## TWO BRITISH BATTLESHIPS AND ONE FRENCH SUNK BY MINES WHILE BOMBARDING THE DARDANELLES

H.M.S. Irresistible, H.M.S. Ocean and French Cruiser Bouvet Struck Mines Floating in the Stream, After Reducing Several Turkish Forts on Straits, and Sank Almost Immediately---Loss of Life on British Battleships Was Small, But Almost the Entire Crew of the Bouvet Went Down With Their Ship---British Admiralty Anticipated the Loss and Other Ships Were Sent to the Dardanelles Several Days Ago to Replace Expected Casualties---Two Other Ships Damaged by Shells---Reduction of Forts is Being Continued---Panic in Constantinople Following News of Russian Fleet.

Town of Dardanelles is in Flames and Allied Fleet's Bombarding Operations Gaining Every Success.

### TWO BRITISH BATTLESHIPS SUNK IN THE DARDANELLES

Russian Fleet Has Arrived Off the Bosphorus, and the News Has Caused a Panic in Constantinople.

H. M. S. Ocean, battleship, 12,000 tons; cost \$4,500,000; length, 350 ft.; beam, 74 ft.; draught, 27 ft.; speed, 18 knots. Armed with four 12 in. twelve 6 in. and eighteen small Q. F. guns. Sister ships: H. M. S. Vengeance, Albion, Glory, Galloway, and Edinburgh.  
H. M. S. Irresistible, battleship, 15,000 tons; cost \$5,000,000; length, 400 ft.; beam, 75 ft.; draught, 27 ft.; speed, 18 knots. Armed with four 12 in. twelve 6 in. and eighteen small Q. F. guns. Sister ships: H. M. S. Queen, Prince of Wales, London, Bulwark, Venerable, Formidable and Implacable.

LONDON, March 19, 11.10 p.m.—The British battleships Irresistible and Ocean and the French battleship Bouvet were blown up by floating mines while engaged with the remainder of the allied fleet attacking the forts in the narrow of the Dardanelles Thursday. The crews of the two British ships were virtually all saved, having been transferred to other ships under a hot fire, but an internal explosion took place on board the Bouvet after she had fouled the mine and most of her crew were lost. The Bouvet sank within three minutes of the time she hit the mine. The waters in which the ships were lost had been swept of mines, but the British Admiralty asserts that the Turks and the Germans set floating mines of explosives afloat, and these were carried down by the current on to the allied ships gathered inside the entrance of the straits.

All Were Old Ships  
All the ships that were sunk were old ones, the Bouvet having been completed nearly twenty years ago, and the Ocean and Irresistible in 1898. They were very useful, however, for the work in which they were engaged in the Dardanelles. The sunken British ships are being replaced by the battleships Queen and Implacable, vessels of a similar type. They are said to have started sometime ago for near eastern waters in anticipation of just such losses as have occurred. The other ships engaged in the fighting, the British battle cruiser Inflexible and the French battleship Gaulois, were hit by shells and damaged.

Casualties Not Heavy  
The British casualties, according to the official British report, "were not heavy, considering the scale of operations." The damage done to the Turkish forts by the heavy bombardment has not yet been ascertained. It is stated that the operations against them are continuing. The forts attacked were those on either side of Kephez Bay and on Kephez Point, outside of the Narrows, and those on Kilit Bahr and Chanak in the Narrows.

The British admiral gave out the following statement regarding operations at the Dardanelles.  
"An account of the operations at the Dardanelles on the 18th of March: "Mine sweeping has been in progress during the last ten days inside the straits a general attack was delivered by the British and French fleets yesterday (Thursday) morning upon the fortresses at the narrows. At 10.45 a.m. the Queen Elizabeth, Inflexible, Agamemnon and Lord Nelson bombarded forts J, L, T, U and V, while the Triumph and Prince George fired at batteries F, P and H. A heavy fire was opened on the ships from batteries and field guns. "At 12.32 o'clock the French squadron, consisting of the Suffren, Gaulois, Charlemagne and Bouvet advanced upon the Dardanelles and engaged the forts at closer range. Forts J, U, F, and E were shelled. Their fire was answered by the ten battleships inside the straits, all the ships being hit several times during this part of the action. "By 1.25 p.m. all the forts had ceased firing. The Vengeance, Irre-

sistible, Albion, Ocean, Swiftsure and Majestic then advanced to relieve the line, lying heavily, and at 5.50 o'clock sank, having probably struck a drifting mine. At 6.05 o'clock the Ocean, also having struck a mine sank. Both vessels sank in deep water, practically the whole of their crews having been removed safely under a hot fire. "The Gaulois was damaged by gunfire. The Inflexible had her forward control position hit by a heavy shell and requires repair.

The bombardment of the forts and the mine sweeping operations terminated when darkness fell. The damage to the forts, effected by the prolonged direct fire of the very powerful forces employed, cannot yet be estimated and a further report will follow. The loss of the ships was caused by mines drifting with the current which were encountered in areas hitherto swept clear, and this danger will require special treatment. "The British casualty personnel was

not so heavy considering the scale of the operations, but practically the whole of the crew of the Bouvet were lost with the ship, an internal explosion having apparently supervened on the explosion of the mine. "The Queen and Implacable, which have been despatched from England to replace the ships' casualties in anticipation of this operation, are due to arrive immediately, thus bringing the British fleet up to its original strength. The operations are continuing with the

naval and military forces available on the spot. "On the 16th inst. Vice-Admiral Carden, who had been incapacitated by illness, was succeeded in the chief command by Rear-Admiral John Michael DeRobeck, with the acting rank of vice-admiral. "The allied fleet entered the Straits of the Dardanelles at 8 o'clock this morning," says an Athens despatch to the Havas Agency, based on information received from Tenedos.

"Violent Cannonading  
"One ship entered close to Dardanelles, but was forced to retreat before a violent cannonading. "A shell exploded on the British battle cruiser Inflexible, wounding several men, who were immediately transported to the hospital ship. "The town of Dardanelles is in flames. "At six o'clock in the evening, the action had concluded, but was partially resumed during the night. A majority of the forts suffered severely. "The allied fleet entered the Straits of the Dardanelles at 8 o'clock this morning," says an Athens despatch to the Havas Agency, based on information received from Tenedos.

Italy and Greece Must Move  
Now is the time when Italy and Greece must come in if they value their future and their rights. Germany would put them off the map for all time if she could. And if they wish to see the Mediterranean maintained as the great central seaboard of modern civilization they can no longer stand aside. Not that we must call them, but that they must move of themselves.

Great Events in the Mediterranean  
As we predicted the other day, the great war panorama of Europe was shifting to the Mediterranean, and we stated also that it would be of the most momentous character. Yesterday's events bear this out. Three ships of the allied fleet were destroyed by the enemy's mines when attempting to force a passage thru the Dardanelles.

CANADIANS ALL KEYS RIGHT UP FOR WAR'S TASK  
BY FREDERICK PALMER.  
Special to the Toronto World.  
BRITISH HEADQUARTERS IN FRANCE, March 18, via London, March 19, 8.01 p.m.—"Gangway! Look out for that bunch of wagons!" a voice with an American accent called, and one knew he was near the part of the line held by the Canadians.

Now a Fight to a Finish  
So we must keep at the task, send more ships and still more shells, and lose more ships, but keep at it, until the Dardanelles, the Sea of Marmora, the Bosphorus and the Black Sea are made a free highway to all nations and no longer the abode of intrigue, inhumanity, barbarism. In the words of our version of the old Greek hymn:  
Christian, dost thou see them,  
On the holy ground,  
How the troops of Midian  
Prowl and prowl around?  
Christian, dost thou see them,  
Counting gain but loss,  
Smite them by the merit  
Of the Holy Cross.  
Christian, dost thou hear them,  
How they speak thee fair?  
"Always fast and vigil  
Always watch and prayer?"  
Christian, answer boldly  
"While I breathe I pray."  
Peace shall end our battle,  
Night shall end our day.

