MARRIED WOMAN, JEALOUS, THROWS CARBOLIC ACID IN YOUNG GIRL'S FACE

Mrs. Alice Keach of West Toronto Commits a Most Deliberate Assault on Miss Eliza Webb on Parliament Street — Victim is Painfully Burned.

After writing a postcard to Miss Eliza Webb, a young laundress living at 5 St. David-street, Mrs. Alice Keach, aged 34, 75 Victoria-street, West Toronto, accosted the girl at Parliament and Oak-streets yesterday afternoon at 6.15, and, as she turned, dashed the contents of a cup of carbolic acid in her face. Constable McIntosh took the woman into custody. She is charged, with inflicting bodily harm.

Miss Webb is seriously burned about the neck, mouth and cheek, but her eyes were untouched. She is in the hospital.

Mrs. Keach gave jealousy as her motive.

The trouble arose over a supposed intimacy between Miss Webb and Mrs. Keach's husband.

This is the story as told by Mrs. John Perkins, 97 Parliament-street, a sister of the injured girl, who was with her when the attack was made.

"My husband, boarded with Mrs. Keach when we were married, about three months ago, and my sister came to know her thru going out to see me during the month we still boarded there. She is now engaged to Joseph Taylor, who boards there, and is soon to be married.

"On May 25 my sister and I were at the island. We met Mr. Keach and spoke to him. He told his wife, and when we called out there about a week ago she seemed cross and went out."

A few days ago a postcard came to Lisa from Mrs. Keach, saying that by going to the house she was adding insult to injury, and that was why she had been cross. The card went on to say that if Eliza wanted to go about with married men she must leave Mrs. Keach's husband alone.

"Last night my sister and I left the Princess Laundry at 483 Parliament-street, where we were employed, and noticed that the woman was following close behind us. As she caught up she called, 'Li.'"

"Don't you go," she said, and Eliza said to me that she would not speak to her, but she turned around and Mrs. Keach threw the stuff in her face.

"I said, 'What have you done?'"

"She said that she had thrown carbolic acid in her face and that I could have her arrested, if I would serve you the same," she said.

"I went to the policeman and he arrested her, and we took my sister to the doctor."

The injured girl was first attended by Dr. R. C. Coatsworth at 296 Parliament-street.

Mrs. Keach, when arrested, had a two-ounce bottle in her hand, from which she had poured the acid in a small glass cup, so that it might be more easily thrown. In the glass were some torn fragments of paper, with the idea of making the acid burn the girl's face. She had purchased the acid at Howell & Co.'s drug store earlier in the afternoon, saying that she wanted it for a disinfectant.

She said to the police that she had thrown the acid because of stories which she said Miss Webb had told of her husband, herself and a lodger, presumably Taylor.

When searched at the Court-street police station a letter was found upon Mrs. Keach which she had written to the father of the girl. In it she said that she knew what she was doing was a cruel thing, but that "Jack" (presumably Perkins) had been taken from her and that now the girl was trying to take "Joe" (presumably Taylor), to whom Miss Webb is engaged. In the letter she protests that "Joe" has always been good to her and to her children and that she loves him more than anything else in the world.

Miss Webb is 20 years of age and lives with her father. She came from England only six weeks ago.

STEEL PRICES REDUCED.

Important Announcement is Made by U. S. Corporation.

NEW YORK, June 9.—Announcement was made to-night by Judge Elbert H. Gary, chairman of the United States Steel Corporation, that a general reduction in the prices of finished steel products had been agreed upon by representatives of the large steel interests, after an all-day conference.

The reduction affects billets, steel bars, plates, structural iron, merchant pipe and wire nails.

TELEGRAPH BRIEFS.

The floods in Alberta have not damaged the crops, but several railway bridges will require repairs and the waterworks and electric light plant at Lethbridge is damaged.

Ottawa jurors will get \$2.50 a day hereafter.

The second annual convention of the St. Joseph's Union, Ottawa district, is in session at Cornwall, with ninety delegates in attendance.

Seven drowning were reported to the north of Helena, Montana, as a result of two floods.

Two persons were killed and seven injured by the collapse of an apartment house under construction at Washington, D.C.

A man named Dick, at Winnipeg, allowed his wife to take full advantage of the disturbed conditions in Persia to seize a strategic wedge of the country.

Roy Wood, son of W. Wood of London, was drowned at Fort William.

The Toronto World

TWELVE PAGES—WEDNESDAY MORNING JUNE 10 1908—TWELVE PAGES.

TO DISPOSE OF ALL MANITOBA'S APPEALS

Proclamation Issued Which Brings Parties Close to Settlement on Election Bill.

OTTAWA, June 9.—(Special).—In pursuance of arrangements between the two federal leaders, a proclamation was issued to-day by the Manitoba government authorizing the judges of the court of revision of voters' lists to postpone court from day to day until all appeals have been disposed of.

