AGRICULTURE

Notes and Suggestions of Practical Utility FOR THE FARM, FIELD, GARDEN AND DAIRY.

Keep a few sheep.
A good fall for plowing.
Insects accompany disease.
A practical era is approaching.
The sharp plow does the best work.
Clean up all the rubbish and burn it.
There are greater evils than the dog.
Fall manure is good for the garden.
Never pasture land when it is wet and soft.
The popular butter tub is made of spruce.
Cut and gather all the dead stuff and burn it.

POULTRY YARD.
Bones and Clover.
Doves will be used so extensively for poultry that the fertilizer manufacturers will have difficulty in securing as many as formerly.

Spreading the Yards.
The yard should be spaded as late in the season as possible, in order to turn under the filth, and also to have the surface clean and free from weeds, in order that less dampness may exist in winter.

See on Pasture.
Not only is the hen subject to lice, but the goose, duck, turkey, guinea and pigeon have their own kind, which prey upon them, each having afflictions from lice of some species from which the others are exempt.

PARAGRAPHS

On All Subjects of Current Note at Home and Abroad.

ANECDOTES, HAPPENINGS AND GENERAL COMMENTS
Clipped and Condensed for the Readers of The Globe.

About 12,000 coal miners at Lena, near Paris, went out on strike this week.

British ships and cargoes lost every year at sea are valued at about \$20,000,000.

In twelve marriages out of every hundred one of the parties has been married before.

Wm. J. Florence, actor, who was attacked with pneumonia Saturday night last in Philadelphia, is much improved.

If it evidently makes no difference whether a thing be false or true, why contend about it?

What occupation calls for such extended thought and diversified knowledge as farming?

Lime is good on all soils that are not well supplied with it. It is especially valuable on clay.

Barreny manure is not a complete fertilizer. It lacks the ingredients taken out of the food by the animal.

Most plants get their food near the surface, where the air penetrates and they feel the life-giving warmth of the sun.

When you dig a hole in which to transplant a tree, be sure that the drainage is such that it will not hold water.

Wool, lincseed, cotton seed and the like render coarse foods available and profitable while enriching the manure heap.

A part of the ration of all fattening animals should be corn, the same for all fast-producing animals, as the cow.

In many cases we suspect microbes are given as the cause of results when they are not an incident or part of the results.

Nature furnishes to man all the elements. He has but to properly combine them when they take the form of things of use and beauty.

If there is doubt about the dog killing sheep, administer an ounce of tincture of lobelia, and make him show the contents of his stomach.

Ladies, if you are suffering from any of the ailments peculiar to your sex give Dr. Williams' Pink Pills a trial. They will not fail you. Sold by all druggists.

PREPARING FOR THE CONTEST!

Scores of Applications Coming in!
Only the Ladies of Canada Can Compete!

A Special Feature of the Competition.
Our Canadian ladies are already preparing for the great Diamond Dye Competition; they are going into this work with a vim and earnestness that is truly surprising, and it is a well-known fact that wherever the ladies enter upon any work in this way, it is always well done. Of course the great novelty of the work, and the wide field of operation opened up by this unique competition, will be the means of drawing in hundreds of ardent workers, who, under ordinary circumstances, would hesitate before committing themselves to trouble and uncommensurate work.

This liberal and highly commendable contest, inaugurated by the proprietors of Diamond Dye, the ladies have an agent to the eye. The great variety of shades possible, and the fact that the materials used are of the highest quality, and that the process is so simple and so easily mastered, are all factors which will be sure to attract to the Diamond Dye Competition a large number of workers, who will be sure to do well. The materials used are of the highest quality, and the process is so simple and so easily mastered, are all factors which will be sure to attract to the Diamond Dye Competition a large number of workers, who will be sure to do well.

FREDERICTON, N. B., NOV. 21, 1891.

BRIDGE BETWEEN ST. JOHN AND CARLETON.

