BREWERS AND TANNERS CONTRIBUTED TO EFFECT SULZER PAYMENTS IN CASH PREFERRED

President of American Malt-Brewing Company Testifies That Sulzer Asked Him for Boss Murphy's Backing and Got It—Banker Schiff Makes Interesting Revelations.

ALBANY, N.Y., Sept. 25.—(Can. Press)—These nine developments today marked the impeachment trial of Governor Sulzer. Jacob H. Schiff, a New York banker, testified that he was recently asked by Samuel L. Frankenthal, a former law partner of Gov. Sulzer, if he would accept the return of the alleged \$2500 campaign contribution which the banker yesterday said he gave to the governor without restriction as to its use. Mr. Schiff said he had replied negatively. The high court, by a unanimous vote, decided to admit all testimony pertaining to campaign contributions made to the governor, even though they were not specified in the articles of impeachment. This ruling paved the way for the introduction of evidence intended to show the governor had solicited and received large contributions from brewing interests. The governor asked, according to the testimony, that these contributions be given in cash instead of cheques. Heavy Contributions. Counsel for the impeachment managers said they were prepared to prove the governor received campaign contributions "vastly in excess" of the total mentioned in the articles of impeachment. There were more than 100 not accounted for, counsel asserted. The names of a large number of these contributors other than those of the brewing interests were brought into the evidence. These included the names of fifty-two persons mentioned as drawers of Sulzer cheques in the account of Louis A. Sarecky, the governor's campaign secretary in the Mutual Alliance Trust Company. This account showed, in cheques and cash, that deposits of \$14,000 had been made between Sept. 10, 1912, and the date of the governor's inauguration. Was It Larceny? Decision on the question as to whether Sulzer's alleged misuse of cheques given the governor without restriction as to their use constituted larceny was reserved to give the court an opportunity to investigate the authorities. Sarecky, regarded by the prosecution as one of the most important witnesses and whom they had been unable to locate, was discovered by process servers in Albany and served with a subpoena. Judge Lewis J. Condon of New York, who had had raised money for the governor's campaign, but had given it to him without restriction as to its use. Sulzer called personally on Charles A. Stadler, president of the American Malt-Brewing Co., the latter testified, and requested his aid in obtaining the support of Albany Hall. He said he obtained this support and later solicited campaign funds for Sulzer. The assembly managers decided tonight to bring no more impeachment charges against the governor. Entered into Court. Stadler, who is a former state senator, declared that after several invitations from Sulzer he had visited the candidate to talk things over. "The conversation was of the general

BALKAN OUTLOOK IS GROWING SERIOUS

Determination of Young Turk Military Party to Take Advantage of Disensions Among Former Allies Makes Situation Grave—Servia in Dire Straits.

LONDON, Sept. 25.—(Can. Press)—The Balkan crisis is becoming more acute. It has been aggravated by the apparent determination of the young Turk military party to profit by the disensions among the former allies. Turkey is reported to have again called to the colors the Asia Minor conscripts while an officer lately returned from Tripoli, is said to be leading an uprising against Bulgaria in Thrace. The efforts to subdue the rebellious Albanians are likely to prove a severe strain on the exhausted army and exchequer of Serbia, especially if the story of the uprising of Serbo-Macedonians is true. In Vienna the belief prevails that Serbia is merely seeking an excuse to upset the decisions of the ambassadors' conference by setting points not included in the territory allotted to her. In Athens many believe that Greece is on the verge of another war with Turkey. The whole Albanian trouble seems to be due chiefly to arbitrary demands of the ambassadors' conference and the nationalization of the territories concerned.

DUBLIN STRIKE NOT YET ENDED

Employers Show Reluctance to Accept Proposal of Conference Made by Lord Mayor. DUBLIN, Sept. 25.—(Can. Press)—The "hard" majority of the employers for the settlement of the strike do not seem to commend themselves to the employers who are not inclined to discuss the situation with James Larkin and the officials of the Transport Workers' Union. Yesterday the lord mayor issued a memorandum outlining a plan for the appointment of a special conciliation committee, comprising six members nominated by the employers and six by the transport workers, with Sir George Asquith as chairman. There was practically no change in the situation today, except that military sentinels were sent to the relief of the overworked police. A relief shift with food supplies for the strikers left Manchester tonight.

ASTONISHING AERIAL FEATS AGAIN PERFORMED BY PEGOU

Upside-Down Aviator Looped the Loop Twice, Dropped Three Thousand Feet in Five Seconds, and Did Other "Stunts" Equally as Dangerous.

(Special Cable to The Toronto World). LONDON, Sept. 25.—Alphonse Pegoud, the upside-down aviator, gave a vast crowd at Brooklands a new thrill today by his astonishing aerial feats. Flying the Blériot monoplane on which Lieut. Moreau won The Daily Mail prize for a flight around Great Britain two years ago, he first rose about 500 feet and began side slipping on each wing alternately. It looked to be a most dangerous performance, as he repeatedly placed the monoplane in a position in which it seemed to completely lose control of it; yet he always righted; then dipped over on the other wing in the same perilous fashion. The crowd gasped with amazement and fear for him as he tumbled fast again and again, and none were more unprepared in their exclamations than the 5000 feet in five seconds. Having given the taste of his quality, Pegoud next rose to about 4500 feet, until the monoplane in a brilliant, clear atmosphere resembled a hawk hovering in the sky. Then he suddenly turned the head of the machine downward, shut off the engine, and the aeroplane started eastward at a terrific pace. It must have been about 3000 feet in about five seconds. This was considered by aviators the most dangerous part of his performance. Once again he rose about 1000 feet and, beginning with a steep downward turn, he turned the monoplane over sideways until it was upside down, the starting wheels being uppermost. The aviator was plainly visible, head downward and tacked to his seat. Gradually he righted the machine while the multitude cheered vociferously and a thousand motor horns blared discordant applause. When Pegoud descended he was mobbed by an admiring crowd. He looked supremely uncomfortable under these manifestations, being as yet nothing of a showman. He ascended the second time and repeated his thrilling feats, if possible in a more accentuated form. Looped the Loop Twice. On the third ascent he surpassed every previous performance by looping the loop twice. He got the machine on its nose in the air, turned the tail over until he was again underneath and glided several hundred feet in that way, again turning the machine back to a normal position. The entire performance looked like an elaborate burlesque of all the imagined perils of flying and literally made the onlookers hold their breath with astonishment at his daring. He is to repeat his feats tomorrow and Sunday. Blériot tells The Toronto World correspondent that he is considering an offer to take Pegoud to America, but does not yet know whether it will be possible to do so.

GAMBOA NAMED AS CANDIDATE FOR PRESIDENCY OF MEXICO

Huerta is Eliminated, Orderly and Legal Elections Will Be Held, and President Wilson's Proposals Are Accepted. (Special to The Toronto World). WASHINGTON, Sept. 25.—On the highest authority it can be stated that the selection of Federico Gamboa as the candidate of the church party for President of Mexico meets with the approval of President Wilson and his advisors. Further, if provisional President Huerta does his utmost to secure as orderly and legal election in the districts and states which are in control of the federal troops, the American government will recognize him, once the man chosen to succeed him.

The chief official despatches concerning the nomination of Gamboa and the fact that Huerta will back him, were accepted as an official notification that the Mexican De Facto government had accepted these two cardinal proposals. The president, Woodrow Wilson, through John Lind to Huerta. The elimination of Huerta as a presidential candidate. The holding of orderly and legal elections in those states in which it is possible to hold them on October 28, the date set last spring by Huerta himself. According to the administration Huerta has fulfilled without reserve the chief conditions of the American candidate, and is trying to carry out the second. The Only Candidate. The administration believes that Gamboa will be the only candidate for president. This belief is based on the assertion made by Lind that every constitutionalist that would put up a candidate and would not be approved by the result of the election. If Gamboa is elected by state vote of three or five states the president will recognize him as president of Mexico and lend him such moral support as is possible. This includes some plan by which the Mexican government may obtain money in the United States; it is secured also that ports now closed to the Mexican Government so far as the export of arms and ammunition is concerned will be opened. No recognition will be made to the revolutionists. The president takes the view that inasmuch as the insurgents have made Huerta and his elimination from the presidency their battle slogan, they ought to lay down their arms if Huerta is eliminated. No other action on their part will be accepted by the American Government. According to the revolutionists, not only will they refuse to have a candidate in the coming elections but they will not support the candidate of any other party. They will fight Gamboa as they have fought Huerta.

