WAR SUMMARY: Today's Events Reviewed

GERMANY refuses to acknowledge the sinking of the Lusitania on the demand of the United States as an "illegal act," and the tension between Washington and Berlin continues to exist in its most extreme form.

Germany is said by Frederick Palmer, who has the confidence of allied commanders, to have sunk the Lusitania to impress the Balkans, so as to be able to declare that the United States was afraid to make war on her, believing her invincible.

What President Wilson will do in the face of this fresh and insolent rebuff, with the evident playing with him on the part of Count von Bernstorff, cannot be foretold, for his patience has surpassed the patience of any other statesman of a great country in modern times.

For the first time in many months, the official communique of the German war office has become frank, and acknowledges that the allies are directing continued and increasing artillery fire against the Teutons in Belgium and France.

The German army, which has been established at Monastir, in Macedonia, since early in December, is evidently nearly ready for the expected attack on Saloniki, for the official report issued from Berlin yesterday mentions the Balkans as a war theatre for the first time in several weeks, and also mentions the reporting by aeroplane of the observation of many fires in the Vardar Valley, across the Greek frontier, and in the port of Saloniki.

WINIFRED BLACK WRITES ABOUT Small Families or Large?

JOSEPH FRENCH JOHNSON, dean of the New York University school of finance, says you encourage barbarism when you encourage large families.

What a clever man you are, Prof. Johnson—and how daring! They say you are one of the great economists of the country and know all about money, and how to make it and what to do with it, and what makes some people rich and why others are poor.

Do the "Exclusive" Win? It seems to me that the two women have the best of the argument, not because they are both clever and experienced writers and know how to say what they think so that you can understand what they mean without a dictionary and a book of synonyms, but because they are taking sides with Nature, and no one who ever did that was ever very far wrong.

Who is to Judge? Of course, it ought not to be so, according to theory, but unfortunately it often is, and what are you going to do about it with these stubborn facts? Are "advantages" always really advantages, or are they sometimes very much to the disadvantage of the person who has them?

Do we know so much better than the Creator who made us? He doesn't seem to be worried about the big families or the lack of money the time of the creation. But then, of course, conditions were different at that time.

It could be compared with the time, provided that were known, when the explosions or series of explosions were heard by other witnesses.

Mayor Martin says he heard an explosion, and almost instantly flames shot out from the reading room. Mrs. Severyn, the wife of the speaker, also heard an explosion. Mr. W. R. Bradbury, the stockbroker, heard an explosion, which was followed by a second of such violence that he was thrown to the floor.

Another spectator says that the fire in the reading room, which was found under the pile of papers, did not originate in the papers, but had eaten its way thru the floor. If the fire started below this room and if preparations were made to encourage a rapid spread of the flames, either by means of time fuses or the use of inflammable chemicals, all these statements would be harmonized.

The effect of the fire should not be to create any panic or nervousness, but it should stiffen the backs of the officials who have charge of the internment of suspicious aliens. It should also wake up the politicians who cater to anti-British sentiment among their constituents, and make them realize that there are weightier matters to be considered than votes.

Canada's Relations to the War and the Empire

The World printed yesterday the speech of W. F. Maclean, M.P., in the house of commons on Tuesday. Among other things he dealt with Canada's relations to the empire, now in this public eye because of the war.

The comments of Arthur Hawkes in The Toronto Star on the speech are published below; also an editorial in The Toronto News of Thursday night on the imperial relation.

W. F. MACLEAN ON THE IMPERIAL RELATION.

Arthur Hawkes in Toronto Star, Feb. 2.

This voice [W. F. Maclean's] from Toronto spoke also about peace (with a preference for the sword) and the conservation of Canadian nationality.

We have not had the representation we ought to have. The allies have a voice in all that is done, and some day I think we ought to have some status. If we are to have a say in the settlement—and everybody says the settlement of the war is more important than any other question—then when these graver questions of general policy are discussed.

There, for actual war purposes, is the claim for equality with Britain—the position of an ally and not a vassal—that was claimed by The Toronto News and other preachers of the imperial word to have been conceded to Canada when Sir Robert Borden attended a cabinet meeting in London last summer.

Mr. Maclean might have flattered some of his constituents if they had heard him on Canadian nationality. "I believe more than ever in the national integrity of Canada, under the British flag. There are people who seem to see what they call a great imperial British Federation as a result of the war, and I believe in it. I think we ought to think that if we are to be represented at the peace conference we ought to be in the war council."

The significance of this deliverance may be missed in the country because of the peculiar journalistic and political position of the speaker. But in the British Parliament the fact that notice has been taken in the Canadian House of Commons of the blunders of British generals, and the claim raised that Canada shall share responsibility for blunders as well as for glory, will be regarded as a sign of the political times—as indeed it is. Here it is a yeasty sign. Mr. Maclean is expressing some of the sub-conscious mind of the country, and, as usual, his speech evokes more obvious sympathy from his nominal foes than from his

nominal friends, tho' his nominal friends were kinder to him than they have been for a dozen years.