Today's the Day—For Hats.  
Business in hats at Dineen's, 140 Yonge Street, will be brisk and breezy for months now, but Saturday will remain the "star" day of the week. Today a big preparations have been made, and with the shipments that have been opened up during the week from the foremost makers in the world, selling should be really heavy. The position held by this house in the hat business is unique and extends over 50 years. In that time the most exclusive makers such as Henry Heath, Christy, and Hillgate, London, Eng.; Dunlap, New York, and Stetson, Philadelphia, have placed their faith in this district, almost exclusively, in the hands of the Dineen Company. Come in some time today—store is open till 10 p.m.

His excellency said that the bill should not be considered as a slur upon the people of India; but the government had information that such a measure was absolutely necessary to meet possible emergencies. Nobody, he said, was more zealous of the honor of India than himself. But he was not disposed to allow the honor and fair name of India to be tarnished by the criminal acts of a few unbalanced minds. We may have to lose fifty per cent. of our fleet, but we must lose it. Amethyst Cut Cable  
"The casualties reported sustained on the British cruiser Amethyst were the result of a smart piece of work which she performed in the Dardanelles when, it is stated, she was entrusted with the difficult task of cutting the telegraph cable connecting Kilit-Bahr with Osmak," says the Malta correspondent of Reuter's Telegram Company. The correspondent continues: "She succeeded in lifting and cutting the cable undetected, and had started her return journey when she was discovered. She then had to run the gauntlet of forts on both sides of the narrows, becoming the target of a veritable hail of fire. Going at full speed, although frequently hit, she succeeded in getting beyond the range of the guns and reaching the entrance to the straits." Turkish Announcement

#### RIVERDALE TORIES HELD BIG SMOKER

Stirring Addresses Delivered by Provincial and Federal Members.

**ALL SURE OF VICTORY**

German People Will Be Free After the War, Says W. F. Maclean, M.P.

Optimism regarding the success of the allies in the present war was the keynote of the addresses delivered to a large audience at the smoking concert of the Riverdale Conservative Association in Classic Hall Thursday night. Prohibition of the largest number of speakers that have ever been present in Classic Hall included W. F. Maclean, M.P.; J. Russell, M.L.A.; Dr. Jacques, M.L.A.; the Hon. J. A. Macdonald, M.L.A.; Dr. Muir, M.L.A.; Dr. McLeod, M.P.; and W. D. Robinson, M.P.

Mr. Maclean, M.P., at the outset referred to the time when he was first elected at the present time it has developed to such an extent that three ridings, East, South and West York have been formed. Speaking of the progressiveness of the district "over the Don," Mr. Maclean predicted a population of one quarter of a million in a few years time.

In considering the great far-sightedness of the national policy inaugurated by Sir John A. Macdonald, the member for South York showed that in spite of the criticism leveled at it when first introduced the policy had resulted in an influx of settlers to the four greater Ontario, or the four provinces to the west.

Concluding Mr. Maclean referred to the great European crisis and was very optimistic as to the result, and the outcome, in answering the question "What is the great issue of the war?" he pointed out that it had taken over three hundred years to work out the present system. "Today we have in Britain and her colonies the most democratic government in the world," he said, "in Germany there is a system of government entirely the reverse, militarism is the great thing and this they are endeavoring to push throughout Europe."

In pointing out that the war had more human the emancipation of the German and American system of free parliamentary government.

Must Be Cared For.  
In conclusion Mr. Maclean stated that it was his duty as a representative of the people to see that all dependents of soldiers were looked after in a proper way by the government.

Church referred to the little differences of opinion that had prevailed recently in the ward, but was sure that when the bugle sounded their voices would be cast for the Conservative no matter who might be.

He roundly rebuked the undignified members of Sir William Lams and Henry J. Russell, M.L.A., in a brief address, referred to the possibility of an election in June.

Many New Members.  
Dr. Muir, M.L.A., spoke of the large number of new members in the

Conservatives Held Reunion and Discussed Probable Elections.

The third smoking concert under the auspices of Ward One Conservative Association, held in Classic Hall, Gerrard street, last night, was an unequalled success.

Among the speakers on the platform were Joseph Russell, M.L.A.; W. H. Price, M.L.A.; Captain Machin, Kenora; Controller Thompson, Ald. Footman and J. A. Macdonald, K.C.

Mr. Russell, M.L.A., for Kenora, paid tribute to the qualities of the Hon. W. H. Hearst as a leader and expressed confidence in the result of a probable general election.

All Yeomans forecasted a Dominion election in the near future, stating that it was only the natural termination of the war measures which the government have of necessity been forced to adopt. "When they go to the country I have no fear of the result," he said. "The people themselves, not so much the governments, are urged the purchasing of Canada-made goods to further this end."

#### OFFICER'S LETTER PROVES INSURANCE

Late Gunner Ball's Widow Receives Missive From Major MacDougall.

"I am also writing to the Mayor of Toronto with reference to the insurance on his life."

This extract from a letter to the widow of the late Gunner Ball of Fairbank from Major E. A. MacDougall, officer commanding 8th Battery, C.F.A., is proof that the commanding officers as well as the soldiers were under the impression that all the men from Toronto district were insured. The letter follows:

"From the Officer Commanding 8th Battery, C.F.A., to Mrs. W. J. Ball, Toronto.

"Dear Madam—It is with the deepest regret that I have to inform you of the death of your husband, Gunner W. J. Ball. We were on the sea voyage from England to France, and, as you know, your husband was one of the Battery cooks. The weather was extremely rough and your husband had gone to the kitchen on deck to prepare tea for the men. He was accompanied by two other men, and while they were cooking their turn at the door of the mess over the decks, a wave swept over the gun. Your husband was killed instantly, as was proved by the inquiry held the day after. The army doctor was with your husband within a couple of minutes after he was thrown down, and did all in his power to restore life, by using first aid and stimulants by injections, but life was not restored.

"A court of enquiry was held the day following his death, viz. the 14th instant, to the military authorities for presence of the whole of the battery, who were also called four in a very short time off the few things which I have mentioned. I am also writing to the Mayor of Toronto with reference to the insurance on his life. Your husband was the first casualty in my command, and I can assure you, Mrs. Ball, to me, as I considered his death a very trustworthy, fine type of soldier and man, and one who has laid down his life in the cause of duty. If there is anything I can do for you, I trust you will not fail to let me know. Believe me, yours faithfully,

"E. A. MacDougall, Major."

#### WANT CIVIC LINE BUILT AT ONCE

Moore Park Ratepayers Tired Waiting for Cars on Mt. Pleasant Avenue.

Moore Park ratepayers last night placed themselves on record as strongly opposed to any further delay in the construction of the proposed civic line down Mount Pleasant road, an appropriation of £50,000, was approved at a meeting of the Moore Park Ratepayers' Association, held last night, and unanimously endorsed. The fact that Commissioner Harris had stated recently to one or two members of the executive that no action was being taken by the department relative to the opening up of an outlet south of St. Clair avenue at a central point at the C.P.R. tracks, was unfavorably commented upon.

Not Yet Decided.  
It was stated that the nature of the bridge over the Belt Line at Berton street, whether concrete or steel, had not yet been determined, while the amount of damage to the roadway between Berton and the proposed line, instead of running out to the line, was being considered, and this was not regarded as likely.

Approved New Plan.  
The meeting also strongly approved of the plan to make the members of the board of education one year, instead of two, and adopted a resolution to that effect.

President Nelson was in the chair.

#### NORTH YORK

The annual meeting of the North York Conservative Association, which will be held today in Newman hall, Town Hall, will be addressed by J. A. Macdonald, M.L.A., North York; Hon. Dr. Preston, T. H. Late Robert Clarke, J.P., Had Long and Honorable Career.

The death of Robert Clarke, J.P., who took place at his late residence, 25 West street, at a late hour on Thursday night, removes one of the early pioneers of York Township. This area, which was born in Galway, Ireland, on Jan. 25, 1818, Mr. Clarke's parents emigrated to Canada when he was less than a year old. Mr. Clarke's parents emigrated to York Township, Ontario, in which and the township of York had since resided.

#### SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair.

That beautiful, even shade of black, glossy hair can only be had by brew of a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it falls, it turns gray, streaked and looks dry. It is a sign of age, and a hundred-fold. Don't bother to prepare the tonic; you can get from any drug store a bottle of "Wyeth's Sage and Sulphur Compound," ready to use. This compound is depended upon to bring back the natural color, thickness and shine of your hair and remove dandruff, stop scalp itching and falling hair.