Demand for "The Garden of Allah" Seats.

Reports from the Princess Theatre are to the effect that the advance sale of seats for "The Garden of Allah" engagement which begins here next week, ensures an enormous patronage. The seat sale opened yesterday morning, and the demand is so active that those desirous of seeing the play of the desert should secure seats early.

STRONG PROTEST AGAINST I. O. F. CHANGES WENT TO CHICAGO TO FIND CAUSE OF DELAY

Dissatisfied Members of the Order Decide to Call a Mass Meeting, When the Finances and New Rates Will Be Discussed and Formal Objections Made. Objection to the legislation put thru by the supreme court of the Independent Order of Foresters at their last session in Toronto during August, when the members who had joined the order prior to 1899, had to pay considerable sums to hold their policies or have them put upon them, about 100 members met last night in the Euclid Avenue Methodist Church to talk over the change to be introduced and it was decided to hold further investigation into the whole matter. Sentiments expressive of lack of confidence as to the manner in which the affairs of the order are being conducted by the supreme court were indulged in on every side, and the almost unanimous decision was that the matter should be further probed, in order to arrive at the true state of affairs. Nearly 50,000 members will be affected by the recent action taken by the supreme court, and it was the serving of the notices on the members of the Toronto court, informing them that the holder of a \$300 policy would have to pay out \$22 in order to hold his policy intact, or else pay interest on the amount for the balance of his life, and have it deducted from the death claim and other policies in proportion, that caused the meeting to be called. It was decided by the meeting that a further investigation should be held, and the chairman, Murray F. Watson of Court Lodge, was instructed to call another meeting in the near future. The majority present last night appeared to favor a test case being made to settle what right the supreme court had to introduce the above mentioned legislation. Dr. Clarke Explains. Dr. Clarke, the assistant chief physician of the I. O. F., was present and, as the chairman, Murray F. Watson endeavored to explain the situation which obliged the passing of the legislation which would have the effect of making the lodge receive a charter in 1881, and grievous mistakes were made at the start, and rates which were introduced. The organization ran into difficulties and actual expenses were called into conference. The decision was that if the increases were not made the order would be unable to meet its obligations. In 1908 the Dominion government brought in legislation dividing the order into two classes, those who had joined later, those who had joined before 1899 and not one dollar of the funds of the one section was to be transferred to the other. If no change were made the old members would be compelled to sweat in their own sorrow," exclaimed Dr. Clarke, "owing to the hopeless state of the finances. Following an appeal from the order, whereby the society comes up to 90 per cent of its actual risk by Jan. 1, 1917, and if not by then it must decrease its deficit by 5 per cent, annually, or else be declared an impaired society. There is now a deficit of nearly twenty-six millions in the old members' part of the order, and the decrease of this item which is aimed at by the supreme court." One member stated that the meeting was illegal and that every member who was present might be suspended by the supreme court, but that this did not matter to him, as he was well out of the order afterwards, when it was fully investigated. Matters regarding Western Canada were the chief topic. The suggestion that extra manual classes be established for training bank clerks at the University, Kingston, was favorably received. The resignation of John T. Knight as secretary was accepted. The balance of the time was given to routine matters, which were not made public. The following officers were elected: Honorary president, George W. Hague, Montreal; Sir Edmund Walker, Toronto; S. B. Angus, president Bank of Montreal; Montreal; Duncan Coulson, president Bank of Toronto, Toronto; President, Col. D. B. Willie, president Imperial Bank, Toronto; Vice-presidents, George Burn, vice-president Bank of Ottawa; Alexander Laird, general manager Bank of Commerce, Toronto; E. L. Pease, general manager Royal Bank, Montreal; H. V. Meredith, Bank of Montreal. The following form the new executive council: E. F. Heblin, Merchants Bank, Montreal; F. T. How, Bank of Toronto, Toronto; B. E. Stevenson, Quebec Bank Nationale, Quebec; Winnipeg Schofield, Standard Bank, Toronto; C. A. Bogert, Union Bank, Toronto; G. H. Balfour, Bank of Nova Scotia, Toronto; T. J. Laidlaw, Bank of Montreal, Toronto; Senator Mason, Home Bank of Canada, Toronto; R. B. McKenzie, Bank of British North America, Montreal.

MAJOR HOCKEN MADE RUSH TRIP TO ASCERTAIN PERSONALLY WHY VALUATORS HAVE NOT REPORTED ON RAPID TRANSIT AND ELECTRIC PROPERTIES WHICH HE WANTS TOMORROW.

Mayor Hocken is expected back today from Chicago, to which city he made a rush trip. Before leaving here he said: "For a week I have had it in mind to put an end to delay in receiving the report from the valuers of the rapid transit and electric light and power properties and franchises, and I am now going to Chicago to find out personally why the valuers at work there have not completed their report, and when they will complete it. Mr. Rose has promised me his report before the end of this week. Mr. Arnold and Mr. Moyes have had a longer time than they asked for to deliberate over their reports and the logical results. The complete report on the valuation of all the properties should be in my hands not later than Saturday of this week. Time is slipping along and there is much more to be done before the bylaw is submitted. I am determined to have the bylaw voted on, before the annual elections. Assuming that the report of the valuers is delivered to me by Saturday of this week there will be a week at least to be allowed for the approval of the valuation by the Provincial Hydro-Electric Commission. Another three weeks must be allowed the solicitors for sellers and buyers to prepare the agreement of sale. Another week must be allowed for the preparation of the bylaw and approval of the city council. And another four weeks must be allowed for advertising the bylaw. Nine Weeks to Vote. "It is, therefore, quite evident that nine weeks will have gone before the ratepayers can vote upon the bylaw. That will take us to the first of December. "The new nothing has been hurried. Every step has been deliberated upon. The deal runs into thirty millions, and the proceedings in connection with it have been held strictly to the business method of conducting a big proposition. The time has come, then, to expedite the proceedings sufficiently to assure a vote upon the bylaw before January 1. A Separate Vote. "A thirty million deal, bringing a clean-up of all the franchises in the city for public utilities, is big enough to be put thru by itself. Were it voted upon by the ratepayers on January 1, it would mean an unfairness thrown into the whirl of the personal and political antagonisms of an annual election, and would therefore be subjected to more or less divided interest. Besides, I do not wish to be accused of taking advantage of it to assist my re-election as mayor. This accusation would be made were the bylaw voted upon on January 1. "Opposition to the clean-up of the franchises for public utilities will, of course, continue until the last vote is polled on the bylaw," said Mayor Hocken, "but the ratepayers will have been fully informed of the facts bearing upon this great business proposition, and they will go to the polls with those facts in their minds. When Toronto can throw a fair business proposition, have a unified street car service on a one-rate basis, the ratepayers can be depended upon to vote the money for it."

CELEBRATED PACIFIC'S DISCOVERY

MADRID, Sept. 25.—(Can. Press)—The discovery of petroleum in the Pinar de Rio de la Borbolla, Presidencia at a meeting of the geographical society, which was held to celebrate the fourth centenary of the discovery of the Pacific Ocean, which was first seen by Balboa in 1513, enlivened the great work of the United States in connection with the Panama Canal. He also referred to the importance of the approaching centenary of the discovery of the Pacific Ocean.

WINNIPEG OFFICERS AND DEANS

WINNIPEG, Sept. 25.—(Can. Press)—The election of officers and the discussion relating to the loaning of money to farmers that they might continue their threshing were features of the meeting of the Canadian Farmers' Association today. As the latter proposal met with approval a committee was appointed to fully investigate the question. Matters regarding Western Canada were the chief topic. The suggestion that extra manual classes be established for training bank clerks at the University, Kingston, was favorably received. The resignation of John T. Knight as secretary was accepted. The balance of the time was given to routine matters, which were not made public. The following officers were elected: Honorary president, George W. Hague, Montreal; Sir Edmund Walker, Toronto; S. B. BERNER'S SUP RETURNS SAFELY

QUEBEC, Sept. 25.—(Can. Press)—Spirits and again with the British ensign flying from her main topmast as if returning from a pleasure cruise instead of a thirteen months voyage in the ice floes, the schooner Minnie Maude, commanded by Captain Bernier of Arctic fame, arrived here this afternoon from the Hudson Bay and other icy localities. The Minnie Maude left here some fifteen months ago, and although she encountered great quantities of ice since, she apparently has suffered much, if any, damage from it. The crew of the vessel, some of whom were completely frozen in furs, were in good health and spirits and enjoyed the trip. Captain Bernier, who was also reported in good health, left the vessel a short time after she arrived here, and went to his home near Indian Cove, in Vermont, to which he was expected to return tomorrow morning. He was therefore not seen by the reporters and escaped an interview. The schooner was said to have a good cargo of furs, which were probably being shipped to the officers and crew of the vessel appeared to be well satisfied with the trip.

