INCOME TAX REDUCTION IS OPPOSED

AGRICULTURE COUNCIL WANTS LOWER TARIFFS

Delegation Puts Case Before Premier and Cabinet

SHUN HIGH DUTIES Actions of Auto Manufacturers Called "Bluff and Intimidation"

OTTAWA, Ont., April 21.—The income tax to be maintained at its former level and surplus available for tax reduction should be utilized to lessen the burden of indirect taxation.

This representation was made by a delegation from the Canadian Council of Agriculture, which waited upon Premier King and members of his cabinet this morning.

Reduction in taxation, it was declared on behalf of the deputation, should take place by a reduction in the tariff on imports which increase the cost of living and production in preference to the reduction of the sales and income tax.

OPPOSE TARIFF BOOST The attitude of the council towards any proposal by manufacturing interests that the sales tax should be reduced and the loss in revenue made good by the increases of the tariff on import duties was one of strong dissent.

"The sales tax takes from the consumer less, over and above actual revenue, and does not collect, than the tariff," it was stated.

Increase of the tariff in order to provide greater revenue would inevitably result in far more than the revenue sum to pay any private pockets as well as into the public treasury "anything like as much as import duties would do."

AGAINST PROTECTION The council was "unanimously opposed to the whole principle of tariff protection," it was declared.

The government's announcement of a reduction in the tariff on automobiles was gratifying. "The precipitate action on the part of certain automobile manufacturers, whom we have good reason to believe are not only largely based, but even controlled by American capital, serves as a splendid illustration of the tactics of bluff and intimidation towards laborers and governments, both of whom they would gladly hold in subservience."

LAUD GOVERNMENT The farm people were quite conversant with the "persistent and aggressive campaign" waged by manufacturing interests and therefore anticipated all the more the courageous stand taken by the government at this time.

"Experience leads us to believe that the resultant reduction in prices of automobiles will stimulate sales, thereby increasing production and giving employment to a larger number of workers," it was stated by the deputation.

Delegation of Manufacturers Heard in Fredericton—Lumber Case is Factor

Canadian Press. FREDERICTON, N. B., April 21.—Manufacturers from various parts of the province, including a committee from the Maritime Branch of the Canadian Manufacturers' Association, appeared before the Provincial Government at noon today and discussed the Compensation Act.

Included in the delegation were A. D. Gannon, of St. Stephen; W. E. Humphrey, ex-M.L.A., and J. L. McDonald, of Moncton; and John D. Palmer of this city. They had a fairly long conference with the cabinet, at the conclusion of which it was said that the principal matters discussed were the situation that would be precipitated by the deficit which existed in the class which the lumber industry is included and which was not taken care of in the usual manner, when the proposed increase in rates for the lumber industry was cancelled some months ago.

The manufacturers want assurance that this deficit will not be distributed over other classes. They want each class to take care of itself in accordance with the practice which has existed.

"Drug Store" Dog Dodges Tests; Loses Prizes

Blond Champion Snubs Philadelphia Show, and Owner is Blacklisted

PHILADELPHIA, April 21.—There's a new controversy in Dogdom—and a dandy blond-haired Boston terrier is the target. The dispute cropping out at the annual exhibit of the Kennel Club of Philadelphia was to be clarified at the Arena, but the central figure—the dog himself—failed to appear.

In fact, he was reported comfortably incased in a dog pulman for his home kennel in New York.

THE agitation started when Mr. F. S. Waldman's Boston terrier Lyon's Gold Top was charged with having a dyed coat and otherwise being a "drug store" beauty after he had won the limit and open weight championship of the show.

THE withdrawal from the show automatically disqualifies the dog, and the Philadelphia Club's membership in the American Kennel Club was automatically barred.

P. E. I. CASE IS BEFORE CUSTOMS

Official Says Difficulties Encountered in Maritimes

Canadian Press. OTTAWA, Ont., April 21.—W. F. Wilson, chief of the customs preventive service, was the first witness before the customs committee this morning.

Hon. R. B. Bennett questioned him with regard to another Prince Edward Island case, records of which were in the department. This was the case of Augustus Lafferty, who was arrested by Officer G. H. Barber, charged with having part of a still for manufacturing spirits in his possession.

Lafferty was tried in July 1923, for an infringement of the Inland Revenue Act, found guilty and sentenced to serve one month in jail and pay \$200 fine. Before the fine was paid, or Lafferty commenced to serve his time, however, the government at Ottawa interfered and ordered the sentence remitted. Later efforts were made to obtain the \$200 from Lafferty, but without success.

FINE NEVER PAID As the sentence and arrest was made in 1923, according to the files, Lafferty had neither paid a fine or served the sentence during more than two years.

G. W. Taylor, assistant Deputy Minister of Customs, was called in regard to the Lafferty case. He said, in answer to Mr. Bennett, that reduction in Lafferty's fine was recommended by him because no still had actually been seized.

Mr. Bennett asked him to explain how the file of this case came before him. He replied that he had received it from the clerical branch of the Justice Department.

"You over-ruled the Prince Edward Island courts?" asked Mr. Bennett.

Mr. Taylor replied that he was satisfied that this was a case in which clemency should be granted.

Mr. Bennett asked him if he was aware that Lafferty was "still running around Prince Edward Island, showing in what little respect the law was held."

Mr. Taylor said that a warrant for Lafferty was still in the hands of the police.

Mass Delegation To Meet Premier and Protest Revision

1,000 FROM OSHAWA Parts Manufacturers Gather Today in Toronto To Discuss Situation

OSHAWA, Ont., April 21.—More than 2,500 people gathered here last night at what was probably the largest public meeting ever held in Oshawa to voice their protest against the proposed reduction in the tariff on imported motor cars which local manufacturers claim will force them out of business and throw approximately two thousand Oshawa men out of work.

Seats were available for only a few hundred at the meeting and the remainder were forced to stand.

While the meeting was in progress plans were going forward for the mass delegation which will invade Ottawa on Friday to meet Premier Mackenzie King and members of his cabinet and protest against the tariff revision.

POWER BILLS COME UP IN HOUSE TONIGHT

Premier Baxter to Outline Government's Policy This Evening or Tomorrow

Canadian Press. FREDERICTON, April 21.—Indications today were that the bills for incorporation of the Saint John River Power Company, the Grand Falls Development Corporation, New Brunswick International Paper Company, which will have pulp and paper mills, and the Fraser River Power Company, which will give authority for building transmission lines and other necessary works, would be introduced in the Legislature this evening, at a night sitting of the house.

The way has been cleared for this procedure by the suspension of rules under resolution which was adopted yesterday afternoon without division, and the outlook is that Premier Baxter will make formal explanation and outline the government's policy either tonight or when second reading comes tomorrow, when the debate will take place.

Ex-Premier Veniot gave notice yesterday that the opposition will discuss on second reading.

Fifty-Fifty Basis For King's College Divinity School Is Opposed At Diocesan Synod

Special to The Times-Star. FREDERICTON, April 21.—King's College figured largely in the proceedings at the Diocesan Synod this morning, the proposed "fifty-fifty" basis for organizing the divinity school being the cause of a difference of opinion.

The motion was supported on behalf of the King's College campaign by the Bishop Coakley of Nova Scotia, Hanfield Whitman, and the president, Rev. Dr. A. H. Moore. The latter made vigorous reference to the attacks which he said had been made on King's because of the difference in opinion between the two schools of thought.

Rev. Canon McKim, of St. Luke's, City of Saint John, entered into the discussion of the report of the Governors of King's College as representing the evangelical school of thought. He quoted from the Bishop's Charge, saying that expressions there were not deserved. That morning, in plain terms, he had been called a liar.

Rev. G. C. Lawrence, of Trinity, advised that a debate drop, but Rev. Mr. Fleming, of St. John's (Stine) church, also spoke for the evangelical school. He took objection to reference to the King's College controversy in the Bishop's Charge.

The report of the standing committee on the Bishop's Charge, concurring with the views expressed in the Bishop's Charge, was adopted with amendment. There was dissent from the section touching upon King's College.

N. B. GRAND ORANGE LODGE IN SESSION

J. Starr Tait, Saint John, in Chair; 200 Delegates in Attendance

Special to The Times-Star. FREDERICTON, April 21.—The Provincial Grand Orange Lodge of the I. O. O. F. hall with about 200 delegates.

The afternoon session will be occupied by the presentation of reports by Grand Master J. Starr Tait of Saint John, who presided; Grand Secretary W. H. Sullivan, of Saint John; and Grand Treasurer Robert Willis, of Lower Mills.

At 11 o'clock Thursday morning the session of the Grand Lodge is to be held in a memorial service for members killed in the great war. This service will be held in the Grand Lodge church, clergymen of the Grand Lodge officiating and a choir being furnished by the I. O. O. F.

CHINESE SMUGGLE WHISKEY INTO U. S.

Seizure of 200 Cases Reveals New Source of Illicit Liquor

Canadian Press. ST. PAUL, Minn., April 21.—A new source of illicit liquor, coming from China, was disclosed by Federal agents here last night, with announcement of the seizure of a carload of about 200 cases of Chinese whiskey at Port, North Dakota.

The shipment comprised 200 cases and valued at \$37,000, was seized by Federal customs agents just after it had crossed the Canadian border into Port, North Dakota.

Other shipments of labelled merchandise slipped through Port to the Twin Cities and Chicago, where it was dispensed by Chinese bootleggers.

Prohibition authorities said it was the first time they had discovered that liquor was being run across the Pacific ocean into America, and presents an entirely new front on which the dry squall will have to work.

John McKenzie Dead At Douglstown

Special to The Times-Star. NEWCASTLE, April 21.—The many friends of John McKenzie will bear with regret of his death which occurred at his home in Douglstown yesterday. He was 70 years of age and was sick but a few days with paralysis of the brain. Besides his widow, who was formerly Miss Isabel Reid, of Douglstown, he is survived by one son, John, of Douglstown, and two daughters, Mrs. Jos. Barr, of Boston, and (Dorothy) Mrs. George Wood, Douglstown, and one sister, Mrs. Richard Anderson, of Douglstown. He was twice married, his first wife was formerly Miss Walt of Richibucto. Funeral arrangements have not been made. Interment will take place in St. Mark's cemetery, Douglstown, 100 to 115.

