

Plan General Strike For Entire Province Of British Columbia

[By Special Wire to The Courier] VANCOUVER, B. C., July 16— Though the consensus of opinion at the labor convention yesterday was in favor of having a general strike to bring more clearly before the people of British Columbia, the conditions under which the coal miners are working and also if possible to bring about the end of the struggle, many local labor leaders think the step is an ill-advised one and it is within the bounds of probability that when the question is put squarely up to the members of the different trades there will be nothing like the vote in favor of it that is anticipated.

This strike, if put in effect would affect practically all the organized labor associations. There would be a few exceptions, such as the printers, but generally speaking there would be a wholesale dislocation of business through its operations. It is difficult to give with any degree of accuracy, figures of measures in various trades unions, but a rough estimate places the number at something like forty thousand workers.

Taking the population of the province at slightly under four hundred thousand, one fourth of whom are workers, and reckoning that 25 per cent. of the non-union and thirty per cent. of the union men are unemployed, this figure would appear to be a close estimate. Labor leaders cannot themselves state with accuracy to what extent their decision will apply, but say the number affected might exceed this number.

GOVERNMENT WILL CONTINUE ITS FIGHTING

The Home Rule Bill Causes a Unique Situation in Parliamentary Annals

[By Special Wire to The Courier] NEW YORK, July 15.—A cable to The Tribune from London says: The policy of the government with regard to the home rule amending bill will be settled at an important meeting of the cabinet, which has been convened for this morning. Yesterday in answer to a question published by Mr. Bonar Law, remier Asquith announced his intention of placing the bill down for discussion on Monday provisionally, but the second reading is not likely to be taken on that day.

From the parliamentary point of view it is important that the finance bill should be carried without further delay and Monday, Tuesday and Wednesday will probably be utilized for that purpose. In that event the second reading of the amending bill will be moved on Thursday of next week. What the fate of the bill will be no one can predict, the circumstances being so abnormal. It may not survive its passage through the Commons but if it should happen to do so the bill transformed by the Lords will be returned to the upper house in a very amended condition. Hopes of a settlement by consent are fading. A remarkable note was sent by (Continued on Page Two).

BLEW THEM OUT

French Aviators Were Successful Against Fierce Tribesmen.

[By Special Wire to The Courier] PARIS, July 16—How two military aeroplanes destroyed with bombs the inaccessible mountain stronghold of the Riata tribesmen in the Taza region of Morocco, is described in despatches which have just been received here. The tribesmen's retreat had been located, and General Gouraud sent out the two aeroplanes, one manned by Lieut. Feisterstein and Capt. Raymond, and the other by Lieuts. Paretti and Morletis. The attacking parties carried four bombs each. They speedily discovered the hiding place, and dropped the bombs with such precision that the camp was destroyed, many tribesmen being killed. The aviators then made maps showing the position of the fastness which enabled General Gouraud to round up the natives who had escaped death by the bombs.

MONTREAL HEAR FATAL

One Death and Dozens of Prostrations When Thermometer Records 86.

MONTREAL, July 16.—One death from the heat and dozens of cases of prostrations were recorded here yesterday, which was the hottest day in the year in Montreal, the thermometer recording 86.

The fatal case is that of Mrs. Annie Alexander, 29 Arcade Street, who collapsed in her garden and died soon afterwards. She was 81 years of age.

RAIN HAS MADE FAVORABLE CROP CONDITIONS IN BRANT

Farmers Buy Freely and Seem to Have Plenty of Cash in this County—How Things Were Found by Toronto Correspondent, Who Gives Glowing Account of the County's Agricultural Prosperity.

The following appears in the Globe today: In a county like Brant where mixed farming prevails, there is no uniform set of conditions by which the crop situation can be estimated. Each section sets its own standard. This year's crop is measured by last year's results and one is unable to determine in any accurate way whether that use is being made of the farms which will yield the maximum returns.

Farmers on all sides recognize the backwardness of the season. Spring weather conditions operated directly against a substantial early growth. One does not require to consult the agricultural experts to learn this; through the windows of the passing train, from the sides of the radial car, here and there along the highways, the fields of stunted grain tell of a retarded early development.

Generally Good Conditions But in spite of this, crop conditions in Brant county are generally good. Close to the city much of the land is given over to the growing of garden truck. These farms are looking well. There has been ample moisture so far this season, and the ultimate return to the farms should yield good profits.

Coming to the field crops, hay is not as good as last year. Last year's crop of hay in Brant county was decidedly good, so the farmers this season are reaping what they call an "average crop." But the prevailing prices are satisfactory, and one does not hear many complaints. Fall wheat is not an average crop. The severe winter had generally a harmful effect. This does not mean

that fall wheat throughout the country is poor. There are many first-class fields, but the average will not be high.

Spring wheat on the other hand, is looking well, and the outlook is much more promising. Barley and oats are late. The straw is small, but the heads are now filling out in splendid shape. Corn is also late, but will do better from now on.

Mixed Farming is Wise The root crops are looking as well as any. This is where mixed farming has its advantages. Conditions that do not suit one class of products help another and the result is not so bad.

Dairy cattle throughout the county are reported to be in a first-class condition. There are not many young cattle for sale, and what stock is raised is mostly for dairy purposes.

The buying capacity of the farmers does not appear to have been impaired by the trade depression. Local implement dealers declare that sales are good. Two of the largest firms state that their trade in Ontario New York has been running on shortened hours, but others have been able to keep their stocks moving without decreasing the output.

Not Short of Cash On the whole the farmers in Brant county are not short of cash. They are buying what they want any paying for it on the spot. Local bank managers state that the farmers are maintaining good balances with them, and there has been no occasion to strain the credit line. This is regarded as one of the most healthy signs in the whole situation.

HUERTA DOES THE EXPECTED, HIS RESIGNATION HANDED IN

Peaceful Entry Into Mexico City by Carranza and Villa Now Said to be Sure—President Joins His Family After Formally Quitting the Job.

[By Special Wire to The Courier] MEXICO CITY, July 16.—The change in government, whereby Gen. Victoriano Huerta turned over the provisional presidency to Francisco Carranza, has been calmly received by the populace. Beside the demonstration made in honor of President Carranza when he was leaving the Chamber of Deputies building after taking the oath no other outbursts of importance have occurred. There were a few shouts in the streets of "down with Huerta" and "vive Carranza," but the police promptly intervened, stopping all such demonstrations.

General Huerta, who remained in the capital some hours after his resignation, is in flight, probably on his way to Puerto Mexico to join his family and friends, who left for that port a day earlier. General Aurelio Blanquet, his war minister and strong adherent, went with Huerta when he left the city late last night as did several other of his close friends.

Before leaving General Huerta went to the national palace, where he congratulated Carranza, who replied that he would do all in his power for the country's benefit. Later President Carranza conferred with the sub-secretaries of the different departments, all the members of the Huerta cabinet having resigned. A new cabinet, it is expected, will be named during to-day.

The diplomatic corps, it is expected, will be named during to-day. The diplomatic corps has arranged to make a formal call on the new president on Friday.

A significant incident in connection with the change of government, was the announcement that a special committee had left the capital last night for Celaya to arrange with the Constitutional leaders for a peaceful entry into the capital. The committee consists of Jesus Uribe, Jose Ines Novales and Enrique Bordes Mangel, former members of the Chamber of Deputies.