CARSON NOT TO BE PROSECUTED

Government Does Not Wish to "Make King Carson" Saint Carson" It is Explained. BELFAST, Sept. 25.—(Can. Press)—Further conferences of the newly-formed provisional government to take over the administration of the affairs of Ulster if necessary have been checked by the illness of Sir Edward Carson, the leader of the Ulster Unionists, who has been ordered to bed by a physician to prevent a complete breakdown. Extensive plans are being made for a great review of volunteers on Saturday, but that preparation is being held in abeyance as it is indicated by the request of the promoters to advance the hour of an important football game so as not to interfere with the review. The under secretary of the board of trade, J. M. Robertson, speaking at Newcastle tonight, said that Sir Edward Carson's provisional government was an economic blunder and a practical impossibility, which could be ended by the British postoffice cutting it off from the rest of the world. The under secretary declared that Sir Edward Carson was not prosecuted for the reason that "the government did not wish to make King Carson Saint Carson."

How That Unruly Winding Stream Has Been Used as a Helpful Means in Building the Canal.

By Willis J. Abbot, Author of "Panama and the Canal in Picture and Prose." Copyright, 1913, Syndicate Publishing Co., New York. All rights reserved.

For my own part I hold the Chagres River a much maligned stream. Pirates, pioneers, prospectors and even poets have taken their fling at it but the fact remains that but for it we should not have the canal—yet least according to the American plan. The French looked on it with apprehension, filled with dread of its sudden floods and propensity to bring down great masses of silt and deposit them precisely where they would do the most harm...

HIT BY COASTER, DIES IN HOSPITAL

WOODSTOCK, Sept. 25.—(Special).—While walking down the hill on Hunter street last evening, Charles Rush of Middleville, Mich., a former resident of Woodstock, was struck from behind by a small express wagon, in which three small boys were coasting along the sidewalk, with considerable speed. Mr. Rush fell heavily to the sidewalk, fracturing his skull. He was immediately rushed to the hospital, where he died during the night. The affair is particularly sad in view of the fact that Mr. Rush arrived here only yesterday morning, to pay a visit to his brother John, after an absence of 23 years.

ROTARY CLUB ENTERTAINMENT.

The members of the Rotary Club of Toronto introduced their first innovation of the season last evening when the club assembled in a body for dinner at the Albany Club, after which they adjourned to the new building of the R. S. Williams and Sons Co., Limited, at 145 Yonge street, for a tour of inspection of the building and of the many instruments exhibited. An informal entertainment was then given on the third floor, on the Edison phonograph, Victor-Victrols and Apollo Solo Electric Player Piano. All taken from the showrooms of the Williams firm, with added attractions by members, including a few violin selections by Frank Blackford, one of Mr. Williams' old violins, with J. P. Milne at the piano, and a mandolin solo by J. C. Williams. The members enjoyed the evening thoroughly, and this promises to be but the first of many such typical Rotary programs to be introduced during the coming season.

IT IS TREACHEROUS!

What railroad people call a "greasy" rail is the most treacherous and dangerous thing they have to deal with. The wheels won't grip on a "greasy" rail. The car will slide as though on ice. Hence the danger. A car may pass a certain rail, and find it clear of "grease." Half an hour later another car may come along, and with locked wheels skid over it like a toboggan. Hence the word "treacherous" is used. This is the time of year when "greasy" rail is to be expected in Toronto. The frost causes it. Sometimes a heavy rain or a fall of soft snow will clear the rails for a few days in the Winter. As a general rule, though, "greasy" rail may be looked for as long as the frost lasts. Through this season drivers of all sorts of vehicles, and, indeed, foot passengers as well, ought to be very careful about crossing in front of moving street cars. A motorman may intend to stop, as the driver expects him to. But a strip of "greasy" rail is likely to upset all his calculations. It may be that he cannot stop, that all the brakes in the world can't stop him. In the time of "greasy" rail the wise thing to do is not to cross in front of a car because you expect it to stop. Wait until it does stop. Don't put it up to the motorman. Look after yourself. Safety First!

TRAIN BLOCKADE IN WARD SEVEN

G. T. R. Trains Daily Bar Traffic at City's Northern Gates.

Citizens living in the north end of Ontario section of Ward Seven have long been complaining of the frequent blocking of the Weston road crossing of the G. T. R. tracks by trains drawing up at the station. The Weston road and Royce avenue crossings are the only entrances from the south part of the ward, and the traffic on these streets is always heavy. Consequently long waits and a great deal of inconvenience is experienced by pedestrians and drivers of vehicles while trains are at the station. The board received the complaint and take on to leave passengers and freight. Yesterday a deputation from the north waited upon Ald. Ryding with their grievances, and the alderman lost no time in putting it before the board of control. He pointed out that the station platform is built too close to the street, and that incoming and outgoing trains must necessarily block the street in order to draw up alongside it. This condition is remedied by having the platform built on the other side of the station, or by having the present one produced further west. If this was done the street could be left open and there would be no long waits or traffic blockades while trains are at the station. The board received the complaint and promised to look into the matter.

A NEWS BUDGET FROM EARLSCOURT

The British Imperial Association of Earlscourt have planned a grand church parade, which will take place on Sunday, Oct. 5, from the corner of Dufferin street and Davenport road, to the Royal George Picture Theatre, where the service will be held. Premier Whitney has been invited to present to address the gathering, and a water main is being laid along the street. St. John's Ambulance Association will take part in the parade in full uniform. President Parfrey wishes to publicly acknowledge the kindness of the Salvation Army in granting them the use of the hall for the afternoon. During the service a collection will be taken up in aid of the Hospital for Sick Children.

ATTEMPTED HOLDUP ON TOWNSHIP ROAD

George Ruber, Market Gardener, the Would-be Victim of Two Highwaymen.

GUELPH, Sept. 25.—(Special.)—George Ruber, a market gardener who lives on the line between Guelph and Pushtich townships, near the provincial prison farm, was a badly scared man yesterday afternoon. He had been in the city and was proceeding home leisurely about four o'clock when about three hundred yards from his house, two men suddenly jumped from behind a tree on the road, with hands raised, and demanded that he stop. Ruber, giving his horse a cut with the whip, dashed for home. After he reached his house he telephoned the police. Constables hunted for the highwaymen but could find no trace of them.

SOUTH PERTH FAIR GREAT ATTRACTION

Five Thousand Enjoy Exhibits and Fine Program of Sports.

ST. MARYS, Sept. 25.—(Special.)—Big crowds were in attendance today at the South Perth Fair. It is estimated there were 5000 in the grounds. The cattle show and the display of horses, of which there was an excellent showing, was witnessed by admirers. The display of prize-winning age horses was exceptionally good, and the cattle were excellent in quality. The opening events were ably managed, and the foot races evoked much interest. J. Dellow, the local cricket manager, led the display of over a dozen competitors. The winners of the speed events were as follows: Free for all—1st, J. J. Brown, 2nd, W. G. Hodgin, 3rd, W. G. Hodgin, 4th, W. G. Hodgin, 5th, W. G. Hodgin. The open race was called off. The best time in the free for all was 2:20. The 5-minute race (time of mile, 17:2 seconds) 1st, J. Dellow, 2nd, E. Cook, 3rd, W. G. Hodgin, 4th, W. G. Hodgin, 5th, W. G. Hodgin.

NEW TORONTO

Next week electric workers will start next week installing the street lighting in New Toronto. The bulk of the material is now on the ground and further shipments are coming along daily. Residents are advised to see their streets lighted this fall.

