Thanksgiving!

When your mind is running over the increasing blessings do you ever consider how much advertising has done for you? You are better housed, better clothed, better fed, your children are better educated—and you are better in purse through advertising.

Advertising has driven out—or is driving out—the fakes and frauds. It is turning on the light in dark places.

It is standardizing products and establishing their true worth. It is opening new world markets. But better than all, through live daily newspapers like The Telegram and Times, it is bringing the world to your very doorstep.

Advertising is an important factor in the world's work, that so intimately and so inevitably affects your prosperity, your health, and your life. Its vital and widespread beneficence is a cause, indeed, for Thanksgiving.

AN ANCIENT FIRE FIGHTER

The oldest fire engine in Great Britain—and still in use in Rothbury, Cumberland. It was presented to the town in 1788 by Sir George Paer. For many years it stood in the porch of the parish church. It is the "queen" in the town, and is capable of throwing a jet of water sixty feet, which is more than is required to top the highest houses in the town. The wooden wheels.

LEGAL EMIGRATION AGENTS HELP DOMINION

Who Have Made Success in the United States Preach Its Advantages To Us

(Times Special Correspondence)
London, Nov. 11.—There is confidence in the decision of the Canadian government to discontinue for this year the special fares for emigrants. The presence among the booking and intending emigrants, in the light of the statement issued by the government of the interior "has been a attractive feature in years past" coming year will witness the institution of new methods, or rather the complete reliance on those "unofficial" agents, the value of whose work has long been recognized. The place of the temporary government officials will be taken by the thousands of old country people who have prospered in Canada, and who, each year, come home to spend a few weeks or months in the recital of the details of their success in their native towns and villages. They will, it is expected, prove to be potent missionaries of emigration.

It is a fact which might be more frequently mentioned in these days when the charge is generally made that Canadians are over-enthusiastic, that the most unqualified praise of Canada is given, not by natives of the dominion, but by natives of Great Britain whose success in Canada has dictated their optimism. As J. Obed Smith, the assistant superintendent of emigration, who is now very busy refuting charges that Canada is a country to be avoided, pointed out more than 40,000 people went to the dominion this year on the advice of their relatives already there.

CHICAGO TO HAVE XMAS TREE FOR POOR CHILDREN

Chicago, Nov. 26.—Grant park is to be turned into a fairland Christmas eve for the children of the poor. They are to have a mammoth Christmas tree, perhaps the largest ever used for the purpose.

The committee in charge of the arrangements announce that they will not be satisfied with a tree less than 75 feet high. It is to stand in the centre of the park upon a broad pedestal and illuminated by hundreds of electric lights.

Widely known artists and architects are collaborating on a decorative scheme. The festivity will begin at sundown with the ringing of chimes in the Art Institute. A great chorus will sing carols on the terrace of the institute. Then a rocket will signal the illumination of the tree.

DEFAMING CANADA

History Back of the Ridiculous Statements of a German Newspaper

(Times' Special Correspondence)
London, Nov. 11.—A Canadian who has just returned from Berlin informs me that a tremendous sensation is being caused throughout Germany by the publication of articles damaging to the reputation of Canada. These were commenced by the Lokal Anzeiger, and are being extensively copied and quoted all over the German Empire.

My informant says that Canadian residents in Berlin intend to take every measure possible to refute the offensive and grotesque statements made in these articles; further that there seems to be little doubt that the articles are a further instalment of the violent attack on Canada which commenced when the C. P. obtained a concession from the Austrian government to run steamships from Trieste.

Inadequacy of statement and a light disregard of well-known facts are common to both. For instance, the original charges that Canada was a land of "white slaves" are on a par with the uncomplimentary picture now being given of men and conditions in the dominion which has been transmitted to you by cable.

In Canada these statements would perhaps be considered sufficiently ridiculous to carry their own condemnation. At the same time it should be remembered that the Lokal Anzeiger is a semi-official organ carrying great weight in Germany and other countries on the continent, and particularly in Austria where the C. P. R. operates.

It is worthy of note that there has been a considerable increase in interest in Canada among German people this year. The Ghent Exhibition was a great eye-opener as to the opportunities of the dominion, and the number of German

A SPLENDID WORK

In 1909 there were 118 deaths from tuberculosis in the city of St. John. In 1912 there were 86, and thus far during the present year 79. The material reduction in the number of deaths is largely due to the vigorous work carried on by the St. John Association for the Prevention of Tuberculosis. The work of the dispensary and of the nurses has done much to direct public attention to the means of combating the disease, and to those preventive measures which ought to be taken in every community. The Association is still more upon the brighter prospects for the future. The greatest handicap has been the lack of a sanitarium for advanced cases. This, it is now confidently expected, will be provided during the next year, and with a proper system of segregation of advanced cases there would be of course very much less danger of infection. As the matter stands now, every home in which there is an advanced case of tuberculosis is a centre from which the disease may spread. The members of the Association have just closed a year of very active and faithful work, and it must be a source of very great satisfaction to them, and to all who have been interested in the gradual awakening of the city to a sense of its duty in regard to the white plague, to know that there is now in the province a splendid sanitarium for incipient cases, and there will soon be in this city an hospital for advanced cases. Looking back and remembering the apathy against which the late Dr. Bayard and his team struggled so earnestly with so little apparent result, the friends of the cause may well take courage, and feel not only that a very great deal has been accomplished but that the outlook grows steadily brighter as the years pass.

INDUSTRIAL PRISON FARMS

There is vigorous opposition on the part of the Prison Association to the plan of rebuilding blocks of cells at Sing Sing, and attempting to rehabilitate that institution, which the New York Evening Post describes as a disgraceful prison. It is contended by the Prison Association that in opposing reconstruction they are doing so on the ground of economy. The Evening Post goes further, however, and says: "But the state of New York is really too poor to tinker with a prison which has been condemned from every point of view, because that would be merely temporizing with and modifying the evil conditions, instead of abolishing them outright. Moreover, the whole theory of punishment upon which Sing Sing was based is antiquated and has been discarded. Every up-to-date state is looking to the establishment of prison industrial farms; New Jersey, Washington, and Ohio are three that are working in this direction. To urge that New York must continue to huddle its prisoners together in that contracted space in Sing Sing, or in the prison in the middle of Auburn, is false economy. For one thing it lays the entire stress on caging the prisoners and not upon treating them so that they will have at least a fair chance of re-entering society as reformed citizens. On the ground of the physical health of the prisoners alone, Sing Sing must go." From every quarter comes the plea for the substitution of the prison industrial farms for the jail. If the reform is coming but slowly, it is nevertheless coming, and some parts of Canada have been progressive enough to be in the forefront of the movement. The province of New Brunswick should not lose any more time, or, if the province will not act, then the municipality of the city and county of St. John should be permitted to take action on its own account to provide a municipal farm.