General Huerta's resignation was sent to congress late yesterday afternoon and was accepted by the Senators and the deputies, after a brief debate, by a vote of 121 to 17. In the meantime, Carranza took occasion to make bitter reference to the United States Government. Following the acceptance of the resignation, Francisco Carranza was appointed provisional president and he took the oath of office at the joint session of the Senators and deputies two hours later.

A feature of the discussion in the Chamber while the resignation of Gen. Huerta was pending, was the speech made by Deputy Musquiz Blanco, who made a bitter attack on Americans and American politics. All the newspapers make extras on the day's events, El Pais which was suppressed by the government two months ago reappeared last night.

Text of Resignation The text of General Huerta's resignation follows: Deputies and senators: Public necessity admitted by the chamber of deputies, by the senate and by the supreme magistracy of the republic. Later, when in this same hall I had the honor of addressing you in compliance with the constitutional precept. I promised that all costs to bring about peace.

ARMY WORMS IN OXFORD LEAVE A TRAIL OF DAMAGE

Under Cover of Darkness, Pests Get Good Start in the Fields.

WOODSTOCK, July 16.—Despite the efforts of Oxford County farmers living on the border line between East Oxford and Burford Townships, the force of army worms, which for the last couple of days has been invading the pasture fields and hay and corn crops of farmers residing in the Township of Burford, near the village of Cathcart and Muir, successfully crossed the frontier from Brant to Oxford County under cover of darkness last night, and to-day they were marching steadily westward through the farms of East Oxford Township. A newspaper representative yesterday visited the found farmers busily engaged doing what they can put an end to the ravages of the pests. So far the worms have covered a stretch of about seven miles long and a mile wide.

The greatest damage appears to have been wrought in the pasture fields through which a small stream, which the worms are following, passes, and in these, despite recent refreshing rains practically not a blade of grass is to be found. Farmers report that cows have fallen away tremendously in their supply of milk, and it is probable that the pasture fields will be of little value again this year.

Cornfields as well have suffered as a result of the army worms, and in a number of the fields the young tender stalks have been stripped completely. In not a few cases the corn crop has been ruined.

The worms apparently prefer the green grass of the pasture or the juicy leaf of the cornstalk. Some grain fields were also paid a visit, and the work of the worms is quite in evidence.

The roads in the vicinity are covered with the worms and as the vehicles pass along hundreds are crushed to death. Black birds are also assisting the farmers in getting rid of the pests, and on the flats it is little trouble for them to find food these days.

Bernard O'Brien of Marmora was mortally wounded with his own rifle, which he was attempting to use as a club on a couple of fighting dogs.

Canadians In Cleveland

Welcomed by Former Brantford Man—Dr. Biggar at Picnic.

[By Special Wire to The Courier] CLEVELAND, O., July 16.—Two hundred members of the Canadian club of this city answered "present" yesterday afternoon at the first annual picnic of the club at Gordon Park. With their families more than 700 spent the afternoon and evening in games, running races, renewing old acquaintances and talking of the good old times across the lakes before they came to the United States.

The picnic was to have been held July 1, but on account of rain was postponed. Dinner was served shortly before 4 o'clock.

The main address was to have been delivered by Director of Law John N. Stockwell, but he was called out of the city. In his place Dr. H. W. G. Biggar (formerly of Brantford), welcomed the crowd, told of the objects of the club and of the hopes for a membership of 2,000 within a year. He pointed out that at least 30,000 Canadians reside in Cleveland and with their population declared the members should work to increase the membership to that figure. First discussion of the banquet to be given by the club in the fall came up, and members are determined to make it the largest event the club has given. At least five prominent Canadian officials have been invited to attend.

MR. HANNA BELIEVES ELECTION WILL BE VOID

If Judge MacWatt's Decision Rejecting Theford Poll Is Upheld by Appeal Court

TORONTO, July 16.—Hon. W. J. Hanna stated to-day that in his opinion the election in East Lambton would be declared void in Judge MacWatt's decision throwing the entire poll at Theford is upheld by the Court of Appeals. A total of 122 voters are disqualified by the decision, Judge MacWatt holding that the ballots should not count because the counters were not detached.

Paying \$20 For Seat At Smith-Carpentier Boxing Match Today

[By Special Wire to The Courier] LONDON, July 16.—There was a great influx of sportsmen from France and other continental countries to-day to attend the twenty-round fight between "Gunboat" Smith and George Carpentier, the French heavyweight champion down for decision to-night in the arena at Olympia. Many of the people who arrived to-day and who failed to book their seats in advance were doomed to disappointment as seats were selling at a premium. Even the poorest ones far back from the ringside were quoted at from \$15 to \$20, while those in the vicinity of the ropes were not obtainable at any price.

Carpentier to-day was still quoted favorite in the betting, although Smith's backers were ready to accept even money. Carpentier's followers, however, seemed very anxious to place their money at any odds. It was difficult to estimate the amount wagered on the event, as no central place for making bets exists in London, but it was known that practically everyone in the leading clubs and hotels had some money at stake.

MR. J. H. FISHER WIRES OTTAWA FOR EXPERTS TO FIGHT ARMY WORMS

As before related, the army worm has made its appearance in Brant county, although not yet to any general extent. The insect travels in vast multitudes from field to field, destroying grass, grain and other crops.

MR. FISHER GETS BUSY Mr. J. H. Fisher, M.P. for North Brant, wired the Minister of Agriculture at Ottawa with reference to threatened damage taking place in Burford township and the threatened danger to other townships of the county. He requested that an expert should be sent immediately. Mr. Schuyler, agricultural representative at Paris, is rendering valuable service. Mr. Fisher is on the scene this afternoon.

HOUSE OF LORDS REJECTS PLURAL VOTING BILL

Majority of Seventy Against Measure for Principle of "One Man One Vote."

LONDON, July 16.—The House of Lords yesterday rejected by 119 votes to 49 the plural voting bill which embodies the principle of "one man, one vote," and provides that a man who has more than one residence must, before an election, select which of his votes he desires to register.

Earl Beauchamp, on behalf of the Government, intimated that the defeat of the measure was purely academic, as the government intended to see that it went into operation before the next general election.

The bill already has passed twice through all its stages in the House of Commons.

WHERE IS PRETTY BLANCHE YORKE, A TAMWORTH GIRL?

Mysterious Disappearance of Young Woman Has Caused Investigation by Government Detectives—County of Addington is Stirred Up—Many Theories Advanced as to Where She is Located.

[By Special Wire to The Courier] TAMWORTH, Ont., July 16.—Government Inspector Miller has been in Addington County for the past few days, endeavoring to unravel the mystery connected with the disappearance of Blanche Yorke, a young dressmaker, of 33, who left the village on Wednesday, July 8, for the home of her father, Charles Yorke, farmer, near here, and has not since been seen.

Miss Yorke is a dressmaker and had been employed by Mrs. Welch here. On Wednesday evening last after leaving work, she departed, apparently with the intention of spending the night at her home, which is a mile and a half outside of the town.

