ATTENDANCE AT C.N.E. BEATS FORMER RECORDS BY SEVERAL THOUSAND

Aggregate Attendance, 602,-000, Shows Lead of 203,-100 Over Last Year's Figures at Same Date.

Saturday's attendance ... 117,000 Same day last year ... 102,000 Total this year ... 602,000

A memorable week closed at the Exhibition Saturday. All previous records have gone by the board. For the seven days the aggregate attendauce is 602,000, representing the enormous gain of 203,100 over last year's figures at the same stage. With labor men talking about a 200,000 addition today, compared with 174,500 last year, it can readily be seen that 1919, given fair weather, will easily outdistance

all previous marks. The visit of the Prince of Wales and the ideal weather of the first week are chiefly responsible for the pres-ent showing, tho the Exhibition has sise intrinsic value which merits the unbounded success which has attended it. Three days the attendance has been over 100,000. On Monday, when the Prince of Wales performed the opening ceremony, the figures were 143,000; on Wednesday, when his royal highness reviewed the veterans, they were 115,000, and on Saturday they were 117,000.

The prospects Were Gloomy.

The prospects Saturday were gloomy to begin with, and they remained so for a good while, but the people seemed to have ample faith and the attendance was surprisingly large. noon the sun began to peep thru and the afternoon turning out glor-lously fine, there was a considerable accession to the ranks of those on the grounds. About 6.30 the weather again became threatening and there was a heavy rainfall for a while, which no doubt affected the evening attend-ance to some extent. Still, there was an increase of 15,000 over the cor-

responding Saturday in 1918.
General Sir Arthur Currie was the main attraction at the grounds. He was present at the directors' luncheon at 1 o'clock, and at 4 o'clock he ad-dressed a great crowd gathered around the band stand, and had a flattering reception. In the evening he was the guest of the Originals' Club at sup-

The war memorials section continues to be visited by large crowds, and up till 9 o'clock on Saturday night figures were said to be nearing the 11,000 mark for the day.

Labor Parade The labor parade is expected to reach the Exhibition grounds about 11.30 today. At the directors' luncheon John Munro, president of the Toronto Trades and Labor Council, and others will speak. At the band stand at 2 o'clock the speakers will be Tom Moore, president of the Do-minion Trades and Labor Congress; T. G. Flett, Hamilton, and James Simpson, Toronto.

PRINCE PRESIDES AT FOUNDATION LAYING AT OTTAWA TODAY

Will Be Event of Splendor-H. R. H. Spends Quiet Week-end in Capital.

Ottawa, Aug. 31.-His Royal Highness the Prince of Wales spent the week-end quietly at Government House after his tiring experiences of Thursday and Friday, and took full advantage of the respite given by the change of plans, which originally called for him spending the week-end at Blue Sea lake, at the summer home

of the governor-general.
On Saturday afternoon the prince played golf at the Royal Ottawa links. He returned to Government House, and this morning attended St. Batholomew's Church with the party from Rideau Hall. After church he called on Lady Laurier and Lady Borden, and rested during the afternoon and evening in preparation for his strenuou

day tomorrow. Sept. 1 will be real Labor Day for his royal highness, for in addition to laying the foundation stone of the peace tower on the new parliament building he will visit the Labor Day celebration at Lansdowne Park and will also attend a civic reception Hull during the afternoon. While in Hull he will open the G.W.V.A. club house and will become a member of the Hull branch of the G.W.V.A. To Proceed in State.

The main function of his royal highness' visit, the laying of the foundation stone, takes place at 11.30 to-morrow. On account of the holiday it is certain that the crowds to witness the progress of his royal highness thru the streets will be greater than at any time during his visit to the capital. Accompanied by his excellency the Duke of Devonshire, the prince will proceed in state from Government House to Parliament Hill and en route has arranged that he shall pass thru the of the trades unionists as they are lined up for their Labor Day pro-

GIVES ITS WORKMEN PRODUCTION CONTROL

Successful Experiment in Principle of Democracy in Rock Island Arsenal.