NAVIES AND TRIBUTE

An Australian writer, Mr. C. E. W. Bean, has written a book entitled "Flagships Three." It deals with the Australian navy. In 1908 Mr. Bean published a smaller book in which he insisted that Australia must share in the defence of the Empire, and that Australia must have a navy. Since 1908 much has happened, and now, telling of what Australia has done, he writes: "It has had built to its orders the battle-cruiser Australia, the light cruiser Melbourne and Sydney, the destroyers Parramatta and the Yarrs, and the submarines A. E. 1 and A. E. 2. It has put together in Australia the destroyer Warragoona, has received, as a loan from the admiralty, the cruiser Encounter, and, as a gift, the small cruiser Pioneer. It is building for itself in Sydney the light cruiser Brisbane; and it has projected a battleship, three destroyers and two submarines; all this besides the necessary supply and depot ships. It has established a solid Naval Reserve, at least as thoroughly trained as the Royal Naval Volunteers. It has organized its harbor and dockyard establishments." Mr. Bean also points out that "the Royal Australian navy will be administered and controlled by the government elected by the people of the Commonwealth." This statement is worthy of

HUDSON BAY

J. B. Tyrell Speaks of Possibilities of New Route for Summer Service
(Times Special Correspondence)
London, Nov. 11.—J. B. Tyrell, who recently arrived to join his wife in London, gives a most interesting account of the Patricia district which he explored last year at the request of the Ontario government. His views on the Hudson Bay route are opportune. He says that hitherto neither the Hudson Bay Straits nor the approaches to the harbor of Port Nelson have been supplied either with light-house buoys or Marconi stations, and he is confident that when these are installed there is no reason why ocean steamships should not arrive and leave the new Hudson Bay port with as much safety between July and November as they do via the Straits of Belle Isle. One of the great difficulties in approaching the harbor, he says, is that the entrance is through a narrow channel, though the actual mouth of the harbor is more than twelve miles wide, consequently, without lights and buoys it has always been very difficult for vessels drawing even a small depth of water to locate their positions as there is a strong tide and current.

BIRTHDAYS OF NOTABILITIES

WEDNESDAY, NOVEMBER 26

Major Edmund Wyle, Grier, a noted portrait painter, was born in Melbourne, Australia, fifty-one years ago. He has painted the portraits of many eminent Canadians and has had his work on exhibition in numerous galleries.
Hon. E. U. Lafontaine, puisne judge of the Supreme Court of Quebec, was born in St. Edouard, P. Q., on Nov. 26, 1857. He practised law for many years in Montreal and was professor of Roman law at Laval University. He became a judge in 1905.
W. A. Tremayne, Canada's most noted and successful dramatist, observes his forty-ninth birthday today. He was born in Portland, Maine, but was brought up and still resides in Montreal.

LIGHTER VEIN

An angry mother had her little son by the hand and held a menacing cane. "I'll teach you to tie a knot in the cat's tail!" said the mother.
"It wasn't our cat," said the boy.
"No, it wasn't, but it was our kettle," said the mother.

Petted Daughter—They asked me to play at Mrs. Highups' this evening and I did, but—
Fond Mother (proudly)—Were not they entranced?
Petted Daughter—Hum! When I played "A Life on the Ocean Wave" with variations half of them left the room.
Fond Mother (rejoicing)—That is wonderful! They must have felt seasick!

The little, mild, bald man had settled down in the train to read, and feeling drowsy after a trying day at business, fell asleep. On the hat rack above was a ferocious crab in a bucket, and reaching the edge of the rack it fell alight on the little man's shoulder and grabbing his ear to steady itself. All the passengers waited expectantly for developments, but all they heard was:
"I'll go, Sarah! I tell you I've been at the office all the evening!"

"Want time in vauville, eh? Are you a baseball player?"
"No."
"Shoot anybody?"
"Never."
"An actor, eh? Well, I don't know. Actors are usually in vauville, but the very novelty of the thing might make it a go."

"What is your boy Jack studying for?"
"Well," replied Farmer Comstock, "the boy is kind of held up as to his future. His mother wants him to be a minister. I was to be a lawyer. His rich uncle wants him to be a doctor, an' Josh is good naturedly hangin' around an' lettin' us fight it out ourselves."
"Hallo!" exclaimed a costermonger on meeting an acquaintance. "Wat damages did yer get for being in that motor-bus accident?"
"Eavy ones, my boy," was the reply, accompanied by a grin. "I got 250 for myself and 250 for the miteus."
"The miteus? Was she hurt, too?"
"Yes, in course! I 'ad the presence of mind to fetch her one over the 'ead' 'fore we was rescued!"

A man who kept a small shop was waiting on a single customer early one morning. His little boy and he were together at the time, and the shopkeeper was obliged to go upstairs for some change. Before doing so he whispered to the little chap to watch the customer and see that he didn't steal anything. Very soon the proprietor returned with the necessary change and the boy sang out: "He didn't steal anything, Pa. I watched him."

STRAY BULLET KILLS VERMONT FARMER

Farmer, After a Load of Wood, Shot Through the Brain

Battleboro, Vermont, Nov. 25.—A stray bullet from an unknown hunter's rifle probably killed John Wait, a farmer and lumberman, whose body was found yesterday in the woods in Peru. That was the conclusion to which State Attorney W. J. Meagher and Deputy Sheriff Godfrey came to day after an investigation.

Wait had gone to the woods after a load of lumber, and when his horses returned home without him, his father, Ira Wait, started a search and found him lying dead beside a wood pile on which he had been working. A bullet had pierced his brain.

Wait was forty years old and leaves a family.

Quebec, Nov. 25.—A total ordinary revenue of \$8,955,787.19; a total ordinary expenditure of \$7,210,169.99; a total extraordinary expenditure of \$841,828.28, and a surplus of \$843,811.14 of ordinary revenue over both ordinary and extraordinary expenditure, were the announcements with which the provincial treasurer, Hon. Mr. Meagher, opened his budget speech this afternoon, in which he summed up the results of the fiscal year ended on 30th June last.

NATHAN STRAUSS TO RETIRE

Will Devote Himself Entirely to His Humanitarian Work

New York, Nov. 25.—To devote himself entirely to humanitarian work, it is understood that Nathan Strauss, long a leading figure in the mercantile world, has retired from active business. Nathan Strauss Jr., said his father's enterprises in Palestine need more careful attention, and that he would shortly leave for the Holy Land accompanied by his son, to spend several months extending the work of the relief bureau and other charitable undertakings he has inaugurated there. His son said that a world-wide personal campaign to urge the universal adoption of pasteurization of all milk fed to infants is expected to form a part of his philanthropic activities in the comparatively near future.

