CANADIAN WOMAN TAKES HER LIFE

Was Disappointed Because of Failure to Rise HIGH IN SOCIAL SCALE

Mrs. Christina Pelouin, Formerly of Montreal, Shot Herself Because of Unrealized Ambitions--She Desired to Excel in Literature and Shine in Society.

NEW YORK, Dec. 12.—The World this morning says: Disappointed, apparently in her ambition to rise high in the social scale and intellectual pursuit, Mrs. Christina Pelouin, wife of Otto Pelouin, an expert machinist, employed by a firm of manufacturers of automobiles, killed herself yesterday in the Grand Union Hotel.

So intense was her determination to die that the revolver, the muzzle of which was pressed against her right temple, was held in such a death grip that Dr. Schultz, the coroner's physician, had to pry her fingers apart.

Death must have been instantaneous. The theory of disappointed ambition was advanced last night by Romer Pelouin, the father, viewed the body and identified it as that of his mother. He did not attempt to explain the import of a bundle of letters written in French, which were alongside of a scroll in English which read:

"Please notify my son, Romer Pelouin, at the real estate office F. R. Wood & Co., Broadway and Eighth street."

Young Pelouin said last night that he was engaged to be married.

The Pelouins came to New York from Montreal five years ago, the husband going to live with friends and the mother going to her home.

Mrs. Pelouin was educated in one of the most exclusive seminaries in Montreal. She was anxious to enroll in Harvard and her husband was anxious to do this. His husband was succeeded by her.

It was with this end in view that Otto, the husband, went to live with friends at 34th street and East End avenue, and the son postponed his marriage. He saw his mother on Thanksgiving day and she said she was going to Montreal.

Neither father nor son knew that she was in New York.

MORNING BLAZE IN PRESQUE ISLE

PRESQUE ISLE, Me., Dec. 12.—The Cottage Hotel and stables were destroyed by fire early today with a loss of \$10,000. Five horses were burned, and very little furniture was saved. There were very few people in the hotel, and all made their escape. The cause of the fire is not known.

COULD NOT FIND BARGE

The large ocean tug Douglas H. Thomas, Captain Cann, arrived in port last night from Halifax. This is the tug that had the lost barge Rembrandt in tow for Halifax, which parted her harness in bed week's storm off the Nova Scotia coast. Captain Cann states that he has searched all along the coast for the missing vessel but saw nothing of her. He has hopes that the vessel will turn up or that Captain Akor may have been taken off. The tug met into Yarmouth, N. S., last Sunday night out of the storm, which then was raging along the coast. Today the tug took the empty coal barge Grandee in tow for Halifax. Captain John McDonald, a well known Sydney captain, is in charge of the barge Grandee.

PRIEST FOUND DEAD

NORTH TONAWANDA, N. Y., Dec. 12.—The Rev. Patrick O'Brien, managing editor of the Catholic Union and Times of Buffalo, was found dead at 4 a.m. in a rooming house early today.

CHINA MAY ATTEMPT TO ENFORCE POLICY OF CHINA FOR CHINESE

Apparently Chinese Government is Becoming Unduly Impressed With a Sense of Its Own Importance and May Need Lessons in Up-to-Date Civilization.

LONDON, Dec. 12.—The Shanghai correspondent of the Times sends a long description of what he calls the remarkable movement of Chinese opinion as the effect of the defeat of Russia by Japan, in the direction of the policy of "China for the Chinese," and a deliberate and organized resistance to all foreign influence. He believes that the movement is genuine and widespread and thinks that it behooves the commercial powers to take united action promptly. Among the causes contributing to this spirit, the correspondent enumerates the following: "First—The assumption that the Anglo-Japanese alliance guarantees the integrity of Chinese territory.

"Second—The impolitic action of the United States which, failing to perceive that the boycott against American goods was merely a manifestation of the anti-foreign feeling, adopted an attitude of hostility, which Asiatics naturally misinterpreted.

"Third—The influence throughout the provinces of half-educated students, who have returned from Tokio imbued with the idea that China is capable forthwith of following Japan's example, and

"Fourth—The withdrawal of the British fleet and the reduction of the allied garrisons."

RECORD WINTER IN THE ALBERT COUNTY WOODS

HOPEWELL CAPE, N. B., Dec. 9.—Very extensive lumber operations are being carried on in the county of Albert this winter. Some have thought that the supply would soon be exhausted by the way the forests have been depleted during the last few years, but the Times correspondent cannot remember any year when so many men were in the woods as at the present time, and the weather has been favorable for the two months past, and predicts a for a mild winter are welcome indeed.