Washington, Aug. 31 .- Actual control of the production activities of Rock Island arsenal harness shops, including appointment of foremen and the determination of prices to be paid workmen, has been turned over to committees of the employes. This became known today when Secretary Baker made public correspondence beween the war department and representatives of the employes. Matters of administration are left with the regular managements, but even bids submitted on contracts are influenced by

the committees.

In carrying out the new plan, which General Sir Arthur Currie, speaking at the Exhibition directors' luncheon ciple of democracy as applied to the manufacturing industry," an arsenal orders branch has been established in erance of preaching sedition. PREPARATIONS AT CAPITAL FOR BUSINESS OF SESSION

Special to The Toronto World.

Ottawa, Aug. 31 .- Many members of the house are already here, and an unusually large attendance is anticipated tomorrow for the opening of the session. The peace treaty, prohibition and the bill to create a purchasing commission, are likely to be referred to in the speech from the throne, which will outline the government program for the session. There is the usual gossip among the members already on the ground respecting cabinet changes and political probabilities. It seems to be taken for granted that Sir George Foster and Hon. C. C. Ballantyne will soon resign from the government, but no one even hazards a guess as to their successors. It is also assured that Sir Henry Drayton will contest North Toronto when Sir George Foster retires.

BEGARDING SESSION

Expect Business to Last for Five Weeks - Peace Treaty Comes First.

Ottawa, Aug. 31.-Tomorrow will see the fall session of parliament launched, and while that fact has been somewhat overshadowed in the minds of all at the capital by the festivities due to the visit of His Royal Highness the Prince of Wales there is considerable interest being shown in the legislation which may or may not secure passage before adjournment.

It is not expected that the session will be a lengthy one. The average estimate is from five to seven weeks, while recently a member of the government expressed the hope that the session would be over by the first week in October. The setting of the date for the by-elections at Oct. 27 supports this idea.

TOM MOORE PLEADS EIGHT-HOUR DAY

Condemns O. B. U.—Says Manufacturers' Attitude Abets Bolshevism.

BLAMES GOVERNMENT

Suggests That Order-in-Council Be Passed as to Hours.

Kitchener, Aug. 31.-Tom Moore, president of the Dominion Trades and Labor Congress, and John Flett, of Hamilton, addressed a large labor meeting in the Star Theatre here tonight. A strong plea for the eight. ernment expressed the hope that the session would be over by the first week in October. The setting of the date for the by-elections at Oct. 27 supports this idea.

Tomorrow, it is expected, that the proceedings will be very brief. The governor-general will attend at 3 o'clock and deliver the speech from the throne, which, it is said, will be brief, dealing mainly with the peace treaty, and the house will adjourn until the following day, when Dr. H. P. Whidden of Brandon, Manitoba, and J. C. Mointoba of Nansimo, B.C., will be the first own of the seconder respectively of the address in reply.

Not Much Legislation.

The amount of legislation to be introduced is not expected to be large, for then raylication of the peace treaty was the chilef reason for the calling the Prince, accompanied by Admiral Halsey and Captain of the session. This, it is understood, will be the first business taken up, and several members have expressed great admiration for middle of the principal causes of the H. and children in industries, and the cost of living.

Mr. Flett said that organized labor was gaining ground universally, as is illustrated by the fact that the American Federation of Labor is being ask-ed to organize labor in Japan. In connection with the Bolshevist movement, the speaker censured the Dominion government for hesitating in regard to the eight-hour day. He suggested that it become operative, at least in public works, and expressed admiration for President Wilson's stand in connec-

tion with profiteering.
In conclusion, Mr. Flett said that Canadians would dishonor the sacrifices made by the boys in Flanders if they allowed manufacturers to form excellence of the course. The prince is a right hand "shot," so to speak, and those who had the privilege of seeing the course of the privilege of seeing claimed they are doing.

GENERAL SHORTAGE OF CLOVER SEED

All Varieties of Species Yield Bad Crop Thruout the

Continent. That there will be a general scarcity of red clover, sweet clover, alsike and alfalfa seeds thruout Ontario and practically all over the American contiment is now generally conceded, according to advices received by the Dominion agricultural experts. Dominion agricultural experts. With the utmost care in handling, and the threshing out of all fields, wherever there is any prospect of adequate re turns, the scarcity will, it is believed,

remain acute. Quotations for December delivery in the city of Toledo, which is the big centre for small seeds (as St. Louis is for furs), give some idea of what may be expected: Alsike, \$25,05; red

clover, \$30, and timothy, \$5.70.