R. J. Tooke Shirts

Custom-made. We have letters from our Custom-made Shirt customers, who live in all parts of Canada. Here is one which will bear repetition, as it is from a wealthy and particular gentleman who lives in the Town of Prescott. He wrote: "I have had any amount of remorse that I ever had a shirt made by anyone but R. J. Tooke, and I write to you whether I can have some made at the present time such as you used to make for me. "I see all sorts of stories about the Tooke shirts being put into other hands, but I write you to know if you can send me some samples of Oxfords, and have me a couple of shirts made, and the price, which will be a small matter; I have only two shirts made by anybody else, and I wish I never had that many."

MEET TO SETTLE UP

Weston Fair Directors Will Strike Balance and Prepare for Next Year. A meeting of the directors of Weston, York and Etobicoke Agricultural Association will be held at the Central Hotel, Weston, next Monday evening, to settle accounts and dispose of unfinished business in connection with the Weston Fair. It is reported that the directors will also discuss the advisability of having the fair ground leveled off and graded this fall, so that it will be in first-class shape for next year. They may also discuss the erection of a grand stand.

SIDEWALK CYCLIST RUNS A BOY DOWN

Lad Badly Bruised and His Ankle Hurt—Firemen Called to Grass Fire.

About 5:30 last night the fire brigade was called to a grass fire at the city limits on Roselawn avenue, North Toronto, which had assumed serious proportions. A good application of the hose soon put an end to it, however, and no serious damage resulted. A nine-year-old boy named N. A. Amott, 195 Mount Pleasant avenue, was knocked down yesterday morning by the fire engine, which was riding a bicycle on the sidewalk. Young Amott was badly bruised on the temples and got his ankle sprained.

INJUNCTION BARS GOOD ROADS WORK

Grade of Yonge Street at Thornhill Too High, Says G. H. Watson, K.C.

Speaking to the World last night regarding the uncompleted section of roadway on Yonge street near Thornhill, E. A. James, the good roads engineer, said that the delay had been caused by an injunction issued by G. H. Watson, K.C., to halt the work until a dispute regarding the grade of the road had been settled. Mr. Watson claims that the grade planned by the commission is disadvantageous to his property and wants it lowered. The commission on the other hand claims that the grade planned is the one which will result in a satisfactory highway. In the meantime nothing can be done until the injunction is removed.

RESTAURANT SITE ON BAY STREET

Ernest McConkey to Erect Building Adjoining the National Club.

Negotiations were brought to a close yesterday, whereby buildings adjoining the National Club, at 111-113 Bay street, and occupied by the Federal people of Ontario, has been acquired by Ernest McConkey, who will it is announced, extend the site to erect a five-story restaurant on the site. Mr. McConkey has obtained a building permit, and the work of erecting the building will start about the first of December. Besides providing for a restaurant, the building will also be used for the accommodation of guests. He expects to occupy the new quarters by the first of April. The price paid for the property is not disclosed.

CORNERSTONE LAYING AT METHODIST COLLEGE

Invitations have been received here by the Methodist general conference officers to attend the laying of the cornerstone of the new Wesleyan Theological College. The ceremony will take place on Saturday afternoon, Oct. 4. A deputation from the electrical contractors recommended the institution of a municipal electrical installation inspection bureau on a self-supporting basis. They contended that there are many most hazardous installations now, and the only check is to raise the rate of insurance. They were promised consideration of the matter.

FORMER GALT MAN DEAD

GALT, Sept. 25.—The death is announced here of Dr. C. Lutz, brother of ex-Mayor Lutz, who was secretary-treasurer of the G. P. and H. Ry. Co. at Exeter. He was a native of Galt, was educated at old Tassele school and Toronto Medical College, and had been in active practice nearly fifty years.

LOCAL CONTROLLERS COMMITTEE GIVES OFFICIAL FIGURES

Five Thousand Surplus Claimed, But City's Ten Thousand Credited.

HAMILTON, Sept. 25.—(Special.)—The controllers at their meeting this morning were given a report on the financial statement of the centennial committee, and, needless to say, it received immediate attention. The balance of the sheet it was noted that, instead of an alleged deficit, there was a surplus of \$4,800. The following figures were given: The total amount of the centennial committee's receipts, \$10,000, which it expected to credit to the centennial fund on a promise alleged to have been made when the centennial work was undertaken. Deceiving, Says Bird. Controller Bird remarked that the statement was not being satisfactory, and, in fact, he seemed to be deceived in every respect. "And this is what we have waited for," he said, "I'm absolutely ridiculous, and I'm sure you are too. How do you realize \$4,800 in the hole, instead of having a surplus? In the first place, the name of every person who subscribed money should be published, with the amount. My report said that some \$9000 had been subscribed. How do you realize \$4,800? PRINCE CAMILLO WEDS THO DYING

Rospigliosi Acts on Death Bed for His Son and Heir.

CANCER CAUSED DEATH "Black Aristocrats" Opposed Social Recognition of the Princess.

Special Cable to the World. Copyrighted by The Toronto World and N. Y. World. ROME, Sept. 25.—In spite of the emphatic denial issued yesterday by Prince Camillo Rospigliosi, it appears to be true that the late Prince Joseph Rospigliosi, who married Mrs. F. H. Parkhurst of Bangor, Maine, civily in 1901, actually went through the religious ceremony of marriage with his wife on his deathbed.

The world correspondent is in a position to state that the late prince, realizing the approach of death, was determined to do all in his power to regulate his position, chiefly for the sake of his son and heir, also named Joseph, who was born in Rome on Aug. 27, 1907, the first born by Princess Francis, born Aug. 2, 1902.

The priest who visited the prince to administer the last sacrament, refused to grant absolution until he had obtained a special dispensation from the Pope at the last moment. This enabled him to perform the marriage ceremony at the deathbed.

The prince retained consciousness to the last moment, cancer being the cause of death. The date of the funeral has not yet been fixed.

Social ostracism. The fact of a deathbed ceremony appears to be established, there evidently in some other mystery. Princess Rospigliosi herself indignantly denies the report, which, if true, would imply that in the eyes of the church, she had lived irregularly with the prince for 12 years. On the other hand, her denial implies the continuance of the social ostracism which the princess now has the opportunity of defying.

There is no doubt that in Roman society there is very strong prejudice against Princess Rospigliosi, who was divorced from Col. Parkhurst, his being given the custody of their two children.

Stories have been circulated of a quarrel between the American princess and the wife of Prince Camillo, brother of Prince Giuseppe. Another bitter enemy of Princess Joseph is Duchess Brandini, a rigid member of the "black aristocrats" at the adherents of the Pope and Vatican are called. Duchess Brandini led the campaign against social recognition of the princess.

Among the jewels of the Rospigliosi family is the famous pearl necklace presented by Louis XIV. to the niece of Cardinal Mazarin, with whom the French King was in love.

This necklace was previously held by Prince Camillo Rospigliosi, commander of the Papal Guard, who, with a numerous family, was regarded as the head of the family until the late prince's marriage to Mrs. Parkhurst, the famous beauty, Mary Jennings Reid of New Orleans and Washington, before her marriage to Col. Parkhurst of Bangor, Maine.

Training the Senses

There is no instinct of the child more important and less guarded than the exercise of his senses. The inner being awakes by means of the impressions conveyed to the young brain thru the senses: seeing, hearing, smelling, touching and tasting. The baby begins his life work as soon as his eyes can fix themselves on any point in space, as soon as his hand can grasp any object.

The thing which prevents most of us from being what we might have been is the dull stupid way in which we have used our senses. We do not use our eyes and ears half enough. The joy which comes from nature's pictures, the poetry and glory of all creation lie unseized about us because the windows of the soul have not been opened.

Half the wealth of the world is lost to most of us from lack of power to perceive. The difference between so-called clever children and intelligent ones is largely a difference in their ability to use the senses.

For the purpose of training these neglected possessions the kindergarten has games in which first one sense and then another is exercised and strengthened. For example, the child sits in a circle and is told the names of objects, or by hearing tells the object struck to make a sound and what struck it, or by touch or smell he describes and names an article placed before him.

He is given two objects that he may contrast them or required to distinguish between two sounds or tastes so that the higher faculty of comparison is developed by the game. Thus the children when young learn to hear and see the finer things so often missed by the adult. The habit of contrasting or comparing material things leads to a fitness of distinction in higher matters. "Rush" claims that a love for the beautiful in nature leads to love for the beautiful in the moral world.