10 PER CENT. DEAD Declares Budworm Reported First in 1912; Peak Reached in 1919

Special Correspondent of The Times-Star. FREDERICTON, April 21.—Leland S. Webb, chief forester of New Brunswick, told the Public Accounts Committee investigating the Alderson charges against the River Valley Lumber Company this morning that he had made an inspection of the cut in September, 1925, and gave detailed results of it. Asked by F. Frank Smith, Stephen John George Kestro, of Newcastle, and Dr. Thomas Walker, of Saint John.

Webb said he made no trip survey of the limits, simply walking through the woods.

Objection was by Mr. Hughes to the planing in evidence the reports of classification of the logs varied from the 1925 cut but he was overruled by the chairman. These reports were marked "strictly confidential" and were given in confidence and showed percentage of dead spruce from the various sub-sections of the cut in 1925: Murray, 9 per cent. dead spruce; A. D. Bailey, 8 per cent.; James Jardine, 8 per cent. dead spruce.

Question of "Dummy" Directors Raised at Legislature Committee Meeting

Special to The Times-Star. FREDERICTON, April 21.—The affairs of the British Canadian Packing Co., Ltd., were the subject of examination this morning by the agriculture committee, when M. G. Siddall, M.L.A. for Westmorland, asked for a disclosure of the financial interests of the individual directors in the company. Allusions to the existence of "dummy" directors on the board led Mr. Siddall to press for this information at the meeting. Information was given by G. C. McIntyre and W. I. Fenton. The situation was described as a serious one, and it was decided to take up the question again tomorrow morning.

Queen Street Fire In Early Morning

Fire broke out about 2:45 o'clock this morning in a house at 71 Queen street, owned by Miss L. McLaughlin and occupied by A. R. Conley on the upper flat and Mrs. A. L. Cain on the lower floor. The blaze was first seen by Policemen McElhiney and McInnis. It was said this morning that the fire probably caught from the sparks from a neighboring chimney which burned out earlier in the night.

Dr. Manion Moves Amendment Regretting Neglect of Cabinet To Consult New Tariff Board

Conservative Motion Further Recites Pledges Given By Premier King in Election Campaign and Repeated in Throne Speech

LITTLE RELIEF SEEN FOR POOR MAN

Progressive Leader Supports Action of Robb in Lowering Import Levies on Automobiles and Predicts Industry Will Be Going Ahead in Opening Debate in Commons

OTTAWA, April 20.—First full day of the debate on the budget brought a Conservative amendment. First, Robert Forke, Progressive leader, expressed his approval of the budget income tax reduction and lowering of the tariff on automobiles. In regard to the latter, Mr. Forke ventured to prophesy that most of the companies in Canada making automobiles would be going ahead in a short time and doing just as good business as they had done in the past. If an industry could not get along with 27 1/2 per cent. protection, argued Mr. Forke, then there was something wrong with that industry.

It was Hon. Dr. Manion of Fort William who moved the Conservative amendment.

This declares that during the general election campaign Premier King and other ministers of the crown repeatedly gave assurances that before further tariff changes were made industries affected would be given an opportunity of being heard before the tariff advisory board. If such assurances were repeated in the speech from the Throne and concludes with regret that "in the case of drastic changes announced in the budget such assurances, have not been fulfilled."

Port William, congratulated the finance minister that revenue had increased and the railway condition bettered. "This is due, however," he said, "to the good fortune, not the good management of the government, because the government's tariff policy has unsettled business, injured industry, lessened work and wages and increased the exodus from the country."

Dr. Manion said the postage rate could have been reduced some years ago if the government had not been spending money recklessly up and down the country on public works which were really political bribes. It was written a letter that he would find any benefit under the budget reductions. There was no other benefit for the family man who earned less than \$3,000 a year. The effect of the budget would be to make the poor poorer, through the closing down of industry, and to make the rich richer by reducing their taxes. The well-to-do would even get the angustura biters for their cocktails cheaper.

ASSAULT ON PROTECTION. "The reducing of auto tariffs was another assault on the national policy of protection," which the people of Canada had always voted for when they were given an opportunity to do so, said Dr. Manion.

The migration of Canadians to the United States in the seven months ended January 31, last, totalled 53,000. "This government is the greatest immigration agent the United States ever had," he said. Canadian artisans were made "sacrificial goats" on the altar of the government's ambitions. The necessity for protection of Canadian industry against foreign competition could be demonstrated, said Dr. Manion.

ANTI-CANADIAN POLICY. This was an "anti-Canadian policy," said Dr. Manion. "So far as the competition of foreign industry was concerned, said Dr. Manion, Canada should apply "the commercial golden rule—let us do unto them as they are doing unto us."

Because he believed that no further reductions in the tariff should have been made until the tariff board had been given an opportunity of investigating them, Dr. Manion said that he was, in fact, in favor of the government's motion, which he proceeded to do.

FOR MARITIME PORTS. J. A. Messervey, Conservative, Queens, P. E. I., stated that the Maritime Provinces were an important part of Confederation and were entitled to their claims for the development of their ports.

"It is a crime to pass up this port for the shipment of grain for any port in the United States," he said, in referring to the port of Halifax. There was no valid reason why Halifax and Saint John should not have a large degree of trade during the summer as well as winter. Halifax should also be a port of call for large passenger steamers. Saint John was another port of great value to Canada and deserved every good treatment and its fair share of business.

He urged, in discussing the West Indies treaty, that canning plants should be established in the Maritime Provinces. Prince Edward Island, when entering Confederation, had borrowed \$8,000,000 to pay for the construction of its railway. This amount including interest to date, now totalled \$5,610,000. No other province in Canada had to pay similarly for its railway, and the Dominion Government should make a refund of the amount. A new steamer should be put into operation between the island and the mainland.

VETS' FAIR GOES ON UNTIL THURSDAY. The weather was so unfavorable last night that the attendance at the G. W. V. A. fair in the association rooms was extremely small and the fair was closed early in the evening. In consequence it was decided to postpone all of last night's features to this evening and to run the fair for one more night, closing on Thursday night. The proceeds of the fair were awarded last night but door tickets were purchased by those who put in an appearance. It was decided to have two door prizes tonight, an electric iron, which was to have been awarded last evening, and a bag of flour. Tomorrow evening the drawings for the \$200 wardrobe and the Glenwood range are to take place and the grand closing will be held.

Cossping Neighbor Set Her Stomach Right. New York City. Mrs. Emily Blehla writes—"It was terrible to lay away from food I loved simply because they made me bilious. I upset my stomach and made me constipated. A neighbor recommended Carter's Little Liver Pills. They helped her wonderfully. I have them a trial and now when I feel they come around I enjoy them immensely. When the bowels move daily the system is generally in good condition. Carter's Little Liver Pills are chronic constipation. Suggests 25¢ and 50¢ red packages.

Curling and Waving Dries Life from Hair. The constant curling and waving demanded by the fashion in bobbed hair, slowly burns the color, lustre and very life from the hair, leaving it dry, brittle, brittle, and full of dandruff; then the hair roots shrink and the hair falls out fast.

Since girls just must curl and wave the hair to appear their prettiest, try "Dandrin" to offset any bad effects. After the first application your hair will take on new life and that healthy, youthful lustre, become incomparably soft, wavy and appear twice as thick and abundant. Falling hair stops and dandruff disappears.

A 35-cent bottle of refreshing "Dandrin" from any drug store or toilet counter will do wonders for any girl's hair. It goes right to the roots, invigorates, nourishes and strengthens them, helping the hair to grow thick, healthy and lustrous.

Conservative Amendment

OTTAWA, April 20.—The Conservative amendment, moved by Hon. R. J. Manion reads: "in the late general election campaign assurances were repeatedly given by the prime minister and other ministers of the crown that before further tariff changes were made an opportunity would be given to industries affected thereby to be heard before an advisory board."

"That such assurances are officially incorporated by the government in the speech from the Throne of the present session in the following words: 'Changes in the tariff should be made only after the fullest examination of their bearing upon both primary and manufacturing industries and that representations requesting increase or decrease of duties should be made the subject of the most careful investigation and report by a body possessing the necessary qualifications to advise the ministry with respect thereto. A tariff advisory board will accordingly be appointed forthwith.'"

"And this house regrets, that in the case of drastic changes announced in the budget such assurances have not been fulfilled."

Much sorrow was felt throughout the country when John R. Rankine died at his home in Upper James on Saturday, April 17, aged 71 years. He had resided at Chipman until about 13 years ago, when he went to Jernigan to live. He was held in very high regard by all who knew him. He is survived by his wife, who was formerly Miss Matheson, of Gasperus, Queens county; four sons, James, of Brown's Flat, Charles, of this city; William, of Jernigan, and Robert, of Chipman, and by four daughters, Mrs. S. D. McVicar, of the Range; Mrs. Thomas Todd, of this city; Mrs. Reade Farris, of Jernigan, and Miss Martha, at home. There are also nine grandchildren surviving.

A service was held at the home in Jernigan on Sunday night and the body was taken to Chipman, where services were held in the United church, Rev. Alexander Sutherland officiating. Six nephews were pall-bearers. Interment was made in Red Bank burying ground.

Mary E. Gorman, only daughter of Mr. and Mrs. Harry Gorman, died at the General Public Hospital yesterday after a brief illness. She was stricken with appendicitis on Thursday and did not survive the operation. She was a bright child and very popular among her classmates in St. Peter's school, where she was a pupil in Miss Gossell's class. The funeral will be held from the residence of her grandmother, Mrs. Garvin, 174 Adelaide street, but the arrangements had not been completed last night.

POTATO MARKET DULL. CARIBOU, Me., April 20.—According to indications today there were potatoes enough in Boston, New York and other receiving points for the demand on the Aroostook market. A few farmers hauled in small lots and sold them for around \$8.50 a barrel. Shipments have dropped a more than one-half in the past few days and the market in general is about at a standstill.