Everybody uses "Wyeth's" Sage and Sulphur because it darkens so naturally and evenly, it makes the hair soft and pliant, and it is a most valuable and beautiful application. It becomes "beautifying" and appears glossy, lustrous and abundant.

**BILINGUAL ISSUE DIVIDING SENATE**

Senator Mason of Toronto Expected to Defend Ontario's Policy.  
 NEAR CRUCIAL STAGE

Senator Power to Move Rejection of Senator David's Resolution.

By a Staff Reporter.  
**OTTAWA, March 19.**—The Dominion senate, which always moves slowly, adjourned this afternoon until Tuesday evening, and the debate upon the bilingual school question will not be resumed until Wednesday. The resolution before the senate was moved by Senator David of Montreal, and reads as follows:

"This house, without derogating from the principle of provincial autonomy, deems it proper and within the limits of its powers and jurisdiction and in pursuance of the object for which it was established, to resist the divisions which seem to exist among the people of the Province of Ontario in connection with the bilingual school question, and believes that it is in the interests of the Dominion at large that all such questions should be considered on fair and patriotic lines and settled in such a way as to preserve peace and harmony between the different national and religious sections of this country, in accordance with the views and feelings of the people, and with the spirit of our constitution."

An amendment will be moved on Wednesday by Senator Bolduc, which will make the resolution read so as to omit any reference by name to the Province of Ontario. Senator Power of Halifax will then probably move for what they call in the house the six months' delay. His motion will be to the effect that further discussions be postponed until the next session of parliament.

The debate up to this time has been rather one-sided. The government supporters have refrained from taking any part in the debate with the exception of Senator Poirier. Mr. Poirier, who is an Acadian, suggested that all controversial discussions should be avoided at the present time.

**WHOLE FAMILY USES THEM**

"Fruit-a-tives" Keeps Young and Old in Splendid Health.

**J. W. HAMMOND, Esq.**  
**SCOTLAND, Ont., Aug. 26, 1914.**—"Fruit-a-tives" are the only pills manufactured, to my way of thinking, which work completely, no griping whatever, and are in plenty for any ordinary person at a dose. My wife was a martyr to Constipation. We tried everything on the calendar without satisfaction, and spent large sums of money, until we happened on "Fruit-a-tives." I cannot say too much in their favor.

We have used them in the family for about two years, and we would not use anything else as long as we can get "Fruit-a-tives."

Their action is mild, and no distress at all. I have recommended them to many other people, and our whole family uses them.

Those who have been cured by "Fruit-a-tives" are proud and happy to tell a sick or ailing friend about these wonderful tablets made from fruit juices.

50c a box, 6 for \$2.50, trial size 25c. Price by Fruit-a-tives Limited, Ottawa.

**PROPOSAL OF WHITE**

Proulx Would Restrict Members' Right to Get Federal Contracts.

By a Staff Reporter.  
**OTTAWA, March 19.**—The House spent the greater part of the day in committee of supply.

Mr. Proulx (Prescott) introduced a bill to amend the Independence of Parliament Act, and a bill introduced in parliament cannot buy from or sell to the government, but the statute is often evaded by the formation of joint-stock companies in which some member has a controlling interest. The bill would make illegal all dealings between the government and corporations in which a member of parliament is a director or largely interested.

**OTTAWA, March 19.**—The House spent the greater part of the day in committee of supply.

Mr. Proulx (Prescott) introduced a bill to amend the Independence of Parliament Act, and a bill introduced in parliament cannot buy from or sell to the government, but the statute is often evaded by the formation of joint-stock companies in which some member has a controlling interest. The bill would make illegal all dealings between the government and corporations in which a member of parliament is a director or largely interested.

**TRIBUTAL TO GUARD RIGHTS OF NEUTRALS**

Sir John Macdonnell Makes Suggestion — British Reprisal Plans Criticized.

**LONDON, March 19.**—Sir John Macdonnell, who is considered an authority on international law, in an article in The Nation, discussing the "New Blockade," suggests that "if the new order-in-council is to be put into operation on a large scale, the proper complement to it is an Anglo-American convention, by which questions arising under the new order might be referred to a joint tribunal."

Sir John says that he considers the order-in-council "a measure of reprisal, and of a degree of stringency unexampled since the order-in-council, which were England's answer to Berlin and the Milan decrees of Napoleon, and that if it be the opinion of the civilized world that a neutral must stand aside, that his rights always are to be suspended in a state of war, let us have the courage to say so."

**IRISH RIFLE CLUB HELD SOCIAL TIME**

Members of the Irish Rifle Association held a social evening in the Temple building last night, the nature of which reminded the guests more of St. Patrick's night than any other occasion. Samuel Dean, the crack shot of the regiment, was made the recipient of a medal presented by Capt. B. Murray of the University Rifle Association.

Ald. D. Spence presided, and in a brief address told of the grand reception accorded the committee which waited upon the minister of militia recently.

Major McGee, who is to be appointed colonel of the regiment, was introduced, and thanked the gathering for the honor to be bestowed. Major Egan was present and told of the good work the men had done in the past. A musical program was given.

to go into the trenches had been gladly granted. The correspondent stood on his feet on the next day, with a sergeant from Ottawa as his guide to the battalion headquarters.

Passing thru the ruins of a village, the sergeant remarked that the Germans are not satisfied yet. They chuck a few shells into the wreckage every day. The shells make us kind of nervous at first, but we are used to them now, all right."

In a peasant cottage, battered as tight as a photograph, a room, an enemy fire at a light—the commandant found the battalion commandant in the cellar and found the officers of the battalion staff in dugouts. The officers remarked that a shell had knocked off a piece of the roof the other day, but that the missile did no harm except to make some dust.

"The colonel was going down into the trenches himself for the night, and

# SIGNAL SUCCESSES FOR RUSSIAN ARMS

## Big Movement Under Way Against Germans and Austrians.

(Continued From Page 1.)

but it is terribly strewn with dead. Incessant and stubborn fighting continues above the Narawa River, near the frontier. Separate columns employing great forces attack and counter-attack for the possession of the villages on dry elevations. The worst bloodshed is always in the village main street, where machine guns pour shot from the windows, and bayonet fighting lasts through the streets.

### RUSSIANS STEADILY ADVANCE.

Special Cable to The Toronto World. PETROGRAD, March 19.—The Russians are advancing steadily up on East Prussia. One column is now fighting in German territory within a few miles of Memel, and the second is fighting in the neighborhood of Tauragon close to the German frontier and one march from Tilsit. The Russian successes in this region are particularly gratifying inasmuch as they are fighting in the enemy country even within their own political frontiers. The German barons of the Baltic provinces, in whose hands lies the administration of the country to the exclusion of other nationalities, have proved themselves after centuries of ease and power under the Russian flag to be after all only Germans. Nearly two hundred miles due south of the Memel, the Russian lines have advanced within a half day's march of the German frontier. Apparently the Germans here are quite broken beyond the power to organize an adequate defense. They have more difficulty in surrendering now than ever before as the exasperation of the nations they have tyrannized for centuries, are disinclined to give quarter. This fact also counts towards an explanation of the increasing cases of open desertion by the German troops which is quite a new phenomenon in this war.

### Rivers Overflow.

South of the lower Vistula, the Germans are being ingulfed by the overflowing of rivers which in some cases have flooded them out of their trenches. Heavy cannonading is kept up in several sections of this front from the Bzura to the Sopotnik. In the neighborhood of the Pilica River, where the Germans have made another violent series of attacks, their

# Cruiser Karlsruhe Lost Say British Admiralty

## Practically No Doubt Remains That Raider Was Sunk Off West Indies, and That Some Survivors Have Reached Germany.

LONDON, March 20.—(140 a.m.)—The secretary of the British admiralty announces that there is every reason to believe that the German cruiser Karlsruhe was sunk in the neighborhood of the West Indies at the beginning of November, and that those of her crew who were rescued reached Germany early in December on the steamer Rio Grandé, which had been acting in concert with the Karlsruhe. Reports of the sinking of the Karlsruhe have been current during the past few days. The most circumstantial stated that the cruiser was wrecked by an internal explosion, and that some survivors had been landed at a German port.