EFFICIENT HOUSEKEEPING BY HENRIETTA D. GRAUEL DOMESTIC SCIENCE LECTURER

FALL DRAPERIES

At least one always has pillows that need new covers, or a window that gives excuse for a convenient box or seat, or a seat that we can handle the gorgeous and rich, or delicately traced, patterns of art design.

Beautifully the home with one's own handwork is a lovely task that reflects the occupant's own taste and originality, for it does not require wealth alone to furnish homes attractively; ingenuity and time are just as indispensable.

It was John Milton who wrote, long ago: "Nothing lovelier in woman can be found than to study household good."

The new art weaves recognize the fact that material suitable for heavy furniture will not answer for hangings and draperies, so the same design is now carried out in light, weight and heavy materials. Girls going away to school can easily make their private rooms cosy and bright with a few yards of the new patterned goods. As dormitory rooms always lack adequate closet space, flowered denim for covering hat and skirt waist boxes and a pillow or two should be provided. Goods of the same, or similar designs, in chintz or silk should be taken to cover the screen that every girl finds so necessary in her bed-sitting room.

The dresser, especially, like pin tray and cushion, writing pads and throws, have goods of still different materials with smaller designs of exactly the same patterns.

The best of these new goods are practically everlasting, for new ways of dyeing have been discovered that make their colors fast and some mills wash and press every piece of goods before it is finished so that the color can be insured against soap and sunshine.

Furniture that you are tired of will seem like new if covered with some of the bright new effects, and the old hangings, that look plain and dull beside the new stuffs, may be brightened too. One of the clerks, in the art store says that most ladies buy a yard or two more material than they need, and apply it to their old curtains or portieres with good results.

There is nothing prettier than white swiss for upper windows; the new patterns are dotted and have paneled edges of color. The above hint could be used in bringing the old swiss curtains, that have done duty for a season or two, up to date.

SOCIAL REFORMERS HOLD CONFERENCE

Controllers McCarthy and Foster Discuss the Temporarily Insane.

WOMEN'S DETENTION

Rev. S. W. Dean Speaks of Vocation of Burnside Hospital.

A committee of social service workers had a conference in the city hall yesterday with Controllers McCarthy and Foster over providing institutions for first treatment of the temporarily insane, for a detention home for women, and for the first time and awaiting sentence and for a custodial institution for the feeble-minded.

Controller McCarthy explained that the expectation is to secure Burnside Hospital for a psychiatric clinic, or detention hospital for the temporarily insane; that an industrial farm for women is now being secured and that Hon. Mr. Hara has recently intimated that the provincial government is arranging to provide a custodial institution for a detention house for women under arrest for the first time. Mrs. Huestis stated and the idea was approved.

Rev. S. Wesley Dean said that the Burnside Hospital will be vacated at the end of next October. "The detention home for women could be arranged for in a building in rear of the Victor Home for Girls on Jarvis street if the city would fit up the building and bear the running expenses," Mr. Dean said.

Mr. Ames, municipal lodging houses for expected inmates of people from the Balkans the coming winter was brought up, and Mr. Dean stated that the city would fit up the building and bear the running expenses. Mr. Dean said.

Building a Rockery.

Continued from Yesterday.

It must be carefully borne in mind, that rocks, while serving to assist in the general drainage of the soil, can also be made use of to conserve the moisture, and direct its course where required.

Such being the case, care should be taken, in setting the rocks, to see that they point upwards, so that the rain and water in general, no matter where it may come from, may be deflected towards the roots of the plants, and not away from the roots, as too often happens.

Another point; if a small surface of rock be left open to the sky, it will serve to collect a certain amount of moisture, which moisture will soak inwards, towards the body of the rockery, if the exposed surface of rock was sloping upwards, and not simply standing upright.

Combined water gardens and rock gardens are often very successfully managed, even in the case of small gardens, and no one can deny the pleasure they are capable of giving.

Keeping in mind these few very elementary truths regarding general rock works, any gardener may make such a bed that will furnish him with shelter for the whole year around, not excepting the few weeks when the snow may possibly be some feet deep.

Remembering the principle laid down by certain expert gardeners, that is, to build no form of garden decoration without that decoration fulfilling some very definite purpose, do not forget that at the same time that the purpose of a rockery or rock garden, is, either for pure ornament, or for the purpose of filling an ugly corner, or again for the purpose of hiding some undesired object.

The clever gardener will not forget to introduce an element of mystery in his planning, because as was remarked, to arouse the curiosity of any observer is also to stimulate his imagination. This we spoke of before.

What then, more mysterious, than a winding path disappearing behind a rugged rockery? Or again, what more stimulating to the imagination, than the sight of a double-flowered holly-hock, peering curiously over the top of a fairly high rockery? We wonder at once what mystery is hidden behind that rockery. Or, where are those holly-hocks growing?

ST. MARY'S MATTERS OF SOME INTEREST

Weir and Weir Apply for Increase in Their Horsepower.

CARTER MILL BYLAW

Bracebridge Wins Lacrosse Game Before a Large Attendance.

ST. MARY'S, Sept. 23.—Messrs. Weir & Weir, a large increase in trade in their chop feed mill. They have made application to the board of water, light and heat commissioners for an increase from 30 h.p. to 50 h.p. They have engaged a millwright to prepare plans for installing new machinery in their mill to manufacture a new grade of flour.

Messrs. Holman, cattle dealers, of Waterloo County, have purchased 100 steekers in this district, to be shipped to Waterloo County.

The voting on the Carter milling by-law takes place on Saturday. Although many are in favor of the by-law, there are others who oppose it on the ground of inadequate security.

South Perth Agricultural Fair opens today. Tonight is citizens' night, and the Kitty Band will be in attendance. On Wednesday the stock exhibit and speeding events will be the attractions. It is expected that J. Dellow, the St. Mary's champion runner, will take part in the foot races of the day.

The water, light and heat board, at a recent meeting, decided to take off all the street lights and replace them with Tungsten cluster lights, with an addition of 20,000 candle power incandescent lamps, distributed to various dark streets of the town. With this change St. Mary's will be one of the best lighted towns of the province.

Miss Myrtle Colver is spending the week with her aunt and uncle, Mr. and Mrs. R. J. Teskey.

About 300 local sports attended the lacrosse game at Brampton yesterday between the Alerts of St. Mary's and the Bracebridge team, resulting in a score of 10-2 in favor of Bracebridge.

The town boys were much pleased with the reception given them after the game at the Victoria Hotel.

Mr. Snelgrove, formerly of the Royal Bank, now of Toronto, is visiting friends in town.

THE DIFFERENT PLAYER-PIANO

What is Accomplished by the Aluminum Acting.

The aluminum action, which is a distinct feature of the player-piano made by the Heintzman & Co. Limited, gives it an exclusive place among the player-piano manufactures anywhere. This kind of action is found in no other player-piano. It makes the instrument proof against air leakage, a common weakness of the average player-piano. Where air leakage takes place the efficiency of the instrument is seriously impaired. Again the aluminum action preserves the instrument against climatic changes, with the result that the Heintzman & Co. player-piano has found a large sale in all parts of Canada, many having been placed in the northwest provinces. You are invited to witness the daily demonstration of this different player-piano in the warerooms of Heintzman & Co. Limited, 193-195-197 Yonge street, ed.

FIVE CONVICTS IN DASH FOR LIBERTY

Overpowered Sing Sing Guard and Plunged Into Hudson, But Were Caught.

OSSINING, N.Y., Sept. 25.—(Can. Press.)—Five convicts at Sing Sing prison at work unloading a coal barge, overpowered a guard this afternoon, jumped into the Hudson River and attempted to swim to the other side. The shots of other guards halted them, however, and all five were recaptured. Billy Green, leader of the band, was brought back from mid-stream in a rowboat.

Green, who two years ago escaped and was brought back after being caught in California, hesitated a moment after the shots were fired, but continued toward the opposite shore when he saw the guards busy attending to his companions, Frederick Dehart, Joseph White, Matthew Lookee and Louis Price. Two guards in the small boat overtook him before he reached land, however, and he was captured without a struggle.

The convicts on the barge were in charge of Keeper Wm. Gormley. The five sprang upon him and knocked him down. Armed men in the sentry boxes on the other side overlooking the Hudson peeped the water on all sides of the swimming convicts with bullets but took care not to hit any of the men.

EXPRESS COMPANY SHIFTS.