In company with Miss Agnes Welch, she left the village on Wednesday about 8 o'clock in the evening. She did not, however, set out directly for her home, having an appointment with Mr. C. K. Robinson, whose office is just around the corner from the Welch home. Dr. Robinson had been treating Miss Yorke for some time for stomach trouble, from which she has been suffering.

Miss Welch accompanied Miss Yorke to the doctor's gate, where the two parted. After treatment by the doctor, Miss Yorke left on her way home, and was seen shortly after leaving the doctor's office by Henry

Card, who recognized and spoke to her. She was then going in an opposite direction to her home. He made a careful search but was unable to find any trace of a woman, or even footsteps.

Mr. Yorke and his family were not much exercised over the failure of the daughter to return home Wednesday night, as they concluded that she had stayed for the night with Miss Welch or with other friends in town. It was not until Saturday, when a young man called at Mrs. Welch's and found her absent, that uneasiness was occasioned.

Known as "Happy" Miss Yorke was regarded in the highest esteem by the residents of the village. Her general disposition earned for her the sobriquet of "Happy." In fact this was the usual salutation with which she was greeted by her friends. When the news of her disappearance first became known something approaching consternation reigned in the small community, but developments of the past few days have led to the conclusion that it is possible the young woman's body may be lying at the bottom of one of the numerous lakes of the neighborhood. As a result search parties have dragged the small lakes and swamps have been closely examined. The shores of Beaver Lake have all been carefully patrolled, but without result.

AFRAID SHE WAS DYING

Suffered Terribly Until She Took "Fruit-a-tives"

St. JEAN DE MATHA, JAN. 27th, 1914. "After suffering for a long time with dyspepsia, I have been cured by 'Fruit-a-tives'. I suffered so much that I would not dare eat for I was afraid of dying. Five years ago, I received samples of 'Fruit-a-tives'. I did not wish to try them for I had little confidence in them but, seeing my husband's anxiety, I decided to do so and at once I felt relief. Then I sent for three boxes and I kept improving until I was cured. While sick, I lost several pounds, but after taking 'Fruit-a-tives', I quickly regained what I had lost. Now I eat, sleep and digest well—in a word, I am completely cured, thanks to 'Fruit-a-tives'."

GRANDMA NEVER LET HER HAIR GET GRAY

Kept her locks youthful, dark, glossy and thick with common garden Sage and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and trouble some. For 50 cents you can buy at any drug store the ready-to-use tonic called "Wyeth's Sage and Sulphur Remedy." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant. You will also discover dandruff is gone and hair has stopped falling.
Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur and look years younger. Agent T. George Bowles.

Crompton Employees First Annual Picnic

A Merry Gathering Yesterday at the Old Malloy Farm—Seventy-five Care-Free Folks Enjoyed Outing.

Employees of the E. B. Crompton Co. to the number of 75 held a very enjoyable outing and picnic to the Old Malloy Farm, just off the radial line a few miles above Paris. It was the first annual picnic of the firm and was such a success and so happy a time was spent by everyone who attended that the outing will certainly become an annual affair. The party left on a special car on the Grand Valley at 2:30, the sides of the car decorated with streamers bearing the firm's title. It was a whole-hearted happy crowd of young people that left on the car and all the way to the old picturesque farm, peals of laughter and strains of song floated out from the car.

On arriving at the picnic grounds some sporting events were run off while those who were not so interested roamed aimlessly about in the woods and discovered several beautiful springs of ice cold water. The fun though really commenced at the supper, as it always does at all picnics. "Captain" Bert Vollick in one of His Majesty's Royal navy uniforms was the centre of all attraction for the girls. The girls with an eye to the size of Bert's inner man, loaded his plate with several quarts of ice cream. Not content with this amount the captain afterwards discovered three large watermelons which had been placed in the picnic basket and proceeded to demolish these. After supper the rest of the races were run off, many of the fair sex taking part. It was noted that flashes of green hosiery predominated in many of the races. A pretty effect was added to

the natural charm of the scene by the hanging up through the woods of about two dozen Chinese lanterns. The strains of a Victrola in the woods was also a pleasant feature of the evening hours.
Some of the party left for home early in the evening but the majority remained until ten o'clock. On returning to the city a hearty vote of thanks was voted the firm on motion of Miss Rhena Lake and Bert Vollick. The committee in charge of the affair was: Miss Rhena Lake and Mr. Vollick, social; Frank Convery, sport. The following was the result of the races and list of sports:
Baseball (three innings each) between ladies and gentlemen.
Football, ladies and gentlemen.
Ladies' and gentlemen's needle and thread race (open), 50 yards: Miss A. Constable; 1st, R. Curtis.
Egg and spoon race: 1, Miss O'Connell; 2, Miss Deverell.

GOVERNMENT WILL CONTINUE FIGHT HUERTO DOES THE EXPECTED

Percy Hingworth, chief Liberal whip to all Liberal members yesterday marked "strictly private and confidential." It says:
"It is perhaps unnecessary to remind you that during the few remaining weeks between now and the end of the session, the fate of the bills under the parliament are at stake. The exact date for the ending of the session depends upon that of the conclusion of the discussion on the home rule amendment bill. Any diminution of the government's majority in any forthcoming division will merely encourage opposition to the government's supporters are indifferent to the fate of the parliament act bills.
"The constituencies demand that no Liberal member should do anything by speech or action at this supreme moment which would in any way weaken the power of the prime minister to deal with the present difficult and complicated situation. The time has arrived for a sustained effort and with everything at stake for which I am relying on your constant attention and support for the remainder of the session."
OPTIONAL AGREEMENTS MUST BE EXERCISED ON OR BEFORE AUGUST 15.

tion of General Huerta, but it is likely enough he will be met now by other obstacles just as hard to surmount as was General Huerta's obstinacy." The Globe takes much the same view, saying:
"The elimination of General Huerta is a triumph of sorts for President Wilson, but it may be assumed that his difficulties and anxieties are by no means over. There is no reason to suppose that the real opinions of the Mexican people will have more opportunity to assert themselves under General Huerta. The United States, however, has been warned by experiences not to inquire too closely nor to expect too much."

SECRETARY QUIT JOB LAST NIGHT

Mr. Uniacke Would Not Accept Criticism Over Trifling Matters

The executive of the Brantford and Paris Football League met in solemn conclave last night, earlier than usual when there was important business to transact.

This business dealt with the affairs of the secretary, Cyril Uniacke, and the matter was threshed out and the resignation of that official was handed in after a discussion.

For some time dissatisfaction has been expressed among league representatives and referees, and matters came to a head three weeks ago when Referee Crouch complained that he had not been notified to attend a meeting at which it was imperative that he should be present. George Crouch and Secretary Uniacke differed with regard to the notification, and neither man minced words. Past President Speckley also had something to say about this time and he had a complaint to make. A full meeting went deeply into the whole issue last night before the secretary with the aforesaid result. In a short retiring speech, Uniacke said that he had maintained the office to the best of his ability and to the interest of the league. The complaints laid against him were unfounded, but under the circumstances he felt that it was only right that he should relinquish his post. He therefore handed in his resignation. It was accepted.

A. Speckley, a representative of the Holmedale Tigers club, was then by a unanimous vote, appointed to fill the vacant position, and he at once took over the reins of office for the remainder of the season. Although now officially appointed as secretary to the league he will continue to represent his club.