THE ONLY LOGICAL CONCLUSION. Editorial, Toronto News, Feb. 3: Hon. Andrew Fisher was until recently head of the labor government of Australia. He resigned the office of prime minister to become Australian high commissioner in London, where he has just arrived. His first announcement on landing is that Australia must have a voice in the control of imperial affairs. In his view the present unsatisfactory imperial system "cannot go on." Now that the dominions have taken up their share of the imperial burden they must become equal partners in the empire. The Daily News cannot see how any other position will be either tenable or tolerable when the war is over.

In coming out strongly against perpetuation of an inferior citizenship for the Dominion Mr. Fisher follows the lead of, or at least expresses views more than once strongly set forth by Sir Robert Borden, first as opposition leader and later as prime minister. We have his emphatic declaration that Canada is "no longer content to be an adjunct even of the British Empire." On another occasion he spoke of the "inborn feeling in the Canadian breast that a British subject living in this Dominion must ultimately have a position as a voter in the government and guidance of this world-empire as the British subject living in the United Kingdom."

Hon. C. J. Doherty, minister of justice, has said that while Canada was a "protected colony," it was rightly voiceless, but that as a "participating nation" it cannot continue to be so. Sir George Foster, Sir George Perley and Mr. Bonar Law, leader of the Unionist party in Great Britain, have made similar statements, many of which have been collected by Mr. Percy Hurd and Mr. Archibald Hurd in their recent book, "The New Empire Partnership." Lord Milner has said: "It is ridiculous to suppose that we can go on with a great race spread all over the world, standing together in the fiercest tests to which any race can be subjected, while one portion of that race, simply because it occupies one small island in Europe, has all the political control." Lord Milner has gone so far as to indicate that a great reconstructive period will follow the war. In the face of a terrible conflict the empire has found unanswerable arguments for unity and effective organization which must be carried to their logical conclusion on the return of peace.

CODERE'S CRIME DUE TO GREED FOR GAIN

Crown Prosecutor So Asserts—Canadian Officer Was Indicted.

Canadian Associated Press Cable. WINCHESTER, Feb. 4.—George Codere, aged 23, a lieutenant in the 41st Canadians, was indicted before Justice Darling today at the Winchester assizes for the murder of Sergeant Marquis O'Connell. The prisoner, who was attired in military dress, pleaded not guilty. A large body of Canadian officers attended as witnesses.

The case will last a couple of days. Mr. Salter, K.C., opening the case against the prisoner, dealt fully with the latter's financial position, indicating that the gravamen of his case was that his straits led him to the commission of the crime.

The counsel told how the prisoner had traveled to London with Lieut. Morin on Sunday, Dec. 5, and during the journey had confessed to Morin that he intended to kill the man, who might really be holding the money which was in prisoner's possession. The prisoner next day, said the lawyer, told Sergeant Martin of the Mounted Rifles a similar story. Lieut. Morin treated prisoner's statements as mere foolish talk. Two days later O'Connell was left to a son, Leonard, and one West Oxford is left to another son, George. Two other children, Lena and John, receive legacies of \$2000, and \$1000 is left to a son, Walter.

Private Harry Bassett of the 3rd Battalion, who died of wounds in France on May 30, left an entire estate of \$1750 to his brother, Thomas R. O'Connell, 58 Easton avenue, Hugh McCullum an Eriebrook farmer, who died Dec. 26 last, left an estate of \$3955, consisting of lots on Daisy and Lilan avenues, household goods and farm implements. A horse and wagon is left to one son, Norman, as well as \$500. The rest of the property with a life interest is left to the widow, with the provision that it be shared equally by their 12 children on Mrs. McCullum's death.

HUSBAND IMPRUDENT IN TICKLING HIS WIFE

Showed Little Wisdom in Trying to Appease Her Anger, Says Justice Riddell.

REVERSES JUDGMENT. Appellate Court Awards Timothey and Mary Gray Damages Against Railway.

"I adopt the finding, pausing simply to say that the defendant cannot be congratulated on exhibiting much wisdom when—and let me endeavor to placate an angry and tired woman by tickling her." This comment was made by Mr. Justice Riddell in a judgment handed down yesterday at Osgoode Hall in the case of McIlwain v. McIlwain, in which Chancellor Boyd found in favor of the plaintiff in an action for alimony.

The husband appealed the case, and the second appellate court yesterday allowed the appeal. The parties are both about 40 years of age and were married in 1897. They belonged to a farming community and case came together until July, 1914. "Squabbles" ended in the wife leaving home at that time, claiming it was impossible to live with her husband. One day on the head, but a doctor who arrived within 30 minutes found no physical signs of injury.

Reversed Judgment. In another judgment by the appellate division the appeal of Timothy and Mary Gray was allowed and an order made for \$1000 damages to be entered.

The plaintiffs were struck by a Wabash Railroad train while driving along in a toy train. The case came before Mr. Justice Middleton and a jury, the latter delivering a judgment in favor of the plaintiffs, but following a conversation with the foreman the judge held that his declaration overruled the verdict and he dismissed the action.

