CRUISER ABOUKIR TO CANADA To Be Transferred Next Spring Is Statement in British Commons

SOME NAVY MATTERS Winston Churchill Replies to Questions About Effect of Dropping Canadian Navy by Borden Government—Sir Henry Pellatt Honorary A.D.C. to Duke

(Canadian Press) London, Nov. 29.—The cruiser Aboukir is being paid off, and will be thoroughly overhauled before being transferred to Canada next spring. In the House of Commons, answering Mr. Craig, who asked what effect the dropping of the Canadian navy by the present ministry would have on the status and career of those officers sent to Canada, and whether such service would prejudice their positions and chances of promotion, Winston Churchill, first lord of the admiralty, said that in the contingency referred to, officers on the active list who had been sent to Canada would return, their service in the Canadian navy counting as though it had been performed in the imperial navy.

(Canadian Press) London, Nov. 29.—Princess Patricia of Connaught will sail for Canada on December 1 on board the steamship Empress of Ireland. The court circular announces the appointment of Sir Henry Pellatt, an honorary A. D. C., to the Duke of Connaught.

RED BIRETTA PLACED ON HEADS OF CARDINALS Ceremony at the Vatican Today—Public Investiture Tomorrow

Rome, Nov. 29.—This afternoon all the new cardinals went to the Vatican, formed into procession and, preceded and accompanied by the Swiss and Noble Guards and personages of the Papal Court, passed through the magnificent halls to the state apartment. The way was lined with guests, who had come to pay them homage. The newly created cardinals were then introduced into the presence of the Pope. Pius X. permitted each to kiss his hand and his feet, afterwards imposing upon each the red biretta as a first tangible proof of their supreme dignity. The ceremony of today will be followed on Thursday by the great public consistory during which the red hat will be conferred upon them.

ATTACKED BY BANDITS Saigon, French Indo, Nov. 29.—Native reports say that Doctor Legendre and Lieutenant Desrier were wounded during a recent attack by bandits upon the French scientific mission under the leadership of Doctor Legendre in the Lolo country in the north of Yunnan. Capt. Nisard, the other white member of the mission, was unhurt.

MR. RUSSELL LOSES JUDGMENT AGAINST HIM TODAY IN MONTREAL IN SUITS FOR \$252,000

Judge Archer Gives Decision in Interesting Cases—Mr. Russell Makes Observations to Counsel as Court Proceeds—He Will Appeal

(Canadian Press) Montreal, Nov. 29.—David Russell, millionaire stock broker and financier, loses his case against the Pinkerton Detective Agency and J. W. McNamara, their Montreal agent, for \$252,000 damages, which he claimed, alleging conspiracy to lure and have him detained in a lunatic asylum. Judge Archer delivered his decision in the case this morning before a crowded court room. The plaintiff took the decision without apparent agitation, merely leaning over occasionally to make a suggestion to his counsel, who was busy taking notes. There were two actions, one for \$250,000, which the plaintiff had paid to the Pinkertons for the work they did and \$50,000 damages for breach of contract, contending that he suffered this amount of damages by what he contended were false and misleading reports on the case which he had placed in their hands. The second action, for \$200,000, was for libel and conspiracy to have him declared insane. In his evidence, Mr. Russell declared that the Pinkertons, Chief Carpenter of the Montreal detective force, his own personal friends and his employees were in a conspiracy of which he said J. N. Green, a Montreal lawyer, was the instigator, and that he had been removed to an asylum. Mr. Russell alleged that a man named Patterson, a steel manufacturer from Pittsburgh, and a woman named Allen, from New York, had tried to bribe a "buddy name" on him at the Windsor Hotel to ruin his reputation. Judge Archer finds that there is no evidence whatever to this effect. "If Russell, the plaintiff's enemies, had wanted to ruin him, they would hardly have chosen a man of Mr. Patterson's social position to carry out the scheme," said the judge. He also declares that the reports of the Pinkertons in the case were not false, and misleading, but were correct up to the point to which their investigations had proceeded, with the exception that they declared Patterson to be president of a company worth \$7,000,000, which it was later discovered was not correct. The judge says, however, that this was not a material point, and that two days later Russell was given information which enabled him to find out all the true facts regarding Patterson, which he says concerned the Pinkertons' report in regard to the charge that there was a conspiracy to have him declared insane. The judge spoke of the strange actions of the plaintiff, and his peculiar suspicion of Mr. Green, and concluded that his friends were justified in being anxious as to his mental condition. Mr. Russell said today that both cases would be appealed at once, that he would carry them to the Privy Council if necessary, and was entirely confident of winning in the end.

GOVERNMENT TO RESIGN P. E. Island Executive at Meeting Today Decided on This Course—Clean up Department Matters First

(Special to Times) Charlottetown, P. E. I., Nov. 29.—At a meeting of the executive of the Palmer government today it was decided to resign as soon as departmental matters were put to rest. The course is taken in view of the fact that the government is not popular and the government is putting the Liberals in the minority. Mr. Matheson, Conservative, will therefore be called upon to form a new administration.

HOOSIER POET MAY NEVER WRITE AGAIN James Whitcomb Riley's Paralysis Extends to Hand

Indianapolis, Nov. 29.—James Whitcomb Riley has written his last line. The paralytic stroke which has crept down his arm has at last reached his right hand and made it impossible for him to use a pen. He was asked to write a Christmas poem this week, but declined.

WATER BOARD WILL HAVE SOME PROPERTY MATTERS TO CONSIDER

Real estate operations will occupy the attention of the Water and Sewerage Board at the monthly meeting in City Hall this evening at eight o'clock. Allen Bastin offers for sale about thirty five acres of a property, including Bastin's Lake, at \$1,000. The engineer recommends that the offer be accepted. He also recommends that the city accept the offer of W. B. Wallace to sell some land at Spruce Lake for \$1,200. W. G. Abel has refused the city's offer of \$500 for his property near the eastern end of Spruce Lake and asks \$800 for it. He also offers to the city the Byrnes property having a frontage of about one and a half miles on Leisgate Lake and containing about 600 acres. He asks \$5,000 for the property. The engineer reports that the fisheries inspector has complained of the fishway at Robertson's Lake. He has promised that when the fish ladder is replaced in the spring it will be arranged to his satisfaction. The enclosing of a water course in Brooks ward has been completed at a cost of \$700. The estimate was \$600 and the engineer recommends that a further vote of \$100 be given.