WHAT WAS MISSED WHEN RECIPROcity WAS DEFEATED

Presque Isle, Maine, Nov. 25.—Aroostook readers will be interested in the statement of the prevailing prices of farm products in the town of Andover, N. B., just across the line from Fort Fairfield. Potatoes were at the present rate three are \$1.16 to \$1.20, as compared with \$1.40 to \$1.50 here; eggs, 80 to 85 cents; butter about the same, hay \$10 and \$11, oats 40 to 44 cents a bushel of 84 pounds.

Along the border numerous buyers from Maine are going into the Province of New Brunswick, and paying the farmers good prices for cattle, sheep, pigs, fowls, butter, eggs and other products of the farm. The farmers near the line on the New Brunswick side, are plowing up big tracts of land and buying large quantities of fertilizer, preparatory to putting in big crops of potatoes next season.

Young Woman Kidnapped

Miss Lois Piper, aged eighteen years, of Fairfield, Me., has returned home after an absence of several days during which time keen anxiety was caused by her parents and friends. She says that she paid a visit to a motion picture house in Waterville, Me., and while there made the acquaintance of a refined-looking, middle-aged woman, who during the evening treated her to some candy. She says there must have been a drug in the candy, and that after she had taken it, she became weak. She was then placed in an automobile with two men and taken to Boston, where she was kept in a house for about a week. Later she was released and sent to Portland. Miss Piper has been a school teacher at Fairfield. The federal authorities are being asked to investigate.

A near-sighted old lady at a dinner party one evening had for companion on the left a very bald-headed old gentleman. While talking to the gentleman at her right she dropped her napkin unconsciously. The bald-headed gentleman stooping to pick it up, touched her arm. The old lady turned around, shook her head and very politely said: "No melon, thank you."

GREAT PICTURE BALL FOR LONDON

Queen Promises Patronage for an Elaborate Christmas Carnival

London, Nov. 25.—Lady Muriel Paget, aided by G. Sherwood Foster, is arranging the first of the great semi-public balls which for some years have been such notable events.

Last winter it was "The Pantomime Ball," in which about twenty of the prettiest girls of society made up a procession of "dancing pinqueens." In June it was the summer ball and pageant, a spectacle of magnificence and beauty entitled "The Court of Versailles."

This winter's ball promises to be equally successful and even more interesting. It is to be known as "A Picture Ball and Christmas Carnival," and again the queen has promised her patronage. It will take place on December 8, in the Albert Hall, and the proceeds from the tickets of which the first thousand are to be sold at £1 each, are to be devoted to the funds of the Invalid Kitchen of London.

Generally speaking, costumes of speculators and dancers not in groups may represent any period from early Egyptian to Victorian. The various groupings of pictures will represent the schools of early Egypt, the Grecian, Byzantine, Spanish, Flemish, French, Dutch, eighteenth century English and pre-Raphaelite. The tableaux and living pictures will be the payment of the night, a change from the somewhat prolonged quadrilles and interminable processions of the pantomime and Versailles balls.

A worker in one of the rolling mills in Lewiston, Pa., heard clicking noises at the back of his head, which he believed to be in his ears and due to the noise in which he worked. He went to a doctor and took medicine, only to find that his back collar button had worked loose and produced the mysterious click.

Ants have been found in Dalmatia, which actually make bread by chewing seeds into pulp, forming it in loaves baking them in the sun and then storing them away for future use.

THOMPSON-PEER

A wedding of interest to many friends took place last evening at the home of Rev. Dr. J. A. Morison, pastor of Capleton Presbyterian church, when the bride, Miss Agnes, daughter of Mr. and Mrs. Richard Peer, the wedding was witnessed by only a few immediate relatives. The bride was attended by Miss Mildred Warnock, while Wm. Thompson, his brother, assisted the groom. Afterwards all drove to the home of the bride, 388 Duke street, West, where a dainty supper was served. Many pretty and useful remembrances were received in return for the gifts of the bride and groom, including a handsome dining room set from the groom's father, Spencer Thompson. At present Mr. and Mrs. Thompson will reside at 105 Queen street, West End. Both are very popular about the city and their many friends will wish them all possible happiness.

"The church militant, my son, means the church engaged in warfare." "And are the canons what it fights with, pa?"—Boston Transcript.

TORIES IN WARD MEETINGS HAD LIVELY TIMES

Lack of harmony was the distinguishing feature of many of the meetings which were held last evening for the election of district chairman, vice-chairman and secretaries of the Conservative Association. In more than half of the city wards there were bitterly fought contests, and as a result of the elections many of the supporters of the party left the halls in a most indignant frame of mind.

MORNING NEWS OVER THE WIRES

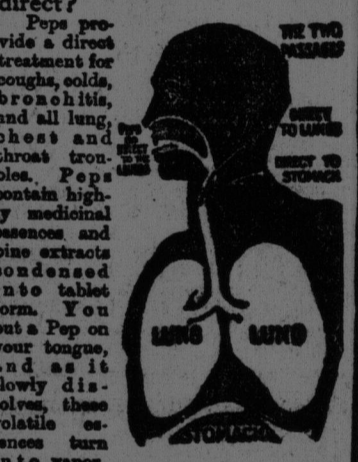

More than 8,000 persons assembled in Dublin, Ire., last night and organized a force of volunteers to oppose Sir Edward Carson and his followers, and to uphold the authority of the crown and government of Ireland. A special committee was yesterday appointed at Fredericton to take up the matter of an appeal for help to the extent of \$25,000 for a new laboratory for the U. N. B. The senate will ask contributions from old graduates and students. Oyster beds are being prepared at Straight Bay, Me., for planting 200 barrels of oyster seed from Richmond Bay. P. E. L. as an experiment. Capitalists mostly from Bangor are interested. Sir Frederick Williams Taylor, general manager of the Bank of Montreal, has been asked to be the guest of the Canada Club, London, on Dec. 8, prior to his departure for Canada. Fred Leane was sentenced to two years in Dorchester for the murder of a man in Dorchester. The grand jury found no bill against Warren Cowie and Joseph and James Collins, recently sent up, charged with attempt to wreck an I. C. R. train last month.

Beauty of the Skin. Cleanliness is the Essential—Cheap Soaps and Powders to be Avoided. Cheap, inferior soaps and pore-clogging powders are the greatest enemies to the health and beauty of the skin. Skin powders are in reality only white dirt. They absorb the perspiration and form a sort of paste, which seals up the pores and positively stops the natural eliminating action of the skin.

Dr. Chase's Ointment. The almost magical effect this ointment has in the cure of eczema, salt rheum, blackheads, pimples and all forms of itching skin eruptions is the wonder of all who use it. It acts as a food for the skin, and is consequently a beautifier of most remarkable effectiveness. Dr. Chase's Ointment cleans out the pores of the skin and increases the natural activity of the skin as an eliminating agent. If you would have a clear, healthy, beautiful skin, Dr. Chase's Ointment will help you to realize your wish as nothing else can. 60 cents a box, all dealers. Listen!