In judgment given yesterday it was stated that the remarks of the foreman, especially as they were given in course of a conversation, ought not to be taken as a verdict, but only as a liberally written verdict of the jury. It could not be understood how the expression of one juror's views could rightly be considered as a verdict of the jury, but also as contradicting and reversing the verdict of all of them in writing.

Given Damages. Chief Justice Falconbridge has awarded William Brant \$500 damages against the C.P.R. and C.N.O.R. for damages to his property at 248 Albany avenue. The trouble was caused thru the grade separation, and the plaintiff claimed \$1500, maintaining that the street was damaged. Experts employed by him swore that he had sustained \$1000 damages, but the railway experts said that the damage was caused by the plaintiff's own carelessness. The judge's judgment the chief justice was not impressed by the claim, but struck what appeared to be a fair average.

The first appellate court list for Monday is: Rex v. Mazza. Rex v. Howell. Rex v. Miller. Doorn v. Biller. Rex Estate of W. Murray. Board of Trustees S.S. Ottawa v. Quebec Bank. Board of Trustees S.S. Ottawa v. Ottawa City (2 cases).

WILLS PROBATED. An estate of \$17,448 was left by John Miller, who died in Toronto Jan. 6 last. The estate consists of three farms in Oxford County, valued at \$13,500, and bank accounts and promissory notes which make up the remainder.

ITALIANS CHECK FOES IN FIERCE ENCOUNTER

CODERE WAS INSANE OFFICERS' TESTIMONY

His Announced Intention to Commit Murder Not Taken Seriously.

RELLER TELLS STORY He Removed Body of Ozanne in Fear For Own Life.

LONDON, Feb. 4.—Canadian officers and men, clerks of English and Dominion banks, and interpreters from French-Canadian battalions made quite a throng of themselves in the quiet precincts of Winchester Court today when George Codere, aged 23, formerly lieutenant of the 41st Battalion, was tried by Justice Darling for the murder of Sergeant Ozzanne.

Clavell Salter, for the crown, delivering a dispassionate, almost dull, recital of the extraordinary incidents culminating in Sergt. Ozzanne being done to death. Money embarrassed him the only motive which he stated prosecution put forward for the crime, the prisoner having to account to Ozzanne for a considerable amount.

Many witnesses were French-Canadians. They gave testimony in English, speaking for the most part fluently enough.

Money the Motive. Lieutenant-Colonel Hodson, who raised the 9th Mounted Rifles, Saskatchewan, spoke of Ozzanne as having been a very fine soldier who acted as canteen secretary. Colonel Hodson, who is high bank manager in civilian life, indicated the financial connection between the deceased and the prisoner.

Leutenant Morin, brother officer of the accused, gave the jury the story of his journey to London with the prisoner Sunday before the murder. The prisoner owed the witness twenty-five pounds and promised to pay the following week.

The witness responding to the counsel's question gave the following conversation with the prisoner.

"He asked me did I want to make any money. I said, 'No, of course.' He then said, 'I am going to kill a man. It will happen Tuesday morning. This money I have here belongs to the 9th Mounted Rifles. The man will come to my room. While he is counting it, I will kill him with my cravache. I will put a white blanket over his body and have it fixed with Sergeant Martin to bury it.' The witness said this conversation was in French.

The witness said Codere was regarded in the regiment as a fool and acted like a "fellow" doing him- self. He did not drink.

Transport Sergt. Martin related his amazing conversation with the prisoner at the prison, and told London how the prisoner asked him to help make a man disappear; how he told Codere it was not a good thing to spill blood and how he had better try poison; how he told Codere he should use anti-tubercular for such a purpose.

Witness also, in a conversation with him when Codere told him he had hit the man on the head with a stick. Witness replied he must have hit him very hard to get the man dead. He told him to go to the house and fetch something away.

The witness said that Codere was never serious in his life, and was known in the regiment as "Crazy Codere." He thought the "business was merely Codere's wild talk.

Corp. Keller was a story of how Codere got him to wash traces of crime away at the Grayshott House and burn the loaded stick. The witness, with the prisoner, took the body from the cellar into a stable. Witness told Colonel Archambault and Major Hughes about it next morning. The medical board said Codere was sane and he agreed to help Codere.

"If an officer tells us to do something, we have to do it," he said in more hesitation in expressing to the court the conviction that Codere would have killed him as readily as he had killed Ozzanne.

Corp. Desjardins, who also gave some assistance in this business, admitted he likewise was frightened of Codere.

Major Gaston Hughes, who put the prisoner under arrest, when asked his opinion of the prisoner's mental state, he had "cervau broville." He said that on the voyage over he had decided that Codere should go before the medical board and be dismissed.

Col. Archambault, commanding the 41st, said the prisoner was not "all there."

"That is why I appointed him assistant adjutant," added the colonel. "Such rank does not exist in England, so it expected he would be struck off the strength."

ring of our artillery dispersed enemy groups, inflicting losses.

"On the 10th from the enemy's artillery activity has been especially directed toward inhabited places. Our artillery replied by a curtain of fire behind the enemy's lines.

"Two enemy aviators threw bombs on Gorgo Island, in Laguna di Grado (at the head of the Adriatic Sea) only slight damage resulting."