ANOTHER VIEW OF THAT SCOW MATTER

Some further information has been received relative to the excursion of that city scow to Belleisle. It was stated that the fee was to be \$10 a day. The scow carried four men, one getting \$20, one \$2, and two \$1.20 each. This makes up \$7.50, and leaves only \$2.50 a day for the scow. The outfit was away three days, and it cost \$83.00 to repair the scow after her experience. As she did not accomplish that whereunto she was sent, no charge at all was made for her, or for the men, or for the bill of costs, all of which the city paid. Some of the aldermen think \$2.50 a day too little to ask for the use of this scow, even if the amount is not collected.

ANOTHER CAPE BRETON MURDER Colored Man is Shot Down by Negro in Disturbance at Sydney

Sydney, N. S., Nov. 29.—(Canadian Press)—Another shooting occurred here last night at the coke works district during a disturbance among colored residents. A colored man named Johnston was shot and killed by another negro whose name is not known to the police. The shooting occurred near a shack inhabited by the colored employes at the steel plant.

POVERTY LOW AND FRANCHISE MATTER AFFECTING MONTREAL RELIGIOUS COMMUNITY IS TAKEN UNDER ADVISEMENT BY JUDGE

Montreal, Que., Nov. 29.—Does a person who enters a religious community and takes a vow of poverty, by that very fact lose his individuality in a political sense to such an extent that he must be denied the right to vote. This is the question involved in a case taken on appeal by Mr. Justice Charbonneau yesterday. Incidentally the judge declared his opinion that it was to the interest of necessaries themselves and religion in general, for parish priests and members of religious orders to refrain from participating in politics. Emmanuel Boitard, had petitioned against the municipal council of the town of Rigaud, seeking to have the names of some sixteen people in the Catholic college of that place struck from the electoral rolls on the grounds that they were not qualified by reason of income to exercise the franchise. Thirteen of these have taken the vows of the clerics of St. Victor, while three are in teaching in the lower classes of the college course. So important does Justice Charbonneau believe the issue to be, that he took the case under advisement.

WATER OFF AT NOON TOMORROW

The city's supply of water from Loch Lomond will be shut off at noon Thursday and will not be turned on again until Friday morning. In the meantime the city is supplied from the Little River reservoir, but as this does not give sufficient pressure to reach the higher levels, it will be necessary for many householders to lay in a supply of water. It has been found necessary to cut off the water to make repairs to the concrete conduit. The break, which is a large one, was found yesterday on the McConnell farm, about eight miles from the city. The opening is in the bottom of the pipe and the repairs will be somewhat difficult. It is expected that the work will be completed tomorrow afternoon, and that the concrete will be hard enough by the morning to permit of turning on the water again.

CHARTER ABOUT READY

The sub-committee which has been busy for the last six months preparing the new city charter, has nearly completed its labors. The members have agreed on practically all the points which have been at issue and which are thought to be satisfactory. The report will be submitted to the council on Thursday night for their final revision before being submitted to the citizen's committee.

CHURCHILL EXPLAINS BREWERS ARE FACING A NEW SITUATION Resignation of Sea Lords Declared No Reflection Upon Them

Two Would End Terms Early Next Year, He Says, and Circumstances Made it Advisable To Reconstitute Board Now Instead of Waiting

(Canadian Press) London, Nov. 29.—Through Reuters Agency—Before the House of Commons, Conservative member for Bath, asked as to whether the three sea lords had resigned or whether there was a change contemplated in the history of the empire. Right Honorable Winston Churchill, secretary of the navy, replied that two of the sea lords were to retire next year. He said: "I was thus confronted with the resignation of half the board, including the most important members, at a period when the commons was discussing the estimates and when much of the most important work was in full transaction. At the present time the issues are open, and decisions will have to be taken during the admiralty policy and finance during the next two years, and it would be a complete waste of the commons to discuss the great changes necessary at the beginning of the year, I decided, after careful consideration and discussion, that Premier Asquith and my colleagues, that it was better in the interests of the public service and of the navy that the changes should occur now, and give the new men a free hand to decide on issues which otherwise would have been decided by the commons. When he apprised the sea lords that His Majesty had assented to the changes, they naturally accepted these changes in the true spirit of the navy service, which was not to put personal considerations over the interests of the regular and normal working of events. I imply no slur or reproach upon any member of the outgoing board. Lord Thynne said that Mr. Churchill had not dealt with the reason for Admiral Egerton's resignation, and asked whether the three sea lords had resigned of their own initiative, or whether they were removed, also whether there was any precedent for trying to synchronize the appointments of three sea lords. Mr. Churchill replied that he had to consider the resignation of the board as a whole, in the interest of the formation of the board as a whole. He informed the commons that Admiral Egerton was to be appointed chief commander at an important home port upon the first vacancy. No reproach or slur rested upon his public or professional reputation. The change was necessary in order to produce a board which should be a complete unit, and which, as a whole, would be the most effective working means in the interests of general administrative efficiency, that was the sole reason for Admiral Egerton's resignation. Regarding the question whether the sea lords had resigned or were removed, he thought the procedure followed was perfectly correct. When he apprised the sea lords that His Majesty had assented to the changes, they naturally accepted these changes in the true spirit of the navy service, which was not to put personal considerations over the interests of the regular and normal working of events."

FRAUD IS ALLEGED AGAINST EMPLOYE OF TORONTO HOUSE Said to Have Worked Mail Order Department for About \$200 a Month

Toronto, Nov. 29.—An ingenious fraud is alleged against Allan Arbuthnot, employed in the mail order department of the Robert Simpson Co., Ltd. The accused is said to have been going to the cashier with a note of goods said to have been returned and getting the money for his own use. Afterwards it was discovered that these entries were fictitious, no such goods having been sent by customers. Arbuthnot is said to have been receiving about \$200 a month by such means.

PAPER MILLS RUSHED Large Amount of News Print For the Christmas Advertising

Ottawa, Ont., Nov. 29.—So strong has the demand for news print paper become that, on account of being booked to capacity, the paper mills of the province and of the country are finding it difficult to cope with the situation. In fact, now that the Yule Tide season is at hand, with its extra advertising necessitating extra news print paper, some of the largest dealers in Canada have been obliged to purchase American paper to supply their American contracts.

NOTED CIRCUS MAN IS MURDERED BY EMPLOYEE

London, Nov. 29.—"Lord," Geo. Sanger, a famous circus showman, was murdered by an employe on his farm at Finchley, London, last night. The murderer escaped. His motive in killing his employe is not known. Sanger sold his show to P. T. Barnum in 1874.

