ACCOUNTANTS SEP 5 1894

DEPARTMENT OF INDIAN AFFAIRS SEP 4 1894

Sir

I herewith enclose two Medical accounts one from George Cowie M D for 5-84 $22.50 and one from A D Graham M.D. for 5-85 $22.62 for medical attendance on the Moraviens of the Thames. These accounts were incured during the time that Dr Pope the regular attendant was unable to attend to the wants of the Indians.

There men had no regular authority to attend the Indians but the Chief says that if they would do so the Indian Council would see them paid

From investigation I believe the accounts are correct and as Dr Pope was only paid twenty five dollars for his services for June quarter there would still be fifty dollars of the regular salary left to pay these accounts I would therefore advise that they be paid

I enclose Requisitions signed by the Indian Council to pay them

This Indenture, made this Fifth day of September in the year of our Lord, One Thousand Nine Hundred

BETWEEN The Superintendent General of Indian Affairs, of the first part, and James Henry Baker of the Township of Lancaster, Farmer

of the second part ;

WITNESSETH that the party of the first part, in consideration of the rents, covenants, and agreements hereinafter reserved and contained on the part of the party of the second part, his executors, administrators and assigns, to be paid, done, and performed, he the said party of the first part, hath demised and leased, and by these presents doth demise and lease, unto the said party of the second part, his executors, administrators and assigns, ALL that parcel or tract of land, situated in the Township of Onondaga in the County of Brant and Dominion of Canada, containing by admeasurement One hundred and twenty-three acres - be the same more or less, being composed of Lot Number Fifty-one, River Range in the said Township of Onondaga

TOGETHER with all and singular the appurtenances to the said premises belonging TO HAVE AND TO HOLD the said premises, with the appurtenances, unto the said party of the second part, his executors, administrators and assigns, for, and during, and unto, the full end and term of Five years, to be computed from the First day of October one thousand nine hundred ——— and from thenceforth ensuing, and fully to be complete and ended, SUBJECT NEVERTHE-

Form No. 48.

LESS, to a determination or cession of the said Term before the expiration thereof, under the proviso or condition hereinafter mentioned, Yielding and paying yearly during the said Term, unto the said party of the first part, the clear yearly rent or sum of

Two Hundred and Fifty Dollars -

without any deduction whatsoever. payable as follows:— On the Fifteenth day of October after the expiration of each year with the exception of the last year of the term when payment shall be made on the First day of September one thousand nine hundred and five.

the first payment of the rent now to accrue and become due, to be payable and paid on the Fifteenth day of October. one thousand nine hundred and one -

And the said party of the second part doth hereby for himself, his heirs, executors, and administrators, covenant with the said party of the first part, his successors and assigns, that he the said party of the second part, his heirs, executors, administrators, or assigns, shall and will from time to time, and at all times during the continuance of the said term, well and truly pay to the said party of the first part, his successors or assigns, the said yearly rent, on the days and times the same shall respectively become due, as aforesaid, and also well and truly pay all taxes and charges, dues and duties whatsoever which now are, or hereafter shall, during the said term, be payable in respect of the aforesaid premises, whether the same be rated or assessed on the landlord or the tenant thereof; and also that he the said party of the second part, shall not, nor will, during the said term grant, or demise, assign, transfer, or set over, or otherwise by any act or deed, procure or cause the said lands and premises hereby demised or intended so to be, or any part thereof, or any estate, term or interest therein, to be granted, assigned, transferred, or set over, to any person or persons whomsoever, without the consent in writing of the said party of the first part first had and obtained ; which said consent in writing, it is also declared and agreed, shall be necessary to a second and subsequent assignment or transfer of the premises, or any part thereof, or any term or interest therein ; nor shall or will he do or suffer any act or deed whereby the said term, or any unexpired part thereof, shall or may be taken in execution, seized or sold. And also that he the said party of the second part, his executors, administrators, or assigns, shall not at any time during the said term, lop, top, cut down, or destroy any timber or trees growing on the said land further than may be necessary for fuel, fences and building timber for the use of the said premises, and to be used thereon. And shall not, nor will sell, or permit or suffer to be sold or used, on said premises, any spirituous liquors, ale, beer or any intoxicating beverage whatever.

The said Lessee to be allowed to prepare ground for fall wheat on execution of this Lease but not to occupy buildings or said land until First day of November nineteen hundred and relative possession of the buildings until First November in last year of term of this Lease.

The said Lessee to repair all fences and do all teaming required for materials to repair buildings and fences also to board all workmen when repairing buildings at his request free of charge but not to include the putting in a stone foundation under same.

The Indian Locatee to supply all materials required for repairs to buildings or fences -

Should the Locatee build a stone foundation under the barn on said land within two years from date of this Lease the Lessee shall do all teaming of materials required for same free of charge. No straw to be removed from said land

The said Lessee to leave seeded down at expiration of this Lease, at least twenty-five acres in Timothy and Clover.

226168

Nor shall he, except under license of the Superintendent General of Indian Affairs or the duly appointed agent for the Reserve of which the lands duly leased form a part, cut, or allow to be cut, any wood or timber, except for fuel or fencing of lands covered by this lease, or sell or otherwise dispose of any wood or timber standing or lying upon the said lands.

And further, that the said party of the second part, his executors, administrators, or assigns, shall not, nor will do, suffer or commit, any unlawful or voluntary waste, spoil, or destruction whatsoever upon the said premises, nor shall he remove any manure therefrom, either during the term or at the expiration of this lease, but shall and will in all respects use and manage the said lands and premises in a fair and husbandlike manner. And, further, that the said party of the second part, his executors, administrators, or assigns, shall and will from time to time, and at all times during the said term keep the fences, barns, houses, and buildings thereon erected, and being or during the said term to be erected, in good and tenantable state of repair ; and the said fences and barns, houses and buildings, so being repaired, shall and will at the end, expiration, or other determination of the said term, which shall first happen, peaceably and quietly leave, surrender and yield up, all and every part thereof, unto the said party of the first part, his successors or assigns, without the payment or allowance, by the said party of the first part, of any sum of Money whatever, to the said party of the second part, his executors, administrators, or assigns, or any tenants or occupiers of the said land, for any houses, buildings, or improvements, erected or made by the said party of the second part, his executors, administrators and assigns, or the tenants or occupiers of the said land and premises, or any part thereof ; and the said party of the first part, for himself, his successors, doth hereby covenant to and with the party of the second part, his executors, administrators, or assigns, that the said party of the second part, his executors, administrators, or assigns, well and truly paying the said yearly rent hereby reserved, and observing and performing the covenants hereinbefore contained, shall quietly and peaceably hold and enjoy the said lands and premises, with the appurtenances, during the said term, without any disturbance whatever by the said party of the first part, his successors or assigns. PROVIDED ALWAYS, and it is hereby agreed that if the rent hereby reserved, or any part thereof, shall at any time or times during the said term be in arrear or unpaid for the space of Forty days next after the days or any of them whereon the same shall become due, according to the reservations thereof hereinbefore contained, whether the same be demanded or not, in case of breach or non-performance of any or either of the covenants herein contained on the part of the said party of the second part, his executors, administrators, or assigns, to be observed and performed, that then and in such case or either of them, it shall be lawful for the said party of the first part, his successors or assigns, or any of them, at any time after the expiration of the said forty days, into and upon the said lands, tenements, and premises, or any part thereof, in the name of the whole to re-enter, and the same to have again, re-possess and enjoy, as if this indenture had never been made, and in that case or either of them, this present indenture, and every clause, matter, and thing therein contained, and the term hereby granted, shall cease, determine and be absolutely void to all intents and purposes whatever, and the said party of the first part, his successors or assigns, shall thereupon hold the said lands and premises with the appurtenances, utterly discharged of this lease, and of all covenants and provisos herein contained, without the payment or allowance by the said party of the first part, of any sum of money whatever to the said party of the second part, his executors, administrators, or assigns, or any tenants or occupiers of the said land, for any houses, buildings, and improvements, erected or made by the the said party of the second part, his executors, administrators and assigns, or to the tenants or occupiers of the said lands and premises, or any part thereof.

PROVIDED ALWAYS that if any portion of the tenements or hereditaments hereby demised shall be under a lease to any other person, then this lease shall be considered as excluding such land, without thereby causing any diminution of rent.

IN WITNESS WHEREOF, the parties hereto have hereunto set their hands and seals.

Form No. 48.

LESS, to a determination or cession of the said Term before the expiration thereof, under the proviso or condition hereinafter mentioned, Yielding and paying yearly during the said Term, unto the said party of the first part, the clear yearly rent or sum of Two Hundred and twenty-five Dollars for each of the first two years and Two Hundred and Fifty Dollars for each remaining three years without any deduction whatsoever. payable as follows: the rent for the first year to be paid on the first day of November, one thousand nine hundred and one, and for the balance of the term half yearly on the fifteenth days of April and October in each and every year, except the last year when payment of half rent made on the first day of September one thousand nine hundred and five.

the first payment of the rent now to accrue and become due, to be payable and paid on the first day of November, one thousand nine hundred and one.

And the said party of the second part doth hereby for himself, his heirs, executors, and administrators, covenant with the said party of the first part, his successors and assigns, that he the said party of the second part, his heirs, executors, administrators, or assigns, shall and will from time to time, and at all times during the continuance of the said term, well and truly pay to the said party of the first part, his successors or assigns, the said yearly rent, on the days and times the same shall respectively become due, as aforesaid, and also well and truly pay all taxes and charges, dues and duties whatsoever which now are, or hereafter shall, during the said term, be payable in respect of the aforesaid premises, whether the same be rated or assessed on the landlord or the tenant thereof; and also that he the said party of the second part, shall not, nor will, during the said term grant, or demise, assign, transfer, or set over, or otherwise by any act or deed, procure or cause the said lands and premises hereby demised or intended so to be, or any part thereof, or any estate, term or interest therein, to be granted, assigned, transferred, or set over, to any person or persons whomsoever, without the consent in writing of the said party of the first part first had and obtained; which said consent in writing, it is also declared and agreed, shall be necessary to a second and subsequent assignment or transfer of the premises, or any part thereof, or any term or interest therein; nor shall or will he do or suffer any act or deed whereby the said term, or any unexpired part thereof, shall or may be taken in execution, seized or sold. And also that he the said party of the second part, his executors, administrators, or assigns, shall not at any time during the said term, lop, top, cut down, or destroy any timber or trees growing on the said land further than may be necessary for fuel, fences and building timber for the use of the said premises, and to be used thereon. And shall not, nor will sell, or permit or suffer to be sold or used, on said premises, any spirituous liquors, ale, beer or any intoxicating beverage whatever.

The said Lessee to be allowed to prepare ground for fall wheat on execution of this Lease. Also right to occupy buildings on said land until first day of November nineteen hundred and retain possession of the buildings until first day of November in last year of term of this Lease.

The Lessee to repair all fences and do all teaming required for materials to repair buildings and fences, also to board all workmen when repairing buildings at his request free of charge but not to include the putting of a stone foundation under barn. The Landlord located to supply all materials required for repairs to buildings or fences. Should the Locatee build a stone foundation under the barn on said land within two years from date of this Lease, the Lessee shall do all teaming of materials required for same free of charge.

No straw to be removed from said land.

The said Lessee to leave seeded down at expiration of this Lease at least twenty-five acres in timothy and clover.

Nor shall he, except under license of the Superintendent General of Indian Affairs or the duly appointed agent for the Reserve of which the lands duly leased form a part, cut, or allow to be cut, any wood or timber, except for fuel or fencing of lands covered by this lease, or sell or otherwise dispose of any wood or timber standing or lying upon the said lands.

And further, that the said party of the second part, his executors, administrators, or assigns, shall not, nor will do, suffer or commit, any unlawful or voluntary waste, spoil, or destruction whatsoever upon the said premises, nor shall he remove any manure therefrom, either during the term or at the expiration of this lease, but shall and will in all respects use and manage the said lands and premises in a fair and husbandlike manner. And, further, that the said party of the second part, his executors, administrators, or assigns, shall and will from time to time, and at all times during the said term keep the fences, barns, houses, and buildings thereon erected, and being or during the said term to be erected, in good and tenantable state of repair ; and the said fences and barns, houses and buildings, so being repaired, shall and will at the end, expiration, or other determination of the said term, which shall first happen, peaceably and quietly leave, surrender and yield up, all and every part thereof, unto the said party of the first part, his successors or assigns, without the payment or allowance, by the said party of the first part, of any sum of Money whatever, to the said party of the second part, his executors, administrators, or assigns, or any tenants or occupiers of the said land, for any houses, buildings, or improvements, erected or made by the said party of the second part, his executors, administrators and assigns, or the tenants or occupiers of the said land and premises, or any part thereof ; and the said party of the first part, for himself, his successors, doth hereby covenant to and with the party of the second part, his executors, administrators, or assigns, that the said party of the second part, his executors, administrators, or assigns, well and truly paying the said yearly rent hereby reserved, and observing and performing the covenants hereinbefore contained, shall quietly and peaceably hold and enjoy the said lands and premises, with the appurtenances, during the said term, without any disturbance whatever by the said party of the first part, his successors or assigns. PROVIDED ALWAYS, and it is hereby agreed that if the rent hereby reserved, or any part thereof, shall at any time or times during the said term be in arrear or unpaid for the space of Forty days next after the days or any of them whereon the same shall become due, according to the reservations thereof hereinbefore contained, whether the same be demanded or not, in case of breach or non-performance of any or either of the covenants herein contained on the part of the said party of the second part, his executors, administrators, or assigns, to be observed and performed, that then and in such case or either of them, it shall be lawful for the said party of the first part, his successors or assigns, or any of them, at any time after the expiration of the said forty days, into and upon the said lands, tenements, and premises, or any part thereof, in the name of the whole to re-enter, and the same to have again, re-possess and enjoy, as if this indenture had never been made, and in that case or either of them, this present indenture, and every clause, matter, and thing therein contained, and the term hereby granted, shall cease, determine and be absolutely void to all intents and purposes whatever, and the said party of the first part, his successors or assigns, shall thereupon hold the said lands and premises with the appurtenances, utterly discharged of this lease, and of all covenants and provisos herein contained, without the payment or allowance by the said party of the first part, of any sum of money whatever to the said party of the second part, his executors, administrators, or assigns, or any tenants or occupiers of the said land, for any houses, buildings, and improvements, erected or made by the the said party of the second part, his executors, administrators and assigns, or to the tenants or occupiers of the said lands and premises, or any part thereof.

PROVIDED ALWAYS that if any portion of the tenements or hereditaments hereby demised shall be under a lease to any other person, then this lease shall be considered as excluding such land, without thereby causing any diminution of rent.

September 11th. 1900.

Sir.

I received your letter of the 5th instant, File No. 153 199 enclosing Lease in Triplicate in favour of James H. Baker covering River Lot 51, Onondaga, together with Bond for execution.

To day Mr. George D. Styres the Locatee called with Mr. Alonza Callen and desired to lease this property to him as Mr. Baker is unable to enter into the Lease on account of some changes in his family he is obliged to remain in Ancaster.

I return former Lease and Bond and enclose Mr. Callon's application and beg to recommend that you have Lease prepared and forwarded to me for execution on the enclosed application.

I am

Sir,

Your obedient servant.

Sir.

I beg to acknowledge the receipt of your letter of 26th instant File No.153 199 requesting me to advise the Department why Mr.Callon does not offer as high a rental as that Mr.Baker agreed to pay, being $25.00 less for each of the first 2 years of the proposed term.

LAND BRANCH OCT 1 1900

In reply beg to state that Mr.Styres who is one of the most careful business man on the Reserve, informed me that Mr.Callon would not pay as much rent for the first 2 years as offered by Mr.Baker, but at the same time he was satisfied as he will receive from Mr.Callon $25.00 a year more rent than he received under Official Lease 37 which expired a short time ago.

Mr.Styres is anxious to obtain as much rent as possible for his farm but could not obtain more than the offer of Mr.Callon, as Mr.Baker refused to take the farm.

DEPARTMENT OF INDIAN AFFAIRS APR 12 1902

Indian Office, Brantford.

April 11th. 1902.

Sir.

I beg to acknowledge the receipt of your letter of 27th March last requesting me to state whether I can rdcommend Mr. Mills as a desirable tenant to have on Lot 51, River Range, Onondaga.

In reply I beg to state that I have made inquiries from responsible people residing near Mr. Mills. I am informed that there can be no objection to him and that he is favourably thought of where he has resided for some years. I therefore recommend him as a desirable tenant to have on the Reserve.

I am

Sir,

Your obedient servant.

M E M O R A N D U M .

Ottawa 14th April 1902-

To the Secretary,

I beg to recommend the issue of a lease in favour of Mr.Wm.Mills,covering Lot 51,River Rge, Onondaga,containing 123 acres,for 5 years from 1st April 1902 at a yearly rental of $150.00 for 1st year 2nd and 3rd years,$200.00 each and 4th and 5th years $225.00 each payable yearly in advance.

The Lessee to repair all fences and do all teaming for materials required to repair buildings and fences also to board all workmen when repairing buildings at his request free of charge, but not to include putting of a stone foundation under barn The Indian Locatee to supply all materials.

Should Locatee build a stone foundation under the barn within two years from date of this lease the Lessee shall do all teaming of materials free of charge.

Should the Lessee desire to have a cross fence built the Locatee shall supply posts the Lessee to supply all wire and to do all work and at expiration of lease Lessee to be allowed to remove wire used.

No Bond as rent is payable in advance.

The Locatee is George D.Styres,a merchant. A lease for this land was issued in October last in favour of Mr.Alonza Callon,which was never executed

by

153.265

MEMORANDUM.

To A. D. Ingram

Department of Indian Affairs,

Ottawa, 13th Sept 1894

13/9/94

On 18th July 1894 the S. 1/2 of S. 1/2 of Lot 1 Range 2. Caradoc was located to Daniel Albert. This land was sold to him by David Hank and Ellen Seneca on the understanding that the rent during the term of lease should be paid to them. Mr. Gordon states that at the time they made the agreement they thought that the lease terminated in March 1894 and when they discovered that the lease would not expire till March 1895, there was a dispute as to who should receive the rent. Mr. Gordon advises that David Hank & Ellen Seneca receive the rent up to the date of the issue of Location Ticket to Albert viz: 18th July 1894 and it is now ~~impossible~~ for this division should be made of the rent money retained.

THIS LETTER HAS BEEN MICROFILMED
CORRESPONDENCE
SEP 12 1895
BRANCH

Sept. 13th/876.

Gentlemen:-

In compliance with your request I enclose herewith revised statement of the staff of this Dept. for publication in the "Canadian Almanac" for 1876.

DCL

Your obt. servant

Note.
The statement sent with this letter was the same as that sent to be published in the annual report for 1875. H.E.R.

The statement published in the Canadian Almanac for 1876 has been so altered from the copy sent for publication as to leave very little likeness to it. H.E.R.

Letter sent

Gentlemen,

In compliance with your request I beg to enclose herewith a statement of the staff of this Department,- inside and outside service,--corrected up to the 1st July last.

I take this opportunity to make the remark that it is hoped that this statement will be properly published in the Canadian Almanac for 1897. Hitherto the copy sent you has been so altered and disarranged as to make the statement published quite incorrect and therefore useless for public information.

Your obedient servant,

Deputy Superintendent General
of Indian Affairs.

Ottawa, 19th September, 1899.

Gentlemen:-

I beg to inclose herewith for publication in the Canadian Almanac for 1900 revised list of the officials of this Department.

I have to request that you will, as was done last year, forward me the first proof, which will be promptly returned. The advantage of this course was proved by the fact that the staff was published correctly in the Almanac for 1899, the first time for years.

Your obedient servant,

Ottawa, 21st Feb., 1902.

Sir,-

I transmit herewith a correct statement of the staff of this Department for publication in the Canadian Year Book.

Last year I suggested the advisability of sending this Department the first proof for correction. I beg to make the same request this year, and in proof of what was said last year, I may add that in revising the printed sheets transmitted for correction, so many mistakes have been observed that it is to be hoped that you will this year comply with this request, as this Department on account of its familiarity with its staff, is naturally more competent to read the proof and thus avoid errors.

I beg also to say that I shall be obliged if you will in future always address this Department direct on any matter concerning it, instead of through any other Department, such as the Interior.

Your obedient servant,

(Sgd.) A. D. McLean

Secretary.

INDIANS

In the Province of Ontario are found parts of the Six Nations, Wyandote, Chippewas, Munsees, Mississaugas, and others of Algonquin stock. It has been the continuous policy of the British and Canadian Governments to recognize aboriginal title rights and to purchase their land from the Indians in return for yearly grants of money and supplies, hunting and fishing privileges, etc. The tribes are placed upon reservations, which are forbidden ground for Whites. In the district of Patricia there are yet areas to be acquired by the Government.

In the 1924 Census the Indian population of Ontario is placed at 26,706; the Indians in Northern Ontario were estimated at 11,613.

ADDRESS REPLY TO
THE DEPUTY MINISTER OF MARINE,
OTTAWA.

MARINE & FISHERIES
CANADA

REFER TO No. 6928.

Ottawa, 5th Sept. 1894.

LAND BRANCH
SEP 8 1894

Sir,

I enclose herewith a sketch showing the position of two
Enc. range lights which this Department proposes to erect at the entrance to South Bay, Manitoulin Island, in the township of Tehkummah.

I understand that the land in question is under your control; that a certain quantity was set apart as a town plot at this point, but had never been sub-divided.

Will you be good enough to give me any information in your possession with regard to these points to enable the Department to make a more precise application for the sites required.

I have the honour to be

Sir,

Your obedient servant

L. Wm. Smith

Deputy Minister of
Marine and Fisheries.

The Superintendent
General of Indian Affairs,
Ottawa.

MEMORANDUM.

To Mr. Austin.

Department of Indian Affairs,

Ottawa. 4 Oct 1894

QUERY.	ANSWER.
Yeah The Department of Marine and Fisheries proposes to erect range lights at the mouth of South Bay Manitoulin Island, on the Town Plot shown on the 2/p. of ~~Ile~~ Ichkummah. For survey purposes it is necessary to know 1. Whether the town plot has been subdivided, and if so we would require a plan of the plot so as to locate the sites on it. 2. If it has not been subdivided can we be furnished with plan & field notes of the boundaries of the town plot, x or of the nearest lines run so as to refer our survey to existing monuments. — W.P. Anderson Chief Engineer M & F.D.

MEMORANDUM.

To The Deputy Minister Department of Indian Affairs.

Ottawa, 12 Feby 1895

LAND BRANCH
FEB 12 1895

With reference to the Deputy Minister's letter of 5th inst - I would state that I have examined the plan & description of the light House site required by that Dept, at the entrance of South Bay Manitoulin Island, and find them correct.

W. J. J. Patton O.L.S. who made the survey has tied his work onto the N.W. Corner ~~angle~~ of Lot No.11 Con. 13. Tp. of Tehkummah, which Corner is not shown on our Office plans as the Reserve for Townplat has not so been divided - but this will not vitiate the position of the Light House reserve Required.

Respectfully submitted

His Excellency,

The Governor General in Council,

The undersigned has the honour to report that the Department of Marine & Fisheries has paid to the Department of Indian Affairs the sum of $21.00 for the land comprised in the two islands in the South Bay, Manitoulin Island,(and marked "A" and "B" on the attached plan) and one half acre of land on the Manitoulin Island which is shown on the same plan and marked "Light House," the same being required for range lights.

The undersigned would respectfully recommend that the title to the said land, which is more particularly described in the Surveyor's Description herewith attached, be transferred to the Department of Marine & Fisheries.

MEMORANDUM.

To Actg. D. M.

Department of Indian Affairs,

Ottawa 13 Sept. 1894

Sale 1524

Lot 1 con. 2, Cornwallis, was sold 11 Sept. 1877 to J. McWalden who assigned to J. H. Tuckis in whose name it now stands:-

100 Acres @ 60¢ P. A.	$60.00
Paid at date of Sale	$20.00
Bal. Price due	$30.00

and int: at 6% from date of Sale until paid.

Regular notices were sent for Sept. 1889-90-91 & 93 - No reply -

An affidavit, under, by John N. Galbraith & Saml. Jenkins, states that there are no improvts on the lot; that it has never been occupied and no road-work has ever been done or Taxes paid thereon.

Mr Supt. Ross, in letter of the 5th inst., recommends cancellation of the Sale. Under the circumstances, I would also recommend that the Sale be Cancelled and the land again placed in the Market at the upset price and subject to the usual conditions, under the Regulations of the Dept.

A.E.K.

& I beged of him to let me know if said lots coued be cancelled
& Mr Allan Ironside informed me by return of mail that said
lots coued not be cancelled for aff a dwids had been filed & were
lying in the office that Settlement duties had been performed
& that nothing coued be don towards cancelling them. So I
dropped the matter then until Mr B. W. Ross came to
Manitowaning & I then got aff a dwids taken & made application
to Mr Ross at Manitowaning and stated to him the same as
I did to Mr Phipps and he wrote to me stating that aff as
had been taken a few days before that & that the same had
been forwarded to Ottawa & that my aff a dwid was of no
use that I was not in time. Finely word came back that said
lots were cancelled & that the man that made applications
after I did was to have the first chance. Now I think
that this is not square deal when my money is the same
as his to the department & now I humbly ask of you to think of
the matter & to decide fairly who should have the first chance
of the Lots Me or the man that applied after I did. I believe

Sir:-

I have the hon to state that on the 28th ult. Inquiries were made by Rodger Galbraith of Sandemoya, applied to purchase Lots Nos. 21 & 22 Con. A. Carnarvon under Sect. 6. He was written to in reply to the effect that Affdt. of S.D. covering said lots had been filed, & that enquiries and action would as yet be taken towards cancelling. Subsequently Jas. Galbraith's agent - Jas. St. Price made similar enquiry re Galbraith's account, and was likewise advised.

On the 4th ult. Jas. Geo. A. Jones of Chantowaning sent in Affdt. of new performance of S.D. on the lots which Affdt. was forwarded to Dept. and lots were cancelled in view of sworn statements made therein. On the 3rd ult. Jas. Jno. Galbraith of Sandemoya had a similar Affdt. sworn to which was rec'd at this office the day following that on which Jas. Jones was handed in.

MEMORANDUM.

To The Deputy — Department of Indian Affairs,

Ottawa, 25 March 1895

Sales 1324 & 1325

With reference to Lots 21 & 22 Range 4 Carnarvon, the Sales of which were cancelled in Sept. last upon the recommendation of Supt. Ross without the knowledge of the contents of an affidavit filed with his predecessor Mr Phipps, in 1885 showing that the improvements had been made, I beg to state that, in letter of the 28th Nov. last, Mr. Ross was instructed to inform the owner, Mr. Jas. Bennett, that, upon payt by him within two months, the bal., Princ. & Int., due thereon, the cancellation of the Sales would be revoked. Mr Bennett has paid the balance, which Mr. Ross forwards with his Land Ret. for Feby. In view of the facts I would recommend that the Sales be revoked and the bal. of the purchase money with Int., as paid by Mr Bennett, be accepted and credited upon the Lots.

Cancellation of Sales

The Superintendent General of Indian Affairs,

Ottawa.

Dear Sir;- Re Wm. Duxbury.

Wm. Duxbury is at present an inmate of the London Asylum for the Insane, and the Provincial Inspector of Prisons and Public Charities, for whom this Company acts as agent, is Statutory Committee of his person and estate.

We understand that Mr. Duxbury is the owner of Lots 21 & 22, Ranges 'A' & 'B' in the Township of Carnarvan, Manitoulin Island, containing 200 acres. Mrs. Duxbury in a letter which we recently received from her states that she believes there is a balance owing to the Government by her husband. Will you please let me know whether this is the case, and if so what the balance is, and when it is payable.

Sales 1324 1025 Sales 1691 + 1381

Yours truly,

J. W. Langmuir

Ottawa 24th January,I898

Sir,

In reply to your letter of the I8th Instant, asking for certain information in regard to Lots 2I & 22, Ranges A & B,in the Township of Carnarvon,which you state are owned by William Duxbury,I have to inform you that Lots 2I & 22, Con A never stood in the name of William Duxbury, on the Books of the Department. They stand,at present,in the name of Donald Calbraith,and are paid for in full.

Lot 2I,Con.B,Carnarvon,however,stands in the name of William John Duxbury,paid for in full,and Lot 22,Con.B, Carnarvon,also stands in the name of William John Duxbury,but with an unpaid balance against it of $II.46 Principal,and Interest thereon @ 6 % from the I8th June, I877,until paid. This amount ,the Department expects to be paid at as early a date as possible , the Sale has been a long time on the Books of the Department.

Your obedient servant,

T. N. McNEILL,

Asst.Secretary-

THE LETTER MAY BE SENT

Sir,

I beg to inform you that the Department experienced great pleasure upon receiving your letter of the 26th instant, enclosing a Resolution of Council, passed by the Moravians of the Thames, on the 22nd instant, asking for authority to expend, from the funds of the Band, a sum sufficient to enable them to make an exhibit of agricultural products, etc, at the Western Fair, which you state is to be held at London; and I may add that the Department is very glad indeed to sanction the outlay of $40.00 to defray the necessary expense of shipping the articles to the Fair Grounds and employing some competent person to look after them while on exhibition.

The receipted shipping bills should be forwarded here, together with an account made out in duplicate and in detail, on the regular forms, for whatever other outlay is incurred.

Your obedient servant.

Rose Bay
Sept 6th 1894

Sir

I have the honor to report the application of Alexander Slater Aikins of the town of Rose Bay. Mr Aikins wishes to obtain Patent for Lot number ten Main Street Rose Bay on improvements done on a subsection of Lot No. ten Hall Street adjoining, owing to the frontage on this being almost wholly on Water Street which at that point is low and marshy, and the approach would be practicle impossible.

At Mr. Aikins request I examined the Lot and the adjoining Lot No ten Hall Street with the improvements on, above referred to. On Lot ten Hall Street there is a dwelling on an a half Storey high 20+29 feet also an addition two Stories high 12+25 feet. I also found the approach to said Lot as above stated.

Wiarton 15th Sept 1894

Sir

Re your letter dated 14th Sept 1894, No 153,322

Yours of the 14th Instant No 150,522 with reference to the Conversation had with me when recently at the Saugeen Peninsula respecting the question of the disposition in large blocks and otherwise of the land unsold. I have to request that you will report on the subject at an early day with a view to such action being taken in the premises as may be considered advisable.

Received SEP 18 1894 LAND BRANCH

In reply I have the honor to say, that I would most respectfully recommend that such action as above intimated in reference to the disposal of the unsold lands on the Saugeen Peninsula be taken. The burnt and partly burnt rocky land be assorted in blocks of 1000 to 2000 acres as could be most conveniently got together and in unbroken lots as much as possible.

The lands that are timbered with hardwood and some cedar with in a few cases of an add pine be laid out in small blocks of say from 2 to 4 lots. such would realize more than if laid out in larger blocks for this reason

The Deputy Supt. General
of Indian Affairs
Ottawa

Indian Affairs. (RG 10, Volume 2767, File 153,522)
PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

153688

DEPARTMENT OF INDIAN AFFAIRS
SEP 18 1894

reason - that poor settlers could then compeat for them and would give them and their sons employment at, or near home for a few years any way - wherein if laid out in large blocks they could not compeat with the richer timber men

In this connection I would include all the unsold lands for the following reasons - 1st There is so very little good farming lands on the Peninsula, Outsiders that wants good farming lands will not purchase here but will, and are going to Manatoba and the North West where any amount of good land - ready cleared can be be got. Again this plan would have the tendency of settling any fairly good land in the County - A poor man with several sons getting 2-3 or 4 lots in a block, got work at home and so bettering their condition and if there was, or is 40 or 50 acres of fairly good land it would be clear-ed and cultivated, and the rough land would be an antlet for them the longer

And again, the land on this Peninsula is left in its present state the more it will, and is decreasing in value on account of the fier that destroys more, or less timber every year, after you were here the fier in several places was making great headway untill the late heavy rains put it out.

All of which is Most Respectfully submitted,

Your Obed't Servant
Wm Simpson
I. L. Agent

THIS LETTER HAS BEEN SENT

Ottawa 18th September 1894-

Sir,

I beg to acknowledge the receipt of your letter of the 15th instant suggesting a scheme for the disposal of the unsold lands in the Saugeen Peninsula and have to point out that the same would involve an inspection and re-valuation of all the unsold lands as well as a change in the present Regulations whereas if the scheme were confined to the land which is unfit for settlement the same could be disposed of under Section 6 of the existing Regulations.

I shall be glad to hear from you further on the subject.

Your obedient servant

Re your letter dated 18th September 1894.
No 153.522-

Yours of the 18th Ultimo No 153.522- Acknowledging the receipt of mine of the 15th Ultimo suggesting a scheme for the disposal of the unsold lands in the Saugeen Peninsula and have to point out that the same would involve an inspection and revaluation of all the unsold lands as well as a change in the present Regulations whereas if the scheme were confined to the land which is unfit for settlement the same could be disposed of under Section 6 of the existing Regulations.

I shall be glad to hear from you further on the subject.

Received.

In reply I have the honor to say - that by laying out the unsold lands on the Saugeen Peninsula just as they come in regular rotation, the bound lands by themselves, and the lands that are timbered and partly timbered in small blocks together. Read not necessarily involve involve an immediate inspection and valuation - but could be classified and valued the same as at the present time when they are applied for. When a Block was applied for the Forest Bailiff could be instructed

The Deputy Sup't General
of Indian Affairs

Indian Affairs. (RG 10, Volume 2767, File 153,522)
PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

be instructed to examine classify and value. Whereas if the lands that are fit for settlement were set apart for that purpose it would involve an inspection and revaluation - and the whole ground would have to be travelled over picking out a few lots here and there (the are few indeed) and setting them apart for settlement, and being so little lands fit for settlement the cost would be proportionately large.

In taking the former course to lay out the unsold lands in blocks out of a place - Considerable could be done by by Consulting the Forest Bailiffs in their respective divisions to help to classify, and single out any lands that is fit for farming purposes. And beside when a block was applied for the Forest Bailiff could be instructed to examine, classify and value the land; the same as at the present time at the cost of the Applicant.

All of which is most Respectfully Submitted.

THIS LETTER HAS BEEN SENT.

Ottawa 8th October 1894-

Sir,

In reply to your le ter of the 2nd instant I beg to inform you that it is understood therefrom that you recommend the Department to dispose in blocks of the land which is unfit for settlement under Section 6 of the existing Regulations. As however, there would be cases in which farming lands would intervene and so prevent the selling en bloc of land unfit for settlement, it might be advisable to do away altogether with settlement duties as regards the Saugeen Peninsula . If this were done, there would be no difficulty in disposing of large blocks for sheep pasture or other purposes.

I shall be glad to have your views further on this phase of the question.

Your obedient servant

Acting Deputy Superintendent General
of Indian Affairs-

William Simpson, Esq-

MEMORANDUM.

To Lds [illegible] a please [illegible]

Department of Indian Affairs.

Ottawa, 5th Nov 1894

With regard to Agent Simpson's letter of the 20th Ultimo & previous correspondence on the subject of the disposal of the land in the Saugeen Peninsula remaining unsold, & which is unfit for settlement, in large blocks, - it would seem advisable to instruct the Agent that such sales may hereafter be made under Section 6 of the Land Regulations. When an application is made for a large block, to ascertain the fact the Dept obtain permission that the land be examined under Section 6 & if found in whole or in part unfit for farming purposes, the land could be sold at a reduction without any conditions as to settlement.

In 1886 the Dept undertook to sell the land unfit for settlement in the Saugeen Peninsula in Blocks of from 200 to 500 acres, but the sale was a failure.

Up to the present no application has been made by the Dept for the purchase of large blocks for these purposes.

J. D. McLean

THIS LETTER HAS BEEN SENT

Ottawa 10th December 1894-

Sir-

With reference to previous correspondence on the subject of the disposal of the land on the Saugeen Peninsula remaining unsold in large blocks, I beg to inform you that it is observed that a large quantity of this land is being rapidly sold under Section 6 of the Land Regulations, and the question suggests itself, whether the Department should not receive a larger price than it has been receiving for this land owing to the demand therefor.

It would appear that the largest quantity of land remaining unsold in the Saugeen Peninsula is situated in the Township of St. Edmund, and it might be disposed of to advantage in large blocks as before suggested, but I should like that you would indicate some of the blocks that could be so sold and the price which you consider the Department should receive for each block.

Your obedient servant

Deputy Superintendent General

of the Land Regulations [illegible]
whether the Department should not require
a larger price than it has been receiving
for W.V. This demand is chiefly
caused by the Settlers themselves to give
themselves and their sons employment
and has the tendency to keep their
sons at home (there are a large number
of young men on the Reserve) It takes a
number of Lots to keep them going there
is so little Merchantable timber on
any of the Lots remaining unsold, it is
doubtfull if any more can be realized
for the Land than what it is selling for
as far as I can ascertain. In all of
My instructions to each Bailiff when au-
thorized to appraise the Lands are to each
case is to place a fair just value
thereon, and as far as I can manage
it none of the Lands will be sold under
a fair Value. The Settlers are anxi-
ous to secure all the Land they can and
are borrowing Money for that purpose.
In reference to the laying
the unsold Lands in St Edmund in Lots
Blocks and placing a value thereon I
would be very much helped in the
valuation by having the Forest Bailiff
of St Edmund to consult in the Matter
under your instructions, I will attend
to the Lay[illegible]out of the Blocks as soon
as I can.

CANADA

unfortunate enough
to find him from home,
the first day I called -
otherwise you would have
heard from me sooner.

So far as my jud.
ment goes - and I have
given a great deal of con-
sideration to the subject
for many years - I wd
say "let well enough alone."
The present regulations
were arrived at after
a great deal of anxious
consideration. They
seem to me fair both
to Ind and white man,
and they have without
doubt materially aided
many a poor settler in
the struggle for existence.
A struggle for existence
it literally is in many
cases in the northern
townships of this Co.
Stimmicy. as you know.
If the timber land is
being sold reasonably

CANADA

quickly under the ex-
isting regulations.
I can really see no good
reason for interfering
with them.

There are some ex-
tensive tracts covering
areas on which there is nei-
ther timber nor land
nothing but rock
secondary undergrowth -
which might be dis-
posed of for chop purs.
— Runs very decidedly
I shd say. At last the

must be a good deal
of Running done for a
very little Grass. I fear
the purchasers will
be disappointed. For,
during the dry weather,
I take it, the vegetation
suitable for Sheep will
become parched and
withered. But I un-
derstand that there
are people who are
quite willing to buy it,
and others who will pur-
chase it even pre-

Survey for deer. This
last is without doubt
what these Terms are
best suited for. Because
the natural food of the
deer seems to grow there
luxuriantly and is com-
paratively little affected
by the drought. The
preserving the deer is
however quite another
matter. But that is
fortunately not the
business of the Dept!

If in the one case we
have regard to the scanty
and precarious sustenance
for sheep that these
Terms will afford, and
on the other bear
in mind that the pos-
sibility of preserving
deer at any reasonable
expense is very problem-
atical, it becomes evi-
dent, I think, that these
Terms ~~Ought~~ be dis-
posed of as very low

DEPARTMENT OF INDIAN AFFAIRS
FEB 28 1895

Indian Lands Office
Wiarton 21st February 1895

Sir

Re your letter dated 12th January 1895, No 153,522-
and Special Notice dated 4th February 1895

Yours of the above Mentioned dates - respect-
ing the disposal of the land in the Saugeen
Peninsula which is unfit for settlement in large
Blocks, the Department has been in Correspon-
-dence with Mr. McNeill, M.P. who seems to
be satisfied as to the Manner in which the
land is, at present being disposed of, under the
existing Regulations of the Department. As how-
-ever, there are some extensive "bluffs" covering
areas on which there is neither timber nor
land, nothing but rock, I should like to know
from you whether you still consider that
some of these areas should be disposed of in
large blocks and, if so, that you will kindly
indicate the blocks without going to the
expence of employing a Forest Bailiff.
Received.

In reply I have the honor to
say - that I am still of the opinion that
a large quantity of the lands remaining
unsold should be disposed of in large blo-
-cks, in fact in my opinion can not be dis-
-posed of otherwise - as a large areas is not
fit for cultivation in fact can not be culti-
-vated, and is only fit for Ranches ~~for~~ to
keep Sheep and Young Cattle on, for a num-

CANADA

to be shure an odd Lot might be sold here and there, but this would in a measure spoil the sale of blocks for Ranching purposes

I send herewith for your consideration a list of a large quantity of the unsold lands on the Saugeen Peninsula laid out in blocks. in laying out these blocks I had a due regard to have them laid out - each block inside of the road allowances so that there would be free ingress and egress to each block, also in the Blocks neare the Lake that they had an inlet and outlet &, and from the water,

On further examination if it was found that there was some good land contained in the smaler blocks they could be disposed of otherwise, but even so the good land would sell the bad.

The blocks laid out in the township of Eastnor are altogather in an old burn, with a very small exception.

There are some of the blocks laid out in Lindsay that are not altogather in a burn but a large portion of them are - and what is not the land is rocky and not fit for cultivation except small portions here and there through them little pockets. - The acreage is given in each case.

All of which is Most respectfully Submitted.

re List of Lands in Blocks

I find in the list of unsold lands in the Township of Lindsay laid out in Blocks, sent under Cover of letter dated the 21st February 1895. I made a Mistake. In Block No 6, Con 5, W.B.R. Lots 26 and 27. these Lots are not for sale so an error in entering them on the List referred to. I send herewith a Corrected List of the Blocks laid out in Lindsay.

N O T I C E -

The Department of Indian Affairs has decided to dispose of a considerable quantity of land in the Townships of Eastnor, Lindsay and St. Edmund in the Saugeen Peninsula in large blocks for sheep and cattle ranges and without the requirement of any conditions as to settlement. These blocks can be ascertained on application to Mr. William Simpson, Indian Lands Agent, Wiarton, Ontario, Before a block is sold it will be examined by a competent man at the expense of the applicant and the price therefor determined by the examination.

Sir-

In reply to your letters of the 6th instant enclosing an amended list of unsold lands in the Township of Lindsay and recommending that the land laid out by you in blocks should be examined by the Forest Bailiff in accordance with Section 6 of the Land Regulations before a sale thereof is made, I beg to inform you that as soon as any of the Blocks are applied for you may have the same examined under Section 6 and report the result to the Department. If a sale should be made to the applicant he, will, of course, be required to pay the price of the land given by the Forest Bailiff and concurred in by you, and also the expense of the Forest Bailiff's examination.

You should endeavour to make it known as much as possible that the Department is willing to sell this land in large Blocks, free of settlement duties, but as it does not appear that there will be much demand for the same at present it is not considered advisable to incur any expense in advertizing. — The Reduced Notices Should be [illegible] & sent to those whom you [illegible]

LAND BRANCH
MAY 16 1895

DEPARTMENT OF INDIAN AFFAIRS
MAY 16 1895

Dear Sir.

I Beg to State. that I am informed ~~that~~ that the Department of Indian Affairs is going to lease or sell large tract of burnt or grazing lands in the Saugeen Peninsula of Bruce Co for grazing purposes

Will you please enquire of the Dept what is the best arrangement. I can make with them. for say a few thousand acres to lease

I would put some capital in sheep in that county provided I could get a suitable location and a large track of land - But as you see it would take so much money to start put up buildings and fences that unless the Govt would be willing to rent the land for a nominal sum at least for the first few years or sell it cheap at a low rate of int and only int or very small portions of principal to be paid for the first few years until a flock gets mightly started. Unless I could make some favorable arrangements of this kind I could not take hold of it -

Be kind enough to find out for me the best arrangements I could make with them, and if favorable I could invest about $10,000 in stocking the place

I am now intending to go out to the N. W.

Indian Affairs. (RG 10, Volume 2767, File 153,522)

PUBLIC ARCHIVES

in about a week to look for a location
But if I can make a satisfactory arrangement
with the Dept. I would prefer settling in the
Peninsula.

I trust you will let me know at your
earliest convenience and state the best they will
do. I sold all my lands here now and
I want to get a suitable new location to settle
in and that is the reason I write you this

I trust you are well.

With best regards from
Yours, Obt. Servt.

THIS LETTER HAS BEEN SENT

Ottawa 17th May 1895-

Sir-

In reply to letter of the 14th Instant addressed to you by Mr. Norman McLeod of Ripley, Ontario, asking for information respecting the disposal by this Department of Blocks of land in the Saugeen Peninsula for grazing purposes, I beg to inform you that the land in question can only be sold by the Department at a valuation to be placed thereon after the same has been examined by a competent person at the expense of the applicant. It is then disposed of without any conditions as to settlement and the purchaser receives his Patent therefor immediately upon payment of the value of the land which is sold at almost a nominal consideration.

Mr. Agent Simpson of Wiarton, will, upon application, furnish intending purchasers with information in regard to the Blocks of land which he has recommended should thus be disposed of.

~~Under existing Regulations the Department is precluded from leasing the land and can only sell the same in the manner indicated.~~

If however, the Department prefers to lease the land for a term of years, the Dept would be willing to entertain an application for the same and to grant a lease upon

Sir-

Referring to resolution of the Cape Croker Band forwarded under cover of your letter of the 1st Instant, requesting the Department to make an effort to sell lands in the Saugeen Peninsula,either by single Lots or larger parcels,to be used as hunting grounds or grazing pastures, I beg to inform you that,under the provisions of Section 6 of the Land Regulations,the local Agent has authority to receive applications for land required for the above mentioned purposes,which are unfit for settlement.

I may say that the Department is disposing of a large number of Lots,which are unfit for settlement for cash,without any conditions as to occupation and improvement,under the conditions of the above mentioned Section of the Regulations.

Sir-

In relation to resolution passed at the joint Council of the Saugeen and Cape Croker Indians held on the 8th Instant, in relation to the disposal of Islands and lands in the Saugeen Peninsula by public auction, I beg to request that you will explain to the Indians of your Agency that every effort is at present being made by the Department to dispose of the Islands and lands in question to the best possible advantage in the interests of the Indian Bands.

You will be good enough also to explain to the Indians that under the recent inspection and valuation made of the unsold lands in the Saugeen Peninsula, it is confidently expected that large tracts will be disposed of for ranching purposes and for timber limits, and in view of this fact it is not considered advisable to incur the extra expense that would be involved in offering the lands for sale by public auction, and more so, in view of the fact, that it is not thought that even if this mode of disposition were adopted, that any large quantities of land would thereby be disposed of, than by private sale.

Dear Sir:

A client of mine is seriously considering acquiring several tracts or selected parts from as listed on the enclosed memo of Bruce County lands, and I am anxious to get as complete a report as is possible to secure regarding same.

If it is not convenient for you to report on the individual sections, I will be glad if you will give as complete a statement as possible regarding the several lots which are known as lot #1, 2, 3, and as Lots #4 and 5, which contain over one thousand acres. Perhaps yous would be good enough to cover approximately the areas in fivehunded acre blocks.

WEDCO
INVESTMENT

PARTICULARS
ON REQUEST

I am sorry to trouble you for the preparation of such a lengthy report as this may have to be, but it is very important that I should have the information as correct as possible, and the Parliament Buildings in this City have given me your address in the matter.

I would like also to know approximately when this land was sold, and the timber rights, etc., were sold for, and if you have any printed memoranda of the form of agreement entered into in the selling of the timber rights therefrom, which will give us a correct statement of the possible timber to be left on the property, and the date when the present timber rights expire, the same will be much appreciated.

There is considerable talk about an electric or steam car road being run up through this Peninsula to Tobermory. Do you know if there is any probability of anything of this nature being done through the information at Ottawa?

Yours very truly,

DEPARTMENT OF INDIAN AFFAIRS. OCT 1899

Indian Office, Brantford.

September 30th, 1899

Sir.

Mrs. Phoebe Vanevery having sold her improvements on the W½ of the N½ Lot No. 18, Concession 3, in the township of Tuscarora, to William Fishcarrier, a member of the Lower Cayuga band of the Six Nations, with the approval of the Chiefs in Council, desires to lease the same to Mr. Daniel Bergin upon the enclosed agreement.

LAND BRANCH OCT 3 1899

Mr. Bergin is at present the Lessee under Official Lease No. 38, dated the 27th September 1884 and expires this fall.

Mr. Fishcarrier is in very poor health and unable to work any land himself. I beg to recommend that you approve of same and have a Lease granted upon the enclosed agreement.

MEMORANDUM.

Ottawa 27th October 1899-

To the Secretary,

I beg to recommend the issue of a lease of the 50 acres, W½ of the N½ of Lot 16, Con.3, Tuscarora, to Mr.Daniel Bergin for 5 years from 1st October 1899 on shares as follows:- The Lessee to deliver to the Locatee or to his order one-third of all the proceeds and crops produced on the land of every kind and description(except the straw) to be divided on the premises as follows:- all grain to be divided as it comes from the threshing machine and the balance of the proceeds to be divided when ready in each and every year. The first distribution to be made in the Fall of 1900.

The Lessee to deliver the share or shares of the Locatee at any place on the Reserve when requested by the Locatee or his order.

No Bond to be given as land is leased on shares.

The above lot now belongs to William Fishcarrier who is in very poor health and unable to work any land.

Mr.Cameron recommends that a lease be granted to Mr.Bergin on the above terms.

The land has been under lease to Mr.Bergin for the past 5 years.

Sept- 12th 1894

Sir.

I beg to enclose agreement between Elizabeth Mike and George Burns to lease or sheep the S W 1/4 Lot- 3 Con 3 Tuo for the term of five years, and beg to recommend that you approve of same and grant permission to the said George Burns to reside on this reserve during the term of enclosed lease.

I beg to ask that the enclosed agreement be returned to me so same can be filed here and refund to at any time by either party.

I am

Sept. 19th 1894

Sir,

I beg to acknowledge the receipt of your letter of the 18th inst. No. 153,553 requesting me to state how the case of Elizabeth Mike can be brought under the provisions of Sec. 3 Chap. 32-57. 58 Vic, which repeals the 38th Sec of The Indian Act &c.

In reply I beg to state that I have not received any notice of the repealing of the 38th Sec, of the Indian Act.

It was not my intention to ask for a Departmental lease, but simply for permission for Mr George Breen to reside ~~on the Reside~~ on the Reserve. Mrs Mike will not receive the profits for herself, but for her infant child, whom she supports and who is the heir to this property ~~as~~ explained in agreement forwarded you on

on the 12th instant.

When Mr Reed was here last Spring he said that land could be worked on shares. so I forwarded a copy to you in order that you would be aware of the bargain, and I asked that same be returned to me. Elizabeth Mike and her husband Wm Mike are residing in Hagersville off the Reserve.

I hope you will consent to Mr Beem residing on the Reserve. I have known him for some years, and can recommend him as a good and proper person to reside among the Indians.

LAND BRANCH
OCT 1 1894

Sir,

I beg to acknowledge the receipt of your letter of the 24th inst No 153,553 returning an agreement for lease of the S.W. 1/4 of Lot No 3 Con. 3. Tuscarora in order that a new agreement may be drawn in favor of the infant child of the late Thomas Woodruff for whose benefit you informed me on the 21st inst. an official lease would be granted under chap. 32 sec. 3.-57-58 Vic.

In reply I beg to state that I am at a loss to know how an agreement can be drawn, as it requires two persons to an agreement and the infant child of the late Thomas Woodruff is but 7 years of age, and I beg to ask how an official lease can be granted when the child is neither an orphan nor neglected. By the agreement I sent you it is clear-

ly

Indian Affairs. (RG 10, Volume 2767, File 153,553)

ly set out that Mrs Mike has no interest whatever in the land she has left the Reserve in accordance with the notice served last spring and simpley asks that she receives profits of her infant chiefs farm whom she supports, until he can do something for himself. I am sure that the amount she will receive from her chiefs farm will not be sufficient to repay her. On the land register I have entered the Chief as owner, so his mother Elizabeth Mike cannot dispose of the property or have any interest in it.

The property is in a bad shape and had considerable difficulty in getting any person to work it. In the agreement I sent you Mrs Mike was bound to make certain improvements, but of course understands that she is no way can claim any interest in the property

If you cannot grant a lease, I beg to suggest that permission be granted Mr. Breen

Les Chefs de la tribu Huronne de la Jeune Lorette, régulièrement assemblés, par leur résolution expose très respectueusement:

Que depuis très longtemps, ils ont toujours possédés un Canon (artilleur) à l'entrée de leur Village et qu'aux Jours de fêtes, lors des visites distinguées, faits au Village, ils ont toujours été fiers de saluer par la voix du canon, les personnages éminents qui les visitaient.

Que par vétusté la monture du dit Canon est complètement détruite et qu'il serait nécessaire de la réparer sans délai

Que les réparations requises pour refaire la monture du dit Canon ne couterait que ($8.00) huit piastres.

Pourquoi les Chefs par leur résolution, demandent que la somme de ($8.00) huit piastres, soit payée à Daniel Groslouis, pour rencontrer les frais de réparations susdites, dont le dit Daniel Groslouis est Chargé de faire

Et les Chefs ne cesseront de prier.

DEPARTMENT OF INDIAN AFFAIRS
SEP 17 1894

Monsieur,

J'ai l'honneur de vous transmettre une résolution des Chefs de la tribu Huronne demandant au Département d'octroyer la somme de huit piastres (8$.00) pour reconstruire la monture en bois du canon que, de temps immémorial, les Hurons gardent à l'entrée de leur Village et dont ils se servent aux grands jours de fêtes.

Le canon est maintenant par terre; la Stalle étant complètement pourrie.

Cette somme de huit piastres ne sera que le Coût exact des travaux de réparations qui, une fois faites, seront un ornement pour le Village des Hurons.

Je ne puis m'empêcher de recommander spécialement la requête des chefs afin qu'à la prochaine occasion, les sauvages puissent saluer dignement leurs distingués visiteurs.

J'ai l'honneur d'être, Monsieur,
Votre obéissant serviteur,

PRINTING AND
TRANSLATION,

J.D. McLean Ecr., Sécrétaire,

Département des Affaires des Sauvages

328669 OTTAWA.

Monsieur,

De temps immémorial, à l'entrée du Village des Hurons de Lorette, en face de l'église, la tribu a toujours possédé un canon dont les Sauvages se servent aux grands jours de fêtes. Ce canon est maintenant par terre, la monture en bois étant complètement pourrie. Cette Stalle du canon, de mémoire des anciens de la tribu, a toujours été fournie ou renouvellée par le Département.

Les chefs m'ont consulté à ce propos et de leur part, j'ai [redacted] cru faire au Département, la demande des frais de cette monture du canon.

Vu les grandes fêtes qu'il y aura à Québec, en Juillet prochain, à l'occasion du III Centenaire de la ville, le missionnaire les chefs et moi même se proposent de tenir le Village dans une grande propreté, c'est pourquoi ils demandent au Département de leur faire la faveur de faire les frais d'une nouvelle monture du canon afin de le faire fonctionner pour saluer dignement les distingués personnages qui visiteront la tribu à cette époque.

Je n'ai aucun doute que le Département satisfera à cette ligitime demande faite, évidemment, dans un but de loyauté et de patriotisme.

Le missionnaire et les chefs seraient heureux d'avoir une réponse favorable aussi prompte que possible.

J'ai l'honneur d'être, etc

Dept. of I.A.,
Ottawa.

ACCOUNTANT'S BRANCH JUN 3 1908

Sir,-

From time immemorial, at the entrance of the village of the Hurons of Lorette, facing the church, the band has always possessed a cannon, of which the Indians make use on great occasions. This cannon is now on the ground, the wooden mount being completely decayed. This stand for the cannon, in the memory of the old men of the band, has always been supplied or renewed by the Department.

The chiefs have consulted me in this matter, and I think it right to ask the Department to pay the expense of this mounting of the cannon.

In view of the great celebration that will take place at Quebec in July next on the occasion of the Tercentenary of the town, the missionary, the chiefs and myself propose to put the village into a very nice tidy condition; that is why they ask the Department to do them the favour of paying the cost of a new mount for the cannon in order that it may be used to salute in a worthy manner the distinguished persons who may visit the band on that occasion.

I have no doubt that the Department will accede to this legitimate request, made evidently with the object of loyalty and patriotism.

The missionary and the chiefs will be glad to have a favourable reply as promptly as possible.

I have, &c., A.O.Bastien, I.A.

Sir,-

In reply to your letter of the 3rd inst. in which you ask me to inform the Department of the cost of mounting the cannon, I have obtained the necessary information from a workman. The lowest price to do this work is $12.00.

I ought to have got this information when I wrote my letter of May 25, last; but better late than never, and I hope the Department will authorize me without delay to incur this small expense, as time presses.

I have, &c.,

A. O. Bastien,

ACCOUNTANT'S BRANCH OCT 15 1908

Sir,-

In accordance with your letter of June 24, last, in which you informed me that I might make a new mounting for the cannon of the Huron village of Lorette, I transmit herewith for payment the account of $12.00 in favour of Mr. Gaudiose Verret who constructed this mounting on which he put two coats of paint and one coat of tar. The work has been very well done.

DEPARTMENT OF INDIAN AFFAIRS
SEP 3 1915

Hobbs Dept. 1

Jeune Lorette, Aug.26,1915.

The Secretary,

Dept. of Indian Affairs,

Ottawa.

Sir,-

I have the honour to transmit herewith for payment an account in duplicate from Mr.Charles Grouslouis amounting to $55.00, of which $50.00 is for the building and erection of a flag-pole on the Lorette reserve, opposite the chapel in the Huron village, and $5.00 for making a stand for the old cannon of the band. The chiefs undertook to have this flag-pole erected to replace the old one, which had fallen down.

I inclose at the same time a resolution signed by the chiefs, who hope that the Department will hasten to settle this account for $55.00 of Mr.Groslouis.

I have,etc.,

A. O. Bastien,

Indian Agent.

To Wit.

In the matter of Lot No. 30 Cons. 8 in the Township of Robinson in the District of Manitoulin, Ontario.

I Wm. Henry Farthing of the Township of Robinson in the District of Manitoulin, Forest Bailiff.

Do Solemnly Declare that I have examined Lot No. 30 Cons. 8 in the Township of Robinson and that the land and timber thereon I value as follows.

1st. That the land is unfit for farming purposes that it is only fit for grazing and that I place the value at 10 cts. per Acr. 100 00

2nd. That I found Soft Wood which will measure 55 Cords, which I value at 20 cts. per Cord. 11 00

3rd. That there is no other timber on said Lot of any commercial value.

21 00

And I make this Solemn Declaration conscientiously believing it to be true and knowing that it is of the same force and effect as if made under oath and by virtue of "The Canada Evidence Act, 1893."

Declared before me at Silver Water in the District of Manitoulin this 6th. day of May, 1901.

Ottawa 28th December 1901-

Sir-

I beg to acknowledge the receipt of your letter of the 24th Instant, stating that Captain R.L. Graham has made application to purchase Lot 5, Con 10, Robinson, under Section 6 of the Land Regulations, and in regard thereto would beg to call your attention to Official letter to you of the 4th May last, in which the sale of this Lot was authorized to Mr. Thomas M. Lloyd, based on a valuation of Mr. Forest Bailiff Farthing, dated 29th April 1901.

If Mr. Lloyd is not desirous of completing the purchase of this Lot, you may now sell it at the valuation placed thereon under the report above referred to, namely $16.00 cash, the land without any conditions as to settlement and the timber free of dues, unless you know of some reason why a fresh valuation should be made. Mr. Graham will, of course, be required to pay the cost of the Forest Bailiff's examination, in addition to the cost of the land.

This Indenture made in Triplicate

this Twenty-sixth day of September in the year of our Lord one thousand eight hundred and ninety-four

BETWEEN The Superintendent General of Indian Affairs of the First Part Jacob S. Johnson an Indian of the Six Nations Reserve of the Second Part and George McDonald of the Township of Townsend, Farmer of the Third Part.

WHEREAS it is in and by the 38th Section of "The Indian Act, 1886," amongst other things in effect provided, that in cases of aged, sick and infirm Indians, and widows or children left without a guardian, the Superintendent General of Indian Affairs shall have the power to lease the lands to which they may be entitled for their support and benefit.

AND WHEREAS the said Jacob S. Johnson is a Merchant within the meaning of the said Section, and the said Superintendent General has agreed to lease the lands hereinafter mentioned belonging to the said Jacob S. Johnson to the said lessee upon the terms and conditions hereinafter contained for the support and benefit of the said Jacob S. Johnson

WITNESSETH that in consideration of the rents, covenants and conditions hereinafter contained the said Superintendent General of Indian Affairs doth hereby demise and lease unto the said party of the Third Part all those parcels or tracts of land situated in the Township of Tuscarora in the County of Brant in the Dominion of Canada, containing by admeasurement One Hundred and Forty Acres be the same more or less being composed of the South half of Lot Number Twenty and the South East forty acres of the South half of Lot Twenty-one, all in the Fifth Concession of the said Township of Tuscarora,

[Form No. 64.]

TO HAVE AND TO HOLD the same unto the said Lessee for and during the term of Five years, to be computed from the First day of October, eighteen hundred and ninety-four.

And the parties hereto hereby respectively covenant and agree each with the other, as follows:—

That the Lessee shall pay to the said party of the first part yearly and every year during the said term for the support and benefit of the said Jacob S. Johnson the clear yearly rent or sum of One Hundred and Fifty Dollars payable on First day of October at the end of each year.

The first yearly payment of rent as aforesaid to be due and payable on the First day of October one thousand eight hundred and ninety-five.

That the said Lessee shall well and sufficiently repair and keep repaired the erections and buildings, fences and gates, erected or to be erected upon the said premises; and also shall and will, at the expiration or other sooner determination of this lease, peaceably and quietly surrender the premises hereby leased in such good and sufficient repair as aforesaid, reasonable wear and tear being allowed.

That the said Lessee shall, during the said term, cultivate, till, manure and employ such part of the said demised premises as is now or shall hereafter be brought under cultivation in a good husband-like and proper manner, so as not to impoverish or injure the soil, and at the end of the said term will leave the said land so manured as aforesaid, and will crop the same during the said term by a regular rotation of crops in a proper farmer-like manner, and will use his best and earnest endeavours to rid the said land of all docks, wild mustard, thistles and other noxious weeds, and will preserve all orchard and fruit trees (if any) on the said premises from waste, damage or destruction; and will spend, use and employ, in a husband-like manner, upon the said premises, all the straw and dung which shall grow, arise or be made thereupon; nor shall he, except under the license of the Superintendent General of Indian Affairs or the duly appointed Agent of the Reserve of which the lands hereby leased form a part, cut, or allow to be cut, any wood or timber, ~~except for fuel or fencing of lands covered by this lease,~~ or sell or otherwise dispose of any wood or timber standing or lying upon the said lands.

And the said Lessee covenants to pay the said yearly rent on the days and times the same shall respectively become due as aforesaid, and also well and truly to pay all taxes and charges, dues and duties whatsoever which now are, or hereafter shall, during the said term, be payable in respect of the aforesaid premises, whether the same be rated or assessed on the landlord or the tenant thereof; and shall not, nor will sell or permit or suffer to be sold or used on said premises any spirituous liquors, ale, beer, or intoxicating beverage whatever.

The said Lessee agrees not to cut any trees or standing timber for any purpose whatever except under proper written authority.

The said Lessee to do all repairs and to return all straw each year to the land hereby leased.

Indian Affairs. (RG 10, Volume 2768, File 153,761)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The said Lessee shall be governed during the term of the present lease by the provisions of Section 33 of the "Indian Act, 1886," which shall apply to the said Lessee so long as he holds the lease of the above described premises as if he were an Indian of the Six Nations Reserve.

The said Lessee covenants with the said party of the First Part, that he will not, at any time during the said term, assign, transfer, or sublet the said premises hereby demised, or any part thereof, without the consent in writing of the Superintendent General of Indian Affairs first had and obtained, which said consent in writing, it is also declared and agreed, shall be necessary to a second and subsequent assignment or transfer of the premises or any part thereof, or any interest therein, nor shall he do or suffer any act or deed whereby the said term or interest therein or any unexpired part thereof shall or may be taken in execution, seized or sold.

PROVIDED ALWAYS that if the said yearly rent hereby reserved or any part thereof shall be in arrear for forty days after any one of the days appointed for payment thereof, as aforesaid, whether the same be demanded or not, or in case of breach of any of the covenants herein contained, then and in every such case it shall be lawful for the party of the First Part, his successors or assigns, into and upon the said premises or any part thereof in the name of the whole to re-enter and the same to have again, re-possess and enjoy as if this lease had never been made, and the said Lessee and all persons claiming under him to expel, put out and remove, anything hereinbefore contained to the contrary notwithstanding.

PROVIDED ALWAYS that if any portion of the tenements or hereditaments hereby demised shall be under a lease to any other person, then this lease shall be considered as excluding such land without thereby causing any diminution of rent.

IN WITNESS WHEREOF the parties hereto have hereunto set their hands and seals the day and year first above mentioned.

Signed, Sealed and Delivered,
IN THE PRESENCE OF

As to the Signature of the Deputy Supt. Genl. of Indian Affairs.

Sir.

I beg to return lease in triplicate in favor of Mr. George McDonald for parts of Lots 20 and 21, Con. 5, Tuscarora together with bond not Exeecuted.

Mr McDonald refuses to execute lease on account of the bad state of repairs of the buildings and fences on the property.

He says that the floor of the barn has been removed and the rails of the back fences have been taken away since he agreed to lease the property.

I will fully report to you the action of the Chiefs concerning This property under separate cover it is a portion of the Estate of the late Isaac Duncan deceased.

INDIAN AFF. SEP 20 1894

Brantford Ont
Sept 13th 1894

I beg to report investigation held by me on 7th inst in reference to the South 75 acres of Lot 17 Con, 5 Tuscarora, and to enclose evidence taken under oath.

The Chiefs at their Council meeting held on 8th August last decided that "this property be divided between James Longfish and his sister Mrs Esther Joseph they being the lawful heirs of the late Mrs Ellen Williams." From this decision Mrs Jemima Parker appeals. She claims the property under an agreement as well as a quit claim Deed dated the 27th of October 1892 and which was confirmed by the Chiefs on the 6th day of September 1893.

The evidence shew that Mrs Ellen Williams was owner of this property. The claimant Jemima Parker is her daughter and

I think that the claim of Mrs Parker to the South 75 acres is doubtful whether Mrs Joseph entitled to any thing by Mrs Parker's Will

24/9/94 J.M.

Indian Affairs. (RG 10, Volume 2768, File 153,789)

ARCHIVES PUBLIQUES
CANADA

153789

and some twelve years ago left this Reserve and secured employment in the United States, and in about a year afterwards she married her husband Frank Parker a non-treaty Indian residing and a member of the Seneca Band Tanawanda Reserve, New York State.

Shortly before her marriage her mother wrote her asking that she and her husband come to this Reserve and that they all live together. One week after their marriage Mrs Parker and her husband came to this Reserve and first resided on lot 18 Con 5 Tuscarora which was owned by Jacob Williams father of Mrs Parker. After a few days Mrs Williams who owned the lot now in dispute together with Mr and Mrs Parker moved and took possession of said lot 17. There was no bargain as stated on page 4 of evidence except Mrs Williams' request that Mrs Parker and her husband

Indian Affairs. (RG 10, Volume 2768, File 153,789)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

153789

husband to support her and assured them they would lose nothing by it, to this Mrs Parker swears, that she did not know what she meant until the writings were drawn some years afterwards.

The Quit Claim was executed by Mrs Williams dated 27th October 1892, consideration being long and faithful service in lodging, boarding and clothing Mrs Williams by Mrs Parker. This Quit Claim was confirmed by the Council on the 6th of September 1893.

Mrs Williams died on the 17th August previous. By Section 12 of the Indian Act, Mrs Parker ceased to be a member of the Band when she married Mr Parker. She therefore cannot acquire any land on the Reserve, and I submit cannot claim ownership of property.

Section 16 of the Indian Act provides that no Indian shall be dispossessed of any land on which he has improve-

ments

Indian Affairs. (RG 10, Volume 2768, File 153,789)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

ments without receiving compensation therefor. It is claimed by Mrs Parker that she and her husband have made improvements on this property and cannot be dispossessed without compensation. By the interpretation clause of the Indian Act "Indian" means any person of Indian blood reputed to belong to a particular Band. 2ndly Any child of such person. 3rdly Any woman married to such person. And the expression Band in the interpretation clause, means any tribe band or body of Indians who own the Reserve &c. Therefore the word "Indian" in Section 16 of the Indian Act does not apply to Mr Parker and therefore his claim for compensation for the improvements must fail, and as Mrs Parker was married before she claimed or had any interest whatever in this property by Section 12 of the Indian Act her claim

must

Indian Affairs. (RG 10, Volume 2768, File 153,789)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

153789

must fail also.-

Again on the other hand. If you decide that Mr & Mrs. Parker should be paid for improvements before they be ejected, then the question to decide is what amount should they be paid.

They have been in occupation of this land for over 11 years, and by Mr Parker's evidence he completed a log house which was partly built, cleared 4 acres, of which two has been ploughed and repaired the old fences, but did not build any new ones. Surely such cannot be considered improvements sufficient to demand compensation, after so many years residing there without ever building a barn which would be most necessary.

I submit that Mr & Mrs Parker from the evidence were supported by Mrs Williams and not Mrs Williams by them.

The property was rented on shares, so how can Mr Parker claim he supported Mrs Williams.

If

Indian Affairs. (RG 10, Volume 2768, File 153,789)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

If he made the bargain to rent on shares he did so as agent for Mrs Williams, and during Mrs Williams' life time neither Mr nor Mrs Parker did any act of ownership over this property

The evidence shows that Mrs Parker paid Mrs Esther Joseph one of the claimants herein $30 ×× for 3 acres of this property. I think that Mrs Joseph should repay this amount to Mrs Parker, and that Mr & Mrs Parker's claim fail and Mr Longfish and Mrs Joseph be placed in possession as decided by the Chiefs

In the matter of the claim of S½ of Lot 17 Con 5 Tuscarora.

Evidence

Jemima Parker sworn saith. I am a member of the Seneca Band and on the pay list of the Six Nation, I live on the lot in dispute. I have resided there for over eleven years. It was about 12 years ago since I left for the United States and succeeded in getting employment as a domestic. After being there for about a year my late mother Ellen Williams owner of the property in dispute wrote to me, to come home and that we meanng my husband and me could all live together on the property and support her. I have not that letter in my possession. My husband is a member of an Indian Band in the States when I was in the United States of the said year

I met my husband for the first time and we were married on Wednesday and received a letter from my mother ~~referred~~ to on the following Saturday and my husband and I came over to Canada on the following Wednesday. We were married in the month of December, but I cannot tell the year. My late mother was not acquainted with my husband until we came here. My mother frequently wrote to me while I was in the States, she could not write herself but she got some one to write for her. Mr David Helge did most of the writing for my late mother. I frequently sent letters to my late mother getting some one to write for me as I could not write myself. I wrote my mother about 6 months before I was married and told my mother about it. informed my mother of my intended marriage.

My husband and I were keeping company for about 3 months before we were engaged to be married. I met my husband about 2 weeks after I was in the States. My husband and I were married by a Baptist Minister by the name of the Rev. Mr Griffin. When my mother asked me to come home with my husband shortly after we were married she did so for the first time - my husband's sisters name was Laura Doctor. She wrote for me more than once. The people where I was working wrote more letters for me than my husband's sister. When I and my husband came over here ~~on~~ we lived a few days at my fathers then we went over and lived on the property in question

My

My husband is a mechanic and did not altogether get our living off the farm in question. I claim the property because my late mother gave me a Quit claim of the property as a compensation for my supporting her. When I came over with my husband my late mother and I did not make any bargain except that my late mother requested me and my husband to support her and assured us that we would lose nothing by it I did not then know what she meant. I did not know what she meant until she gave me writings and said that she had the property in question secured to me so that I would not be disturbed. There were two writings made one by Chief Josiah Hill and the other by Mr David Hall, the one drawn up by

Indian Affairs. (RG 10, Volume 2768, File 153,789)

by Mr David Hill was confirmed by the Council but the other was never submitted to them. My late mother died about a year ago, and was living with me and my husband up to the time of her death. She made no will. My father died a short time before my late mother. My late mother owned the property in dispute at the time of her death. I do not know how my mother came by this property. Mother had the property in question before she married my late father Williams. My mother was first married to a man by the name of Longfish and had three children by him one of whom died in infancy and unmarried and two are now living viz: James Longfish and Hester Joseph both members of the Reserve. And by my father Williams my mother had

five children. 2 died without leaving issue and two are now living and one died leaving issue.

I paid my mother no consideration for the property in question, Esclept for her support. Hester Joseph one of the heirs of my late Mothers first husband conveyed to me 3 acres of the lot in dispute for which I paid her $30 xx. This was never brought before the Council. My late mother had sold this 3 acres to Hester Joseph from whom I purchased it. My father and mother were living together on Lot 18 being my late father's property when my husband and I came from the States. After we took possession of Lot 17 my late mother came and lived with us and we supported her. I own no other property on the Reserve esccept this in question The Chiefs decided that Lot

Frank Parker sworn saith,
I am the husband of the previous
witness. I am member of the
Seneca Band in the United
States and draw interest money
from that Band. I came here
about 11 years ago with my
wife as stated in her evidence.
I supported the late Mrs Williams
when I took possession of this property about
11 years ago. I had 75 acres
of which 25 were improved.
The improvements amounted
to an old house, which is
still on the property and
a very poor fence which
enclosed the whole of the
South half. There were
about 50 acres of bush
on the property. The im-
provements

provements ~~now~~ now amount to a log house which was partly built when I came there and which I completed and in which we are now living. being 24 x 18 feet and the old house which is still on the property. I have cleared about 4 acres 2 of which has been ploughed and 2 is yet unbroken. I prepared the old fences but did not build any new ones. There is no barn on the property and there never was to my knowledge. I value the log house at $125 ± I mean I could build the house, and supply the material for $125 ± I got none of the material for the house off the property. My wifes father gave her a cow and with this cow I purchased the logs for the house I built. I now own one horse & 1 cow, which was given to my wife by her late mother. I have no plough

harrows, or any farming implements. I worked the farm the ferst year myself. I had in Oats peas corn and Potatoes, After that I used to rent it on shares, and I would only put in a few vegetables myself. I received ½ of what was raised. I am a Carpenter by trade and got employment on the Reserve, I was paid cash and orders on the stores for my work. I worked at whatever I could get to do. I received very little for my share of the place. I own no land on this Reserve, but I own 30 acres in the States which I rent. When Mrs Williams died we buried her, by selling a cow that she owned. The time my wife's mother died she had a cow, which I sold for funeral Expenses. I paid Mrs Williams nothing for the place, I received every thing

for 3 persons. My sister was aged and infirm, being over 72 years of age when she died and she required a great deal of attention. I do not think that any person could be boarded for less than $100 ±± per year. I consider that the land which is cleared would be worth $2 ±± per acre per annum. I consider that the farm would be worth about $400 ±±, that is the 75 acres. The fences on the same would be worth about $100 ±±. The bush on the property is so thick that it is not fit for pasture. The property in question formerly belonged to my late father, before his death he sold it to my late sister Ellen Williams. I lay no claim to it whatever. I was present as one of the Chiefs on the 8th of August when they decided that this property in question be divided between James Longfish and

Chiefs decided
owner to be P

Ottawa 24th September 1894-

Sir,

In reply to your letter of the 13th instant I beg to inform you that from the evidence submitted the Depar'ment considers that the claim of Mr. & Mrs. Parker to the South 75 acres of Lot 17,Con 5,Tuscarora,must fail on the ground that Mrs. Parker's marriage with a non-treaty Indian caused her to forfeit any right she had to land on the Reserve;and that Mrs. Esther Joseph and Mr. James Longfish should be placed in possession as decided by the Cheifs on the 18th August last .

The Department considers,however,that it is doubtful whether Mrs. Joseph can be forced to pay Mrs. Parker the $30.00 for the 3 acres which Mrs. Parker purchased from her but an Effort should be made to have the same paid

February 13th 1895

Sir.

I received the attached letter from Mr Festus Johnson a member of this reserve, asking me to eject Mr and Mrs Frank Parker from the E½ of the South 75 acres of lot 17 Con 5 Tuscarora.

I reported to you on 13th Sept last the investigation held by me under oath in reference to the claim of Mr and Mrs Frank Parker to the South 75 acres of lot 17 Con 5 Mrs. You notified me by your letter of 24th September last No 153.789 that Mr and Mrs Frank Parkers claim to said property must fail on the grounds that Mrs Parker's marriage with a non treaty Indian caused her to forfeit any right she had to land on the Reserve, and that Mrs Esther Joseph and Mr James Longfish should be placed in possession as decided by the

the Chiefs on 18th August last.

You also informed me by letter of 17th December last No 15-6.862 that you approved of Chiefs decision locating James Longfish & W½ and Eastern Joseph & E½ of said South 75 acres of lot.

James Longfish by Pinet claim and dated 6th October last and confirmed by the Chiefs in Council on 4th December last surrendered his interest in said W½ of South 75 acres of said lot & Mrs Jemima Johnson who is now the recognized owner of said property.

I have requested Mrs Parker to quit and give up possession of said property, but she refuses and in fact defies any person interfering with her. They are doing considerable damage and should be ejected.

Will you consent to my ejecting Mr and Mrs Parker from said property.

Mrs Parker is a non treaty Indian and owns property on the Tonawanda Reserve. New York State.

DEPARTMENT OF INDIAN AFFAIRS MAR 12 1885

Sir,

I beg to enclose account of Constable David Garlow for the sum of $8.40 being costs effecting Mr and Mrs Frank Parker from the South part of lot 17 Con 2 Onondaga, as instructed by your letter of 16th February last.

I directed my warrant to Constable David Garlow and instructed him to first call on the Parkers and show them his authority, and ask them to leave, This he did taking one Festus Johnson with him, Parkers refused to go saying they owned the property. Garlow told them he would return next day and eject them if not away. When he returned the following day he found them still there, and offered resistance he summoned aid, and ejected them, They are now living in Onondaga.

I beg to recommend that the enclosed account be paid and I be instructed to deduct amount from Mrs Frank Parkers interest moneys.

19 Augt/95

Sir:-

As it appears advisable to keep a record of the dates of all bonds furnished by guarantee companies on behalf of Indian Agents in order that they may not be allowed to lapse for want of renewal, I should be obliged if you would have the enclosed list of such bonds examined, and, if this list should not include all bonds of this nature now in the custody of your Dept., I should be glad to be supplied with a list of any such bonds as are not included in the list now enclosed.

As these bonds now stand, they appear to have lapsed with the exception of that on behalf of Mr. Wm H. Price, ~~Your obt. Servant~~ the renewal receipt for which I sent you under another cover.

Your obt. Servants-

To the
Deputy Minister.

With reference to your decision that Agents in British Columbia shall not be required to give security, I beg to report that the following officers in British Columbia have supplied bonds:-

A. W. Vowell, $5,000, by bondsmen
W. E. Wood, $2,000 do
Frank Devlin, $1,000 do
Ewen Bell, $1,000, Guar. Co.
R. L. T. Galbraith, $1,000, by bondsmen
H. Guillod, $1,000 do

Agents Lomas, Loring, Pidcock and Todd are not under bonds.

As Agent Bell is under expense to a guarantee company, would it not be proper to notify him that he need not renew his bond?

H. C. Ross

THIS LETTER HAS BEEN STAMPED

E. L. Newcombe, Esq;
Deputy Minister of Justice,
Ottawa.

October 25 1895-

Sir:-

It has been the custom of this Dept. to require its Agents to furnish security bonds for the proper performance of their duties, the amount of security to be given depending on the amount of money passing through the hands of each Agent. In a few cases where Agents receive very small salaries and either no money or handle only very small amounts of money, and these only occasionally, the Dept. has not exacted security.

I should be glad to receive the opinion of the Solicitor of Indian Affairs as to whether this Dept. is legally at liberty to use its own discretion in the

Indian Affairs. (RG 10, Volume 2768, File 153,802)

matter or is it compulsory that security should be furnished by every Indian Agent. Some of the Agents, finding it very difficult to obtain bondsmen, have gone to the expense of giving the bond of a guarantee company, and they complain of being put to this yearly expense. (were to been freed to live in isolated localities)

As the Dept. is at present in communication with its Agents on the subject, I should be glad to receive a reply at your early convenience.

987/95.

Ottawa, 28th October 1895

S i r;-

I have the honour to acknowledge the receipt of your letter of the 25th instant - No.153802 - on the subject of the security to be given by Indian Agents,and in reply I beg to state that in the absence of any provision by statute or Order-in-Council regulating such matters,and so far as such provision does not extend,it is competent for the head of your Department to decide as to what Indian Agents shall furnish security. I do not know of any statute or Order-in-Council laying down rules on this subject,although,of course, there may be such Orders-in-Council of which I am not aware. The Act respecting Public Officers (R.S.C.,cap.19) merely regulates the form and manner of security to be furnished by such officers as are aliunde required to give it,the registration of bonds,the penalties for not providing the security so required,and so on.

I am,

S i r,

Your obedient servant,

J Mewcombe

Deputy Minister of Justice.

Sir,

In reply to your letter of the 19th instant,addressed to the Deputy Provincial Registrar,and referred to this Department,I beg to say that it is not the custom of this Government to bear the expense of security bonds given by guarantee companies on behalf of Government Officials.

In two cases of officials,owing to particular circumstances,the Government is,for the present,paying the premium on their security bonds,but it has never done so in the case of any Government Agents or Revenue Officers.

I have the honor to be,

Sir,

Your obedient servant,

Department of Indian Affairs.

Ottawa, 4th Feby 1896

MEMO. The Deputy Minister.

With reference to security bonds furnished by Indian Agents, in the case of the bond of a guarantee company so long as the policy is renewed the security remains good, and by keeping a record of the dates of such bonds, hereafter these ought not to be allowed to lapse; but in the case of the joint bond of two sureties, one or both of the bondsmen might be dead after a period of 10 years or might have removed to another county and his or their whereabouts become unknown, and then, in the event of any default on the part of the Agent, the Department might have no recourse for its loss.

Would it not be well in the case of bonds that have been in existence for 10 years or longer to ask the Agents on whose behalf they were given whether their bondsmen are still living and what is their present address?

Respectfully submitted,
H. E. Ross.

Deleted 153979

WALKERTON Nov. 8, 1894

Dear Sir,

Two days ago I inspected the Saugeen Indian School on the Saugeen Reserve. Miss Laura Allen is teacher, I understand being recognized by the Indian Department. Her term expires Nov. 20th. I would recommend that her services be retained until the end of the year.

I was much pleased with the work she has done. Her pupils stood one of the best examinations I have ever held in an Indian School.

I believe teachers with certificates can be obtained for next year otherwise I would be much pleased to see her stay and I think but few of them will do better work if my one inspection is a correct estimate of her ability.

Your humble servant,

W. S. Clendening

Supt. Ind. Aff.,

I have the honor to inform the Dep't that Miss Allie Miller Teacher of the Sangeen Indian Village School has resigned her situation as Teacher of the above named School.

I would recommend that her resignation be accepted by the Dep't.

I may say that Miss Miller intends to leave the profession otherwise I would like to retain her.

Will the Dep't kindly advise me at their earliest convenience in the above matter.

Sir,

I have to acknowledge the receipt of your letter of the 23rd instant reporting the resignation of Miss Ollie Miler,teacher of the Saugeen Indian Village school;and in reply I beg to say that her resignation may be accepted but the Department would like her to keep on teaching until a successor is appointed .

You should communicate with the Public School Inspector for your district and ask him to suggest the name of a duly qualified person holding a teacher's certificate who would be willing to take charge of this school at the same salary paid Miss Millar,-namely $300 per annum.Be good enough to submit any applications received with recommendations and certificates of qualification to the Department .

IN REPLY REFER TO DATE OF THIS LETTER, AND ADDRESS THE GENERAL SECRETARY, Methodist Mission Rooms, TORONTO.

The Methodist Church,

MISSIONARY DEPARTMENT,

215891

DEPARTMENT OF INDIAN AFFAIRS NOV 10 1899

(Dictated.) Toronto, 9th Nov., 1899.

SCHOOLS. NOV 11 1899

Sir,-

I have the honor to enclose herewith a resolution passed by the Quarterly Official Board of the Saugeen Indian Methodist Church in reference to the appointment of a teacher to succeed Miss Miller, who retires at the end of the current year. I am informed that the Indian Council has passed a similar resolution, which has been forwarded to the Department. By that same mail I received a letter from the Rev W.B.Danard, missionary to the Saugeen Indians, from which I make the following extract:

"The present school teacher will be leaving at the end of this year. The Council of the Reserve has passed a resolution to the same effect. The Trustee Board is of the same mind, and the people also. The last two teachers were not members of the Methodist Church. According to the Indian Act they should be,- see Vic. Chap.44. Not to be a member of the Methodist Church is a hindrance to the work of the Church in regard to the children as to their religious training and advancement in ~~xxxxx~~ English, and Denominational oneness.

"The Agent has said that he will put in his own son (I think a member of no Church so far as I know) in opposition to Council, Church, Trustees, and people."

Commending the matter to the favorable consideration of the Superintendent General,

I am, Sir,

Your Obedient Servant,

A. Sutherland

General Secretary.

DEPARTMENT OF INDIAN AFFAIRS
NOV 23 1899

Chippewa Hill Nov 21st 1899.

Sir

I have the honor to acknowledge letter dated 27th ultimo No. 153979 and in answer would say that Miss Miller intends to keep on teaching the Saugeen Indian Village School till the end of the present year.

As instructed by the Dept. I have communicated with the Inspector for this District W.S. Clendening and he has suggested the name of my son John Scoffield Jr. as being well adapted for work among the Indians

I may inform the Dept. that my son has lived with me since I came to this Reserve and has helped me some in the office is now teaching a school just across the road from the Reserve which is 10 or 15 rods from the Agency and has attended the Indian Church & Sabath School nearly every Sabath in this way he has obtained some knowledge of Indian Children & their ways, which in my opinion is essential to progress in Indian Schools

I would therefore recommend the acceptance of his application by the Dept. and would request the Dept. to answer at their earliest convenience as my son would require to give one month's notice to the Trustees of the School where he is teaching at present. which would be the 1st of Dec. providing the Dept. favored his application

I herewith enclose his application, Recommendations, & Certificate of Qualification which the Dept will kindly return

Chippewa Hill Nov 29th 1879.

Sir,

I have the honor to acknowledge letter of the 24th inst 153979. and in reply would say that I did not overlook directions contained in Official letter dated the 14th inst- No. 153979. as I had not read it until after I had written my letter of the 21st inst, but it made no material difference as the Dep't had informed me in letter of the 6th inst No 153979. in referring to Teacher for French Bay School you informed me that the Teacher was to be a Methodist- if possible this I believed to include Teachers for both schools

& therefore in my letter to the Inspector were said that ~~Teachers~~ of the Methodist denomination preferred

In answer he sent the letter I submitted to the Dep't recommending my son without reference to his religion

Since that time he has written recommending a Mr Cruikshank for French Bay School. and has not referred to what denomination he belongs. as Mr Cruickshank has not made Application for the position. I have not submitted, to the Dept the Inspectors recommendation

As to Consulting with the Methodist Missionary on the Reserve. I am of opinion that it will be a difficult matter to obtain a recommend from him & the Inspector for the one Teacher although they are both of the Methodist denomination

The

Secrtary Dep't
of Indian Affairs

The Missionary wishes to obtain a teacher who will give Religious instruction & teach Methodist Doctrine in the day School also to superintend the Sabbath School.

While the Inspector appears to consider the best qualified person for Teacher in the Indian School is one who will not neglect the intellectual training of the Children which the Dep't supplies they shall receive in the day School. irrespective of doctrine.

It is not my wish to say anything disparaging of the Methodist Missionary but as the Dep't has referred me to him on the Choice of a Teacher. I would inform it that he wishes to have religion taught in the day School one hour every day or half a day every week. and has asked me to use my influence with a view to have this done

The Schools on the Reserve are opened by reading the Scripture & prayer & Closed with prayer The 10 Commandments & the Lord's prayer are taught, one hour each Friday afternoon is devoted to the study of the International Sabath Sch lesson & Singing which I think is sufficient Religious instruction in the day School

These arrangements have been adhered to by Miss Miller & Mr. Burr Miss Cameron Teacher at French Bay whom the Missionary could influence. followed his instructions. Invisiting her school at half

Sir,-

I am informed that Miss L.B.Edwards, the teacher of the Indian school at Chippawa Hill, has resigned, but am not yet aware whether the resignation takes effect at once or at the close of the callendar year.

I write now to say that with the concurrence of the Indian Department, we will endeavor to submit the name of some suitable person to succeed Miss Edwards. I am informed that Mr John Burr, who has been teacher of the school at Scotch Settlement for the past nine or ten years, would be willing to assume charge of the school at Chippawa Hill, but whether this would simplify matters at all I am unable to say.

I am, Sir,

Your Obedient Servant,

A. Sutherland

DEC 4 1901

Dear Sir,

Would it be out of place for me to solicit your attention to the Sangeen Indian Village School, respecting the securing of a new teacher for it.

Owing to the advisability of my going to Normal, I sent my resignation to the Secretary of Indian Affairs. His reply was, that the resignation could not be accepted until the close of the current year. Mr. Mac Lean I have heard, generally does what the Indian Agent, Mr. Scoffield wishes. If such be the case, if he has the power to do so he will grant the request of the Indian Trustees, who are being bribed in some way (if signs are proofs) by the agent.

For after accepting my resignation,

Indian Affairs. (RG 10, Volume 2768, File 153,979-1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES

241517

they placed the matter in the hands of our missionary here, Rev. E. A. Taylor asking him to have Dr. Sutherland of the Meth. Mission Board to secure a gentleman teacher, willing to do church work in S.S. and Epworth League.

The agent was not at this trustee meeting, but called another at his own house, not asking Mr. Taylor to attend, and at this last meeting they passed the resolution to ask the government to place the responsibility of securing the new teacher, in the hands of the trustees and the Inspector. They say the Inspector is a Methodist and will get a Methodist teacher, even if the teacher is not a church worker, the Trustees seem to hold the fact in a very second any light.

The missionary needs help here in the S.S. and E. League and would not you kindly refuse to allow the Trustees and Inspector the nominating power and still have it with Rev. Dr. Sutherland as it was two years ago? In all probability, the agent's

IN REPLY REFER TO DATE OF THIS LETTER, AND ADDRESS THE GENERAL SECRETARY METHODIST MISSION ROOMS, TORONTO.

The Methodist Church,

MISSIONARY DEPARTMENT,

241667

(Dictated.)

Toronto, 5th Dec., 1901.

DEPARTMENT OF INDIAN AFFAIRS DEC 1901 RECEIVED

Sir,-

Referring to your letter of December 3rd, No. 153979, respecting the appointment of a teacher for the Saugeen village school, I beg to say that there seems to be some misapprehension in the matter. When the Indian schools, formerly under the direction of the Missionary Society of the Methodist Church, were surrendered to the Department, we were informed that the Superintendent General would be glad to receive nominations from us when any of the schools were vacant, and that it was the custom of the Indian Department to appoint teachers in harmony with the wishes of the majority of the people on the various Reserves. This being the case, it struck us as being unusual that the Agent should have been instructed to consult with the Public School Inspector in regard to the nomination of a new teacher. It is stated in the letter above referred to that the Saugeen Band in Council requests this action to be taken, but the Missionary in chrage, and the Trustees themselves, appear to be entirely ignorant of such a request having emanated from the Council. In a letter from the Missionary dated Nov. 28th, he states that he has "learned that the Trustees of the Saugeen school have had another meeting at the Agent's office, and have asked the Indian Department to allow them and the school Inspector to

Indian Affairs. (RG 10, Volume 2768, File 153,979-1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

241667

enagage a teacher without any referenced to you",(that is to the Missionary Society,). We have known for a long time past that the Agent was very desirous of having his son or daughter appointed teacher of the village school, and had we thought they were suitable persons for the position, we would not have interposed any objection merely because they did not belong to the Methodist Church; but we are convinced that such an appointment will not be in the interests of the school,or of the people generally. Another letter from the Missionary, the Rev Mr Taylor, a few days earlier contains the following: "Miss Edwards, the teacher at Saugeen, has "sent in her resignation, and the Trustees have asked me to "write to you re another teacher. They wish to get a good "teacher with not less than a second class certificate, and "prefer a young man. They desire a devoted Christian and "one who would work in the Sunday School and Epworth League. "Kindly take the necessary steps to secure a good teacher "for us". It will be seen from the foregoing that the request of the Trustees that the matter be left to them and the School Inspector,is an after thought, and quite different from their former action. I sincerely hope that the Department will allow us,as in other cases,to nominate a teacher. Should we be unable within reasonable time to secure another satisfactory supply, the Department may then take action independently.

I am, Sir,

Your Obedient Servant,

A. Sutherland

General Secretary.

The Secretary of the
Dep't of Indian Affairs,

OTTAWA, 6th December, 1901:-

Rev. Sir,

I have to acknowledge the receipt of your letter of the 5th instant with further reference to the appointment of a teacher for the Saugeen Village school; and in reply I beg to say that as the Chippewas of Saugeen have always paid the salary of the teacher of this school, it seems only fair that their wishes should be consulted in the matter of the appointment so long as a duly qualified and proper person is obtained. When writing to the Agent in this connection, he was informed that selection should be made of a teacher belonging to the Methodist Church and that all applications with testimonials were to be submitted to the Department before the appointment was made.

17960 You will see by reference to official letter of the 30th May, 1901 that this school is not included in those taken over by the Department as your Society had never contributed anything towards its maintenance.

Toronto, 11th Dec., 1891.

24/1891

Sir,-

I beg to acknowledge the receipt of your letter of the 6th inst., No 153979, referring to the appointment of a teacher for the Saugeen village school. I am quite in accord with your judgment that as the Chippawas of Saugeen pay the salary, it is only fair that their wishes should be consulted in the matter of the appointment of a teacher, and we would not think of urging an appointment that would not be satisfactory to them. But inasmuch as the Agent has been instructed that selection should be made of a teacher belonging to the Methodist Church, it seemed to me that the most natural way of reaching this result would be to allow us to submit one or more names, as was done in the case of the French Bay school, and also in the appointment of the teacher who is now leaving the Chippawa Hill school. I find on referring to the records that the Chippawa Hill school was under our jurisdiction until December 1893, at which time the Indians assumed the entire sypport. Up till that date we contributed one-hald of the teacher's salary.

I understand by a letter from Miss Edwards that she desired her resignation would take effect at the latter

Deputy Minister

Department of Indian Affairs,

OTTAWA, 28th December, 1901.-

The Secretary:-

Re appointment of a teacher for the Saugeen Village school.

As stated in my previous memorandum of the 13th instant on this subject, Rev. Dr Sutherland claims on behalf of the Methodist Missionary Society the privilege of nominating teachers for this school, while the Indians who have a regularly appointed Board of School Trustees and who pay all expenses in connection with this school, think that they should have some say in the matter.

On the advice of the Public School Inspector, Mr Clendening, Agent Scoffield advertised for a teacher for this school and he now forwards twenty-seven applications, one of which, made by Mr R.H. Watson, has been approved by the Trustees, who request his appointment to the position, which is worth $300.00 a year. Mr Watson has all the necessary qualifications as would appear by the copies of testimonials submitted by him and he is also a member of the Methodist Church.

Dr Sutherland has addressed a private letter to the Minister and I think that the request of the school board for the appointment of Mr Watson should also be brought to the Minister's notice.

33 RICHMOND ST. WEST,

Toronto, 5th December, 1901.

Hon Clifford Sifton,
Ottawa, Ont.

My Dear Mr Sifton,-

Recently we were notified that the teacher of the Indian school at Saugeen village had resigned. I supposed that in this, as in other similar cases, we would have the privilege of nominating a successor, to be appointed by the Department if qualifications were entirely satisfactory. In a letter from the Department, I am informed that instructions have been given to the Agent to consult with Mr Public School Inspector Clendinning with regard to the nomination of a new teacher, "the Saugeen Band in Council having requested this action to be taken". Letters from Saugeen indicate that there is no knowledge of such action by the Council; but it is stated that the Trustees had a meeting at the Agent's office where it was decided to ask the Indian Department to allow them and the School Inpsector to engage a teacher. This would seem to be an after thought, as previous to this I had received a letter from the Missionary in charge, Mr Taylor, in which he says, "The Trustees have asked me to get you re another teacher." . . . . "Kindly take the necessary steps to secure a good teacher for us." We have known for some

Indian Affairs. (RG 10, Volume 2768, File 153,979-1)

PUBLIC ARCHIVES

time past that the Agent was desirous to have a member of his family appointed to the school, and if we thought the person referred to was suitable for the work, we would have raised no objection, but I fear such an appointment would be unfortunate, and sincerely hope that in this case the assurance given us by the Department that we would be at liberty to nominate teachers when vacancies occurred, will be adhered to. You can readily see how disagreeable it would be to have a teacher in the Ssugeen school who would not work in harmony with the Missionary in charge; and as the Agent, for some reason or other, seems to be always antagonistic to our Missionaries, we deprecate an arrangement that may only intensify the friction. If you ~~xx~~ can give a moment's personal attention to this matter you will oblige,

Yours Faithfully,

A. Sutherland

Department of Indian Affairs,
OTTAWA, 13th December, 1901.

The Secretary:

Memo. re appointment of a teacher for the Saugeen Village school.

With reference to the letter of Dr Sutherland, General Secretary of the Methodist Missionary Society, addressed to the Minister on the 5th instant I beg to report as follows:-

On the 14th ulto. Miss Lillian Edwards, the present teacher of this school sent in her resignation, assigning as her reason for doing so the difficulty of securing a boarding place near the school. In her letter of resignation she stated that the Trustees still wished to leave the nomination of a new teacher to the Methodist Mission Board. This letter came direct to the Department and was not forwarded through the Agent.

On the 18th ulto. Mr Agent Scoffield was notified of Miss Edwards resignation and told that it could not be accepted before the end of the current quarter, which terminates on the 31st instant. He was requested to make arrangements to have a new teacher to take charge of this school after the Christmas holidays and instructed to consult with Rev. Dr Sutherland in the matter and submit applications with testimonials to the Department.

On the 22nd ulto the Agent forwarded a resolution passed by the Trustees of this school requesting the Department to place the nomination of

SCHOOLS

ARCHIVES PUBLIQUES
CANADA

teacher in the hands of the Public School Inspector, stating as their reasom for doing so that he knows the requirements of the school.

In compliance with the request of the trustees Mr Scoffield was informed that he might communicate with Mr Inspector Clendenning in regard to the nomination of a new teacher,who should be of the Methodist faith,if possible,all applications and testimonials to be submitted to the Department and on the 3rd instant Rev.Dr Sutherland was informed to the above effect.He replied on the 5th instant that there seems to be some misapprehension in regard to this matter as when the Indians schools formerly under the direction of the Methodist Missionary Society were surrendered to the Department in June last he was informed that the Department would be glad to receive nominations from them when any of the schools were vacant,and that it was the custom of the Department to appoint teachers in harmony with the wishes of the majority of the people on the various reserves. Such being the case Dr Sutherland considered it unusal that the Agent should have been instructed to consult with the Public School Inspector with regard to the nomination of a new teacher.Dr Sutherland further states that he has information from the Missionary that the trustees met in the Agent's office and asked that the Inspector be authorized to engage a new teacher without any reference to the Missionary Society. This action of the trustees he said,was not in accordance with the information he had previously received from his missionary,w ho has stated that the Indians desired a devoted Christian and one who would work in Sunday School and Epworth League. The action of the Trustees he con-

Indian Affairs. (RG 10, Volume 2768, File 153,979-1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

-siders as an afterthought taken at the suggestion of the Agent,who for a long time,has been known to desire the appointment of his son or daughter to the Village school.

On the 6th instant,in replying to the letter above referred to,Dr Sutherland was informed that as the Chippewas of Saugeen have always paid the salary of the teacher of this school,it seemed only fair that their wishes should be consulted in the matter of the appointment of a teacher so long as a duly qualified and proper person were obtained. Dr Sutherland was also informed that this was not one of the schools taken over by the Department on the 30th June last and that the Methodist Missionary Society had never contributed anything towards its maintenance.