All referees of the league are asked to meet the executive at 8 o'clock next Wednesday night, when a friendly discussion upon their status will take place and various views expressed for the better unity of the parties league and referee.

The game of football to be promoted during old home week will be between teams composed of Englishmen on one side and a mixed team on the other composed of Irish, Scots, Canadians and Welshmen. A committee has been appointed and will report upon the teams to be selected next week.

Cockshutt and Holmedale asked for a postponement of their match due to be played on Saturday, July 18th, but it was not deemed wise to sanction this arrangement and the match will have to be played as scheduled.

There were no protests to be dealt with and the meeting was therefore not of a lengthy order.

The referees appointed for Saturday games are as follows: Wanderers vs. Duffs, Groatley. Scots vs. Tutea, F. Mears. Holmedale vs. Cockshutt, George Crouch. Paris vs. S. O. E., Farnsworth. Paris and the Sons meet at Paris on Saturday to play off their tie in the first round of the Courier Cup. All league officials, secretaries and referees are asked to send their names and addresses to the new secretary at 11 Spring street, in order that he may tabulate a complete list.

CANADA WILL NOT CARRY THE MAIL AT A LOSS TO HER

British Periodicals Must Pay More and Dominion Get a Share.

OTTAWA, July 16—The penny-a-pound postage rate upon British periodicals expires at the end of the present month and there are no advices at the post office department as to its probable renewal.

The subject has been negotiated without result so far and whether the rate in force since 1907 will be continued or the old rate of eight cents a pound reverted to, remains to be determined.

One-Sided Bargain.

The Canadian Post office department, while desirous of facilitating the circulation of British mail periodicals feels that it is getting decidedly the short end of the bargain, inasmuch as all of the two-cent or penny-rate now goes to the British post office for carrying such matter to Liverpool, Canada takes the bags there, brings them across the Atlantic and delivers the contents anywhere without getting any remuneration whatever.

Business Increases.

The weight increased from 2,328,000 pounds in 1913 to 5,785,000 in 1912, and the rate enabled the British publications to compete with Americans, who pay four cents per pound coming into Canada.

The Post Office department here suggested an equal division of the penny rate, but so far without avail. It is just possible that the eight-cent rate may be reverted to, but more likely that a new arrangement will be effected, slightly increasing the rate and giving Canada a portion of it.

LONDON ADOPTS AMERICAN WAYS

Notably In Baggage Transport and In Matter of Ice Consumption

LONDON July 16—This season's American invasion of Britain's metropolitan area has led to two innovations that cannot but be pleasing to transatlantic visitors here. One encounters the first of these on one's arrival at Euston Station, where in place of the antiquated and cumbersome system of having baggage wheeled about in hand barrows by porters motor trucks of the type found at all big American terminals have been installed. The truck, which is known as a "lorry" in England, can travel at about four miles an hour. To it are attached as many ordinary trucks as are necessary to transport trunks and handbags from the train to the luggage room in the station.

The other novelty of American origin is the use of ice, which hitherto has been comparatively unknown in London, even in the warmest weather, except in the big hotels and restaurants and in the private houses occupied by Americans. Even by the conservative West End clubs have been ordering a ton of from fifteen to twenty tons daily. One of London's biggest ice dealer states that the growing fondness for ice is not due to the adoption of "the American habit of consuming vast quantities of ice water," but simply to the knowledge on the part of housekeepers that a small quantity of ice in a refrigerator will keep milk and meats from souring and freshen up certain vegetables to a marked extent.

IN TWENTY YEARS 18,474 LIVES ARE LOST ON THE SEAS

Total Number of Vessels Lost is 4,700, Totalling 3,000,000 Tons.

LONDON, July 16—The merchant shipping bill, which is the British part of an international movement to standardize ship construction and management with a view to lessening the perils of the sea, has passed its second reading in Parliament. Fourteen amendments agreed on the needed reforms in conference here last winter, those to be carried out during the present year. There is no opposition in either house to the bill, although some question was raised as to the wireless conditions by ship-owners, who said they should receive assurance of fair reamont from the wireless companies before equipping the smaller vessels.

John Burns in moving the second reading, said that within the past twenty years 4,700 vessels, totalling 3,000,000 tons, have been lost at sea with the drowning of 18,474 passengers and crew.

RAIN MARS FLAG DAY.

PHILADELPHIA, July 16—While thunder endeavored to drown out the music of the bands, the world championship flag, which the Philadelphia Americans won last fall, was raised at Shibe park, yesterday afternoon. Through miniature lakes and ankle deep mud the visiting St. Louis Americans and the champion Athletics paraded the field and during a rain the almost continuous thunder showers which fell all day, the pennant was hoisted to the top of the pole.

Mr. G. Frank Beer, President of the Toronto Housing Co., returned from a trip to Europe and said that Toronto was abreast of the times in housing matters.

SEVENTY THREE YEARS OF POLITICAL LIFE

The Earl of Wemyss who passed away recently in the Old Land at the advanced age of ninety-five, was a most interesting and picturesque figure.

His long career was distinguished by rare independence of mind and speech and action, and as Lord Rosebery has said, he achieved a greatness if not a supremacy, remarkable in the history of any single man.

A splendid upright figure of a man, straight as one of his own Scotch firs, with the frank gaze and clear eyes of his ancestry and a magnificent directness of criticism ever tempered with a rare sweetness of nature.

Lord Wemyss was one of the veteran stalwarts of the British race. By his countrymen he will always be remembered as Lord Elcho, one of the founders of the Volunteer Force, as a fearless critic of public affairs, and as a man who had discovered the secret of perpetual youth.

Born in 1818 of the ancient Scottish line of Wemyss-Charteris-Douglas—three years after Waterloo, when George III. was on the throne—he lived under no fewer than six monarchs.

He helped Sir Robert Peel to reform the Corn Laws. The story is told of him when an undergraduate of Christ Church, Oxford that he sought release from certain lectures on the plea of rheumatism.

His name having appeared among the guests at a ball in London, Dean Gaisford remarked: "I never knew until now that dancing was a cure for rheumatism."

"Oh, yes, it is," replied the future Earl of Wemyss, "if you only take it in time." His long and crowded life, was sprinkled with all kinds of amusing incidents illustrative of his keen, uncompromising nature.

In the heat of a speech he was once making in the House of Lords he brought his fist down solidly on the head of the Prince of Wales (afterwards King Edward), who was sitting in front of him.

He was the only Peer, it is said, who ever appeared in a kilt in the House of Lords. Now that death has closed his eyes, clear and undimmed to the last, one may safely say that he lived strenuously every one of his ninety-five years.

not seem to be one whit the better. The main trouble there, in addition to the natural disposition of the people for fighting, is that the land is in the hands of a few, and that the peons are in a condition little short of serfdom.

The country itself comprises one of the richest and most varied zones in the world. While its geographical position ensures for it a tropical vegetation, the rapid difference of elevation affords the advantage of temperate climates.

NOTES AND COMMENTS.

No, Maude, General Villa is not a native of Villanova.

Adam had to get his living by the sweat of his brow. These days we're doing it with all of us.

