### C. P. R. MAY MAKE WAR OF RATES.

#### Rivalry with the Great Northern Railway.

May Result in Low Winter Freight Rates Which Will Benefit St. John.

NEW YORK, Nov. 26.—James J. Hill denies the co-operation with the Canadian Northern in the establishment of the so-called "bullet" service between St. Paul and Winnipeg indicates an intention on his part to fight the Canadian Pacific. He says he has not the least objection to the extension of the Soo line northward. He adds that it was always intended to put on such a service as this as soon as the Canadian Northern was ready. It is purely and simply a traffic matter, and will not, says Mr. Hill, lead to any trouble with the Canadian Pacific.

In other words, Mr. Hill says he is not looking for a fight. The Canadian Pacific people, on the contrary, say that if Mr. Hill is not looking for a fight, he is certainly in a fair way to get one. They take the ground that Mr. Hill is now and always has been the aggressor. That is, that ever since the Canadian Pacific bought the Soo line both the Great Northern and Northern Pacific have done everything they possibly could to make the purchase valueless, or at any rate to minimize its value to the Canadian Pacific. They say that they have stood for a long time the annoying tactics of Hill officials, and that they have stood it with good grace. They admit that there have been reprisals, but claim that the reprisals were not by any means what they might have been.

It is believed, however, by everyone concerned that there will be no serious trouble for some months, or until the heaviest part of the grain traffic is over. While all roads are doing their best to handle this business there will be no incentive whatever to anything like hostile tactics on either side; in fact, hostility would lose money to all parties. It is during the bad winter months that trouble is likely to break out, and it is the opinion of one northern official that it is just as likely as not to be precipitated by the Canadian Pacific through the making of very low winter rates on non-perishable freight across the continent.

During these months the road will have more idle equipment on its hands than ever before in its history, for the simple reason that its equipment has been tremendously increased during the past twelve months. It is the opinion of the official mentioned that the road is almost certain to put in winter rates this year lower than ever before in an effort to divert to that line some of Mr. Hill's tonnage. If this happens there is pretty certain to be war.

#### BURIED TODAY.

The funeral of the late Charles Daley was held at half past two o'clock this afternoon from his late residence, 188 British street. The body was taken to the Church of St. John the Baptist, where Rev. W. F. Chapman conducted service. Interment was in the old Catholic burying ground. The pall bearers were chosen from among Mr. Daley's associates.

At half past two this afternoon the funeral of the late John Haley was held from his late home, 11 Coburg street, to the Cathedral, where Rev. F. C. Carleton conducted service. The body was interred in the new Catholic burying ground. Relatives acted as pall bearers.

#### \$25,000 BURGLARY.

PHILADELPHIA, Nov. 27.—The police of this city were notified today that Wm. Welsh Harrison, that his country home at Glenide suburb was robbed yesterday of jewelry valued at \$25,000. The thief is believed to be a man servant who was employed by Mr. Harrison about two weeks ago. The man disappeared yesterday and the loss of the jewelry was discovered a short time later.

Mr. Harrison is a brother of Provost C. O. Harrison, of the University of Pennsylvania, and one of Philadelphia's wealthiest citizens.

#### NAPOLÉON WAS SPANKED.

Just as a man is no hero to his valet, so he is not likely to be a hero to his mother, or rather not the sort of hero that the world knows, but a hero quite of his own conception. As boys, the great men who are to be, get about the same treatment as the lesser favorites of fortune. When Napoleon was in exile at Elba he told a story of how his mother spanked him. One day his mother was hobnobbing along the street in Ajaccio, and young Napoleon and his sister Pauline, followed the old lady and mimicked her. Their grandmother turned and caught them in the act. She complained to Madame Letitia Bonaparte, Pauline was at once "spanked" and disposed of. Napoleon, who was out in his regimentals, could not be handled, of a uniform is as sacred as a flag. His mother bided her time. The next day, when her son was off his guard, she cried "Quick, Napoleon! You are invited to dine with the governor." He ran up to his room to change his clothes. She quietly followed, and when she judged that the proper time had come, rushed into the room, seized her undressed hero before he guessed her purpose, laid him across the maternal knee and belabored him earnestly with the flat of her hand.

### U. S. CONSUL INSULTED.

#### Colombian Authorities Looking for Trouble.

United States Must Face Many Difficulties in Assuming Protectorate Over Panama.