At Point Wolfe, C. T. White is getting out a large cut as usual. He has lately put steam power in his mill. At Alma, as in former years, several gangs of men are preparing to give steady employment to practically the whole village. Steam

has also been added here, and the mill is one of the best equipped in the province. Alma can ship, and does ship, almost the entire year.

At West River, Geo. D. Prescott is doing a great stroke of business. The store is again restocked with goods. Here is located a sawing factory.

At New Ireland Messrs. Wilbur & Wilbur are getting out a large cut and Smith's mill is expected to begin sawing soon. I. C. Prescott is working a few camps near this same locality. He also is lumbering near Lunenburg, about eight miles from Alma.

At Midway Messrs. McLellan Bros. are setting up their mill, where they have a large cut. Chas. Hawkes and Theodore Stevens are also lumbering quite near. W. J. Garrawath, of Riverside, has two

large camps in the woods—one at Mamel and the other near Baltimore. McLellan Bros. have a large cut near the village of Albert, when the mill finishes a Midway.

The James Wright property at Hopewell Hill will probably be lumbered by somebody this season. A Lower Cape Elias Benjamin is getting out a lot of logs.

Downey Bros. are lumbering at Calette and John Sawka's mill is already sawing for them. William Wilson and others are also working near here. Messrs. Boyce and Rufus Milton are lumbering quite extensively at Curryville. Dobson Bros. of Stony Creek, have a thickly wooded lot miles within a radius of two miles or so at Beech Hill. These are separate and distinct from the lumber interests in other parts of the country.

Work has again been suspended at CHEVERIE OIL FIELD

TRURO, N. S., Dec. 11.—The business men of Truro, the largest town in the maritime provinces, has applied for half space in the new building.

Mr. and Mrs. Joseph Hill, at Great Village, celebrated, on the 9th, the fiftieth anniversary of their marriage.

Truro was taken steps towards taking a census of the town. It is proposed to appoint a sufficient number of enumerators to complete the canvass in two hours—between 3 and 5 o'clock some afternoon.

THE CARLETON FOUNDRY CO.

Judge McLend Granted a Winding Up Order this Morning—Assets \$1,200, Liabilities \$1,800.

A petition was presented before Judge McLend this morning for the winding up of the Carleton Foundry Co., Ltd., and a winding up order was made.

This company was incorporated in 1902, under the joint stock companies act of 1882, and was capitalized at \$5,000. It engaged in the business of producing and selling iron and steel castings.

The directors are—Wm. G. Haslam, H. Doby Smith, Wm. H. H. Baxby, for E. H. Riley, Wm. J. Ives, and Miss L. C. Riley.

In the petition this morning it was alleged that the directors were appointed at a special meeting held on September 26th, and the court was asked to inquire into the validity of this meeting.

The assets are \$1,200 and the liabilities \$1,800. J. King Kelly was appointed liquidator.

The lawyers who appeared this morning were—J. King Kelly, for Patterson, McLeod & Co., J. R. Baxby, for E. H. Riley, a shareholder; H. H. Pickett, for the Bank of New Brunswick; Milton Price, for the New Brunswick Telephone Co.; and J. G. Baxby, for I. Goldberg & Sons, and H. A. McKewen, for the Carleton Foundry Co.

TWELVE BELOW IN FREDERICTON

Last Night Was the Coldest Yet Experienced. This Season.

FREDERICTON, Dec. 12.—(Special) Last night was the coldest experienced here this season, the mercury dropping to twelve degrees below zero.

Daniel Sabatini, the well-known milliner of this city, was called from St. John last night in consultation with the local physician.

WORK AGAIN SUSPENDED AT CHEVERIE OIL FIELD

five or forty thousand dollars were raised and spent in an attempt to find oil, but through the workers still claim excellent signs of oil, it is believed by many that all the oil has been found that ever will be found in that section. The output was raised all over Nova Scotia.

Fowler Bros., furniture upholsterers and cabinet makers, have sold their undertaking business to A. C. B. Olive, who has been in the business here for a number of years.

The Bank of Nova Scotia has purchased the lot corner Prince street, adjoining the grounds of the Academy and Provincial Normal School buildings. It is reported that they will build a fine stone structure early in the spring.

FOUND A PENCIL IN HIS STOMACH

NEW YORK, Dec. 12.—Physicians at St. Vincent's Hospital, yesterday on performing an operation for appendicitis on Timothy J. Keeler, found a pencil several inches long in the man's stomach.