In acknowledging this communication on the 11th instant states that he is quite in accord with the judgment of the Department that as the Chippewas of Saugeen pay the salary,it is only fair that their wishes should be consulted in the matter of the appointment of a teacher and his xpp Society would not think of urging an appointment that would not be satisfactory to them,but as the selection should be made of a teacher belonging to the Methodist Church,it seemed to him that the most natural way of reaching this result would be to allow the Missionary Society to submit one or more names as formerly.

The above is a resume of the correspondence on fyle and this is the way the matter stands at present.

Indian Affairs. (RG 10, Volume 2768, File 153,979-1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The different school sections on this reserve have regularly appointed Boards of Trustees and while their resolution is this case is entitled to consideration, there would be no objection that I could see to Dr Sutherland's also submitting names for the position.

With regard to the concluding paragraph of Dr Sutherland's letter I beg to say that the correspondence on fyle goes rather to show that the missionaries are antagonistic to the Agent, than otherwise.

Department of Indian Affairs,
OTTAWA, 20th January, 1902

The Secretary:-

Re appointment of teacher for the Saugeen Village school.

As directed by the Superintendent General Rev. Dr Sutherland was requested to submit the name of a teacher for this school with evidences of qualification on the 2nd instant, and up to this date nothing has been heard from him in reply. In this connection I beg to refer you to my memorandum of the 28th ultimo submitting twenty-seven applications for this position, one of which, that of Mr Watson, who possessed the necessary qualifications, was approved by the board of school trustees, and to the marginal note made by the Deputy Minister thereon.

This school should be re-opened as soon as possible and it is a question of how long the Department should await Dr Sutherland's reply.

I may add that Mr Watson is a member of the Methodist Church.

DEPARTMENT OF INDIAN AFFAIRS JAN 28 1902

Sir,-

It is with much pleasure that I nominate Miss Mary Vallentyne to fill the position of day school teacher in the Indian school at Chippawa Hill. Miss Vallentyne was for several years teacher in the Brandon Indian Institute, and fulfilled her duties to the enture satisfaction of all concerned, and hence we have no hesitation recommending her to fill the vacancy before mentioned. She holds a sceond class Certificate, and is well qualified for the duties required of her. Hoping the Department of Indian Affairs will see its way to accept this nomination,

I am, Sir,

Your Obedient Servant,

A. Sutherland

General Secretary.

Woodstock, Jan. 17. 1903.

Rev. A. Sutherland,
Toronto,

Dear Sir.

Having noticed your advertisement in the "Guardian" for a teacher in an Indian school, I hereby make application for the position.

I attended Woodstock Collegiate Institute and passed the Model school examination here. I hold a second-class professional certificate, having attended Toronto Normal School and have taught in a rural school in York county and at Ethel. I enclose copies of testimonials. I ask a salary of $325.00 per. year.

Sincerely Yours
Berta Clarkson.

DEPARTMENT OF INDIAN AFFAIRS
MAR 4 1903

Chippewa Jnc. Mar. 2nd 1903

Sir

257183

I have the honor to acknowledge official letter of 19th ulto. N° 153979 regarding the engagement of a teacher for the Saugeen Indian Village School.

In reply, I would inform the Dept. that as instructed I engaged Miss M. Sutherland, Woodstock, Ont. that her application for position of teacher in the above named school had been accepted by the Dept. I asked her to make arrangements to have the school opened on March 2nd 1903. if possible. Up to date I have had no reply from her, and as my letter to her was dated 21st ulto. I consider she has had reasonable time to answer in.

The school referred to having been so long without a teacher I am anxious that one should be engaged at the first opportunity with the least possible delay. As teachers generally accept the first suitable offer, and as the delay caused by communication with the Dept. gives them the opportunity of procuring other situations before their application for this school is accepted by the Dept. I would therefore request the Dept. that they authorize

SAUGEEN VILLAGE SCHOOL:- This splendid building is in excellent order. At the time of my visit the children excepting two of the older ones had left, school hours being over. The attendance here, like that at French Bay School, might be very much improved by the assertion of the authority of the truant officers. One or two examples of those who disobey them should be made by the Agent. At present it is said that when they speak to the Indians they are laughed at.

SCHOOLS
JUN 9 1904

The

The vane upon the School spire should be straightened, both it and the one upon the Council-house were of too light material to stand wind pressure and in consequence are in a state that mars the appearance of these two fine buildings, lying over at a most unfortunate angles.. I spoke of this a year ago but nothing has been done, and, as the main roads pass here ~~around~~ the ~~xxxxx~~ Village has many visitors, the matter should be attended to at once.

x x x

The Agent should be advised

Chippawa Hill Aug. 19th 1904.

Sir

Sir,

I have the honor to acknowledge official letter dated 2nd Inst. No 153979 respecting a teacher for the Indian Village School. I received this letter on the 5th Inst. and wrote to Inspector Clendenning on the 6th Inst. and have just received the Enclosed card from him.

As will be seen no teacher has up to the present time been secured. As teachers salaries are advancing I think it will be a very difficult matter to obtain a teacher with a professional certificate for less than $400.00 per annum. The teachers named in the Inspectors card have not professional certificates but are teaching on permits. I think it may be possible to obtain a teacher such as the Inspector mentions for a salary of from $350.00 to $400.00 per year.

I am anxious to have the school opened as soon as possible and request the Dept to authorize the engaging of a teacher immediately naming the salary to be offered.

I have the honor to be sir

Chippewa Hill August 26th 1904.

Sir

I have the honor to acknowledge official letter of the 2nd and 20th inst. No 163979. re supplying teacher for the Saugeen Indian School.

According to my instructions in the matter I have communicated with Inspector Clendenning and herewith enclose a card from him requesting three teachers.

I herewith enclose all applications received by me. I understand from a letter subsequently received from her which I herewith enclose that Miss Colton has been accepted by two other schools and should she accept one of these in the meantime a longer delay would be entailed if her application be accepted by the Dept. I enclose application from two teachers who have not been teaching in this County. I think that either would be competent for the position as I have had personal applications from both of them but as they have received their education outside of this County they are unknown to the Inspector.

I might state that as all these teachers are strangers to me I do not feel able to recommend any one in particular to the Dept. Will the Dept. kindly return all certificates and recommendations enclosed.

I have the honor to be sir

Your obedient servant

279515

DEPARTMENT OF INDIAN AFFAIRS
DEC 10 1904
OTTAWA

Chippewa Hill Dec 8th 1904.

Sir:-

I have the honor to state that on the 6th inst- Miss Annie Kennedy Teacher at the Sangeen Indian Village School, informed me that it was her intention to resign the ~~the~~ position ~~in~~ the school at the end of the present term, The 23rd inst.

Her reason for resigning is that She cannot secure a boarding house convenient ~~to~~ the school

I would recommend that Miss Kennedy resignation be accepted and that the Dept Authorize The engaging of a qualified Teacher to fill the vacancy at its earliest convenience

I would say in connection with the Sangeen Indian Village School that it is difficult to keep a Teacher, because they cannot get board convenient.

It is a very great hardship for a female to travel a mile or mile & quarter morning & night- in winter she would need to be very strong to do it.

It requires a male teacher to stand the hardship of the long walk

I think it would be much better if the Band erected a dwelling convenient to the School for a Teacher, and engage a married man to teach the School as in

INDIAN SCHOOLS
DEC 14 1904

Secretary Dept
of Indian Affairs
Ottawa

Indian Affairs. (RG 10, Volume 2768, File 153,979-1)

PUBLIC ARCHIVES

CANADA

the other his Schools on the Reserve
A Married man is more likely to stay for a length of time when once Settled

In my opinion the changing of Teachers so frequently is against the progress of the pupils

There is a Lady Teacher whose home is about three quarters of a mile from the School referred to, who possibly might take the School, if it was offered to her before she engaged elsewhere

She is well acquainted with the Indians and I think would give satisfaction as a Teacher

I hope the Dept will secure a Teacher for this School so that it can be opened after the Xmas holidays

DEPARTMENT OF INDIAN AFFAIRS JAN 18 1905

Chippawa Hill 12 Jan 1904.

Sir:-

I have the honor to acknowledge official letter of the 3rd inst- No. 163979. referring to the last paragraph of said letter I would inform the Dept: That I telephoned to Inspector W. S. Clendenning on the 7th inst:-

He replied that he could not say just then what could be done to secure a Teacher for the Sangeen Indian Village School

I received a card on the 9th & a letter on the 10th inst; from him which I herewith enclose

I would say in regard to Miss Cotton that the same dificulty would prevent her from accepting the position as did the other Lady Teachers viz- a convenient boarding house besides she is not as well qualified, not having attended any school since she passed the Entrance examination

My son W. B Scoffield recommended by the Inspector is 20 years of age, he always attended an ungraded rural School, therefore understands arranging the time table &c. He was awarded an Entrance certificate in July 1901. Since then he has attended High School where he finished the work of the Second form and stood high in the monthly exams.

I have decided to engage him according to Mr Clendenning's advice and have had the School opened today. Hoping this will be satisfactory to the Dept.

I have the honor to be

Agent's Report respecting Day *School on Reserve

for the month of June 1905

Name of Band	Chippewas of Saugeen	Is Register properly kept	Yes
Name of School	Saugeen Village	Time Table posted up	Yes
Denomination	Methodist	Programme of Studies followed	Yes
Name of Teacher	W. B. Scoffield	Discipline	Good
Qualification	Permit of Inspector	Care of school material	Good
Number that should attend	26	Care and arrangement of furniture	Good
Number on Roll	21	Cleanliness of Pupils	fair
Average Attendance	15	Cleanliness of School	Good
Punctuality	Fair	What Industries Taught	none

Date of Visit.	Pupils Present. Boys.	Girls.	GENERAL REMARKS.
June 29	5	7	Refering to the attendance of the above-named school I would say that at the census taking of June 1904 I found 26 children of School age in the section. For the number of days during which the school was provided with a teacher there has been an average attendance for the year of 14½. This shows that the pupils of this section are most irregular, and the attendance is not much of an improvement on that of last Year. This I attribute mainly to the carelessness of Parents.

Number of Pupils in 1st Standard. 13
do do in 2nd do 5
do do in 3rd do 3
do do in 4th do
do do in 5th do
do do in 6th do

Department of Indian Affairs,
OTTAWA, 25th July, 1905

The Deputy Superintendent General:-

A teacher is required for the Saugeen Indian school and the Agent asks what steps to take to secure one. These Indians are all Methodists and Dr Sutherland claimed the privilege of nominating the teacher when a vacancy occurred in Dec. 1901. Mr Siftom recognized this claim as you will see from his memorandum turned out herewith. Shall he now be asked to nominate a teacher for this school ?

The Band pays all expenses connected with this school and in the former case referred to, claimed that the nomination of the teacher should be placed in the hands of the Public School Inspector.

Rev.Sir,

Our Agent at Saugeen has notified the Department that the Village school is without a teacher and has asked what steps he should take to secure a new teacher in time for the re-opening of school after the summer holidays. As the Indians of this Band are nearly all Methodists,the Department would be pleased if you would furnish it with the name of a duly qualified teacher at your earliest possible convenience . Be good enough to notify the Department in case you are unable to furnish this information so that other steps may be taken to secure a teacher.

Chippawa Hill, Sept 1, 1905.

Dear Sir,-

Rev. Mr. Taylor spoke to me about applying for the school at Saugeen. This evening he said I should send my application to you.

I hold a second class non-professional certificate and have taught three years in my home school. The school in which I taught being about half a mile from the Indian school.

The Indian Department, I understand, pays a salary of $350. If you wish me to undertake the work in connection with the Sunday School I would ask $50 extra. I am a teacher in the Sabbath School at Chippawa Hill, and would willingly work in the other Sabbath School. The entertainment which they hold in the church every Christmas takes up a great deal of time and most of the expense must be borne by the teacher. I have lived here all my life and know quite a bit about the work to be done.

I enclose some testimonials regarding my character and ability. Should you see fit to engage me, I shall serve you and those I work among to the best of my ability.

Yours sincerely,

(signed) Helen D. Ruston

Port Elgin, Nov. 28th 1901.

This is to certify that in the two years course of Miss Helen D. Ruxton, in the Port Elgin High School, I always found her industrious and a thoroughly capable student. She received her part II Junior Leaving certificate last July, and I have good reason to believe that she will continue to do credit to the training she received here.

She is a young lady of good personal address and bearing. She possesses many admirable traits of disposition and character and is endowed with first class natural abilities.

She deserves success.

To whom it may concern:-

I take much pleasure in certifying to the ability, scholarship and moral rectitude of Miss Helen D. Ruxton.

She attended the High School here for two years to prepare herself for the teaching profession, and during that attendance she proved herself to be a most careful, studious and successful student.

At the close of her first year's attendance here she passed Form II Departmental Examination, and at the close of her second year's attendance she passed the Form III or Junior Leaving Examination.

In the different branches of Mathematics and Science, the subjects that I taught her, I found her to possess more than the average ability. Besides having this ability and being faithful, diligent, earnest, neat and careful in her work, her conduct both in and out of school was most exemplary during her whole course in the school. In short she proved herself to be such a student that it is always a pleasure to teach.

Besides these characteristics as a student, I believe Miss Ruxton possesses in a high degree that tact, amiableness and strength of character that are so essential to a successful teacher.

I therefore confidently recommend Miss Ruxton to any Board in need of a good teacher.

DEPARTMENT OF SEP 6 1905 SCHOOLS

Dictated - Dr. S.

Toronto, September 5th, 1905

Schools

Dear Sir,-

I have received an application from Miss Helen D. Ruxton, of Chippawa Hill, Ontario, for the position of teacher in the Saugeen Indian School. I send herewith a copy of her letter of application, also copies of certain testimonials.

You will observe that Miss Ruxton thinks the salary is three hundred and fifty dollars ($350) and asks under certain contingencies for fifty dollars ($50) extra. Formerly I believe the salary was three hundred dollars ($300), but I do not know how much the Department has been paying in recent years.

INDIAN SCHOOLS SEP 7 1905

As it is past the time when the school should be reopened, I send forward this application, being the only one in my possession, but if for any reason the Department does not think it advisable to concur in the appointment, I hope to be able very soon to submit other names.

I am your obedient servant,

A. Sutherland

Department of Indian Affairs,
Ottawa, March 16, 1906.

The Deputy Superintendent General:-

With reference to Mr. School Inspector Chisholm's letter of the 13th inst. I beg to say that, if Mr. Inspector Clendening has resigned and his inspectorate has been divided, the Saugeen schools would naturally come under the jurisdiction of Mr. Chisholm, while the Cape Croker schools would be assigned to Mr. McCool, but as the inspection of the Indian schools in Ontario is fixed by order in council, the Minister of Education is the proper person to assign the inspectoral districts to his officers.

When a similar application was made by Mr. Green, who was appointed Inspector for a portion of Algoma district, we wrote to the Deputy Minister of Education asking him to instruct that gentleman to make semi-annual inspections of our schools in his inspectorate. This course, I think, should be pursued in regard to the Saugeen and Cape Croker schools, and Mr. Chisholm might be informed that the Department of Education for Ontario will be communicated with in regard to his application.

DEPARTMENT OF INDIAN AFFAIRS OCT 15 1906

Chippawa Hill 10th Oct 1906.

Sir.-

I have the honor to forward resolution passed by the Indian Council on the 8th inst at a Band meeting

Moved by Wm Johnston Sec.d by Jesse Root-

That Joshua Madwishmind be appointed Truant officier for the Indian Village School in place of Solomon. E. James.

That Rich Moon be Truant Officier in place of Matt Mashkamdong for Scotch Settlement School and that Wm Ahkewenze be appointed care taker of the Indian Village school in place of Ed. J. Madwishmind These appointments to date from the 1st Oct. 1906 and to receive the same amount of Salary as their predecessors, viz Truant Officers $24.00 per annum Care-taker $50.00 per annum.

Certified Correct- Carried

I would recommend that these appointments be authorized by the Dept-

The change of these officiers has been made, because the former occupants are a great part of the time employed away from the Reserve, and are not able to attend to there duties

Approved

FEB 25 1908

Chippawa Hill, Feb. 21/08

32039

Dear Sir

A year ago the other teachers on this Reserve were given an increase of $30 per annum. This increase was refused me. The salaried of other teachers are being raised and I think I am intitled to $400 per year.

When I started teaching here the salary given in the white schools in the section adjoining the Saugeen Reserve was $225. It has been increased to $325. and the attendance there is no higher than at my school. I consider it is worth more to teach an Indian school than a white school.

Hoping you may consider this request favorably I remain

Yours Sincerely
Helen Ruxton
Teacher of Saugeen Indian School

Ottawa, March 2, 1908.

The Deputy Superintendent General,-

Miss Helen Ruxton, teacher of the Saugeen Indian school, has applied for an increase in salary from $350 to $400 per annum. The other two teachers on the reserve are receiving the latter amount, but they have been longer in the service and have a larger attendance and both are married men, with families.

Miss Ruxton, although doing satisfactory work, is not possessed of qualifications which would entitle her to take charge of a white school, as she has only a non-Professional certificate.

However, as a change of teachers is not advantageous to the progress of Indian pupils and it might be difficult to secure anyone else to take charge of the school on the same terms, I think she might be offered an increase of $25, as the band can well stand it and as she has put in three years' satisfactory service.

Ottawa, July 7, 1908.

Sir,-

I have to acknowledge the receipt of your letter of the 27th ult., advising the Department of the resignation of Miss Ruxton, teacher of the Saugeen Village school, and in reply I beg to say that the Rev. Dr. Sutherland, General Secretary of the Methodist Missionary Society, has been communicated with and asked to submit the names of prospective teachers to the Department.

Your remarks with regard to the attendance are noted, and the Department considers that, when the school reopens, the regulations should be rigidly enforced. If the truant officer on the reserve does his duty, an improvement should take place in this respect.

Your obedient Servant,

J. D. McLEAN

Stratford, June 1908.

To Deputy Supt. of Indian Affairs, Ottawa

Sir:-

I am a Public School teacher and have been informed through Dr. Sutherland Methodist Minister that such is required to fill the double position of teacher; and religious instructor on the Sabbath; as I have had considerable to do along both these lines I thought it not amiss to make application for the position through Dr. Sutherland.

Possibly the main objection you might have to the appointment would be my age which is 65 but I wish to state that I am and have been in good health and vigor.

I am a Methodist Local Preacher and in Politics a Liberal.

Should you see fit to favor the appointment I shall fill the position to the best of my ability. In the meantime please send Regulations in reference to Indian Schools

DEPARTMENT OF INDIAN AFFAIRS. 1908

Sir:— 331533

I have the honor to state in reference to official letter re Teacher for Sarnia Village School. that if the Dept cannot secure a suitable male Teacher for said School. There is available a Miss Spurrell who has successfully passed the Provincial examinations.

Her home is with her parents who live about two and a half miles from the School

Miss Spurrell is writing to the Rev. Dr. Sutherland and if he approves of her engagement, it relieves us of the difficulty of securing a boarding house for her

I would be in favor of considering her application

DEPARTMENT OF INDIAN AFFAIRS
AUG 12 1908

Elsinore, Aug. 10, 1908.

To The Secretary of The Indian Department,
Ottawa, Ont.

Dear Sir—

About two weeks ago I applied to Rev. A. Sutherland for the position of teacher in the Indian School at Saugeen. Since the time of writing I have obtained the enclosed reference from the trustees of the section in which I have been teaching. By the advice of Mr. Scoffield, the agent of the Indian Reserve here, I am sending it direct to the Department, as the time of the re-opening of the schools is so close at hand.

Yours Respectfully,
Margaret Spurrell

DEPARTMENT OF INDIAN AFFAIRS
AUG 15 1908

Dictated - Dr. S. Toronto, August 12th, 1908.

Dear Sir,-

I beg to report that I have received an application from Miss Mary E. Bowerman, of Elgin, Ontario, for the position of Teacher in the Sarnia Indian School. Miss Bowerman holds a second-class certificate obtained in 1889 from the Ottawa Normal School, and has been engaged in teaching the greater part of the time since then, partly in Ontario and partly in the North West.

SCHOOLS AUG 14 1908

As to Miss Bowerman's character and qualifications there can be no doubt, but I find that she is forty-eight years of age and fear that this might be regarded by the Department as a serious objection. I am holding the matter in abeyance until I hear from Ottawa. It is very desirable the school should have a teacher from the beginning of the term, and while I have received several applications none of them appears to possess the requisite qualifications except Miss Bowerman. In case a younger teacher cannot be secured in time would the Department consent to Miss Bowerman's appointment for the present year?

Hoping for a favorable reply.,

Your obedient servant,

A. Sutherland
General Secretary.

Miss Margaret Spurrell,
Elsinore, Ont.

Dear Miss Spurrell,-

I am in receipt of your letter of the 28th ultimo applying for the position of teacher in the Indian School at Saugeen. I may say by way of explanation that these schools are all under the control of the Indian Department at Ottawa, and by the Department the salaries and fixed and paid. The amount you ask is higher than the Department is in the habit of paying to teachers of longer experience and higher educational standing than you appear to possess. Where schools are located on any of our missions we are allowed to nominate the teachers, but we do it with the understanding that they must be persons holding second-class professional certificates besides which some importance is attached to their age and experience in the profession. I would be glad to open your way to congenial and satisfactory employment if I could, but for the reasons given above I doubt much if the Department would regard your application favorably.

Hoping that conditions may be different at some future time, I am,

Yours sincerely,

(Signed) A. Sutherland.

Rev. A. Sutherland,
Toronto.

Dear Sir,

Hearing that there is a vacancy in the school at the Indian Village on this Reserve and that a teacher has not yet been appointed I now offer myself for the position at a salary of Three hundred and Seventy-five Dollars ($375) per year.

I received my Junior Teachers Certificate (Second Class) at the Departmental Examinations in 1907 but as I am not the required age I am prevented from attending Model School. I have Six months experience in Teaching, having been granted a permit for that time by the Inspector.

Ottawa, Ont.

Dear Sir—

During the past term the salary paid me by the Department, as teacher in the Saugeen Indian School at the Indian Village, has been at the rate of $375.00 per year.

Owing to the nature of the work, which is much more laborious than teaching white children; and to many inconveniences, such as securing a suitable boarding place, I have decided to ask Twenty-five Dollars ($25.00) increase in my salary for the year 1909.

Kindly inform me as soon as possible if this is satisfactory.

Yours Respectfully,

Margaret Spurrell

OCT 30 1909

Chippawa Hill
35359 Ex'd Oct- 28th /09.

Sir:—

I have the honor to state that the enclosed resignation of the Teacher of the Sangeen Indian Village School was handed to me yesterday.

Although Miss Spurrell has been talking of going West, I was not sure that she would go until now.

I regret that she has decided to leave, as she was getting on very nicely in the Village School.

I know of no teacher in the profession but who is engaged at present that could be secured to fill or complete the term. And I do not think it would be wise to allow the school to be closed on the 1st of December.

There is a lady Miss Isebella Rupton who holds a II Class Certificate, but has not been in the profession for some years. She is considered a good business woman having held the position of Business Editor in a Printing firm in Berlin She lives less than half a mile from the School. and could be got to take the School for the month of Dec. or longer if desired.

I would therefore recommend that the Dept authorize me to engage her to complete Miss Spurrel's term if the Dept has not secured a Teacher to take the position by the 1st Dec—

Dear Sir

Understanding that Miss Cora Robinson of Burgoyne has applied for the position as teacher in the Saugeen Indian Village School I am pleased to recommend her as a suitable person to fill the vacancy.

I have known her for three years and during that time have neither known nor heard anything to her discredit but on the contrary have found to be a young lady of excellent character. She is industrious, tactful, and perservering and possesses a firm, yet kind and sympathetic manner, an important and necessary quality in a teachers character. I think she would justify any confidence the Department might repose in her and would labor earnestly and steadily in the interests of the school and the Department.

Your obdient Servant
Margaret Sprowell

Dictated - Dr. S.

Toronto, November 29, 1909.

Immediate

Dear Sir,-

In your letter of the 19th instant #153979/1 you reminded me that in case we were unable to nominate a qualified teacher for the Indian School at Saugeen, the Department would be prepared to place a teacher for the month of December.

I regret to say that thus far I have been unable to find a suitable teacher for the place, but will continue my efforts and notify the Department as soon as possible. In the meantime I will be glad if the Department can place a qualified teacher at Saugeen for the time being.

Your obedient servant,

A. Sutherland

Sir,

Referring to your letter of October 28th, last, I beg to say that the authorities of the Methodist Church have not up to the present time been able to nominate a teacher for the Saugeen Village School, and you are hereby authorized to engage Miss Isabella Ruxton for the balance of the current quarter. Be good enough to advise the Department when Miss Ruxton takes charge. Her salary will be at the rate of $300 per annum.

Dear Sir:-

Having learned that the school in your section is to be vacant soon, I beg leave to tender an application for the position of teacher.

Have had over three years' active experience in the public schools of Ontario. My last school was in S. S. 1 Bangor. My salary there was $400.00 per annum and I stayed two years. Can truthfully and without reserve say that my work there was a success. You may refer to the secretary, Mr H. C. Blaney (Combermere P.O.), to the inspector, Mr W. Mackintosh (Madoc) or to any resident of the section.

In addition to being a teacher, I am an experienced book-keeper and stenographer. Have taken short courses in

the following educational institutions :-

London Normal School (Summer Session)
St. Thomas Business College
Best's
Provisional School of Infantry

At the St. Thomas Collegiate Institute I obtained my Junior Leaving certificate in 1900. My Third Class Professional certificate has expired but your inspector, Mr J. McCool, advises that he will grant me the necessary authority to teach upon your request.

I am willing to take the school at a salary of $400.00 per annum, payable quarterly. This salary will not, of course, cover janitor work of any kind.

I feel sure that you many depend upon me and humbly trust that you will give this your kind consideration.

Very Sincerely Yours,

Geo. A. Metcalfe

Ottawa, December 3rd, 1909.

Rev. Sir,

The Department is in receipt of an application from Mr. George A. Metcalfe of St. Thomas for the position of teacher of the Saugeen Village Indian school. Mr. Metcalfe is the holder of a second class non-professional certificate and a third class professional, although the latter has expired. He is also a graduate of St. Thomas Business College and attended a summer session at the London Normal School. He forwards very satisfactory testimonials from a chief clerk of the Pere Marquette Railway, under whom he worked, and also from Mr. W. Mackintosh, Public School Inspector for North Hastings, where he taught for two years.

Owing to the scarcity of teachers and the extreme difficulty met with in some cases in getting one with the necessary qualifications and experience the Department is disposed to engage Mr. Metcalfe for this school at a salary of $400.00 per annum, but wished to refer the matter to you before taking final action.

I should be glad to hear from you at your earliest convenience with reference to this application.

Your obedient servant,

Secretary.

I have known Miss Cora Robertson of Port-Elgin for some time, she having been a pupil of Port. Elgin High School. I can therefore testify to her ability and success as a pupil from actual experience. I have learned to form a very favorable opinion of Miss Robertson's character. She has good ability, application and determination Consequently her progress in her studies was marked and she won a Junior Teacher's Certificate under unfavorable advantages and in less than three yeár's work, a fact that speaks eloquently of her worth I have no doubt that Miss Robertson will succeed as a teacher and will justify any confidence that may be reposed in her. for she has tact perseverence and ambition

Dictated - Dr. S. Toronto, January 20, 1910.

357970

P.Y.S.

Dear Sir,-

I have just received a letter from the Rev. T. J. Smith, our missionary on the Saugeen Indian Reserve, in which he writes as follows:-

> "I am pleased to state that Miss Ruxton is getting along very nicely as teacher in our Saugeen School. The Indian children we understand are quite delighted over the change and are anxious that Miss Ruxton remain with them. She is a good Christian girl, living right in the neighborhood, and has had some experience in teaching some while ago, but not qualified as regards the certificate. She is only temporarily engaged until the place can be filled."

SCHOOL JAN 24 1910

I informed Mr. Smith some time ago that the Department had suggested the possibility of appointing a married teacher to the Saugeen School, and enquired if there was a house suitable for a teacher to occupy in the event of such an appointment being made. In regard to this Mr. Smith writes as follows:-

> "There is a vacant lot, with a house unfinished on it, next to the church, which could be made quite comfortable for a small family, and which the owner would rent or possibly sell."

I send the above for the information of the Department and remain,

Your obedient servant,

A. Sutherland

General Secretary.

153979/1

Ottawa, January 25th, 1910.

Rev. Sir,

I have to acknowledge the receipt of your letter of the 20th instant in reference to the employment of a teacher on the Saugeen Indian reserve.

In reply I beg to say that, as Miss Ruxton is apparently doing good work at this school, the Department is quite willing that she should remain in charge temporarily.

With reference to the appointment of a married man as teacher you will recollect that the suggestion was made that Mr. Prosser be transferred to that school, if necessary arrangements could be made, but the Department did not have in view the engagement of any other married man. In the course of a few months the Department will be in a position to judge whether Miss Ruxton is capable of doing effective work at this school and, with your concurrence, would propose, as stated above, that she be allowed to remain in charge temporarily.

teaching white children.

Considering the fact that the teacher has difficulties to meet in an Indian school that are not met in white schools and that the teacher is exposed to different diseases, &c, the salary is altogether too meagre.

The other teachers on the reserve are also receiving larger salaries.

I would therefore respectfully request that my salary be raised to at least $450.00 for fall term. Anticipating a favorable reply, I remain,

Yours Truly.

(Teacher Sanpoil School.) J. Ruxton.

Sir,

The Department contemplates the purchase of small libraries for each of the three schools in your reserve and I have to ask you to be good enough to state whether there is suitable cupboard accommodation where these books can be kept safely.

Your obedient servant,

Asst. Dputy and Secretary.

John Scoffield, Esq.,

Sir

Re Lot 1, Con 1 E.B.R. St Edmund
" - 1 do 1, W.B.R. do
" - 4 do 2, W.B.R. do
" - 4 & 5 Con 3. " - " do

I send herewith for your consideration an Application from Wm Peter McVicar to purchase Lot 1, Con 1. E.B.R. Lot 1, Con 1, W.B.R. Lot 4, Con 2, W.B.R and Lots 4 and 5, Con 3, W.B.R. all in St Edmund for which he offers the sum of $20.00 cash for each Lot. the timber to free of dues. Want for the land to without conditions.

I am aquainted with the land applied for and it is altogather unfit for farming, or cultivation, the fire has partly ran over a good part of it, the timber is all small Red Pine and small Cedar with a little stunted Hemlock - not much of the timber Marketable at the present. I consider that the sum of $110.00/100, would be a fair price for the above Mentioned Lots.

Sir

Re Lots 31 and 32, Con 9, E.B.R.
Lindsay

I send herewith for your consideration an Application from Mr James Bryan to purchase Lots 31 and 32 Con 9, E.B.R. Lindsay for which he offers the sum of $25.00/100 Cash, the land unconditional and the timber free of dues.

There are only 67 acres in the above Mentioned Lots. They are totally unfit for cultivation, being shore gravelly Beach and rock, there is no Merchantable timber on them being a small scrub of second growth cedar Hemlock and poplar. A portion of them can be made use of for piling ground - about 8 or 10 acres. I am well Aquainted with the Lots in question and in my opinion is worth the sum of $30.00/100 for the purpose above Mentioned.

Wallaceburgh Sept 25/1894.

Sir.

I enclose herewith Copy of Resolution of Chippewa Council of Walpole Island. Granting the Sum of $11.50. to pay the account of Doctor Wm Logie (of Sarnia) for professional services rendered to Adam Kiyaenk and his Daughter. Members of the Chippewa Band of Walpole Island Indians. who Reside in Sarnia.

With Regard to the payment of this account the above named Adam Kiyaenk is employed in Wrecking on the Lakes. is a Diver. and Considered a very Helpful one. it is More Convenient for him to Reside in Sarnia than on the Island. as the Wrecking Tug on which he is employed Very frequently Stops at Sarnia or Port Huron. giving him a Chance to See his family frequently through the Summer.

but it takes him away from the advantage of free Medical attend-ance which he would have if he lived on the Island.

It was Contended by the Council that he was entitled to have his Doctor Bill paid. and they Passed the enclosed Resolution accordingly.

I am Sir

LAND BRANCH SEP 28 1894

Sir

I send herewith for your consideration an application from Wm Wm Stodart to purchase Lot 39, Con 4, E.B.R. St Edmund, for which he offers the sum of $18.00/100 Cash. There are only 7 acres in this Lot is Stale and course gravel - no good land or timber theron whatever, And also he Wm Stodart has offered the sum of $30.00/100 cash for Lot 21, Con 5, E.B.R. St Edmund the land unconditional and the timber free of dues.

I would most respectfully recommend that the Forest Bailiff be instructed to examine and value Lot 21, Con 5, E.B.R. St Edmund, provided the cost of such examination is paid in advance by the applicant. As for Lot 39, Con 4, E.B.R. I consider that $10.00/100 is the fair full value thereof as I have seen it.

Ottawa 19th January 1898-

Sir,

With reference to that portion of your letter of the 11th Instant, file 100 9x3, stating that the Lessee of land under Lease 42 has abandoned the property, and that the Locatee has taken possession of the same, I have to request that you will inform the Department why you did not recommend that action should be taken by the Department against the Bondsmen in connection with this lease, on the land being abandoned by the Lessee.

I may state that as the lease has expired, cancellation cannot now take place.

Your obedient servant,

J. D. McLEAN

15-42 39

191948

Indian Office, Brantford.

January 26th, 1898.

Sir.

I beg to acknowledge the receipt of your letter of the 19th instant, File No.154 239, requesting me to inform the Department why I did not recommend that action should be taken by the Department against the Bondsmen in connection with the Lease No.43, on the land being abandoned by the Lessee.

In reply I beg to state that the Lessee left this property on account of the Indian Locatee. When the Lessee took possession of the property the fences were in a bad state of repair, and the Indian Locatee was to put them in proper repair and the Lessee was to keep the same in repair, In fact there were no fence on portion of the property, the Lessee remaining as long as he could, finally with the request of the Indian Locatee, he left the property, when the Locatee immediately placed a member of the Reserve in possession.

I find that I had notified the Indian Locatee that he must build the fences on his property, and it be the duty of the Lessee to keep the same in repair during the term of the Lease, but he neglected to do so.

As the Indian Locatee was the cause of the Lessee leaving the property I did not feel justified in recommending action be taken against the Bondsmen. I find that the Lease expired on the 1st of October last, being three years from 1st of October 1894, I had been under the impression that it was for 5 years.

I am

Sir,

Your obedient servant.

Sir,

John Thomas owner of the N½ of Lot 13 Con, 5 applied to me to day for permission to Daniel Leggacy to work his farm on shares for one year. Mr. Leggacy has been served with a notice to quit The Reserve. Mr Thomas persuaded him to take the lease of his farm.

Mr. Leggacy agreed to, and this fall, seeded some 18 acres with fall wheat, Mr Thomas is very feeble and unable to work his farm, he does not not wish to lease for a longer term than a year as he expects his son in-law a member of the Reserve to lease his farm next fall. I beg to ask if you will grant permission to Mr Leggacy to reap the wheat next fall which he has sown as the time is so short

Sir:-

I have the honor to state that Wm. William Bull owner of Lot Sw. 7 Con. 11 Campbell (Sale 1755) has made application for an extension of time until next Spring at which time he promises to make a payment on said lot. Wm. Bull says he is not in a position to make a payment at present, not having yet paid the assignor (John Hall) claim on the lot.

1.2.M. Under the circumstances I would respectfully recommend that the extension asked for be granted.

I have the honor to be,
Sir,

Ottawa 6 October 1894

Sir,

I beg to state from the information of the Chief Engineer of your Department who has made enquiry in the matter, that Lot 47, Con 17 E.B.R. Lindsay was sold 31 December 1873 to Thos H. Lee in whose name it stands on the books of the Department.

23 Acres at $1,25 P.A. $28,75 paid in full but not yet patented.

As the P.O. address of the owner is not known to this Department it might be well for you to communicate with Mr WM Simpson Indian Lands Agent, Wiarton, Ont.

This Department is not in possession of any further information in the matter.

ADDRESS REPLY TO
THE DEPUTY MINISTER OF MARINE.
OTTAWA.

MARINE & FISHERIES
LAND BRANCH
OCT 10 1894

REFER TO No. 3076.

Ottawa, Oct. 9th, 1894.

Sir,

In reply to your letter No.154,336,of the 6th inst., on the subject of a lighthouse site at Cabot Head,in the North Riding of Bruce,Ontario,I have the honour to inform you that the Chief Engineer of this Department has ascertained that no improvements were ever made on lot 47,Con.17 E.B.R. Lindsay. He can personally testify to the same effect.

The necessary affidavits to prove non performance of duties and to prove the absence of the purchaser from the country have been filed with your Agent at Wiarton,who was to send them to you. I have therefore to request that you will have the sale of the 31st December 1873to Thomas H.Lee cancelled for non performnce of conditions of sale and that you will sell the said lot 47 to this Department for light-houses purposes.

W.P.A. Early action in this matter is requested as the interests of navigation require that the lighthouse should be put in operation at as early a date as possible.

I am,Sir,

Your obedient servant

COUNTY OF Bruce
TO WIT:

In the Matter of
Lot 47. Con 17. E. B. R. Lindsay
County of Bruce.

I, ~~We~~ David Porter & Frank Dinsmore, of the Town of
of Allerton Each for himself in the County of Bruce, Contractor & Carpenter
DO SOLEMNLY DECLARE that I am well aquainted with Lot 47, Con 17, E. B. R. Lindsay in said County and Province. and say That it is unoccupied and unimproved. That it never was occupied or improved. That the owner one Thomas Lee. Lee is a non resident. That he left this section of Country 14 or 15 years ago. That we believe he went to British Columbia - and his whereabouts now is not known. That he has left no relatives here that we know of. That we desire that the sale of this Lot (No 47. Con 17. E. B. R. Lindsay) should be Cancelled. on the ground of the present owner being a Non-resident - and not likely to be a resident, and it retards the improvement of the place.

AND I MAKE THIS SOLEMN DECLARATION, conscientiously believing the same to be true, and knowing that it is of the same force and effect as if made under oath and by virtue of the Canada Evidence Act of 1893.

DECLARED BEFORE ME, at Allerton

MARINE & FISHERIES
CANADA.

ADDRESS REPLY TO
DEPUTY MINISTER
OF MARINE AND FISHERIES,
OTTAWA.

REFER TO NO. 21971L

Ottawa June 19th, 1916.

Sir,

With further reference to your letter of the 6th.ultimo,No.154336 in connection with an application for the privilege of building an ice house at Cabot head, we have made further inquiry and find that the application is for a site on the north side of the entrance to Wingfield basin where apparently we have no land. The plan forwarded by you on the 29th. of May shows that the property purchased by us lies wholly to the south of the entrance.

LANDS BRANCH
JUN 20 1916

Under the circumstances therefore it would appear that this Department is not affected by the application.

I have the honour to be,

Sir,

Your obedient servant,

C Stanton

Assistant Deputy Minister.

Ottawa, June 21, 1916.

Sir,-

Referring to your letter of the 28th of April last, in connection with application of Mr. Taggerty, of Lions Head, to build an ice house on lot 47, Con./7, Lindsay, I beg to say that the matter was referred to the Marine & Fisheries Department, which Department has advised that they find that the application is for a site on the north side of the entrance to Wingfield Basin, which land, of course, is not under their control.

If the land applied for is situate north of the Basin, it is on land which was patented years ago.

Your obedient Servant,

W. A. Orr.

RECORDS

Dear Sirs,-

I have just received a tax deed to Lot 47, Concession 17, East of the Bury Road in the Township of Lindsay, County of Bruce, Ontario.

This is an unpatented lot and I understand that before I can register my deed I require to obtain a patent from your office. Would you be good enough to let me know what I have to do to obtain such patent and what expense is involved.

Yours very truly,
PERCY ROBERTSON

Ottawa.

Sir

There is a small Island shewn on Hackett's Plan between Island 15. a Stony Lake & Island 17. I did not value it as I did not suppose it would be applied for. However I have an application for it. The Island in question is a very small one perhaps a third of the size of 15. a total P.M.: Ont for a 15. It is rock with one or two very small pine. Just room for house. I value it at $10.

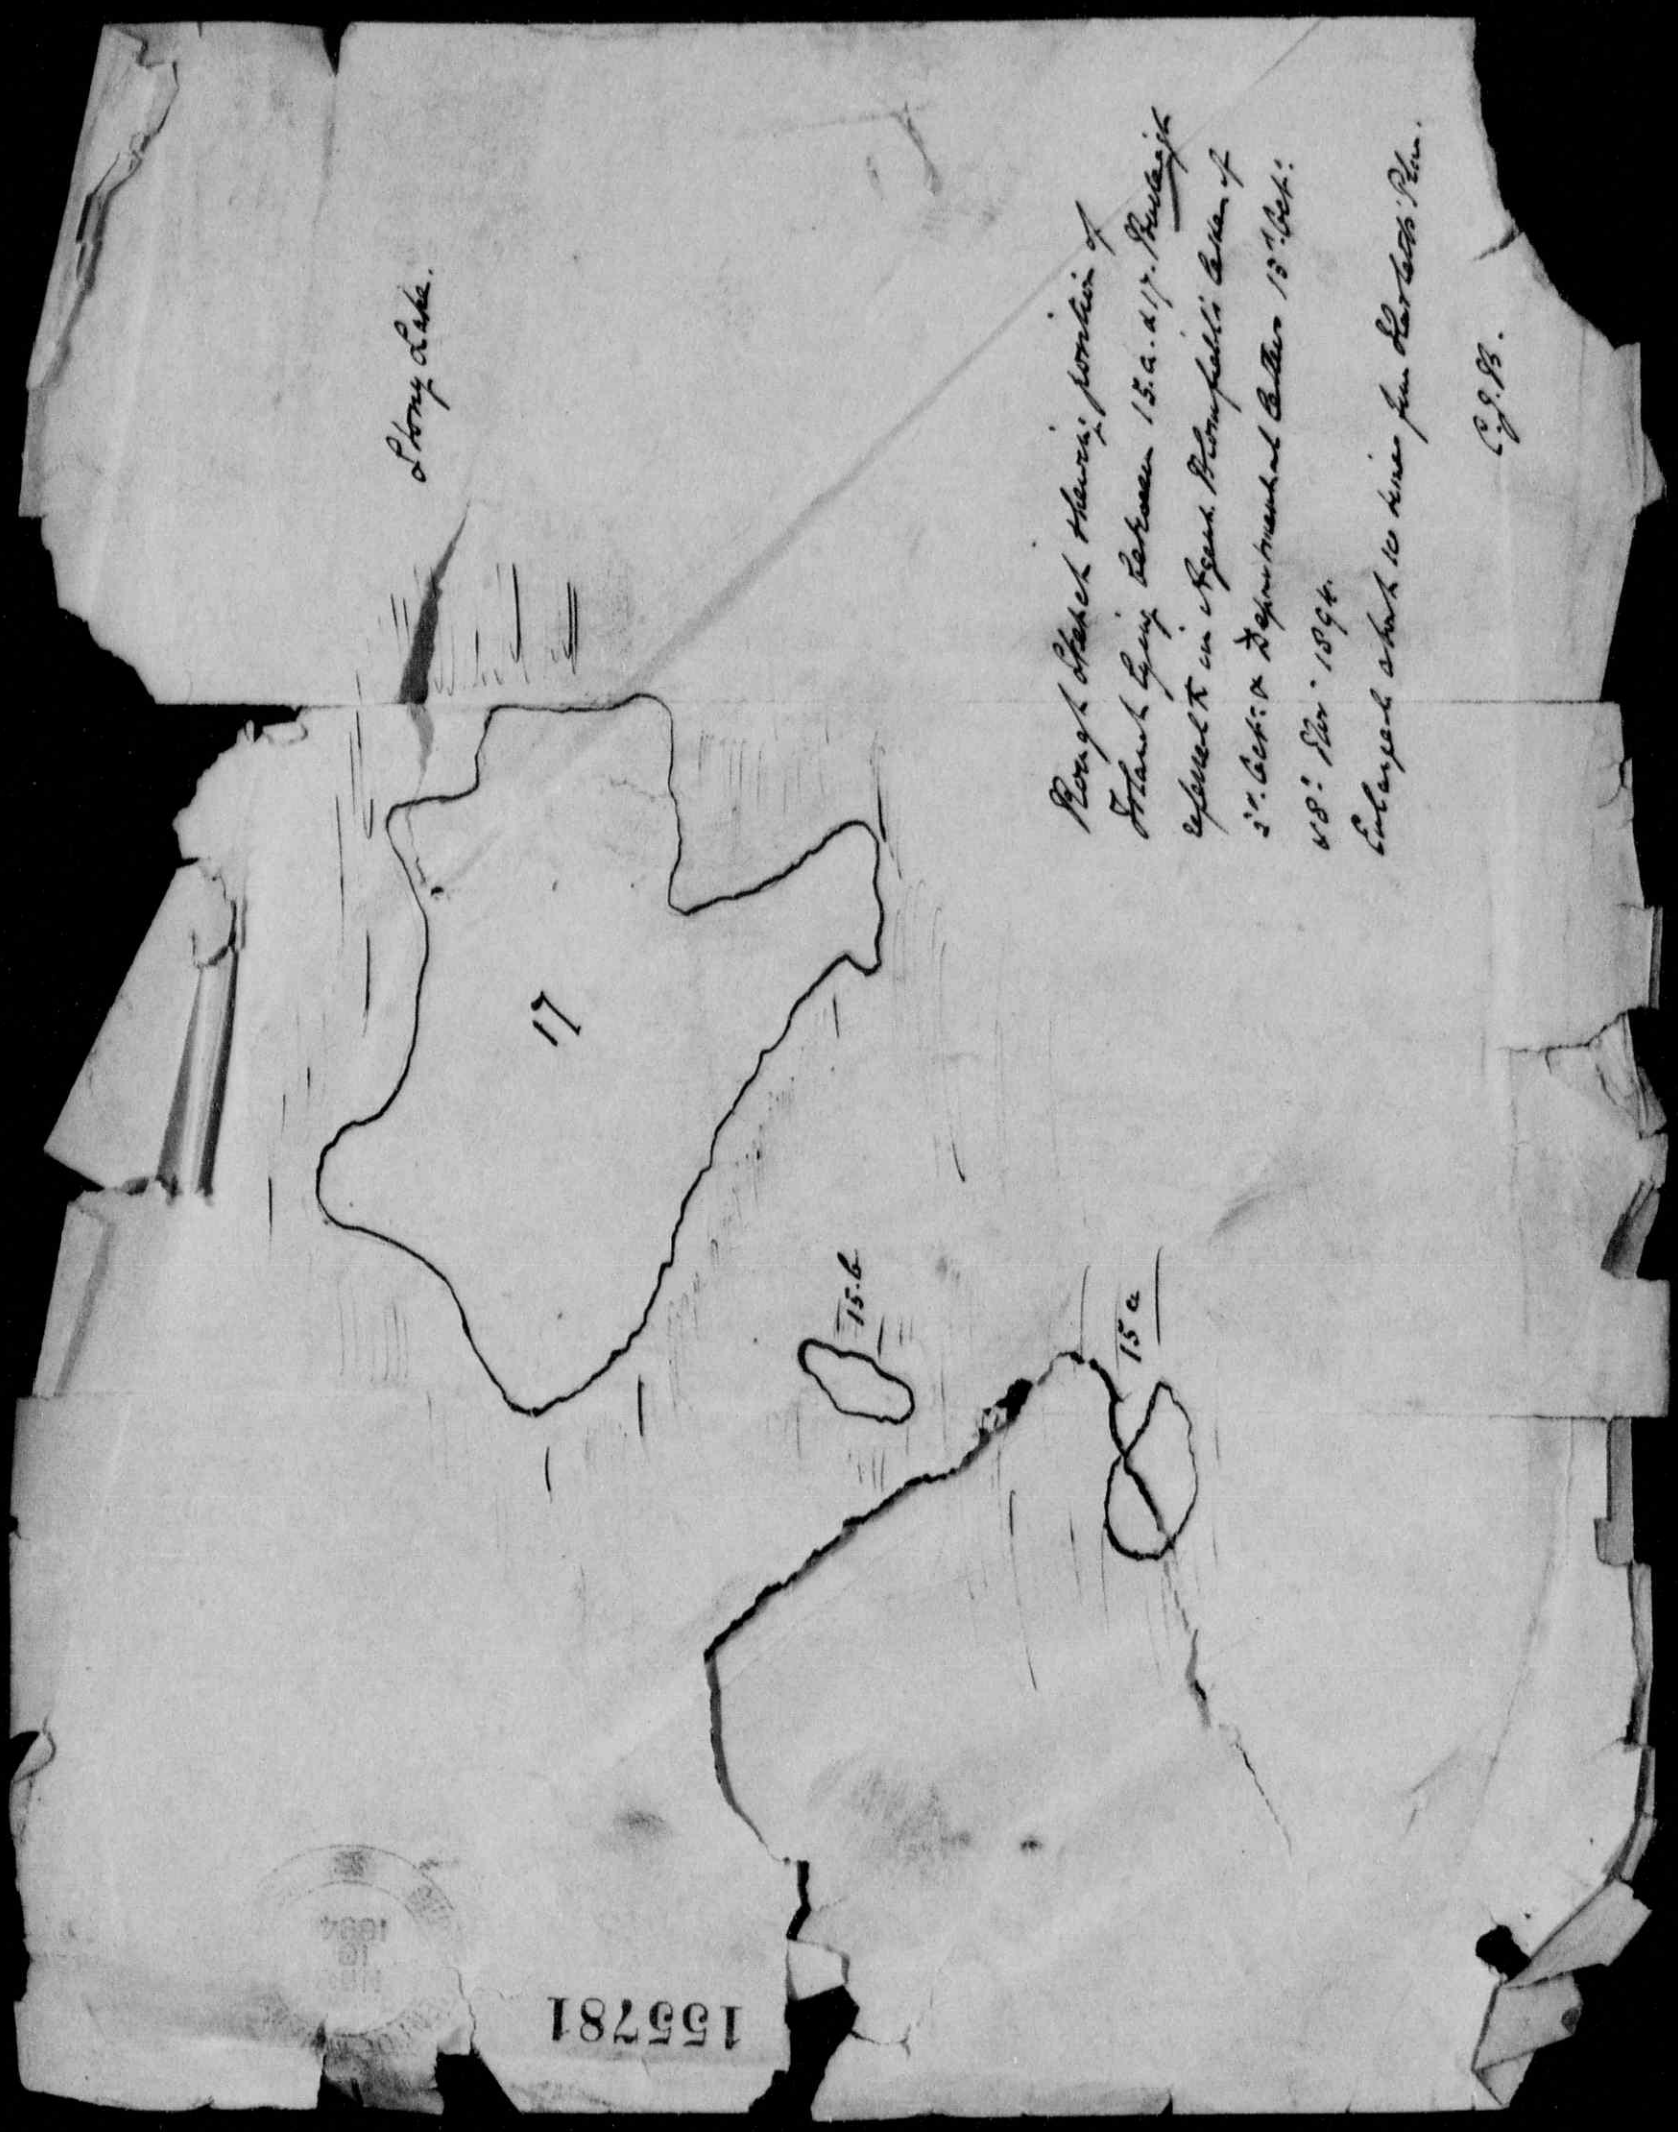

I shall be obliged for authority to sell at that price.

Your obed. servt.
Chas. J. Blomfield
Agent

Island might be called 15. B. 1/4 a.

Sir

Re Lot 19. Con 1, E.B.R. St Edmund

I send herewith for your Consideration an Application from Mr Peter McVicar to purchase Lot 19, Con 1, E.B.R. St Edmund for which he offers the sum of $25.00/100 Cash, Unconditional, and the timber free of dues.

I am well aquainted with the above Mentioned Lot, it is altogather unfit for farming purposes being all rough and rocky: there is about three parts of it burnt over. bare - the remainder of the Lot is timbered with small cedar and a few small red pine not large enough to be fit for Market - and the cedar only fit for rickets or pavement I would judge about 1000 pieces, - the value I would place on this Lot is the sum of $30.00/100 cash.

Extract from Mr. Forest Bailiff Belrose's report on File 155 944-

---

Lot 19,Con 1,E.B.R.,St.EDmund-

I have carefully examined this Lot and find that it is very nearly all marsh with a creak through the centre of the Lot and no sailable timber on the Lot of any kind and the Lot is not fit for farming purposes,the high part of it is all rock and I cannot place any value on it and I believe the Department would be safe to take whatever the applicant offers for it.

Michael Belrose,
Forest Bailiff-

Forest Bailiff Valuation of Lot 19 Con 1 S.B.R. St Edmund

Indian Land Office
Wiarton 23rd January 1895

Sir

Re your letter dated 8th September 1894, No 154361 Re Lot 19, Con 1 S.B.R. St Edmund (100 acres) yours of the 8th September last No 154361. Acknowledging the receipt of Mine of the 2nd Instt. (The date of these letters should have been October and not September), enclosing an Application from Wm Peter McVicar to purchase Lot 19, Con 1, S.B.R. St Edmund (100 acres), Under Section 6 of the Land Regulations And in reply I have to inform you that you may authorize a Forest Bailiff to examine this Lot, provided the cost of such examination is paid by the Applicant.

Received

In reply I have the honor to say that I send herewith the Forest Bailiff's Report on the above Mentioned Lot but he has placed no value thereon for reasons given.

In my opinion I think he has made some Mistake in reference to the Lot - The Applicant offered the sum of $25.00 Cash. I would place the value at the sum of $30.00 Cash free of Conditions.

Walkerton, Ont. NOVEMBER 2nd. 1899

Dear Sir, Re HURST VS PATTERSON.

INDIAN BRANCH NOV 4 1899

This is an action coming on for trial at the nonjury sittings on the 21st Inst. I am acting for the plaintiff who is seeking to set aside a tax deed of Lot 47, 3rd W.B.R. St. Edmunds. To do so, I require to establish the plaintiff's title which is founded (1) On an Assignment from Alex. Hays, the original purchaser, to Wm. Hill, (2) Assignment Wm. Hill to Graham and Ewens, and (3) Assignment from Graham and Ewens to Hurst. I presume these Assignments are on file in your Office. Will you please forward them to Mr. Simpson the Indian Land Agent at Wiarton that he may produce them under a subpoena at the trial.

Hon. THE SUPERINTENDENT GENERAL
OF INDIAN AFFAIRS,

I certify that in an action

IN THE COUNTY COURT OF THE COUNTY OF BRUCE.

~~WILLIAM BARRETT, ESQUIRE,~~

~~JUDGE COUNTY COURT BRUCE.~~) ~~SURROGATE COURT COUNTY BRUCE.~~

Between,

THOMAS HURST AND GUILLET F. AMES, both of the Township Municipality in the County of Bruce

Plaintiffs,

- AND -

JAMES RAE PATTERSON of the village of Port Elgin in the County of Bruce

Defendant.

the following Judgment was pronounced Tuesday the 21st day of November 1899

This action coming on for trial this day at the sittings of this Court holden at the Town of Walkerton for trial of actions without a Jury in presence of Counsel for all parties, upon hearing read the pleadings and hearing the evidence adduced and what was alleged by Counsel aforesaid,-

THIS COURT DOTH DECLARE that the deed from the Warden and Treasurer of the County of Bruce to the defendant James Rae Patterson dated the 14th day of February A.D.1899 in the pleadings herein mentioned of the lands and premises in the plaintiffs Statement of Claim mentioned was and is null and void, and that the same ought to be set aside and cancelled and doth Order and Adjudge the same accordingly.

IT IS FURTHER ORDERED that the plaintiffs do recover from the defendant possession of the said lands and premises.

~~IT IS FURTHER ORDERED that the defendant be and he is hereby restrained from trespassing upon or in any way interfering with the said lands.~~

AND THIS COURT DOTH FURTHER ORDER AND ADJUDGE that the plaintiffs do recover against the defendant their costs of this action except the costs caused by the claim for damages against the defendant in the fourth paragraph of the plaintiffs Statement of Claim as originally framed, and that the plaintiffs

DOMINION OF CANADA,
COUNTY OF Bruce
TO WIT:

In the Matter of Lot 44 Con.ᵍ E B 12
Township of Lindsay in the County of
Bruce Province of ontario

TO I James Weatherhead, of the Township
of Lindsay in the County of Bruce Forest Bailiff

DO SOLEMNLY DECLARE that I have Examined the Said Lot No 44 Concession ᵍ East Bury Road in the Township of Lindsay in the County of Bruce Provine of ontario

and say That the above lot is poorly timbered with Hard wood other timber of no value

The lot is rocky and not fit for farming purposes

and in my opinion twenty dollars would be a fair price for the Said lot for land and timber

AND I MAKE THIS SOLEMN DECLARATION, conscientiously believing the same to be true, and knowing that it is of the same force and effect as if made under oath and by virtue of the Canada Evidence Act of 1893.

DECLARED BEFORE ME, at Lions Head

Port Perry 5th Oct. 94

Sir,

There appears to be another diffi-
-ic in the Scugog Indian Band similar
to that between John Bolin and Wm
Marsden. At the time of the last subdi-
vision of land in Scugog Reserve
Abram Johnson owned what is now num
bered ~~on~~ location eleven (11) on the
Plan on which there was a house.
when the line was run the house was
found to be on location No. 10 owned by
John Johnson (Ex. Chief) who claims own-
ership of the house, since the death of
Abram Johnson his Brother, the latter left
a Daughter who married an Indian named
McCue,— McCue's wife died a few years
ago- he, McCue now claims that his wife's
children are entitled to the house now
claimed by, and in possession of the said
John Johnson.

Are McCues Children entitled to compen-
sation? They are still minors. McCue in-
forms me that Johnson is not willing to
do anything about it.— Kindly answer.—

Your Humble
Servant

Gore Bay, Ont., Nov. 23 1894

Sir

I have the honor to reply to yours of the 20. 154623, as follows

I have not much acquaintance with "Fred" Saunders, I met him here some years ago, his brother Wm Saunders, who was then Collector of Customs Ont. was visiting him here

Owing to there being no alphabetical index in this office I could not without searching from first to last of the Sale books find out what lots stood in his name

Knowing that he lived with Austin in the Hop. of Burgess, I wrote Austin, and I enclose you his letter which states the situation about as it really is,

The lot referred to stands in his name in this office, he has had other lots at different times but so far as I can see they have been sold & and assigned to other parties

Dear Sir

Complying with your desire I would say that [illegible] Saunders is entirely destitute. We have partly supported him for many years and this last four Months we have kept him in our own House he is not fit for to take care of him self

All the land he had he transfered to Mr Donald formerly Storekeeper in Emmonile for food Supplies and clothing some years ago with the exception of Lot 5 Con 10 E. P. Burpee that is a Marsh Lot of worthless land or it would have been gone to

Yours Respectfully James D Purdie

THIS LETTER HAS BEEN SENT

THIS LETTER HAS BEEN SENT

Ottawa 1st August 1895-

Sir-

I have to inform you that a letter has been received from Mr. James Burnett of Sheguiandah, stating that in October last he applied to you to have Lots 12 and 13, Con 10, Burpee, valued under the Land Regulations and gave you $10.00 ~~xx dxx xxxxx~~ for Forest Bailiff's expenses and in this connection I would call your attention to the fact that your application in October last was for the cancellation of the sale of these Lotsand not an applicationto have them valued under Section 6 I have, therefore, to ask you to report whether you charged Mr. Burnett $10.00 for valuation as stated, if so, why you did so and what has been done with the money.

Indian Lands Office
Bow Bay
August 5/1895

Sir

In reply to yours of the 1st instant, file 154,623. I wish to say that James Burnett did not pay me ten dollars for valuing lots 12 & 13, on 10th of Burpee last October, or at any other time, or any other amount of money.

What did occur however is as follows. James Burnett, and Colon Campbell filed appraisals, of Cancellation against those lots. Burnett applying for the lots when Cancelled.

The next day he called and said, that he understood the lots were not worth the upset price and wanting to know if there was no cheaper ways of buying the lots.

He said that Baxter had told him that the lots were not worth more then ten cents an acre., and if the lots were valued he would get them for that

The Deputy Supt General
of Indian Affairs
Ottawa

DEPARTMENT OF INDIAN AFFAIRS
AUG 8 1895

I told him that the lots would not be valued, without it was shown that the lots were not fit for farming purposes.

He said that when the lots were cancelled, he would apply to have them valued, and that Baster had told him that it would cost about ten dollars, and wished me to accept that amount, this I positively refused to do, at the same time explaining to him that it would be (I thought) not less than three months before the lots would be cancelled and I would then notify him.

Burnett then said that there was others, he thought, wanting the lots, and as it would be - - -

and subject to his order.

Mr Burnett was here about 6 weeks ago, when I visited him to withdraw the money, he thought it strange that the lots had not been cancelled, and I suggested the might the Department, which he said he would do, and asked me to continue to hold the ten dollars until he heard from Ottawa.

The above is the true history of the case, trusting that I have not done anything improper in this matter.

I have the honor To be

THIS LETTER HAS BEEN SENT

Ottawa 9th August 1895-

Sir-

With further reference to your letter in relation to application for Lots Nos 12 and 13,Con 10,Burpee,I have to inform you that a full report in this matter has just been received from the local Agent in which he denies the receipt of $10.00 from you for valuing Lots 12 and 13,Con 10,Burpee last October but states that subsequently to your application you asked him as a special favour to hold $10.00 until it would be required for valuing the Lot;that some weeks ago he wished you to withdraw the money and suggested your writing the Department in regard to the cancellation. I may say that the cancellation of the sale of these lots has not taken place and the lots are,therefore,not at present in the market. Mr. Price's explanation of his dealings in this matter is quite satisfactory to the Department and you can no doubt obtain the $10.00 above referred to upon application to him therefor.

MEMORANDUM.

Approved for Secretary

Ottawa 3rd May 1900-

To the Secretary,

Sale 862-

Lot 5,Con.10,Burpee,was sold on the 12th June 1880 to Wm. Saunders who assigned to Edwin Saunders.

39 acres at 50¢ per acre ---------- $19.50

Paid at date of sale ---------- $ 7.80

Balance Principal due ---------- $11.70

and Interest thereon at 6% &c., &c.

Regular notices were sent for June 1899,90,91, 92,93 and 95.

On the 21st February last,Mr.Agent Thorburn forwarded to the Department a sworn report by Wm.Ainslie and Lewis Ainslie showing that the only improvements upon the lot were a stable,24 X 32,and that this building was erected by Wm.Ainslie,one of the parties signing the affidavit. The Agent recommended cancellation of the sale as did the parties making the affidavit.

On the 26th Feby.last Mr.Agent Thorburn was requested to notify the heirs of the late owner,Edwin Saunders owner of the lot that one month month would be allowed them in which to pay the arrears against the lot otherwise the sale would be cancelled.

On the 9th Ultimo, the Agent advised the Department that he had duly notifed the Heirs of the late Edwin Saunders as instructed,but no money had been received by him or improvements reported on the lot and again recommended cancellation of the sale. Under the circumstances I would also recommend that the sale of this lot be cancelled and the land resumed by the Department.

Indian Office, Manitowaning, Ont.
8th October 1906-

706.

Sir,

Referring to Official letter of date 14th November 1894, addressed to my predecessor, authorizing the sale of Lot 18, Con,1, Sandfield, to William B Snow for the sum of $18.00 cash.

I have the honor to report that Mr Snow is now desirous of ~~xxx~~ carrying out and completing his application, but, as nearly twelve years have elapsed since authority was given to have the Lot examined and valued and as the conditions under which the authority was given to sell the lot at that time was cash I think the ~~it~~ lot should be either re-examined and valued or Mr Snow be charged interest on the 18.00 from November 14th 1894 till he pays for the Lot.

I would most respectfully recommend that authority be given to have the lot re-examined by a Forest Bailiff at the expense of the applicant as I do not consider that $18.00 represents the full value of the lot at the present time.

made no error in Snow's letter 30th Jany. 1907.

This Lot is included in License, No 101, on "The Michaels Bay Limit" which is now held by Playfair & White, Midland Ont

DEPARTMENT OF INDIAN AFFAIRS
OCT 10 1894

Jeune Lorette, 9 Octobre, 1894.

Au député Surintendant Général
des affaires des Sauvages,
Ottawa.

Monsieur,

Depuis plusieurs années
des Hurons de la Jeune Lorette vont
vendre leurs produits à Kraserville où
ils passent une couple de mois.
Jusqu'à 1892, ils n'avaient jamais
payé de licence à la ville pour ven-
dre leurs produits qu'ils fabriquent
eux-mêmes. Depuis cette date la
Corporation les oblige de payer une
licence de $5.00 et ils sont informés
que l'an prochain ils devront payer
$15.00, c'est-à-dire qu'ils seront
dans l'impossibilité de vendre leurs
produits, ce qui serait malheureux,
car la plupart d'eux n'ont aucun
autre moyen d'existence.

Ils songent maintenant à pren-
dre des procédures pour arrêter cet
état de choses; mais, avant, ils me
prient de demander au départe-
ment ce qu'ils doivent faire et si
la Corporation de Kraserville a le
droit de leur imposer cette licence.

Il est en outre un usage géné-
ralement établi: que les Sauvages
ont le droit de se fixer sur les
terrains

Indian Affairs. (RG 10, Volume 2769, File 154,648)
PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

terrains de grève dans le but de vendre leurs produits. - Si cet usage est légal, ils désirent savoir quelle est l'étendue de grève dont ils peuvent jouir sans être molestés.

Plusieurs d'entre eux se laissent décourager par la perspective de ne plus pouvoir vendre leurs produits sans donner la meilleure part de leurs revenus.

Je soumets ces questions au département avec l'assurance qu'il m'informera aussitôt de la direction que je devrai leur donner.

J'ai l'honneur d'être,
Votre dévoué serviteur,

Antoine O. Bastien
Agent.

CORRESPONDENCE BRANCH OCT 11 1894

(Translation)

Jeune Lorette,
9 Oct. 1894.

To the Deputy Supt. General of
Indian Affairs, Ottawa.

Sir:-

For several years the Hurons of Jeune Lorette have been in the habit of selling their ~~products~~ wares at Quebec, where they stay for a couple of months. Until 1892 they never paid a license to the town to be able to sell wares which they made themselves. Since that time the Corporation has compelled them to pay a license of $5, and they are informed that next year they will have to pay $15, that is to say in fact that it will be impossible for them

Indian Affairs. (RG 10, Volume 2769, File 154,648)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

to sell their wares, which will be unfortunate, because most of them have no other means of making a living.

They are thinking now of taking proceedings to stop this condition of affairs; but, before, they request me to ask the Department what they ought to do and whether the Corporation of Fraserville has a right to impose this license upon them.

It is, moreover, a usage generally established that Indians have a right to take up quarters on shore land with the object of selling their wares. If this usage is legal, they desire to know what is the extent of shore lands [grève] where they can remain unmolested.

Many of them have become discouraged at the prospect

Indian Affairs. (RG 10, Volume 2769, File 154,648)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

of being no longer able to sell their wares without giving up the greater part of their revenue.

I submit these questions to the Department in the assurance that I shall be informed as soon as possible as to the direction in which I should advise them.

I have, &c.
Antoine O. Bastien,
Agent.

THIS LETTER HAS BEEN SENT

Ottawa /2 October 1894

Sir,

I have to inform you that it has been represented to the Department that the Municipal Council of Fraserville has decided to compel the Indians who have been in the habit of selling their wares at Fraserville to pay a license fee of $15 instead of $5 which they have been paying since the year 1892; that many of these Indians have no other means of obtaining a livelihood and that such a high license fee will make it impossible for them to sell their wares. I have therefore to request that you will be good enough to lay the matter before the Council with the request that the license fee of $5 only may be exacted, as it is quite evident that many of the Indians and their families will suffer if this concession is not made in their favour.

Your obedient servant

Corres. requiring opinion

159651

DEPARTMENT OF INDIAN AFFS. MAR 8 1895

Ottawa, 2nd March 1895

A reference is made by the Department of Indian Affairs as to the claim of certain Huron Indians of Jeune Lorette who have been in the habit of selling their wares at Fraserville during the Summer months. It appears that in 1892 the Corporation of the Town imposed upon them a license tax which it is now intended to increase. The Indians claim they they have by custom a right to take up their quarters upon the beach with the object of selling their wares, and desire to know what is the extent of beach which they can occupy unmolested.

Under its charter the Municipal Council of Fraserville has a right to impose a pedler's or other tax upon any one selling wares within the limits of the municipality. The amount of the fee payable for such license is, subject to the charter, a matter for the Town Council; and the Department of Indian Affairs appears to be in correspondence with the Mayor in respect thereto. The beach of the St Lawrence is vested in the Crown; but the license to occupy it during a portion of the Summer months, which the Indians have enjoyed for many years past, does not necessarily imply a right to sell their wares within the limits of the municipality without a license from the proper municipal authority.

Re 13-9634

Ottawa March 12 th 1895

Sir,

Refering to the losing part of my letter to you on the 16th Oct. last, I have to inform you that I have just received an opinion from the Dept. of Justice on the contention of the Huron Indians of Loretto that they have a right to take up quarters on the beach at Fraserville with the object of selling their wares. This opinion is I regret to say adverse to the contention of the Indians. It is to the effect that, though the beach is vested in the Crown, yet the license to occupy it during a portion of the Summer months, which the Indians have enjoyed for many years past, does not necessarily imply a right to sell their wares within the limits of the Municipality without a license from the proper municipal authority.

If therefore the municipal Council will not give favorable consideration to our application for a reduction in the licensee fee we can do nothing further to assist the Indians in the matter.

Your obedient servant

A. O. Bastien, Esq., Deputy Superintendent General

Deputy Superintendent of Ind. Affairs

Ottawa Ont.

Sir

I unintentionally left at my Summer residence Belmar N.J. my certificate of Chieftaincy that you gave me - It was something like this:

"To whom it may concern

This is to certify that the bearer Henry L. Masta is the Chief of the Abenaki Band of Indians of the St. Francis Indian Reserve near Pierreville. Yamaska County Province of Quebec". It was in typewriting and the heading "Department of Indian Affairs" in print.

I pray you to send me another certificate of like import. at your earliest convenience. I intend to leave the first of next week for Atlanta Ga. to acquaint myself

Ottawa, 13th. December, 1

Sir:-

I beg to acknowled e the receipt of your le of IOth. instant relative to the exaction by the municip authorities of a peddler's license fee from an Indian from Caughnawaga, who has been hawking Indian wares about Kenora for sale, and in reply to inform you that the only exemption from taxation which so far as the Department is aware the law makes in favour of Indians, is that provided by Section 99 of the Indian Act, and that exemption as you will observe, refers only to real or personal property held within a reserve or special reserve.

If Indians choose to go and live or trade among other classes of the community, they share for the time being all the advantages purchased through taxation, and apparently have no just ground for complaint, if they are required to contribute towards the provision of revenue

Your obedient servant,

J.D. McL[illegible]

Draft

Ottawa, 27th Oct., 1864.

THIS LETTER HAS BEEN SENT

Sir,-

Replying to your letter of the 5th instant, in which you enquire as to the status of half-breed and illegitimate children, I have to state as follows,-

(1) The child of any male person of Indian blood reputed to belong to a particular band is, in the eye of the law, an Indian and entitled to all the privileges of membership in its father's band, even if the mother should not be of Indian blood.

(2) Sec. 9 of the Indian Act provides that " Any illegitimate child may - unless he has, with the consent of the band whereof the father or mother of such child is a member, shared in the distribution moneys of such band for a period exceeding two years - be, at any time, excluded from the membership thereof by the Superintendent General."

(3) As to the removal of white people from the reserve, the Indian Agent has been communicated with on the subject and will bring the matter before the Indian Council.

Your obedient servant,

(Sd) D. C. Scott

Acting Deputy Supt. General of Indian Affairs.

Sir

The late Julia Galow who died intestate on or about the 12th day of April last was the owning owner of the S½ of S½ of Lot 24 Con one Tuscarora at the time of her death. She died leaving James Galow, Martha Burning and Ellen Cusick her only children and heirs at law. Her husband having predeceased her. These heirs have arranged a settlement among themselves, whereby James Galow and Martha Burning convey their interest in said land to their sister Ellen Cusick. I enclose the Quit claim deed duly executed with the chief approval of same endorsed thereon by Chief Joseph Hill Secretary of Council. The property is held by Chauncey & Courtney under Patent Official Num No 41. In my Rent Returns for the month of October last I reported the payment of rent due 1st October last being the sum of $70.00 I now beg to ask that a cheque issue

Statement of Mrs ~~Eddy~~ Martha Burning in re Courtrage V.S. Lewis, being dispute over three acres of land rented to Courtrage by the late Mrs P. C. Garlow. (mother of Mrs Martha Burning)

I the undersigned Martha Burning of the Township of Oneida in ~~the~~ County of Haldimand in the Province of Ontario do hereby make this statement with reference to the three acres of land rented from my late mother by Mr Courtrage being part of Lot 29 (South part of South half) Con. 1 Tuscarora.

1st My late mother Mrs P. C. Garlow owned the above discribed property and gave Mr Courtrage, a Government lease of it for five years. Mr Courtrage held peaceable and uninterrupted possession of the said premises for six months before my mothers death and one year after her death, My sister Ellen Cusick then came into possession of the said three acres which she sold to Jacob Lewis, who fenced it off before the lease expired and took possession of it. ignoring the Government lease held by Mr Courtrage.

2nd I was present when my mother made the bargain with Mr Courtrage to rent to him Lot 28. and it was her intention that Mr Courtrage would also have the three acres now claimed by Jacob Lewis being three acres of the South part of the South half of Lot 29 Con 1 Tuscarora. My late father P. C. Garlow rented the said Lot 28 to Mr Henry Teeter, and lattterly to Mr James Fields, and the said three acres was always included in the lease under the discription of Lot 28. although it was actually a part of Lot 29. it always went with Lot 28 as there was no line fence dividing it from Lot 28. and in the leases which my late father gave to Mr Teeter and Mr Fields the said three

Indian Affairs. (RG 10, Volume 2770, File 154,740)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

acres of land was included under the discription of Lot 28. My brother James Garlow was also present and acted in my mother's behalf in renting the said Lot 28 to Mrs Courtnage.

3rd The said South part of the South half of Lot 29 containing three acres was inclosed by a fence (which was the line fence dividing Lots 28 & 29 against Lot 28) until after my mothers death and after My sister Ellen Cusick had sold the three acres in dispute to Jacob Lewis. after Lewis bought the three acres from my sister he fenced it off and took possession of it. This new fence being now the new line fence. The old line fence was built on the opposite side of the Mckenzie Creek giving Mrs Courtnage water privileges for stock &c. whereas the new line fence built by Lewis, fences off the Creek as well as the three acres of land.

Statement of Mrs Ellen Cusick in re Courtnage V.S. Lewis. being dispute over three acres of land rented to Courtnage by the late Mrs P. C. Garlow. (mother of Mrs Cusick)

I The undersigned Ellen Cusick of the Township of Tuscarora in the County of Brant and Province of Ontario do hereby make this statement with reference to the three acres of land rented from my late mother by Mr Courtnage. being part of Lot 29 (S/pt of S. ½). Con. 1 Tuscarora

1st My late mother owned the said property and leased it to Mr Courtnage, who held peaceable possession of it for six months before her death and for one year after her death. After my mother's death I came into possession of it through heirship. I sold the three acres of land to Jacob Lewis for the sum of eight dollars. I sold the land to Lewis because he wanted to buy it from me. The sale was to be subject to Mr Supt Cameron's decision as to the time of ~~poss~~ the acquisition of possession by Lewis. The lease was to have been considered. I do not know if Lewis went to Supt Cameron, or not to ask him advice on the matter, as I was absent at the time, being at Waterdown. I did not go to ask advice from Mr Cameron, on the matter as Lewis promised to see about it himself.

2nd The said three acres of land being ~~the~~ South pt of the S½ of Lot 29. was enclosed by a fence along with Lot 28, until after I sold it

Indian Affairs. (RG 10, Volume 2770, File 154,740)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

to Jacob Lewis, when he fenced it off, and took possession of it. The old fence was the line fence at that time, and was so until Lewis built the new line fence, fencing off the three acres he had bought from me

Statement of Mrs
Ellen M. Cusick
in re Lots 28-29. Con
1 Tuscarora

183093

Hartford. Ont. June 28th 1897.

To the Honorable Clifford Sifton
Superintendent General of Indian Affairs
and Minister of the Interior
Ottawa.

Honorable Sir:-

I beg leave to request that your Department may Kindly investigate the following matter Viz:-
In 1894. I leased from the late Mrs P. C. Garlow the South part of the South half of Lot No 28. Con 1 Tuscarora. I held peaceable and undisputed possession of the land until about a year ago, when after the death of Mrs Garlow. Mrs Ellen Cusick, her daughter, came into possession of the lot through heirship. The lease which is termed a government lease, was confirmed by the Department and calls for 50 acres of land more or less. Mrs Cusick sold three acres of the land discribed under the lease as Lot 28 to Jacob Lewis. Lewis fenced these three acres off and deprived me of water privileges for my stock, as in doing so he fenced off the Creek which runs through this portion of the lot. and he has had possession of the land since, that is, now, about one year.

I forbade Lewis building the fence but he did not desist. I beg to explain to you that in renting the said Lot 28. The three acres of which I have been deprived formed an important factor in the leasing of the land as it was for the convenience of these three acres adjoining, as they do, my Flouring Mills that and the water privileges that caused me to rent the property.

The farm itself is not worth the rent I am paying without the three acres above discribed.

I am still paying the same rent as I did when I had possession of the three acres.

I do not object to Jacob Lewis buying the three acres, but he should, in justice to me, not take possession of the land until after the lease

Indian Affairs. (RG 10, Volume 2770, File 154,740)

lease which I have expires.

I herewith enclose statements from Mrs Cusick and her sister Mrs Martha Fleming in re the said three acres. and in them you will find that an effort has been made to defraud me out of my just and rightful possession of the said three acres of land.

In Conclusion therefore I pray that you may Kindly see that justice is accorded me, and that I be placed in possession of the three acres of land herein described until the expiration of my lease and that Compensation be given me for the time I have been deprived of the use of the land, either by an extension of the lease for the said three acres, or an equivalent money consideration.

Trusting that you will Kindly have the matter looked into and properly considered.

I have the honor, to be,
Sir,
Your obedient and humble Servant

Chancey. E. Courtnage

DEPARTMENT OF INDIAN AFFAIRS
JUL 2 1897

INDIAN OFFICE.BRANTFORD.

JUNE 30th,1897.

SIR.

I beg to enclose petition from Mr Chancey E.Courtnage Lessee,under Official lease No 41,together with the statements of Ellen Cusick and Margaret Burnham,which was handed to me to be fordwarded to you.

I beg to make the following explanation in connection with Mr C.E.Courtnage holding Official Lease No 41,dated the 15th day of October 1894. The locatee at that time was Julia Garlow,who died the 12th of April 1896, the property included in the lease became the property of Ellen Cusick,which was duly approved of by the Department,and the rent regularly paid in the ordinary way by Official Cheque to Ellen Cusick. The Lease covers the South half of Lot 28,Concession 1,Tuscarora, containing 50 acres when the Lease was agreed upon,the line fence between Lots 28 and 29,was not on the proper line, but embraced 3 acres of flats of lot 29, Mr Courtnage keeping up the line fence,as he supposed the correct line for about a year after the death of the late Julia Garlow,the person from whom he rented the property,when her daughter Ellen Cusick came into possession of the property,it was discovered that the proper division line between lots 28 and 29 would not include the 3 acres of flats through which McKenzie Creek runs. She then sold the 3 acres to Mr Jacob Lewis who owns South part of 29,

LAND
JUL 2 1897

Deputy Supt. General

Indian Affairs.

Ottawa.

Indian Affairs. (RG 10, Volume 2770, File 154,740)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Mr Lewis then removed the line fence on the proper line, which deprives Mr Courtnage of these 3 acres, contending that his lease only includes lot 28, and therefore cannot hold any of lot 29.

The matter was brought before the Council in May last, when it was decided that Mr Courtnage be confined to the land covered by the lease.

There is no doubt, but these 3 acres are most valuable to Mr Courtnage, although he has 50 acres of lot 28, without the 3 acres of flats of lot 29, still it appears to me that the lease being with the Department, that Mr Courtnage should be protected as to the property intended to be covered by the lease, and not deprived of property, not mentioned in the Lease though intended by the original bargain. But on the other hand Mr Lewis purchased the property in good faith, should not be deprived of the benefit of the same until the lease expires on the 1st. of October 1899.

I ~~will~~ therefore beg to recommend that Mr Courtnage be given possession of the 3 acres during the term of his lease, and that Mr Lewis be paid out of the rent a just proportion, the rent being $70.00 per annum for 50 acres or $1.40 per acre which would make $4.20 per annum and the balance of the rent $65.80 be paid to Ellen Cusick, who sold the 3 acres to Mr Lewis, this would be large interest on his investment of $8.00 paid by Lewis for the 3 acres.

Iam

Sir.

Your obedient servant.

E. D. Cameron

Carnia Oct. 12th 1894

Sir:-

I am in receipt of Departmental letter No 144 285 dated Oct. 10th instant and in reply thereto I have to state that although Lot 30 was omitted from the Minutes of the Meeting, the offer was made to the owners at the upset price he being present, and was by him positively refused. He would give only $50.00 and endeavored to stay others from giving $100.00 each on either side of said Lot 30. and as I waited 30 days for him to purchase and never hearing from him I thought I was justified in selling to Graham whose name is included in the List of Sales. I desire also to mention the fact that after the meeting I was urged by the Prominent Members to sell to the first Party who would pay the 100.00 which I did.

I have the honor to be, Sir,-
Your Obedient Servant-

Dear Sir: Re- File 144285

456017

In accordance with your letter of the 14th of July last you send us a copy of the plan of the lands in the Township of Anderdon. What we really want is the originals sketch, or a copy of it, of the water lot in front of lot 30 shown on the plan that you sent us. We presume that there was a separate plan made of the water lot when it was granted by the Crown to James Graham on the 27th of March, 1895. As described in the patent of that date, the land extends from the water edge on the easterly side of the Canard River to the Channel Bank of Canard River. As this property may be subject to litigation, we wish you would give this your attention, and if you have such a sketch, kindly send a copy of it.

Yours very truly,

Kenning & Cleary.

Windsor, Ont.
Jan. 19th. 1915.

Department of the Interior,
Parliament Buildings,
OTTAWA, ONT.

Sir:-

On the 27th of March, 1895, a Patent was granted by the Crown to James Graham in consideration of $100 of the water lot in front of Lot (30) in the First Concession of the Township of Anderdon extending from the waters edge on the Easterly side of the Canard River to the Channel Bank of the said River. There had been already granted a Patent of the land lot and a Patent by the Indian Department of what is known as the "Marsh Lot" apparently on the other side of the Canard River.

There is a claim by the party owning the land lot that there is no land between the waters edge and the Channel Bank of the Canard River.

Perhaps you can give me some information from your surveys or from a description by metes and bounds that you might have there or otherwise as to what this land covered by water really consists of as far as its extent is concerned.

Any expenses that there might be I will remit.

Yours truly,
(Signed) John Sale.

DEPT. OF INDIAN AFFAIRS
MAR 22 1915
SURVEYS

Dear Sirs,-

On the 27th day of March 1895 a Patent was issued to James Graham of Detroit, Michigan, which was recorded in the Department of Indian Affairs on the 29th of March 1895, in Liber 12, Folio 47, Sale No. 280, of land in the Township of Anderdon, described as being composed of the Water Lot in front of lot No. 30 in the first concession of the aforesaid Township of Anderdon extending from the water's edge on the easterly side of the Canard River to the Easterly channel bank of said river.

When the land was purchased, it was supposed to extend from the highway to the channel bank, there being water and marsh up to the highway, but a considerable distance of this marsh has now become high land and is claimed by other parties. Mr Graham for whom, we are acting, says the whole of the land between the river and the road was pointed out to him as being what he was purchasing.

Is there any map or reference in your Office which will help to identify this land and if so, at what

Ottawa, 24th March 1915.

Gentlemen,-

Referring to your letter of the 17th instant I beg to enclose herewith a blueprint copy of the plan of the Township of Anderdon. The sale to which you refer conveyed only the water lot in front of Lot No.30; the plan shows that a tract of land existed at the date of the sale between the Canard River and the highway. This tract of land does not form a part of the water lot.

Your obedient servant,

Sgd J D McLean

Asst.Deputy and Secretary.

Department of Indian Lands,
Toronto, Canada.

Gentlemen:-

Subs Waterlot in front of lot 30
in the first concession of
Anderdon Township, Essex Co. Ont.

The above is description of land purchased by my client by patent dated March 27,1895, being sale #380, reference #11182 recorded in the Department of Indian Affairs on March 29,1895 in Libre 12, Folio 47.

We desire to know what was the waterline boundary of this lot dividing it from lot 30. Can you give me for him a certified copy of any survey or suveyors ~~facts~~ notes or maps or measurements or any references to land marks which will establish this waterline or boundary line as it was deeded the date of purchase. Or can you cite me to any regulation of which will so ~~suit~~ constitute the deed so as to give the same information.

I will remit your charges if you will name them.

This is the same matter about which possibly our Toronto Engineer, Mr. Hewson, wrote you recently at my request.

Yours very truly,

L. C. Staveley

DETROIT, MICHIGAN

Dec. 7, 1915.

MINISTER'S OFFICE
DEC 9 1915
DEPT OF INTERIOR

476481
DEPARTMENT OF INDIAN AFFAIRS
DEC 9 1915

Superintendent of General Affairs,
Indian Department,
Ottawa, Ontario.

Dear Sir:-

My client James Graham of this City holds the Canadian Government patent to the water lot in front of lot 30 in the First Concession of Anderdon Township, Essex County, Ontario, bearing date March 27,1895, sale No. 380, Reference No.11182, recorded in the department of Indian Affairs on March 29,1895, Libre 12, Folio 47 and in the Register's office of the County in book M 5404 on September 14,1904.

It becomes important for him to know what the boundary was in 1895 between this lot so conveyed and the lot 30 in front of which it is located. I suppose this boundary is the water mark and that the Government survey or surveyors notes or maps or other records will give some reference to the land mark, which will define the boundary.

Will you please inform me what there is of this nature which you could certify and send me with your bill, which bill I will pay. Or what means you suggest that he may have the information.

Also will you kindly say if you understand the rulings of your department or the Courts bearing on the question are that the boundary line so fixed at the time of grant in 1895 remains the boundary line, or if in case the owner of neither the lot 30 or the water lot in front of it is occupies to any definite boundary in the intervening years the boundary will change with the water mark. . That is to say, whether the river level rises or lowers.

Yours very truly,

L. C. Stanley

Mr. J. D. McLean,
Assistant Deputy Minister and Secretary,
Department of Indian Affairs,
Ottawa, Ontario

Dear Sir:

On the 29th day of March A. D. 1895, a certain patent was recorded in the Department of Indian Affairs in Liber 12, Folio 47, whereby James Graham, of this city, was granted certain lands lying in the Township of Anderdon, in the County of Essex, in the Province of Ontario, Canada, composed of the water lot in front of Lot number 30 in the first concession of the aforesaid Township of Anderdon, extending from the water's edge on the Easterly side of the Conard River to the Easterly Channel Bank of said river. At the bottom of the patent are the words, " Ref. number 11182 " and " Sale number 280."

I wish to secure a certified copy of the description or survey of this property. A short time ago I wrote to the Department of Lands, Forests and Mines at Toronto, and was referred by them to you.

If you will notify me of the amount of the fees payable in this matter, I will forward it to you at once.

Re Number 154,771.

Dear Sir:

Yours of the 30th instant in reference to the above captioned matter has been received. In my letter of December 2nd last to you, I stated that I wished to get a certified copy of the description or survey of this property. It is my understanding that before a patent is granted, the property in question is surveyed, and the record of this survey is kept in the department interested. What we wish to do is, to secure the original survey of this property, and from this survey determine now just what land was included within the description as set forth in the patent.

I am enclosing the certified copy of the patent, which you have sent me, as I have the original patent here before me, and regret exceedingly that you went to the extent of having a copy made.

I would be pleased to hear from you in reference to a certified copy of the actual survey as recorded in your department.

Hoping that you will pardon me for the trouble I am causing you, I am

Yours truly,

John P. O'Hara

Dear Sir;- Re township plan Anderdon.

Replying to your letter of the 10th inst. in which you enclosed a blue print of the above mentioned township, I have to advise you that this print seems to be a copy of plan No. 36 of said township which is recorded in this Department and there is no further information respecting the original survey on our plan than is given on the print excepting the acreages given along certain lots in the 1st concession. There is also a bearing given on the east boundary of the township as North 2 degrees 23 minutes east, true bearing, and on the north boundary South 87 degrees 37 minutes east. There are also distances given along the north boundary.

It might be to your advantage to have a copy of this plan and if you think best I will give the matter further attention.

Yours truly,
W. C. Cain

Re: Number 154771-TY

Dear Sir:

Yours of the 4th instant in reference to the water lot in front of Lot 30, Anderdon Township, has been received. Can you suggest any way by which a description of the property intended to be conveyed by the patent issued in this matter, can be secured? If there is no description on file in your department, or in any other department of the government, would it be possible to work out a description that would have fitted the situation at the time the patent was granted.

We are extremely anxious to get a description of this particular piece of property, in order that a survey may be made, and the most advantageous time for such a survey is during the cold weather.

I would appreciate hearing from you again in this respect.

Thanking you, I am

Yours truly,

John P. O'Hara

To all to whom these Presents shall come, GREETING:

WHEREAS the Lands hereinafter described are part and parcel of those set apart for the use of the Indians; and Whereas We have thought fit to authorize the Sale and Disposal of the Lands hereinafter mentioned, in order that the proceeds may be applied to the benefit, support and advantage of the said Indians, in such manner as We shall be pleased to direct from time to time; and Whereas John Bernard, of the township of Anderdon in the County of Essex, Yeoman, hath contracted and agreed to and with Our Superintendent of Indian Affairs, duly authorized by Us in this behalf, for the absolute purchase at and for the price and sum of One hundred and eight pounds seventeen shillings & six pence of lawful money of Our said Province, of the Lands and Tenements hereinafter mentioned and described, of which We are seized in right of Our Crown.

NOW KNOW YE, that in consideration of the said sum of one hundred and eight pounds seventeen shillings and six pence by him the said John Bernard to Our said Superintendent of Indian Affairs, in hand well and truly paid to Our use, at or before the sealing of these Our Letters Patent, We have granted, sold, aliened, conveyed and assured and by these Presents do grant, sell, alien, convey and assure, unto the said John Bernard, his heirs and assigns for ever, all that Parcel or Tract of Land, situate, lying and being in the Township of Anderdon in the County of Essex of Our said Province containing by admeasurement sixty seven acres be the same more or less; which said Parcel or Tract of Land may be otherwise known as follows, that is to say: being composed of Lot number Thirty in the First Concession Block A. in the aforesaid township of Anderdon,- reserving free access to the Riviere Aux Canards for all Vessel boats and persons.

TO HAVE AND TO HOLD the said Parcel or Tract of Land hereby granted, conveyed and assured unto the said John Bernard his heirs and assigns for ever; saving, excepting and reserving nevertheless, unto Us Our Heirs and Successors, all Mines of Gold and Silver, and the free uses, passage and enjoyment of, in, over and upon all navigable waters that shall or may be hereafter found on or under, or be flowing through or upon any part of the said

DEPARTMENT OF THE SECRETARY OF STATE

OTTAWA, 12th April,1922.

Sir,

In compliance with the request contained in your letter of the 10th instant, I beg to enclose a copy of the Patent issued in the name of JOHN BERNARD.

I have the honour to be,

Sir,

Your obedient servant,

P. Pelletier

Assistant Under-Secretary of State.

D.

Ottawa, April 18th, 1922.

Sir:-

Pursuant to your enquiry re Water Lot in front of Lot 30, in the first concession, Block A, Township of Anderdon.

We have received a copy of the patent issued 16th of May, 1855, to John Bernard covering Lot 30, the original of which is of record in the State Department, Ottawa, under reference number 1717, and note there is no description by metes and bounds covering the property.

The description reads "All that parcel or tract "of Land, situate, lying and being in the Township of And- "erdon in the County of Essex of Our said Province contain- "ing by admeasurement sixty seven acres be the same more or "less; which said Parcel or Tract of Land may be otherwise "known as follows, that is to say: being composed of Lot "number Thirty in the First Concession Block A, in the afore- "said township of Anderson,- reserving free access to the "Riviere Aux Canards for all Vessel boats and persons."

There does not appear to have been a separate plan made of the Water Lot in question, and it is regretted that this Department has no further information to enable you to clear up your difficulties regarding the limit between Lot 30 and the Water Lot in front thereof.

It would appear that you should engage the services of an experienced Ontario Land Surveyor to define the limits to which you refer.

Your obedient servant,

J. C. Caldwell

Re: No. 154,771

Dear Sir:

Yours of the 18th inst in reference to the Water Lot in front of Lot 30, in Anderdon Township, Ontario, has been received. I fully appreciate the efforts which your office, and yourself, have made to secure the description by metes and bounds of the property in question, and since it is impossible to secure this, the only course left is the one you suggested in your letter.

Thanking you, therefore, for your interest in this matter, and efforts to secure this information, I am

Yours truly,

John P. O'Hara

OCT 15 1894

Okanagan Council met at Pechanas Place. for the purpose of establishing a line between the property occupied by her. and the property occupied by Chubyah in his life time. And now occupied by his wife.

There had never been a line fence between these two properties. and it was for the purpose of locating a Boundary that the Council went there.

It was decided that Pechana had a right to all the land lying between a post that was this day planted at the Road which runs past the above property. and the property of Shammie distance between the post and Shammis fence six Chains and 40 links. the land between the said post and Jackons fence being the property occupied by Chubyah in his life time. And now by his wife. A post was also planted in the edge of the wood at the other end and between these two posts the line between the two is located.

Chubyahs wife has wheat sown on a part of the land allotted to Pechana which she will be allowed to harvest and take away.

DEPARTMENT OF INDIAN AFFAIRS OCT 15 1894

154792

Sir. As my Interpreter is absent I request Mr Pelletier to write for me. Blacksmith Oct 13th 1894.

I inclose herewith Copy of proceedings of Pottawattimie Council of Walpole Island October 8th 1894.

Re establishing a Boundary line between the property of Peshana (an old woman) and that of Chebeyah, deceased occupied by him in his life time. and now occupied by his wife.

There had never been a line fence between the two. and Chebeyah in ploughing would occasionally plough a furrow or two too much till it became manifest to the old Lady that he was gradually absorbing her farm. She made Complaint to the Chief and Council. and they went to the place as stated in the enclosed. took some of the oldest inhabitants (neighbors) with them and they all agreed that Peshana was entitled to about forty feet of the land now occupied (in wheat) by Chebeyahs wife.

Will you be good enough to Confirm the action of the Council. the posts are planted on the original boundary between the two farms.

I am Sir.

COPY OF THE CHARTER

FOR

PROPAGATION OF THE GOSPEL

IN

NEW ENGLAND, &c.

7TH FEBRUARY, 1662.

CHARLES the Second, by the grace of God, King of *England*, *Scotland*, *France*, and *Ireland*, Defender of the Faith, &c. to all to whom these presents shall come, greeting. Whereas, by the severall navigacions, discoveries, and successful plantacions of diverse of our loving subjects of this our realme of *England*, the empire and dominion of us and our royall progenitors and predecessors, hath, by the blessing of Almighty God, byn augmented and enlarged, as well upon the maine land and continent of *America*, as upon severall islands and promontories thereof; and the trade and commerce between *England* and those colonies and plantacions hath of late yeares byn very much encreased, and by reason thereof, and of the paines and industry of certeine *English* ministers of the Gospell, and others resideing in or neare our colonies and plantacions in *New England*, who having attained to speake the language of the heathen natives in those partes, have by their teaching and instruccions, brought over many of them from the power of darkeness and the kingdome of Sa-

Printed by S. Gosnell, Little Queen Street, London.

trary to the lawes and statuts of *England*, but thereunto conformable and agreeable. Neverthelesse, our intent and meaning is, that the Governor of the said Company for the time being, with any five or more of the other members of the same, shall have power from time to time, upon all emergent occasions, to allow of all incident charges for and touching the meetings of the said Company, and other necessary expences, for the better managing of the affaires of the said Company. And to the end that the yearly revenue, issues, and profitts of all and every the mannors, lands, leases, tenements and hereditaments, and allsoe the goods, chattells, money, and stock of the said Company and their successors, may from time to time be faithfully layed out, disposed, imployed, and applied for the promoteing and propagating of the Gospell of *Christ* unto and amongst the heathen natives in or neare *New England*, and parts adjacent, in *America*; and allsoe for civilizing, teaching, and instructing the said heathen natives and their children, not only in the principles and knowledge of the true religion, and in morality, and the knowledge of the *English* tongue, and in other liberall arts and sciences, but for the educating and placing of them or their children in some trade, mistery, or lawfull calling, wee doe ordeine, and for us, our heires and successors, doe by these presents give and grant full power and authority to the said Governor, or any thirteen or more of the said Company, for the time being, under the comon seale of the said Company and their successors, from time to time to nominate, constitute and appoint, such and soe many fitt and meet person and persons, resideing in or neare any of the colonies or plantacons in *New England* aforesaid, and parts adjacent, in *America*, to be commissioners

for and on the behalf of the said Company and their successors, to treat, contract, and agree with such ministers, schoolemasters, and others, resideing and to reside in any of the parts aforesaid, for such sallaries, allowances and recompences, to be from time to time made, given, and paid to them, and every of them, for their labour, paines and industry, to be taken by them, and every of them, in the duties and imployments aforesaid; and allsoe to treate, contract, and agree with any other person or persons there for cloathes, bookes, tooles, implements and other necessaries, for the civilizing, imploying, educating, or placeing out any of the said natives or their children, that shall owne or profess the Protestant religion, in *English* families, and with and under *English* masters, there or otherwise, in such manner as they the said comissioners in their good discretions shall from time to time think fitt; and to content, pay and satisfy all such contracts, bargaines and agreements, and all sallaries, wages and allowances, to such ministers, schoolemasters and officers, as they shall soe contract and agree with and for the cloathing and apparelling of any of the said natives or their children, and for bookes, tooles, implements, and other necessarys for them, and for educateing or placing them, or any of them, with or under any *English* master or masters there, in any trade, mistery, or lawfull calling, out of such moneys, goods and chattels, as shall be from time to time sent or made over unto the said commissioners, soe to be appointed as aforesaid, or any of them, out of *England*, or any other the dominons of us, our heires and successors, by the said Company and their successors, unto *New England* aforesaid, or any the parts adjacent, in *America*, as aforesaid; and allsoe to doe, performe and execute, all

Address of Congratulation from the NEW ENGLAND COMPANY *to His Excellency the Most Honourable the* MARQUIS OF LORNE, K.T., G.C.M.G., P.C., *Governor-General of the Dominion of Canada, and Her Royal Highness the* PRINCESS LOUISE, *Marchioness of Lorne.*

To His Excellency
The MARQUIS OF LORNE, K.T., G.C.M.G., P.C., Governor-General of the Dominion of Canada, and
Her Royal Highness the PRINCESS LOUISE, Marchioness of Lorne.

The Memorial of the New England Company in its Court assembled,

Humbly sheweth,

That your Memorialists are an ancient English Corporation, which traces its origin to the Protectorate of Oliver Cromwell, and which obtained a Royal Charter from King Charles II.

The revenues of this Corporation have, during the last fifty years, been principally employed in civilizing and christianising Indians in Canada West.

Among their establishments in the province of Ontario may be enumerated,

The Mohawk Institution, a boarding-school near Brantford, containing sixty-five Indian pupils (thirty-one boys and thirty-four girls); the Church and Parsonage of

Kanyeageh, in the Tuscarora Indian Reserve near Brantford, and several day-schools in the same Reserve for Indian pupils; and the Indian Mission of Chemong, in the vicinity of Peterborough, Ontario.

Two Indian clergymen of the Church of England—the Rev. Isaac Barefoot and the Rev. Albert Anthony; and one Indian Physician — Dr. Oronhyatekha — have been assisted in their education by the New England Company.

An increase of population has gone on in the Tuscarora, demonstrating an improvement in the condition of the Indians in that district, and considerable attention is given by the Indians in the Company's Missions to farming, thus laying the foundation of a permanent home for their descendants.