# BATTLESHIPS SUNK

(Continued From Page 1.)

that the allied fleet approached the Dardanelles forts and opened a heavy fire. The forts returned the fire and shelled Anglo-French warships with great effectiveness. Official reports said that several of the enemy's warships withdrew from the battle line, badly crippled, before the allied fleet suddenly tided over and began to go down. Turkish warships, the war office also announces, had torpedoed the Russian torpedo boat base west of Theodosia in Crimea, setting fire to many buildings and damaging Russian war craft. This was the first confirmation of reports circulated two weeks ago that the Turkish fleet has withdrawn from the Dardanelles strait and is operating in the Black Sea.

### The Ships Described

The British battleship Irresistible was commanded by Captain the Hon. Stanhope Hawke, and in times of peace had a complement of 780 men. She was the largest of the three allied battleships sunk, being of 15,000 tons displacement and 430 feet long. The chief armament of the warship consisted of four 12-inch and twelve 6-inch guns. She also carried sixteen 12-pounders, six 3-pounders, two tubes and was protected by Krupp armor. The speed of the warship was 18 knots an hour. She was built in 1898 at a cost of \$5,000,000.

### KLEINE RELEASES THREE REELER.

"The Crimson Clue" is the title of a new three-reel subject to be released under the Kleine standard in the near future. The story deals with a so-called incurable disease and the mistaken gratitude of a victim saved by a doctor who, afterwards, uses his patient to commit a crime for him. The patient is required to commit a crime for him. The patient to commit a crime for him. The patient to commit a crime for him.

the country upon the fact that the need of such a measure had hitherto not been felt. But in this instance it was a special power to deal with emergencies, and to nip in the bud manifestations of disloyalty which were being the confidence and the pliancy of the general loyalty of the country. Sir Reginald said he was obliged to the Pacific coast of America. Some deluded men, with poisoned minds, had returned from those parts to India, and had committed months and had committed acts of violence in Bengal. There had been a brief recrudescence of seditious activity and the two movements were not unconnected.

### Looting and Incendiarism.

In the western Provinces there also had been looting and incendiarism, as well as a racial conflict between Hindus and Mohammedans. This last danger, he said, could only be really serious, if it were not checked in its incipency. The bill was in two parts—the first modelled generally upon the British Defence of the Realm Act. The second provided for the creation of a special tribunal of three commissioners to hear such cases as were made over to them by order of the local government concerning offences punishable by death, transportation, or imprisonment for seven years.

Many native Indian members of the council spoke in hearty appreciation of the main principles of the bill which had been introduced by Sir Reginald Craddock thanking these honorable members for their support. At the opening of the council, Baron Hardinge read a message from Sir John French, paying a splendid tribute to the gallantry displayed by the Indian troops in the action at Neu-Chapelle, and his excellency's reply to Gen. Willcock's reply, expressing the admiration of the Indian Empire at the fine showing of the Indian troops on that occasion.

SATURDAY MORNING, MARCH 20.

Varsity at the Front

Over six hundred graduates and undergraduates of the University of Toronto have taken their places in the army for the front...

It has been said that some go there by because others have gone, and that the example of the first troop will draw a great many more...

In this war there have been considerable differences of opinion, and in Canada especially the whole situation has been viewed from an angle entirely different from the British islands' point of view...

As far as the University is concerned there was naturally at first a difficulty about students just coming up for their term, leaving their classes and going to the front...

Another point has been settled to the satisfaction of the students. It was doubted whether a student enlisting in Toronto would have the protection of the city insurance provision...

But apart from details of this kind Canadians are coming to appreciate more fully the life and death nature of the tremendous struggle with Prussian militarism...

More and more urgently comes the call for revision of the municipal method of assessment. The Assessment Act requires all property to be assessed at its full value.

WILL THE HONORABLE GINK PERMIT ME TO RELIEVE HIM?

now complicated by the decision of the government which, by a new act of the legislature, is imposing a war tax on one mill on all real property...

There is only one remedy, and now that the provincial government has a direct interest perhaps it will see that the law is obeyed and have all properties assessed at actual value...

There may still be a few short-sighted people who think because they are assessed lower than their property is worth that they are thus getting an advantage.

Other properties exempted by the municipality for various reasons, will be liable for the one mill war tax, and here a new injustice has come to light...

Undesirable Neighbors. Germans have been proved by this war to be undesirable guests and undesirable neighbors...

Events in South Africa, as in other parts of the British Empire, have not turned out to the German liking. General Botha was not to be moved by German machinations...

Losses in the Dardanelles. Those who think that the main British fleet should have at least at one unbroken line of bursting shells...

THE BACKYARD GARDEN CAMPAIGN

Dr. C. C. James Shows the Necessity of Growing One's Own Vegetables.

At a meeting held in C.O.F. Hall last night, at which a campaign was inaugurated to make a more aesthetic and healthful Toronto by encouraging the making of backyard gardens, Dr. C. C. James, one of the speakers, said: "Did you ever have a friend who owned a little garden plot worked by his own hand? If so, you will remember how he urged you to come to see his handiwork, and how proudly he showed you the produce of his toil as really supplying what can be done in a little plot, even though it be in one corner of the back yard."

"One of the benefits of the country after the war will be the food, stuff, and it behooves us to take the lessons of back gardening seriously, you or the most ordinary of the people, if you would see what could be saved in grocery bills by producing vegetables in your back yard."

"Prof. H. L. Hutt, who has recently given a course of horticultural instruction at the Metropolitan Land Building and Savings Co.'s Land Building, whose direction the campaign is being conducted, gave an exhaustive lecture on 'Making the Most of a Backyard Garden.' The lecture was well illustrated by lantern views, but owing to an accident the views were not shown."

"The back yard should be one of the delightful features of the home, a sort of outdoor extension for restful enjoyment, for regenerating and profitable employment as one may feel disposed," he said. "A place where the husband may rid himself of the worries of the office, where the wife may have refreshing change from the monotony of indoor duties, and where the children may work off their excess of energy in the fresh sunshine from the dust and danger of the street."

Enclosing the Back Yard. "Because the high hoards, fences, so generally in use, are unsightly, unhealthful and a detriment to good gardening, we are advocating their general removal and recommending as a substitute neat wire fences, which do not shut out sunlight and prevent the free circulation of air, so essential to healthful plant growth."

"Some may think this would mean a sacrifice of privacy and seclusion, one of the more desirable features of the city. On the contrary, a back yard offers an opportunity for growing and enjoying the luxuriant vines and climbing plants which may be made to cover the fence and flowers, infinitely more satisfactory than the ugly old board fences."

Tomato Ranks High. "If there is one plant more than another that reveals in the hot sunshiny position it is the tomato, and while it may be too plebeian to be rank as a high-class ornamental, yet if there is any truth in the old saying that 'Handsome is that handsome doer' tomato ranks high as an economic ornamental. When grown to cover a fence, tomatoes should be planted about a foot apart and trained to the top of the six-foot fence and bear rich red clusters of fruit from the ground up."

"For the selection of plants for a good seed catalog, and if in need of further help, write to us and we will help you with the selection. Many seeds can be started from the plants which may be obtained as bulbs or transplants as may be desired. Lists of various kinds may be obtained in any vacant spots in the border, so that every inch of ground is utilized."

ROYAL YEAST CAKES

ROYAL YEAST CAKES ARE USED AND ALWAYS GIVE PERFECT SATISFACTION

How Britain Maintains Her Coast Patrols Against German Raiders.

This drawing, which is but one of the many exclusive pictures in this week's Sunday World, illustrates the great work that the British patrols are doing in protecting England's shores. There are many other fine war pictures from the home land. Another shows how many fast tramp steamers have been fitted up as patrolling boats, while the funeral of the captain of the Emden, who died in Edinburgh, is an impressive sight.

UNWILLING GUESTS—HOW WE CARE FOR OUR PRISONERS OF WAR

An illustrated story of life at the detention camp at Petawawa, where Canada is entertaining some 600 Austrians and Turks. It makes some interesting disclosures concerning a country's duties to its prisoners.

LOST LAND FOUND IN HUDSON BAY

Few people know that the Mackenzie expedition which returned from Baffin's Island this winter discovered some 4000 square miles of land in the Hudson Bay, which was supposedly lost. They also learned much about the wildest of Canadians—the Eskimos. Exclusive pictures and a well-selected article are brimful of local interest.