MONSIEUR MAN SAID HE WOULD END HIS LIFE

It appears that on Monday Mrs. Leaman told her husband she was going out to Cherrifield, to which her husband strongly objected, telling her that there had been enough trouble, and he was getting tired of it all. She went, however, but returned soon afterwards to find that her husband had left home leaving word, it is said, that they would never see him again. Frank Curran, who was seriously ill in Vancouver recently, arrived in Moncton last evening accompanied by his son, H. B. Curran. He has completely recovered. He left this morning for his home in Reston.

BREWERS ARE FACING A NEW SITUATION Beer is Going up in Price as a Consequence EFFECT WORLD-WIDE

(Canadian Press) New York, Nov. 29.—A condition without precedent in the trade now confronts the brewers of the world. The production of barley and hops has been yearly decreasing, so that under normal crop conditions the world's supply would amount to little more than the actual requirements. The unprecedented drought in England, and Northern Europe last summer, however, had a disastrous effect upon all farm produce, and was particularly severe with respect to barley and hops. The average price of barley malt has ruled during last year at about seventy cents a bushel, whereas today it is quoted at \$1.40 with an upward tendency. Hops have averaged fifteen to twenty cents a pound during other years, and are selling today at fifty cents. Brewers affirm that it costs a dollar a barrel more to make beer than in previous years. In many centres brewers have already advanced their beer fifty cents a barrel.

REPORTED INTERVIEW WITH PRESIDENT TAFT

Paris Paper Quotes Him on Turco-Italian War and Chinese Situation

Paris, Nov. 29.—The Matin publishes today what purports to be an interview with President Taft written by Francois De Tessan. The writer quotes him on such questions as intervention in the Turco-Italian war, the United States attitude in regard to China on the situation in Mexico and on the general subject of arbitration. When asked about the possibility of mediation in the Turco-Italian war, the writer says that Mr. Taft declared that the United States was certainly disposed in favor of the re-establishment of peace. Nevertheless, he felt that it would be unwise to depart from the path of wisdom. "Our relations with the two belligerents are equally friendly. We do not wish to offend the national dignity of either. Moreover, the Turco-Italian war concerns primarily the European concert. There is, therefore, the question of tact for the United States not to put herself forward to bring an end to a conflict which, however, from the bottom of her heart she desires to see ended. It is evident that if the European powers were in accord to ask for our mediation we should be happy to try in favor of peace. We have wished to avoid anything that might lead to a misinterpretation of our actions. That is the reason why up to now we have adopted an impartial and impassive attitude."

EXHIBITION SECRETARY WILL GO TO AMHERST

The Maritime Winter Fair under the auspices of the Maritime Stock and Bond Association will be opened in Amherst on Monday next, and will continue for four days. An attractive programme of addresses by the authorities of the maritime provinces and the west has been arranged. This gathering, which has become an annual institution, has been of much service in furthering the education of the people of these provinces along agricultural and stock lines, and always draws a representative attendance. On Monday night the M. S. B. Association will hold their annual dinner in the Winter Fair building. The St. John Exhibition Association has been invited to entertain twenty-eight days ago, for Washington representatives, and H. A. Porter, secretary of the association, will leave for Amherst on Monday morning.

STEAMER OVERDUE Fear For the Tullus, 26 Days Out From Rotterdam For Newfoundland

St. John's, Nfld., Nov. 29.—The Norwegian steamer Tullus, said to be the largest carrier in the world, which left Rotterdam twenty-eight days ago, for Newfoundland, has not yet been reported, and teams are left for her safety. She was in ballast to load bonanza.

ROBT. LEAMAN NOT SEEN SINCE MONDAY EVENING—WIFE RECENTLY WAS IN NEWSPAPER STORY—FRANK CURRAN BETTER

Moncton, N. B., Nov. 29.—(Special)—Robert Leaman left his home on Monday evening declaring his father says that he would commit suicide. Parties have looked for him in vain, and the police have been asked to cooperate in the search. Leaman, who he left home, is said to have had in his possession two razors and to have told his boarding mistress that he would do away with himself with them. His wife was formerly Miss Grace Laford, who was reported a few weeks ago to have attempted suicide by drowning in Hall's Creek after having written letters to a former lover telling of her intention to do away with herself.

POLICE COURT INQUIRY

Now that the report of the committee which investigated the civic department of public works has been presented there is a revival of interest in another investigation that was asked for by the common council. This is the inquiry into the affairs of the police court, which was decided advisable at a meeting of the council some time ago. The police officers are not under the control of the city, the common clerk was instructed to memorialize the provincial government, asking them to take the matter up. This was done and the communication acknowledged, but as far as is known no further steps have been taken by the government.

FORWARD NEW BRUNSWICK The provincial government has a rare chance to serve the interests of the people of New Brunswick. There never has been so good a chance, nor are we likely ever to see a better.

Consider for a moment what will be going on in this province next year. The St. John Valley Railway will be under construction, the finishing touches will be given to the Grand Trunk Pacific in this province, the Queens county coal fields will be opened up by the railway from Minio to Fredericton, there will be large expenditures for commercial development at St. John, Moncton will be reaping the benefit of cheap natural gas, the development of the Gloucester iron mines will be carried on more vigorously, and in various other directions there will be industrial progress of a varied and substantial character.

What would a western province do under such circumstances? It would tell the world about it, and carry on such a public campaign and such immigration work as would bring people and money from abroad to share in the opportunities and the great work of development.

Look at the Valley Railway. It will open up the greatest orchard lands of the province. It will stimulate the people to increase production, branch out into new lines of effort, develop water powers, start small industries, and change the face of nature all along the route. What an opportunity this affords for profitable advertising. Of course the federal government might fairly join in this case, since the line is to be operated as part of the government system. But the province has most to gain, and should take the lead.

Especially should the orchard lands be boomed. And this raises a question. How much definite information as to localities, and prices and opportunities has the agricultural department ready for use, in response to enquiries? In what position is it at this moment to tell a prospective settler what he wants to know?

Consider also the fact that the Grand Trunk Pacific traverses a large territory. What data is there available concerning the resources of that territory and the opportunities offered? Then there is the International Railway, in operation only a year, and traversing a rich region. What can be told about that region and its resources? These two railways and the Valley Railway give us a new territory for exploitation—what is being done to tell the world about it and to attract people and capital?