Have you heard about Peps? Peps is a new scientific preparation put up into tablet or pastille form, which provides an entirely new and effective treatment for coughs, colds and lung and throat troubles. There is no connection between the lungs and the stomach. Suppose something were wrong with your stomach—say indigestion, or ulceration—would you think of taking some medicine which went not to your stomach, but to your lungs? Certainly not! Why then, when your lungs and chest are affected, should you take any medicine—absolutely separate organ—with medicine? Is it not far better to treat the ailing organ directly?

Peps is a direct remedy for coughs, colds, bronchitis, and all lung and throat troubles. Peps contains highly medicinal essences and pure extracts of vegetable and mineral origin. Peps is a direct remedy for your lungs, and it is understood that it was these two votes which effected the change. The friends of Frank L. Potts received an unpleasant surprise when the returns in Duke's ward were made known, and it was found that their candidate had polled only twenty-three votes against eighty-six for C. M. Lingrey. Dufferin furnished the longest and most exciting contest. The meeting started with a fast fight between a couple of partisans, and others followed at intervals. There were more verbal encounters and wrangling and disputes delayed the proceedings all the way through. Philip Gramman acted as chairman, and in his efforts to see fair play had a large share of the fighting on his hands. George Maxwell, J. Herbert Crockett and Mr. McLellan were all nominated for the office of chairman, and each had vigorous supporters. After many trials and tribulations the balloting was completed and results were announced: Maxwell 52, Crockett 38, and McLellan 31. This was followed by a wild outburst of enthusiasm on the part of Maxwell's friends, but this was somewhat dampened by the announcement of the temporary chairman that, as the high man had not secured a majority of the votes cast, the low man would be dropped and another ballot taken to decide the issue between the two remaining in the field. There were many objections of the most vigorous nature, and E. J. Tipton took the platform to make a fervent appeal for fair play and insisted that the high man should be declared elected. Mr. Gramman insisted with equal vigor that he was running the meeting, and his decision finally prevailed. The second ballot was taken and resulted in the choice of Mr. Maxwell by a majority of three votes. The voters had another contest over the office of secretary which resulted in the triumph of William Demmings over Harry Selten. Lorne ward enjoyed a three-cornered fight for the main office between S. A. Payne, F. H. Elliott and H. C. Green, in which Mr. Payne won out. One of the surprises of the evening was supplied by Guy's ward where W. W. Donohue was elected chairman by a majority of forty over James E. Cowan. The complete results in the city and

WILL ASK ASSISTANCE OF THE SCHOOL BOARD

At a meeting of the Free Kindergarten Association held yesterday for the election of the executive for the coming year, throughout a storm a result of the previous evening's debate as to the best steps to be taken for having the kindergartens brought under the control of the public school board. It was decided that the executive committee should wait upon the board of school trustees on the earliest possible occasion to request the board to urge the government at Fredericton to have included in the programme of the provincial normal school. Comment was made on the fact that Nova Scotia is ahead of every other province in this respect, while instruction in kindergarten teaching is considered necessary in the normal schools throughout the United States and in England. Routine business was also transacted and the following officers were elected: Honorary president, Mrs. F. E. Holman; vice-presidents, Mrs. J. S. Flagg, Mrs. T. N. Vincent, Mrs. Manning Doherty and Mrs. Louis Green; recording secretary, Miss Mary Gunn; corresponding secretary, Mrs. Field; treasurer, Mrs. C. F. Woodhouse.

AMINOXYD DANDRUFF

M. Pasteur, the great French Physician of Paris, once said: "I believe we shall one day rid the world of all diseases caused by germs." Dandruff is caused by germs, a fact accepted by all physicians. Aminoxyd is the root of all hair evils. If it were not for the little destructive germs which cause a persistency worthy a better cause, there would be no baldness. Paris Sage will kill the dandruff germs and remove dandruff in two weeks or money back. It puts life and lustre into the hair and prevents it from turning gray. It is the hair dressing par excellence, and it keeps the hair from becoming thin and falling out. Comes in large 50 cent bottle at all drug stores and leading druggists and toilet goods counters everywhere. The Girl with the Auburn Hair is on every package. Made in Canada by The R. T. DR. MURRAY MACLAREN IS ELECTED PRESIDENT

At the annual meeting of the St. John Association for the Prevention of Tuberculosis yesterday afternoon Mrs. D. McLellan was in the chair and the following officers were elected for the ensuing year: President—Dr. Murray MacLaren; Vice-president—Mrs. D. McLellan; Second vice-president—J. A. Likely; Secretary—Mrs. Helen Helen Sidney Smith. Committees—Mrs. J. H. Frink, Robert Thompson, Mrs. Babby, Mrs. E. K. Smith, Mrs. Louis Green, Mrs. Simon Thompson, Mrs. Bayard, Mrs. Stralton, Mrs. Edward Heaney, Mrs. B. O'Brien, Mrs. D. Mullin, Rev. Father Duke, Rev. Dr. J. H. MacLean, Dr. M. Aveny, E. L. Rising, Dr. Emery, T. Kichman, A. M. Belding, Hon. H. A. McKeown, Dr. Stewart, J. J. Smith. Ex-officio members—Manning E. Doherty, chairman of the board of health; Dr. G. G. Melvin, medical officer of health. Medical staff—Dr. A. E. Logie, Dr. F. L. Kenney, Dr. C. M. Treat, Dr. T. H. Lunney, Dr. F. T. Dunlop, Dr. Margaret Parks. The course of the meeting Dr. MacLaren called attention to the decrease in the death rate in tuberculosis cases during the period that the association has been carrying on its work, remarking that, in his opinion, it will be still further reduced as a result of the efforts being made to stamp out the disease. The figures are: 1909, 118 cases; 1910, 107; 1911, 94; 1912, 81; 1913, 78.

Was Confined To His Bed For Four Months With Rheumatism.

Mr. W. H. Riley, Ruddell, Sask., writes: "It is with the greatest pleasure that I can recommend Doan's Kidney Pills to all suffering with rheumatism. I was so bad with this terrible disease, I was unable to get up from my bed for four months, and nothing seemed to relieve me until a friend recommended Doan's Pills. I had my doubts about trying anything suggested to me. After taking half a box I was able to get up, and after taking two boxes could get around quite well. After taking six boxes I was completely cured, and able to work for the first time in five months, and have not had a touch of rheumatism since. Anyone who saw me then would not know me now, as I am strong and active since taking your valuable medicine." Doan's Kidney Pills help the kidneys to flush out the acid and poisonous impurities which have collected, and thus clean out the kidneys, and dispel the rheumatism from the system. Doan's Kidney Pills are 50 cents per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Millburn Co., Limited, Toronto, Ont. If ordering direct specify "Doan's."