REESOR TURNED OUT WITH THE RIVERSIDES

First Time Since Injury—Senior Game Tonight—Notes of the Players.

Fete Reesor, who had his collarbone broken early in the season, was out with the Riversides last night for the first time since his accident. He rushed well and showed no ill effects from his long lay-off.

Toronto leave for Montreal this morning where they play Canadiens tonight. The blue shirts are going strong and expect to beat the flying Frenchmen. The local team will play the N.H.A. leaders, Quebec, at the arena on Monday night.

Both Riversides and T.R. & A.A. had a light workout last night in preparation for their senior game tonight. T.R. & A.A. have strengthened this game and should make interesting.

The line-up: T.R. & A.A. Collect, goal; R. defence; Macdonald, Marwick, defence; Sidney, Reynolds, Noble, rover; Centre, Smith; Wing, Murray; Wing, Trapp; Referee—Lou Marsh.

The O.E.A. has arranged the following games: Second Round—Junior: Tuesday, Feb. 5—Aura Lee (Toronto) at Owen Sound; Friday, Feb. 7—Collingwood at Barrie; Friday, Feb. 7—Collingwood at Barrie; Friday, Feb. 11—Barrie at Collingwood; Group Play—Intermediate: Friday, Feb. 4—Belleville at Picton; Monday, Feb. 4—Belleville at Picton; Friday, Feb. 4—76th Battalion (Barrie) at Bracebridge; Thursday, Feb. 10—Bracebridge at 76th Battalion (Barrie); Collingwood and Midland will play a sudden-death game at Barrie on Wednesday, Feb. 5, the winner to play off with the winner of the 76th Battalion-Bracebridge series.

Junior: Saturday, Feb. 6—Stratford at Berlin Union Jacks; Tuesday, Feb. 8—Berlin Union Jacks at Stratford; Monday, Feb. 7—Belleville at Lindsay; Wednesday, Feb. 9—Lindsay at Belleville.

In O.E.A. intermediate group No. 9, which is composed of two sections, Bracebridge have already been declared winners of section B, but it is in the Midland, Collingwood and the 76th Battalion (Barrie) will be tied for the honors in section A. Midland will play off with Collingwood on Wednesday, Feb. 5, the winner to play off with the other two teams.

Altho Sarnia played at Seaford Thursday night in a game scheduled as an O.H.A. fixture, the game was really an exhibition affair. Sarnia will contest themselves in going after the intermediate honors, and it was therefore necessary to default the game. They played it as a senior fixture and would have disqualified their players for the intermediate ranks, as they had already played in one senior fixture. As a result Seaford are winners of senior group No. 4, and will play off with Hamilton Rowing Club.

Following are the games for Saturday and next week: Saturday: Senior—Port Hope at Oshawa, Lindsay at Belleville; Monday: Senior—Elmira at Berlin; Intermediate—Picton at Belleville; Brantford at Weston; Hamilton R.C. at Port Colborne; Dunnville at Niagara Falls; Collingwood at Alliston; Tuesday: Junior—Aura Lee at Owen Sound, Berlin Union Jacks at Ottawa, Belleville at Lindsay, Collingwood at Barrie; Wednesday: Senior—Argente at Riversides; Intermediate—Collingwood v. Midland at Barrie, Port Colborne at Dunnville, Hamilton R.C. at Niagara Falls, Weston at Bolton; Thursday: Intermediate—Bracebridge at 76th Battalion (Barrie); Friday: Intermediate—Hamilton R.C. at Port Colborne; Junior—Barrie at Collingwood, Owen Sound at Aura Lee.

These, of course, are only the regularly scheduled group games, or second round, or group play-offs already ordered. When winners are declared in other groups they will be ordered to play in the second round as soon as possible.

Queen's University have defaulted in the intermediate series to Picton.

Cobourg O.H.A. club has given three more hockey players to their already long list of men at the front. Cecil Chino, who played with this year's juniors, is going with the heavy Batt. Hooper, another O.H.A. player, is also in the contingent. Victor Floyd Smith, will another player, has enlisted.

Despite the fact that Frank Knight and Jerry Lafamme were out of town yesterday the Argonauts had the best workout of the week. The forwards were full of ginger and worked like beavers for an hour. Jack McCamus was out for the full practice and was going as good as any of them. Burritt has

rounded into form and will be a handy man to have around.

An Ottawa despatch says: A representative hockey team selected from the pupils of various public schools of Ottawa, together with a team of teachers, may engage in a home and home series with public school teams of Toronto, the latter part of this month. The matter is under discussion now, with a fair chance of it coming to a head.

Ottawa Free Press: That a hockey team is no stronger than its first line of substitutes is pretty well illustrated in the case of Montreal Wanderers. With Sprague Cleghorn out of the game the red brads lost a third of their all-round. And when Odie Cleghorn and Roberts were unable to pay Wanderers' first bench men were put in action. On the other hand, Ottawa appears strong in second string men. Up till a couple of weeks ago the champions were always only one or more of their regulars, but managed to stick around till the ranks were reinforced. Canadians appear well equipped with second stringers, ditto Toronto. The six-man game demands three nifty subs at least, with a couple more ready to do some skating.

