ST. BONIFACE COLLEGE.

On Wednesday evening, the 18th inst., the students of St. coniface College furnished a highly instructive and most interesting scientific entertainment in honor of His Grace Archbishop Langevin. The hall was crowded to its utmost capacity. The Archbishop upon entering in company with a large number of the clergy was greeted with an excellent orchestral selection, under the direction of Mr. Betournay, Mr. Norbert Bellavance and Mr. Jos. Arsenault then read addresses to His Grace in French and English, after which Mr. A. At the close of this truly enjoyable lecture Master Maurice Gelley delighted the audience with a song entitled "Little Black Me" in a manner to win the well-merited applause of all.

Then followed a dissertation on zoology with stereopticon views, delivered by A. Laurendeau and N. Bellavance. The facility with which these young gentlemen treated their subject showed a good knowledge of this interesting branch of scientific study. At the fall of the curtain a violin and piano duet, Schubert's Serenade, was pleasingly rendered by Mr. John Tremblay and Rev. Father de Mangaleere.

The theory of sound illustrated by experiments was next discussed by Philippe Beaubien, whose highly the distinguished audience. After this number, Henri Manseau sang "Mon Drapeau," which was enthusiastically received.

JESUITS AS INDIAN TEACHERS.

From the Minneapolis Evening Tribune, Feb. 2, 1903.

"There are many people in this country, unfortunately, who believe that an Indian child had better die an utter unbeliever, an idolater even than to be educated by the Society of Jesus or in the Catholic Church," said Senator George G. Vest, in a speech on "Indian Schools," delivered in the United States senate.

"I am very glad to say that I have not the slightest sympathy with that sort of bigotry and fanaticism. I was raised a Protestant; I expect to die one; I was never in a Catholic church in my life, and I have not the slightest For Heaven will exercise us to the sympathy with many of its dogmas; but, above all, I have no respect for this insane fear that the Catholic Church is about to over-

A Catholic newspaper in a parish is a perpetual mission. Let all who truly and from their souls desire that religion and society defended by human intellect and literature should flourish, strive by their liberality to guard and protect the Catholic press, and let everyone in proportion to his income, support them with his money and influence, for to those who devote themselves to the Catholic press we ought by all means to bring helps of this kind, without which their industry will either have no results or uncertain and miserable ones

A Cardinal Archbishop of Canterbury.-Cardinal Stephen Langton, Catholic Archbishop of Canterbury, is claimed by England and the United States as the historic father in obtaining Magna Charta is known to every schoolboy, and the Constitution of the United States the Education Act. is its robust offspring. This great Catholic prelate has left many legacies to the world. He was ever doing good. His influence extends to the whole seafaring community at the present day. He was the first to found a society for systematically putting fixed lights on Most Holy Trinity; and Trinity House, which now rules all English lighthouses, is its direct descendant owing its origin and its name to him. He was the first to divide the Sacred Scriptures into chapters and verses. He brought the Dominican and Franciscan Friars their chief work was preaching the Gospel among the poor. The Cardinal opposed the accumulation of wealth by the clergy, and labored in Church and State to have the rights of the poor respected. He strove might and main to correct abuses which had arisen in religious houses under the evil rule of King John; and he held a Council at Osney, near Oxford, to consider ber of licenses. The Fortune of Flora.

(Continued from last week)

Young Mrs. Eversley folded this characteristic letter carefully, put it away, and then communicated the contents to her youthful partner in the adventure of matrimony. she felt an almost maternal, or at least an elder sisterly feeling toward the joyous and irresponsive youth whom she had undertaken to love, honor and obey. And Laurie, as she afterward told Miss Mitchamore, had behaved like a "perfect angel." He was knocking the top off an egg at breakfast, and his wife was eyeing this characteristically British performance with awe and admiration, when she summoned up courage to tell him that from now onward she would have to look to him and to his family for her maintenance. Fortunately, as she had told herself, a peer of the realm in England must be rich enough to support his children, a theory which showed our young lady's meagre acquaintance with European family arrangements.

There was just enough of the check left to take them back to London, and one windy and rainy night in February found a fourwheeled cab loaded with trunks and cigarette and listen.' containing the happy pair drawing Cromwell Road.

Lord Littlechampton, it appeared, in the lightness of his heart, had ilv. entangled himself in some promise to a chorus girl, and this young person, an Amazon of gigantic proportions and vivid coloring, proposed to resign her claim to his coronet only on payment of a substantial sum. At all costs, Lady Worthing announced her intention of raising the money. As for herself and the children, they might go to some cheap spot in Normandy or the Ardennes, and for Laurie, she was convinced that Mr. Cyrus P Dodge would provide.

To say that our poor hero was astounded at the astonishing turn which things had taken is to convey but a faint impression of his feelings. Here he was, the gayest, the most insouciant of created beings, at twenty-three, a married self that our cares are temporarily man, with a penniless, opulentlooking bride, and at the odious do—a kind of business which I think his work. But he was not easily depressed, nor did he ever forget his charming manners. Taking up his hat and cane, he kissed his wife's fingers and remarked carelessly.

"I think I shall go and see Aunt Charlotte. She always has ideas. She is quite a wonderful woman!" He slipped out, and, for the first time in his life-for Laurie had heretofore spent most of his time in hansoms-walked from South morning. Obituary.

LOUIS GABRIEL MONET.

On Sunday evening, March 15, Louis Gabriel Monet, aged eighteen years, a student of St. Boniface College, was called to his eternal reward after a sickness of but a few days at St. Boniface hospital. When the sad news of his approaching end was announced, every one who knew him hoped that he would still be spared. On Sunday morning he received Holy Communion, and in the afternoon the last Sacraments of the Church were administered. Rev. F. Bourret, his parish priest, who had come in from Ste. Agathe during the day, remained with him to the end in company with his grief-stricken parents and his brother Joseph. The severe pains that during his illness he had borne with an edifying spirit of atonement and true Christian resignation, were overcome in his last hours by a quiet feeling of calmness and profound spiritual joy. He expired about 8.15 while those who had gathered around the bedside scarcely perceived that the soul of their loved one had gone to meet its Maker. The news of his death was immediately telephoned to the college and prayers were offered up for the repose of his soul. The next morning at early Mass all the classmates of the deceased received Holy Communion, and at 8 o'clock a requiem High Mass was celebrated by Rev. Father Hudon, Rector of the college, at which the parents and brother of the deceased and all the students assisted. Before Mass Father Rector in a few touching and forceful words dwelt on the striking lesson, so suddenly brought home to them, of the uncertainty of life and the necessity of being always prepared to answer the final summons. Referring to the college life of the deceased he extolled the rare qualities and exemplary virtues of their not fail to arrest the attention of chance of refutation, in a clear and late genial companion. Louis Gabriel Monet entered St. Boniface College in the fall of 1899 to take up the studies of the classical course. He was always a model student in every respect. A member of the Sodality of the Immasulate Conception, he edified all by his piety and earnest faith; a cheerful and kind-hearted friend, he was always ready to lend a helping hand to those in trouble; a zealous and untiring worker, he was a constant source of emulation and noble endeavor to his classmates and him. At a meeting of the members of the Sodality of the Immaculate Conception connected with the college it was resolved to send a let-