ALBERT JOHNSON DROWNED IN HARBOR FROM A DREDGE SCOW

Albert Johnson, of 280 Winlaw street, an employee of G. S. Mayow on dredge scow, was drowned about 7:30 last evening in the harbor just above where the old Beacon light was situated, after falling in the attempt to board the tug Alice R. from a scow. His body has not yet been recovered. When the accident occurred the crew of the dredge and scow had stopped working for the day. A motor boat which is used to take the dredges ashore, had drawn alongside. Most of the men had boarded the launch and they called to Johnson to follow, but the latter shouted that he was going with Captain Dunlop in the tug Alice R. He had crossed from the dredge to the scow, but was told that the tug had cast off. Captain Dunlop had gone to the wheelhouse, ignorant of Johnson's intentions. As the bow of the tug swung off, her stern swung toward the scow, and Johnson ran along to where the distance between the two vessels seemed least. He misjudged either his powers or the distance and fell in the water in his attempt to jump to the tug. The tide was ebbing fast. Those aboard the tug noticed the accident immediately and a line was thrown towards the man in distress, with cries of "Man overboard!" The rope did not reach him, but with little delay a boat was launched with Captain Tibbitt, from the dredge, F. Moore, E. W. Wynman and Fred Doucet to man her. Despite their efforts to reach Johnson, who was struggling for his life against the current and shouting in despair, the boat was thirty yards away when her rescue crew saw the last of the drowning man. Johnson was twenty-two years old and a native of Germany. He was a good workman and was well liked by his fellow workers. He boarded with Thos. Treacrin on the West side. This is the first fatal accident to one of Mr. Mayow's employees since he has been in the dredging business.

SCHENECTADY CONDITIONS COMPARED WITH ST. JOHN

Local Man Writes After Visit and Tells Labor Friends How He Found Things. Editor Times: Sir—Permit me to place before my labor friends how I found conditions in a New York city about the same size as St. John. The City of Schenectady, N. Y., is situated on the Mohawk River, and is very old, in historical facts covering the early settlement of the country, when the land was ruled by the fierce Mohawk Indians. Many of the old tablets would think Barnum's circus had struck town and was giving a free show. It is very clean and bright about the streets. Every street is of concrete and is flushed down at night. The men who do this work know how to do it. It is not a joke as in some cities I know of. The people are well dressed and look prosperous. I looked about for slums or poverty districts, but could not locate any. It looks to me as if the city has solved the housing problem in a more practical manner than most cities or perhaps they had more active men who were willing to risk their money in giving happiness to their fellow man, rather than free advice at Board of Trade meetings. Miles of streets lined with pretty cottages, well shaded by trees, the walks and streets all connected. The cottages must be placed back twelve feet from street line, with twelve feet space between them. They are mostly double cottages, with verandah front and back, with garden and grape vines, fruit trees, etc. for each tenant. The cottage may consist of parlor, dining room, kitchen, bath, three bedrooms and front porch. For this they pay about \$15.00 per month. No soft coal is allowed to be burned in these cottages, and they are always open for inspection by the owner. An undesirable tenant soon leaves. Very little smoke can be seen in this city. Laundry bills are cut in half, and wear and tear on clothing is brought to a minimum. As no soot falls about the place, less washing is needed. When we consider that the working class who occupy these cottages pay no taxes on income or personal property, it must be an incentive to rise above the slum district as the man has no fear of the tax collector levying tribute as they would in St. John, or on the Congo and River Nile, as are told these are the only

I'M NOT AFRAID OF ANY BILL OF FARE

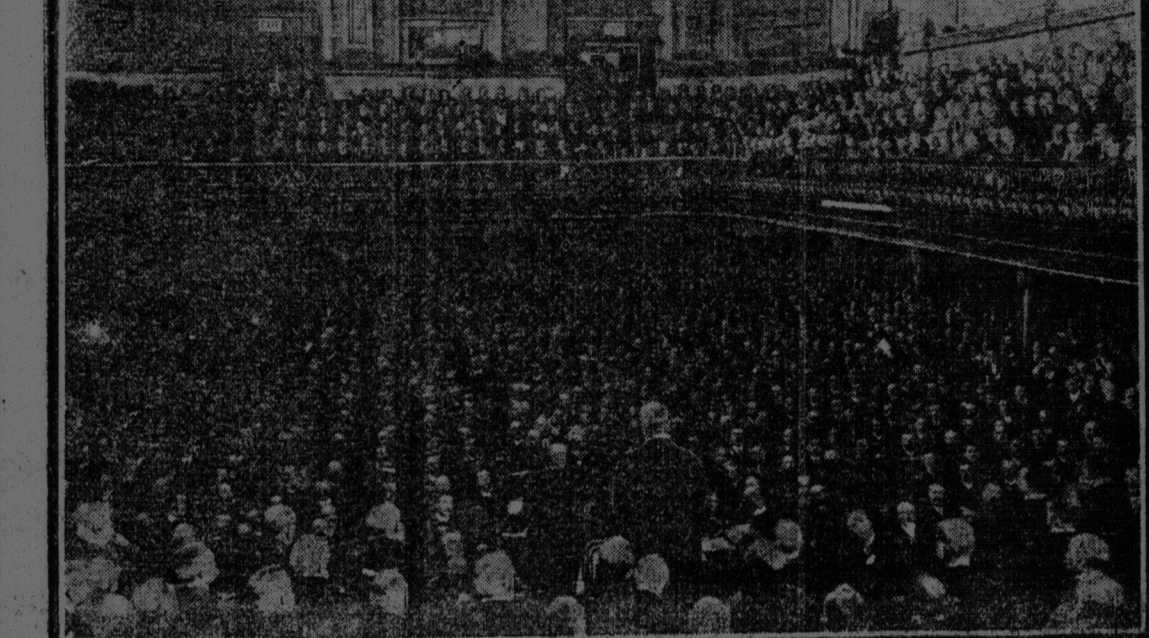

if You Use a Stuart's Dyspepsia Tablet After Each Meal You Can Eat What You Like

It does not make any difference what you eat if you will provide your system with the wherewithal to digest it. No bill of fare should appal or disgust a man who wants to eat. There is a simple, sure way and that is by carrying a Stuart's Dyspepsia Tablet in your pocket or purse to be eaten after each meal.

"I Love to Get My Hand on a Bill of Fare." This tablet will go into your stomach like food. It will mix with your digestive juices, strengthen them to their correct proportions. Then it will follow the food into the intestines where it will again aid in the work of digestion. Even though you eat too much at any meal a little tablet taken at the close of your dinner will cause that dinner to be thoroughly digested without harmful effects.

"Acute indigestion has no fears for the man who will occasionally use a Stuart's Dyspepsia Tablet. We are a nation of 'high livers.' We travel exceedingly fast in all we do and eating rich food at all hours has made indigestion and stomach trouble our national disease. A Stuart's Dyspepsia Tablet will make you free from this danger and the best of it all is that you may test yourself at any time and prove this statement true. Go to your druggist today and buy a box, price 50 cents.

