

THE ACADIAN.

WOLFVILLE, N. S., JULY 22, 1910.

The commission appointed by the Federal government to gather information as to the needs of the Dominion in respect to industrial training and technical education, and the systems and methods of technical instruction in other countries, is to meet in Wolfville on the afternoon of the 27th inst. and at Kentville in the evening of the same day. Dr. James W. Robertson is the chairman of the commission, which fact ought to be a sufficient guarantee of its usefulness.

Wolfville had a distinguished visitor this week in the person of Mr. Bookes Wilson, editor of the Strand Magazine and Westminister Gazette. Mr. Wilson, who is collecting material for a work on Nova Scotia, is one of our rising authors and has already written several books, one of which on George III, has been very favorably received by the leading English papers. A native of Montreal, but long a resident of England, Mr. Wilson belongs to that group of talented Canadians who have made their mark on English literature, which includes such well known names as Grant Allen, Gilbert Parker, Robert Barr, etc. While here he was the guest of Sir Robert and Lady Weatherber, on Monday accompanied by Sir Robert Weatherber, Chief Justice Townsend, and Rev. R. F. Dixon, Mr. Wilson made an automobile trip to Berwick, Kentville, Lakeville and other points. He expressed himself as very favorably impressed with the country.

Acadia's Graduates.

Victor O. Chittick, Acadia '05, of Hantsport, who has been studying at Columbia University, New York, has been awarded for merit the university fellowship in English, which is worth nearly \$700 a year. Mr. Chittick also won a scholarship at Harvard, but was advised to accept that of Columbia. Another Acadia man, who is doing good work at Columbia, is John S. Bates, '08, who has won a scholarship and is making a marked success as a tutor.

Still another, David H. Webster, Acadia '06, of Cambridge, this country has taken his M. D. from Columbia, and has a good practice in New York city.

Loring C. Christie, of Anherst, a former student here, is in the law office of the well known public man, Henry L. Sturken, of New York, getting his position through his brilliant work on the Harvard Law Review. Mr. and Mrs. B. A. Howland and family, of Boston, are visiting at the home of Mrs. Howland's parents, Mr. and Mrs. J. W. Sellridge, Locust ave.

In Sunny Alberta.

A correspondent of the Colchester Sun, writing from Medicine Hat, Alberta, says:—
The rain has not come and the hot wind has... We have no grass, and therefore no beef, and the banks have stopped discounting, therefore stand still and rest awhile.

One thing sure, Western Canada is up against something this time never known in the history of white men. 'Tis not only a failure, but no grain, no straw, no grass, no beef, and now—no money, and our province half full of new settlers with no means. Where will we be or arrive at on May 1, 1911—well I will write and let you know. Rest assured of one thing, Westerners are men who are awful liable to help one another in a pinch, and now's the time.

Just for a sample, we haven't had a drop of rain since July, 1909. Last Sunday the official record gave one hundred and three degrees of heat in the shade, yesterday and today not much better.

Private letters from Kings County people settled in the same locality tell a similar story.

Massachusetts has suffered so much by the brown-tail and gipsy moths that it has undertaken the propagation of the monotomera, the natural and deadly enemy of the pests. It increases with great rapidity, and if climatic conditions prove favorable, it will probably relieve the horticulturists and foresters of the state of much anxiety and expense.

THE PROFESSING CHURCH.

A great many students of the bible are now very much surprised to find out the condition of things in the professing church. If they believed what the bible teaches they would not be surprised at anything these days. Undoubtedly we are in the last days, and prophecy is being so rapidly fulfilled that we are unable to keep up with what is being fulfilled right before our very eyes; and yet there are good men who are as blind as bats, who think the church is going to conquer the world for Christ, and every one will be ready before Christ comes. Think of it! And not a verse in the inspired word to prove the truth of their arguments. No wonder we behold a Church without power; she having forsaken the plain testimony of the inspired word, and run after false gods.

Her ministers have forsaken the plain testimony of the inspired word of God, and, as a consequence, have lost power with God and men. They cannot preach down with God and up with man and expect thoughtful men to follow them. The average layman knows more about the bible than the preacher does. Talk about converting the sinners outside the Church. The first place to begin is with the preachers. There are many of them who were never converted, and who lack power because of that and absolute ignorance of what they really believe. How could they lead a poor sinner to the cross? They actually hinder sinners from being saved. Do you suppose the Holy Spirit is going to use such stumbling blocks to save the lost?

Another reason why the Church has lost power with God and man is this: The preacher's backbone has dwindled down to the vanishing point. It is true that we still have some grand preachers—giants, like we could mention, heroes and noble men—but alas! their number is growing less. What we need in preachers and laymen is more courage, more backbone as large as a telephone pole and a head as small as a peanut, than to have a backbone as small as a peanut and a head as big as a barrel. That statement, not long since, was made before a lot of preachers and they all said 'amen.' Tell me what professors over in Germany know about the bible, can any one tell? What does a man who has never been born again know about the bible? Nothing.