Need for Care.

Farmers are urged to exercise every care by pulling and cutting to eliminate the bad weeds, and in the case of the ox-eyed daisy to take no chances in cutting the second growth, more especially in the red clover and timothy. The Ontario department of agriculture will, it is understood, send experts to fit up the ordinary threshing machines, enabling them to thresh all kinds of small seeds. The department expresses regret at the action of some armers in turning their cattle on the fields and pasturing them, instead of cutting for seed.

Miller again beat his competitors, getting across the starting line, but Grif, Clarke did not make the mistake of Friday, and he raced over the line with Leopard I just two seconds behind Heldena. Leopard II, was seven seconds back, and not opened out; she evidently had trouble from the start, as she did not seem to get going at all during the race. The whole course was traveled in the same order, Mary B racing in when the other boats had completed 10 miles of the course. Heldena pulled out an easy win, with Leopard II, getting second place, as Clarke missed the last buoy of the second round. He must have been thinking of Gar. "It is phenomenal, of course, but it rust continue at the same average if we are to reach the million and a quarter this year," said Mr. John G. Kent. "We are thirty per cent. ahead of 1913, our record year, and thirty per cent. continued for this week would bring us up to the total and leave some to spare. Never in the history of exhibitions anywhere, as far as we know, including world's fairs, which occur periodically, can they show such an attendance, and saying that we are delighted would, of course, be putting it very mildly. The labor men predict an attendance of 200,000 for today. We cannot imagine that that figure will be reached, but so many big things have been done this year by the public that we would not be surprised if the workers accomplished what they saw out to work in the surprised if the workers accomplished what they saw out to work in the surprised if the workers accomplished what they saw out to depend on others to provide them with dyes, but manufacture their own dyes according to their own formula. half, was hurt in the early part of the game and was unable to take the field again.

The first half of the game was fairly even, both teams playing a fast game and continually putting in dangerous shots which were cleared by both custodians amidst cheers. Webb. the Sons' goalie, time and again cleared what appeared certain goals. After about a half hour's play the soldiers netted one, the game being evenly fought to halftime. Score: G. W. V. I. S. O. E. O.

Resuming play Hamilton pressed hard, and owing to Sons being a man short, they had great difficulty in holding the vteran forwards' who were now excelling themselves and putting in stinging shots which were each time cleared in fine style by Webb, the Sons' custodian. After fifteen minutes the Sons broke away and Lee scored a beauty. From now on the game was very exciting, the Hamilton forwards especially showing great combination, scoring a second goal five minutes from time, after continuously bombarding the Sons' goal. Final score: G.W.V.A. 2, S.O.E. 1.

This was an important game, as much depended on the result as to advancement to first, division. The star of the day was Webb, the Sons' custodian, who made some wonderful saves.

Sir William Hearst also paid a tribute to Gen. Ross.

General Currie, the distinguished guest of the day, was cheered to the echo as he rose to address those present. Standing and cheering wildly, all sang to him that greeting: "For He's a Jolly, Good Fellow," and glass clinked with glass again and again.

Is there any other foreign country but the United States which has it in its power to pay the visitor such a characteristically British compliment? Is there any other visitor to whom Americans could offer it with such imposing significance? Just as President Wilson is the first chief of the American Republic to be made a freeman, not only of London. but of many other British cities, so is the Prince of Wales the first memer of the British royal family to be offered the freedom of the principal

The Observer says today editorially: "Even Londoners, with memories still fresh of their own moving demonstrations of affection towards their sovereign and his house, must be stirred by the wonderful greeting which Canada is giving to the Prince Wales. What does it all mean, this enthusiasm? What sort of asset is it and by them has won hearts.

"He has done it all so easily and naturally that it is hard to appreclate the real difficulty of his achievement. Eut let us bear in mind that this young man, who is daily adding to the ties of personal comradeship which already bind him to millions, is heir to the most exalted position in the world. A man with such a future awaiting him must find it hard not to become a remote, inaccessible being, obsessed by the glitter and parade of ceremonial. Yet our prince knows how to make all he does warm and spontaneous.