Keeler had been at the hospital for several days and gave every symptom of a man suffering with appendicitis. The patient was as much surprised as the doctors, when they discovered how the pencil got into his stomach. The physicians believe that he swallowed it in his sleep.

LATE LOCALS

Timothy O'Brien has been reported to the police for breaking his father's property on St. Patrick street.

Chas. G. Bell, White has been seen on Hatten street formerly occupied by W. M. Bancroft, and will occupy it shortly.

A freight train of about 18 or 20 cars from the west became stuck on the Mill street crossing about noon today and delayed traffic for about ten minutes. It was necessary to employ a locomotive to get it to its assistance.

Word was received today of the death of Beatrice, the infant child of Mr. and Mrs. Edward Smith, which occurred at Medford, N. B., on Saturday last.

The sympathy of Mrs. Smith's many friends in St. John will be extended to her in her sad bereavement.

Captain Arnold Mabee, formerly of the United States Army, was in the city today and reports extremely good weather along the line of the I. C. R. At Hampton the mercury fell 15 below the zero temperature was reported five degrees lower.

The Water and Sewerage Board will meet at 3 o'clock this afternoon, when the question of what will be done about the Lake Letimer sewage disposal is discussed. Mayor White, speaking of the matter this morning, said it was his opinion that the board had better let the matter alone and allow the contractors to work it out between them.

Carpenters were busy this morning boarding in the new steamer Hampton, which will probably be placed on the Kennebec route as soon as navigation opens.

The question of finishing the inter-lake route is practically completed, and judging from present indications the new boat will be the finest that has yet been run on the Hampton-Indianapolis route.

Hake fishery will hail with delight the long cold winter season many a "break" will be seen on the frozen surface of "old Kennebec."

At a meeting of the Victoria Acetylene Co., held in John H. McRobb's secretary and treasurer, resigned and J. William Smith, of Hamilton, N. B., was appointed to fill the position. James Hinler, president of the company, resigned and A. G. Ettercombe, of St. John was appointed to fill the position. A. C. Northern, representative of the Aberdeen Hotel, was appointed general agent for the city and county of St. John.

QUEEN'S MUSIC TEACHER DEAD

SAN FRANCISCO, Cal., Dec. 12.—Henry Holmes, formerly musical instructor to Queen Alexandra of England, and for the past 17 years a resident of San Francisco, died at his home in this city on Saturday last. He was born in London in 1839, and came to this city in 1888, after attaining a distinguished reputation as a violinist in the capital city of the world.

Col. G. R. White, Col. A. J. Armstrong went to Sussex on the noon train. They will inspect some of the military buildings and property there, returning home this evening.

ADVANCE ORE SALE LARGEST FOR YEARS

CLEVELAND, O., Dec. 12.—The Leader says today: "Ore sales made by Cleveland companies for delivery next year reach a valuation of about \$115,000,000."

"This means that fully 90 per cent. of next year's ore business has been already transacted, about \$2,500,000 of the \$3,000,000 tons, the limit of production of the Lake Superior region, has been contracted for. So large an advance sale has not been recorded here in many years."

The sales made are divided into two classes. One includes the sales by the strictly merchant firms. The other comprises the sales to their own companies by the mines owned by the various steel making concerns.

The ore prices which have been established are \$4.25 a ton for Bessemer old range ores, 1. c. b. Lake Erie d'c's, \$3.70 for Bessemer old range ores, with Bessemer Menasha at \$4.00 a ton. These prices apply on what is known as the base quality."

WINTER PORT MATTERS

Donaldson line Concordia is due. C.P.R. steamer Mount Temple is due. Donaldson line steamer Alberta took 18 cargoes and the C. P. R. steamer Lake Champlain 21 cargoes, shipped by Bristol, the steamer's 21st-year-old daughter of a prominent steel manufacturer of Hamilton, Ontario, tried to jump overboard from the Kronland before daybreak last Tuesday morning when the liner was in mid-ocean. Quickly a sailor caught her as she was climbing over the rail, and despite her struggles and cries of "Let me go, voices from the sea are calling me," carried her below.

For the remainder of the voyage she was kept under the constant surveillance of three attendants, though allowed freedom, and made no further attempts to end her life.

When the ship docked her father and mother were at the pier to meet her, and were greatly shocked to learn of her condition, as they said she had been in perfect health when she left New York last September to enter a finishing school at Brussels.

Mr. Bristol went at once to Ellis Island to get permission from Commissioner Washburn to take his daughter home.