Sammy Hebert, the Ottawa sub-goaler, who has not been scored upon this season, believes he has the solution to the stumping out of stick-throwing. Sammy advises that any time a player throws a stick and prevents what looks like a goal, the side offending against be allowed a goal without any penalty to the player. The young Canadian believes that would result in the total extinction of stick-throwing.

Joe Hall packs a smashing body check, and used it to great effect on Merrill and Gertson in the third period against Ottawa. It was straight, however, and in each instance the Ottawa player walked right into it. Joe was on Eddie's trail in the last period.

In Intermediate Group 9, Midland and Collingwood play home-and-home games this week. The young Canadian believes that would result in the total extinction of stick-throwing.

Roberts of Wanderers Leading Scorer, N.H.A.

Goalie Roberts, the Wanderer wing player, jumped into the lead in the N.H.A. scoring honors on Wednesday night when he notched three goals. Roberts now has a total of 13 goals to his credit, while Cyril Denny is second with 14 tallies. Joe Malone of Quebec comes next with 13, while his team mate, Tommy Smith, has 12 to his credit. Next in order come Hyland, Lalonde and Nighbor with 10 apiece. According to the official statistics the Ottawa team has played the cleanest hockey to date, while the Canadians have been penalized more than any other team in the circuit. The Frenchies have been given 21 major and 80 minor penalties to date. Mummery, the big Quebecer, has been the most penalized under the eye of the officials, the greatest number of times, he having received 4 major and 17 minor penalties to date. COBB'S AMBITION KEEPS HIM AHEAD

For Ten Successive Years the "Georgia Peach" Has Batted Over Three Hundred Mark.

It is no slight honor to lead either the National or the American League in batting. The competition is keen and there is an abundance of ambition among the players to capture the coveted privilege of topping the list of sluggers. While the fact that Ty Cobb led the American circuit in batting is not so much of a surprise as his performance of Larry Doyle in the National, it is none the less remarkable inasmuch as last year was the tenth that Cobb had batted better than 300, his mark being 370.

Baseball is Ty Cobb's business. It is also his pleasure. He would rather pound out a base hit than do anything else. There has not been a time since Ty Cobb joined the Detroit club ten years ago that his ambition to be the greatest player in the game ever lost its fire. Cobb is a great ball player, because first of all he is imbued with an irrepressible spirit to excel.

Cobb enters the major league with the odds against him. The breezy temperament of the young Georgian did not impress the time-worn veterans of the Detroit club. When Cobb broke in he was no wonder. He was a perfect athlete and lived a clean life. Out in the centre field he ran all ground under the ball and gave Manager Hugh Jennings many anxious moments when he was trying to catch a fly ball.

There was one thing about this young Cobb which impressed Jennings. He was the first player in uniform at the ball park. He was the first player out on the field to practice catching flies. He was everlastingly trying. He practiced and practiced and never tired. He couldn't get too much baseball.

Cobb's ambition has never left him. He is like a boy and gets more fun out of baseball than 99 per cent of the men who make it their business. Watch Cobb at his best. He is sparkling out sharp hits and running wild on the bases, and you will quickly see why he is the greatest baseball player in the world.

Cobb knows his pitchers from game to game. He studies them as well as he studies his own batting. Last year, for instance, Cobb had one of his best seasons. He hit for an average of .370 and he stole 95 bases. Think of it.

Do you know why he stole so many bases? Well, one reason was that Fritz Maisei of the Yankees was also running wild on the bases, and at one time during the season the little Yankee third baseman began to crowd Cobb and had stolen almost as many sacks as the Georgia Gem.

Here is where Cobb's ambition became fanned to fever heat. That strong feeling to excel gripped the Georgian, and he wanted to show the baseball world that no man was going to beat him stealing bases without a struggle. What did Cobb do? He began to run wild. He dashed from first to second base many times under the most unfavorable circumstances.

IF BACK HURTS BEGIN ON SALTS

Flush Your Kidneys Occasionally if You Eat Meat Regularly.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid, which clogs the kidney pores so they sluggishly filter or drain only part of the waste and poisons from the blood, then you get sick, drowsy, nervousness, headache, liver trouble, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if uric acid is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in glass of water before breakfast for a few days and your kidneys will then act fine. The famous salts is made from the acid of grapes and lemon juice, combined with bicarbonate and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, which is regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

The Hawaiian Islands during the summer of 1917. The athletic association has received a communication to that effect from Alfred L. Castle, an old Harvard player of the seasons of 1906 and 1908 and now manager of a club at Honolulu made up of old college players, including Gene Steiner, captain of the Brown nine in 1914.

Castle already has arranged for a series of games for this summer with college teams from the mainland and now is looking ahead, hoping to have one or two prominent eastern colleges for next year. He is offering as an inducement full expenses from San Francisco and return to that city and suggests that games be arranged en route to the coast to cover the trip across the country.

If favorable response is received from either of the colleges invited, Castle plans to come east next winter and complete arrangements.

