Arthur Cairns Cleared of Charge of Robbery With Violence

Defence in West Side Case in County Court Based Upon Alibi

After being out only five minutes, a jury this morning returned a verdict of "not guilty" in the case of the Crown against Arthur Cairns, charged before Judge Barry in the County Court with highway robbery with violence against Mrs. Ida Drekin on Saturday night, October 10. The defence based its case on an alibi. C. H. Ferguson appeared for the Crown and G. East Logan for the prisoner. After evidence was completed and the charges of counsel and judges had been completed the jury retired at 12:45 o'clock and returned a verdict of "not guilty" at 1:15. Judge Barry released Cairns from custody.

This case arose out of an incident reported from the vicinity of the Martello Tower.

Court adjourned until tomorrow morning at 10 o'clock when the trial matters on the docket will be dealt with.

PONTIFF HONORS BELGIUM'S QUEEN

Golden Rose, Highest Award to Catholic Sovereign, Goes to Elizabeth

British United Press. ROME, Nov. 10.—The Pope has chosen Queen Elizabeth of Belgium to receive the Golden Rose, the greatest gift which the Pontiff can bestow on a Catholic Sovereign. The high honor to the Belgian Queen was made known today when Pope Pius delegated Papeo Mucio Micca to present the decoration to Elizabeth when the royal couple should return from their voyage to India. The presentation will be made on the King's and Queen's twenty-fifth wedding anniversary. The golden rose is the finest work of the goldsmith's art, consisting of one hundred leaves of purest gold, elaborately engraved. It rests in a silver vase. The Pope rarely bestows the golden rose. In 1913 he bestowed it on Queen Maria of the Netherlands. The last award was by Pius XI to Queen Elizabeth of Spain.

VISITED FLORIDA

Thos. Gosnell of Saint John Tells of Real Estate Boom

Thomas Gosnell of Harrison street, North End, arrived home today after a five months absence. In that period he visited the boom state of Florida just to see what all the excitement was about. He found that while the real estate furore was on the point of becoming stabilized, the building of homes, erection of traffic bridges and other necessary extensions were on in full blast. There was a great influx of people into Florida and it was generally expected the place would be overrun with speculators of all kinds, including a vast percentage of private folks.

Mr. Gosnell journeyed home leisurely and took time before making the last leg of his trip east to do some big game hunting in the upper part of the province. He had a great time. Tommy is well-known as the G. W. Vets' catcher in former seasons. He is a St. Francis Xavier graduate.

He was an accountant and knew a thing or two about figures. "What a marvellous Dining Suite!" exclaimed the guests. "You must have got it at Marcus—and I'll bet the firm gave you a raise to afford one like that."

"No raise at all, worse luck," replied the host. "But we traded in our old suite. That was all we had to pay down—and a year to take care of the rest."

"We were hoping to have a new suite, but not so soon. I had it all worked out how much the old one was worth to us and what we could get for it. The Marcus people actually gave us more than our estimate. And no firm in town could quote a price on the new suite so low as this fresh suite."

SPECIAL DAY IN CITY CHURCHES

Soldiers Here Paraded to Three Services on Sunday Morning

Graves of Soldier Dead Decorated—Sons of England Have Memorial Service

The city churches on Sunday observed both Thanksgiving and Armistice Day with special services.

There was a large turnout of the militia and cadets at the morning church parade, the Protestants going to Trinity and the Catholics to the Cathedral.

Despite the rain during the afternoon decoration day programme of the War Veterans and L. O. D. E. was carried out in Fernhill cemetery.

The following is the list of graves, other than in the Field of Honor, which were decorated:

Section No. 1—Lieutenant Manning, Major Hall, Colonel Foster, Major Jones, General Drury, Major Hart, Colonel Tucker, Colonel Jago, Sgt. Major Hughes, Lady Tilley, Major Magee, Captain Shives, Wm. A. Fraser, John Fraser.

Section No. 2—Seaman Campbell, Private Edwards, Private Adams, Private Emery, Private Moulton, Private Hamilton, Captain Elliott, Gunner Wilkins Section No. 3, E. G. R. C.—Captain Kee, Ensign Jarvis MacLellan, M. C. Noble, Capt. Roland J. Smith, Private Brown, Colonel March, Private Evers, Sgt. Montague, et al in old Military Plot; Private Vanwart, Sergeant J. L. Lamb, Sergeant Craig, Private Weatherhead.

Section No. 4, M. C.—Colonel Underhill, Captain Clapton, R. N., Seaman Fairweather, Colonel A. J. Armstrong, Sergeant Armstrong, Private Fudge, Colonel Cunard, Gunner Harvey, Colonel Blaine.

At the New Catholic cemetery the Veterans' party placed a wreath on the Memorial Plot and decorated with the single poppies also. Rev. Wm. Duke was the speaker at this service, and the Last Post was sounded by Trumpeter Hugh Yearwood.

The Carleton branch of the G. W. V. A. took part in the church parade in the morning, and in the afternoon decorated the graves of their fallen comrades in Cedar Hill, Holy Cross and Greenwood cemeteries, after which they visited the D. S. C. R. hospital, Lunenburg.

RADIO AND PRAYER. Under the heading "A Few Thoughts on Radio, by One Interested," a correspondent of The Times-Star sends the following:

"Radio we must all admit is a most marvellous invention, but it strikes me as being not only a triumph of science, but rather a revelation of God, giving to us a wonderful illustration of prayer."

"Many of us, a few evenings ago overheard the radio messages being broadcasted for The Hudson Bay Company to their outposts in the Far North, praying that help and succor be sent to those in need at Southampton Island, and as we listened, we, too, were earnestly praying that at least one of the messages might hear. We were thus relaying (as it were) the message on to Heaven, for I take it, just as we, with our mere man-made machines, are able to hear and receive messages from almost any part of the known world, so God, with His Divine Radio (and I say it in all reverence) is able to hear and receive our messages or prayers."

"Our bodies, too, have their radio equipment. The same as our receiving sets, the mouth our broadcasting sets, and I don't think I can't but think that as the radio experts study and experiment to improve and perfect their machines, they should obtain many new and valuable facts that would, in no small measure, help and assist the experts of medical science, aiding them to discover and correct the many imperfections and defects that too often occur in our human radio. 'All things work together for good.'"

"Radio, I feel sure, is only one of the many wonders God has in store for us. We read, even now, of endeavors to devise and contrive a way or means to transmit vision, or in other words—a human conception of 'The All-Seeing Eye.'"

"But—all in God's own good time, for do we not remember how He said—'I have yet many things to say unto you, but ye cannot hear them now.'"

POPPIES DAY RETURNS. Returns of approximately \$1,400, of which \$500 will go to the local G. W. V. A. for winter charitable work, are expected when all accounts are completed for Poppy Day on Saturday.

"SALADA" TEA

The exquisite flavor of Salada is produced by the expert blending of the choicest teas grown.

Last week's Saturday Evening Post contained an ad for Edison Mazda Lamps. It urged you to read under proper light or take the other choice of strained eyes and the different troubles that brings on.

It just happens to be a word in proof of the fact that most eye-strain comes from unsuspected causes.

It might be added that the nerve strain and head pain brought on by impaired sight are likewise endured without suspecting the cause. Glasses are the only corrective.

The Best of Advice

BY CLARK KINNAIRD

THERE NEVER WAS ONE WHO "NEVER HAD A CHANCE."

THE popular notion of a learned man is a bald, gray-headed fellow who spends his days in close confines, pouring over dusty books, and emerging to speak in a deep, hollow voice in words of four and five syllables.