Then there are the coal fields. They will soon be connected with the Canadian Pacific as well as the Grand Trunk Pacific and Intercolonial. Are there not great opportunities for development? Is it not even possible to develop power at the mines and transmit it to Fredericton and St. John? There is an immense quantity of coal, easily mined. It must eventually be the foundation of an important industry and trade.

In Albert county, and perhaps also in Kings, the oil and natural gas deposits promise great things for the future. The natural gas has already been piped to Moncton. It is believed the oil shales can be profitably reduced, forming the basis of a great industry. The work of development is only in its infancy.

When we consider all these facts, and others of similar import which might be cited, such as the opportunities for establishing new industries, but especially those relating to agriculture, it is not clear that no province has more varied and valuable attractions to offer to the settler and investor?

Hence, we repeat that the provincial government has a great opportunity. It knows that some rural communities have lost population during the last ten years. The conditions have been clearly and convincingly set forth by Bishop Richardson and others. Set over on one side the facts as they are, and on the other the opportunities for re-making the whole province, and ask if there is any shadow of excuse for a continuance of present conditions. There can be but one answer. The year

WAS TROUBLED WITH Headache AND Constipation. After Suffering For Two Years Was Cured By BURDOCK BLOOD BITTERS.

Headache of whatever nature is nearly always symptomatic of other diseased conditions, rather than a disease itself, but in most cases it is due to indigestion, constipation, or bad circulation in the chief source of the difficulty. Burdock Blood Bitters removes the cause of the trouble through its cleansing, strengthening and tonic action on the stomach, liver, bowels and blood.

Redmond, Cardigan Bridge, P. E. I., writes: "I have been troubled with headache and constipation for about two years. After trying every doctor I knew, a friend advised me to try Burdock Blood Bitters. I found myself better, and after using three bottles I was completely cured. After then I was on a visit, and found my cousin very sick, and the doctor told her there was something wrong with her head. I told her to use Burdock Blood Bitters and she was cured in a short time. I can safely recommend it to all."

SECRET OF THE HILLS Keen is the air and calm; the black frost chills Earth to the bone, and winter twilight dies Slow in a west of moldering popantries, The heaven in tense, still expectation thrills, Also and silent brood the ancient hills, Their age-long taciturnity defies The fruitless questioning of curious eyes. But our unsted fast craving never stills.

Man's sense is clouded, vainly he aspires Their hidden secret to behold. Not till his eager spirit he can mold To their unquestioning stillness shall he feel Their brood tranquility his soul enfold, Their whisper soothes his restless heart's desires. —Pall Mall Gazette.

WATER POWERS OF CANADA

Conservation Commission Issues Report on Canada's Water-Power Resources - An Exhaustive Compendium of Useful Information

The first inventory ever taken of the water-powers of Canada has been completed by the Commission of Conservation and its results embodied in a large and precisely illustrated report just issued. The investigation made by the commission, which has extended over a period of two years, shows that there are 1,018,521 horse-power developed from waterpower in Canada. Every phase of the subject from the development of the waterpower in the various provinces, to the physical data regarding each individual water-power, including the amount of water available, the head, the flow, the season, etc., is treated in detail. The report is a very complete and up-to-date bibliography of 30 pages, and appendices, giving, among other things, the text of the laws concerning the water-powers and also of the treaty recently concluded with the United States regarding the establishment of an International Joint Commission. The volume opens with two chapters of an introductory nature that are concerned mainly with the general economic bearing of water-powers on national development. The relation of water to agriculture, mining, navigation, domestic supply and so forth, is dealt with, and the principles to be used in the interpretation of water-powers data are stated and discussed critically. The broad and optimistic statements very often made on the platform and in the press regarding our vast water-power resources are deprecated. To quote from the Report, "General statements implying that the aggregate amount of water-power must be great because the total water area, or watershed area, is so great, or because there are so many lakes and rivers, are generally to be considered of very little definite value. One of the chief dangers of such generalities is to create in the popular mind a feeling of unwarranted assurance that even though desirable water-rights are being granted by a government, there is no such left, that no apprehension may be entertained regarding the amount of power rights being parted with." A chapter is devoted to the water-powers of each province in which the general features of the province as regards water-power development are discussed and an outline given of the law whereby powers are granted or leased to private individuals or corporations. The larger developments are also described. The statistical data in tabular form includes the height of the fall, the horse-power that may be developed, the present development, and the main uses to which the power is applied such as lighting, pulp and paper-making, etc. Reference is also made to the possibility of increasing the amount of power developed by storage reservoirs and dams where such are feasible. The power situation in Ontario is treated

MARRIES INTO INTERESTING ESHER FAMILY

American Bride To Have a Rajah For Brother-in-Law

LONDON SOCIETY NEWS

Duchess of Marlborough's Work For Prisoners' Wives Meets With Approval and Her Sale of Work is a Great Success—Growing Number of Canadians

(Times Special Correspondence)

London, Nov. 18.—Folk in society were not particularly surprised to hear of the engagement of the Hon. Oliver Sylvia Belloh Brett, eldest son and heir of Viscount Esher, to Antonia Hecksher of New York. It has been an open secret for some time that "Silly" Brett, as he is called, was engaged to a pretty and rich American although her name was not generally known until the official notice in the newspapers appeared in the daily papers. Everybody knows and likes him, and the new American viscountess of the future will be gladly welcomed.

"Silly Brett"—which is a misnomer because his head is put on quite in the right way—is a rising and promising diplomatist, although he is barely thirty years old. He was private secretary to Lord Morley, the secretary of state for India, holds a similar position now with Lord Crewe at the India office, and has had a good deal of legislative experience. No doubt he inherited an aptitude for diplomacy from his mother who was a daughter of Mr. Van Weyden, the Belgian minister to the Court of St. James and a special favorite of Queen Victoria. One of the days he will be the third Viscount Esher and will inherit a jolly old world place called Orchard Lea, at Windfield, near the coast of Devonshire, which bears the historic name of The Roman Camp, Callander. The Eshers are by no means rich, but they hold their own, and whether Miss Hecksher be rich or poor she will step into an established position in society with a high reputation.

Oliver Brett's younger brother, as you know, is Zena Darnley, one of the most popular musical comedy actresses on the English stage, early in the year. The Hon. Sylvia Brett, the younger sister, married, about the same time, Charles Vyner Brooke, "Rajah of Sarawak,"—the elder son of the Rajah of Sarawak, and she will, in other days, reign as queen with her husband over a population of 200,000 souls and a country 40,000 square miles in extent in the island of Borneo.