J. Franklin (Home Run) Baker now says he and Captain Huston of the Yankees had it fixed up as to terms for 1916 away back last fall, but that Connie Mack wouldn't give him a reasonable amount of the purchase money. He says that since he will play in the National League, where he was last year. He says the bushers treated him better in 1915 than they did in 1914.

"Tilt" Shafer, former third-baseman of the New York Giants, has been reinstated as a full-fledged amateur and is going in for golf. Shafer retired from baseball a couple of years ago, despite the efforts of the New York Club to retain him.

NEWS FROM THE CITY HALL

CHIEF CANNOT REDUCE SAYS CITY SOLICITOR

Declares Smith's Demotion of Gunn to Be Beyond His Powers.

ORDER LEGALLY VOID

In Case of Dismissal, Board of Control Must Re-appoint.

City Solicitor Johnston has written to the board of control giving his interpretation of the law in regard to the reduction of Captain Alex Gunn by Chief Smith of the fire department. He says:

"I have gone carefully thru the rules and regulations providing for the organization and management of the fire department, set forth in report No. 10 of the committee on fire and light, adopted by council in 1897, and also a special bylaw relating to the fire department, being bylaw No. 422 of the consolidated bylaws, and I do not find any power conferred upon the chief of the department to reduce any member of the force in rank.

The law, sub-section six of section 10 of the bylaw provides among the duties assigned to the chief as follows:

"To investigate all cases of violations of any rules or regulations of the department or for breaches of discipline, and to punish offending parties by reprimand, reduction of pay for a specified time or dismissal from the department. If any charges are made against a member of the department the chief may suspend such member from duty until such charges have been investigated.

"The proposed action of the chief might seriously affect the rights of Mr. Gunn with reference to the benefit fund, and his proposed action being therefore of a penal nature, the rules prescribing the chief's duties must be read strictly. His powers therefore seem to be confined to those conferred upon him by

CITY HALL NOTES

Fire Chief Smith reports that Massey Hall can be cleared out in seven minutes, and that the exits and fire escapes are in splendid condition.

As a cure for the retardation of pupils in the public schools, Chairman William Houston would reduce the number of pupils in the classes.

Mayor Church yesterday welcomed to the city hall the grand lodge council of the International Association of Marine Engineers, who have been holding their biennial convention in the city for some days past.

The department of health reports a decline in the number of measles cases. Only 145 cases have been reported so far this week, as against 235 last week, and 289 the week previous.

Attendance at the Technical School is now given as 5035, considerably less than it was two months ago.

High school attendance for the month of January is given as follows: Harbord, 681; Oakwood, 578; Riverside, 518; Parkdale, 484; Humbert, 478; Malvern, 193; North Toronto, 193. The total attendance for the month was 2494.

the bylaw, which does not include the right of reduction in rank.

Beyond Powers. "I am therefore of the opinion that the action of the chief was beyond his powers and is of no effect. If the proposed action of the chief be taken as a dismissal of Mr. Gunn from his position of district chief and the appointment of him as captain, then section five of the salary grading bylaw required that his appointment to the new office has to be made by the board of control, upon the recommendation of the head of the department, and has to be reported to and approved by council."

Chief Smith is rather perplexed over the opinion given and says there will be trouble, as he has been reducing men all along the line. In handing the solicitor's letter to the press, Mayor Church declared that the opinion given put the whole onus on the chief unless the action was taken as a dismissal and re-appointment when the board of control would have to consider it.

WILL GUARD CITY HALL WITH REAL POLICE

Addition Will Be Made to Present Civilian Guard.

At a conference between Mayor Church, the chief of police, and Property Commissioner Chisholm it was decided to provide more adequate police protection for the city hall, the same to take the place of the civil guard which has been performing the duty. The mayor announces that a report will be prepared as to the additional precautions necessary to safeguard the public on all public buildings and places where the public resort. A mounted guard is still maintained at the waterworks.

GERMAN THREATENS CITY IN LETTER

Missive Addressed to Mayor Says "Watch Your Buildings Go."

Protection of civic property was the subject of two notes received by Mayor Church yesterday afternoon. One, signed "A German," says: "Now watch your 'Toronto buildings go' and terms some of the military men as 'gandy officers.'" The second urges the putting on of a military guard at the city hall, and declares that "the soldiers would be better occupied at duty of this kind than walking around the streets with guns."

WANT WEST TORONTO FRANCHISE CANCELED

Mayor and City Solicitor See Attorney-General Lucas.

With a view to having the franchise of the Toronto-Suburban Railway in West Toronto canceled Mayor Church and City Solicitor Johnston waited on the attorney-general, Hon. I. B. Lucas yesterday. An outline of what the company has done under its power was presented, and a request was made that the city be allowed to give West Toronto a service.

METROPOLITAN LIFE PAYS SOLDIERS' CLAIMS

Payments Made to Relatives of Ptes. Bisset and Gillespie.

Two more cheques for \$1000 each have been received by the city from the Metropolitan Life Insurance Company, being the insurance on the lives of Ptes. Thomas Bisset and Norman Alec Gillespie. The former was killed in action while the latter died a prisoner of war in Germany. The city has now paid insurance on the lives of 278 Toronto soldiers killed in action.