Your Memorialists being thus connected with the province of Ontario, by their care of Indians therein resident, respectfully congratulate your Excellency and Her Royal Highness the PRINCESS LOUISE on your arrival at Ottawa, as well as on the exalted constitutional position which you worthily occupy in the Dominion of Canada.

(Signed) JAMES MEYER,
Governor of the New England Company,
JAMES HEYWOOD,
Treasurer of the New England Company.

The Hon. Sir John Alexander Macdonald, K.C.B., D.C.L., Q.C., *Premier of the Dominion of Canada, and Minister of the Interior, to* James Heywood, Esq., F.R.S., M.A., *Treasurer of the New England Company.*

Ottawa,
14*th January*, 1879.

"Sir,

I have the honour to inform you that I duly laid before His Excellency the Governor-General the Congratulatory Address of the New England Company. I now transmit to you the gracious answer of His Excellency to such address.

I have the honour to be, Sir,
Your obedient servant,
John A. Macdonald.

James Heywood, Esq.
New England Company.

His Excellency the Most Honourable the Marquis of Lorne, K.T., G.C.M.G., P.C., *Governor-General of the Dominion of Canada, to the Governor and Corporation of the New England Company.*

Government House,
Ottawa,
January 11*th*, 1879.

To the Governor and Corporation of the New England Company.

Gentlemen,

I have received your address from the ancient Corporation of the New England Company with sincere pleasure. That your revenues have for so many years been employed

in raising the condition of the Indian tribes in the province of Ontario, by affording them the means of education, in providing them with religious instruction, and in teaching them the elements of farming, is abundant proof of the charity of your Company, and your desire that your funds may be usefully employed for the good of others.

There is no class throughout Her Majesty's Dominion in Canada who are more deserving of those aids which you so kindly afford them, than are the Indian tribes, and I shall feel it my pleasing duty to give you any assistance in my power.

In conclusion I thank you for your personal congratulations to the Princess and myself.

LORNE.

REPORT.

THE last Report brings the account of the Company's proceedings in Upper Canada down to the end of the year 1860. The following Extracts from Letters from their Missionaries and others will show what has been done by the New England Company towards the civilization and conversion of the Indians on the banks of the Grand River, and at Rice and Chemong Lake Stations in Upper Canada, also at Garden River Station in British North America, down to the close of the year 1861.

GRAND RIVER STATIONS

AMONG

THE SIX NATIONS INDIANS.

(For the year ending 1861.)

February 23rd.—The correspondence relating to these Stations commences with a letter of this date

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

addressed by Mr. Nelles to the Treasurer, in which the former, after mentioning an accident by which he had fractured a rib and sustained other injuries, writes as follows:—"It will be satisfactory, as you will perceive from the accounts, that the expenditure for the last half-year, notwithstanding some unusual extras, has been considerably less than usual; the reduction has been chiefly in the account for boarding, occasioned by the farm having produced much of the provisions used.

"In regard to the Schools, I have nothing particular to observe. The Mohawk Institution has never been in more efficient operation than it is at present. During the past year ten of the oldest pupils left it, most of them sufficiently instructed to transact any ordinary business. That the Company may form an opinion of the improvement attainable at the Institution, I enclose you two notes received from Indians. Isaac Powless, the writer of one of them, was educated chiefly at it; after he left it, he was sent for a short time, at the expense of the Company, to a White School, and is, perhaps, the best educated Indian we have; he is married, and is a prosperous farmer. The other, Isaac Barefoot, has been, so far, entirely educated at the Mohawk Institute. He has been employed for some time in teaching one of our Schools, but at present is at the Normal School in Toronto, where I have sent him to be better qualified for a

School Teacher. Many others who have left the Institution are his equals in attainments, and I have satisfaction in being able to say they are generally exemplary in their conduct.

"Your favour of October 29th was duly received, and I regret to find that it is not at present convenient for the Company to extend the Institution as suggested in my letter of August 13th,* as I have no doubt that by an outlay of £350 or £400 in building, the number of children could be increased to eighty, or perhaps more, with very little, if any, additional annual expense to the Company; and I trust the time is not far distant when it may be done.

"The following is a statement of the disposition of the several lots of land held by the Company, and not occupied by them:—

Delaware School lot, rented for	$80	per annum.		
Onondaga	"	"	60	"
Oneida	"	"	100	"

"In this country tenants are not very punctual in paying rent; I will endeavour not to allow them to fall into arrears."

The following are the letters received from the two Indians referred to in Mr. Nelles' letter:—

* For this letter *vide* p. 10 of the preceding Report.

"Tuscarora, December 19th, 1860.

"Rev. and Dear Sir,

"I received a note from you in July last, informing me "that you cannot promise to continue that allowance which you "have been giving to me, but at the same time you would not "like to lose my services, so far as would not interfere with "my other duties. Common courtesy and my respect for you "compel me to reply to your note in writing, which I have till "now neglected. I may say that I never asked it of you from "the first, and your withdrawing it now has not in the least "weaken* my attachment to do or to perform the duties which "you have thought proper to impose upon me,—on the con- "trary, I feel thankful for the opportunity *I have of doing good* "in the position that I am placed by the mercy of *God*. I am "not unmindful of the many privileges which I have received in "my early days, and I do feel it to be my duty to set forth "those privileges which I have enjoyed by doing all the good "I can towards my fellowmen in my own humble way.

"I trust, therefore, Rev. Sir, that you will not consider as "imposing any severe burden upon me, when you allow me "to go on with those duties I have been doing for nothing; "for I do not think that I am making any sacrifice, for the "reason above stated.

"I might say more to the same effect; but enough has been "said, I think, to show the principle and the motive upon "which I act. With that,

"I remain, your affectionate Servant,

(Signed) "Isaac Powless.

"To the Rev. A. Nelles, Missionary,
S. N. Indians."

* So in original.

"Normal School, January 14th, 1861.

"Rev. and Dear Sir,

"With much pleasure I beg leave to take the present "opportune occasion in writing you a letter. I arrived safely "in Toronto on Thursday last. In the following afternoon I "presented my application to the several Officers of the De- "partment, and obtained admission without undergoing an "examination into the Senior or First Division. It was not "my intention to have entered into that Division; however, "I shall try it for a few weeks or so, and ascertain whether "my circumstances will permit me to keep pace with my fel- "low-students, and if so, I shall continue in it; but if I find "it trespassing beyond the limits of my circumstances or abili- "ties, I shall come down into the Junior or Second Division.

"I hope you are all well, and I shall be very happy to re- "ceive your favour by a response when time and convenience "shall permit you.

"I am thankful to say I am in good health for the time "being. We shall begin business to-morrow, and I sincerely "trust that the Supreme Being, who in His gracious providence "has granted me a safe journey, may in His infinite goodness "bestow a blessing upon my efforts, and all others, in propa- "gating civilization and enlightenment amongst my fellow "country people.

"I am, my Dear Sir, &c.

"P.S. I hereby transmit you one of the weekly reports of "my School, which I found in one of my books after my arrival "in Toronto.

"Yours, &c.

"I. Barefoot.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

"N.B. I have funds to do me for some weeks; but I shall "be very thankful if you would be so kind as to transmit me "a recommendation to the Rev. Mr. Grasett, minister of St. "James's Cathedral, for I wish to communicate on the first "Sunday of February next.

"Ever truly yours, &c.

(Signed) "I. Barefoot.

"To the Rev. A. Nelles."

In addition to the above letters forwarded by Mr. Nelles, there is also one from Mr. Grant to Mr. Nelles as follows:—

"Tuscarora Township, December 31st, 1860.

"Rev. and Dear Sir,

"As the people I am labouring amongst are very much "scattered and live far from each other, most of my time "spent in visiting is lost in travelling from house to house. "It becomes, therefore, almost necessary for me to have a horse "and saddle in summer and a sleigh in winter. Will you "please represent this to the New England Corporation, and "request them to take into consideration this matter, and as- "certain if they will provide me with these things? I make "the application because I am not able out of my salary, £400 "per annum, to provide them myself. You well know, from "your long acquaintance with the Indians, that it is necessary "for any one labouring among them to give away a good deal, "as the people are mostly extremely poor; and all I can pos- "sibly spare has to go in this way. My board, lodgings, &c. "cost me £120 per annum; and as out of the remainder I have

"to meet other necessary expenses and to give away a good "portion, you will easily see that I should be almost unable "to provide these things.

"I make this application with the less reluctance, as there "is not another missionary in the diocese (except they have "private means) who does not receive £600 per annum, and "besides is furnished with horse, &c., while the people they "labour amongst are not in such extreme poverty.

(Signed) "Robert Thomas Grant.

"To the Rev. A. Nelles,
Brantford."

April 3rd.—The Treasurer replies to Mr. Nelles's letter as follows:—

"I was truly sorry to hear of your very severe accident, but I trust your health and strength are by this time quite restored.

"Your very interesting letter of the 23rd February shall be laid before our next Meeting.

"Your assurance that the Institution has never been in a more efficient state, is very pleasing; and it is very satisfactory to learn that the farm has contributed many articles required at the Institution; I sincerely trust that the assistance to our income may continue. It shows that the farm is working satisfactorily, and reduces the additional expenditure caused by the enlarged Institution.

"I need not call your attention to an economical management, and feel sure it will suffice to mention

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

that the increase in the expenditure is already rather more than the Company contemplated.

"The application from Mr. Grant will receive attention at our next Meeting; but I do not expect that it will meet with success at this moment, as our funds are very low.

"Your account of the Indians, Isaac Powless and Isaac Barefoot, with their letters, cannot fail to give much satisfaction.

"An application on behalf of an Indian youth in whom, we understand, Sir F. Head takes some interest, has been brought before us,—a Mohawk, called Oronhyatekha, or Burning Cloud. Will you kindly mention what you know of him, and whether you would recommend the Company to contribute towards his further education in England or elsewhere?"

May 14th.—Mr. Nelles acknowledges the receipt of the Treasurer's last letter, and says:—"You may rely upon the strictest attention being paid to your suggestions on the subject of economy, so far as the efficiency of our Establishment will allow.

"I do not expect the return from the farm this year will be as large as last; the season, so far, has been very unfavourable for farming operations, being very wet and cold.

"In reply to your inquiry respecting Oronhyatekha, it might be sufficient for me to say that it is Peter

Martin, and refer you to my letters of 1st October and 23rd February last, for my opinion of him."

June 13th.—At a Meeting of the Company holden this day, on which occasion the preceding letters and correspondence were read, and the following Resolutions were come to:—"That, in his next letter to Mr. Nelles, the Treasurer be requested to take his opinion as to the necessity of increasing Mr. Grant's salary, and if at all, to what amount. Also, to inquire of Mr. Nelles the grounds of his imputing misconduct or incompetency to Peter Martin. Also, as to the state of the law in the Colony as to the liability of the Indians to be sued for their debts, and their power to alienate their lands without the consent of the Government."

August 5th.—The Treasurer answers Mr. Nelles's letters of the 23rd February and 14th May, according to the substance of the above Resolutions.

September 4th.—Mr. Nelles writes:—"I have to acknowledge the receipt of your favour of 5th August, and beg now to enclose the half-yearly accounts and reports to 1st July.

"With respect to the large item of expenditure for a barn, I beg, in explanation, to say that we sustained much inconvenience, as well as loss, last year for the want of a barn, and the one which ought properly to

belong to the Institution Farm, and which I expected to have got before this time, has fallen into the hands of Mr. Babcock's creditors, who refuse to relinquish it without they are obliged, by course of law, to do so. Instead of commencing a law-suit, the expenses of which would be considerable, and the issue doubtful, I thought it better to build a new one; and as it was desirable to have it before harvest, and would not require any additional grant from the Company, I had the less hesitation to proceed with it, without having previously obtained their consent. I have erected an excellent building, 35 by 60 feet, with underground apartments for roots and cattle.

"With respect to Mr. Grant, I beg to say that he is a very efficient and active young man, and has given much satisfaction to myself, as well as to the people amongst whom he has laboured. He has informed me that after the expiration of the present year, he cannot continue his services here without an increase of salary; and as the experience he has gained renders him more useful than a stranger, I would recommend the Company to increase the allowance to £100 sterling, or $500, which, with the addition of a small sum from the Missionary Fund of the Church Society here, I think would induce him to remain."

December 31st.—The Treasurer replies as follows:—

"I had the pleasure of laying your interesting letter of the 4th September before our Committee last week. The plan you have adopted of building a new barn in preference to commencing a law-suit with the creditors of Babcock, is, no doubt, judicious; at the same time, some explanation of the circumstances which led to this result would have been satisfactory. The building you have erected appears likely to answer every purpose.

"I have much pleasure in mentioning that our Committee are willing to adopt your recommendation as regards Mr. Grant's salary, and do not think the increase to £100 sterling at all unreasonable. I trust that amount will enable you to secure the continued services of this gentleman.

"With the kind compliments of the season."

December 31st.—Mr. Nelles again addresses the Treasurer, and after advising drafts to the amount of £565 sterling, observes:—"The rumours of wars which, for the last few weeks, have been flying about, have caused intense excitement from one end of our Province to the other, and the consequent movement in the way of preparation for the most adverse emergency has been equally great.

"I trust we may be delivered from the horrors of war; but if it come, our Cousins will find us not altogether unprepared, and I am glad to say that, as

SCHOOL No. 7.

No Report from this School has been received; it is situated in the most remote part of the reserve; the attendance has varied, sometimes being 40. It is a new School, and the scholars are all beginners.

STATION

AT THE

BAY OF QUINTÉ.

(For the year ending 1861.)

No report has been received during the year from Mr. Anderson of what is doing among the Mohawks at this station, although the Treasurer, as will be found on reference to last year's report (p. 27) wrote officially to that gentleman requesting to be furnished with information.

The sum of £50 annually allowed to the schoolmaster has been remitted by the Treasurer in the usual manner.

RICE AND CHEMONG LAKES.

(For the year ending 1861.)

The proceedings of Mr. Gilmour for this year will be explained by extracts from the correspondence which has taken place between the Treasurer and Mr. Gilmour.

May 1.—Mr. Gilmour writes:—"It is with no ordinary degree of regret that I commence this letter with the announcement of the death of John Bigman, our Chief at Chemong. He was without question the best man of the village, the most pious, the most industrious, and the most anxious for the improvement of the people and the place; disinterested and self-sacrificing in his labours among them. He was obtaining a happy influence over the young people, and was getting them fast into industrious and sober habits; they painfully feel his loss, but not more so than I do. I feel as if I had lost a friend, my right-hand man in carrying forward the improvements of the village; but I do not forget that God has done it, and say 'Thy will be done.'

When His Royal Highness the Prince of Wales visited our colony last year, and among other places Peterboro,' we were all highly gratified. The Indians had orders to meet His Royal Highness by deputation at Sarnia. Two were selected from every village, and had to appear in their ancient costume. The weather proved very cold, and the concourse of people so great there was much want of accommodation. Had the Indians been near the woods, they could have easily provided for themselves, and found shelter in their original forests; but among the multitude they came off second best. They had to sleep in lofts, without fire or covering. Many of them caught cold, and our two from Chemong came home very unwell. Weetung suffered much with fever, but recovered; Bigman was less careful, went out to hunt, but soon returned home, lingered for a couple of months, and though naturally a strong and healthy man, fell under the disease; he died Saturday, 2nd March. On Thursday previous I conversed freely with him, though at the time I did not think his end was so near. His mind was calm in the prospect of death, he hoped in the mercy of God in Christ. One of his expressions very deeply affected me, and showed how collected in mind he was though greatly racked with pain: 'I am not afraid to die, though I should like to live a little longer if it pleased God;' he added, 'I think about the world sometimes, but think *all the time* about the love of Jesus Christ and the world to come.' The day of his funeral was one of those dismal days with which we are sometimes visited in Canada. Just as we left his dwelling to go to the chapel the wind was high and cold, the small snow fell thick and hit the exposed parts of the

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

face with pricking pain. The moan of the storm and the loud mourning of the Indians commingled, and if possible the dismal toll of the bell added to the melancholy of the scene. I confess I mingled my tears with those of my red friends. We all felt we had lost a friend, and were taking our leave of him whom we loved while living, and whose memory was dear to us now he was dead. Yet the sorrow has its mitigations, we sorrow not as those who have no hope.

"We have had a very long winter; though not more severely cold than former ones, it has had some peculiarities,—three things which seldom meet having often met during this long winter—excessive cold, high wind, and pelting showers of snow; or rather flakes between hail and snow. Many were severely frost-bitten. I was three times afflicted with it, yet not so severely as many others. I suppose as many as half-a-dozen of Indians lost all the skin off the face. On the lakes we are most exposed; and if not aware, it is after the pain of cold has ceased and we begin to feel comfortable that there is the greatest danger. The ice has only left the lake this 24th day of April, and our Indians return from their rat hunt and sugar making.

"Another accident happened this winter, which threatened at one time to deprive us of McCue, the interpreter. On his long hunt about 70 miles from home, and far beyond the habitations of white men, he carelessly fired his gun, and it butted against his

shoulder. It mortified, and for fourteen days he lay upon his back in his temporary dwelling, and could get no relief, nor could he be brought to the doctor. His companion took his jack knife and cut it open; this gave him relief, and with difficulty he was got to a lumber shantie. The lumberers were very kind to him, kept him for a week, and sent him home in their sleigh; he is now recovered, but will carry the wound with him to the grave. As man follows man in a storm, another trouble overtook poor McCue. On the 24th February, while engaged in worship, McCue with me in the pulpit at Rice Lake, just as I was concluding my sermon a number of young men rushed from the chapel, and turning my eye in the direction they took, I saw poor McCue's house on fire. We could save nothing comparatively; the wind was high, and the flame soon consumed all his furniture, wheat, oats and pork; this accounts for the ten dollars to McCue without voucher. A subscription has been made for him, and I hope they will help him to build another house. He is a good man, and is much respected by all the Indians.

"As yet no Chief has been appointed at Chemong Lake, but I suppose Weetung will take the place of Bigman; I wish he may be as anxious for the improvement of the place and people. We have ten boarders in the School, and applications for admission from others. The Day School has not been so well attended this winter as last, though the School-house was so

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

much more comfortable. The spring and summer approach; I hope the attendance at school will mend, and the parents will be diligent in the cultivation of their fields.

"The receipts No. 1 are accounts not rendered last half-year, so that I have put them together, and place them to debit of timber account.

"Cephas Cabage is a young man of good capacity; has made good improvement while at School; I cannot speak much in favour of his disposition; his father is a farmer, and wishes Cephas to join him; for farming he has not shown any particular predilection; he excels in penmanship and drawing, and is fair at figures; his father is a superior Indian, and wishes his children to be well educated.

"I am sorry to say that the water in our lakes and rivers is unusually high, and has done much damage to the dams of our Lumber Mills. It has also carried away our wharf at Chemong Lake, as also the bridge. We have, however, saved a good deal of the timber, which must be placed in a less exposed position. The water has not been known to be so high for 35 years; the injury done at Montreal is very great."

July 1st.—The Treasurer replies to Mr. Gilmour's letter as follows:—"I have to thank you for several letters up to the 1st May.

"Our Committee were much pleased to learn your determination to continue your exertions in the cause

which you have so long and so ably advocated; and we sincerely sympathize with you on the death of the Chief, John Bigman.

"It is much to be regretted that proper arrangements were not made for the Indians who attended the meeting at Sarnia.

"Your account of the illness and death of John Bigman is most touching; it must have been a great satisfaction to you to find him in such a happy state of mind, and so well prepared. We quite understood your anxiety respecting a Chief to supply the place of such a man, and can only hope that so good an example may not be lost on his successor. The accounts to May, 1861, have been examined and found correct; the several items carried to the timber account appear in order.

"We trust the new School-house and the improvement in the Chapel may answer your expectation, and prove useful.

"The arrangements made as to loaning the oxen, instead of giving them to the Indians, appear to work well, and we shall be glad to leave the management of this little matter to your judgment, extending it as far as you propose, should you continue to think it desirable. We do not quite understand the present position of the Trusteeship at Rice Lake; will you kindly send us word how it stands, and what course you think ought to be taken? We fear little can be

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

ARCHIVES PUBLIQUES
CANADA

done on this side; we shall be much pleased if we find that our co-operation can be of use."

November 5th.—Mr. Gilmour again writes:—"I have the honour to acknowledge the receipt of your favour of the 24th July, 1861, and noted the contents.

"In my last to you I expressed my deep regret that we had lost our very excellent Chief of Mud Lake. I felt the loss much at the time, and also through the operations of this summer. The Indians, after great difficulty, have chosen a successor; at one time they felt it so difficult to select, as several put themselves forward for the office, that they wished me to determine for them; but I declined, at the same time mentioned one in the village that might suit, and one belonging to the Rice Lake village as still more suitable. They selected, finally, the one in their own village; I should have preferred the other; he is very industrious, farms well for an Indian, and has great influence among them; he always gets a premium for the best crop of something in the village; he even competed at the Township Agricultural Show, and took a premium for the best wheat; his name is Touchez. Indeed, it was found, on inquiry, if they chose him, he would not leave the Rice Lake village. They have chosen Joseph Weetung, a very worthy man, yet lacks influence among them in carrying forward the improvements of the place.

"We endeavoured to get the graveyard fenced in and laid off in squares; the former is nearly done, the latter has all yet to be done; it might have been all done with our former Chief. I am happy, however, to add that the wharf, which was carried away in the spring, they have removed to a place of greater safety, and made a good job of it. The steamboat, which plies daily, can come alongside without any difficulty.

"There are about twenty acres of choice land adjoining the School Field, but it is very stony. It is now a common for the cattle; the School Field we cleared, brought under culture, and seeded down. It has now yielded us six successive crops of hay. In looking over the items which it cost to stone, &c., I find it cost from £7 10s. to £8 per acre, yet the yield has afforded good interest for the sum expended.

"Now that I mention the increase of the Indians, I am sorry to say that another of our best Indians, about 30 years of age, is pining away under the influence of consumption; he was one of our first boarding-school pupils; he has profited much by the instructions given, and has considerable influence in the village; his name is John Knott, he leaves several children behind him, he is very peaceful in the prospect of death, and assigns satisfactory reasons for the hope he entertains; he suffers a good deal, but is patient, and resigned to the will of God.

"We have had twelve boarders the most of this

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

summer. We have tried some grown-up girls, but do not succeed with them. The Day School has been well attended, as the number of dinners show.* Cephas Cabage, at the request of the father, who lives in Sangeen and wishes him to come home, has finished with us; he has made very good progress at school, and wished me to convey to the Company the enclosed letter of thanks. One of our first boarders is now stationed, as a Missionary's wife, at the Christian Island in the Georgian Bay, and expressed a wish by letter that we should receive into our school three children from their village; at the time the application was made, the school was not so full as it is now, and I wrote them to send them on. I heard no more from them. The Chief of their village sent me the enclosed letter, in reference to which I have only to say that it was quite news to me to hear that I had expressed a readiness to establish a school at their village; in what the mistake originated I cannot divine, but I forward the letter to the Company. I have not answered it.

"When at home, the Indians are comparatively comfortable; but I fear they suffer much when on their hunting excursions; but it seems impossible to moderate to any extent this passion for hunting.

"The Rice Lake Indians have had good crops this

* Dinners to 415 Day-Scholars.

year, yet they are off to the hunt. They are greatly improved, and are still improving. Many white people now live in their neighbourhood, and attend with them in hearing the Gospel; and I think that the intercourse they have together greatly improves them. When virtuous men mingle with them, it does them much good; but bad men sadly demoralize them.

"The best crops I have seen in the region of country were at the Indian village; nor is it any matter of surprise, for they have a splendid reserve.

"I am happy to add that temperance generally prevails; they have a fair share of morality, and many of them are truly religious; what they lack is, *pith* of character: and, therefore, cannot keep up in the race of life with the energetic Saxon race. If the latter take too much thought for to-morrow, the *former*, I sometimes fear, take too little:—'Let your moderation be known to all men.'"

The following is the letter from the Chiefs and Warriors of Christian Island referred to in Mr. Gilmour's letter:—

"Christian Island, June 11th, 1861.

"SIR,

"We the undersigned chiefs and warriors of Christian "Island have heard that you are willing to establish another

ARCHIVES PUBLIQUES
CANADA

"school among the Indians in this Province like that which "you have at Mud Lake. If so, our place is open for such an "Institution. Come and see.

"We remain, yours,

"JOHN ⋈ ASSANEE, } Chiefs.
"JAMES ⋈ ASSANEE, }

"Chief at the North Shore, SOLOMON JAMES,

"JOHN MANAGRE, Warriors."

December 31st.—The Treasurer replies to Mr. Gilmour's despatches as follows:—"Your letter of the 5th November came duly to hand, and I had the pleasure of submitting it to our Committee last week.

"I trust that the selection the Indians have made of a new Chief will prove a judicious one, and that Joseph Weetung's influence may increase to the advantage of his tribe.

"Our Committee are inclined to think that Christian Island is too distant; and that, for the present at least, they are unwilling to establish a school there. Will you kindly inform the Chiefs, whose petition you forward, that the matter has had due consideration; and express our regret that the petition cannot be complied with at present?

"As regards the outlay in reclaiming the land, the Committee would approve it, if the Indians can be induced to undertake the labour; otherwise, your account of removing the stones, &c., would hardly induce the Company to undertake the work. We are much

obliged by your account of the progress making among the Indians. We observe that you consider their crops the best that you have seen in the neighbourhood; and it is with great regret that we learn that you are likely to lose John Knott, an Indian who has profited so much from your teaching and attention. Consumption appears a sadly common complaint.

"The accounts you have been good enough to send prove correct, and are duly noted.

"Wishing you every kind wish of the season."

GARDEN RIVER STATION.

(For the year ending 1861.)

During the year the Treasurer has received from Mr. Chance two interesting Reports, dated the 6th June and 21st November, 1861. The following extracts therefrom will show the general state of the Mission :—

June 6th.—"I am exceedingly obliged to you for your "kind letter of February 27th, and return you my sincere "thanks for your promise to place my application before the "Committee again when a favourable opportunity occurs. I "am much pleased to hear that the Committee appreciate "my services, and would gladly increase my salary if circum-"stances would allow it. I would just mention here *en* "*passant* that my friends in Toronto, Messrs. Fulton and "Michie, had to dispose of my last bill of exchange at 2½ per "cent below par, which was a great loss to us.

"I can assure you I shall always feel great pleasure in com-"plying with your request, and supplying you with any in-"formation respecting the Indians and my labours among them "which I think will prove interesting. The following is an "account of two visits which I paid to some Indians during "the winter.

"I left here with Chief Pahgwudgenene on Friday Feb-"ruary 18th, for Goulais Bay and Babadgewenaning on the "north shore of Lake Superior, about fifty miles distant from "here. We slept at the Sault on the first night, as we had to "finish our arrangements there for the journey. In the morn-"ing we found that one of our dogs had made his escape and "returned home, we supposed; it was too far to go after him, "and as we could neither borrow nor hire another, we had to "set out with one dog, which had a heavier load than I thought "he would be able to draw all day; but I secretly resolved "to relieve him of my valise at noon, if necessary; when that "time arrived, however, and twelve miles of our journey through "the bush had been accomplished, I did not feel at all disposed "to carry out my resolution, and fortunately the dog seemed "quite equal to his arduous task. We rested at noon and re-"freshed ourselves with some bread, pork and tea, after which "we continued our journey to Goulais Bay. We reached the "village before dark, and the Indians gave us a very cordial "reception; the chief and all the principal men in the village "came to visit us during the evening, and as I purposed to "proceed on the morrow to Babadgewenaning, I had a short "service, for which some of them expressed their thankfulness. "The weather on the following day not being favourable for "travelling, I did not leave the village, but spent the day there "in visiting the Indians and receiving visits from them, when "I had long conversations with them in reference to their tem-"poral and spiritual concerns. In the evening I had service "at the chief's house, which was very numerously attended.

"Most of the people there are heathen and papists, but the "latter do not differ much from the former except in name. "All, however, are anxious for secular and religious instruction "for themselves and children. They subsist chiefly on fish, "of which there is an abundance in the bay all the year round, "nearly. In the winter they cut holes in the ice, and some-"times set nets, but more frequently spear and use lines.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

"On Thursday we continued our journey to Babadgewenan-
"ing, and after a hard day's walking, partly on snow shoes
"through the bush (the snow being six feet deep), and partly
"on the ice, against a strong north-west wind, we reached the
"village in the evening. As most of the Indians had left for
"their hunting grounds, I returned the next day to the Bay of
"Goulais. Saturday was a very stormy day: I have not wit-
"nessed such a severe and continuous snow storm since I have
"been in the country. I went out at noon and visited the
"heathens from house to house, who listened to me with great
"attention, whilst I preached Christ unto them, and urged
"upon them the necessity of being born again of water and of
"the Holy Ghost. The Sabbath was heralded in with un-
"clouded glory. When the sun arose not a cloud was visible,
"and all nature was calm and still and bright, as one could
"wish every earthly Sabbath to be, emblem of that eternal
"Sabbath which remains for the people of God. The mag-
"nificent scene which it was my privilege to witness that
"morning at Goulais Bay, and the reflections to which it gave
"rise, tended much to produce within me that state of mind
"necessary for the faithful discharge of my sacred duties. I
"had spent the previous night in a small hovel with three
"Indian men and two women, on a most barbarous bed and
"very uncivilized bed-clothing. I felt very heathenish until
"I had washed myself, breathed the pure cold bracing air, and
"witnessed the glorious sunrise. We had morning service at
"the Chief's house, which was crowded to excess. In the
"afternoon I had Sunday school, which was attended by many
"young men and women as well as children. I was delighted
"to see several of the heathen children there. At the evening

"service the house was crowded again most uncomfortably;
"many of the heathen were present, as in the morning, and
"I have seldom seen a more attentive congregation.

"I returned to my lodging, about thirty yards distant, with
"my surplice on, feeling much fatigued, but at the same time
"rejoicing in hope that my labours were not in vain."

March 28th.—"I went to visit some of my people who
"were wintering on the north shore of Lake Huron. One is
"a very old man whom I baptized here last summer; he was
"the only one belonging to this band unbaptized; I endea-
"voured to persuade him and his family to settle here, but their
"wandering propensities prevailed, and they left us for other
"parts. Having been informed that the old man was sick, at
"the point of death, I thought it was my duty to go at that
"time and visit them. The Indians here said they were only
"a day's journey distant, but in a strange place to me, and I
"took an Indian guide with me. After walking all day and
"remaining out all night, we found our camp half buried in
"the snow; the inmates of this camp were well supplied
"with provisions, and gave us a substantial breakfast after a
"civilized fashion; they dried our clothes, and seemed much
"troubled that we had been exposed to the storm all night.
"I had a long conversation with them on the subject of re-
"ligion, in which they were deeply interested. They directed
"us to the next camp, where we found the old man very sick
"and miserably poor; he had scarcely any thing to eat, his
"bark tent was in a wretched condition, and so full of smoke
"that I had to assume an horizontal position in order to
"breathe. I remained there, however, all day and the follow-
"ing night, and had two short services.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

"Early the next morning we left and returned home, walking on snow shoes a distance of thirty miles; my face was cut by the wind very much, and I suffered a great deal from snow blindness.

"Fearing that this lengthy communication will prove very tedious, I will hasten to a conclusion. I have visited a great deal this winter, but further details I fear would be wearisome.

"You will be glad to hear that our school and services have been well attended during the winter. The Indians have been very busy lately, ploughing, sowing, planting, &c.; one of my churchwardens has planted twenty barrels of potatoes; the Indians think that on account of the war in the neighbouring states they shall realise a good price for their produce; if they have much to dispose of, they expect to dispose of it to great advantage. I am anxious to visit all the Indians on the north shore of Lake Superior as far as Fort William, and from the Fort to the nearest missionary station in the diocese of Rupert's Land, a distance of 600 miles or more. Would the Committee sanction this and bear part of the expense, if I can obtain the other part from the Church Society in Toronto? That society paid my travelling expenses for shorter distances last year. There is no missionary of our Church for 150 miles east of this place and for 600 or 700 miles north and west, and in this direction the Indians are living in a degraded state. My Indians here often urge me to go and visit their distant and destitute brethren in the north, and think it strange that I should lack funds for expenses."

November 21st. — "You will, I have no doubt, be glad to hear that since my last Report our Mission has been visited by the Lord Bishop of Toronto and by the Rev. Dr. O'Meara, inasmuch as their visits tended much to encourage us, and to strengthen our hands in our Missionary labours. The Bishop was accompanied by Professor Hatch and Sir J. B. Robinson, Chief Justice of Upper Canada, who were very well pleased with all they saw and heard. The Indians were delighted at this opportunity of seeing 'Ookeehemakoodawekoonahyamewaun,' their Great Spiritual Father, amongst them once more, and the churchwardens took care to have every thing in good order; the church was very neat and clean; in honour of the bishop's visit, they had subscribed $40 for a new bell for the church. The bishop administered the rite of confirmation to thirty-four Indians, some of whom were very far advanced in years, and afterwards addressed them in a very eloquent and affectionate manner (your Missionary acting as interpreter). After service his lordship walked some distance into the bush, and consecrated the burial ground, which the Indians had previously cleared and fenced in at their own expense. On the following day a deputation of the Indians, consisting of the chiefs and principal men, waited upon his lordship to thank him for his visit, and to pray that he would take into consideration the destitute and degraded condition of their fellow-Indians on the north shore of Lake Superior, and that he would send a Missionary among them. The bishop, in reply, said that he was very much in want of funds, but that for twenty years he had been endeavouring to promote the spiritual welfare of the Indians, and assured

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)
PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

"them that he would continue to do all he possibly could for "them. When the steam-boat called for the bishop, the "Indians walked in procession to the wharf with a large flag; "and as soon as the boat left the wharf, some twenty or "thirty Indians fired a parting salute (their usual mode of "showing their great respect for people of importance), "which was acknowledged by the bishop and the chief "justice.

"The visit of the Rev. Dr. O'Meara was later; the Indians "were very glad to see him too, for he has been a great friend "to them, and for a period of twenty years at least has "taken a very deep interest in their welfare. He has trans-"lated the New Testament, the Prayer Book, and the Pen-"tateuch, into Ogibwa.

"He preached a very excellent sermon in his usual eloquent "manner, and had two long conversations with the chiefs and "principal men, in reference to those things which pertain to "their temporal and eternal well-being. You will likewise be "glad to hear that we have been instrumental, in the hands "of God, in bringing another from the soul-destroying errors "of Popery to a knowledge of the truth as it is in Jesus. He "was an elderly man, and one whom I had often visited when "he was well, and more frequently during the sickness which "proved fatal. His popish friends did not like my visits, "much less his readiness to receive them and listen to the "'Words of Life.' After some time, he expressed a wish to "be received into our Church, and to receive the Holy "Sacrament of the Lord's Supper. Knowing his state of "mind, I had no hesitation in fully complying with his request, "and I administered to him the Holy Sacrament to his soul's

"comfort. The priest was absent from the village, but his "friends sent to the Sault for a priest, who came without "delay, and uttered the most fearful denunciations against the "poor man, in order to frighten him back to Popery; but I "am happy to say that he did not succeed. The poor In-"dian died soon after this, and I buried him, to the great "indignation of the priest, who came to the Mission House "afterwards in a fearful rage, like a lioness robbed of her "young, and began to pour forth a torrent of abuse, at the "same time shaking his fist at me menacingly. I ordered "him to leave the house, but he refused. To eject him "by my own physical force, even if I had wished, was im-"possible, for he was too big and powerful; so I had to "submit to his insolence for a time—only for a short time, "however, for when he began to attack Protestantism, and I "to defend it, he became so enraged that he quickly left me "of his own accord. Since then the Romish Bishop of "Hamilton, C. W., has visited Garden River, and prohibited "his people from attending our church, and told them that "if we went to their houses not to listen to us. I am sorry to "say that many of the poor ignorant Indians are very bitter "against us. But if God be for us, who shall prevail against "us? The Indians have done very well in their fields and "gardens this summer; their crops have been abundant; the "disease has appeared amongst the potatoes, but not to any "great extent. Many of the Indians have taken their "surplus produce to the Bruce and Wellington Mines for "sale.

"In conclusion, I wish to say a few words in reference "to the money kindly granted by the Committee on my appli-

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

"cation to assist the Indians in building a bridge across Garden "River. A short time after the money was granted information "reached us that a Great Northern Road was about to be made "by the Government, which would pass through the village; "and that in consequence a bridge would necessarily be built "over the river by the Government. The bridge is now nearly "finished, at a cost of 3,000 or 4,000 dollars; it is too high up "the river to be very convenient to us, but we shall have to "be satisfied therewith, for we are not able to build a similar "one.

"Will you be kind enough to ask the Committee if they will "allow us to appropriate the money, which is still in the hands "of the Rev. Dr. O'Meara, for some other purpose?

"Hoping to hear from you at your earliest convenience.

"P.S. I desire to state that I shall draw on you for six "months' salary at the usual time, January 1st, 1862."

December 31st.—The Treasurer, after acknowledging the receipt of the above two interesting reports from Mr. Chance, proceeds as follows:—

"The very graphic and amusing account of your journey was read with much interest. Our Committee regret exceedingly that they cannot comply with your suggestion as to the expense of these journeys, the grant already made to your district being as large as they feel authorized to make. The zeal with which you are carrying out the objects of the New England Company is fully appreciated, and it is with regret that it is felt necessary to call your attention to a point which arises on one part of your otherwise very satisfactory letter.

"In endeavouring to spread the blessings of civilization among the Indians, it has always been the New England Company's rule not to interfere with other missionaries working in the same field. The object of the New England Company is to civilize and spread Christianity among the heathen, rather than to propagate any particular religious views among the natives who have already adopted Christianity. Without going into the questions which have arisen between you and your Roman Catholic neighbours, we cannot help expressing regret that these altercations should have occurred, and trust that you will in future confine yourself more strictly to the object of our Corporation.

"As there appears no chance of using the sum of money destined to assist in building the bridge, we purpose to write to Dr. O'Meara, requesting him to pay over to you the thirty pounds in his possession. When it is received, please place it to our account."

REPORT.

THE last Report brings the account of the Company's proceedings in Upper Canada down to the end of the year 1859. The following Extracts from Letters from their Missionaries and others will show what has been done by the New England Company towards the civilization and conversion of the Indians on the banks of the Grand River, and at Rice and Chemong Lake Stations in Upper Canada, also at Garden River Station in British North America, down to the close of the year 1860.

GRAND RIVER STATIONS

AMONG

THE SIX NATIONS INDIANS.

(For the year ending 1860.)

February 11th.—The Correspondence connected with these Stations commences with a letter of this

date addressed by Mr. Nelles to the Treasurer, in which he observes :—

" That the number of children at the Mohawk Institution " during the last half-year has been more than we have ever " had before, being 62 ; at the same time the expenses have " not been more than usual, on account of our having produced " on the farm a portion of the provisions used ; and I have no " doubt that when the farm shall be got into good order we " will be able to maintain the present number, and perhaps " increase it, without any additional grant from the Com- " pany.

" During the last Summer the articles produced on the " farm were 1,000 bushels of potatoes, and as many turnips, " besides other vegetables, upwards of 200 bushels of wheat, " and about 200 bushels of oats and pease. The girls have " made all the socks used, and spun yarn to make 150 yards " of cloth. It is not probable that more will be raised this " year except of wheat, which I hope will be 400 or 500 " bushels. The attendance at the out-Schools, as has always " been the case, is very irregular, owing to many circum- " stances over which we can have no control, nor, in their " present condition, can the Indians themselves ; but it is " satisfactory to observe some improvement in this respect, " and also a great desire on the part of Parents even among " the Pagan portion of the Indians to have Schools opened. " I am glad to be able to inform the Company that I have " engaged the services of a young man as Assistant ; he is an " Englishman who has been a few years in this country, and " has for some time been employed as Lay-Reader in one of the

" back Townships. He is not yet in Orders, but expects to " be ordained next month. His assistance just now was very " timely, as I have been much confined at home by the " severe illness of my son Busk, who, after a very severe pro- " tracted illness of some months, was mercifully removed " from his sufferings on the 23d ult., having just attained the " age of 21 years."

February 25th.—Mr. Nelles again writes to the Treasurer as follows :—

" I enclose a note from the Rev. Mr. Elliot, applying to the " Company for some assistance in his part of the Mission. " We have had frequent conversations on the subject, and " I fully concur in all Mr. Elliot says in his note.

" You are aware that for the last two or three years I have " applied the allowance made by the Company for a Curate " in employing two Indians as Lay-Readers, one of whom " labours chiefly in Mr. Elliot's part of the Mission ; but " since I have engaged Mr. Grant as my Assistant their ser- " vices have been dispensed with, and Mr. Elliot feels that, " in consequence, his own labours are not only increased, but " much that might be done is of necessity left undone. £40 " a-year, or even less, would enable him, at least for the pre- " sent, to accomplish what he proposes. I have no doubt " that the interests of the Company's Missions would be pro- " moted by granting Mr. Elliot's application, and I would " strongly recommend it to their favourable consideration."

February 15th.—The following is the note referred to from Mr. Elliot to Mr. Nelles, in which he says :—

" I beg again to call your attention to what I mentioned to
" you a short time ago—my want of assistance in this part of
" our Mission. Since the death of the Delaware Chiefs,
" George Antony and Patrick Latham, I find it necessary,
" instead of once a fortnight, to visit my congregation at the
" Delaware Settlement once a-week, and, as you are aware,
" frequently to remain there two or three days at a time.
" During the period of my residence here many changes have
" taken place in the circumstances of the Indians. The
" Christian and the Pagan portion of our people are now much
" more intermixed than formerly, and many of the latter
" express a wish for instruction, which is a very encouraging
" consideration. Even some of their Chiefs have become
" favourable to Christianity. You well know the extent of
" the Indian Settlements, and how impracticable it is for me
" adequately to attend to their wants without further aid.
" There is abundance of labour here for another clergyman ;
" but for the present, in my opinion, an Indian Catechist and
" Lay-Reader would be preferable as an Assistant. One of our
" young men, who was educated at the Mohawk Institution,
" acquainted with the various dialects of the Six Nations,
" would be most eligible. Should it be considered expedient
" to employ one of them, it would give me pleasure to aid him
" in preparing for his Missionary work, as far as I am able ;
" and if he should be found fit the Bishop would, in time,
" admit him to the office of Deacon. What his salary should
" be it is not for me to say, but I may mention for your in-

" formation that the person who seems to be most suitable for
" the office receives, I believe, about a dollar a-day for doing
" carpenter work ; and if he should devote his time to Mis-
" sionary labour, he would probably expect an equivalent for
" his services. But as you are so well acquainted with what is
" necessary for the successful cultivation of our joint and ex-
" tensive field of labour, I will say nothing further at present
" on the subject, than to request that you will be pleased, at
" your earliest convenience, to represent what I have stated to
" the New England Company for their favourable considera-
" tion."

March 6th.—At a meeting holden this day a correspondence between the Governor and Dr. O'Meara having been read, in which Dr. O'Meara had, at the request of the Governor, given his opinion as to the locations to which the aid of the Company could be most beneficially extended ; and Dr. O'Meara having attended personally, and afforded much interesting information on the condition of the several Indian Races in Canada; and it appearing to the Committee that much benefit would be derived from the Company possessing a General Report from Dr. O'Meara upon the condition and prospects of all the Indian Communities in the Colony, they came to the following resolutions :—

" That Dr. O'Meara be requested, on his return to Canada, to visit the several Missionary Stations and Schools under

"the superintendence of the Company, and any other Stations "where their funds are distributed; and to transmit to the "Company a General Report on their state and condition, "and also on the condition and prospects of the Indian "Races in Canada."

"That the Governor and Treasurer be authorised to make "the necessary arrangements with Dr. O'Meara on the sub- "ject, and to give him such instructions as they think expe- "dient; and to remunerate him for his services, such "remuneration not to exceed the sum of £105."

March 24th.—Dr. O'Meara having expressed his willingness to undertake the Mission proposed to him, the Treasurer, in pursuance of the above resolutions, wrote very full instructions to that Gentleman, enclosing, at the same time, letters of introduction to the three Missionaries resident at the three principal Stations belonging to the Company; and he likewise addressed letters to Messrs. Nelles and Elliot acquainting them of Dr. O'Meara's intended visit, and the objects the Company had in view in requesting that Gentleman to undertake the Mission.

Dr. O'Meara shortly afterwards sailed from Queenstown in Ireland for Canada, and upon his arrival proceeded to visit the Company's Stations.

A Special Report has since been transmitted from that Gentleman to the Company, containing highly interesting information on the present state, condition,

and future prospects of their Missions, and the improvements made by the Indians generally in learning and agriculture; but as it includes an account of each Station under the control of the Company, it is thought better to place it at the end of this Report.

May 16th.—At a Meeting of the Special Committee, held this day, the subject of Mr. Elliot's application, contained in his letter of the 15th February then last, was taken into consideration, when the following resolution was come to:—

"That the Treasurer be authorised to appropriate the sum of "£40 per annum, to provide a salary for a Native Cate- "chist and Lay-Reader at the Tuscarora Station, according "to Mr. Nelles' and Mr. Elliot's recommendation."

June 15th.—The Treasurer communicated to Mr. Nelles and Mr. Elliot the substance of the foregoing resolution.

May 26th.—In a letter from Mr. Elliot of this date, after acknowledging the receipt of the Treasurer's letter of the 24th March, he states:—

"That he had received the pleasure of the expected visit "from Dr. O'Meara.

"On the fifth Sunday in Lent the Bishop of Huron held a "Special Ordination in the Tuscarora Church, when he ad- "[illegible] Orders Mr. Robert Grant, who is ap-

" pointed to assist the Rev. Mr. Nelles. The ceremony " excited great interest, and the Church was filled to over- " flowing, chiefly by Indians. Many were unable to obtain " admission; but the weather being fine, and all the windows " open, probably all were able to hear or to see the ordina- " tion. Five Clergymen, besides the Bishop, were present. " The Sacrament of the Lord's Supper was administered, and " a large number of Indians, of the different tribes, and also " white people, were partakers, with the Clergy, of that holy " Ordinance. The Bishop preached on the occasion; and a " young Delaware, who was admitted at one of the Company's " Schools, played on the Melodion. The Indian youth have " made considerable progress in the acquisition of a know- " ledge of English; and though they still continue to sing the " metrical Psalms or Hymns in Mohawk, they make the " responses in the Liturgy and sing the Chants in Eng- " lish.

" Mr. R. Grant having resided nearly half-a-year at my " house previous to his Ordination, afforded me an opportu- " nity of knowing him; and I have much pleasure in stating " that, in my opinion, he is well adapted for his present em- " ployment. He is well educated, very pious, gentle and " pleasing, and every way exemplary.

" On account of the apathy of many of the Indians, and of " their living far apart from each other in the woods, it is very " difficult to secure a general attendance of the Members of " the Church on Sundays for Divine Worship and religious " instruction, and I am obliged to spend much time in visiting " them at their homes on week days; but it is a work to

" which I have been long accustomed, and it is not disagree- " able. But, notwithstanding the carelessness of many of the " Indians, it will be gratifying to you to know that my con- " gregation rather increases, and that the youth of the Pagan " portion of the people are more disposed than formerly for " civilisation and instruction. Although at present only indi- " viduals openly embrace Christianity, yet it appears to me " that it has an indirect influence for good, even upon those " who have not yet been baptized.

" The number of Communicants continues to be about a " hundred; but seldom more than fifty persons participate " at any one time. The Lord's Supper is administered on the " first Sunday in each month, and also on Easter-day, Whit- " sunday, Christmas-day, and Good Friday. On Christmas- " day last there was a very large congregation, and also " on New Year's-day, when I gave dinner in the old school- " house near the church to the whole assemblage."

June 30th.—The following is an extract from a letter from Mr. Nelles to the Treasurer:—

" We have much pleasure in being visited by Dr. O'Meara, " as requested by the New England Company. During his " stay of four days we afforded him every facility in our " power to see what is doing, and gain any information he " might desire.

" I will shortly forward the usual half-yearly reports and " accounts."

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

August 13th.—A further letter is received from Mr. Nelles, in which he says:—

"I have to acknowledge your favour of June 15th, enclos-
"ing copy of a memorial from John Wampum. On the 30th
"ultimo I advised you that we that day passed on you drafts
"amounting to £615 sterling, which I trust will be found
"correct. I now enclose the half-yearly accounts and
"reports.

"I have latterly given much attention to the subject of
"education among the Indians, and am convinced that the
"most, if not the only, effectual way of imparting a useful
"education is by taking the children entirely under our own
"control, as is done at the Mohawk Institution; and there-
"fore I hope the Company will not think me unreasonable in
"indulging the hope that I may see the Institution enlarged
"so as to accommodate a much larger number of children.
"My own experience with respect to day schools among
"Indians is, that the good they accomplish is by no means
"commensurate with the expense, owing chiefly to the care-
"lessness of both parents and children. Yet there can be no
"doubt some good is done by them, and discontinuing them
"altogether would be disagreeable to the Indians, and, I
"think, inexpedient at present, and might be attended with
"some disadvantages which we cannot foresee; but, at the
"same time, if there be no other way of enlarging the Insti-
"tution, I would recommend that some of the outlying
"schools should be closed. An addition to the present
"building would be necessary before any great increase in
"the number of children could take place. In the above

"opinion Mr. Elliot quite agrees with me, and we will be
"glad if the Company will take the subject into their favour-
"able consideration.

"With respect to the application of the Munsey Indians to
"have some of their children received into the Mohawk In-
"stitution, I do not think that with our present accommoda-
"tion it would be expedient to take more from a distance
"than we now have; but if the establishment could be en-
"larged so as to enable us to take a greater number of pupils,
"I am of opinion that it would be attended with the best
"results to admit a limited number of children from among
"those tribes who have not the advantages of education at
"home, and I should be glad to see the privilege extended
"to others as well as to the Munsey Indians: keeping,
"perhaps, within the limits of the Diocese of Huron. At
"the earnest solicitations of the Indians and their missionary,
"I have been induced to take a few children from a distance,
"and at the present time I have five from Munsey Town, two
"of them belonging to John Wampum. I think a conference
"with the Company on these and other matters connected
"with the success of their Missions here would be very satis-
"factory, and of much benefit, and should it meet their ap-
"probation, I would suggest that Mr. Elliot, if he can be
"induced to undertake the journey, or myself, should visit
"London for that purpose.

"Mr. Grant, who was ordained in the Tuscarora Church
"on the 13th May last, is a young man apparently well
"adapted to the work in which he has engaged, with much
"energy and zeal; and I think will [illegible] Mr.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

" Elliot has also engaged a young Indian, who was educated " at the Mohawk Institution, to assist him as Lay-Reader, " and anticipates much benefit from his services.

" With respect to the accounts, I beg to inform you that I " have not included the sum of £100 sterling, drawn for on " the 25th February, being the balance of a grant to be ex- " pended on the farm. As there is work in hand, and not " completed, belonging to account, it will appear in the next " accounts.

" The Indians have been looking forward with some anxiety " to a visit from the Prince of Wales, and were much disap- " pointed a few days ago at being informed that they would " be required to meet His Royal Highness at Hamilton, a " town about twenty-five miles distant. It was at one time " intended that the meeting should take place on Queenstown " heights, where the gallant Brock fell, and where there has " been erected to his memory a beautiful monument; the " change has probably been caused by the comparative near- " ness of the former place. They hope, however, that he " may yet visit them on their own lands.

" Hoping soon to have the pleasure of hearing from you."

October 1st.—In a further letter from Mr. Nelles he states:—

" I beg now to advise you that we have drawn on you in " favour of A. Greer, Manager of the Bank of Montreal, for " £350 sterling, for the current expenses of the quarter just " ended.

" I have just heard that Peter Martin, the young Mohawk " for whose education the Company made a grant two years " ago, has gone to England. He is a young man of good

" abilities, but am sorry to say has proved himself unworthy " of the kindness of the Company, so much so, that I felt it " my duty to inform him that I would withhold the balance " of the grant on account of his bad conduct. I beg to give " you this information, lest he should impose upon the Com- " pany, should he reach your side of the water."

Oct. 20th.—Mr. Elliot addresses the Treasurer:—

" I beg to acknowledge your encouraging communication " of the 15th June last, acquainting me that the New England " Company had been pleased to approve of my plan of em- " ploying a Lay-Reader to assist me in my labour at the " Tuscarora Station. For some time before your letter came " to hand, I had two young men employed as assistants, " one of whom is of the Mohawk and the other of the Cayuga " Nation. Both of them understand English and the Six " Nations' languages, and Mr. Nelles and I have thought it " best for the present to continue their services, and to divide " the Company's grant between them, according to the labour " of each.

" Mr. Nelles and I waited with the Bishop and clergy of " this Diocese in an address to His Royal Highness, which " was presented at London, Canada West, where we all had " an opportunity of seeing him, and such as desired it were " personally presented. Mr. Nelles partook of lunch with " His Royal Highness at the Kerby House, Brantford, and " was much pleased with him. He remained such a little " while at Brantford that he had no time to visit the Com- " pany's Institution; but the Communion Plate presented to " the Mohawk Church by Queen Anne was shown to His

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)
PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

" Royal Highness, and also a large Bible, in which he was " pleased to write his name.

" Numbers of the Six Nations Indians were present, and " some of the leading Chiefs were presented to His Royal " Highness; one of the latter was Mr. George Johnson, who " was many years my interpreter. The Prince spoke very " kindly to him, and also shook hands with him.

" This Chief has always been a true friend of our Church, " and highly appreciates the beneficence of the New England " Company to the Six Nations."

October 16th.—The subject of Mr. Nelles's letter of the 13th August last, was, at a Meeting of the Company, holden this day, taken into consideration; and the sentiments of the Company will be best explained by the following letter from their Treasurer:—

October 29th.—The Treasurer, after acknowledging the receipt of Mr. Nelles's letters of 13th August and 1st October, and requesting him to address his drafts in future to him, as Treasurer of the New England Company, proceeds: —

" The half-yearly accounts prove correct, and the reports " you are good enough to send me are very interesting.

" I have had the pleasure of laying your very interesting " letter of the 13th August before a Committee of the New " England Company: I am requested to thank you for this " valuable communication. The Committee agrees with you

" in thinking it extremely desirable to extend the Institution. " I very much regret that I am obliged to inform you that " the want of funds must prevent our carrying out the plan, " at any rate for the present.

" A large sum has lately been expended on the building; " the consequent increased accommodation has added con- " siderably to the annual expense. The subject shall not be " lost sight of, and we shall be most happy to attend to your " suggestion.

" Our funds are now so completely appropriated, that we " do not like to encourage the idea of a conference with your- " self or Mr. Elliot. It would give us the greatest pleasure " to see you, but we think some future time may perhaps find " our means more at liberty, and give us a better chance of " carrying out any plans which might be suggested.

" Your account of the progress in farming the land at the " Institution is satisfactory, with the exception of the loss " sustained by the potatoe disease: all parts of the world " suffer; in England and Ireland no crop of potatoes proves " sound this year."

In the following Pages will be found the different School Reports for the year 1860.

Three Absent.		

The School opens and closes with a Scripture Lesson and Prayer. We have not had much ill health among the Scholars during the past year. I venture to say that, with few exceptions, they are worthy of all that is done for them.

THOMAS GRIFFITHS, *Teacher.*

STATION

AT THE

BAY OF QUINTÉ.

(For the year ending 1860.)

The Company has during the year contributed the usual sum of £50 towards the support of a school amongst the Mohawks at this location, under the care of the Rev. G. A. Anderson, who has been in the habit of drawing half-yearly upon the Treasurer for the same.

Upon the occasion of presenting the last Annual Report, it will be found the Company were without any official information as to what progress had then been made at the schools. The Treasurer has in consequence communicated with Mr. Anderson, informing him that when he next had occasion to draw on him it would be very agreeable to hear what progress is making in the school, and what success has attended the opening of the church to which the Company voted £50 in the year 1853.

STATIONS

AT THE

RICE AND CHEMONG LAKES.

(For the year ending 1860.)

The proceedings of Mr. Gilmour for this year will be explained by extracts from the correspondence which has taken place between the Treasurer and Mr. Gilmour.

May 2nd.—Mr. Gilmour writes :—

" In my last letter I expressed an expectation that our " boarding school would be very full the past winter; but, as " often before, I was doomed to disappointment; no less than " eight applications for admission, and they were invited to " come, but have not yet appeared.

" Mr. Bartlett, the Superintendent of Indian affairs, said " the three orphans whom he wished to be introduced to " our school, would not be forward till the spring; he is ex- " pected to visit the Station soon, and may bring them.

" Our own Indians said the reason the others had not come " was because they could not pay their passage hither; they " are relations of some of our Indians, but as I had no au- " thority to advance funds for such a purpose, I did not " think it proper to do so: besides, I am anxious to impress " them with the value of education, and, as far as possible, to " teach self-dependence—a virtue they very slowly acquire. " We have had eight boarders during the winter, and a very " good day-school; we always give them their dinner, so that " they are about the school the most of the day: the average " attendance this half-year has been twenty-two. The

" school-house at Mud Lake has become unfit in winter; it " has stood about twenty years, and was rather a temporary " affair when first put up: we must replace it by another " before another winter. I consider the school of great ad- " vantage to the villages, and as there is reason to think the " Alnwick school will be given up, ours may be the more " needful. We taught the school this winter in one of the " rooms of the boarding-house.

" One object we have in view is to prevent the Indians " from their wandering habits, and so get them to settle down " to farming; this we find difficult to accomplish. They " have now been away five weeks, making maple-sugar, and " hunting. This hunt, besides its attractiveness to Indians, " is very profitable. Last week one of our Indians killed " fifty musk rats in one night; the skins were worth £2 10s. " It is no uncommon thing for them to make at an average " £5 per week. They employ a peculiar tone of voice, by " which the rats are attracted to the sides of the boat, and " then spear them. They have also traps set along their " tracts, by which they catch them. Had the Indians a little " foresight, they might save a little to help them in their " farming; but they indeed take little thought for to-morrow. " I think, however, I see an improvement in many of them in " this respect, and am not without hopes in regard to their " future; one thing which partly damps that hope is, they are " diminishing as a people. It is so with our population, both " at Rice and Mud Lake, though our numbers are more than " kept up on the rolls; this increase, however, arises from " emigration, rather than natural increase. The number at

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

ARCHIVES PUBLIQUES
CANADA

" Rice Lake is upwards of 140, and at Mud Lake 116; at the
" former place when I came here they were 130, at the latter
" 85. These localities are preferable to others, and draw
" wanderers to them; at one time what is now the Scugog
" band resided at Mud Lake, and the Company, under the
" direction of Mr. Scott, built them houses; they had left
" before I came upon the station, and had settled at Balsam
" Lake. I visited them on several occasions, and encouraged
" them to improvement by helping them with a few imple-
" ments of husbandry; they promised well at that time, as I
" reported to the Company, but afterwards left for Scugog,
" where a remnant of them still resides; and their reserve at
" Balsam Lake has been sold. A few of them have returned
" to the Mud Lake. I am glad that the reserve at Mud
" Lake is secured to the Company in fee simple, as it is
" likely to become of great value. Settlements of white
" people are now going forward north of it, and in the course
" of a short time I expect the terminus of railroad will be
" made on the point lying opposite the Indian village. If
" white men do not always respect the rights of the Indians,
" they can be made to respect the rights of the New England
" Company.

" You will, perhaps, perceive the force of my wish by
" perusing the letter of the Rice Lake Indians to the trustees
" of their reserve, a copy of which I enclose, No. 12. They
" are really improving, and, I think, the plan of giving pre-
" miums has a happy influence—it creates a degree of emula-
" tion. They have a fine piece of land, and their fields are
" now well fenced in. My plan with them has been, whatever
" crop was much needed, yet neglected, I have offered a pre-

" mium to encourage them to amend. I remember, when
" there was not more than an acre of hay on the whole reserve,
" a premium was offered for the best hay-field—now there is
" generally a good return; their fences were very defective—
" a premium for the best fence; now there are on the whole
" good fences, &c. Their preparations last fall and the
" spring are quite promising, and I hope to see some
" thing worthy of a premium. They have an idea, however,
" that the government is about to make some change which
" will affect their locality; hence the letter which they address
" to us to secure them in possession of this reserve.

" I have always endeavoured to have the number of the
" trustees complete; should they be neglected, in the course
" of time the trustees might all die out or remove; and then
" what would be the issue? This uncertainty is one cause of
" non-improvement among the Indians. In arguing with a
" shrewd Indian the other day, and endeavouring to remove
" all his doubts on that point by assuring him that the
" trustees would prevent any alteration of the property, he
" replied, The facts of the past were against you; and then
" added, 'What guarantee have we that the same will not be
" done to us?' It is true that some of you have looked after
" our interests, but you are getting old, and may soon die,
" and we know not who will take your place, he said; when
" an act of injustice is done to you white people, you cry loud
" enough until it be corrected; but they will not allow us
" Indians to whisper a complaint.

" I must confess I felt the force of the Indian's argument,
" and had little to say in reply. My wish, therefore, is that
" this reserve was also in the hands of the New England
" Company, as secure as is that at the Mud Lake.

"I now approach another subject with some reluctance, "but not without much anxious thought; but having made "it known to the Company, I shall feel my mind relieved: "it is in reference to my services being further needed here. "It has occurred to me from the state of things *now* (it was "not so when I came first upon the Station) my services might "be dispensed with, and the improvement of the Indians be "still advanced, slowly it is true; as it is, it is but slow "advance. My salary, &c., might be applied elsewhere to "greater advantage.

"I had written thus far, when Dr. O'Meara arrived. I "had received your letter, giving notice of his intention to "visit; I thought I should not mail this letter until he had "made his visit. I have now been with him to the Stations, "but as many of the Indians had not returned, he has kindly "promised to make us another visit. I have enjoyed his "visit very much, as did the Indians who were at home. "There is a charm in speaking to a people in their own "tongue.

"Allow me to state a suggestion which the Doctor's visit "has originated. I anticipate much good to the Indians "through the operations of the New England Company; and "if not very much mistaken, the protection and beneficent "operation of the Company will be more than ever needed. "Now, what has occurred to me in their particular circum- "stances, and the Doctor's opportune visit to us, is the ap- "pointment of a general agent, occupying a central position, "and who would be able to make regular and frequent visita- "tions; the many advantages which would result are obvious.

"The expectation of such a visit would keep up a healthy "action, both among the missionaries and Indians. Then "many profitable hints could be given, likewise a selection of "suitable persons for vacant places; the difficulty is often "the right man for the right place. Now, the general "knowledge of the agent would greatly subserve a suitable "selection. Admit, for the sake of illustration, my view of "the stations here correct, that my services might be dis- "pensed with, and all that was needed in the circumstances "was a suitable catechist that could teach the school, and "instruct the Indians at the same time. The general agent "visiting all the stations might find one fit for the place; and "it occurred to me, from the short visit he paid, that Dr. "O'Meara would be a most suitable person;—his knowledge of "the language; his deep interest in the welfare of the Indians; "his chastened views of the practicability of their improve- "ment, &c."

In the following pages is a copy of the Petition from the Chiefs of the Rice Lake Indians, referred to in Mr Gilmour's letter.

COPY OF PETITION

FROM CHIEFS AT RICE LAKE,

TO TRUSTEES OF THEIR RESERVE.

To the Trustees of the Indian Lands at Rice Lake, in the Township of Otonabee.

GENTLEMEN,—

We, the Chiefs of the Indian Community at Rice Lake, by the authority and at the request of the Indians in Council assembled, beg leave to call your attention to the reports that are in circulation, that it is the intention of the Government to sell a part of our lands, and to limit us to a small portion to each family.

We beg leave to say that the Indians, not only of this Community, but also of every part of the Province, are very much alarmed and grieved at these reports. We consider that we had as good reason to trust in the security of our title as any man in Canada, because we always thought the Government would keep faith with us. We think that our Community is becoming more and more aware of the importance of cultivating our lands. We think that we are gradually improving

in our condition, and we do not think it wise for the Government to discourage us; and we do not feel that it is just to destroy our title because we are not yet perfect in our farming. If a White Man is not a good farmer, you do not take away his deed; and the Government should not be harder with us than with the White Man. But what we want to say is, that the great reason why many Indians do not farm better is, that reports come to us that we will be deprived of our lands, and we have no heart to improve them.

We beg, therefore, earnestly and respectfully to request that you will have the kindness to take such steps as will be best calculated to prevent our lands from being taken from us, so that we may feel that when we improve them they will be ours. By so doing you will have our lasting gratitude.

GEORGE his PAUDOSH, Chief.
JOHN ⋈ CROW, Chief.
JOHN mark TAUNCHY, Chief.

JAMES M'CUE, Witness.

N.B.—This Petition was presented to us about the month of January, 1860. Though you see it is without date, this is a correct copy.

(Signed) JOHN GILMOUR.

June 15th.—The Treasurer replies to Mr. Gilmour's letter as follows :—

"Your Despatch has been laid before the Company, and I "am directed to authorize you to expend such sum as you "may consider necessary to restore the School House at "Chemong Lake, as proposed in your letter; the unexpended "balance of the Timber Fund will supply us the funds.

"The Indian Petition you hand us has been duly con- "sidered, and the Company regret that they have little power "to assist; but they would be very glad to learn that your "influence as Trustee has been exerted in favour of the best "interests of the Indians.

"The Company so highly appreciate your services on all "occasions, and your intimate acquaintance with the wants "and feelings of the Indians, that they cannot bring them- "selves to entertain the question of resignation hinted at in "your letter. They feel that by your retirement the Indians "would lose their best friend, and they sincerely hope that you "will continue your valuable services in the same field as "heretofore."

November 1st.—Mr. Gilmour again writes to the Treasurer as follows :—

"I have the honour to acknowledge your favour of the 15th "of June, and thank you for its contents and the encourage- "ment you give to proceed with the improvements hinted at

"in my last. We have, consequently, erected a commodious "School-house, 28 ft. by 18, of 2-inch planks, lathed and plas- "tered inside and out; and though we have not yet entered it, "the plaster not being quite dry, it has the appearance of "great comfort. It ranges in front with the other buildings, "and when planted round with trees will compare with any "other in the neighbourhood erected for the same purpose. "Its cost is more than I anticipated, partly owing to the "circumstance of Chief Bigman having undertaken to build "it; but in consequence of the visit of the Prince of Wales he "had to go with the rest of the Chiefs to meet His Royal "Highness at Port Sarnia. I think all over the village more "improvements have been made this year than in any one "previous. Some of the details I may here furnish.

"1. I proposed to the Indians, if they would do the work "of a picket-fence round the Chapel, and the approach to it, "and plant on each side of that fence ornamental trees, I "would provide the material necessary to do it. They agreed "to this proposal, and did their part well; they were busy at "it when Dr. O'Meara paid his second visit. Another Bee, "as they call such gatherings, to gravel the road to it, and "plant a few more trees, will greatly improve the appearance "of the place. I proposed, also, that the females should pro- "vide a cushion for the pulpit, carpet, and the altar before it; "I would furnish a pulpit Bible. This has been done, the "belfry erected, and when the bell now rings they readily "attend worship. The Indians, however, seem (independent "of any of these alterations) to take an interest in Public "Worship; at the same time, I think since we have got a "comfortable place of worship they appear more tidy in

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

" their dress, and, generally, are a very respectable congrega-
" tion. These, however, are only subordinate considerations;
" the great object is their spiritual improvement.

" 2. In regard to improvement of their own lots there has
" been some progress; and were it not that the Indians are so
" impulsive, I should anticipate gradual advancement, as
" efforts have been made in that direction, and the crops have
" rewarded toil. Three of the young men have built houses
" and improved their lots; I hope they will persevere, that
" this place may prove a comfortable home to a fragment of a
" once much more numerous people.

" 3. The Indians at Rice Lake have made great improve-
" ments, the most of them temperate in their habits, and, for
" Indians, have become industrious. Some of their young
" men appreciate the advantages of farming, and promise to
" do well. A petition for two yoke of oxen was presented; I
" promised to lay it before the Company, and which I now
" accordingly enclose. I thought it advisable to loan them
" one yoke at once, reminding them that they were merely on
" loan, and might be recalled if not properly used, and, in the
" mean time, requested the Chiefs to take good care of them;
" and, should the Company see fit to sanction the course, I
" would recommend this method of procedure:—1st. Because
" I see they are the more active in using them when they
" know they might be withdrawn if not used and properly
" cared for. 2dly. They cannot dispose of them to the white
" men, nor kill them for their own use.

" I have acted on the principle of loan at the Mud Lake
" this season, and think that more work has consequently

" been done, for the idea that I may take them away stimu-
" lates them to use them.

" Our School is fairly attended; we have ten Boarders—six
" boys and four girls; the Day School as usual. One little
" girl left this summer; she improved, however, rather in
" housewifery than in education.

" H. Copewah, once a pupil in our boarding school, died a
" few weeks ago;—he had hope in his death. The mortality
" is not so rife now as formerly; yet many drop off in youth.

" I surely feel thankful to you, sir, and the Company, for
" your kind confidence in my services. The satisfaction you
" express, the kind respectful treatment I have always met
" with, and the desire that I may continue in the service of the
" Company for the benefit of the Indians, make me feel it my
" duty to remain.

" I have made inquiries about the Trust at Rice Lake, and
" believe that no advantage would be taken by the Government
" in case the Indians wished to remain. Of course, as long as
" the Trusteeship is regularly filled up with friends to the
" Indians, there is no danger. It would, however, be much
" safer were it placed in the hands of the New England Com-
" pany, as is the property at Mud Lake; and should I find
" any probability of such a transfer being made, I shall let you
" know; but so far as I can learn, it would not be easily done.
" I do not know that any of the present Trustees would object
" to it; but perhaps the Government would. Dr. O'Meara
" sees the desirableness of such a transfer, and I know
" will use what influence he has in that direction."

GARDEN RIVER STATION.

(For the year ending 1860.)

Two interesting Reports have been received during the year by the Treasurer from Mr. Chance, extracts from which are given below :—

June 23d.—" You will be glad to hear that many of the " Indians under my care at this place have, since I last wrote " to you, been going on very satisfactorily in spiritual matters. " All of them have been very regular in their attendance on " the means of grace, and some few have been added to the " number of Communicants, and are now walking consistently " worthy of their high vocation. About three weeks ago I " had the very great pleasure of baptizing and receiving into " the Church of Christ a very old Indian, named Shingwank " (the Pine),—he was the only heathen belonging to this " band.

" On February 18th I left home with my horse and cutter, " and Chief Puhgwadgenene (the wild man) for my guide, to " visit some Indians at Goulan's Bay, on the north shore of " Lake Superior. We arrived there on the afternoon of the " following day. Some of the Indians at the Bay belong to " our Church; others are Papists *nominally*, but like the " remainder *really* heathen.

" They depend chiefly for subsistence upon their success " in fishing and hunting; the land there is good, but they do

" not cultivate it to any extent: they manage to plant a few " potatoes, but they have no agricultural implements, nor any " cattle. I had to put my horse in a house; and when my " own supply of hay and oats, which I took with me, was " used, I was obliged to return, for they had no fodder of any " sort: sometimes they have plenty of food, and at other " times they starve.

" On March 9th I visited the Bruce Mines on Lake Huron, " about 35 miles from here. The Indians, on the way, and " in the neighbourhood of the mines, are in a most degraded " and wretched condition. Many of them have been bap- " tized by the Jesuits, and then left to themselves in a state " of ignorance and vice similar to that of the heathen around " them. I would that these, and those at Goulan's Bay, were " near enough to us, so as to be under our constant care and " superintendence; or that other Missionaries of our Church " could be sent among them, and some adequate efforts made " to Christianize and civilize them.

" In secular matters, the Indians here have had many " difficulties to contend with, and much to discourage them, " but they have persevered.

" Many of them, too, in opening their stores, which con- " tained the potatoes reserved for planting, found the greater " part of them unfit for use. I assisted some of them in " procuring a fresh supply; but others went to work at the " mines which are being opened in the neighbourhood, and " with their earnings supplied themselves with seed.

" They have planted potatoes, and sowed seeds of all de- " scriptions almost: onions, beet, carrots, parsnips, peas, " beans, turnips, pumpkins, corn, oats, &c. &c.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

"In addition to what they had before, I furnished them "with another plough and harrow, which they much needed; "and which, I am happy to say, they have made good "use of.

"The money (£50 sterling) entrusted to me by the Committee for the benefit of the Mission, has been used for that "purpose. The accounts will be forwarded when the Rev. "Dr. O'Meara has examined them: he has promised to visit "us next week.

"Hoping the above facts will not prove uninteresting."

November 30th.—"It must be very pleasing to you and "the Committee, who are so deeply interested in the welfare "of the Aborigines of this Province, and of this place in par- "ticular, to hear from time to time of their well-being and "well-doing; and I feel much unfeigned pleasure when I am "able to send you a favourable report respecting those under "my immediate care. It was for their benefit that I left "England, and devoted myself to years of severe study to "acquire their language; and now, although they are a very "strange and difficult people to labour among, I feel bound "to them by a tie which nothing but sickness or death can "sever: and nothing affords me greater joy than to see them "prospering in secular and spiritual things.

"During the last six months there has been (with few ex- "ceptions) a steady moral, social, and religious improvement. "In my last letter, I think, I told you that the Indians had "been very industrious in ploughing, planting, and sowing. "The crops on the whole this year are much better than "they were last year.

"I am happy to state that the dislike of the Indians to

"agriculture is yearly decreasing. The Ottahwah Indians "take to farming as a means of subsistence, just as naturally "as the Ojibways follow the chase. All the Indians here, "nearly, are Ojibways, and at first they manifested a natural "dislike to the cultivation of the soil. The women were "accustomed to plant a few potatoes and a little corn, but "the men thought it below their dignity to occupy them- "selves in any such way. Now, however, they begin to "regard farming and gardening as honourable and useful "employments.

"But we cannot expect that all of them will become "farmers, neither is it desirable that they should. Some of "the young men have tastes and aptitudes for other civilized "employments; and if they could receive the necessary "instruction, they would soon become good smiths, car- "penters, shoemakers, &c. I do not think any of them have "much taste for tailoring; they leave that to the women, who "make very suitable clothes. The women are very indus- "trious: they supply their families with ordinary clothing; "perform all the domestic duties; and do a great deal of bead "and bark work, which they dispose of to the traders.

"You will be pleased to hear that the chiefs from this "place were invited, with others from different parts, to Port "Sarnia (a town at the southern extremity of Lake Huron) "to meet His Royal Highness the Prince of Wales. They "presented an address, which was graciously received and "replied to by the Prince, who also gave each chief a large "silver medal. The Indians were very much pleased with "the Prince; and were deeply impressed by all they witnessed "of England's greatness.

KODAK SAFETY ▲ FILM

" I am happy likewise to inform you that our Sunday and " Wednesday evening services are very well attended. So is " the day-school well attended, and the children are making " satisfactory progress.

" In conclusion, I wish to give notice, in compliance with " your request, that I shall draw on you for six months' " salary on January 1st, 1861. The Rev. Dr. O'Meara, I " think, told me that the Committee had kindly promised to " increase my stipend as soon as their funds would enable " them to do so. I should be very glad indeed at the present " time to receive an increase. Every thing in this remote " part is very dear; in fact, my own salary alone has not " been sufficient to meet our expenses. Until July last we " had other means, but since then, I am sorry to say, we " have been deprived of them; and we shall therefore very " thankfully receive an increase of salary from the Company. " Hoping to hear from you soon."

The Treasurer, on the 27th February last (1861) acknowledged the receipt of these two reports from Mr. Chance, and thus concludes:—" The Company would gladly increase the " vote in your favour if circumstances would allow it, but " their funds are so fully employed that I cannot hold out " any hope of an immediate addition to your salary.

" Your account of the progress already made in the im- " provement and civilization of the Indians, leads us to be " sanguine as to the future. I will not fail to place your " application again before the Committee when a favourable " opportunity occurs.

" The feelings towards England which you describe the

" Indians to have shown on the occasion of the Prince of " Wales's visit, are very pleasing.

" I have to request that you will continue to supply us " with further reports from time to time."

DR. O'MEARA'S SPECIAL REPORT

TO THE

TREASURER OF THE NEW ENGLAND COMPANY,

ON HIS

VISIT TO THEIR MISSIONS IN UPPER CANADA.

Dated Toronto, 12th July, 1860.

"Having been deputed by the New England Company to "visit their missions in this province, and to report to them "my views on the present state and future prospects of their "missions in particular, and the Indian population in general, "I proceeded, as soon as possible after my arrival in this "country from England, to act on the instructions received "from you just before I quitted England.

"My first step was to write to your Missionaries, informing "them of the periods when I would be able to visit each of "their missions respectively; and I received in answer from "those gentlemen such kind replies to my communications as "removed from my mind any fears that I might have enter-"tained with reference to the spirit in which my visits would "be received by them.

"The first of your Missionaries to whom I had the pleasure "of delivering your letter of introduction was the Rev. Mr. "Gilmour, of Rice Lake and Mud Lake Missions, and I was "much gratified by the extreme kindness and cordiality with

"which I was received by that venerable and excellent mis-"sionary. The evening of my arrival in Peterboro' was "spent in very agreeable conversation with him at his own "house, where I was hospitably entertained during my stay; "and I was much gratified to find that his views of Indian "matters, the result of twenty-two years' experience, agree on "almost all points with my own.

"On the day after my arrival, Mr. Gilmour accompanied "me to the Company's station on Mud Lake, which is situ-"ated about eight miles from Peterboro'. I spent two whole "days there, one of which was Sunday; and assisted by Mr. "Gilmour and Mr. Schofield, the school-master, I had a very "good opportunity of seeing the place and conversing with "the Indians. As many of the principal Indians were absent "at the time of my first visit, Mr. Gilmour being anxious "that I should see them all, I went there again quite re-"cently, when I had an opportunity of seeing and conversing "with them all. I will include the observations and incidents "connected with both visits in what I am about to say on "the subject of that mission.

"Nothing can be more picturesque than the position of "the Company's premises on Chemong, or Mud Lake. Your "property there consists of a neck of land of about 1,600 "acres in extent, between the Chemong and Buckhorn Lakes; "the school premises, barns, &c., being situated on the "Chemong Lake shore, and the houses of the Indians ex-"tending all the way from that to the border of the Buckhorn. "These lakes are studded with small and well-wooded islands, "the reflection of which on the glassy surface of the lake "added much to the beauty of the view; of which, however,

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

" the principal feature was the well-cultivated and flourishing " farms of the settlers around it, and the Company's Indian " village, with its pretty little Church at its northern " extremity.

" It is a very great pity that the Indian name of this " beautiful lake has been almost superseded by the very in- " appropriate and undeserved English epithet by which it is " more usually known. The Company's land is very ad- " vantageously situated, and though, as might be expected " from its position, somewhat stony, it promises to be a very " valuable tract of land.

" I was informed that an extension of the railway on " which I travelled to Peterboro' is shortly to be constructed, " the terminus of which, on Chemong Lake, will be just " opposite the Indian village; this, when finished, cannot fail " to add much to the value of your property; and, therefore, " will make it the more fortunate for the Indians that it is in " your hands, otherwise they would have great reason to fear " lest the ever-encroaching power of the white man should " succeed, at no very distant period, in removing them far " away from a position so desirable, and already so much " coveted.

" The Boarding Institution is well situated, consisting of a " central building and two wings, in one of which the master " and his family reside; while the other, as well as the central " building, is taken up by the sleeping and dining rooms of " the children. The master reports that, being formed of " logs plastered inside and rough-cast outside, the house is " very comfortable in winter; and from my own experience, " I can testify that it is cool and airy in summer; but the

" rough-casting having fallen down from a part of the building, " causes it to have a rather dilapidated appearance. The " children, both male and female, appeared healthy and con- " tented; and certainly all that kindness and motherly care " can do for them appears to be done by Mrs. Schofield, who " seems to take a more than common interest in their welfare, " and moreover to have ability quite sufficient to carry out her " good intentions towards them.

" Mr. Schofield also leaves nothing to be desired on the " score of earnest zeal for the welfare, both temporal and " spiritual, of those committed to him; but I fear I can " scarcely say of him as much on the score of ability to carry " out his good intentions as I can of his wife. Naturally " impulsive and enthusiastic, he appears to have commenced " his labours with the most exaggerated expectations of im- " mediate and, I may almost say, miraculous results. Of " course his expectations have not been realized; and he was, " at the time of my visit, in that reactionary state of dis- " couragement which is so inimical to success in such an " undertaking as that in which he is engaged under the " auspices of the New England Company. Besides this, he " has not, as he ought to have done in so many years, made " any progress towards attaining a knowledge of the language " understood and spoken by his pupils. The results of this " deficiency on his part were painfully manifest in my " examination of his pupils, who, though they could write and " read English pretty correctly and fluently, when I came to " examine into the amount of intelligence with which they " read, I found them totally ignorant of the meaning of some " of the simplest and most commonly used words of our

" language. The school is held in a small building, isolated " from the residence. This building appeared to me to be " very inadequate and ill-adapted for the use to which it is " being applied, and I was therefore happy to hear Mr. " Gilmour say that a longer and more suitable building was " about being erected for the accommodation of the day-school. " I was much pleased with the general aspect of things at " Chemong Lake, as indicating, though not all the progress " that could be wished, yet an amount of desire for, and " tendency to, improvement which is certain to lead, slowly, " perhaps, yet surely, to still further amelioration. I was " much gratified by receiving an address from one of the " chiefs, in which he spoke in terms highly creditable to " himself of the indebtedness of the Indians to the New " England Company for the great improvement in their con- " dition, of which they are sensible; and I am charged with " the pleasing task of conveying those thanks to the Com- " mittee. I was also much gratified by finding, at my last " visit, a large portion of the male adult population of the " village busily and laboriously engaged in levelling, and " otherwise improving, the grounds around their Church; " which they had previously surrounded with a very handsome " paling, the materials of which had been supplied to them " by the Company.

" On my last visit, I was particularly pleased with the " respectable appearance and devout decorum of the congre- " gation assembled in this small but neat Church, built for " them by the New England Company. Before my departure " from their village, another of their Chiefs addressed me on " the subject of the tenure by which they hold their land (a

" subject on which I shall have occasion to dwell more at " large when I come to speak of the Rice Lake Mission), and " suggested that some thing in the way of a lease for a " number of years, of their respective allotments, would be " very acceptable to the Indians. On this subject I had sub- " sequently much conversation with Mr. Gilmour, who, I find, " agrees with me in the opinion that leases of 99 years, on " certain conditions, might be very advantageously given by " the Company to Indians desiring them. Mr. Gilmour " showed me a form of lease that he had prepared, which, " with a few alterations that I suggested, would, I think, " answer all purposes.

" Some of the Indians at Chemong Lake have become " possessed of live stock of their own acquisition, which I " consider to be an important step towards permanency of " settlement; but I observed the same disposition among " them as I have always marked among Indians in the transi- " tion state, to prefer horses to oxen, though the latter are " much more useful for farming purposes, and also more easily " kept during the winter than the former. A very fine breed of " sheep has also been introduced into the settlement by Mr. " Gilmour, which he informs me have already begun to be a " great assistance in diminishing the expense of clothing and " feeding the Indian children at the institution.

" On the day following our departure from the Company's " Mission at Chemong Lake, Mr. Gilmour and I drove over " to the Rice Lake Mission, with the position and appearance " of which I was much pleased; indeed, I have no where seen " a more desirable position for an Indian missionary station " than that locality presents. In company with Mr. Gilmour,

"I walked over the whole village, and examined the fields, "fences, and buildings connected with it, and was much "struck with the improvement in the industrial habits of the "Indians that their appearance manifested. I also examined "the two barns built for the Indians at the expense of the "New England Company, which appear to be much valued "by those for whose benefit they were erected.

"I learned on inquiry that both of them had been well "filled with grain and fodder during the past winter. It too "often happens among Indians that such buildings, when not "in immediate use, especially if held in community, are "neglected and suffered to go to ruin; but the difficulty that "Mr. Gilmour and I experienced in getting access to these "barns, in consequence of their being kept locked and the "Indian who keeps the keys being not immediately to be "found, afforded me a pleasing proof that such is not the "case with them; indeed, I may say that the farms of the "Indians do not at all suffer by comparison with those of the "most industrious and thriving of the whole settlers, whose "farms are conterminous with theirs. This is, of course, "partly to be ascribed to the position chosen for the mission, "and the excellence of the soil; but mainly, I think, to the "system of premiums for good farming, which are annually "given to the most deserving Indians of this station by Mr. "Gilmour, the New England Company's excellent and judi-"cious missionary. So successful has that system proved at "Rice Lake, which is the only place where it has yet been "tried, that I would gladly see it applied generally to the "Indian settlements throughout the province; as I feel "assured that it would give a stimulus to the progress of the

"Indians towards settled agricultural habits, and so would "be attended with the happiest results as to their future "prosperity. I was sorry, in conversing with the Indians, to "find that, notwithstanding the degree of progress that they "have attained to under the fostering care of the New "England Company, there was a disposition to relax their "efforts for the improvement of their farms, which on further "inquiry I found to arise from a doubt on their minds as to "the tenure by which their settlement is held. This, unlike "that at Chemong Lake, which is held in fee simple by the "New England Company, is vested in certain trustees, of "whom the only one directly interested in the welfare of "the Indians is the Company's missionary, the Rev. Mr. "Gilmour. The position at Rice Lake is much coveted by "the neighbouring white settlers, and the Indians have been, "not unnaturally, alarmed by hearing settlers frequently "exclaim, 'What a pity that such a beautiful position should "be in the hands of Indians!' and experience teaches them "that such longings on the part of the white man are as sure "indications of coming trouble to them, as the thunder's "growl and the lightning's flash are of the approaching storm. "The Indians, by whom the feelings of the band on this "subject were expressed to me, remarked, 'Were you white "men as uncertain of the tenure by which you hold your "lands as we are, would you take pains to plant, fence, "and otherwise improve, what in a short time may pass out "of your hands into those of others? We have full con-"fidence in the Company's missionary that, as long as he has "to do with our interests, he will, to the utmost of his power, "guard them; but he and the Archdeacon of York, in whose

CANADA

" willingness to do right we have also the greatest confidence,
" are only a minority; and they are both old men. The
" other trustees may at any time enter the provincial parlia-
" ment as representatives of those who desire our lands,
" or even become members of the provincial government, by
" which successive and constantly recurring acquisitions of
" Indian reserves are being made; and we may find ourselves
" at any time driven away from the farms on which we have
" already, under the stimulating effects of the New England
" Company's management, bestowed so much labour, and
" which we are now exhorted to persevere in endeavouring to
" improve, perhaps only that they may be still more attractive
" to our white neighbours.'

" There was no gainsaying this reasoning, and I feel that
" it is due to this industrious band of Indians that some steps
" be taken to do away with the serious discouragement to
" their exertions; which, I think, would be effected if the
" Government would consent to the trust being transferred to
" the New England Company, to hold for the benefit of the
" Indians, in the same way as the neighbouring settlement of
" Chemong Lake, which, I think, is the only Indian reserve
" in the province where no uncomfortable feeling exists on
" the minds of the Indians as to the permanency of their
" occupation. To this arrangement I do not see on what
" grounds the Government could object; unless indeed the
" fears of the Indians be too well founded, and the per-
" manency of the Indian settlement there, which is sought to
" be secured by such arrangement, be the very thing that
" they would wish to prevent. I was happy to find that the
" Indians at Rice Lake are fully sensible of the debt of grati-

" tude that they owe to the Company, to which they ascribe
" the large amount of advancement that they have made in
" temporal as well as in spiritual things.

" Accompanying this Report, I send a copy of a letter ad-
" dressed by the Indians to the Rev. Mr. Gilmour, in which
" expression is given to these feelings on the part of the
" Indians towards the Company. I was sorry to hear from
" Mr. Gilmour that he had thoughts of resigning his con-
" nection with the Company, which I cannot but think would
" be a step highly detrimental to the interests of the Indians,
" to whom his administration of the Company's aid has been
" attended with so manifestly beneficial results; and who, I
" am happy to find, is much beloved and respected by them,
" but certainly not more so than he deserves.

" My next visit was to the mission of the Rev. A. Nelles,
" near Brantford, by whom I was most cordially received,
" and every facility afforded me for carrying out the object of
" my visit.

" Mr. Nelles's parsonage and glebe are beautifully situated
" in the immediate vicinity of the large and flourishing town
" of Brantford. In driving up to the house, I thought that
" no where in Canada had I seen any thing that so reminded
" me of the parks of my native land, as the Company's
" property at that place. It is, however, cut in two by Grand
" River Canal; an abiding monument of the injustice that the
" Indians have received at the hands of the Colonists.

" Many years ago, when it was proposed to invest, I believe,
" £40,000 of their money in this public work, the Indians
" strongly protested against such outlay of their funds; but
" notwithstanding their protest, the money was invested, and

" might as well have been thrown into the lake, as far at least
" as any benefit to them was concerned: not only is it quite
" impossible that the capital can ever be paid, but, if I am
" correctly informed, not a penny of interest comes to them
" from the concern. I accompanied the Rev. Mr. Nelles to
" the institution, which is very prettily situated near his
" house, but on the opposite side of the canal. I went
" through the rooms, both of the male and female depart-
" ments, and was very much pleased with the order and neat-
" ness of every thing about them. I had an opportunity also
" of examining the pupils with reference to their general
" progress, under the care of the excellent schoolmaster pro-
" vided for them by the New England Company; and have to
" report that it was very satisfactory. I was particularly
" struck with their proficiency in arithmetic, which is a branch
" of knowledge that more than any other is calculated to test
" the degree of mental improvement which the Indians have
" attained.

" The buildings appear to me to be very commodious and
" suitable for the purpose for which they are intended; but I
" think that a good-sized school-house, close to the building,
" is much needed—the one that is at present in use being
" that belonging to the old institution, and at a considerable
" distance from the new building. Much benefit is likely to
" result from the acquisition of the farm, which has at length,
" and after many delays and difficulties, been made over to
" the Company for the use of the institution. The land is
" good, and its produce will enable the Company to maintain
" many more children, with the same outlay, than would
" otherwise have been possible; and at the same time a means

" of practical instruction will be furnished in the branch of
" industrial education most needed by the Indians, and the
" results of which will be most quickly perceptible in their
" social improvement. I was much gratified by seeing on the
" farm a fifteen-acre field of full wheat, which was far
" superior in appearance to any that I had seen from the time
" I left London, England, till I arrived at the institution. I
" think Mr. Nelles has exercised a wise discretion in dis-
" continuing the other branches of industrial instruction,
" which were for some time imparted to the youth at the
" institution. The instruction in the trades thus discon-
" tinued would, doubtless, benefit the individual to whom it
" was imparted, but would produce no effect on the Indians
" as a community, inasmuch as employment in them would
" only be furnished in the more populous towns of the white
" settlements, at a distance from the habitations of their
" Indian friends.

" I had many and very gratifying testimonies, during my
" stay among the Indians of Grand River, to the beneficial
" results of the institution.

" On the Sunday morning I preached for Mr. Nelles to his
" congregation, which assembled at a school-house several
" miles away from the parsonage; and immediately after the
" sermon, a very civilized looking Indian addressed me in
" good English, informing me that he had been able to under-
" stand all that I said, not so much by what was delivered by
" the interpreter, as by his understanding the English language,
" in which I delivered myself; for which and many other
" benefits he had to thank the New England Company, and

ARCHIVES PUBLIQUES
CANADA

" its excellent institution at the Mohawk Parsonage, where " he had been instructed.

" During the following week I accompanied Mr. Nelles to " a distant settlement of Indians, where a service was to be " held, and a school to be examined. In the carriage with us " was one of the young men who are being educated at the " institution, with whom I was very much pleased.

" This young man remains at the institution the greater " part of his time; but as he has a widowed mother and her " family to support, he goes home occasionally to till his farm " in the wilderness, on which they almost entirely depend for " subsistence; and when we arrived at his house, I was much " pleased to see the order in which he had his fields, which " showed that, even while receiving instruction, he was ap- " plying to the most practical purpose the knowledge that " was being communicated to him, and the habits of industry " in which he was being trained.

" Indeed, every where I went among these Indians, I was " met with sensible proofs of the blessings conferred on them " by the labours of the New England Company for their " benefit.

" I visited and examined several of the day-schools which " are being maintained by the Company, and which are most " useful as feeders to the institution; though I do not think " that otherwise day-schools are of much use among the " Indians, owing to the very great difficulty of inducing a " regular attendance on them.

" In all cases I was struck with the difference between the " schools which are taught by Indian-speaking masters, and " those the teachers of which do not understand the language

" of their pupils. In the former the pupils evidently under- " stood what they were learning, so as to be able to give an " intelligent account in their own language of the lesson that " they were reading or learning in English; which was by no " means the case in those of which the masters and pupils " had no common medium of communication. I would there- " fore strongly recommend the Company to insist on all " teachers in their day-schools, who are not Indians, attaining " such a knowledge of the language of their pupils as shall " enable them to explain their instruction, when necessary, in " that language. I took the opportunity of an interview I " had with Mr. Grant, who had been ordained on the previous " Sunday as assistant to Mr. Nelles, to urge on him the duty " of applying himself diligently to the acquisition of language, " as forming the most effectual way of gaining an influence " for good over the Indians. It is much to be regretted that, " though the Mohawks and Tuscaroras have been converted " to Christianity for more than a century and a half, no " translation of the New Testament has been made into " their language; portions only of that sacred volume having " been rendered into Mohawk, and printed at, I believe, the " expense of the New England Company.

" It is also a thing much to be deplored that the Indians " have been removed so far from their missionary and church " as they have been. Indeed, I know of no more saddening " monument of the unjust encroachment of the white man on " the possessions of the Indian, than is furnished by the " Mohawk Church, standing as it does in the midst of smiling " English-like fields, once occupied and tilled by the wor- " shippers within its walls, but which are now in the hands

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

" of their white supplanters, while it, though the oldest
" church in Upper Canada, and still in good preservation,
" stands there unoccupied and unused, except on special
" occasions, such as sacraments and confirmations, the Sunday
" services being held in a school-house, at a distance of seven
" or eight miles from the parsonage.

" The Colonists are in the habit of speaking in a depreciatory manner of the advancement made by the Indians in civilization and industry; but I would ask, What white man would not be discouraged from improving his land, if his tenure of it were such that he did not know whether all his labour would not eventually go to enrich another man? especially if, as has been the case with the Mohawks near Brantford, at a former period of his life, he had bestowed labour on building up an inheritance for his children, which had all passed from him and them into the hands of a stranger? Indeed, I am more than ever convinced that much of the backwardness of the Indians in the pursuits of agriculture arises from the uncertainty of their tenure; or rather, I should say, from the certainty that experience teaches them to feel that, as soon as their lands become worth the white man's coveting them, means will be found to drive him from his possessions.

" We have before us a proof of the effect of uncertainty of tenure among ourselves on the improvement of farms, and other real estate, in the proverbial condition of ruin to which properties in England are allowed to fall when they are the subjects of litigation; and I feel that we cannot fairly complain of the Indians not having improved, till

" something shall have been done to give them the same
" rights possessed by the white man on his land.

" I was sorry to find the schools of the Company very de-
" ficient in maps and pictures, which, highly useful in every
" school, are especially so in one devoted to the instruction of
" the Indian youth.

" I was much pleased to learn that the benefits of the
" boarding institution are not confined to the Indians of the
" Six Nations, but that some young people from the neigh-
" bouring Delawares and Munsees are being educated there
" and were means placed in Mr. Nelles's hands for increasing
" the number of pupils, some of the more distant tribes might
" also be admitted to share in its benefits. This is now the
" more desirable, as the establishment of a similar kind, sup-
" ported by the Indian Department, and to which the Indians
" throughout the province, except the Six Nations, are obliged
" to contribute the fourth part of their incomes, has so com-
" pletely failed that it is about being given up.

" Almost all that I have said of Mr. Nelles's mission will
" also apply to that of the Rev. Mr. Elliot, with whom I
" spent more than two days, visiting in company with him
" his schools and out-stations. Mr. Elliot has had consider-
" able difficulty, arising from the fact of another Christian
" body having attempted to interfere with his labours.

" Nothing can be more injurious to the Indians than such
" proselytizing efforts. Being utterly incapable of appreci-
" ating the fine-drawn distinctions that divide Protestant
" bodies of Christians from each other, they are quite at a
" loss to account for the eagerness with which they too often
" seek for proselytes from each other, and can only account

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)
PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

" for it as they do for the emulation of traders, namely, that " they have some selfish purpose to answer by their advances, " and that therefore each is trying to wrest the opportunity " of obtaining such advantage from the prior occupant; and " so it happens that when the proselytizing missionary, to " whatever Church he belongs, raises his standard, he is joined " by the very worst of the adherents of him who had occupied " the field before him, while the steady, industrious, and " really religious, invariably continue steadfast to their first " teacher.

" If religious bodies could only know the true state of " matters, they would be very backward in interfering with " the established missions of other Christian denominations ; " for not only is much money that has been contributed by " the piety of individuals thus thrown away in useless opera- " tions, but a positive social and moral evil is engendered, " which often remains after the ill-judged efforts that pro- " duced them have been discontinued.

" My last visit was to the Garden River Mission, at present " under the care of the Rev. Mr. Chance.

" On my way to it, I visited the new Settlement at " Wubyabejewung, the history and present circumstances of " which it is my intention to make the subject of a separate " paper, which I hope soon to be able to transmit to you for " the New England Company's information.

" At Garden River I spent three days, and found matters " progressing as favourably as could be expected under the " circumstances in which that mission has been recently " placed by the action of the Indian Department.

" A new school-house has been built by Mr. Chance, which

" makes the mission buildings complete. He has also, with " the funds placed at his disposal by the New England " Company, improved the grounds about the mission-house " very much, so that they will henceforth afford the Indians " a very good pattern of what their houses ought to be. The " Service at Garden River is conducted in a more orderly and " satisfactory manner than is the case at any other of the " Company's missions. This arises, positively, from Mr. " Chance having succeeded in mastering the language of the " people among whom he ministers.

" It gave me much pleasure to hear him preach to the " Indians in their own language in a very intelligible and " edifying manner.

" The progress Mr. Chance has made, without having any " particular talent for the acquisition of languages, is a proof " that any missionary or schoolmaster, with a little attention " to the subject, may soon make himself entirely independent " of native interpreters; of the inefficiency of the very ablest " of whom, I have had striking evidence during the inspection " of the New England Company's missions which I have just " completed.

" In drawing to a close this Report, which I fear is already " much too lengthy, I would beg to express my strong con- " viction of the immense benefit that is being conferred on " the Indians by the New England Company; and I look to it " with hope that it may prove yet more extensively useful, " not only by extending its operations—now that the Imperial " Government is giving up the Indians—but by throwing the " shield of its protection over them against the tyranny and

" oppression of the Colonists; and I may here remark, that I " agree with Mr. Gilmour in thinking that this, as well as " many other important objects for the permanent benefit of " the Indians, would be best accomplished by the Company's " having an agent for all its work in this province, who might " not only pay periodical visits to their schools, &c., but " who, armed with their influence, would be in a much better " position for promoting Indian interests in this province " than any one without such a *locus standi* could be.

(*Signed*) FRED. A. O'MEARA, LL.D."

THE MICMAC MISSIONARY SOCIETY.

This Society, located in Halifax, Nova Scotia, through their Secretary, Mr. William Howe, in the month of March, 1860, presented an Address to the New England Company, containing a few brief statements respecting the Indian Tribes of Nova Scotia, New Brunswick, and Prince Edward's Island; together with the origin, object, and present condition of the Micmac Mission, and soliciting from the Company funds to assist them in civilizing and enlightening their native population. This Address was laid before a Court of the Company holden on the 16th May last, and its contents fully considered.

The following letter from the Treasurer to Mr. Howe will explain the reasons why the Company could not appropriate any portion of their funds to the above Society:—

" 9 Great St. Helen's, London,
" 15th June, 1860.

" Sir,—I have now the pleasure to reply to your letters of " the 23d February and 30th March, handing us an Address " from the Committee of the Micmac Missionary Society of " Nova Scotia, accompanied by several reports, publications, " and translations, all of which are very interesting. They " have been laid before the Court of the New England Com- " pany; and in answer to the interesting Address of your

Extracts

From Annual Report of Robert Ashton Esq. Superintendent of the Mohawk Institution Brantford (Grand River) Ontario.
For the Year ending 31st December 1882

To the Special committee of the New England Co.