Perhaps our St. John friends may not thank us for meddling with their affairs and tell us to mind our own business. As our motive, however, are well meant, they might be received in the same spirit; for we really think that the opportunity sufficiently suggestive for someone to step in and tender advice. The ferry between St. John and Carleton has never in its best days been a paying job, rather a losing concern, and since the fare between the two places has been reduced to one cent, it promises to become bankrupt ere long, for it is running more and more into debt every day. At a meeting of the Common Council last week one of the aldermen stated that it cost \$30,000 a year to run the ferry. This is very strange. How is it that the ferry between Dartmouth and Halifax, which has always been in the hands of a company, is run at a considerable profit? There may be reasons that we know not of, why the same favorable results should not follow in St. John—but until an explanation is given there is but one conclusion, viz.: very bad management, or gross extravagance. Now the remedy we propose is one that may be put into practice without any difficulty, provided a man can be found in St. John (after the Reynolds' type) with public spirit enough to initiate a movement having in view the building of an iron bridge between the Straight Shore (over Key Island) and Carleton, and thereby secure a safe, safe and permanent highway for all time and at all hours of the day and night, and thus avoid the great uncertainties of the harbor travel, tormented with tides, winds, break-downs, and so forth. And now we might presumptuously ask who should be that public spirited man, but the Mayor of the city, whose official pay should demand of him more than ordinary routine work. Indeed we contend that mayors of all cities should lead the way in great public enterprises. There are many cities where they do. But let that idea pass for the present; so long as some one takes kindly to our suggestion and moves, it is all that is expected.

Now let us look at this matter in a practical sense. Is there anything in the way to prevent the construction of said bridge—are there engineering difficulties? There are not as has already been stated. Then is it the expense? Here is food for reflection, and let us try and digest it. If we mistake not the estimate of cost already made for such a bridge is placed at \$250,000. Now the interest on this sum at 5 per cent. is \$12,500. Out of this might be deducted a certain sum per annum for a street railway crossing—for the bridge would certainly contemplate a railway to be built at a company's expense to run into and about Carleton, even extend its line down the Lancaster road—and this would bring the interest probably down to \$10,000. But it may be said a bridge would cost more than \$250,000. Not much more if any—but then on the other hand we have not figured too high on the interest—instead of 5 per cent. may not the debentures be sold for 4 1/2? Then again, the ferry boats might be leased to a company on certain condition at the old three cent fare, for one cent is proved to be inadequate; and instead of the corporation piling up debt by their way of managing the ferry through the agents, a revenue may be derived from this source, and no responsibility. Even if the leases of the ferry run the boats out so that they would be next to unfit for use by the time the lease expired it would be a gain to the public rather than a loss; so long as you have the bridge the ferry will work its own way along. It is the company in Halifax which owns the boats. Better sell the St. John boats to the lessee at the beginning at a nominal price upon accommodating terms with suitable security, and depend upon the or they will keep them in order—for their own sake.

Now let us sum up the whole matter. A St. John alderman says it costs \$30,000 a year to run the ferry—so that a bridge built uniting the east and west, thus obtaining not only a highly satisfactory connection, and rendering available a large district of country now isolated for city and revenue purposes, and persons feeling that the intervening water between the two sections is practically dried

up, and the residents on both sides can have access from one side to the other with the speed of the railway—in short, ride from one point to its opposite in as quick time as it sometimes takes to wait at the ferry house for the arrival of the next boat—would it not be an advantage all concerned?

But suppose the above is an optimistic view of the case, as some sluggish persons may suppose, then may it not be asked could not the accommodation suggested be provided upon terms far below \$30,000 a year? Let His Worship the Mayor or some other clever person figure it all out for himself—only go to work.

As Mr. Turnbull, Mr. Marshall and Mr. Frith have shown great interest and enterprise and talents in discussing corporation taxation, their opinions would be highly valuable also on a subject like this. Here is a chance for reducing taxation very largely.

NOT A BAD IDEA.