THIRTY-SECOND WITNESS IN M'GUTCHEON TRIAL

Failed to Get Agreement Price for Land and Foreclosed Against Accused.

WAS AFTER BIG PROFITS

R. W. Swinnerton's Hopes of Becoming Immensely Rich Received Rude Shock.

Owing to the absence of two crown witnesses in the trial of the McCutcheons in the criminal assizes yesterday an adjournment was made earlier than usual, and for fifteen minutes following the lawyers were engaged in a discussion regarding the number of witnesses still to be called. N. F. Davidson stated he had about twenty more witnesses to examine and from all appearances the trial will not be concluded for two weeks. The greater part of the proceedings yesterday was taken up with the examination of R. W. Swinnerton, the Anglo-Indian, who had been overcome by the plausibility of the McCutcheons and who invested \$2000 with them in the hope of realizing enormous profits. He, however, lost \$2250 on his investments.

Continuing yesterday morning he said that the fifth syndicate in which he was interested was the Council Crest at Moose Jaw. He invested \$500 in this, altho he was by no means keen, owing to previous experiences.

Charged Misrepresentation. The witness had started a civil action against the McCutcheons in August, 1914, regarding the Boniview investment, and he stated to Mr. Hellmuth that his charges of misrepresentation were based on the statement that he was to make 167 per cent profit in six months. He declared that he had nothing to do with initiating the criminal action.

John McDougall of Ormeby, Quebec, was the thirty-second witness. He stated that a property of 160 acres near Regina owned by him was sold to the accused. The firm paid \$2000 on April 22, 1911, for an option on the land. The option was duly taken up, the purchase price being \$183,000, \$20,000 to be paid in May, 1912, and \$163,000 more a month later. The balance was to be paid in three equal annual instalments with interest at six per cent. He received \$65,000 and finally instituted foreclosure proceedings, eventually getting back his property.

In the cross-examination he stated that he had bought the land for \$64,000.

Henry McFarlane of Cayuga acted as an agent for the McCutcheons and declared that he had received \$500 in stocks and \$200 in cash for driving G. D. McCutcheon and a Mr. Mitchell to prospective Council Crest Syndicate subscribers.

WAS GIVEN JUDGMENT AGAINST S. GODDARD

Mrs. Helen Brandon Recovered Full Claim From Executors of Estate.

Before Chief Justice Falconbridge in the non-jury assizes yesterday Mrs. Helen Brandon, guardian of the seven children of the late Mrs. L. Goddard, was given judgment for \$1000, which was the thirty-second witness against Stewart Goddard and John Hart, executors of John A. Goddard's estate. The plaintiff claimed that late Mr. Goddard took \$1000 of his wife's money after acting as administrator of her will, and that he invested this money during the war, along with his own. His lordship, in giving judgment for the full amount of the plaintiff's claim, advised that an arrangement should be arrived at so that the children would not suffer in consequence.

PLEADS THAT DELAY NULLIFIES AGREEMENT

F. Orford and F. W. Hill Defendants in the County Court.

F. G. Phippen's suit against F. Orford and F. W. Hill, which is being heard before Judge Coatsworth in the county court, was adjourned until Monday at the close of yesterday's session. Phippen claims that he was entitled to cancel the agreement drawn up between himself and the defendants involving the sale of a piece of land in the Danforth Park Estate. Delay was necessitated following the registration which the plaintiff claims invalidates the agreement. The agreement was not sealed when it was drawn up, the plaintiff declared. The sum of \$1500 is involved in the suit.

SUNDAY RECRUITING MEETINGS

FEBRUARY 6, 1916

LOEW'S THEATRE, afternoon and evening, at 2 and 7 o'clock. Eighty soldiers will take part in these meetings, including the physical drill squad of the 95th Battalion, by kind permission of Lieut.-Col. Barker. The fife and drum band of the regiment also will be present to play. Moving pictures will be shown. An excellent musical program has been arranged, and speeches will be made by Captain Bennett of the 85th Battalion, who was wounded in France; Mr. Frank Lascelles, the famous pageant producer; ex-Governor Brown of Saskatchewan, Col. Barker, Lieut. Worthington, Lieut. Batton, Chief Justice Sir Glenholme Falconbridge, Mr. Justice Riddell and others. Music will be provided by the 92nd Battalion Band. Mayor Church will preside in the afternoon, and Dr. Norman Allen in the evening.

STAR THEATRE, evening only. An exceptionally good program has been arranged for this meeting. Speakers will be the same as at Loew's, with other returned soldiers and prominent Toronto speakers. D'Arcy Hinds will be chairman.

PARK THEATRE, commencing at 7 o'clock. This theatre holds the record for number of recruits obtained. A. E. Donovan, M.P.P., will be chairman, and a big military concert will be provided. Doors open at 6.30, and moving pictures will be shown from 7 to 8 o'clock. Thos. Hook, M.L.A., and Judge Cohen will speak.

BEAVER THEATRE, commencing at 7 o'clock. Captain Price, Lieut.-Col. Wright and others will speak. TWENTY-ONE ZEPPELINS DESTROYED OR MISSING

Eight Other German Dirigibles Also Lost, is British Estimate.