This is only a pedant. So-called "practical men" usually are impatient with, or condescending to, speculative men, as if, because they speculate or SEE, they could DO nothing.

But the truly learned man is a man of action, drinking deep of the experience of life.

"Action is with the scolar subordinate, but it is essential," Emerson observed.

"Without it, he is not yet a man. Without it, thought can never ripen into truth."

"ONLY SO MUCH DO I KNOW, AS I HAVE LIVED."

"Instantly we know whose words are loaded with life, and whose not."

DRUDGERY, calamity, exasperation, want, are instructors in wisdom. Experience is the raw material out of which the intellect moulds its products.

A strange process it is, by which experience is converted into thought, as a mulberry leaf is converted into silk. The manufacture goes on at all hours.

Life is our dictionary. No man can rightfully complain that he never had the chance to educate himself.

After working night and day for years to perfect the device he has now sold it for a million dollars. He was born in the little town of Enfield in Maine. When he was very young his father was killed in a paper mill. Spencer went to live with his grandfather who was a lumber man and he became familiar with logging camps.

At fifteen he worked in a camp and one of his duties was keeping fire under an old steam boiler. He noticed that when the door of the boiler became hot it rounded inward and when cool it snapped outward. Years later Spencer remembered the peculiar properties of the boiler when he was attempting to find a way in which to regulate electric heat. After two years of hard work he perfected the thermostat.

Although he is now a wealthy man he still spends many hours a day in his laboratory.

MY LADY NICOTINE (New York Herald-Tribune.)

Do women smoke because they consider it is smart or because they find real satisfaction in the cigarette? There is apparently a difference of opinion regarding the growth of smoking among women. Reports from abroad are to the effect that the number of women smokers is steadily increasing.

In England the plump, honest, full-size cigarette has left the dainty, highly scented variety far in the rear. This would indicate that the English woman takes a cigarette because she wants it rather than because it is the "right" thing to do. To those who argue that

SOME way out from the Bay of Naples the little party on deck sighted a rocky islet, apparently two miles off shore. An elderly gentleman approached a youth who sat writing and inquired politely:

"Do you know whether that is Mount Vesuvius?"

The other replied with equal politeness:

"I don't know what it is, but I do know it's not Vesuvius."

"But," said the elderly gentleman, "you see, I know it is, how do you know that it's not Vesuvius?"

"Because," came the reply, whilst the speaker fixed his tormenter with an angry glare, "because Vesuvius is inland and this is out at sea; because this is about two miles round and Vesuvius is thirty; and because Vesuvius is a volcano and this is not!"

THE experienced motorist was crawling carefully through a well-known "speed trap" in England, when he saw the village constable making imperative signs to him to stop.

"You were quietly attending to your own business, making no noise or disturbance of any kind?"

"None whatever, sir."

"It seems very strange. What is your business?"

"I'm a burglar."

JOHN A. SPENCER.

AN INVENTOR who is figuring prominently in the public eye at present is John A. Spencer, the inventor of the thermostat, a small disk about the size of a silver dollar which regulates the temperature of electric heat.

CHICAGO'S DRAINAGE (Montreal Star.)

Canadian shipping interests are directly and seriously menaced. This has been demonstrated beyond all reasonable doubt, by the testimony of experts and by the declarations of many people occupied in shipping, as well as by statistical comparisons with previous years' lake and river levels. The only explanation, other than the diversion of water through the Chicago drainage canal, that would meet the case of shortage of rain, and the month of September was one of unusually heavy precipitation. We have relatively more to lose than all the American states together. The maintenance of our lake levels is of paramount importance, because upon them our river levels depend.

Weddings

Smith-Dewar.

The home of Mr. and Mrs. Andrew McKay Dewar, Red Head, was the scene of a very pretty wedding on Thursday, Nov. 5, when their eldest daughter, Elsie Elizabeth, was united in marriage to Howard Arthur Smith, son of Neil Smith and Mrs. M. J. Smith of West Saint John. The marriage was solemnized in the presence of friends and relatives by Rev. Hugh Miller of Silver Falls. Miss Emma DeWitt played the wedding music and during the signing of the register Miss Bertha Smith, sister of the groom sang, "God Touched the Rose."

The bride, who was given away by her father, looked charming in her wedding dress of golden brown cut velvet with picture hat, shoes and

Deaths

Adam M. Campbell

Within ten days of his injury, Adam M. Campbell, of Prospect street, Fairville, died yesterday afternoon at the General Hospital of the C. P. R. on the Montreal train on Oct. 31. Mr. Campbell was one of the oldest passenger engineers in the employ of the company, having been in service for 36 years, and was one of six brothers, all of whom are C. P. R. engineers, and was a good neighbor. He was well respected and very highly thought of by the officials of the C. P. R. He was of a kindly and obliging disposition, a good neighbor and very popular with a wide circle of friends. Deep sympathy has gone out to the bereaved relatives in their sorrow.

WOUND PROVES FATAL.

The wound which proved fatal was receiving medical attention from the Sunday after the accident until Thursday when it was found that blood-poison had developed and Mr. Campbell was taken to the General Hospital for treatment. In spite of all that medical skill could do the poison spread and Mr. Campbell passed away shortly after 4 o'clock yesterday afternoon.

He was the eldest son of the late Mr. and Mrs. Andrew Campbell, of Fairville, and is survived by his wife, who was formerly Miss Rena Cole, three sons, Eldon A., Frank W., and Walter Gordon, all of Fairville, and one daughter, Miss Jean Gertrude Campbell, who is a nurse in training in a Massachusetts hospital.

He is also survived by four sisters and five brothers. The sisters are Mrs. James McCrackin, Fredericton Junction; Mrs. John Gordon, Martin; Mrs. William G. Coffield and Mrs. Tennyson Currie, West Saint John. The brothers are Duncan C. Campbell, W. Murray Campbell, former member of the Saint John Municipal Council, Martin A. Campbell, Andrew Campbell and Robert E. Campbell.

FUNERAL ON WEDNESDAY.

The funeral will take place on Wednesday afternoon from the residence of his brother, W. Murray Campbell, 257 Duke street. The service at the house will be at 2:30 and the funeral at 3 o'clock.

Wm. T. Harrington

William T. Harrington died at his home, 58 Prince Edward street, on Nov. 9, and many friends will greatly regret his passing. He was born on the Sandy Point road, where he lived for the early part of his life, and was a son of the late William T. Harrington and Catherine Harrington. He was a blacksmith by trade and for several years carried on a successful blacksmithing business andinery in Boston. He retired from active work about 16 years ago and returned to his home in Saint John, where he held in high regard. His nearest surviving relatives are, two nieces, Mrs. Mary O'Connor, Duke street, and Mrs. Arthur McHugh, East-Saint John.

Mrs. Catherine Giggy

Friends in the city have received word of the death of Mrs. Catherine Giggy, widow of William Giggy, of this city, which occurred on Sunday evening at Wollaston, Mass., where Mrs. Giggy had gone about one month ago to visit her sister, Mrs. George Crawford. Her husband died last February. Mrs. Giggy had been a life-long resident of this city and her death will be sincerely mourned. Besides her sister in Wollaston, Mrs. Giggy is survived by one brother, George Paddock, of this city, two stepsons and one step-daughter, Mrs. Frank L. and the step-daughter is Mrs. Joseph Long, of New York.

Mrs. T. Rathburn

ROTHESAY, Nov. 9.—Following an illness extending over 10 months, Mrs. Phoebe Augusta Rathburn passed away at her residence here today. Mrs. Rathburn, who was 65 years of age, had been a resident of Rothersey for 32 years, coming here from Gagetown. She was born at Wickham, Queens county.