Like a Romance

The story of how the Brooke became Rajah of Sarawak is more like a romance of the Middle Ages than a narrative of nineteenth century events. Many years ago a certain James Brooke, an English East India Company, having been wounded in a small war in Borneo, started on a cruise among the islands of the Indian archipelago and found himself in the thick of numerous fights between the islanders and pirates. He was a man of the possibilities of these rich and fertile islands, so he set sail for England, got together some capital and some desire of a ship and sailed east again. When he arrived a fierce insurrection was in full blast, and he was invited to lead the forces of the British crown. He was invited to lead the forces of the British crown. He was invited to lead the forces of the British crown.

Canadians Socially Prominent

Notable features of the "little society" this year are the large number of Canadian men and women who are becoming socially prominent in London, and the increasing number of popular Canadian hostesses whose invitations are eagerly accepted by members of the fashionable set.

ST. LOUIS MAY HAVE MODEL MATCH LAW

Fire Prevention Measure Before Assembly Declared to Satisfy All Interests

St. Louis promises to have the credit for enacting the first model match ordinance in the United States, says the Globe-Democrat. If the bill now pending in the municipal assembly passes, the "criminal" match will become something more than a fire-prevention slogan. It will, in fact, be other match manufacturers in the city, the bill making the sale or distribution of certain kinds of dangerous matches a misdemeanor, punishable by fine and imprisonment. As leading match manufacturers have withdrawn opposition to the ordinance, on condition that certain changes were made, the passage of the bill is unobstructed.

FRANK FREEZE GIVES MESSAGE OF CANADA COUNTRY OF PROGRESS

Kings County Man on Visit in Missoula—Is Guest of Honor at Dinner

(Missoula, Montana, Missoulian, Nov. 22.) Frank Freeze of Sussex, New Brunswick, who is making an extended visit with his brother, Dr. E. F. Freeze, and his sister, Mrs. Robert Pugsley, in this city, has an interesting store of experience to relate. He has been a member of the council in his home town and says it is his chosen home. Canada, he says, is not having the business depression that he finds in the United States and it is making marvelous progress along industrial and scientific lines.

ST. LOUIS MAY HAVE MODEL MATCH LAW

Fire Prevention Measure Before Assembly Declared to Satisfy All Interests

St. Louis promises to have the credit for enacting the first model match ordinance in the United States, says the Globe-Democrat. If the bill now pending in the municipal assembly passes, the "criminal" match will become something more than a fire-prevention slogan. It will, in fact, be other match manufacturers in the city, the bill making the sale or distribution of certain kinds of dangerous matches a misdemeanor, punishable by fine and imprisonment. As leading match manufacturers have withdrawn opposition to the ordinance, on condition that certain changes were made, the passage of the bill is unobstructed.

FRANK FREEZE GIVES MESSAGE OF CANADA COUNTRY OF PROGRESS

Kings County Man on Visit in Missoula—Is Guest of Honor at Dinner

(Missoula, Montana, Missoulian, Nov. 22.) Frank Freeze of Sussex, New Brunswick, who is making an extended visit with his brother, Dr. E. F. Freeze, and his sister, Mrs. Robert Pugsley, in this city, has an interesting store of experience to relate. He has been a member of the council in his home town and says it is his chosen home. Canada, he says, is not having the business depression that he finds in the United States and it is making marvelous progress along industrial and scientific lines.

Can You Guess This Man's Age?

Can you guess? There is not the least doubt but what baldness will add fully ten, fifteen or twenty years to the look of a man. This being so can you afford to neglect the covering of your hair? You would not think of going to work or to a party without washing your face, but how often have you given your hair a tonic or any special attention?

GASCARETS WORK WHILE YOU SLEEP

Salts, Calomel and Cathartic Pills Are Violent - They Act on Bowels as Pepper Acts in Nostri

Take a Cascaret tonight, and thoroughly cleanse your Liver, Stomach and Bowels, and you will surely feel great by morning. You men and women who have headache, coated tongue, can't sleep, are bilious, nervous and upset, bothered with a sick, laxative, disordered stomach, or have backache and feel all worn out.

KILLED TWO WITH AXE

Kenosha, Wis., Nov. 29.—Tortured by the mental picture of his deadless wife and a man whom he slew, Theodore March, 27 years old, a workman, has confessed the double crime to the police, who are closely pursuing him for fear of possible mob violence.

OUR PREMIUM PLAN

Is surprising many thrifty buyers. If a dealer announces a cash discount sale you take advantage of it? A premium is a discount in another form, but it figures out far more, we give you the premium at actual cost, but if you had to buy it at retail you would have to pay the retailer's profit on it. If you do not understand the plan come in and we will fully explain.

REPORT ON THE BOARD OF WORKS IS THRESHED OUT

Some Eliminated, Most of It Is Sent to Common Council

EXPLANATIONS OFFERED

Ald. McGoldrick, Smith and Engineer Murdoch are Heard at Board Meeting—A Question as to Supplies for Use of City

The report of the investigating committee of the board of works which has been awaited with great interest for several weeks was submitted to the board at its monthly meeting which was held in city hall last night. With the exception of two sections of the report and one of the recommendations, the report was adopted and will be presented to the common council on Monday.

When the report was taken up a motion was made to accept the report and refer it to the committee of the whole common council. This motion was not in order by the chairman and on a vote being taken the board divided equally and the chairman decided in favor of his own ruling. The report was taken up section by section.

Ald. McGoldrick presided and there were present Aldermen Potts, J. B. Jones, Smith, Elliott, Green, Kierstead, C. T. Jones, Codner, Wilson, McLeod, Elkin, Neully, the city engineer, common clerk, harbor master, harbor collector, superintendent of streets and the mayor. There was also a fair sized audience in the auditorium.

General Business The meeting was called to order at 8 o'clock and tenders for supplies were opened and submitted as follows: C. H. Peters Sons—Bran, \$29.50; hay, \$19.00; best white oats, \$2.34; straw, \$1.50; W. A. Quinton—Oats, 55 cents; straw, \$1.50; bran, \$2.00; loose hay, \$13.29; pressed hay, \$12.50; Wm. Donovan—Loose hay, \$13.

Ald. C. T. Jones drew attention to the fact that the tenders called for No. 1 grade oats, and asked what guarantee they had that they received the quality of oats they paid for. He produced a sample of No. 3 oats and said it was better than the samples submitted. He then produced a sample of oats which he said he secured at one of the fire stations, stating that it was very low grade. The latter statement was not disputed.