It was remarked within our hearing a few days ago by a gentleman who takes a great interest in our city affairs; that he thought if the council would get an act of the legislature at the coming session, to enable them to borrow a sum sufficient to make the improvements upon our streets and for other useful purposes, the work might go on next season in earnest and everything be finished up in a single summer. Money can readily be had at 5 per cent. Suppose we borrow \$5,000, the interest would be only \$250, or \$500 for \$10,000. So that instead of our taxes increasing next year, as they must, with all the departments overrun, we should be enabled to pay off the respective balances, asphalt all the walks projected, purchase a stone crusher which is needed, and do other necessary works, without our taxes being increased one cent. With regard to a sinking fund, that need not begin as a tax, until five years hence, and from that time gradually pay off the borrowed money at the rate of \$1,000 a year, at which time Fredericton will be in a more prosperous business state, and would not mind so much the extra taxation. We believe that the present depressed state of affairs in Fredericton is against any advance in our taxes next year—in fact we cannot stand any further apportioning of any other public work, unless it be done out of proceeds derived from borrowed capital. Of course the reply will be, "don't run into debt any more, and pay day is sure to come." All true, but you cannot carry on great public works with a depleted chest to fall back upon. St. John is preparing bills already to borrow \$40,000 notwithstanding her very heavy debt. Fredericton is financially better off than St. John, as regards ability to meet her debts, then why not borrow \$10,000 if it can be had by increasing our taxes only \$500—but even this interest amount can be saved by economizing in sundry ways. Nor need this borrowing business encourage waste or extravagance. It should be used with honest care in the construction of works as we have at present. The improvements made this summer cannot be objected to, but we must here stop unless you go to work in a business like way and get the money before hand—or there will be a revolution—in loud talk.

MILK OF HUMAN KINDNESS.

There are some nice good people in the world after all, through which the milk of human kindness flows uninterruptedly year in and year out, like the gentle dew from Heaven which falls silently and benignly. It is an old saying that corporations "have no bodies to be kicked or souls to be damned." This is a mistake—at any rate the axiom does not apply to St. John—for at a meeting of the Common Council the other day it was resolved that if a policeman got sick in future his pay for every day's absence shall be docked, unless he meets with an accident in the discharge of his duties when his pay shall only be reduced one-half. Of course the milk of human kindness does not flow in this direction, but it certainly does in the direction of the officials of the departments, for they may get sick as often as they like it will make no difference to their pay. This is very considerate on the part of the St. John aldermen. The guardians of the public peace, exposed to all kinds of rough weather have no business to get sick while in the discharge of their duties. If they do then the penalty is—no pay! Kind hearted christian men these aldermen—and so considerate too!

While the steamer Mongolian, from Montreal, was passing Londonderry, Friday last week, bound up the Irish sea, Mrs. Mason, stewardess, rushed on deck with revolver in her hand and fired three times at Purser Stewart, who was on the saloon deck. Two bullets struck Stewart wounding him seriously. He succeeded in disarming the stewardess. No reason is given for Mrs. Mason's attempt to kill the purser. When the Mongolian reached Liverpool the stewardess left the vessel unharmed.

The funeral of the late Conductor McCall took place yesterday afternoon at 3 o'clock from his father's residence, St. John, Golden Side Lodge, I. O. O. F., of which deceased was a charter member, attended in a body.

THE MIRACLE CITY.

A NEW NAME SUGGESTED FOR HAMILTON.

Another Remarkable Case Which Would Indicate that the Name Would be Quite Appropriate.

The number of remarkable cures occurring in Hamilton is causing general comment throughout the country. To those who know the inside facts there is not the least cause for wonderment. The remarkable cure of Mr. John Marshall who was known to almost every citizen in Hamilton gave the Pink Pills an enormous sale in the city, one retail druggist alone selling 2,880 boxes in the past six months. People whose cases had been considered hopeless as was Mr. Marshall's took hope from his cure, persisted in the use of the pills, with equally wonderful results in their case. And what is happening in Hamilton in the way of remarkable cures is happening in all parts of the Dominion, and every day adds to the pile of grateful testimonials which the proprietors of Dr. Williams' Pink Pills are receiving. Last week the Hamilton Times investigated two more cases, the result of which is told in the following article in the issue of Nov. 17th.

The account of Mr. John Marshall's wonderful cure, after suffering for years with locomotor ataxia naturally brought to light several other cases of almost equally remarkable cures. Among the many citizens who profited by Mr. Marshall's experiences and who have been troubled for many years with the same affliction was Mr. William Webster. For a long time he was in the flour and feed business in the Market Square, and for ever since he has been in his office he was compelled to remain in a reclining position on a couch, covered with heavy buffalo robes winter and summer. It was a long time before he could make his way, even with the aid of crutches, to his residence, but a short distance from the store. He attributes his trouble to a fall from a horse, the open door of his store, carrying heavy bags of grain in and out, and when over-heated and perspiring sitting over an open cellar-way in order to cool off. About a year and a half ago he found it necessary to give up his business, owing to the fact that he was becoming utterly helpless from his terrible disease. In June last, on hearing of Mr. Marshall's case, he began to take that well-known remedy, Dr. Williams' Pink Pills. He had been greatly benefited thereby.