HUNTING A HOME

These are house-hunting days. James P. Haverson, in his inimitable humorous style, has caught the funny side of looking for next year's "hang out," and Suce has caught on to the spirit of the whole affair in a really funny page lay-out. The whole result is a half hour's enjoyment for anybody.

Mr. and Mrs. Fred Spofford, Tiffany street, Guelph, when their daughter, Margaret Williams, was married to Capt. J. Alexander Steele, son of Mrs. J. A. Steele. The ceremony was performed by Rev. Geo. W. Barker, pastor of Dublin Street Methodist Church. The bride, who was met at the station by a man in a dress of white satin, trimmed with some of the old lace which was on her mother's wedding gown, and wearing a large bouquet of well, caught with pearls and orange blossoms and carrying a bouquet of orchids and lily of the valley, looked very sweet and girlish as she entered the room on the arm of her mother, who gave her away. The bride party passed thru an aisle of white ribbons to their places. The bridesmaid, Miss Alice Chubb, of Brantford, wore a dress of cream satin, with a large picture hat to match. Mr. J. H. Steele, brother of the groom, acted as best man. The wedding march from Lohengrin was played by Miss Kathryn Hamilton, and during the signing of the register Miss M. Hamilton sang "O Perfect Love." The house was decorated with hyacinths and daffodils. Following the ceremony the guests sat down to a luncheon, after which Capt. and Mrs. Steele left for Atlantic City. On their return they will reside at 127 Dublin street. The bride's going-away dress was of red tulle and green tulle with green hat to match. The bride's veil was of red tulle and green tulle, and she wore a dress of white satin, trimmed with some of the old lace which was on her mother's wedding gown, and wearing a large bouquet of well, caught with pearls and orange blossoms and carrying a bouquet of orchids and lily of the valley, looked very sweet and girlish as she entered the room on the arm of her mother, who gave her away. The house was decorated with hyacinths and daffodils. Following the ceremony the guests sat down to a luncheon, after which Capt. and Mrs. Steele left for Atlantic City. On their return they will reside at 127 Dublin street. The bride's going-away dress was of red tulle and green tulle with green hat to match. The bride's veil was of red tulle and green tulle, and she wore a dress of white satin, trimmed with some of the old lace which was on her mother's wedding gown, and wearing a large bouquet of well, caught with pearls and orange blossoms and carrying a bouquet of orchids and lily of the valley, looked very sweet and girlish as she entered the room on the arm of her mother, who gave her away. The bride party passed thru an aisle of white ribbons to their places. The bridesmaid, Miss Alice Chubb, of Brantford, wore a dress of cream satin, with a large picture hat to match. Mr. J. H. Steele, brother of the groom, acted as best man. The wedding march from Lohengrin was played by Miss Kathryn Hamilton, and during the signing of the register Miss M. Hamilton sang "O Perfect Love." KNOTTY LEE TO MANAGE GUELPH

Former Beaver Pilot Lands a New Job—Looking Over the List.

GUELPH, Ont., March 19.—Knotty Lee, prospective manager of the prospective Guelph baseball team in the Canadian League, arrived in the city this morning from Toronto. Knotty has won a wide reputation as a manager of the gentlemen who are interested in the city, and are anxious that if he succeeds in landing the managerial position, he will put a first-class ball team in the city.

Bill Johnson, last year with the Leafs, who went the route for the Leafs in an exhibition game this week, had nothing specially puzzling, but he couldn't help but win with such slugging behind him.

Fred Mollwitz, former Cub, has landed a regular job with the Cincinnati Reds, "looks like the coming first-sacker" is the way Manager Herzog expresses himself.

Bill Friel, former manager of the St. Paul team, is thankful the Federal League came into existence. Friel is no longer with the St. Paul Club, but he has an ironclad contract which ensures him his 1915 salary.

St. Louis fans are enjoying a quiet laugh at the expense of the Cardinals for last fall, when the players asked for increases. Bob Boucher, the Giant outfielder, will easily draw more money than Galley, while Ruben Benton and Gene Zahler, who are likely to come to the Cards for Wingo, will certainly receive

WOODGREEN CRICKET CLUB OFFICERS

J. MAY IN ROUND WON FROM W. HANNA

Semi-Finals of International Boxing Tournament Decided at Riverdale Rink

The semi-final bouts of the Riverdale Club's international boxing tournament last night in Riverdale Rink produced several stirring contests. The great surprise of the night was the defeat of W. Hanna, many times Canadian heavy weight champion, who was stopped by J. May, the St. Charles middleweight, in the first round.

W. Gould, Riverdale, won from G. Payne, West Toronto A.C. Decision. D. Burns, Cleveland, won from G. Ford, Maple Leaf A.C. Ford quit in the second round.

Dade Will Do Starting At the Bowie Races

NEW YORK, March 19.—Many local turfmen are getting ready to ship their strings to Prince George's Park, Bowie, Md., for the meeting of the South Maryland Fair Association which will open the Jockey Club season on April 1. About half of the horses that have hauled out at Gravesend, Sheepshead and Belmont Park will be sent to Maryland for the meeting, which will last two weeks.

BASKETBALL

Manager Reeling has submitted the following list of players signed to play for the coming season: Pitchers, Heck Hamberg, Eddie Campbell, Hank Anderson, Hutchinson and Myers; catchers, Hanson, Bowman and Isagman; infielders (first), Reeling, second, Whitely, (short), Wilson, (third), Hess; outfielders, Dunn, Starnes and Miller. The Pacific Coast League will be in all 17 men who have attached their signatures to contracts, and in looking over the many of last year's stars will be missing from the firmament.

WARTON WINS NORTHERN Hockey League Final

WARTON, March 19.—The final Northern League hockey game played here tonight between Elmira and Warton resulted in a victory for the home team. Warton was fast and inclined to be rough. **OLD WARRANT USED TO ARREST POWELL**

**Alleged That He Did Not Deposit Money for Contractor.**

**MEMORY WAS GOOD**

**Woman Identifies Assailant When Answering Call to Police Station.**

Frank Powell, 227 Manning avenue, was arrested by Acting Detective Holmes last evening, charged with the theft of \$500 from Eduardo Guzman, 164 Markham street. The warrant for Powell's arrest was issued five months ago, but he has kept out of Toronto. Guzman, who is a contractor, claims he gave Powell, who is an interpreter, \$500 to take to the bank and deposit as security on a tender, and that Powell never deposited it.

**Remembered Assailant.** Although Mrs. Lewis, 129 Seaton street, called off her dog yesterday morning to assault William Sinclair on a charge of assaulting her, she did not forget him when it came evening and it was time for him to eat. About 8 o'clock Sinclair had a phone message delivered to the complainant saying he was hungry. Very shortly afterwards Mrs. Lewis visited Wilton avenue police station, where the prisoner was being held, with a pint milk bottle full of tea and an exceedingly large lunch for Sinclair.

**Found House Ransacked.** The residence of H. Tomlin, at 3 Brooklyn avenue, was ransacked by burglars some time before 2 a.m. on Thursday. Mr. and Mrs. Tomlin returned from a party at that hour, and found that burglars had carried away a large amount of jewelry, silverware, and other articles, besides eating nearly all the food in the house. The matter was reported to the police and Acting Detective Nursery of the Pape avenue police station is working on the case.

**Looking for Men.** Relatives of Mabel Moran, 438 Ontario street, are anxious to learn the names of the four or five young men who carried Miss Moran into a drug store at the corner of Logan avenue and Gerrard street a few days ago. The young woman was stepping from the car when it is believed to have accidently thrown her to the pavement and inflicting severe injuries to her hip. At first it was feared that her hip was broken. She was attended by Dr. Moran, 1010 Gerrard street.

**No Blame Attached.** The jury that considered the evidence offered at the inquest into the death of Elizabeth Miles, at the moment last night, thought it a pity to their verdict, saying that they should be a home supplied for women who are weak mentally.

The dead woman, according to the evidence, was out of her mind, and had been detained in the Haven on Seaton street for some time. On March 16 she jumped from the window of her bedroom, and was later found dead on the ground. The verdict did not place any blame on the woman, but she was in charge of other inmates.