× × × × × × × × × × × × × ×

I have the honour to lay before you my tenth Annual Report on the state and conditions of the Mohawk Institution.

During the year 14 boys and 9 girls entered and 15 boys and 9 girls left the Institution. The numbers on the books 31st December 1882 being 89.

The periods of attendance of the pupils who left during the year were as follows.

under	1	year		2
from	1	to	2 yrs	7
"	2	"	3 "	10
"	3	"	4 "	3
"	4	"	5 "	1
"	5	"	6 "	0
"	6	"	7 "	1

The average for boys being 2 years 2⅓ months and for girls 2 years and 4 months.

The number of pupils who left the school during the year is lower than for any year since 1876, for the years 1877 to 1882 inclusive the numbers were respectively 34, 36, 44, 34, 42 and 24.

× × × × × × × × × × × × × ×

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

44080

The average number of pupils boarded and clothed was 90 and the cost per head $84.85 upon the gross cost of maintenance or $75.90 if calculated upon the net cash outlay for the Institution and industrial departments.

× × × × × × × × × × × × ×

I am happy to report that the conduct and progress of the pupils have been in every way satisfactory whilst the health of all the inmates of the institution has been exceptionally good throughout the year.

× × × × × × × × × × × × × ×

Isabella L— and Maggie D— completed their course of training as teachers in July, the former remained in the institution to the end of the year and then took charge of Board School No 6, the latter being too young to take a school at present, has returned to her friends.

At Xmas Susan B— and William B— very creditably passed the Entrance examination to the Collegiate Institute, both are too young to train as teachers the former therefore continues her studies and the latter is taking a special course of instruction in Bookkeeping as he intends entering a merchants office in the spring.

Jean B— who last year attended a Ladies College in Toronto has obtained a situation as governess in a private

BRANTFORD INSTITUTION N. E. C.

CANADA

family. J. M. O — sister of the above is a very clever and good girl, she has attended the Collegiate Institute for two years and expects to pass the examination for a second class public school certificate next July.

× × × × × × × × × × × × × × × ×

The condition of the 1144 pupils who have left the school during the past four years is on the whole very satisfactory. No less than 12 (or 18 per cent) of the girls have married the majority of them very respectably. I have been much pleased and gratified at frequently hearing it remarked that the homes of the young women who have been trained at the Mohawk Institution are easily distinguished by the greater neatness and order exhibited in them.

During the coming year I hope to make close personal inquiries respecting every pupil who has left the institution during the past ten years and to place a complete report of their condition and history before you.

"Advanced" shows pupils who have "graduated" or passed the public examinations for entrance into the Provincial High Schools and are entitled to certificates as Indian Teachers as far as their literary attainments are concerned.

This Certificate

Is awarded on the following conditions:

(a) The Holder must be an Indian, not less than seventeen years of age, of good moral character

(b) He or she must have passed the Public Examination for Entrance into a Collegiate Institute of Ontario.

(c) Have completed six months' Special Training as a Teacher in the Schools of the above Institution.

The Superintendent having certified to the above, the Deputy Superintendent General accepts and endorses it as a certificate of competency to teach an Indian School for three years unless revoked.

28th June 1883

Dear Sir

Accept my thanks for the Report of the Department. Your note should have received an earlier reply had I not been absent from the Institution for the past week.

Enclosed find extracts from my Annual Report 1882.

I shall be pleased to forward a report each year, and (if the New England Company consent) to draft one specially to you. As I communicate with the Company enclosing a copy of my Journal every two months, my Annual Report is, financial rather than statistical, it being assumed that the New England Company are already in possession of those facts which would be of most interest in your Departmental Report

I am
Your obedient servant

MOHAWK INSTITUTION,

39642

BRANTFORD, ONTARIO.

This Institution is maintained and managed solely by the New England Company, and is established for the purpose of civilizing the Indians and advancing the Christian Religion among them, and imparting a good education, combined with all kinds of useful industrial training, to the youth of both sexes of the Six Nation and other tribes of Indians

Its aim is to impart such an education as shall fit its pupils for teachers amongst their own people, at the same time training them in the arts and practices of civilized nations.

The boys and girls occupy separate and distinct portions of the Institution, and each pupil is provided with a separate bed, and food and clothing of the best description.

REGULATIONS RELATING TO PUPILS.

1. Vacancies in the Institution are principally filled up from the day schools on the Indian Reserve from candidates of any religious denomination, ~~who have been examined by the Board of Missionaries~~, and have obtained a certificate of fitness for admission. Other Indian children may be admitted on permission being granted by the Company, and having obtained the necessary certificate of fitness from the missionary or school teacher of the district in which they reside. In the latter case, application for admission should be made to the Superintendent at the Institution.

2. The qualifications for admission are, that the candidate must be between the ages of 10 and 17 years, of good character, and must be able to read the 2nd book of lessons, and possess a fair knowledge of the simple rules of arithmetic.

3. The school terms are from the first Saturday in January to the last Saturday in July; and from the last Saturday in August to the Saturday preceding Christmas Day.

4. No girls or small boys will be permitted to leave the Institution unless fetched away by some responsible person; unless the parents have signified to the Superintendent in writing that they desire their children to proceed home alone.

5. No holidays other than those stated above can be allowed, except in cases of sickness.

6 Whenever it is desirable that pupils should return to their homes during the school terms, in consequence of the sickness or death of relatives, a note to that effect must be presented to the Superintendent, signed by either the minister or doctor of the district in which the pupil resides.

7. Pupils leaving the Institution without the sanction of the Superintendent, must be returned by their friends within forty-eight hours, or they will be considered as DISMISSED from the Institution. In the event of the pupil not returning within the time specified, all articles of clothing, etc., the property of the Institution, must be immediately returned to the Institution.

8. It is expected that all pupils entering the Institution during any term, will remain until its completion; and that those who wish to continue to avail themselves of its advantages, will return punctually at the appointed time.

9. If by any reason a pupil is prevented from returning on the day the school opens, the parents must communicate the reason to the Superintendent within ten days, or such pupil's name will be removed from the books of the Institution.

10. In cases where pupils have been absent from the Institution from any cause for a period not exceeding two calendar months, on seeking re-admission they must present the Superintendent with a certificate of character from the missionary of the district in which they reside.

11. Each pupil in the Institution will receive on an average not less than 28 hours' schooling per week, exclusive of Sundays. In addition, the girls will receive instruction in sewing, knitting, and all kinds of domestic work; the boys in farming, gardening, and such other useful occupations as may be from time to time deemed advisable.

12 The Superintendent is empowered to expel any pupil from the Institution who shall grossly misconduct him or herself, or who through continued disregard to the rules of the school shall render such expulsion desirable.

13. All necessary articles of winter and summer clothing are provided for the use of pupils at the Institution only; but parents are required to supply their children with clothing for use elsewhere.

14. Pupils are at liberty to write to or receive letters from their relations and friends as often as they wish, but in order to guard against improper correspondence, all communications must be addressed to the care of the Superintendent, who will open and peruse the same should he deem it advisable.

REGULATIONS RESPECTING VISITORS.

1. Visitors are at liberty to inspect any part of the Institution during the school term, between the hours of 10 A. M. and 4 P. M., excepting on Thursdays and Saturdays, when the Institution is open for inspection between the hours of 10 and 12 A. M. only.

2. Visitors are invited to question or address the pupils, as it will tend to overcome their extreme shyness.

3. It is desired that visitors will, before leaving the Institution, inscribe their names and addresses in the visitors' book, together with any remarks they may desire to make.

4. Pupils may receive visits from their friends any Saturday between the hours of 10 A. M. and 4 P. M. Such visits to take place in the room set apart for that purpose.

5. All visitors must enter the Institution by the front door. On no account can any one be permitted to enter the kitchen, or other parts of the Institution, without permission.

By order of the New England Company.

R. ASHTON, SUPERINTENDENT.

INDIAN AFFAIRS

per Bby

13th October 1882

Re No 38.844

To the Superintendent General of Indian Affairs

Sir,

In reply to your communication dated the 11th inst. I have the honour to report that having considered the suggestions submitted to me I am of opinion that as the circumstances surrounding the several industrial schools in Ontario with which I am acquainted (viz the Mohawk, Mt Elgin, Shingwauk and Wikwemikong) are so different it is unadvisable to attempt to carry them on by one uniform set of regulations. It would be better that the Managers of each institution should draw up separate rules agreeable to the locality in which the school is situated and the peculiarities under which it works, submitting the same for your approval.

I have an experience of twenty one years in the management of industrial schools having spent more than half of that time in the largest (800 boys) best conducted and most efficient industrial school in England, where there are hundreds of certified industrial schools under government inspection. The indu[illegible]

KODAK SAFETY FILM

39642

by any uniform and arbitrary regulations the promoters of a school are required to submit their proposed regulations, routine and dietary tables to Her Majesty's Inspector of industrial schools, and also to prove to his satisfaction that they have provided suitable buildings and grounds for carrying out the same.

I will now deal with each suggestion separately.

1st Entrance examination

The standard suggested is too high for the present. I have this year voluntarily examined nearly 250 Indian children in various day schools and not more than a dozen would pass. Where would the Shinnank and Wikwemikong schools get their pupils from under such a standard? When I took charge of the Mohawk Institution in October 1872, it was for the first time required that pupils should pass an entrance examination, (see printed regulations enclosed) because the same Company that supported the Institution maintained nine day schools on the Grand River Reserve, and thought it just to require the Indian parents to show that the education, and not the support of their children was the object sought, and that therefore they must first prove some appreciation of the advantages provided at their very doors. I strictly enforced the rule and there being no children eligible of passing

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

ARCHIVES PUBLIQUES
CANADA

39642

the examination, the numbers in the institution went down gradually from 71 to less than half that number, although I admitted pupils from any reservation in Ontario and also from Caughnawaga — it was four years before the Institution was filled to its capacity (90).

For my own part I think it would be well if pupils were chiefly admitted to Industrial Schools without any examination now, as our aim should be to reach that class most needing training in habits of industry and cleanliness, viz: the orphaned, deserted and neglected children. As a general rule the children we now get are those whose parents are best able to support them, they (the parents) having themselves learnt the advantages of industry and education are consequently in no danger of allowing their children to relapse into a degraded state.

To inculcate habits of industry, the training of the child should begin as soon after it is ten years old as possible, and continue up to the age of 15 or 16. But the higher the entrance examination is, the older the pupils will be before admission, and the likelihood of their remaining long enough to benefit by training will be proportionately diminished

2nd The period for remaining in the Industrial School &c.

The longer the better — The eradi-

the formation of character cannot be accomplished in a hurry — And by all means let the educational and physical or industrial <u>training</u> <u>be carried on simultaneously</u> up to a certain standard.

My pupils receive four days schooling and two days industrial training in each week by regular rotation, excepting only such lads as may have passed a certain educational standard and desire to enter as apprentices to trades or farming.

The usual system of half time school and work would be very much better still.

I am afraid suggestion No 2 would be found generally impracticable, as the majority of boys not being held under a magistrates warrant, as in certified industrial schools, and their being no power to detain them against their will, would <u>leave</u> as soon as their schooling (& loafing) was over, with the reflection that if they had to go to work all day they might as well go where they would get paid for working. We have enough so called educated Indians who are too idle and too conceited to earn an honest livlihood because they were not educated to consider that <u>regular daily labour</u> of some kind or other is an essential and honourable duty.

What is really required, is power to bind so apprentices

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

39642

of parents or council, — and the sooner the Indian act is amended by the insertion of such a clause, the better for the rising generation of Indians. Some few years ago I took the liberty of addressing you upon this subject as I could place any number of Indian boys in the best manufactories in the city of Brantford if I could only keep them there steadily.

Trades (farming excepted) as usually taught in industrial schools, are generally a financial loss, and of little practical value beyond their necessity as sources of regular employment in the school, as few of the lads follow their trade after leaving.

If I could have some power to keep an Indian lad, of say 16 years of age, to an engagement after he had willingly entered into it, I would immediately erect an Indian Boys' Home and boarding house in the city, and have the lads properly looked after whilst they thoroughly learnt their trades or followed some useful calling. This in my opinion is the quickest, surest and most economical method of training Indian youths to take their places side by side, and equally, with the rising generation of Canadians, and I therefore most respectfully but earnestly press it upon your consideration.

In this [illegible] Schools

ARCHIVES PUBLIQUES
CANADA

This is really but an exception to suggestion 1 ("Specially admitted for the circumstances stated"),
Suggestion 4 (a) Certificate for entrance I have always required one (see form appended)
(b) as to enfranchisement

I must say I do not quite see the drift of this suggestion, as it is provided for in the Indian act, and if not, should the young Indian follow his trade in a town, or any where off a reservation, I suppose he can qualify as any other man by renting or owning a house and paying taxes.

I have one old pupil renting a house in the city of Brantford, I suppose he is intitled to vote if he wishes to do so without any certificate of enfranchisement: If so the ~~vote~~ proposed certificate would only confer the privilege of buying whiskey &c which he is better without.

I shall be most happy to render any service in my power whenever you may honour me with further communication

I have the honour to be

NEW ENGLAND COMPANY.

MOHAWK INSTITUTION AND DAY SCHOOLS.

GENERAL RULES.

With reference to the Resolution of the Special Committee, passed at their Meeting on May 27th, 1872, which contained a request that the Missionaries at the Grand River should meet and form a Board under the presidency of the Rev. Canon Nelles, for the consideration of all matters relating to the Mohawk Institution, the Manual Labour School, and the Day Schools on the Reserve; and also to their subsequent determination to appoint from England a Superintendent of the Mohawk Institution, the Manual Labour School, and the Farm connected with it, the Special Committee have made the following General Rules to regulate the action of the Board and Superintendent.

THE BOARD OF MISSIONARIES.

The Special Committee desire that it be understood that the Mohawk Institution with the Farm and Manual Labour School, is placed under the management of the Superintendent, who will receive orders and instructions from the Special Committee, through the Clerk of the Company.

There is now no Board of Missionaries. [illegible]

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The Board are requested to visit the Institution at least every three months, and to embody their observations upon the condition of the Institution in a Minute, signed by the members present, and to send the same at once to the Special Committee, after making a copy of it in a book to be kept for the purpose.

THE DAY SCHOOLS ON THE RESERVE.

While the individual Missionaries in their several districts have the chief management of the Day Schools, within their respective districts, they will visit and inspect each school on the Reserve, as a Board, at least twice in every year. The Special Committee suggest that in such visitations the attendance of the Trustees of each School Section should be invited.

The Board of Missionaries is requested to report half-yearly to the Special Committee its observations upon the management and condition of each school.

The Board of Missionaries will examine the children, and send the result of such examination, with any observations the Board desire to make, signed by the Members present, to the Special Committee who will select those children whose parents desire a nomination to the Mohawk Institution, according to the result of such examination.

THE SUPERINTENDENT.

1. The Superintendent shall have the control, and be responsible for, the management of the Institution, Manual Labour School, and Farm, and upon him shall devolve the due execution of the directions of the Company, or Special Committee, in relation thereto.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

2. The School Teachers at the Institution shall be ~~independently~~ recommended to the Company by the Superintendent, ~~and the Board of Missionaries,~~ and be appointed by the Company.

3. Vacancies in the Institution will be filled up from the Day Schools on the Indian Reserve from candidates who have been examined ~~by the Board of Missionaries,~~ and have attained a certificate of fitness for admission. Other Indian children may be admitted on permission being granted by the Special Committee of the Company, and having passed an examination ~~by the Board of Missionaries~~ and obtained the necessary certificate of fitness.

4. The Superintendent is to keep a list of all the children in the Institution, showing the dates of their admission, their age when admitted, the names and occupation of their parents, and from what school on the Reserve or elsewhere they came; together with a note of the state of knowledge at the time of admission.

40184

5. He is also to keep a list of the children as they leave the Institution; to keep up a communication with them, and to chronicle their progress in life, as far as is practicable, for four years afterwards.

6. He is to forward every quarter to the Special Committee a report on the actual state of the Institution, in the form required by the Committee.

7. He is to provide for the daily board of the establishment according to a dietary sanctioned by the Special Committee; also to be responsible for the cleanliness and good order of the dormitories and other rooms inhabited by or used by the children; also to advance with all diligence the industrial, moral, and religious education of the establishment; and is expected to interest himself in all that may conduce to the real good of those that are placed under his care.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

He will conduct family Prayer night and morning with the children, and attend with them Public Worship every Sunday.

8. All the Accounts connected with the Institution, Farm, and Manual Labour School are to be kept by the Superintendent.

9. He is to send to the Committee at least two months before the expiration of each quarter an estimate of all expenses (including the salaries and wages of all the officers and servants of the Institution, Manual Labour School, and Farm,) for that quarter; and at the end of every quarter to send to the Committee an accurate and detailed account, with vouchers, of the expenditure for that quarter in the form of a Dr. and Cr. account, or according to such form as may be from time to time prescribed by the Committee.

To the Superintendent General of Indian Affairs Ottawa.

Sir

In replie to your letter No 38.844 I have the honour to report that I entirely concur in the suggestions therein contained so far as relates to Indian Industrial and Day schools in receipt of grants &c from Indian Funds. I would however respectfully submit that the Mohawk Institution at present receives no such aid it being entirely supported by The New England Company; the Institution is nevertheless at all times open to inspection, and personally I shall be pleased to afford every assistance in my power to facilitate the object of the Department in promoting an improved system of Indian education and in the preparation of statistics relating thereto.

The last clause in your letter suggests a laxity on the part of managers of Schools to which I feel compelled to take exception on behalf of the Institution and Day Schools

which I have the honour to superintend and inspect. As Hon: Inspector of the eight schools of the School Board Six Nations Indian Reserve I receive weekly a report of attendance from each teacher (see enclosure a), keep an alphabetical list and General Register showing attendance and promotion of all the pupils, and to encourage regularity of attendance have introduced a system of attendance cards and prizes (see enclosure b & c). No pupil is permitted to pass from one school to another without my sanction nor may their attendance be counted if they are <u>late</u> in coming to school. The result of these measures may be seen by my Report for the year ended 30th June last.

Admission to the Mohawk Institution is generally by competitive examination.

To ascertain the efficiency of the training given at the Institution I am required by the New England company to keep Admission and Discharge registers and in the latter to record annually for four years the progress and conduct of each pupil after leaving the Institution <u>see enclosures</u>

Sir,

I have to acknowledge the receipt of your letter of the 17th Ultimo; and to inform you that I regret that your Requisition letter of the 7th May last, and the letter enclosed therein from Mr Ashton were inadvertently Mislaid.

I have approved, as sufficient for the present, and returned herewith, the forms of Diploma submitted by Mr Ashton which he proposes should be given to Students who qualify as Teachers at the Normal Institute with the exception that I have fixed a limit for the Diploma to run, namely three years. It is announced that, in that time, the person holding it should be able to qualify as Teachers of Public Schools &c.

I am,
Sir,
Your Obt. Servt
[illegible]
Secretary of the Dept of Indian Affairs.

Sir

A Commision of the New Zealand Company consisting of three members and their clerk is now on a visit to Canada inspecting the company's Indian Missions.

It is particularly desired that the commissioners should have an interview with L. VanKoughnet Esq the Deputy Sup^t-General of Indian Affairs

As the time to be spent in Canada is very limited, I write on behalf of the Commissioners to inquire when the Deputy Sup^t-General is expected to return to Ottawa from the North West.

If he does not return before the middle of September would it be possible for him to meet the Commissioners at Victoria B. C during the first week in September or at any point on their journey East by the C. P. R starting from Vancouver Sep^r 7th and arriving in Brantford

L. Vankoughnet, Esq^re
Deputy Sup^t of Indian Affairs, Ottawa.

Dear Sir

Permit me, as head of the New England Company's (of London, Eng^d) Commission, to express the gratification I feel at being at last in direct communication with you, and to thank you for your telegram of the 10th inst. (addressed to our Clerk, Mr Benning) which we have just received here. You have doubtless seen Rev. Mr Ashton's (of Brantford) correspondence on our behalf with your dep^t. in the latter half of August - and our telegrams (1) from Chemainus B.C., to the Indian dep^t at Victoria. (2) from ~~Winnipeg to~~ Vancouver to your Ottawa office (3) from Winnipeg to the same. We were told that we missed you by three days at Victoria B.C. and tho' the Ottawa office referred us to that office for your address, the latter referred us back to Ottawa for the same.

I now beg to confirm in writing, that part of the telegrams relating to our movements -

A semi-public "Reception" has been arranged for us tomorrow (Saturday) at the Mohawk Inst. Brantford - and we get in there quietly tonight under cover of darkness! We remain there, (please address letters c/o Rev. R. Ashton, Brantford Ont.) until Friday - when we leave for Peterborough, in order to visit our Chemong Station. We propose to leave there on Monday morning, 23rd inst. and to get to Ottawa as soon as possible - this perhaps only by the night train, due in Ottawa early on Tuesday 24th. We hope that it may be convenient to you to give us the honour of an interview early that morning, since we have to embark that night on S.S. "Circassian" at Montreal for England.

I may mention that I shall be accompanied by my fellow Comrs, who is also the Senior Auditor of our Co., Mr I. S. Listen - and probably by ~~two others~~ Rev. R. Ashton. Our Clerk, Mr Deering, & the other Comr, desire me to express to you their apologies & regrets that other duties (to be performed in a limited time) will prevent them from having the honour of waiting upon you. We were obliged thus to divide our forces in Victoria.

Hoping to have a few lines from you at Brantford, saying you can see us on the morning of Tues. Sept 24. I remain, dear Sir, Yours faithfully

Wm Lant Carpenter.

Returned

To the Deputy Superintendent General of Indian Affairs. Ottawa.

Sir

In my last Annual Report I called the attention of the New England Company to the necessity of some alteration in the regulations for the admission of pupils into this Institution for the following reasons.

(a) That owing to the improvement in the Indian Day schools, so many of our pupils (boys especially) are too small for industrial training.

(b) That some would qualify to present standard required for Indian teachers years before they could be intrusted with the charge of school

(c) Those employed as teachers should if possible go directly from their training to their charge. An interval of year or two would impair their efficiency and endanger success.

I also recommended the standard of qualifications for admission both as to age and attainments be raised.

The printed regulations for the Institution state - "Its aim is to impart such an education as shall fit its pupils for teachers amongst their own people, at the same time training them in the arts and practices of civilized nation

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

57485

this object has been attained as all the present staff of teachers in the Board schools, one teacher in this Institution and several on other reservations have received their education and training here, whilst the many who failed to reach the necessary standard as teachers have received a fair education in addition to the valuable training necessary to make them useful citizens.

Now we are prepared to advance another stage without in any sense destroying that industrial character of the Institution the value of which cannot be overrated, as any youth who is too proud or too lazy to do something towards his or her own advancement in life is utterly unworthy of assistance.

The following amended regulations have been approved by the New England Company.

I That the Institution be known as the "Mohawk Institution" ("Industrial and Normal School")

II That admission to and promotion in it be dependent upon examination and character.

III Qualifications for admission - not less than 11 years of age and able to read the 3rd Book and work the simple rules of Arithmetic with accuracy.

IV That the reservation of places for children of the "Six Nations" be limited to 60 (30 of each sex)

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

57485

remaining places be open to any Indians in the Dominion of Canada upon the same conditions. If such vacancies are not filled the balance be open to the "Six Nations".

V That all pupils of more than two years standing who pass the Entrance Examination to the High School before attaining the age of eighteen years be permitted to remain another year and attend one session of the County model school if the Minister of Public education will allow it.

VI That ten scholarships (limited to 5 boys and 5 girls) be established for those pupils obtaining the highest number of marks at the public examination for Entrance into a High school — the successful candidates being permitted to attend the Brantford Collegiate Institute to qualify as 3rd Class Public School teachers. Those attaining the latter standard before reaching their nineteenth year being granted an additional year to obtain 2nd Class P. S. Certificates.

To meet the additional expenditure and maintain the industrial training of the students obtaining scholarships the New England Company has approved the following conditions.

I That the "scholars" be boarded and clothed at the Institution as heretofore and that they conform to the usual rules of the Institution.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

II to they will require all their time (Saturdays excepted) during the Collegiate terms for study, and therefore will not be able to perform the usual amount of manual labour and in the case of girls their domestic duties — they be required to make up part of the latter by working every Saturday and during the summer vacation.

III That they be granted 3 weeks leave at Xmas.

IV That no one be permitted to enter upon the enjoyment of a scholarship until he or she has signed in the presence of a witness (generally the Local Supt of Indian Affairs) an agreement to faithfully fulfil the above and such other conditions as in the judgment of the Superintendent be deemed necessary.

V That application be made to the Superintendent General of Indian Affairs for a grant from the Indian School Funds of the sum of twenty five dollars per annum for each scholarships awarded, to pay Collegiate fees, supply extra books and defray expenses incurred outside the Institution.

$25 10/250 cts

For the latter I now beg to make application.

There are six scholarships already awarded

The Superintendent General
of Indian Affairs-
Ottawa-

Sir

In your letter of the number and date given above, you were pleased to promise a grant of $25.00 per annum towards the extra expenses of Indian students attending the Collegiate Institute, Brantford, and on the 30th of July 1885 forwarded me a cheque for the sum of $25.00. Since receiving which I have made no further application as the number of scholarships have not been continuously filled.

On the 31st Dec. 1886 the "Students Fund" was overdrawn ——— ——— ——— $ 23.54

For the year ending 31st Dec. 1887—
The account will be as follows—

4 students	1 year	$ 100.00
do	9 months	18.75
		$ 118.75
Total		$ 142.29

I beg to request that you will be pleased to issue a cheque for the amount,

I am

New England Company,
1, Farnivals Inn,
Holborn,
London, E.C.

15 August 1890

E. Vankoughnet Esq
Deputy Superintendent General of Indian Affairs
Ottawa, Canada.

Dear Sir,

I am instructed by the New England Company to take the liberty of reminding you that the Company have not been favoured with any reply to the latter portion of the letter of the 19th November last which I was directed to address to you partly on the subject of the Institution known as the Mohawk Institution at Brantford which the Company founded many years ago and have not failed to support ever since to the great benefit of the Indians in the vicinity. I believe I am justified in saying that no educational foundation in the Colony has been better conducted or been the means of greater advantage to the Indian people.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

I may perhaps first introduce the subject of this application by calling to your attention that part of the letter signed by Mr Simpson to it. It was my duty on that occasion to remind you of the position of the Government in relation to grants to Indian Schools. It may be in your recollection that during the Sessions of last year the Commissioners of the Company there visiting the Settlements of the Labrador in behalf of the Indians had the honour of an interview with you at Ottawa and submitted to you the fact that on account of the great agricultural depression in England for several years past the income of the Company had become greatly diminished and that they might find a difficulty in maintaining in full efficiency some of their Mission Stations. It was in these circumstances that the Hon England Company was compelled to apply to the Indian Department of the Government which you represent for the exercise in their favour of the established regulations of that Department whereby they are authorized to grant subsidies in aid of the management of Indian Schools in the Dominion. For the circumstances in which the Hon England Company find themselves

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

108847

placed I am instructed to place before you the claim of the Company to the favourable consideration of the Department in respect of the Mohawk Institution with a view to the grant of a capitation allowance in aid of that Institution. I believe it is not necessary for me to enlarge upon the long career of usefulness of that Institution or to state that for a long series of years the Company have without any public assistance maintained the Institution in a condition of great usefulness out of their own unaided funds.

The Company in the altered state of their finances are very desirous that the Mohawk Institution should not only sustain its reputation as in the past, but should extend the sphere of its usefulness and they venture to think that the public funds devoted to their public work can no where be more usefully applied than in the maintenance of this old and valued institution.

In connexion with this application I may be permitted to refer to the letter which under date of the 14th May last you addressed to the Rev Robert Ashton with reference to the admission to the benefits of this Institution of the sons and daughters of the late Head Chief ('North Axe') of the Piegan Indians

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES

DEPARTMENT OF INDIAN AFFAIRS
OCT 7 1890

Middlesex.

TO HER MAJESTY'S JUSTICES OF THE PEACE FOR THE COUNTY OF MIDDLESEX, IN GENERAL QUARTER SESSION ASSEMBLED.

The TWENTY-SEVENTH ANNUAL REPORT of the COMMITTEE of VISITORS appointed by the Court under the Acts of 17 *&* 18 *Vict., cap.* clxix, *and* 38 *&* 39 *Vict., cap.* lxxxvii, *for the Industrial School for Juvenile Offenders for the County of Middlesex.*

THE Committee of Visitors feel that, before reporting upon the state and condition of the Industrial School at Feltham for the year that has passed, they must express their sympathy with their brother Justices of the County in the loss it has sustained by the death of Francis Henry Newland Glossop, Esquire.

At their fortnightly meeting on Monday, the 25th of January last, they received intelligence of his death on that morning, and before proceeding with any ordinary business the Committee of Visitors agreed to a resolution expressing their profound regret at the loss of their Chairman. Mr. Glossop had been, without any intermission, a member of the Committee of Visitors since 1854, when the Act was passed for the erection and maintenance of the School; and since 1863 its Chairman.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)
PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

They recorded also their sense of his inestimable value to the School; of his affectionate interest and wise and indefatigable supervision, during so many years, and of his unfailing courtesy and kindness to themselves collectively and individually. They offered also to Mrs. Glossop and her family their deep sympathy under their heavy bereavement.

On 1st January, 1885, there were on the Books of the School (of whom 95 were out on licence, &c.) ..	859	boys.

In Merchant Service	31
In the Army	42
In Civil Employment in England and Wales	38
	111

The daily average in the School numbered 760.

With respect to the state and condition of the School, the Committee of Visitors, from their visits and the Reports, can bear satisfactory testimony. Whether in the Schools, or at the various trades and employments, strict discipline is maintained, but it is coupled with kindness.

Influences are used that are not exactly school-teaching, but which tend materially to the improvement of character. Cricket and football are encouraged, and at the end of each season the different Sections contend for a banner, the same to be retained by the victorious Section until it is lost in another competition. There is also a banner for the best conducted Section, which is adjudged quarterly, and likewise a banner for proficiency in Singing. Once a year the School is in holiday with Athletic Sports, when prizes in bats, balls, &c., are given to the successful competitors, the cost of which does not appear in the School Accounts. Once a year also, at the Annual Inspection of the School, prizes are distributed to boys for good conduct and proficiency in education and industrial training, the cost of which is included in the "Disposal Fund." There is a Library of entertaining books for the boys to read in off hours, and entertainments are occasionally given in winter evenings, under the auspices of the Superintendent and Chaplain.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

These things show to the boys the interest that is taken in their happiness, and may go far to account for their cheerful and contented appearance, which was remarked upon by Mr. Rogers, Her Majesty's Inspector, on his official visit to the School on the 30th June last. Mr. Rogers' observations are given *in extenso* in the Superintendent's Report hereto attached, and they are very satisfactory in every particular.

The general health of the School has been good. There has been no epidemic disease. In December, however, some cases of ringworm appeared, when there was a careful examination of all the boys; and 27 were isolated and removed to the "West House" and put under treatment. The Medical Officer hopes soon to stamp it out.

There have been two deaths in the course of the year: one from pneumonia, the other from a fall from the foretop of the brig. An inquest was held, and the jury found a verdict of accidental death. It happened on the 9th December. The sailor boys were below under the instruction of the second assistant boatswain. The day was cold, and he turned them out for a little exercise to warm them. He sent two of them up and down the rigging, one at each mast, while the rest were being marched round the brig. Henry Riches in coming down missed his hold and fell. The Committee felt that although the officer meant well, he was to blame in sending boys up the rigging when the brig was dismantled for the winter, and the splinter-netting removed. He was therefore severely cautioned to be more thoughtful in the future.

Another dry-arch of Walton Bridge has, with the sanction of the Court of Quarter Sessions, been converted into

a second boat-house, which enables all the boats belonging to the School to be kept dry when not in use.

The Sailor Boys' Home at Penarth continues to be satisfactorily conducted by Mr. Fox, the Shipping Officer of the School. He reports that although the shipping trade could not be much worse, he has made a slight increase over the shipments in 1884, and that the boys follow it up better than they used to do. He has been fortunate in shipping a good many boys for long voyages instead of short voyages in steamers.

Besides our Shipping Officer at Penarth, the School employs Mr. Purton (formerly one of our boatswains) to get berths for boys in fishing smacks from Yarmouth. This he had done for 25 boys, who had mostly made long voyages, and returning home to their friends in London, drifted into idle ways.

The Rev. Canon Worrall, writing from Oakville, Ontario, states that the 30 boys he had then received from the School, he had scattered very widely some 200 or 300 miles from Oakville,—in all cases under the supervision of clergymen, who will report to him on their conduct.

The 52 boys sent to situations in Wales, were placed chiefly with small tenant farmers, where they generally are treated as members of the family. The Rev. Roger Williams, rector of Llanedy, and Mr. John Jones, of Pontardulais, act as agents for looking after the boys.

It is a matter for congratulation that only 18 boys returned to their own homes. In most of these cases the parents declined the offer made by the Superintendent.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The Bishop of London held a Confirmation in the School Chapel on the 17th July, on the morning of the Annual Inspection. 91 boys were then confirmed, and 29 previously received that rite when the Bishop confirmed in the neighbourhood. The latter were about to emigrate before the 17th July. The Chaplain also reports that in the course of the year he baptized 74 boys whose parents had failed to bring them to the font.

574 boys have during the years 1882, 1883, and 1884 been discharged from the books of the School upon the completion of their terms of detention. Of these, only 5 are returned as "unknown," in 1885. 521 are found to be "doing well," being at the rate of fully 90½ per cent., and 1½ per cent. having died since discharge.

The appointment in July, 1882, of one of the Officers of the School to be employed specially as Visiting Officer, has been very valuable in keeping up communication with discharged boys and those on license; and is also a great help to the Chaplain in making his annual report.

The services of Mr. Walter Goodenough, who has, since 1863, been one of the Schoolmasters, have been lost to the School by his appointment to the post of Superintendent of the County Industrial School of Durham.

Inspector Lodder, who has been a discipline Officer since 1867, was at the end of last year compelled by bodily infirmity to resign. He has now left the County Service.

The farm account shows a profit of £376 4*s.* 11*d.*, being less than last year. The diminution is due to the drought

last summer, which materially affected the potato and root crops.

The supply of milk from the farm has varied, but on the whole the boys have had more than the regulated allowance of half-a-pint each per diem.

The gross expenditure for the year was £20,252 19*s.*, being £677 13*s.* 3*d.* less than for the previous year.

The net amount chargeable to the County Rate was £11,835 10*s* 7*d.*, being £880 10*s.* 7*d.* less than for the previous year.

The average cost per boy for the maintenance and management of the School was £24 19*s.* 4¾*d.*, being £1 9*s.* 2*d.* less than on the previous year.

The sum expended on boys to enable them to obtain an honest livelihood on discharge was £597 16*s.* 2*d.* In addition to which £38 16*s.* 9*d.* was paid from the "Disposal Fund" to supplement the grants available under the Act of Parliament.

The Annual Reports to the Committee, of the Superintendent and of the Chaplain, and also of the Medical Officer, are appended to this Report. They enter into great detail in their respective departments.

Mr. Mason, the Clerk to the School, maintains his accuracy in the Accounts, which are various and in great detail.

The Committee of Visitors have finally to Report that the accommodation provided for the juvenile offenders is sufficient for the requirements, with the exception, however, of the addition of a room or hall where the boys from all the sections might be assembled for meals and other purposes. (This want was brought to the notice of the Court in the Committee's Annual Report for 1883.)

The Committee likewise, in compliance with the Act of Parliament, report that they fully appreciate the very efficient and valuable services rendered to the School by Captain J. Rowland Brookes, the Superintendent; by the Rev. W. A. Newton, the Chaplain; and by Mr. Kingsford, the Medical Officer, who have been ably supported by an efficient staff of subordinate officers and servants.

Middlesex Industrial School,
Feltham,
8*th February*, 1886.

TWENTY-SEVENTH ANNUAL REPORT

OF THE

SUPERINTENDENT OF THE MIDDLESEX INDUSTRIAL SCHOOL.

For the Year ending 31st December, 1885.

To the Chairman and Committee of Visitors of the Middlesex Industrial School.

Mr. Chairman and Gentlemen,

In obedience to your regulations and orders, I have the honour to submit for your consideration my Annual Report on the state and condition of the Middlesex Industrial School for the year ending 31st December, 1885.

Admission and Discharge of Boys during 1885

(1.) Local Acts (17 & 18 *Vict.*, *cap.* clxix, *and* 38 & 39 *Vict.*, *cap.* lxxxvii).

During the year, 63 boys were admitted under warrants of detention, and 3 returned from licence (who were on licence on 31st December, 1884); 47 boys were discharged

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)
PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

on completing their terms of detention, 8 by order of the Secretary of State, 18 under the provisions of Clause 3 of the Amended Act, 1 has died, 1 has been transferred to a Roman Catholic School, and 24 were allowed on licence who are still so employed. The number now under detention is 142.

(2.) Public Act (29 & 30 *Vict., cap.* cxviii).

During the year, 175 boys have been admitted under orders of detention, and 2 have returned from licence (who were on licence on 31st December, 1884); 68 boys have been discharged on completing their periods of detention, 28 by Order of the Secretary of State, 21 under the provisions of the 41st Clause of the Act, 1 has died, and 64 were allowed on licence, who are still so employed. The number now under detention is 651.

(3.) Both Acts of Parliament.

The total number of admissions under both Acts of Parliament was 238; the total number of discharges was 193; the total number now under detention is 793; the minimum number was 729; the maximum number was 793; and the daily average was 760, being 17 more than that of last year. There are also 111 boys now employed on licence in the following capacities: at sea 31, in the army 42, in various civil employments in England and Wales 38.

Disposal of Boys in 1885.

Boys instructed in Seamanship.

Fifty-one boys who had been instructed in seamanship and sent to sea (50 to the Merchant Service and 1 to the

Royal Navy) were finally discharged in 1885. In addition to this number, however, there were on the 31st December, 1885, 31 boys on licence (but still belonging to the school) who were at sea in merchant vessels in various capacities.

During the year our shipping officer at Penarth shipped 48 boys on their first voyages, and 60 on their second or subsequent voyages, making a total of 108 shipments effected by him.

During the year one boy evaded the conditions of his licence by deserting from his ship in Amsterdam, and returned to his home in London. He was, however, re-captured and brought back to the School.

The Boys Sailors' Home at Penarth was visited by me in October last, and found in excellent order.

Mr. Fox, the shipping officer, reports as follows:—

"I have also assisted 19 of our old boys in getting ships, some of them having left the School 9 or 10 years ago.

"Although the shipping trade could not be much worse than it has been during the greater portion of the present year, I am happy to say that I have made a slight increase over the number of shipments in the year 1884, and that the boys seem to follow it up better than they used to do.

"I have also seen a greater number of our old boys this year than I have seen during any year since I left London, nearly all of them trying to get shipped or belonging to ships in the dock.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

on completing their terms of detention, 8 by order of the Secretary of State, 18 under the provisions of Clause 3 of the Amended Act, 1 has died, 1 has been transferred to a Roman Catholic School, and 24 were allowed on licence who are still so employed. The number now under detention is 142.

(2.) Public Act (29 & 30 *Vict., cap.* cxviii).

During the year, 175 boys have been admitted under orders of detention, and 2 have returned from licence (who were on licence on 31st December, 1884); 68 boys have been discharged on completing their periods of detention, 28 by Order of the Secretary of State, 21 under the provisions of the 41st Clause of the Act, 1 has died, and 64 were allowed on licence, who are still so employed. The number now under detention is 651.

(3.) Both Acts of Parliament.

The total number of admissions under both Acts of Parliament was 238; the total number of discharges was 193; the total number now under detention is 793; the minimum number was 729; the maximum number was 793; and the daily average was 760, being 17 more than that of last year. There are also 111 boys now employed on licence in the following capacities: at sea 31, in the army 42, in various civil employments in England and Wales 38.

Disposal of Boys in 1885.

Boys instructed in Seamanship.

Fifty-one boys who had been instructed in seamanship and sent to sea (50 to the Merchant Service and 1 to the

Royal Navy) were finally discharged in 1885. In addition to this number, however, there were on the 31st December, 1885, 31 boys on licence (but still belonging to the school) who were at sea in merchant vessels in various capacities.

During the year our shipping officer at Penarth shipped 48 boys on their first voyages, and 60 on their second or subsequent voyages, making a total of 108 shipments effected by him.

During the year one boy evaded the conditions of his licence by deserting from his ship in Amsterdam, and returned to his home in London. He was, however, re-captured and brought back to the School.

The Boys Sailors' Home at Penarth was visited by me in October last, and found in excellent order.

Mr. Fox, the shipping officer, reports as follows:—

"I have also assisted 19 of our old boys in getting ships, some of them having left the School 9 or 10 years ago.

"Although the shipping trade could not be much worse than it has been during the greater portion of the present year, I am happy to say that I have made a slight increase over the number of shipments in the year 1884, and that the boys seem to follow it up better than they used to do.

"I have also seen a greater number of our old boys this year than I have seen during any year since I left London, nearly all of them trying to get shipped or belonging to ships in the dock.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

"The very bad trade in London and other sea-ports is the cause of many of them finding their way here, and they all pretty well know that, if there is the least chance, I am always ready to give them a helping hand.

"I have had the good fortune of shipping a good many boys (both first and second shipments) on *long* voyages this year, instead of having to send them short voyages in steamers. I always try to send them long voyages if I can, but it is quite a slice of luck to get them the chance. There is not one sailing ship out of ten will carry a deck boy, they are always so full of premium or other apprentices belonging to the place that the ships hail from."

In addition to the boys sent to sea by our shipping officer at Penarth, Mr. Purton, our agent at Yarmouth, has placed 25 boys in fishing smacks. These are generally boys who, having made a voyage, have returned to London to their so-called friends, and drifted into idle ways.

Boys Instructed in Instrumental Music.

Twenty-nine boys who had been instructed in instrumental music and enlisted into regimental bands, and 1 who had entered the Royal Navy, were finally discharged from the School during the year. In addition to this number, 42 boys were serving on license at the end of the year, during a period of probation, to test their fitness for the service.

Of the 30 boys finally discharged, 12 were trained in the brass band, and 17 in the reed band, 1 was enlisted as a tailor.

The following extract from a letter recently received from the bandmaster of the 1st Battalion Northampton Regiment may be of interest to the Committee:—

"I am anxious to enlist 4 boys for my band, and would like them from your School. I have some first-class men who were boys at Feltham, particularly Drum-Major Parkinson."

Other reports of an equally satisfactory character are frequently received relating to the conduct of boys enlisted into the army as band boys.

Boys instructed in Farming Operations and Trades.

Two means of disposal exist for boys of this class, viz.:—(i.) emigration and (ii.) home disposal.

(i.) *Emigration.*—37 boys emigrated during the year, viz.:—36 to Canada and 1 to his relatives in Queensland.

Our boys sent to Canada were consigned to the care of the Rev. Canon Worrell, of Oakville, Ontario, who has kindly undertaken to provide them with situations, and to exercise supervision over them. This gentleman writes as follows:—

"Before leaving home I received your last letter, stating that the last contingent had started. I am happy to say that I have placed the 30 out, and have left word with my son where to place two others. I think I may write that this year's work has been very satisfactory. I have scattered the boys very widely, some 200, one 300 miles from Oakville, but in all cases I have notified the clergy-

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

man, and shall receive a report from him as to their conduct, so I think I may conclude that this year's work has been satisfactory.

"I write this from a beautiful spot on the St. Lawrence, from a small town opposite one of the rapids, and I cannot help thinking what a blessing for these boys to come to such a country with every encouragement to live usefully and well."

Wm. Smith, Esq., Deputy Minister of Marine of Canada, writes also :—

"The boy whom you were kind enough to send me is doing very well indeed. He appears to me a first-rate boy, and very willing and anxious to learn and do well."

(ii.) *Home Disposal.*—Boys for this object are generally placed out in situations in South Wales, as being far removed from the vice and temptations of London, and because the School has an established connection in that part of the country. 52 boys were so provided with situations during the year, chiefly with small tenant farmers, where they are generally considered and treated as members of the family.

In addition to the boys placed out on discharge, 38 boys were also employed in various situations on license at the end of the year.

We are indebted to the Rev. Roger Williams, Rector of Llanedy, and to our agent, Mr. John Jones, of Pontardulais, for most valuable assistance in carrying out these arrangements.

Boys Returning to their own Homes.

It is a matter of congratulation that only 18 boys returned to their homes in London during the year. This is the smallest number by far of boys who, having yielded to the persuasion of their friends, have elected to return to homes generally situated in the most wretched and degraded localities.

The authorities of the School have no difficulty in providing suitable situations for every boy leaving the School, where the opposition of his friends does not interfere to prevent it, and where his character justifies it being done.

Inspections of the School.

In addition to the usual fortnightly visits and inspections, the Annual Inspection of the School by the Committee of Visitors took place on 17th July last, when they were pleased to express satisfaction with the state in which they found the Institution.

The School was also officially inspected by Henry Rogers, Esq., H.M.'s Assistant Inspector of Reformatories and Industrial Schools, on 30th June, when he made the following entry in the Visitors' Book :—

Official Inspection, 30th June, 1885.

"I have visited the School officially to-day, and have been over the whole establishment. I am very glad to find all going on most steadily and successfully. The general

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

order and organisation are of the highest class. The inmates are in excellent health, and all appear to be cheerful and contented. I have examined a good many classes in the School rooms, and have found good work going on in every standard. Order excellent. I was glad to notice improvement in many particulars, especially in the style of reading.

"I have been over the Farm and Workshops and had every reason to be pleased and satisfied with all that came under my observation.

"The boys drilled in my presence, and the nautical section went through their exercises with smartness and precision.

"My visit has afforded me unqualified satisfaction. I find the School very carefully managed and carrying on a work of the utmost importance and value.

(Signed) "HENRY ROGERS,

"*H.M.'s Deputy-Inspector of Industrial Schools.*

"HOME OFFICE."

DISCIPLINE AND INTERIOR ECONOMY.

The only change in the Officers during 1885 was the appointment of Mr. Goodenough, one of our senior Schoolmasters, to the post of Superintendent of the County Industrial School of Durham. In other respects the staff

of the School remains the same as last year, viz., a total strength of 69 officers and servants of all grades.

The conduct of the boys during the year has been very good, although not quite equal to the preceding year; thus of the 1,097 boys in, or passing through, the School in 1885, 479 had no reports recorded against them, 174 one report, 100 two reports, and 86 three reports; that is to say, 839 boys, or more than three-fourths of the whole number, had only a total of 632 reports between them, not averaging a report each.

On the other hand, the 13 worst behaved boys in the School had 324 reports between them, averaging nearly 25 reports each, and being about one-eighth of the whole number.

The total number of reports was 2,736, being 373 more than last year, and showing an average of 2·4 reports per boy, as compared with an average of 2·2 reports per boy in the year before.

The Good Conduct Banner has been continuously retained by the M Section throughout the year. This result is so creditable to the Officers of this Section, that I would wish to enumerate their names for the information of the Committee:—

Inspector, H. Craig; 1st Labour Master, C. Batt; 2nd Labour Master, J. Wild; Schoolmaster, E. Davies; Assistant Schoolmaster, E. Birch.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The Sections arranged according to the number of reports during 1885, stand as follows:—

M	Section	(150 boys)	229	reports.
G	,,	(100 boys)	228	,,
F	,,	(150 boys)	529	,,
T	,,	(150 boys)	584	,,
A	,,	(150 boys)	669	,,
L	,,	(100 boys)	497	,,
		Total ..	2,736	reports.

There were 5 absconders from the School and one from license during the year. The license case has already been referred to, and all the 5 absconders from the School were new boys who were speedily recaptured.

The instruction of boys in gymnastic exercises and swimming is still carried out. During the year 180 boys have passed through a course of 50 attendances and upwards at the gymnasium. On the 31st December 232 boys in the School had passed through a course of gymnastics, and 561 had not passed. 183 boys have been instructed in swimming during the year. On 31st December 387 boys were able to swim, and 406 had not yet learned.

At the end of the year there were 566 boys on 1st Class Rations, and 227 little boys on 2nd Class Rations.

The health of the School has been very good throughout the year. I regret, however, to report the death of two boys, one of whom was unfortunately killed by falling

from the rigging of the model training brig. A Coroner's Inquest was held on the body, and a verdict of "Accidental Death" was returned.

This accident originated in the want of judgment evinced by the Seamanship Instructor in charge by sending the boy for exercise aloft when the brig was dismantled and the splinter-netting removed (purposely used when the ship is rigged to catch boys who may fall from aloft), the weather also being inclement.

The circumstances of the case were carefully enquired into by the Committee of Visitors, and the Officer whose indiscretion was the cause of the accident was brought before them and severely cautioned.

Works and Improvements.

With the sanction of the Court of Quarter Sessions another dry arch of Walton Bridge has been converted into a second Boat House, thus enabling all the Boats to be kept dry when not in use.

The corrugated iron roof over the Kitchen and adjacent offices having become unsound through age, has been replaced by a slate roof of a permanent character.

Occasion has been taken of this opportunity to re-arrange some of the Kitchen offices so as to afford additional convenience.

A Porch has been built so as to afford a more convenient entrance into the Infirmary.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

These, with the necessary repairs of the building occasioned by wear and tear, have given occupation to the Trade Masters and boys under instruction during the year.

The cost of manufacturing gas amounted to 2*s*. 10½*d*. per 1,000 cubic feet, being 1¾*d*. less than last year. This charge does not include interest on cost of plant.

Farm.

The Farm has yielded a profit of £376 4*s*. 11*d*., being £112 5*s*. 8*d*. less than last year.

This diminution is due to the drought of last summer, which has materially affected the potato and root crops.

The live stock are healthy, and the land is in good order.

The supply of milk amounted to 155,563 pints, being 16,863 pints in excess of the regulated allowance of half a pint per diem to each boy.

Finance.

The gross expenditure for the year amounted to £20,252 19*s*., being £677 13*s*. 3*d*. less than that of last year.

The receipts from the Treasury, School Board for London, Sale of Farm Produce, &c., amounted to £8,417 8*s*. 5*d*., making the net expenditure chargeable to the County Rate amount to £11,835 10*s*. 7*d*., being £880 10*s*. 7*d*. less than last year.

The sums voted by the Committee of Visitors to aid boys in obtaining situations or employment when leaving the

School amount to £1,056, of which £597 16*s*. 2*d*. has been expended.

The average cost per boy for maintenance (including food, clothing, and management) amounted to £24 19*s*. 4¾*d*., being £1 9*s*. 2*d*. less than last year.

The cost of food per boy amounted to £8 8*s*. 7½*d*., being 12*s*. 11½*d*. less than last year.

The cost of clothing per boy amounted to £2 15*s*. 2¾*d*., being 1*s*. 11¼*d*. less than last year.

I continue to receive most cordial co-operation in the performance of my duties from the Chaplain and Medical Officer, and am fortunate in having the assistance of an experienced and efficient staff of Officers.

The Accounts have been prepared by Mr. Mason, the Clerk of the School, with his usual care and accuracy.

In conclusion, I would beg to tender you my grateful thanks for the kind support and encouragement which for upwards of twenty-three years I have constantly received at your hands.

I have the honour to be,

Mr. Chairman and Gentlemen,

Your obedient Servant,

J. ROWLAND BROOKES,

25th January, 1886. *Superintendent.*

P.S.—Since the above Report was written, information has been received of the sudden death of F. H. N. Glossop, Esq., for twenty-three years the respected Chair-

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

man of the Committee of Visitors. I would venture to express my deep sorrow at the sad loss which not only this Institution, but the entire County has sustained. His intimate acquaintance with every detail of administration, and generous philanthrophy, have contributed to place this School in the position which it now occupies as one of the first of its kind in the kingdom, and in him every Officer and boy must feel that they have lost a kind friend and benefactor.

J. R. B.

ANNUAL REPORT OF THE CHAPLAIN OF THE MIDDLESEX INDUSTRIAL SCHOOL.

FOR THE YEAR ENDING 31ST DECEMBER, 1885.

To the Chairman and Committee of Visitors of the Middlesex Industrial School.

MR. CHAIRMAN AND GENTLEMEN,

In obedience to your regulations, I have the honour of laying before you, for your consideration, my Thirteenth Annual Report as Chaplain of the Middlesex Industrial School.

1ST. BOYS ADMITTED INTO THE SCHOOL.

Boys admitted into the School.

During the year 1885, 238 boys have been admitted; 63 under the provisions of the Middlesex Act, and 175 under the provisions of the Public Act. Of these 238 admitted, 65 were in the First Standard, 69 in the Second Standard, and only four in the Sixth Standard, while no less than 28 could not write their names. Of their religious attainments I am sorry to have to give a bad account. 121 knew nothing of the Lord's Prayer, or Creed, 57 knew nothing of their Saviour, 105 boys and the

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

parents of 152 never entered a place of worship, while 17 were in a most wretched state of utter ignorance of their God and Saviour, and of all religious truth.

2ndly. Boys in the School.

Boys in the School.

The work in the schoolrooms has been carried out regularly during the past year, and the majority of the boys have made good progress. The County, however sustained a great loss in the removal of Mr. Walter Goodenough, who was elected at the beginning of the year to the post of Superintendent of the Durham County Industrial School. He was an excellent Schoolmaster and disciplinarian, added to which he took an immense interest in the boys' sports and games. Mr. Paddy, who came to us as a pupil teacher from the Royal Hospital Schools at Greenwich, was promoted to the rank and pay of full Schoolmaster in Mr. Goodenough's place. Mr. Paddy obtained a Government certificate at a recent examination, and has passed with credit to himself through the various grades of Pupil Teacher, Acting Assistant Schoolmaster, and Assistant Schoolmaster, to the position he now holds. To fill the vacancy caused by Mr. Paddy's promotion, Mr. Cox, who has proved himself a good disciplinarian, was elected as Assistant Schoolmaster. Of the other officers of the educational staff, I can on the whole speak in high terms of commendation, but there are one or two whom I should like to see more energetic in their work, and exercising greater control over their boys.

Examination in Religious Knowledge.

The most important alteration that has taken place in the school-rooms, with your sanction, is that with regard to the religious instruction. At a conference of clergy held at

Twickenham on the 15th of October, the Bishop of London presiding, his Lordship expressed to me his great desire that the schools should be under the inspection and examination in religious knowledge of the London Diocesan Board of Education (H. M.'s Inspector of Reformatory and Industrial Schools does not examine in religious knowledge). I reported his Lordship's wish to the Committee of Visitors at their next fortnightly meeting, when they were pleased to pass the following resolution: "That in accordance with the desire expressed by the Bishop of London, the boys in the School be submitted annually to an examination in religious knowledge by the Diocesan Inspector." I have, therefore, now arranged that the religious instruction shall be given according to the syllabus laid down by the London Diocesan Board of Education, and that the examination shall take place annually during the month of June.

H. M. Inspector's Report.

Mr. Rogers, Her Majesty's Deputy Inspector of Reformatory and Industrial Schools, visited and inspected the schools on Tuesday, June 30th. He examined several of the Standards, and made an entry in the Visitor's Book, of which the following is an extract:—

"I have examined a good many classes in the school-rooms, and have found good work going on in every Standard. Order excellent. I was glad to notice improvement in many particulars, especially in the style of reading."

Lending Library.

The lending library still continues to be highly appreciated by the boys, who get books exchanged every Wednesday and Saturday during the long winter evenings, when they

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

ARCHIVES PUBLIQUES
CANADA

are not able to go and play out-doors. The library now consists of 319 volumes of instructive and amusing books, and if it was only larger I could let more boys avail themselves of it; as it is at present I can only let the boys of the V., VI., and passed-out Standards have books.

Our Wednesday evening services, held in the chapel, for the benefit of the officers and their families, have been extremely well attended this season.

Friday Evening Services during Lent.

We had our Friday evening services during Lent, as has always been our custom during this season, at which services the whole School attended, and the following clergymen kindly came and preached to the boys:—

Rev. H. J. Flynn, D.D., Chaplain of the West London District Schools, Ashford.
Rev. N. G. Pilkington, M.A., Vicar of Bedfont, and formerly Chaplain of the School.
Rev. Henry Newton, M.A., Vicar of Horton.
Rev. Wilson Lee, M.A., Curate of St. Stephen's, Paddington.
Rev. J. F. Jemmett, M.A., Vicar of Feltham.
Rev. H. G. Cundy, D.D., Rector of St. Paul's, Deptford.
Rev. J. L. Rhys, M.A., Curate of St. Luke's, Paddington.
Rev. Stephen Hawtrey, M.A., Warden of St. Mark's School, Windsor.
Rev. F. Nelham, A.K.C., Curate of Feltham.

Baptisms.

There have been 78 baptisms in our chapel, of which 74 were boys whose parents had neglected this part of their duty, and the remaining four were officers' children.

Confirmation

On July 17th the 13th Annual Confirmation was held in the School Chapel, on which occasion the Lord Bishop of London came himself. On this occasion I presented 91 boys of the School, five sons and four daughters of officers. I also took nine boys to Holy Trinity, Twickenham, and 20 to St. Catherine's, Feltham, to be confirmed, previous to this. These were boys who were about to proceed to Canada before the confirmation in our Chapel took place. The total number confirmed during the year thus being 129.

On the day of the Confirmation at the Schools prizes were distributed by the Chairman to the most deserving boys.

Holy Communion.

The Holy Communion has been administered 31 times, and there have partaken thereof 432 adults and 144 boys.

Deaths.

I have been called upon to officiate four times at funerals in our School Cemetery. Two boys died, viz., F. O. Pike, 3004 M, who died on Sunday, May 3rd, of pneumonia, and Henry Riches, 2946 F, who fell from the rigging of the foremast and was instantly killed, on December 9th. The other two were, the wife of one officer, and the son of another. In addition to these there was an infant daughter of an officer buried during my leave of absence, on which occasion the Rev. N. G. Pilkington, Vicar of Bedfont, officiated.

Boys who have been Discharged from the School.

Boys who have been discharged from the School.

During the past year 195 boys have been finally discharged from the School, being the same number as were

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

discharged during the previous year. Table V. appended to this Report shows the manner of provision adopted with reference to these boys, and it is most gratifying to notice that out of the total number of 195 discharged, only 18 went back to old wretched homes and bad associates, 175 taking advantage of the offers made to them by the School authorities. Two boys died in the School, and one was transferred to a Roman Catholic School.

The two boys who are classed as having absconded and time expired, were both provided for by the School authorities: one obtained a situation in a large Public School, from which he absconded, and we could obtain no clue to his whereabouts; the second was, at his own desire, sent to sea, and on his returning from his first voyage he failed to report himself, either to the Shipping Officer at Penarth, or to the Superintendent at the School; but I received reliable information that he shipped himself in another vessel and is still doing well at sea.

Boys sent to South Wales.

Of the 52 boys sent to service, the majority, if not all of them, were provided with situations in South Wales, where they are carefully looked after by the Rev. Roger Williams, Rector of Llanedy, and Mr. John Jones, of Tyncoed. The Rev. Ebenezer Morgan, Vicar of Ystradffynn Llandovery, has obtained situations for several boys in his district, and watches carefully over their welfare. Several lads have settled down, and made South Wales their permanent home.

Emigrants.

Thirty-seven boys have emigrated. These lads have not been confided to a Government functionary, but are sent to, and cared for by, the Rev. Canon Worrell, who

obtains good situations for them; and he, too, like the Welsh clergy, watches over their spiritual welfare.

Visits of discharged Boys.

Two hundred and twenty-two visits have been made to the School by discharged boys, several of whom are doing extremely well in the world. It was gratifying to see these lads on bank-holidays, looking respectable, and enjoying a good game of cricket or football with their old school-fellows. These lads have formed themselves into a club, which they call the "Endeavour Club," and they associate in London for practice of cricket or foot-ball. On the other hand, some of those who have visited us were in a wretched state of destitution and misery. These boys have either refused all offers of provision on leaving the School, or had been induced by foolish parents to give up the situations found for them by the School authorities. Many of these were sent to Yarmouth to enter the fishing smack service, where they often remain and do very well, earning good wages.

Boys Discharged during the Years 1882, 1883, 1884.

Boys discharged during the years 1882-3-4.

During the three years 1882-3-4, 586 boys have been finally discharged from the School. Of these 1 was committed to prison, 8 were transferred to other schools, and 3 died in the School. There is therefore left a total of 574 to be reported on. We have found that 34 have been re-convicted of crime; of these, we find by a reference to Table X, 15, or nearly half, went back to their friends and old haunts and associates; 9 had been sent to sea, 5 to service; these 14 were all induced to return to their homes when their time in the School had expired. The probabilities are, that had their friends never

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

interfered with them, they would have been classed as doing well. Consequently it is not a difficult matter to trace the cause of a boy's downfall. Year after year have the Superintendent and myself had to complain of this parental interference. They come and tell us that they have good situations for their children, that a "gentleman" is going to take the boy into his service; when, on inquiry, the "*gentleman*" either turns out to be a costermonger, or a myth altogether; the good situation proves only to be an errand boy's place, from which the lad is soon discharged on applying for a rise in his wages. I have selected one or two cases from the Visiting Officer's journal, and from letters, showing how many a lad fares after being induced to return home. The selections made are only a few out of a great many.

No. 2881. Returned to his brother, writes as follows:—

"I am very sorry to tell you that my brother has turned me out of home because I cannot get work. I asked my father to take me home, and he would not without I had work. I was out all night since Monday. I slept on my brother's stairs every night this week, and I managed to get a bit of food off my sister; she told me she could not afford to keep me, as her husband was out of work; so I do not know what to do."

No. 2842. Sent to Wales. Had an excellent situation found for him in a clergyman's family, but threw it up at his mother's instigation on the very day his time in the School expired, and was afterwards found by the Visiting Officer hawking sweets in the streets.

No. 1891. Came to the School perfectly destitute, having been induced by his father to leave a good situation in Wales, who afterwards turned him out of house and home.

No. 2762. Induced by mother to leave Wales, where he had a good situation, to earn a miserable pittance at home, and when the mother was remonstrated with, replied, "What is the use of children if you do not get something out of them?"

No. 2813. The father, half-starved and in rags, got the boy home from Wales to live with him in Short's Gardens, Drury Lane.

No. 2823. Left a good situation in Wales, and had not been home any length of time, when his father threatened to turn him out unless he could earn more than 10*s.* per week.

Such are a few, of a very large number of instances, of the effects of parental interference, being the result, not of parental love, but of selfishness and greed. The 34 classed as re-convicted are distributed as follows:—

To employment or service	6
Placed under care of friends	16
Emigrated	1
Sent to sea or Royal Navy	9
Enlisted	2
	34

During the same period 5 are reported as being unknown, but of these we have some information. One was traced to New York, where we last heard that he was seriously ill in Boys unknown.

c

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

one of the hospitals. The probabilities are that he is dead. Another left his ship at San Francisco, and his friends heard no more of him. He is probably in a coasting ship. Another was wrecked, but was safely landed abroad, but of him we could get no further hearing. Another was a boy who left his situation in Wales, but did not return home; he is most likely working in one of the many mines in South Wales. One went abroad with his parents, and we heard nothing more of him; and one returned from Canada.

Boys doing well.

We are enabled to report that no less a number than 521 are doing well. These are distributed as follows:—

To employment or service	122
Placed under care of friends	131
Emigrated	62
Sent to sea or entered Royal Navy ..	134
Enlisted	65
Discharged on account of disease	7
	521

By the above it will be seen that out of the 521 "doing well," 383 have been provided for by the School authorities. Comparing this number with the number of those re-convicted, and also tracing the cause of those re-convictions, it is indeed a matter of the deepest regret to all who are interested in the welfare of the young, who are classed as juvenile offenders, that some law cannot be made which would check the interference of worthless parents.

In making up the tables appended to this report, I am greatly indebted to the energy and assiduity of Mr. Humphries, the Visiting Officer, who does his work most efficiently.

The following statistics give a comparison of the past five years.

Discharged from the School during the years 1880, 1881, 1882:— Percentage.

Since dead	1·9 per cent.
Doing well	86·8 „
Doubtful	2·2 „
Re-convicted	7·7 „
Unknown	1·4 „
	100·0

Discharged during the years 1881, 1882, 1883:—

Since dead	1·5 per cent.
Doing well	89·6 „
Doubtful	1·7 „
Re-convicted	6·7 „
Unknown	1·1 „
	100·0

Discharged during the years 1882, 1883, 1884:—

Since dead	1·6 per cent.
Doing well	90·7 „
Doubtful	0·9 „
Re-convicted	5·9 „
Unknown	0·9 „
	100·0

It will be seen that the re-convictions have dropped from 7·7 to 5·9, being a decrease of 1·8, while those doing well have risen from 86·8 to 90·7, an increase of 3·9. I attribute this decrease in the re-convictions, and the increase in those doing well, in a great measure to our having a Visiting

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

KODAK SAFET

Officer, who is nearly every day in London, and who, if he finds a boy likely to go wrong, brings him to the notice of the Superintendent, who often succeeds in inducing the boy to take to the fishing smack service. The number of those doing well, 90·7, is the highest percentage ever attained.

Conclusion. In conclusion, I trust, Mr. Chairman and Gentlemen, that the work of your Chaplain has been carried out to your satisfaction, and to the spiritual and temporal benefit of the boys placed under my charge. I have been most cordially assisted and supported by your Superintendent, Captain Brookes, without whose generous assistance my work here would be much more difficult to carry out. I would also most gratefully tender to every member of the Committee of Visitors, my sincere thanks for the kindness and consideration shown towards me during the past year, and I trust also that this report, together with the tables appended thereto, will meet with your entire approbation.

I have the honour to be,
MR. CHAIRMAN AND GENTLEMEN,
Your obedient Servant,
WILLIAM ANTHONY NEWTON, M.A.,
Chaplain.

January 25th, 1886.

P.S.—Since writing the above report, it is with the deepest regret that I have to add that we have received the mournful intelligence of the death of F. H. N. Glossop, Esq., the highly respected Chairman of the Committee of this School. The late lamented Chairman had, by his kindness and consideration, made himself beloved by all in this School, and every officer and boy has lost a kind friend and generous patron.

W. A. N.

ANNUAL REPORT OF MEDICAL OFFICER.

To the Visiting Justices of the Middlesex Industrial School, Feltham.

MR. CHAIRMAN AND GENTLEMEN,

In submitting to you my Annual Report of the health and condition of the inmates of the School, it gives me much pleasure to be able to furnish you with so satisfactory a one.

The School has been, during the year ending December 31st, 1885, entirely free from any epidemic disease.

The water supply is good, and, according to the last analysis, quite free from any impurities.

The drainage also is in perfect working order.

There have been the usual diseases, the principal of which I give a list below:—

Bronchitis	6
Pneumonia (1 died)	6
Whooping Cough	1

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)
PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Tonsillitis	12
Jaundice	2
Hernia (supplied with truss)	7
Ophthalmia (mild)	5
Urticaria	8
Shingles	3
Itch	5
Concussion of Brain (caused by sliding down bannister of Section stairs)	1
Fracture (collar bone)	1
Dislocation (elbow)	1
Inflamed Knees	10
Operation for Squint (all did well)	5
Skin diseases	33
Re-vaccinations	64

I am sorry to report two deaths during the year. No. 3004, Frederick Oakley Pike, died May 3rd, 1885, of pneumonia. No. 2946 F, Henry Riches, was killed December 9th, 1885, by falling from the foretop of the brig.

About the middle of December several cases of ringworm appeared in the School. The whole of the boys were carefully examined, and all cases at once removed to the West House and put under treatment. I trust soon to stamp it out.

I am pleased to report that Mr. Goldsmith has performed his duties as Infirmary Officer entirely to my satisfaction, also Nurse Mrs. Everard and Mrs. Goldsmith. I avail myself of this opportunity of thanking them all for the

care and attention they have paid to those under their charge.

I will now only add my thanks to you, Gentlemen, for your uniform kindness to myself, and beg to subscribe myself,

MR. CHAIRMAN AND GENTLEMEN,

Your obedient Servant,

EDW. KINGSFORD, F.R.C.S.,

Medical Officer.

TABLE IV.

Standards of Examination, 1885–86.

SUBJECT.	STANDARD I.	STANDARD II.	STANDARD III.	STANDARD IV.	STANDARD V.	STANDARD VI.
Holy Scripture and Religious Knowledge.	**In accordance with the Syllabus laid down by the London Diocesan Board of Education.** N.B.—On all Festivals, and also during Holy Week, each Standard is to be specially instructed in the events the day commemorates.					
Reading (including History).	To read a short paragraph from a book not confined to words of one syllable.	To read a short paragraph from an elementary reading book.	To read a short paragraph from a more advanced reading book, or from stories from English History.	To read a few lines from a Reader or from a History of England.	To read a passage from a Standard Author or History of England.	To read a passage from one of Shakespeare's plays or from some other Standard Author, or from a History of England.
	N.B.—Two sets of books should be in use for Standards I and II, and three sets for Standards above, one of which three shall relate to English History.					
Writing (including Dictation).	Copy in manuscript character a line of print, and write from dictation not more than 10 easy words commencing with Capital Letters. Copy books (large or half-text hand) to be shown.	A passage of not more than 6 lines from the same book, slowly read once, and then dictated word by word. Copy books (large or half-text) to be shown.	Six lines from one of the reading books of the Standard slowly read once and then dictated. Copy books to be shown (small hand, capital letters, and figures).	Eight lines of poetry or prose slowly read once from a reading book and then dictated. Copy books to be shown.	Writing from memory the substance of a short story read out twice; spelling, grammar, and handwriting to be considered. Copy books to be shown.	A short theme or letter; the composition, spelling, grammar, and handwriting to be considered. Copy books to be shown.
	N.B.—An exercise in dictation may, at the discretion of the Chaplain, be substituted for Composition.					
Arithmetic	Notation and numeration up to 1,000. Simple addition and subtraction of numbers of not more than three figures, and the multiplication table, to 6 times 12. Not more than 5 lines to be given in addition sums.	Notation and numeration to 100,000. The four simple rules to short division (inclusive). Multiplication table and pence table to 12 shillings.	The former rules with long division and compound addition and subtraction (money.)	Compound rules (money) and reduction (common weights and measures).	Practice, bills of parcels, and single rule of three by the method of unity. Addition and subtraction of proper fractions with denominators not exceeding 10.	Vulgar and decimal fractions. Simple and compound proportion and simple interest.
	N.B.—The Weights and Measures taught should be only such as are really useful, such as Avoirdupois, Long Measure, Liquid Measure, Time Table, Square and Cubical Measure, and any measures which are connected with the industrial occupation of the section.					
Geography.	To explain the plan of the School and play ground. The four cardinal points. The meaning and use of a map.	The size and shape of the world. Geographical terms simply explained and illustrated by reference to the map of England. Physical geography of hills and rivers.	Physical and political geography of England, with special knowledge of the district in which the school is situated.	Physical and political geography of the British Isles, British North America and Australasia, with knowledge of their productions.	Geography of Europe, physical and political. Latitude and longitude. Day and night. The seasons.	Geography of the world generally, and especially of the British colonies and dependencies. Interchange of productions. Circumstances which determine climate.
	N.B.—In Standards V. and VI. maps and diagrams may be required to illustrate the answers given.

DEPARTMENT OF INDIAN AFFAIRS
OCT 7
1890

File with papers in re Mohawk Institution

Oct 7/90

D. Cankoughnet Esqr.,
Deputy Superintendent General
of Indian Affairs, Ottawa.

Dear Sir:—

In reply to your request for information as to the per capita cost to the New England Company for the maintenance of the Mohawk Institution and the instruction of the pupils thereat for the fiscal year ended 30th June last.

The fiscal year of the Institution ends on the 31st December at which date all accounts are balanced.

For the year ended December 31st 1889, the average number of pupils boarded and clothed was ninety-one, and the cost per head calculated upon the net cash outlay for maintenance, including the cost of the industrial departments, was $79.53. This amount is above the average of the last ten years owing to an unusually large depreciation in the returns from farm products. In this calculation is included all expenses saving only special grants for new or additional buildings.

I send you by this post for your information a copy of the report on the Middlesex Industrial School, Feltham, England, for the year 1886. On pages ~~58, and 59,~~ 58, and 61 are the forms in which the accounts of this institution are kept in order to agree with the mode of submitting public accounts in England.

I have the honour to be
Dear Sir,
Your obedient Servant
R. [illegible]

Oct 23/90

T. Vankoughnet Esq
Deputy Supt. General of Indian Affairs
Ottawa, Canada

Dear Sir,

I beg to acknowledge the receipt of your two letters of the 9th Sept. last in reply to my communication of the 15th Aug. in which I was instructed to renew the New England Company's application for a capitation grant to the Mohawk Institution.

On the 1st inst. the Company had the honour of an interview with the Superintendent General of Indian Affairs when he very favourably noticed the statement laid before him of the work carried on at the Mohawk Institution for a long series of years without any assistance from Grants of public money at any time, and was evidently impressed with its great value to the Indian youth within the range of its influence, and very kindly promised to use his interest with the

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

Dominion Government in support of the Company's application and advised a further communication being addressed to you stating the nature and amount of the assistance which the Company would desire to receive.

I have accordingly been instructed to request you to lay before the Dominion Government the application of the Company that a capitation grant of sixty dollars per annum may be made to the Company for every Indian child maintained, clothed, and educated in the Mohawk Institution, and to express the earnest hope that in consideration of the facts mentioned in my two previous letters on the subject, and especially of the serious diminution of the Company's income of late the causes therein stated, the Government may be pleased to entertain favourably this application on behalf of the Indian race. The Company will be further favoured by as early a consideration of their application as may be practicable.

I am dear Sir,
Your obedient servant
Walter A. Fleming
Clerk of the Company.

Ottawa 4th Nov. 1890

1891-1892

Memorandum –

With reference to the application made by the New England Co., by letter of the 15th Aug. last, for a subsidy to be granted by the Government towards the Mohawk Institution at Brantford, the undersigned begs to report that up to the present time the New England Co. has supported this Institution at its own cost, and it has been in operation longer than any other Indian Industrial school in the Dominion.

It is stated in the letter from the Company's

To the Hon E. Dewdney Supt Genl of Ind. Affrs

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Secretary, above referred to, that the Company now find themselves somewhat crippled in resources owing to various circumstances described therein, and that they are, therefore, compelled to make application to the Dep't for a subsidy in aid of this Institution.

Upon referring to the Superintendent of the School for information in regard to the per capita cost for maintenance of the same and the instruction of the pupils thereat, that gentleman has replied stating that the average number of pupils boarded and clothed for the year ended 31st Dec. 1889 was 91, and that the cost per capita, calculated upon the net cash outlay for maintenance, including the cost of the industrial

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

departments, was $79.53. In this calculation, he says, is included all expenses except special grants for new or additional buildings. As showing the manner in which the accounts of the Institution are kept, the Superintendent forwarded a copy of a report on the Middlesex Industrial School, Feltham, England, for the year 1886; and he remarks that the form in which the accounts of the Mohawk Institution are kept agrees with the mode of submitting public accounts in England.

It will be observed, on reference to a letter from the Clerk of the New England Co., dated the 15th ult., on the same subject, that the New England Co. ask for a capitation grant from the Government of $60

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

per annum for every Indian child maintained, clothed and educated in the Mohawk Institution.

In connection with the foregoing the undersigned begs to report that he considers that the New England Co. have certainly merited, by their long associated support of this Institution for the benefit exclusively of Indian children, the assistance now asked for by them, which, as shown above, is not as much as will be annually expended by the Company on account of the Institution by $19.53 per capita. He, therefore, respectfully recommends that an amount to cover the aggregate sum required at $60 a head, which for 91 pupils would be $5,460, be inserted

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

DEPARTMENT OF INDIAN AFFAIRS
DEC 3
1890

Deputy Superintendent General of
Indian Affairs, Ottawa.

Dear Sir

Your letter of the 17th Nov. was duly received, and in reply I beg to express my regret for the irregularity of which I have been guilty in presenting my requisitions for grants towards the "Students' Fund."

On making my application in 1885, for a grant of twenty-five dollars per annum for ten students at the Collegiate Institution, I was very sanguine of the appreciation of the Indians of the great privilege afforded them through the liberality of the Indian Department, in establishing these scholarships for affording a higher education than the Mohawk Institution could offer.

I have been disappointed through the inherent lack of persistent application in the race I desired to benefit, and by the pressing demand to supply teachers for Indian day schools.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

111596

Consequently the attendance of students at the Collegiate Institution has been very irregular.

The Grant of 1885 left a surplus in my hands of ninety-four dollars and seventy-three cents, my second application in 1887 was based on the estimate, that the students then attending would continue their course, this expectation was not realized and a balance of thirteen dollars and twenty-eight cents remained in my hands.

At the end of the year 1888, the amount I had expended beyond the balance referred to above, was forty-nine dollars and thirty-one cents, for which, the sum being so small, I deferred making an application for a grant. During 1889 there was no student attending the Collegiate Institution but for the half-year ending 30th June last, there has been, and in future I hope to have more students in regular attendance, as six will write at the approaching examination.

As the "New England Company" from want of funds, makes no appropriation for the expenses of the students attending the Collegiate Institution, beyond the cost of their board and clothing, I have advanced the amount expended from my private resources,

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

111596

and trust that the Department will again place such an amount in the estimates, as will cover my past expenditure and also provide for the charges to 30 June 1891 – say, one hundred and twenty-five dollars, in all.

I am

Your obedient Servant

R. Ashton

DEPARTMENT OF INDIAN AFFAIRS
MAR 1892

Dear Sir,

I enclose you a statement of account in detail showing the names of the students on whose behalf I have expended the estimated vote for students attending the Collegiate Institute.

There are various causes preventing an accurate estimate of the amount required each year. the foremost of which are

a. The uncertain period of attendance.

b. The cost of text-books, as on each promotion to a higher form the student requires an additional supply of books.

If owing to the above the Department experiences a difficulty in inserting an amount in the estimates for each year I can ask the New England Company to bear the whole cost of students attending the Collegiate Institute, though of course I cannot say that they will concur

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

RETURN — TO — SCHOOL BRANCH

THIS LETTER HAS BEEN SENT

OTTAWA 19th October 1894

Sir,

I have to acknowledge the receipt of your letter of the 13th instant enclosing the September Quarter Return from the Mohawk Institute, together with a Requisition for the Grant earned by that Institution, amounting to $1365. In reply I beg to say that on checking over the Return the amount earned is found to be $1306,-the difference being accounted for by the Principal having allowed payment for the 91 pupils at the Institution who had been there full time (92 days), irrespective of the date they entered the school, and allowing nothing for pupils who had been there part of the ~~xxxx~~ term only, although the latter were the older pupils of the Institution. The rule of the Department is that payment shall be made for those pupils longest in attendance up to the number authorized. A Cheque for $1306 has been sent you for the Institute.

Your obedient servant,

Acting Deputy Supt:Genl:
of Indian Affairs.

THIS LETTER HAS BEEN SENT

OTTAWA 2nd November 1894

Rev.Sir

I have the honor to infom you that the Department has received a letter from Mr Supt: Cameron Brantford, returning the Cheque drawn in your favor for the grant earned by the Mohawk Institute for Sept: Quarter last. As there exists some doubt as to whether you were made aware of the policy of the Department as to the method of payment to be pursued, the Department has caused to be issued a cheque upon the old lines, and no change shall be made for the current quarter, but after that date (Dec. 3Ist) the Department would like the following Regulations, which apply to all our Insudtrial Schools throughout the Dominion and which are found to work sa isfactorily, to be applied to your Institution:-

Ist. The grant is paid quarterly upon receipt of the Quarterly School Return for the amount earned as shown by the Return for the number of pupils authorized, calculated upon the scale approved by the Department, a copy of which is enclosed herewith, such grant being paid for each individual pupil on the roll in chronological order and not on the average attendance or the earnings of any other pupils than the authorized number, in the case of your Institute, 9I pupils, who have been longest on the roll,- the Quarterly Return

Rev. R.Ashton,
Principal Mohawk Institute
Brantford, Ont.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Return being transmitted to the Department through the hands of its local officer, who must certify to its correctness and make requisition for the amount due.

2nd. Children attending Industrial Schools for short periods receive only slight benefits in comparison with the outlay expended upon them and it is only after continuous residence and training for a lengthened period that lasting results can be looked for, and for this reason the consent of the Department is required to be obtained before the discharge of a pupil can be authorized, and no unauthorized discharges can be recognized, except under exceptional circumstances full particulars of which should be communicated to the Department.

Under the amendment to the Indian Act passed last session, a copy of which also is enclosed, provision is made for the framing of regulations to secure the compulsory attendance of children at school and for the placing of Indian children in Industrial or Boarding Schools. Such Regulations are now being prepared and when passed by Council a copy will be sent you. The new law when put in force will put a stop to the unauthorized removal by parents or guardians of children from such schools. Where possible to obtain an Agreement one should be signed by the parent or guardian of all applicants for admission to Industrial Schools consenting to allow such pupils to remain in such Institutions for such time as the Department deems necessary, and that the Principal of such Institution shall for the time being be the guardian of such child.

3rd. In

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

ARCHIVES PUBLIQUES
CANADA

3rd. In the majority of cases such applicant is examined to see if he or she is in a fit state of health to attend such school,-this precaution is necessary to prevent the introduction of contagious diseases into these schools and the forced early discharge of the pupil owing to sickness.

4th .A Monthly Return of Admissions and Discharges is required by the Department and when an authorized discharge takes place at any time during a quarter, the vacancy caused by such discharge or by death may be filled at once from one of the pupils not provided for by the Department, where such a surplus exists or by the admission of a new pupil. The amount earned by the discharged pupil for the number of days to which he or she is entitled is to be entered in the column for that purpose in the Return and a Memo. in the column for Remarks made, giving the authority for the discharge and the number of the pupil who is to succeed such discharged pupil,- and the earnings of the new pupil should be calculated from the date of his or her being placed on the list of those entitled to the grant, but in no case can the Department pay more than the amount which one pupil could earn for the full.time.

5th. A number should be assigned to each pupil when entered on the books of the Institution, numbering from I upwards in the case of the boys and from OI for the girls,- such numbers to be used on all occasions when a pupil is referred to as well as the pupil's name, and a number once given to a pupil should not be changed or used for any other

pupil

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

pupil. When a pupil leaves the Institution his or her number should be dropped and the next number to the last one on the Register should be placed opposite the name of the new pupil.

6th. A Monthly Report from the Principal is also to be forwarded to the Department and a Monthly Return of Trade Instruction (where trades are taught) is also called for.

7th. The Department also requires that every facility be afforded its authorized officers for the inspection of the schools, buildings, pupils, diet, clothing etc.

I may add that the Department has no desire to impose unnecessary restriction or labor upon the heads of any of our Institutions, but in view of the large amount of money that is being expended upon Indian education throughout the Dominion, and especially in connection with their Industrial training, I have to request your co-operation, so that these Regulations may be complied with. The folowing forms of Return called for under the Regulations are enclosed herewith:-

Monthly Return of Admissions and Discharges

Applications for Admission

Certificate of Di scharge

Monthly Return of Trade Instruction (a separate form to be used for each trade taught)

Return of Stores, Stock etc. in use and remaining on hand at the close of the fiscal year (required annually)

Return showing Status of Discharged pupils to be sent in with the Principal's Annual Report.

AUG 9 1890

Mohawk Institution.

INDIAN INDUSTRIAL AND NORMAL INSTITUTION,

BRANTFORD, ONTARIO.

ESTABLISHED 1830.

PROPRIETORS—The New England Company, London, England.

SUPERINTENDENT—The Rev. ROBERT ASHTON, Brantford, Canada.

This Institution is maintained and managed solely by the New England Company, and is established for the purposes of civilizing the Indians and advancing the Christian Religion among them, and imparting a good education, combined with all kinds of useful industrial training, to the youth of both sexes.

Pupils are boarded, educated and clothed free of charge. Those who are fitted, if desirous, may be apprenticed to various trades or be trained for teachers of Indian schools.

Candidates for admission must be between the ages of 11 and 16 years and able to read in the Second Reader, and work the simple rules in Arithmetic.

Orphans, destitute or neglected children of over 9 years of age may be admitted without passing the examination. But in such cases an agreement must be signed by the legal guardian, chief of the band, or an agent of the Indian Department, that the child shall remain in the Institution until it is 16 years of age.

N. B.—**No new pupils are admitted for less than two years continuous residence.** At the end of that period, they will, or may return home, but will be eligible for re-admission for not less than one year, provided that application for re-admission be made within ~~fifty days~~ 30 days.

Pupils are at liberty to write to or receive letters from their relations and friends as often as they wish, but in order to guard against improper correspondence, all communications must be addressed to the care of the Superintendent, who will open and peruse the same should he deem it advisable. **Communications in Indian are not allowed.**

Pupils may receive visits from relatives once a month—on Saturdays, between the hours of 10 a m. and 4 p.m.

APPLICATION FOR ADMISSION.

The person recommending a candidate is requested to answer the following questions, and send this form in at once, as applications are considered in order of receipt:

Name of candidate ? Evaline Anderson ... Age on last birthday ? 11

Name of tribe or band ? Rice Lake Band

Name and Post Office address of guardian ? Robert Pandush, Hiawatha, Ont

Name of parents living ? both dead

Name of step-parent ? —

What school attended, and how long ? Indian School, Hiawatha, four or five years.

In what book is he or she reading ? Third ... Does the candidate bear a good character ? Yes.

Is the candidate healthy, intelligent, and physically fitted for industrial training ? Yes

Signature of person recommending Edwin Annis
Indian agent

I am not positive as to the age 13.5.90 Acting Deputy Superintendent Indian Affairs

Hayter Reed Esq
Deputy Supt Genl Indian Affairs
Ottawa

Dear Sir

I have the honour to acknowledge the receipt of your communication No 154845/1 dated Nov 2nd 1894 (through illness I have been unable to do so earlier) and to thank you for your consideration in extending the time for the full operation of the Department's regulations respecting the payment of the capitation grant for Indian pupils attending the Mohawk Institution.

I have forwarded a copy of your letter and accompanying forms, etc, to the New England Company, some time must elapse before I can receive their instructions

In the meantime I may venture to point out what under the Company's present regulations presents a difficulty in completely following the line of your instructions

This institution was founded in 1830 as a Manual Labour School, subsequently the ordinary school branches were added and several day schools were maintained amongst the Indians. In 1872 the regulations for admission were modified and candidates were required to pass an entrance examination.

In 1890 I prevailed upon the New England Company to permit me to admit (subject to their approval) orphan and destitute children without [illegible]

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

156471

in the institution until 16 years of age.

I enclose herewith the form of agreement now in use, and the first agreement of the kind bearing the approval of the then acting Deputy Sup^t General. From these it will appear that two classes of children are received.

Class I comprises those to whom admission is in a measure a reward for their diligence at the day school and who from age or advanced attainments are desirous of continuing the education they could no longer obtain on the Reserve. It also embraces a large number of girls over 15 years of age who would no longer attend the day schools but to whom the domestic training of the Institution is of the highest advantage.

Class II is composed of neglected and destitute children who need just such provision in their behalf as the Department proposes to provide.

With this class it will not be difficult to carry out the wishes of the Department but at present they are the juniors in the school and as regards numbers, the minority.

Regarding pupils from class I I cannot see how I can, at present, set aside the conditions of their admission, accepted in good faith, and prevent their going home at the termination of the two years for which they were originally admitted, and from year to year as they complete the periods of their re-admission (see rule N.B.). This

Faults should be kept & Dept's regulations to apply to such

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

156471

Institute, others preparing for the Entrance examination and some training as teachers.

The parents of such pupils are amongst the most advanced Indians who have learnt the value of education but who will not be willing to allow their children to enter for an indefinite period.

We grant no holidays but the pupils from class I referred to above, go home when they have completed two years residence, and thence after one year from the date of their return, they retain the same register number through the whole course of their attendance and this it seems will prevent us from earning the full amount of the grant for 91 pupils even though we had 100 in attendance because their names will appear as those longest in the school — this however could be obviated if on their re-admission they were entered as new pupils and received a new register number; but this I understand to be contrary to the spirit of your instructions.

If permission granted to do so will cancel

I beg to enquire whether it is not intended that the Annual Report on discharged pupils should have a time limit otherwise taking the period during which this Institution has been under my management 22 years, my report would embrace nearly 700 persons which would be a very formidable list. I presume however that my report on discharged pupils will be limited to those who have received government aid.

To take pupils discharged 3 yrs

THIS LETTER HAS BEEN SENT

OTTAWA 7th December 1894

Rev. Sir,

I have the honor to acknowledge the receipt of your letter of the 28th ultimo in regard to the Departmental Regulations respecting Industrial Schools; and in reply I beg to say that the Regulations re admission of pupils from Class I to which you refer (now in existence) need not apply to your school as the Department wishes all conditions made in good faith with parents or guardians of pupils to be kept. Pupils who go home after the completion of the time agreed upon may be replaced, so that the full grant for 91 pupils may be earned, if permission is given by the Department.

The Department would like to have the Return showing the Status of Discharged pupils made out for three years prior to the date of your Annual Report to embrace all pupils discharged during that period. It is thought this will not entail too much labor and at the same time afford much useful information.

Your obedient servant,

Rev. R. Ashton,
Principal, Mohawk
Industrial School

March 18th, 1896.

Hayter Reed, Esq.,
Deputy Minister of Indian Affairs,
Ottawa.

Sir,—

I beg to request that you will inform me how I can compel the fulfilment of the agreements upon which pupils are admitted to this Institution.

At the present moment we have three boys away (absconded). Their friends have returned the school clothes. I issued warrants for two but the acting Crown Attorney here doubts if proceedings can be taken upon a charge of stealing the clothing in which the boys absconded, and the County Judge is absent.

He has submitted the question to the Minister of Justice who has transferred it to the Minister of the Interior. It may therefore be brought to your notice.

Hitherto I have issued warrants for those boys whose parents would not hand them over to my officers. they have been taken before the judge, convicted, but at my request sentence has been suspended.

I enclose copy of Rules for Admission and Memorandum of Agreement.

All three boys now away, Robert Cusick, Jacob Winnie, Jesse White, were specially admitted under an agreement to remain here until sixteen years of age. They have not attained that age yet. For the two former I do not appear to have any written agreements. They were brought to me by persons other than the legal guardian but with whom they are now staying. For the latter I have a written agreement signed by the father.

If there is no legal power of enforcing these Agreements I trust that some steps may be taken to create that power otherwise the usefulness of the Institution will be greatly impaired.

I have the honour to be

Mar. 17th, 1896.

The Honorable the Minister of Justice.

Ottawa. Ont.

Dear Sir;--

I have been consulted by the Rev. Robert Ashton, Principal of the Indian Institute near here, in regard to numbers of cases which arise in connection with the management of this institution. It is, as you no doubt are aware, a large school supported by the New England Company for the benefit of young Indian boys and girls. Very frequently Mr. Ashton finds great difficulties in matters of discipline, and the boys sometimes run away from the institution. In many cases Mr. Ashton has had to charge these lads with stealing the clothing which is furnished by the Institution for the lads. It is a question of course whether the charge of stealing would be tenable, as no doubt the boys run away perhaps not with any intention of committing a criminal offence.

Mr. Ashton desired me to write you asking as to whether some amendment might not be made to the Statutes, providing for the arrest and detention of these lads, in order that proper discipline might be enforced. Of course without such provision it would be impossible for the Institution to be efficiently carried on. There is always the right of expulsion, but with this class of lads some other mode of punishment must be enforcable to effectually carry on the work.

Yours very truly,

Hardy, Wilkes & Hardy

THIS LETTER HAS BEEN SENT

My dear Colleague,-

Adverting to your note of the 18th, which I acknowledged on the 19th instant, and to the letter from Mr. Alfred J. Wilkes, Q.C., which you transmitted, I find that there is really no need of amending the Indian Act in order to meet the cases mentioned by Mr. Wilkes, as they can be dealt with under Sec. 12 of the Regulations relating to the education of Indian children, which were made by Order in Council of the 10th Nov., 1894, and amended, in so far as the said Section is concerned, by Order in Council of the 1st April, 1895.

As you informed Mr. Wilkes that you had transferred his letter to this Department, I am having him written to direct by the Department of Indian Affairs in the matter.

Yours very truly,

Hon. A. R. Dickey,
Minister of Justice,
Ottawa.

Indian Office

[illegible]

Sir,

The Rev. R. Ashton, Principal Methodist Institute here, complains that some pupils have left the Institute without permission and returning to their homes on the reserve, and applies to me to enforce sec. [illegible] Regulations respecting the Compulsory attendance of Indian children, as enacted by order in Council of 1st. April 1895; which you informed him by letter under date 24th. inst, No. [illegible], the time this section comes provision to operate.

I understand that these Regulations are to be put in force by any agent only when authorized by the Department of Indian Affairs.

I do not consider it advisable at the present time to enforce these regulations on this Reserve, but I think it most important that they should apply to the Schools here. I therefore beg to ask that I be supplied such authority as I could apply it to any pupil attending this Institute no matter if they are from this or any other reserve, so long as they leave this Institute without the required permission.

I am, Sir,

Your obedient Servant,

MEMO. D.M.

As to Supt Cameron's question 9 wd. say that the presumption is that all children in the schools mentioned in Sec 8 of the regulations are Indian children; and the intention was that, under Sec 12, as amended, any child in any of those schools owned, on leaving without permission, be brought back and placed in such school without trial, but simply on a warrant issued on information to the effect being made as specified in the Sec. It seems to me that the section is so worded as to clearly bear out that intention. If the parents or parent, or guardians of a child who had left a school wanted to keep such child, the onus would be upon them to take proceedings under the ordinary law for the recovery of the child and thus bring the case to trial.

EXAMINED
SCHOOL BRANCH
THIS LETTER HAS BEEN SENT

Sir,

I have your letter of the 21st instant making certain enquiries as to the regulations relating to the education of Indian children; and in reply I beg to inform you that as the regulations are made under the Indian Act they of course apply only to Indian children. The presumption, however, is that all children in the schools mentioned ~~in Sec. 8~~ in Sec. 8 of the regulations are Indian children. As to your enquiry as to whether before a child who has left any such school without permission can be replaced there, it is necessary that the child should be given a trial, I would ~~say~~ say that the intention was that under Sec. 13 of the regulations as re-enacted by the Order in Council of the 1st April, 1895, any child could on leaving without permission any school mentioned in Sec. 8 be brought back and placed in such school without trial, but simply on a warrant issued on information to the effect being made as specified in Sec. 13. It seems to me that the Section is so worded as to clearly bear out that intention. If the parent, or parents guardians of ~~the~~ a child who left ~~the~~ such school wanted to keep such child, the onus would be upon them to take proceedings under the ordinary law for the recovery of the child, and thus bring the case to trial. Although, as I have already stated, the regulations apply only to Indian children, if it should happen that a child not of Indian blood should leave a school ~~after being~~ and be replaced therein on a warrnt issued by you, I think the onus would be upon the parents or guardians of such child, if they wished to have it taken from the institution, of proving that the child was not of Indian blood

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

THIS LETTER HAS BEEN SENT OTTAWA 9th February 1897

Rev:Sir,

Louis Jackson,father of Mary Jackson,pupil No:0244 of your school has called at the Department to make enquiries about his daughter. I see by the Return for September Quarter last that she was placed in service in September last. I should be glad to learn how the girl is getting on and any particulars you can furnish regarding her so that I can communicate with her father,who is anxious about her welfare

Your obedient servant,

Deputy Supt :Genl:
of Indian Affairs:-

Dear Sir

In reply to your request for information respecting Mary Jackson, I beg to say that she is at present employed in taking charge of the furnaces at this institution, for which she is paid five dollars a month. At the same time she is receiving an advanced course of instruction in cooking.

She was apprenticed for two years to learn dressmaking, but although being an excellent needlewoman she lacked ability to acquire such knowledge of the business as would insure her being able to earn a living by it.

Your obedient servant

NEW ENGLAND COMPANY,

HATTON GARDEN, HOLBORN.

Wednesday, 1st October, 1902,

11.30 A.M.

CORRESPONDENCE.

59.—Rev. R. ASHTON's *Journal and Report for July and August*, 1902.

[Received 20th September.]

MOHAWK INSTITUTION:

September 8, 1902.

July 1. Dominion Day. General holiday. Working at Government quarterly returns.

July 3–5. Continued Government returns.

July 7. Paying accounts. No electric light to-night, lightning struck transformer.

July 8. Directed work until 10 A.M., then made up School Board accounts to June 30.

July 9. Writing report for May and June.

July 10. Entering up quarterly accounts.

July 12. Attended meeting of the School Board at 10.30

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

to 12.30. A number of the parents took their children out to see a circus.

July 14. Directing work, and fitted boys in their new uniform.

July 15. Commenced harvest; one binder cutting wheat, another rye.

July 16. No school to-day, teachers taking stock of clothing, school materials, &c.

July 17. Summer holidays commenced—no school; working divisions as usual so that each child plays half the day.

July 18. Directing harvest work. P.M. Received Government cheques for Institution and School Board, and paid the same into Bank.

July 19. Wet day—no harvest work. Beulah Styres, Minnie Maracle, and Edith Monture successfully passed the examination for entrance to the Collegiate Institute; and Lillie Martin, though failing a few marks, has been recommended for a "pass."

July 20. Wet day. Conducted Divine Service at the Institution.

July 22. Posted vouchers. Received notice from the Board of Health to deepen a creek that runs through the Glebe within twenty days, the said notice was dated the 16th. Several heavy thunder showers.

July 23. Directed work and inspected the Glebe creek and crops—the wheat is growing in the shocks. P.M. Heavy electric storms, transformer again burnt out.

July 24. Mr. Cameron, Indian Superintendent, came to make enquiries about certain children from Cape Croker whose parents wanted them discharged and had, as usual in such cases, made many lying statements. I may add that after full inquiry the Department of Indian Affairs fully sustained my contentions that these children should not be discharged. Commenced Annual Report for the Indian Department.

July 25. Sent Surveyor Fair to examine the Glebe creek and to report on its condition. Re-arranging insurance policy, as I have converted what was formerly a store into a carpenter's shop.

Continued Annual Report as above, and commenced drawing in wheat.

July 28. Directing work. Completed Government Annual Report.

July 29. Went to surveyor and the Cockshutt Plow Co. as to delay in sending description for conveyances; then to my solicitor, and instructed him to write to the City Council and show that the Board of Health were not justified in serving me with a notice to deepen the Glebe creek—that there was no stagnant water, and the deepening of the creek was a matter to be governed by the conditions of the Municipal Improvement Act, as there are five city streets terminating on the banks of the creek, and considerable low lands on the course of the stream through the city, all of which were liable to bear a share in the cost of improvements that would benefit them.

July 30. A.M. Directing work; P.M. at School Board accounts.

July 31. Mr. Sweet, solicitor for the Cockshutt Plow Co., had advised his clients that it would not be safe for them to enter upon the lands sold to them before the execution of the conveyance, as I had not the power to sign a deed of sale. I went to see Mr. Sweet, and brought him here to see the correspondence between myself and the Cockshutt Plow Co., when he reversed his opinion.

Heard of the death of the widow of the late Archdeacon Nelles, my predecessor.

It rained on nineteen days during the past month—total rainfall 5·36 inches. I never experienced so much difficulty in gathering a harvest; fortunately only the wheat was slightly damaged.

August 1. Buried Mrs. Nelles this P.M. at the Mohawk

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Church, assisted by the Rev. G. C. Mackensie and the Rev. J. L. Strong. I took fifty of the girls to assist in the church service.

At 8 P.M. with my solicitor I attended a meeting of the City Board of Works, and strongly objected to lower the stream an average depth of about four feet. It was decided that the work should be undertaken by the City, all interested persons paying their fair share of the expense.

August 8. I was notified by the Agent of the Liverpool, London and Globe Insurance Co. that the insurance rates would be much increased at the expiration of one year. I had applied and paid for an insurance on the Institution buildings (see July 25) for three years, the Company accepted it for one year only.

August 9. Mabel Walker died last night of tuberculosis following an attack of measles; she had been ill for over two months, but as she came from a distance she was unable to be sent home. She was kept isolated.

August 10. A.M. Conducted Special Coronation Service at the Church. P.M. 2.30. Buried Mabel Walker, all pupils attending the service.