This, it is expected, will bring about a solution of the difficulty. It is claimed, however, that the proclamation is only making clear what the law provides for now, but as this was one of the strongest demands of the federal premier, Mr. Roblin was willing to concede a point.

There appear to be no serious difficulties in regard to Quebec and British Columbia, and now practically the serious thing that stands between the parties and peace is the charges of government supporters regarding the lists in the unorganized districts of New Ontario.

The opposition is said to be disposed to grant every facility to the government to enable the salaries of the civil servants to be paid. The caucus this morning left everything in the hands of Mr. Borden, but the course that will be followed by the opposition will not recede from its position in respect to the election bill. Clause 17, respecting the ballot, will be a subject of further debate.

Most of the Ontario members got back to-day, and a few from Quebec, but the excessively hot weather kept the majority out of the house. Conservatives expect that Sir Wilfrid Laurier will now be in a mood to bring the negotiations with regard to the Aylesworth election bill to a conclusion. Hon. Clifford Sifton came into the house to-night almost unnoticed, though the last time he returned from a tour he made a dramatic entrance.

The threatened protest of the election to the legislature of Mayor Carrick of Port Arthur seems to give some strength to the prime minister's claim that the federal lists should be made in New Ontario first. In the meantime Conservatives are hoping that they will be able to show that the northern lists are fair.

The Conservative caucus this morning E. B. Osler presided. The majority were strongly disposed to hold the government up till it is forced to go to the country. Some of the Ontario men brought reports that feeling is running strongly in their favor.

The house got into committee of supply in the morning after Geo. Taylor's raising of the race cry in Quebec. Mr. Graham's intercolony estimates of \$4,327,250 on capital amount, an increase of \$1,900,000 over 1907, were discussed.

The house adjourned at 11.20 to-night after passing an item of 8448 for the wages of the employees of the government railways.

OFFERINGS TO MISSIONS.

Metropolitan Church Members to Raise \$16,000.

At a meeting of the men of the Metropolitan Church a resolution was passed approving of an increase in offerings of \$50 a week to the pastor's salary and running expenses of the church, and in changing to regular weekly envelope offerings for missions to raise the \$16,000 allotment to the Laymen's Mission Fund.

Last year the Metropolitan Church contributed \$10,179 for missions. S. J. Moore said the Baptists would probably exceed their \$50,000 allotment by \$5000.

RAZOR AND REVOLVER.

LONDON, June 9.—(Special).—A. Douglas, a plumber from Buffalo, who last night terrorized diners at the Big Bell restaurant, was relieved of his razor and revolver, when he was invited to day to leave, and chased four men to the street. He was arrested. The heat had affected him.

WILL ATTEND THE WEDDING.

NEW YORK, June 9.—George Gould, who sailed to Europe, is quoted as saying: "I expect to attend the wedding of my sister, Madame Anna Gould, to Prince Helle de Sagan. The marriage is to take place with my consent and blessing and with the full consent of all the Gould family."

ASSEMBLY DECLARE FOR CHURCH UNION

Presbyterians Vote 156 to 32 in Favor After a Bitter Opposition From the Minority.

WINNIPEG, June 9.—(Special).—After the whole afternoon and a greater part of the evening spent in earnest and at times heated discussion, the general assembly of the Presbyterian Church of Canada decided in favor of church union by the overwhelming majority of 156 to 32.

The adoption of the resolution of the union committee was moved in a powerful address by Principal Patrick, who, after Dr. Ross, is father of the movement in the church, and was ably seconded by Dr. Murray.

An amendment, which sought to satisfy the desire of protestant churches for closer union along lines of federation rather than of organic union was moved by Dr. Campbell of Montreal, the ex-moderator, who dwelt on the splendid work the Presbyterian Church was accomplishing under her own traditions and along her own historical lines, and was seconded by Principal McKay of Vancouver, who pointed out the danger of placing with the church, if corporate union was insisted upon, and warned the assembly that there was a very strong body of

BOARD OF RAILWAYS

Act Gives Them the Privilege of Doing That Much for the Protection of the Public, Says the Chairman.

Judgment has been given by Justice Mabee, chairman of the board of railway commissioners, and concurred in by Commissioner Mills, declaring that the right to order a viaduct in Toronto is within the jurisdiction of the board, which will continue the hearing of this matter at once if the parties so desire, or await the result of an appeal to the supreme court, if that course is decided upon.

As the railway tracks are along the Esplanade, which is a street or highway, the commission is empowered under section 237 of the Railway Act to make provision for the protection and convenience of the public, and if it was an application for a construction of the viaduct could be made one term of granting permission, "so," the commissioner says, "it seems to me clear it has the like power, notwithstanding the railway is already constructed along the highway."