NEW YORK, Nov. 27.—The American publishes the following from Colonel, under date of Nov. 26: The royal mail steamer Trent arrived at this port today. The captain of the Trent reported that while he was lying in the harbor of Cartagena the United States consul at that place, Luther P. Ellsworth, was invited to come aboard as his (the captain's) guest. Mr. Ellsworth responded to the invitation, but when half way up the gang plank was stopped by Colombian soldiers and turned back. The Colombian authorities would not permit the Trent to take any passengers, mail or cargo from Colombian ports for colon. Consul Ellsworth, who was formerly U. S. consul at Puerto Cabello, Venezuela, said the people on the Trent that he had been repeatedly subject to insult since the recognition of the independence of Panama by the United States.

In its hastily assumed protection of the republic of Panama, the United States will have several local entanglements to meet. One of them is the lottery question. The principal owner of the Loteria de Panama is high in the councils of the new government. In fact, he is one of the men who created it. He was received in Washington by Secretary Hay and had a long conference at the state department only a few weeks before the Panama coup d'état. The lottery is not the only evil that the United States will be protecting under the new regime. There is a gambling concession on the isthmus which is at present held by two Americans, Messrs. Seymour and Pratt. Roulette and other games are played openly, and this scheme held to rob the poor and the foolish. This concession is the local government about \$75,000 in gold this year. With the construction of the canal started here, the gambling concession will prove a new Eldorado.

#### MORE SECESSION.

Other Colombian Provinces Working for Independence for Same Reasons as Panama.

PANAMA, Nov. 27.—An American travelling man, who has just arrived here from Buenaventura on the steamer Manavi, after a stay of twenty days, reports that the feeling of unrest in Cauca and Antioquia continues and that the secession movement there has the support of many prominent men, including a number of high officials. An outbreak has recently started in Cauca, the business centre of the Cauca department, but the authorities quickly suppressed it and arrested the ring leaders, who suffered no harm, probably because of the sympathies of the officials with the movement.

The secession movement, this man says, is serious, but it is impossible to foretell what will be done or when any step will be undertaken. He also says there is no evidence of any like or aggressive movement against Panama; there is plenty of threatening talk, but no action.

The Americans at Cali have not been molested. The authorities at Buenaventura, the traveller says, were inclined to be annoying when he left there, but nothing serious had happened. The discontent in Cauca and Antioquia arises from the same causes that led to the movement for independence on the isthmus.

#### MURDERERS TRAPPED.

Two Outlaws Surrounded by Police are Fighting Desperately for Their Liberty.

CHICAGO, Ill., Nov. 27.—Harry Vandyne and Peter Niedemeh, accused of sensational murders and robberies at street car barns in Chicago, are reported to have been trapped in a dug-out near Miller Station, Indiana. The dug-out has been surrounded by local police.

Urgent messages for help reached Assistant Chief of Police Schuetzler today, and fifty men, under the assistant chief's command, left at once for Miller Station, armed with Winchester rifles and revolvers.

Reports from the place further say that a fusillade of shots has been exchanged between the men in the dug-out and the local police. Two of the latter are reported to have been wounded seriously.

#### FOREMAN KILLED.

PLATTSBURG, N. Y., Nov. 27.—Jas. Pail, 35 years old, of Schenectady, N. Y., foreman of construction work on the Delaware and Hudson road, was struck by the engine of a passenger train on the Delaware and Hudson road in this city today and killed.

#### KING'S HORSES WON'T ENTER.

LONDON, Nov. 27.—King Edward has decided that he is unable to accept the invitation to send some of his horses to the St. Louis exposition. The decision is accompanied by an expression of much regret, but it is explained that his majesty has made it an invariable rule not to enter horses in handicap races.

### SUPREME COURT JUDGEMENTS.

#### Several Decisions Handed Down Today.

New Trial Ordered in the Famous Milligan-Crockett Libel Case. Now For the Forgers

(Special to the Star.)  
FREDERICTON, N. B., Nov. 27.—The supreme court met this morning, pursuant to adjournment. Chief Justice Tuck and Judges McLeod and Landry being present. Judge Barker was absent, being called home to see his son, who is leaving today for Alder shot. Judge Hanington is holding circuit in St. John and Judge Gregory is confined to his residence by the serious accident a few days ago. The following judgments were delivered:

Ex-parte Margaret Bramwell, rule absolute to quash order of review made by Judge Forbes of St. John county court, reviving decision of police magistrate of St. John.

