Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

- Coloured covers/
Couverture de couleur
- Covers damaged/
Couverture endommagée
- Covers restored and/or laminated/
Couverture restaurée et/ou pelliculée
- Cover title missing/
Le titre de couverture manque
- Coloured maps/
Cartes géographiques en couleur
- Coloured ink (i.e. other than blue or black)/
Encre de couleur (i.e. autre que bleue ou noire)
- Coloured plates and/or illustrations/
Planches et/ou illustrations en couleur
- Bound with other material/
Relié avec d'autres documents
- Tight binding may cause shadows or distortion
along interior margin/
La reliure serrée peut causer de l'ombre ou de la
distortion le long de la marge intérieure
- Blank leaves added during restoration may
appear within the text. Whenever possible, these
have been omitted from filming/
Il se peut que certaines pages blanches ajoutées
lors d'une restauration apparaissent dans le texte,
mais, lorsque cela était possible, ces pages n'ont
pas été filmées.
- Additional comments:/
Commentaires supplémentaires:

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- Coloured pages/
Pages de couleur
- Pages damaged/
Pages endommagées
- Pages restored and/or laminated/
Pages restaurées et/ou pelliculées
- Pages discoloured, stained or foxed/
Pages décolorées, tachetées ou piquées
- Pages detached/
Pages détachées
- Showthrough/
Transparence
- Quality of print varies/
Qualité inégale de l'impression
- Includes supplementary material/
Comprend du matériel supplémentaire
- Only edition available/
Seule édition disponible
- Pages wholly or partially obscured by errata
slips, tissues, etc., have been refilmed to
ensure the best possible image/
Les pages totalement ou partiellement
obscures par un feuillet d'errata, une pelure,
etc., ont été filmées à nouveau de façon à
obtenir la meilleure image possible.

This item is filmed at the reduction ratio checked below/
Ce document est filmé au taux de réduction indiqué ci-dessous.

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

12X 16X 20X 24X 28X 32X

The copy filmed here has been reproduced thanks
to the generosity of:

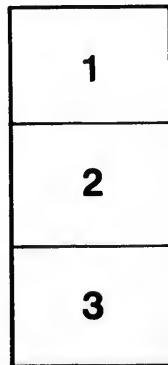

National Library of Canada

The images appearing here are the best quality
possible considering the condition and legibility
of the original copy and in keeping with the
filming contract specifications.

Original copies in printed paper covers are filmed
beginning with the front cover and ending on
the last page with a printed or illustrated impres-
sion, or the back cover when appropriate. All
other original copies are filmed beginning on the
first page with a printed or illustrated impres-
sion, and ending on the last page with a printed
or illustrated impression.

The last recorded frame on each microfiche
shall contain the symbol → (meaning "CON-
TINUED"), or the symbol ▽ (meaning "END"),
whichever applies.

Maps, plates, charts, etc., may be filmed at
different reduction ratios. Those too large to be
entirely included in one exposure are filmed
beginning in the upper left hand corner, left to
right and top to bottom, as many frames as
required. The following diagrams illustrate the
method:

L'exemplaire filmé fut reproduit grâce à la
générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le
plus grand soin, compte tenu de la condition et
de la netteté de l'exemplaire filmé, et en
conformité avec les conditions du contrat de
filmage.

Les exemplaires originaux dont la couverture en
papier est imprimée sont filmés en commençant
par le premier plat et en terminant soit par la
dernière page qui comporte une empreinte
d'impression ou d'illustration, soit par le second
plat, selon le cas. Tous les autres exemplaires
originaux sont filmés en commençant par la
première page qui comporte une empreinte
d'impression ou d'illustration et en terminant par
la dernière page qui comporte une telle
empreinte.

Un des symboles suivants apparaîtra sur la
dernière image de chaque microfiche, selon le
cas: le symbole → signifie "A SUIVRE", le
symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être
filmés à des taux de réduction différents.
Lorsque le document est trop grand pour être
reproduit en un seul cliché, il est filmé à partir
de l'angle supérieur gauche, de gauche à droite,
et de haut en bas, en prenant le nombre
d'images nécessaire. Les diagrammes suivants
illustrent la méthode.

INTRODUCTION.

In presenting these tables for computing profits to the mercantile public, I am fully convinced that this work will prove of valuable assistance to the merchant, both in purchasing and marking the selling price on the goods.

The accuracy of the work is fully assured by the publisher, and he is persuaded that after careful perusal, it will be found to be an indispensable companion to every merchant.

For example, with a line of goods which cost 8 cents, if 15 per cent. profit is required upon the cost price, you look down the left hand column until you come to the figure 8; then glance across the page to the column having 15 at the top, and the figures in that square is the price to mark on the goods.

In addition to the Tables referred to above the Compiler has included an Interest Table at six and seven per cent., also other useful information in a concise form.

TABLE

Showing the number of days between any two dates; also showing the number of days from any day throughout the year to the 31st of December, the usual period to which interest is calculated.

In the following Table are marked in three columns for every month—1. Each separate date throughout the year; 2. The progressive number of each date; 3. The number of days from each date to December 31. The mode of using the Table will be seen from the following examples:—

Example 1.—To ascertain the number of days between any two dates in the same year—for instance, between March 3 and November 9,

Look for March 3, opposite which will be found in the second or progressive column, 62 days.
Then look for November 9, opposite which will be found, 313 "

The difference is the number of days between the two dates, 251 days.

Example 2.—To ascertain the number of days between any given date in one year to any date in the following year—for instance, between September 7 and July 4,

Look opposite September 7 for the number of days to December 31, 115 days.
Then look for July 4, opposite which will be found in the second column, 185 "

These added together are the number of days between the two dates, 300 days.

Example 3.—To ascertain the date on which a bill payable at a given number of days falls due—as, for instance, a bill payable at 60 days' sight from April 7,

Look for April 7, opposite which will be found in the second column, 97 days.
Add the time the bill has to run (including the 3 days of grace), 63 "

These amount to 160 days.

Then look for this number (160) in the second column, and the corresponding date, June 9, is the day on which the bill falls due.

Example 4.—To ascertain the number of days from June 16 to December 31, look opposite June 16 in the third column, and the number of days will be found to be 198.

Note.—In leap year one day more must be added in each case, if the 29th of February comes between the two dates.