Concerning the objection that the Esplanade tri-partite agreement between the railways and the city of 1892 takes the form of a special act, which, by section 3 of the Railway Act, can override its provisions, the commissioner says:

"Protection of Special Act. The tri-partite agreement and the act declaring it to be in force and binding form a special act. After much reflection I am of opinion that it is not. So far as I am aware there is no direct authority upon the point, but it seems to me that the fact that the agreement is with respect to the construction or operation of the railway is sufficient to bring it within the scope of the act, and that an act merely declaring an agreement to be in force is not necessarily an act within the scope of the act. The operation of the railway is merely because some of the many clauses of the agreement deal with the construction or operation of the railway."

The act does not purport to embody the agreement or make it form part thereof, and the present chief justice of Ontario has said that an agreement ratified by an act of the legislature still remains a private contract.

"It may also be the fact that the agreement is not a contract, but that the matter of the tri-partite agreement upon the points under consideration, with the clauses of the general act, and the raising of the race cry in Quebec, the main feature of the legislation being public safety in the operation of the railway."

After declaring that the commission can set aside the legal objections raised by municipal management in order to protect the public, the decision concludes: "The question of whether the separation of grades along the viaduct is to be accomplished by viaduct or overhead bridges is not now being considered, it is that of jurisdiction. If after all the evidence has been given, every interest considered, and all sides heard the board deems the interests of the public require a departure from the act adopted by the city upon this matter it has it in its power to entirely protect the railway interests, and the expenditure made by the railways upon the faith of contracts with the city, so that no injury be done to the city. An effort will be made to have the work finished by the end of the year."

MEETING OF MONARCHS.

King and Czar Clasp Hands for First Time in Seven Years.

REVAL, June 9.—The meeting between King Edward VII. and Emperor Nicholas occurred here to-day with due formality.

Thousands of spectators gathered on the battlement summit of the Mont de la Cathedrale, along the wooded shores of the bay and at other points of vantage, to witness the incoming of the ships-of-war.

The emperor wore the uniform of a captain of the Russian navy. The little czarovich was clad in a youthful sailor costume.

King Edward wore the uniform of a British admiral.

The minute the visiting vessels dropped their anchors a launch bearing Emperor Nicholas left the side of the Standard and the Russian monarch boarded the Victoria and Albert, where he exchanged very hearty greetings with King Edward, whom he had not seen for seven years, and saluted Queen Alexandra and Princess Victoria.

After a few minutes on board the Victoria and Albert Emperor Nicholas returned to the Standard. In the meantime King Edward had donned the uniform of a Russian admiral, and at once returned the call of the emperor.

MADE THINGS LIVELY.

D. C. Hossack was a Vigorous Preacher When at Orangeville.

ORANGEVILLE, June 9.—(Special).—Many members of St. Andrew's Presbyterian Church here were surprised, amused and even astonished at reading that Donald C. Hossack, who had resigned from Deer Park congregation, and was formerly incumbent of St. Andrew's Church here, was requested to come back.

The Rev. Mr. Hossack labored here 16 years ago, and in latter days of his pastorate, by his vigorous language and sensational sermons, brought himself into the eye of the public and became famous. He attacked the mayor and councillors of the municipality at that time; the public school trustees, and even incurred the displeasure of the then county judge.

The congregation of St. Andrew's Church, while wealthy, is fairly divided between Conservatives and Reformers.

Mr. Burch, who resigned a few weeks ago, after five years' pastorate, at the conclusion of which he got a purse of gold, very much admired Premier Whitney's attitude on the three-fifths clause.

REV. DR. MILLIGAN.

Opinion among laymen against such action, pointing out that all the propaganda favoring church union had been carried on with public funds of the church and without consent of those opposed thereto.

Among other speakers who made important contributions to the debate were Drs. Bryce and Milligan.

Public Must Be Protected In Spite of Legal Flaws

"The history of the matter shows that the proposal now made by the city is entirely opposed to contracts and compacts made by it with the railways from time to time.

"Application for the order for the construction of the Yonge-street bridge was made by the city, the validity of the order has since been upheld by the court of appeal, it is still held by the city—and under it the railways are required to construct a bridge over the tracks.

"I mention these matters because it was strongly argued that the city had stopped itself from making the present application, that the policy adopted, the contracts entered into, the work done and money expended by both city and railways upon the lines of protection by overhead bridges upon the well-known legal doctrine of estoppel prevented the city departing from that mode of grade separation and making application now for an entirely different system.

"I am of opinion that this argument would be entitled, in a court of law, to prevail, and that the course taken by the city in the past would absolutely prevent this application from succeeding, but this board is not a court of law, and no doctrine of estoppel is applicable or binding.