Ald. Jones remarked, "Somebody is doing the city." The chairman—"Is that anything new?" Ald. Jones continued that the same thing happened all the time. He had been told by some men that it was impossible to tender for city supplies. No matter how low they bid others were able to under bid them and they could only do so by substituting a lower grade of goods.

In reply to a question the engineer said that the veterinary surgeon was supposed to inspect the supplies and pass on them. Ald. Jones wanted to know who supplied the oats last year, and said his tender should be thrown out. Ald. J. B. Jones moved that the lowest tender be accepted.

Contracts Awarded. The contracts were awarded as follows: Oats and straw, C. H. Peters Sons; Bran, W. A. Quinton. Ald. C. T. Jones questioned the value of the hay supplied, saying that a better brand was substituted last year. The contract for loose hay was awarded to Wm. Donovan, and pressed hay to W. A. Quinton.

Report of Investigating Committee. At the request of Ald. McGoldrick, Ald. Hayes then took the chair. Ald. Kierstead, in presenting the report, outlined the steps which had led to the investigation. He regretted that the inquiry had not been under way for a longer period, but some of his witnesses had afterwards made remarks to the effect that they had not told the truth. He stated that the investigation with the matters under investigation.

He explained that some of the investigations were more drastic than they would have been if it had not been that threats had been made. It was impossible for them to yield or the report might have been different. The persons who are touched by the report and who made the threats are accountable. If the threats are put into effect those making them will get all they want of it.

been if it had not been that threats had been made. It was impossible for them to yield or the report might have been different. The persons who are touched by the report and who made the threats are accountable. If the threats are put into effect those making them will get all they want of it.

Ald. Kierstead then moved that the report be accepted and taken up section by section. Ald. Smith asked if all the members attended at the sessions and was informed that Ald. Hayes missed some and Ald. McLeod more.

The common clerk then read the first section, including the introduction and the charges that the engineer disregarded the rule against making purchases of more than \$50 worth of material without tender by ordering in several lots at the same time.

Ald. J. B. Jones, in explanation of the fact that he had not signed the report, said that while it expressed his views in general, he felt some of the statements were too extravagant. He objected to the phrase that the engineer was practically ruler of the city, as the board of works had power to remove him if they wish to do so.

Ald. Kierstead said he would stand by the wording and moved that the section be adopted. Ald. McGoldrick.

Ald. McGoldrick then spoke on the part of the section which referred to the sale of nearly \$400 worth of pig lead to the city in lots of less than \$50 on the same day. He said: "The way the report reads anyone would think I was a hoodler. If I was I would have had all the chance I wanted in the twenty-seven years I have been at the council. I have just as much right to sell to the city as anyone else as long as I do not charge more than anyone else. The comptroller says that I have always tried to do what is right by the city and the board of works. I don't know whether the sales were made on one day or more; the orders were filled as they were received. I have been here twenty-seven years and I don't believe I have sold \$1,000 worth of goods to the city in all that time. On this occasion I only made the sale after the comptroller had telephoned all over the city and could not get it elsewhere."

Ald. Christie asked when the by-law mentioned was passed. The information was not available. Ald. Christie denied that the engineer had disobeyed the order. The engineer at this point said that the committee had no right to go into that transaction as it related solely to the water and sewerage board.

The section was also carried without discussion. This referred to the statement that when the engineer is absent there is no one to take his place. Engineer Murdoch.

On motion the engineer was heard in explanation and he stated that each man had his own work to do and did not know whether the speaker was in the city or out of it. The only difference is that when he is at his desk he can keep in close touch with all the employes. Another person to hear reports would be like a fifth wheel to a coach.

Ald. J. B. Jones said that one of the reasons why he considered an investigation necessary was because the engineer had too much responsibility on his shoulders. The assistant.

Section three, stating that the assistant engineer was given no authority, was read. The engineer explained that he asked for an assistant solely to do surveying work and that was what the present assistant was hired for. The assistant had the same opportunity to become familiar with the work of the city that he himself had. A competent surveyor could easily earn more than the same salary in private work. He read the letter of instructions he had given the assistant, in accordance with order in council, defining his duties as surveying and drawing plans.

Ald. J. B. Jones suggested that the engineer's remarks regarding graduate engineers be stricken out. Ald. Elkin said that he knew the engineer was a man of too sound sense to entertain a contempt for graduate engineers. He moved in amendment that it be stricken out.

"Only a Joke." The engineer—"It was only a joke." Ald. Kierstead said that it was not given as a joke. The amendment was lost and the section carried.

Section four, dealing with the lack of surveys for field work and the assistant's evidence that surveys were made after work was completed, was read. The engineer—"This was the very work the assistant was employed to do. No special survey is needed to do a sidewalk."

Ald. Kierstead in moving the adoption of the section declared that the evidence had shown the need of surveys. The section carried.

The next section dealt with the fact that orders were given verbally instead of in writing. The engineer contended that written orders were not necessary for routine work. When anything out of the way arose he gave written orders. The section carried.

Section referred to the fact that the plans in the engineer's office had no protection from fire. The engineer in moving its adoption said he did not blame the engineer. The engineer explained that under an order in council the plans were removed from a much earlier building, the water and sewerage building, to the city hall. He had felt very uneasy about this matter.

PORTLAND CEMENT

Article No. 3

TWO YOUNG MEN had found the largest known deposits in the world of the two materials used in the manufacture of Portland Cement.

This age has been called the Era of Construction. The building that is now in progress the world around, almost defies imagining. It has been said, upon competent authority, that the construction and undertakings of the next twenty-five years will exceed all the building upon the face of the earth today. In this great movement of construction the cry has gone forth for a building material that would be both permanent and fireproof.

And the answer to this world-wide demand has been Concrete and Reinforced Concrete Construction. Concrete is crushed rock, sand and Portland Cement mixed in about the proportions of 5, 3 and 1; and the basis of it is Portland Cement.

Portland Cement was first discovered in 1825 by an English bricklayer named Joseph Aspdin, who gave it that name because of its fancied resemblance to the famous building stone of Portland in Dorsetshire.

The carbonate of lime for the manufacture of Portland Cement is derived from marl, chalk, or lime rock, and the silicium and aluminum from clay, shale, or slate.