August 11. Mrs. Ashton left for two weeks holiday.

August 13–18. All hands threshing grain.

August 19. Sold seven cattle for $296.

August 20. Received letter from the Cockshutt Plow Co. that Mr. Allen had valued the cottage on the property sold to them at $750. I pointed out that nothing had been allowed for the well and cistern; it was agreed to add $25, making the price $775.

August 21. I sold about 600 bushels of rye at 48c. and 568 bushels of wheat at 65c.

August 22–23. Directing, cleaning and sending grain to market.

August 23. Holidays terminated and usual routine commenced.

August 24. Conducted Divine Service at the Church,

after which the Rev. J. Fairlie administered Holy Communion.

August 25. Received cheque for $662.62 for grain sold. Mr. Milligan arrived this evening.

August 26–27. Mr. Milligan inspected the Institution, schools, Home and Glebe farms, the parsonage, and brickyard.

August 28. Went to surveyor and solicitors to get the conveyances, but they are not ready yet.

August 29. Superintending work, &c.

Mr. Milligan left with Mr. Strong at noon for the Reserve.

August 30. Mr. Milligan returned at 9 this evening.

August 31. The usual church services and Sunday-schools. At the evening school Mr. Milligan addressed the officers and pupils.

On all days not specified I directed work and schools, and on Sundays conducted Divine Service twice.

Number present July, 56 boys, 67 girls, Total 123
" " Aug., 55 " 65 " " 120

The conduct of the pupils has been very satisfactory, and with two exceptions their health has been very good.

I regret that the conveyances of land sold to the Adams Waggon Co. and the Cockshutt Plow Co. have not yet reached me owing to delay on the part of the surveyor in sending the descriptions.

I took advantage of Mr. Milligan's visit to consider with him the questions contained in your letter of April 11 last with reference to the financial position of the parents of children admitted, and I went over each case on the list of my last Annual Report, and also gave him the "application book," showing the order of admission of pupils adopted on my visit to England in 1896, viz. Pagans, orphans, deserted and destitute children, and children who live too far from a day school.

I explained to Mr. Milligan that our first consideration

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

in selecting pupils was guided by the moral (or too often the immoral) environment of the child, so that we really admit only such children as in England would be sent to an industrial school.

With regard to the admission of Methodists, such small, neglected, and totally ignorant children as we, for the most part, receive for the reasons given above, would not be admitted into Mount Elgin. It receives children from the best Indian homes, as we formerly did.

Then, as suggested above, it is not the particular religious denomination under which the child is classified, but the utter absence of religious life of any kind which marks its surroundings.

As regards the suggestion of the Company that I proceed to Priest's orders, I will interview the Bishop when he returns to the Diocese.

R. Ashton.
Superintendent.

60.—Rev. J. L. Strong *to the* Clerk.

[Received 18th September.]

Grand River Reserve:
September 6, 1902.

Dear Sir,—I herewith forward you my report for the months of July and August. These months, always busy ones with our people, have been unusually so this year on account of the exceptionally wet season we have had. But I am thankful to be able to state that, except for some damaged hay crops and a little sprouted wheat, the harvest has been a good one.

On Sunday, August 31, we had a Harvest Thanksgiving service at St. John's in the morning, and at Cayuga in the afternoon, at both of which I was present and preached to

good congregations. The members of the latter church have had a great disappointment. They have no driving shed, and persons coming from a distance have to hitch their horses to trees or fence, which is very inconvenient in wet or very cold weather. They wished to build a shed and hall like the one at St. John's, and in order to do so they applied to the Council for a loan from the Nation's funds, a number of them agreeing to give up their annual interest money till the amount loaned was paid off. The Council agreed to the proposition, but the Department refused its sanction, consequently their plan has fallen through.

I sympathise with them in their disappointment, and their desire for a shed; but before making any suggestion to the Company for their assistance, I wish to ascertain what the people can and will do themselves in the matter. I may be able to procure the information and write you in time for you to receive the letter before the next meeting of the Company on October 1.

On August 21 I took our choir boys, to the number of fourteen, an excursion by rail to Port Dover, on Lake Erie, where they spent an enjoyable day. The actual cost of the excursion was $14.40. Last year the Company gave me a grant of $15 for the purpose. I do not ask for it this year, but would be glad if I might place the excursion on the basis as the allowance for Sunday-schools, viz. one-half which I would willingly make up myself. All the boys are members of the Sunday-school, and their annual excursion is the only reward they have for attendance at practice and church, and I do not know any better training for them in the habit of attendance at church and instruction in the service.

Mr. Duncan Milligan visited the Reserve on August 29 and 30. I regret that he was unable to prolong his visit, as I should much have liked him to have been with us on Sunday, and to have visited more of the Indians in their

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

homes. But we were able to visit all the stations of the Mission, and I was glad to have the opportunity of conversing with him on the extension of the work and other matters regarding the Mission.

I am sure that if it were possible to have such visits from members of the Company more frequently the work of the Mission would be greatly benefited thereby.

I append my parochial reports, and remain,

Yours faithfully,

JAMES L. STRONG,
Chief Missionary.

W. M. VENNING, Esq., D.C.L.

Mrs. Strong reports twenty-five visits. The meetings for women were suspended during these months, which are always our slackest, and in addition we have had four wet Sundays. They will be resumed in September.

61.—Rev. J. L. STRONG *to the* CLERK.

[Received 25th September, 1902.]

GRAND RIVER RESERVE,
September 15, 1902.

DEAR SIR,—I have seen Mr. Bearfoot in regard to the shed mentioned in my report. He says that if the Company would furnish the material the people would erect the shed, they would also find themselves the rough material, such as sills, rafters, joists, &c., which they could hew themselves out of their own woods. I think that if the Company furnished the material up to $100.00 it would be ample for the driving shed though not for one like that at St. John's with a hall overhead. That, however, could easily be added afterwards.

Mr. Milligan inspected the driving shed and hall at St. John's, and will be able to give the Company all information they may require as to the structure.

Mr. Bearfoot asked me if the Company would object to his collecting for it outside the Reserve. I have always deprecated these collecting tours on the part of Indians, and think it much more preferable that, if possible, any extraneous assistance the Indians receive should be from the Company.

I remain,
Yours faithfully,

W. M. VENNING, Esq. JAMES L. STRONG.

62.—Rev. GEORGE DITCHAM *to the* CLERK.

[Received 24th September.]

ST. GEORGE'S SCHOOL,
LYTTON, B.C.
Sept. 8, 1902.

DEAR SIR,—I have the honour to report that we are quite ready to begin school as soon as we can get bed-

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

steads. These were ordered from the East by the Hudson's Bay Company on July 3rd, and I most sincerely hope that we shall not be kept waiting much longer.

We managed to find sufficient furniture in this company's stores at Vancouver to do for private use; acting on a cable message. Our own goods and chattels were neither suitable nor enough for the purpose. These we used for the tents and log-house, and when we go out of these I intend to put the carpenter in possession of them. I think that £100 would cover the cost of what we bought in Vancouver for the use of private part of the building, and, as these would belong to the New England Company, I trust that we shall not have to pay for these from our own purse.

My wife brought out from London some china, a cheap dinner and tea service, which I got in free of duty. These I shall have to pay her for, thirty-six dollars, and they will be used in the school.

Such things as curtains, tablecloths, ornaments, &c., will, of course, be our own, but in use while we remain.

I have thought it best to take the old dairy down and use what material we could from it in a new building. The walls of the old one were dry, made without mortar, and the roof was bad, and it had been kept for some time for a little grain and for vegetables. It was, therefore, not very sweet smelling, and to have done it up would not have been satisfactory. The new one is well finished, and should last much longer than the school building. The tank is of concrete, the floor cement, the walls stone, the gables rough cast, the ceiling plaster, the roof shingles painted. It may need a new covering in twenty years' time, but is likely to last much longer, as cedar will not rot here as in a wet climate.

We had no granary, so I have turned the tool-house into one, and the cellar beneath into a tool-house.

We shall be able to manage by taking one of the cattle

sheds to find covering for farm implements and waggons. The hauling of stone and sand and gravel knocked the old waggon about badly, but I had the chance to buy a second-hand waggon for $75.00, which cost laid down in Lytton two years ago $145.00, and I thought it too good a thing to refuse. Mr. Anthony, a storekeeper, had taken it for a bad debt of $90.00. As we have plenty of work for two waggons, I got the old one fixed up, so that it will be of service for light work for a few years.

Besides this work I had to take nearly half the car of lumber for fencing a pig pasture, cutting off for this about four acres of the big field. The flume for the ditch took most of the remaining part of the load. A flume I had reckoned for at the beginning of the year, but not the pig pasture and the reservoir. With regard to the latter, I thought it would come in with the power for electric light. We had to get the pipe and pressure for the water supply anyway, and in my own opinion the extra cost for power would not have been much, as it was intended to carry the pipe past the school into the Creek and wire back. I should then have used a larger pipe for light, and tapped it about fifty feet from the building for water supply. For about seven months I could turn the whole ditch and creek on to a wheel, and there is water enough then to light a small town.

We got all hay into the barns and have the grain thrashed. Though not a heavy crop of grain, we have enough for feed for all stock and for seed next year. The grain has improved a great deal on the seed. A son of the Toronto seedsman was here on the 6th inst., and said that he wished that they could get seed like ours. It will do I am sure still better next year, as we shall get it in earlier and the water on it. This year we were late in both of these.

We have not yet harvested potatoes and onions, but we are busy with peaches and melons. We have a huge crop of both the latter two. We have only about one-fifth of an

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

acre peaches, but we have about three and a half tons of fruit, seventeen and a half tons to the acre. Water and musk melons we have, I should think, fifty tons. So far we have got off all melons as they have ripened, but I have had to find a market for peaches in Alberta and Assiniboia, and may have to run off surplus melons into those parts and trust to luck. California gets in earlier into the coast towns than we can, and there the market has been glutted. We can put our fruit crops down to the flume, which has given us a greater and steadier supply of water than Mr. Seward ever had. To the flume also we can put down the pasture that we have in the big field, where it is knee-deep.

The heaviest lot of potatoes that we have were grown from those waste ones which I had picked up last autumn. We had a little manure for these and they will go about ten tons to the acre, and this on new land.

With all this work I was compelled to take some of the money from the building supply as the contractor had not finished up his work and accounts had to be paid, and I thought it more comfortable for my own peace of mind to have one man wait than a dozen dunning. I do not consider the building complete in every detail according to specifications, and as the contractor made nothing out of his job it is hard to get him to do a few little things. He has done his work well according to everybody's opinion, and I feel rather sorry for him. I have made it as easy for him as I felt I could, whilst bearing in mind my position with the Company, and I could go no further. I understand from him that it is customary on a building of this kind, so far away from the architect, to improve upon any small detail which he may himself see to be necessary. I think also that you will find very few buildings from which the contractor does not make his profits out of the extras, and of these we have only a small charge of £20 odd. I have taken from him all spare lumber and nails at builder's prices.

The manner of thrashing the grain here is very primitive

and very wasteful, but there is no other way but the flail, and that no one wants to work at. We tread the grain out with horses. A small thrashing machine another year would help us, and if I could get the promise of it I would try to get the few farmers to put in more grain so that we could do customs work and get at least an interest on the expenditure.

Then, again, the freight on a car of lumber comes to about one-third of the price of the material in Vancouver, and a small mill would give us work.

It will be necessary also to furnish tools and a lathe for the carpenter's shop.

The school grounds I am terracing, as the slope is too much to irrigate safely, so as to carry off surplus water so as not to come near the building. This, with fencing, will cost £40, and the seeding another £12. This is a necessity in order to keep down the dust, which has been dreadful since the work has been going on. It has kept my wife and two girls pretty busy every day.

Then, I think, in conclusion, this time at least I have to burn, clean up, plough, fence and ditch for irrigating the 60 acres on Lot 57 which I slashed last autumn. It will not need much levelling, and in the spring I hope to put in peas and oats.

We ought to put out more fruit trees this autumn, and the Italians here advise grapes. We can grow them to perfection, and as the market in the north-west is likely to be a fast-increasing one we should be ready to meet it.

I am afraid that the Company will think that our wants are large, but I have no hesitation in saying that the opportunities are greater.

I believe that we have already done a service to the Indians, as I cannot find an idle able man about the place. The trouble is that they are too busy for me, as I cannot get the labour that I stand in need of.

Yours faithfully,

W. M. Venning, Esq. Geo. Ditcham

63.—Rev. D. J. Caswell *to the* Clerk.

[Received 15th September.]

Toronto, Canada:
September 5, 1902.

My dear Sir,—I was a missionary in the service of the Company at Kanyenga, near Brantford, from 1884 to 1891, and I trust that my name may still be remembered by many members of the Company.

I am writing this trusting that you will lay it before the next meeting of the Company.

One of the reasons which led to my resigning my position as missionary was the fact that I had begun to realise that the malaria of the Reserve was affecting my health. I had had many unpleasant symptoms, but had not taken medical advice, and did not realise their cause. My wife and children also had had chills and fever, and we had all used quinine to a considerable extent to break up those or to try to prevent their recurrence.

After arranging the exchange made with the Rev. Mr. Strong I entered upon my new duties at St. Jude's Church, Brantford, in November 1891. In the following January I had a severe attack of *la grippe*, and this was soon after followed by malarial fever. It was with difficulty I was able to keep up my work there, and finally in May I left St. Jude's, and by advice of medical doctor took a few months' rest, moving into a house in the western part of the city, hoping soon to recover thus my former vigour.

There we spent some eight months, I, in meantime, trying travel and change, and recovering sufficiently as I thought to enter again upon parish work. The Bishop sent me to the town of Meaford. Before accepting it, I made careful inquiry, and learned that it was free from malarial conditions, and was likely to be the very place for me. I there spent nine years as rector, gaining in health as I had hoped. In 1893, however, I was again down with

malarial fever, and very low indeed, the medical doctor saying the poison of the old germs was still in my system. From that point I began to gain, and from 1894 on I had no return of the malarial chills, and enjoyed a few years of comparatively good health. In 1898 I began again to realise a change for the worse, and had to seek medical advice. The next two or three years were years of struggle against ill-health and the feeling that my strength was leaving me. I came to Toronto in 1900 seeking advice of medical specialist, and again all last year I made constant visits to the city for this purpose. I was compelled to get a curate to assist in my work, and finally, in August last year my collapse was so pronounced that I applied to Synod for superannuation. After careful medical examination and reports this was granted to me in December last, and I removed to Toronto, where I am now living with my eldest son, and where I am able to obtain what medical assistance my case requires. The case developed into enlargement of the spleen—ague cake, together with persistent anæmia. I am thankful to say that I do not suffer much pain, but I am prostrated with weakness and quite unable to walk any distance, and have to be assisted by means of an invalid's chair, so as to get into the open air as much as possible.

My reason for writing is this, that feeling that all my affliction began with my residence and labours at Kanyenga and while in the Company's service, I hope that, knowing of my circumstances, they might come to my aid in way of financial help. My pension from superannuation of the Synod is $408 per annum, a sum which is so small that it will be difficult to live upon it. Remembering the kindness of the Company to the Rev. Mr. Roberts in his affliction, I thought I ought to ask for a consideration of my misfortune. My idea is that if the Company would grant me, say, £100 or £200 I would place it in savings bank, and the interest upon it would be of the greatest assistance to me where my expenses are so great for constant supplies of medicines, &c.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

In case of my decease the sum left behind would be of greatest help to my faithful wife, who has been my constant nurse in all my affliction.

I leave the appeal in the Company's hands. I know they have many demands. But I feel that my appeal will receive due consideration, and in the kindness and philanthropy which has always characterised their work they will do what they can for me in my trouble.

I am, dear Sir,

Your obedient Servant,

D. J. CASWELL.

The SECRETARY *of the*
NEW ENGLAND COMPANY.

64.—DUNCAN MILLIGAN, Esq., *to the* COMPANY.

[Received 24th September.]

To the GOVERNOR AND MEMBERS OF THE NEW ENGLAND COMPANY.

October 1, 1902.

MY LORDS AND GENTLEMEN,—I have the honour to report as follows:—

I arrived at Sarnia on July 25 and remained there one month, during which period I visited the whole of the Reserve allocated to the Chippewas, viz. some of the best land in the district with river frontage to the St. Clair, measuring some 5,000 acres. Being personally known, I was repeatedly thanked by Indians for what the Company has done in educating many of the children. There are about 350 Indians, chiefly farmers, who vary their employment by fishing during summer. The crops were good, wheat being thirty-five to forty bushels per acre; Indian corn not so good, oats and potatoes promising well. There is one small day school on the Reserve. I traversed on foot the whole of this land at least two whole days per week. I had the opportunity of close inspection of fine herds of

cattle and cows, smart teams of horses, agricultural machines and comfortable homesteads, all owned by Indians, who, by the way, machine most of the work. The fencing was all in good condition, the houses neatly and cleanly kept by the Indian women. The concession roads are all maintained by the Indians, and are by far the best in the municipality. There are two places of worship, Anglican and Methodist, the latter as the initial creed being the only church. There are at present about 300 Methodists. I attended two services at this church when the Indians took part in it. I was invited to a farewell dinner at the house of ex-chief William Wawanosh. There were present the Rev. John Brigham, Anglican clergyman (Anhyahkdosa), a Chippewa Missionary from Walpole Island (trained at our Mohawk Institution), Chief Jacobs, with many of the principal men and women. The repast, consisting of young turkeys, Canadian fruits, &c., was well served; afterwards music and speeches in a well-furnished drawing-room. The two daughters and two sons of this house are graduates of college, and are engaged in teaching away from home.

I venture to report on this Reserve because the New England Company has from time to time, indeed nearly always, received children from this Reserve and Walpole Island, also made grants in money.

There are at present about seventy children living here between six and fifteen years of age who, I believe, are well cared for. I regret to conclude this report by remarking that the inhabitants of neighbouring towns look with covetous eyes on this fine Reserve, and, were it not for the protection of the Indian Department, I fear the unfortunate Indians would be compelled to sell their land and quit.

I left Sarnia for Brantford on August 25, where I arrived about 6 P.M., and was met by Mr. Ashton, who drove me in his rig to the Institution. I spent the evening

KODAK SAFETY ▲ FILM ●

as I did each evening until the small hours of the morning in discussing points of administration, and in making arrangements for work during my nine days' stay. Fortunately, though exceedingly hot, the days were fine, and I was able to secure a number of photographs, which I trust will be of service as well as interest to the Company, showing what really is as well as improvements and additions made. The farm consists of 410 acres, including the Glebe lot. All the buildings are good white brick with a basement, first and second floor, an upper or third floor used as hospital or isolation ward for contagious and infectious sickness; there were two cases in here.

In the basement of the main block I visited girls' playroom, clothing stores, lavatories, kitchen, men's dining-room, children's dining hall, when I noticed the liberal distribution of nutritious and well-prepared food, also the general stores. The first floor contains two large schoolrooms, where mixed classes are taught, girls' sewing and cutting-out rooms, officers' quarters, and the offices. The second floor contains the well-arranged dormitories, second to none I ever visited in England, and the Hospital, all situate in the new east wing. In the west wing is situate the house of the Superintendent. For use in the wet weather the boys have a two-storey playhouse at some distance from the main building; the clothes-lockers and dressing-rooms, lavatories and baths, are in the brick basement. Here I would say the boys wear generally for work brown working suits, their neater grey clothing being reserved for cleanly occupation and holidays. The frame upper storey contains band practice-room, reading-room, and large playroom. Order is strictly maintained here by monitors specially selected for good conduct and character. All floors in the main building are hardwood, in two colours, about three inches wide, oiled; in some cases ceilings and walls of the same material.

The farm buildings have room for about sixty head of

cattle and twenty horses. There is sty room for about 200 pigs with comfortable bedrooms, to which they ascended with considerable satisfaction. There are three large greenhouses, three large silos, ice house, two poultry houses, a new up-to-date dairy built of brick. There is ample accommodation for 125 pupils, fifty-five boys and seventy girls, with a complement of eleven officers all told. The teaching and class work embrace the full standard from one to six. School hours 8.30 to 12 noon, 1.30 to 4 P.M. in summer; in winter fifteen minutes later in the morning, with an additional hour in the evening. Scholars, however, in the highest standards always have private study from 8.30 to 9.30 P.M.

The pupils are divided for work into two divisions, which work alternately school and industrially, mornings and afternoons, the order being reversed automatically, to ensure a fair change.

The lowest standard children whilst such put full time at school classes.

During my visit I from time to time visited every part of the Institution, at work, at school, at drill. I considered everything satisfactory in its arrangement and condition. The teaching was all I could desire, the method of the teachers good, the discipline excellent; indeed, the tone was that of a well-ordered Institution. The children appeared accustomed to a regular systematic condition of order and attention. They seemed all bright and happy, either at work or play. I attended the services at the Mohawk Church, and the daily evening prayers in the Institution, conducted by Mr. Ashton. I was much impressed by the reverential demeanour of both girls and boys.

I saw the whole of the farming work, gardening, and dairying as carried out by the boys under monitors responsible to their superior officers, also cow milking, weighing-in milk, cream extracting, this work by system being done in an incredibly short time, and perfectly done too. The

ARCHIVES PUBLIQUES
CANADA

butter supplied from this farm bears an excellent character and realizes good prices. The 40 cows and the hogs are looked after by the boys. There is no doubt that milk, butter, and pork are a very remunerative detail, as these supplies secure good prices.

I went over the whole of the land, grazing and crop. The whole is under cultivation, either grain, roots, or hay; some land had yielded three crops of lucerne this year. I was informed each succeeding crop would be heavier. The corn (maize) appeared good, some for silo, some for dry food. The silos were being prepared. As a whole the farm administration is so arranged as to avoid any waste, and use up everything dead or alive to advantage, the last resource being manure or fuel. Only shorts and bran have to be purchased.

It will be remembered that the Babcock lot has been sold. This was most unremunerative land. I noticed in many places the soil was not more than an inch thick; the Company did well to sell it. All the repairing, carpentering, painting, and fencing is done by boys under their proper officer, besides similar work for some of the mission stations.

With regard to domestic work—sewing, repairing clothes, stockings, cooking, baking, laundry, and butter-making—this is done by the girls. This kind of training, with their schooling, causes them to be much sought after as domestic servants, and thanks to Mrs. Ashton's care and forethought they are placed in safe and good situations at $10 per month with board, where most remain. Some few, however, owing to the interference of relatives go back to the Reserve. I inspected the water supply from a new windmill pump, at a distance from the premises, which maintains a constant supply of pure water for tanks and domestic purposes. There is also sufficient for all flushing purposes.

Chance of fire is well provided for; all dormitories, passages, and halls have extincteurs, hydrants, and buckets filled with water, at certain points. Each dormitory has its fire escape. I submit photographs exhibiting farm work with others showing the many additions and improvements since last the Company visited this place, especially at the front, carried out by Mr. Ashton and his son, Dr. Ashton, who kindly superintends the fine garden.

The heating is perfect, as is the ventilation of all the building. The lighting throughout is electrical.

Apropos of the working of the schools, Mr. Ashton informed me, each side of the school is divided into sections, each under a monitor or monitress who is responsible for the cleanliness and order of each section, and must report any fault to the teacher in charge, who in turn reports to the principal. The government is carried out with military precision under the best system of rules I ever met with, and of which I submit copy. It is only fair to Mr. Ashton to say much is due to him for the great care he has shown, not only in drawing them up, but also in placing so much responsibility on the boys, as monitors, corporals or sergeants, all subordinated to each other, then to their teacher up to superintendent.

I visited the Parsonage on Glebe lot, inspecting the building throughout, and, after careful consideration with Mr. Ashton, recommend the Company to use it as a receiving home for twenty children under seven years of age. The capitation would suffice to maintain them; the servants could be our elder girls—all to be placed under Mrs. Ashton's care. We should gradually fall into the way of having all our children young at the very outset, much to their advantage. Mrs. Ashton fully concurred with these views. What may happen to the 186 acres rented at present I cannot say. Brantford is rapidly progressing in that direction. The Glebe blocks the way and divides the city from its park.

I had many conversations with Mr. Ashton about the

ARCHIVES PUBLIQUES
CANADA

admission of half-breeds and the condition of children admitted by him ; all except Pagans are admitted conditionally. These latter have the first claim, as have also destitute, neglected, or deserted children or members of large families, or living in vicious environment. Under the latter circumstances the parent must agree to allow the child to remain until the Department permits removal. If an Indian marries a white woman she becomes legally an Indian and is placed as an annuitant on the funds of the Band. If, however, a white man marries an Indian the offspring is not Indian ; the woman will continue to receive her annuity during life or may commute it. These children would be admitted into the Institution with the full consent of the Department which allows capitation on such. However, we have not any half-breeds of this description, except illegitimate, received as orphaned or destitute, or in order to remove them from immoral surroundings. On no account are children admitted from good homes. Under Indian custom an Indian child who has lost the mother is orphaned. The Indian father will quit the place, the mother's relatives are considered nearer than the father, although he is living. I submit a list dating from November 1895 to May 1902 which shows how ninety-one cases were disposed of. Each child must be properly recommended. Of the number, six were selected right away, forty-six notified to enter, thirty-nine rejected—only one illegitimate on the list, and two were under age.

In going carefully through the school list, I am persuaded we have not a single child whose parents or parent could maintain it properly or who should not be there. The chief difficulty in dealing with the children lies with those twelve and fourteen years of age who cannot read. Such should be detained until eighteen years of age. Another is the interference of relatives. In all cases possible the Company receives the annuity in trust for the benefit of the child, about $6 per head. However, any

non-treaty Indians of full blood who have not funds are received equally with those who have. The Six Nations capital is from time to time being seriously diminished by enforced payments—for instance, by a sum of $3,286 to Mount Elgin Buildings, besides subscription to schools on Reserves. A fine brick school has lately been erected at Oshawa at a cost of $4,000.

I called upon Superintendent Cameron, and amongst other matters talked over the religious difficulty and the idea of opposing in any way the incursions of the mixed creeds. He strongly deprecated any interference or even recognition of the fact, and thought that having regard to the Indians' superstitious and suspicious nature it would be a serious mistake and interfere with the ultimate conversion of the Pagan element. Mr. Ashton, Mr. and Mrs. Strong concurred with this opinion. Statistics show the Anglican Church with anything but the majority, and it were not safe to depend on these returns as accurate. For instance, the

Population is	4,010
Church	1,512
Methodist	625
Baptist	796
Congregationalists	6
Others	143
Pagans	928

You must also take the families to number on the average about six persons, of which children are about one-third. We all agreed it was best to let well alone.

On visiting the old Mohawk Church I noticed the marked improvement in the ceiling, being lined with wood. It is Mr. Ashton's intention to line the interior walls as well, in two coloured strips. Although the Church was erected in 1785 the original outside boards appear substantial, yet the silicated coating has answered very well.

I was sorry to notice the grave of late Chief Smoke Johnstone unmarked. This old man acted for many years as interpreter for the New England Company. I sincerely hope the Company will erect some simple memorial over its oldest servant. I submit photographs of interior of Church.

I did not forget to sound Mr. Ashton as to the advisability of his taking priest's orders. He would not raise any objection, but he pointed out that the present condition of things ensured a change now and then in the Church ministry, and that if he did take priest's orders it would render him some way at call to preach elsewhere, whilst he preferred not to leave the Institution. His congregation was limited mostly to the Institution.

Before dismissing the Mohawk Institution I would sum up by saying I was deeply impressed by the unflagging energy of Mr. and Mrs. Ashton, in the interest they take in all the industrial, moral, and spiritual phases of the pupils' life, whilst in school and afterwards. The building and grounds showed surprising improvement, so much appeared to have been done. I left with the impression that in Mr. and Mrs. Ashton we had all that was required in a master and matron.

On August 29 I visited in company of the Rev. J. Strong of Kanyunga the Six Nations Reserve. This consists of 43,690 acres of land, of which 23,974 are cleared and 10,723 cultivated. The dwellings consist of 1 stone, 15 brick, 201 frame, and 305 log-houses, or a total of 522; 4,010 persons, men, women, and childen, give an average of 7 persons to each house. For other returns, showing various personal property, I refer you to the Blue Book.

After a morning's drive and lunch at Kanyunga parsonage, Mr. Strong drove me, under a blazing sun, along dusty roads to Ohsweken, where I met Chief Johnstone and one Mr. Miller, formerly, with his wife, pupils at the

Mohawk Institution. They expressed thanks to the New England Company, and said they owed all they had to the Company. These people had a good general store.

I saw the Company's building close by. It is large and commodious, a square hall. It needs repainting. Mr. Strong said he could get labour if the Company supplied material; at the same time he pointed out that he thought he might be able to exchange this for a more suitable building close by. We visited St. John's Church, meeting there the Rev. I. Bearfoot, who was superintending work. I was glad to note the additional improvements; the congregation had erected a good schoolroom capable of holding 200 persons, a wood shed and shelter for the indispensable rig and horses. Sunday-school and tea parties are held here, together with Mothers' and Dorcas meetings, under Mrs. Strong. I observed the Reserve farms, well-cultivated and fenced, also the excellent roads maintained by Indians according to law; but one could not help remarking on the small houses occupied by persons farming 50 to 200 acres of land. Some of them could not have more than two rooms; hence the difficulty of preserving strict morality, and such are the homes some of our children come from. The much larger barns, carriage, and waggons about these small homesteads appear strange to English eyes. Some of the small houses called chapels seemed miserable affairs. True, the Baptists have erected at Ohsweken on collected funds a magnificent building, far beyond any need, quite good enough for any London square, but the lavish generosity is, generally considered, misapplied and a failure. Mr. Strong said he was on good terms with all the ministers, and thought a conference with them would be mutually beneficial, but it would be unwise to move further. Moreover, he knew, as I do, the Dominion Church has been equally guilty, if guilt there be, of intruding into districts where other pioneer denominations held sway for many years; besides, there was the initial diffi-

Contributed Leaflet 5

culty of the New England Company having in years gone by denominations other than Anglican. I visited the whole of the churches formerly owned by the Company, but now belonging to the Diocese—St. Luke's, Ohsweken, St. John's, Cayuga, Kanyunga. We own now only Christ Church, Cayuga. On the 30th I went to Kanyungeh Church. This is a pretty little church, in very fair condition, but, like every other I saw, requires repainting very much outside; the round louvre windows, buttresses, and flashings need repairs. Mr. Strong said he would find labour if the Company provided paint, and would do the other repairs. The steps leading into the church are perished, and the parsonage needs repainting. The verandah sub-stage should be replaced with brickwork, to make it substantial. Mr. Strong promised to get the lumber and do the woodwork if the Company did the rest. However, after conversation with Mr. Ashton, first as to the duty of the congregation, next as to the ownership by the diocese, I cannot recommend any grant. The work should be done all the same. I found St. Luke's Church, a frame building, had been moved from a distance to a more convenient place, and now had a congregation of 40. A good carriage and team shed had been erected, and a school-house will follow. The small log-houses prevail about here; they must have rigs and teams to get about, but the greater part of the year are without money.

I then went on to Cayuga Church; this, like the rest, needs outside painting. The church has been materially improved by Mr. Bearfoot by the addition of two rooms and chancel. The congregation is large, and the Sunday-school has 48 scholars, under the able management of Mrs. Trimmings, who certainly deserves the thanks of the Company for the eleven years she has devoted to this work. When she took charge there were only eight names on the books. We dined at Cayuga parsonage, after which I went over the farm, which is now fully cultivated and much improved since last visited. The parsonage needs repainting

outside; the verandah is very shaky, the outer walls of the additional wing are not weatherproof, so cannot be used in winter; the fence in front adjoining road is rotten, but pending the Beaver settlement and the early determination of lease I abstain from doing more than reporting.

Mr. Ashton had the idea that if the Council will refund the $200 paid by the Company to Beaver it would be well to exchange the useless Tuscarora lot for the Cayuga, and make this offer to the Council.

It was during this drive I visited and photographed the fine brick school, erected by the Indians at a cost of $4,000. It is certainly the finest school on the Reserve. I found in the Rev. J. and Mrs. Strong the most willing guides, who hospitably entertained me and gave me every information. Mrs. Strong helps her husband in every possible way in his home and distant work. She drives herself about the Reserve, having charge of all the work falling to the lot of a pastor's wife.

I concluded my visit to this Reserve, feeling assured the Company is doing all it can do, and doing it well, and further has no need to be at all anxious with respect to other creeds. Personally, the only discomfort was the tropical temperature and mosquitoes, with the dusty drives. Mr. Bearfoot drove me to Caledonia station, where I took train for Brantford, arriving late at the Institution on Saturday. On Sunday I attended the Mohawk Church. I invariably attended evening prayers. As I did on Sunday, I remained on the premises Monday and Tuesday, during which time I again inspected the boys and girls at lessons, work, and drill. On Wednesday I left for Toronto and Montreal, and so far terminated a most interesting visit to the Indians and their Reserves, which I did not allow to be interfered with by any visits to other places.

I remain,
Yours faithfully,
DUNCAN MILLIGAN.

BLAZE AT BRANTFORD.

THE MOHAWK INSTITUTE TOTALLY DESTROYED.

Eighty Indian Students in Bed When the Fire Broke Out—All Escaped —Loss $35,000—Belleville Dwelling Burned—Loss at St. John.

1903

(Special Despatch to The Globe.)

Brantford, April 19.—The Mohawk Institute, a large three-story brick structure about a mile outside the city limits, was totally destroyed by fire to-night. The loss is estimated at $35,000, and this is well covered by insurance. The institution is the property of the New England Company, an association formed in England many years ago for the purpose of educating Pagan Indians. The original buildings were erected about seventy years ago, but there have been additions made from time to time. There were about eighty Indian scholars in the building when the fire broke out, and they were in their beds. The spread of the fire was slow, fortunately, and everyone escaped safely. A large part of the contents of the buildings were also removed to a place of safety from the flames. The origin of the fire is not exactly known. A few days ago there was a blaze in the roof, due to a defective chimney, and, as the blaze to-night broke out in about the same place, the cause was probably the same, although it is supposed that an electric wire had something to do with the fire. The blaze broke out in the roof at the west side of the building, and there was nothing to stop it. An alarm was sent to the city fire department, which responded, but there was no water supply available and nothing could be done to save the parts of the building which were then remote from the fire. The entire structure was burned to the ground, only the walls standing. Efforts were made to save the creamery, a small building in the rear of the institution, but were unavailing. There was very fortunately no wind blowing at the time, and the large barns were not in danger.

Sir.

I regret to report that the Mohawk Institute here was completely destroyed by fire last evening. The building was first discovered about 9.30 to be in flames, from what I can learn, was caused by a defective chimney. The whole staff and the pupils I am glad to say were safely rescued and are alright. The Rev. R. Ashton Principal of the Mohawk Institute is arranging for temporary quarters for the pupils.

I am

Sir,

Your obedient servant,

E. D. Cameron

Department of Indian Affairs.

OTTAWA, 21st April, 1903

The Deputy Superintendent General:-

Mr Supt. Cameron of Brantford reports the complete destruction by fire on the night of the 19th instant of the Mohawk Institute. The fire was caused, he says, be a defective chimney.

The Toronto Globe of yesterday contains a fuller report from which it appears that all the inmates were rescued and that a large portion of the contents of the building was saved and also that a considerable insurance was carried on the buildings. The buildings were the property of the New England Company and all that concerns the Department is the disposal of the 121 pupils, who were shown to be on the roll by the last return (31st March). Mr Cameron says that the Principal is arranging for temporary quarters for the pupils. As, however, 95 of them come from the Six Nations reserve and 4 from the New Credit reserve, which adjoins it, the Department need not be much concerned about them as they can be easily returned to their homes. The remaining 22 pupils come from the following reserves:-

3 from St Regis.
7 from Tyendinaga
5 from Nawash
2 from Gibson
4 from the Moravian reserve
1 from Cape Croker

These

These pupils, if not sent home, could be disposed of at the Shingwauk or Mount Elgin schools.

I have understood for some time that it is the intention of the New England Company to withdraw their support from Indian work in Ontario and transfer it to the West. If I am correct, it is not likely that this school will be rebuilt by them and it is a question for the Department to consider whether it would assume the responsibility of rebuilding, even if the site could be secured on reasonable terms. The location is only about one mile from the City of Brantford and contains 410 acres of most valuable property, the Grand river running through the greater portion of it.

The school, which was established over 70 years ago has been almost exclusively for the benefit of the Six Nations, over 75% of the pupils being taken from that reserve. These Indians are now civilized, well to do and have nine good day schools on their reserve, which should be able to attend to the education of their children.

The last return shows that all the children at the school were young, ranging in age from 8 to 14 yearsthe average being under 12 years. Farming and gardening are all that the boys are taught in addition to class work while the girls were instructed in general house work, sewing, etc. No other industries are taught, two boys, however, helping the resident carpenter.

For over fifty years this school received no assistance from the Government, but it now gets a grant for 91 pupils at $60.00 each. The Department has never been called upon to contribute anything for

Sir:-

I beg to acknowledge receipt of your telegram of yesterdayx requesting me to reply to your letter of 22nd.ultº regarding the disposition of the pupils of the Mohawk Institute.

In reply I beg to explain that I delayed replying until Rev'd Mr. Ashton Principal of the Institute received the decision of the New England Co.as to rebuilding.I am pleased to inform you that he has just received a cable that the Company decided to rebuild on the old site.

In the meantime the girls are occupying the building formerly used as a Young Ladies Collage.The building is large enough to accommodate the boys as well as the girls,but arrangements have been made for the boys to occupy the old play-house on the Mohawk property,which building is two story and comfortably large enough.This enables the boys to attend th the farm work.Classes are formed in each place.

The children are comfortably situated.Mr.Ashton is doing every thing that can be done for the pupils safety and comfort.

May 15th. 1903.

Sir.

I regret to report, that the barns at the Mohawk Institute together with 15 head of cattle and 5 of horses were destroyed by fire on the night of the 7th instant.

The cause of fire is believed to be incendiarism On the 3rd instant a large barn together with stock was burned on a farm adjoining the Mohawk, which is also said to have been by incendiarism.

The destruction of the barn on the Mohawk property caused delays but has not materially effected the work on the farm. Mr. Ashton has not been able to let me know the total loss, one large cattle stable was not destroyed.

I am

Sir,

Your obedient servant.

E. D. Cameron

Department of Indian Affairs:—
Ottawa.

DEPARTMENT OF INDIAN AFFAIRS
MAY 13 1903

Dear Sir:—

I have the honour to inform you, that the Mohawk Institute, was destroyed by fire, on the evening of the nineteenth of April.

The pupils were not for a moment in danger, and left the building in an orderly manner, taking their bed clothes with them. The remainder of the night, they were sheltered in the Boys Play House — a two storied building. The girls occupying the upper, and the boys the lower floor. On Monday I secured a large building in the city of Brantford, known as the "Ladies College", into which the girls moved in the evening. We have ample accommodation and the usual routine of the school is continued.

I have however been notified to vacate the building — but have no intention of doing so at present.

The boys have been supplied with wire mattrasses and occupy the upper floor of their Play House and the Band Room as sleeping apartments. A class room was opened in the Drawing Room of the Mohawk Parsonage.

On the night of the seventh instant, most of the Institution barns, with a number of horses, cows, pigs and the contents were entirely destroyed by a fire, evidently incendiary in its origin. There has been no class work for the boys since, they have been employed in getting out and

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

burying the carcasses of the animals. School will re-commence to-morrow.

I received the following cable from the New England Company on May the sixth — "Company decide rebuild Institution present site, but indisposed to largely expend insurance money and favour erection separate blocks- instead of one building. Send your own plans- write for June meeting - suggestions on rebuilding. Will Government contribute. Hope member of Company visits Brantford shortly".

The insurance money amounts to seventeen thousand dollars on the building and three thousand, two hundred dollars on contents - and the farm buildings and contents were also well insured. The sum named above will not be sufficient to erect suitable buildings for one hundred pupils. We had one hundred and twenty pupils present on the night of the fire, but I have allowed between twenty and thirty to go home, on sick months leave of absence, or on recall. These consisted of graduates; recently admitted pupils; those having fairly good homes; and a few defective and but little qualified for industrial training.

On the ninth instant I received the following cable — " Remain in College- Ingram sails the fifteenth." - Mr Ingram is one of the senior members of the Company and will probably arrive here about the twenty-fifth of the month.

If we have to leave this building I can accommodate about thirty

CANADA

girls in the Mohawk Parsonage which the Company had recently authorized me to turn into a Junior Institution for the reception of children too young to enter the Institution proper. As there are large numbers of orphan children and children of broken families, who being too young to enter the Mohawk Institute were distributed in other Indian homes, where they were poorly cared for and too often used as mere drudges.

I was instructed to solicit a grant from the Government towards the maintenance of the receiving house.

I can not estimate what sum will be necessary for rebuilding the Institution until the plans are further advanced, but hope that the Government will take the matter of a Grant into consideration and will increase the per capita Grant for pupils from ninety-one to one hundred.

Your obedient Servant

R. Ashton

J.D.MacLean Esq:
Secretary,
Indian Department,
Ottawa.

Dear Sir,

When I was in Canada two years ago making arrangements for the establishment of an Indian School in British Columbia, you were kind enough to supply me with all the information that I asked for and maps and documents, when I called upon you in Ottawa. I would now beg the extension of the same favour to Mr. Robert Wigram, a well-known London Banker, who, with myself, is a member of the New England Company, and is now, at our request, going out to Canada to see after that Company's interests in Ontario, where, as you are, of course, aware, the Mohawk Institute at Brantford has been entirely destroyed by fire. He intends to call at Ottawa before going to Brantford, and is anxious to get all the information he can concerning the Indians at the Six Nations Reserve, and I shall be exceedingly obliged if you will look o before he comes a good map of the Reserve and any documents that may b use to him.

Mr. Wigram proposes to leave England on Saturday next.

Yours truly,

Henry Moody

June 20th 1903

To The Sec.y Department of Indian Affairs
Ottawa

Dear Sir

In further reference to my letter of the 11th of May and the reply thereto dated the 22nd May I beg to report that at the request of the New England Company I have forwarded to them Sketch of proposed plans for re-building the Mohawk Institution on the old site, than which none could be found more suitable.

In surveying the site I discovered that the majority of the farm buildings had been erected on land the Company does not own the freehold.

I forward you a map showing the position the school lot of ten acres occupies in relation to the Manual Labour Farm of 200 acres which the company holds by a License of Occupation dated 17th of April 1859 "the said License of Occupation being granted on the express condition that the New England company shall hold possession of the same so long as they keep up a Manual Labour School for the use of the Six Nation

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES

Indians and no longer

The Company desires before finally deciding as to re-building the institutions to ascertain on what condition they can obtain the freehold of Lot No 5 Eagles Nest in the Township of Brantford referred to above as the Manual Labour Farm as they will not authorise me to build on any but their own lands.

Only that portion of the lot in question lying North & West of the School Lot is suitable for building sites (about 24 acres in all) the remainder is liable to be flooded in the Spring and hence is suitable only for farming lands.

I shall be in Ottawa in a few days and trust to be honoured with an interview to explain matters

I have the honour to be

June 22nd. 1903.

Sir.

I regret to report, that the building ~~in which~~ the boys of the Mohawk Institute have been occupying since the [illegible]struction of the main building by fire, was burnt last night. The boys were safely taken out.

This morning eight were arrested and charged with setting fire to the buildings, four have confessed and committed for trial by the Magistrate, while four others are held as important witnesses.

Arrangements have been made and temperory buildings are at once being erected for the boys. The boys for trial are, Roy Wilson, A. Maracle from this reserve, I. Antoine, Gibson Reserve, and Jesse Debor, St Regis, while H. Davis, G. Johnson, Wm. Staats from this Reserve and Frank Leween, Bay of Quinte, are held as suspects.

Department of Indian Affairs,

OTTAWA, 24th June, 1903

The Deputy Superintendent General:-

Re fire at Mohawk Institute.

I think it is about time the Department instituted enquiries into the causes that have led to the total wiping out of this institution by fire. The first fire may have been accidental, but I very much doubt it. The two later ones were admitted to have been set.

Even an Indian will not set fire to buildings, destroy valuable property and endanger life from pure cussedness. There must have been some real or imaginary grievance which led some of the boys to commit incendiarism, and these grievances, as well as the perpetrators of the crime should be discovered.

Mr Supt. Cameron has been remiss in his duty, to call it by a mild name, in not reporting fully to the Department what has led up to this climax.

I also consider that the Department should see that the pupils are sent to their homes on leave until an investigation is held and proper arrangements made for caring for them, if it is decided to continue the school and rebuild.

It is now some six weeks since the first fire and the Department is as much in the dark as to the intentions of the New England Company as it was then and in the meantime some 120 children are so far as we know to the contrary, in a very unsettled

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

condition.

It is years since an inspection was made of this school and even at this late date it would be well to learn how it has been carried on.

If it is the intention to rebuild, it would be better to let the children out on vacation until the school was ready to receive them again, than to go on as at present.

Sime of the older boys, if willing to remain to assist in the farm and other work, might be kept on and paid wages for their work. The grant could be allowed for Sept. quarter as was done in the case of the Mt. Elgin Institute, when it was being rebuilt, so that the institution would be at no loss financially for salary of staff, etc.

Before the Department joins in re-establishing this school, the pros and cons for so doing should be carefully gone into. The institution is carried on for the benefit of the Six Nations Indians and if they do not appreciate the work done for them, it is a question whether it should be continued They are sufficiently civilized to appreciate the advantages of education and if they do not wish to accept the continuance of the good offices of the New England Company in their behalf, they should have the privilege of saying so. At least the question should be submitted to them.

With regard to the Six Nations school matters, Mr Ashton wishes to discuss with the Department, I think he should be asked to furnish an outline of the questions he wishes to ventilate.

June 23rd, 1903.

Sir.

I reported to you yesterday that the building occupied by the Boys of the Mohawk Institution was discovered by fire and that four boys had confessed to setting fire to the Institution as well as the barn and playhouse, where they were housed since the destruction of the Institution. The confession of the four boys implicate others.

I appears to me that the lads should be defended by Counsel. They may endeavor to implicate innocent people. and why they set fire to the buildings should be carefully looked into. The Justice of the Peace committed four boys for trial. The County Judge is out of the City today. If you agree that Counsel be engaged I beg to ask that I be telegraphed to that

Charge of Arson against the Pupils of the Mohawk Institute.

The case referred to in Superintendent Cameron's letter of 23rd instant is one of those in which it is not the practice of the Department to defend unless it is first satisfied that the Indians have not the means of defence, that they have a good defence and that there may be a miscarriage of justice unless they are defended.

I think, however, that the case might be treated as an exception to the general rule, on the understanding that it is not to be followed as a precedent. Four boys have been committed for trial on charge of arson. Superintendent Cameron reports that they have confessed and he thinks they may endeavour to implicate innocent pupils . There were about 120 present in the Mohawk Institute and I think that in view of the suspicion which may attach to other pupils the intervention of the Department is necessary. There is probably nothing much to be done for the boys who have confessed. Should others be accused they can of course, if their friends wish and have the means, retain their own counsel. The Department is not interested in obtaining acquitals if there is guilt. The proper attitude for ~~them~~ counsel retained by the Department would appear to be that of endeavouring to bring out all facts favourable to the persons accused and acquiring any information which can be obtained as to the reason the buildings were set on fire. If on these terms any of the pupils wish to avail themselves of counsel retained by the Department they should be allowed to do so.

There have been two fires shortly following each other, and it may very possibly be shown in mitigation of

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

Mr. Sifton -

3 incl. The Mohawk Institute at Brantford was destroyed by fire on the 19th of April and the barns of this Institute and 15 head of cattle and 5 horses were destroyed on the night of the 7th of May, and the building occupied by the boys of the Institute since the destruction of the main building was burned on the night of the 21st of June. The question of rebuilding has been under consideration by the New England Company, under whose auspices the Institute was conducted.

When in this City recently the Rev. Mr. Ashton, Principal of the Institute, on behalf of the Company, made application both verbally and by letter for leave to purchase what is known as the Manual Labour Farm, held by the Company under license of occupation dated 7th April, 1859, from His Excellency the Governor General, this farm containing about 200 acres; and also for a change of tenure under which the Mohawk parsonage property is now held. This latter lot, containing 220 acres, is now held in trust by Mr. Ashton and others as a residence for the Church of England Missionary to the Six Nations of the Grand River, and it is desired to obtain the right or power to dispose of some of this property for the purposes of the trust and to use part of the land as an annex for the maintenance of junior pupils of the Institute, any funds realised from the sale of the property to be invested in trust for the maintenance of the Missionaries doing duty on the reserve.

So far as the Manual Labour Farm is concerned, the

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

the title is in the Crown under authority of surrender in 1841, No. 50, and can be disposed of in fee simple to the Institute if so desired.

Regarding the parsonage property, a conditional surrender was obtained in 1827, but before it could be disposed of in fee a surrender vesting it absolutely in the Crown is necessary. It is quite evident that the intention of the parties to the license of the Manual Labour Farm was that it should be used for the benefit of the Indians, although the surrender in this case is absolute; and the same may be said of the parsonage property with this in addition that the Indians did not part with the absolute title.

Should you deem it advisable that the title in fee to both properties should pass to the Company if the surrender for the parsonage property is obtainable the grant would be subject, I presume, to a condition that suitable buildings should be erected and maintained and the property held as heretofore for the education and spiritual instruction of the Indians, except in so far as the Company, with the consent of the Department, might alienate portions of such freed from these conditions.

There may be some doubt as to whether the Indians will grant the surrender necessary in connection with the parsonage property, but if you approve of the sale at a price to be named by the Department or arrived at by agreement between the parties, and upon such other terms and conditions as may be thought advisable, the necessary steps will be taken to have the surrender submitted to the Indians.

I attach immediately hereunder Mr. Ashton's letter and a full memorandum from the Lands Branch.

Taxed accounts.
Re account Louis F.Heyd.

ACCOUNTANT'S
SEP11 1903
BRANCH

Sir,

I have the honour to acknowledge receipt of your letter of the 31st ulto (Ref 154845-1),enclosing the account of Mr Heyd for professional services in connection with certain prosecutions therein mentioned. I would point out that Mr Heyd is not the agent of the Minister of Justice at Brantford,but Messrs Hardy,Wilkes & Hardy,to whom,under the instructions of the Minister of Justice,the defence of these prisoners should have been committed.

The taxation of legal accounts by the Minister of Justice is confined to the accounts of agents employed by him in the legal business of the government,and I am therefore unable to tax Mr Heyd's account,unless some satisfactory explanation is given by your department as to the reasons why he was employed,to the exclusion of the duly appointed agents of the Minister. I return the account herewith.

Enc

MEMORANDUM.

Ottawa,22nd july,I903-

To the Deputy Minister,

In regard to communication of the I5th Inst. from the Rev.Mr.Ashton,asking to obtain title in fee to the Manual Labour Farm and the Mohawk Parsonage property,I beg to submit the following report;-

Manual Labour Farm.

This property is known as Lot 5,Eagle's Nest, Tp.of Brantford,and contains about 200 Acres,and is held under License of Occupation dated the 7th April,I859, issued by His Excellency the Rt.Hon. Sir Edmund Walker Head,to the Rev.Abraham Nelles,for and on behalf of the New England Company,and granted on the express condition that the New England Co. should hold possession of the same as long as they kept up a Manual Labour School for the use of the Six Nations Indians,and no longer.

File 134276

Under authority of an Order of His Excellency in Council dated 3rd Aug,I843,ten Acres of this property were authorized to be conveyed to the New England Co. at a valuation,and under authority of Surrender by the Indians, in I84I. No 50.

File 60664

In view of the above O.C. it appears quite clear that this property was surrendered by the Indians, and there would not therefore,appear to be any objection to make absolute disposition thereof to the New England Co. at such valuation as may be placed thereon,and upon relinquishment of rights of present holders under above mentioned License of Occupation.

Mohawk

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

Mohawk Parsonage Property.

This property,containing about 220 Acres,is situate in the Tp.of Brantford,North of the Eagle's Nest . On the I9th Oct.I827,the Indians granted a Surrender of this property,in order that the same might be confirmed by Letters Patent from His Majesty,as a Reserve for the residence of a Missionary of the Established Church of England,and to his Successors in office for ever..
On the I9th March I845,Letters Patent were issued for this property to James Gibson Esq. Governor of the Society for the Propagation of the Gospel in New England and parts adjacent known as "The New England Company",the Hon.and Rt.Rev. John,Lord Bishop of Toronto,the Rev.Abraham Nelles, and the Rev.Adam Elliott,Missionaries of the United Church of England and Ireland,and Wm.Richardson,Esq. Lay Agent for the said New England Co.,in trust to hold the same for ever to and for the use of the Resident Missionary of the United Church of England and Ireland doing duty among the said Indians settled upon the said Grand River,and to his Successors in the said Mission for ever,as a site for his and their residence.

File 134275

In I885 Messrs.Brooke and Sweet,Barristers,of Brantford,made application on behalf of the New England Co. to be allowed to purchase the property,and I would beg to refer to report on the matter of the 20th Jan.I886,file 60664,by the late Mr.Vankoughnet,then Deputy Supt Genl. which report was approved by the then Minsiter,the late Sir John A.Macdonald,the conclusion of which is as follows;-

File 60664

"He therefore sees no objection,so far as the "Indians are concerned,to the proposed Sale to the New "England Company being favourably entertained,but it appears "to him inasmuch as the land was surrendered by the Indians "for the above special purpose, namely for the use of a "resident Missionary doing duty among the Indians,that it would

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

"would be necessary that a new Surrender should be obtained "from them empowering the Crown to sell the land for their "benefit, Secondly a Surrender would have to be made by "the present Trustees of the property with a view to its "being sold to the New England Company. This,the Depart- "ment has been advised by Messrs. Brooke and Sweet,the "Trustees are willing to do. Upon these requirements "being complied with,the undersigned is of the opinion that "the Patent held by the Trustees aforesaid,might be revoked "and a Sale at a valuation,to the New England Company,be "authorized."

Some correspondence took place subsequently with this Firm,who submitted a draft relinquishment by the Trustees,which was passed on by the Justice Dept. and there the matter rested.

It would appear,therefore, that as above indicated,the property could only be acquired by the New England Co. after Surrender by the Indians,relinquishment by present Trustees,and payment for the land,for the benefit of the Indians.

Secret
Immediate

OTTAWA, 15th July, 1903

Sir,

I have the honor to request that you will have the kindness to inform me on behalf of the New England Company, upon what terms the "Manual Labor Farm" which is held by that Company under a License of Occupation, dated 7th April 1859, from His Excellency the Governor-General, containing 200 acres, otherwise known as Lot 5, Eagle's Nest, Township of Brantford, can be purchased.

The License of Occupation was granted on the express condition that the New England Company should hold possession of the same so long as they kept up a Manual Labor School for the use of the Six Nations and no longer. The Company wishes to put up new buildings to replace those recently burned down, but before doing so they desire to obtain a title in fee to the above property. A ten acre block, embraced within this lot, is owned in fee by the Company, but they have no right of entry and the land is not suited to contain the buildings necessary for the new institution. The greater portion of this two hundred acres is flooded in spring by the Grand River, and the unflooded portion is more suitable for building purposes than for farming. The Company consider that in view of the License of Occupation already held, a nominal price is all that

...l of Ind. Affairs.

...TTAWA

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

they should be called upon to pay.

The second proposition I desire to put before you is to change the tenure under which the Mohawk Parsonage property is now held. The lot contains 220 acres and is now held in trust by myself and others as a residence for the Church of England missionary to the Six Nations of the Grand river. The Company wishes to obtain power to dispose of some of this property for the purposes of the trust, as the Indians are not living in this neighborhood now and the Company has erected suitable parsonages on the reserve at their own expense. It is also wishes to use part of this land as an annex for the maintenance of junior pupils of the Mohawk Institute. Any funds obtained by the Company from the sale of this property is to be invested in trust for the maintenance of missionaries doing duty on the reserve.

A further proposition is that the institution receive a grant for 100 pupils, instead of for 90 as at present.

In conclusion I beg to request that these propositions be honored with your earliest possible consideration in order that I may advise the New England Company on the plan for re-building and maintaining the Mohawk Institute on the old site.

I have the honor to be, Sir,

Your obedient servant,

E. Ashton

Have not seen to
go into or proceed
CS

Ottawa, 6th August, 1903.

Memorandum :-

Mr. Sifton -

3 incl.

The Mohawk Institute at Brantford was destroyed by fire on the 19th of April and the barns of this Institute and 15 head of cattle and 5 horses were destroyed on the night of the 7th of May, and the building occupied by the boys of the Institute since the destruction of the main building was burned on the night of the 21st of June. The question of rebuilding has been under consideration by the New England Company, under whose auspices the Institute was conducted.

SCHOOLS AUG 27 1903

When in this City recently the Rev. Mr. Ashton, Principal of the Institute, on behalf of the Company, made application both verbally and by letter for leave to purchase what is known as the Manual Labour Farm, held by the Company under license of occupation dated 7th April, 1859, from His Excellency the Governor General, this farm containing about 200 acres; and also for a change of tenure under which the Mohawk parsonage property is now held. This latter lot, containing 220 acres, is now held in trust by Mr. Ashton and others as a residence for the Church of England Missionary to the Six Nations of the Grand River, and it is desired to obtain the right or power to dispose of some of this property for the purposes of the trust and to use part of the land as an annex for the maintenance of junior pupils of the Institute, any funds realised from the sale of the property to be invested in trust for the maintenance of the Missionaries doing duty on the reserve.

So far as the Manual Labour Farm is concerned, the

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

the title is in the Crown under authority of surrender in 1841, No. 50, and can be disposed of in fee simple to the Institute if so desired.

Regarding the parsonage property, a conditional surrender was obtained in 1827, but before it could be disposed of in fee a surrender vesting it absolutely in the Crown is necessary. It is quite evident that the intention of the parties to the license of the Manual Labour Farm was that it should be used for the benefit of the Indians, although the surrender in this case is absolute; and the same may be said of the parsonage property with this in addition that the Indians did not part with the absolute title.

Should you deem it advisable that the title in fee to both properties should pass to the Company if the surrender for the parsonage property is obtainable the grant would be subject, I presume, to a condition that suitable buildings should be erected and maintained and the property held as heretofore for the education and spiritual instruction of the Indians, except in so far as the Company, with the consent of the Department, might alienate portions of such freed from these conditions.

There may be some doubt as to whether the Indians will grant the surrender necessary in connection with the parsonage property, but if you approve of the sale at a price to be named by the Department or arrived at by agreement between the parties, and upon such other terms and conditions as may be thought advisable, the necessary steps will be taken to have the surrender submitted to the Indians.

I attach immediately hereunder Mr. Ashton's letter and a full memorandum from the Lands Branch.

DEPARTMENT OF INDIAN AFFAIRS CANADA

Ottawa, December 9th, 1903.

Memorandum,

INDIAN BRANCH DEC 9 1903

Mr. Orr.

With reference to the application of Mr. Ashton, the position of the Department is this,- It would be willing to dispose of the property now utilized by the Institute upon the surrender of the unsurrendered block being obtained, but the proceeds would belong to the Department to be funded and used for the benefit of the Institute, in so far as this might be considered necessary by the Department.

A letter should be prepared to Superintendent Cameron setting forth in outline the position of the Department, asking him to make a report on the whole matter, including, of course, the probability of obtaining a surrender of the unsurrendered land.

DEPARTMENT OF INDIAN AFFAIRS
FEB 24 1904

Indian Office, Brantford

February 22nd. 1904

Sir:-

I beg to acknowledge receipt of your letter of 10th. December last file No. 154,845 enclosing copy of a communication from the Rev. Mr. Ashton as to the Manual Labour Farm and the Mohawk Parsonage Property in the township of Brantford and requesting me to report on the whole matter, including the probability of obtaining a surrender of the unsurrendered land.

In reply I beg to report that I am convinced that a surrender of any land from the Indians could not possibly be obtained, and do not think it advisable to attempt the procurring of the same. I delayed replying to you until I, could consider some old documents and records in this office and now beg to report.

SCHOOLS
MAR 2 1904

I am convinced for the following reasons that the land has been surrendered by the Indians, and does not require any further action on their part. I will deal with each parcel seperately. Before doing so I beg to refer you to Surrender No. 40 page 96 vol. I of the Indian Treaties and Surrenders, on 2nd. April 1835 the Indians surrendered 48000 acres in Brantford township, which does not reserve any of the land now in question, also Surrender No ~~12~~ 30 on page 76 of said Surrender. I cannot trace these descriptions as I have no map by which the points of the boundaries can be located.

The Secretary-
Department of Indians Affairs.
Ottawa

re Lot 5 Eagle Nest.

This lot contains some 200 acres.Under the seal of our Province,the Lieutenant Governor of the Province on the I3th. day of February I836 granted to the New England Company 360 acres of land,which was recorded July 8th.I836.In this Grant of 360 acres two portions of lot 5 Eagle Nest are included, one portion contamning I0 acres,the other 2 roods and 29 perches.Therefore the New England Company holds a deed of Grant of I0 acres and 2 roods and 29 perches of this lot.The Indians must have surrendered said lot 5 before the above grant could have been made to the New England Company.

I further find in the book of Inspection in this office in connection with this lot a diagram shewing the occupants of this lot in I846.I have traced the same and enclose the tracing exhibit "A".You will observe two parcels marked deeded where I have placedan X in red pencil. These are the two parcels mentioned in the said deed of grant of the 360 acres.

I also enclose extracts (exhibit "B") fromthe book of Inspection in this office setting out the improvements on this lot,which I find by note was fully reported to the Department on the 24th.day of October I846.

The New England Company holds this land under License of Occupation which is endorsed Recorded I3th. April I859 Lib DX Fol 62.After describing the land by metes and bounds the deed continues,containing 200 acres more or less exclusive of two parcels of land lying with-in the above described limits heretofore granted to the said New England Company.

The newly erected Institute Building is built on the said I0 acres,but some of the barns to the value of some $6000.00 are built off the land which the Company holds under deed.That part marked Road Way in blue pencil on exhibit "A" is closed and has been closed as a road way for some time.The Company has no right of way to this I0 acres

H. Dept Secy of State

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

269241

deeded except by the License of Occupation.
All lands adjoining lot 5 Eagle Nest appears by the books and maps in this office to have been patented,and therefore must have been surrendered.

This lot which contains some 200 acres is flooded during the freshets except about 25 acres which includes the I0 acres deeded and where the Institute and buildings are erected.Rev.Mr.Ashton when in Ottawa last summer,left with the Department photographs shewing lands flooded during the last years freshet.This land is therefore greatly depreciated by the floods,and is seriously effected as marketable or purchassble.The land not flooded is only suitable for building purposes.

It appears to me that the Indians must have surrendered this lot unreservedly,and no further surrender is necessary.I would recommend that the same be sold to the New England Company at a reasonable price.When the land was surrendered it was of greater value than at present as the Grand River did not then overflow its banks and this land was not flooded during the freshets as at present.Since the country north of here has been opened up and drained the freshets are severe.

If you decide that no further surrender of this land by the Indians is necessary,the price to be paid can be arranged.

re Mohawk Parsonage Property.

This contains some 220 acres and is held by the New England Company dy deed in trust.The deed recites as follows:
"theretofore reserved for the use and occupation of the Six "Nations Indians residing near the Grand River in the said "Province and lately surrendered by the Sachems and Chiefs "Warriors of the Six Nations or Indians to His late Majesty "George the Fourth his heirs and sucessors by their deed "executed in full Council at Brantford in the said District "of Gore on the I9th.day of October I827 in order that the

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

269241

" same be granted by His said Majesty.

Then the Trust in favor of the New England Company, is set out.

This does not mean the Indians surrendered in trust for the residence of a Missionary of the united Church of England and Ireland. The surrender was in October 1827 and this deed of Trust was executed in March 1845. After the Habendum Clause the Trust is again set out and in no way relates to condition of surrender as to trust.

I submit the Trust is created by this Deed and not by the surrender from the Indians.

All surrenders to the Crown are unconditional. The Crown I submit created the Trust in 1845 and not the Indians in 1827 when they surrendered. The Crown can therefore terminate the Trust with the consent of the New England Company and convey by Deed the land to the Company on any terms agreed upon, and no further surrender by the Indians is necessary.

I am arguing from the papers before me, I have not seen the surrender of 1827 and can find no record of any surrender of that date.

The Indians surrendered lands unconditionally to the Crown. It appears to me the Trust created under which the New England Company holds the land will in no way effect the original surrender and will require nothing further by the Indians. The lands adjoining this property have been patented by the Crown and therefore must have been surrendered. The surrender of the land surrounding this property will set out clearly, no doubt what was intended by the surrender, and if this land in question was included in the surrender without any condition it will not require further surrender, and can be sold to the New England Company with Lot 5 Eagle Nest.

re Grant to Mohawk Institution.

At present the Institution receives a grant from the Goverment of Canada for 91 pupils. It is asked that this grant be increased to 100 pupils, which I beg to recommend.

Prior to the destruction of the Institution by fire last summer. There were some 120 pupils in attendance.

The Institution will shortly be rebuilt and expect the attendance will be increased.

All of which I beg to submit for your consideration,

I am

Sir

Your obedient servant.

OTTAWA, 9th March, 1904:-

The Deputy Superintendent General:-

Mr Supt. Cameron has forwarded the report asked for in reference to the Manual Labor Farm and the Mohawk Parsonage property, the fee simple of which the New England Company wishes to obtain, but before the whole question can be finally dealt with it will be necessary to have access to the Surrender made by the Six Nations Indians on the 19th October 1827 of the Mohawk Parsonage property to determine whether there is any conditional clause in the Surrender.

Mr Stewart has made diligent search for this Surrender and informs me that it cannot be found in this Department or amongst the Archives, and as we have official record of the Surrender having been obtained and transmitted to the Deputy Superintendent General, it is presumed that it is still in the custody of the Department of State which has not handed over all the old records. As soon as reply is received from the Under Secretary of State the matter can be fully gone into.

In the meantime as the new building is in course of erection and an application for an increased grant has been made, it is for the Department to decide whether it will raise the number of grant-earners from 91 to 100 and place the Institute on the same footing as the other industrial schools in Ontario. There is no good reason why the grant should

remain at 91,which was the number they had in residence when the Department first made the regular grant.

OTTAWA, 9th March, 1904

Sir,

A question involving the terms of a Surrender made by the Six Nations Indians to His late Majesty George IV on the 19th October 1827 having arisen, it is requisite that this Department should refer to the original surrender in order to determine the exact intent of the instrument. After careful search through the surrenders on fyle in this Department and in the Archives it cannot be found. The receipt, however, of this document was acknowledged by letter dated at Quebec, 8th Dec. 1827 from the then Deputy Superintendent General of Indian Affairs addressed to Lt.-Col. Gibbons at York. The presumption being that this surrender is still on fyle in your Department, I have to request that you will give instructions to have the same forwarded to this Department.

Your obedient servant

FRANK PEDLEY

Deputy Superintendent General
of Indian Affairs.

Copy.

To His Excellency Sir Peregrine Maitland, K.C.B., Lieutenant Governor of the Province of Upper Canada, and Major General Commanding His Majesty's Forces therein, etc. etc.

In Council

May it please Your Excellency:

We the undersigned Sachems and Chief Warriors of the Six Nation Indians settled on the Grand River in the County of Haldimand in the Province of Upper Canada in behalf of ourselves and on the part and behalf of our respective nations, viz: Mohawks, Oneidas, Onendagas, Senecas, Cayugas and Tuscaroraas in full Council convened having agreed to surrender, relinquish and yield up unto His Majesty George the Fourth by the Grace of God of the United Kingdom of Great Britain and Ireland, King, Defender of the Faith. And We the said Sachems and Chief Warriors Do by these presents surrender, relinquish and yield up unto the Kings Most Excellent Majesty the tract or parcel of land described as follows: Beginning at a Post planted on the South side of the Publick road leading from the Township of Ancaster to Brantford and between the said road and the Mohawk Village near a small creek leading through a marsh and running from thence the following courses "South seven degrees forty minutes, "East fifty five chains down through the said marsh and swamp, crossing the small creek several times to fifty-five post. "Then North seventy-one degrees east forty chains to a post "Then across the aforesaid creek "Then North thirty degrees East five chains along side said ridge marsh on the right "Then North seven degrees forty minutes West forty-six chains eight links to a black oak tree marked,

standing on the South side the high way aforesaid.
"Thence along on the South side the said Road South seventy degrees West eighteen chains fifty links
"Then South seventy six degrees West twenty five chains to the place of beginning containing about two hundred and twenty acres of land more or less, together with a further additional grant of whatever part of the adjoining marsh the resident Missionary may think proper to fence and improve lying on the easterly boundary of the before described tract and following down the said creek, including the marsh and swamp on both sides of the said creek as surveyed by Augustus Jones, Deputy Surveyor. And which said tract or parcel of land herein before described. We the said Sachems and Chief Warriors as aforesaid do surrender and yield up as aforesaid for the special purpose and to the intent that the same and every part and parcel thereof may be confirmed by Letters Patent from His Majesty under the Great Seal of the province of Upper Canada as a reserve for the residence of a missionary of the Established Church of England and to his successors in office forever.

In testimony whereof We the said Chiefs and Chief Warriors have hereunto set our names and seals at Brantford in the district of Gore this nineteenth day of October in the year of Our Lord one thousand eight hundred and twenty seven.

DEPARTMENT OF INDIAN AFFAIRS CANADA

OTTAWA, 23rd March, 1904

The Deputy Superintendent General:-

In further reference to Mr Supt. Cameron's report in regard to the property now used by the Mohawk Institute, I beg to say that the Under Secretary of State has furnished this Department with a copy of the Surrender dated 19th october 1827, from the Six Nations Indians to His Majesty George IV, from which you will see that the Surrender created a trust covering the property conveyed which was to be reserved for the residence of a missionary of the established Church of England and to his successors in office forever. This being the case the it would be necessary to obtain an unconditional surrender from the Six Nations Indians before the fee simple of this Parsonage Lot could be vested in the New England Company. I would recommend that a copy of the surrender in question be sent to Mr Cameron for his information as he seems to be under a misconception of its terms.

The application for an increased number of pupils for this school has not yet been dealt with.

OTTAWA, 30th March, 1904:-

MAY 20

Sir,

I have to acknowledge the receipt of your letter of the 22nd ulto. reporting upon the holdings of the New England Company in the Township of Brantford; and in reply I beg to inform you that the Department has been furnished with a copy of the Surrender made by the Six Nations Indians on the 19th October, 1827, of the Parsonage property, from which you will see that a trust was created covering the property surrendered to His Majesty, George IV, which was to be reserved for a residence for a missionary of the established Church of England and to his successors in office forever. This being the case a title in fee simple cannot be conveyed to the Company under this Surrender A copy of the Surrender in question is enclosed herewith for your information.

The question of disposing of the Manual Labor farm will require further consideration.

From your report the Department would understand that the Institute has been rebuilt, but as this is the only official information it has received of the fact, it would like you to furnish it with full particulars on this point.

The question of increasing the number of grant earners

SCHOOLS
MAY 10 1905

Dear Sir

In further reference to my letter of the 11th May 1903 and reply thereto dated 22nd May 1903 I am authorized by the New England Company to make application for financial assistance owing to the large amount expended in re-building the institution. I therefore make application for a grant of three thousand dollars for installing efficient fire protection.

I have made arrangement with the Water Commissioners of the City of Brantford to extend their mains to the institution and to put on 4 hydrants.

It is intended to place two stand pipes with hose attachments in the main building and to obtain a supply of hose for the outside hydrants, the total cost will exceed three thousand dollars.

I enclose herewith a schedule showing the amount expended in new buildings and the value of the property to be protected

Your obedient servant

R. Ashton

Department of Indian Affairs.

OTTAWA, 12th May, 1905

ACCOUNTANTS
MAY 12 1905
BRANCH

The Deputy Superintendent General:-

Rev.Mr Ashton, Principal of the Mohawk Institute informs the Department that he has been authorized by the New England Company to make application for financial assistance owing to the large amount expended in rebuilding this institution. He states that he has made arrangements with the Water Commissioners of Brantford to extend their mains to the institution and to put in four hydrants. The cost of this work will exceed $3000.00, and he asks for a grant of $3000.00 to pay for installing the water so as to have efficient fire protection, and he intends to place two stand-pipes with hose attachments in the main building.

The Mohawk Institute was burned down in April 1903 and has since been rebuilt at a total outlay of $32,940.00. Mr Ashton gives a list of the new buildings showing the amounts expended.

When reporting the destruction of the old building by fire on the 11th May, 1903, Mr Ashton quoted from a cable from the New England Company, giving their decision to rebuild the institute and asking whether the Government would contribute, to which letter the Department replied on the 22nd May of that year that his application on behalf of the New England Co. for financial assistance in rebuilding the institution would receive consideration when a definite proposition was submitted. The institution is now rebuilt

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

and this is the first application we have had for a grant

If the Department is disposed to consider Mr Ashton's application favorably, I do not see that the money could be better expended than im providing adequate water service and fire protection. The last fire was incendiary and attemptsnto burn down some of the buildings had been made on previous occasions, by pupils who resented the strict discipline maintaimed at this school. The discipline is still exercised and some of the pupils may agaim retaliate by firing the new buildings. No insurance that can be effected will cover the loss of the buildings. When it is considered that the Department will have to bear the whole cost of rebuilding the Qu'Appelle school, the application of the New England Company is moderate. They have been carrying om educational work at Brantford and om the Six Nations reserve for over seventy-five years and it was only in 1892 that the Department was called upon to contribute towards the maintenance of pupils at this institution.

The Deputy Superintendent General:-

In reply to your enquiry I beg to say that holidays are not general at the Brantford Industrial school. Class-work is discontinued for six weeks during the months of July and August and very few of the pupils are allowed out of the school during that period. The Principal assumes the responsibility of granting holidays in special cases. It is not the practice to allow all the pupils to go from any of the Industrial schools.

ACCOUNTANTS
AUG 28 1905
BRANCH

288590

Sir,

On the 17th. instant, I made a thorough inspection of the fire protection which was lately installed in the Mohawk Institute. I also made thorough test as to the efficiency of the water supply. I found that the ordinary force was sufficient to throw the water over the Institute Institution, and is sufficient for any fire which might occur to the Institute or any buildings on the premises. In case of fire the extra force will of course make the protection far better. The fire protection comprises as follows,-

4 hydrants with valves, hose and branches.
2 Standpipes through the building with a hose valve and branches attached on each flat.

4 Underwriters Chemical Fire Extinguishers.
3 dozen Blazekiller tubes.
2 Axes.
1 32' and 1--40' Extension Ladders.
9 Fire pails.

SCHOOLS
AUG 24 1905

The cost of installing the fire protection is $3221.73, I beg to enclose account in duplicate with vouchers for this amount and beg to recommend that the same receive your consideration in reference to the Government paying the same.

I am

Fixed.

MEMORANDUM:

Deputy Superintendent General.

I find upon this file a voucher in favor of the Principal of the Mohawk Institute for the cost of the fire protection lately installed there. No special provision has been made for the payment of this amount but when the letter of the 2nd June was written I had in contemplation making a recommendation to pay $3,000.00 to assist this necessary work from the current appropriation which I thought would bear the cost. Of course last year's appropriation has now lapsed but there would have been sufficient money on hand to pay this claim had it been taken out before the books were closed. I feel safe, therefore, in recommending that the same amount, $3,000.00, be paid from the current year's appropriation. Superintendent Cameron reports that the ~~protection~~ apparatus is efficient.

F. Pedley, Esq.,

Deputy Superintendent Indian Affairs,

Ottawa, Ont.

Dear Sir,-

Pursuant to our conversation re claim of J. Alexander for loss by fire, I now beg to enclose you his letter showing amount of his loss and claim. His argument is that the ~~school~~ Barns having been fired by certain Indian Boys who are supposed to be wards of the Government that, he should have consideration for theloss sustained. He figures that his net loss is some where about $4,000.00 and has asked me to lay the matter before the proper authorities. Personally I think his case is one of hardship. There was a general idea abroad that the Indian boys fired his premises and the Court that tried them evidently took that view, their sentence, however, was not increased over and above the amount that they were called upon to remain in prison in Mohawk Institution. Sent to fire

If the Department has a Fund out of which they could make good at least a portion of this loss, I think it would be

Ottawa, 27th March, 1906.

Dear Sir :-

Referring to your favour of the 23rd inst., in re the claim of Mr. J. Alexander for loss sustained by fire in May, 1903, I beg to say that the question of compensation by this Department was submitted by your predecessor, Mr. Heyd, and after giving the matter careful consideration the Department wrote him on the 18th September, 1903, stating that it had "learned with exceeding re-
" gret of the serious loss sustained by Mr. Alexander,
" whose property was destroyed by fire at the time the out-
" buildings of the Mohawk Institute were burned. The De-
" partment would be very glad (if such a thing were possib-
" le,) to extend pecuniary aid to Mr. Alexander as compen-
" sation for his loss. It is, I am sorry to say, quite
" out of the question for this to be done, as the Department
" is not responsible for the destruction of the property
" referred to, nor are there any funds which could be ap-
" plied towards assisting Mr. Alexander. "

W. F. Cockshutt, Esq., M. P.,
House of Commons,

April 25th., 1906.

Sir,- File NO. 154845/1.

I beg to acknowledge receipt of yours of 14th Inst. in reference to the application of Matthew Debo, Cornwall Island, for the release of Jesse Debo who was committed to the Mimico Industrial School in July 20th.,1903,for being concerned in setting fire to the Mohawk Institution here.

In reply I beg to report that the following pupils of the Mohawk Institution were sentenced on July 20th. 1903, by Judge Hardy, County Court Judge without a Jury, as follows:-

Roy Wilson	Mimico Industrial School	5	years.
Abram Maracle	" " "	5	"
Jesse Debo	" " "	3	"
Josiah Antonie	Kingston Penitentiary	3	"

Jesse Debo's sentence expires on the 19th of July next. These were implicated in setting xø fire to the Mohawk Institution, Mohawk Barns, where several heads of stock were destroyed and the Mohawk play-house where the boys were sleeping after the Mohawk Institution was destroyed. They were also convicted of setting fire to a large barn of one Alexander whose farm adjoins the Mohawk Institution. The Judge sentenced each of the above to the same period for setting fire to the Mohawk Institution buildings and

154845/1

Ottawa, December 9, 1907.

Sir,-

Mr. Superintendent Smith, of the Six Nation reserve, states that numerous complaints have been made against the Mohawk Institute, which are as follows:-

Some of the parents of pupils of this institution think that, instead of the interest money going to Mr. Ashton, it should be payable to the children, with which to purchase clothing. The Principal is not entitled to receive annuity money for pupils without the consent of parents, and if he does so it should be expended for the children's benefit.

Another complaint is that Mr. Ashton keeps the children at the institution longer than he agreed to and that they are made to work on the farm. The application for admission which is signed by all parents provides for their retention in the school until the age of eighteen years and the Principal can not sanction their discharge before arriving at that age without the consent of the DePartment. The half-time system which is in vogue at all the industrial schools should apply to pupils at the Mohawk Institute.

J. G. Ramsden,

Inspector of Indian Agencies,

Toronto, Ont.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

The Superintendent asks to have his relationship with the Mohawk Institute clearly defined. This institution is conducted by the New England Company and is in receipt of a per capita grant of $60 per pupil from the Department; and so long as it accepts the per capita grant, the Agents and Inspectors of the Department are entitled to visit and inspect the school and make reports thereon, the grant being contingent upon the satisfactory reports of those officers.

You will be good enough to visit the school and report fully on its condition.

Your obedient Servant,

O'REILLY

J.D.McLean, Esq.,

Secretary, Dept. of Indian Affairs,

Ottawa, Ont.

Sir:-

In reply to your letter of the 9th inst. I have to report as follows;

With reference to the complaint that the Principal of the Mohawk Institute receives interest money of pupils - Will say that at last fall's pay he received the aggregate amount of $94.50, a large proportion of this amount is taken from pupils with no parents, or with one parent whose home has been broken up. Where the parents are alive and looking after the welfare of their children the Superintendent does not receive any money from such pupils. The interest money retained from the sources enumerated is placed to the credit of the pupil in a separate account. The pupil is given from time to time any necessary small amounts for holidays and soforth, or for any special material for wearing apparel. These amounts are charged up against the interest money, and on the child leaving the Institution it is given whatever balance is left. This appears to me a good system and well carried out. Occasionally there is a pupil kept beyond the age limit, but there are always good reasons for so doing.

With regard to time given for education - I found that the junior forms were given full time at studies, and not required to work half-time until 3rd form was reached. The scholars are making satisfactory progress and are very neat in their general appearance. The school is kept scrupulously clean in every particular. I consider the Institution wel

managed and under good discipline.

I cannot say that I was favorably impressed with the sight of two prison cells in the boys play house. I was informed, however, that these were for pupils who ran away from the institution, confinement being made for a week at a time when pupils returned..

In connection with the discharge of pupils from such Institutions as the Mohawk - I would think, that it would be worth considering an amendment should be made to the Indian Act that would permit of the enfranchisement of Indians who have succeeded well at school and whose conduct had been exemplary, and who had received positions to enable them to support themselves, and could be endorsed by the Principal. Then it would appear to me if some such conditions as these were fulfilled it would be much better for these pupils to cease to be Indians and any further wards of the State, and then I take it that these Institutions would be a real benefit to the Indians and the State.

If I were in Mr.Smith's position I would have no hesitation in discussing with the Principal any complaints that came to me, and if not satisfactorily explained, or disproved, report to Department. Mr.Ashton gave me the fullest possible freedom and courts any further inspection.

Your obedient Servant,

J. G. Ramsden

x x x x x

Mr.. John Alexander's application : With reference to the application of Mr. John Alexander for compensation for the fire loss which he sustained from the destruction of his farm buildings and stock caused by pupils of the Mohawk Institute,

Council refused to assume responsibility : The Council after serious consideration decided that the responsibility does not rest with the Six Nations Council as the one of the pupils who set fire to the buildings "Antone" does not belong to this reserve, and further as the parents of children attending that institution are compelled to sign an agreement with Superintendent Rev. R. Ashton that the children must become fully under his charge and control during the time that they remain at the institution,

The Council therefore consider that Mr. Ashton, or the New England Company, are responsible and not the Six Nations.

re John Alexander's application.

On the 4th day of May, 1903, two boys Roy Wilson and Isaiah Antoine, pupils at the Mohawk Institute of Brantford were tried before the County Judge's Criminal Court of Brantford and found guilty of setting fire to the buildings of John Alexander, who lives in the near neighbourhood of the Mohawk Institute. Mr. Alexander claims that he lost $5700. less $1,665. paid by the Insurance Company, leaving $4035. At this Council meeting the matter came up and the Chiefs decided that they were not responsible for the action of the two boys as they were in charge of the Institute. I beg to recommend that you approve of the decision of the Council.

J. D. McLean Esq.

Asst. Deputy and Secretary
Department of Indian Affairs
Ottawa

Dear Sir.-

Enclosed herewith Agreement in triplicate duly signed and sealed by the New England Company re the future maintenance and management of the Mohawk Institution.

Please be good enough to amend Clause (I) to read 120 pUpils, as per your letter No 154845/5 of March 22nd. 1911.

Also Clause (4) to read "Or Mohawks of the Bay of Quinte".

Yours truly

Principal

Dear Sir, -

Will you kindly forward "Amended fixed scale for the payment of the Capitation grant for Industrial and Boarding Schools."

The Mohawk Institution will now, according to new agreement receive $100.00 per head for 120 pupils.

We are at a loss to know how to charge for a pupil not attending the full quarter.

I have the honour to be
Sir.
Your obedient Servant

Ottawa June 24, 1911.

Sir,-

In reply to your letter of the 21st instant I beg to inform you that under the new arrangement for the future maintenance and management of the Mohawk Institute, the per capita grant will, from April 1st last, be calculted on the total average days attendance of the number of pupils authorized and, not as was formerly, on the individual days attendance of each pupil.

There will therefore, be no scale of payment required and it will not be necessary to fill in the column of the quarterly returns under the heading "Amount payable for each pupil"

Sir,

No. 22

Complaint was made to the council on the 3rd. inst. by George W. Miller and Jeff D. Isaac that their children attending the Mohawk Institute were being poorly- fed and subjected to indignities, so mush so that they were compelled to run away. The council decided to ask the New England Company to hold an investigation. As far as I can find out the charge of under feeding is that the children are given separated milk and the indignity complainted of is that the girl's hair was cut off. Major Ashton the Superintendent told me that he was quite ready to meet an investigation at any time as he did not consider that these charges were well-founded. He admitted that the children have been given separated milk and have had it for the past 15 years at least.

I am

Sir

The Superintendent,
Department of Indian Affairs,
Parliament Buildings,
Ottawa, Ont.

Dear Sir: Re. Mohawk Station.

On behalf of George W. Miller and Jefferson D. Isaac (Ohsweken P. O.) Indians of the Six Nations Reserve settled on the banks of the Grand River between Brantford and Lake Erie in the Province of Ontario we are writing you in regard to the management of the school established by New England Company and which is now called the Mohawk Industrial School, Brantford.

Our clients say that the children are being punished from time to time in a shameful manner for trifling offences and that they are treated from time to time as though they were criminals. For instances, boys are whipped until they are cut, girls have had their hair cut off close to the scalp, for punish-ment, and parents are not allowed to see their children if they (the children) happen to be under punishment at the time.

Again our clients say that the children do not get sufficient and proper food. Separated milk, spoiled meats and

wormy oatmeal are used at times. The discipline consists of severe whippings, confinement in rooms, walking about in circles and in fact punishments adopted are similar to the practices in this behalf in criminal institutions.

The Secretary of the Indian Council of the Six Nations Reserve has written us stating in effect that the Council is willing to pay the legal and Court expenses to have this matter throughly investigated. We are satisfied that your Company is not aware of what has been going on in this Institution as regards the children and the management of the school. The stories told by our clients about this Institution make one feel as if civilization is receiving a set back here. If the parents complain to the Principal they (the parents) are peremptorily ordered by the Principal to take their children to their own homes. Proceedings in the Courts for unlawful assault and excessive punish-ment have been threatened and must be taken against the parties responsible for the management of this Institution.

We shall be pleased to hear from you promptly.

Yours truly,

Memorandum, -

Hon. Dr. Roche.

Messrs. Kelly & Porter, Barristers, Solicitors, etc., Simcoe, Norfolk county, Ont., by letter of the 29th ultimo, copy of which is herewith inclosed, called the attention of this Department to an alleged serious state of affairs at the Mohawk Institute, Brantford. I would suggest that a competent and disinterested commissioner be appointed to take evidence under oath for the purpose of getting at the facts and reporting same to the Department. Our Inspectors, of course, have the necessary authority to conduct an investigation of this kind if such ~~xxxxx~~ be thought advisable.

OTTAWA. October 28th. 1913.

MEMORANDUM

re Brantford affairs.

Hon. Dr. Roche -

I have looked into the matters complained of by a couple of Indian clients of Messrs. Kelly & Porter, Barristers, Solicitors, etc., Simcoe, Ont., with reference to the management of the Mohawk Institute. The rules governing the disciplinary action in the case of misdemeanours by pupils, are I think antiquated, and I have set in motion action which I think will result in benefit. Corporal punishment is not used frequently and the children are whipped with a strap allowed by the Department of Education, Ontario, but I do not believe in striking Indian children from any consideration whatever. If children resident in the schools prove themselves continuously so untractable as to require physical punishment, they should be discharged from the school.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

This school is not a reformatory, and there are at the present time 80 pupils on the waiting list, which is sufficient evidence of its popularity, and with this large number of applicants to choose from it would be folly to continue pupils in the school who are constantly fighting against the rules.

I find that the children are given separated milk to drink, which I think should not be allowed. At least the usual per centage of butter fat should be left in the milk, and it should not be stripped of all its cream as it seems to be at present. The Principal tells me that they had a box of oatmeal once which was wormy, and it was served once on the table before this was noticed, but it was not served again. I think they have too much boiled meat to eat at the school, and we will have a change made in that respect.

I have written the enclosed letter to Messrs. Kelly & Porter. I find that the whole trouble has at the bottom denominational jealousy. It appears that some time ago the Church of England started a

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

mission at Oshweken, a stronghold of the Baptist Church, and there has been friction ever since. The two complainants, George W. Miller, and Jefferson D. Isaac are Baptists.

There is no necessity whatever for an investigation, and if we were to allow it, it would only be considered a triumph, first of these men personally, and second of their faction.

You will observe that I told the lawyers that if their clients wish to take proceedings in the court they are at liberty to do so. Mr. Ashton is quite willing to defend himself against any legal action, and I think if we take this stand we will not hear very much more of the matter.

Deputy Superintendent General.

October 30th. 1913.

Gentlemen,

As it was necessary for me to visit the Six Nations Indian Reserve at Brantford, the Hon. the Superintendent General asked me to look into the matters to which you refer in your letter of the 29th. ultimo. I did so, and came to the conclusion that no necessity exists for the investigation which is asked for by the Indians mentioned.

That it is a popular Institute is shown by the fact that the waiting list contains the names of 80 children whose parents are anxious for them to attend, but for whom there are no vacancies. This school is under the close supervision of the Indian Superintendent at Brantford and is also inspected by the inspectors of the Department, and any minor improvements in discipline and dietary can and will

Dear Sir

Major Ashton is away taking a fortnights vacation with the hope of improving his health which has been bad lately from nervous dyspepsia. When he returns he will at once forward you our system of Rewards and Punishments, the latter being mostly the stoppage of privileges.

We at Tabor acted on your suggestion to give the junior school a recess in the middle of the afternoon. School stops for a quarter of an hour at a quarter to 3.

Mr Wibb clerk to the New England Company has forwarded us a copy of Tilley & Porter (Solicitors) letter to them at the instigation of Geo. Miller and Jefferson Isaac. Major Ashton will have this on his return. I must say it is the most grossly exagerated lying statement I ever read yet there are glimpses of truth in it, for instance the separated milk and the wormy oatmeal (the latter occured three only in my experience) and the sending home of the children of the two dissatisfied men - I know they are very angry about this

they have gone about the Indians telling them "they took their children from here because they had not enough to eat". I trust it may give them a lesson to speak the truth. There are hundreds of our old pupils who would give this Institution a very different character or why are they so anxious to send their children here.

I enclose our dietary at your request

Sincerely yours

A. C. Ashton

Mohawk Institution Brantford Ont.

November 19th 1913

Dear Mr Scott,-

I enclose herewith a copy of our award of Good Conduct Badges and our Black List Regulations as requested on your recent visit. These rules have been in force for many years and have been approved of by the New England Company.

I will further explain our system of reports for misdomeanors.

We will say for instance that Sarah Hill employed in the kitchen department has been checked by the officer in charge two or three times for idling, and when last spoken to has been impudent to the instructress. A report is made out--------

Nov 10th 1913

S. Hill -----continually idling, and impudent when corrected.

Sgd. S. Bonehill.

This report is deposited in a box in the visiting-room and remains there until Saturday Morning when it is entered in the report book, and when the punishment is awarded by the Principal , the the offence and punishment are recorded in what is called the "Character Book", a book in which every offence and punishment awarded to every pupil is recorded from his or her admission to their discharge.

Thus you will see a pupil is never punished hastily or in anger, and time is given for thorough investigation.

The punishment must of course depend on the offence but in ordinary cases it is the depriving of privileges, such as loss of play-time or the half-day holiday in the week.

Corporal punishment (the strap) Government authorized is only used in serious cases, and as we do not have very many it rarely takes place in this school, but when it is ordered it is done not only for the benefit of the culprit, but for the school as a whole.

I have never whipped a girl since my appointment as Principal, nor during my long service under my former Principal and Boys'Master and never will do so unless punishment is absolutely necessary for a girl.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

it is always given by the Governess or in her absence by the female officer in charge.

The cutting of girls'hair(but only in the case of small girls) has been ordered on several occasions viz-
Firstly---If a girl will not keep her head clean.
Secondly--In case of absconding, in lieu of a more severe punishment,(for the purpose of identifying the child if she attempted to abscond again) and as an example to the others.

This is only done on rare occasions and is never ordered except in the case of small girls, whose hair usually only reaches to the shoulders. (The Dutch Cut)

No girls hair has ever been cut to the scalp.

No parent or guardian has ever been refused since my appointment ,permission to visit their children when on the Black List or under punishment.

Bread and water is given the Black List on Sund only.

Solitary confinement is generally ordered instead of corporal punishment in cases of gross insubordination, but as this offence is not very often committed, this punishment is seldom awarded.

In regard to the Black List Rules I have modified these in many ways .I very rarely keep a pupil on for more than two weeks, it depending on the spirit of the pupil.

I also take into consideration the temperment of the student.

Yours very truly

Principal

Duncan C Scott Esq

December 3rd, 1913.

MEMORANDUM -

The Hon. Dr. Roche -

With reference to the charges which have lately been made against the administration of the Mohawk Institute, Brantford, Ontario, I have to report that I visited the Institute on the 25th day of October and went very thoroughly into the matter with the Principal. I was entirely averse to having a formal investigation made into these charges. It is not a new thing to receive complaints from Indians making various charges against the management of our schools and necessary investigations are always made by our own Inspectors. To have granted an investigation by a Commissioner would only have gratified these Indians whose hostility to the Institute simply arises from personal feeling and is actuated by the hope of giving trouble.

The Mohawk Institute is one of our best conducted schools and I have frequently visited it in the past. On this last occasion I found that the school was doing the usual effective work. An explicit charge was made that the food furnished

ed

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

furnished the pupils was insufficient and that separated milk and wormy oatmeal were served to them. The Principal acknowledged that the separated milk had been issued and that on one occasion it was discovered that the oatmeal was wormy when they immediately discontinued the issue. Milk as it comes from the cow will from this time forward be used for drinking purposes. Since my return the Principal has forwarded a dietary of the school which I wish to bring to your attention, although it is wholesome and in plenty. it might be varied with good results

He also sent me a code of discipline; this has been in use so long in the Mohawk Institute that it is difficult to change it. However, I think I left on the mind of the Principal the impression that I considered it too severe. As time goes on it will be possible perhaps to relax it and improve the spirit of the school without weakening the control of the officers. I have visited most of our schools in the Dominion and I find that the pupils at the Mohawk Institute have a less cheerful spirit than those at some other Institutions.

I went over the main building once more and there are two things which I disapproved of, - the location of the dining-room in the basement is very objectionable; the quarters are dull and cheerless, and the officers agree with me in this criticism. The dormitories on the second floor could not be better - they are fine and airy and scrupulously clean. The dormitory on the third floor, where some of the girls have slept for some time is not properly designed for a dormitory. The Department

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The Department has consented to allow the similar room on the other side of the house to be fitted up for the boys. Both these rooms are objectionable. I have asked the Architect of the Department to prepare a plan for the raising of the walls in order to provide two well ventilated rooms on the third floor and likewise to provide for the erection of a new dining-room. If the New England Company will provide these dormitories the Department will grant funds for the additional pupils. Both these requirements should be met without evitable delay.

I understand that there are over 50 pupils on the waiting list of this school and there is no reason why the benefits of the Institution should not be extended to a greater number of the children on the Reserve.

[redacted] Schools

Mohawk Institution Brantford, Ont.

DEPARTMENT OF INDIAN AFFAIRS DEC 1913

437858

Sir,-

I have the honour to report in reference to your letter of November I8th in regard to the discharge of the two Miller children.

Mr G.W.Miller's children were discharged from the Mohawk Institution for the following reasons:-

Mr Miller requested the discharge of the older girl, stating that he thought he could manage her better.(I have this letter on file).

SCHOOLS BRANCH DEC 1 1913

Both girls absconded from the school, and the conduct of the older one was particularly bad, having been guilty of destroying Institution property, 2 quilts and a sheet, converting them into clothing to runaway in).

Mr Miller then laid complaint against the management of the Institution.

As he lived near one of the day schools (Ohsweken) and as he was able to support his children, I thought it better to let him have them, thus giving him an opportunity of training them as he wished.

Many parents who live a long distance from a school and would be grateful for the privileges of this Institution for their children have to wait on account of lack of accommodation.

SCHOOLS BRANCH DEC 5 1913

It is time the Indians were taught to appreciate the good work done for their children in this ~~Institution~~ school.

It has been a great surprise to me that the Six Nation Council has taken up the matter in the way they have, when they must and do know that this institution has been the greatest assistance to their advancement.

Your obedient servant

A. Miller Ashton

Sir,-

Referring to official letter of the 19th ultimo I beg to say that Mr. Ashton, Principal of the Mohawk Institute, has furnished the Department with a report giving his reasons for the discharge of the Miller children. A copy of Mr. Ashton's report is enclosed herewith, in order that you may advise the Indian Council why this action was taken by him.

Your obedient servant,

J. D. McLEAN

On hearing the communications between George W. Miller and his Solicitors, re the proposed action to be taken against the Principal of the Mohawk Institute for ill treatment of children and in accordance with a resolution of the Council of September 3rd last offering their support to a prosecution. The Council decided to make a deposit of $100.00 with Kelly and Porter Barristers of Simcoe, Ont on account of costs on behalf of the Indians in order to proceed with the action, and the Council further decided to ask the Department to send a cheque of $100.00 to Treasurer Chief J. S. Johnson.

OTTAWA, ONTARIO.

Dear Mr. Scott;-

We are having some trouble in regard to two Indian girls who were pupils in the Mohawk Institute here.

I am acting for the Institute and would like to have a copy of any regulations now in force in regard to such schools. I presume this school has been declared an Industrial School under Section 9,10 and 11 of the Indian Act. If you would send me a copy of the regulations I would appreciate it.

Yours truly,

W. S. Brewster

F.X.D.

Dear Mr. Brewster,-

Complying with your request of yesterday's date, I have pleasure in sending you herewith copy of the Regulations Relating to the Education of Indian Children; you will notice by a reference to Section 8 that all industrial and boarding schools receiving a per capita grant from the Government are declared to be industrial and boarding schools for the purposes of Sections 10 and 11 of the Indian Act.

Incl.

Yours truly,

Deputy Superintendent General.

Indian Office, Brantford,
February 23., 1914.

462767

Sir,-

On the 25th of November last the Council decided to make a deposit of $100.00 with Kelley & Porter, Barristers of Simcoe on account of costs in an action institute by them on behalf of George W. Miller against the Principal of the Mohawk Institute. The action has now been commenced and the Secretary of the Council has requested me to make application for this grant. The Council is of opinion that it is a public matter as the action will be for the benefit of all children attending the Mohawk but there are others who are not of that opinion and I am inclined myself to think that this is a private matter between George Miller and the Principal . He usually has a waiting list of 75 or a hundred which is good evidence that his school is popular amongst the Indians or amongst a large proportion of them.

Ottawa, February 28, 1914.

MEMORANDUM.

Mr. Scott,-

In looking over the correspondence relating to the charges made against the administration of the Mohawk Institute I find that Mr. George W. Miller has taken action against the Principal of the institution and that the Six Nation Council, at a meeting held on the 25th of November, passed a resolution offering their support to the prosecution by making a deposit of $100.00 with Messrs. Kelley & Porter, Barristers of Simcoe, on account of the costs in this action, and have requested the Department to send a cheque for this amount to the Treasurer, Chief J. S. Johnson, for this purpose. As this is a personal matter between Mr. Miller and the Principal I do not think that the Department should approve of the resolution.

Ottawa, March 3, 1914.

Sir,-

I have to acknowledge the receipt of your letter of the 23rd ultimo referring to a resolution of the Six Nation Council of the 25th of November, last, which decided to make a deposit with Messrs. Kelley & Porter, Barristers, Simcoe, on account of the cost of the action instituted by Mr. George W. Miller against the Principal of the Mohawk Institute.

In reply I beg to say that the Department does not approve of this resolution and no grant will be made for this purpose.

Damages for Plaintiff

(Continued from Page 11)

"No. I am not, for she told me herself."

"Did you put it down?"

"Yes."

"Where?"

"In my train."

Counsel then gave up, with a laugh.

MARY HEARNS

Mary Hearns saw Ruth's back after the whipping and testified that Ruth had said it did not hurt her, and she did not care a bit. Ruth had said later that she would run away and tell a lot of lies so she would not have to come back.

Cross-examined she stuck to her story that Ruth had said it did not hurt. Witness declared that the whipping was not severe, for Ruth had said it didn't hurt and she wouldn't care if she got another.

EVELYN MILLER.