**Martin Foley Hurt.** Martin Foley, St. Michael's street, was struck by a motor car driven by A. Lewis, 217 Merton street, at the corner of Queen and McCaul streets yesterday afternoon, and was conveyed to the General Hospital with slight injuries to his head.

**James Robertson.** 354 West Richmond street, was taken to St. Michael's Hospital with a broken hip from Pol-well's fall last night. He fell from a ladder. This was the fourth man to be injured at Pol-well's Iron Works on Friday.

**Second Car Victim.** Nichol's Captain 52 Dundas street, died in St. Michael's Hospital yesterday morning. He was struck by a motor car on Parliament street. An inquest will be held.

**For Three Offences.** For three particularly mean thefts, Magistrate Denison in the police court yesterday sentenced Mizan Giuseppe to two years in Kingston Penitentiary. Giuseppe had changed first with calligraphic drawings and a seal-folding on which they were working away. The second offence was that he ordered groceries and stole them, and the third was that he stole from the grocery store. Telling an Italian grocer that he was waiting for the police and then rifling the store in the owner's absence constituted the third offence.

**John Adams**, who appeared in the police court on a charge of stealing \$32 from White Brothers, clothing, was remanded until March 28. He said he did not know whether he was guilty or not and wanted to go to the jail.

**A Bigamy Charge.** On a charge of bigamy, Johnston J. Curry was committed for trial by the judge on March 23. He was charged that he married Eva Hall, 19 years of age, on March 17, 1915, while his first wife, Jennina Jones, was still alive.

**Harvey Fountain Red Cap No. 10**, employed in the Union Station, found a bank cheque valued at \$10,500 in the front of the ticket office in the station on Thursday night. The officials of the bank were made, say they have not received any advice to stop payment on the cheque. Fountain deposited the cheque with the bank yesterday.

**On a charge of bigamy**, Johnston J. Curry was committed for trial by the judge on March 23. He was charged that he married Eva Hall, 19 years of age, on March 17, 1915, while his first wife, Jennina Jones, was still alive.

## NEW PRESIDENT FOR DOME MINES

Cool DeLamar Succeeds Ambrose Monell as Head of Porcupine Company.

## SENSATIONAL ADVANCE Stock Rose Nearly Two Dollars Per Share During the Day.

Big Dome has a new executive head. Col. J. R. DeLamar, who yesterday afternoon at a meeting of the directors in New York was elected president to replace A. Monell, who has been at the head of the company since its inauguration. Secretary Alex. Fawcett attended the meeting and nothing could be learned as to the head office reasons for the change. A wire received from New York in the afternoon read as follows: "Col. J. R. DeLamar has been elected president of Dome Mines Co. succeeding A. Monell, who resigned on account of press of other business. Question of increase of capitalization has not been considered. Mr. DeLamar states that everything at the property is in a satisfactory condition." The reference to the increase of capital at rest rumors which have been going the rounds for some days to the effect that the company contemplated issuing part of the \$1,500,000 still remaining in the treasury. It has also been said that in order to make the shares attractive the stock will be placed on a dividend basis this year. As to the latter report no official statement was forthcoming.

Big Jump in Stock. President DeLamar is well-known in Toronto and throughout the Canadian West. He has a long record in the original Nipissing crowd, and has operated very extensively in western United States mining fields. Yesterday the stock jumped to \$11.85 on a continuance of the same excellent buying that has been in evidence for some time past, and there were bids made among investors at the close that the price would touch \$12 on the present movement. At the high price yesterday the stock was \$11.85 per share above the close of the previous day. The advance in Dome has been the high point in the market for days past and has been the biggest advance of recent months on the stock market. On March 11 the stock was selling at \$6.10 per share, or \$5.80 per share below Friday's high. The price ruling the first of the month the \$1,500,000 capitalization had a market value of \$4,250,000. At \$11.85 the same shares have a value of \$7,687,500, a net appreciation in less than three weeks of \$3,437,500.

## FINANCIAL BRIEFS

Washington wire says construction of the Alaska Railroad will begin about June 1. The route will not be made public for some time. United States price of carbolic acid in 1914, decrease \$288,824. Most of this advancement has been recorded in the last few weeks, owing to stringent embargo on exports from Germany. United States Steel Corporation has taken orders for 12,000 tons of portable track and 800 tons of girder rails for France. The demand for barbed and plain wire for Europe continues heavy as does the strapnet steel and steel for other kinds of goods. A seat on the Chicago Board of Trade has been sold for \$250 net to a buyer, compared with \$290 previous sale. Iron Age says: While March thus far has put new business on the books of the steel companies at a somewhat less rate than that of February, the scale of mill operations has been encouraging. Utey Wedge elected president of Tennessee Copper Company, to succeed James Phillips, Jr. Regular quarterly dividend of 75 cents declared. Long Island for year ended December 31 shows deficit after charges of \$494,121, decrease \$488,824. President Whitbridge of Third avenue says no dividends will be declared in New York future. Archon planning steamship line between New York, New Orleans and Galveston. Trail Smelter's receipts for week of March 11th were 10,924 tons; from October 1st to date, 191,019 tons.

## UNITED STATES STEEL

The real U.S. Steel showing was poorer than the figures which were put out if one figures that the charges for depreciation were some \$6,000,000 less than the previous year. Had the usual amount been charged off the deficit after common dividends would have been close to \$28,000,000.

## FINAL COTTON REPORT

The final cotton ginning report will be issued today. It is expected to show about 18,250,000 bales, to which may be added 77,000 bales lint, making a commercial crop of 17 million bales.

## QUITE BULLISH

Josephthal, Louheim & Co. to H. ## WALL ST. LIST SHOWED STRENGTH

Leading Issues Recovered All the Losses Recorded Earlier in Week.

## MORE GOLD IMPORTS Bethlehem Steel a Leader on Rumors of Dividend or Bonus.

Canadian Press Despatch. NEW YORK, March 19.—Stocks today recovered more of the ground lost in the early days of the week, the list showing marked strength. The decline of the London stock exchange to the minimum established by the local exchange was without the unfavorable effect anticipated in some quarters. In fact the result was quite the reverse, a moderate demand for the stocks being reported from London. Gains embraced all the leading issues, although United States Steel and Union Pacific were relatively backward. Advances in the copper were more substantial on announcement of a slight advance in the price of the metal. Anticipations of speculative activity and half a score of specialists closed the day with gains of 2 and 3 points. Bethlehem Steel was the centre of interest, however, rising almost 5 points on total dealings of 38,000 shares. Although Wall Street has not welcomed the high recent movement in the stock, the belief now prevails that developments advantageous to the company's shareholders are pending. There were rumors that the directors of the company are contemplating some new financing involving a stock dividend or bonus on the common shares. More gold imports were announced, partly from Canada, making a total of \$5,000,000 for the week. Exchange markets as a whole were steadier, with some drifting on London rising over yesterday's low quotations. American remittances were more firm, but francs showed no appreciable change. Local banks are expected to show a large cash gain as the result of the week's movements, much of which is traceable to the gold inflow. Bank clearings of this centre show a substantial gain over last week, but still behind the corresponding period of last year. Six months money is 3 per cent, but leaning a fraction higher. Weakness of New York Central, reported by 68 and other speculative issues were the features of the bond market. Total sales per value, \$2,322,000.

## JUDGMENT GIVEN IN BAILEY CASE

Reorganization Committee Gained Distinct Victory Before Master-in-Chambers

## MINE SHARES STRONG McIntyre Leads the Way in Porcupine Group—Reaction in Timiskaming.

Aside from the advance in Big Dome, McIntyre was the feature on the Standard Exchange yesterday, selling up to \$6.40, after opening at 3 3/4. M. B. Wiley, in a market letter this week, says of this issue: "Development work at McIntyre is now breaking down an average of \$20 to \$30 daily; in other words, more than twice the tonnage necessary to keep the mill going at its fullest capacity. As will be the case with every other mine in the Porcupine group, McIntyre's production for the current month will run very high." The reorganization committee proposed changes in the directors will be definitely announced within a short time. Jupiter continued to exhibit a fair amount of strength, advancing to 10 3/4, accompanied by the same volume of trading of a new deal for the property. Vipond was steady at 45 and Hollinger firm at \$22.70.