NEGROES AND WHITES RIOT IN KNOXVILLE

Huge Mob Attacked County Jail to Secure a Negro Murderer.

Knoxville, Tenn., Aug. 31.-One white man and two negroes were wounded in rioting between whites and blacks, growing out of last night's disorders, which resulted in the killing of seven persons, including two National Guardsmen, and the wounding of more

than a score.

Last night's riots, which followed attacks on the county jail by a mob of more than a thousand persons bent on obtaining Maurice H2yes, a negro accused of killing a white woman, were quelled early today, but as the day wore on incipient rioting broke out afresh despite the presence in the city of 1,200 National Guardsmen. One of the negroes wounded today was shot by a guardsman while resisting search. Many negroes during the night broke into hardware stores and pawn shops to obtain guns and ammunition. To prevent the bringing in of more fire arms, police and soldiers today searched all negroes arriving in Knoxville by train.

diers today searched all negroes arriving in Knoxville by train.

The attack on the jail was made by a mob of more than a thousand whites, who believed that Hayes was held there. The negro, however had been taken to Chattanooga for safe training during the day. But the mob keeping during the day. But the mob, declining to accept the word of jail officers, shot out the windows and battered down the doors. In gaining entrance to the jail, the mob permitted sixteen prisoners, several of them convicted murderers, to escape.

Found Liquor in Jail.

Foiled in its attempt to obtain its intended victim, and driven from the vicinity of the jail by guardsmen hurriedly brought into the city, the mob spread to outlying parts of the city. Sporadic rioting began at ones, and increased in violence after mid-

Troops meeting a band of armed negroes, who refused to give way, turned machine guns on the blacks. In the resulting exchange of shots, Lieut. James W. Payne of Providence, Ky., a regular army instructor, and a private by the name of Henderson were killed.

In its attack on the jail, the mob came upon a large quantity of con-fiscated whiskey, and casks and cases were smashed open, the liquor van-ishing quickly.

coming engagement of America's premier comedienne, May Robson, in her latest and undoubtedly her greatest success, "Tish," which will be the attraction at the Princess Theatre this week, will be welcome news to her many admirers, and the theatre-

going public of Toronto.
"Tish" is a melodramatic farce, founded upon Mary Roberts Rinehart's famous stories. The titular character in which Miss Robson apcharacter in which Miss Robson appears introduces to the stage a new type of spinster which is at once welcome and appealing to all classes of theatregoers, inasmuch as it is as lovable as it is entertaining, and as portrayed by Miss Robson, receives all the polish and technique, that only the true artiste can impart to a character.

Augustus Pitou, Inc., under whose banner Miss Robson is appearing, presents the Well known star here with the original cast and production, the attraction coming direct from its three months' successful run at Powers' Theatre in Chicago, where

There is a big "anniversary" bill at the Regent Theatre this week with Constance Talmadse, that ever-popular star, in the lead in the feature pro-duction, "A Lady's Name." Connie takes the part of a writer of popular flotion, who advertises for a husband with a view to getting a line on "types." She has some exciting adventures and in the meantime she falls in love with one of the "applicants."

WEST TORONTO WON

Old Country and Toronto played a City League game on Saturday at Rosedale, which resulted in a win for Old Country by 106 to 68. Toronto won the toss and had first lease of the wicket and sent Lownsborough and Leighton to the bowling of Wookey and McKinnon, runs coming very quickly. Leighton played a good game, the first wicket falling at 35, Lownsborough being caught by Dorkin off Wookey. After the fall of the two first wickets none of the other batsmen could do anything with the bowling of Wookey and McKinnon. Old Country went in to bat, the first wicket falling for 18 runs, Dorkin being badly run out. Old Country lost 4 wickets for 35. Barford and Downer came together and brought the total up to 60, when Barford was out for 10. Downer hit a six all run. Heath, Dorkin, Downer all batted well. The scores:

That there is but little to choose between St. Edmunds and Doverourt, who share the Upper Canada College grounds, was fully shown when on Saturday they battled in a C. & M. League game to an exact tie at 99. Dovercourt, batting first, started in lively fashion, Colborne, the first man in, hitting up 30 in a few overs, the not without unaccepted chances. His innings was a good display of hard hitting including 3 fours and 3 three. Simmons batted very steadily for 13, out of 50 scored, while he was in, but Griffiths' cleanly hit secre of 23 for the 7th wicket was the only other effort that helped to bring the score to the respectable total of 99 to N. E. Edmunds golfs to bat half their wickets fell for 39. Lambert, betted cleverly for 10, and Jones, in his characteristic style, that tends to break the heart of the best of bowlers, quiskly scored 16, one of his hits being returned from near the centre of the eastern or al. Then matters changed in favor of the batting team, Lister, who had been playing faultless defensive orleket, became aggressive and ably assisted by Horsce Ledger, who stayed while 35 runs were added, of which his share was only 6, and the score was taken to 91 for 7 s wickets, the next two men went without scoring and two runs were wanted to tie when Salter, the last man, went in. Each batsman made one, hen the newcomer was bowled by Simmons with the score at te, Lister being not out for an absolutely faultless and cleverly playing faultless defensive orleans the fault of the score at the Lister being not out for an absolutely faultless and cleverly playing faultless defensive orleans the fault of the score at the Lister being not out for an absolutely faultless and cleverly playing fault of

Man o' War Wins Hopeful Stakes Impressively---Great Racing on Closing Day at Saratoga---Opening Today at Belmont Park.

Hopeful Stakes, worth \$24,600 net the winner, the richest prize of the ar for two-year-olds. A vexatious lay at the barrier in a blinding rainnance. When the break came, it found

storm did not improve Man o' War's chance. When the break came, it found the the distance with the man o' War somewhat slow to get started, but he was in the clear and gained momentum with each stride. Constancy at once shook off Upset and for the first quarter had a good two lengths' margin on Man o' War, which now was fully in his stride, and kept well in hand. The others were strung out Indian file, with Captain Alcock a trailer. Just before the stretch turn was rounded, Loftus gave Man o' War his head, and the race was over so far as first money was concerned as, freed of restraint, the Fair Play colt sprinted into a good lead, and the final sixteenth found Loftus easing him. Cleopatra, which had been fairly prominent in the earlier running, came with a good rush thru the stretch and headed Constancy, with ease for second place. Constancy, the tiring fast, was good enough to retain the shorter portion of the purse.

The showing of Purchase was disappointing in the Saratoga Cup, in which he met Exterminator and The Trump, the latter a last minute added starter. The start found The Trump going into the lead, but he could not retain his advantage for long, even under sufferance, for Exterminator could not be restrained and Schuttinger wisely gave him his head and he sprinted into the lead. When Exterminator finally settled into his stride, Schuttinger steadied him under a snug hold.

Purchase was rank in the first part and almost had Knapp out of the saddle and the pair continued in this fashion for almost a mile and a quarter. At this juncture Knapp made a play for the lead, but Exterminator held to his task and with each challenge by Purchase, he stalled it off without seeming effort. Both riders became anxious as they reunded into the stretch, and Knapp went to the whip; resulting in Purchase home by a margin of a length and a half.

The defeat of Purchase was a stunner and his downfall was attributed to the changed going. An added feature of Exterminator's performance was that he fan the mile and three-quarters in 2.58, equaling the track record, made by Africander and Olambala in the same stakes, respectively, in 1903 and 1909. Exterminator's showing was by far more sparkling, as he carried 126 pounds and ran over a muddy course. The net value of the stakes to the winner was \$3350, and a plate of the value of \$250.

The Saratoga Steeplechase Handicap over the full course, with \$2850 net to the winner, resulted in a hollow victory for the F. Ambrose Clark pair, consisting of Elysian and Hibler. They landed

MAITLANDS IN TIE AT ST. CATHARINES STEAMSHIP

None of the St. Kitt's Players Registered and Game is Protested.

The three semi-final lacrosse games played on Saturday proved to be surprises, as in at least two of the matches runaway scores were looked for by some of the wiseacres. At Aurora the homesters only lost out in the last few minutes of play to the

fast Bracebridge organization. Bracethe proposed increase in express rates, scheduled to go into effect on Monday, be postponed until October 1 or later. The board has the matter under consideration.