The discovery of Portland Cement has revolutionized building. Used in the beginning only for hydraulic construction, Portland Cement and its ultimate product, Concrete, are used for every purpose for which brick, iron or stone have ever been used, and for many purposes for which these materials are impossible. And besides its ordinary uses, Portland Cement has made possible great engineering undertakings which hitherto were not even dreamed of, such as gigantic subways, vast irrigation projects, and finally the greatest engineering undertaking of all time, the Panama Canal, which will consume 5,000,000 barrels of Portland Cement.

The growth of the cement industry has no parallel in the industrial history of the world. Beginning with a total production in America of 29,000 barrels, in the ten years from 1870 to 1879, the growth of this remarkable industry has been as follows:

Table with 3 columns: Year, Barrels, and Value. 1870-1879: 29,000 barrels, \$1,000,000. 1880: 42,000 barrels, \$1,500,000. 1885: 150,000 barrels, \$5,246,812 barrels. 1890: 335,000 barrels, \$11,740,000 barrels.

And there has been a cement famine since the day of its discovery. THE DISCOVERY. The deposits which the founders of the Edmonton Portland Cement Company discovered, are a vast deposit of marl, and a great bed of fine blue clay located on the main lines of both the Grand Trunk Pacific and the Canadian Northern railroads, 135 miles west of the city of Edmonton and at the geographic center of Western Canada.

As soon as the extent and value of these deposits were determined the Edmonton Portland Cement Company was organized, and arrangements were made with R. D. Hanson and T. J. Klossowski, who are cement plant constructors of international reputation, for the construction of the plant. These gentlemen have within the past twenty years, built seventeen of the most successful cement plants in Canada and the United States, including the famous International Plant at Harbin.

After careful examination of the materials, coal supply and all other conditions affecting the manufacture of cement on this property, Messrs. Hanson and Klossowski determined the cost of Portland Cement at this plant at 78 cents per barrel as follows:

Table with 2 columns: Item and Cost. Coal at \$2.50 per ton, 120 lbs. per barrel: \$1.16. Fuel for drying clay: .01. Power at 3-4c. per h.p. hour: .01. Labor, 120 men, \$3.75 per day: .31. Gypsum: .01. Office and sales, \$60 per day: .01. Insurance and taxes: .02. Small supplies and repairs: .02. Depreciation not included in above: .03. Total: 78 cents.

THE MARKET. About 400,000 barrels of Portland Cement were consumed in the year 1910 in what is known as the Edmonton District, that is, the District of Alberta, the city of Edmonton and extending west to Prince Rupert and north to the Peace River District. Two railroad trunk lines, the Grand Trunk Pacific and the Canadian Northern Railway have opened up a vast domain nearly three times as large as the German Empire. This country is being rapidly occupied and towns and cities are springing up all along the lines of these two railroads, and undoubtedly

STRONG ARGUMENT IN FAVOR OF THE PRISON FARM WORK

County Secretary Kelley Gets Valuable Information—System Pays Financially as Well as in Physical and Moral Results. J. King Kelley, county secretary, has received from Hon. Charles J. Doherty, minister of justice, some very interesting information furnished by the Dominion Penitentiary inspectors on work connected with prison farms. In view of the agitation at present being made in this province for the establishment of a prison farm, the information will prove most interesting. It shows that prison farms in Canada have been not only self-supporting but, in almost all cases, have yielded great profits. In addition they are of tremendous physical and moral benefit to the prisoners. The information is as follows:

Girl Cured of Disfiguring Pimples

By Cuticura Ointment. Broke Out on Face when Twelve or Thirteen. Were Most Embarrassing. Had Tried Everything.

"A Nova Scotia girl, Miss Mabel Morrah, of Dover West, writes: 'When I was about twelve or thirteen years of age, my face broke out with pimples, and I tried everything to get rid of them, but failed. The pimples were on my forehead and chin. They came out in great numbers and caused great distress, and were most embarrassing. After trying so many remedies without success, I saw the Cuticura Ointment advertised, and I sent for a box. When applied to the pimples, and in a week I saw a great change in my face. I kept using it, and in a few months it rendered a complete cure. Now you cannot tell I ever had pimples, thanks to the Cuticura Ointment.' (Signed) Miss Mabel Morrah, Mar. 31, 1911."

Baby's Face Like Raw Beef

"My baby boy had a large pimple come on his forehead. It burst and spread all over his face which soon looked like a piece of raw beef, all swollen with pimples. It was awful to look at. The poor little thing used to scratch it and cry terribly. I took him to a doctor but he only gave me more medicine. I was quite frightened that he would always be disfigured. Then I saw the Cuticura Soap, and in two months had quite cured him. Now of course I use Cuticura Soap for all my children. (Signed) Mrs. Perry, 99, Westmore Rd., Alderston, England, May 21, 1910."

Cuticura Soap and Ointment are sold throughout the world, but to those who have suffered much, loss and are without faith in any treatment, a liberal sample of each with a 22-p. booklet on the skin and scalp will be mailed free, on application. A WEAK, ACHING BACK CAUSED HER MUCH MISERY

Could Not Work and Had No Ambition Anything. Those who have never been troubled with kidney trouble do not know the suffering and misery which those afflicted undergo.

Weak, lame or aching back comes from the kidneys, and when the kidneys are out of order the whole system becomes deranged.

Doan's Backache Kidney Pills are a specific for all kidney troubles. Mrs. R. R. Hooper, Reading, Pa., writes: "I have been troubled very much with aching back, and a weak, lame or aching back caused me much misery for I could not work and had no ambition for anything."

LOCAL NEWS

VANBUSKIRK CASE. W. G. VanBuskirk, charged with obtaining money under false pretences, is still in jail. He has been before the court three times now, and will very likely be brought in again tomorrow afternoon.

SALACIA ON SATURDAY. The Donaldson Line Salacia is expected to arrive in port on Saturday morning. She is bringing out a large general cargo, and it is expected that she will have on board a quantity of Scotch coal.

QUEEN MOTHER'S BIRTHDAY. A royal salute in honor of the birthday of the Queen Mother Alexandra will be fired at noon on Friday, Dec. 1, from Dover Battery by No. 3 battery. Gun detachments will parade at the main drill hall, Barrack Square at eleven o'clock a. m.; dress, drill order.

THE SEWER. The workmen engaged in repairing the break in the sewer at the C. P. R. property in Mill street are meeting with encouragement in their labors and up to noon this morning their efforts to remove several large timbers from the place had been successful, although it is a tedious occupation. The water is now flowing freely, and it is expected that before another day or two final repairs will have been completed.