LONDON, Sept. 25.—(C.A.P.)—In consequence of labor troubles at Liverpool, the Canadian Express Company has transferred its staff to Bristol and shipped all outward traffic from that port. Canadian importers will therefore experience no delay in receiving goods.

WILL NOT CHANGE HOURS OF STUDY

Request from Jarvis Collegiate Institute Not Granted by Management Committee.

RYERSON IS CROWDED

Half-Time Classes Decided Upon to Relieve Present Congestion.

A petition from the pupils of Jarvis Street Collegiate Institute asking that their hours of study be changed so to have a single session daily ending at about 2 p.m. was the prominent feature of the meeting of the management committee of the board of education yesterday.

The committee decided not to grant the change asked for, during the discussion upon it Dr. Noble declared that 2 1/2 hours' continuous study was enough; a long sketch of study, such as the petitioners asked for, would be either injurious to their brains or affect their progress. Following are the reasons given by the pupils in favor of the change:

A great many of the students now in attendance bring their lunch and find the noon period too long. The majority of those who do go home have to use the cars to get there. Those who live far away from the school get home so late that the day is gone.

It has proved very successful in Oakwood and university high schools. This plan is generally adopted in the best schools of the United States. A few hours spent in the open air each afternoon will give a pupil renewed vigor for the evening study.

A large number of pupils are distracted from their evening studies by entertainments of various kinds. These would be able to do their homework in the afternoon and thus keep up with their work.

Studying by artificial light is very harmful to the eyes. Most of this work could be done by daylight if the plan were adopted.

A motion was also passed discontinuing the one session plan of study now being followed at Oakwood high school. It will have the same study hours as the other high schools, the change to come into force after New Year's Day.

Mental Defectives. The special committee re mentally defective children recommended that an ungraded class for backward children be established in McGill street school and other centres recommended by the inspectors. The class will meet in the kindergarten rooms and parents will be held responsible for bringing the pupils safely to and from the school.

An educational progress committee to report any new methods of teaching adopted by education boards throughout the world was appointed thru a motion by Dr. Noble. It will have as its members: A representative of the board of education, of the management committee of the high schools, principals of the board of inspectors, and of the high school of commerce.

Inspector Chapman reported that 423 children in Ryerson school were in five primary classes in addition to two classes crowded into the basement. On motion of Dr. Noble six primary classes will be put on half time or part time to relieve the

crowding, it was stated that the finance committee had no funds left for more portable schools. Trustee Lewis said it would be 1915 before a start could be made on a new Ryerson school. The additional classes asked for by Chief Inspector Cowley, one each for Earl Grey and Norway schools, were granted. Inspector Chapman's request that the commercial class pupils of Palmerton school be transferred to the other schools having a commercial course, was not only opposed by Principal Hill, it was referred to a special committee for settlement.

A representative Methodist Brotherhood convention is to be held in Toronto during the first week in November. Representatives will be present from the brotherhood associations of all the Methodist conferences in Ontario.

STB. HADDINGTON RELEASED.

PORT COLBORNE, Sept. 25.—(Special.)—The stranded steamer Haddington, which went ashore several days ago, was released today by the Reid Wrecking Co. After lightering several hundred tons of coal, she was brought into the harbor here this afternoon, and divers are now making an inspection of her damage. She will be taken to Buffalo, where her cargo will be unloaded, and the steamer docked.

FRIDAY MORNING, SEPT. 26. THE MEANING OF THE MESSAGE. The Montreal Star is pleased to observe:

One paragraph in Mr. Borden's Halifax speech, in which he took a look into the future, has naturally attracted a great deal of attention from the press.

Quite properly Mr. Borden says that the pace cannot be forced, and that whatever scheme for unity within the empire is finally agreed upon, will be based upon experiment and experience, rather than upon logic and deduction.

Had our contemporary looked again it would have seen that we were guilty of no such oversight, for in the editorial quoted we said:

Quite properly Mr. Borden says that the pace cannot be forced, and that whatever scheme for unity within the empire is finally agreed upon, will be based upon experiment and experience, rather than upon logic and deduction.

Reduced to its last analysis the position of The Star is this, that eventually there will be an empire parliament in which Canada and the other self-governing nations will be represented, charged with imperial defence and other high matters of state, and unlimited by any written constitution.

Our national parliaments will continue to do everything which it is possible for them to do without imperiling the safety of the empire, and the smooth working of the imperial machine.

It may be doubted, even by those who journey thus far with The Star in agreement, whether a federated empire could be evolved without some written constitution defining and limiting the powers of that parliament.

It would be wiser to limit, or not to limit, the jurisdiction of an empire parliament; by experiment and experience we may learn whether it would be wiser to limit, or not to limit, the jurisdiction of an empire parliament; by experiment and experience we may learn whether limitations are necessary if any are required; but we cannot experiment with such a parliament without establishing it, nor can we learn by experience how it works until after it has been established.

We think therefore that The Star is too impatient with those who ask for the details of the plan to which it is committed. The general end in view—to wit, greater unity and co-operation among the nations of the empire—is one we are all agreed upon, but nothing will be accomplished unless something is attempted, something suggested. A plan, however faulty, is better than no plan at all for purposes of discussion.

The Star and Mr. Ames have the courage of their convictions and deal with the big problem in a way we can easily understand. If there is reason for believing that the Halifax speech commits the prime minister to their proposals, The Star will certainly agree with us, if only from a newspaper standpoint, that many Canadians will "await with

WHAT THE PUBLIC WANTS.

In a play entitled "What the Public Wants," Arnold Bennett satirizes Lord Northcliffe. The Harmsworth of the play is not a bad man; on the contrary his impulses are good. He is so constituted, however, that he cannot accurately distinguish between what is inherently right and what is inherently wrong. He regards public approval as manifested by increased circulation, and vindicating any line of policy which he may adopt.

Of course this is a satire, perhaps cruel and unwarranted. We have no means of judging the private character of Lord Northcliffe, and certainly have no authority to sit in judgment upon him; but one was reminded of the play when reading his hair an hour to his lordship's talk at the Canadian Club respecting the functions of newspapers.

Perhaps in Canada our newspaper editors go to the other extreme, and occasionally talk cant. He lordship is certainly not open to the charge of hypocrisy. He has been frequently compared with William Randolph Hearst, usually the latter in preference. But all the Hearst newspapers advocate certain doctrines and reflect convictions which, right or wrong, are consistently upheld.

Lord Northcliffe and his business associates run some newspapers as Liberals, some as Conservatives, and some as Independents. This cynical attitude has been imitated by at least one successful newspaper man in Canada. If all reports are true, the pleasure of a great deal of this sort of thing before long in Montreal. Will it spread to Toronto?

FALSIFYING THE RECORD.

In the manufacture of history the student finds his most curious problems. His creation out of whole cloth by The Telegram is an interesting phase of the present city situation. It has succeeded entirely to the fiction that a "deal" has been organized to which the mayor, the city council and the Ontario Hydro-Electric Commission are parties to the ownership of the street railway by the city on advantageous terms.

The Telegram also accepts as history various other legends. It speaks of The World scuttling away from the support of the purchase of the street railway. The Telegram could not produce a line from The World to indicate any other policy than that enunciated by Controller O'Neill as having been advocated by us. The World has even been accused by The Telegram of not stating the terms whereby the "deal" doesn't go.

It is possible for them to do without imperiling the safety of the empire, and the smooth working of the imperial machine. It may be doubted, even by those who journey thus far with The Star in agreement, whether a federated empire could be evolved without some written constitution defining and limiting the powers of that parliament.

It would be wiser to limit, or not to limit, the jurisdiction of an empire parliament; by experiment and experience we may learn whether it would be wiser to limit, or not to limit, the jurisdiction of an empire parliament; by experiment and experience we may learn whether limitations are necessary if any are required; but we cannot experiment with such a parliament without establishing it, nor can we learn by experience how it works until after it has been established.

We think therefore that The Star is too impatient with those who ask for the details of the plan to which it is committed. The general end in view—to wit, greater unity and co-operation among the nations of the empire—is one we are all agreed upon, but nothing will be accomplished unless something is attempted, something suggested.

The Star and Mr. Ames have the courage of their convictions and deal with the big problem in a way we can easily understand. If there is reason for believing that the Halifax speech commits the prime minister to their proposals, The Star will certainly agree with us, if only from a newspaper standpoint, that many Canadians will "await with

interest a more explicit statement on that point.