"The paramount object of the sections under consideration, that which overshadows all and before which everything must give way, is the protection, safety and convenience of the public in the matter of grade separation, and no town or city council by any sort of municipal mismanagement, folly or ignorance can estop itself or prevent the board taking any step or making any order otherwise within its jurisdiction, for the protection, safety and convenience of the public."

—From the decision of JUSTICE MABEE regarding the jurisdiction of the railway commission to order a viaduct.

UNTANGLING THE YORK LOAN MANY BALLOTS WERE SPOILED

Understandings Arrived at Which Staves Off Much Litigation and Will Save Time.

Those interested in the York County Loan Co. will be glad to know that the nightmare of litigation which has been hanging over them has been halted and stabled.

Pressed by correspondents, The World interviewed R. Home Smith of the National Trust Co. and he admitted that while everything is not finally concluded, matters have pretty nearly arrived at a point where an end will be put to litigation. George Kappel, K.C., the official referee, the assignees and all concerned have been bending their efforts towards a settlement, and the proceedings have been kept well in hand by counsel and the referee.

The possibility of appeals up to the privy council were well nigh unlimited and large amounts would have been involved.

Mr. Kappel by dint of working day and night, has managed to hear all the cases in a short time, and will give judgment at once. This enables negotiations to be taken up and a point has been reached at which settlement is practically assured. Finality of appeal in order to hold their rights.

As soon as the negotiations are settled, in the course of a few weeks, details will be announced. This settlement will be taken on and the closing of the whole matter.

It does not follow, however, that a dividend is to be expected. The judgment will provide for the calculation of the value of each claim and this work will, of course, be slow.

As soon as the Trust Company is supplied with the basis of calculation an extra staff will be taken on and the work rushed as fast as possible. If the material cannot be indefinitely divided, the staff cannot be enlarged beyond a certain point. An effort will be made to have the work finished by the end of the year.

STANDING OF THE PARTIES

28TH YEAR

C. P. D. PLAN TO EXTEND USE OF MOTORS

Supt. Osborne and C. B. Foster Say That Traffic From Brampton is Most Encouraging.

If the motor service which has been inaugurated to Brampton proves the success that is anticipated, no doubt similar cars will be used quite extensively by the Canadian Pacific Railway on the lines of that company out of Toronto.

This is the purport of a very important statement made to The World yesterday by James Osborne, general superintendent, who, from the first has recognized the possibilities of the suburban traffic out of this city. Mr. Osborne, who has just returned from a short trip to England, expressed himself as well pleased with the reports which had been presented to him.

"It is very gratifying," he said, "so far, the business has been increasing every day. The car, which is something new for us here, has not yet had a failure. It was first constructed by use of oil as a fuel, and was tried on another division. It did not work well, however, because, I suppose, was not fitted out for coal. It has worked very well and several improvements made to its engine have given very satisfactory results."

While in England Mr. Osborne examined many cars of this kind which are used extensively by the English railways. The cars there, he found, were very similar to the car now in use out of Toronto, but not quite so large or so well finished. He visited the shops of the Great Western Railway at Swindon, where he saw the cars which are used in this country. They might with advantage be put to a similar use. On branch lines, where the traffic would not be sufficient for a regular train, the motor-car could supply a good service at a much lower cost. They were more economical than a full train, and the not so economical as the ordinary electric car.

"We would be very glad if we found it necessary," said Mr. Osborne, "to build more of these cars. Our business is to sell transportation, and, like every other business, we are always glad of any opportunity to increase our sales. The roadbed, the stations and the road gangs and station men are the same, so that if we can carry more people over the lines our profits are so much the greater. If we can increase our business by using these cars, we will certainly do it."

The difficulty, Mr. Osborne added, might come in the winter, especially if there would be any amount of snow.

Changes are to be made in the timetable between here and Brampton. Those relating to the motor car will not be permanent.

"In all our business," said Mr. Osborne, "we try as far as possible to study the requirements of our customers. This service is new, specially equipped, and study so that we can see just what service will be the best suited to the requirements of the traffic."

These changes will probably be available to-day.

COMMUTATION RATES.

C. B. Foster, district passenger agent, is pleased with the success of the service so far. No arrangements have as yet been made at regard to commutation. Mr. Foster gave his assurance yesterday that if the experiment continued its present success, these advantages would be extended to all the stations served by the new car.

Two things had to be settled, he said, first, that the car was a success, and second, that the traffic would justify the continuation of the service. The first of these things was satisfactorily determined, no doubt that the commutation privileges would be extended.

J. D. McDonald, district passenger agent for the Grand Trunk, when interviewed by The World yesterday as to whether his company were prepared to play any concessions to the students along the Brampton division west of regular rates, particularly for the day, were rather prohibitive for people to pay who desired to travel into the city daily, but could offer no encouragement just now that they would be reduced.