WHEN A NEW TRIBE IS DISCOVERED

Occasionally a new tribe is discovered that has lived for ages untouched by the diseases of civilized races, which destroy them as soon as they take on civilized habits. Why does an ancient race perish from tuberculosis, cancer, kidney, and other diseases, under the influence of civilization? The answer is the white man's food, robbed of its growth and repair substances, destroys the "protective" elements of the blood, lessening resistance to disease.

One serious defect of civilization is the failure to think about our foods. If we did, we would know that if we refine out of our most important food stuffs, the grains, their "protective substances," decay, disease, and death must follow. Yet we do that in making white flour, refined cereals, polished rice, white sugar, etc.

Our blood must be alkaline or we perish. Foods must keep it alkaline, yet it is their alkalis we remove when we refine out of the grains the brown flour. This makes these foods "Excess Acid" which makes acid blood. Acid blood lowers resistance, strains vital organs, and permits disease germs to destroy the body.

Roman Meal is the only alkaline cereal. It corrects the acids of "Excess Acid" white flour, other cereals, meats, and sweets. It is therefore of the most importance that Roman Meal should be served to your family. It makes the most delicious porridge on which to start the day. Added in 25 per cent proportion to white flour it restores the valuable growth and repair element lost in making flour white, and improves in flavor everything you bake. Roman Meal is sold by grocers everywhere.

She is survived by her husband, Thomas W. Rathburn, of Rothersey; four sons and two daughters. The daughters are Mrs. H. R. Mathewson, wife of the general agent of the C. P. R. at Buffalo, N. Y., and Mrs. H. J. Bailey, Jr., of Boston, and the sons are Oakley Hazen, Tacoma, Wash.; George Walter, New York; and Clarence Guy and Harold Covert, at home.

Mrs. Rathburn had made a host of friends at Rothersey who extend their deep sympathy to the bereaved family. The funeral service will be held Thursday morning at 9:30 at her late residence and interment will take place at Hibernia, Queens county, the funeral party going by motor from Rothersey to Hibernia.

William James Petts

Sympathy is extended to Mr. and Mrs. Edward Petts of 104 Duke street, West Saint John, in the death of their infant son, William James, which occurred on Sunday. Besides the parents, one brother survives.

Ransford J. Byers

The death of Ransford J. Byers occurred at his home in Hoyt, N. B., Oct. 16, after a lingering illness of over a year.

He was 59 years of age, and leaves to mourn, besides a wife, five daughters, Mrs. Sidney M. Jenkins and Lois Byers, of Waterbury, Conn.; Mrs. Robert J. Hoyt, of Saint John; Gertrude and Constance at home; also four sons, Percy E., of Portland, Me.; Truman, Alton, and Stanley, at home; also two brothers, Charles, of Fredericton Junction, and Frank, of New Jersey; two sisters, Mrs. T. K. Thompson, Alberton, Montana, and Mrs. Rebecca Thompson, of Seattle also survive.

Deceased was a member of the United Baptist church of Mill Settlement, for over forty years, where he lived at a farmer and made many friends throughout his life.

The burial took place at Blissville, in the family lot. Funeral services were conducted by Rev. J. A. Corey.

C. W. Baker

FREDERICTON, Nov. 8.—C. Woodville Baker, a well-known resident of Sheffield, died suddenly this morning at his home, aged 72 years. Surviving are his widow, formerly Miss Vening, one son, G. Fred Barker, of Sheffield, and one daughter, Miss Clara, of the same place. Charles and Harold Barker, of Saint John, are grandsons. The funeral will take place Tuesday.

Gilbert Carter

The death of Gilbert Carter occurred at his home at Mount Whately, Nov. 8 at the age of 78 years. Death came as a great shock to the family as he was apparently in good health previous to his death. He was a son of the late James R. Carter, of Mount Whately, and had been a lifelong resident of that place. His wife was Jane Chapman, daughter of the late Captain Lewis Chapman, of Point de Bute. Besides

his widow, he leaves two sons and five daughters. The sons are Walter, at home, and Gerald, of Hartford, Conn. The eldest son, Arnold, was killed in the Great War in 1918. The daughters are May, of the Moncton teaching staff; Laura, Mrs. J. H. Foster, of Brownlee, Sask.; Vera, at home; Violet, Mrs. E. R. Catches Bear And Bull Moose Fighting

FORT WILLIAM, Ont., Nov. 9.—Reginald Anderson was out hunting a few days ago when he heard the howling of a moose. Coming closer, he saw a strange sight. The moose was fighting with a giant black bear. Bruin had obtained a hold on the neck of a great bull moose, while the bull drove at him with his forefeet. Eventually the bear brought the bull to his knees. Anderson fired twice. The bull moose toppled over on its side and the bear collapsed dead.

Teacher or Stenographer, Which Shall She Be?—How to Cure a Drunken Husband of Quarreling—The Business Girl Whose Middle-aged Employer is Developing a "Youth Jag."

DEAR DOROTHY DIX—Which profession, teaching or stenography, offers a girl the greatest chance for a career, for making a success of life, for earning the most money, and for meeting the so-called better of life, for meeting the best people. In one way, teaching seems the best. One quite often reads of a teacher who has just returned from spending her vacation abroad, but one seldom hears of a stenographer doing such a thing, and while I know lots of teachers who have their own cars, I know few stenographers who can boast of one. On the other hand, a teacher seldom seems to get the kick out of life that a stenographer gets. What do you think? S. J. C.

ANSWER: In choosing any career you should be guided by your talents and tastes, because they alone will determine whether you will find happiness and prosperity in following it. The very qualities that might make you a success as a business woman might make you a failure as a teacher, and vice versa.

THE life of the teacher offers a more intellectual life than that of the stenographer. It offers also an opportunity of doing more good because a teacher moulds the plastic minds of the children in her charge, and her influence on the characters and destinies of the young, who pass through her hands, is never ending. The teacher likewise has more leisure than any other working woman because she has her Saturdays off and three months' vacation in the summer time.

On the other hand, if a girl makes teaching a real career, and not just a makeshift bridge between high school and matrimony, she has to take a long, hard, expensive training for it. Any teacher who gets a decent salary has spent years of time in getting the degrees that qualify her for a high-class profession. But any bright girl can take a short and inexpensive business course and qualify as a stenographer.

AS FOR the opportunities that the two professions offer, the business girl has the chance to make the most money. If she has ability, industry, enthusiasm, a talent for her work, and the ambition to climb, the sky is her limit. Also, she has many opportunities for going into business on her own account. Fine office women are in great demand, and command salaries commensurate with their ability.

I should say also that the stenographer has a better chance to marry than the teacher has, because she is brought into daily contact with eligible men, whereas the schoolteacher's associations are mainly with children. As to which gets the most kick out of life, that depends on one's taste in thrills, and whether one prefers the studious life or jazz parties. The reason why more teachers go abroad on vacations than stenographers is because they have more time and because they spend their money for travel instead of glad raiment. DOROTHY DIX.

DEAR DOROTHY DIX—I am 21 and have one child. My husband is a drunkard, but he makes a good living. We have a comfortable home. He never complains over the bills, and wants me always to be well dressed. He is more pleasant drunk than sober, but what worries me is that we are continually quarreling, each trying to say the meanest things we can to the other. Every time we have a quarrel he threatens to leave me. I cannot let him do this because I love him, and because there is no way I could support myself and my baby. What must I do? DISSATISFIED.