Evelyn Miller, cousin of the plaintiff, heard the whipping but five or six times. She corroborated the two previous witnesses as to Ruth's remarks.

EVENING SESSION

Court having adjourned at 6.45 it was re-opened at 7.45 and examination resumed. One of the jurymen did not get to the jury box until all the available constables had been sent in search of him. He finally arrived at 8.02, and explained that he thought court was to reopen at 8.15.

ADA MARACLE

Ada Maracle was first called. She saw Miss Weatherall going upstairs to whip Ruth, having a strap, and not a whip, in her hand. The witness had been in the schoolroom at the time, reading.

Cross-examination failed to swerve her a point from this evidence. In four years at the school she had never seen the rawhide. Further, she was positive that the rawhide had never been used since Mr. A. Nelles Ashton became principal.

"The principal would not swear to that," commented Mr. Kelly, who endeavored to break this evidence down on the ground that she was arguing, not giving reasons for the belief she held. All his efforts failed.

SARAH HILL

Sarah Hill saw Miss Weatherall bring out the strap from where the whipping took place, and lay it on the table in the sewing room. She did not know where the strap was kept. Conditions had not changed since the cases were brought on. "We get a whipping if we deserve it," said she, adding that there was no need for rawhide whipping for none of them deserved it. Mr. Kelly continued grilling the witness to endeavor to force some knowledge of the rawhide, and the result was that, without a murmur she stood it until she collapsed utterly in a dead faint and had to be carried out of the witness box. Despite her weakening given.

BEATRICE JAMIESON.

Beatrice Jamieson had also seen Miss Weatherall with the strap.

Time after time she repeated that Miss Weatherall used the strap, because she had the strap. Again and again Mr. Kelly tried to shake this, but could not do so, and his lordship suggested a different phrasing of the questions. This was if she had any other reason for thinking she had not used the whip. "I saw her with the strap," was the reply, and with this Mr. Kelly had to be content.

LAURA HOWARD.

Laura Howard was called and stated that she had seen Miss Weatherall with the strap. Mr. Kelly did not cross-examine.

MILDRED LOTTRIDGE.

Mildred Lottridge had had her hair cut at the institution like a boy. She did not want it done, but it was done because she ran away. It has grown just as long as ever.

ALICE SNAKE.

Alice Snake had also had her hair cut off like a boy's, and it was now longer than ever. Her head was sore.

ELIZA SNAKE.

Eliza Snake had her hair cut to be like her sister. Hers, too, had grown again.

ABOUT OATMEAL.

Mr. Ions, working at Wood Bros.' [illegible] had secured oatmeal from them —the best they had—but it was returned to them because it was wormy. Cross-examination brought out that this could not be prevented during warm weather.

That rested the defence

RECALLED TO STAND.

Edith Isaacs was recalled to the stand, Mr. Kelly asking her if she had seen marks on Ruth Miller's back.

Mr. Brewster protested that Mr. Kelly was making his case out and not calling in rebuttal.

His lordship upheld the objection, as Mr. Kelly had brought out his question before in the first hearing and if he had not made out his case then it was not right to reopen it on the plea of replying.

Helen Clinch, recalled, stated that before Principal A. N. Ashton's time Mary Garlow had been whipped with a rawhide on the bare back.

Address of Counsel

The counsel then addressed the jury. They went over the points of the case, Mr. Kelly maintaining that a case had been proven, while Mr. Brewster held that the case was not proven. He believed that with the Indian's love for litigation the chiefs had, after an investigation, brought on the action. It was an endeavor [illegible] the institution for other

his actions were necessary for the discipline of the school. That rested on whether she used reasonable punishment or not ,and whether the interference with the children's liberty was warranted or not.

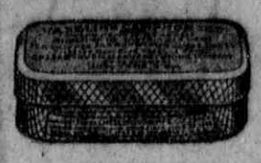

His lordship asked the jury to find:

Most people would be benefited by the occasional use of

The counsel then addressed the jury. They went over the points of the case, Mr. Kelly maintaining that a case had been proven, while Mr. Brewster held that the case was not proven. He believed that with the Indian's love for litigation the chiefs had, after an investigation, brought on the action. It was an endeavor to belittle the institution, for otherwise they would have had the matter investigated elsewhere. The sting evidently was that the girls had been discharged from the school. It was peculiar that the girls complained of being discharged and also of being ill-treated.

In his address Mr. Kelly asked why Miss Weatherall had not been called to testify. It was said that the raw-hiding had been stopped, about time it was stopped. The punishment was not moderate. In conclusion he asked for damages to show that such a thing should not be allowed to go on.

HIS LORDSHIP

His lordship then charged the jurors to consider their verdict solely upon the evidence given during the trial. They were to consider whether Mr. Ashton had treated the two children properly, undoubtedly some one should receive praise for the brightness shown by the school children in giving their evidence, this credit going either to the parents or to the school. A school principal had the power to punish the child in a reasonable way, but the institution was not a penal institution. The question then arose as to what would be reasonable chastisement. Specific consent to the rules had not been shown. Therefore the question was, whether reasonable punishment had been meted out or whether this was excessive. It was further a question for the jury to decide whether Mr. Ashton had been legally entitled to cut the girls' hair. Then the question arose as to whether Ruth Miller was interfered with outside of what was needed for the reasonable conduct of a school, when she was put in a cell. Finally there was the question as to whether Ruth was beaten with a stra, or a rawhide, if she was whipped too severely, and whether the girls were fed on bad food.

Mr. Ashton claimed, he said that his actions were necessary for the discipline of the school. That rested on whether she used reasonable punishment or not ,and whether the interference with the children's liberty was warranted or not.

His lordship asked the jury to find: Whether or not there is liability, and if there was liability, how much damages was to be assessed for Hazel and how much for Ruth on the hair cutting, then how much was to be allowed each for their confinement, to Ruth for her whipping and how much to each for the alleged bad food, if liability there were.

The jury retired shortly after 11 o'clock.

THE WOMEN'S MAGAZINE.

Owing to the increased demand for the Woman's Magazine, we have decided to continue the offer until April 1, 35c instead of $1.35; 12 copies of the Woman's Magazine at 10c, $1.20; 1 fashion book, 13c; 1 New Idea pattern, $1.35. Instead of $1.35 our special offer to you 35c; a saving of $1. But you must act at once. This offer is made by special arrangements with the publishers and holds good until April 1, so some to this store to-day. J. M. Young & Co.

GRAND TRUNK NEWS ITEMS.

Advices received at Grand Trunk Pacific headquarters here state that some thousands of men will begin work next month on the construction of the most northerly section of the Pacific Great Eastern Railway, which will link up the Grand Trunk Pacific main line at Fort George with Vancouver and other British Columbia points. Mr. J. W. Stewart, who has spent the greater part of his life in railway building in the mountains of this continent, is on the spot and has charge of operations. Contractors who have finished work on the Grand Trunk Pacific are massing a million dollars' worth of appliances on the route of the Pacific Great Eastern. By the end of the year there will be a continuous grade from North Vancouver to Fort George. A bridge will carry the traffic over to Vancouver proper. Sir Richard McBride, on behalf of the British Columbia government, which is heavily interested in the proposition, says the cost of the 480 miles of line will be at the rate of about $58,000 a mile. Sir Richard says: "If there was nothing else to justify the building of this road to Vancouver than the construction of the National Transcontinental, I think that circumstance in itself would be ample; and when we couple with that fact the wonderful wealth of the intervening territory that lies between Fort George and the city of Vancouver, we have such a complete and fascinating story that it would be difficult indeed for any person interested in the province to refrain from going into ecstacies over the possibilities of development." The premier of the province of British Columbia looks forward to the time when the Pacific Great Eastern will be extended to the Peace River country and also have connections with Alaska. He believes that the time has come for the building of a railroad through northern British Columbia to the Yukon and Alaska. The extension of the Pacific Great Eastern into the Peace River country would make, he thinks, a splendid initial step towards the construction of a north and south railway.

Along the line of the Grand Trunk Pacific mixed farming is being actively encouraged, but railway men report that since the inauguration of the compaign for the encouragement of live stock breeding and mixed farm

Vapo-Cresolene

ESTABLISHED 1879

A simple, safe and effective treatment for bronchial troubles, avoiding drugs. Vaporized Cresolene stops the paroxysms of Whooping Cough and relieves Spasmodic Croup at once. It is a BOON to sufferers from Asthma. The air carrying the antiseptic vapor, inspired with every breath, makes breathing easy; soothes the sore throat and stops the cough, assuring restful nights. It is invaluable to mothers with young children. Send postal for descriptive booklet.

ALL DRUGGISTS.

Good Fires Depend Upon Good Fuel

ESTABLISHED John Mann & Sons 1868

BREATHE FREELY! OPEN NOSTRILS AND STUFFED HEAD—END CATARRH

Instant Relief When Nose and Head are Clogged from a Cold. Stops Nasty Catarrhal Discharges. Dull Headache Vanishes.

Try "Ely's Cream Balm."

Get a small bottle, anyway, just to try it. Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning! the catarrh, cold in head or catarrhal sore throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharge and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake to-night struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucous dropping into the throat, and raw dryness is distressing, but entirely needless.

Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.

Instantly Relieves Swollen, Inflamed

never been used since Mr. A. Nelles Ashton became principal.

"The principal would not swear to that," commented Mr. Kelly, who endeavored to break this evidence down on the ground that she was arguing, not giving reasons for the belief she held. All his efforts failed.

SARAH HILL

Sarah Hill saw Miss Weatherall bring out the strap from where the whipping took place, and lay it on the table in the sewing room. She did not know where the strap was kept. Conditions had not changed since the cases were brought on. "We get a whipping if we deserve it," said she, adding that there was no need for rawhide whipping for none of them deserved it. Mr. Kelly continued grilling the witness to endeavor to force some knowledge of the rawhide, and the result was that, without a murmur she stood it until she collapsed utterly in a dead faint and had to be carried out of the witness box. Despite her weakening under the strain of the cross-exam. given.

BEATRICE JAMIESON.

Beatrice Jamieson had also seen Miss Weatherall with the strap.

Time after time she repeated that Miss Weatherall used the strap, because she had the strap. Again and again Mr. Kelly tried to shake this, but could not do so, and his lordship suggested a different phrasing of the questions. This was if she had any other reason for thinking she had not used the whip. "I saw her with the strap," was the reply, and with this Mr. Kelly had to be content.

LAURA HOWARD.

Laura Howard was called and stated that she had seen Miss Weatherall with the strap. Mr. Kelly did not cross-examine.

MILDRED LOTTRIDGE.

Mildred Lottridge had had her hair cut at the institution like a boy. She did not want it done, but it was done because she ran away. It had grown just as long as ever.

ALICE SNAKE.

Alice Snake had also had her hair cut off like a boy's, and it was now longer than ever. Her head was sore.

ELIZA SNAKE.

Eliza Snake had her hair cut to be like her sister. Hers, too, had grown again.

ABOUT OATMEAL.

Mr. Ions, working at Wood Bro's mill, verified the story that the institution had secured oatmeal from them—the best they had—but it was returned to them because it was wormy. Cross-examination brought out that this could not be prevented during warm weather.

That rested the defence

RECALLED TO STAND.

Edith Isaacs was recalled to the stand, Mr. Kelly asking her if she had seen marks on Ruth Miller's back.

Mr. Brewster protested that Mr. Kelly was making his case out and not calling in rebuttal.

His lordship upheld the objection, as Mr. Kelly had brought out his question before in the first hearing and if he had not made out his case then, it was not right to reopen it on the plea of replying.

Helen Clinch, recalled, stated that before Principal A. N. Ashton's time Mary Garlow had been whipped with a rawhide on the bare back.

Address of Counsel

The counsel then addressed the jury. They went over the points of the case, Mr. Kelly maintaining that a case had been proven, while Mr. Brewster held that the case was not proven. He believed that with the Indian's love for litigation the chiefs had, after an investigation, brought on the action. It was an endeavor to belittle the institution, for otherwise they would have had the matter investigated elsewhere. The sting evidently was that the girls had been discharged from the school. It was peculiar that the girls complained of being discharged and also of being ill-treated.

In his address Mr. Kelly asked why Miss Weatherall had not been called to testify. It was said that the raw-hiding had been stopped, about time it was stopped. The punishment was not moderate. In conclusion he asked for damages to show that such a thing should not be allowed to go on.

HIS LORDSHIP

Damages for Plaintiff

(Continued from Page 1.)

tention of Mr. Justice Kelly and the court was occupied by the case. The evidence was voluminous, but his lordship was persistent in his desire to have the case closed in one day and held a night session to wind it up.

The evidence was very contradictory on some points. It was conceded by the defence that worms had been found during the hot months in the oatmeal and meat, but as soon as this was discovered the whole order was returned. It was admitted further that the girls' hair had been cut, and that they had been imprisoned, Ruth in a cell, and Hazel, in the sick room, and given bread and water for a day for attempting to run away from Mohawk Institute. It was further admitted that to Ruth had been ministered a strapping, but it was denied that it was too severe, or that it was administered with a whip of rawhide, as alleged.

The charge of Mr. Justice Kelly was impartial at the commencement, but towards the close it leaned towards the plaintiff, and when he drew up a series of question for the jury to answer it was conceded that damages would be awarded.

WITNESS COLLAPSED

Perhaps the most interesting portion of the evidence was that given by present-day pupils of the institution. They were clear and concise, their evidence was direct to the point ond they refused to be turned off to one side by the opposing counsel's leading questions or puzzling. One girl, Sarah Hill, bore a gruelling cross-examination unflinchingly, but her physique was not as strong as her intellect, for at the close she collapsed.

The following jury was empanelled for the case of Miller vs. Ashton: James Dawson, R. Fowler, Chas. Summerhayes, J. T. Norrie, Arthur Cook, Edward Murton, E. R. Laings, W. D. Farr, Daniel Corrigan, Sylvester Stratford, P. O. Fisher, Geo. Evans, Charles Carter.

ONE CASE PRESENTED

W. E. Kelly, of Kelly and Porter, appeared for the plaintiff in the case of Miller vs Ashton, for $5000 and costs damages for the plaintiffs. The case, he pointed out, was brought by George W. Miller, a resident of the Indian reserve, against A. Nelles Ashton, principal of the Mohawk Indian Institute, for cruelty to Miller's two children, Ruth and Hazel, 13 and 11 years of age.

Addressing the jury Mr. Kelly stated that it was the contention of the plaintiff that one of the girls had been mercilessly beaten, being given 12 lashes with a rawhide. The girls had broken away, and on being captured, Ruth had been confined in a cell without windows ,and with only a small aperture, barred with iron in the door. Hazel had been kept in a dormitory for three days. The plaintiff claimed that this was too severe a punishment for young girls, more befitting a prison institution than a school. It was claimed that the food was unfit for use, that the management was not such as was necessary and proper in this modern age, and that the children were treated very harshly.

FATHER FIRST WITNESS.

Geo. W. Miller, father of the two girls, on whose behalf action was entered ,was the first witness. He stated that on August 7 or 8 the girls had run away and later were discharged from the institution.

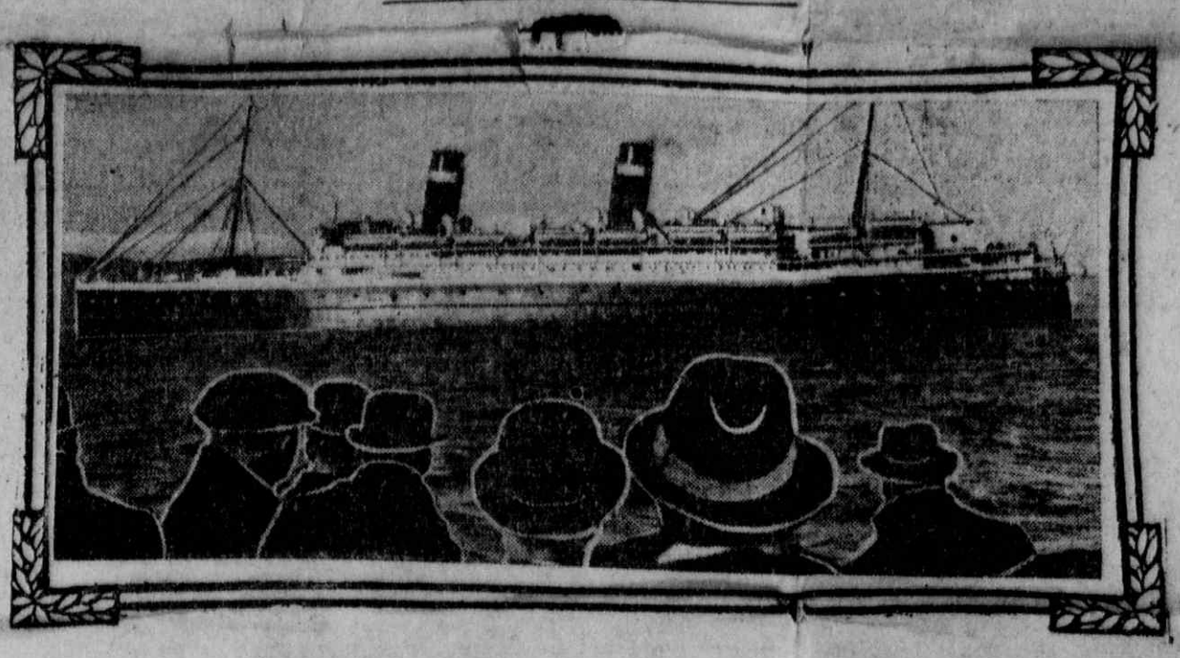

Photos were put in showing the conditions of the girls' heads after their hair had been cut off?

Miller continued that Hazel, the younger girl, was in a very nervous condition, but he could not say whether or not it was because of the treatment she might have received at the institution.

Once Pupil Himself.

W. S. Brewster, for the defendant, cross-examined Miller, who stated that he was for three years a pupil of the institute under Rev. Mr. Ashton, when he was a boy. When he grew up he made a written application to

New Liner Beats Record in Steam Trials on the Clyde

A picture of the steam trials of the Calgarnan, one of the splendid new steamers, which have been built by the Allan line to meet the rapid development of Canada's trade. The vessel beats the record of her sister ship, the Alsatian, and worked up to a speed of 24½ knots.

dently been built when the new building was put up. He had put the children in the school because they had no mother. His children had run home, and he had telephoned Mr. Ashton that he would bring them back next day, to save the fees of a constable who would be sent after the girls otherwise. He could have sent them to his own school, which was only 400 yards away, but he had no one at home to look after them.

In re-examination Mr. Kelly asked the witness how he had been whipped when at the institution.

Mr. Brewster objected and was sustained.

HAZEL MILLER'S STORY.

Hazel Miller, the younger of the two girls, was placed in the box. She was able to take the oath, replying to Justice Kelly's advising her that it was very wrong not to tell the thuth. She had been in Mohawk Institute for about a year, before she ran away. "I got out of a window with my sister and two other girls," said she very naively, causing a laugh in the court room. She ran away at 12 o'clock at night, and arrived home at three in the morning, walking all the way. On being taken back, Ruth was put in a cell and the witness and they needed it. Mr. Ashton had never touched the witness and had treated her very kindly. She knew she must be punished if she ran away. She had never seen any worms in the meat she ate, and only once in another girl's food. Once or twice the porridge was not done quite right, the pupils themselves doing the cooking as part of their training for a month. She had been whipped on the hands when she had done something wrong. She had not suffered because of the food she got. The black list had been in force for a long time, and she did not complain of that.

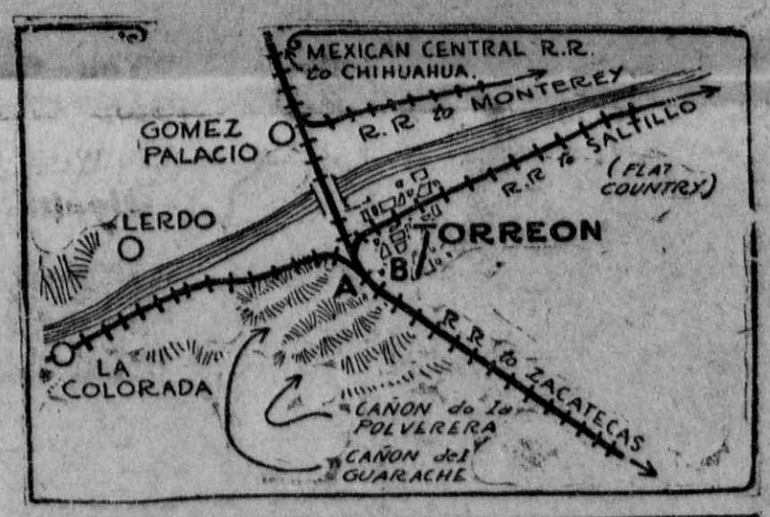

Said Whip Was Used

Re-examined, witness said that a whip was used in "birching." The strap used was put into court, but the witness said there was also a whip. She had not complained of having her hair cut, because it would not have done any good, for she would have been reported.

RUTH MILLER'S STORY

Ruth Miller, 13 years of age, was called. She had run away from the institute because she did not like the food. When brought back she was put in the cell on the third floor,

Map of Torreon, In Mexico

stitution she had long hair, but she did not like this and had it cut short. Witness was the only one put into a cell for the escape of the four girls. There had been trouble with the oatmeal in the summer-time, but she made no complaint. Mr. Ashton had had treated her all right, and was not present at the whipping. Though Mr. Ashton had said she was to be whipped with a strap, she was whipped with a whip. She had not shown her body to anyone after the whipping. She had taken stuff from the institution to make up clothes to run away in. She had one lock open the day she was caught at the clothes press. She was just as well in two weeks after the whipping as she ever was. She admitted being mischievous, just like the others. Mr. Ashton had never done anything to her himself, but had ordered others to punish her.

EDITH ISAACS.

Edith Isaacs, one of the runaway quartet, was next called. She had seen that Ruth had her hair cut. She had also seen the principal hand a whip, which looked like a horsewhip, to Miss Weatherall and tell her to give each of the girls a dozen lashes on the bare back. She had heard Ruth scream. She did not know whether the whip was a rawhide or not. She had not seen anything wrong with the oatmeal or meat. Ruth had wanted the witness to run away the second time.

Cross-examined the witness stated that the principal had not gone up to where the whipping took place.

EMMA ISAACS.

Emma Isaacs, the last of the runaway quartet, said that Ruth Miller was put in a cell and her hair was cut. Witness had never seen the whip talked of. She once saw a worm in the meat in hot weather.

GEORGE JOHN.

George John, misconstruing counsel's question, stated that he was not one of the girls, but was one of the boys.

Counsel for defendant protested against asking the witness if he knew of any other punishment used in the school, and his protest was upheld, save that opposing counsel could prove connection with the present case.

John stated that whips were used, but he was not allowed to specify times when they were used. He had seen a worm in the porridge once.

This concluded the case for the plaintiff.

His lordship asked Mr. Kelly if he intended to press the bad food allegation.

Mr. Kelly replied that he could not abandon it.

His lordship asked what he could prove the children had suffered from the "bad food."

Mr. Kelly thought inferences could be drawn.

THE DEFENCE

management and wanted Ruth home, and the witness therefore had discharged all four. Miss Weatherall had married and now resided in Medicine Hat. Hence it was not possible to bring her here.

All oatmeal used was purchased from the Wood [illegible] of Brantford. About August or September he found worms, but had sent the oatmeal back and now used rolled wheat. The housekeeper had nothing else to do but look after the cooking which was done by the girl pupils. There had been no complaints.

Witness stated that he had mitigated punishments, abolishing the whip and cutting down the hours of the "black list."

Cross Examination.

Cross-examined Major Ashton stated that the school was under Ontario public school regulations so far as was possible. He told Miss Wetherall to whip the girls, but did not tell how it was to be done. The company ran the school, with but government inspection.

"You had plenty of time to get Miss Wetherall here or to have a commission examine her?"

"Yes."

"But you didn't?"

"No."

Mr. Kelly asked if Major Ashton did not think a whipping was too severe for such an offence.

Witness did not think it so for the offences committed, as there was a theft case before that.

"Perhaps Miss Weatherall did not know the whip was cut out?"

"Oh, yes, she did."

"Rather humiliating for a child to be stripped and whipped?"

There was no answer.

The witness stated that the old whip in use was a rawhide one—a severe whip. He had had complaints of meats being scorched, but not spoiled. The girls had been fed on bread and water, and put on the black list. He had heard that there was a tendency to abolish corporal punishment, but it was all a question of who was being dealt with. He felt that he had moderately punished the girls. He assumed all responsibility for his actions. It was true that the children were only fed separated milk. During his incumbency no Indian child had been whipped on the bare back.

Re-Examination.

Re-examined, Mr. Ashton stated that, though they used the Ontario curriculum so that the pupils could go through the higher schools, there was no other connection with the Ontario public schools. He stood responsible for everything [illegible] had been done by his orders.

DENIED GIRLS' STORY.

Geneva Van Every had been at the school for seven years, and had been in charge of Ruth Miller when in solitary confinement. Ruth was in the cell for 24 hours only, and no more, despite Ruth's statement that she had been in for two days. Ruth had had five or six strokes, not more. Three days after the whipping Ruth told the witness that it was not sore at all and she did not care about the whipping.

They were clear and concise, their evidence was direct to the point ond they refused to be turned off to one side by the opposing counsel's leading questions or puzzling. One girl, Sarah Hill, bore a gruelling cross-examination unflinchingly, but her physique was not as strong as her intellect, for at the close she collapsed.

The following jury was empanelled for the case of Miller vs. Ashton: James Dawson, R. Fowler, Chas. Summerhayes, J. T. Norrie, Arthur Cook, Edward Murton, E. R. Laings, W. D. Farr, Daniel Corrigan, Sylvester Stratford, P. O. Fisher, Geo. Evans, Charles Carter.

ONE CASE PRESENTED

W. E. Kelly, of Kelly and Porter, appeared for the plaintiff in the case of Miller vs Ashton, for $5000 and costs damages for the plaintiffs. The case, he pointed out, was brought by George W. Miller, a resident of the Indian reserve, against A. Nelles Ashton, principal of the Mohawk Indian Institute, for cruelty to Miller's two children, Ruth and Hazel, 13 and 11 years of age.

Addressing the jury Mr. Kelly stated that it was the contention of the plaintiff that one of the girls had been mercilessly beaten, being given 12 lashes with a rawhide. The girls had broken away, and on being captured, Ruth had been confined in a cell without windows ,and with only a small aperture, barred with iron in the door. Hazel had been kept in a dormitory for three days. The plaintiff claimed that this was too severe a punishment for young girls, more befitting a prison institution than a school. It was claimed that the food was unfit for use, that the management was not such as was necessary and proper in this modern age, and that the children were treated very harshly.

FATHER FIRST WITNESS.

Geo. W. Miller, father of the two girls, on whose behalf action was entered ,was the first witness. He stated that on August 7 or 8 the girls had run away and later were discharged from the institution.

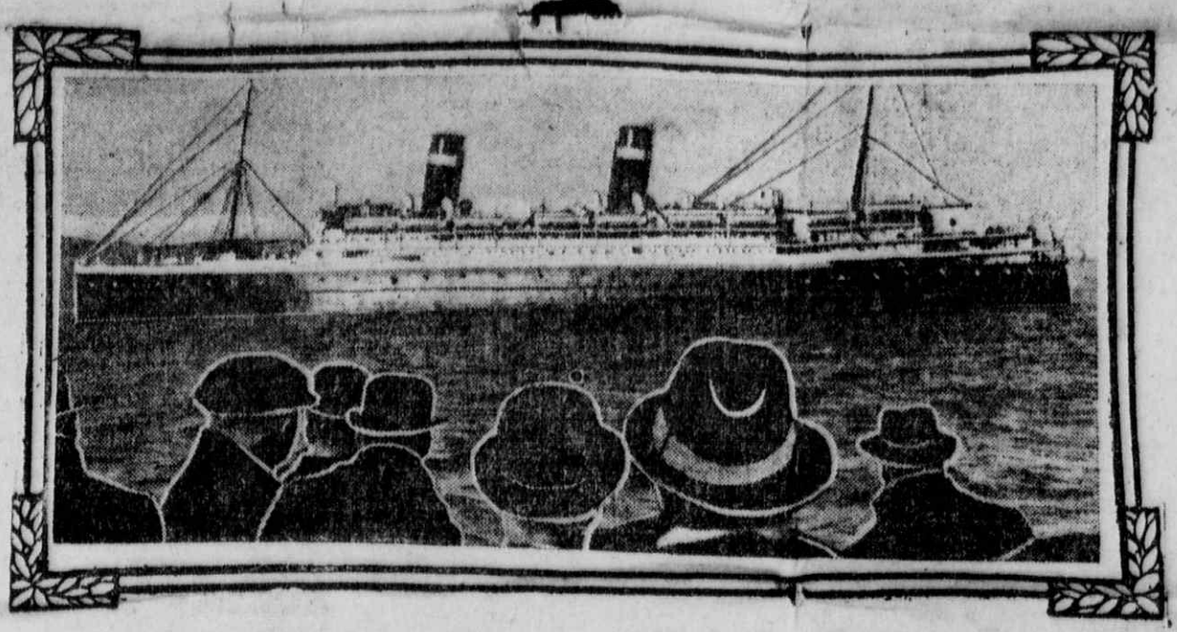

Photos were put in showing the conditions of the girls' heads after their hair had been cut off?

Miller continued that Hazel, the younger girl, was in a very nervous condition, but he could not say whether or not it was because of the treatment she might have received at the institution.

Once Pupil Himself.

W. S. Brewster, for the defendant, cross-examined Miller, who stated that he was for three years a pupil of the institute under Rev. Mr. Ashton, when he was a boy. When he grew up he made a written application to

New Liner Beats Record in Steam Trials on the Clyde

A picture of the steam trials of the Calgarnan, one of the splendid new steamers, which have been built by the Allan line to meet the rapid development of Canada's trade. The vessel beats the record of her sister ship, the Alsatian, and worked up to a speed of 24½ knots.

dently been built when the new building was put up. He had put the children in the school because they had no mother. His children had run home, and he had telephoned Mr. Ashton that he would bring them back next day, to save the fees of a constable who would be sent after the girls otherwise. He could have sent them to his own school, which was only 400 yards away, but he had no one at home to look after them.

In re-examination Mr. Kelly asked the witness how he had been whipped when at the institution.

Mr. Brewster objected and was sustained.

HAZEL MILLER'S STORY.

Hazel Miller, the younger of the two girls, was placed in the box. She was able to take the oath, replying to Justice Kelly's advising her that it was very wrong not to tell the thuth. She had been in Mohawk Institute for about a year, before she ran away. "I got out of a window with my sister and two other girls," said she very naively, causing a laugh in the court room. She ran away at 12 o'clock at night, and arrived home at three in the morning, walking all the way. On being taken back, Ruth was put in a cell and the witness and they needed it. Mr. Ashton had never touched the witness and had treated her very kindly. She knew she must be punished if she ran away. She had never seen any worms in the meat she ate, and only once in another girl's food. Once or twice the porridge was not done quite right, the pupils themselves doing the cooking as part of their training for a month. She had been whipped on the hands when she had done something wrong. She had not suffered because of the food she got. The black list had been in force for a long time, and she did not complain of that.

Said Whip Was Used

Re-examined, witness said that a whip was used in "birching." The strap used was put into court, but the witness said there was also a whip. She had not complained of having her hair cut, because it would not have done any good, for she would have been reported.

RUTH MILLER'S STORY

Ruth Miller, 13 years of age, was called. She had run away from the institute because she did not like the food. When brought back she was put in the cell on the third floor, stitution she had long hair, but she did not like this and had it cut short. Witness was the only one put into a cell for the escape of the four girls. There had been trouble with the oatmeal in the summer-time, but she made no complaint. Mr. Ashton had had treated her all right, and was not present at the whipping. Though Mr. Ashton had said she was to be whipped with a strap, she was whipped with a whip. She had not shown her body to anyone after the whipping. She had taken stuff from the institution to make up clothes to run away in. She had one lock open the day she was caught at the clothes press. She was just as well in two weeks after the whipping as she ever was. She admitted being mischievous, just like the others. Mr. Ashton had never done anything to her himself, but had ordered others to punish her.

EDITH ISAACS.

Edith Isaacs, one of the runaway quartet, was next called. She had seen that Ruth had her hair cut. She had also seen the principal hand a whip, which looked like a horsewhip, to Miss Weatherall and tell her to give each of the girls a dozen lashes on the bare back. She had heard Ruth scream. She did not know whether the whip was a rawhide or not. She had not seen anything wrong with the oatmeal or meat. Ruth had wanted the witness to run away the second time.

Cross-examined the witness stated that the principal had not gone up to where the whipping took place.

EMMA ISAACS.

Emma Isaacs, the last of the runaway quartet, said that Ruth Miller was put in a cell and her hair was cut. Witness had never seen the whip talked of. She once saw a worm in the meat in hot weather.

GEORGE JOHN.

George John, misconstruing counsel's question, stated that he was not one of the girls, but was one of the boys.

Counsel for defendant protested against asking the witness if he knew of any other punishment used in the school, and his protest was upheld, save that opposing counsel could prove connection with the present case.

John stated that whips were used, but he was not allowed to specify times when they were used. He had seen a worm in the porridge once.

This concluded the case for the plaintiff.

His lordship asked Mr. Kelly if he intended to press the bad food allegation.

Mr. Kelly replied that he could not abandon it.

His lordship asked what he could prove the children had suffered from the "bad food."

Mr. Kelly thought inferences could be drawn.

THE DEFENCE

management and wanted Ruth home, and the witness therefore had discharged all four. Miss Weatherall had married and now resided in Medicine Hat. Hence it was not possible to bring her here.

All oatmeal used was purchased from the Wood [illegible] of Brantford. About August or September he found worms, but had sent the oatmeal back and now used rolled wheat. The housekeeper had nothing else to do but look after the cooking which was done by the girl pupils. There had been no complaints.

Witness stated that he had mitigated punishments, abolishing the whip and cutting down the hours of the "black list."

Cross Examination.

Cross-examined Major Ashton stated that the school was under Ontario public school regulations so far as was possible. He told Miss Wetherall to whip the girls, but did not tell how it was to be done. The company ran the school, with but government inspection.

"You had plenty of time to get Miss Wetherall here or to have a commission examine her?"

"Yes."

"But you didn't?"

"No."

Mr. Kelly asked if Major Ashton did not think a whipping was too severe for such an offence.

Witness did not think it so for the offences committed, as there was a theft case before that.

"Perhaps Miss Weatherall did not know the whip was cut out?"

"Oh, yes, she did."

"Rather humiliating for a child to be stripped and whipped?"

There was no answer.

The witness stated that the old whip in use was a rawhide one—a severe whip. He had had complaints of meats being scorched, but not spoiled. The girls had been fed on bread and water, and put on the black list. He had heard that there was a tendency to abolish corporal punishment, but it was all a question of who was being dealt with. He felt that he had moderately punished the girls. He assumed all responsibility for his actions. It was true that the children were only fed separated milk. During his incumbency no Indian child had been whipped on the bare back.

Re-Examination.

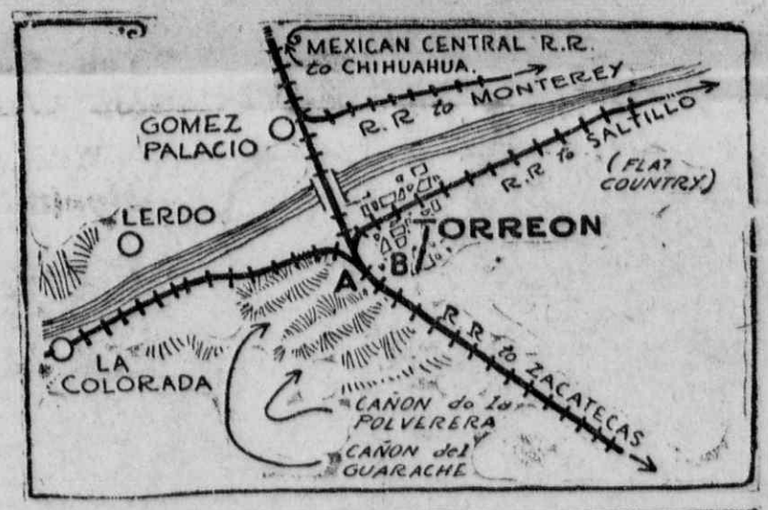

Re-examined, Mr. Ashton stated that, though they used the Ontario curriculum so that the pupils could go through the higher schools, there was no other connection with the Ontario public schools. He stood responsible for everything [illegible] had been done by his orders.

DENIED GIRLS' STORY.

Geneva Van Every had been at the school for seven years, and had been in charge of Ruth Miller when in solitary confinement. Ruth was in the cell for 24 hours only, and no more, despite Ruth's statement that she had been in for two days. Ruth had had five or six strokes, not more. Three days after the whipping Ruth told the witness that it was not sore at all and she did not care about the whipping. Aren't you [illegible]

ONE CASE PRESENTED

W. E. Kelly, of Kelly and Porter, appeared for the plaintiff in the case of Miller vs Ashton, for $5000 and costs damages for the plaintiffs. The case, he pointed out, was brought by George W. Miller, a resident of the Indian reserve, against A. Neiles Ashton, principal of the Mohawk Indian Institute, for cruelty to Miller's two children, Ruth and Hazel, 13 and 11 years of age.

Addressing the jury Mr. Kelly stated that it was the contention of the plaintiff that one of the girls had been mercilessly beaten, being given 12 lashes with a rawhide. The girls had broken away, and on being captured, Ruth had been confined in a cell without windows ,and with only a small aperture, barred with iron in the door. Hazel had been kept in a dormitory for three days. The plaintiff claimed that this was too severe a punishment for young girls, more befitting a prison institution than a school. It was claimed that the food was unfit for use, that the management was not such as was necessary and proper in this modern age, and that the children were treated very harshly.

FATHER FIRST WITNESS.

Geo. W. Miller, father of the two girls, on whose behalf action was entered ,was the first witness. He stated that on August 7 or 8 the girls had run away and later were discharged from the institution.

Photos were put in showing the conditions of the girls' heads after their hair had been cut off?

Miller continued that Hazel, the younger girl, was in a very nervous condition, but he could not say whether or not it was because of the treatment she might have received at the institution.

Once Pupil Himself.

W. S. Brewster, for the defendant, cross-examined Miller, who stated that he was for three years a pupil of the institute under Rev. Mr. Ashton, when he was a boy. When he grew up he made a written application to have his girls admitted to the institution, this application constituting the principal the guardian of the child during the time that she was at the institution. He knew the rules of the school as they were when he attended. He did not know that there was a rule that any girl who had run away would have her hair cut off. When his girl's hair had been cut he had found out about the rule. There was no objection to whipping unless it was immoderate. In his day there was no solitary cell. This had evi-

Mr. Brewster objected and was sustained.

HAZEL MILLER'S STORY.

Hazel Miller, the younger of the two girls, was placed in the box. She was able to take the oath, replying to Justice Kelly's advising her that it was very wrong not to tell the thuth. She had been in Mohawk Institute for about a year, before she ran away. "I got out of a window with my sister and two other girls," said she very naively, causing a laugh in the court room. She ran away at 12 o'clock at night, and arrived home at three in the morning, walking all the way. On being taken back, Ruth was put in a cell and the witness and

Said Whip Was Used

Re-examined, witness said that a whip was used in "birching." The strap used was put into court, but the witness said there was also a whip. She had not complained of having her hair cut, because it would not have done any good, for she would have been reported.

RUTH MILLER'S STORY

Ruth Miller, 13 years of age, was called. She had run away from the institute because she did not like the food. When brought back she was put in the cell on the third floor,

Map of Torreon, In Mexico

This map gives a good idea of the location of Torreon, where the bloodiest battle of the Mexican revolution took place. About 900 rebels were led into a trap here and massacred.

the other two girls were locked in the sick room, from Saturday until Monday, getting bread and water on the Sunday, and ordinary food on the other days. Saturday their hair was cut, Miss Weatherall taking them to the book room, where Robert Jamieson, a school boy, cut their hair by order of the principal. Nothing else was done to her at this time. There were worms in the porridge and the meat, but not very often. Once it was complained of and the cook said it could not be helped. Separated milk was also given to them. While on the black list the pupils were not allowed to speak to each other and were sent to bed right after supper.

The Cross Examination

Cross-examined, the witness said, she wanted a "Dutch" cut, when she went to the school, and her hair was now about as long as when it was clipped off. Her sister had made up a dress secretly at the institution from material belonging to the school and had given it to the witness, to run away in. She and her sister knew that the rules stated that those who ran away would be put in the cell, and have their hair cut. The boy Jamieson, was one of those who cut the hair of the other boys, when

which was 3 feet by 6 feet, with a little hole in the door. There was no light, no bed and no chair. In this she remained for three days, getting bread and water on Sunday. Her hair was cut off on Monday. She was put on the black list, having to walk in a ring in place of playing, and not being allowed to talk to the other girls. She tried to get away a second time, but was caught .She got a birching the next day, receiving 13 stripes on the bare back while laying face downwards on a bed, from Miss Weatherall. The latter had been told to give her 12, but she gave her 13. After that for a week and a half it was hard for her to sit down. She had never received such a whipping before, for it was hard. Her back was black and blue and had red marks. Edith Isaacs, her chum, saw the marks.

She had seen worms in the porridge once, and flies in the bread, which was sour. She had not objected to having her hair cut off for it was of no use..

THE CROSS-EXAMINATION

Cross-examined the witness declared that she knew before she ran away that the rules called for the cutting off of the hair of any girl who ran away. On going to the in-

the day she was caught at the [illegible] press. She was just as well in two weeks after the whipping as she ever was. She admitted being mischievous, just like the others. Mr. Ashton had never done anything to her himself, but had ordered others to punish her.

EDITH ISAACS.

Edith Isaacs, one of the runaway quartet, was next called. She had seen that Ruth had her hair cut. She had also seen the principal hand a whip, which looked like a horsewhip, to Miss Weatherall and tell her to give each of the girls a dozen lashes on the bare back. She had heard Ruth scream. She did not know whether the whip was a rawhide or not. She had not seen anything wrong with the oatmeal or meat. Ruth had wanted the witness to run away the second time.

Cross-examined the witness stated that the principal had not gone up to where the whipping took place.

EMMA ISAACS.

Emma Isaacs, the last of the runaway quartet, said that Ruth Miller was put in a cell and her hair was cut. Witness had never seen the whip talked of. She once saw a worm in the meat in hot weather.

GEORGE JOHN.

George John, misconstruing counsel's question, stated that he was not one of the girls, but was one of the boys.

Counsel for defendant protested against asking the witness if he knew of any other punishment used in the school, and his protest was upheld, save that opposing counsel could prove connection with the present case.

John stated that whips were used, but he was not allowed to specify times when they were used. He had seen a worm in the porridge once.

This concluded the case for the plaintiff.

His lordship asked Mr. Kelly if he intended to press the bad food allegation.

Mr. Kelly replied that he could not abandon it.

His lordship asked what he could prove the children had suffered from the "bad food."

Mr. Kelly thought inferences could be drawn.

THE DEFENCE.

Major A. Neiles Ashton was first called for the defence. He succeeded, as principal of the school, his father, Rev. Robert Ashton, who had been for 41 years in charge. The school was run by the New England Company, founded in England in 1661, the government paying a part of the cost, not a cent of money coming from the Indians. Major Gorden J. Smith inspects the institution every month. A Dominion inspector pays periodical visits. The present building was built in 1904 and the cell was constructed since. The plans were passed by the New England Company and the government had also passed them, as well as passing the solitary cell.

Mr. Brewster put in as an exhibit the government regulations, which provide that all Indian boarding schools receiving aid from the government were industrial schools.

Story of Runaway

Major Ashton then continued his evidence. Ruth Miller and the other girls had run away, and Ruth was confined for 24 hours in a cell, while the other three were put in the sick room. The cell was built in the top dormitory, being 5 feet 6 inches long, 4 feet wide, and over 6 feet high. An air pipe hole gives a certain amount of light and there was always fresh air. The punishment was given as a lesson to the girls and to the rest of the school. He did not make the rules, but merely carried them out. It was an unwritten custom of the school for 43 years to cut the girl's hair if they absconded. The girls had admitted to him that they tried to get into the clothes press to run away again, and he gave instructions to whip them. He did not mention the whip, the bare back or the number of strokes. He did not give Miss Weatherall a whip, and as soon as he entered the institution he had ordered that the use of the whip be prohibited to any officer. Mr. Miller was not satisfied with the

children were only fed separated milk. During his incumbency no Indian child had been whipped on the bare back.

Re-Examination.

Re-examined, Mr. Ashton stated that, though they used the Ontario curriculum so that the pupils could go through the higher schools, there was no other connection with the Ontario public schools .He stood responsible for everything that had been done by his orders.

DENIED GIRLS' STORY.

Geneva Van Every had been at the school for seven years, and had been in charge of Ruth Miller when in solitary confinement. MAGES FOR PLAINTIFF IN

---GIRLS TOO SEVERELY PUNISHED---

MILLER VS. ASHTON CASE

Principal of Mohawk Institute Was Mulcted for $400 Because of Treatment by a Subordinate of Two Indian Girls Who Made Their Escape.

Damages to the extent of $400 were awarded to George Miller, a resident of the Indian reserve, by the jury at the high court, which opened at 1 o'clock yesterday afternoon, against Major A. Nelles Ashton, principal of the Mohawk Institute, the claim being for $5000. Judgment was reserved by Mr. Justice Kelly on the question of costs and also the question of Major Ashton's personal liability.

The statement of claim of the plaintiff, who was acting as the next friend for his children, Ruth and Hazel, who were inmates of the Mohawk Institute, divided the claim made into several paragraphs, and the jury brought in a split verdict.

The first claim was for damages for cutting off the girls' hair, after they had run away from the institution, so that they could later be easily identified. This the jury dismissed, the verdict being returned at 1 o'clock this morning.

The second claim was for damages for the two girls, for their being imprisoned, one in a cell, and the other in the sick room, for three days, being fed on water, this being when they made another unsuccessful attempt to get away. In this the jury dismissed the claim of Hazel, who was confined in the sick room, and awarded Ruth, who was kept in a cell withiut light, $100 damages.

The third claim was for damages for Ruth, who had been whipped, it was alleged, on the bare back, with a rawhide, though it was denied by the defence that a rawhide had been used, the weapon being a strap. On this claim the jury awarded $300 damages.

The fourth claim, that the girls' health had suffered from bad food, was dismissed, as it was shown that their health was not injured, and that though the food had been bad on one or more occasions, this was due to the heat of summer, which had turned the meat and caused worms in the oatmeal, which had then been returned to the mill.

After the jury had brought in its verdict at 1 o'clock this morning Mr. Justice Kelly heartily congratulated the jurors upon their efficiency and upon the excellently draft verdict which they had returned, which covered the case splendidly.

MAGES FOR PLAINTIFF IN

---GIRLS TOO SEVERELY PUNISHED---

MILLER VS. ASHTON CASE

Principal of Mohawk Institute Was Mulcted for $400 Because of Treatment by a Subordinate of Two Indian Girls Who Made Their Escape.

Damages to the extent of $400 were awarded to George Miller, a resident of the Indian reserve, by the jury at the high court, which opened at 1 o'clock yesterday afternoon, against Major A. Neiles Ashton, principal of the Mohawk Institute, the claim being for $5000. Judgment was reserved by Mr. Justice Kelly on the question of costs and also the question of Major Ashton's personal liability.

The statement of claim of the plaintiff, who was acting as the next friend for his children, Ruth and Hazel, who were inmates of the Mohawk Institute, divided the claim made into several paragraphs, and the jury brought in a split verdict.

The first claim was for damages for cutting off the girls' hair, after they had run away from the institution, so that they could later be easily identified. This the jury dismissed, the verdict being returned at 1 o'clock this morning.

The second claim was for damages for the two girls, for their being imprisoned, one in a cell, and the other in the sick room, for three days, being fed on water, this being when they made another unsuccessful attempt to get away. In this the jury dismissed the claim of Hazel, who was confined in the sick room, and awarded Ruth, who was kept in a cell without light, $100 damages.

The third claim was for damages for Ruth, who had been whipped, it was alleged, on the bare back, with a rawhide, though it was denied by the defence that a rawhide had been used, the weapon being a strap. On this claim the jury awarded $300 damages.

The fourth claim, that the girls' health had suffered from bad food, was dismissed, as it was shown that their health was not injured, and that though the food had been bad on one or more occasions, this was due to the heat of summer, which had turned the meat and caused worms in the oatmeal, which had then been returned to the mill.

After the jury had brought in its verdict at 1 o'clock this morning Mr. Justice Kelly heartily congratulated the jurors upon their efficiency and upon the excellently draft verdict which they had returned, which covered the case splendidly.

— Explanatory —

The Boys have much more liberty than the girls — they are allowed to go up town or B the place if they have a badge — Such reports as "Sent out without a badge" — "late home from parade or chores" are frequent with them.

Charles Carpenter — only 3 minor reports in 2 yrs. None at all in 1 1/3 yrs.

John Brant — age 13½ only six minor reports this year.

Gordan Lobicas, age 12, is good by fits and starts — Jan. 1. April 6. July 2. Sept. 1 — total 10 reports this year.

Willie Moses, age 14, — only 3 reports this year.

Hilton Sherry age 15 3/4, only pupil absconded since I have been here. (May 19th) except pupils who have only been here a few days — and generally returned at once by their friends The parents influence is often very bad — and their visits can be told by the pupils behaviour — for instance — This story was overheard by a teacher last week:

Father visiting son Abner Hill, who was some time coming after being called.

Father — "What were you doing — were you working?" Son — "No Ma'am. Father "were you on the walk?" Son "No Ma'am". "Why were you so long?" Son "I was playing" (it was recess time) Father "Do they ever lick you?" — Son "No Ma'am". " "If they lick you, you tell me, I'll go for them".

the Indian Office — both agreed that he was 15. She then said his birthday was in February — so I told her he could leave the end of March.

He ran away that day. His record was bad, in fact next to Calvin Clause whose record I reported to the Department with a request, for permission to dismiss him, we considered him the worst boy in the school. He had many reports for disobedience, swearing, gross impertinence teasing little pigs — etc.

When I first came he had a dreadful cough, I built him up on ~~Cod~~ Liver Oil, etc but believed him to have tuberculosis, and sent him shortly before he ran away to the doctor for examination — he did not test for T. B. C.

When he was reported absent — I told them of his mothers wanting to take him that day but his time was not up until February — and one said "Good Lord, do we have to put-up with that lazy fellow until February — he never does any work unless stood over".

After giving time for his mother to bring him back if she had not persuaded him to run away, I wrote her, saying I did not want him back as he was such a troublesome boy, but she was to bring his clothes. He went in his working clothes but a new pair of shoes. That if she did not bring them back at once I would enter an account against his interest money.

The mother comes in a month, was most impudent. I told her I should have sent for Shilton, and having punished him, kept publicly dismissed him. She was defiant, said "No one could punish her children".

I asked why she put her children in

ARCHIVES PUBLIQUES
CANADA

Esplanatory

Many pupils have badges all the year. some the highest number obtainable each month. If you refer to the Quarterly returns the character column is marked A, B. & C. A for pupil with a badge - B without a badge - C on Black List. This is not a correct estimate, the pupils having highest number of badges (6 a month) marked A. Another constantly troublesome, might one month obtain a badge, probably given for encouragement, may lose it at once, yet that pupil is also A. A generally good pupil might have some escapade for which the Black List is punishment, that pupil is marked C - which is hardly fair.

The bad pupils involve others for example. Adela Lobrieu admitted March 28th 1914 had not a report until Augt 8th, when she and Irene Antoine were seen standing naked to the waist in a second story window overlooking boys playground. Adela was then cautioned to drop her friendship with Irene but continued in spite of warnings

Augt 8th 1914	Drinking cream.
" 19	Stealing girls dress, preparing to run away.
" 23	Very late for Sunday school.
Sept. 12	Continually standing on back steps watching boys.
	Wearing school dress to work.
" 16	Stealing apples & lying about it.
"	Running around sewing room during teachers absence.
Oct. 2	Preparing to run away with Irene Cardine.

This girls sister admitted at the same time has only had one minor report. The children appear superior and we should do something with them. Letter 15-4845/10 Jan. 22nd 1914 - explains their admission.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Explanatory

Louise Hill - age 15 7/12 admitted Jan 19, 1914 has not had a report.

Matilda Johnson age 16 1/2 admitted March 20, 1912 discharged June 20, 1914 had only one minor report — "scorching a towel through carelessness".

Laura Howard age 13, has only had ten reports mostly minor in 3 1/2 years.

Eva Carley age 12 1/2 - admitted June 1913 - only five reports (minor).

Theresa Vaneverey age 18 - two report in 2 years.

Rena Davis, another girl who has made friends with bad girls. Admitted Sept 1913 no report until Jan 23. 1914. This girl belongs to the better class of Indians, and should be a credit to the school. She recently has had several reports for stealing - disobedience, showing temper, and was one of those preparing to run away Oct. 1st with her new friends

Dolly Otter, age 10, been here 1 1/4 years - only four very minor reports.

Phyllis Jamieson age 14 1/2, has not had a report since April -

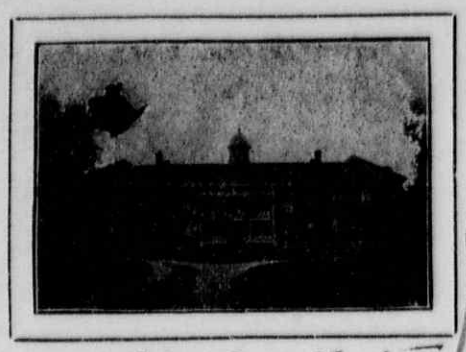

Edna Hill, age 10 — only one minor report in a year.

We could give just many others instances.

You may notice many reports for "stealing apples" - the pupils are given quantities of apples ever since the first harvest ones came in. Mostly two or three each for dinner, and the same for supper in addition to their proper meal, and they are allowed to take them from the table - but being given the best, they prefer to steal the hard green ones. They throw away fully one-third of each apple.

October 2nd 1914

Duncan C. Scott Esq.
Deputy Superintendent General 456003
Indian Department - Ottawa.

Dear Sir:-

Enclosed are somewhat lengthy records of some "refractory pupils" - to send only their names, and the parents' names and addresses seemed hardly fair to the pupils or the school.

I am sure if the Department would sanction the removal to another school, in cases where the parents influence is bad, or the dismissal of an occasional pupil who is incorrigible, that we would have much less trouble with the discipline. We have so many really nice children, whose parents are anxious for them to get on, and who support the rules of the school, that it's a pity they have to mix with the hopelessly vulgar, impertinent, and deceitful, whose influence is so harmful.

Yours very truly
A. E. Boyce

DEPARTMENT OF INDIAN AFFAIRS CANADA.

Ottawa, October 19, 1914.

MEMORANDUM.

Mr. Scott,-

I beg to call your attention to the letter hereunder from Mrs. Boyce, Acting Principal of the Mohawk Institute, in which she asks for permission to get rid of some of the refractory pupils of the school, whose records covering fourteen sheets of foolscap she encloses.

I have read these reports and the conclusion I have come to is that the pupils are disciplined to death. What is needed at this school is an entire change of system, as the one inaugurated by Mr. Ashton has been too long in existence and the sooner a change is made the better for the institution.

About allowing the removal of pupils, perhaps they would be better out of the school than kept on the black list all the time and deprived of all liberty.

Ottawa, November 5, 1914.

Sir,-

The Acting Principal of the Mohawk Institute has made a special report to the Department dealing with the conduct of some of the pupils from the Six Nation Reserve who are refractory and set a bad example to the well behaved pupils in the institution. The parents of the children named in the accompanying list have been written to regarding this complaint and informed that unless the Department is assured that the pupils named will conform to the rules and regulations of the school and give no further trouble they cannot be allowed to remain there. It is further stated in the Acting Principal's report that some of the parents instead of upholding the discipline of the institution actually aid and abet their children in their misbehaviour.

The Department would like you when an opportunity offers to tell the parents or guardians of the children referred to that so long as their children are in the institution they will have to conform to its rules and regulations, which are made in the interests of the children and the proper management of the school.

Sir,—

I have the honour to acknowledge the receipt of your letter of the 5th instant and above number, regarding the conduct of some of the pupils attending the Mohawk Institute said to be from this Agency, I beg to state in reply that none of them belong to the Mississaugas of the Credit, and I do not knowtthat In accuainted with any of them, a great many Six Nation Indians get their mail here.

However I will make some enquiries and endeavour to have the parents or guardians advise thos children to comply with the rules and regulations of the Institution.

Your Obedient Servant,

W. C. Paterson

FILE NO. 154 845-1.

Indian Office, Brantford,

November 14th., 1914.

458015

Sir,-

I beg to advise you that on the 21st. inst. I made my monthly inspection of the Mohawk Institute dealing specially with the cases of the refactory pupils who have been reported by the Principal . Before going out I had a call from Mrs. Johnson the mother of Birdie Claus she was very much troubled about the Department's letter to her and thought that if she could not stay in the Institute she will have to place her in the reformatory as she could not control her. I had a talk with the child at the Institute and she promises to behave better and I warned her that I would make enquiries as to her conduct the next time I came out. Mrs. Boyce said that she was doing somewhat better lately. Mrs. Boyce said that one of the other parents to whom you have written telephoned up that she was coming to take the child away as the Department had told her to do so. Mrs. Boyce said that was not the intention that was merely a warning to make the children behave better.

SCHOOLS BRANCH NOV 1914

James MacNaughton who has two children out there is annoyed because Mrs. Boyce has asked for the interest money of these children and because their father gives them hardly any money for spending although he is well off. He now wants to take the children away and place them in good homes which he says he can secured. Mrs.

The Secretary-

Dept. of Indian Affairs-

Mrs . Boyce is willing to let them go ifthe Department approves . MacNaughton told me today that he would let me know by next Saturday where he proposes to place the children when I will report further.

Frank Mitchell the Caughnawaga boy whom you authorized me to place in the Institute has run away with a Six Nation boy named Smoke and was brought back. Mrs. Boyce is willing to pay half the cost of getting them back but thinks the Department should pay the other half. I would like to be instructed on this. Mrs. Boyce inform me that there is no trouble at all with discipline at present as all the children who were unsettled by the Indian Fair have settled down to work and I gathered the impression that the children look more cheerful and contented than usual.

DEPARTMENT OF INDIAN AFFAIRS CANADA

Ottawa, November 19, 1914.

MEMORANDUM.

Mr. Scott,-

Mr. Superintendent Smith of Brantford informed the Department on the 26th of September, last, that he had, at the request of a magistrate in Caledonia, taken an Indian boy ten years of age, who was in that village without any friends to look after him, to the Mohawk Institute. This boy calls himself Frank Mitchell and says he comes from the St. Regis Reserve on the American side, but has been living in St. Catherines for over a year. The Department wrote Mr. Agent Taillon and endeavoured to obtain some particulars regarding his relatives, but he was unable find anyone who could furnish any information regarding the boy. In the meantime Mr. Smith was advised that the boy could remain at the Mohawk Institute.

The Superintendent now reports that he ran away from the school in company with a boy named Smoke from the Six Nations Reserve, but that they were both brought back to the school. He states that the Principal requests that the Department pay half the cost of getting these

ARCHIVES PUBLIQUES
CANADA

these boys back. I would beg to suggest that, as this is a special case, the Department pay half the cost of returning this boy to the school, but, in the case of the Smoka boy, the school is responsible for any expenditure that may have been incurred in having him returned. I shall be pleased to have instructions regarding reimbursing the school to the extent of one-half of the cost of returning this boy.

Ottawa, November 21, 1914.

Sir,-

I have to acknowledge the receipt of your letter of the 14th instant dealing specially with the cases of refractory pupils who have been reported by the Principal of the Mohawk Institute.

The Department is pleased to learn that the Principal has now no further trouble with the discipline of the school and that the children have settled down to work and are cheerful and contented.

With reference to your remarks concerning Frank Mitchell, the Caughnawaga boy whom you were authorized to place in this institution and who recently ran away from the school in company with a Six Nation boy named Smoke, I beg to inform you that the Department will pay half the cost of returning this boy to the school, but in the case of the Smoke boy the school is responsible for any expenditure that may have been incurred in having him returned. You will, therefore, be good enough to forward a voucher covering half the expenditure incurred by the school in returning the Mitchell boy.

Your obedient servant,

J. D. McLean

MAR 3 1915
OTTAWA

Sir,

I am directed to inform you at the Court of the Company held this day, the Revd. Cyril Lee Turnell, M.A., of St. John's College, Cambridge, was appointed as Principal of the Mohawk Institution, Brantford, Ont:- in the place of the Revd Major A. Nelles Ashton resigned.

Mr. Turnell possesses high University distinction - taking Honours at Cambridge in Parts I and II History Tripos. He has had considerable experience in dealing with men and boys, and has been engaged in Scholastic work for six years. He formerly held a Commission (as a Layman) in H.M. Army. He is marrying a lady of high educational attainment who would actively interest herself in the work of the Institution. The Company hope that they may have the assurance of the approval of Mr. Turnell's appointment by your Department. They have every reason to believe that Mr. Turnell's appointment will make for the highest efficiency of the Institution. Mr. Turnell proposes to commence work at the Institution on, or about April 20th., - until which time Mrs. Boyce will continue as Acting-Principal.-

I am, Sir, Your obedient Servant,
C. Augustus Webb
Clerk to the Company

To Duncan C. Scott Esqr.

Dear Sir,

I have your letter of the 10th. ultimo, advising me of the appointment of Rev. Cyril Mee Turnell, M.A., of St. John's College, Cambridge, as Principal of the Mohawk Institution, Brantford, Ont., in place of Major A. Nelles Ashton. Mr. Turnell's appointment meets with my approval, and I earnestly hope that he will be highly successful in this new field of labour.

I think it would be in the interests of both Mr. Turnell and the Department if he would arrange to stop over at Ottawa on his way to Brantford, when I shall be most happy to have a personal interview with him. Kindly express my wish to Mr. Turnell, as I have no doubt he will be able to make his arrangements accordingly.

Sir,

I have to acknowledge,- with hearty thanks,- the re-ceipt of your letter of March 1st.,- in which you express your approval and welcome of the Company's appointment of the Revd. Cyril Mee Turnell , M.A.,as Principal of the Mohawk Institution, Brantford. Mr.Turnell left England on Saturday last,the 10th. instant,and as he is travelling via New York , he proposes to go straight to Brantford and , after depositing his baggage ac.at the Institution , to go immediately to Ottawa - when he much hopes to have the pleasure of making your acquaintance. He was I may say,only married two days before he left England: and he will in all probability be accompanied to Ottawa by Mrs.Turnell,- who has I believe obtained academical distinction at the Universi-ties of Bristol and (I think) Birmingham. She takes considerable interest in social work and has done great things in or near the slums of Bristol among the Women and Girls.

// The Company have also appointed as Missionary in Charge at Ohsweken and Delaware (on the Grand River Reserve)the Revd.

DEPARTMENT OF INDIAN AFFAIRS
MAY 28 1915

Indian Office, Brantford,
May 26th., 1915.

Sir,-

I beg to advise you that this morning I paid a visit of inspection to the Mohawk Institute and found that Major Barker the Inspector of Cadets was also there inspecting the cadet corps. The cadets lined up 46 strong and made a very creditable appearance. I find there are on the roll at the Institute 58 boys and 67 girls a few of whom will be leaving at the end of the quarter. Mr. Turnell informed me that he believed the New England Company was anxious to increase the size of the Mohawk so as to hold 200 pupils. This would necessitate building an extra dormitory and a dinning hall for boys and one for girls. As Mr. Scott knows the dormitory in the attic used by some of the girls is not suitable being too dark. I also found that Mrs. Ashton is still acting as matron and bookkeeper but expects to retire on pension at the end of August when Mrs. Turnell will take up her duties but without salary. The Principal also informed me that he was gradually relaxing the discipline and he has found no serious breach of discipline since he has taken charge.

My dear Sir

I have been hoping for some time past to arrange a visit to Ottawa in order to confer with you on the proposed enlargement of this Institution and other matters. Unfortunately Miss Hardie our Senior Teacher met with a bad accident soon after our arrival here and has been incapacitated for duty ever since. I have consequently been compelled to take over the work of teaching the senior pupils myself and this has prevented me from leaving home. However I am glad to say that Miss Hardie will be fit to resume duty this week. This will make it possible for me to come to Ottawa with my wife. as she takes an active interest in the Institution we should both like to have the pleasure of meeting you. Our Teachers start their vacation on the 17th of next month. It

will therefore be advisable to arrange an interview before they leave - for during their absence a good deal of the supervision falls upon us.

On my arrival here I found that the School had been admirably managed by Mrs Boyce and she was good enough to remain for a short time in order to initiate us into the administrative details connected with the Institution.

We have however considered it desirable to relax in some respects the somewhat rigid discipline and to improve the dietary arrangements and conditions under which the children take their meals. These changes have been appreciated by the Indians - also the fact that we are allowing to children living near to go home for a short holiday in the summer.

I am

yours faithfully

C. M. Tunnell

Principal

Sir :-

I beg to enclose the minutes of council held on the 1st, 2nd, 10th, & 11th of June and to report thereon as follows :-

\# \# \#

No-11

The Chiefs extended an invitation to the Rev Mr Turnell Principal of the Mohawk Institute to meet them at the Council-house, which Mr Turnell did on the 2nd inst. when several matters in connection with the Institute were discussed. I believe this meeting will lead to a better understanding between the Council and the ~~Mohawk Institute~~.

DEPT. OF INDIAN AFFAIRS
JUL 3 1915
SURVEYS

Referring to the decision of council in March last refusing the request of Mrs. Boyce for damages done to New England Land in the Township of Onondag, I beg to report further. The New England company own land on the Reserve in this township which ~~calls for~~ which under the Bylaws of the reserve called for four days road work. The public high-way where it passes through part of the Company's land has a deep cutting in it which fills up with snow every winter and is rendered impassable for many days at a time and would necessitate considerable work to open up. In consequence the travellers on the highway have been accustomed to pass through the fields a custom which is practiced all over the county. The fields through which this road was made is nothing but a meadow and not particularly good and the damage done was not considered by the council to be

be worth considering. Mrs. Boyce in her first claim asked for $10.00 but a subsequent letter asked for $25.00. If the company had done their road work they might have done it in keeping this road open but as a matter of fact it has never been done by the Company. The council believes that Perry Davis who has leased the New England Company land was the real claimnant in this matter and desired to get compensation from the council. My own opinion is that the claim should not have been made.

Ottawa, 9th July 1915.

Sir,-

I beg to acknowledge the receipt of your letter of the 28th June last, regarding a request for damages by Mrs. Boyce, owing to ~~T~~respass on lands leased by her from the New England Company for the purpose of a winter road. I think when this matter is properly presented to the New England Company, pointing out that they should perform four days work per year on the reserve, that they will make arrangements with Mrs. Boyce, either that she should perform the work or in lieu thereof allow the use of a road across the New England property during the winter months.

You are requested to take this up with the Company and with Mrs. Boyce. If you do not get a satisfactory reply you should forward to the Department a sketch showing the particular portion of road and the lands affected and state the number of years for which this road work has not been performed or whether it has ever been performed. If you can procure it please forward a copy of the Reserve By-laws with regard to road-work, when the matter will be taken up with the Company from here.

Ottawa, September 14, 1915.

Rev. Sir,-

The Department is in receipt of a communication from Mr. Agent Beattie, of Highgate, in which he states that he is requested by Mr. Reuben Tobias of the Moravian Reserve to write on behalf of his son, Clifford Tobias, a student at the Mohawk Institute, who has passed his entrance examination and wants to continue at the Institute three years longer. The Agent states that you are willing for this boy to stay if his tuition is paid.

Kindly let the Department know as soon as possible whether you are willing to keep this boy in your school three years longer.

Dear Sir

I beg to acknowledge receipt of your communication with reference to Clifford Tobias. The boy at present is only 14 years old. We are quite willing for him to remain here so that he can attend the local Collegiate Institute subject of course to his continued good conduct. It is customary for this Institution to pay half the tuition fees and defray the cost of the necessary School books, and the parents are expected to pay the balance which amounts to $15 per annum. They are also expected to provide clothing to take the place of the

Sir,

I beg to advise you that a drowning accident happened at the Mohawk Institute early this morning. It appears that the man in charge of the green house took two boys out, without the knowledge and consent of Mr Turnell, to hunt musk rats in the river back of the Mohawk Church in an old canoe. The canoe upset. Edgar Smith, son of William Smith, Jr., went under the ice, and ~~and~~ has not been found up to the time of writing. Mr Turnell has the firemen of the City dragging the river for the body. The gardener and the other boy were pulled out of the river.

The Bethlehem Tableau

Presented at Conservatory of Music Last Evening by Children of the Mohawk Indian Institute—A Wonderful Conception

Last evening the children of the Mohawk Institute presented the tableaux of Bethlehem, in the Conservatory Hall here. It was the living pictures of the Christmas story. And for beauty of conception, effectiveness of posing, the play was wonderful throughout. The facial expressions of the children taking part was also very remarkable in that they evidenced the fact that each child seemed to have a spiritual understanding of the character represented. The overwhelmed Eve, the backward glancing, half resentful Adam, the innocent, saint-like Mary, and the sweet Christ Child Himself were perhaps the most admirable and realistic in their work. Nevertheless each child took his part excellently.

"We have a gift for standing still," said the Rev. C. W. Turnell, who was in charge. And it was a most pressing requisite for the proper presentation of the play. But the children are possessed of more than that. They have the divine gift of imagination.

Praise is also due to those who trained them and designed and made the costumes, which were copied from the most famous examples of sacred art. There were 21 scenes, 30 performers, and a choir of 20 voices. These rendered suitable music in harmony with and between each pictured scene. The choir wore red cassocks in view of the fact that His Majesty's Chapel of the Mohawks is of royal foundation. Accompanying each scene was an appropriate Scripture reading by the Rev. Mr. Turnell.

The first scene depicted Eve in the Garden of Eden, being tempted by the serpent. In her outstretched hand she held the apple, while before her was that most subtle of all the beasts of the field. In "Paradise Lost" were the three angels with the gleaming, upraised swords, guarding the entrance to that lost world. White-winged and imutable they stood. There was no appeal against that judgment. So knew the guilty, driven forth.

In "The Promise," there were two scenes, "Abraham and Isaac," and "The Offering of Isaac." The unsuspecting boy stood with the bundle of sticks upon his back, and the venerable Abraham, with knife and fire, sought a lamb for the sacrifice. Both wore the traditional Eastern costumes. In the following scene, Isaac was laid upon the altar with the faggots underneath him, about to be offered up. The father stood with the upraised knife ready to slay his own son. The posing here was remarkable on account of its extreme difficulty.

In the "Root of Jesse" came the annointing of David. In the foreground was the kneeling shepherd lad, while over him leaned the prophet Samuel and Jesse.

Centuries passed between this and the next scene, where the angel with outspread wings and bearing a lily in his hand announced to the lovely Mary that she should be the mother of the Savior of mankind. Following this was the "Salutation of Elizabeth and Mary," and "The Nativity." Here Mary and Joseph were pictured bending over the rough-hewn cradle of the Christmas Child. In the "Shepherds in the Fields," the three keepers of the sheep were grouped about the fire warming themselves, and leaning upon their shepherd's crooks. In the next picture the angel brought these simple men the great tidings that were to make glad the world. The men sat with their arms before their faces, blinded by so much glory. They were "sore afraid." In the "Excelsis Gloria" were the four grouped angels. Next the shepherds were seen at the side of the cradle of the new-born Christ. Beside them stood the adoring Mary. In the background was Joseph.

With gifts in their hands and clad in all the gorgeousness of the Eastern costume, stood the three wise men before Herod. The Roman soldiers kept guard. The next scene showed them before the cradle of their Lord.

In "The Presentation in the Temple," the white-bearded Simeon held the Infant in his arms. Beside him stood the ancient, stooped prophetess Anna, and Mary and Joseph. Joseph is next warned by the angel to flee into Egypt, which flight is depicted in the picture that follows. The three scenes that succeeded were probably as appealing as any of the entire play. The little Christ Child was seen drawing water from a well for His mother, who stood with a pitcher poised upon her shoulder. Next He was found in the temple discussing doctrines with the priests. In "The Workshop of Nazareth" He was seated upon the floor among the shavings, while Joseph plied his trade. Beside them was Mary, the mother.

In the final scene the various characters were grouped, Adam and Eve in the foreground, back of them the boy Jesus, His parents, shepherds, prophets, priests, Herod, the Roman soldiers, the wise men, and

THE BETHLEHEM TABLEAUX

LIVING PICTURES OF THE CHRISTMAS STORY

THE Bethlehem Tableaux, first produced in modern times in the Parish of St. John the Divine, Kennington, London, England, are, like the famous Passion Play of Ober Ammergau, a revival of the popular mystery plays of the middle ages which filled the gap between the ancient and modern drama. The mysteries, unlike the latter morality plays, deal with scriptural events only, their purpose being to set forth with the aid of the preparatory history the central mystery of the Redemption of the world as accomplished by the Nativity and Passion of the Redeemer. In the Christmas plays the treatment of the Nativity was prefixed by that of the Old Testament prophecies and types of the Redeemer, and of the fall which made the redemption necessary. In many English towns the plays became an important municipal affair, being given annually by the various "craft guilds." In modern revivals action and dialogue are generally omitted to secure a more reverant treatment of sacred subjects. The play becomes a series of scenes or pictures with an appropriate Scripture reading for each; the intervals between each scene being occupied by the rendering of music in harmony with the production.

The Bethlehem Tableaux, now produced annually by the children of the Mohawk Institution are probably the first reproduction of the old Nativity Plays in anything like a complete form on the Continent of America. They consist of some twenty scenes and require thirty performers for the different characters and a choir of twenty voices. In accordance with ancient custom rich hangings take the place of painted scenery. The costumes and accessories used are copied from the most famous examples of sacred art, whilst the incidental music is largely drawn from the traditional Christmas melodies of a bygone age. This Christmastide the Bethlehem Tableaux will be given in St. James' Parish Hall, Paris, on Tuesday, December 18th, and in the Concert Hall of the Conservatory of Music, Brantford, on Wednesday, Dec. 19th; in each instance at 8 p.m.

The scenes will be depicted in the following order:

1. The Fall.
2. Paradise Lost.
3. The Promise { (a) Abraham and Isaac. (b) The Offering of Isaac.
4. The Root of Jesse.
5. The Annunciation.
6. The Salutation of Mary and Elizabeth.
7. The Nativity.
8. The Shepherds in the Field.
9. The Angels and the Shepherds { (a) The "good tidings" (b) "In excelsis gloria"
10. The Shepherds at the Manger.
11. The Wise Men before Herod.
12. The Adoration of the Magi.
13. The Presentation in the Temple.
14. Joseph's Dream.
15. The Flight into Egypt.
16. The Boyhood of Jesus.
17. The Christ Child in the Temple.
18. The Workshop at Nazareth.
19. The "Te Deum."

Excerpt : -

Indian Office,
Brantford, Dec. 26th, 1917.

Duncan C. Scott, Esq.,
Ottawa.

Dear Mr. Scott,-

I inclose newspaper clipping and programme of the Bethlehem Tableaux recently given by pupils of the Mohawk institute which I had the pleasure of seeing.

I thought you might be interested in knowing that the entertainment was a surprise to the people of Brantford, as it was a great credit to the children and to Mrs. Turnell, who designed the costumes and trained the children. All the costumes were made by themselves.

Tableaux lend themselves particularly to Indian stoicism. The same tableaux were put on at Paris the day before, and to make it more realistic, real fire was put in the altar upon which Isaac was about to be slain, but accidently it burnt up too high and scorched "Isaac's" fingers, but Indian-like he never stirred a muscle until the curtain dropped and now he has a badly burned finger.

x x x

Yours sincerely,

Gordon J. Smith.

MEMORANDUM.

Mr. Scott.

On September 29, 1913, Messrs Kelly and Porter, Barristers, Simcoe, Ont., wrote the Department on behalf of George W. Miller and Jefferson D. Isaac, Indians of the Six Nations Reserve, threatening action against the Principal of the Mohawk Institute for unlawful assault and excessive punishment and discharge of their children.

The Principal of the school, Mr. A Nelles Ashton, was asked for the reasons for the discharge of these children and a copy of his report was sent the Indian Superintendent, Brantford, in order that he might advise the Indian Council why these children were dismissed. The Indian Council having taken this matter up, offered to support the prosecution by making a deposit of $100.00 with Messrs. Kelly & Porter on account of the cost in the action instituted by them against the principal. As this was a personal matter between the parties, no grant was allowed.

The case was tried in Brantford

before Mr. Justice Kelly on March 31, 1914, when damages were awarded against the defendant on two counts as follows,- For keeping girl in cell for three days on water diet $100.00 - For whipping on bare back with raw hide $300.00 or $400.00 in all.

The evidence is given in the Brantford Expositor of April 1, 1914. Copy on file.

Indian Office, ,Brantford,
June 1st., 1918.

Sir,-

I beg to report that on the 29th of May I made Inspection of the Mohawk Institute. Mr. Turnèll informs me that he was leaving in August to take up a position under the Bishop of ~~Jamaca~~ Jamaica, he has no information as to who his successor will be. The work at the Institute is as usual progressing most satisfactorily. There are always more applications for ~~vacancy~~ vacancies than can be accepted At a recent confirmation by the Bishop of Huron 32 candidates were presented. Two of the girls are attending the Brantford Collegiate Institute and one passed the entrance into the Normal in April last and proposes to attend Normal in September. Mr. Thomas of the Conservatory of Music has a class once a week in advanced music and Miss McNally of the Collegiate Institute staff conducts a weekly class in domestic science. The cost of the latter is paid by Mr. Turnèll from his own income. There are three condidates preparing for the entrance examination.

Mr. Turnell claims to have considerable trouble in running the Institute on account of shortage of funds the staff in particular being ready almost without notice to leave if they do not get the highest wages going. Mr. Turnell thinks that an order to have

the farm side of the work looked after ~~by~~ better, a Guelph Agricultural College graduate should be in charge but his salary would certainly be far beyond what the New England Company would pay.

There are 20 acres in spring wheat and a considerable area in sugar beets, the balance of the farm is planted for the purpose of raising food for the stock and for the children. The green house is most profitable, It appears to me that the farming land is not large enough to conduct general farming and it would be more profitable were intensive gardening done, but that of course would not give the instruction in general farm which the boys require.

The general conduct and discipline has been good, no one has been absent without leave since last October and that was merely a case of a boy who went home but was promptly brought back next day by his parents. The parents in every case back up the authorities and insist on having their children punctual and regular. The health is good and there has been no epidemic for a long. time.

ENGLAND.

29th. May 1918.

510400

Sir,

I am desired by the Court to acknowledge the receipt of your letter of May 1st.

The Court is at a loss to understand your complaint regarding the vacating of his position as Principal of the Mohawk Institution by the Rev. Mr. Turnell. As a matter of courtesy your Department was advised of his appointment and in due course we shall advise you of the appointment the Court makes of his successor.

The Court notes with satisfaction your Department's good opinion of the efficiency and condition of the Mohawk Institute from the point of view of education. But on economic and administrative grounds, the Court considers it necessary to make certain changes.

The Company has appointed General C.E. Ashton, C.M.G. a Commissioner to enquire into the management of the Mohawk Institute. He has full powers as regards the appointment of a proper staff to conduct it for the present and will advise the Company what steps should be taken as to its future.

In this connection, I should be glad if you could expedite a reply to a letter addressed by the Company to your Department on March 22nd. last.

I am, Sir,
Yours faithfully,

Ernest Mathews

Governor of the New England Company.

DEPARTMENT OF INDIAN AFFAIRS
JUN 29 1918

Sir,-

I beg to advise you that this morning I made ank inspection of the Mohawk Institute. Mr. Turnell seemed very mudh unsettled and worried about conditions out there and as he has made all arrangements to leave in August and has not yet heard whether a successor has been secured. He is also specially interested in the crops this year which he says are extra large and as his farm helpers are engaged only by the month they are liable to leave at any time, unless wages are increased. They have not been asking for increases but if they do he has no funds available to pay them. His barley and spring wheat looks extra good the vegetable garden is good and his stock is increasing very rapidly. He has made over a thousand dollars our of pigs this Spring. The number of pupils is up to the limit and many on the waiting list. There are a few cases of chicken pox of a mild type. Mrs. Turnell has just returned from Toronto where she underwent a serious operation but she is now recovering rapidly.

Your obedient servant,

The Secretary- Supt.

Dept. of Indian Affairs-

Ottawa.

Ottawa, July 3, 1918.

Sir,-

In reply to your letter of the 28th ultimo with reference to conditions at the Mohawk Institute I beg to say that the Department has had no word of the appointment of a successor to Mr. Turnell.

With regard to the farm helpers, who are only engaged by the month and liable to leave at any time unless the wages are increased, I beg to say that the Department appreciates the interest Mr. Turnell is taking in the crop and, should at any time an increase in wages be demanded, he may meet the current rate and the Department will see that funds are available for that purpose, if required.

Your obedient servant,

(Sd) J. D. McLean

Asst. Deputy and Secretary.

Sir,-

I have the honour to inform you that the Reverend C.M.Turnell vacates the position of principal of the Mohawk Institution on the 26th instant.

I have appointed Mrs J.M.Boyce to act temporarily as principal, pending a decision by the New England Company of their future policy in connection with the Institution.

I shall have the pleasure of calling upon you in a few days to discuss this latter question with you.

I have the honour to be,
Sir,
Your obedient Servant,

Commissioner New England Company,

Duncan Campbell Scott,Esq.,

DEPARTMENT OF INDIAN AFFAIRS
MAY 4 1918

Ottawa, March 30, 1918.

MEMORANDUM.

Mr. Scott,-

Re. Mohawk Institute.

I beg to submit herewith two financial statements taken from the records on file in the Department.

Statement No. I shows the yearly cost of maintenance and management of the Mohawk Institute from the first of April, 1905, to the 31st of December, 1917, the enrolment and average attendance for each year and the per capita cost on the average attendance.

Statement No. II shows the results of the farming operations and industrial departments for the same period and gives the receipts, expenditures and profits for each year.

The Rev. R. Ashton was in charge from 1905 to the 31st of March, 1911, and he was succeeded by his son, Mr. Nelles Ashton, who was in charge until the each of March, 1914. Mrs. A. M. Boyce carried on the school until the first of April, 1915, when she was succeeded by the Rev.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt. 1A)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Rev. C. M. Turnell, the present Principal.

The farming operations at this institution have always produced a profit, which has varied from $14.25 for 1913 to $3,265.34 for the year 1914 under the management of of Mr. Nelles Ashton. Since Mr. Turnell has been carrying on the school the profits have run from $1,064.10 for the year ended March 31st, 1917, to $3,247.38 for the nine months ended December 31st, last. This shows that the profits from the farming operations conducted by Mr. Turnell for the nine months of the current fiscal year are only $17.96 short of the highest in any of the previous years.

Since Mr. Turnell has been Principal the per capita cost has increased slightly, but this is more than offset by the increased cost of supplies.

Gerald Benoes

May 1st, 1918.

Sir,

I am informed by Rev. Mr. Turnell that you have dispensed with his services as principal of the Mohawk Institute at Brantford, and that you have given him six month's notice. Up to the present I have received no notification from you directly as to your action, at which I am somewhat surprised.

I regret that I cannot agree with your proposal to make a change in the Principalship of the Mohawk Institute. The appointment of Rev. Mr. Turnell we consider has been in the best interests of the Institute. When you wrote to me on the 10th. February 1915, you used the following words in describing Mr. Turnell:- " The Company hope that they may have the assurance of

" the approval of Mr. Turnell's appointment by your
" Department. They have every reason to believe that
" Mr. Turnell's appointment will make for the highest
" efficiency of the Institution."

I have to inform you that your high estimate of Mr. Turnell has been proved by his conduct of the Institute and your belief "that his appointment would make for the highest efficiency" has been amply supported. Those of us who are deeply interested in the Institute and in the welfare of the Indians; namely, Rev. Mr. Turnell, the local Indian Superintendent, and myself, have been giving serious consideration to the position of the school and its future, and it is perfectly clear to my mind that the difficulties which surround the situation will not be removed by the dismissal of Mr. Turnell.

I trust that the Company will not carry out the contemplated action without further consideration. It is my opinion that no change whatever should be made in the administration of the Institute until a properly qualified representative of the New England Company visits Canada and has an opportunity of discussing the present position and the future of the

22nd. March, 1918.

Sir ,

Re Mohawk Institution , Brantford , Ontario.

At a Special Court of this Company,- held on the 13th.inst: - the following Resolution was passed:-

"That a letter be written to the Indian Department of Canada "enquiring whether the Department would be prepared to make an offer to the "Company for the purchase of the Mohawk Institution buildings and contents, "including the 10 acres of land on which the buildings stand.

In making this suggestion , the Company were influenced by the follow-ing considerations:-

(i.) that by the sale of the Mohawk Glebe Farm, the most profitable land for supplying the produce to the Institute and for farming has been taken away :

(ii.) that the expenditure in relation to Agriculture and the upkeep of the Institution is out of proportion to the educational and missionary work of the Company:

(iii.) that the farming which the Company is authorized to teach does not include expensive experimental farming

I am directed further to point out that

(1.) The proximity of the City of Brantford is detrimental to the Missionary work of the Institution.

(2.) The Agricultural Adviser to your Department has suggested through the Principal of the Institution that the Company should lay out money in improving farm stock , in draining the land , and in other farm improvements which appear to the Company to be contrary to the spirit of the terms under which the Charter was granted to the Company.

(3.) The income of the Company would be expended better and more in accordance with such terms , in other districts where the Indians are not in the advanced state of civilization as in the districts from which the pupils of the Mohawk Institution are drawn.

The Company would be glad to receive an early reply from you , on behalf of your Department , as to whether your Department would be prepared to make such an offer to the Company as that referred to in the first paragraph of this letter.-

I am , Sir ,
Your obedient Servant ,
C. Augustus Webb
Charter Clerk to the Company.

To/
Duncan Scott Esq:,

May 16th., 1918

Sir,-

I have received your letter of the 22nd. of March last, in which you inquire whether this Department would be prepared to make an offer to the New England Company for thepurchase of the Mohawk Institute buildings and contents. I have given very careful consideration to your letter, but must inform you that the Department cannot at present correspond with the Company on this subject.

I would direct your attention to my letter of May 1st, and to my suggestion that a representative of the Company visit Canada and discuss the whole situation with me. To my mind, no good will follow discussion of this subject at long range.

Yours very truly,

Duncan C. Scott

DEPT. OF THE INTERIOR
RECEIVED
JUL. 6 1918
MINISTER'S OFFICE

Sir,

The New England Company, of which I am the Governor, has received a letter, dated May 16th., from Mr. Duncan Scott, Deputy Superintendent General of Indian Affairs, in which, referring to a suggestion made by the Company to sell the Buildings and the Free - -hold land of the Mohawk Institute, Brantford, to the Canadian Govern- -ment, he declines to enter into correspondence with the Company; and suggesting that the Company should send a representative to Canada.

The Company demurs both to Mr. Scott's decision, and to the terms in which it is expressed.

It is impossible for any Member of the Company to go to Canada at the present time. All the Members are very fully occu- -pied in other important work here.

In a letter, dated the 29th. May, - which Mr. Scott had not received when he wrote, he has been informed that the Company has appointed General E. C. Ashton, C.M.G. (Adjutant General for Canada) to act as the Company's Commissioner with very full powers. No doubt General Ashton will open communications with you on the subject of the correspondence which has passed between the Company and your Department.

I am, Sir,
Your obedient Servant,

Ernest Mathew
Governor of the Company

July 31st., 1918.

Sir,-

I beg to advise you that on Friday 26th inst. I inspected the Mohawk Institute.

The Rev. Mr. Turnell left for Kingston, Jamacia on the morning of the 25th and I found Mrs. A.M.Boyce in charge. She has no idea how long she is to be there as her engagement is not definite. She complains as did Mr. Turnell that a great many repairs about the build - ings are required, for instance the plaster is defaced by the children and broken off in all the rooms and passages where the children have access. She is arrang- ing to have these particular repairs made at once, she complains about a great shortage of blankets and matresses for the boys dormitory and is to make representations to the New England Company in regard to it. In order to reduce expenses she has dispensed with the services of the primary teacher and also the Junior housekeeper. She informs me that her idea of discipline is not that of her father but she thinks that the boys are out of hand as Mr. Turnell was not strict enough with them. The girls she finds to be all right. She evidently bases her ideas as to how the Institute should be managed in regard to equipment and cleanliness on a hospital standard, in which she

Dear Sir -

The school has suffered severely with the influenza epidemic — we had seventy-six cases last Sunday - been allowing up a few each day. Most of the staff have been laid up - for days all we could do was to attend to the sick - the farm help have been ill also — and we day only four boys were down — we have only been able to do the chores.

I regret to state that this morning Lillian Vanevery died from the influenza.

Sir,-

x x x

The Board of Health and the Council on the 22nd inst. ordered the closing of the schools for two weeks.

The number of cases at the Mohawk Institute has been increasing daily, until today there are 76 children in bed but Mrs. Boyce reports that only 8 are at all serious and even these she thinks will be all well in due course.

Sir,

I regret to inform you that Lillian VanEvery the eleven year old daughter of Noah VanEvery died at the Mohawk Institute this morning of influenza.

She had been delirious for some time but at 8 o'clock this morning appeared no worse. Her father was with her but she suddenly sank and died at 9.15.

Mrs. Boyce is fortunately a trained nurse and is I believe giving the utmost attention to her patients under the advise and care of Dr. Palmer.

This morning there is a reduction in the sick list, there being only 17 boys and 24 girls. Some of them appear to be only run down and amongst those recently admitted to the Institute Mrs. Boyce notices a want of vitality caused by under nourishment she thinks. They have no reserve force.

Sir,-

I beg to advise you that on the 30th of October in company with Mr. Abraham I inspected the Mohawk Institute. The classes have just started having been closed for some weeks on account of Influenza but the attendance was not large, During the course of the epidemic, every child suffered and every adult at the Institute was also attacked except two, consequently work and education of all kinds suffered but they were just beginning to get into working order when I was there.

I am

Sir

Your obedient servant,

Dear Mr. McLean,

Your circular re supplies of military clothing blankets etc has been forwarded me here.

There are changes contemplated on the management and probably in the disposal of the Mohawk Institution. I could not plane an order without consulting my brother, Gen. Ashton. I expect to be in Ottawa next week and there are so many things the school urgently requires that I hope with his consent we may order blankets, etc. As our boys leave at sixteen years of age and very often younger, its not likely the clothing and shoes can help us much.

Should like if possible to see you when in Ottawa.

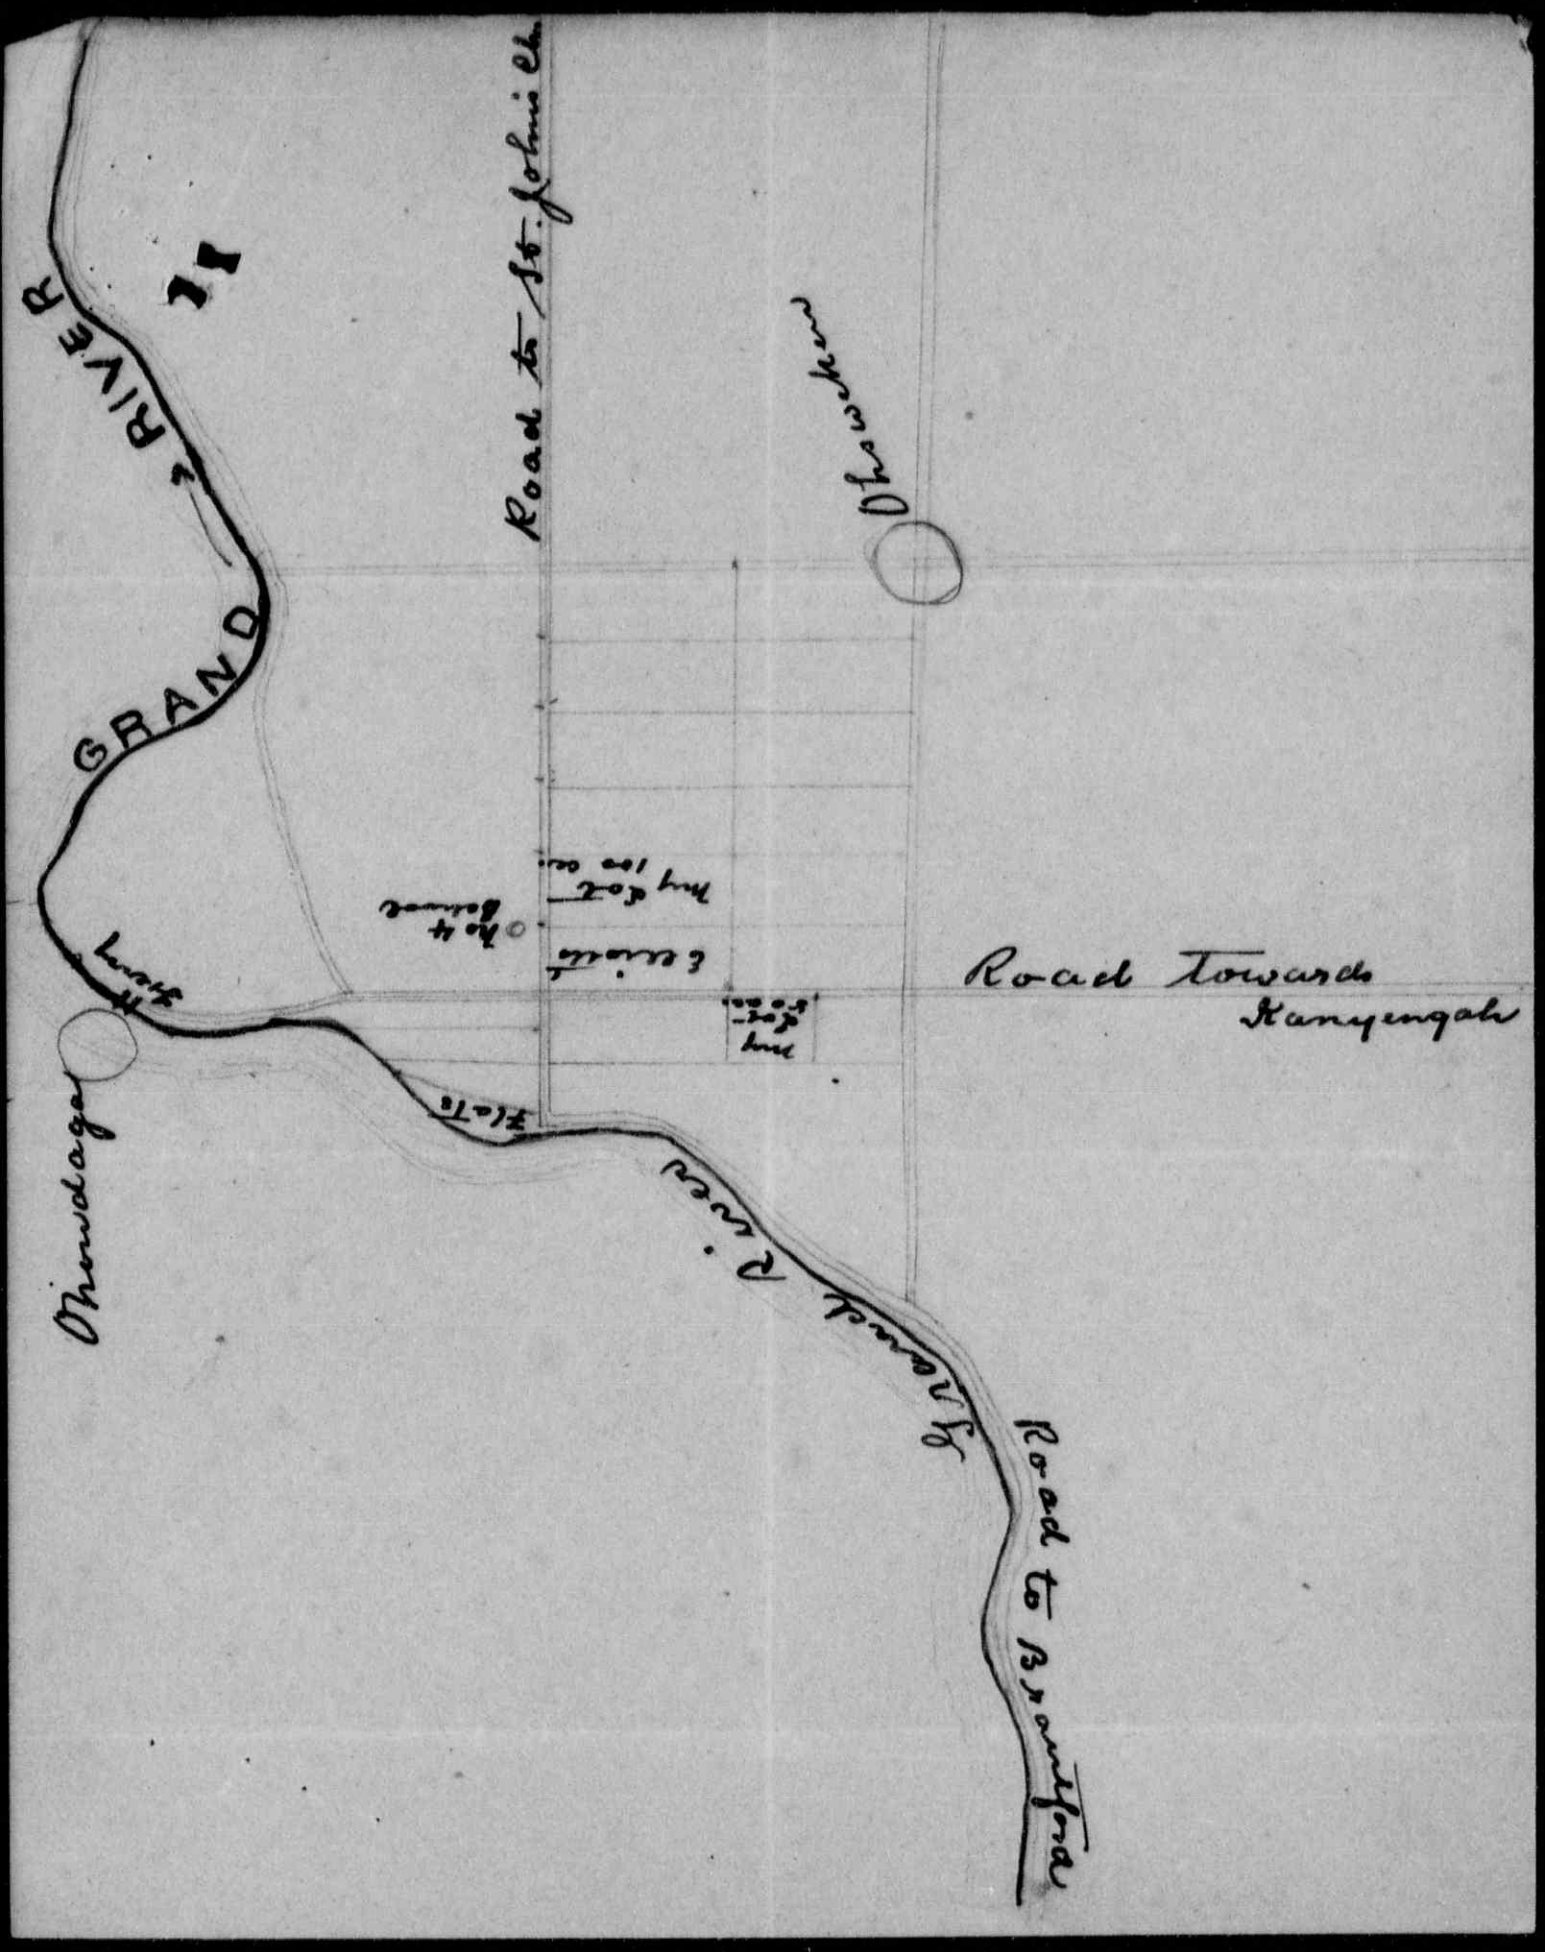

Yours sincerely,

A.M.Boyce.

