-old daughter of G. Tiede, of the firm of Heisz & Tiede. About a month ago as a result of playing with matches her clothes caught fire and the skin on her chest and abdomen was almost entirely burned away. The shock was so great her life was despaired of, but Dr. McCue resorted to grafting skin on the bruised parts and grafted thirty pieces on. Of these, twenty-nine have attained a healthy growth and the little one will recover. Her three brothers and three other young men allowed the doctor to take the necessary pieces of skin from their arms.

RESOLUTION OF SYMPATHY

Hamilton's To Relatives of Major Beattie Is Adopted By Standing

The city council at a special meeting vesterday afternoon authorized the insurance of 150 London soldiers of the Eighteenth Battalion, in the State Life Insurance Company, approved the board of control's recommendation that the offer of the Bank of Montreal to lend the city \$1,000,000 at 6 per cent interest, accepted; authorized the board to make immediate arrangements for seting some of the unemployed to work at cleaning out the septic tanks at the ove sewage farm, and passed a resolution of sympathy with the bereaved amily of Major Thomas Beattie. The company, he said, had absolutely refused to write up more than 150, so that, while it would be unforunate if some men were unable to secure policies, this was the best that could be done. In any case, Lieut. Col. Vigle had informed him that the numper of London men in the contingent was just about 150. He suggested that, in case any of them were left out, the city should pay to the relaives or dependents, in case of death, he sum which would have come to hem under an insurance policy. He also expressed the opinion that this hould be done in the case of any uture contingents, since these could not by any possibility be insured in the ordinary way, so far as at present