He would be glad at any time to hear, as had always been the company's policy, what the people of Brampton had to say regarding the matter. He believed that conditions had changed considerably since the first time the service was tried by the company, but that the change had been sufficient to warrant another experiment.

It was the company's policy, wherever it issued commutation books of 50 rides per month, to also issue a ten-ride ticket, which could be purchased by anyone, and used by the whole families—all in one day if they liked, and the result had been that under the old rate thus patronized could more than double its traffic, it meant a great loss to the company.

"We have, from time to time, made many changes in line to Brampton," said Mr. McDonald, "always tending to improve the service, and we are ready to admit that the service out that way is excellent. Many of the trains we are now running are not paid for by the city, so far as the stations from Brampton east are concerned."

"If commuters' rates are to take people from the city to go out to these towns to live and buy homes, why doesn't Weston grow, and why didn't people locate in Brampton when the privilege was in vogue before?"

Continued on Page 2.

WOMAN: As She Appears for the Public Eye in the News of the Day

Frise List for Fine Arts. A special list has been issued for the fine arts and women's national department by the Canadian National Exhibition.

A June Fete. A June fete and strawberry festival is to be held on the rectory lawn at St. Matthew's Church, Bellwoods-avenue, on Thursday afternoon and evening.

No More Boiled Water. Arrangements for a series of meetings in the pure water campaign are almost completed.

Personal. The marriage of Miss Hattie Bell, only daughter of Mr. and Mrs. Robert C. Williamson, Beverly-street, and Frank G. McLean, has been arranged to take place this month.

Invitations are being issued for the marriage of Alice E., second daughter of Mr. and Mrs. Bruce Mines, to Mr. Edmund H. Squire, Toronto, on Wednesday, June 24.

Mr. and Mrs. Wainwright, Halifax, who have been touring at the Queen's, and Mrs. Frank Hodgins are in Ottawa attending a week with Col. and Mrs. W. E. Hodgins.

W. M. Wickett, a former Torontonian, now of Los Angeles, Cal., is in the city. He is a brother of George W. Wickett, and an uncle of Dr. Morley Wickett.

The engagement is announced of the Hon. Mrs. Cowper Gollan, chief justice of Bermuda, to Mary Louise, the only daughter of James Nelson Norris, St. Louis, Mo. The wedding will occur at London or Paris, probably in August.

Reverend and Mrs. Thomas Green, who are on their way to take up a pastorate in Vancouver, B. C., are staying for a few days at the home of Mr. and Mrs. Richard Almond, 634 Palmerston-avenue, and will be at home to their friends on the evenings of Thursday and Friday of this week.

On Wednesday, June 3, the home of Mr. and Mrs. Samuel Stong of Edgewater was the scene of a very pretty wedding. The ceremony was performed by the Rev. Philip Jones under a bell and arch of evergreens.

The happy couple, mid showers of rice and best wishes, left on the evening train for London, the bride traveling in a gown of blue Copenhagen silk with hat to match. The presents were costly and numerous, showing the popularity of the bride and groom.

The pastoral season opens this evening at Toronto University with "The Tempest," to be given under the grand

Toronto World's Beauty Patterns

A Becoming Blouse. No. 695. The smart model here pictured is admirable when worn with the separate skirt or in a costume.

How I Took My Wrinkles Out

After Massage, Creams and Beauty Doctors Had Failed. BY HARRIETT META. Trouble, worry and ill-health brought me deep lines in my forehead.

My face was not only wrinkled but my appearance and made me look much older than I really was.

After spending all the money I could afford for such treatments, I was still the same. So I gave up in despair and concluded I must carry them to my grave.

One day a friend mentioned a suggestion, and this gave me a new idea. I immediately went to work making up my mind to try it.

After a few days of almost numberless trials and discouragements I finally discovered a process which produced most astounding results on my wrinkles in a single night.

I was delighted beyond expression. I tried my treatment again, and to my delight, my wrinkles were practically gone.

A third treatment—three nights in all—and I had no wrinkles and my face was as smooth as ever.

Next offered my treatment to some of my immediate friends, who used it with surprising results, and have now decided to offer it to the public.

Miss Gladys Desmond of Pittsburg, Pa., writes that she had wrinkles disappear in one night.

Mrs. M. W. Graves of Bridgeport, Conn., writes to let my friends say that twenty years younger.

I consider you a true friend. I have written Mrs. James Bars of Central City, S.D., and she writes: "The change is so great that it is almost unbelievable."

My friends are so numerous that I cannot list them all, but I will send further particulars to anyone who is interested, absolutely free of charge.

Do not create, do not create, do not create steamers or so-called skin foods; there is nothing to injure the skin.

It is a natural new discovery of my own, so simple that you can use it without the knowledge of any one.

Do not apply the treatment at night, and do not go to bed in the morning. Use the treatment at night, and do not go to bed in the morning.