Dear Mr. Scott:-

Mrs. Boyce tells me that you are planning to have an Industrial School for boys, built on the Reserve. As you will be deciding on a site, I am writing to offer you my farm as a possible site. It consists of 100 acres and is the North half of Lot 23 in Concession 3. It is situated on a quiet road from 2 to 2½ miles from Ohsweken and about the same distance from Onondaga where there is a railroad station. Part of it is high and suitable for building site, and there is wood on the place. You would, I know require more land. The farm of 100 acres next might be available

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt. 1A)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

It belongs to John & James Elliott, but I understand, they do not farm it themselves, so they might like to sell.

I have a lot of 50 acres near but not adjacent, I am sorry to say, which I would also sell if you required it.

The river is not very far away and the flats near it might also be available.

Enclosed you will find a rough map of the locality.

Yours sincerely
Susan Hardie

Dear Sir:—

You will remember telling me that the Indians were anxious to obtain the "Manual Labor Farm" attached to this school. I wish you could have seen it to-day - it was flooded up to the stable doors. I hope the New England Company has an option on buying some of the land, I have heard they have on one hundred acres. We would certainly require more than the freehold ten acres - and would want our present orchard and kitchen gardens - and hog and cattle runs - that now leaves the park flooded nearly every spring.

In Mr Turnells time they laid out a young orchard, and rows of small fruits in the flooded area - the flood came and then a drop to sea and all the young trees and canes were cut off. This land will be of no use for building purposes.

You will be glad to know that all the electric wiring has been overhauled, and passed by the Inspector - it has cost nearly $900.00, and the laundry machinery been

repaired – the education was not used for over three years.

I have engaged to-day a vegetable expert – as we are going into truck gardening with an eagerness to the market it ought to be a paying proposition. We should have fine greenhouses, for tomatoes – lettuce etc for winter sales. The gardener last year did not grow carrots – onions – parsnips enough to last the school through the winter – there was not a turnip in the place – and no celery spinach or asparagus – and very few beets. You can understand it has cost us more than it should to give a well balanced dish. Yours sincerely

Alexie Mc. Boyce

March 25,1919.

Dear Mrs. Boyce -

I have your letter of the 19th inst., and in reply I would state that I am not aware that the New England Company has an option on the manual labour farm. It will of course be the policy of the Department to see that there is land enough in connection with the institute to properly carry on their work.

I note that you have had the electric wiring overhauled and the laundry machinery repaired, which I am sure will give you much satisfaction.

I also hope that your experiment with truck gardening will be highly successful.

Yours very truly,

D C Duncan

OAK PARK STOCK FARM

The Oak Park Stock farm, consisting of 540 acres, is beautifully situated near the banks of the Grand River, between the city of Brantford and the town of Paris, abour 3½ miles distant from each place. The soil is of good quality and in a high state of cultivation, surface gently rolling. There are 80 acres of wooded land along the banks of the river, consisting of oak, elm, pine etc.

The buildings consist of:- 1st. Very large, spacious solid stone residence, well finished and containing modern improvements.

2nd - Large frame bank barn on stone foundation, with commodious stable for cattle and horses, with all up-to-date improvements, including electric appliances and water system.

3rd - Very large and specially well constructed hog pen.

4th - Large frame sheep house.

5th - New cement silo.

6th - Good comfortable frame house on the 80 acre portion.

The barn is well finished, and there is a good apple orchard besides other fruits. On the grounds about the residence are ornamental trees and shrubs. This is considered to be one of the best and most modernly equipped stock farms in the province of Ontario. Price $100,000.

Dear Sir: RE MOHAWK SCHOOL

Having heard that the Mohawk Institute is now considered to be too near the city limits for the good of the school and as we are the agents for the sale of one of the best and finest stock farms in the province we are taking the liberty of writing to you. This property is situated between Brantford and Paris and consists of 540 acres ,with splendid lands and buildings, as per description enclosed. It is called the Oak Park Stock farm and is well known throughout the Dominion and the United States. The price is One Hundred Thousand Dollars.

We would be glad to have your inspector write us and say what day he would come to Brantford. If he would call at our office, giving us a few days' notice before his arrival, we would be pleased to drive him out to the property and show him over.

It is an ideal property and,as to location, equipment and surroundings, is admirably adapted to the needs of such an institution as the Mohawk School.

We would esteem it a favor to receive an early reply, as we had an offer for the purchase of it on Saturday last and, upon speaking of the offer to a gentleman in the city we learned from him that if it was known by the Government that this property was for sale they would be only too glad to have the opportunity of purchasing so splendid a property for the needs of the Institution named.

I thought you might like to know that our pupils took a prominent part in the receptions to the returned Soldiers at Thorold. On the 20th of July we sent 40 girls a governess and two men to drive the team to the Chief reception — The girls looked very trim in their summer uniforms — blue serge skirts - buff middies with blue trimmings blue straw hats with red bands — white stockings and slippers — they went prepared to dance — and did.

Yesterday the Warriors had a great day — we sent 95 Boys — all we had in the school — the rest having left for their three weeks holiday on Saturday the 28th. The boys were caded suits and scout hats. They had decked the wagons & horses with flags &c and polished the brass harness

as they said - "they were going to show those people in the train how to do things"

Several of the older girls went in charge of their friends. Miss Hardie - the housekeeper & two men went - and all reported a splendid time.

The boys marched well in the procession - they won in the baseball match - and at lunch sat at the same table as Mayor Gordon Smith - who reported that they behaved themselves well. Some of our girls helped wait on the tables - which were generously supplied with chicken - hot potatoes - ice cream cakes etc. Our boys were also treated to supper - and reached home at 12 o'clock - having also emptied the huge luncheon baskets we had sent - not knowing they were going to be so well looked after.

Yours sincerely
Alice M. Bryce

Bi-Monthly Report.

July and August - 1919 -

— Mohawk Institute - Brantford —

Church —

Services at church 3 p.m. July 6th Rev. Geddes officiated - 13th Rev. Mr Mills - 20th and 27th Rev. Mr Belbie - during the absence of Mr Jakeis. Other Sundays Mr Jakeis took service - administering Holy Communion Augt - 17th at 9.15 a.m. The pupils also attended some services at St. Judes church.

Duncan Scott Esq. Dept. Supt. Gen. Mr Abraham Dept. agricultural agent - and Major Smith visited School and proceeded at once to church July 11th. Several improvements were undertaken by the Department to church and graveyard.

New wire ornamental fence across the front of grave yard - and since then wire farm fence around rest. Trees to be trimed above the fence. Cobble stone gate posts - heavy wire gate - fence posts painted White and front fence green. Several tomb stones to be repaired. The iron railing around Brant tomb to be painted. Several trees, two inside the palings and two branching the shingles of the church roof to be removed. New cement steps built - outside.

Two coats of paint to church outside - repairs to floorings. The cherry

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

arch over holy table painted white by Mr Turnell to be scraped and varnished.

A green dressg- for the aisle. Two cheap pictures and lamps to be removed. Electric lights can now be installed.

Major Smith and Mr Hill inspected work at- church July 15th and afterwards visited school and saw irrigation system.

Mr Abraham & Mr Hill inspected church, & irrigation system Augt. 21st.

Major Audette, July 18th inspected for Militia department - re deficit in cadet supplies, signed for by Mr Turnell - but supposed to have been returned previously.

Holidays

The Holidays passed very quietly - the pupils divided in 3 divisions of 3 weeks each - 18 boys & 14 girls had not proper homes to go to - of these one boy absconded (last year he absconded and returned of his own accord before Xmas). Plenty of amusement was provided for those at school. The boys all attended the Soldiers Welcome at Obsweken, July 1st, they looked well in cotton cadet suits and were the chief attraction of the day. were entertained at the head table with Major Smith and Missionaries etc - Who reported the boys behaved well.

Two circuses each spent a week in town - the pupils all went several times, and were treated by the management to free rides on the merry-go-rounds, and ferris-wheels, and to all the performance

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt. 1A)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The pupils attended the Military Tatoo, and fire works at Agricultural Park on Peace Visiting Day.

Every week they had a picnic at the Park – the Mohawk Park close here has springs – dancing pavilion etc – and the girls thoroughly enjoyed it. One evening the accompanist failed to appear, and one of our girls played for the dances. They also went bathing in the River.

School recommenced August 31st – present 73 girls (3 girls had what I considered undesirable home conditions, were specially asked for by Major Semple and have overstayed leave) – and 44 boys – 2 on sick leave – and 3 overstayed leave.

Staff

There have been several changes on the staff. Mrs Hargreave whose husband has returned from overseas is succeeded by Miss Stobbs, fully qualified 2nd class certificate – as junior Governess.

Mr Rogers – artillery lieutenant – competent to teach band instruments and an adept at sports has reported as boys master – we are now appealing for instruments.

Miss Bonehill housekeeper had to return unexpectedly to England.

Mrs Mathews matron broke down in health.

Miss Keyes, former teacher, assisted for 5 weeks during the vacation taking girls to the Park etc – and seeing after the house cleaning and cleanliness of the pupils.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt. 1A)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Examinations

Four girls and one boy tried the Entrance Examination to the Collegiate and all passed. Alice Hankinson completed her course at the Business College - and two girls took first class honors at the Conservatory of Music exams.

Three girls can play the church services, and several can play for prayers.

Presents

The Department sent us a map case, and two maps for the senior school which were badly needed.

The Indian Department sent us 55 returned Indian Scouts, which we will remake into school and work suits. Also 2 collar badges, and a cap badge for 55 boys.

Gen. Coghlan has lent us his large collection of Indian curios, which are a great addition to our reception room. Also two large bookcases and part of his library which will greatly help to furnish the living room in the Principals flat - at present unfurnished. He also gave us a quantity of drugs and medical supplies and the school purchased some - we will require more drugs than usual to build up after the "Flu".

Health

Cornelia Thomas, was sent to the hospital for Hastrid Operation - was there several weeks - made good recovery.

Had one severe case of scrofula -

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt. 1A)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Florence French - ward of the Childrens aid Society - hope to locate her friends and send her home.

Several cases of eczema - from impure blood - aggravated condition left by the "Flu"

Farm and Garden.

Robert Conley left team in field it got tangled with plough - both horses thrown down - one is badly cut - the vet has treated her now a month. Earlier in the season his brother Lome Conley left team with harness, the horses ran away, smashed the harness and injured both horses.

We threshed 208 bushels of Spring Wheat - it was shrivelled because of the drought - sold some to the mill at 3 cents a pound - found they resold it as chicken feed at 4 cents. As we farm add in the paper to sell at 3½ cents ab barn, 4 cents delivered. It is selling fast. The oats we sowed in March 288 bushels were excellent - peas - have not been threshed but is all drawn in - will be light and the straw short.

We had to buy a new binder - as the old one took 3 times too long to cut - and had frequent breakdowns.

Our pigs have been troublesome - breaking through the old fences, have done damage to our garden and grounds and to the neighbors.

Repairs

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt. 1A)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

We re-roofed the big barn - using Brantford roofing over the old shingles (to save cost of scaffolding) and painted it with tar. Patched other roofs - entirely overhauled shingles on Institution roof. Repaired eaves troughing - and had new eaves for laundry - also a new copper.

Had all plaster repaired - that in girls play room was worst.

Built new outside stair case from senior school - new railings and platforms and steps from junior school - these were patched last year when other outside steps were built.

The three furnaces were overhauled and pipes cleaned.

One car of furnace coal was received.

One acre of irrigation completed.

The paint work was all cleaned during the holidays - windows washed - floors and furniture cleaned so no time was lost when school opened.

Although children holidays is now altogether a blessing - so many return in dirty condition - we have to use quantities of antiseptics and send more clothing to laundry than is ordinarily necessary. If we had proper bathing facilities - this trouble would be sooner overcome.

Alex Boyce.

Please note

E.A.D.

October 1st, 1919.

Dear Mrs. Boyce -

Your letter of the 29th ultimo, addressed to the Secretary of the Department, has been brought to my attention. I am sorry that I cannot give you assurance, in the event of your undertaking the cultivation of any portion of the Glebe property, of uninterrupted enjoyment. It may be that any time in the near future we may decide to have this property subdivided into lots and sold. If the survey work is to be undertaken in the spring a certain amount of damage would be done to the standing crop, and in the event of sale purchasers would want immediate possession. If, however, you are willing to assume all risk, either of damage to your crop or of disposal of the property before the harvest could be gathered, I see no objection to allowing you to put the portion of the property to which you refer between the Hamilton Radial and the canal under a crop of rye.

If these terms are acceptable, and you will advise me, you will be given formal authority to occupy the property.

A.F.M.

Yours very truly,

Deputy Superintendent General.

Dear Mr. Scott,

I hope that you saw Mr. Weld the New England Company's solicitor this last week, and that he told you of difficulties we were in financially. When my brother took charge just before Mr. Turnell left he placed the current account in the name "Brewster Trust", two months ago the N.E.Co. notified Mr. Brewster to enter that account as "New England Company Current Account", and arrange for me to sign the cheques. Our accounts were carried by the Bank of British North America, and transferred by it to the Bank of Montreal. Although Mr. Brewster and I both showed the manager of the Bank of Montreal our letters, He refuses to recognise my signature, without a letter from the N.E. Company. He wrote them himself last week, but unless a special meeting is called, there will not be a regular one until December 3rd. Mr. Brewster cannot sign neither can I, so I intended depositing the Government grant in another bank in the name "New England Company Trust Current Account" signing cheques with my name and using the N. E.Co. stamp.

The Department grant has not been received. I took the returns in to the Indian office October 2nd. and some ten days ago I asked Major Smith if he had sent them off early. He said he had and that all payments were delayed. This morning I went to the Indian office and find our quarterly returns still there, delayed by one school in the reserve. These days we have to pay cash for so much that it puts me in a very uncomfortable position. It will not help matters to cable the N.E.Co. as the last time money was transferred by cable the manager of the bank refused to accept it and cabled to England four times.

The Brewster trust acct. is over drawn		$2147.10
The N.E.Co. Special "	credit balance	8982.77
" "	account " "	153.37

The school was over numbered this last quarter and will draw the full grant.

Yours sincerely,
A. M. Boyce.

FORM 2

Great North Western Telegraph Company of Canada

Exclusive Connection with the WESTERN UNION TELEGRAPH CO.

Cable Service to all the World

CONDITIONS.—Approved by Board of Railway Commissioners for Canada, under Order 162, dated March 30, 1916.

It is agreed between the sender of the message on the face of this form and this Company, that said Company shall not be liable for damages arising from failure to transmit or deliver, or for any error in the transmission or delivery of any unrepeated telegram, whether happening from negligence of its servants or otherwise, or for delays from interruptions in the working of its lines, for errors in cypher or obscure messages, or for errors from illegible writing, beyond the amount received for sending the same.

To guard against errors, the Company will repeat back any telegram for an extra payment of one-half the regular rate; and, in that case, the Company shall be liable for damages suffered by the sender to an extent not exceeding $200.00, due to the negligence of the Company in the transmisson or delivery of the telegram.

Correctness in the transmission and delivery of messages can be insured by contract in writing, stating agreed amount of risk, and payment of premium thereon at the following rates, in addition to the usual charge for repeated messages, viz.: one per cent. for any distance not exceeding one thousand miles, and two per cent. for any greater distance.

This Company shall not be liable for the act or omission of any other Company, but will endeavor to forward the telegram by any other Telegraph Company necessary to reaching its destination, but only as the agent of the sender and without liability therefor. The Company shall not be responsible for messages until the same are presented and accepted at one of its transmitting offices; if a message is sent to such office by one of the Company's messengers, he acts for that purpose as the sender's agent; if by telephone, the person receiving the message acts therein as agent of the sender, being authorized to assent to these conditions for the sender. This Company shall not be liable in any case for damages, unless the same be claimed, in writing, within sixty days after receipt of the telegram for transmission.

No employee of the Company shall vary the foregoing.

Z. A. LASH, PRESIDENT. GEO. D. PERRY, GENERAL MANAGER.

DEPARTMENT OF INDIAN AFFAIRS
13 DEC 19

To Dr. Hastings M. O. H.

Sir.

I do not know whether you will take any notice of an anonymous letter. But I do not wish to be called upon to give evidence in the matter & therefore withhold my name. But the fact mentioned can be easily verified by writing to the Head Inspector at Brantford.

There is a large Indian School at Deseronto the Mohawk Institute, containing about 120 children. The farm largely supplies the School. At the end of last October the Health Inspector visited the farm & condemned 7 cows to be destroyed, suffering from Tuberculosis. Those cows are still alive & their milk is used by the children & staff of the School. Knowing that a fight is being waged against Tuberculosis I think this is downright wicked.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt. 1A)

PUBLIC ARCHIVES

December 11, 1919.

Dear Sir,-

I have your note of December 10, with inclosure. The charge therein contained ought to be easily proved, and, if it is, I shall certainly take immediate action.

It occurs to me that you may be able to ascertain whether the Health Inspector condemned seven cows at the Mohawk school, and ordered them to be killed. I am not familiar with your regulations. I presume the action was taken by one of your own officers. As a great many of the Indians have a tubercular taint, we should certainly see that thoroughly healthy stock is providing milk for the school.

Kindly let me hear from you again as soon as possible.

Yours truly,

Duncan C. Scott

Deputy Superintendent General.

OFFICER OF HEALTH

ONTARIO
PROVINCIAL BOARD OF HEALTH

Toronto, December 13th, 1919.

Sir:

In reply to yours of the 11th instant, I beg to say that the action taken regarding the seven cows at the Mohawk School was not on the authority of any of our inspectors. I think it was probably on the authority of some local veterinary or one of the staff of the Veterinary Director General's Department. Our regulations have no authority in this way. It might be advisable for you to ask Dr.Torrance if he knows anything about it.

I have the honour to be,

Sir,

Your obedient servant,

John W. S. McCullough

Chief Officer of Health.

December 16, 1919.

Dear Sir,-

An anonymous communication has recently been forwarded to this Department by the Ontario Provincial Board of Health wherein it is charged that seven cows belonging to the herd of the Mohawk Institute at Muncey have been condemned as tubercular, and that notwithstanding this fact they are still in use at the school. As a general rule the Department does not pay any attention to anonymous communications, but this allegation is of so serious a character, that I think it should be investigated.

I should be glad, therefore, if you would find out whether there is any truth in this complaint, and let me have a report in connection therewith in the near future.

Yours truly,

Duncan C. Scott

Deputy Superintendent General.

Dear Major Smith:—

I am sorry to have been so long in sending you report on our cattle in response to letter you received from the Department. As I told you when you phoned we are not using the milk from suspected cows in the Institution — I hope you will see the Veterinary Dr Devenney and ask him his opinion on our cattle, or get the Department to write him.

We were not getting the amount of milk I expected — some of our cows were old — others had aborted — so I had them all examined — and got a written report from Dr Devenney — November 1st — this was confidential — but I will give you extract "You have asked for a report of the general condition of the cattle at the Institution. You have in all 16 Milk cows. Of these 3 are

heifers that can not be milked on account of kicking. Five more have reacted to the tuberculin test which I have just given them, and two are suspicious (in calf) The balance are fairly good cows, but some of them aged.

When I first started doing the work for the Dept. in 1914, they had an excellent herd of Grade Durham cattle that had been bred from pure bred sires for a number of years but the Foreman who followed Mr Spence (who was a splendid manager) was a very incompetent man ---

(signed) Br. Devereux O.S.

What did happen was that herd was sold by Mr Turnell on the market and replaced by ones being sold by Mr Brittain a local milkman - who was disposing of his cows because of abortion - and because some were past best milking age. I have had to sell some of these as canners as they were

pasture fat cattles stage.

Of the seven cows — two we have sold — one has a fine healthy calf — the others are dry except one whose milk is fed to the pigs. The veterinary assured me that it would be quite safe to use the milk in the building — but we feed the cows put in part of stable by themselves and dried off. We are giving especial attention to feeding — and when cows are examined again in 3 or 4 months it's likely all will be healthy.

Early in November Mr Stamp the farm foreman left (I discharged him as I was convinced he was not honest — and have since found I was right). He possibly wrote the letter to the Department — as he left just after test was taken and would not know what disposition was made of the cattle.

Yours sincerely
Alice M. Boyer.

DEPT. OF INDIAN AFFAIRS
JAN 2 1920
RECORDS

Dear Mr. Scott,-

Upon receipt of your communication of the 16th inst. regard the charge of seven cows at the Mohawk have been condemned as tubercular, I took the matter up with Mrs. Boyce the acting Superintendent and asked her to report I enclose her report just received.

You will notice in this report that no milk from any of the cows condemned has been used in the Institute she has sold two of the cows, one cow is milking and the milk is given to the pigs, and all the cows are isolated , so it is expected that after the animals are fed specially, they will stand the tubercular test in three or four months time.

I have also interviewed Dr. Devereux the Veternary Officer but he was not very sure that the animals would stand the test even after good feeding in three or four months as they are old animals. His advice to Mrs. Boyce was to sell them all, but as the Institute once before had to defend itself against the charge of selling Tubercular animals, Mrs. Boyce does not wish to lay herself open to a similar charge. The Veternary says there is no possible chance of contagion by feeding the milk to the pigs. I can quite believe that Mr. Stamp the late foreman was capable of writing the anonymous letter which has been received. I am quite satisfied that

Dear Sir: —

I was in hopes this month that I could afford to buy some books for the children library - as wrote the Grolier Society for the rates on "The Book of Knowledge". When I was at the school in 1914 I bought this - and the boys and girls enjoyed it thoroughly - when I returned to the school there was not a volumn to be found.

The bills have amounted to more than I expected - the farm was an allround failure last year - so I can not invest. The last two years before Christmas I have put an advertisement in the papers asking for gifts of magazines and books - and have had a generous response, but not all of the kind suitable for children.

Could the Department help us — "The Book of Knowledge" - best binding is cash $75.50, or $4.00 down and $4.00 a month

Dear Mr. Scott— 535557

Your letter just received - I'm leaving Miss Hardie in charge of the Institute and Mr Abney (manager) of the farm. We have a competent boys-master Mr Rogers - in fact a staff I can feel happy about - which is more than I have been able to say since I have been here.

The Hospital is vacant, should we require it - our nearness to the hospital in town is a great asset - we are just getting over an epidemic of chicken pox.

I've arranged with Mr Bunnell to pay any necessary bills - having to pay cash for so many things makes things harder to manage.

Miss Hardie & Mrs Hargrave governess Miss Keys secretary have been here years and know all the ins and outs - and I can get back in three days if necessary.

Yours sincerely

Alex Boyce

Thursday 14th, 1920

Dear Mr Scott: —

Have just received a letter from my brother-in-law Mr Cockburn stating he had been to see you - about the critical state of the New England Company's affairs - and saying that my brother Gen. Cochlan was laid up - I had sent him particulars of expenditure, and the Company's letter, which I hope he has forwarded to you - I would like you to see them before you send me word or write to the N.E. Company.

The Synod of Huron met in Brantford this week, and we have been inundated with visitors - as the question came up the first day of the Synod of the Company giving up one or more churches on the Reserve, all had heard of the work here. Rev. Brigham of Walpole Island, and Chief Logan of Muncey both old pupils were much concerned at the likelihood of the work being crippled - they both stated they owed their start in life to this school.

I'm enclosing a letter Miss Hardie received to-day from Alice Hankinson - who had her entire education here - and the Indian Department paid half her tuition at the Business College. Please send me back her letter - it was so natural and fluent I thought it would interest you.

I do wish you could inspect the School yourself, & send some one to look over our work in the greenhouses - cold frames and gardens - with any thing like a favorable season we right to do well. I had no idea the Company was so crippled. The only word I had from them was" to carry on and to make what repairs and improvements were necessary to carry on efficient work." The per capita cost (120 pupils) for year 1919 was $184.97 - which does not compare badly with 151.72 in 1916 and 164.86 in 1917 when the cost of repairs - and increased cost of living is considered.

Yours sincerely

Alex Bruce

May 9th 1920

Dear Mr Scott:—

I'm writing my brother Gen. Carleton to-night sending him two letters I received from the New England Company on Friday last. I hope he will intervene upon behalf of the school — as some immediate action must be taken. I had no idea that the New England Company were in financial straights — have used the strictest economy but tried to live up to their instructions & making necessary repairs and improvements.

Our laundry steam boiler gave out ten days ago, most unexpectedly — got figures for adequate heating system, rendered necessary by failure of gas — accepted one at $450.00 but have called it off — until I get some idea of how we shall proceed. If we are to close down must make some cheaper arrangement for few months — and if the Department considers taking over the school they might figure on more elaborate system. At present have to carry water from copper to washer — and gas under copper is uncertain.

The holidays are coming and if

we have to reduce on number of pupils and staff could do so then without anomalies commenced.

We have some 75 orphan and destitute children - about 50 girls and 25 boys - we could carry on with them, and reduce staff by two - saving us $1250.00 a year (on staff). If we have to keep mostly small children could not reduce on staff.

By reducing number of pupils, present stock of bedding, clothing etc would last - some time longer. We have spent considerable in improving farm & orchards and expect results this year.

Rumors have been running around among Indians lately of school closing down - no Department having to pay for it - but Fridays letters were the first I had received.

Please let me know what plans you would recommend. Am writing Company to-night suggesting that they hand over church and work on Reserve to the diocese - the Anglican Church Forward Movement has funds for support of Missionaries.

Yours sincerely

Alex Bruce

May 17, 1920.

Dear Mrs.Boyce,-

I have to acknowledge the receipt of your letters of the 9th and 14th instant, and to say that since the receipt of these communications I have had an opportunity of speaking with Major General Ashton over the telephone, and of conferring personally with Mr.Cockshutt,M.P.,regarding the Mohawk Institute at Brantford.

I am returning herewith the letter you forwarded from Alice Herkimer. It is natural and very interestingly written, and she certainly seems to be reaping the benefit of her education.

I would advise you not to discharge any pupils at present or take any action looking towards curtailment of the operations of the Institute. We must have a little time to consider what to do, and I will be in a position to write you something definite before very long. I will be busy this week with the meetings of the Royal Society, but will take this matter up immediately after they conclude and come to some definite decision.

I telephoned Major General Ashton, who is still confined to his home through illness, with reference to the Company's letter. He told me that he had returned it to you on Saturday, last. I would be very glad if you would forward it to me.

Yours truly,

Deputy Superintendent General.

Mrs.A.M.Boyce,
Acting Principal,
Mohawk Institute,
Brantford, Ont.

June 12 — 1920

Dear Mr Scott —

In reply to your letter of the 11th, — I am enclosing list of orphans, and of children deserted by parents — and those with only one parent. The children who have both parents are with few exceptions children of old pupils who are anxious to give them the advantages of a good education. I sent you complete list for 1919 — with particulars of parentage etc some weeks ago.

The cost per head — Year ending December 3. 1st —

1916 —	$151.72
1917 —	164.36
1918 —	137.00
1919 —	184.97

I can not estimate at all accurately the per capita cost for 170 pupils for the current fiscal year — so much was spent in repairs the last year that comparatively little will be required except in laundry — and in heating Boys Play Room — but we have not any coal — and food & feed prices are soaring — Hay is very poor — and the wages should be increased — but I hope expenditures estimate will not exceed $200.00 per head.

The Iroquois Company allowance last-
year of $8,732.16 - only included $1,500.00
of the $3,100.00 received from the Company
in the first quarter - The remaining $1600.00
will be shown in next years statement.

The Company requires a bi-monthly
report of work - the Quarterly accounts - and
an annual report for the year ending
December 31st - and English auditors are
most particular - Those with the Quarterly
returns to the Department and the Annual
Report for the year ending March 31st,
makes a lot of work keeping and print
work. Would you like quarterly statement
of expenditure - or copy of bi-monthly
reports? The funds have been so limited
that no allowance is made for library
very little for amusements. Our two used
organs are not worth repairing and the one
piano is not a credit to the place.

Will you please return the letter
from the Secretary of the Company.

Yours truly
Alex Bryce.

May 19th 1920

Dear Mr Scott:—

Your letter of May 17th just received— I'm enclosing letter from the Governor of The New England Company which My brother was to have shown you— please return it. You will notice the letter was such in strict confidence but— as The Indians have learned I believe from you of likely changes here— and it has been discussed at the Council Meeting. I should like you to see The letter. This school is to be limited to $5000.00 a year— we have already had $3100.00 from the Company and spent it. The estimates for this Quarter are $7000.00— so I am placed in a difficult position. Several Indians have come for their Children as they have heard we are not going to have boys any more— it will certainly create a restless feeling this summer holidays.

". The staff could not be cut down and efficient work done - unless we reduce number of pupils to 75 -

Meantime the Indians through the Cleghorn have been agitating about the Glebe lands in the Reserve. I understand from the Missionaries that the people as a whole have not any complaints - but that the Council is fighting for its life - in order to prove to the people what- great service it is doing them it must- have something to agitate about.

The New England Company since 1829 - has spent over a million dollars in this reserve - I think it would be a good thing if they withdrew all their work among the Six Nations then perhaps their work would be recognized. Over a year ago the Chiefs appointed a committee to visit here regularly - see the pupils meals etc - and I was asked to name a day a month for them to come - I said no - They could come, and would

to welcome, any day they liked, and as often as they liked to come - to stay for dinner if they wanted to - but I would not name a special day as they would think then that we had made a special effort for their disposition. They have never been - we would like them to take an interest in the place - and see the children in school, and the work done.

Some days ago I saw Mr Asa Hill - Secretary of the Council and asked if it was likely we could get wood from the Reserve this fall - he said it was not likely but not to let Major Smith know about it as he had no influence - & send letter direct to the Council.

I hope you will realize the fact that all the welfare of the school I am interested in - I'm personally not looking for a position - as a fact I wish the Department would take the place over

June 11, 1920.

Dear Mrs.Boyce,-

I have been able to give some consideration to the affairs of the Mohawk Institute, and would like to ask you for some items of information which will, I hope, enable me to come to some conclusion at an early date.

Can you estimate at all accurately the per capita cost for 120 pupils for the current fiscal year, commencing on the 1st of April, last. I note that last year it was $184.97. I note also that you say that the school is to be limited to £1,000, which at the present rate of exchange would be $4,400.00. You say that you have already had $3,100.00 from the Company, and spent it all. Is that advance from the Company included in the amount shown in last year's statement of Revenue as "New England Company....$8,739.16". If not, what portion of it are you treating as revenue in the current fiscal year.

I note that you say that you have 75 orphan and destitute children. Kindly give me their names and the bands to which they belong. If you could give me this information at an early date, it would enable me to make progress.

Dcl

Yours truly,

Duncan Campbell Scott

Deputy Superintendent General.

June 1920

Orphans

✓ Iloretta Elliott — age 16 — 6 years in school — Miss. 2 Hew Credit No 17. Is very musical — has a little money. May take a course at Business College.

✓ Lillian Fox — age 16 — 4 yrs in school — trying entrance examination this summer. Chippewa No. 322. We have had great expense fitting her with glasses and treating her teeth. An uncle has drawn her interest money for years and has spent it on her — an aunt brought her up. Could we get her back interest money to help with course at College?

✓ Cecelia Thomas age 13 — 4 years — Grandfather Guardian — Tuscarora 141

✓ Mary Johnson age 11 — 1 year — Oneida No 86 Chief Johnson grandfather.

✓ Florence French — age 12 — 1½ years — placed here by Children Shelter — Chippewa?

✓ Annie Snow — age 15 — 1 year — L. Mth. 28

✓ Susan " " 10 — 1½ " " " " "

✓ Lizzie " " 12 — 1½ " " " " "

Now placed by Department — (May 6th 1920)

✓ Anson Gibson age 16 — 6 yrs — O.C.S. No 31

✓ Robert Joseph " 15 — 4 " Tuscarora 133.

✓ John Antone " 11 — 1 yr. Oneida Muncey.

✓ Lucinda Henry age 14 — placed in school to protect her from step-father. L. Cay 71

✓ Willie Jamieson age 15 — 3 yrs — H. Seneca 39 — very delicate boy —

DEPARTMENT OF INDIAN AFFAIRS
CANADA

OFFICE OF THE
DEPUTY SUPERINTENDENT GENERAL
OTTAWA

June 15, 1920.

Mr. Sutherland,-

Incl. Attached hereto is a list of neglected and orphan children sent to me by Mrs. Boyce, of the Mohawk Institute. These children are in residence there, and I would like you to analyze the reports, and give me a statement of the names and the bands to which they belong in the different classes, as she has divided them.

I think that, if the bands, to which these children belong, have sufficient funds, the cost of maintaining the children at the school at, approximately, $200.00 per annum per capita should be paid by them.

D. S. G. I. A.

MOHAWK CADETS PASSED INSPECTION

Youngsters Showed Keenness in Training and Received Merited Approval

"Thump. Thump. Thump. I turned over lazily in bed and inquired lazily 'who is there.' Whereupon Cadet Rodman McNaughton opened my door and said "It is a quarter to six, sir, all the boys are up waiting for you to drill them. I pointed out that I had not ordered a parade at such an unearthly hour but the cadet insisted that I had said the evening before that they would require a great deal more drill in order to come up to standard and consequently, they had risen early in the hope that I would get up and drill them. Of course, such enthusiasm is infectious and I was soon tumbling out of bed as though I had awakened on the last sound of 'Fall in.'

This incident was told by Lieut. S. Rogers, who has been training the Mohawk Cadets for the past year and it occurred on Tuesday last.

On Wednesday at 2 p. m. Lt.-Col. S. J. Huggins from Toronto arrived to conduct the annual inspection, and the enthusiasm and hard work of the boys produced results that more than satisfied the inspecting officer.

Cadet Sergeant-Major Longboat took command and showed great ability and coolness in drilling the company. The Colonel was so pleased with his work that he promoted him captain at the end of the parades.

During the past year suitable boys have been trained to act as instructors and it speaks well for their application that they were promoted to the rank of sergeant.

The cadets were particularly smart at physical drill. This has been regularly carried on throughout the year and the boys showed the benefits derived from this branch of their training in their steadiness and endurance. The Colonel was surprised to see them carry out the table of exercises such as have made many a man wish his army instructor a few thousand miles away.

The cadets are very proud of their corps and of the service the Indians rendered overseas. They are all very keen and one of them stated that he would join the Dufferin Rifles when he was too old to be a cadet.

Before leaving Colonel Huggins made a speech in which he congratulated them on their good work and he was warm in his thanks to Mrs. Boyce, the principal, for her support and encouragement.

Whilst talking with the boys Master of the Institute it was asked "What is the good of it all?" Are you training these boys to grow up bloodthirsty soldiers?" and this was the answer.

"Look at those boys running over there. That clumsy fellow is a new boy who has had no training. There is one point in favor of the movement. Then again a boy learns to obey quickly and promptly. They also develop along the right lines physically. Why I have some boys here who can all bullseye four times out of six. Does not that speak well for their self control and concentration. All these benefits come along as the result of interesting training as cadets in which every boy takes the greatest pleasure."

COLLEGIATE EXAMINATIONS

The following are the examination results for the Collegiate Institute for the year 1919-29. In compiling these results, the reports of the fall and winter, as well as the final examinations have been taken into account.

A student must obtain 40% in each subject and 60% on the total. Manual training and household science are counted as bonus subjects. For honors, students must obtain 75%, pass over 60%. The names are arranged in order of merit.

Middle 4—Promoted to Senior Middle School—Honors: B. Secord. Pass: E. Witmer, M. Dickie, A. Overholt, E. Wilson, G. Graham, M. Broadbent, D. Apps, D. Luard, T. Strong, M. Boles, I. Fleming, D. Baird, G. McCutcheon, M. Blain, L. Hunter, H. Marquis, L. Bixel, A. Penn, E. Witmer (ægrotat), G. Allan.

Second Year (promoted to Middle School) Teachers and Matriculation — Honors (75-100%): D. Styles, G. Noble. R. Menzies, L. Joyce, M. Smiley, H. Ziegler, L. Nelles, D. Kaye, E. Lunenfeld, P. Clubine, P. Hicks, L. Mutter, S. Perry, K. Christie (ægrotat), L. Cutcliffe. (Honor students may pass to Senior Middle School). Pass (60-75%): D. Broad, I. Brewster, G. Cuthbert, H. Myers, J. McGregor, E. Todd, V. Birkett, I. Palmer, E. O'Neail, G. White, C. Foster, H. Rushton, B. Miles, E. Pummell, F. Campbell, R. Minshall, G. Calbeck, I. Bowie (Lat. in second year), I. Deem, G. Sheard, D. Walker, H. Bier, G. MacDonald, E. Bowers, J. McNicholl, G. Bartholomew, H. Rutherford, M. Feely, H. Verity, V. Smith, E. Hartman, P. Hills, R. Phelps, D. Burgar, M. Harrison, D. Hess, J. Bowden, M. Cumin, M. Cradock.

Matriculation — Honors: M. Woodside, J. Frank, E. Williamson, R. Sowden, A. Ballachey, J. Bentham. (Honor students may pass to Senior Middle School). Pass: L. Hill, D. O'Donohue, F. Clark, L. Whitaker, W. Cook, G. McCloy, G. Hutton, H. Down, W. Robertson, I. Wood, L. Sovereign, G. McHutchion, G. Lambert, A. Pless, E. Day, H. Eastcott, D. Race, J. Howard, D. Scruton, M. Ion, G. Batson (Lat. in second year), C. Noble, L. Mackey, E. Pettit.

First Year (promoted to Second Year) Teacher and Matriculation—Honors (75-100%): M. McCormack, C. Sanders, E. Clubins, E. McClellan, M. Duncan, M. Saunders, U. Makins, M. Tuck, M. Sutherland, D. Spence. Pass (50-75%): M. Nelles, A. Williams, H. English, K. Parker, O. White, H. Sullivan, L. McKim, E. McCrea, H. Bartle, M. Yeates, H. Cowan, A. Cinnamon, A. Moore, R. Yeates, L. Kerr, D. Montgomery, N. Vanderlip, M. Weekes, C. Coulbeck, J. Patterson, H. Kinnard, D. Hewitt, V. Foster, C. Sterne, L. Casner, C. Lyons, J. Warrack, N. Todd, E. Gignac, M. McIrvine, D. Willetts, H. Morrissey, L. Truesdale, F. Ballantyne, J. Moses, D. Quinlan, F. Mulligan, W. Smith, G. Summerhayes, M. Taggart, M. Birkett, W. Birkett, S. McNaughton.

Matriculation—Honors: G. Jacques, D. Howes, W. Robertson, A. McQuinn, I. Dowling (ægrotat), A. Lewis. Pass: D. Stuart, E. Muir, G. Tune, J. Kelly, G. Chalk, H. Bundy, F. Jones, W. Roberts, N. Ham, H. Hobday, D. Wilson, R. Biggar, N. Harris, H. Lundy, J. Asselin, G. Fitzpatrick, A. Bennett, M. Henry, J. Batson, R. Longhurst, H. Buschlen, R. Fraser, W. Wilson, H. Greensides, L. Bannister, R. Bentham, N. Wilson, N. Symonds, H. Alway, M. Fitzpatrick, C. Brown, E. Grobb, W. Smith, E. Cooper, A. Stillman, G. Brandon (to take Lat. and Alg. in first year).

The following have been granted diplomas in the commercial course (three years)—Honors: H. Crandell, M. Birkett, E. Boughton, M. Stenabaugh. Pass: M. Page, F. Minard, R. Creath and E. Dick (equal), L. Green, M. Moyer, M. Hammond, J. MacDonald, L. Wilson (granted certificte in stenography and typewriting).

Promoted from the Second Year Commercial to the Third Year Commerical—Honors: H. Ludlow. Pass, G. Dunsdon, M. Sullivan, L. Mayot, S. Levine, D. Jones, L. Dunsdon, A. Summerhayes, W. Willmett, F. Hayhurst, B. Fidlin, D. Buck, L. Sager, G. Williams, E. Beal, M. Smith, C. Madash, B. Bechtel.

First Year Commercial (promoted to Second Year Commercial) — Honors: M. Shear, L. Smith, E. Whitmore, E. Goetz. Pass: J. Gordanier, M. Baskette, F. Sage, H. Mellor, I. Small, M. Berry, M. Morwick, M. Cotton, F. Gibbs, J. Lloyd-Jones, J. Gregg, S. Battye, M. McCauley, D. Joyce, E. Knowles, B. Lowe, L. Page, M. Exelby, H. Ranson, M. Edwards, A. Parmenter, E. Virtue, K. Freunt, L. Digby, G. Gee, E. Davies, M. Ion, R. White, P. Edwards, G. Convery, D. Myers, I. Davison, J. Creath, E. Wheeler, M. Cochrane, M. Conway, A. Greig, G. Rouleau, V. Dick, M. Hamon, H. Hazon, D. May, D. Pickering.

Industrial Class—The following is the list in order of merit: V. Ott, G. Owen, W. Neff, J. Morrison, N. Etheridge, D. Cook.

INDIAN AFFAIRS
JUL 3

June 30th. 1920.

Dear Mrs. Boyce,

I have been so extremely busy during the last few weeks that I have not been able to take final action on the financial position of the school, although I have made some progress with the details. Meanwhile I think you should attend to the purchase of the coal, and the Department will be responsible for the payment. I think you should advertise and submit the tenders here so that we can make arrangements with the War Purchasing Commission.

It is probable that I may be in Brantford before long.

Yours very truly,

DC1

Deputy Superintendent General.

Mrs. A. M. Boyce,
Mohawk Institute,
Brantford, Ont.

Sir,-

I beg to advise you that yesterday I made a visit of inspection of the Mohawk Institute but unfortunately Mrs. Boyce the Principal was absent at the time, however I saw Miss Hardie who was in charge. The usual summer vacation commences on July 10th. when half of the pupils are given three weeks holidays and on returning the remaining half takes three weeks holidays. A teacher will be in charge of all vacation and instruction will be imparted to those who remain at the Institute. The Entrance examinations started yesterday when three pupils presented themselves. Several of the pupils are also taking their examinations in music at the Conversatory in Brantford.

I saw Mary Wasanapi the little blind girl who has been atending the Ontario Institute of the Blind, but she is spending her vacation at the Mohawk. Miss Hardie reported the greatest change in this child, since last year, she seemed very much brighter and more intelligent and can speak English, Although she had not heard Miss Hardie's voice for a year she recognized it when Miss Hardie spoke to her.

The market garden has a wonderful showing of early vegetables and from the financial standpoint they should make a success of it. The boys were hard at work in this garden and some of the girls as well, they all prefer out door work to the school. The live stock and poultry appear to be in good condition.

The laundress complained about the ventilation in the laundry saying that the windows in the upper room where the ironing takes place cannot be opened and the heat is excessive more especially as the building is roofed with metal.

Dear Mrs. Boyce,-

I have today written to the Clerk of the New England Company, advising him that this Department will assume, for the present, the responsibility of maintaining the Mohawk Institute at its present standard. We do not undertake, however, to make any improvements to buildings or plant, without special arrangement with the Company.

Under these circumstances, it will be necessary for Mr. Superintendent Smith to have supervision of the work of the institute. I know that Major Smith in this capacity will have your hearty cooperation, and that the institute will, as in the past, be conducted in an economical way. All expenditures should be authorized by Superintendent Smith.

I regret that, owing to pressure of work, I have found it impossible to personally pay you a visit this summer.

Yours very truly,

Duncan Campbell Scott

Deputy Superintendent General.

Dear Major Smith,-

I have today written the Clerk of the New England Company, advising him that this Department will, for the present, assume the responsibility of maintaining the Mohawk Institute. We cannot, however, undertake any improvements to the buildings or plant, without special arrangement with the Company.

In view of this responsibility, the Department has informed those concerned that you must have direct supervision of the school. It will be necessary for you to see that strict economy is exercised in the management. The financial situation will have to be your special concern. All purchases must be authorized by you. I have no doubt that Mrs. Boyce will cooperate with you, and I shall be glad to have reports from time to time.

Your first inspection should be made at once, and a careful statement of the finances as they stand now should accompany or be embodied in your report.

I understand that there are at the present time some minor repairs that Mrs. Boyce wishes to have done. I shall be glad if you will take the matter up with her, and advise me.

WSM

Yours very truly,

Deputy Superintendent General.

Dear Mr Scott:-

Your letter of August 16th received to-day - Mr Hill of the Indian Office phoned me about yours to Major Smith - as he is away on his holidays.

It's a great relief to learn that the Department will maintain the Institute for the present, as acting on your advise of "carrying on" we have recently admitted several Tuscarora children with only one parent. It will be a pleasure to leave Major Smith supervise the work and expenditure - the latter is a night-mare. The school re-opens after the holidays next Saturday - we have had between 60 and 70 present all the summer - I've been buying clothing and supplies for the new term and the prices are outrageous.

My brother Dan Ashton hopes to spend a few days here next week, and I hope you will find it possible to pay us a visit before long. There are many problems easy to talk about but difficult to make plain on paper.

As Major Smith is away - and I

Dear Mr. McLean,

I am in receipt of your letter of the 19th. inst and note contents.

Am I to understand that we apply to Superintendent Smith to approve expenditures other than running expenses or have we to make application to him in every case?

In the latter case I would point out that Supt. Smith is now out of town and we have items such as salaries, wages, small accounts etc. which we must settle before his return.

We have farwarded through Mr. Hill of the Indian Office here the Salary List as requested.

Yours very truly,

Allan Boyce

Principal.

Dear Sir:—

Enclosed letter explains itself— am sending application form to Mrs Tobias asking her to forward it to you— as it is a pity the girl should not pass her entrance. I may state it has always been a rule here that we will not send a pupil through the Collegiate— or any course who has not previously attended two years— and thus taken part in the industrial training. We have many applicants who would like to come here for only six months and pass their entrance— (pupils in entrance class are in School all the time for six months before examination time) and thus get free board through their Collegiate course.

Hope there will be no delay— classes Commenced August 23rd

Yours sincerely
A. McBryce

Madam,-

I have to acknowledge the receipt of your letter of the 3rd instant enclosing a communication from Mrs. Albert Tobias, in which she requests that her daughter be allowed to attend the Mohawk Institute, in order that she can study for the entrance examination to high school next June.

In reply I beg to say that, if you can provide accommodation for this girl and will consent to receive her, the Department will have no objection to her admission, in order that she can complete her studies to enable her to pass the entrance examination. The Department will leave this matter in your hands to decide as you see best in the interests of the work of the other pupils. You will be good enough to inform Mrs. Tobias of your decision in the matter.

Your obedient servant,

F. F. Pedley

SEP 13 1920

Sir,-

As requested in your letter of the 13th ult. I made an enquiry into the financial condition of the Mohawk Institute, being the first possible opportunity since my return from my vacation on the evening of the 3rd. inst.

Mrs. A.M.Boyce the Superintendent, is considerably in the dark regarding the assumption of financial obligations by the Department as she has had no communication regarding the matter from the New England Company.

At the present time she has $22.01 in the current N.E. Co. account in the Bank of Montreal, a cheque for $66.32 for sales of produce received yesterday and about $200.00 of past due accounts, or in all about $300.00 with which to meet her obligations.

There will be due on 15th inst. water rates amounting to about $334.00 which must be paid to save the 20% discount allowed by the City, but as the Bank will allow her an overdraft of $700.00 per month she can meet this and other sundry accounts.

Her expenditures naturally divide themselves under th three headings, (1) Fixed amounts, (2) Tradesmen's accounts (3) Contingent.

(1) Fixed amounts, will include salaries, wages, water

The Secretary-
Dept. of Indian Affairs,
Ottawa.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt. 1A)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

water and gas accounts. To the salary list sent you on the 20th ~~inst~~. should be added Dr. Palmer $25.00 per quarter as Medical Officer and $5.00 per Sunday to the clergyman taking the service at the Mohawk Church. There is no regularly appointed clergyman.

(2) Tradesmen's Accounts will include groceries, bread, meat and other food, fuel, clothing etc.

(3) Contingent will include postage, telegraph, telephone, express, freight charges Etc., small repairs, pay to boys and girls when doing extra work on holidays or ~~otherx~~ times, and cash purchases of clothing or other articles when they can be secured at a bargain sale and when cash must be paid.

I find that Mrs. Boyce has been accustomed to pay salaries, wages &c in cash taking a receipt from the payee. This appears to me to be not a good practice as it necessitates having a large amount of cash on hand.

The volume of cash transactions may be estimated from her last Quarterly Report to the New England Co. to 30th June as follows :-

Expenditures.

Institute	$4517.39
Church	65.00
Farm	2882.27
Int. on overdraft	4.53
	$ 7469.19

Receipts

Institute	5418.48
Farm	1504.35
Debit balance	546.36
	$7469.19

Expenditures and Receipts under the heading "Institute" comprise food, clothing, fuel, salaries &c or practically everything within the main building and New England Co. and Department grants. The heading "Farm "comprises wages, cost of

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt. 1A)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

of seed, extra labour, implements, feed for stock, receipts from sale of farm and garden produce &c or everything outside the main building.

In the last week of August it was discovered that the bridge over the canal leading to the Parsonage was in such a bad condition that a horse could not cross it in safety and a closer inspection shewed that new sills and part of a pier had to be installed. After getting figures from several lumber dealers Mrs. Boyce purchased the necessary material from Mickle Dyment & Son at a cost of $217.52. This account together with an account (not yet rendered) for spikes has not been paid. She claims this work was absolutely necessary as there are 50 acres in oats and a corn field north of the canal the produce from which must be drawn across the Canal. The question of liability for the maintenance of this bridge arises. The Western Counties Electric Co. claims the ownership of the old tow path on the north side of the canal and has leased it to a firm of gardners who are working it and using this bridge to and from while the public workmen in the Glue Factory and others also use it going to and from their work. Mrs. Boyce claims that the Western Counties have no rights on the Tow Path, stating that her father Robert Ashton successfully contested their claim when at one time they attempted to use the Tow Path and Mr. Ashton also built a boat house on the land and was not disturbed. His memory is now too far gone to be reliable. The question of the City being liable might also be considered. This bridge was originally built and maintained by the New England Company.

The cottage built for a Hospital has been occupied by one of the officers, but Mrs. Boyce considers that it should be kept solely for the purpose for which it was built, therefore she wants to put Mr. Barron the farm foreman into the Parsonage for the winter as her father has moved into the City. The Parsonage however requires

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt. 1A)

CANADA

to have 2 rooms papered and two places in the roof repaired as some shingles were dislodged during the severe wind storm of last winter. I think this should be done.

There are no immediate assets, apart from Grants except produce from the garden and green house which has been well in advance of any previous year and some wheat and sugar beets which will be sold.

I am not yet instructed as to the method to be employed in financing the Institute. Will accountable cheques be sent to Mrs. Boyce from time to time, or will she submit vouchers on the Indian Trust Forms, and if so will they be signed by her or by me, and cheques in payment issued by the Department?

She at present signs cheques "A.M.Boyce, New England Company". Will she continue that account or close it out and open a new one under some other designation?

I think Mrs. Boyce should pay by cheque all accounts under headings named above (1) Fixed amounts, (2) Tradesmen's account, and render an itemized contingent account monthly, supported by vouchers as far as possible.

It also seems to me that some method of checking up her receipts should be adopted , as for instance sales of farm and garden produce. Mrs. Boyce tells me that she has to trust the gardner for his returns as he makes small sales on the Brantford Market and at other times which are impossible for her to verify. She does not doubt the correctness of these returns.

I enclose forms shewing the nature of Mrs. Boyce quarterly returns to the New England Company, the next one being to 30th Sept. She desires permission to continue that method for the present quarter and to be informed as to the nature of her future reports. She is willing to adopt any method of book keeping or returns which the Department may suggest.

There is an outstanding account of $434.30 for a Power Sprayer which was necessary to enable them to plant and mature an extra large quantity of potatoes as well as to restore the

the orchard which has been heretofore neg ected.

I enclose a bread bill to give you an idea of the quantity of food consumed at the Institute for a month in which half the children were on their holidays. The cakes and buns are sold at half price because they are stale but at the Institute they steam them and thus make palatable dishes of them. They do not make their own bread as they find it cheaper to buy it as do all the other public Institutions in Brantford. As the girls are largely used for kitchen work under the cook, it has been found that through their carelessness or ignorance a batch of bread was occasionally spoiled and when baked in large quantities this would be a serious waste.

With Cheque

Sir,-

I have to acknowledge the receipt of your letter of the 10th instant with reference to the preseht financial condition of the Mohawk Institute, in view of the assumption of the financial obligations of the school by the Department.

In reply I beg to say that, owing to the absence from Ottawa of the Deputy Superintendent General, this matter will be deferred until his return, as it will be necessary to have his personal instructions in connection therewith. He will return about the end of the present month. In the meantime, in order to relieve the Principal of any financial embarassment, a cheque for $1,000.00, being an advance on the per capita grant for the current quarter, is enclosed herewith. As soon as Mr. Scott returns your letter will be placed before him for his consideration.

Your obedient servant,

F. F. MacKenzie.

Sir,-

Mrs. A.M.Boyce of the Mohawk Institute has shown me a letter received from the New England Company in 1919 authorizing her to purchase enough fruit trees to fill in the vacancies in their orchard, but she has not made any purchase since then, but she wishes to do so now. What she requires are 75 apple trees, 25 plums, 12 pears, 14 cherries. The apples will cost $125.00 a hundred and the other fruit trees $175.00 a hundred, black currants $40.00 and raspberries $125.00 a thousand canes. Mrs. Boyce assured me that it was the intention to buy these fruit trees last year but nothing was done. As this involves an expenditure the benefit of which will not come for some years later I told her that I could not authorize the expenditure without the approval of the Department.

Dear Mr. Graham

Thank you for the order for fruit trees. I hope you do not think that we are imposing on the Department - we put in 2 acres of strawberries last year - unfortunately the season was not favorable and we lost a quantity of plants. Five years ago Mr Jarmell laid out a large orchard of fruit trees and berries in a position that is often flooded and the second year a flood came followed by zero weather and everything was snapped off two inches from the ground. We have ploughed the old orchard several times and well manured it and with your order will fill in the blanks. I am glad to say we have had plenty of apples - & will have a good store for the winter. The new trees ordered will ripen between the harvest apples & the winter ones.

I was glad to-day to receive the cheque from the Department - and have already paid it out. I asked Mr Gordon Smith on Monday to notify you how we stood financially

Hon. D.C.Scott,
Deputy Superintendent General
Indian Affairs,
Ottawa.

Hon. Sir:-

Some time ago a deputation from the Six Nations Council waited on you at Ottawa and among other things talked of, you informed the delegates that the N.E.Co. had returned the Institute lot to the Six Nations but that the N.E.Co. would only take charge of the Indian girls and that the Six Nations Council would have to make some arrangements to take care of the boys. Now in making this statement the delagates had nothing to show that this was the stand taken by the N.E.Co. and the Chiefs therefore directed that I communicate with you and ascertain if this be a fact.

Very respectfully,

Asa R. Hill

October 15,1920.

Dear Mr.Hill,-

Re Mohawk Institute.

You have not recalled correctly the burden of our conversation on the subject of the Mohawk Institute. I was merely talking over the probable future of the school and had suggested that it might be advisable to turn it into a girls' school and to provide another institute for boys where they might be taught agriculture. The matter would have to be further debated and arranged before we could approach the New England Company officially. If the change were carried out the New England Company should be able to abandon either the whole or the greater part of the manual training farm, which might be sold.

Yours truly,

Duncan C. Scott

Deputy Superintendent General.

With Cheque

Sir,-

Regarding the arrangement whereby the Department will agree to provide the ordinary expenditure necessary to meet the cost of maintaining the Mohawk Institute over and above the amount now to be provided by the New England Company and the receipts from the farm, I beg to inform you that, after giving careful consideration, the following is the Department's decision in the matter.

1. That the grant, which is now $120.00 per capita, will be increased to $200.00 per capita, payable on the average attendance as shown by the quarterly returns, up to 120 pupils. The grant at this increased rate will be paid for the present fiscal year and the balance due at this rate for the June and September quarters will be paid.

2. That the Principal and yourself will be jointly held responsible to see that the expenditure for ordinary purposes is kept within the increased grant and that the purchase of all supplies be under the control of yourself and the Principal jointly. In purchasing supplies competitive prices should be obtained as far as possible and all staples should be purchased in bulk and in quantities sufficient to meet the needs for several months, and all ordinary purchases should be made from time to time on the joint responsibility of yourself and the Principal without referring to the Department for authority. In making purchases you should be guided by the market conditions and not make large purchases of staple articles when there is a prospect of lower prices being obtained at a later date.

3. The Department will make advances on the per capita grant from time to time upon receipt of requests for the amount required, which must not, in any quarter, exceed the amount of the quarterly grant. Quarterly returns should be prepared by the Principal and forwarded in the usual way and, upon receipt of these returns, cheques for any balance of grant due will be sent. All cheques from the Department will be drawn in favour of

Gordon J. Smith, Esq.,
Indian Superintendent,
Brantford, Ont.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt. 1A)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

of yourself and the Principal jointly and sent to you and, upon receipt, they should be deposited to the joint account of the Principal and yourself in a chartered bank, and all payments covering the purchase of supplies, wages, minor repairs and equipment and for farm requirements should be made by your joint cheque.

4. In cases were any special repairs, new equipment, farm material, increase in wages are required, which are considered over and above the ordinary expenditure, the matter should be referred to the Department and approval received before any such expenditure is incurred.

5. That any special repairs, extra equipment, farm machinery, stock, etc., over and above the ordinary requirements, if authorized by the Department, will be paid for over and above the per capita grant, upon receipt of properly certified vouchers, in duplicate, for the material purchased, after competitive prices have first been obtained.

6. That a proper account of all receipts and expenditures and all vouchers and correspondence be kept by the Principal and that a statement showing the financial standing of the school be prepared by the Principal, and certified by you, and forwarded to the Department at the end of December, next and again at the end of March, next.

It is considered that the above method will be the most direct way to carry on the work and will save unnecessary trouble in applying for and obtaining authority for making all purchases and in paying accounts. Applications should be made by you in time for advances required.

It is hoped that the work in the school and farm will meet with every success and that the Principal and yourself will see that all expenses are kept to the lowest point, having in view the maintaining of the school in a state of efficiency. I may add that a copy of this letter is being sent to the Principal and she is being instructed to co-operate with you regarding the financial management of the school.

A joint cheque in favour of yourself and the Principal, to the amount of $4746.00is being sent you, which is made up as follows,- balance of grant due on June quarter at increased rate $2374.60 and balance of grant for September quarter at increased rate $2371.40.

Your obedient servant,

Deputy Superintendent General
of Indian Affairs.

Sir,-

Referring to paragraph No. 1 of official letter of yesterday's date regarding the arrangement under which the Department agrees to provide the ordinary expenditure in maintaining the Mohawk Institute, over and above the amount that will now be provided by the New England Company and the receipts from the farm, I beg to add, as an addition to this paragraph,- that, at the end of the fiscal year, any unexpended balance of the per capita grant is to be refunded.

It is not possible to accurately estimate the amount that will be required to finance the institution for the present year, but, by increasing the grant to $200.00 per capita, it is considered that provision has been made for an amount sufficient to carry on the work of the school and farm and maintain them in a state of efficiency. At the end of the fiscal year, namely,- March 31st, next, a statement showing the receipts and expenditure for the year should be prepared by the Principal, certified by yourself and be submitted to the Department, and any portion of the grant which has been forwarded and not used should be then refunded.

The Department will rely on yourself and the Principal to see that the school is maintained as economically as possible.

Your obedient servant,

Deputy Superintendent General
of Indian Affairs.

October 29, 1920.

Sir,-

In connection with the New England Company having withdrawn the greater part of its support to the Mohawk Institute, the Department, as you are aware, has become responsible to provide the ordinary expenditure involved in the maintenance of the school and has, consequently, increased the per capita grant from $120.00 to $200.00, or an increase of $80.00.

It is considered that the Six Nations Band should provide, from their interest funds, this increased amount in the case of the orphan and neglected children of the band who are in attendance at the school, and it has, therefore, been decided to transfer from the interest at the credit of the band for the present fiscal year the sum of $1680.00 towards the maintenance of the twenty-one orphan or neglected children stated by the Principal to be at present in the school, this being at the rate of $80.00 per capita. The names of these children are,- Cretha Thomas, Annie, Susan and Lizzie Snow, Emsie Gibson, Robert Joseph, Lucinda Henry and Willie Jamieson, orphans, and also Elsie Clause, Nellie and Evelyn Wilson, James Wilson, Marjory Martin, Harbert Lickers, Delilah and Viola Stoats, Leonard Wilson, Wilfred Henry, Theodore Joseph, Howard Woodruff and Ernest Snake, neglected children. You will, therefore, be good enough to inform the Six Nations Council of the Department's decision in the matter. You should represent to the council that it is in the interests of the entire band that the education and welfare of these orphan and neglected children be provided for and, as the government is contributing $120.00 per capita for that purpose, the band should, from their funds, contribute the balance required to the above amount. I shall be pleased if you will so represent this matter to the council that they will approve of the Department's decision.

The band funds will be responsible each year, in future, for the maintenance of the orphan and neglected children in the Mohawk Institute to the extent of $80.00 per capita.

Your obedient servant,

Duncan C. Scott

Deputy Superintendent General
of Indian Affairs.

Sir,-

There are at present four orphan or neglected children in attendance at the Mohawk Institute from the Mississaugas of the Credit Band, namely,- Floretta and Hazel Elliott and Fred and Jim Shuler.

The New England Company, under whose auspices this school was conducted, have withdrawn, in a large measure, their financial support, and the Department has consequently become responsible for the ordinary expenditure and has increased the per capita grant which it provides from $120.00 to $200.00, an increase of $80.00.

Decided for only 2 children See letter 7 Apl 5/21 30 Encl

It is considered that the Mississaugas of the Credit should contribute, from the interest funds at their credit, the amount required at the increased rate to provide for these four children. It has, therefore, been decided to transfer the sum of $320.00 from the interest at the credit of this band towards the support of these children in the Mohawk Institute. You will be good enough to inform the council of the band accordingly. You should represent to the council that it is in the interest of the entire band that the education and welfare mf these orphan and neglected children be provided for, and they should, therefore, contribute a portion of the expense involved to the above amount.

October 30, 1920.

Sir,-

Replying to your letter of the 26th instant, requesting on behalf of Mrs. Boyce, Principal of the Mohawk Institute, that authority be granted her to issue cheques without attaching thereto stamps for the government tax required, I beg to say that, as you were informed by paragraph No. 3 of letter of the 27th instant, all cheques issued in payment for the purchase of supplies, wages, minor repairs and equipment and farm requirements should be under the joint signature of yourself and the Principal, and, as such cheques would be on account of government business, it will not be necessary to attach stamps for the tax required.

Cheques issued by Mrs. Boyce on her personal account will, no doubt, require to have the necessary stamps attached.

Cheques issued by the Principal and yourself should be accepted by the bank without the stamps attached in the same manner as those issued by yourself in connection with the agency payments.

Your obedient servant,

Duncan C. Scott

Deputy Superintendent General
of Indian Affairs.

Gordon J. Smith, Esq.,

DEPARTMENT OF INDIAN AFFAIRS
CANADA

Ottawa, October 29, 1920.

MEMORANDUM.

Mr. Scott,-

As it has been decided that the Indian bands who have orphan and neglected children in the Mohawk Institute should pay the increase in grant which has had to be assumed on account of the New England Company having withdrawn the greater part of their financial assistance, I would beg to recommend that the Accountant be instructed to transfers the amounts mentioned hereunder from the interest funds of the following bands to the credit of Indian Education, namely,- at the end of the fiscal year:

Acct. No. 33, Six Nations	21	children	@ $80.	$1680.00
Acct. No. 18, Mississaugas of Credit	4	"	@ $80.	320.00
Acct. No. 8, Chippewas of the Thames	2	"	@ $80.	160.00
Acct. No. 23, Moravians of Thames	6	"	@ $80.	480.00
Acct. No. 22. Mohakwks of Bay of Quinte	12	"	@ $80.	960.00

The increased grant for 120 pupils amounts to $9,600.00 and of this sum the above bands will contribute $3,600.00, leaving an amount of $6,000.00 to be provided from the vote for Indian Education for the fiscal year ended March 31st, 1921. Vouchers can be prepared showing the amounts chargeable to the above bands, as per the actual number of children from each in attendance.

INDIAN OFFICE

Hagersville Oct.30th 1920

Sir:- 546985

I have your letter of the 29th instant with regard to the orphan or neglected children from this band attending the Mohawk Institute and will report as follows;

The Elliott girls are members of this band they will both be 16 years of age in December and both want to leave the school but it would be much better for them if they can be kept there for about two years more as I know of no suitable place for them,one of them is an orphan,the other,her parents have been seperated since she was about one year old,the mother has been living with a Six Nation Indian since and has several more children by him,so that it would not be a suitable place for Hazel,Floretta's parents are both dead,her grand parents are not in a position to look after her and it would be money well spent to pay the extra $80. a year while they can be kept there.

The Shuler boys do not belong to this band,their mother is dead she was a member of the Six Nations, this was all mentioned in their application for admission

Shuler is not on the list he married again and could not look after the boys properly.They have no claim on the funds of this band,although they reside near this village.I told the Principal of the Mohawk that they did not belong here.

Your Obedient Servant

Sir,-

I beg to enclose statement of receipts and expenditures at the Mohawk Institute for the quarter ended September 30th., 1920. I have examined all the vouchers and checked them off with the statement, the debit balance at the end of the second quarter was $546.36 and at the end of September quarter is $716.11. Mrs. Boyce informs me that she expects to overcome this debit balance about March of next year.

To Reposes

Indian Office, Brantford,
November 3rd., 1920.

Sir,-

Referring to your letter of the 27th ult. regarding the new arrangements at the Mohawk Institute. I have discussed the matter with Mrs. Boyce and we are in some doubt about some of the clauses. Is it your wish that only monies received from the Department are to be deposited in the joint account of Mrs. Boyce and myself, or will the proceeds of the sale of farm produce and New England Company grants be also placed in this account? Mrs. Boyce now has a small balance in her old account and she asked me this morning if it should be transferred to the new account.

In paragraph 4 you point out that only ordinary expenditure is to be made, other matters to be referred to the Department. As you are aware the cow-stables have been very much depleted recently on account of Tuberculosis and it has been necessary to purchase two cows within the last few days and a new bull will also have to be bought as the old one will have to be sold or otherwsie disposed of. I have advised Mrs. Boyce to make these purchases.

Yesterday

November 4th. 1920.

Dear Sir,

I have your letter of November 3rd. asking for further information with reference to the proposed joint control of the Mohawk Institute. All moneys should go into the joint account. I am sure that Mrs. Boyce will understand the reason as the Department now bears the heaviest burden in connection with the school, and joint control is, therefore, desirable.

I think you can readily interpret the phrase, 'ordinary expenditure'. The two items that you mention are certainly ordinary expenditure.

The New England Company evidently have the view, which is made plain by their late letter on the subject of the accounts, that the Department is now in control.

Yours very truly,

DCL

Deputy Superintendent General.

Ottawa, November 5, 1920.

Sir,-

I have to acknowledge the receipt of your letter of the 30th ultimo with reference to the orphan and neglected children from the Mississaugas of the Credit Band who are in attendance at the Mohawk Institute and stating that the two Elliott girls are the only members of the band in attendance.

In reply I beg to say that the proposed transfer from the interest at the credit of the band will only be for the support of these two children, to the amount of $80.00 each.

It is noted that the Schuler boys are members of the Six Nations Band.

The two Elliott girls are to remain at the Mohawk School for a further period, as there is no suitable place for them on the reserve.

Ottawa, November 5, 1920.

Sir,-

I have to acknowledge the receipt of your letter of the 28th ultimo enclosing a statement of the receipts and expenditure at the Mohawk Institute for the quarter ending September 30th, last. The amount of the deficit as shown by this statement is noted.

As you have already been informed, the per capita grant has been increased to $200.00 and the cheque which was sent you for the balance due at the increased rate for the June and September quarters, last, should cover the amount of the deficit.

The statement prepared by the Principal and submitted by you for the September quarter is satisfactory.

"With further reference to your letter of the 17th August, I am directed by the Company to inform you that the Department of Indian Affairs have taken over the temporary management of the Institution as on and from October 1st, 1920, and I have to ask that you will forward your usual Quarterly Financial Statement with Vouchers as up to September 30th, 1920, to myself: but after that date to the Department of Indian Affairs at Ottawa.

His Majesty's Chapel of the Mohawks will be administered, as heretofore, by the Company, and the Company will provide a Chaplain and his Stipend. This they have informed the Indian Department they will do. They have also informed the Department that they will grant the sum of £1000 per annum towards the Maintenance of the Institution. This will be paid through yourself in quarterly instalments. The Company would therefore feel obliged if you would forward to them from time to time (once a quarter) vouchers and some small statement showing the expenditure under this head.

The Company would feel obliged if you would continue to send them your usual

BRANTFORD

October 26,1920.

Dear Mrs.Boyce,-

I have to acknowledge the receipt of your letter of October 24, and inclosures, and to say that on my return home I found a communication from the New England Company. The situation will, I think, clear up when we find out whether the diocese of Huron is going to assume any jurisdiction over or responsibility for the school.

I enjoyed my visit to the school, and was glad to find everything running smoothly, even despite the uncertainties that have disturbed the management.

I hope that the coal has arrived.

I am making a record here of the fact that I agreed to an increase in Mr.Rogers' pay to $70.00 a month.

Incl. I am returning you the letter from Mr.MacKenzie, with reference to the grant.

Yours very truly,

Duncan C.Scott

Bi-Monthly Report -
September and October - 1920

MOHAWK INSTITUTION
BRANTFORD, ONT.

NOV 6 1920

Church — September 5th Mr Bilkie officiated at the church - Mr Andrews on the 12th instant — and on the 19th Mr Bilkie administered Holy Communion at 9.30 a.m. and took the usual service at 2.45 - also on September 26th and October 3rd. The girls decorated the church very attractively with oats, wheat, corn, colored vines and fruit for the "Harvest Festival" on October 10th and the decoration were left up for the "Childrens Service" on the 17th. Mr Morrison officiated on the 24th and Rev. Mr Bilkie on the 31st.

(Note - We have not a stove for the church and to suit Mr Bilkie services will have to be at 9.30 a.m. at the Institution for the winter - Commencing with Holy Communion on the first Sunday in November).

Farm and Garden - Have had a very busy time - The bridge across the canal had to be finished - oats to draw in - potatoes to be dug. Fall ploughing commenced September 8th — the ground was so hard we had to borrow a heavy plow from Verity - after a welcome rain we could put on several teams drawing manure and ploughing.

The seventh cow was stocked.

September 11th and 13th the stables were white-washed inside and out - and the pig sties and dairy - and again on October 6th.

Threshing commenced Sept. 18th - to 23rd - we totalled 2,203 bushels - Wheat 322 - rye 28

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt. 1A)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

oat 1578 - barley 275 - great quantity of straw.

Then cutting corn and silo filling - took several days.

We sowed wheat Sept. 26th & 27th and finished sowing rye October 4th.

The farm drew the gravel and cement for the laundry floor - also the cement mixer to and fro.

Finished digging potatoes October 6th.

Cleaned the wells at the farm cottage.

Dug mangolds and sugar beets - finished October 23rd, can not get car to ship beets.

Drew 45 tons of coal.

We commenced storing apples Oct. 6th the girls doing most of the picking. Then also stored the onions of which we have a large quantity - pumpkins - celery etc. They filled the pillows with oat straw. We have very fine apples - thanks to our sprayer. The apple house is full & we are storing in the hospital. The pupils have quantities to eat.

We have put in a lot of work on the rhubarb beds, and flowers beds & fruit trees.

We have purchased four cows, as our milk supply was so poor, we are now selling more butter and have good supply of milk for the pupils.

The horse and buggy that Mr Pogel were returned, and we had to send down for the other buggy, surrey and furniture.

Staff. Mr Olmey left to return to College in Guelph - Sept. 2nd, and Mr Henderson moved into the Gardeners Cottage - Mr Barron the new farm foreman, came on duty Sept. 7th and moved into the parsonage.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt. 1A)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

. Mr Richmond left to return to College Sept. 16th, we engaged extra man for silo filling as some Boys had measles, and so many were very small.

Miss Gemby, sewing teacher, had one weeks vacation - and Miss Bell left on the 22nd and was married next day - Miss Bench came on as housekeeper Oct. 22nd & is doing well.

Health - We have had an epidemic of German measles on the Boys side.

John Antone had an accident with a fork, silo filling - fortunately not serious. Fred Shuler broke his arm in the corn binder, and Dugan Bandy fell on his head - concussion not serious. Many returned from the holidays with scabies.

Measles broke out on the girls side - the real old fashioned kind - ten went down at first and some very very sick - several other cases developed - it's now spreading to the boys.

School work - Has been rather interrupted by the measles and several holidays.

Five pupils are attending the Collegiate - 4 girls and 1 Boy.

Present 70 girls - 4 on sick leave; - Boys 41 - 3 accepted but delayed in coming & 3 on sick leave.

Labor Day was much enjoyed the pupils going to the "trades procession" in town and afterwards to the Park.

Thanksgiving Day was a general holiday - they had great fun over an impromptu concert each night. Several of the pupils act well.

Sports Day was a great success - by way I am

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt. 1A)

CANADA

innovation the boys paraded their horses and teams - the cleanness of the horses + harness was decidedly pleasing - The boys must have spent much of their own time + money in cleaning + purchasing bears for decorating the harness. This parade had a marked effect on the daily work of the boys with their horses.

Teachers Convention - October 11th and 12th The all Natives Concert was a regular scream. The boys pumpkin heads, and the girls as clowns - etc.

Notes - Mary Wan the blind girl returned to the O.I.B. September 27th.

Mr Rogers went to Toronto re coal Oct. 11th returning next day - The coal cars were placed at 1 p.m. on the Cockshutts siding Oct. 25th. We are thankful to have our bins full.

The laundry floor was done over - we chipped up the old floor - The new one has a slope to the centre drain, and grooves in floor. The bath tub sides were raised.

Visitors - Major Smith looked over the financial affairs - bank statements &c Sept. 9th.

The Duluth Chamber of Commerce delegates were most interested visitors.

Mr Standing Public School Inspector spent October 19th here.

We were delighted October 20th to have Mr Scott, the Deputy Minister. He looked over the financial affairs of the school - visited the school rooms + laundry: and saw the girls drill. Afterwards drove in

Dear Mrs.Boyce,-

Many thanks for your note of the 4th November with the inclosure. It would be interesting to have copies of these Bi-Monthly Reports. I notice that this is in your own handwriting. It never occurred to me to ask whether there is a typewriter at the school, and whether, if not, one could be usefully installed and the children taught to do typewriting. I would not ~~have~~ ask for a copy of this Bi-Monthly account if I thought you had to do all the clerical work.

Yours very truly,

Deputy Superintendent General.

DEPT. OF INDIAN AFFAIRS
NOV 18 1920
RECORDS

Sir,-

On the 2nd of November your letter of the 29th of October was read to the Six Nations Council in reference to the support of the orphan and neglected children at the Mohawk Institute. Unfortunately I was not able to be present at the General Council as I was subpoenaed to attend the Division Court in Brantford on that date. The letter caused considerable discussion amongst the Chiefs and they finally decided that they cannot sanction the payment of any money to the Mohawk Institute and stated that the sum of ~~$1650.00~~ $1650.00 must be refunded to the interest money of their funds.

One of the names you mentioned Lizzie Snow has not been at the Mohawk since the 6th of May ~~1920~~ 1920 as she is in a very low state of health, not able to study and under authority of the Department File No. 154 845-10 on the 18th of ~~May~~ March 1920 she was placed in charge of John Nash who is receiving $5.00 per week for her maintenance.

I beg to recommend that this decision be not approved.

Ottawa, November 18, 1920.

Sir,-

I have to acknowledge the receipt of your letter of the 11th instant, with reference to the matter of the payment by the Six Nations Band, from the funds at their credit in the Department, towards the support of the orphan and neglected children in the Mohawk Institute.

In reply I beg to say that the decision arrived at by the Band-in-Council in this matter cannot be approved. It is considered that the band should contribute towards the support of these children. It is noted that Lizzie Snow, one of the children mentioned in letter of October 29th last, is not now in the school.

The amount will be transferred from the interest funds at the end of the present fiscal year and the list of the children in the school will be carefully checked over and only the orphan and neglected children then in the school will be taken into consideration in arriving at the amount which will be taken from the band funds.

MOHAWK INSTITUTION
BRANTFORD, ONT.

To The Secretary
Department of Indian affairs
Ottawa

Dear Sir:—

Enclosed are applications from the teachers for increase in salary - which I regret very much to have to forward. You may have noted that teachers are all demanding great increases. The Federation of Women teachers Associations did sending out circulars that are drastic in their orders and demands — "if you are not getting $900.00 a year kick for it" — etc.

Both teachers greatly exaggerate their duties outside of school hours. To be on duty at night - means being responsible for answering the phone and door bell - to take prayers a ten minute duty - and after ten-o'clock to make rounds of the girls building another ten minutes. This duty is divided among three Officers.

"Supervising meals" — the teachers when there is not as at present an extra Officer - take turns in being at the pupils dinner - about 25 minutes every other day.

Miss Hardie taking charge in Principals absence - means she is referred to for phone calls if necessary - interviewing visitors - she does not have any extra hours on duty.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt. 1A)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

They both overlook the fact that as they live so
so many is lost going to & from school - nor the
wear on outside clothing.

Miss Handie could not get the accomodation
and privileges she enjoys for $45.00 a month - but
her long service entitles her to them - the school is
her only home. I hope you will raise her to some
extent yearly to a certain limit. She has been
faithful and unsparing in her duties. A new
Principal would be handicapped without her
knowledge of the pupils friends &c at first.
She is an excellent teacher and most interested
in her pupils welfare. She would not leave asked
the H.C. Co. for an increase so soon as she feels
her pupils education to them but - the fact that
her pupils is getting $95.00 is a block to her.

Mrs Langevin has board for herself and child
I consider she is getting $12.40.00 a year. She is a
fine teacher I shall be sorry to lose her and
probably could not engage another under $50.00
a year. I could engage an unqualified teacher who
was here 3 years ago, and has been successful
teaching a private school for $30.00 a month. Of
course we really do not feel the board of the
child, and I think she would remain if
offered $100.00 raise and a bonus of $100.00. I
would rather have some money to spend on a
library and school equipment than so much
in salaries.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt. 1A)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

What we need most is an extra Matron to look after the clothing - the sick - the chicken pickens & fruit - the cleaning and generally relieve the teachers and myself. I resigned last May and we have all felt overworked since then. I could get a woman for $25.00 or $30.00 a month with board etc - but should you consent to the M. C. M. S. C. taking over the Institute the new Principal might have a family that could fill some positions.

I am afraid if we have a typewriter - we have a good one - but just how not a pupil who is accurate in using it - and I would not like me to see the correspondence as I generally write my letters and reports.

Your obedient servant

Mohawk Institution
Brantford, Ont.
Nov. 19. 1920

Dear Bros. Bayce:-

I am writing to ask you for an increase of salary. I hope you will think me justified in doing so when I tell you of my long service here; with the exception of six months when I attended the Normal School, I have been teaching here since the beginning of 1886 - a period of thirty-four years.

I find that Teachers' salaries have been substantially increased during the last two years, and that one of my past pupils, Wilma Smith whom I passed through the Entrance Exam. and of whose

education I really laid the foundation, is being paid $960 per annum, on her second year's teaching on the Reserve, while I am receiving $600 per annum. I am also getting my board + washing, but in reality I earn that by extra duties done in addition to the duties of a Public School Teacher. Though you know my many duties and responsibilities, I will state them briefly for the information of those to whom you will wish to submit this letter. I am on duty three or four nights a week, night school in the winter, fortnightly changing the work-list of the seventy girls, supervising pupils at meals and practically being responsible for the conduct,

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt. 1A)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

cleanliness and clothing of the girls, and the cleanliness of their play-room lavatories etc. Alternating with the Jr. Teacher for Saturday afternoons, when I am responsible for the carrying out of the punishments of the weekly reports and the supervision of the girls' bath etc. On Sundays I teach Sunday School, accompany the girls to church and alternately with the Principal take the evening service. During any absence of the Principal I am in charge of the Institution.

For holidays I have six weeks in the summer, four days at Christmas, one day at Easter and half of the public holidays, while other Teachers have two months in the summer, ten days or

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt. 1A)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

more at Christmas, ten days at Easter and all the public holidays.

Teaching here has made me ineligible for superannuation from the Ontario Board of Education.

The foregoing is not intended as criticisms of the New England Co. who have done so much good and who educated me, but as reasons in addition to my long and faithful service why I am entitled to an increase of salary.

I am not asking to be relieved of any duties, but I am applying for an increase of $300. per annum beginning with Jany. 1921 and an additional increase of $100 per annum beginning Jany. 1922.

Will you kindly forward this letter to the other authorities.

154845-1

DEPT. OF INDIAN AFFAIRS
DEC 8 1920
REGISTRY

Indian Office, Brantford,
December 2nd., 1920.

548430

Sir,-

I beg to enclose a letter received from Mrs. A.M.Boyce principal of the Mohawk Institute enclosing an application from Miss Hardie for an increase in salary from $600.00 to $900.00 per annum commencing January 1st., 1920, and an additional increase of $100.00 per annum after that and also from Mrs. Gertrude M.Hargrave for an increase from $400.00 to $800.00 per annum to take effect on January 1st. next.

In regard to Miss Hardie's application you will notice that she has been teaching for 34 years at the Mohawk and has a most excellent record for ability as a teacher as she passes from 4 to 6 pupils into the High School every year. Her duties at the Mohawk are varied and as she states, a large part of her time is taken up after school hours in other duties pertaining to her over sight of the girls, but as Mrs. Boyce has pointed out in her letter the Mohawk is her only home and on that account her ~~duties~~ extra duties are not too much under the circumstances. I believe she should get the increase which she asks and as the report of Mr. Standing every year is most satisfactory and he has always told me that Miss Hardie is an excellent teacher. I do not however approve of the annual increase after next year which

The Secretary-
Dept. of Indian Affairs,
Ottawa.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt. 1A)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

which she asks for.

Mrs. Hargrave has English qualifications as well as Ontario and is in her fourth year as Junior teacher at the Mohawk. For a time she was a teacher in one of the schools on the Reserve where she gave good satisfaction. Her husband was a soldier and on his return she resigned from the Mohawk expecting to take up house keeping again with her husband, but he has evidently turned out unreliable and she has had to go back to work again. She has a little girl living with her about 8 years of age, who gets board and tuition at the Mohawk. It is quite true that none of the teachers at the Mohawk get the same holidays as public school teachers and they all have duties before and after school hours and on Saturdays, Sundays and holidays which entitles them to more consideration than ordinary teachers, but I do not think her salary should be increased to $800.00, in view of the fact that she gets board and lodging for herself and child in addition. I think an increase of $200.00 at the outside would be sufficient and perhaps the question of a bonus might be considered so as not to establish a precedent.

I am

Sir

Your obedient servant,

Gordon J. Smith,

Indian Office, Brantford,
December 2nd., 1920.

548432

Sir,-

I beg to advise you that on Tuesday 30th ult. I made an inspection of the Mohawk Institute. There are on the roll 48 boys and 75 girls, the classes were all being instructed by the two teachers one half in the morning and the other half in the afternoon, while the others were employed in various parts of the building and farm in manual labour and domestic work. I found that the alarm bell is cracked and not able to be used and would recommend that a new bell be purchased at once as in the event of fire the farm officers who live some distance away in cottages could not be aroused to take charge of the fire protection.

While I was at the Institute the Bishop of Huron and Canon Gould of Toronto arrived to look through the premises with a view of taking it over in accordance with the decision of the recent Anglican meeting held at Winnipeg. Mrs. Boyce recently at the request of the Bishop furnished Canon Gould with a statement of financial conditions there, but I understood from the Canon that nothing final has been arranged.

2 Letters

154845/1

Ottawa, December 6, 1920.

Sir,-

I have to acknowledge the receipt of your letter of the 2nd instant enclosing applications from two of the staff of the Mohawk Institute, namely,- Miss Hardie and Mrs. Gertrude M. Hargrave, for increases in salary from January 1st, next, as well as a communication from the Principal regarding these requests.

In this connection I would point out that, in addition to the salary now paid, both receive board and lodging, and I should be pleased if you would state what you consider would be a fair estimate of the value of the same. It is considered that, taking into account the value of this board and lodging, it will be found that both these ladies are receiving a salary equal to that allowed to teachers of the highest qualifications in our day schools. The affairs of this school are now in a transitional state and I am of the opinion that we should not add to the salary pay list or to the cost of management pending a new arrangement.

Your obedient servant,

J. D. McLEAN

548759

Sir,-

In further reference to the applications from Miss Hardie and Mrs. Hargrave of the Mohawk Institute for increases in their salary, I beg to state that Mrs. Boyce values the board and washing allowance of Miss Hardie at $45.00 a month. Miss Hardie has a very nicely furnished bed room on the principal's flat and has her meals with Mrs. Boyce and has special privileges in having the use of all the principal's apartments. Considering that she receives her washing as well I think Mrs. Boyce's estimate is not too high.

In reference to Mrs. Hargrave, Mrs. Boyce values the board and washing for her and her daughter at $840.00 per year or $70.00 a month. Mrs. Hargrave and her daughter occupy the same bed room but have separate beds which involves extra washing. The laundry of the child is large but I think $50.00 a month for the mother and daughter would be a fair estimate, although the child receives free tuition in addition.

Mrs. Boyce informed me yesterday that she spoke to both of these teachers and gave them the privilege of resigning to take effect at the end of this month if

Mrs. Boyce and Mr. Rodgers of the Mohawk Institute have been discussing the condition of the horses out there, ~~to have~~ There is one old horse 27 years of age ~~old~~ is not fit to do any work and could not be sold and it is their wish to kill it. They also have a horse named Dick which is a very heavy eater, no mate and is tooclumsy for the boys to handle, it is estimated that he might ~~be~~ bring $50.00 if sold. Another horse named Jess a very poor actor requires to be driven on the curb and the boys cannot handle her, This horse they also wish to sell, It is estimated that these three horses will ~~come soon~~ consume feed worth more that it would cost to buy a new horse.

SCHOOLS BRANCH
DEC 21 1920

The horses which they wish to keep are Dusky an old horse but a fair driver, a large grey team worth $300.00 a team of colts worth $180.00, Kitty an average team horse and Polly an average team horse and also suitable as a driver.

The requirements for the Institute are two farm teams, one garden team and two drivers making 8 horses in all. It is their wish to purchase another horse to mate up with Kitty or as a spare farm horse. There is no necessity of buying this extra horse until the Spring unless they run across a good one at a sale where it might be bought reasonably. I beg to recommend that permission be granted them to dispose of the three horses named above and to purchase a new one.

Mrs. Boyce desires to buy a barrel of white paint

Ottawa, December 21, 1920.

Sir,-

I have to acknowledge the receipt of your letter of the 17th instant with reference to the condition of the horses at the Mohawk Institute and making certain recommendations regarding the disposal of three of them and requesting authority to purchase another horse.

In reply I beg to say that the Department will approve of the sale of two horses, named Dick and Jess, and the getting rid of the old horse twenty-seven years of age. Approval is granted for the purchase of another horse, one which would be suitable for farm purposes, and the amount received from the sale of the two above named horses should be applied in the purchase of the new horse. It is considered that any extra money required to make the purchase should be provided from the general funds of the school. You should wait until a reasonable opportunity occurs to purchase a suitable horse, as you state that it will not be required until the spring.

Ottawa, December 21, 1920.

Madam,-

I have to acknowledge the receipt of your letter of the 17th instant in further reference to your request for an increase in your salary as teacher at the Mohawk Institute.

In reply I beg to say that, besides salary at the rate of $400.00 per annum, it considered that the value of the board and lodging and washing which you receive for yourself and your daughter would be equal to $50.00 a month; in addition your daughter receives free tuition.

The affairs of this school are now in a transitional state and it will, ~~therefore~~, not be possible to add to the salary pay list at the present time.

While the Dept values your services I would like to return them

Your obedient servant,

J. D. McLEAN

Dear Mr. Scott,-

The Bishop of Huron and Canon Gould paid a visit to the Mohawk Institute on Tuesday last, with a view of gathering information regarding the cost etc. in order to carry out the wishes of the Anglican Church which recently decided in Winnipeg to take over the Institute. Mrs. Boyce told me today that she had heard in a round about way that the Bishop wanted to take over the Mohawk Church and she also said that the New England Company wishes to retain control of this Church and will provide for the salary of a chaplain and other expenses in connection with it. If I may be allowed to suggest, I would say that in my opinion it would be a great mistake to allow this church to pass into the control of the Diocese of Huron as it is essentially an Indian Church and should be retained with all its historic associations for the Six Nations. Another point in connection with this church which has occured to me ~~there~~ and about which Indians have spoken is the use of the cemetery at the Church by white people. In its early days it was the only Anglican Church here yet descendants of whites who worshipped there still claim the right of

right of burial in the cemetry and some Indians have said that when they come to die there would be no room for them. I understand that the Rev. Mr. Ashton exercised the right to say who should and who should not be buried there, but since he has retired the question has not come up.

I would be very much obliged if you would give me your opinion in regard to these burial permits and who should have the control under present conditions.

Yours sincerely,

Gordon J. Smith,
Supt.

Sir,-

I beg to report, this on Thursday 23rd inst. I paid a visit to the Mohawk Institute, in the evening where I distributed prizes to the children for their sports and also prizes to the boys for the cleanest horse, cleanest cow and best team of horses. It appears that the contests for these prizes produced considerable competition and interest among the children. About 80 children are spending their holidays at the Institute some because they have no homes to go to and others because the parents live too far away and cannot afford to come or send for them and also because the roads are in a very bad condition.

On Christmas Eve 39 boys and girls accompanied by Mrs. Boyce and Mr. Rodgers serenaded three or four friends of the Mohawk including Rev. Mr. Bilkie, Rev. Mr. Jeakins, W. F. Cockshutt, M.P. and myself. They made a very creditable impression with their Christmas Carols.

BI / MONTHLY REPORT.

MOHAWK INSTITUTE. BRANTFORD? ONTARIO.

November and December 1920.

----------o0o----------

R

CHURCH-

Mr. Bilkie officiated at all services and as the Church is closed for the Winter the services are held in the School-room at 9.30 a.m. The Holy Communion was celebrated on November 7th and also on December 3rd when 42 communicated. The Queen Ann Silver was used on these occassions.
On December 1st. the Bishop of Huron held a Confirmation Service at which there were 29 candidates. Mr Fotheringham of Grace Church and Mr. Bilkie assisted and the Chancel and entire front of the Schoolroom was prettily and effectively decorated with pink begonias, ferns and other plants. The Brass from the Church was also used.
On December 23rd there was a Song Service of Christmas Hymns and Carols. The School-room was decorated with Cedar, Spruce Bells and Chains and the Chancel was beautiful with its brass candle-sticks and vases of poinsettas and green.
The remaining pupils on Christmas Day and the following Sunday attended Trinity and St. Judes Churches.

HEALTH-

We have had epidemics of Sore throat and the grippe. Nearly everyone including the Staff have had the Grippe more or less acutely.
One girl had eryseplas and Jacob Carpenter was attended by Dr. N. Bragg for bad sore eyes.
Charlie Staats, a tubercular abscess case was sent to hospital on November 26th.
There were several cases of a very bad rash.

AMUSEMENTS-

During December all the girls visited town twice to see the Christmas Stores.
The Christmas Concert on December 21st was a great success. The drills, dances, dialogues, songs, recitations, duets and solos were all well rendered and thoroughly enjoyed.
The Song Service with Carols was bright and hearty.
After the Chancel doors were closed Major C. J. Smith presented the prizes won at the Sports and in the Cleanliness Competitions held in the Horse Stable and Cow Barn. In his speech he expressed pleasure in the good singing, bright appearance and smart uniforms of the pupils.
SchoolClosed December 24th. and many went to their homes- 72 remained that night- a few leaving next day. Forty boys and girls went out as waits callingon Mr. Bilkie, Mr Geddes, Mr. Jeakins and Mr. Ashton, all of whom have taken services at the Old Mohawk Church. They also called on Mr. Cockshutt and Major Smith. Mrs. Smith asked the party in and entertained them with coffee, biscuits and candies. The children thoroughly enjoyed themselves and the gifts of candy and nuts received "en route". Mr. Cockshutt sent a crate of oranges. The small children were visited by Santa Claus.
On Christmas Day the dinner of roast pork, browned potatoes, Mashed turnips, and gravy followed by plum pudding and sauce was so much enjoyed that many sufferred next day. The Supper tables were decorated with gay doylies and loaded with oranges, dates, raisins, biscuits and candy. Many spent the greater part of the next day in bed.
Fortunately snow came on Sunday night and we were able to get the bob-sleighs out on Monday and flood the Rink. The skating on the Canal was good. Every afternoon candy or nuts were distributed and each evening the officers joined the pupils in games and dances - and more candy.
Many letters were received from those pupils at home saying they were lonely ... ing they were spending their holi...

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

at the Institute. One boy surprised everyone by refusing to go home with his relations. He declared that he could enjoy himself mush better here.
On the 30th. December the girls with two officers went in sleighs to the Institution for the Blind to see Mary Was. They were invited in and spent a most enjoyable afternoon.

VISITORS-

Canon Scott and Colonel Colquohoun visited November 16th.
The bishop of Huron, Canon Gould, Major Smith and Mr Howarth spent the whole of November 30th. inspecting everything and discussing finances etc.
Mr Dowling called re transferance of Insurance.on November 31st.

INCIDENTALS.

Major Smith openned the Mohawk Institute Bank account by depositing Government Cheque and arranged that cheques be signed by himself and the Principal. November 3rd.
On Armistice Day all the School and Staff assembled and sang patriotic songs. Various members of the Staff gave addresses.
Following a lecture on Fire precautions which included the re-organisation of Fire Drill an Alarm was given . The new Drill was very well carried out - the girls manning all interior hydrants.
The mild weather allowed us to pick apples well on in November The girls gathered leaves and generally tidied the grounds.
On December 24th. two boys, John Hope and Fred Schuller stole jack-knives and a hockey stick in town. The goods were returned. This was discovered and reported by other boys.
On December 26th. a fire was started in the laundry boiler when the water was turned off and resulted in cracking the water jacket in such a fashion that it was not repairable by acetylene welding.
Miss Hardie and Mrs Hargreave applied for increase in salary.
Miss Busch, housekeeper, proved a failure.
Miss Hackbourne was engaged November 29th.
Miss Gimby left on the end of November and Miss Keyes, a former officer was engaged for the sewing room.
Mrs. Hargreave secured a position in Toronto December 21st. and asked to be released at the end of month.

GENERAL WORK.

INSTITUTE.-giving out warmer clothing and bedding- putting in double windows and glazing- erecting extra stoves- repacing old stove piping- packing hydrants and cut-off boxes.
FARM AND GARDEN.- The rows of Chesnuts in the front entrance were cut down and chopped down for fire-wood. Several old trees were cut-out.
The rhubarb beds were dug over, and one was transplanted.
Hedges and fruit bushes have been pruned.
Flower beds have been dug over and some transplanted.
The gravel drive was dug over and levelled.
We cut out some cedar and spruce for the Christmas decorations making groups of the trees instead of straightwind breaks.
This has improved the appearance of the grounds generally.
We loaded Sugar Beets November 13th. and shipped them Nov:15th.
We have killed four pigs for home use- giving each of the men a piece of pork and a fat cockerel for Christmas. We have been killing cockerels for the Officers' table.
Rover, an old horse fell sick and had to be shot.
We purchased a Holstein bull for $200, and cows for $125 and $125.
The mildseason allowed us to plough the entire farm and garden and the manure has been piled in field in readiness for Spring.
The cattle were brought in November 12th.
The fence wire and posts on the flats were taken in November 18th.
We were able during the early part of December to do a lot of cleaning up in the fields, garden, orchard and yards.

154845/1

Ottawa, January 14, 1921.

Sir,-

With reference to that portion of your letter of the 17th of December, last, requesting, on behalf of the Principal of the Mohawk Institute, authority to purchase a barrel of white paint, with which to paint the inside of the building, I beg to say that it is regretted that this request was inadverdently overlooked at the time a reply was made to this letter.

The Department will approve of the Principal purchasing the barrel of paint, which, you state, would contain about forty gallons, and the price should not exceed the estimate furnished by you . It will be necessary to obtain competitive prices and the purchase should be made from the firm quoting the lowest price. Properly certified vouchers, in duplicate, should be forwarded, together with a memorandum showing the firms asked to quote a price and the prices quoted. It is noted that the work in connection with the painting will be performed by the pupils and that there will be no expense to the Department for this work.

You will be good enough to inform the Principal of the authority being granted for the purchase of the above quantity of paint.

Your obedient servant,

D. McLean
Asst. Deputy and Secretary.

Dear Major Smith,-

I have your letter of the 22nd instant, with reference to the operating table and sterilizer for Dr. Greenwood, and other supplies for the Mohawk Institute.

We have not yet received all our shipments, but you may assure Mrs. Boyce that we will look after her needs to the best extent possible.

We have not taken over any operating tables nor sterilizers, but we will endeavour to obtain this equipment for the Doctor.

Yours very truly,

A. Fle.

A N N U A L R E P O R T -1920-

MOHAWK INSTITUTE / BRANTFORD / ONTARIO.
for year ending 31st December 1920.

To the Secretary,
Department of Indian Affairs, Ottawa.

Sir,

I have the honour to submit the report for the year 1920.

FINANCIAL.-

The cost of maintenance of the School, inclusive of supplies from Farm and Garden was $20,482.51.

The revenue from the Farm was $1,230.66.

The cost of the entire establishment was $19,251.85.

EDUCATIONAL.-

Grace MacNaughton completed her course at the Business College, has now a good position and is boarding at the Y.W.C.A.

Three girls passed the entrance examination to the Collegiate - Ethel Green taking honours. They all started on the teachers course after the Midsummer holidays at the Collegiate.

Wilson and Carl Tobias were prepared for the Entrance Examination here. Carl had epileptic fits and was discharged. Wilson left later to help care for him and both were passed in Toronto.

Ruby and William Smith are in their second year at the Collegiate. William took honours at Midsummer.

Luella Moses left at Midsummer after attending the Collegiate one year. She is keeping house for her father and attending the Caledonia High School.

Alice Herkemer who completed her course at the Business College last year is getting $90 a month at the Goodyear Rubber Co. Akron, Ohio. She was one out of ten retained of a staff of two hundred, when the staff was reduced.

Two girls have been playing the Church organ and several others are qualified to do so. At the Conservatory of Music Examinations:-

ATTENDANCE.-

During the year 35 pupils were admitted- 14 boys and 21 girls- and 18 boys and 18 girls were discharged. Of these 4 girls are on sick leave, two boys were enfranchised, 5 absconded and 1 was dismissed.

CONDUCT.-

The conduct has been good. This year we had to discontinue the Badge Money (that is the rewarding for good conduct) as we were short of money. The boys are taking an intelligent interest in the care of stock,and their farm work. On "Sports Day" the boys proudly exhibited their horses. There was great competition in the grooming and care of the animals. Many of the boys bought brass ornamentations for their horses harness.

HEALTH.-

We have had epedemics of Grippe, Mumps, Measles and German Measles, which have not been serious but disarranged the School work. There have been several cases of abscesses. Three girls have had sick leave on this account -one is being paid for by the Department. One boy with serious tuberculor abscesses has been sent to the Brantford Hospital.

One boy with sore eyes has been under treatment here and was sent home for a time. Several accident cases - not serious- one boy broke his arm. One case of erysciplas.

Our principle trouble is the pupils returning from home with scabies and rashes which do not yield readily to treatment.

RELIGIOUS TRAINING.-

Mr. Bilkie held classes for preparation for confirmation in the Spring, which most of the older pupils attended. The Bishop was very pleased with the examination papers.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt. 1A)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The Confirmation was held on December first and there were twenty-nine candidates.

All the pupils attend Sunday services and Sunday School and some instruction is given in school - prayers night and morning. We go to a great deal of trouble in decorating for special occassions such as Christmas, Thanksgiving, Easter, Confirmation, letting the pupils do all the work.