EVERY DAY CLUB. The Every Day Club hall will be open from two till five o'clock tomorrow and Friday and Saturday afternoons to receive contributions of friends of the club for its rummage sale next Tuesday. On telephoning 1272 or 1281-11 goods will be sent for.

There will be a debate on the subject, Is War Ever Justifiable, at the Every Day Club this evening. All men will be welcome.

THE HIGH TEA. Well up to 600 people, notwithstanding the disagreeable weather, attended the high tea last evening in the Keith assembly suite. Those in charge at the upper tables were Messrs. Colahan, Walsh and in all it was a very successful evening. Tonight the Y. M. S. of St. Joseph orchestra will play.

EMPRESS OF BRITAIN CONCERT. The concert given by the S. S. Empress of Britain Band in the Seaman's Institute last night was a decided success. The bright, catchy songs and witty dialogue were greatly enjoyed by a large audience. Messrs. Terry, J. Walker and W. Loftus created great merriment with their funny sayings. L. Johnston made an excellent interlude and sang very acceptably. Messrs. Prince, Reffern, Brooks, Stapleton, Heath and J. Decker were all excellent in their particular business. H. Goodwin was the accompanist and contributed a grand and beautiful solo. The lighting of the stage was very effective and was arranged by Mr. Cunningham, electrician of the Empress of Britain. The entertainment will be repeated tonight at a reduced rate of admission. A large audience is expected.

KING GEORGE QUINTETTE WON THIS MORNING

Chatham Bowlers Beaten in Tournament on Black's Alley

In the Brunswick-Balke Collender bowling tournament on Black's Alley this morning the King George alley team won from the Chatham quintette 1315 to 1177. The winners had things much their own way throughout the match, and put up a good score. The following are the scores: King George. Smith . . . 87 86 92 265 88 1-3. Phinney . . . 85 79 85 249. At half-past one o'clock the Fredrickton team and the Victorias started their match. At three thirty the King George's will play the Victorias, and at six thirty Black's team will play the Chatham boys. The last game of the day will be played at nine thirty, when Fredrickton and Victorias will meet. The tourney will end tomorrow.

COLLAR BONE BROKEN IN FALL OUT OF BED

A distressing accident happened yesterday morning at the home of Fredland Devereux in Barker street, when his little daughter, Marion, aged four years, fell out of the bed in which she and her little sister had been sleeping and striking the floor on her shoulder, had her collar-bone broken. The light in the room had gone out overnight, and she was not aware when she arose to leave the bed that her sister was still sleeping, so that she tumbled over her and received a painful fall. Those outside heard her crying and were told by her that she had fallen and hurt her shoulder. Dr. Broderick was called in. The little one is resting more comfortably today.

TWO WEDDINGS IN THE CITY THIS MORNING

Interesting Ceremonies in Holy Trinity Church and the Cathedral Today

Two popular young people of Holy Trinity parish were united in marriage this morning at seven o'clock by Rev. J. J. Walsh, when he officiated at the wedding of P. Alphonsa Colahan, and Miss Genevieve A. Brown, daughter of Patrick Brown, of Paradise Row, who gave her in marriage. The ceremony was performed in Holy Trinity church, which was well filled with interested friends of the bride and groom, as well as those invited to the ceremony. Afterwards a tempting wedding breakfast was served at the home of the bride, and later Mr. and Mrs. Colahan left for a honeymoon trip to Boston and New York. On their return they will make their home at 92 Paradise row.

The bride was assisted by Miss Annie Martin, while John Colahan, brother of the groom, was best man. Miss Brown was attractively attired in a traveling suit of grey broadcloth with a hat of grey velvet to correspond, while the bridesmaid was prettily gowned in a suit of tan, with a black picture hat. Miss Brown has been a member of the church choir for some years because of this there was special music this morning. Mrs. A. McMullin, the organist, played Mendelssohn's wedding march.

Mr. and Mrs. Colahan have many friends in the city, and they received numerous wedding remembrances in silverware, cut-glass and furniture, besides several checks, one of which was from the bride's father. The members of the talking staff of A. Gilmour, King street, where the groom is employed, presented to him a valuable Mosaic chronicle of the city. The bride was a valuable pearl brooch, and to the groomsmen a beautiful gold watch.

FORGED CHECK IN A POLICE COURT CASE

Frank K. Britain, Youth of Twenty, Under Arrest—Remanded Until Tomorrow

Frank Kenneth Britain, a twenty-year-old youth arrested yesterday afternoon by Detective Killen on the charge of check forging, was brought before Magistrate Ritchie in the police court this morning and was remanded until tomorrow morning at ten o'clock. The charge against him is for obtaining a suit of clothes valued at \$25 from Israel Drapkin and issuing a forged check for the same. It is said that the check was for \$85 on the Royal Bank and the name of William Downie of the C. P. R. was used. The police say that Britain gave Drapkin the check for \$85 and received no change back saying that Drapkin could put the check through the bank and that he would get the change again. Britain was taken to Reid's this morning by Sergeant Caples and was photographed.

Angus Magee John Lane, James Atchison and Julius Evington were each fined \$8 or thirty days on jail on the charge of drunkenness, and John Wolfe, an Italian, was fined \$8 or two months in jail on the charge of being drunk. Magee had \$116.44 in his possession when arrested.

PRESENTATION. About thirty friends of Mrs. H. Adams tendered her a surprise party at her home, 225 Haymarket square last night. During the evening Roy Ingraham, on behalf of those present presented to her a pair of handsome vases. Mrs. Adams responded briefly. The evening was enjoyed in games and amusements and refreshments were served.

You Never Paid a Dollar Too Much For Anything At This Store, Nor Will You Ever Be Asked To Do So! To charge too much for a suit, coat or other wearables, would make to increase this store's profits—but to nullify a lot of this store's advertising, and help to destroy its prestige as a price-maker in its lines. An unfair price, like murder "will out," and a store that pretends charging "all the people will pay" is earning its inevitable fate—failure! A few of the prices that make our business: MEN'S SUITS, \$4.98 to \$18.48. MEN'S OVERCOATS, 6.48 to 18.48. BOYS' SUITS, 2.38 to 6.48. BOYS' OVERCOATS, 2.98 to 5.88. MEN'S RUBBERS, 75c. WOMEN'S, 48c. and 58c. GIRLS', 48c. BOYS' 55c. and 65c. CHILD'S, 38c. It will pay you to come out of your way a bit to take advantage of our prices. C. B. PIDGEON Corner Main and Bridge Streets.