Mr. Webster was seen by a Times reporter at his residence Macnab street recently. Dr. Williams' Pink Pills had been used for some time, and was not at all loath to speak about his case. "With the exception of this trouble with my legs," he said, "I have never been sick since I was 17 years old, and now I am 65. This locomotor ataxia is a terrible disease. For years my legs have seemed as though they belonged to someone else. As I have had to sleep on a winter night, one leg has fallen out of the bed and when I would awaken with the cold I could not get up. I was with my hand before I could get which leg was out of bed. If I were to try to place my foot on a spot on the carpet within five minutes I could do no more. The pain at times has been terrible. I have lain awake night after night, weak and restless, alternately grasping each foot in my agony as the sharp pain from the knife-stroke through various parts of my anatomy. When I was first attacked with pain in my feet some 12 years ago I tried several physicians but could get no relief. Paralysis then set in and I immediately consulted a well-known specialist in Buffalo, who told me that I was suffering from locomotor ataxia and could not get better. I came home again and on advice of friends tried several hot springs, but with no effect, except, perhaps, to aggravate my complaint. I finally became discouraged and after two years' doctoring, I underwent an operation. I was placed under chloroform a gash two inches and a half in depth made in the side of each leg near the hip and the doctors put their fingers in the gash and stretched the spinal nerves in the vain hope that such would give me relief. Since then now over two years ago, until, June last, I took no medicine whatever, and retiring from business, became so helpless that I could not walk a step without my crutches, and sometimes the pain was something awful. About two months, however, I got some of Dr. Williams' Pink Pills and after using the first box felt such a beneficial effect from them that I continued to use them ever since with the result that the terrible pains I used to suffer from have vanished, and with the exception of a gentle spittle dash at rare intervals, I might never know I had ever suffered with them. Since using the pills I got to sleep early and sleep soundly and peacefully as a baby all night through. I can also walk a dozen steps or so without my crutches." And to illustrate the old gentleman got up and walked across the room and back again to his seat alongside the reporter. "Now I couldn't do that at all before last June," continued he, and the pills are certainly the pleasantest medicine I have taken that I ever tried. I would advise any one who is troubled with an affliction any way similar to mine, or who is suffering from any nervous disease, to try Dr. Williams' Pink Pills.

They sell rapidly. Mr. J. A. Barr, the well known Hamilton druggist, says that the demand for Pink Pills is something astonishing. Last winter he purchased one dozen boxes. This was his first order. Since then he has sold 2,880 boxes of the pills and every day the demand is increasing. The same story comes from other druggists in Hamilton.

The other day Mrs. Martin, of Ferguson Avenue, Hamilton, Ont., called at Mr. John A. Barr's drug establishment and asked for a box of Pink Pills. She had a little girl with her in a perambulator, and while the mother was in the store the child climbed out over the side of the carriage. The mother laughed over the incident and remarked: "If it were not for Pink Pills my baby would never

have been able to do that. To those in the drug store Mrs. Martin narrated the wonderful cure which had been effected by Pink Pills in the cure of her infant. When about a year old the baby became paralyzed, and the anxious parents consulted the best doctors in the city, but their treatment was of no avail. The little one was not able to move hand or foot, and for a time the case was considered a hopeless one. Seeing an advertisement in the Hamilton Times, of the wonderful cures being effected by Dr. Williams' Pink Pills, Mrs. Martin procured a box, and before the youngster had taken all it contained, a marked improvement in her condition was noticed. The paralysis disappeared and the little one's appetite returned. The parents' hearts were delighted with the result. It was while buying the second box that the child scrambled out of the carriage on to the sidewalk. The mother told Mr. Barr that the paralysis had resulted from teething. A representative of the Times who investigated the case discovered that the little girl is now walking around in the best of health.