The King vs. William Wilson, ex-parte McGoldrick, rule absolute to quash order of review of Judge of York county court on the ground that the judge exceeded his jurisdiction.

Ingram v. Brown—New trial ordered on the ground of jurisdiction.

Ex-parte Niles, ex-parte Lavelly—Licenses quashed. The like.

Milligan v. Crockett—New trial without costs on the ground that the case was tried out of its turn on the docket.

McRae (defendant) appellant v. Brown (plaintiff) respondent—Appealed from Northumberland county court, dismissed with costs.

All the cases except those argued this term are disposed of except Lloyd v. Fairweather.

The court then adjourned sine die.

#### ALMOST DROWNED IN MILK.

Bursting of Creamery Separator Kills One Man and Fatally Injures Two Others.

BRIDGETOWN, N. J., Nov. 27.—One man has been killed and two others seriously injured that there is very slight chance of their recovery by the bursting of the separator bowl in a milk plant here. The bowl, which was made of steel and copper, flew to pieces just as an exploding fly wheel does, and the pieces were hurled in all directions. Some of them flew into the departments of the plant, causing considerable damage to the ice making machinery. The walls of the building were riddled as if by shots from cannon. Pieces of metal were picked up 300 feet from the plant. Not only were the men injured by the flying metal but they were almost drowned by the suddenly released volume of milk.

#### LIGHTSHIP FROZEN UP.

The New Guardian for the Lurocher Shoal is Ice Bound in the St. Lawrence.

(Special to the Star.)  
MONTREAL, Nov. 27.—Lightship "Lurocher" No. 13, intended for use at the mouth of the Bay of Fundy, and built at Point St. Charles on the Lakes, left here yesterday on its way down river bound for the maritime provinces. It is now fast in the ice between here and Quebec and may not be got out this winter, as ice is forming in the river rapidly.

#### NEW CAVALRY TRAINING.

The Education of the British Horse Soldiers at Aldershot.

Apparently as the result of the admirable experiments in cavalry training made by Lieut-Col. de Laissat at Hounslow, the new system of instruction is to be introduced into the First Army Corps, writes an Aldershot correspondent.

The innovation will do away with much of the useless routine which in the past has occupied so much of the cavalryman's time. From the beginning of the training the aim will be to develop the cavalryman's power of initiative and resource and general intelligence in the field. One of his first lessons will be to catch his horse when turned loose, to train it, and ride it across country instead of around the riding school.

The care of horses is also to be taught. Men are to be instructed in the treatment of minor horse maladies, how to judge and treat lameness, and to tell good forage from bad.

Outpost and advance guard duties, reconnaissance duties and map reading are to be taught thoroughly. Parties of men are to be sent out to find their way to fixed points entirely by the map. The art of scouting will be instilled by the "flag stealing" game and practical trials of scouting, in which special stress is to be laid in intercepting moves of the enemy, learning his strength without being seen, despatch riding, and making intelligible verbal and written reports.

More attention is to be paid to firing, the proper precaution to cover, rapid shooting, natural rests, and the effects of wind.

Even at arms is not to be forgotten, and mounted combats and competitions are to be instituted.

To render charging a little more scientific, an interesting game, some what after the idea indulged in by the German infantry, will be practised. A squadron of dummies in line will form the objective, and the squadron bowling over the greatest number of the enemy will be declared the winner.—London Daily News.

### WAR CLOUD PASSING AWAY.

#### Russian and Japan (Patching Up a Treaty.

But Russia Keeps Sending Ships and Troops to Far East—1,500,000 Men Ready.

ST. PETERSBURG, Nov. 27.—The prolongation of the Russo-Japanese negotiations at Tokio, which have been delayed by Viceroy Alexieff's return to St. Petersburg, is due to the inability to reach an understanding regarding Corea.

Tentative terms on the subject of Manchuria have been settled. Japan recognizes Russia's dominant interests and agrees not to place obstacles in the way of the solution of the problem. While still maintaining the ultimate recognition of her treaty rights, open ports and the integrity of Chinese sovereignty Japan is content to leave these questions in abeyance, so as not to embarrass Russia. In return Japan insists on the recognition of her influence in Corea and the opening of Yonampo or other ports to foreign trade. Russia is willing to concede something but she opposes the opening of Yonampo, on the account of its proximity to the mouth of Yalu river on the ground that it will threaten interests and complicate her difficulties in Manchuria.