Use the treatment at night, and do not go to bed in the morning. Use the treatment at night, and do not go to bed in the morning.

Use the treatment at night, and do not go to bed in the morning. Use the treatment at night, and do not go to bed in the morning.

Use the treatment at night, and do not go to bed in the morning. Use the treatment at night, and do not go to bed in the morning.

Use the treatment at night, and do not go to bed in the morning. Use the treatment at night, and do not go to bed in the morning.

Use the treatment at night, and do not go to bed in the morning. Use the treatment at night, and do not go to bed in the morning.

Use the treatment at night, and do not go to bed in the morning. Use the treatment at night, and do not go to bed in the morning.

Barefoot Comfort

The Usual Inside. The Dolly Varden Inside. The claim that a shoe is as comfortable as a barefoot is a pretty strong claim.

Because they are copies of perfect feminine feet which allow the feet to lie in their natural position.

Because of their newly devised, restful steel arch support which relieves the fatigue muscles of the arch and prevents crowding of the toes into the narrow front of the shoe, by holding the heel close to the back.

Because of their Harmless High Heel—as comfortable as moccasins. And because of their new "velvete kid" leather, which is as soft as cloth.

Because of their Dead Level Ball and Heel Balance. Because of their Harmless High Heel—as comfortable as moccasins.

Because of their new "velvete kid" leather, which is as soft as cloth. \$4.00 to \$5.00 in Canada or the States. Every pair Goodyear-welted.

Trunk Sewer and Sewage Disposal Plant Voting on By-Law Saturday, June 27th, 1906

sum of \$2,400,000, and the said debentures shall be secured by the assets of the Corporation, and be signed by the Mayor and the Treasurer.

The said debentures shall bear date the first day of July, 1906, and shall be made payable on the first day of July, 1946, either in currency or sterling, in Canada, Great Britain, or elsewhere, and shall have attached to them coupons for the payment of interest.

During the currency of the debentures to be issued under the authority of this By-law, the sum of \$250,000 shall be raised annually by payment of interest on said debentures, and the sum of \$1,800,000 shall be raised annually for the purpose of forming a sinking fund for the payment of the principal of the said debentures.

Whereas in the opinion of this Council it has become desirable that the sewage of the City should be prevented from flowing into the waters of Toronto Bay, Ashbridge's Bay and the lake in the immediate vicinity of the City, and that a system of sewage disposal should be adopted including the construction of a high and low level sewer, pumping station, purchase of land and construction of septic tanks, at an estimated cost of \$2,400,000, as appears by Report No. 15 of the Board of Control, adopted by the Council on the 26th day of May, 1906.

And whereas it is necessary to raise by way of loan on the established scale the sum of \$2,400,000, to provide for the cost of the said improvements, and the expenses of discount and other charges of negotiating the said loan.

And whereas by an Act passed by the Legislature of the Province of Ontario, in the 23rd year of the reign of Her late Majesty, Queen Victoria, and chaptered seventy-four, entitled "An Act respecting the Consolidation of the Debenture Debt of the City of Toronto, as amended by an Act passed in the 8th year of her said reign, and chaptered eighty-nine, it is amongst other things enacted that the Corporation of the City of Toronto may pass By-laws for authorizing the issue of Debentures of the said City to an amount not exceeding in the whole twelve and one-half per centum of the assessed value of the whole of the rateable property in the City up to the first one hundred millions thereof, and one per centum of the assessed value of said property beyond the said sum of one hundred millions.

And whereas the amount of the whole rateable property in the City of Toronto, according to the last revised Assessment Rolls of the said City, as published in the year 1907 for the year 1908, is \$56,083,900, exclusive of the property rateable for taxation only, and exempt from general taxation.

And whereas the General Debenture Debt of the said City, as established and controlled by the said Act, and exclusive of Local Improvement debts and of Debentures for the purpose of the said Act, is not to be counted as part of the General Debenture Debt, only amounts to \$16,482,204, of which debt no part of the principal or interest is in arrears.

And whereas it will require the sum of \$98,000 to be raised annually for a period of forty years, the currency of the Debentures to be issued under and by virtue of this By-law, to pay the interest of the said debt, and the sum of \$1,800,000 to be raised annually during the same period for the payment of the debt created and to be created by the provisions of the above-mentioned Act, and according to the provisions of the said Act, the sum of \$1,800,000 to be raised annually in each year during the said period of forty years, the sum of \$1,800,000 being sufficient therefor on all the rateable property of the Municipality of the City of Toronto.

Therefore the Council of the Corporation of the City of Toronto enacts as follows: I. It shall be lawful for the Mayor of the City of Toronto and the City Treasurer to raise by way of loan, upon the security of the debentures hereinafter mentioned, a sum of money not exceeding in the whole the sum of \$2,400,000, and to cause the same to be paid into the hands of a single Trustee, for the purposes and with the objects above recited.