PERSONAL INTELLIGENCE

Mrs. Babbitt, Fredericton, N. B., is spending the winter with Mr. Hestley Bond, Charlotte street, Toronto.

Miss Charles C. Frevling will receive her friends at her home on Kennedy street on Thursday and Friday, Dec. 14 and 15.

Miss Julia Rieker, who has been ill for some days at her home on Kennedy street is gradually improving.

Dr. J. M. Smith returned from Boston today. Mrs. Ernest Smith returned home today from the Boston train.

Mrs. W. C. Philfield returned to St. John on the noon train from the west.

Mr. and Mrs. Geo. McAvity returned from Montreal on the Atlantic express today.

EASILY EXPLAINED

The Carleton people have been asked why steam is kept up on the Ludlow dam and night while she is in Rodney Hoopoe waiting for her new air-pump. The answer is simple. It keeps two or three men busy and helps the coal mines. A big

that is talking about getting new industries would not dare to get on bad terms with the coal mine. Besides, they have steam up on the Ludlow now, and if they let the fire go out, her pile of coals might freeze up and burst and destroy what the Union street land slide has left of the West Side of the harbor. Moreover, Wun Lung's oil well might go to the bad, and negotiations for the E. Rose have not yet been completed. The Ludlow is a fine boat. If she is kept in Rodney Hoopoe it will only take one load of coal more to lay to run her back to it to run Wun Lung. This is a great saving to the taxpayers, and the mill probably be kept in the hospital.

possibly before the winter is really over. There have been rumors as to her engagement to Mr. Longworth, and these were strengthened owing to her recent trip to the Far East, both she and Mr. Longworth being members of Secretary Talm's party. Continually during their journey there were rumors that they would be married, rumors which were always met with a prompt denial.

Thousands of Women Have Kidney Trouble and Never Suspect It.

Almost every one, from personal experience, knows that the effects of any kind of severe physical strain are felt, first of all, in the small of the back—in other words, in those vital organs, the kidneys.

The Great Kidney Remedy Swamp-Root, strengthens the kidneys and through them helps all the other organs.

WOMEN suffer untold misery because the nature of their disease is not always correctly understood; in many cases when doctoring, they are led to believe that womb trouble or female weakness of some sort is responsible for their ill, when in fact disordered kidneys are the chief cause of their distressing troubles.

Didn't Know I Had Kidney Trouble

I had tried so many remedies without benefit that I was about discouraged but in a few days after taking your wonderful Swamp-Root I began to feel better.

Swamp-Root a Blessing to Women

Dear Sirs—I want to write and thank you for what your Swamp-Root has done for me. Perhaps you suffer almost continually with pain in the back, bearing-down feelings, headache and uterine exhaustion.

To Prove What Swamp-Root, the Great Kidney, Liver and Bladder Remedy Will do for YOU, Every Reader of The St. John Evening Times May Have a Sample Bottle Sent Free by Mail.

EDITORIAL NOTICE—No matter how many doctors you have tried—no matter how much money you may have spent on other medicines, you really owe it to yourself, and to your family, to at least give Swamp-Root a trial.

THE EVENING TIMES.

ST. JOHN, N. B., DEC. 12, 1905. The St. John Evening Times is published at 27 and 29 Castlereagh Street, every evening, Sunday excepted, by the St. John Times Printing & Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

WORK FOR ST. JOHN

Citizens engaged in manufacturing, and business men generally, should attend to night's meeting in the Board of Trade rooms to consider the question of securing new industries for this city. The Times has already pointed out the very large variety of articles now manufactured here, in a small way, and this good enough evidence to prove that the same could be done on a larger scale. The facilities for the cheap gathering of raw material, the rapid growth of a great market in the west, the excellent means of communication and transportation in all directions from St. John, the intelligence of our work people, the healthful climate, are all in our favor.

WHY WE PROTEST

The newspaper which pretends what it believes to be a right course in regard to matters affecting the interests of the public is quite likely to be misunderstood, and its motives sometimes questioned. Perhaps there are so many journalistic "irritants" that a fair and fearless paper is not believed to be a possibility. Be this as it may, the Times is compelled to utter a mild protest. It is not a very long time since this journal was denounced by certain persons, who declared that it was the enemy of the working man. Now comes Mr. W. Wilbur, whose name has not yet found its way into the St. John directory, but who is a double capitalist, and who charges the Times with having advocated manual training because it wanted to pass as the working man's organ. With all humility it is submitted to Mr. Wilbur that this paper cannot at one and the same time be the working man's friend and enemy. It may be stated further that the Times would not advocate manual training if it did not believe good results to the community would result, as has been the case wherever manual training has been introduced. This belief of the Times is shared by a long list of intelligent citizens who have been interviewed, and by members of the board of trade and of the school board itself. Manual training will be introduced, not because this paper advocated it, but because it ought to be introduced.