The steamer Canadian Miller arrived Wellington on April 18, from Napier.

BRITONS WOULD PRY U.S. MOVIE GRIP FROM DOMINIONS

Claim Old Country Films Are Crowded Out by Yank Combines

Canadian Press Despatch. LONDON, April 21.—The British government is being asked by the Federation of British Industries to bring before the next Imperial conference the problem presented by the American film monopolies throughout the British Dominions.

It is declared that the British films are being completely crowded out of the Dominions by the American combines and that such films as "Armagodon" and the "Battle of Jutland" and "British Birthright" were refused by the regular film distributing agencies in the Dominions and had eventually to be shown there by private enterprise. The films illustrating the historic attack on Zeebrugge and the Battle of Ypres had a similar experience.

This refusal of Dominion agencies to handle such patriotic films as these apparently because they conflicted with the routine release of American combines has stirred the Federation to determined action. They assert that 90 per cent. of the films now shown throughout the British Dominions are of American origin.

MRS WHITEHOUSE BURIED. YARMOUTH, April 20.—The body of Nettie May, wife of William Whitehouse, who died in the Whitford Memorial Hospital in Everett, Mass., arrived in Yarmouth by the steamer Prince Arthur this morning and was forwarded to Wood Harbor, Shelburne county, where the funeral took place. She was 38 years of age and besides her husband she leaves an infant daughter of only two weeks; her mother, Mrs. Nathaniel Nickerson, Woods Harbor, and four sisters, Mrs. Elliott Phillips, Clarks Clarks Harbor, Lennox Argyle, Miss Norman Nickerson, Mrs. Kenneth Seely, Mrs. William Revere, of Massachusetts, and one brother, Leslie C. Nickerson, Boston.

The steamer Murray, consigned to J. T. Knight & Co., which arrived from Louisbourg on Monday, will dock this morning at No. 7 berth, Sand Point, to load general cargo for New Zealand ports.

Little Mary Ellen Gorman, only daughter of Mr. and Mrs. Harry Gorman, died at the General Public Hospital yesterday after a brief illness. She was stricken with appendicitis on Thursday and did not survive the operation. She was a bright child and very popular among her classmates in St. Peter's school, where she was a pupil in Miss Gossell's class. The funeral will be held from the residence of her grandmother, Mrs. Garvin, 174 Adelaide street, but the arrangements had not been completed last night.

A Few Doses of Dr. Wood's Norway Pine Syrup May Stop That Cough

Mr. Frank D. Comeau, West Bathurst, N.B., writes:—"I had a very bad cold and cough that settled on my lungs, and I thought that I would never get rid of it."

One day a friend spoke to me about your wonderful remedy, so I sent and got a bottle of it, and after the first dose I took I got relief, and by the time I had finished the bottle I was completely relieved of all my trouble."

"Dr. Wood's" is put up only by The T. Milburn Co., Limited, Toronto, Ont.

The steamer Murray, consigned to J. T. Knight & Co., which arrived from Louisbourg on Monday, will dock this morning at No. 7 berth, Sand Point, to load general cargo for New Zealand ports.

Is a Parent Justified in Discharging His Son From His Business Because of the Youth's Foolish Marriage?—The Girl With the Ungrammatical Beau—Shall She Bob Her Gray Hair?

DEAR MISS DIX—Will you please answer these questions? What consideration does a child who has been well and comfortably educated and put in a lucrative position, owe to his parents in the selection of a wife? Should children heed parental advice regarding marriage? What would be your advice to a man in his early thirties, who on a very meager acquaintance with a woman several years his senior, and of a much inferior family, was contemplating marriage with her, especially when this woman's health is very poor and her physician warns her that she is likely to become a chronic invalid? Do you think a father would be justified in discharging a son who has been a faithful employe for years because he is reluctant in a marriage that is justifiably distasteful to the father? Such a dismissal would be the ruin of the son's prospects.

ANSWER: Because parents have reared their children well and have given them good clothes, good food, a good education and a good start in life, does not give them any right to pick out their children's husbands and their wives for them. They have done nothing more than their duty to them. They thrust life upon their children and they were under every obligation to do everything in their power to make that life worth having.

On the other hand, having had tender and loving and generous parents, it is a debt of honor on the children to repay the kindness they have received, and the sacrifices that have been made for them, by meeting their fathers' and mothers' wishes as far as they can, and by not blighting their hopes and wounding the hearts of those who have loved and cherished them all their lives if they can possibly avoid doing so.

A girl or a boy should consider long and carefully, and be very certain that his or her whole happiness is bound up in it before he or she makes a marriage to which his or her parents are violently opposed.

For in the end it is the parents who suffer most from the marriage in which a son or daughter is alienated from them, and who must pay the price when a foolish marriage ends in disaster, and the son or daughter comes back home with little children to be supported.

But, in the last analysis, marriage is the most personal thing on earth, and the one thing in which no human being can judge for another.

This makes it impossible for parents to pick out their children's husbands and wives for them, because tastes differ, and the very qualities that the father and mother find distasteful in a man or woman are the fancies of Mary and John.

It is Mary and John who have to live with the ones they marry—not father and mother. Hence, it is more important that they should be pleased with their mates than that their mother and father should.

So much abstractly. Concretely, in this particular case, I should think that the son was contemplating a very foolish marriage.

It is almost invariably a mistake for a man to marry a woman older than himself, and when the older woman is afflicted by ill health he is headed straight for catastrophe. Women age earlier than men, anyway, and a sickly one soon comes to look like her husband's grandmother.

Add to this the nerves and peevishness of ill health, and the inability to do the young things that the young husband wants to do, and you have a situation that is almost always the forerunner of domestic disaster. Nor do many men willingly see of the money they make going to paying doctors' bills and sanatorium bills, which is the fate of the man with an invalid wife.

But, however much the parents disapprove of their son's marriage, I do not think that the father is justified in depriving the son of his means of livelihood and blighting his future. That is too cruel a revenge to take for thwarted tyranny. The parents' obligation to the child they brought into the world never ceases, and instead of intensifying the hardship of a foolish marriage it is their duty to try to save it from becoming a tragedy.

DEAR MISS DIX—I have been going with the nicest young man I have ever known. He is industrious, truthful, honest and a good Christian, but he did not have the opportunity of going to school much when he was growing up, and he makes many mistakes in his grammar. He is willing for me to correct him. In fact, he has asked me to do so. Do you think that I should refuse to marry him when I love him just because he has not had the educational advantages that I have had?

ANSWER: I certainly do not. It is a lot easier to reform a man's grammar and his pronunciation than it is his morals, and you will stand a better chance of happiness in marrying a man who is shy on book-learning than you would in marrying one who was short on kindness and tenderness and consideration of a woman.

All education doesn't come put up in schoolbook packages. Some of the most broadly intelligent men I have ever met were only graduates of the University of Hard Knocks. They had what Whittier describes as the "wide, free, bookless lore that tolling men had brought them," and were wise and witty beyond any mere student.

So never make the mistake of gauging a man's brains by his grammar. Of course, it is highly desirable that one's grammar should be above reproach, but if a man is anxious to correct his faults, he can easily do so. Many of our most prominent men have polished up their manners and their speech as they climbed the ladder of success.

DEAR MISS DIX—I am a woman with gray hair and am thinking of having it bobbed. Don't you think it will make me look younger? You said not long ago that there was no woman more attractive than an old woman if she kept in her class. What is your idea of an ideal old lady?

ANSWER: I think it is a mistake for an old woman to bob her gray hair, because bobbing belongs to the flappers, and she draws attention to how old she is by instituting comparison between her gray locks and their black or golden ones.

Also gray hair is dead and lifeless, and it clings to the skull, which is always unbecoming. Compare any bobbed gray-haired woman you know with the pictures of the fluffed and curled gray wigs that the French women wore in the time of the Empire and you will see what I mean.

My ideal old woman is a woman who dresses beautifully her gray tresses; whose statement is as coolly as her purse can buy; who keeps in telephonic distance of the fashions, but doesn't cut her skirts off to her knees, or expose her old bones or superabundant fat in a too decollete gown; who is witty and entertaining and bright and charming, but who doesn't talk about beauty or pretend to the arts and artifices of girlhood.

ADVENTURES OF THE TWINS

THE TWINS AT THE CORNSHOCK HOUSE

"These names come next in the big book, Nick," asked Mister Tinsaling, the fat little fairy landlord of Out-of-Door Land.

He was still feeling a bit grumpy, poor fellow, about having to paper Mrs. Cracknuts' dining room, so he jerked out the words as though he were biting through ginger-snaps.

Nick opened the big rent book and looked up and down the page. "Bob White comes next," said he. "Mister Out-of-Door Land! That's his address."

"All right. Come along," said Mister Tinsaling grumpily. "But I just feel in my bones that something is going to happen. I think the thirty-second day of the month must be unlucky. If of the month on I shall change my rent-collecting day to the thirty-third. Here, Nancy, you carry the pocketbook, will you? It's so empty it doesn't weigh more than a spoon of thread anyway."

Of they went past the briar-patch and the potato-patch until they came to the old dead cornfield.

That is, the field that was full of old brown cornstalks, piled into shocks that looked like Indian tents.

At the first cornstalk they stopped, and Nick rapped on the tiny front door, almost hidden among the leaves.

Instantly the door opened and out walked Mister Bob Q. White, looking for all the world like a cuckoo coming out of a clock.

"How d' do," said he in a friendly voice. "What do you want, please?"

"Rent," spoke up Mister Tinsaling briskly.

"Rent!" cried Bob White. "Why, I'm just about to move. I only live here in the winter. In the spring this field has to be plowed and planted again and all the cornshocks will be taken away."

"Winter rent, Bob," said the fairy man. "You lived here all winter, I haven't to know and I also know that every week or so the farmer came down and scattered food about for you."

"Very well," said Bob White finally. "I'll pay you, Mister Tinsaling. How much is it?"

"Twenty-five cents in fairy money," said Mister Tinsaling.

"Who's there, Bob?" asked a tiny voice just then from inside the cornshock.

"Who is that?" said the fairy man quickly.