AMUSEMENTS.-

The severe winter was fine for sports and the girls were often out bob-sleighing on suitable days. Three weeks holiday was allowed at Midsummer but many had no homes and we had from 60 to 65 here all summer, these enjoyed swimming and picnics. Several carnivals came to town and treated the children most generously. The public holidays were observed and Sports Day. Games are encouraged in the Playgrounds and Playrooms. The children can put on very good entertainments- drills, songs, dances, dialogues, solos, recitations and duets on the piano. They enjoy dancing to the Victrola or piano.

IMPROVEMENTS, REPAIRS etc.,-

During the winter we made fly-screens for the entire lower floor and also cold frames. The latter cost $168.85.

One of the officers' bed-rooms was done over as a sitting-room for the officers and another as a study room for older girls. The Mens' Dining Room, walls and woodwork, was painted.

The stair cases were all done over.

Most of the expense went on the laundry. The motor was overhauled in January, a new jacket heater installed with coils for heating rooms and dryers, new cement tubs erected, a new cement floor with drainage troughs was laid and the girls bath was deepened.

With insurance money we purchased three new lengths Fire-hose, coupling levers and a high ladder.

CLOTHING.-

The girls had new flannel uniforms, an issue of school aprons, one of work aprons and heavy drill skirts. The boys had new shirts, jerseys, sweaters and two pairs each of denim trousers for school and work, with the necessary underwear, shoes and stock-ings. We have gone shabby waiting for prices to drop.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt. 1A)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

FARM AND GARDEN.-

We had a severe winter. The frost penetrated our cellars resulting in the loss of a small quantity of apples and potatoes. The pipes were frozen and we had to carry water to the cattle.

The ice was very thick. One man injured his foot and Mr. Rogers his back handling it.

Last winter we cut fallen timber on the Glebe and home property. In the fall we cut the avenue of chesnuts at the front entrance and a quantity of brush.

The girls cared for the chickens, the incubator and the young chicks. The wet spring was hard on the little chicks.

The cattle were tested for T.B.C. and the bull was condemned. Two old horses were killed.

All the stables were sprayed inside and out.

We threshed 2,203 bushels of grain and we have quantities of straw but little hay.

We fall ploughed the entire farm, garden and orchard with the exception of the meadows, cut brush and cleaned the fences and ditches.

We completed the fence along the Mohawk Road and repaired line fences. The fences on the flats were removed to avoid loss by Spring floods.

The place is tidier than it has been for six years.

We were forced to repair the bridge across the canal at a cost of $250 and three days labour for men and boys.

We completed irrigation (2½ acres in all) and receipts from the Garden exceeded any previous year by $700.00.

The girls attended to the lawns and flower beds, and the Church Yard, helped in the greenhouse and cold frame work, besides picking most of the peas, beans, tomatoes, small fruits and apples. We had a large quantity of apples which the girls stored besides onions and pumkins.

We transplanted one rhubarb bed, dug around another, cleaned and pruned the currant and gooseberry bushes.

We bought a large power sprayer.and sold the old sprayer for $50 less than it cost four years ago.

We sold quantities of early potatoes at a splendid figure The late potatoes did not yield well. We have plenty of beans.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt. 1A)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

VISITORS.-

Bishop and Mrs. Stringer Mr. and Mrs Fry of the Yukon, were interested visitors. The children enjoyed hearing about their work.

Mr. Standing inspected the schools March 9th. and October 13th.

Major Gordon Smith made regular inspections.

Dr. Bates of Carlisle came April 3rd. He said he had heard in various parts of the States of Mr. Ashton's work here.

Mr. Race, Principal, Mr. Ryerson, Burser Ontario School for the Blind visited April 12th.

The Clergy and Laymen attending the Synod held in Brantford several of whom were old pupils, spent much time here.

Commandant and Mrs. Hill who have established a boarding School in Korea were very enthusiastic about the work here.

The Stock man from Munsey and the Bandmaster from St. G George, Lytton were visitors.

Colonel Huggins inspected the Cadet Corps on June 30th. He was very pleased with the smart appearance of the boys and their steady drill.

The Vegetable Growers Association held their Annual Convention here, August 17th.

General Ashton spent a week-end here in August.

The Delegates of the British Chamber of Commerce were exceedingly interested.

We were honoured by a visit from Mr. Duncan Scott on October 20th and from Bishop of Huron and Canon Gould, General Secretary early in December.

PRESENTS.-

An autographed photograph of H.R.H. The Prince of Wales, and a large Photograph of the Prince sent by Mr. Scott.

A rare collection of shells from Florida.

A number of school desks from the O.S.B.

Magazines and books from friends.

I have the honour to be,

Your obedient servant,

A. W. Boyce

Ottawa, February 17, 1921.

Sir,-

I have to acknowledge the receipt of your letter of the 12th instant enclosing a copy of the annual report of the Mohawk Institute, as prepared for the New England Company by the Principal.

In reply I beg to say that this report has been read with a great deal of interest and the Department is pleased to note the work that has been performed and the progress that is being made under Mrs. Boyce's management.

I have also to acknowledge the receipt of the financial statement for the quarter ending December 31st, last. This report contains full information as to the receipts and expenditure for the above quarter and shows that there is a substantial balance on hand.

In this connection I have to request that you will be good enough to have the Principal forward a statement showing the financial standing of the school at the end of the present quarter, which statement should accompany her quarterly returns of attendance, etc.,

In official letter of October 28th, last, regarding the arrangement under which the Department agreed to provide the ordinary expenditure in maintaining the school, over and above the amount provided by the New England Company and the receipts from the farm, you were informed that, at the end of the fiscal year, any unexpended balance of the per capita grant was to be refunded. It can be ascertained when the above returns are received as to the amount which the Department will have to further provide to cover the cost of the ordinary expenditure of the school. In forwarding the grant for the current quarter an amount sufficient to meet the requirements only will be sent.

It is noted in the Principal's annual report that she estimates the cost per pupil at $166.00. The amount provided for the present fiscal year is at the rate of $200.00 per capita, and it is hoped that it will be possible to decrease this amount considerably and still provide a grant sufficient to carry on the work efficiently.

You may inform Mrs. Boyce of the Department's appreciation of her work in the management of this school.

Your obedient servant,

J. D. McLEAN

1 Encl
2 Feb.

Ottawa, February 17, 1921.

Sir,-

I have to acknowledge the receipt of your letter of the 9th instant informing the Department of a case of scarlet fever which has developed at the Mohawk Institute.

It is noted that this case has been placed in the Isolation Hospital in Brantford for attention. The Principal should, if possible, endeavour to ascertain the source of infection with a view to taking the necessary steps to prevent any further cases developing. It is hoped that the girl who has the disease will make rapid recovery and that no further cases will develop.

Your obedient servant,

J. D. McLEAN

Sir,-

Take up with Mr Baker

I beg to report that on the 14th inst. I made an inspection of the Mohawk Institute spending most of my time however in discussing financial arrangements and the management of the school.

There were six girls in bed sick but nothing serious is anticipated. There is considerable small-pox in Brantford and the principal is closely watching the situation so as to prevent it getting into the Institute if possible. Mrs. Boyce reports a great necessity for new mattresses and blankets as they have not been renewed for many years and the mattresses in particular are too old and unsanitary for much more service. I mentioned to Mrs. Boyce the transfer of hospital supplies to the Indian Department from the Speedwell Hospital and she expressed a keen desire to secure some of these as when there is sickness it is very hard to properly care for the patients without proper equipment, such as trays, extra dishes, basins and soon. She expressed a desire to get some hot water bottles, dressing carriages, bed-side tables and some plain chairs, in addition to the blankets and mattresses mentioned above. I beg to suggest that a list of the

CANADA

the hospital supplies be sent to me so that Mrs. Boyce may make a requisition for such things as she most ~~xxxxx~~ needs subject to your approval after her list goes in.

Mr. MacKenzie when here recently informed me that there were some band instruments also taken over and as Mr. Rodgers the Assistant principal is fully qualified to instruct a band, it was considered that a band could be formed if 12 instruments could be furnished as follows : 4 cornets B flat, 3 Tenorx horns E flat, 2 baritone B flat, 1 Euphonium B flat, and 2 Bombardons E flat.

I think a band would be a useful inst~~ruction~~ tuition at the school givingthe boys amusement as well as profitable instruction outside of school hours.

During Christmas holidays the water was let out of the boiler in the laundry to save it from freezing and when the laundry was again put in use a fire was lighted, but by neglect the boiler was not filled with water resulting in the burst. After several attempts at welding, it was found necessary to buy a new boiler, but the old one has been placed in the boys play house surrounded by a drum, resulting in a splendid apparatus for this building which will do the work which the Quebec Heater was intended to do but ~~it has not been~~ which was not purchased on account of this new stove.

Ottawa, February 25, 1921.

Sir,-

Referring to your letter of the 25th ultimo requesting that the Mohawk Institute be furnished with a supply of mattresses and blankets and hospital supplies, I beg to say that, as you have been advised, the Department is receiving a quantity of various kinds of supplies from the Soldiers' Civil Re-establishment. These supplies are reaching Ottawa daily, but, until they have all been received, unpacked and listed, the Department is not prepared to forward any supplies to the different schools. When, however, the lists are prepared the Mohawk Institute will not be overlooked. At present, as these supplies are not unpacked, the Department is unable to state the different articles and the quantity of each that is being received.

Your obedient servant,

J. D. McLean

DEPT. OF INDIAN AFFAIRS
MAR 8 1921
RECORDS

551968

Indian Office, Brantford,
March 2nd., 1921.

Sir,-

I beg to advise you that on Friday the 25th of February I made an inspection of the Mohawk Institute. There is an attendance of 120 of whom one boy young Staats who recently returned from the Hospital was in bed, as his health is so undermined that he cannot study or do any work. In the girls dormitory there were three girls in bed from slight ailments. Both the girls and boys dormitories have had the wood work painted and ceiling and walls white washed making them bright and cheerful in appearance. Other portions of the building will be cleaned up as opportunity offers.

In the stables everything appears to be progressing favorably the cows look well are giving a fair quantity of milk and as far as known there is no tuberculosis.

I caused a fire alarm to be sounded but was very much disappointed in the result as nobody took any notice except two girls who were working in the green house. There was a strong wind blowing from the main building towards the bell which accounted for it not being heard as I enquired in the school room afterwards if they heard the alarm but nobody had. As fires frequently occur when there is a high wind blowing, if the alarm is not sufficient to overcome the wind it is practically useless. It seems to me that an electric

electric alarm should be placed in the building with buttons on each flat and also one in the out buildings, and I think there should be an alarm in the out buildings as well, I do not know what the probable cost of such an alarm would be, but I have heard the gong in the Collegiate Institute in town which gives a clang that can be heard along distance off.

Mrs. Boyce informs me that she intends to visit her brother General Ashton in Ottawa towards the end of this week and she was going to take the advantage of the opportunity to call at the Department to discuss several matters principally in regard to the equipment of the dormitory.

M O H A W K I N S T I T U T E .

BRANTFORD ONTARIO.

B I - M O N T H L Y R E P O R T .

January and February 1921.

CHURCH. Mr. Bilkie took all services at 9.30 a.m. except on 23rd. January when Mr. Geddes officiated at 2.30 p.m. Holy Communion was celebrated on January 9th. and February 13th. As all the services were held in the School-room we have allowed three inexperienced girls to act as organists. They have done remarkably well.

HEALTH. During this period we have had several cases of grippe, sore-throat and ear-ache, one of uremic poisoning, two tuberculosis abscesses, and one of scarlet fever. We have no idea as to how this last was contracted and sent the case for treatment to the Isolation Hospital. Two pupils are undergoing treatment at the occulist and several have been to the dentist.

Charlie Staats returned from the Hospital on January 31st. We were unable to fetch him earlier owing to the Hospital quarantine. He requires constant attention and should be in a Sanitarium.

We have also one case of hernia which will require an operation.

Amusements. There has been little skating or out-door sports. However, when we had snow enough we had the bob-sleighs out. The purchase of a few books has helped wonderfully to keep the children amused. The boys are becoming vigorous boxers and the girls have enjoyed dancing.

The Grace A.Y.P.A. gave a Concert that was much enjoyed on February 14th.

A Music Class has been started for the boys.

INSPECTION. Major Smith inspected January 14th. and February 25th. Mr. Standing inspected in afternoon February 21st and all day on 22rd.

STAFF. Mrs. Hargreaves, Governess left January 1st. Miss Keyes, Sewing Teacher, who has had several years experience in teaching was transferred to the Junior School and Mrs Burnett was engaged to take her place as Sewing Teacher. Both have proved good officers. Miss Hackborn, housekeeper, left the end of January and Miss Davidson came on duty February 1st. Mrs Boyce was away from January 16th to 31st in the States.

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt. 1A)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Four boys absconded Sunday February 20th and were all returned by John Lickers, Truant Officer on February 22nd.
On several occassions men have been around the buildings at night and the girls have been alarmed.

INSTITUTE. We had plasterers make repairs in the dormitories, the ceilings and upper walls were white-washed and painters worked on the high beams in the girls lower dormitory. The girls have completed the paint work there and have started on the Boys dormitory.
The two new Fire Extinguishers have proved of interest. Mr. Standing the Public Schools Inspector had not seen any so useful for Country Schools.
We have been able to purchase from Army supplies factory cotton, sheeting and linen for girls summer dresses at a very cheap figure.
We are busy making sheets, pillow cases and shirts besides uniforms.
We have also bought the winters supply of socks and stockings with a good surplus for next year, at a very low figure.

FARM AND GARDEN. We bought two cows to increase our milk supply.
We killed three beasts,one of which was tubercular and had to be buried, and six pigs for home consumption. Two old horses were sold and one young one was purchased thus making up three good working teams.
Although we have had a very mild winter we were able to fill the Ice-house in January.
We have been selling green onions, lettuce, rhubarb and plants. The greenhouse returns are good and we have been able to prune a number of trees in the orchard.
We have cleaned up a quantity of brush and the creek and also cut wood. A decrepid chimney on the farm work-shop has been pulled down and interior alterations have been carried out to allow a bench to be installed. Converting the Carpenters shop into a Manual Training Centre has made this necessary. Shingling repairs on the Workshop and Ice-house have been carried out.

IMPROVEMENTS. We have installed a new Bell to replace that broken last winter.
The hydrants have been more regularly inspected.
A new boiler has replaced the one that burst in the laundry in

Indian Affairs. (RG 10, Volume 2771, File 154,845, pt. 1A)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

December which was found irrepairable by acetelyne welding. The burst boiler was converted into a hot-air furnace for the Boys' Play house which is now comfortably heated.

The boys bath has been deepened by raising the cement wall and the plumbing overhauled.

Steam boiler experts have looked over the building and plans. In spite of the mild winter the centre building has been very cold and frequently we have had to send the sewing class into the Junior School.

The Manual Training benches and tools have been of great interest to the boys. Mr. Mutter of the Collegiate Staff commenced classes February 19th. On Staurday the Boys Half-holiday, I found a number of boys in the School-room and on equiring what they wanted I was told that they were waiting to see Mr. Rogers to ask permission to spend their holiday in the Carpenters' Shop. Several areoplanes and models are in evidence.

Sir,-

I have to acknowledge the receipt of your letter of the 4th instant enclosing the bi-monthly report of the Principal of the Mohawk Institute and also your letter of the 2nd instant reporting on your inspection of this institute.

It is noted that the work is progressing favourably and that the general health, with the exception of a case of scarlet fever and a few minor complaints, has been good.

You should take the matter of the providing of a better system of fire alarm for the institution and outbuildings up with the Principal. It is important that, in the case of a fire, the alarm should be heard distinctly throughout the buildings.

Your obedient servant,

J. D. McLEAN

Ottawa, March 9, 1921.

Sir,-

I beg to refer you to official letter of October 29th, last, with reference to the payment by the various bands, from the interest funds at their credit in the Department, towards the support of the orphan and neglected children in attendance at the Mohawk Institute. You were informed that the band funds would be responsible each year in future for the maintenance of the orphan and neglected children to the extent of $80.00 per capita.

The Department desires to transfer, before the end of the present fiscal year, from the interest accounts of the bands to the General Vote for Indian Education, the amount which each should provide for the above purpose. I have, therefore, to request that you will be good enough to forward a list showing the names of the orphan and neglected children from each of the various bands in attendance at this school. This list should be carefully prepared and, where there is doubt as to the band to which a child belongs, it should be stated. I shall be pleased if you will have this list forwarded as soon as possible.

Your obedient servant,

J. D. McLEAN

BRANTFORD, ONT., March 12 1921

To whom it may concern:

I hereby certify that I have inspected the classes at the Mohawk Institution, Brantford, for the past three years, and that Miss Susan Hardie during that time has been the teacher of the senior classes. She is a duly qualified teacher, having been trained in the Toronto Normal School and for a long period she has had successful experience in teaching and guiding the pupils of this school. She is an excellent disciplinarian, not severe, but firm in her control, and I believe, secures the affection as well as the respect of her pupils. In teaching she has been uniformly successful as is shown by the success of her pupils at the H.S. Entrance Examination.

I feel confident of her worth as a teacher and as one responsible for the care of children in an institution such as that in which she now teaches.

Brantford Hydro-Electric System

CHAIRMAN:
A. McFARLAND

Brantford, Ont., March 15th, 1921.

Mohawk Institute,

Brantford, Ontario.

Dear Sir: Att. The Principal.

In accordance with the writer's verbal conversation re proposed primary line on Institute property, which you will be required to pay for, from Mohawk road to building, we propose to supply all poles, wire, hardware, etc., and erect same. It is also understood that the Institute authorities will supply labor for the digging of pole holes, etc. The following is the approximate cost of building a line approximately 1000' long.

10 --	30' poles @ $7.00 each ----	$ 70.00
2000'--	No. 6 wire - 140 lbs @ 27¢-	54.00
10 --	Cross arms and insulators- 5¢	50.00
	Labor and incidentals	75.00
		$249.00

We will erect the transformers which will be owned by the Brantford Hydro Electric System and the labor and material at cost, plus insurance and 10% for tools.

Trusting that we will be favored with your business, we remain,

Yours very truly,

Brantford Hydro Electric System,

per, W. T. Rowan

Superintendent.

DEPT. OF INDIAN AFFAIRS
MAR 18 1921
RECORDS

Indian Office, Brantford,
March 17th., 1921.

552634

Sir,-

I beg to enclose an estimate from the Brantford Hydro Electric System for building a primary line from the Mohawk Road to the Institute building which will cost approximately $249.00.

Mrs. Boyce has secured figures from the Western Counties Electric Company stating that the approximate cost of putting in extra wiring and switch box into the main building will be about $350.00, but might run up to $500.00. There has not been an Inspector inside the main building since 1902 when the wiring was done and Mrs. Boyce is afraid that the present wiring will not pass the Inspector, in which case the cost may run up to $1000.00 or more. It is something that nobody can estimate upon. I think it would be advisable to change the light from the Western Counties to the Hydro Electric as it will be cheaper in the long run and I therefore beg to recommend that the primary line be installed and the extra wiring and a new Hydro motor be installed.

Your obedient servant,

Gordon J. Smith,
Supt.

DOMINION OF CANADA,
COUNTY OF Bruce
TO WIT:

In the Matter of Lots 23-24-26 and 27 Con 3 N.B.R. Lots 24-25-26 & 27 Con 4 N.B.R. and Lots 23-24 and 25 Con 5 N.B.R. in the Township of Eastnor, County of Bruce

TO Henry Trout, of the Town of Wiarton in the County of Bruce, Forest Bailiff

DO SOLEMNLY DECLARE that I have examined the above mentioned Lots viz: No 23-24-26 & 27, Con 3, N.B.R. Lots - 24-25-26 & 27, Con 4, N.B.R. and Lots 23--24- and 25, Con 5, N.B.R. in the Township of Eastnor, County of Bruce and Province of Ontario. - and say.

That said Lots are all about the same quality bare burnt rock, very rough with ridges of rock running through them, there is no growing timber whatever - with barely enough of burnt lying timber to fence them, said timber not fit for any thing else - with the exception of about 10 acres of land of fair quality, on Lot 24 Con 3 N.B.R. Soil Sandy Loam about 6 from 6 to 18 inches deep, that can be cultivated and utilized for a garden to raise vegetables to keep a house for a Shepherd.

The above block taking it al together is only fit for a sheep run through the summer season - and but would have to be raised elsewhere for the winter.

That in my opinion the full outside value of the above Mentioned is the sum of ~~$165~~ $165 Cash free of all Conditions.

AND I MAKE THIS SOLEMN DECLARATION, conscientiously believing the same to be true, and knowing that it is of the same force and effect as if made under oath and by virtue of the Canada Evidence Act of 1893.

DECLARED BEFORE ME, at Wiarton in the County of Bruce this 3rd day November A.D. 1894

Sir

I have the honor to inclose you Report on Lot 29 on the 3rd con of the township of Burpee, as reported by Forest Ranger.

I might add to the report by saying that there is a log barn on the premises, owned by the Indians living on an adjoining Lot where they have large improvements.

I am informed that the 45 acres under improvement is first class land and the balance when being cooby makes a good run for stock, and answers as pasture land.

Trusting the information will be satisfactory

THIS LETTER HAS BEEN SENT

Ottawa 28th November 1894-

Sir-

In reply to your letter of the 14th instant enclosing Forest Bailiff Baxter's report on Lot 29, Con 8, Burpee, I have to inform you that, in view of the statements made in that report and your letter, the Department has no alternative but to insist upon the payment of the arrears, Principal and Interest, against this Lot. You will, therefore, be good enough to notify the owner, Sarah J. McKinley, that she will be given until the 1st February 1895 within which to pay the arrears, otherwise the sale will be cancelled. At the expiration of the time given you will again bring this matter to the notice of the Department.

Sir

I have the honor to inform you that Mrs Sarah Jane McKinley The locatee of lot 29 Con^n 8 Burpee called today and wants said lot Cancelled provided she can have the first right to purchase under a valuation There is only from 15 to 20 acres of this lot fit for farming purposes the balance is very shallow and only grazing Land. she has about 10 acres cleared and a large log barn on it. She says she will not pay the amount that stands against it in this office big 64^{cts} the lot is not worth it.

I am well acquainted with the lot and her statement is quite correct as herself and husband are amongst the oldest residentes in that township I trust the Dept will make such concessions in the price of the lot so that she may become the owner

Ottawa 17th November 1899-

Sir,

In reply to your letter of the 10th Instant, asking, on behalf of Mrs.Sarah Jane McKinley, that the sale of Lot No.29, Con.8,Burpee, be cancelled, on condition that Mrs. McKinley be given the first chance to re-purchase under a new valuation to be made, I have to inform you that the Department is not disposed to accede to Mrs. McKinley's request,which would be tantamount to a reduction in the purchase price of the lot,which,as you are aware, could only be done by authority of His Excellency in Council under Section 141 of the Indian Act.

I might add that,as this lot was sold for farming purposes and at a reasonable price viz:- $1.00 per acre, and as there is now a comparitively small balance of $28.89 Principal against it,together with Interest thereon, the Department will be willing,upon payment by Mrs. McKinley of a portion of this balance, to allow her a reasonable time for payment of the remaining arrears against the lot.

LAND BRANCH
MAR 31 1900

Roseneath 28th March 1900

Sir,

I enclose herewith an agreement between Caroline Beaver widow of the late David Wilkins Locatee of Location NO 29 of the Alnwick Reserve who died in April last, intestate, leaving one child only which died last summer. Mrs Wilkins got married last fall to Herbert E. Beaver also a member of the Alnwick Band and as she was poorly she sent her present husband to sign the agreement for her I enclose her paper authorising her husband to sign the agreement for her. You will see that the land is let for $20.80 of which $15.00 is to be cash and as Mr. Fanning has done a certain amount of fencing on the place we have allowed him the sum of $5.80 I was present when Wilkins agreed to pay Mr. Fanning for doing the said fencing and Mr. Fanning wanted Wilkins to allow him for the said work last spring but Wilkins said that he would rather Mr. Fanning would wait another year as he was very much in need of the money last spring. I would advise the Dept. to accept the agreement as I do not know of any other person who will take it and as Mrs Beaver (Wilkins) is in debt for funeral expenses and wants to get the matter straightened up. Kindly reply soon so that I may be able to tell Mr. Fanning. A part of the land proposed to lease is too rough to be worked at the present time.

Your obedient servant

J. Thackeray

Indian Supt
Manitowaning, Ont
Oct - 19th 1894

Sir

I have to inform you that Mr. Geo. Wyman of Kagawong has written the Dept asking if the Dept would grant him a clear title to Lot 26 Con 14, Billings, upon his paying arrears now against the Lot - He states that the owner, Thos Croft, died some 13 years ago, unmarried and consequently left no family.

Notice 9-11-94

Mr Wyman states further that he has resided continuously on the Lot since before Mr Croft's death and has made improvts more than req'd by the Dept. You will, therefore, be good enough to report fully upon this matter at as early a date as possible and state what improvts have been made upon this Lot & by whom made, who is in occupation and whether you would recommend

THIS LETTER HAS BEEN SENT

Ottawa 20th October 1894-

Sir,

In reply to your letter of the 15th instant I beg to return the Deeds of sale which accompanied the same and to inform you that the same cannot be registered by the Department, nor can they be registered in the Registry Office for the County of Quebec as the land forms part of an Indian Reserve.

I may add that Transfers of this nature should be discouraged by you, as they are conditional in their terms. Of course, there can be no valid objection to exchanges made by Indians of their land when land for land, but they should be passed upon by the Indian Council and you should keep a record in your Office of each Indian Holding on the Reserve and note any such transfers therein.

Your obedient servant

Acting Deputy Superintendent General
of Indian Affairs-

THIS LETTER HAS BEEN SENT

Ottawa 14th December, 1894.

Sir,

I am in receipt of your letter of the 6th instant, returning the accounts in favour of D.W.McDonald ,T.C. Howard & Co., and others for lumber, provisions, etc furnished to Indians of the Georgina Island Band ; and in reply I have to request that you will be good enough to advise me as to the purpose for which the lumber and nails were purchased and as to who received the provisions. If the latter were given to destitute Indians ,an acknowledgement from them of the receipt of the same should be sent to the Department .

As regards the explanations offered by you in regard to unauthorized expenditure ,I beg to state that you should notify the Indians under your charge that no expenditure of any kind should be made without consulting you ,and you should submit all proposals of this nature to the Department for authority .

Your obedient servant.

THIS LETTER HAS BEEN SENT

RETURN TO CORRESPONDENCE BRANCH

Ottawa 22nd October 1894

Sir,

I have the honor to inform you that the Indians of the Aux-Sable and Kettle Pooint Reserve fronting on Lake Huron have asked to be informed regarding the following points, and to request you to be kind enough to advise the Department as to how to reply to them:-

Viz 1 What salvage they are entitled to for saving property washed ashore during storms and claimed by the owners.

2, Whether white men have any right to go upon the Beach in front of the Reserves and remove property which has been washed ashore.

3, What right the Indians have to unclaimed property thrown upon the beach in front of their Reserves

4, Whether white men have any right to fish in waters fronting on their Reserves.

Your obedient servant,

Acting Deputy Superintendent General
of Indian Affairs

E.L. Newcombe Esq.,
Deputy Minister of Justice,
Ottawa.

Indian Affairs. (RG 10, Volume 2773, File 155,009)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

of such vessel and all parts of the vessel separated therefrom, and also the property of shipwrecked persons (Section 2).

The questions submitted ~~[illegible]~~, and the answers which I would give to them respectively are as follows:-

1. What salvage are the Indians entitled to for saving property washed ashore during storms and claimed by the owner?

Ans. If the property is "wreck", persons rendering services in saving it are entitled to be paid by the owner a reasonable amount of salvage including expenses properly incurred (Section 43), and the Act provides a procedure for the investigation of and adjudication upon claims to salvage. If the property is not "wreck", such persons would seem to be entitled only to their reasonable and necessary expenses for preserving and keeping the property.

2. Whether white men have any right to go upon the beach in front of the reserves and remove their property which has been washed ashore?

Ans. If the property is "wreck", the persons having a claim to salvage may by taking the proceedings prescribed by the Act secure its detention until their claims are satisfied. If it is not, the owners have the right

Indian Affairs. (RG 10, Volume 2773, File 155,009)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

right to demand it, and to recover it or damages for its retention or conversion if it is not delivered up. They should, therefore, be suffered to go upon the beach and remove the property upon proving ownership. Those who may have found or saved it have no lien for expenses but may recover them by action in the ordinary way.

3. What right the Indians have to unclaimed property thrown upon the beach in front of the reserve?

Ans. Wreck belongs to the Crown subject to the claim of the owner and the salvor. The Wrecks and Salvage Act (Section 31) provides that if the owner establishes a claim to wreck before the expiration of a year from the date at which the same has come into the possession of the receiver, the wreck (if not already sold under the provisions of the Act) to be sold by such persons and in such manner as the Minister of Marine & Fisheries directs, and that the proceeds, after payment of expenses, costs, fees and salvage, are to be paid over to the Minister of Finance and Receiver General to form part of the Consolidated Revenue Fund of Canada. The finder of property which is not wreck has a special property therein which he can maintain in the courts against anyone else than the true owner, and from anyone but the owner he can recover damages for the taking and conversion of the property. He is bound, as I have said, to deliver it up to the true owner

on

Indian Affairs. (RG 10, Volume 2773, File 155,009)
PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

on demand. Of course, the Statutes of Limitation run in his favour, and if the owner does not bring an action within six years, his right to do so is lost.

4. Whether white men have any right to fish in waters fronting on the reserve.

Ans. If the Indians have by the express terms of the reservation an exclusive right of fishing - no. If not, it is considered better not to give an answer to this question until the Fisheries case now pending before the Supreme Court is disposed of.

I have the honour to be,

Sir,

Your obedient Servant,

E. L. Newcombe

Deputy Minister of Justice.

P.S.

None of the above answers are intended to cover the case of property other than wreck within the meaning of the Statute for services in saving which Courts of Admiralty may award salvage.

DEPARTMENT OF INDIAN AFFAIRS
NOV 9 1894

Ottawa, 2 November 1894

Sir,

I have the honour to acknowledge the receipt of your letter of the 22nd ultimo (39/604/2ty) submitting for opinion certain questions raised by the Indians of the Aux Sable and Kettle Point Reserve fronting on Lake Huron as to their rights to property washed ashore upon the reserve.

In reply, I beg to state that these rights will vary according to the character of such property. If it is "wreck" within the meaning of the Wrecks and Salvage Act (R.S.C., c.81), the rights of persons who render services in saving the property are those fixed by that Act. If otherwise, they are such as are fixed by the common law. I should point out that, under the Act referred to, the expression "ships" includes every description of vessel used in navigation not propelled by oars, the expression "vessel" includes exery description of vessel used in navigation, and the expression "wreck" includes as well the vessel itself, the cargo, stores and tackle of

CANADA

The questions submitted to the Department of Justice and the answers given to them respectively are as follows:-

1. What salvage are the Indians entitled to for saving property washed ashore during storms and claimed by the owners?

Ans. If the property is "Wreck" persons rendering services in saving it are entitled to be paid by the owner a reasonable amount of salvage including expenses properly incurred (section 43), and the Act provides a procedure for the investigation of and adjudication upon claims to salvage. If the property is not "Wreck", such persons would seem to be entitled only to their reasonable and necessary expenses for preserving and keeping the property.

2nd. Whether white men have any right to go upon the beach in front of the Reserves and remove their property which has been washed ashore?

Ans If the property is "Wreck", the persons having a claim to salvage may by taking the proceedings prescribed by the Act secure its detention until their claims are satisfied. If it is not, the owners have the right to demand it and to recover it or damages for its retention or conversion if it is not delivered up. They should, therefore, be suffered to go upon the beach and remove the property upon proving ownership. Those who may have found or saved it have no lien for expenses

" expenses but may recover them by action in the ordinary
" way.

" 3. What right the Indians have to unclaimed
" property thrown upon the beach in front of the Reserve?

" Ans Wreck belongs to the Crown subject to the
" claim of the owner and the salvor. The wrecks and Salvage
" Act (Section31) provides that if the owner establishes a
" claim to wreck before the expiration of a year from the
" date at which the same has come into the possession of t
" the receiver, the wreck(if not already sold under the
" provisions of the Act) is to be sold by such persons and
" in such manner as the Minister ,xfxax of Marine and
" Fisheries directs, and that the proceeds, after payment of
" expenses, costs, fees and salvage, are to be paid over to
" the Minister of Finance and Receiver „eneral to form part
" of the Consolidated Revenue Fund of Canada. The finder of
" property which is not wreck has a special property there-
" in which he can maintain in the courts against anyone
" else than the true owner, and from anyone but the owner
" he can recover damages for the taking and conversion of
" the property. He is bound, as I have said, to deliver it
" up to the true owner on demand. Of course, the Statutes of
" Limitations run in his favour, and if the owner does not
" bring an action within six years, his right to do so is
" lost.

" 4. Whether white men have any right to fish
" in waters fronting on the Reserve.

" Ans

DOMINION OF CANADA,
COUNTY OF Bruce
TO WIT:

In the Matter of Lot 31, Con 1, E.B.R. Eastnor County of Bruce - Province of Ontario

I Henry Grant, of the Town of Wiarton in the County of Bruce Forest Bailiff

DO SOLEMNLY DECLARE that I have carefully examined Lot 31, Con 1, E.B.R. Eastnor in said County and Province - and see that the fire has run over the whole lot with the exception of about ten acres about the center of the lot - just a patch for firewood - There is about 75 or 80 acres solid rock - the rest of the lot is low and wet and the soil sandy - and in places shallow - leaving about 15 acres of a good depth of soil. but not fit for a man to live on, or make a living on - so it can not be classed as farming land, and that I Consider the sum of $45.00 cash is a just fair price for the land free of conditions.

AND I MAKE THIS SOLEMN DECLARATION, conscientiously believing the same to be true, and knowing that it is of the same force and effect as if made under oath and by virtue of the Canada Evidence Act of 1893.

DECLARED BEFORE ME, at Wiarton in the County of Bruce this 24th day November A.D. 1894

DEPARTMENT OF INDIAN AFFAIRS
APR 19 1897

Sir.

In reply to your letter of the 14th inst. No. 155.056. I beg to inform you with reference to the appointment of Indians as Constables, I did not for the present intend that any pay should be attached thereto. My reasons for the appointment was that the Law relative to intemperance amongst a few Indians, at stated times, might be better enforced and that in case of Convictions the men to be paid for their Services from that Fund. Foreign Revenue is peculiarly situated, for instance it is three Miles from Revenue to Perth, and Andover, where Gaol is situated. it is at these places where Indians do most of their trading. Rem. &c. is sold at these places Opened under by Licensee, therefore as the Officers of the Law, give no help to intoxicated Indians at this place. and as they return to their Reserves in an intoxicated State, and give great Annoyance to 3/4 of Band who are both temperate and respectable is the sole cause of Application. My experience with Indians of this Class are that you must resort to harsh Measures, to Compel him to tell from whom he gets his liquor. Consequently if the men asked for would act faithfully in this matter, Affairs of this Nature would be Suppressed.

I am Sir
Your Obedt Servt.

Sir:-

I have the honour to acknowledge the receipt of your letter of 17th instant and in reply to inform you that there would not appear to be any objection to the appointment of constables to be remunerated in the manner proposed by you, but they would have to run the risk of securing convictions of fines instead of imprisonment being imposed as penalty- and of such fines being paid-or collected.

If reliable men will accept office on such terms you should subrit their names to the Department in order that commissions as Dominion Constables may be obtained for them.

Extd

Ottawa, 9th July, 1902.

Sir:-

I beg to acknowledge the receipt of your letter of 7th instant transmitting a letter addressed to you by Mr. F. Lockwood, the recently appointed constable at Tobique Reserve, in which he asserts that the Band when offering him the appointment promised to furnish him with clothing in addition to a salary of $15.00 a month.

In reply I have to point out that no mention of clothihg was made in the minute of council referring to his nomination transmitted by you on 7th May last, so that if the Band did promise clothing a new resolution must be adopted authorizing its purchase from their funds.

The Department, however, is of opinion that it would be more satisfactory to all concerned if the Band were to authorize by resolution some increase of the amount of salary in lieu of clothing, that is if they promised the latter as asserted, and it be considered of importance to have Lockwood retain office.

DEPARTMENT OF INDIAN AFFAIRS
JUN 20 1904

Commissioner Indian Affairs
Asst-Sec
Ottawa

Sir, I write to lay before you a matter of some importance to the Indians on the Tobique Indian Reserve; and to get some information. Two years ago the band thought it to be desirable to have a Policeman and I was elected to that office at a council meeting and my appointment was confirmed at a subsequent meeting for the second year - A salary of 15$ per month was paid me.

This spring the majority of the Indians decided that a policeman was unnecessary and the money would be better applied to the relief of the poor widows and orphans in the village. Upon understanding this I resigned my office

The priest stationed there Father Cottlen has appointed a policeman James Deboo and says he has the power to do so and that his constable will get the same pay as I got. —

The Indians do not want him or any other policeman and think it is unnecessary to have one and that the money should go to the poor

What I want to know is if the priest has the power to appoint a policeman under salary from the department and if ~~ed~~ Deboo is getting paid - If there must be a policeman the Indians claim the right to appoint him but he dont want me. I would request an answer to this question Yours truly Thomas Lockwood Chief

A meeting of ~~Council of~~ Indian Band
Tobique Indian ~~affairs~~ reserve was called to
Consider appointment of James Bebos
as policeman June 16th at 8 p.m.
It was decided by a vote of twenty
qualified members of Band that it was
not desirable to have any policeman
and that Debos being a Frenchman and
not being a member
of the band was not a proper person
for the office and the band should have right to select policeman
Only three voted in the negative
The meeting requested me to lay the
action before the Government
Dated June 16th 1904

Frank Lockwood
Chief

The following voted in favor of the above motion
Peter Tomis, Frank Solis Joe Moulton, Noel Paisley Alex
Lockwood, Michel Sapier Chas Nicolas Peter Francis
Louis Bear Joe Stephen John Moulton Frank Louis
Nelson Ellis Stephen Ellis Peter Alexander Wm Laporte
John Alexander Peter Thomas Joe Bromley Tom Bromley Mad
Joe, Joe Ellis Joe Alexander Frank Michel, John Foster
The following voted against Frank Francis, Noel Bear, Alex

Dear Sir

My attention has been called by Rev. Mr Courtlean to a letter I wrote for Frank Lockwood on 16th inst. in regard to the appointment of a policeman at the Indian point

From the fact that I wrote the letter and I think on my office letter paper he thinks it may be taken that I sanction or approve the statements contained in it.

I wish to say that I was merely the scribe putting as nearly as possible the words ~~the~~ Lockwood dictated As I often do write letters for various Indians on all sorts of subjects I personally know nothing whatever of the facts and circumstances mentioned in the letter and have no reason for believing the the clergy stationed at the point interfere in any way with the affairs of the band I wrote what Lockwood wanted written simply and do not wish to be taken as warranting his statements or as personally holding an opinion on the subject whatever

Yours truly Thos Lawson

File No. 155,058-

260702

DEPARTMENT OF INDIAN AFFAIRS
JUL 2 1904
RECEIVED

Fredericton N.B. 30th June 1904.

Sir

I have to acknowledge the receipt of your letter of the 22nd inst. and two copies of a report to the Department by Chief Lolahcwood - relative to the appointment of James Debow as Policeman for the Tobique Reserve N.B. Inquiry, I beg to inform you, that Jas Debow's Mother is a full blood Indian Woman, that is married to a French Man and formerly lived at Woodstock N.B. James Debow is a Member of the Tobique Band for several years past. Has always attended Meetings of Council. Voted at Septs and was always recognized as a Member of Band, even by those impleading the Chief, who have now opposed to him. He is Married to an Indian Woman at the Point. Has a Log house, is a Sober and an industrious Indian and a Man that will not shirk his duty. For this reason the Meeting of Council referred to, was called. And as said Meeting was attended by some of Band that are Common Drunkards. it was not in their interest to have a Man that would do his duty on Reserve appointed to the position. Moreover I can show that Several names on the list sent are forgeries as I have the proof in this Office.

Regarding the 2nd and 3rd paragraphs of report both are false. as there was no Meeting of Band to dispense with the Services of a policeman, and as for the Chief appointing a policeman, that is not only an impertinent falsehood. He may have advised the Indians to select a good Man for the job. in the best interest and welfare

J.

260702

of Band. and the Suppression of much intemperance amongst a Certain Class, also in behalf of their often Suffering families in consequence of their drunken habits, how to show how better the Chiefs of Indians are and how the Chiefs should be by them. I have to remark that since the Receipt of your letter of the 10th instant, No 155,058 I wrote the Chief to hand over to James Bebee his Patton and other articles, and to send Me his Commission to be returned to Department and up to the present Hey Appeal has been unheeded by this Compels Me to further remark that the Mode of electing a Chief every three years is a Mistake especially in this Suspension, for he may be one or two Manoeuvering in one way and another a good worthless Individual may be elected Chief, in preference to the same Man on the Reserve in fact if a good Man was selected as such, it is My Opinion he Should be Continued as such during good behaviour.

In Concluding this Report. I further beg to enclose you, a list of Sober and law abiding Indians that appear by James Bebee as policeman also a list of names that are on the Chiefs list that Claims that he had no authority to use in this Report. Also a letter in connection with this Matter. from Mr. Thos. Lawson, that was read this Morning.

I am Sir
Your Obedt Servt.
James Farrell

Ottawa, 7th July, 1904.

Chief.-

I have the honour to acknowledge the receipt of your letter of 16th ultimo relative to the appointment of Mr. James Beboe as police constable for the Reserve and in reply to inform you as follows:-

You are grossly mistaken in supposing (if your assertion to that effect is made in good faith) that the resident priest made the appointment.

The Department does not recognize any right upon the part of a Band to select their constable, although it is always willing to give proper and reasonable weight to any recommendation from the Band relative to such matters.

In the case in point the appointment was made by the Department under the belief which it still retains that it would be acceptable to the bulk of the members who really desire the maintenance of morality, law and order on the Reserve.

I

Chief Frank Lockwood,
Tobique Indian Reserve
Care of James Farrell, Esq.,
Indian Superintendent
Fredericton, N.B.

D.C.

Indian Affairs. (RG 10, Volume 2773, File 155,058)

I may add that the Department has evidence to show that several of those members whom you assert to have voted in favour of the resolution to do away with the office of constable transmitted by you,neither voted to that effect nor authorized their names to be used in any way in support thereof, and the Department can only hope that your assertion that they did vote in favour of the resolution is founded upon confusion or misapprehension,as otherwise the misrepresentation would be a very serious matter.

Your obedient servant,

(Sgd) L. D. Mol.

Sir:-

I have the honour to acknowledge the receipt of your letter of 30th ultimo, and inclosures, reporting on the allegations made by Chief Frank Lockwood of the Tobique Band relative to the appointment of James Debee as police constable for the Reserve, and in reply to transmit herewith for your information a letter addressed to the Chief which you will be kind enough to send on to him after perusal.

Moreover you will be good enough to inform him that if he does not return the commission etc, with which he was furnished, steps will be taken to compel him to do so

Oaths of allegiance and office subscribed to by the new constable are returned herewith in order that the former may be attested by the magistrate.

With reference to what you say about the system of election of Chiefs, I may remind you that under the provisions of the 75th Section of the Indian Act, any Chief or Councillor can be deposed for misconduct or incompetency, a fact which you may if necessary remind Chief Lockwood.

Chatham N. B. 27th August 1904.

263843

Sir.

In reply to your letter of the 10th June last. relative to the Appointment of James Debee. as Constable for Tobique Reserve N. B. I beg. to inform you, that Debee after serving faithfully as Constable for the Months of June and July. past. has tendered his resignation for the reasons set forth in his Note attached. This is to be regretted for during the time he served he established peace and good order amongst a Certain Class of Indians, who were Much opposed to his Appointment from the beginning. To replace Debee as Constable will be a difficult Task. as Most Indians are unfit for Several Reasons, for a position of this Kind.

I am Sir
Your Obedt Servt.
Jas. Farrell

Ex'd.

Ottawa, 1st September, 1904.

Sir : -

Referring to your letter of the 27th ult., inclosing a letter from James Deboe resigning the position of Dominion Constable; I have to inform you that the Department regrets that Deboe cannot see his way to continue to hold the position for the salary allowed,- $15.00 per month,- as this is the most that can be paid for the services of a constable at Tobique.

One of the reasons given by Deboe for resigning is that he had not been supplied with handcuffs or a baton: this matter could now be made right by you, as, in your letter in which you return the Commission issued to Frank Lockwood, you state that you had received from him the handcuffs and baton which had been supplied to him. If Deboe will not withdraw his resignation, it is hoped that you will shortly be able to submit to the Department the name of some other good man to perform the duties of constable.

Your obedient servant,

J. D. McLean

Secretary.

Sir.

In reply to your letter of the 1st inst. I beg to inform you, that during a recent visit to the Lake Superior Reserve I induced James Revoe to reconsider his resignation as Policeman, and again accept the position, his duties to commence the 1st of October next. at the usual Salary. to day I have expressed to him the Button. Hand-Cuffs &c. as Revoe has proved himself to be a good Officer in enforcing Law and Order - Amongst Certain Members of the Band. during the seven Months he was on duty. I have to recommend that his reappointment be approved of. Should My Suggestion Meet with your approval. Please Telegraph him his Commission. -

I am Sir.

DEPARTMENT OF INDIAN AFFAIRS
JUL 9 1906

Shediac N.B. 7th July. 1906.

Sir. I beg to inform you that Michael Paul. Appointed Constable on the 12th March last. for Kingsclear, St Marys, and Oromocto Reserves, N.B. has left the limits by going to the States. I therefore collected the Warrants in his case before leaving. Now as it is pretty hard to find an Indian that is of Much Service to act faithfully and Leadlessly as a Constable. as Paul did. Most of his time at the Kingsclear Reserve where a Constable is seldom Needed, or Neither is there Much call for a Constables Service at Oromocto Reserve, this I generally if there is any Trouble or disagreements, have. I do Myself. But where a Constable is Most Needed is at the St Marys Reserve, and without Chanteling you to Much, there is one Man Living on this Reserve, that I would like to give him a Trial as Constable, for this Place and for other. His Name is Stephen Meuse. He is an intelligent, Active, Temperate and well informed man. And I am Satisfied if Appointed, White Men Living the Reserve but Irregular hours would See as well as other Parousals presented. I further Suggest this for the reason that Town Policemen, are Not allowed to leave their beat by order of the Town. Aldermen Whitst on duty.

I am Sir.
Your Obedt Servt.

to you or to those in
charge of the Indian
Department it would
be that you retain
the present mounted
other reliable Indians
as Police at St Mary's.
The good order that has
prevailed since last
fall amongst the
Indians and the peace
that our village has
enjoyed during that
time must certainly
be attributed to the
influence of the present
Indian policeman. While
our Reserve is not as
large as others in the
Province still the duty

INDIAN AGENT'S OFFICE,

Fredericton N. B. 31-8949

October 22nd 1907.

IN YOUR REPLY REFER TO
No.
ALSO
TO DATE OF THIS LETTER.

Ref.: Your Letter ——— 190 No.

SIR:

I beg to inform you that on the 1st Inst. I Suspended Police Officer Solomon Brooks from duty. that on or about that time the Revd J. J. Ryan of St Marys called on Me and Requested that Stephen Messie a former Police Constable at this St Marys Reserve N. B. be Reappointed Constable Messie. Since his Suspension in Spring last has behaved Very Well. He Since above has not known to taste any Kind of intoxicants. I therefore in the interest of peace and the Suppression of Vice amongst a few of this Indian Bands. Appointed Mr. Stephen Messie a Special Constable for this Reserve for this October 31st Inst. and until you will be good enough to Reappoint him as Police Constable.

I am Sir.
Your Obedt Servt.

Draft

Hxd.

Ottawa, 24th Oct., 1907.

Sir,-

Herewith I enclose commission issued to Solomon Brooks as constable for the St.Mary's and Oromocto Indian Reserves, N. B., whose resignation is asked for by the Indian Agent owing to Brooks's being intoxicated on more than one occasion recently. The Indian Agent recommends that Stephen Mussie, who formerly filled the position of constable on these reserves, be given another trial.

I have to request, therefore, that you will be good enough to issue a commission in Mussie's name.

To The
Department of Indian Affairs, Ottawa

As you are aware my salary as constable on this Reserve is only $24 per year. Now this is nothing compared with what is received in other places and where they have jails on the Reserve. When I make an arrest I have to go to the city and often get my clothes all torn. This is one of the hardest Reserves in the Province

To keep order on. as it is 3272.1 near
the [redacted] and strangers come and make
trouble. Very often I am out the
greater part of the night, and I
cannot go away to work as I must
be on hand when needed. I
think I am entitled to my clothes
as in other places. I would like
to have a badge as the one for
this Reserve was lost by the man
who was appointed before me.
Now—I would like to have my
salary raised. Since my appointment
there has been much better order on
the Reserve. There are many who can
bear me out in this. I hope you
will be able to increase my pay.

Yours Respectfully
Stephen Muise
Constable.

[redacted] Reserve N.B. 7th May 1908.

Sir.

I have to acknowledge the receipt of your letter of the 4th inst. relative to Constable Meisis appeal to Department for an increase of Salary and your request for My report in this Matter. In Reply I beg to report that St Marys Band at least a few of them. owning to the Situation of Reserve is the most troublesome of any Band in My Agency, imagine the Reserve Surrounded in on one Side by the Boom Companys Works. and a Rum Shop - and on the other Side by a Saw Mill. where at Many times are Fighting. Again you have to Contend with a Rough element of the St Marys, and Gibson Villages. Why there is hardly a week passes. but an arrest Must be Made for Drunkenness. it is only about 10 days ago. an arrest was Made of a White Man. Indian from Chatham N.B. and the week before two of Band came out of Gaol after Serveing 30 days. in that Hotel. These Men as a Rule are arrested on the Reserve. and have to be Conveyed Sometimes by two or three Men to the City Lockup. often resisting the whole way a distance of on or about a Mile & further have to State that on every arrest before their Trial I visit them in the lockup to ascertain if possible Where and from Whom they got their Liquor. but owing to their Cowardly Nature they will not disclose. I therefore Knowing that Meisis at all times discharges his duties faithfully and that for the work he performs. and the peace Maintained, he is deserving at least $10.00 per Month.

I am Sir

Ottawa, November 7, 1908.

Sir : -

I have the honour to acknowledge the receipt of your letter of the 5th instant and of the communication from the Chief of Police, Fredericton, inclosed therein, in which a recommendation is made that a uniform be supplied to Stephen Muise, Constable on the St. Mary's reserve.

In reply I have to say that it is not customary to furnish uniforms to Indian constables and no provisions have been made for their purchase. Applications have been received for uniforms from constables in other districts and if Muise's request were granted the Department would require to be prepared to issue uniforms to many other constables who would press their claims for like treatment. It is thought that the badges supplied to constables should furnish sufficient evidence of their authority to act in that capacity.

Under the circumstances mentioned the Department regrets that it is unable to favourably consider the application made on Muise's behalf.

Your obedient servant,

D. Sinnott

Sir

I have the honour to State that I wrote James Kennedy on the 9th of November relative S ½ Lot 39 Con 8 informing him that you instructed that he should pay 40$: he wrote me on the 16 of same month that he expected a Chess Cheque and would settle later on the Grass he came and seen me and then did not make a payment as the factory had not paid him. I wrote him on the 21st ultimo relative his promise. He came and seen me to day and stated that he could not pay ~~inside~~ before the first day of October. He seems an honest man and considering the hard times I think it will be safe to grant his request and would recommend you to do it.

Department of Indian Affairs,

Ottawa, 16 Jany 1896

MEMO. Sale

S½ lot 39 Con 8, Tyendinaga was sold 7th Jany. 1869 to James Kennedy in whose name it stands but now owned by Kerr

225 Time

Jany Kerr to be cut to assume

20% added $13.60 $81.60

Balance date of Sale 26.00

Bal. Princ- due $55.60

and int. @ 6% from 29 Sept 1880 date of Sale.

Regular notices were sent for Jany. 1889-90-91 & 94-

In letter of the 5th Nov. 1894 the Agent was requested to notify the owner, James Kennedy, that he would be given until the 1st Jany 1895 to pay at least $40. of the bal. against this lot and the 1st of May 1895 to pay the remainder. In reply the Agt stated, in letter of the 9th March last, that he notified Mr Kennedy as instructed, that he came to see him (agent) but could not make a payt. The Agt further states that on the 21st April he wrote Kennedy again who called and stated that he could not pay before October. This the Agent recommended-

Department of Indian Affairs.

Ottawa, ... 189....

MEMO.

Next, in letter of the 15th March last Indn Agent Eyers was informed that the time would be extended to 1st Oct 1895, as recommended by him and, in letter of 7th of Oct. the Agt wrote stating that he had written McKennedy twice and adds that he knows the farmers are having a hard time this Summer, that many of them have had to drive their cattle 3 to 5 miles for water.

Again, in letter of the 5th Ult. the Agent was requested to furnish a full report of this lot stating what improvts were made; the kind and extent of timber thereon whether the lot is occupied and whether he would now recommend Cancellation of the sale.

In reply the Agent states, in letter of the 31st Ult., that there is no regular road to this lot; that there is considerable tamarack and second growth of maple on it; but it is not occupied. He says that

Indian Affairs. (RG 10, Volume 2774, File 155,110)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Department of Indian Affairs,

Ottawa, ... 189___

MEMO.

that Kennedy wishes to keep the lot and promises not to cut any of the valuable timber this winter.

The agent recommends that Wm. Kennedy be allowed the lot for $100.00 and allowed to 1st June 1896 to pay this amount, but if not paid then cancel the sale

Submitted what action be taken by the dept., under the circumstances.

A.E.K.

Dept. thinks the last plan Simon can make reduction, but the reasons given are not sufficient to warrant the same. Should be submitted with better reasons given or the sale cancelled.

Special letter 11-5-96

Ottawa 1st April 1896-

Sir-

I beg to inform you that Mr. James Kennedy has not yet made the further payment in reduction of the arrears against the S½ of Lot 39, Con 8, Tyendinaga, although several notices have been sent him and the time for payment has been frequently extended.

I may say that the Department is at present making a special effort to have all sales of so long standing on the Books closed out at as early a date as possible, but, in view of the facts as stated by you, in letter of the 19th October last, that the crops in Tyendinaga were unusually light last harvest, you may inform Mr. Kennedy that the Department will accept a payment, however small, in reduction of the arrears against this property as a guarantee of good faith, when further time will be given him for payment of the remainder. Should Mr. Kennedy fail, however, in this it will be necessary for the Department to cancel the sale and dispose of the land, with whatever improvements there may be made upon it, to some other purchaser.

THIS LETTER HAS BEEN SENT

Ottawa 27th July, 1896-

Sir,

In reply to your letter of the 23rd Ultimo, advising the Department to offer the S.1/2 Lot 39, Con.8, Tyendinaga, to the owner Mr. James Kennedy, for $100.00, without Interest, I have to inform you that, in order to do this it would be necessary to submit the matter to His Excellency in Council, for authority to make any reduction either in Principal or Interest, against the ~~Sale~~ property. As there is, at present, a balance of $55.60, Principal, and $52.26, being Interest thereonfrom 29th September, 1880, to 29th July, 1896, or a total sum of $107.86, the acceptance of $100.00 in full payment of this half lot would show a difference of $7.86 in favour of the purchaser. If, therefore, Mr. Kennedy would be willing to pay $100.00 for his Patent, the Department is of opinion that, in view of the fact that Mr. Kennedy has had the use of the land for over 26 years, he should be willing to pay the additional $7.86 now against the Lot.

Ottawa 3rd August, 1880-

THIS LETTER HAS BEEN SENT

Sir,

In reply to your letter of the 31st Ultimo, relating to the S. 1/2 Lot 39, Con. 8, Tyendinaga, I have to inform you that this half lot stands on the Books of the Department, in the name of James Kennedy, as follows:-

85 Acres @ 80 Cents per acre	$68.00	
20 % added	13.60	81.60
Paid at date of Sale (7th Jan, 1869)		26.00
Balance Principal due ----------		55.60

and Interest thereon @ 6 % from the 29th September, 1880,

I may state, for your information, that the 20 % referred to above, was added by an arrangement made between the Settlers in Tyendinaga, and the Department, in lieu of the remission of Interest from the date of Sale to the 29th September, 1880. As Mr. Kennedy was one of the Settlers, who participated in this arrangement, the Sale would, therefore, stand as herein stated, and as referred to in letter of the 27th Ultimo.

MEMORANDUM.

Ottawa 17thFebruary 1897-

6
225

The South 1/2 of Lot 39,Con.8,Tyendinaga Township, containing 85 acres was sold on the 7th January 1869 to Mr. James Kennedy for $81.60 upon which he paid at time of sale $26.00. After considerable correspondence with the Local Agent,Mr.Egar of Deseronto,in relation to an application by Mr.Kennedy for a reduction in either interest or principal and in view of an application to purchase this half lot,Mr. Agent Egar was advised on the 9th September last to notify Mr.Kennedy that unless payment of the whole or at least the greater portion of the arrears of principal and interest was made by the 15th October 1896,the sale of the lot would positively be cancelled,and the land including the improvements disposed of to another purchaser. In accordance with the requirements of this letter,Mr.Kennedy on the 8th October 1896 paid $20.00 on account. The lot therefore now stands in his name with a balance of principl in arrear of $45.35,upon which interest is to be paid at 6 per cent from 29th September 1880 .

5
96

The North 1/2 of Lot 35,Con.8,in the Township of Tyendinaga, 100 acres was sold on the 16th June 1883 to Mr.James Kennedy for $148.00 of which $48.00 was paid at date of sale. Notices were sent Mr.Kennedy calling for payment of arrears in 1889, 1890,1891,1893 and 1895,but nothing was paid by him and accordingly on a report of the local Agent the sale was duly cancelled on the 6th August 1896,and Mr.Agent Egar advised thereof and informed that he could dispose of the land to the person who would give the most therefor over and above $100.00 cash,the land without any conditions as to settlement and the timber free of dues. No sale of this lot has as yet

Indian Affairs. (RG 10, Volume 2774, File 155,110)

To Wit: } Re. S½ 39 in 8th Con. Tyendinaga

I, William Robert Aylsworth of the city of Belleville, Ontario Land Surveyor, make oath and say:

1. That on the 8th day of April 1897 I went near the south half of lot No 39 in the 8th Concession of Tyendinaga but I could not travel over it on account of the water.

2. That as far as I could see it consists of a swamp, in places boggy, timbered with a growth of small Tamarac & Poplars

3. That I was told there is a spot on it called the Island of some 12 or 15 acres partly grown up with a second growth of hardwoods.

4. That there are no improvements upon this half lot which is supposed to contain about Eighty acres and I think it is of no value except for the small timber upon it which it is said would have been stolen before this if Mr Kennedy had not protected it.

5. That this half lot can only be travelled when the water is low about September or when the ice is strong; and from what I heard and saw I think this half lot is not now worth more than Mr Kennedy says he has already paid on it, namely, forty ~~six~~ dollars.

Re. N½ 35 in 8th Con. Tyendinaga

County of Hastings
To Wit:

I, William Robert Aylsworth of the city of Belleville in the County of Hastings, Ontario Land Surveyor, make oath and say:-

1. That pursuant to request in letter dated 31st March 1897 No 155110 from the Department of Indian Affairs, Canada I drove out on the 8th day of April instant and examined the North half of Lot number Thirty-five in the Eighth Concession of the Township of Tyendinaga in possession of Mr James Kennedy.

2. That I found said half lot fenced round, in some places by a rail fence in fair repair and in other places by a brush fence no good. There is a little field on the south east corner containing about three-fourths of an acre under cultivation and that is the only part of said half lot fit for cultivation - the balance consists of hills, knolls, valleys and swales covered with rocks or paved with stones and boulders too many and too large to be removed.

Different patches, in all about forty acres, of the hills, knolls and swales are timbered with a second growth of Elm, Maple, Cedar, Tamarac, Poplar & Thorn mostly too small for use and the remaining

Indian Affairs. (RG 10, Volume 2774, File 155,110)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

185524

remaining sixty acres, cleared years ago, are now pasturage.

There are no buildings of any kind on this holz lot.

Mr Kennedy lives on the south holz.

3. That the only improvements on this holz lot consist of the said little field, stones drawn off and fences; and the rail and brush — fences enclosing the holz lot and it will take about all the timber large enough now upon it to replace the said old brush fence. and

4. That this holz lot is only of value for grazing purposes and poor for ~~that~~ purpose and I think one dollar per acre is all it is worth now.

$1.00 P.a

Ans

Sir:-

Enclosed I beg to hand you my affidavits on the valuation of the South half of Lot No 39 and the North half of Lot No 36 both in the 8th Concession of the township of Tyendinaga as Rice for by Letter No 155 110 dated 31st March last.

The usual fee allowed $5 00/100 for the examination and affidavits is satisfactory but I paid Two dollars for rig to drive out there and back hence I suppose Seven dollars is a reasonable charge.

I have the honor to be,
Sir:
Your obedient Servant.
Wm. R. Aylsworth

MEMORANDUM.

Ottawa 21st April, 1897.

With reference to Mr.W.R.Aylesworth's letter of the 17th Instant, relating to the valuation of the S.1/2 of Lot 39, and the N.1/2 of Lot 38, both in the 8th Concession of Tyendinaga, I beg to state that Mr.Aylesworth reports with reference to the S.1/2 of Lot 39, that as far as he could see it consists of swamp, timbered with a growth of small tamarad and poplar - that there is a spot on this land called the Island, containing some 12 or 15 Acres which is partly grown up with second growth of hardwood - that there are no improvements upon this 1/2 Lot - that he thinks it of no value except for the small timber thereon - that the lots can only be travelled over when the water is low in September, or when the ice is strong - that he thinks the 1/2 Lot is not now worth more than what Mr.Kennedy, the owner, claims to have already paid upon the land, viz. $10.00.

As to Standing of the Lots see Minute of 17. July last

In view of the above facts, the undersigned would recommend that the matter be submitted to His Excellency in Council, in accordance with Section 141, of the Indian Act, as ~~xxxxxx~~ enacted by 58 - 59 Vic. Chap. 35, as amended by Section 8, for authority to reduce the price of this land to $10.00, ~~and upon obtaining such authority that the land without any conditions as to settlement.~~ a Patent be granted to Mr. Kennedy under Section 6 of the Regulations of the Dept.

As to Standing of the Lots also Minute of 17. July last

With

A.E.K.

H

With reference to the N.1/2 Lot 35, Mr. Aylesworth reports that he found this 1/2 Lot fenced around, in some places by a rail fence in a fair state of repair, and in other places by a brush fence of no value - that there is a little field on the S.E. corner, about 3/4 of an acre, under cultivation which is the only part of this 1/2 Lot fit for cultivation - the balance consists of hills, knolls, valleys, and swales covered with rocks or paved with stones and boulders, too many and too large to be removed - this part of the Lot is timbered with a small growth of elm, maple, cedar, tamarack and poplar, mostly too small for use - about 60 acres cleared years ago, are now in pasture - no buildings of any kind on the property - Mr. Kennedy lives on the S.1/2 - the land is only of value for grazing purposes, and poor for that - $1.00 per acre is all it is worth.

In view of the above statements made by Mr. Aylesworth under oath, I would recommend that this 1/2 Lot be offered to Mr. Kennedy, at Mr. Aylesworth's valuation, viz. $1.00 per acre, the land without any conditions as to settlement, and the timber free of dues, plus $7.00 claims for expenses in connection with the valuation thereof.

The original Sale was cancelled on the 6th August, 1896, and the land resumed by the Department.

Ottawa 23rd April 1897-

Sir-

In further reference to the matter referred to in letter to you of the 17th February last, I beg to inform you that the Department has had a sworn valuation from Mr. Aylesworth of the South Half of Lot 39, Con 8, Tyendinaga, in which he states that this Half Lot is not worth more than Mr. Kennedy has already paid for it, namely $46.00-

In view of this report, the Department will have a recommendation made to His Excellency in Council, under Section 141 of the Indian Act as enacted by 58 and 59 Vic Chapter 35, Lc. 8. for the reduction of the purchase money to the extent of the balance due and for the remission of the Interest thereon.

As regards the North Half of Lot 35, Con 8, Tyendinaga, a sworn valuation has also been received from Mr. Aylesworth, who places the value of this half Lot at $1.00 per acre and reports it unfit for cultivation. In accordance with this report, the local Agent, Mr. W. Egar of Deseronto has been instructed to sell this Half Lot to Mr. Kennedy at the rate of $1.00 per acre, plus $7.00 cost of valuation under the provisions of Section 6 of the Land Regulations of the Department.

Original Sent to Dr. J. Reed 26/4/97

Ottawa 24th April 1897.

His Excellency

The Governor General in Council-

The undersigned has the honour to report that the South Half of Lot 39, Concession 8, Tyendinaga, Township, containing 85 acres, was sold on the 7th January 1868 to Mr. James Kennedy for $81.60, upon which he paid at date of sale $26.00 and on the 8th October 1896- $20.00. A request having been made by Mr. Kennedy for a reduction in the price at which this Lot was sold, the Department had a valuation made under oath by a competent valuator, in which he reports the Lot as consisting of swamp, in places boggy, timbered with a growth of small tamarac and poplar and states that the property is not worth more than Mr. Kennedy has already paid on it, namely $46.00-

As the undersigned considers, in view of this valuation that the purchase money due on the land above described is excessive, he would respectfully recommend a reduction in the price thereof to the extent of the balance of Principal due thereon and also a remission of the Interest on such balance of Principal, in accordance with Section 141 of the Indian Act as enacted by Section 8 Chap 35, 58 -59 Vic.

M E M O R A N D U M

Ottawa 28th April 1897-

The Department had a valuation under oath made by Mr. Aylesworth of Belleville of the N½ of Lot 35, Con 8, Tyendinaga, in which he describes the Lot as a very poor one, only three-fourths of an acre fit for cultivation, balance hills, knolls, valleys and swales, covered with rocks or paved with stones and boulders, too many and too large to be removed. He places the value of this Lot at $1.00 per acre and in accordance with this valuation the Department has decided to sell to Mr. Kennedy.

Mr. Hurley, M.P., called at the Department to-day and stated that he considered the value placed on the Lot very high, in view of the description of it given by Mr. Aylesworth and asked that the amount paid by Mr. Kennedy on the former sale of this Lot, which was cancelled, be allowed him on this purchase.

I may state that this Half Lot was sold to Mr. Kennedy in June 1883 for $148.00 of which he paid $48.00, and failing to pay the balance the sale to him was cancelled on the 6th August last.

It is submitted whether, in view of all the circumstances, Mr. Kennedy should not be allowed credit on the new sale of the $48.00 paid by him under the old sale, which was cancelled.

Ottawa, 10th May, 1897.

Dear Sir,

I have conferred with the officers of the Indian Department in respect to certain Indian lands held by ~~Thomas~~ James Kennedy. Some years ago he purchased the North half of Lot 35 and the South half of Lot 39, Con. 8, Tyendinaga, at a rate altogether in excess of ~~the~~ value, and as a consequence he has never been able to settle with the Department. Recently Mr. W. R. Aylesworth was commissioned to examine and value the land and he has submitted to the Department a valuation under oath. I know these lots well, and although I have every confidence in Mr. Aylesworth's judgment, as a farmer I think that he has placed the very highest value upon the land. I observe that in the case of the South half of Lot 39 he states that it is not worth more than Mr. Kennedy has already paid for it, namely, $46, and I feel that if Mr. Kennedy had paid something less Mr. Aylesworth would have given the same opinion. Mr. Kennedy desires the land because it adjoins his home, and I feel sure that nobody else would pay Mr. Aylesworth's valuation for either parcels. I would, therefore, urge that action be taken in accordance with Mr. Aylesworth's valuation, and that a patent be issued to Mr. Kennedy upon the payment of the balance due according to that valuation. He is a poor man, and it will be as much as he can possibly do to raise the necessary money.

Yours very truly,

J. M. Aurley

Ottawa 18th May 1897-

His Excellency

The Governor General in Council-

The undersigned has the honour to report that the South Half of Lot 38, Con 8, Township of Tyendinaga containing 85 acres, was sold on the 7th January 1869 to Mr. James Kennedy for $81.60- upon which he paid at date of sale $26.00, and on the 8th October 1896, $20.00; and also that the North Half of Lot 35, in the same Concession and Township, containing 100 acres, was sold on the 15th June 1883 to Mr. Kennedy for $140.00- upon which he paid at date of sale $48.00- A request having been made by Mr. Kennedy for a reduction in the price at which these Lots were sold, the Department had valuations made under oath by a competent valuator, copies of which valuations are hereto attached by which it appears that the first above mentioned property is not worth more than Mr. Kennedy has already paid on it, namely $46.00 and the second above mentioned property is worth only $1.00 per acre or $100 for the Lot.

Copy of a letter from Mr. Hurley M.P., in regard to the value of these properties is also hereto attached.

As the undersigned considers, in view of the evidence above referred to, that the purchase ~~money due on~~ price of the land above described is excessive, he would respectfully recommend, in accordance with the valuators report, a reduction, as regards the first mentioned property

PRIVY COUNCIL CANADA

I357.

Extract from a Report of the Committee of the Honourable the Privy Council, approved by His Excellency on the 25th. May, 1897.

On a Report dated 18th. May 1897, from the Superintendent General of Indian Affairs, stating that the South Half of Lot 39, Concession 8, Township of Tyendinaga containing 85 acres, was sold on the 7th. January 1869 to Mr. James Kennedy for $81.60 - upon which he paid at date of sale $26.00 and on the 8th. October 1896, $20.00 ;and that the North Half of Lot 35, in the same Concession and Township, containing 100 acres, was sold on the 16th. June 1883 to Mr. Kennedy for $148.00 upon which he paid at date of sale $48.00. A request having been made by Mr. Kennedy for a reduction in the price at which these Lots were sold the Department of Indian Affairs had valuations made under oath by a competent valuator, copies of which valuations are hereto attached, by which it appears that the first above mentioned property is not worth more than Mr. Kennedy has already paid on it, namely $46.00 and the second above mentioned property is worth only $1.00 per acre or $100. for the Lot.

The Minister submits herewith a copy of a letter from Mr. Hurley, M.P., in regard to the value of these

(continued next page)

(continued P.C. 1357, 25th. May, 1897.)

properties.

The Minister considers, in view of the evidence above referred to, that the purchase price of the land above described is excessive and therefore, recommends in accordance with the valuator's report, a reduction, as regards the first mentioned property in the price thereof to the extent of the balance of Principal due thereon, viz, $45.35, and also a remission of all interest on such balance amounting to $77.10 ;and as regards the second above mentioned property ,a reduction in the price thereof to the extent of the Principal over and above $100.00, the price fixed by the valuator, amounting to $48.00 ;and also a remission of all interest, amounting to $83.50 . The said reductions and remissions to be made under the provisions of Section 141 of the Indian Act, as enacted by Section 8, Chapter 35, 58-59, Victoria.

The Committee submit the above recommendation for Your Excellency's approval.

John J. McGee

Clerk of the Privy Council.

Ottawa 1st June 1897-

Sir-

Referring to your letter of the 10th Ultimo, addressed to the Minister, in relation to the N½ of Lot 35 and the S½ of Lot 39, Con 6, Tyendinaga, I beg to inform you that an Order of His Excellency in Council has been passed reducing the price of the S½ of Lot 39 to the extent of the balance of Principal due thereon and remitting all Interest; so that this Half Lot now stands in Mr. Kennedy's name paid for in full.

As regards the N½ of Lot 35, I beg to state that the cancellation of the sale of this Half Lot has been revoked and the authority of His Excellency in Council obtained for a reduction in the price thereof to the extent of the Principal over and above $100.00 and a remission of all Interest; so that, in this case, as Mr. Kennedy has already paid $48.00, the balance to be paid is $52.00.

Upon receipt of the above mentioned sum of $52.00, together with the sum of $7.00, Mr. Aylsworth's fees for valuing the two half Lots, a Patent will be at once issued to Mr. Kennedy for these properties.

Caughnawaga, 22 Oct 1894.

Monsieur,

Je crois de mon devoir de vous informer, qu'après avoir fait tout mon possible pour régler les réclamations de terrains par les propriétaires ou ceux qui se prétendent propriétaires du terrain que la compagnie du C. P. R. est à prendre pour remplir les trétaux de leur chemin sur la Réserve, qu'il y a encore une certaine partie de ce terrain qui n'est pas réglée et qui est disputée par trois individus William Meloche, Jacques Lachaudière & Pierre Parkins, dont le montant a été déposé entre mes mains par la Compagnie pour payer ces réclamations, chacun réclame ce terrain comme étant le sien, et d'après les informations que j'ai pu obtenir des intéressés et autres, je suis d'opinion, qu'il serait nécessaire de tenir une enquête sous serment, afin de pouvoir déterminer qui est le véritable propriétaire et lui payé le montant ~~le montant~~ que j'ai entre les mains etc.

(Translation)

Caughnawaga, 22nd Oct. 1894

Sir:-

I beg to inform you that, after doing all in my power to settle the claims for land by the owners or those claiming to be the owners which the C.P.R. Company is to take to fill in the trestles of its railway over the reserve, there is still a certain portion of this land in dispute between three persons, William Melocke, Jacques Lachandière and Pierre Parkins, the money for which has been placed in my hands by the company to pay these claims; each one claims this land as his; and after getting such information as I was able to obtain from those interested and from others, I am of opinion that it will be necessary to hold an investigation under oath in order to determine who is the

THIS LETTER HAS BEEN SENT

Ottawa 26th October 1894

Sir,

I have to acknowledge the receipt of your letter of the 22nd Instant, concerning the dispute between three persons named William Meloche, Jacques Lachandiere and Pierre Parkins each of whom claim to be the owners of a certain portion of land which the Canadain Pacific Railway Company is to take to fill in trestles of its Railway over the Reserve. It does not seem clear to the Department why you cannot settle this dispute, and I have to request that you will be good enough to report more fully in this matter.

Your obedient servant,

Acting Deputy Superintendent general,
of Indian Affairs.

DEPARTMENT OF INDIAN AFFAIRS
NOV 5 1894

Caughnawaga 3 Nov. 1894

Monsieur

Accusant reception de votre lettre, en date du 26 Octobre dernier N° 128-601; demandant plus d'informations sur les réclamations de Mrs Beloche, Lachaudière & Barbeau &c. En réponse j'ai l'honneur de vous informer que le terrain en dispute portant le N° 206 du plan de la Reserve par Mr Wallbank a été placé au nom de Mr Pierre Montour ou successeurs ayant droit et Mr Pierre Lachaudière, qui n'y a eu aucunes dispute pour ce terrain avant que la Compagnie du C. P. R. ait eu l'intention de prendre du terrain à cet endroit, que c'est alors que les propriétaires inconnus jusqu'alors ont commencés à faire leurs réclamations sur le N° 206 appartenant à Lachaudière que voyant toutes ces difficultés la compagnie a déposé entre mes mains le montant de ces réclamations pour régler ces difficultés et assurer le paiement aux intéressés, que j'ai de suite assemblé les intéressés

à

à mon office pour m'enquerir des faits de la cause, que les intéressés ne sont pas satisfaits de l'enquête que j'ai fait vu que celle n'était pas sous serment, que Belocher a déclaré par les témoins et lui-même, qu'il n'avait pas de titre d'achat de cette propriété, que son titre était brulé, mais qu'il en avait possession depuis plus de 25 ans, que son père avait acheté le terrain du défunt père de Pierre Montour et qu'il en était le propriétaire, que Lachandière & Parkins ont déclaré par leurs témoins & eux-mêmes que Belocher n'avait jamais eu de terrain à cet endroit que le père de Parkins était le propriétaire de ce terrain, que depuis un certain nombre d'années Montour en avait possession et en était le propriétaire actuel par les améliorations qu'il a fait sur ce terrain, que sur ma demande à Belocher pourquoi il ne s'était pas présenté comme les autres l'ont fait pour réclamer son terrain lorsque Mr Walbank a donné ses avis par écrit à Caughnawaga, que tous ceux qui sont intéressés dans le terrain arpenté aient à porter leurs plaintes de suite, afin que les corrections puissent se faire avant de terminer le plan de la Reserve, il m'a répondu qu'il était détesté des Sauvages dans le temps, et qu'il n'a pas osé faire de telles réclamations.

Dans toutes ces circonstances il n'était pas possible d'en arriver à une entente entre les parties intéressés, et malgré que

Draft

Ottawa, 30th Nov., 1894.

Sir,-

Referring to my letter to you of the 19th instant, I have to inform you that His Excellency has been pleased, by Order in Council of the 26th instant, to authorize you, under Sec. 2, Chap. 38, 50-51 Vic., to summon persons before you by Subpoena, to examine such persons under oath and to compel the production of papers and writings in respect to the dispute regarding Lot 205 in the Caughnawaga Reserve.

It would be well for you to arrange to have the Chief or one of the Councillors to sit with you when hearing the case, and you should take steps to have each of the claimants to the lot to submit all evidence possible.

In reporting to the Department be good enough to sum up the case and give your opinion as to who you consider should be recognized as the owner of the lot.

If it be difficult to decide upon the evidence, it would be desirable for you to inform the Department as to the manner in which the witnesses give their evidence, and as to whether you consider them perfectly credible.

A. Brosseau Esq.,
Indian Agent,
Caughnawaga, P.Q.

Caughnawaga 16th March 1895.

Hayter Reed Esq.

Deputy Superintendent of Indian Affairs

Ottawa.

Dear Sir,

Mr Brosseau requested me as one of the Councillors to give you my views re the alleged claim of one William Meloche to a part of No 306 holding as per Walbank survey, now used as a borrow pitby the C.P.Ry. The Indian Agent, at the request of Meloche previous to the enquête taken under oath, held many sittings to find out the real proprietor of said holding; Meloche was never satisfied, claiming that only under oath would he be able to prove his rights.

His witnesses, his uncles and brother could and did prove nothing, they all knew by hearsay. While his mother Charlotte Jacobs, contradicted herself many times and was always to excited to give a rational evidence. The Indians employed by Meloche to give favorable evidence made themselves ridiculous but some of them were proved that the party Peter

Indian Affairs. (RG 10, Volume 2774, File 155,133)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Iroquois alias Grey Horse, from whom Mcloche's
mother claims to have bought the land, never owned
the property and consequently had no right whatever
to sell it. Every witness of Lachaudière, + admit that
Meloche has property near the borrow pit but which is
not the one now in question, for which he has already
been paid. All the insinuations and wild statements
made by Clerner are made of one cloth and prove
that their claim (the Meloches) are not founded on
any other fact than upon their hatred and distrust of
the Indians of Caughnawaga.

+ daughter of the claimant. J.W.J

The two other claimants are Peter Pareuis and
James Lachaudière. Pareuis' claim is admitted
both by Meloche and Lachaudière for one half of
the sum still in the Agents possession, to wit: ($ 50)
fifty dollars. As to the other fifty dollars the sum
is claimed both by Meloche and Lachaudière.

The latter, by fair and respectable witnesses proved
his right to the part of holding in dispute; Lachaudière
always was the possessor and did not like
Meloches, make claim to said holding until
after the C.P.R. had asked for the lease of said

Indian Affairs. (RG 10, Volume 2774, File 155,133)
PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

160020

said holding. Lachandiere acquired his title from his wife's coheirs of the Estate Peter Kenton (the latter not to be confounded with his namesake bearing the contraction of Grey Horse) This Kenton took hold of the property and improved the same which according to the Indian custom of old became his real and valid title.

In a word, Kelock had never any right to the holding in dispute which belongs, after long and tedious proof made, to James Lachandiere and Peter Panyuis.

I must declare that I am not biased on this question but state what I sincerely believe to be the truth of the whole matter.

Yours Sincerely
J. Wamiente Jocka.

"Re Meloche vs Lachaudière"

Alexandre Brosseau Ecuier
Agent des Sauvages
Caughnawaga.

Cher Monsieur,

Comme j'ai représenté mon neveu Wm Meloche à l'enquête qui vient de se terminer, je prends la liberté de vous faire quelques observations à ce sujet - Avant tout je vous dirai que je n'ai nullement l'intention de me constituer juge dans l'affaire; je veux seulement vous exprimer mon opinion personnelle et vous relater certains faits qui se sont passés au village depuis 25 à 30 ans parce que je puis en parler avec connaissance de cause: Vous savez que de tout temps la tribu des Sauvages a eu peu de sympathie pour les Canadiens qu'ils accusent de les avoir dépossédés du pays qui leur appartenait - l'histoire des origines nous apprend qu'ils s'alliaient de préférence aux anglais; cette antipathie est comme traditionnelle chez eux et semble s'être transmise de père en fils. Je ne veux pas remonter à ce passé lointain et je me bornerai à vous faire l'historique de ce qui s'est passé dans des temps plus rapprochés. Il est de fait qu'à une certaine époque, tous les hivers, tantôt les chefs, tantôt plusieurs des jeunes gens tenaient des conseils où l'on délibérait longuement sur les moyens à prendre pour exproprier du village les métis - surtout certaines familles dont la prospérité fruit de leur travail leur portait ombrage. Cette question a donné lieu à des troubles sérieux. Leur d'argent les chefs n'ont-ils pas dépensé à faire des voyages dispendieux au Siège du Gouvernement alors qu'ils avaient entre les mains l'argent de la tribu! . . .

Indian Affairs. (RG 10, Volume 2774, File 155,133)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

157020

En 1850, les juges de Montréal reconnurent à Monsr George delorimier le droit de résider au village qui que son père eut été canadien. Cette décision contraria vivement les chefs et fut toujours regardée par eux comme injuste.
Ce ne fut cependant qu'en 1865 que commencèrent les incendies des granges appartenant aux métis - incendies dûs sans aucun doute à la malveillance.
Deux granges furent brulées en 1865 après les recoltes.
Il y eut ensuite pendant plusieurs années un certain calme relatif, mais le feu ne cessait de couver sous la cendre. En 1878 le 11 Mai, à la suite d'une visite d'un certain personnage qui s'est acquis dans ce pays une triste célébrité par ses faits et gestes à Otka, le feu éclatait un soir dans la grange de Mr Osias Meloche un des métis les plus travaillants du village et cet infortuné périssait dans les flammes en voulant sauver ses animaux. L'enquête qui eut lieu ensuite, n'aboutit à aucun résultat, les plus grands ennemis du défunt eurent l'audace d'affirmer sous serment qu'ils étaient ses amis. Ce même personnage dit-on, leur avait fait croire que lorsqu'on est sous serment, on peut dire que ce qu'on veut. En 1879, il y eu cinq incendies de granges et cabanes à sucre. En 1883 ou 1884 - un procès dans lequel un Métis eut gain de cause contre un Sauvage a été suivi d'un incendie deux jours après.
Il vous est donc facile de constater que la position des Meloche était très difficile et qu'il est même étonnant qu'ils aient pu conserver les propriétés qu'ils ont aujourd'hui après toutes les concessions qu'ils ont été forcés de faire et les empiètements qu'ils ont dû souffrir pour avoir la paix.
Si l'on tient compte des difficultés par lesquelles la famille Meloche a passé, on admettra sans peine qu'il lui était presqu'impossible de conserver ses propriétés.
Ces métis eurent le tort de solliciter du Gouvernement

Indian Affairs. (RG 10, Volume 2774, File 155,133)
PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

160020

Gouvernement, une licence ou permission de rester. Cette demande était une renonciation implicite à leur droit et cette autorisation donnée par le Gouvernement ne servit qu'à irriter les sauvages.
Si après les différentes enquêtes ordonnées par Mr. Vankoughnet, ce Monsieur eut donné justice aux métis en reconnaissant les droits acquis et déclarant que la loi n'avait pas d'effet rétroactif, il y a longtemps que les sauvages se seraient soumis à cette décision et nous n'aurions pas eu à déplorer des catastrophes comme celle que j'ai mentionnées - encore heureux qu'on ait pas adopté un système de représailles dont les sauvages auraient fini par être les victimes.
Vous serez surpris de la réponse que me fit Monsieur Vankoughnet quand je suis allé à Ottawa pour prendre la part des métis. Je suis fier de proclamer que sa retraite a fait place à un homme juste et instruit.
J'ai cru devoir soumettre à votre considération tous ces faits pour vous démontrer que Moloche pourrait fort bien être le propriétaire du terrain qu'il réclame et que les circonstances dans lesquelles cette famille s'est trouvée au milieu des sauvages l'ont souvent privée de jouir de ses droits.
Comme vous le voyez, Mr Kennie certifie que feu le Notaire Defoy n'a que 32 minutes de ses actes à Montréal tandis qu'il devrait y en avoir au moins 3000 - L'acte de vente de Moloche a-t-il été perdu avec les autres papiers de Defoy ou a-t-il disparu avec beaucoup d'autres effets lors de l'incendie dans lequel Moloche a été brulé vif?

J'ai l'honneur d'être

Thomas Jacob âgé de 57 ans assermenté
dit Lors que je connais les parties dans cette cause
je connais le terrain en dispute, le defunt P.
Montour fils de mon cheval gris ma emmener avec ce terrain pour
changer des bois qu'il avait coupé la ou il avait fait
de la terre, Il y a 2 ou 3 ans passé pour chez Beaudette et à travers
des broussailles et enfin il m'a montré son terrain,
j'ai vu le defunt Darias Belocha la dernière fois que
j'ai été là et le defunt Montour a dit à Belocha
pourquoi tu prends ce bois ce n'est pas à toi, Montour
est venu à la voiture de Belocha a commencé par
oter le bois de la voiture de Belocha il y a eu
eu après une bataille et finalement Belocha se
voyant battre a été chercher, le bois en question avait
été coupé sur le terrain de Montour faisait de la
terre, c'était lui qui était maître là il n'avait pas fait
de dégât c'était lui qui avait travaillé et c'était lui qui
était maître, Belocha est propriétaire d'un morceau
plus bas que Beaudette,

Contreinterrogé par M. le Chevalier,

Question Savez-vous si Montour avait un contrat
de ce terrain, là, réponse, Il m'a pas été qu'il avait un
papier mais il m'a été que c'était lui qui avait fait
la terre, Question est-ce que vous croyez que le defunt
Darias Belocha voulait voler ce bois là, réponse, ça devait
être pour cela que le defunt Montour lui a ôté le
bois en question parce que c'était lui qui avait fait la terre
Question Est-ce qu'il n'est pas vrai que le terrain en
question aurait pu être vendu à Belocha lors de votre
connaissance, réponse, ça n'est pas à moi à savoir
si le terrain a été vendu ce n'est pas moi qui lui
vendu parce que ce n'est pas une obligation que tout
le monde le sache.

160920

François Beaudette âgé de 40 ans assermenté déclare ce dit, je connais les parties dans cette cause, je connais le terrain en dispute, le terrain qui appartient à Belroche, le terrain de Bourbonnais se trouve a coté de Beaudette et celui de Belroche au nord-est de Beaudette j'ai connu connais ce terrain depuis 26 ans, j'ai vu Bourbonnais une fois qu'il avait une corvée pour faire de la terre je n'ai jamais entendu dire que ce terrain appartenait à Louis Belroche, j'ai compté de faire un a terrain et je me suis arrangé avec le propriétaire actuel Jacques Lachambre

Transquestionné par Mr. C. Chevrier.

J'ai emporté tout le foin que j'ai coupé, cette année je l'ai encore coupé et emporté la première fois que j'ai été fauché là il y a 2 ans, j'ai vu le foin enlevé j'ai demandé à Mr Charles Grasson qui a fait le foin il m'a dit que c'était Belroche, je ne sais pas si mon père a eu des difficultés avec Belroche en rapport avec le terrain qui lui appartient sur la butte.

Belroche ne m'a jamais empêché d'enlever le foin sur ce terrain, j'aimais pas vouloir quand même qu'il m'aurait empêché parce que cela lui appartient pas, Lucien dit-il pas vrai que Belroche aurait pu acheter ce terrain sans votre connaissance, répl. cela n'est pas de mes affaires de savoir cela,

Jean B.te Canadien agé de 54 ans assermenté
déclare ce dit je connais les parties dans cette
cause, je connais le terrain en dispute, depuis 30
ans environ, j'ai entendu dire au village que la Cie
du C.P.R avait fait des trous sur le terrain de
P. Montour, Beaudette si je pouvais prendre du ballast,
j'ai été visité le terrain lorsque les gens du village
craignaient les accidents, et j'ai constaté que c'était
sur le terrain de Montour, Beaudette & Grisson, je leur
ai demandé de me donner leur affaire en mains que
je verrais la Compagnie pour leur faire payer des dommages
a condition qu'il me donne la moitié, après quelque
formalités la veuve Montour, Beaudette & Grisson
m'ont donné la collection de ces dommages par écrit,
et j'ai obtenu la somme de $20 du C.P.R. pour
la veuve P. Montour, dont $10 ct. pour moi, la famille
Belanger ne m'a pas parlé de rien en rapport avec
ces dommages,

Par question par Mr C. Chevrier Ecr.

Je ne puis pas dire que les trous percés par le C.P.R
dont il est fait mention, étaient sur le terrain en dispute
parce que je ne connais pas
la partie en dispute, après avoir constaté sur le
plan du terrain en dispute je puis dire qu'il n'y a
pas eu de trous de percés sur ce terrain,

Re examiné par J. W. Jacks

Je n'ai jamais entendu dire dans le village que le
Docteur le vieux Cheval qui possédait du terrain à
cet endroit, était au défunt Pierre Montour ou
Onesakenrat qui étaient reconnu propriétaire de ce
terrain,

Charlotte La Grasson âgé de
5[illegible] ans assermenté déclare à dit je
connais les parties dans cette cause je suis
la mère de William Belroche, je connais le
terrain en dispute. je sais que le terrain
a été acheté par la main du Rolain le terrain
de Branchette a aussi été acheté pareil.
je pense que c'est le Rolain Defoy qui a passé
cet acte il y a au dessus de 20 à 28 ans
que ce terrain a été acheté nous avons acheté
ce terrain pour être voisin avec papa, je ne
sais pas le prix que j'ai payé pour ce terrain
c'est moi qui ait acheté ce terrain, la ligne
je la connais et je puis jurer que le terrain
en dispute m'appartient dans toute son étendue
j'ai donné ce terrain verbalement à mon fils
William Belroche, j'ai acheté ce terrain de feu
Pierre le bien Cheval Gris, l'acte de vente a été
passé dans ma demeure actuelle en présence de
Mr Ignace Bte Comber et François Daillebout
comme témoins à la vente.,

Transquestionné par J. W. Jacko.

J'ai acheté toute la butte en question
c'est-à-dire la prairie le long du terrain de
papa jusqu'à une autre petite prairie en arrière,
mais je puis affirmer que c'est toute la butte.
J'ai acheté la grange qui était bâtie sur la
butte. c'est-à-dire j'ai acheté la butte et non
la grange, je puis faire serment que c'est
Mr. Defoy qui a fait cet acte parce que
je ne suis pas le trouver et il n'y a que son
nom de Mr. Defoy que je trouve pas, je n'ai
pas de contrat pour ce terrain en ma possession,

PRINTING and TRANSLATION
11-30
MAR 21
DEPT OF IND

Caughnawaga. 19 Mars, 1895.

Monsieur,

Référant à votre lettre en date du 30 novembre dernier (No 128605, à l'égard de l'enquête sur la dispute de terrain, lot 205 de la Réserve, par William Meloche, Pierre Parkuis & Jacques Lachaudière etc.

En réponse, j'ai l'honneur de vous informer, que j'ai donné toute la latitude possible, aux intéressés de produire leurs témoins en leur offrant d'émettre des subpoenas pour les témoins qui ne désireraient pas se rendre à l'enquête sans cela, que les parties intéressées ont déclaré à l'enquête qu'ils n'avaient plus de témoins à faire entendre, qu'alors le représentant de William Meloche, Mr C. Cherrier a fait son rapport; Pierre Perkuis a fait le sien et le Conseiller en chef Jocks et le Conseiller Pierre Canadien ont fait leurs rapports le tout ci-inclus avec la présente.

Que d'après les témoignages rendus à l'enquête, le titre de possession n'est pas clairement défini pour aucun des réclamants, que le terrain en dispute étant un terrain inculte, il est évident que ceux qui ont fait de l'ouvrage, pour défricher ce terrain n'ont pas été payés en retour. Et qu'ils ont

ont dû abandonner d'y travailler au défrichement se contentant de couper ou faire couper le peu de foin et mauvaises herbes qui poussaient à cet endroit, ce qui est la cause des difficultés actuelles; qu'après avoir examiné les témoignages qui sont assez contradictoires, malgré que se sont des personnes dignes de foi, que je n'puis tirer d'autres conclusions, qu'il est étrange que William Meloche n'ait pu produire le titre d'achat de ce terrain à l'enquête, vu qu'il prétend que ce terrain lui appartient, parce que tout le terrain que la famille Meloche occupe sur la Réserve, ils ont des titres d'achat à montrer, pour le terrain en dispute, il réclame avoir perdu le contrat, ce qui peut être le cas, de plus il n'y a que la famille, qui connait la ligne de division avec leurs voisins, excepté du coté Nord A Nord-Ouest que la famille Giasson leurs parents disent connaitre; que du coté de Jacques Lachaudière il parait évident que feu Pierre Montour, son beau-père a dû avoir fait du défrichement à cet endroit et que voyant que la terre était inculte, il a dû abandonner de faire plus d'ouvrage sur ce terrain, et se contenter de couper ou d'y faire couper du foin, tant qu'au droit de Pierre Perkins, je suis d'opinion qu'il se résume aux droits d'un Sauvage qui s'approprie un certain terrain sur la Réserve, pour le défricher, et qui en attendant qu'il soit prêt un autre Sauvage s'en est emparé.

J'ai gardé en mains la somme de $100.00 pour payer à William Meloche, le montant qui pourrait lui être accordé par le Département en compensation de son terrain, s'il doit y avoir compensation, suivant

Evidence in defence of W. Meloche.

Frank Hill, aged 47 years, duly sworn, declares and says :-

I know the parties in this case. ~~I heard~~ Francis Beaudette told me last summer during haying time that William Meloche had ~~taken from~~ deprived him of hay that he had bought from Jacques Lachandiere. I asked him whether Jacques Lachandiere had given him back his money. He replied that Jacques Lachandiere was going to ~~prosecute~~ sue Meloche. He told me that each time that he asked Lachandiere for his money, Lachandiere told him that he was going to ~~prosecute~~ sue William. The hay in question was hay that had been bought during the previous summer.

Charles X. Giasson, aged 62 years, duly sworn, declares and says:-

I am an uncle of William Deloche, one of the parties in this case, and I have already given evidence in this case. During the haying time of 1893 when I was at work, François Beaudette came to me and told me that W. Deloche had presented his cutting bay, that he had worked hard there, that he had bought it from him: as far as I can remember, he told me that he had paid him 75 cents, and that he was going to take away the hay that he had cut himself. Two days afterwards he came to me and asked who had removed the hay. I told him that it was Deloche, and said that he ought to know that it did not belong to him. He told me that he would sue him.

Caughnawaga, 22nd Feb. 1895.
Evidence in favour of Jacques Lachandiere.

Michel Jacob, aged 64 years, duly sworn, declares and says:-

I know the parties in this case. I know the matter in which they are concerned. I know the land in dispute. I know that the land in dispute belonged to the late Pierre Montour; it was he that worked it. I do not know how long ago it was that this land belonged to the late Pierre Montour, but it was about twenty years ago. Before that time I always believed, as ~~I heard~~ I had heard, that the land belonged to the Parkins family; but when I saw Montour working there, I believed that it was his. To the best of my recollection the late Montour worked on this land during two summers; he cut away the underbrush; the land had not been sown before that.

I did not see the late Montour working on this land at any other time than during these two years. I know he gave others permission to cut the grass and hay growing on this land. I never measured the land, but I believe that it may be about four acres.

I know that Osias Meloche has some land below the hill; on the north side there is a piece of land between Meloche and Montour that belongs to Beaudette.

Cross-questioned by Mr. Cherrier.

Question. How many years is it since you saw the late Montour working on this land?

Answer. About twenty years.

Question. Do you not know that the late Osias Meloche bought this land.

Answer. I know that the late Osias Meloche had bought from Louis Daillebout, who is at the foot of the hill.

Indian Affairs. (RG 10, Volume 2774, File 155,133)

ARCHIVES PUBLIQUES
CANADA

Question. Do you not know that he bought on the upper part of the hill?

Answer. I never heard so.

Question. Do you know the boundary of the land sold by Daillebout to Belroche?

Answer. I could tell the boundary, but it is far from there; the fence was at the foot of the hill.

Question. Would Belroche not have been able to buy this land without your knowledge?

Answer. Yes, he would have been able to buy it without my knowledge. I know all the lands that he bought by having seen him working on those lands. For 42 years I have had land on that side and that I have passed there, and I know all the high land, and there was only the Beaudette land that was sown; when I was walking I passed them all everywhere, but there were two roads. I never saw any sowing

Thomas Jacob, aged 55 years, duly sworn, declares and says:-

I know the parties in this case. I know the land in dispute. Pelate P. Montour, son of the old Grey Horse, put me on this land to take charge of the wood that he had cut there where he had been working on the land. That was 21 (2) years ago. I passed Beaudette's place and through the underbrush; and immediately he showed me his land. I saw the late Asia Meloche there the second time that I was there; and the late Montour called out to Meloche, "Why are you taking that wood; it does not belong to you?" Montour walked up to Meloche's cart and began throwing out the wood. A fight followed, and at last Meloche, being beaten, went away. The wood in question had been cut where Montour was working on the land; he was master there; he was not afraid to go there; he had worked there

and he was the master. Delorme is the owner of a piece of land lower down than Beaudette.

Cross-questioned by Mr. C. Cherrier.

Question. Do you know whether Montour had a deed for this land?

Answer. He did not tell me that he had a document, but he told me that it was he who had worked on the land.

Question. Do you believe that the late Alexis Delorme wanted to steal the wood there?

Answer. He must have meant to do so, as the late Montour took the wood in question away from him, because it was he who had worked the land.

Question. Could not the land have been sold to Delorme without your knowing it?

Answer. It was not my place to know it; if the land was sold, it was not I that sold it, for it was not necessary that everybody should know about it.

in question belonged to the late Montour, as it was he who worked the land.

Cross-questioned by Mr. Cherrier.

I have not worked on this land for 17 years. I worked on the upper part of the hill.

Question. ~~Was~~ Could not the late Alias Belocke ~~not have bought able to buy~~ this land without your knowledge?

Answer. I cannot say, ~~although~~ when he sold it, as it was not to me that he I who sold it.

Question. Was it on the spot specified on the plan as being in dispute between Belocke and Lachaudiere that you worked, or was it elsewhere?

Answer. On the land in dispute mentioned on the plan.

François Beaudette, aged 40 years, duly sworn, declares and says:-

I know the parties in this case. I know the land in dispute. and the land that belongs to Deloche. Grenon's land is on the west of Beaudette and Deloche's land on the north east of Beaudette. I have known this land for 26 years. Once I saw Grenon doing statute labour(?) I never heard that this land belonged to Alias Deloche. I have cut hay on this land and arranged with the present owner, Jacques Lachandière.

Cross-questioned by Mr. C. Cherrier.

I took away all the hay that I cut. This year I again cut hay and took it away. The first time that I cut hay there, two years ago, I saw that the hay had been removed. I asked Mr. Charles Grenon who had taken the hay; he told me that it was Deloche. I do not know whether my father has had trouble with Deloche about the

land belonging to him on the hill.
Deloche never ~~protested me from~~ interfered with my removing timber from this land. He never even wished to prevent me, as the land did not belong to him.

Question. Was not Deloche able to buy this land without your knowledge?

Answer. It was not my business to know that.

François Daillebont, aged 46 years, duly sworn, declares and says:-

I know the parties in this case. I know the land in dispute. I worked on the land in dispute with the late Pierre Drontour 22 years ago breaking up the land. The first time I went there, I went to cut underbrush. I worked on this land for the late Drontour every spring for five consecutive years, and at other times in the autumn. I was there at other times to lend him a hand, but I was not engaged. I once saw the late Osias Beloche cutting wood on this land, and Pierre Drontour sent him there; and Beloche cut on his land below the hill; he cut five perches. Drontour did not buy this land: he took possession of it in order to work it in accordance with the custom at the time. I do not know whether the man called the Old Grey Horse had any land there: I never heard him say so. Beland