TEACHERS' SALARIES

A St. John school teacher has tendered her resignation because she has been offered a much higher salary to teach a school in Alberta. This story has a moral. In Ontario teachers are scarce because salaries are low and better opportunities are offered in the far west. New Brunswick has already lost some and stands to lose more, of the very class that are fitted to do the best work. The teachers of this city are asking for an increase in salary. They are poorly paid, and have little or no encouragement to remain in a profession which has few inducements to offer. Yet the education of the young is the most important work the citizens have to consider. It is hoped that the finances of the school board will make it possible to raise the scale of salaries of teachers in this city.

MONTREAL OPINION

The Montreal Witness appears to be of opinion that the eastern section of the Grand Trunk Pacific will seriously injure the Intercolonial. It is interesting to mention previous people to know what is being said in the upper provinces, and we therefore quote from the Witness its comments on the rumors of a transfer of the government railway to a company. It says: "Transfers of great public interests from companies to the government and from the government to companies are not, as a rule, profitable to the people. Such changes were characteristic of the bad days of France, and we have had experience of our own. But the Intercolonial Railway has already had its knock on the head, the duplication of its unprofitable line having been determined on, and it would probably be a relief to the country if an honorable transaction could be brought about whereby such duplication could be obtained. The difficulty is in getting such transactions honorably through. In this connection it might be pointed out that probably an arrangement could be made whereby the cry for the building of the Grand Trunk Pacific through the southern part of New Brunswick could be satisfied by the government double-tracking the Intercolonial from Point Levis to Riviere du Loup and purchasing the Temiscouata Railway from that point to Edmundston, where connection could be made with the Canadian Pacific Railway's line from that point to St. John. By turning the Intercolonial over to either the Canadian Pacific or the Grand Trunk Pacific the southern portion of New Brunswick would be satisfactorily served by both railways. By turning it over to the Canadian Pacific with the understanding that the Grand Trunk Pacific shall have running rights from Point Levis and Quebec over the Intercolonial to Riviere du Loup or Edmundston, and from the latter point to St. John over the Canadian Pacific Railway, there would be no need for a hopelessly unprofitable duplication of lines on that route, as is projected in the building of the Grand Trunk Pacific. Another arrangement, which would serve the same purpose, would be for the

Intercolonial to be turned over to the Grand Trunk Pacific with the understanding that when the Quebec bridge is finished the Quebec bridge is finished, the Intercolonial Railway shall have running powers over the same from Quebec to Edmundston. By either arrangement the necessity for building the Grand Trunk Pacific from Quebec to Moncton would be obviated, and the transfer included the whole of the Intercolonial, the country would bear no more of the annual deficits in the operation of the Intercolonial remains in the derelict condition into which the Grand Trunk Pacific contract has thrown it, are likely enormously to increase."

We may add to the Witness article the following report of an interview in Montreal with Hon. Dr. Pugsley two days ago:—"I do not think there is anything tangible in the so-called movement to sell or lease the Intercolonial," was the answer given today by Hon. Wm. Pugsley, when asked if he had heard anything of the change of sentiment in the lower provinces, as described a few days ago by Hon. Jas. Deverville. Being told that if the government did not build the section of the Grand Trunk, from Chaudiere to Moncton, the Canadian Northern would probably do so, the Attorney-General said: "I cannot believe that the government would ever think of abandoning that section, as it is an integral part of the project, and one that cannot possibly be abandoned. You can make this statement just as strong as you please." Hon. Mr. Pugsley said in fact, that the impression prevailed that the I.C.R. The proposition may dwell in the imagination of a few, but there would no influence, and their movements need never be regarded seriously. The project is so impractical and out of harmony with general public sentiment that it is hardly worthy of editorial comment."

The Montreal Gazette has this fling at Mr. Emmerson and the I. C. R.:—"Mr. Emmerson says if he were a capitalist or a railway magnate he would be after the Intercolonial Railway himself. This is hard on Mr. Emmerson's past administration of the road's affairs. No capitalist in his senses would be 'after' a road that regularly spends \$1.13 to earn a dollar in carrying traffic."