"Oh, just one of my boarders, the harvest-mouse," said Bob White. "It was cold, poor little thing, so I took him in."

"You don't say," said Mister Tinsaling. "Then I'll have to charge you thirty cents, Bob White. Thirty cents in fairy money."

"Don't forget me," said another voice from within.

"And who is that?" demanded the fairy.

"Just a little field-mouse. He was cold, too," said the cuckoo. I mean Bob White. "So I took him in."

"Thirty-five cents, Bob. The more boarders, the more rent, you see."

"Don't forget me," called another voice.

"That's the mole. I let him live in the cellar," said Bob White.

Suddenly Mister Tinsaling said: "Bob White, you don't owe me a cent! You've not only been sharing your home, but your meals also, with four friends. You have a kind heart, so you have. Good-day!"

"And to the astonishment of everybody, away marched the fat little fairyman—his pockets as empty as ever."

Fashion Fancies

The soft georgette dinner gown above furnishes a striking contrast to many of the new dinner gowns which are usually of pastel tints.

The color chosen for this is a deep, vivid purple. Brilliant Jade green georgette is applied that against the bodice in inverted U design. This finishes at the centre front with long ends which tie in a bow and drop to the hem of the frock. The tip-ends are of coral and yellow.

With this is worn slippers and stockings of the same bright jade color.

IN NEW YORK SEE-SAVING UP and DOWN BROADWAY

IF YOU would play prophet to the changing styles in dance fads, keep an eye on the gamsins of the Times Square belt.

Time was when certain ball-room dancers or recognized artists gave solemn and official notice that the fango had come or gone; that the matras was in or out; that the tuxtro had arrived.

But so far as Manhattan was concerned, the ragged curbstone urchins had more to do with acquainting the crowds with the Charleston than all the professionals put together. In theatre lobbies during intermissions, on street corners and in office buildings appeared youngsters from seven to 15 ready to step "their stuff" and expecting neat handouts for their efforts.

The immediate importance of the above lies in the fact that the urchins have forsaken Charleston. Let Charleston beware! The ragged street oracles of Broadway announce that the crowds no longer take interest. They say it's "old stuff."

Now they're dancing the buck and wing. This may or may not be prophetic of what is to come.

"Anyone can do the Charleston," say the kids. "It takes a real hooper to buck and wing."

Who knows? Tomorrow may see the front parlor turned into a buck and wing factory.

BROADWAY'S catch-penny peddlers tell me that any device that appeals to the "practical joker" is sure of quick sale.

Just now the rubber cigar is in vogue favor. I saw at least a dozen peddlers selling them like hot cakes. The "joke" cigars are made to appear as near like a regular smoke as possible. One passes them on to his friends and—"ha-ha—"

Yes, after all, it's the "small town" curbstone joke that gets the greatest hand even in so-called "blase" Manhattan.

HE WAS known as "the perfect host." The night club knew him well, and, then, intimately. Headline entertainers treated him, not as an outsider, but as a member of the profession.

There was much mystery about him. While he wore the title of "colonel" it was rumored that he had been a member of the Russian nobility in the czar's days.

He dressed immanently and was handsome in appearance. He went freely and was patron of an internationally known dance team.

The other day the police banged on his apartment door. They were ready to arrest him in connection with a \$40,000 bond fraud. He committed suicide rather than face the scandal.

Broadway shrugs its shoulders. So that's where the money came from.

Largest OFFICE BUILDING in the British Empire

COPPER and BRASS Installed for Rust-proof Lasting Service

The tower roof and the flashings and cornices of the Metropolitan Building, Toronto, will last as long as the building itself. They are made of COPPER, and it never rusts. The hot water piping is rust-proof, too. It is BRASS piping. Hot water is particularly severe on corrodible pipe and clogs it with rust. But BRASS pipe cannot become rust-clogged.

BRASS and COPPER are life-long installations in buildings or in homes. These metals eliminate rust troubles and the expense that rust causes.

The Fredericton Diocesan Branch of W. A. Prepares For 23rd Annual Meeting Here

Mrs. G. Ferrabee, of Ottawa, Dominion President, to Be One of Chief Speakers at Gathering Next Week; Former New Brunswick

THE COMING of Mrs. G. Ferrabee, Ottawa, Dominion president of the Woman's Auxiliary of the M. S. C. C., to be one of the chief speakers at the 23rd annual meeting of the Fredericton diocesan branch of the W. A. to be held in Saint John next week, has aroused special interest and already there are indications that the attendance at the meeting will be exceptionally large.

The business sessions will be held in the parish hall of St. John's (Stone) church and on the opening evening, Tuesday, April 27, there will be a conference of girls' branches in Trinity church school room followed by a reception for all the clergy, the delegates and their hosts and hostesses.

The meeting commences on Tuesday morning with the celebration of Holy Communion in St. John's church, when the Lord Bishop of the diocese will be the celebrant and the sermon will be delivered by Rev. Canon B. P. McKim, of St. Luke's church. The united thank offering will be presented at that service.

MISS WARTHUR RESIGNS POST WITH Y. W. C. A.

Saint John Girl May Be Appointed Instructor of Physical Classes

The directors of the Y. W. C. A. have regretfully accepted the resignation of Miss Dorothy McArthur, who has been the physical instructor for the association during two years.

It is hoped to secure a Saint John girl to take over Miss McArthur's duties next season. The directing monthly meeting was held yesterday afternoon with Mrs. E. C. Weyman, president in the chair and reports were received of the excellent progress being made in preparations for the gymnasium display to take place on May 14 and 15 in the Y. W. C. A. Every effort will be made to have the Y. W. C. A. quarters as neat and attractive as possible.

TO WELCOME MISS FORD. To welcome Miss Marjorie A. Ford, national finance and publicity secretary, who is now in the city, the board members decided to give a meet and invite all of the general members.

Arrangements for evening swimming classes during the spring were spoken of. The Y. M. C. A. tank will be available for one evening, and it was decided to have a larger affair in the early autumn with the association general members assisting.

The annual meeting of the Y. W. C. A. is to be held next month, but the date was not fixed yesterday.

GIRLS' WORK REPORT. The girls' work report told of the activities of the three divisions of their part in the gymnasium display, and also working for the sale of plans for establishing clubs for business girls were said to be already under way, and the activities for the summer being considered.

In the physical work report the large attendance at gymnasium classes was referred to with satisfaction, but it was said there was much work to be done in getting ready the costumes for the gymnasium display. The "Y" had completed with a request for a chairman to attend the recent April Shower dance of the girls' and women's athletic associations held in the Pythian Castle.

Mr. Clinton Brown reported that the recent Indian exercise given under the direction of Dr. William MacIntosh had been very greatly enjoyed, and had been a real educational feature as well as a splendid financial success.

The Travelers' Aid report showed 58 major and 104 minor cases had been assisted, 172 persons receiving aid. There were 228 trains and 63 people taken to the hosts in England and the United States immigration office, four children traveling alone and five foreigners aided and employment found for four. There was one police case reported.

At the meeting it was pointed out that the Travelers' Aid work renders a very valuable community service, and is a great economic saving to the city and country at large. The Federal government makes a yearly grant for this work, and it was agreed before the 1927 budget is made that an interview with the provincial government should be arranged and a request be preferred that a provincial grant should be made also. The matter of obtaining a city grant was also discussed.

In the special cases mentioned in the Travelers' Aid report were that of a runaway girl of 14 who was taken to the hotel, and an Assyrian woman with two children aided in continuing her journey to the north of the province, and a Welsh woman assisted through the United States immigration formalities, two little girls aided, when traveling to their parents in England, two Danish women for whom employment was found in New Brunswick, and one foreign woman who could not speak English who was helped as well as one woman stranded in this city who was loaned money for her ticket.

Belgium To Join In League Conference

Canadians Press GENEVA, April 21—Belgium has notified the League of Nations secretariat that she will participate in the conference opening here September 1 to discuss the United States reservations to the protocol of the permanent court of international justice. Belgium thus is the first state to accept the invitation extended by the League Council.

FLIERS AT RANGOON RANGOON, Burma, April 21—Captain Lorica and Gonzales Galazra, arrived here this afternoon from Calcutta, India, on a 380 mile leg in their flight from Spain to Manila.

At the meeting it was pointed out that the Travelers' Aid work renders a very valuable community service, and is a great economic saving to the city and country at large. The Federal government makes a yearly grant for this work, and it was agreed before the 1927 budget is made that an interview with the provincial government should be arranged and a request be preferred that a provincial grant should be made also. The matter of obtaining a city grant was also discussed.

In the special cases mentioned in the Travelers' Aid report were that of a runaway girl of 14 who was taken to the hotel, and an Assyrian woman with two children aided in continuing her journey to the north of the province, and a Welsh woman assisted through the United States immigration formalities, two little girls aided, when traveling to their parents in England, two Danish women for whom employment was found in New Brunswick, and one foreign woman who could not speak English who was helped as well as one woman stranded in this city who was loaned money for her ticket.

Letter Comes Here By Air Route An aerial mail letter, dispatched from Los Angeles, Calif., with date stamp, April 17, at 7:55 a.m., was received by Mrs. C. L. Chisholm, 2 De Mounts street, West Saint John, in yesterday afternoon's regular city mail delivery and came from her sister, Mrs. A. P. Crockett, former Saint John resident, whose home is now in Fredericton, but who with her husband, Dr. Crockett, is visiting in Los Angeles at the present time.

The aerial mail letter was sent on the first flight that inaugurated the direct air service from Los Angeles to New York and its date stamps show that the letter had reached New York on April 18 at 12 p.m. From New York it traveled more slowly being obliged to descend to the custody of the regular mails. The letter bore a 24-cent aerial stamp and a one-cent United States stamp. It is a very highly prized possession of its present owner and is a unique curiosity in that it traveled on the inaugural trip of the extreme long distance aerial service. It is reported that bands coming from Turkey in the region west of Aleppo, have been repulsed with heavy losses.

The Leyland freighter Coloman, Captain Gittens, from Boston, is expected at Halifax on Friday to take about 900 head of cattle to the United Kingdom. The steamer Majestic was due at New York yesterday from Southampton with 85 first, 210 second and 208 third class passengers.