The proprietors of Dr. Williams' Pink Pills state that they are a patent medicine but a scientific preparation used successfully for many years in the private practice of a physician of high standing. They are given to the public as an infallible blood purifier and nerve restorer, curing all forms of weakness arising from a watery condition of the blood or stunted nerves, two fruitful causes of almost every ill that flesh is heir to. These pills are also a specific for the troubles peculiar to females, such as suppression, all forms of weakness, chronic constipation, bearing down pains, etc., and in the case of men will give speedily relief and effect a permanent cure in all cases arising from mental worry, overwork, or excess of whatever nature. The pills are sold by all druggists, or will be sent post-paid on receipt of price, (50 cents a box—they are never sold in bulk or by the 100) by addressing the Dr. Williams' Medicine Co., Brockville, Ont., or Montreal, N. Y.

Runaway Couple Captured. A telegram received Thursday night by the chief of police of St. John announced that George Williams and Ellen McMillan, who had been reported as having been captured at Chatham. The girl was sent back to St. John.

Herland C. Brewster, formerly of Harvey, Albert Co., was recently the winner in a hundred mile bicycle race at Boston. Out of one hundred competitors about thirty dropped out, being unable to stand the strain. Several excellent took part in the race and made excellent time.

BE A MAN

All men can't be Apollolos of strength and form, but all may have robust health and strong nerves and clear minds. Our treatment makes such men. The methods are our own exclusively, and where anything is left to build upon, the VIGOR OF MEN is easily, quickly, permanently restored. Weakness, Nervousness, Debility, and all the train of evils from early errors or later excesses, the result of over-work, sickness, worry, etc., forever cured. Full strength development, and tone given to every organ and portion of the body. Simple, natural methods. Immediate improvement seen. Failure explanations and proofs mailed (sealed) free.

At the City Hall.

John Miller, of the bank of R. N. A. St. John, formerly of this city, died at St. John, Tuesday night, after a long illness. He was one of the largest exporters of the lumber trade here. He was thirty years old, and a Scotchman by birth. He leaves a widow, to whom he was very married six months.

At the City Hall.

Corneille Fisking, of Carleton, died at the Public Hospital Tuesday morning at 3.30 o'clock. He was only in the hospital 24 hours and died of inflammation of the lungs. He was one of Kane's expedition who went to the North Pole to look for Sir John Frank.

At the City Hall.

A young colored lad named John Francis was seriously injured the other night by being struck by a stone thrown by John McManis. The affair occurred on Sheffield street, St. John, and is asserted that McManis deliberately threw the stone at the boy. Dr. G. A. Hetherington was called upon and he put several stitches in the cut, which was inflicted in the forehead, protruding to the skull.

At the City Hall.

Mr. George K. McLeod's lumber mill at Richmond was burned to the ground on Monday afternoon. The mill was a new one built last year, and fitted up with all the modern machinery. Mr. McLeod's loss is a heavy one, as the mill cost \$28,000 and was only insured for \$12,000, divided among the following companies: Atlas, \$4,000; National, \$4,000; Royal Canadian, \$4,000; and Union Assurance, \$4,000.

At the City Hall.

The two-story wooden building occupied as a box mill and electric light station by D. W. Clark & Son, Carleton, St. John, was totally destroyed by fire Thursday night. The building was 20x30 feet, with an annexed boiler house, connected to which was a coal shed. The box mill commenced operations last June. In the building was the following machinery, which nearly all will be totally lost: A large and a small planer, a large shingle machine, seven box machines, a large blower, an Atlas engine, two boilers, one a McLaughlin and the other a Toronto firm's make, a 45 light dynamo, \$100 worth of smaller tools, 12 electric light lamps, and other smaller items which of course could not be enumerated by any member of the establishment. The dynamo was valued at \$3,000, the engine at \$800. The other values could not be obtained, but after a thoughtful consideration each member of the firm affirmed the loss would reach \$1,500. They had just put in about 175 tons of coal for winter use, a larger part of which was burned. The origin of the fire is not known, but it is supposed to have been caused by a hot journal. This leaves Carleton without electric light, and throws 19 men out of employment. The insurance only amounts to \$2,500.

At the City Hall.

Grand Council Thompson and Grand Secretary McFarlane, of the Royal Templars, went to Harvey this week to organize a council of the order at that place.

What the Gossips have to Remark about.

The Trend of Matters Political, Parliamentary or Otherwise.

Some Touch-and-go matters of All Mentionable Nature.