MATTY'S BIG LEAGUE GOSSIP

BY CHRISTY MATHEWSON THE GIANTS' STAR PITCHER

There has been a lot of talk recently about "Connie" Mack—almost letting "Wally" Schang go to the Yankees in a trade last spring, and I mentioned it in one of my articles. But few persons know that Mack had another streak of luck in getting Shawkey, who, they tell me, looks like one of Mack's most promising pitching youngsters in spite of the fact that he did not get a chance in the last world's series. It was his work toward the end of the season, when Bender and Plank were weakening, that kept the Athletics in front.

"Jack" Dunn, the manager of the Baltimore club, advised "Johnny" Evers to buy Shawkey for the Cubs, and Evers sent a scout to look the youngster over. "He looks like a fair pitcher," reported back the scout, "but he's no Walter Johnson."

Evers did not think this recommendation sufficiently strong and passed up the youngster. He figured that "Connie" Mack owned part of the Baltimore club, and that, with the Athletics needing pitchers badly, Mack would have grabbed him if he was any good. Dunn got word to Evers again when the Cubs were in New York that Shawkey was a good man, but the Cubs' leader again turned him down. Then "Connie" Mack had to take the young pitcher to present him from going to the dirt, and, from all accounts, he got one of the best that has been turned up in years. This is what Mack luck. "Connie" himself, didn't think Schang was good.

In spite of the Cubs' great need of pitchers, they also passed up "Joe" Boehling, a left-hander, who was the sensation at Washington last year. Charles W. Murphy had a chance to get Boehling when he was pitching semi-professional ball in Richmond, but refused him. Murphy says everybody guesses wrong at least once. I don't believe Mr. Murphy will beat logic in this guessing stuff.

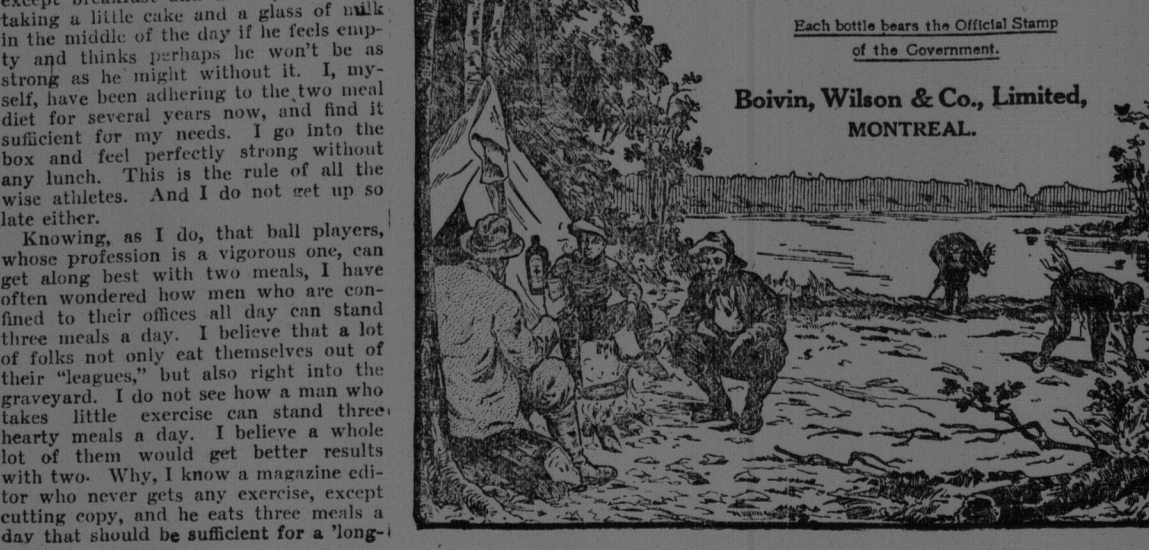

"Watch the older players and you won't see them eat so much," I warned him. "I didn't think that the big leagues were that stingy they cared how much a fellow ate," was his comeback. "I wasn't long before he got lonesome, and I shot him back to the bushes." "Now remember," I told him when I let him go, "that if you ever get another chance in fast company with me or anybody else, don't eat yourself out of the league like you have this time."

"And there are some older fellows, too, who haven't got any more sense than to stuff themselves when they get the chance," concluded Mack. "Two meals a day are enough for any man during the season."

It is true that many a ball player eats himself out of the league by taking advantage of the high standard of living that now prevails in the big leagues and making the most of it. The great boys are the ones who eat breakfast and then lunch. None of the great stars eats a glass of milk and some crackers, but nothing heavier. "My" Cobb is a great advocate of the two-meals-a-day scheme. He is a player of an exceedingly nervous temperament, and he plays the best ball when he gets up late. Cobb told me, when we were discussing training one day, "and eat a good breakfast. Then I don't take anything more until dinner when I have the heartiest meal of the day. When I first broke into the league, that old menu looked good to me, and I went after the three-day stuff, getting up early so it would fit in. I found myself going to the ball park sleepy and dead on my feet, so I cut it to two."

Walter Johnson never eats anything except breakfast and dinner, sometimes taking a little cake and a glass of milk during the middle of the day if he feels empty and thinks perhaps he won't be as strong as he might without it. I myself have been adhering to the two meal diet for several years now, and find it sufficient for my needs. I get into the box and feel perfectly strong without any lunch. This is the rule of all the wise athletes. And I do not set up so late either.

Knowing, as I do, that ball players, whose profession is a vigorous one, can get along best with two meals, I have often wondered how men who are shut out of their offices all day can stand three meals a day. I believe that a lot of folks not only eat themselves out of their "leagues," but also right into the graveyard. I do not see how a man who takes little exercise can stand three hearty meals a day. I believe a whole lot of them would get better results with two. Why, I know a masculine fellow who never gets any exercise, except cutting copy, and he eats three meals a day that should be sufficient for a "long-

CYCLOPEDIAS TO BE READY TOMORROW

The Telegraph and Times Will Try to Supply Every Reader Who Appeals For Great Bargain

The demand for Cyclopedias was so great last week that some of our readers were disappointed in not being able to get a set. The Telegraph and Times will endeavor to supply every one of their readers tomorrow and next day, when coupons may be presented as explained in the coupon printed on page 2 in today's paper.

More than two million dictionaries were distributed to readers of leading newspapers recently at 50 cents each, and this was considered the greatest bargain ever offered. Here is an even greater bargain.

The useful set of books offered this time is called Everybody's Cyclopaedia. It is complete in five beautiful volumes bound in English cloth. The regular selling price is \$12 per set, but tomorrow and the next day readers of The Telegraph and Times can have the complete set for \$1.98 and one coupon.