He Was a Man (In memory of Rev. J. J. Pinkerton, late pastor of Fairville United Church.) A man who died among us who passed on To his reward, while we who learn'd To love him as a friend Will sorrow with his loved ones left behind. While many heartfelt prayers to God ascend From hearts that knew the peace his counsel held For all his children. For himself no thought, A nature full of tender sympathy Eased many another's burden. Well he wrought.

The kindly word, the understanding heart, Which prompted all his efforts for his kind, Will keep his memory a precious one; The tendril of his love our hearts entwined.

From out our grief a ray of hope shines To forth To light our feet unto the Perfect Day. When all who love the Master shall have Home We have an advocate beyond the veil, to guide our way. A. H. W. Saint John, April 20, 1926.

The Princesse Marie de Bourbon declares "The skins of beautiful women must be cared for"

Beauty in women," says the lovely young Spanish Princesse, Marie de Bourbon, "takes such thrillingly different forms! The bloom of the pomegranate on the cheeks of my countrywomen, in America complexions that are lilies-and-roses!"

"But no matter what their tint, their texture, the skins of beautiful women everywhere must be watchfully cared for, or like fragile flowers, they wither, they fade."

Guarding her own unusual beauty, giving it exquisite daily care, Princesse Marie commends the same method to women everywhere. "Happily," she observes, "no woman's skin need fade if she thoroughly uses, every day, Pond's wonderful Two Creams. They protect and keep the complexion perpetually young and beautiful."

A youth-keeping cleansing and protection These Two Creams made by Pond's, with ingredients carefully selected for their fineness and purity, from formulae which resulted after years of scientific study, should be daily used as follows:— Every night, before retiring, cleanse your skin thoroughly with Pond's Cold Cream. Spread it thickly over and leave it on a few moments. You will be enchanted when you wipe it all off, to see how cleansed and refreshed your

skin now looks! The pure oils of the cream have delved down into the pores and relieved them of all the dirt and powder that disordered them. Repeat the process and finish with a dash of cold water or a rub with ice to close the pores. If your skin is very dry add more cream and leave it on over night. It will smooth out all the little, fretted lines of weariness and care. During the day, whenever you need to cleanse your skin, do it as it has just been described and with special thoroughness after exposure to the weather or to disastrous dust and soot. A new and smoother surface Follow every Pond's Cold Cream cleansing—except the bedtime one—with the delicate finish and protection of Pond's Vanishing Cream. Smooth it on lightly, evenly. Your skin has a velvety surface now. And what pleases you more is the way both your rouge and powder now adhere, so smoothly, so long. And when you go out your skin is firmly but delicately protected against the roughening of wind and the ruination of soot and dust! Buy Pond's Two Creams in any drug or departmental store and see how fresh, smooth and youthful they will keep your skin. The Pond's Extract Company, 146 Brock Avenue, Toronto, Ontario.

With pride of race—he is cousin to the reigning king of Spain and a member of the ancient Spanish house of Bourbon—Princesse Marie, looking upon Beauty as upon a gift that must be guarded, preciously, gives her skin exquisite care.

Beauty and distinction are guarded by these Two Creams.

JOHN YOUNG, District Governor of Sydney, C. B., Rotary governor of this district.

Saint John club and ladies will make a total gathering of 450 persons.

SPECIAL FEATURES

There are many special features arranged for the entertainment of the visitors the first of which will be this

evening, an informal reception, dance and welcome by the Saint John host club for the visitors. This affair will be held in the Admiral Beatty Georgian ballroom.

EVENTS TOMORROW

On Thursday the opening of the conference will be at 10 o'clock. Features of the morning session will be an address of welcome from New Brunswick by the Lieutenant Governor, Rotarian W. F. Todd, of the St. Stephen-Milltown club; address of welcome from the City of Saint John by Acting Mayor James H. Frink; response to the addresses of welcome by Rotarian Donald Fraser, of New Glasgow; an address by District Governor John A. Young, of Sydney, N. S.; and an address by Rotarian Arthur H. Sapp, first vice-president of Rotary International, who will speak on "The Romance of Rotary."

BANQUET SPEAKERS

The business session of the conference will be continued in the afternoon and at 7 o'clock a conference banquet will be held in the Georgian ballroom and will be presided over by District Governor John A. Young, of Sydney. The toast to the King will be responded to by Rotarian Lieutenant-Governor Todd; that to the Maritime Provinces by Hon. J. B. M. Baxter, Premier of the province, while Rotarian Arthur H. Sapp will respond to the toast to "International Rotary." The last toast will be "The Anchor of Colony," and will be responded to by

Rotarian Charles E. Hunt, of St. John's, Nfld.

At Friday morning's session reports of the conference committees will be received and various questions of interest to Rotarians will be discussed. A feature being an address on resources of the 52nd district by Rotarian F. Maclure Sclanders of the Saint John club.

At a luncheon on Friday the speaker will be Rotarian James Ayre, of St. John's, Nfld., who will take as his subject "Newfoundland."

When the session is resumed in the afternoon the election and introduction of the new district governor will take place. Another feature of the afternoon session will be an address on "The Locarno Pact," by Rotarian Dr. William Kierstead, of Fredericton. Rotarian Arthur H. Sapp will give a summing up of the conference, which will then be brought to a close with a short singing programme.

At 10 o'clock on Friday a ladies' luncheon will be held in the hotel, the speaker being Governor Harry Williams, of the 51st district, Rhode Island.

VISITORS FROM MAINE

In addition to Rotarians from the district, visitors are expected to be present from the clubs, Eastport, Houlton and Milo, Me., clubs, and possibly from Fort Fairfield, Presque Isle and Bangor. At least 11 Rotarians are making the trip from St. John's, Nfld., to be present at the conference. There is expected to be a total gathering of 450 Rotarians.

ATTENDANCE TROPHY

A feature of the conference is the offering of an attendance trophy by the Saint John club. This trophy, which will take the form of a Rotary shield, will be competed for by all the other clubs in the district, and will go to the club having the largest score, computed in the following manner: The number of miles travelled by the most direct route to the conference city, multiplied by the percentage of the club's attendance at the conference.

E. Palmer Kinsman, president of the host club, is chairman of the conference committee, while Donaldson Hunt is the conference secretary and Sydney Jones, the treasurer. Others in charge of various committees are as follows: Program, H. Mont Jones; hotels, E. J. Terry; registration, Frank T. Lewis; railway communications, Carl Fraser; automobile transportation, J. H. Marr; decorations, A. Ernest Everett; publicity, R. D. Paterson; ladies' entertainment, Dr. J. H. Barton; gentlemen's entertainment, George Oland. The singing at the conference will be under the direction of Dr. H. L. Spangler.

Look Ahead Whole Year In Their Work

Rotary has, for each year, a definite program of activities. Annually after the International Convention the standing committees, appointed by the president of Rotary International to plan the activities of the organization, meet in Chicago and formulate a program for the year's work. These committees, international not only in the scope of their work, but also in their personnel, prepare for the individual clubs a definite and similar program, designed to carry out the fundamentals and ideals of Rotary International. The following week the chairmen of these committees present their recommendations to the International Board of Directors for co-ordination and adoption. The week thereafter 54 District Governors, in charge of the 54 Rotary districts, the general officers, and the special commissioners meet with the board and are advised as to the program for the year. Each governor then assembles the executive of all the clubs in his district and confers with them as to the program adopted by Rotary International for the year and its development in the clubs. The executives, in turn, pass the program on to their respective clubs. Rotary International publishes pamphlets on each Rotary activity, outlining in detail for the benefit of the executives of the individual club, how that activity may be conducted as the result of the experience of the clubs generally with any particular activity.

ROTARY DISTRICTS United States are grouped into 54 districts averaging about 35 clubs. Each district is supervised by a district governor. The Rotary Clubs in Canada, Cuba, France, Italy, Mexico, Newfoundland, New Zealand, Switzerland and the

Rotary Goodwill Marching On Toward Realization of Real Universal Brotherhood. By PAUL HARRIS OF CHICAGO, Founder of Rotary. THE best minds of the most advanced nations are addressing themselves to the task of finding ways and means to establish universal and permanent peace. Rotary occupies a position of matchless strategic importance of which good use must be made in aid of this most laudable purpose. Let us make the utmost of our opportunities to cultivate personal friendship with men of other nations. I would love some day to be able truthfully to say that I have friends in every civilized country of the globe. If neither you nor I live to realize such a blessing, perhaps those of the next generation may. The desired result can be achieved only by putting aside national differences and cultivating charitable disposition toward civilization essentially different from our own. Having started the march there is, of course, only one logical and proper objective and that is that every nation be ultimately made to realize the practical force and economic advantage of a real universal brotherhood, and man will not be content to cease his efforts until that one great objective is achieved.

WELCOME ROTARIANS. We invite you to call, during your stay in the city, and see our special display of the famous "Sani-Bilt" Chesterfield Suites. Rotary Sketch. The first Rotary Club was formed in Chicago in 1906 by Paul P. Harris, and consisted of four members. From that small beginning the spread of Rotary has been so rapid that there are now established clubs in 33 countries. The Saint John Rotary Club was organized on May 22, 1914, when Arthur L. Phillips, of the American Multigraph Sales Company, and J. B. Erskine, of the Burroughs Adding Machine Company, interested the following in forming a club here: A. P. Allingham, A. Ernest Everett, Horace C. Brown, Harold W. Rising, E. Clinton Brown, Fred A. Dykeman, Henry Marr, Harry Genter, Fred W. Roach and H. C. Creighton. The first luncheon was held in what was then known as the Brown Betty Tea Rooms, in the Furlong building, corner of North Market and Charlotte streets. MOTTO IS SERVICE. The Rotary Club's motto is "Service Before Self." The membership is restricted to one representative from each business or profession and he must be a "live" member, because if he misses three meetings in succession, he is automatically dropped from membership. The Saint John Rotary Club, at present under E. Palmer Kinsman as president, is in a flourishing condition with membership of 90. The club meets on Mondays at 1 o'clock for weekly luncheon at the Admiral Beatty Hotel. LOCAL PRESIDENTS. The men of this city who have been honored by being elected to the position of club president from the inception of the club to the present 1914-15: Fred A. Dykeman, '15; Henry G. Marr, '16; Harry L. Genter, '17; Theo. H. Rotabrooks, '18; R. D. Paterson, '19; Edward J. Terry, '20; Dr. H. L. Spangler, '21; Dr. J. H. Barton, '22; Rev. R. A. Armstrong, '23; H. Mont Jones, '24, and E. Palmer Kinsman, '25. The activities of the Saint John Rotary Club have been many and varied. Rotary has assisted many of the city organizations which stand for community betterment. It has been of encouragement to other activity which has for its object the reaching out of a helping hand to the underprivileged and unfortunate of the city.