## SENeca SUPERIOR IN GOOD SHAPE

NEWS OF SPECIAL INTEREST TO WOMEN

DAINTY CORSAGE A NEW ACCESSORY

Artificial Flowers Will Be Very Popular This Spring.

VIOLETS IN THE LEAD

Few Sprays of Lily-of-the-Valley Sometimes Seen.

A dainty corsage is one of the prettiest of accessories, and this spring more than ever is the practice of wearing artificial flowers being favored.

Violets with a few sprays of lily-of-the-valley and sometimes a small clove of rose, make a most effective street corsage, lending a pretty note of color to the otherwise one-toned costume.

Makes Improvement. The black and white suit is also greatly improved with the addition of a well chosen corsage, delicately perfumed.

Will Help Widow. Action to force the payment to Mrs. Lily Neale of \$1000 insurance on her dead soldier-husband, which was refused by the Metropolitan Insurance Company because the Neale residence is 50 yards outside the city limits, will be taken in the courts by T. Herbert Lennox, K.C.

Some Aquatics for the Water Garden.

Having got our tubs, or what not, set in order yesterday, we must now turn to the marshy regions and get us some aquatics.

For the rocks and coarse stones that hold the tub in place, ferns will be needed, to make a softening effect and simulate a wild look.

Plenty of ferns, then; plenty of marsh marigolds; some Indian turpicks; an arrowhead, a couple of arisaema; swarms of forget-me-nots; some trailing myrtle—and there you are!

A dozen or so fat marsh marigolds must be secured. Everyone knows these plants, and the golden glory of profusion of bloom is unequalled.

aquatics. As a rule, the children know much more about the wild things of the world than the grown people. Strange, isn't it? Then there is the pretty arrowhead, whose deep arrow leaf, floating on the water for many months of the year, is always attractive, and the delicate white and yellow blossoms that appear along in July or August are rather fragrant.

But you might bring in half a dozen Indian turpicks, otherwise known as Jack-in-the-pulpit. Let the boys find them for you. And do not forget to have a skunk cabbage, if you have a large water pond. A skunk cabbage will give a real wild look to your tub. Only in formal water gardens and in natural ponds have they ever been successfully grown. Water lilies are the true and untamable wild things of the waters and you need not try to tame them.

## You're Born to Be Plump Stop "Cures" and Be Happy

By MOLLY HAMLEY-CLIFFORD  
Who Has Tried Everything but Cannon Balls.

HERE once was a time," said Miss Molly Hamley-Clifford, as she found her collar for the second act, where she says her clearest thing, in "A Pair of Silk Stockings," at the Little Theatre, New York—"and remember that I'm not so old as popular esteem would have me, having passed my 27th birthday this year—when I resented being called fat. I couldn't stand the word, and used to pore over my thesaurus by the hour looking for a dignified synonym. But finding that the fact remained, no matter what altered the descriptions, I became reconciled to my waistline, and developed what three reviewers—one American and the rest not-named called a sunny disposition.

"I am by nature what you call a sensible woman. It is on the strength of that quality that I say I am not unconscious of my limitations. And my efforts to reduce physically have so far attracted public attention, that I have been invited by several flesh melting concerns to pose as the 'Before' of Lucretia Borgia would consent to do the 'After'.

"In the course of my busy life—and once more note that 27 years is my present limit—I think I have sampled seven-eighths of all the obesity cures invented by the medical bunglers of two hemispheres. I believe is not responsible for my flesh, for Activity is my middle name. I have pulled on the

"I Became Reconciled to My Waist Line." Soer until I have been stopped by every piece of furniture in my room; I have been up and down stairs until I have nearly broken my neck; so much boiling water has descended my throat that I have all but lost my voice—my sinning voice is gone entirely—and the less I eat, the fatter I get. The only solution is already in my possession, although I have thought better of it. It was proposed by a rector when I was a child. For Dad, my friend of mine, he suggested my getting in the way of a German cannon ball, and so impressed was I by the common sense of this that I have taken care to have no other remedy.

"Avoluptuous has been the curse of my life. Managers refuse to consider me for parts by any other scale than girthing. And as fat implies comedy, I can't get young roles in serious plays. My first London part, after my experience in touring the provinces, was the old lady, Mrs. John Elwood, in "Millstones." So, until I am relieved of the burden of bearing these 15 what they give me, and be thankful to the stars that I have not to be a fat girl.

"But," Miss Clifford gazed into the mirror and spoke her mind, "the fact is, I have but one response—if I wasn't delightfully brought up I'd swear."

## PETER'S ADVENTURES IN MATRIMONY

By LEONA DALRYMPLE  
Author of the new novel, "Diane of the Green Van," awarded a prize of \$10,000 by Ida M. Tarbell and S. S. McClure as judges.

The Family's Opinion. PRESUME all people who are in the least thoughtful minutes when a sense of the future of existence is made with mother as a sense of waste in the years that have gone.

"Well, mother," I confessed, "I've been thinking of so many, many ways I might have done things a little better."

"Well, dodded mother," I said, "it's that harbor of reflection some time or other, son."

"But," I said, a little gloomily, "I've done some things. I've almost decided, mother, that I've wasted my life."

Mother bridled in the fashion of all good mothers.

"Don't be foolish, Peter," she said, "for one thing, you're much too young to have wasted your life yet. For another thing, can't you see that you've wasted any of it?"

Rainbow Colored Thoughts. Wonderful, beautiful faith of mothers! How it stirs and helps in time of need! "Dad didn't complain to his life, so mother, that he was an old young man with grey hair and a good way."

I thought for a minute mother was going to flash indignantly and speak of Mary's extravagance and the remoteness of my mother-in-law in not having trained my wife to be a wife, but mother and I have always had a way of leaving things unsaid and still understanding. So now I think my eyes must have looked her to be kind to Mary, for she held out her hand.

"No, Peter," she said, "I'm not going to blame Mary. She's a dear, sweet girl, and Minerva is quite keen about her. She said last night, going home, that Mary was like a great, great many soft, pretty, clinging women, plastic to the touch, capable of evolution into a beautiful statue or something marred by unkind hands."

"And my hands have been unkind," said, looking away. "I've been impatient and critical, mother."

The Limit. "I never knew such a wet blanket as Mary," said that girl. "That's that's right. If that girl should jump from the frying-pan into the fire she would put the fire out."

## Secrets of Health and Happiness

### Sun Baths Actually Cure Some Stubborn Maladies

By DR. LEONARD KEENE HIRSHBERG  
A. B., M. A., M. D. (Johns Hopkins).

AN inquisitive savant who travelled in the tropics was amazed to find the native negroes so powerful, yet withal very poor in flesh and without nourishment. Through these husky, black giants sat little, their muscular strength is marvellous.

Prof. Neuen explains this anomalous fact as due to the capacity of the dark African skin to absorb the light. By virtue of the deep, black pigment in their almost naked skin the sun's rays are absorbed, and its energy is stored up in their muscles.

The strength and endurance of the undrilled negro is out of all proportion to the food he takes, and far superior to that of a white man. There can be no doubt of the stored-up energy that they receive from the sun. Since food is used to yield heat, energy and growth, there can be no doubt but that the light of the sun can in a measure replace some of the nutriment.

Heat is gone. To sweat in the sun and air bath means to lower the temperature. It is much the same as taking a water bath. Practically all water baths, either cold or warm, withdraw heat and energy from the tissues.

Answers to Health Questions  
M. F. F.—Will you kindly tell me something I can do for falling hair?  
A.—Massage into the scalp twice a day. Resorcin, 15 grains; balsam peru, one-half dram; sulphur loti, four drams; castor oil, 14 drams; oil of theobroma, three drams.

T. J. Q.—Will you please tell me what to do for dark brown spots on my face?  
A.—Wash the face with chlorate potassium, 1/2 dram; carbonate potash, 2 drams; sweet flower water, 3/4 ounce; rosewater, 7 ounces.

W. E. B.—Please give me a formula for a gargle. Had my tonsils removed two years ago, and still have the same bad taste in my mouth as before.

A.—Irrigate the throat with alkaline antiseptic fluid diluted three times in water. Use three times a day.

Air and Light Baths. If an air bath is taken indoors or in the shade out-of-doors in mild weather, with practically all of the skin exposed, heat is abstracted from the body. The cooler surrounding air, minus the sun's rays, continually draws away heat. Air baths taken at night exhibit this effect strikingly. When fevers rage, this is by no means the worst measure that may be taken.