ANSWER: WHEN a woman is situated as you are, there are just two things for her to do. One is to leave the man. The other is to be a good enough sport to take him as he is, if she stays with him.

I think you are wise to stick to your husband because in spite of his faults he has many good qualities. Drunkenness in a husband is not half as hard to stand as meanness and stinginess. Besides, there is always a chance that the drunkard will reform, while meanness and stinginess go to the bone, and the man who is afflicted with them never changes.

ALSO, in your case, your husband gives you all the comforts of life, and you are a million times better off than you would be slaving and starving trying to make a living for yourself and your baby.

Now, as to your quarreling. You can stop that by never answering back, because no man can monologue long by himself. He runs down. Every time you answer him back you throw fresh fuel on the flames and give him a new cue in abuse. The next time your husband starts finding fault with you, instead of defending yourself tell him that you are sorry, and that you will try to do better next time, and you will find that

FASHION FANCIES

By Marie Belmont
AN import from the French, like the drawing above, has just come in. This particular model is of mesh crepe de chine. The side is slit and caught together with three fabric strips which allow freedom of movement. The model could be copied in navy or black, to wear with the slim cloth frock for fall.

It punctures his sails and makes him fall flat. It is literally true that the soft answer turns away wrath. And if you can't trust yourself not to talk back, get up and leave the room.

WHEN your husband is in a good humor, tell him that you have determined never to quarrel with him again, and that you are not going to bring up your baby in a household of strife. Beg him to try to be more reasonable, and tell him that you are going to control your temper whether he does his or not.

Also I think that if instead of saying the meanest things you can think of him, you say the sweetest thing you can think of, you will discover that you have found the magic that will dissipate his wrath. His irritability when he is sober is just the protest of his shattered nerves, so you may well pity him more than blame him. DOROTHY DIX.

DEAR MISS DIX—I have been secretary to a prominent business man for five years. Recently he has asked me two or three times to go riding with him in the evening. He is a married man twenty years my senior, and apparently very fond of his family. Everything heretofore has always been strictly business between us. What do you suppose his object is in wanting to see me outside of office hours? INNOCENT.

ANSWER: Oh, he has probably reached the years of indiscretion, and feels that he wants to have a last fling before he settles down into being an old man. It is a common complaint among middle-aged men.

AFTER going along leading a humdrum respectable existence, and being model husbands and fathers, they suddenly kick over the traces and get akittish and coltish, and decide that their wives are too old for them. They take to running to cabarets and jostling with girls young enough to be their daughters, and they get into flirtations and generally make fools of themselves.

And only too often they select their secretaries as the partners in their little fling because they are about the only young women they know. Also they are handiest. And when a man gets in that frame of mind any woman who is on the spot can get him.

BUT if you want to save yourself trouble, say "no" good and hard to your employer. His attentions bode you no good, as they say in the movies. Because, in a little while, he will wake up from his jag, and go back to his wife and family, and he will fire you because he will be ashamed of what you know about him. And you will be left with a smeared reputation.

A married man's attentions always compromise a girl. This is one rule to which there is no exception. DOROTHY DIX.

Dolores Costello Makes Good In The Movies

DOLORES COSTELLO was her father's double—that's how she got into the movies. Her father, you know, is Maurice Costello, once a film idol. When a youngster, there were scenes in her father's pictures supposed to show him in youth. Since Dolores closely resembled her dad, directors used her in those scenes. But, as children have a way of doing, Dolores grew up; she began to look like a girl, her long curls could not be tucked under a cap. Daddy Costello began looking for a new double and Dolores "retired" from the screen at the age of nine. About a year ago she decided to go on the stage. She was given a part in "The Scandals of 1924," which was playing in Chicago. James Montgomery Flagg saw her and used her as a model for several of his posters. On his recommendation a Hollywood movie producer signed her for an important production. During the four months she has been in Hollywood she has had two featured roles, and James Cruze chose her for one of the leading parts in "Mansueto." Fanny Harset's prize winning story. She plays the part of "Orchid," a girl chosen because of her beauty as the leading mannequin in a fashionable gown shop.

With The Women Of Today
A RUMOR persists in political circles that a woman may be a candidate in the next presidential election. The woman mentioned in these rumors is Mrs. Medill McCormick.

Republican, widow of the Illinois senator and daughter of the late Mark Hanna, of Ohio, called the president maker. Mrs. Ruth Hanna McCormick is said to be a chip off the old block when it comes to practical politics. Socially, by birth and marriage, Mrs. McCormick belongs to the elite, but she is most democratic in her attitude toward her associates. Few men in public life are better versed in political economy, it is said, and her knowledge of human beings and governmental systems has been gained by actual contact in the principal countries of the world. Few women have a speaking acquaintance with so many important statesmen. She also helped fight for woman suffrage and is the logical women's candidate.

A Thought

Dinner: Roast Beef with Dumplings, Mashed Potatoes, Gravy, Apple Celery, Raisin Salad, Butter, Quince Jelly, Pumpkin Pie, Tea, Milk.
Supper: Quince-Apple Sauce, Homemade Bread, Grandmother's Fruit Cake, Milk.

TODAY'S RECIPES.
Roast Beef With Dumplings—Boil until tender; season, then lift out beef and remove to the oven to brown. Add sufficient water to remaining seasoned broth to make at least two quarts. The kettle must be large enough to hold the dumplings without crowding. Sift together one cup of flour, two level teaspoons of baking powder and a pinch of salt. Add sufficient sweet milk to make a stiff batter. Drop by teaspoons into boiling broth and boil 15 minutes in a tightly covered kettle.

PRESERVING PUMPKINS.
Pumpkin may be preserved by baking until tender, then spreading on platters either in the sun or in a cool oven until perfectly dry, after which it must be kept in a dry place. When required for use soak in water until soft and use like freshly stewed pumpkin. It may be canned as follows: Cut into slices, after peeling, remove all seeds and centre tissue, blanch in steam for 15 minutes and put through the colander. Put into a double boiler and stir until smooth, then add to each quart half a cup of sugar, preferably brown; two and a half teaspoons of cinnamon, one teaspoon of salt and three-fourths of a teaspoon of ginger. After mixing well pack into jars and cook three hours in a water bath.

ADVENTURES OF THE TWINS

By OLIVE ROBERTS BARTON
SOME MORE HIGH JINKS.
"Who will do the next act?" asked Old King Cole. "If we are going to have a stunt party everybody will have to do something."
"I will," said Captain Kidd, the pirate, in a loud strong voice. "I came to High Jinks Land to have a good time and I am going to have it. I shall dance a Fisher's Hornpipe if the music will please be so kind as to play."
At that Old King Cole's Three Fiddlers began to tune up, also the Hi Diddle Diddle Cat and the Pied Piper and Little Boy Blue. Then the Three-Boys-in-a-Tub turned their tub upside down for a drum and the Little-Dog-That-Laughed got his dish and spoon which when beaten together made wonderful music. So there was quite an orchestra.
"Commence," said Old King Cole.
So the orchestra went:
Te dum, te dum, te dum, te dum!
And Captain Kidd danced the Fisher's Hornpipe.
"How do you like that?" Mister Corn Dodger asked the Twins. "I call that a real stunt, so I do."
"It's beautiful!" said Nancy.
"I'd like to be a pirate when I grow up," said Nick. "Either a pirate or drive a bus."
"There! That's over!" said Old King Cole. "Three cheers for Captain Kidd!"
There were three rousing cheers led by the Clown.
When everything was quiet, Old King Cole said, "Who will do the next stunt?"
"I will," said the Ten O'clock Scholar.
"I can make up a piece to speak."
"Very well!" said Old King Cole. "Please do." And he knocked his pipe on his bowl for order.
So the Ten O'clock Scholar made a deep bow and said:
"The land is flat, the ocean's deep, Till nine o'clock I love to sleep, Now I have done the best I can, So I shall stop and—and—"
The Ten O'clock Scholar stood on one foot and then on the other, and he put his hands in his pockets and took them out again. And all the time he got redder and redder.
"I can't finish it," he said presently. "Then we'll help you," said Old King Cole kindly. "Can anyone think of a word to rhyme with 'can'?"
"Han," said Nancy.
"Han Pan! Han Pan!" called a dozen voices.
"I have it!" said the Ten O'clock Scholar. "I'll say it all over again. So he said:
"The land is flat, the ocean's deep, Till nine o'clock I love to sleep, Now I have done the best I can, Till I grow up to be a man."
"I can't think of the rest," he said presently. "I can't finish it."