The York County Court was further adjourned Tuesday last on account of Judge Stevens being unable to fill Judge Justice's place, as he was expected to do.

At the meeting of the local government at Woodstock the site for the new bridge at Woodstock was discussed and decided upon. The bridge will cross the river at Woodstock, striking the Woodstock side of the river at the end of King street. It is expected the bridge will be built of stone and iron.

The attempt to repeal the Scott Act in Charlotte Co., last Tuesday, resulted in a grand failure. The Scott Act party are jubilant over the result of the election, the majority for the act reaching 900. The election has settled the question in that county for some time, and proved, by a fair election, that the people are in favor of the Act, as half of the votes polled were cast by those who wished to see it maintained.

Much sympathy was expressed for Mr. Chas. A. Gunter, brother of Geo. J. Gunter, and formerly of this city, when it became known that he had met with a serious accident while driving a load of coal in a horse-drawn wagon Thursday evening last week, in South Mimosa. He was caught between the high seat of the wagon upon which he was sitting, and the wheel of the horse, getting horribly jammed and having two ribs broken besides suffering internal injuries. Mr. Geo. J. Gunter received a telegram the other morning advising that he was doing as well as could be expected.

TO BE HUNG BY THE NECK.

A most horrible murder of a respectable wife.

Word comes of a most horrible murder which was committed near Carleton, N. B., the other day. Michael Faber has always been a well-to-do and highly respected farmer, which made it hard for the community to believe that he had committed such a crime. On Tuesday afternoon he quarrelled with his wife, as he had done frequently. In his rage he returned home in a carriage last Saturday, and was struck by a horse and fell from the carriage. He was severely injured and is now in the hospital.

Being asked what such conduct meant, he replied in frenzied tones, "She made me do it." "She treated me no more and similar expressions. His wife and in-laws' names were among the neighbor's suspicions, and they seemed him of the crime. Stricken with remorse, he confessed his sin, and told the story as above narrated.

When the fire was subdued the role of the fire was found, but all that was worth mentioning was that the fire was caused by a hot journal. This leaves Carleton without electric light, and throws 19 men out of employment. The insurance only amounts to \$2,500.

At the City Hall.

Mr. MacD. Snowball spent Sunday in the city.

Mr. N. A. Cliff left last Saturday for Florida.

Mr. F. O'Brien M. P. left last Sunday for the city.

Mr. F. R. Coleman left Monday last for Montreal.

H. Parter Baird, of Woodstock, was in the city this week.

R. E. Winant, M. P. for Sussex was in the city.

Mr. Tho. H. Colter M. P., returned last Saturday from his trip across the continent.

Frederic Brindley went to St. John this week to assist in the Ontario concert Wednesday evening.

Mr. Wm. Walker, who has been taking a course in the cutting school in New York, returned home yesterday.

Herbert Guster, son of Mr. Samuel Guster of St. Mary's, left Thursday for Montreal, where he will engage in the logging business.

Rev. Dr. McLeod returned from Charlotte Co. where he had been addressing the electors in the interest of the Scott Act party Thursday last.

E. W. Gorton, the travelling secretary of the York County Association, was in the city this week. He organized a Y. M. C. A. in Woodstock and St. Stephen.

Mr. Fred. Boyce, brother of Mr. W. H. Boyce, arrived this week from England accompanied by his family and will spend the winter here.

Grand Council Thompson and Grand Secretary McFarlane, of the Royal Templars, went to Harvey this week to organize a council of the order at that place.

At the City Hall.

Highlighted and Arranged for every-day consultation.

There was a \$1,000,000 fire in St. Louis on Tuesday.

The Ottawa Exhibition Association came out \$7,000 to the good on its first show.

Ten persons were killed and 70 wounded by a cyclone that swept over Santa Fe Province the other night.

Derpades from the northwest report a cold wave of unusual severity. At Red Lake Falls it is 20 below zero.

The Gladstonians will not oppose Mr. Jackson, the new Irish Secretary, when he appears for re-election in Leeds.

Mr. W. Wilde, who married Mrs. Frank Leslie five weeks ago, is dangerously ill in New York from hemorrhage of the stomach.

Miss Willard has been re-elected to the presidency of the Women's Christian Temperance Union. This makes the twentieth time.