The Philosopher of Folly

When the Oldest Inhabitant wanders down town he gazes around with a sorrowful frown, and says, "This home world, you can take it from me, it's not the same place that it once was. When I was a lad, in the happy old days, the people were better and so were their ways; man's life then was free from all worry and fret; the happy old times I can never forget."

TEXT OF MOTION AGAINST CROTHERS

MONTREAL, Sept. 25.—The resolution calling for the resignation of the Hon. T. W. Crothers, the minister of labor, has been tabled at the Trades and Labor Congress of Canada.

"Whereas during the strike of the photo engravers in Toronto and Montreal, the unionist spirit has been manifested in the Hon. Mr. Crothers and his department to enforce section 37, par. 1 of the Immigration Act; that through his inability to fulfill his office it allowed Mr. Justice Grahame, in the superior court at Halifax, to render the said section useless to Canadian organizations at large; he it therefore resolved that this convention through its proper officers, ask the government for the resignation of the said minister, who one who would be a person capable of understanding and helping the laboring men of Canada in the times of their troubles, as that department was originally intended for."

CONDUCTOR'S LIFE SURELY HAPPY ONE

Tramman Run Own Automobiles is Statement of an Official.

NEW YORK, Sept. 25.—(Can. Press.)—Two railroad officials who have risen from the ranks today told the federal arbitrators in the controversy of the eastern railroads with their conductors and trammen that railroad work offers unequalled opportunities. This was the second day devoted to testimony on behalf of the railroads.

E. H. Hewitt, assistant trainmaster on the Bessemer and Lake Erie, said that far from being overworked, some of the conductors on his road had time to spare to run their own automobiles. Mr. Hewitt was at one time a brakeman and conductor and later chairman of the grievance committees of the Brotherhood of Trainmen and of the Order of Railway Conductors.

"The reason trammen west of Chicago get more money," he said, "is that the west territory is so desolate that the railroads must pay more to get the men. I do not think there is any difference in the actual work in the two territories."

The second witness was John Patterson, trainmaster of the Pittsburg division of the Pennsylvania.

SOCIETY CONDUCTED BY MRS EDMUND PHILLIPS

The Upper Canada College prize day will be held on Friday, Oct. 10.

The Lady Sybil Grey will sail for home on Oct. 2, from Quebec. Since her arrival in Ottawa, Lady Pope has given a luncheon at the Golf Club for her Mr. and Mrs. Edward J. Pouquier, her hosts, also gave a dinner at the Country Club in her honor. Mrs. Charles Kingsmill gives a tea for her today.

The marriage takes place this afternoon in the Church of St. Anne, Parkdale, at 4:30, of Miss Elsie J. Morine, to Mr. Percy H. Ross.

Col. and Mrs. T.D.R. Hemming, Miss Grace Hemming and Captain and Mrs. A. de Bowring Bell, Toronto, who have been camping down the Rideau, have returned to Kingston.

Mrs. Stanton, London, was the guest of honor at a dinner party given by Col. and Mrs. Victor Williams at the Country Club. Mrs. Williams also invited a number of Mrs. Stanton's friends to meet her at Ottawa on Wednesday.

Mr. Percy H. Ross gave a dinner last night in the banquet hall of the King Edward in honor of the bride of today, Miss Elsie Morine. There were fourteen covers and the party afterwards went to a theatre. The table was extremely pretty with pink Killarney roses and ferns, and silver candelabra with pink shades.

Miss Jessie Peuchen will be one of the pretty girls coming out this winter, and there are rumors of a dance being given for her.

Mr. and Mrs. Robert Gill from Ottawa are visiting Mr. Stephen Haas and were at the races with her yesterday.

Mr. and Mrs. Eason have taken a house in Nanton, Crescent.

Dr. Helen MacMurphy is going to Ottawa and will stay with Mrs. Adam Short.

Mrs. James Scarth has taken a flat at 34 Rowanwood avenue.

Mr. Winfield Sifton and Mrs. Sifton, who spent a short time in Ottawa, have left for Montreal, where they intend to reside.

Miss Enid Wormum, Penetang, is the guest of Mrs. Bassett in Transcona.

Mrs. Harry Samuel received yesterday for the first time since her marriage, in the pretty house in Brunswick avenue, which was a wedding present from Mr. Samuel's mother in England. She looked very pretty in her beautiful wedding gown of soft white satin, with draped and ruffled train, embroidered with bows of seed pearls, a tunic of lace, and corsage bouquet of lilies and a diamond necklace. Her mother, Mrs. Goldstein, who received with her, wore gold satin with lace and a pale blue collar, a black hat with tulle and air upturned feathers of shadlow gold. Mrs. Miller, who assisted in the drawing room, wore pale gray satin with Brussels lace and a black hat with white ostrich feathers. The tea-table in the dining room was polished oak, centred with real lace and a green bowl of yellow daisies. Mrs. Singer, who presided over the tea, wore a becoming gown of pale blue

How to Make Hairs Disappear From Skin

(Beauty Topics.) Expensive or elaborate treatments are not necessary for removing objectionable hairy growths, for with a paste made by mixing water with powdered salicylic acid the hairs can be made to vanish quickly. This paste is applied to the skin and after 2 or 3 minutes rubbed off, and when it comes every trace of hair. Washing leaves the skin clear and smooth.

Eye-brows will be greatly beautified by rubbing pyroxin on frequently, and short, straight eyelashes will grow long and slightly curly if pyroxin be applied at lash-roots with thumb and forefinger. Use care not to get any pyroxin where no hair is wanted.

LANKOW CONCERT WAS A SUCCESS

Singer Has a Voice of Great Distinction With Full Tone.

Toronto had an opportunity last night at Massey Hall to hear Edward Lankow, basso profundo of the New York Metropolitan Opera. Toronto does not respond readily to the advances of a strange artist, but last night's audience was quite equal to the record of such occasions.

Mr. Lankow has a voice of great distinction with full round tone in the lower register. His lower notes are as deep and resonant as those of many historical basses, but this quality does not extend to the upper register, which is more delicate, but always artistic. He seemed unfortunate in a program that awakened few sympathies, and so long as the custom is perpetuated of singing to English-speaking audiences in foreign languages the singers are put at a great disadvantage. They won't stand it in Germany, and all songs there have to be rendered in the tongue of the Fatherland. Lord Northcliffe thinks Canadians are patient people. No audience enjoys a song which it does not understand. The wandering minstrel who is wondering what it is all about crowds out the feeling and sentiment the music might elicit.

Mr. Lankow was a victim to the bilingual idea last night in two of his songs. The Mozart aria from the "Magic Flute," given in English, was rewarded with a double call. Of course the fine singing had something to do with this, but there was no real enthusiasm about any other item. The close Flegler's martial "Le Cor" had some applause. The gem of this suite, however, was Kerwin's "A Hero's Song." The drinking song (in German) in the last suite was spiritedly sung, but most of the audience did not know whether they should be inspired to prayers or tears. These remarks are not more pertinent to Mr. Lankow's program than to many others that will be presented this season. It is the beginning of the concert cycle, however, and managers and entrepreneurs might do worse than consider the popular taste in this matter.

Mr. Lankow was supported by Miss Mary Campbell at the piano and Joseph Sheard on the cello, both of whom contributed several solos.

JOS. MICHAUD DEAD AT STURGEON FALLS

NORTH BAY, Sept. 25.—(Can. Press.)—Joseph Michaud, M.L.A., for West Nipissing, is dead at Sturgeon Falls aged fifty-six years. Mr. Michaud represented West Nipissing in the legislature during the last term of the Ross government as a Liberal. He was a prosperous merchant and prominent citizen of Sturgeon Falls, where he served in several terms as mayor and councilman. Several years ago he fell from the roof of a building, sustaining injuries which probably hurried his death. He leaves a widow and seven children.

INCORPORATION A LIVE ISSUE

Mount Dennis Ratepayers to Discuss It Tonight at First Meeting.

Mount Dennis Ratepayers' Association will hold their first meeting of the season in the school house, Dennis avenue, tonight when the main subject for discussion will be "Incorporation." As the executive committee have been digging into the subject during the summer, some well-considered opinions will likely be presented to the meeting. A petition is being circulated for signatures, which will be submitted to the county council when a sufficient number of ratepayers have endorsed it.

