DIAMOND FURNACE,
With Double RADIATION and Ribbed Fire Pot.
PATENTED 1886 AND 1888.

3 REASONS WHY THE
DIAMOND FURNACE
Gives the Best Satisfaction.

1st.—Because the Castings are all heavy and durable.
2nd.—Because having two entire circle RADIATIONS, they stow more heat and for a greater length of time than any other Furnace.
3rd.—Because having more Radiation than any other Furnace, the heat is retained inside the Jacket, and thereby caused to flow through the Registers instead of being wasted by passing up the chimney.

Royal Mail

STEAMSHIPS.

Sailing between Montreal, Quebec and Liverpool in Summer, and Portland, Me., Halifax, and Liverpool in Winter.

These Steamers are all of the highest class, full powered, and Clyde built in water tight compartments, and are commanded by men of large experience and thoroughly acquainted with the route.

The salons, staterooms, music room, smoking room, and bath rooms are amidships, where but little motion is felt, and are handsomely and luxuriously furnished.

The route via the St. Lawrence is the most pleasant and comfortable for intending travellers, three days of it being spent in the comparatively smooth waters of the River and Gulf, with their magnificient scenery.

Rates of Passage from Montreal or Quebec: Cabin, $40 to $80, according to the Steamer and accommodation. Second Cabin, $25 and $30. Steerage at lowest rates.
Reduced rates from Portland and Halifax in Winter.