Much more complex, indeed, is the light bath. The effects of sunlight, plus air, are decidedly more intense. The fabric of human flesh gathers heat and energy instead of losing it. The temperature of the skin, no less than its activity, begins to rise. Forsooth, it too long a period of exposure occurs in other than cold weather, profuse perspiration and exhaustion may follow.

Accordingly, the air bath depends really upon the sunlight for its best influence. The basic spring of its power rests with the electronic energy, its radiations. Judge Swing would resolve all forms of energy into heat, but the science of physics still maintains that there are underlying analyses of heat, light, invisible radiations, chemical, magnetic and other rays which can be separated from heat. Feeblest energy is known to flow at the absolute zero in the absence of all heat.

Sun Baths and Heat. The beneficial effects to be obtained from a sunlight air bath in a comfortably heated sun parlor are easily confirmed. A thermometer thrust under the tongue 10 minutes after the sun air bath is begun will be found to register a whole degree higher than before the bath was begun.

Many maladies, carelessly dubbed as neurasthenia, nervousness, "rheumatism," "uric acid" and the rest of the ponderous names for fixed emotions, tetch, pain and ache which can be separated or even made worse by the usual methods of bathing, are greatly improved if given the sunlight-air-bath once a day.

Can There Be a Real Home Without Children?  
By WINIFRED BLACK  
Copyright, 1913, by Newspaper Feature Service, Inc.

"I'm tired of the sad faces, I'm sick of the cold eyes, I don't like to see the cynical look."

I wish I could meet somebody who wasn't tired. Somebody who isn't rushed. Somebody who hasn't an axe to grind.

Somebody whose thinking about something besides how to get ahead of somebody else. Somebody who isn't anxious about the rent. Somebody who isn't bothered about what somebody will think.

Some one who's real honest and simple and hopeful and happy.

I want to see some children, some real children.

Not these little city imitations. Not these little fashion plates and these poor little, pent-up creatures who think they're boys and girls.

I heard two of them talking yesterday in the hotel dining room.

"Yes," drawled the 11-year-old, with an exaggerated society manner, "yes, he is rather striking, I'll admit, but not good form."

"Well," said the 10-year-old, "I don't know about that. He has a beautiful complexion and his own chauffeur."

I felt a violent desire either to take them both out and spoil their complexions with chocolate and ice cream sodas and the movies and a story or two about real little girls and the real way they really lived, or to take both of them over my knee and give them each a good spanking.

## LATEST PANTALETED GOWN

Fashion of the Days of Our Grandmamas Has Really Returned

Charming Frock with High Waisted Corset in Pink and Blue Taffeta.

THE modern edition of the Crinolite girl is wearing pantalettes as did her grandmother. They are dainty confections of chiffon and lace, and peep from beneath the full skirts.

This, however, is not the first recent appearance of pantalettes, for they were worn with the slashed skirts and oriental frocks so popular last season. But they are now a fitting addition to the dance-frock of the 1914 type and every "smart" girl must wear pantalettes—for they have really returned.

Many of the newest frocks seem designed for the debutante, they are so girlish and quaint with their wide skirts, tiny bodices and short, puff sleeves, trimmed with fruit or flowers.

This charming model is made after the fashion of the second empire, and the material used is cyclamen pink and blue, changing the chiffon taffeta. Chiffon of the same color and embroidered flowers in tones of pink, silver and mauve, are combined in the trimming.

The lower portion of the high-waisted corset is embroidered and gathered to a band of pale blue and silver satin, which forms a very low shoulder line.

A gathered tucker of chiffon fills in the décolletage. This is also trimmed with a band of satin ornamented in the center front with a cameo.

The short sleeves are cut in one with the bodice and are embroidered and trimmed with a narrow pleated frill of the chiffon.

A narrow belt clasped with a cameo defines the waist line, and the ends are tied at the back to form the loops and ends.

The taffeta skirt is gathered to the belt, and above the knees is a band of the blue and silver finished with a cameo.

From this hangs a wide founce of the taffeta shaped to form shell-shaped scallops about the lower edge. Each scallop is embroidered and edged with a pleated frill of chiffon.

Black satin slippers with black velvet ribbon cut-throats are worn with pale pink stockings to carry out the effect of the second empire costume.

A bandeau of blue and silver ribbon clasped with a jewelled cameo in front is worn low over the forehead.

## A Bride's Own Story Of Her Household Adventures

By ISOBEL BRANDS

The First Cleaning Day at Home—and a Stain I PUT on my cleaning bib and tucker this morning right after breakfast, and started on my initial cleaning campaign. The sun was pouring into the rooms, away happily at the top of my voice, keeping time with a good deal of dust on the furniture. Then, suddenly, I observed something that made my heart sink.

In the centre of our lovely dull mahogany table was a big, circular stain! First I thought it was dust and dirt, but the cleaner I rubbed it, the more I saw it. It was only then that the idea occurred to me that, perhaps, I might be able to remove that stain myself. Last night I made sure everything had been scorched dry clear through the silence cloth and just ruined my lovely table.

For a minute I was so upset about it I was ready to have a real cry. That stain convicted me of carelessness and thoughtless serving and poor housekeeping and every other sin in the calendar, and I knew I'd feel deathly ashamed when Bob saw it. It was only then that the idea occurred to me that, perhaps, I might be able to remove that stain myself. Last night I made sure everything had been scorched dry clear through the silence cloth and just ruined my lovely table.

Advice to Girls  
By ANNIE LAURIE

DEAR ANNIE LAURIE: I am 16 years old, and I am considered very handsome indeed, and I have quite a few girl friends. Would you advise me to go with one girl or have a good time with the bunch? My father does not approve of my going with girls at all. He thinks I am too young, but I don't see any harm in doing so. Please advise me what to do and relieve a troubled heart.

ANXIOUS ARCHIE.

O H, shucks and phishes, Archie, your life must be terrible indeed, but I'm sure it is with fatal beauty and scores and scores of admiring girls. I would send you somewhere to work very hard, and you would get the thought of girls out and the thought of work into your mind. But if your father wants to keep you at home, do as he thinks best, for it is really best after all.

## Three Minute Journeys

By Temple Manning

WHERE THE FEROCIOUS COSSACKS TAMELY MAKE CAVIARE MOST of us think of the Cossacks and only on the ice. Then, with a wild song, they chop through the ice and start the season's fishing. Many gourmets who believe life without caviare is a sad existence may look upon the Cossack as a man of iron.

Caviare, as every epicure knows, is a preparation made from the eggs of the sturgeon—although in times of scarcity the roes of other fish are palmed off upon the unsuspecting. Other countries besides Russia supply caviare to the world, but the caviare most esteemed comes from the southeastern district and the northern shores of the Caspian sea.

It is from the roe of the great sturgeon, which sometimes attains a length of 25 feet, that the most commonly eaten caviare is made, and the best is manufactured from fish that are caught during the depths of winter. From the table of the rich Russian caviare is seldom absent, and never from that of the Czar, where every meal sees caviare served.

The caviare supplied for imperial eating is the enforced tribute of the Cossack fishers, who, before they may reap the profit of their own industry, are obliged to supply the Autocrat of all the Russias with 11 tons of the very best. This tribute is very much at fault, some present.

To secure this amount of caviare no fewer than 5000 sturgeon must be caught. When the waters freeze over and the fishing is to begin, the chief of every Cossack community lines up the fishermen on the frozen shore. At a given signal they march down the bank or no caviare.

Catching the Czar's "Fish Present."

### It Took Some Traveling to Land These Suits for Men at \$9.95

These suits were meant for a prominent house in the west that couldn't take delivery. They had agreed to pay the eastern manufacturer fourteen dollars wholesale for them, and there are suits in the lot that the westerner would sell at twenty-two dollars!

We had a chase to land them, but a telegram from our buyer has just told us the good news, and they're all going on sale Saturday at NINE-NINETY-FIVE.

They're made by one of Canada's foremost makers of fine suits, out of West of England worsteds, English or Scotch tweeds, in all this season's most desirable weaves. A few plain blue twill finished chevots, and blue with hairline. They are cut in the new spring models; they are the kind of clothes men want now.