An exchange speaks of a well-known U. S. navy man as "Fear Admiral Badger." Does that mean that he is to be feared or that he has fear within him?

They found a decomposed egg on the person of one of the suffragettes who attempted to horsewhip Hon. Mr. Wood. Small wonder, considering its environment.

Most people, who do not look into the matter, seem to think that members of the Dominion House have a pretty soft thing when they get \$2,400 for each session. To them it will come as a surprise that Mr. A. E. Laneaster, member for Lincoln for 14 years, has resigned because he finds holding the position to be too big a drain on his purse.

Proctor & Gamble, multi-millionaire soap and perfume manufacturers of Cincinnati, have decided to erect a \$250,000 plant in Hamilton. In referring to the matter Mr. French Treasurer said:

"Our concern moves to Canada as the result of the policy of the Canadians in protecting their trade. This protective policy has forced us to give Canada equal representation in the manufacturing end of our business."

TIRED

At last, I'm weary of swatting, the efforts seem useless and stale; for weeks I've been painfully trotting around after flies, on their trail; I've doped them with acid carbolic, I've slugged them and caught them with trap; and still on my forehead they frolic, when I lay me down for a nap. I hate the pestiferous friskers, which tickle my scalp with their toes; they're picknicking now on my nose. They give me all kinds of diseases, by carrying germs to and fro; I pause here for seventeen sneezes—I've got the pneumonia, I know. I'm strong for those swatting, you guys, if you would improve the conditions, and drive from our country the flies!"

WORLD'S GREATEST SHORT STORIES

No. III.

A Municipal Report

PART I.

EAST is east and west is San Francisco, according to Californians. Californians are a race of people, they are not merely inhabitants of a state. They are the southerners of the west. Now, Chicagoans are no less loyal to their city, but when you ask them why they stammer and speak of lake fish and the new Odd Fellows building, but Californians go into detail.

Nashville—A city, port of delivery and the capital of the state of Tennessee, is on the Cumberland river and on the N. C. and St. L. and the L. and N. railroads. This city is regarded as the most important educational center in the south.

Take of London fog, thirty parts; malaria, ten parts; gas leaks, twenty parts; dewdrops gathered in a brick yard at sunrise, twenty-five parts; odor of honeysuckle, fifteen parts. Mix.

The mixture will give you an approximate conception of a Nashville drizzle. It is not so fragrant as a mothball nor as thick as pea soup, but 'tis enough—'twill serve.

I went to a hotel in a tumbrel. It required strong self suppression for me to keep from climbing to the top of it and giving an imitation of Sidney Carton. The vehicle was drawn by beasts of a bygone era and driven by something dark and emancipated.

The hotel was one of the kind described as "renovated." That means \$20,000 worth of new marble pillars, tiling, electric lights and brass cuspidors in the lobby, and a new L. and N. timetable and a lithograph of Lookout mountain in each one of the great rooms above. The management was without reproach, the attention full of exquisite southern courtesy, the service as slow as the progress of a small ice as good humored as Rip Van Winkle. The food was worth traveling a thousand miles for. There is no other hotel in the world where you can get such chicken livers en brochette.

At dinner I asked a negro waiter if there was anything doing in town. He pondered gravely for a minute and then replied, "Well, boss, I don't really reckon there's anything at all doin' after sundown."

Sundown had been accomplished. It had been drowned in the drizzle long before. So that spectacle was denied me. But I went forth upon the streets in the drizzle to see what might be there.

It is built on undulating grounds, and the streets are lighted by electricity at a cost of \$23,400.

I walked through long streets, all leading uphill. I wondered how those streets ever came down again. Perhaps they didn't until they were "graded." On a few of the "main streets" I saw lights in stores here and there; saw street cars go by conveying worthy burghers lither and yon; saw people pass engaged in the art of conversation and heard a burst of semireligious laughter issuing from a soda water and ice cream parlor. There was indeed "doing." I wished I had come before sundown. So I returned to my hotel.

In November, 1864, the Confederate General Hood advanced against Nashville, which he shut up a national force under General Thomas. The latter then sallied forth and defeated the Confederates in a terrible conflict.

All my life I had heard of, admired and witnessed the fine marksmanship of the south in its peaceful conflicts in the tobacco chewing regions. But in my hotel a surprise awaited me. There were twelve bright, new, imposing, capacious brass cuspidors in the great lobby, tall enough to be called urns and so wide mouthed that the crack pitches of a lady battalion in armor could have been shot up a national force under General Thomas.

Here I first saw Major (by misplaced courtesy) Wentworth Caswell. I knew him for a type the moment my eyes suffered from the sight of him. A rat has no geographical habitat. My old friend A. Tennyson said, as he so well said almost everything:

Prophet, curse me the blabbing lip, the rat. And curse me the British vermin, the rat. Let us regard the word "British" as interchangeable ad lib. A rat is a rat. This man was hunting about the hotel lobby like a starved dog that had forgotten where he had buried a bone. He had a face of great acreage, red, puppy and with a kind of sleepy mas-

siveness like that of Buddha. He possessed one single virtue—he was very smoothly shaven. The mark of the beast is not indelible upon a man until he goes about with a stubble. I think that if he had not used his razor that day I would have repulsed his advances, and the criminal calendar of the world would have been spared the addition of one murder.

I happened to be standing within five feet of a cuspidor when Major Caswell opened the upper lip. I had been observing enough to perceive that the attacking force was using Gatlings instead of squirrel rifles, so I sidestepped so promptly that the major seized the opportunity to apologize to a noncombatant. He had the blabbing lip. In four minutes he had become my friend and had dragged me to the bar.

I desire to interpolate here that I am a southerner. But I am not one by profession or trade. I eschew the string tie, the slouch hat, the Prince Albert, the number of bales of cotton destroyed by Sherman and plug chewing. When the orchestra plays "Dixie" I do not cheer.

Major Caswell banged the bar with his fist and the first gun at Fort Sumter re-echoed. When he fired the last one at Appomattox I began to hope. But then he began on family trees and demonstrated that Adam was only a third cousin of a collateral branch of the Caswell family. Genealogy disposed of me to my distaste his private family matters. He spoke of his wife, traced her descent back to Eve and professedly denied any possible rumor that she may have had relations in the land of Nod.

By this time I began to suspect that he was trying to obscure by noise the fact that he had ordered the drinks on the chance that I would be bewildered into paying for them. But when they were down he crashed a silver dollar upon the bar. Then, of course, another serving was obligatory. And when I had paid for that I took leave of him brusquely, for I wanted no more of him. But before I had obtained my release he had prated loudly of an income that his wife received and showed a handful of silver money.

When I got my key at the desk the clerk said to me courteously: "If that man Caswell has annoyed you and if you would like to make a complaint we will have him ejected. He is a nuisance, a loafer and without any known means of support, although he seems to have money most of the time. But we don't seem to be able to hit upon any means of throwing him out legally."

"Why, no," said I, after some reflection. "I don't see my way clear to making a complaint. But I would like to place myself on record as asserting that I do not care for his company. Your town," I continued, "seems to be a quiet one. What manner of entertainment, adventure, or excitement have you to offer to the stranger within your gates?"

"Well, sir," said the clerk, "there will be a show here next Thursday. It is—I'll look it up and have the announcement sent up to your room with the ice water. Good night!"