The Ottawa city council has passed an ordinance prohibiting the sale of tobacco, cigars and cigarettes to children under fourteen years of age.

A despatch from Paris says: The total number of coal miners now on strike in the Pas de Calais district is 33,400. Some 1,000 men are still at work.

Mr. Bunting, an aboriginal in his own right and his condition such, it is understood, to give serious alarm to his friends. He has been confined to bed for several days.

Mr. Ignatius Wiman has been invited to visit the United States and deliver an address on some aspect of the question of closer relations between Canada and the United States.

Rev. Joseph Slattery, ex-priest of Boston Mass., who has been lecturing and selling pamphlets against Catholicism in Pittsburg, Pa., was arrested Wednesday night for the circulation of immoral literature.

Dr. Thomas A. Yow, of Fall River, Mass., charged with malpractice resulting in the death of Mary Talon, was Tuesday last adjudged guilty and held in \$10,000 bonds for the superior court in January.

James Ellis and wife were found dead at their home in Troy, Ohio, Wednesday morning. They had been gassed. Their three children were found in an unconscious state, but it is believed their lives can be saved.

Near Lovelock, Hastings Co., Ont., James McLeod, a blacksmith, struck a horse with a club, a row having occurred at a ploughing bee. Ford died from concussion of the brain. The alleged murderer is under arrest.

At Tuesday's session of the international peace congress at Rome, a decision was pronounced that the international arbitration conference held at Chicago in 1893 was postponed. The next congress will be held in Rome.

Patterson & Wimer of Woodstock, Ont., manufacturers of agricultural implements, were amalgamated with Messrs. Harris & Co., of Toronto and Bradford. This will be one of the largest combinations in America, and will result in the agricultural implements of the Dominion.

In St. Ann's hall the other night Prof. Gough, alias George Gaw, a telegraph operator, while giving a variety entertainment was struck by a bullet fired by Albert Loeper, a barber in the groin with a five cent piece. Gough is dying and Gaw is being held on the charge of shooting.

A four story tenement house, 130 Northrup street, Brooklyn, N. Y., was burned early Tuesday morning and was crowded to the ground. The fire started in the basement and spread to the upper floors, burning out about thirty families; six persons are known to have lost their lives, many others were badly burned. The dead are Mrs. Schobel and her two children; Mrs. Stollinger and her two children. Many scenes of wild excitement and grief were witnessed during the progress of the fire.

The general assembly of the Knights of Labor at Toledo, Ohio, approved the demand of the C. P. T. U. for equal wages and equal rights. Resolutions of the women declaring in favor of equal status of purity for both sexes was approved. The assembly is not in favor of closing the world's fair Sunday. The women's resolution asking the Knights to petition the authorities to prevent the sale of liquor on fair grounds was rejected.

THE ALBY TRIAL.

The court at Plymouth opened Tuesday morning and was crowded to overflowing. Chief Justice Doe and Judge Allen came into court at 8.50 and shortly afterwards the Warden family entered. Chief Justice Doe was in charge of the deposition. Almy took his seat beside his counsel and the court was called to order. County Solicitor Mitchell opened his argument for the prosecution in which he said that he proposed to prove deliberate murder on the part of the prisoner.

The counsel for the defense objected to many statements in the argument some of which were ruled out by Judge Doe. When the speaker related in a thrilling manner the incidents of the murder the jury rolled down Almy's cheeks and an occasional nervous twitching of his face was noticeable. At the conclusion of the county solicitor's argument witnesses were sworn.

Mrs. Warden took the stand and told the story of the circumstances of the shooting, substantially as was given by the prisoner. Mrs. Warden concluded her testimony and Fanny Warden took the stand and told the story of the murder. When Christie's body was found she was lying on her back with her legs crossed. Witness found her dress skirt and undershirt off and lying some twelve feet away from the body. They were badly torn. While these particulars were being shown to Judge Doe Almy broke down and wept.

The witness said Almy fired three shots at her. Seven shots in all were fired.

LATER—A verdict has been rendered: Guilty of murder in the first degree. Almy sentenced to be hanged on the first Tuesday in December, 1892.

Mr. Leverett Estabrooks left Thursday morning for Norton, Mass., having received a telegram that his sister, Miss Annie Estabrooks was dying at that place.