LONDON, Feb. 4.—Twenty-one Zeppelins and eight other German dirigibles have been destroyed or lost since the beginning of the war, according to a report accepted today in commenting on the reported disaster to one of the German air dreadnoughts in the North Sea after the Monday night raid on England. The London newspapers accepted the report as true, the official statement from Berlin reports that all the Zeppelins returned safely. They estimate that 124 members of Zeppelin crews have been killed, 150 made prisoners and 27 interned in neutral countries. The Daily Chronicle adds that Count Zeppelin last March admitted in an interview that eight Zeppelins had been lost.

How to Shed a Rough, Chapped or Blotchy Skin

This is what you should do to shed a bad complexion: Spread evenly over the face, neck and throat a thin layer of ordinary mercurized wax. Let this stay on over night, washing it off the next morning. Repeat daily until your complexion is as clear, soft and beautiful as a young girl's. This result is inevitable, no matter how soiled or withered the complexion. The wax literally absorbs the flimsy surface skin, exposing the lovely young skin beneath. The process is entirely harmless, so little of the old wax coming off at a time. Mercurized wax is obtainable at any drug store; one ounce usually suffices. It's a veritable wonder-worker for rough, chapped, red-dusted, blotchy, pimply, freckled or sallied skin. Pure powdered azoalite is excellent for a wrinkled skin. An ounce of it dissolved in a half-pint which hazel makes a refreshing wash-lotion. This renders the skin quite firm and smooth; indeed, the very first application gives the finer lines; the deeper ones soon follow.

WINTER HARD ON BABY

The winter season is a hard one on the baby. He is more or less confined to stuffy, badly ventilated rooms. It is so often stormy that the mother does not get him out in the fresh air as often as she should. He catches cold, which racks his little system; his stomach and bowels get out of order and he becomes peevish and cross. To guard against this the mother should keep a box of Baby's Own Tablets in the house. They regulate the stomach and bowels and break up colds. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

CHICAGO, Feb. 4.—Notwithstanding a temporary break which resulted from word that Germany would not admit any illegality in the sinking of the Lusitania, the wheat market today scored a substantial advance, chiefly because of unexpectedly higher cable quotations and owing to increased apprehension of damage to the domestic winter crop. Prices closed at a net gain of 10 to 15¢ with May 13 and July 12 1/2¢. Other leading staples, too, all showed upturns—corn 3 to 4¢, oats 1 to 2 to 4 and provisions 3 to 10¢.

MINING NOTES
It has been announced unofficially that the total production of the McIntyre for January was something over \$71,000. The average production for the last three months of 1915 for this mine was about \$61,000 and the average expenses per month were \$20,000, allowing for some increase in expenditure for January. It would leave an approximate increase in net earnings of \$50,000.

Market Opens Promising, But a Check Was Administered by Wall Street Action.
The Toronto Stock Market had an uncertain session yesterday. The morning's business started off promising but a slip in the New York Market brought things all agog here and the market rallied. The market was buoyant and active at an advance to 19 3/8, but when the news weakened the shares fell off to 18 1/4. The market then rallied on presentation with a rise of 3/4 to 18 1/2, but here again sentiment had its effect and the market fell to 18 1/8. Smelters were made at 81, but the market was not strong. U. S. INCREASES TRADE WITH SOUTH AMERICA
Imports From Below Line Reached Three Hundred and Twenty Million.
NEW YORK, Feb. 4.—All previous records for one calendar year between the United States and South America were broken in 1915, according to figures made public today by the foreign trade department of National Commerce. Based on statistics for December's figures for the port of New York, the imports from South America last year reached an estimated total of \$220,000,000, and the exports to South America \$145,000,000. This combined total of \$365,000,000 is greater by about \$22,000,000 than the figures of 1914, the previous record. The imports are forty per cent greater than in 1914, and the exports are twenty per cent greater.

TRADING BECAME DULL IN SYMPATHY WITH N.Y.
Montreal Exchange Took Adverse Turn on Hearing of Reaction in U. S.
MONTREAL, Feb. 4.—The opening on the local exchange was strong, but following New York's reaction the market turned dull, with prices sagging under light offerings. Canadian car common and Canada Steamships issues showed most activity. The market was buoyant and active at an advance to 19 3/8, but when the news weakened the shares fell off to 18 1/4. The market then rallied on presentation with a rise of 3/4 to 18 1/2, but here again sentiment had its effect and the market fell to 18 1/8. Smelters were made at 81, but the market was not strong.

Montreal Exchange Took Adverse Turn on Hearing of Reaction in U. S.
MONTREAL, Feb. 4.—The opening on the local exchange was strong, but following New York's reaction the market turned dull, with prices sagging under light offerings. Canadian car common and Canada Steamships issues showed most activity. The market was buoyant and active at an advance to 19 3/8, but when the news weakened the shares fell off to 18 1/4. The market then rallied on presentation with a rise of 3/4 to 18 1/2, but here again sentiment had its effect and the market fell to 18 1/8. Smelters were made at 81, but the market was not strong.