In imposing a fine of \$5,000 each upon the Master Plumbers and Steamfitters and the Central Supply Association, at the conclusion of the conspiracy trial in Toronto last week, Mr. Justice Clute said in part:—"One hardly knows how to express one's self in reference to disclosures such as we have had in regard to the honest specimen. A number of his honorable and able men meet around a table and, under the pretence of sending in invited tenders, deliberately adopt a method by which money to which they had no possible claim; no more claim than any person meeting another upon the street and by force robbing him of what he had. Indeed, I think that offence rather the less offensive. Here they adopt a system of misrepresentation and fraud in order to induce persons inviting tenders to believe that the tenders were reasonable, and fair when for at least two or three years it was admitted that not one single honest tender had come from this association."

"I think that the case has been proved; that there has been a conspiracy, and I find the defendant associations guilty of the charge against them."

This is plain language. The learned judge took the same view as was expressed the other day by an American paper, when it pleaded that a corporation director who annexed other people's money in large amounts for his own purposes should be dealt with at least as severely as the clerk who took from the till the price of tickets to the theatre for himself and his sweetheart."

A cable from Paris states that the French chamber has just passed the first article of that most important bill—the workingmen's pensions. This article provides for a pension of 300f. (\$72) for a workman in the city after the sixtieth year and 240f. (\$60) to a workman in the country after sixty.

Open till 8 tonight. St. John, N. B., Dec. 12, 1905. AN EVIL GENIUS Rev. H. E. Welsh, M. A., general secretary of the Canadian Bible Society, who has just returned from a western tour, in the course of which he visited and closely observed the Galician, Donkhor, Mormon and other foreign settlements of western Canada, declares that Peter Verigin should be suppressed. The following interview with Rev. Mr. Welsh appears in the Toronto Globe:—"I have a very apt idea of the Donkhor and think he is a splendid potential citizen. He is sturdy and simple in his words, keeps his house, though dirty, very clean, he stands likewise, he has the usual honest, good natured, and so on—but an even coarser case has been known because Peter Verigin acts as dictator."

PIANOS and ORGANS

At such prices and on such terms as will insure their immediate sale.

Contracts have been made for these improvements which will require the stock to be either sold or removed before the 23rd inst. We have therefore decided to offer the goods at very low prices. This will probably be the most important forced sale of pianos ever offered in this city. Our stock is a large and varied one, and as nearly all the pianos have been personally selected we can confidently assure buyers of the high quality of the goods. Anyone thinking of purchasing a musical instrument in the near future should embrace this opportunity to see our prices and examine our stock. It may be a long time before such another chance offers.

RYAN TO TELL OF THREATS

New York, Dec. 11.—Thomas F. Ryan will not go to jail for the sake of protecting E. H. Harriman. Neither will the power of the legislative committee investigating insurance conditions to punish for contempt be tested to the limit.

Mr. Ryan, who owns the Equitable, refused last week to answer questions as to what Harriman said to him when Harriman wanted Ryan to let him in on the purchase of Hyde's Equitable stock. The legislative committee thereupon laid the matter before District Attorney Jerome to take steps to punish Mr. Ryan for contempt.

It was pretty well understood that Ryan would not mind telling what Harriman said but as it was a private conversation he wanted some justification for repeating it in the way of legal coercion. Ryan's lawyer, Mr. Odell, in other words consulted today and as a result it is announced tonight that Ryan on the advice of the district attorney will answer the questions.

This testimony is likely to cause somewhat of a sensation, although a great many people know that Harriman, in his effort to get a slice of the Equitable pie, threatened Ryan with Odell. In other words Harriman tried to do just what Odell did in getting back the money he lost in the shipbuilding deal. He tried to use the power of the state legislature. He threatened Ryan that if Ryan did not let him in on the Equitable purchase he would have Odell have the legislature pass a law really and truly nullifying the company and thus destroy the value of the stock.

Mr. Ryan has no objection to telling all about this but he likes to have a good excuse in the contempt proceedings. It will furnish another instance of the hezen way Odell and Harriman have used their ownership of the legislature of the sovereign state of New York.

The committee today, marvelous to relate, uncovered an insurance company that seemed to be doing business on a non-profit basis without graft, the Home Life. Chief Inquisitor Hughes said it was quite refreshing.

The Mutual providency is to go to Charles A. Peabody. This was definitely decided today. The man who is to take McCurdy's place is known usually as a representative of the Standard Oil interests. His actual business is looking after the Astor estates in New York and he is brother of the partner of the Morgan connection with Peabody it completes the trio.