After I went up to my room I looked out of the window. It was only about 10 o'clock, but I looked upon a silent town. The drizzle continued, spangled with dim lights, as far apart as currauts in a cake sold at the Ladies' exchange.

Nashville occupies a foremost place among the manufacturing centers of the country. It is the fifth boot and shoe market in the United States, the largest candy and cracker manufacturing city in the south and does an enormous wholesale dry goods, grocery and drug business.

I must tell you how I came to be in Nashville, and I assure you the digression brings as much tedium to me as it does to you. I was traveling elsewhere on my own business, but I had a commission from a western literary magazine to stop over there and establish a personal connection between the publication and one of its contributors, Azalea Adair.

Adair (there was no clew to the personality except the handwriting) had sent in some essays (lost art) and poems that had made the editors swear approvingly over their 1 o'clock lunch. So they had commissioned me to round up said Adair and get a corner by contract his or her output at 2 cents a word before some other publisher offered her 10 or 20.

At 9 o'clock the next morning, after my chicken livers en brochette (try them if you can find that hotel), I strayed out into the drizzle, which was still on for an unlimited run. At the first corner I came upon Uncle Caswell. He was a stalwart negro, older than the grays, with gray wool and a face that reminded me of Brutus and a second afterward of the late King Cetewayo. He wore the most remarkable coat that I ever had seen or expected to see. It reached to his ankles and had once been a Confederate gray in colors. But rain and sun and age had so variegated it that Joseph's coat beside it would have faded to a pale monochrome.

Once it must have been the military coat of an officer. The cape of it had vanished, but all adown its front it had been frogged and tasseled magnificently. But now the frogs and tassels were gone. In their stead had been patiently stitched (I surmised by some surviving "black mammy") new frogs made of cunningly twisted common hemp twine. This twine was frayed and disheveled. It must have been added to the coat as a substitute for vanished splendors, with tasteless but painstaking devotion, for it followed faithfully the curves of the long missing frogs. And to complete the comedy and pathos of the garment all its buttons were gone save one. The second button from the top alone remained. The coat was fastened by other twine strings tied through the buttonholes and other holes rudely pierced in the opposite side. There was never such a weird garment so fantastically bedecked and of so many motley hues. The

lone button was the size of a half dollar, made of yellow horn and sewed on with coarse twine.

This negro stood by a carriage so old that Ham himself might have started a hack line with it after he left the ark with the two animals hitched to it. As I approached he threw open the door, drew out at feather duster, waved it without using it and said in deep, rumbling tones:

"Step right in, sub; ain't a speck of dust in it—jus' got back from a funeral, sub."

"I want to go to 861 Jessamine street," I said and was about to step into the hack. But for an instant the old negro barred me. On his massive and saturnine face a look of sudden suspicion and enmity flashed for a moment. Then, with quickly returning conviction, he asked blabberingly:

"What are you gwine there for, boss?" "What is that to you?" I asked, a little sharply.

"Nothin', sub, jus' nothin'. Only it's a lonesome kind of part of town, and few folks ever has business out there. Step right in. The seats is clean—jes' got back from a funeral, sub."

A mile and a half it must have been to our journey's end. I could hear nothing but the fearful rattle of the ancient hack over the uneven brick paving; I could smell nothing but the drizzle, now further flavored with coal smoke and something like a mixture of tar and oleander blossoms. All I could see through the streaming wind-downs were two rows of dim houses.

The city has an area of ten square miles, 181 miles of streets, of which 137 miles are paved; a system of waterworks that cost \$2,000,000, with seventy-seven miles of mains.

Eight-sixty-one Jessamine street was a decayed mansion. Thirty yards back from the street it stood, overgrown in a splendid grove of trees and untrimmed shrubbery. A row of box bushes overflowed and almost hid the paling fence from sight; the gate was kept closed by a rope nose that encircled the gate post and the first paling of the gate. But when you got inside you saw that 861 was a shell, a shadow, a ghost of former grandeur and excellence. But in the story I have not yet got inside.

Best Baby at the Falls Yesterday Was From Brantford.

With only one mishap during the whole day's pleasure the local members of the Grocers' and Butchers' picnic held to Niagara Falls yesterday returned to the city last night at 9:50 after a record run on the T. H. and B., having left Niagara Falls at 7:30.

The only delay en route was on the way to the falls when as the big train was nearing Fenwick, beyond Welland, the injector on the engine became clogged, necessitating a change of engines. The same engine however, that broke down brought the party back at night, so there was nothing serious about the incident. The party number about 750 and had a great day at the falls.

The sporting events were better than ever and Brantford came off victorious in the greatest of all, the baby show, Muriel, daughter of Mr. and Mrs. H. Burns and grand daughter of Mr. James Burns, grocer, corner of Dalhousie and King Sts., winning the first prize Mr. F. S. Blain was the official starter at the races, and he had an awfully busy day keeping the contestants in hand. However, everything came off most successfully, and all agreed that while the excursion from here was not so large as last year, the picnic itself was certainly the most enjoyable yet held.

With the City Police

A neighborly quarrel in which both parties accused the other of being the cause of the trouble came before Magistrate Livingston at the Police Court this morning when John Day charged George Dean with disorderly conduct. It appears that both men had got drunk occasionally and when this happened the imbibers always wanted to fight the other. Another one of those little episodes occurred on Tuesday at the home of Dean, who lives next door to Day on George Ave. in the county. He wanted to fight and blows were struck between the two and they terminated it in police court proceedings. Witnesses, of each, there were many, swore for the side they represented and Magistrate Livingston decided that it was a case of six of one and half a dozen of the other, so he dismissed the case with the usual advice, about burying the past and cutting out the liquor traffic.

Vera Wilson settled up for damaging the garden and breaking the window of Lottie Mickleboro's property. The costs amounted to \$4 and the case was dropped.

W. Moffatt keeps a dog which R. W. Brooks says is vicious and in substantiation of his statement he laid a charge against Moffatt who was ordered to pay two dollars and the costs. For damaging the door of a foreigner named Tony Wall, on Pearl street, F. Gracey was ordered to pay the costs which amounted to \$2.

Once again Ben Turner appeared before the bench upon a charge of being drunk. He has repeatedly promised to beat it out of the city, and as often has been found upon the boulevards of beautiful Brantford.

This time the bench will find him a ticket to see him out of the station en route for Toronto.

The purse snatcher, Pavel Gryneck again answered a disorderly charge this morning and his wife refused to press the case. She wanted him home and he was fined three dollars. The couple live with her parents who resent Gryneck because he has been laid off work. This is the seat of all the matrimonial trouble.

CHARGED WITH ASSAULT UPON HIS EMPLOYER
WOODSTOCK, July 16—Harold Kemp, a 19-year-old youth, was charged in the police court with assault upon his employer, Bruce Malcolm, of West Zorra. Kemp it appears was scolded by Malcolm for using a gad on a team of horses and a quarrel ensued.

Malcolm pulled the boy off a load of gravel, evidently intending to chastise him, but the boy, after he had received quite a drubbing, got even by hitting his employer with a stone. Magistrate Ball reserved judgment until an inspector from Victoria Industrial School, of which the boy is a ward, arrives.