ROTARY FOSTERS HARMONIOUS RELATIONS AMONG NATIONS

World-Wide Power Now Exerted by Club

Every Continent and Most of Great Island Commonwealths and Dominions Represented in International Councils; First Canadian Club Formed in 1910

IN THE BEGINNING GOD made man and created him in His own image. Since then, man's cry has been for light or spiritual enlightenment of the "Man" actuated on the principles of acquaintance, friendship and understanding, without regard to religious faith or political creeds. This understanding of our fellow man should encompass all and be summed up in the words of Him who said: "Whatsoever ye would that men should do unto you, do ye so unto them." That precept has been in the possession of the civilized world for over two thousand years, but the application of those principles to a man's business, to his community and social life has never been entirely successful.

A tremendous power for world fellowship and understanding has lain dormant within our reach for long long years until that something called Rotary, under the banner of "Service Above Self" and actuated by the principles of acquaintance, friendship and understanding with the radiating influence of inter-club communication, was conceived.

Little did President Emeritus Paul Harris and his group of friends realize when they met in Chicago, February 23, 1905, to formulate these principles of practical service to their

possibility of a Brotherhood of Man through the fact that these countries have bounded by more than three thousand miles which has never known a fort or any other form of armed protection.

AN INSPIRING MEETING.

It is impossible for a member of British Rotary clubs to think of Rotary without recalling one of the most inspiring occasions in their history—the convention which was held at Edinburgh in 1921. Whatever may have been accomplished or whatever they may have thought of Rotary in the past, the meeting at Edinburgh gave new meaning to Rotary in this country and Canada, so there still lingers pleasant recollections in the memories of all follow-Rotarians who attended.

SPREADS TO HAWAII

Four years after Rotary established itself in the British Isles, the winged spirit settled in another island home at the opposite side of the world. In 1914 Rotary was established in the Hawaiian Islands, the willing self-annexation of these islands to America speaking again so forcibly of a Brotherhood of Man. There is now also a club at Honolulu.

IN THE PHILIPPINES

After Montevideo, Rotary revealed itself to the Philippine Islands. At Manila in January of the following year the first Rotary club in the Orient was formed. The Rotarians of the Philippines have played a great part in the development of the islands, and the Governor-General Leonard Wood, the most important address just prior to his inauguration before a regular meeting of this Rotary Club, according to Lord Northcliffe, the famous English newspaper editor, made his only speech before this club on his trip around the world.

SHANGHAI CLUB

At the same time the Shanghai Club was formed and also the movement of Rotary necessitating the formation of a club at the Isthmus of Panama and at Panama City was formed the first club where the activities of Rotary have done a great deal toward civic improvements. The Rotary Club of Cristobal, Colon, was later organized in the Isthmus Zone.

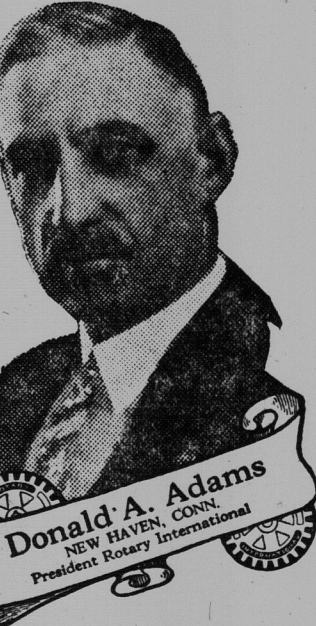

From Panama, to India, the home of the world's oldest civilization, Rotary next asserted itself and at Calcutta in September, 1919, was formed the first Rotary club of India, which has already made for itself a very important place in the community it serves. India, with its habit of self-analysis, brought something new to Rotary—the club critic, whose business it is to criticize the progress of the work and development of the club, as well as the shortcomings of its members.

He reports four times a year, at a special meeting held for this purpose, and has been found to be a most useful official.

ROTARY IN JAPAN

That same month and year, October, 1920, also served to introduce Rotary to Japan at Tokyo. The Tokyo Rotary Club was formed and its members not only endorsed and approved

another club, Brussels, came into being at the capital city of Brussels.

ITALY JOINS FAMILY.

Italy, long a student of Rotary, joined the international gathering in December, 1923, when the first Italian club was chartered at Milan. Since then twelve more clubs have enrolled under Rotary's flag in Italy.

10 CLUBS IN AUSTRALIA.

The cordial relations of Rotary were next felt by the great trans-Pacific Commonwealth of Australia, and Melbourne in April, 1921, was formed the first Rotary Club of Australia, with Sydney following almost immediately. Nine more clubs have been organized since then.

IN LIMA AND PERU.

In the land of the Incas, at the capital of Peru, the Rotary wheel was next firmly planted, after more than a year of organization work and investigation and a conference. While the charter of the Rotary Club of Lima was not signed until June, 1922, the date of organization reckoned from the first steps taken in that direction makes the Lima club the senior of both the South Africa and Newfoundland clubs.

Rotary Facts

Rotary is a philosophy of every day living. It undertakes to inspire men to realize fully their individual capacity for 100 per cent. citizenship in their state and nation, the square deal to their employes, their customers and their business or professional associates, and, individually and through their association in Rotary clubs, to bring about understanding, good-will and international peace through a world fellowship of business and professional men united in the ideal of service. Because Rotary is a living philosophy, its ideal of service must be expressed, and this is done through all their daily business, social and civic contacts, actively engaged in the effort to reconcile the conflict between the desire for profit for one's self and the obligation and duty to serve others. Their philosophy demands the consideration of service before self, based on the practical ethical principle that he profits most who serves best.

Rotary as president of the Rotary Club of Chicago, at first president of Rotary both as a national and as an international association, and as president emeritus of Rotary International, has been and is still actively engaged in his life's greatest work with Rotary. He practices law in Chicago, is a regular attendant at the meetings of the Rotary Club of Chicago in which he holds the classification of general law practice. Delicate health during the past few years has prevented his traveling about much to attend Rotary gatherings, but his activity as a Rotarian has never abated so far as advice and a written word, message or address is concerned.

WELCOME TO SAINT JOHN

The New Brunswick Telephone Co. welcomes you to the old City of Saint John. We trust that your stay may be an exceedingly pleasant one, and that you may carry away with you kindly thoughts and remembrances.

You have come from many points in our Maritime Provinces, but you are not so far from home after all. You are only as far away as the nearest Telephone. We have the facilities for keeping you in daily touch with your home and business.

You will find the Toll rates are low and the Service good. For information as to rates, call the Long Distance Operators. They are ready and anxious to serve you.

In these days when the question of Maritime co-operation is so important, it is well to remember that the Operating Telephone Companies are all Maritime, that the money invested in them is Maritime, and that they are not controlled by outside influences. Their success depends on the future of the Maritime Provinces.

PRESIDENT ADAMS TELLS OF ROTARY CLUB WORK AND IDEALS

Principles Must Be Used In Daily Life

Out of Activities Come All Rotary Objects, Among Which is the Endeavor to Teach Men to Live as Men

By DONALD A. ADAMS
New Haven, Conn. President Rotary International.

SOME OF US, oh, not many perhaps, but some of us still say grace at the table. We ask God to bless the porter-house steak and then we forget the little item about paying the butcher. It reminds one of that stinging rebuke spoken nearly 2,000 years ago—"Ye tithe mint and anise and cumma and have left undone the weightier matters of the law, mercy, justice and faith"—And perhaps that might be paraphrased in the language of today "Ye give to your chambers of commerce, your community chests, your charities but there are some spots in very simple business transactions which are rather dark."

Last fall we had some very nice peaches at one of our meals at home and I remarked about them. Mrs. Adams said, "Yes, I bought them at the corner grocery and the grocer said the man from whom he purchased them was in the store that same morning and said it had been a bad peach year and his crop was composed of small, dry and mealy fruit, except for a few good peaches, (we had some of the good ones) and he told with a chuckle of how he had wondered how he could dispose of his crop and the preceding Saturday he had a bright idea and had his men fill 200 baskets with this fruit and put on top of each a few nice peaches. Sunday morning he placed them all by the roadside and by nightfall he sold all at 50 cents a basket. And you Mr. Grocer wouldn't have given me 15 cents a basket because they were not merchantable!"

THE RESULT.
Stop a moment and think about that. Five hundred automobiles went home that night with those peaches. Suppose there were four people in each machine—2,000 people soon learned they had been stuck. And it didn't stop there, because if my wife had been in one of those 500 cars she would have gone across the street and told a neighbor and that neighbor would have gone around the corner, and told another. So we can multiply the 2,000 by two or three. And, of course, the great harm in that transaction is not

in the fact that that farmer, who is prominent and owns one of the best peach orchards near New Haven, received \$250 for produce that was worth only a small fraction of that sum but in the fact that his act has hurt the confidence in their fellowmen. This farmer is not a Rotarian but a brother who runs a peach orchard near by is—that ought to start several lines of thought. Yes, we need to study the application of the principles of Rotary.

CANNOT DEFINE ROTARY.
Perhaps no one can accurately define Rotary but everyone should know its objects and understand its ideals. Out of our objects come all of our activities. We have in Rotary four really active standing committees—education, business methods, extension and boys' work. The line of work represented by each committee has support from various groups each maintaining that its interest is paramount. They are all interlocking and each is dependent for success on the others. And it is really not important for us to determine which is paramount because in the final analysis the work of all is aimed at one result and that is to teach us and as many others as possible how to live like men.