The price of the large cyclopaedia sets is usually so high, from \$60 to \$100, that they are invariably sold on the installment plan. The publishers of Everybody's Cyclopaedia took advantage of these facts and from a revision of all these various large cyclopedias they have compiled all that is good and necessary. The sets are too bulky to be sent by mail, but out-of-town readers can have them for \$1.98, the set to be sent by express, shipping charges to be paid by the reader.

Have your coupon ready tomorrow and present it early.

New York Aldermen Decide it Time to Go Slower After Fifteen Are Killed

New York, Nov. 25.—The board of aldermen adopted unanimously this afternoon a resolution making United States mail trucks amenable to local traffic regulations and speed ordinances.

During the current year, fifteen persons have been killed by mail trucks. Heretofore, mail trucks have been exempt from traffic regulations, so far as speed is concerned, having been classed with police patrol wagon and fire apparatus.

AVIATOR LOOPS THE LOOP TWICE IN 2,500 FEET DROP

San Diego, Cal., Nov. 25.—Lincoln Beachey, the aviator, looped the loop twice in the air above North Island today. The feat was accomplished apparently with ease.

Starting at a height of 2,500 feet Beachey dropped straight downward to the first loop and immediately turned over again into the second, landing afterwards. At no time, seemingly, was there any loss of control, nor did he experience any difficulty.

Immediately landing, Beachey said he would repeat the performance on Thursday. "I have succeeded at last," he said, "and now I know it can be done at any time when weather conditions are right."

BUSINESS ROADS FIRST

In the National game in Manchester, N. H., last week a resolution was presented by W. T. Cressy of Pennsylvania calling attention to the danger of the road movement being diverted toward the construction of scenic highways and boulevards for the benefits of tourists, rather than for business interests, and claiming that public roads needed most were those which put the farmer in touch with trading centres. The legislative committee of the senate was instructed to secure first, business roads which would serve the best interests of both producer and consumer.

PITTSBURG SHAKEN BY GAS EXPLOSION

Score Injured, But None Fatally—Great Damage to Property

Pittsburg, Pa., Nov. 25.—A score of persons were injured, many windows were broken and a number of buildings shaken by an explosion of gas in a nine-foot sewer in the Lawrenceville district of Pittsburg late today. None of the injured will die, but the property loss will amount into thousands of dollars.

A party of five men working at a manhole in Thirty-eighth street, were tossed into the air. Alexander Campbell, one of the number, was buried in the hole.

More than two million dictionaries were distributed to readers of leading newspapers recently at 50 cents each, and this was considered the greatest bargain ever offered. Here is an even greater bargain.

The useful set of books offered this time is called Everybody's Cyclopaedia. It is complete in five beautiful volumes bound in English cloth. The regular selling price is \$12 per set, but tomorrow and the next day readers of The Telegraph and Times can have the complete set for \$1.98 and one coupon.

The price of the large cyclopaedia sets is usually so high, from \$60 to \$100, that they are invariably sold on the installment plan. The publishers of Everybody's Cyclopaedia took advantage of these facts and from a revision of all these various large cyclopedias they have compiled all that is good and necessary. The sets are too bulky to be sent by mail, but out-of-town readers can have them for \$1.98, the set to be sent by express, shipping charges to be paid by the reader.

Have your coupon ready tomorrow and present it early.

MEALS HIT BACK? DYSPEPSIA, GAS, SOUR STOMACH?—PAPE'S DIAPEPS

Try it! In Five Minutes Indigestion Goes and Stomach Feels Fine

Time! In five minutes all stomach distress gone. No indigestion, heartburn, sourness or belching of gas, acid, or eructations of undigested food, no diarrhea, bloating, foul breath or headache.

Pape's Diapepsin is noted for its speed in regulating upset stomachs. It is the surest, quickest stomach doctor in the whole world, and besides, it is harmless. Millions of men and women now eat

their favorite foods without fear—know it is needless to have a bad stomach.

Get a large fifty-cent case of Pape's Diapepsin from any drug store and your stomach right. Stop being miserable—life is too short—you're old, long, so make your stay agreeable, what you like and digest it; enjoy without fear of rebellion in the stomach. Pape's Diapepsin brings in home. Should one of the family suffer from indigestion, dyspepsia, gastritis or stomach derangement, it is handy to give relief.

As to your vitality, it may or may not be necessary in your own case, but if you want to use it after reading this description, I will gladly make a liberal proposition, so you may want to try. This vitalizer, weighing only several ounces, is worth all night. It generates a soft, easy flowing FORCE which I call vitality. The FORCE enters your system through the small of the back, flowing thence through the kidneys, liver, stomach, bladder and organs, and diffusing itself to every part of the body. Dose: 200,000 Sanden vitalizers are now in use or have recently been used. I keep up its gentle action while you sleep. Men everywhere have said I make them feel better and stronger almost at once, that it often takes part out of the back in a few hours, and 6 to 80 days' time is sufficient to re-normalize vigor. With special attention, my vitalizer is used by women as well as men for rheumatism, kidney, liver, stomach, bladder disorders, etc.

If you live in or near this city would be pleased to have you. Hours, 9 to 6.

However, whether or not you use the vitalizer, at least you want it free book, so kindly fill in the coupon and the book will go to you, sealed by return mail.

Meeting This Afternoon in Mayor's Office to Further Project — A Delightful View

An interesting meeting is being held this afternoon at four o'clock in the Mayor's office in connection with the movement to have Fort Howe converted into a public park, under the direction of the Commissioner of Dominion Parks and Playgrounds.

Resolutions approving of such action have already been adopted by the Historical Society, the Canadian Club, the Playgrounds Association, the Women's Council and some other influential bodies while the city council has also expressed its hearty endorsement of the plan.

The meeting this afternoon is composed of delegates from these various organizations, and they will consider what further action may be necessary to forward the movement. The Commissioner of Dominion Parks has also expressed his interest in the proposal, and Hon. J. D. Hazen in a letter to Commissioner Agas has pledged himself to do all in his power to have the proposed plan carried out.

An engineer who was sent down from Ottawa some three years ago by Hon. William Pugsley surveyed Fort Howe and said that it could be traversed by attractive walks and drives; and by planting trees, laying out small gardens and otherwise beautifying the somewhat bleak exterior it could be made a beautiful park. Today's meeting is called at the suggestion of the Historical Society, which was the first to adopt resolutions endorsing the plan.

Speaking of a walk up Fort Howe which he enjoyed yesterday, an interested citizen said to the Times today that such a delightful experience was enough to convert anyone at present opposed to the park project. The view he described as enchanting. There was to the south the grand sweep of the coast line and across the bay the outline of Nova Scotia in other directions the International country, the St. John and Kennebecasis river lands, the bridges, and around and below, the panoramas of St. John itself. It gave one a new idea of his city.

This citizen was most enthusiastic over the park idea. He said that in other cities such work as this had been done with good effect and he thought indeed, that Fort Howe might well be made an Arthur's Seat, a famous place near Edinburgh in Scotland. Those holding views as to methods of work to be done and the desirability of bringing the project to an early realization.