Enjoy its delicious flavor

"YES, Dick—the day we stopped drinking tea and coffee and started drinking Postum—that was a lucky day for us. We soon found out that the Postum flavor is really good. And yet many like yourself say they never realized that Postum could be so delicious—so rich, so full-bodied."

If you have never tried the Postum flavor, give it a chance. Give Postum a chance, also, to undo the harm done by tea and coffee. Tannin and caffeine found in tea and coffee are harmful. With you these agents may work fast or slow. Yet sooner or later their poisonous effects are certain, sure!

My Hair Was Quite Gray

Don't Worry about Gray Hair This Clean, Colorless Liquid Will Restore the Original Shade

Thousands of people have quickly banished grayness and have restored the original shade to their hair with the remarkable preparation known as Kolor-Bak.

Physicians and scientists know that gray hair is hair that has ceased to receive its normal supply of coloring matter or pigment from certain tiny cells in the scalp because these cells have become inactive.

It is amazing to see how this grayness disappears when Kolor-Bak is used. It is the best known substitute for the natural pigmentation.

It also banishes dandruff and stops itching of the scalp and falling hair. If you are gray, Kolor-Bak is all you need to make your hair look "young" again. No need to furnish a sample of your hair—no

tests to make—as this one clean, colorless liquid is effective on any gray hair. Money back instantly if Kolor-Bak is not satisfactory.

This new form of castor oil is not a liquid. Remember, too, although delicious, it is just as pure, just as effective as the old-fashioned, nauseating dose.

Britain Fires Ex-Counsellor From Service

LONDON, Nov. 9.—It was announced today that Walter Annesley Stewart, former counsellor of the British embassy at Rio Janeiro, has been dismissed from the diplomatic service.

A foreign office board of inquiry was named a year ago to investigate sensational charges made by both sides in a dispute between Mr. Stewart and his chief, Sir John Tillyer, British ambassador to Brazil. The nature of the charges was not made public, but it was indicated disciplinary action against Mr. Stewart was to be expected.

Children's Colds

Are quickly, pleasantly relieved by Dr. Chase's Syrup of Linseed and Turpentine. If children's colds are got rid of promptly there will be less tendency to pneumonia and consumption in later life. It is the neglected, hanging-on cold that weakens the lungs and develops into serious trouble. No treatment for coughs and colds was ever so popular with the children as Dr. Chase's Syrup of Linseed and Turpentine. It is so pleasant to the taste, so delightfully soothing and healing and affords relief so quickly that children soon turn to it instinctively when choked up with a cold or annoyed by coughing.

It is mother's favorite treatment for croup and bronchitis, for she knows it will bring relief when the midnight coughing spasms set in. It is wise to always have a bottle at hand for prompt use in emergency.

WATCH FOR WATER IN CRANKCASE OF AUTO IN WINTER WEATHER

Motor Expert Gives Some Very Important Points On How to Care For Car During Cold Weather Months

Cold weather's approach should turn the attention of every motor car owner to the care his car has, says an automobile expert. Without waiting for a sudden freeze to burst radiators, stop up the lubrication system and destroy the storage battery, these parts of the car should be given immediate attention.

Before any anti-freeze solution is used, the water circulation system should be drained thoroughly and flushed, and any leaks repaired. This is a good time to change hose connections if they are worn out.

Use no anti-freeze solution that contains calcium chloride or any similar compound; these corrode the inside of the radiator. A very satisfactory anti-freeze solution is one of alcohol and water—denatured alcohol preferred, though wood alcohol, if it contains acetic acid, don't use it; for it will corrode the radiator.

NEW LORD MAYOR IS INSTALLED

Spectacular Ceremony in London Streets Attracts Large Crowds

LONDON, Nov. 9.—The ancient ceremony, attending the induction of London's new Lord Mayor including a long symbolic procession through the streets, which from time immemorial has been a feast for the eyes, was carried out today in wintry, but bright sunny weather, and attracted the customary great crowds.

The procession itself was on this occasion a sort of amateur Wembley exhibition on wheels—a pageant of Empire trade. The feature was Australia's giant plumed pudding, guarded by a kangaroo and a nodding cow with six white horses driven by Father Christmas with a bobbed beard.

The banquet was held at the Guildhall with its great baron of beef and turtle soup, its city trumpeters to welcome the important guests, and other ancient rites of London's city fathers.

KING'S RESOLVE TO STAY IS APPROVED

Glasgow Herald Terms it Wise Expedient to Meet Situation

GLASGOW, Nov. 9.—The Glasgow Herald considers that Premier Mackenzie King's resolve to remain in office is a wise expedient that is warranted by constitutional precedent. It is in fact the only way in which a situation approaching a stalemate can be met, the Herald says.

Continuing the Herald says, the position is extremely unfortunate for Canada. It means that constructive legislation is at a standstill and it illustrates the difficulties arising from the variety of conflicting economic and racial interests in the Dominion since the development of the West and North-west.

"The lack of a national verdict on the tariff question," the Herald says, "is perhaps in the meantime not inharmonious to Canada's real interests, but it is unfortunate, inasmuch as it delays much needed measures regarding taxation, the National Railways and immigration."

THUNBERG AGREES TO CONDITIONS

Finnish Skating Ace Expects to Arrive Here About Middle of December

Glas Thunberg—that's his full name—an amateur speed skating marvel of Europe, will arrive in Saint John from his native Finland about the middle of December, will train here for two weeks, will likely then skate at some trial competitions on U. S. ice, and about the end of January will contest for world supremacy at Saint John against the best that this continent has to offer.

All Doubts Removed. Some matters had been in doubt because of the long distance between the skater's home and this city, but these have all been cleared up by a cable received yesterday from Thunberg by the Saint John Skating Association. It announced that Thunberg will arrive here, as stated, about the middle of next month; that he has fully been informed of the conditions of skating style of racing, etc. here, and that the terms are all agreeable to him. Any minor matters that may remain to be attended to or that may arise before his arrival, he said in his cable, could be looked after by the Finnish consul in Montreal, Mr. Rouehimien.

Making Application. Saint John is making application for a sanction to hold the world championship meet here, and this will be taken up at a meeting of the International Skating Union to be held in Pittsburgh on November 23 and 24. D. J. Corr and Joe Page will represent the Saint John association at that meeting. There has been received from officials prominent in the highest skating councils a word that gives assurance that they are in favor of this franchise being granted Saint John.

TO EXPAND QUARANTINE

WASHINGTON, Nov. 9.—The Federal Department of Agriculture expects to expand shortly its quarantine area against the corn-borer.

ALCOHOL PROPORTION

This table shows the proportions of alcohol to use for different temperatures, showing at what degree each proportion will freeze. When replenishing the cooling system use a mixture containing a slightly larger proportion of alcohol.