A FELINE DITTY
—ON
DIAMOND DYES.

My kittens three, were white and gray,
They had to keep their coats clean.
No matter how I worked each day,
With clothes so soiled and mean.

They'd go out in the morning clad
So tidy and so trim;
At night, they'd come home looking sad,
With clothes so soiled and grim.

I could not keep them tidy, neat,
One hour of the day
When they were in the field or street,
With other cats at play.

I then procured the DIAMOND DYES,
And made a dye bath hot,
And to my kittens great surprise,
I dipped them in the pot.

Today, my kittens all are dressed
In black so rich and deep;
I mourn no more, and now am blessed
Whenever I roam or sleep.

The moral of my song is plain,
To women bright and wise;
If you would pleasure, profit gain,
Just use the DIAMOND DYES.

The people of Woodstock are dissatisfied with the train service between Woodstock and Perth. The train served daily in Woodstock about noon and two hours later left for Perth. This was considered very satisfactory, and the substitution of a mixed train is regarded with disfavor. Supt. Downie would give out no information on the subject yesterday and D. W. Newcombe, of the C. P. R. at Woodstock, has promised to lay the matter before the higher authorities.

At the weekly meeting of the Neptune Rowing Club last evening, Heber Vroom, who occupied the chair in the unavoidable absence of Ronald Frith, the chairman, presented P. R. Campbell, on behalf of the members with a handsome dress suit case. Mr. Campbell leaves shortly for California, where he has accepted a position.

ST. PETERSBURG IS LIKE AN IMMENSE ARMED CAMP

An Official Giving an Opinion on the Situation Says: "I think We Are Coming to Rivers of Blood."

St. Petersburg, Dec. 10, via Eydtshagen, East Prussia, Dec. 11.—Riga is completely cut off from St. Petersburg. Even the railroad telegraph is not working.

The scanty news reaching St. Petersburg is causing anxiety.

The last advice received from the Baltic provinces reported the destruction of churches, the murder of land owners and the pillaging of property.

The revolutionaries are growing in activity. In one case they attacked a detachment of troops and seized weapons, which they used in the invasion of estates in the vicinity. They escaped on a narrow gauge railway after capturing a train.

The extreme newspapers of St. Petersburg are openly defying the government.

The torpedo boat Philander is anchored at St. Nicholas bridge.

The manager of a factory was stabbed and killed for refusing to permit the workmen to hold a meeting.

St. Petersburg, Sunday, Dec. 10, via Eydtshagen, East Prussia, Dec. 11.—It is learned on high authority that the government has finally decided against universal suffrage and practically in favor of the old project of twenty-two workmen representatives and the extension of the ballot to the small rent payers, merchants and the educated classes.

The law must still pass the council of the Empire and receive imperial approval.

The railroad men claim they have been informed that several sections of the Southwestern systems have already responded to the call for the general strike. Cooler heads, however, are advising against precipitate action which might result in failure, and are urging a postponement of action until the organizations throughout the country have been consulted.

It is believed that if the attempt at reelection is persisted in the moderate liberals, who are disgusted with the tactics of the revolutionaries, fearing anxiety and are inclined to support the government will surely be driven back into the camp of the extremists.

Witte's friends declare emphatically that he has never been in favor of armed repression, and they intimate that he is against the strike leaders must be charged to Interior Minister Durnovo, who insisted that he had proof which could be established in the courts that Mr. Krustalov had instigated an armed revolution and that besides attempting to subvert the government he had attacked its credit in circulating advising the workmen and peasants to withdraw their funds from the savings banks. Notwithstanding this, doubt is expressed as whether Mr. Durnovo can establish his case on the specific law making agitation for political strikes which interfere with the railroads, telegraphs, posts, etc., a criminal offense has not yet been promulgated. It is expected, however, that the law will be promulgated before the end of the week, when it is said the government can proceed legally against the peasant agitators.

It is understood that General Dedinin, prefect of St. Petersburg, has refused to carry out M. Durnovo's orders, that he has resigned and that he has been succeeded by Baron De Meyndorf, commander of Emperor Nicholas' body guard.

A humorous sidelight on the situation is the action of the cooks, laundresses and porters of the asylum for the insane in striking and demanding that the chief representative be chosen by equal, direct and secret ballot of the employees.

The printers of the Russ, the chief organ of the Liberals, an edition of which was seized last night, have now struck because the proprietor has refused to pay them for time lost during the last strike.

General Panseoff said: "I think we are completely cut off from blood, in which the revolutionary party will lose their game and Russia her liberty."