The Church is simply reaping what she has sowed. You have only to look around a little and learn that she will have to get back to first things again, and put first things first. Dr. Bonar once said that we look for the Kingdom of God to come down and we look for the world and we find it in the church. But the sheep know where to get seed. When men like Bonar, Spurgeon, Moody, Morgan, Gipsy Smith, Chapman, Torey, Eaton, MacArthur, and hosts of others arise to preach, the multitude crowds to hear them gladly. They feed the sheep, but it is why these men have not become a tinkling symbol and a sounding brass. The multitude is hungry for the gospel and most of the ministers give them a stone.

Many sermons that are heard from the modern pulpit are lacking in power to grip the conscience, to move the affections or to mould the will. This is often because the preacher, almost invariably, assumes that his whole audience is made up of genuine Christians. And this assumption grows out of the most plausible and popular deceptions of the day. It is known as 'The Brotherhood of Man.' This sounds nice, but it is an awful falsehood. God is the Father of our Lord Jesus Christ, and He is our Father in Him, but he is never represented as the Father of all men without distinction. Our Lord said to certain men, 'Ye are of your father the Devil,' but he never hinted at the universal Brotherhood of God.

There is a Brotherhood of God towards the family of faith and there is a true brotherhood amongst all that have been born of God. Outside of that God is creator of all men and things. This sharp distinction is seldom made in these days of superficial thinking and flippant feeling. A woman may create a picture on a canvas, but when her child is born he is the reproduction of her life. Man, as man, is God's creation, but man as redeemed and regenerated, is a divine reproduction.

God created, arranged, sustains and directs all things in His Son. When God revealed His mind and heart to man through His Son, Jesus said, 'He that hath seen me hath seen the Father also.' The only begotten Son who is in the bosom of the Father, He hath led him out. In harmony with this uniform method of the invisible God uttering Himself through His Son, when redemption was to be accomplished, it was entrusted to the Son. 'God was in Christ reconciling the world unto Himself, not imputing their trespasses unto them.' The work of Christ in man's behalf is the work of God. No man, therefore, can reach God, except through His Son.

To seek God apart from Christ is an impossibility unless the bible is in error. When men begin to turn over a new leaf, 'to be men, to do good, to cherish high ideals, to get a vision of God and duty, to become re-

Woodstock, Ont., Pastor Quits Under a Heavy Cloud.

Special to The Mail and Empire. Woodstock, July 18—Rev. Warren H. McLeod, for two years past in charge of the First Baptist Church, left the city last Friday with his family and it is understood will not return. The Sentinel Review to-night states that McLeod's sudden departure is the direct result of a rather solemn and serious interview between the pastor and officials of his church, in which certain matters regarding the pastor's personal conduct and his relations with some members of his congregation were frankly discussed. As a result of this interview it is said that it was deemed advisable by both the pastor and the officials that the former should take his holidays at once with the understanding that he would not resume his work here. Rev. Mr. McLeod came here from Chicago, with a reputation for fine ability as a preacher, which reputation he sustained while here. It is understood he has returned to Chicago. A graduate of Acadia in 1895.

A large congregation gathered in the Baptist church last Sunday evening to hear Miss Nora Shand, of Windsor, daughter of Mr. A. P. Shand, give her impressions of the Convention in Washington, D. C., in May. The particular phase of the Convention presented was the emphasis that was placed upon missions and the missionary spirit. Miss Shand made this plain by a series of vivid word pictures which closely held the interest and attention of the congregation throughout the entire address.

What Do You Know About It?

That's what a customer asked me recently about a patent medicine I had sold for years, and I was forced to admit that in reality I knew nothing more than what appeared on the label, wrapper and advertising. Some of the claims made were so extravagant that of course I could not take them seriously, but concluded I had better find a line of remedies I did know something about.

Obituaries.

At the Halifax Infirmary on Sunday afternoon last occurred the death of Florence E., beloved wife of Mr. Arthur M. Hoare, of that city. Although ill for some weeks her death, which followed an operation from which she never rallied, was a great shock to her family and friends.

The deceased was a native of Wolfville, being here her marriage. Florence, nee daughter of the late Alexander and Rebecca MacKenzie. She was a most popular and highly esteemed lady and was greatly beloved by all who had the pleasure of her acquaintance. Her gentle manner and kindly disposition endeared her to old and young alike.

In addition to the sorrowing husband she is survived by a sister, Miss Sadie MacKenzie, one daughter, Kathleen, a member of last year's graduating class at Acadia Seminary, and two sons, Gerald and Alex., all of whom have the sincere sympathy of a host of Wolfville friends.