Baker, Though Wild, Beats Red Sox In First Attempt

Brantford Loses to London When Taylor Weakens—Win One Out of Twelve From Kockneys

LONDON, July 16.—London defeated Brantford yesterday afternoon in the final clash among themselves this season by the score of 5 to 4, despite the fact that "Wild Bill" Baker gave himself a big handicap by proving he has been nicked by the right surname. On the year's four series of games Brantford has won but one game out of the 12, and could not escape with yesterday's contest, although men occupied the bases in every inning of the long battle.

"Twas a peculiar conflict, since Baker, the local boy, was given a chance to perform for his home team, and the manner in which the team played behind him proved they had much patience, since he walked eight batters and hit three more. The crowd was large, having gathered to see their local product in action, and they were convinced he must gain more control in order to win more games in the Canadian League. It was his first start in a month. Although he has been working continually he apparently needs plenty to get going right.

Taylor, on the other hand, dished up mostly lobs on the in and the outside corners of the plate, and was touched up for sufficient hits and runs to overcome the cheap tallies Brantford secured.

Baker Retired in Eighth
The first three runs grabbed by the

of the fifth. Mullin started with a single and went to second on Linneborn's bunt. Dunn drew a base on balls. Bierbauer singled and Baker scored the tying run. In the sixth London jumped into the lead and stayed there when Mullin singled with one out, and went to third while Baker was at bat on wild pitches. Baker struck out; Linneborn walked and Dunn drove in both runners on a line drive to right, as Linneborn had stole second on the previous pitched ball. The score:

Wild Bill Stars at Bat
Baker's wildness overshadowed his pitching when he did get them over, as the visitors only touched him for seven hits in the seven and one-third innings, but aside of his defensive work in the box, he was one of the two stars at bat for London, when he and Mullin grabbed half of the team's hits and four of the runs. Baker's two bagger in the third was the first hit secured off Taylor, it coming so unexpected that the enthusiasm ran high.

With two out Dunn singled and scored Baker from third, and the three run handicap started to dwindle as the locals tied it up in their half

Take a look at the American League race this afternoon. There are only fifty-nine points between the first six teams.

Pinch hitters, attention! Alva Williams of the Washington up to July 6 had served in that capacity 16 times this season. He made seven hits, walked three times, and sacrificed once. That gave him a pinch hitting average of .580.

LACROSSE GAME HERE ON SATURDAY

Local Team has Been Hard at Work Getting Into Shape for St. Mary's Team.

The lacrosse team have been getting in a lot of good practice lately and are confident of victory over St. Mary's in their game against them behind the dyke next Saturday afternoon. A number of new men will be found on the line-up, including the well known Bumberly brothers from the Reserve. Slattery has been trying out a couple of other Indians who formerly played with the Reserve team, and dit they make good they also will be seen in Saturday's game. No effort is being spared to put the local team in first class shape, and a game is being arranged with a team from Ohsweken to play a practice match here after six o'clock on Thursday evening. The next two games the Brants play are at home, next Saturday against St. Mary's and the following Saturday against London. Slattery has received word from Toronto that the St. Mary's game which was protested, is to be replayed next Wednesday, but the locals know what it is to play three games in one week, and are determined to have Wednesday's game postponed to a later date. Slattery feels he got a very unfair deal on the St. Mary's protest, as he was never advised of the date when it was to be considered, and consequently had no representative present to present the Brants' side of the case.

The referee for Saturday's game has not as yet been chosen, but in all probability it will be Kinder of Preston.

STRATFORD TAKES LEAD IN THE WOBBLY LEAGUE

Defeat of Woodstock Puts the Classic City at the Top of Heap.

STRATFORD, July 16.—Woodstock lost the Wobbly fixture last night and went into second place. The score was 7 to 4. Woodstock's error in the first coupled with two hits and a dead ball cost the visitors four tallies. Sharp weakened in the fourth but otherwise was invincible. He assisted his twirling with effective fielding. The argument was ended by the umpire in the seventh because of darkness. The score:

Stratford..... 4002100—7 8 3
Woodstock..... 1003000—4 6 5

Kopp Scores Winning Run For Saints In Fifteenth

Ottawa Loses When Shetler Holds Them—Hamilton Loses Three In a Row to Beavers.

ST. THOMAS, July 16.—Wilkinson and Brown battled for 15 innings here yesterday before St. Thomas put across the winning run, 3 to 2, being the final count. Both teams scored two runs in the first and then went scoreless until the 15th, when Kopp pulled a swinging bunt. Inker singled to right and Hadley singled to left, knocking in the winning run.

Brown did not allow as many hits as Wilkinson. The local pitcher was aided by three fast double plays and sensational fielding by Gillespie and Hadley. Colligan, in left for Erie, also starred. Dave Inker and Gygli starred at bat with four hits each. Umpire McPartin was away off on several occasions and nearly caused a riot several times.

The second game was called at 5 o'clock to allow the teams to catch

Underwriters Figure Chances Are 3 to 1 Against Lipton's Challenger, Shamrock IV

GOSPORT, Eng., July 16.—Everything is ready for the departure on July 18 for United States of Shamrock IV, Sir Thomas Lipton's challenger for the America's Cup. Her compasses have been adjusted, her ketch rig fitted and the steam yacht belonging to Sir Thomas is waiting to convey her across the Atlantic.

"Shamrock IV, has done all that has been asked of her," is the final word of Charles E. Nicholson, the designer. He adds that the trial boat was in no way satisfactory as the type of opponent was unfavorable to yachtsmen.

Underwriters are not so optimistic as Mr. Nicholson concerning Shamrock IV's chances. Their estimate yesterday was roughly 3 to 1 against the challenger. In other words they are issuing policies at a premium of 35 per cent. to pay the total loss if

Shamrock IV, should prove successful. A similar risk in connection with an aeroplane flight across the Atlantic during the present year is being covered by eight per cent.

The crew of the Shamrock IV, numbering 30 men, is to be divided during the voyage-across, half of the sailors luxuriating on board the Erin as far as the Azores, and then relieving their shipmates for the rest of the journey.

Timely intervention of his butler saved the Secretary of State for Scotland a sound thrashing by a militant.