LOOKED AS IF ONE HAND WAS GONE BUT REALLY WAS BENT UNDER HIM

Arrest on Charge of Begging and Annoying People in Market Square

A man who gave his name as Hartley Kilen, aged twenty-two, of Antigonish, N. S., was arrested by Detective Kilen last evening charged with begging and annoying pedestrians on Market square near the site of the new British bank.

When brought before the magistrate this morning he pleaded guilty. Detective Kilen said that the man was sitting on the sidewalk, apparently having his right hand off, and holding out his hat in his left asking for assistance. Among others the detective was accosted. On closer examination it was found that the man had his right arm bent under him. Fifty-eight cents in small change was found on the prisoner. He was remanded.

CHILDREN HUNGER AS MOTHER WORKS

Pathetic Story Told By a Teacher of One of the Free Kindergartens — Want Room in King Edward School

Reference is made in another part of today's Times to the meeting of the Free Kindergarten Association held yesterday. It may be added that the reports of the teachers from the four kindergartens were read and discussed.

During the last month the children were taught of the various ways in which nature prepares for winter and also of the many workers necessary for the production of food or clothing.

Much poverty was reported. One case was told of a little boy who found that he ate the crumbs from the floor after ravenously eating the lunch provided. Upon investigation it was found that the mother leaves home every morning before seven to be gone till night and all day long two children, aged five and three, shift for themselves — a case for the "Child's Protective Act."

When the committee of citizens and the executive of the association will upon the board of school trustees to ask them to urge the government to establish a kindergarten training department at the provincial normal school, they will also ask the school board to give the association the use of one of the vacant rooms in the new King Edward School in which to place a demonstration kindergarten, the association to pay the salaries and supply the material needed until the kindergarten system is incorporated with that of the public schools. There is in the south end a constant and growing demand for kindergartens in that locality.

Regarding the matter of funds, the hope was expressed that the \$1,800 required might be raised before next April, in which case the tag day would not be necessary.

The committee will endeavor to secure Mrs. J. L. Hughes of Toronto to lecture in St. John during the coming winter.

Mrs. W. C. Matthews was reappointed supervisor, and the following were added to the executive: Mrs. T. S. Simms, Mrs. H. J. Roberts, Mrs. Lingley, Mrs. Pickett, Mrs. H. C. Wetmore, Mrs. J. E. Seord, Mrs. J. Bullock, Miss Mabel McAvity, and Mrs. T. H. Bullock.

ALEXANDER FREE BUT CASE NOT PRECEDENT

Harry Alexander, who was arrested yesterday afternoon charged with escaping from lawful custody in April, 1911, was before Magistrate Ritchie in the police court this morning. His Honor remarked on the respectable appearance of Alexander and said that was evidently getting on well, as he had good reports about him. Alexander was let off on suspended sentence of two months. His Honor, however, said that this case was not to be taken as a precedent, as "breaking jail" was getting to be altogether too common.

FORMER ST. JOHN YOUNG MAN WEDS IN THE STATES

Many friends in St. John will be interested in a wedding which was solemnized on last Thursday in Hornell, N. Y., by Rev. Father Naughton, in St. Anne's church in the presence of a large gathering of friends. Afterwards Mr. and Mrs. Roderick left on a honeymoon trip to New York and Philadelphia.

The groom is a son of Joseph Roderick, of the firm of J. Roderick & Son, lumber merchants of this city, and has many friends here who will wish him and his bride all happiness. He has done well in the states and is now shop foreman in the works of the Erie Railroad at Hornell.

D. C. D'S HAVE ANNUAL DINNER

The members of the D. C. D. Club of North End spent a pleasant time last evening at the residence of one of their members, H. W. Wilson, Kennedy street when they held their annual dinner. It was a most enjoyable affair and after hearty justice had been done to the many good things provided, an entertaining programme of toasts, songs, and other literary and musical numbers was carried out. Mr. Wilson presided and made a neat opening speech.

S. D. Granville presided at the piano, and played the accompaniments to songs rendered by C. E. Cameron, A. G. Neal and E. E. Hastings. One of the features of the evening was an address by W. J. Esly on "Women Suffrage" in which he was well received. Messrs. Neal and Hastings gave a pleasing vocal duet. The toast to "Absent Members" was responded to feelingly by Mr. Wilson. After the post prandial numbers, bridge and music were enjoyed, but the gathering dispersed about midnight after a very pleasant time.

COACH HORSES IN RUNAWAY; FRIGHTENED BY MOTOR TRUCK

An exciting runaway accident occurred this morning about half-past ten o'clock in Market Square, when a team of horses attached to a coach owned by David Watson took fright at a passing motor truck, bounded loose from the strap which tied them to a post, and dashed across the square into Prince William street. They had been halted near the new bank building, and the driver, George Capton, had gone into a store for a few moments. Then the motor truck went past.

In dashing across the square the horses rushed through a narrow space between the fountain and an iron post, and struck a sloven standing at the teamsters' line. In turning into Prince William street the coach was upset and badly damaged. The front and rear springs were broken, a window smashed, and one of the light fixtures broken. Fortunately the horses were unharmed, and there was no one either in the cab or in their way as they ran along. The force of the upset of the coach halted them.

OAK HALL'S

Second End-of-the-Month Sale

Last Month we announced and held what we called an end-of-the-month sale. We propose holding one of these sales at the end of every month, and as the month-end is near we announce to day the November one.

These monthly sales are clearances of wanted merchandise, — fresh, clean merchandise that has accumulated during the month — merchandise made up of odd lots, broken sizes and special purchases.

They will be events that prudent people will watch for.

We intend these end-of-the-month sales shall be the most economic of all the special sales held in St. John.

The Difference in the Design of Our

Overcoats and Suits

The Difference in the design of our Overcoats and Suits offers the most convincing proof of the splendid styles, the excellent values, and very low prices always to be found at this store. Men who have worn a suit or overcoat from this store know from experience the certain satisfaction that is assured them.

It is not our policy to guarantee a garment to you. Real wear is the only way to test the quality of the fabrics and the dependability of the tailoring. But when you get a suit or overcoat here we guarantee you absolute satisfaction on whatever price you pay. This makes it impossible for you to get anything but full value for your money, no matter how little or how much you pay.

The feeling of being well clothed when you slip on one of these splendid garments is something not easily forgotten. We know that many men have been won over to this store just because of the comfortable feeling the excellent tailoring in our clothing assures them.

We ask you in special deference to your own best interests to come here soon and find out about the kind of clothes we are selling to satisfied customers season after season.

It is impossible to itemize all the styles and kinds of overcoats and suits to be found here, but as a suggestion we offer

Overcoats, \$9.98 to \$21.48. Suits, \$6.48 to \$19.48