Table with columns: Denatured Alcohol (by volume), Water (by volume), Will begin to freeze at (by volume), and Time of freezing.

DO IT NOW

Buy the alcohol now and put it in the garage, ready, so it won't be forgotten. In cold weather, if the fan belt is loosened a little, it will slip and due to its inactivity will help to keep the motor running warmer.

WATER IN CRANK CASE

Watch for water in the crankcase in the winter. If left in the oil it will form a sludge and will freeze, thus cutting and stop circulation of oil. Drain off a cupful of oil every week while the engine is warm but after it has been allowed to stand idle for glycerine, ten minutes. Any water in the oil will be at the bottom and will thus be removed.

It will be found economical to have the service station re-charge your car a complete greasing with the approach of cold weather. It will be done completely on an oil rack and no important place will be overlooked.

As to the storage battery, remember that its efficiency is cut in half at a temperature of 10 degrees. Also the motor is harder for the battery to turn over because of the congealed oil inside.

Conserve battery energy by pushing down the clutch pedal in starting; this frees the engine from turning the transmission gears in the congealed oil.

TIPS ABOUT BATTERY

Two important things to remember about the battery in winter: First, see that all electrical connections are tight and free from corrosion. Second, test the battery with the hydrometer every two weeks. If in two consecutive tests the specific gravity is under 1.200, remove the battery for recharging and inspect the generator to see that it is functioning properly.

A battery not charged will freeze. At 1,150 the battery is discharged and it will freeze at 5 above zero. At 1,215 it is half discharged and will freeze at 25 below zero. It is fully charged at 1,290 and could not possibly freeze—unless Saint John should have a drop in temperature of about 90 below zero.

Transmission cases should be drained and washed with kerosene, then filled with a mixture of 75 per cent. light transmission grease or very heavy transmission oil and 25 per cent. heavy motor oil. On a four-wheel brake car, never use transmission grease or heavy oil, summer or winter. The medium motor oil which was used in warm weather should be drained out.

Had 43 Boils And Carbuncles At One Time

Mr. Claid Melanson, Castleford, Ont., writes: "In regard to your remedies I have to say that B.B.B. was the only medicine I could get to relieve me of my boils and carbuncles. I had forty-three at one time, and my doctor told me to take

Burdock BLOOD BITTERS

The first bottle I took gave me such great results that I took three more, and after I had used them I was completely relieved of my boils and carbuncles."

Something Must Be Done and Done Right Now—Quick. Hollows in Cheeks and Neck Growing Deeper Every Week.

Tens of thousands of thin, run-down men—yes, and women, too—are getting discouraged—are giving up all hope of ever being able to take on flesh and look healthy and strong.

All such people can stop worrying and start to smile and enjoy life right now, for McCoy's Cod Liver Extract Tablets, which any druggist will tell you all about, are putting flesh on the bones of skinny folks every day.

One woman, tired, weak and discouraged, gained 15 pounds in five weeks and now feels fine.

We all know that the livers of Cod Fish are full of vitalizing fiber and aiding vitamins, and these same vitamins of the highest class are found in McCoy's Cod Liver Extract Tablets—sugar coated and as easy to take as candy.

And this shows what faith the makers have in McCoy's, for they say: if any thin person don't gain at least five pounds in 60 days your druggist is authorized to give you your money back—and only 60 cents for 60 tablets. Ask Watson's two stores, Ross Drug Co., W. Hawker & Son, or any druggist anywhere in North or South America. But be sure to get McCoy's, the original and genuine.

MRS. B. H. HART SICK FOR YEARS

Wants Women to Know How She Was Made Well by Lydia E. Pinkham's Vegetable Compound

Cornwall, Ont.—"I am now giving your medicine a fair trial and surely it is doing me good and I am going to keep on taking it. I used to feel so tired in the morning that I didn't get up, but that feeling is leaving me now. I also sleep better and feel more like working. For seven or eight years I have had headaches, tired feelings, pains in my back and across my body. I read letters in the newspapers saying what good Lydia E. Pinkham's Vegetable Compound had done others. My husband says I quit too soon, but I am not going to stop taking the Vegetable Compound and Lydia E. Pinkham's Blood Medicine until I am better and haven't an ache or a pain. I'm that the right way! I have great faith in your medicines. They must be good when those who take them speak so highly of them. I am recommending them to my friends and I will gladly answer letters from women asking about them."

Mrs. B. H. Hart, Box 1081, Cornwall, Ont. Mrs. Hart is willing to answer letters from sick women asking about the Vegetable Compound.

The Nation's Laxative

Glorious, Glowing Health can be yours!

WHAT would we not all give for a body free from the hundred and one ills brought about by modern living? Nervousness, sleeplessness, loss of vitality, sluggishness, anaemia, are all taking their toll in tens of thousands of homes today, yet there would be less sickness if people realized that the body must have help in repairing the wear and tear of the organs and nervous system.

Medical research has definitely proved that one of the causes of a run down condition of the body is a shortage of certain mineral elements, including iron, potassium, calcium, sodium and phosphorus, and until a sufficient supply of these minerals is restored to the body, good health is impossible.

Wincarnis contains every one of these elements in addition to other health giving ingredients, and in a form in which they are most rapidly absorbed into the blood and carried to every part of the body to be converted into vital force.

Wincarnis has been recommended by over ten thousand physicians in cases of nervousness, anaemia, sleeplessness, and the general debility that accompanies a run down body. For fifty years this strength giving and nerve restorative has brought new life and happiness to weakened men and women.

Buy a bottle of Wincarnis today from your druggist. Try it and see the difference just a few days will bring.

MIXED TREND IN MONTREAL MARKET TODAY

Smelters, on decline, and Twin City, Firmer, Are Features

PRICES IN WALL ST. ARE REACTIONARY

Fear of Increase in Boston Federal Reserve Bank Rate Has Effect

Canadian Press. MONTREAL, Nov. 10.—There was a mixed trend among leaders at the opening of today's stock market, with Consolidated Smelters the most active issue, declining a point to 160, and Twin City, second in activity, advancing 2 1/2 to 71 1/2. Brazilian was down 1/2 at 102 1/2.

77 1/2, and Dominion Glass 1 1/2 at 102 1/2. Winnipeg Ralls and National Breweries, on the other hand, were stronger, the former being up 1/2 to 45 1/2 and the latter 1/2 to 82 1/2. Canadian Industrial Alcohol, Abitibi and Canada Steamships preferred sold unchanged at 16 1/2, 68 1/2 and 68 respectively. The only other change was in Asbestos preferred, which was off 1/4 at 114 1/2. The balance of the list was neglected.

IN WALL STREET

NEW YORK, Nov. 10.—Reactionary tendencies became more pronounced at the opening of the stock market today, reflecting fears that an increase in the Boston Federal Reserve bank rate to four per cent. foreshadowed a similar rise here. Initial losses of 1 to 3 1/2 points were registered by General Motors, Chrysler, Studebaker, General Electric and U. S. Rubber. Strong buying support was maintained, however, for Pacific Oil and American Sugar.