IS AIMING AT BEER EVENINGS

Kaiser Has Non-Alcoholic Drinks Sold to Men at Reduced Prices. BERLIN, July 16.—Gen. Von Deimling, commander of the fifteenth army corps, has recently ordered that non-alcoholic drinks be sold at the canteens for the same or lower prices than alcoholic drinks, has issued a new temperance order. He refers to the habit of holding "beer evenings" following certain corps events, the cost of which is

paid from the canteen surplus, and says: "I am of the opinion that the soldiers would enjoy it more if the available funds were used for an excursion, for instance, to the battlefield of Worth. The officers could give commonly understood speeches, and milk, coffee or other non-alcoholic drinks could be served. Whoever feels that he could not exist without alcohol could pay for it out of his own pocket. "The soldiers would be more grateful to their superior officers for such excursions than for beer evenings. The recollections of those would persist pleasantly, where as the recollections of beer evenings end with the passing of the katzenjammer due to them." General Von Deimling says he believes that his order will serve to banish the practice, rooted in the anti-

quated and false belief that one can only be happy when he has wine or beer to drink. Movies Now Army Target. The moving picture has been turned to account by the army. It is likely that a portion of the soldier's rifle range work will be done hereafter with moving figures for targets. A test of the new contrivance at the Doeritz range gave good results. The Emperor, who witnessed the test and fired several shots, was pleased with the innovation. Long rolls of paper replaced the usual film and on them appeared marching soldiers, cavalrymen, artillery in full gallop, cycle troops and other moving objects. The instant a bullet struck the paper the spot of impact was brilliantly lighted, and the movement of the contrivance was arrested nearly a second, giving an opportunity to see the full effect of the shot. It is believed the invention will prove valuable in training the soldiers to aim and fire rapidly and with better effect. Kaiser's Heir Plans Trip. The Kaiser's consent has been obtained by the Crown Prince for an extended trip through Germany's colonies next summer. The Crown Prince had planned to make the trip this year, and the question of asking the Reichstag to appropriate \$45,000 for the expenses had been broached when it was announced that the Kaiser had decided to resign permission for the journey. Several reasons were given for the decision, among them being that the ruler's feeling that insufficient measures had been taken to insure the Prince's safety. These objections, it is reported, have been removed.

MEAT WAS UNFIT FOR HUMAN CONSUMPTION

TILBURY, July 16-Hickey, live
stock buyer, was fined \$50 and costs
\$91 in all, in county police court at
Chatham yesterday afternoon on a
charge of selling meat unfit for hum-
an consumption. The trial was held
before Magistrate Callwood, of Til-
bury.
The hog in question was killed on
the roadside, near here, after it had
fallen out of a rig and stunned. It
was dressed by a farmer and left hang-
ing in a shed for two days. Hickey
then disposed of it to a butcher, who
in turn sold it to a farmer. The far-
mer could not eat the meat and, com-
plaining to the butcher, an investiga-
tion was made.

PUBLIC NOTICE.

Any person or persons with fire-
arms or dogs found on Bodega Valley
Stock Farm will be prosecuted.

Rev. Woodside Is Elected

A despatch from Niagara Falls
this afternoon announces the elec-
tion of Rev. G. A. Woodside as
Grand Chaplain of the Grand
Lodge of Canada, A. F. and A. M.
The honor is a very high one,
and news of his conferment will
be received with much satisfaction
in local Masonic circles.

Nasty Mishap At the Falls

Mrs. Burgess Baker, Burtch, met
with a very serious accident while at
Niagara Falls on the grocers and
butchers picnic yesterday. Mrs. Baker
with some friends, was on the Three
Sister Islands, and while stepping
from stone to stone on the water's
edge, slipped backwards over a rock
and besides breaking the ankle joint
of her right leg, severely hurt her
back. Medical attention was sum-
moned and Mrs. Baker was carried
carefully on the "Lift" to her resi-
dence. Rev. T. E. Holling was re-
moved from the last night where
Dr. Mott is attending her.

Dump Pile On Fire
The small boys love of fun was the
cause of a fire yesterday afternoon in
the refuse and garbage dump back of
the Hydro Electric station on Green-
wich street that required the services
of a hose wagon and four firemen to
extinguish it. Several youngsters in
this vicinity with a number of small
dogs started out on a rat hunt yes-
terday afternoon, and on reaching
the dump pile they concluded that
they had found the home of the rats.
By simply touching a match to one
side of the dump they forced the
rats out, and then the dogs came into
play by giving chase to the rats to
the delight of the youngsters. How-
ever the little blaze soon spread over
the whole dump and the firemen were
telephoned for. If the fire took
hold so indeed did the water from
the hose for rats by the hundred,
poured out from the dump heap when
the water was put on.

Obituary

Late Thomas Foulger.
Widespread sympathy marked the
last chapter of the life of the late
Thomas Foulger, whose funeral took
place yesterday from the residence of
his sister, Mrs. Elliott of Echo Place.
Many relatives and a great number of
friends were present at the special ser-
vice held at the house, conducted by
Rev. R. D. Hamilton. Miss Mabel
Limburg sang sweetly and appropri-
ately. Mount Hope cemetery was the
scene of the interment and the last
rites of Pythias took over the last cer-
emonies and acted as pallbearers, con-
ducted solemn rites. Those compris-
ing the pallbearers were, John Gra-
ham, F. Hicks, T. Brooks, A. Mead,
W. Simpson and C. Warren.
Tributes to the dear departed were
sent in profusion and many took the
form of floral emblems, which were
as follows: Pillow, wife; wreaths, fam-
ily, Hughes and Howie; Mr. and Mrs.
Quillie; harp, Mrs. Graham and fam-
ily; crosses, Mr. and Mrs. Chippings and
Edie Sprays, Mr. and Mrs. Shep-
person, Mr. and Mrs. Harry Foulger,
Mr. and Mrs. E. Rice, Brotherhood
of Wellington street church, Misses
Emma and Lizzie Ham, Mr. T. W.
Clark, Miss Clark, Miss Maud Thomp-
son, Mr. and Mrs. Frank Thompson,
Peter Mazurik, Mr. Walter Ginn,

Mr. and Mrs. A. Edmondson, Mr.
and Mrs. J. Bauslaugh, Mr. and Mrs
W. McIntosh, Miss L. Key.

Laid at Rest

Late Miss Margaret Campbell
The funeral of the late Miss Mar-
garet Campbell took place yesterday
from the residence, 136 West street,
to St. Joseph's cemetery. A number
of relatives and friends attended the
last sad services, which were con-
ducted by the Rev. Father Doyle at
St. Basil's church, and Dean Brady
officiated at the graveside.
The pall bearers were J. McGregor,
J. Maxwell, A. Carling, T. Hample,
J. Klinkhammer and J. McGraw.
Expressions of sympathy were
heard on all sides, and among the list
of tokens were the following flowers
and mementoes. Miss Effie and Mr.
John Campbell, Mr. Hulme and Miss
O'Keefe, Mr. and Mrs. Richards, Miss
Jean Thompson, "The Boys in the
House," Mr. and Mrs. Huddleston,

Darkness and the Cause
A short circuit on the Hydro Elec-
tric System beside Dufferin Avenue
which was caused by a defective stand-
ard which gave out has been respon-
sible for the darkness which has pre-
vailed upon Dufferin Avenue. It is
now remedied.
Picnic at Gaywood.
The Lait-a-Lott Club numbering
about twenty had a very enjoyable
time at Gaywood yesterday. The af-
ternoon was spent in races, games and
bathing. A very elaborate supper was
provided by the ladies present, after
which the evening was spent playing
childhood games and singing. After
extending a hearty vote of thanks to
Colonel Muir for his hospitality, the
club returned to the city, feeling the
day had been well spent.

A Record Breaker

One of the fastest baseball games
that has been played in Brantford for
many a long day took place Wednes-
day evening when the Massey Harris
machine shop team played the wood
shop team. They certainly did go
some, the man on third base for the
wood shop team was the star of the
evening, some of his catches and
some of his misses received ovations
from the fans. The score was 34 to
13 in favor of the machine shop. "To-
day so many people were out of the
city, maybe our city league team
would like to get a few tips. The
game proved too strenuous for the
president. It is rumored he has re-
signed.