MOUNT TEMPLE STILL AGROUND

MONTREAL, Sept. 25.—(Can. Press.)—The stranded C.P.R. liner Mount Temple is still aground and will remain so until a further effort to refloat her has been made tomorrow. The lightening operations carried on from the forward holds of the ship had the effect of causing the stern to sink still more deeply into the mud on which the vessel grounded, and after holds will have to be secured of a portion of their cargo before another effort to refloat the vessel can be made with any justifiable hope of success.

RABIES SCARE AGAIN REVIVED

C. McFarlane Consults Department About Dog Bite. Received.

NO HYDROPHOBIA? Special Serum is Wired for to New York City.

The rabies scare, which for some time has languished in Toronto, was revived to some extent before the provincial board of health yesterday. George McFarlane of Canada street came to the department following the obstinate nature of a dog bite received a day or two before. He had doctored the wound for some time, but at the advice of a physician, had applied to the provincial laboratory for rabies treatment. There was a possibility of the disease developing, he was advised. Before adopting the measures of the department and taking the serum, he will consult Dr. Hastings, M. O. H. The city in some instances, will take the responsibility of dangerous dogs running at large on the street.

McFarlane, who is a barber in West Toronto, states that while proceeding along Alton street, an Irish terrier seized his leg above the ankle. The dog easily eluded its chasers. After a day's treatment with home remedies the wound began to fester badly, and McFarlane consulted Dr. M. McCormick, of 113 Spadina avenue, and was advised to take the rabies serum.

"The wound appeared to me as an ordinary dog bite, but from a description of the animal it might be judged to be mad," said the physician to The World later.

The treatment will cost \$20. A daily injection for three weeks at least is required under ordinary circumstances.

MINE PAYMASTER IS SHOT IN BACK

Lewis Dean Victim of a Mysterious Attack Near Sherbrooke.

SHERBROOKE, Que., Sept. 25.—(Can. Press.)—Lewis Dean, paymaster at the Amalgamated Mines, was shot in the back by an unidentified man this afternoon while he was driving to Black Lake to pay off the men at the mine. A posse is searching for Dean's assailant. Dean, who is 50 years old, is in a local hospital and his chances for recovery are good.

The paymaster had in his possession a cheque for a considerable amount, but carried no cash. Five pellets from the shotgun which the would-be assassin used entered Dean's back, his life being saved by the fact that the greater part of the gun's charge entered the back of the carriage seat and failed to penetrate it.

THE OVERCOAT FOR MEN

A London born gentleman remarked here the other day that one had to be out of reach of the London tailor to really appreciate the goodness of the London tailoring.

He said he was attracted to the store by an announcement of those London tailored Top Coats in Harris tweeds—Scotch chevots and Irish handloom home-spuns—all guaranteed waterproofed.

There's an individuality to them that you can't get anywhere else.

There's a quality to them that's accepted as standard anywhere in the world—and just because they're the best in the world we have them to sell.

GIANTS GET FIRST GAME OF THE SERIES

Initial Contest of World's Championship to Be Played in New York.

PHILADELPHIA, Sept. 25.—In New York on Oct. 7 will be staged the opening battle for the championship of the world between the Philadelphia Athletics and the New York Giants.

The flip of a coin decided the place and date. Harry Homestead, president of the New York Club, making the right guess as to the date, secured the latter to open the baseball universe and fall to win the National League pennant.

The rules for playing the game are the same as heretofore, except that in case of a legal tie the teams will not remain in the city whose grounds occurred to play it off, but will adhere to the schedule of alternating each day between the two cities.

The National Commission will not have charge of the distribution of tickets, but having left to the respective clubs the method they shall pursue in selling them.

Benjamin F. Shibe, president of the Athletics, much as he wanted the first game played in Philadelphia, is going to respect the wishes of the fans of the two teams.

Members of the National Commission had nothing to add today to their announcement in Cincinnati Wednesday night, that ball players participating in high-league series will be discouraged from writing special articles for the newspapers.

PHILADELPHIA, Sept. 25.—Because the Newark baseball team won the championship of the International League last year, Mayor Husting has declared a holiday for next Saturday afternoon.

Advertisement for O'Keefe's Beer featuring a hand holding a glass and several beer bottles. Text: "They Set the Pace in the Quality Race"

O'Keefe's Quartet of Beer excellence has never been beaten in any field or under any conditions. Competitors study their form and try to imitate their style; but the real excellence of O'Keefe Beers places them in a class by themselves.

O'Keefe Favorites

For a light Beer O'Keefe's Pilsener Lager, "The Light Beer in the Light Bottle" excels all other Lagers imported or otherwise. Ask for the "Light Beer in the Light Bottle" otherwise also described by its friends as the beer that is driving imported lagers out of Canada.

Lovers of mild ales find O'Keefe's Special Extra Mild Ale a constant delight. Pure, sparkling, delicious, mild in stimulating properties, it is "the Beer that is always O.K."

O'Keefe's Gold Label Ale is for the man who desires a stronger full-bodied Ale of rich, creamy, mellow flavor. It is the "Beer with a Reputation."

"The Beer that Builds" is O'Keefe's Special Extra Mild Stout. A Stout rich in tonic and nutritive values; but extra mild and guaranteed not to make you bilious. Play one of the O'Keefe Favorites to-day for home use. Order a case from your dealer.

ONTARIO JOCKEY CLUB TORONTO AUTUMN MEETING SEPTEMBER 20th-27th The Greatest Social and Sporting Out-door Event in Canada. Racing Steeplechasing GENERAL ADMISSION \$1.50

FINAL ARRANGEMENTS FOR GREER-DURAN BOAT RACE. At a conference yesterday between the principals and Referee Joseph Wright, the details for tomorrow's sculling race for the championship of America and England will be kept the same. As their representatives and judges, the competitors appointed Jimmy Rice to act for Duran and Bill Haines for Greer. The race will be rowed from Hanlan's Point a mile and a half east and return. The start will be made between the hours of 4 and 6 o'clock tomorrow afternoon, dependent on the condition of the water. Captain Frank Ward of the life-saving station will have two boats patrolling the course, and it is to be hoped that a clear way will be left for the rowers. Motorboat owners are particularly requested to assist in this regard, so the men may have a fair field and no cause of complaint of interference by outsiders.

WHEAT RECEIPTS DEPRESS MARKETS

Reports from Winnipeg, Minneapolis and Duluth Tell of Mighty Flood.

CHICAGO, Sept. 25.—Wheat today broke to the lowest price of the year. Important hedging sales were in progress on account of remarkably heavy receipts piling in at Duluth and other northwest-ern terminals. Closing prices, the steady; were 1/2 to 3/4 under last night. Corn showed a net loss of 1/4 to 1/2. Oats were off 1/4 to 3/4 and provisions varied from unchanged to a loss of 1/4. Arrivals of wheat for 24 hours at Win-neapolis, Minneapolis, Duluth and other points reached nearly 2,000,000 bushels. In the two last named cities, the movement was more than 300 carloads in excess of receipts of the crop of 1912. It was no wonder, therefore that prices were depressed from the start and that bear leaders seized the chance to hammer the market. Liquidation helped further. Many speculative longs, especially holders of small lots, were forced to let to quotations. The result was a heavy loss of profit-taking by speculators. Liquidation helped further. GENERAL CATTLE MARKET AT CATTLE MARKET

Prices in all the Different Classes Unchanged.

Receipts of live stock at the Union yards were 152 carloads, comprising 2224 cattle, 2107 hogs, 3161 sheep and lambs, and 767 calves. There were some good to choice fat cattle on sale, the bulk being composed of stockers and feeders. There was a fair market trade out of receipts as far as the Union yards are concerned. Prices were steady when quality is considered. Sheep, lambs, calves and hogs sold at Wednesday's prices. Butchers' Choice butchers' steers sold at \$6.50 to \$6.80; good, \$5.75 to \$6.00; medium, \$5.25 to \$5.50; common, \$4.75 to \$5.00; inferior, \$4.25 to \$4.50; choice cows, \$5.25 to \$5.50; good cows, \$4.75 to \$5.00; medium cows, \$4.25 to \$4.50; common cows, \$3.75 to \$4.00; inferior cows, \$3.25 to \$3.50; common bulls, \$4.75 to \$5.00; good bulls, \$4.25 to \$4.50; medium bulls, \$3.75 to \$4.00; inferior bulls, \$3.25 to \$3.50.