The board has the matter under consideration of Aurora in many seasons. The best of feeling existed between the players, and combination plays of a high order were the features of the match. Jack Macdonald stood out on the attack for Bracebridge, while, on the home end of Aurora, Machell was the outstanding start, but was ably assisted by young Harman. The final score was 6 to 5 for Bracebridge. Return game takes place next Thursday, Nearly 1000 people attended the game.

Over at St. Catharines, the Maitlands discovered that none of the players were registered with the O.A.L.A., and rightly protested the conditions, as St. Kitts have had all season to get their team is shape. Shortly before the game the St. Kitts line-up was an unknown quantity and several of the junior city youngsters had to fill in the gaps. Maitlands showed good sportsmanship in crossing the lake in assisting to bring back senior lacrosse, but it is doubtful if they would have been sent argainst St. Catharines had the full facts been known beforehand. The final score was 4-all. Nearly two thousand fans witnessed a splendid exhibition of the national pastime, showing that lacrosse is far from the discard in the Garden City. Three of Maitlands and Frank Dixon of St. Catharines were the officials, and gave the best of satisfaction. If the intense interest in the Beaches-Maitland funior game, to be staged at Scarboro Beach this afternoon, is any criterion of the attendance, a record crowd is sure to witness the beattle. PEANUT VENDOR DIES FROM CAR INJURIES

Peter Ceres, Italian peanut vendor, of 226 Teraulay street, died Sunday afternoon in Parkdale Hospital from injuries inflicted when he was struck down by a street car on Dufferin street. Ceres, the police said, was crossing the tracks near the Exhibi-tion entrance on Dufferin street, to hand a bag of peanuts to the motor-man of the southbound car. He failed to see an approaching northbound car, and was struck down. It was at first thought at the hospital that he was suffering from slight scalp injuries. Saturday Ceres lapsed into unconsciousness, and died yesterday.

Motorman Schnider, 222 Ossington avenue, who was driving the car, and other car men will be summoned to attend the inquest at the morgue.

TWO MOTORS WRECKED

Two motor cars were wrecked a 4.80 yesterday afternoon when they collided at the corner of Bloor street and Bedford road. Mrs. Corby, Belleville, was crossing Bloor to go north on Bedford road when a westbound automobile driven by William Braund of Peterboro crashed into her car. None of the occupants were injured.

AVE you ever experienced the delights of a September vacation in Canada's scenic wonderland? To many our waterways are as yet entirely unknown; others know these lakes and rivers only through summer travel.

To both we say: Come and see them in and vigor to last you through the winter all their September glory. In another week the lower St. Lawrence and the Saguenay will be a riot of autumnal colors. A boat trip then will bring before you the picturesque shoreline of Quebec River scenery at a time when the glorious greens of wooded banks are beginning to show touches of golden brown, with here and there patches of crimson, where the sun has touched and ripened the leaves.

SMALL OUTLAY, BIG PROFIT PROMISED IN SHINING TREE

Many of the Properties Carry Exceptional Values Over Remarkable Widths, Indicating Margin of Gain Will Be Unusually Large.

The Hollinger Consolidated has spent over \$3,000,000 on its mining and reduction plant, and preparations contemplate operations on a large scale for many years. At the end of this year it is expected that 3500 tons of ore will be crushed daily, and the ultimate objective may be 5000 tons. From 3500 tons the profit will be approximately \$15,000 per day, the ore averaging about \$8 per ton.

High grade ore does not usually occur in such large quantities, and mining and treatment charges, the relatively more per ton, can be made in the aggregate much less. Besides satisfactor results can be obtained in less time. A case in point is the Lake Shore Mine at Kirkland Lake. Work on the south side of the lake had proceeded for over two years, but had not proved success. The lake had proceeded for over two years but had not proved success. It is a successful. Here the real over body was encountered, and in March, 1918, the mill, which had been erected within the year, began treating ore from the new discovery. The mill cost approximately \$100,000. It handles 600 tons of \$25 ore every 24 hours and makes at the comparative triffing cultay. This has been clearly demonstrated at Cobalt. It has also level provided that the width of a vein does not matter, so long as it carries sufficient values.