MISS BAIRD NAMED FOR MANITOBA POST

Appointed Chief Secretary in Y. W. C. A. Work in Large Centre

Miss Pauline Baird, of this city, arrived home today after a five months sojourn in Montreal, where she was engaged in Y. W. C. A. secretarial work. Before leaving for home Miss Baird was offered the chief secretary's position in this important metropolitan branch of the "Y," which she says she was highly pleased to accept. After a fortnight's visit with her sister, Mrs. Frank B. Ellis, Queen Square, Miss Baird will return to Montreal and assume her new duties. She is already quite familiar with the work there through her summer-time activities. The position tendered to Miss Baird was regarded as the most important in Y. W. C. A. work in Canada, and entails considerable responsibility and initiative. In this city for nearly three years before going to Montreal, Y. W. C. A. supporters say she was an executive of much merit and eminently fitted for the work. In social circles Miss Baird has been popular and particularly in the local entertainment field her theatrical talents gained for her sincere appreciation.

Leaves Church Dinner to Hold Up Mail Truck

CHICO, Cal., Nov. 10.—At 9 o'clock at night Fred C. Crummette, aged 55, a rancher and a member of the Methodist Church Board here, was dining at the church directors' banquet at the side of District Attorney W. E. Rotha. At 11 p. m. Rolly T. Webb, post office guard, disarmed a whiskered figure who sought to hold up the mail truck carrying a payroll consigned to the match company plant here. At 11:30 p. m. at the police station the false whiskers and mustache was torn from the robber's face and the District Attorney faced his church colleague, Crummette. "Please shoot me, boys," Crummette begged the officers. "This cannot become known."

PETTINGILL WORK IS WELL ADVANCED

Berth Available by End of This Month—Dredge to be Put to Work

Good progress was being made with the removal of the rock in front of the Pettingill wharf, it was said this morning by Commissioner Bullock, and it is expected to have this berth available for shipping by the end of November. The dredge Leconfield has been secured from the Saint John Dry Dock and Shipbuilding Company, and is to commence work this week cleaning up the bottom. After the dredging, a diver will be sent down to examine the bottom and see that it is clear of jutting points that might endanger a vessel lying at the pier. The holes have been bored to within seven feet of the face of the wharf and to a depth of five feet of water at low tide.

many was enveloped by the brief attendance of Rudolph Valentino. Making a low bow, Valentino kissed the actress' hand.

Dressed in grey tweeds and reddish tan shoes, with grey suede top and wearing a gold "slave chain" on his right wrist, Valentino testified briefly. He said he had appeared in a picture version of "Blood and Sand," the play by Ibanes, which Mr. Rockwood charged inspired Roberts in writing "The Red Wig." Roberts declared that he had not read the Ibanes play before he wrote his own. Roberts charged that Mme Petrova purchased an option for one year, on his play, and then rejected it, before that time had expired.

MONTREALS OPEN TRAINING GRIND

MONTREAL, Nov. 10.—Making their debut with a professional hockey squad, Kitchen, Stewart and Seibert, worked out yesterday with the members of the Montreal Hockey Club, before a crowd of over three hundred fans at the Forum. The members of the team of last season, who were in uniform, were Dunc Munro, Reg. Noble, Punch Broadbent, Sammy Rothschild, Dutch Cain and Lowry. The club, in the opinion of many who witnessed the practice, will start the season with a much brighter outlook this winter than last, the first season in the National Hockey League. The team is better balanced, there being two men for almost every position, while the amateurs signed during the summer months are larger men and have had more experience than some of those signed last winter. PITTSBURGH, Pa., Nov. 10.—With the arrival of Odie Cleghorn, coach and manager, from Montreal today, members of the Pittsburgh professional hockey team of the National Hockey League will start active work in preparation for the season's opening at Boston, on Thanksgiving. As a majority of the team members have recently deserted the amateur ranks, they will first have to familiarize themselves with professional rules. Players who have reported are: Worters, Drury, Cotton, McCurry, Smith and Darragh. OTTAWA, Ont., Nov. 10.—T. P. Gorman, manager of the New York Hockey Club, and Joe Simpson, formerly of the Edmonton Eskimos, left last night the Niagara Falls, Ont., where the Ricks National Hockey League team will practice for three weeks. Coarse Grain Pool Scheme Abandoned

CALGARY, Nov. 9.—The Alberta wheat pool will not operate a pool for coarse grain this season. At a meeting of the board of directors of the wheat pool, held in Calgary, it was decided that the number of contracts received in response to the inquiry sent out by the board regarding the desire of Alberta farmers for a coarse grain pool was not sufficient to warrant the organization of such a pool for the present season at least.

MYSTERY SHROUDS ALGARSSON CASE

Crew Refuses to Disclose Why He Lost Command of Expedition. LONDON, Nov. 10.—Any attempt to discover the real truth about Algarsson's strange conduct during his recent expedition, when he was removed from command and control given to Commander Worsley, is made almost impossible by the loyalty of most of the crew who served under Algarsson. S. Mason, cinematographer, insists that the story made in his depositions is true but Worsley denies this saying the rest of the crew are willing to go to sea again with Algarsson. Capt. Dunc Taylor, first officer on board the ship and on the island, says that Mason's story is in all absolute rot but his parents he said "We superseded Algarsson as leader for acts which I would scarcely credit but which I must tell you in confidence" the letter has brought a new element of mystery to what happened on the island.

LANDIS FAVORS EARLIER CLOSING DATE FOR MAJOR LEAGUES

MATTER TO BE CONSIDERED BY OWNERS DEC. 10

Commissioner Wants to See Series Started Week Earlier

CHICAGO, Nov. 10—Earlier closing of the 1926 major league campaign will be urged by Commissioner Landis, who yesterday called a joint meeting of the major league in New York for December 10.

Commissioner Landis favors closing the season earlier than the present world series possibly a week sooner to avoid conflicting with the football season. The club owners, if they agree, may do so without cutting down their usual schedules of 154 games.

Apart from the fact that the big series collides with the opening football dates, the most important reason for changing the dates is the weather. Starting such an important series as late as October 7 means that there is bound to be trouble ahead from Messrs. Front and Flurry by which conditions are created that tend to make for anything but ideal weather for the great summer pastime. The series this year wound up in a mud-game between the Senators and Pirates with the Smoky City denizens having the better of the argument. Players wiped their bats with towels before they went to bat while Walter Johnson continually called for more saw-dust for the pitching mound which soon became a slough of despond.

Landis' action in favoring the early closing is bound to give the movement the right impetus. If the magnates can be shown that the weather reports will be about the same, there should be a considerable amount of unanimity on this subject when it comes before the annual session.

CHICAGO, Nov. 10—The Chicago Cubs will play their spring training camps on Catalina Island, February 11, with a squad of 85. Training will start February 15. En route home, exhibition games will be played at Kansas City.

CHICAGO, Nov. 10—First baseman Joe Hauser, of the box office, who was on the voluntary relief list because of an injury to his leg, has been reinstated by Commissioner Landis.

LOCALS PUT UP FIERCE BATTLE ON POOR FIELD

Dal. Wants a Return Game with U.N.B. at Halifax

TROJANS felt the claw of the Dalhousie Tiger straying far from home on the Allison grounds yesterday afternoon and to show his feline contempt for superstitions even though in the enemy's territory he gorged himself on a 13 to 0 victory over the locals.

The Dal management has challenged U. N. B. to a return game at Halifax. The first score. The Trojans were given a free kick for interference and Dalhousie had one little later for an offside play on a scrimmage.

Webster kicked the ball into touch within the Trojan five-yard line and following the throw-in, the ball was dribbled almost to the line where it was picked up by D. Smith and carried over about one foot from touch.

Following the kick-off the game was in Dalhousie's territory for a few minutes but good kicking carried it back and Cox went over for the second try. Although the kick had to be made near the touchline Harrington placed the ball fairly between the posts for the extra two points.