Certainly the appearance of the events here today seem to justify this. The city resembles a great military camp.

A large workmen's meeting was dispersed by Cossacks.

The building in which the committee of the League of Leagues meets was surrounded by troops and no one was permitted to enter it. At the same time a vast meeting of "loyalists" was freely permitted at which speeches were made extolling the emperor and the government.

"What Are Piles?" You May Ask

AND WHY ARE THEY ALWAYS RELIEVED AND CURED BY THE USE OF

Dr. Chase's Ointment

The itching, burning sensations of piles or hemorrhoids, the feelings of uneasiness and discomfort, and the loss of blood, are familiar to many who may not know the name or nature of their ailment.

This small ointment, which forms at the opening of the rectum, and is described as itching, bleeding or protruding, according to the symptom that is most prominent.

The cause of greatest suffering is the intense itching, while the greatest danger arises from loss of blood. You can scarcely imagine one in greater misery than the victim of a severe case of piles.

By reason of its remarkably soothing effect, Dr. Chase's Ointment brings almost instant relief from the dreadful itching. It heals the ulcers, stops the loss of blood and makes a thorough cure of this obstinate and loathsome disease.

The old idea of a surgical operation, with all the risk, as the only cure for piles, has given way before the extraordinary success of Dr. Chase's Ointment, which has demonstrated its power in thousands of cases where operations had failed.

Mr. John W. McLeod, carpenter, Tarbovale, N. S., writes: "I was so bad with protruding piles that I was confined to my bed unable to move without the greatest pain and obliged to lie on my face. As the trouble affected my whole system, I was soon brought to realize the seriousness of my condition and thought no person ever suffered as I did."

"The doctor pronounced my ailment protruding piles, and gave me an ointment which did me no good, not even affording temporary relief. I then went to a specialist, who gave me a different kind of ointment, but it did me no more good than so much snuff."

"A friend advised the use of Dr. Chase's Ointment, and the first application brought relief. By the use of one box I was completely cured and have not had a trace of the old trouble since. I was exposed to all sorts of bad weather last fall and spent the winter in the woods as foreman for the Victoria Gypsum Co., and have had no indication of piles."

Do not make the mistake of dropping this treatment as soon as the itching stops. Make the cure lasting by persistent use. Dr. Chase's Ointment, 50 cents a box, at all dealers, or Edmondson, Bates & Co., Toronto.

LAKE LATIMER IS STILL A SOURCE OF TROUBLE

The water and sewerage board met yesterday afternoon to discuss the problem of lowering Lake Latimer. After hearing E. Glueck, F. A. Barbour and the contractor, the meeting adjourned until today, when it is expected some decision will be arrived at.

The mayor occupied the chair, and Ald. Lewis, Hamm, Tilley, Holder, MacRae, M. G. Dick, Frink, Sprout, Vanwart, McArthur, Baxter, Pickett, and Christie were present, with the consulting engineer, superintendent, Engineer Hunter, and common clerk.

The master of the Boyd field sewer was first taken up. Mr. Barbour argued that the city, by a resolution of the board on Oct. 3, 1904, had recognized the ownership and should purchase the sewer at the cost price of \$322.

Mr. Barbour said a sewer laid down Cedar street could drain any of the houses. He was not in favor of the purchase. There was only a right of way six feet wide, which would be useless for a team.

WEARY DAYS AND SLEEPLESS NIGHTS

Many men and women to-night sleep night upon sleepless beds until near dawn. Their eyes do not close in the sweet and refreshing repose that comes to those whose hearts and nerves are strong.

MILBURN'S HEART AND NERVE PILLS

They soon induce healthful, refreshing sleep, not by deadening the nerves, but by restoring them to healthy action and removing all symptoms of heart trouble, which is often the cause of nervousness and sleeplessness.

BURNED TO DEATH

Mother and Five Children Were the Victims in New York Fire. New York, Dec. 11—A mother and her five children were burned to death in a five-story apartment house at Columbus avenue and 100th street tonight. Two children were injured and a score or more tenants were thrown into a panic, several needing to be rescued by police, firemen and ambulance surgeons.

Deafness Cannot be Cured?

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous membrane of the Eustachian Tube. When this tube is inflamed, it swells and shuts out the sound. Deafness is not incurable if treated early. It is a matter of fact that many cases of deafness have been cured by Hall's Catarrh Cure. Send for circulars to J. C. HENNEY & CO., Toledo, O. Take Hall's Family Pills for constipation.