The Rotary Club

How It is Composed in Every City

A ROTARY club is a group of representative business and professional men, one man from each distinct business or profession in a community, who, without secret vow, dogma or creed, but each in his own way have accepted the Rotary philosophy of service. And have organized to study the theory of service as the true basis of success and happiness in business. As individuals, each is endeavoring to translate this theory into practice in business and everyday life.

In limiting the membership of each Rotary club to but one man from each distinct line of business or profession in the community, the intention is that each business and profession shall have one worthy and active exponent in the Rotary club and that the Rotary club, through its members may have one direct and responsible avenue of approach to all those engaged in each business and profession in the community.

Attendance at meetings of a Rotary club is obligatory. Any member absent from four successive meetings without excuse acceptable to the club directors may suffer forfeiture of his membership. Attendance at the meeting of any Rotary club other than his own within the week of his own club meeting, counts as attendance at his own club, however, for any Rotarian.

Goal of Rotary

An Organization Whose Worth Lies in Future Activity

ROTARY has passed its adolescent period. It is coming into mature growth as a world force. It is accomplishing a vast work in the establishment of the principle of fellowship among men that is the foundation of fellowship among nations. Peace and good will among peoples start with peace and goodwill among persons. Rotary is doing much to bring about the last condition which, in its turn, is sure to bring about the first.

What a wonderful goal has been set for our organization and how great is the incentive given us, its members, to strive, to translate what seemed at first such an altruistic dream, into a practical accomplishment! The final achievement may not come in our generation. It may not come in the next or the next. But each year we have been able to look back on steady progress and each year we can set our faces anew, with renewed courage, toward the great rising sun of that accomplishment whose rays we may even now see reflected on the horizon.

Rotary is not an organization of retrospection. It is rather a going concern whose worth, as well as its purpose, lies in future activity rather than past performance. And so we are gathering in this convention to help to bring about that international amity that will make for substantial peace and hearty good will among all the nations of the earth.

Rotary Objects

GOOD SEASON FOR ANGLERS IN N.B. PROMISED

Harry Allen Addresses Gyro—Calls For Re-Seeding of Woods

One of the best fishing seasons in the history of the province is expected this year, Harry Allen, president of the New Brunswick Guide Association told the Gyro Club at their luncheon at the Admiral Beatty Hotel yesterday.

FOREST PRESERVATION.

The speaker dwelt especially on the necessity for forest preservation and the reseeded of burned or cut over areas. He spoke of the precautions which must be taken against fire in the woods and warned the members that when camping night fires should be kept in a place where they would have a chance to spread.

N. B. FAVORED.

New Brunswick was favored as regards reforestation work, for its soil was the most productive on the continent as far as the speaker could learn from growth of this kind.

MR. CROWELL HEARD.

Harry Crowell spoke briefly on the automobile industry. Mr. Crowell described the growth of the industry in Canada and said that in 1924 there were twelve plants representing \$60,000,000 of capital and producing \$88,000,000 worth of cars and parts annually.

Deaths

Mrs. George Wasson. It was with much regret that friends today learned of the death of Mrs. Sarah Jane Wasson, wife of George Wasson, 80 Harrison street. She had been ill for about a year but the end came suddenly at the General Public Hospital, where she had been for 11 days.

ROME, April 21.—"If any nation needs a comparatively long period of peace that nation is Italy," a high governmental official told the Associated Press correspondent yesterday, explaining the reasons why "foreign rumors of Italy's aggressive attitude are completely unfounded, in addition to being absurd and impossible from every point of view. A misunderstanding on Italy's part of view, has arisen, this informant declared because of the difference between the ordinary European terminology about governmental affairs and Fascist Italian terminology, which has grown up in this country because of the last four years of internal strife. This terminology, he said, was naturally belittled."

checks 4 out of 5

WHY take chances with dread pyorrhea? Through carelessness, four out of five suffer with it, after the age of forty, and many younger. These are your dentist's statistics.

Tender bleeding gums are the danger signal. If unchecked, the teeth loosen in their sockets and the poison seeps through-out the system, frequently producing rheumatism, neuritis and other serious troubles.

How Long Since You Saw Your Dentist? Don't wait until your dentist has to treat an aching tooth. Visit him regularly at least twice a year for a thorough teeth and gum inspection. He will keep your teeth and gums healthy, prevent decay and forestall serious illness that often has its beginnings in a diseased mouth.

This pleasant dentifrice contains Forhan's Pyorrhea Liquid which has been used by dentists for the last 15 years in the treatment of pyorrhea. If used regularly and in time it checks or prevents the ravages of this mouth scourge. Start brushing your teeth with Forhan's today. It not only gives your teeth a perfect cleaning, but keeps you safe from dread pyorrhea's tolls. Sold in 35c and 60c in tubes.

Middle-Aged Women

ONE of the most critical periods of a woman's life comes between 45 and 50. Most women dread the approach of middle age because they know, only too well, the depressing ailments it brings.

This natural change in a woman's life should be passed in a normal manner, without fear or suffering from such distressing symptoms as hot flashes, smothering spells, fainting spells, headaches, backache or nervous troubles.

When such symptoms are experienced, there can be overcome by the use of Lydia E. Pinkham's Vegetable Compound. For more than fifty years the Vegetable Compound has been carrying women safely through this trying period.

Such letters as the following prove our claim:—

After Long Suffering South Omaha, Nebraska.—"After fifteen years of terrible suffering each month with sick headaches when passing through Change of Life I began to take Lydia E. Pinkham's Vegetable Compound and I have felt my health steadily improving. After taking your medicine for almost a year and a half, I believe I can say the headaches have left me. I also was troubled with nervousness and with pains in my left side. Many times the doctor told me to have an operation performed. I am feeling fine now and do all my work myself. I am the mother of six, and manage an eight-room house without anybody to help. I feel that I am entirely well. I recommend the Vegetable Compound to any one who complains to me about female troubles."—Mrs. ADOLPHE BRATHE, 4316 South 18th St., South Omaha, Nebraska.

Mrs. Bolleman's Case West Hoboken, N.J.—"During the Change of Life I was troubled with headaches, weakness, flushes of heat to the face and head and loss of appetite. I would often get so weak I could hardly stand. I thought I would never be right again as no doctor's medicine seemed to help me. They said my trouble would have to take its course. I read about Lydia E. Pinkham's Vegetable Compound in the little books you give away and began to take the medicine. After the first few bottles I began to feel stronger and could eat better and had fewer headaches. I am a well woman today and feel like a different person. You may use this letter for every word is true. I will answer any letters sent to me."—Mrs. JENNIE BOLLEMAN, 516 Smith Street, West Hoboken, New Jersey. Sold by druggists everywhere.

BESCO ISSUES GO DOWNWARD AT MONTREAL

Stock Prices Indicate Firm Undertone During Morning Trading Today

MOTOR SHARES AGAIN RISE IN WALL STREET

American Smelting Affected By Court Decision In Dividend Matter

MONTREAL, Que., April 21—Stock prices revealed a firm undertone at the opening of the Montreal Stock Exchange this morning. Although quite a number of issues made their appearance on the board, trading was of a quiet nature, and few changes were recorded. The Besco issues, which were on the down trend yesterday, opened firm. Besco common was unchanged at 1 1/2, the first and second preferred at 14 and 2 1/2 respectively. Brazilian was the active issue, opening at 8 1/2 for a gain of a quarter point. Abitibi was unchanged at 7 1/2, as was Canada Steamships common at 18 1/2, preferred at 67; new asbestos common at 20 1/2; Steel of Canada at 18, Lyall at 42, and Alcohol at 1 1/2. Smelters eased 1/2 to 1 1/2, while Bell Telephone fell a half at 15 1/2 on small transactions.

NEW YORK, April 21—Stock prices continued to drift within a narrow trading area at the opening of today's market, but the main trend was upward. Atlantic Coast Line moved forward in response to the declaration of a larger dividend and motor shares resumed their rise under the leadership of Hudson and General Motors. American Smelting reflected disappointment over the adverse court action affecting payment of Federal Mining and Smelting common dividends.

MONTREAL, April 21—Cable transfers 4857-18. MONTREAL, April 21—In the face of a 1 1/2 point cut in the price of lead in New York, smelters acted well. It was also stated that American holders had recently been selling, not because of special developments in connection with the company, but out of recognition of the break in Wall street. The Atlantic Coast Line has held well in the decline. After refusing to fall below 100, where it again changed hands yesterday, it was bid up to 100 1/2. The lower level quickly attracted buying, showing interest in the stock. It is a real demand for this leader. Fishing one of the weaker issues on Monday, rallied easily to 45 in the face of the decline in not able to run very far, despite a fairly speculative position for the stock.

TAYLOR CLASHES WITH J. W. SMITH OVER HEALTH VOTE

Premier Calls Trade Schools Factories Training Pupils For Export

Special to The Times-Star BY JOHN J. DUNLOP FREDERICTON, N. B., April 20—Health and vocational education estimates came in for some severe criticism in the House this afternoon, consideration of the latter causing Premier Baxter to term vocational schools great factories training children for export.

MR. JOLICOEUR TELLS HIS EXPERIENCE Strongly Recommends "Fruit-a-lives" For Kidney Trouble

For years, Mr. Jolicoeur suffered with kidney trouble, headache, backache, and the heavy, miserable feeling which usually accompanies any weakness or irritation in the kidneys. He tried "Fruit-a-lives" and, in telling the result, his letter says, "After having followed the 'Fruit-a-lives' treatment, I have gained thirty-three pounds and I have been well ever since. I am pleased to recommend 'Fruit-a-lives' to all those who suffer from Kidney Disease." J. M. Jolicoeur, 318 2nd Ave., Quebec.

declared Hon. Dr. Taylor. "There is a lot of deadwood in this department," declared Mr. Smith, and amid applause from parts of the House, "and if we could secure a good man to head the line and top of this deadwood, the people of this province would be very much satisfied."