II. It shall be lawful for the said Mayor and Treasurer to cause any number of debentures to be made for such sums of money as may be required for the purposes aforesaid, either in currency or sterling money, payable in gold coin, or for less than the face thereof, in currency, or twenty pounds sterling each, and not exceeding in the whole the said sum of \$2,400,000.

III. The said debentures shall bear date the first day of July, 1906, and shall be made payable on the first day of July, 1946, either in currency or sterling, in Canada, Great Britain, or elsewhere, and shall have attached to them coupons for the payment of interest.

IV. The said debentures shall bear interest at the rate of four per cent. per annum from the date thereof, which interest shall be payable half-yearly, on the first day of January and the first day of July, in each year, at the place where the said debentures are made payable.

V. During the currency of the debentures to be issued under the authority of this By-law, the sum of \$250,000 shall be raised annually by payment of interest on said debentures, and the sum of \$1,800,000 shall be raised annually for the purpose of forming a sinking fund for the payment of the principal of the said debentures.

VI. The said Mayor and Treasurer may cause the said debentures of a sufficient amount thereof to be sold or hypothecated, or may authorize the said debentures to be sold or hypothecated, to be purchased or taken as for a temporary or permanent investment of the sinking fund, and may cause the same to be sold or taken, after providing for the discount (if any) and the expenses of the negotiation and selling thereof, and may apply for the purposes above specified and for no other purpose.

VII. The debentures to be issued hereunder shall contain a provision in the following tenor: "The debentures of the City of Toronto hereunder shall not be redeemed or redeemed hereunder, or any interest thereon shall not be paid, until the City of Toronto shall have been endorsed thereon by the Treasurer or his Deputy in Corporation, be transferable except by the Treasurer or his Deputy in Corporation at the City of Toronto or to the like effect."

VIII. This By-law shall take effect on, from and after the passing thereof, on, from and after the passing thereof.

PRESENCE OF PRIEST'S MIND SAVED THE PEOPLE

Famous Dominican Monk Quietly Requests Close of Service While Roof Blazed Overhead.

BERLIN, June 9.—An attempt was made to burn down the old St. Paulus Catholic Church at Moabit, belonging to the Dominicans, which was crowded with people assembled to hear a sermon by the famous Dominican monk, Bonaventuri.

About 1800 persons were present, including more than a thousand women and children, to hear the minister. While the congregation was kneeling in silent prayer, someone lit the church with a match.

Without alarming the congregation he coolly stepped over to the priest who was celebrating the mass, and requested him to close the service.

The priest left the altar and spoke to his six assistants, who walked down the aisles and whispered to the pew-holders that an insignificant blaze had broken out and that they had better leave the building as soon as possible.

At this time the entire roof of the church was a mass of flames and the fire department was hurrying to the burning building. Those in the church, not knowing the extent of the fire, fortunately did not realize their peril, and on the clergy's request made their exit rapidly and in an orderly manner.

Discovered Fire Brands.
The fire fighters discovered that nearly a dozen fire brands soaked with petroleum had been distributed about various parts of the roof. The police suspect a gang of incendiaries, who, it is stated, set fire to the old Garrison Church, which was destroyed on April 14 last.

ESTATES OF THE DEAD.
Mrs. Elizabeth Carson of West Toronto, deceased, left an estate valued at \$790. William, David, Hugh and James, sons, get \$1 each; her husband was left \$100 cash, a daughter, Mrs. Mary Jane White, \$150 in cash.

Robert, another son, is the principal legatee, he getting the real estate, an interest in a house and lot at 78 Annetto-street. The residence will go to Margaret and Martha, two other daughters.

Lightning Remedy for Cramps.
Some people have cramps pretty often, others only now and again. But when you do have them it's a mighty quick relief you want. Poison's Nerviline is as sure as death to relieve cramps in thirty seconds—it's almost instantaneous. Just a few drops in sweetened water and the pain is gone.

Buy a bottle of Nerviline to-day and keep it handy. Nerviline is a common household necessity, because it both prevents and cures. More pain killing power in a bottle of Nerviline than you can find in any other preparations. Test it to-day—all dealers sell Nerviline.

MR. COADY NOT PLEASANT WITH AUDITORS' REPORT

City Treasurer Says He is Quite Ready to Supply Statements Wanted by Investigators.

The city treasurer's department came in for some criticism at yesterday's meeting of the board of control, when special Auditor Barber and Vigron reported that they could find no complete record of the civic properties. They said that before they could make a final report they required to know whether all the income receivable by the city had been collected, together with the amount outstanding, and asked that the assessment commissioner be instructed to prepare a schedule of all civic properties.

On the mayor quoting Joseph Harton, assistant accountant in the treasurer's department, as having said that he alone could supply records of certain civic properties and revenue, Mr. Coady declared with warmth that he could dispense with the services of any man in his department and expressed surprise that the auditors had not approached him first, as he could have given them all the information desired.