HOLIDAY CROWDS SEE COMEDY-DRAMA

"The Easy Mark" Played For Final Week by Carroll Players

"The Easy Mark," a comedy drama in three acts, the vehicle chosen by the F. James Carroll Players for their farewell week of the present season, was presented to two fairly good-sized audiences in the Opera House yesterday, there being a special Thanksgiving Day matinee. The play depicts the vicissitudes which befall a dreamer who has \$50,000 to invest and who is the prey for all sorts of promoters who happen along. His visions run into the millions, but his realizations approach close to the zero mark until, even in his gullibility he is trapped into the acquisition of a fortune of \$100,000. Edward Cullen, as Sam Crane, the dreamer of big dreams, presented a role in which only hard and consistent work made it what it was. He was ably assisted by Helen Louise Lewis, as his sweetheart, Mary Jordan, who gave a fine interpretation of a sympathetic role. Emma DeWear, always at home in a character part, was excellent as Mrs. Crane, mother of Sam, and also of Hattie Crane, presented in a efesious manner by Allyn Dwyer. One of the high lights of the piece was the work of William Townshend, in the character part of Amos, former veterinarian, but now, with the advent of the automobile, general all round opportunist. Owen Coll and Guy S. Hanson united forces as a pair of oily swindlers and each gave a realistic performance. The work of Gordon Anderson, as Joey Paige, shy but ambitious suitor of Hattie, called for considerable approving applause. J. Russell Webster and Irene Hubbard had minor characters.

For a comedy drama, the show lacks originality and pep, but under the circumstances, the players gave a very creditable performance. It was announced that on Saturday evening, as has been the custom at the closing night of the engagement, it was decided to take the "lid off." Mr. Cullen, who made the announcement, said that although Mr. Carroll was closing for the present, he might return with a company later in the season.

HAVOC FILM HIT AT QUEEN SQ. THEATRE

Gripping Story of War and a Selfish Woman Told on Screen

There are two kinds of havoc in the William Fox production by that name which opened at the Queen Square yesterday. There is the havoc caused by war and the havoc caused by a woman. It is a fine, big picture, excellent in its conception, and well carried out by a well chosen cast. The play was a success in New York, London and Paris. The story is of two men whose lifelong friendship is ruined by their love for one selfish woman. Circumstances made one of them a captain and the other a lieutenant in the same company. In a fit of mad jealousy, this captain sent his friend into the most exposed position on the line. Many lives were lost needlessly, including that of the captain himself, who committed suicide. But the woman went on serenely and "did not understand." She couldn't. The captain is played, in a master-

Harold Lloyd In Screaming Comedy Throgs Imperial

It has become such a habit for Harold Lloyd to make comedies of a high grade of excellence that it seems commonplace and savoring of repetition to say that "The Freshman," which had its initial showing here yesterday at the Imperial Theatre before more than 6,000 people between 10 a. m. and closing time, is another link in his unbroken chain of hits. In fact in many better entertainments than any of these, for it combines the best laugh-getting points of them all. In type it more nearly resembles "Girl Shy," for the laughs have been in line on a farce comedy framework in which there is just enough story to carry them, strong human interest and a plentiful sprinkling of pathos. As soon as the characters and the atmosphere are well planted, the laughs start in—at first gently, and then working up with increased volume and variety, until the laughs have become one prolonged roar. One sees Harold in his home, just prior to leaving for college, planning his campaign to be the most popular boy on the campus. Then come enough scenes on the train to introduce him to the heroine, Jobyna Hallow. His arrival and welcome exceed his fondest dreams, for he doesn't realize, in his simplicity, that he's been recognized as a dub and is being kidded to a fare-you-well. There is excellent humor and human interest in the scene where he makes a speech to the students while he has a litten fidgeting under his sweater. The laughs become more robust and the action more strenuous when Harold substitutes for a dummy in tackle practice with the football squad. In this sequence a tear or two is mixed for an extra measure of emotional reaction. This sequence is followed by the Fall Frolic, of which Harold is host and which he is forced to attend in a basted tuxedo that causes a solid quarter of an hour of hilarity. The great climax comes in the football game, into which Harold, only a lowly water boy, is thrown. In as do so if it could, for it is far too much fun to see it. It makes one want to stand up and cheer for good old Tate and that lucky boob, Harold Lamb. And when "The End" flashes on the screen the marvel is that eyes are a little moist. It's a great picture of laughs and thrills and tears, extremely well constructed, smoothly directed, and perfectly acted by a cast that couldn't have been more wisely selected. Besides the Harold Lloyd feature the Imperial introduced a good novelty in the way of prolonging the college story by having a young collegian, Bob McCharles, sing popular numbers accompanied by ukulele and Hawaiian guitar played by himself. This gave the big feature a splendid set-off. The Pathe Championship baseball series and there were excellent scenic and industrial pictures.

DIX IRON WORKED IN "SHOCK PUNCH"

Popular Star in Stirring Story on Screen at Palace Theatre

"The Shock Punch"—and it's not a story of prize fighting—opened at the Palace Theatre yesterday. It's a Paramount picture, starring Richard Dix, a screen version of a John Galsworthy story. Frances Howard is featured opposite the star. In "The Shock Punch," Dix is a young society fellow, who would rather trade punches with a real "pug" any day than wrestle with a tea cup. During a course of training, he develops a devastating "shock punch," which lands on the point of the chin with lightning force. Now Dorothy Clark (Miss Howard), Dix's fiancée, takes to fighting about as much as she would to hoop skirts, so young Savage has to promise to behave. She tells him that she won't be able to see him for some time, because she is going to help her father, a building contractor, finish a job within schedule time. The whole family fortune is wrapped up in the project. To be near Dorothy, Dix gets a job with a rivet gang on the new building and learns that the foreman and engineer on the job are playing crooked in manner, by Walter McGrath, and his young rival by George O'Brien. Margaret Livingston has the vampire role, and Madge Bellamy appears as an appealing Red Cross nurse. This picture will continue today and tomorrow.

HOXIE IN WESTERN ROLE THAT APPEALS

Sign of The Cactus Starring at Gaiety Theatre Has Good Cast

Jack Hoxie commits good outlawry in "The Sign of the Cactus," Blue Streak Western, in which he is starred and which opened yesterday in the Gaiety Theatre. But it is that manner of outlawry which gains the commendation of the spectator, for Jack Hoxie, the character he personates, is a sort of knight errant, preying on the power that oppresses the poor to the effect that the poor may be benefited. Hoxie does some fine acting, and is surrounded by a supporting cast of excellence. Helen Holmes, well remembered as a daring serial star, is featured as a girl who has not lost that daring. Others in the cast are Francis Ford, Josef Swickard, J. Gordon Russell, Muriel Frances Dana, Jack Pratt, Frank Newberg and Bobby Gordon. Also there are very capable cowboys. The story is that of a long-enduring dispute between ranchers and a big irrigation company that is accused of having conspired to ruin the ranchers so the company can obtain their holdings. A prodigal shows Hayes as a lady, meeting the little daughter of the head of the irrigation company. her revenge, worked out with a woman's cunning, makes the picture one of the most tremendous dramas ever, of the screen. The ending is pleasing and satisfying as well the picture an unusual one that seemed to highly please the Unique patrons. Mae Busch and Irene Rich have leading parts. Another short feature was Alberta Vaughn in the "Pacemakers" which furnishes plenty of humor for the bill.

and doing everything they can to hold up construction. There's a real smash climax when Dix rides up 25 staired stairs and comes to a show-down with the plotters, putting over the "shock punch" to good effect. In the supporting cast are "Gunboat" Smith, Walter Long and Paul Panzer.