The funeral, which took place at 3 o'clock on Wednesday afternoon, was very largely attended, and the proofs of sympathy and sorrow were many. Rev. A. B. Coloe, pastor of the First Baptist Church, of which the deceased was an active and helpful member, conducted the service, and sweet and appropriate music was rendered by the choir. The casket was borne to its last resting place in Fairview Cemetery literally covered with flowers.

The death occurred on Sunday, at Grand Pre, after a lengthy illness, of Mrs. Mary Bower, relict of the late J. Benson Bower, an aged and highly respected member of the community, of which she had been a resident during her long life of 85 years, with the exception of a few years after her marriage at Sackville, N. B.

Mrs. Bower was the last surviving daughter of the late Samuel Avery, and a niece of the late Dr. J. F. Avery, of Halifax, the other members of the family having passed away previously. A woman of kindly disposition, as well as a devoted Christian, she will be missed in the neighborhood. She also is the Methodist church at Grand Pre, of which she was for many years a faithful member.

She leaves one son, S. Avery Bower, of Grand Pre.

After an illness of several weeks the death occurred at his home at St. Stephen, N. B., on Thursday evening of last week, of Mr. B. R. DeWolfe, a respected citizen of that place, and of this town. Mr. DeWolfe was a sturdy, upright citizen, whose influence was always for the betterment of his community. He was an ardent supporter of temperance, had been a member of Union Street Baptist Church for many years, and was deeply interested in Sunday-school work. For some time he had been in poor health, but his illness was not considered serious until about two weeks ago.

Word has been received of the death at Niaga, Manitoba, of Mrs. Rhuland, wife of J. W. Rhuland, architect and builder, formerly of Halifax. The deceased leaves three daughters and one son. The daughters are Mrs. Ingram E. Hill, at whose home she died; Mrs. Frank Blackadar and Mrs. Peter Mylins, in the United States.

The son, J. Milton, resides in the west. The deceased was a lady of kindly disposition, and a devoted Christian, and she will be greatly missed by her husband and family.

Thomas R. Pattillo, who passed away recently in Halifax, was a graduate from Acadia in the class of '56, the last of his class. The others were: Arthur G. Johnston, Halifax, and Robert W. Phillip, Halifax. He was next in rank, the oldest living graduate of Acadia.

An amusing incident occurred at Professor Osborne's first political meeting in Dufferin county. He has a remarkable gift of the gab, and is great on dramatic effect. He was holding forth in a crowded country schoolhouse and unpeeling language with the rapidity of a rotary engine.

What can I do? he roared, 'when I see my country going to ruin, when I see our oppressors' hands at our throats strangling us, and the black clouds of hopelessness and despair gathering on the horizon to obliterate the golden sun of prosperity? What, I ask, can I do?'

'Sit down,' shouted the audience. Roblin's majority at the polls was around 500.

J. S. Ewart, the Canadian who spoke before the Hague conference on behalf of the British Contention, is said to have made a fine impression, and was regarded as exceedingly effective. His colleagues, including the British attorney general and Sir Public ownership undertaking may be wise or foolish, but Manitoba seems to like it and the other provinces will likely follow suit.

It is to be hoped that those elderly gentlemen who are enjoying a military sun-bath at Halifax for their health at \$3 per day, will, when they become instructors of the youth of our country, have compassion upon the latter whose pay is so small. It is said that already one of these elderly scientific, military health seekers has been able to lay before the war office particulars of a wonderful discovery, viz., as to the manipulation of an electrical ray which can be focussed like light, and which is capable of paralyzing armies as easily as if a streak of lightning had passed through their ranks.

In a trial experiment it is stated that the ray was brought to bear upon a poor old horse, at a range of four miles from Dartmouth. The poor animal staggered and fell stone dead. The fate of this unfortunate horse, it is commented, might have been the fate of an army corps.

Professor Osborne, the champion spellbinder of his party in Manitoba was selected by himself to oppose Premier Roblin in his own constituency, Dufferin, where Roblin's normal majority would be around 175. Professor Osborne has been professor of English history and literature of Wesley College, but resigned to enter the political field. His resignation came about in a rather unusual way. He had been delivering an address to the students on William Pitt and he had spoken five minutes the constant repetition of the great statesman's name suggested another pit, and he devoted the rest of the hour to a violent dissertation on Premier Roblin. This came to the ears of the faculty and it was decided that the noble professor was a little too queer for his job.

The Gadfly.

In view of the election which has so recently taken place in Manitoba, we feel like remarking that while Manitoba may be the 'postage stamp province' of the Dominion and may be the smallest, yet what it lacks in size it makes up in brains.

The malicious, yelping, snarling ratter-toppers, who thought they were acting as statesmen, worked over hours in attributing all sorts of unworthy motives to every blessed move the Roblin and Rogers government made for the advancement and development of that province, have got their answer.

Public ownership undertaking may be wise or foolish, but Manitoba seems to like it and the other provinces will likely follow suit.