The department had considerable machinery and with the year half advanced, it would be difficult to interfere with the organization, Hon. Dr. Taylor replied. The talk of expense moved B. Frank Smith, Carleton, to suggest that those members who talked about it could very well set an example to the people by getting together and asking the Government to reduce the seasonal indemnity from \$1,000 to \$800. Hon. A. A. Dysart, Kent, expressed

If Over 40 Years Old You Need This

If you are past 40 your vital organs are slowing up and metabolic poisons accumulate in your system. Keep your bowels and stomach active with the mixture of buckhorn bark, glycerine, etc. (known as Adierka). W. Carter, a man of 60, states that a few doses made him feel better than for years. What Doctors Say. Dr. G. Eggers reports Adierka is the best medicine he has used in 27 years. Dr. W. H. Bernhart writes he could not get along in his practice without Adierka. Dr. J. J. Weaver, a doctor for 50 years, says he knows no medicine better than Adierka. Dr. L. Langlois prescribes Adierka regularly with GOOD effect. Dr. E. Duckett writes: "After using Adierka I feel better than for 20 years. AWFUL impurities were eliminated from my system." Adierka is a big surprise to people who have used only ordinary bowel and stomach medicines because of its HEAL and quick action. Sold by Dominion Pharmacy and the Ross Drug Co. in Fairville by O. D. Hanson.

BOWLERS REACH CENTURY AVERAGE 36 TIMES IN PLAY YESTERDAY

SEVERAL YOUNG ROLLERS DOING EXCELLENT WORK

Both Local Teams Lose—Many Fans Witness Games

Sensational rolling marked the first day's play in the Maritime Provinces and Eastern Maine championships which opened on the Y. M. C. I. alleys yesterday morning. The ten teams competing for the honor which also includes possession of the Brunswick-Balle-Collerer trophy for the year fought every game right to the end. The class of bowling yesterday was shown by the fact that no less than 86 times a bowler concluded his three strings with an average for the game of 100 or better.

The contests, which started at 9 o'clock and continued right up until nearly 2 o'clock this morning, were witnessed by large crowds of enthusiastic fans. The games started promptly as soon as the others were finished and the bowlers worked for every pin.

The first day saw both Saint John and Moncton tied for first place in the day's play, tied for first place with three wins and no losses each. The Y. M. C. I. trophy defenders, suffered two defeats, losing both times by narrow margins, the second loss being to Dartmouth by only two pins. Black's won two games but were defeated by Moncton by 54 pins.

The Y. M. C. I. came back strong in the last game last evening and rolled up a record total thus far in the meet by rolling 1846, every string being above the 500 mark. Jenkins at the same time rolled the highest total being to Dartmouth by only two pins. Black's won two games but were defeated by Moncton by 54 pins.

Canadian Featherweight Champion Faces Important Bout Tonight

"Red" Grange, Sued By First Manager, Pays

CHICAGO, April 21.—Red Grange was thrown for a loss recently, when he settled with his former Wheaton neighbor, Archie H. Schatz, otherwise known as Johnny Small, a vaudeville actor, for \$750. The settlement was made out of court. Schatz sued the football hero on claims that he first saw the possibilities in Grange and signed as his first manager last August. Grange subsequently selected C. C. Pyle.

CAPT. PIGEON MAY TRY BERMUDA RACE

Has Circumnavigated Globe Without Crew in Home Made Yawl

NEW YORK, April 21.—Herbert L. Stoen, chairman of the Bermuda Ocean Race Committee, said on Monday, that he hoped to have the entry of Harry Pigeon, the Iowa navigator who recently circumnavigated the world single handed in the yawl Islander, which he constructed himself at Los Angeles.

Although some yachtsmen in the Bermuda race in the past have missed the islands through lack of experience in navigation, it is believed that Captain Pigeon would make St. David's Head without a miss. During his world voyage of 35,000 miles around the world he made some difficult passages, one of 40 days in the Pacific, and always brought up at the port he desired to make.

Among the tricks to be exposed will be those employed by card-sharps and confidence crooks, back-door handouts, sharpers on the railway and racecourse and at street corners, and even those of dishonest shopkeepers.

HISTORIC HOME IS TO BE DISMANTLED

Netherby Hall, immortalized by Sir Walter Scott, Will Be Given up

LONDON, April 21.—Netherby Hall, made familiar to all by the magic of Scott's poetry, is to be given up by its owners, Sir Richard and Lady Graham. They have decided to dispose of the contents of their historic Cumberland home, and the magnificent oak paneling covering the walls of the banquet hall is to be sold. The house has romantic associations. Generations of Grahams have lived there. It was from Netherby Hall that Young Lochinvar stole his bride after swimming the Esk, as is told by Sir Walter Scott. The borderland history centred round Netherby for hundreds of years. The first baronet (there has been three creations in the family) came south and carried the Royal banner at the battle of Edgehill in the war between Charles I. and the parliament. GODDESS APPEASED

Hawaiian Islanders Believe Pele Responsible For Destruction of Village KENO, Th., April 21.—The wrath of the Goddess Pele apparently has been appeased by the sacrifice of the ancient village of Hoppala. The lava flow from Mauna Loa yesterday was rapidly cooling fire stilled mass. It was more than sufficient, however, to block movement of automobiles over the government road. It had buried deep in slag where it crossed to the sea. A glowing sky before the daybreak near the source of the flow threatened further movements of lava, but islanders generally believed that Pele had temporarily vented her displeasure.

HALIFAX MAKES RECORDS GO IN DEFEATING "Y"

Bowlers Roll Up Score of 1595 Against Locals' 1575

TOURNEY PROVIDES NOTABLE MATCH

Black's and St. Stephen Defeated By Eastport and Calais

Halifax bowlers, fighting for possession of the silver pin emblematic of the candlepin championship of the Maritime Provinces and Eastern Maine put on two alley records at the Y. M. C. I. this morning in defeating the "Y" team. It was the outstanding match of the tournament thus far. Halifax rolled 1885 for a new tournament alley record, and in the first string put on 564, which is also a new alley mark. The "Y" team scored 1575. Only three men in the ten were below the century mark.

MARTELL IS LEADER

Martell of Halifax led with 387, just equalling the total made by Noel Jenkins of the Y. M. C. I. last night against Truro. Martell also registered 144 as the high single to date. This morning's victory gives Halifax three wins and one loss.

In the other early game today Truro easily defeated Dartmouth, 1467 to 1313.

MAINE WINNERS

In a match game at 11 o'clock between Black's and Eastport, the visitors won 1322 to 1516. Cunningham and Black with 135 for a single string and 111 average was high man. Winchester of Black's with 122 and Brown of Eastport with 119 for single strings did well. In the other game Calais defeated St. Stephen 1413 to 1295.

BIRTHDAY PARTY.

A very pleasant birthday party was given yesterday afternoon by Mrs. W. R. Green, 219 Waterloo street, in honor of the 9th birthday of her daughter, Ida. At the table was a prettily decorated, the centre piece being an elaborate birthday cake with 100 candles. The young guest of honor received pretty gifts.

NOVELTY SHOWER

About twenty-five friends of Miss Luella Folkens tendered her a novelty shower Saturday evening at the home of Mrs. W. O. Anthony, Red Head. Games and music were enjoyed and many useful gifts were presented to the guest of honor. Dainty refreshments were served by the hostess, as assisted by Mrs. W. H. Smith.

LUCKY ESCAPE

A time-burner named Murphy, residing on the Halsey road at Brookville escaped death remarkably when hit by a locomotive this morning between 7 and 8 o'clock. He was standing on the track looking in another direction when a double-headed train from the city moved into the station area. He was struck a glancing blow that tumbled him down the embankment. Without saying a word he got up and walked off briskly. So say eyewitnesses.

BOYS RECAPTURED

On the noon train from McAdam County Constable Shortt brought back to the city two lads, Harold Donald, aged 17, and Charlie Chase, aged 16. Saint John boys charged with running away from the Industrial Home, East Saint John, and suspected of breaking into a house at Hillside and Westford. They were taken at McAdam by C. P. R. police. The youths were taken to the police court building. A report says they had revolvers, one a 45 calibre weapon, the other a .32.

FAIRVILLE CIRCLE MEETS.

At a meeting of the sewing circle of Fairville Baptist church at the home of Mrs. Harry Curry, plans were made for a supper and sale. The time was spent in sewing and making fancy work for the sale. Friends of Mr. and Mrs. Thomas Meehan called at their home, 239 Union street, West Saint John, last evening to help them celebrate the 25th anniversary of their wedding. The evening was pleasantly spent in cards and dancing and dainty refreshments were served. On behalf of the guests Mr. and Mrs. A. E. Cox presented gifts of silver to Mr. and Mrs. Meehan. All the members of the family were present at the celebration except one daughter, Miss Mollie Meehan, who is at one of the training school for nurses at Portland, Maine.

J. BLACKBURN SUES FOR \$3,000 FOR INJURIES

Action Against A. B. McIntosh in Connection With House Building

In the Circuit Court this morning before Chief Justice Barry, the case of James Blackburn vs. A. B. McIntosh was commenced, and the evidence for the plaintiff was nearly completed when court took noon recess. The matter is being continued this afternoon.

This is an action for the recovery of approximately \$3,000 as damages for injuries sustained by the plaintiff as the result of what he alleges was the defendant's negligence in connection with the erection of a portion of a scaffolding on which the plaintiff was working as a carpenter's helper. While employed by the defendant, who was erecting a house in Rockland Road, the plaintiff, stepping on a loose board, was thrown to the ground, sustaining fracture of both arms, which caused the almost total disability of one of them. He contends he was denied compensation under part of the Workmen's Compensation Act, so brought the present action.

DENIES OBLIGATION

The defendant denies obligation in connection with the claim, though his case has not yet been heard by the court. Evidence was given this morning by the plaintiff, Dr. Kirkland, of the hospital staff, and Dr. C. M. Pratt, and the case for the defence will be opened this afternoon. Ralph G. McInerney is appearing for the plaintiff, and C. F. Inches, K. C., for the defence.