The board made a grant of \$4600 to the Children's Aid Society, towards the erection of the addition to the Simcoe-street shelter.

The question of reorganizing the civic works department will stand over until City Engineer Rust is able to return to his duties.

The controllers showed some pique on receiving a letter from Governor Chambers of Toronto Jail, saying that no information as to the number of prisoners released on bail by Magistrate Kingsford last year could be supplied without the authority of the provincial secretary's department.

Park Commissioner Wilson has decided that as the people own the city hall lawn they have a right to walk upon it.

Plans of the new transportation building at the exhibition grounds are to be prepared at once.

GREAT CLAPPER FELL

Crashed to Floor of Cologne Cathedral.

COLOGNE, June 9.—The clapper of the famous emperor's bell, in the Cologne Cathedral, weighing several hundred pounds, crashed down on the floor of the edifice, doing considerable damage.

The accident occurred while the bell was tolling an announcement of the Whitsun festivities.

GREAT SHOW AT HANLAN'S.

Herzog's Trained Horses Give a Marvelous Exhibition.

One of the most entertaining exhibitions of animal intelligence is being given this week at Hanlan's Point where Professor Herzog is giving performances every afternoon and evening on the big free stage with his trained horses. There are eight of these beautiful black animals in his collection and they all seem to possess almost human intelligence in the difficult tricks which they accomplish.

Herzog's horses have been special features at Luna Park and the Hippodrome, New York, and also with the famous Hagenbach's collection of trained animals.

For next week the management at Hanlan's Point has arranged a program in announcing that they have been able to secure Bolossy Kiralfy's gorgeous spectacular "The Carnival of Venice."

PARSONAGE AS WEDDING GIFT

It Came After 18 Years, But is None the Less Acceptable.

Contributions for a specific purpose, which have been lying dormant for 18 years, have just been applied to their original use by the Ladies' Aid Society of Elm-street Methodist Church, namely, the purchase of a parsonage for the pastor, Rev. T. E. Bartley.

A 10-room brick house has been procured at 42 Broadbaine-street, and the minister will move into it the end of the month.

At Mr. Bartley's wedding reception, 18 years ago, he made the suggestion that anything his friends contemplated in the way of marriage gifts might be of such nature as to apply towards the purchase of a parsonage. This was done to the extent of \$1000, which was the amount of deposit paid two days ago for the new residence.

The residence, No. 128 University-avenue, in which Mr. Bartley has lived, was first rented at \$25 per month and has gradually increased in value until it is at present costing the church \$45 a month.

COMMON WITH ALL WOMEN

Invariably they suffer from constipation and should use Dr. Hamilton's Pills, because they cleanse the system, regulate the stomach and bowels, bring strong, ruddy health. Try a 25c box of Dr. Hamilton's Pills.

THE ROBERT SIMPSON COMPANY, LIMITED

FOUNDRYMEN

WORKERS in metal will be interested in our steel frame construction work whether it happens to be just in their own particular line or not. The attention of visiting foundrymen is called to the steel skeleton of our new building adjoining our store. This is to be an addition more than doubling our present space. It was begun about a year ago on the site of old Knox Church. The steel work for this structure was all made in Canada and not three pieces in the whole outfit failed to fit true in their positions when placed. The columns are supported on cement footings which go down about forty feet below the street level into solid, lead-like blue clay. This building is said to be the biggest block of steel construction in the British Empire.

Cool Suits for Men

AT \$10.00 we can give you an English Flannel Outing Suit in what they call tropical weight. The body of the coat is unlined. Greys and slate shades, with a minute single and double silver stripes. Three buttons, with long roll lapels. Trousers, outing style with turned up bottoms and belt straps.

shade, with a darker grey stripe. Trousers with keepers for belt and rolls at bottom.

- Steamer Trunks. Tourist Trunks.
- Suit Cases. Club Bags.

RARE SPECIMEN OF WILD BOAR

Can Be Seen in the Big Cole Bros' Menagerie Next Week.
For sheer devilry and insane ferocity the wild boar stands out pre-eminently and for wild courage he has no equal among wild animals. A wild boar has been known to bring down an elephant, and in the records of natural history there is an authenticated story of a fight between a wild boar and a tiger, in which the tiger had none the best of it. Tigers have great respect for wild boars, and treat them

accordingly. In the matter of speed the horse has not yet been foaled which can catch a boar in its first burst.
The wild boar, which is one of the herd with Cole Brothers' world-famed show menagerie, is more ferocious than are the other members of that family, and has been pronounced the handsomest and best that has ever been exhibited in this country.
The wild boar is but one of the many representative specimens of the four-footed tribes carried by this circus. A triple zoological garden, un-