Russia is doing everything possible to bring the negotiations to a conclusion. Viceroy Alexieff has the Czar's orders to this effect. Russia believes it wise to press matters while Japan is in a pacific mood, which is attributed to foreign counsel. The chief fear expressed here is that the moral effect of the United States' continuous pressure in connection with the open door policy will lead Japan to rashness. The attitude of the United States causes much nervousness and some resentment. The Russian view is that no good reason exists why the United States should become involved in a quarrel at the instigation of Russia's enemies when her interests, comparatively insignificant, are not invaded. It is pointed out that last winter and spring the United States was aroused by the persistent declaration in the British and Japanese press that Russia would never permit China to sign a commercial treaty, yet it was signed on the date fixed.

The sudden flash of anger in China over the Russian re-occupation of Mukden, because it is the old burial place of the ancestors of the present dynasty, is not considered grave, as China's impotency is recognized. Nevertheless, all steps will be taken to avoid a rupture, as China's friendship is needed for its future.

Despite the conviction here that the crisis has passed for the winter Russia is taking nothing for granted. Three quarters of her fleet are massed in, or moving to the Pacific. Practically nothing is left on the European side. Travellers who have just returned from Port Arthur, report that the trains going eastward are still filled with troops and war munitions. It is estimated that Russia now has more than 1,500,000 troops east of Balkal, prepared for eventualities.

#### CATTLE SHIPMENTS.

First Lot Arrived Today—More Coming—Allan Line Passengers Will Land at St. John.

The first shipment of live stock for this season reached the west side this afternoon and another trainload will be due later on in the day. The first train of thirty-four cars brought 238 head of cattle and 666 sheep, all Canadian stock. These are being transferred to the Sand Point yards. They are for shipment by the Lake Champlain and will be loaded tomorrow.

No definite advice have been received regarding the second trainload and it is not known whether they are American or Canadian cattle. A. C. Smith & Co. are again looking after the shipments.

The Champlain will sail tomorrow, with a large list of passengers. Up to last night there were booked 18 saloon, 40 second cabin and 100 steerage. Among the passengers are forty persons who came down on the Montreal express today and fourteen Hungarians from Halifax.

The next C. P. R. steamer due here is the Lake Michigan from London. On this service attention is given to freight more than to passengers, Liverpool being the principal point for the latter business. No advice of the Michigan have been received but it is not thought that she has more than perhaps fifteen or twenty passengers.

The Allan line have decided to land the majority of their passengers from the mail boat Bavarian at St. John. Those for local points, on first-class passengers who especially desire to do so will leave the steamer at Halifax, but all the others will be brought to this port. William Thomson & Co. today said they preferred saying nothing on this subject, but would wait until Hugh Allan gives out whatever he may wish as to the change. It is not probable that the recent rearrangement of rates over the C. P. R. from Ottawa to Winnipeg and points based on Winnipeg is responsible for the change as there are but a few passengers on the Bavarian who would be affected by the new rates. There is an impression that this new move the result of pressure brought to bear on the Allans by the C. P. R., which railway is loading Allan line boats at St. John and wants some business in return.

"Say, Mister, won't youse gimme 15 cents for a bed?" asked the tired tramp.

"Dunno," replied Jaggaby. "Bring it round and I'll (ho) look at it."—Chicago News.

**TURKEY IN A RAGE**  
**CLEANS OUT A SALOON.**

Smashes Glassware, Drives Laborers  
from Bar, Attacks Proprietor and  
Routs Policeman.

NEW YORK, Nov. 26.—Enraged by  
the tantalizing antics of children on  
the street, a thirty-three pound tur-  
key which was captive in the window  
of Joseph Feely's saloon, at Grove and  
Fifth streets, Jersey City, yesterday  
broke the wooden bars of its cage and  
before being captured demolished glassware  
and liquor valued \$20. The bird also put to flight four laborers who  
were drinking at the bar.

Mr. Feely, the proprietor, attempted to  
"shoo" the turkey into a corner, but it  
resented his interference, flew upon his  
chest and uppermost under the chin.  
The four muscular laborers  
dropped their glasses upon the bar and  
sought refuge behind the storm doors of  
the store. Feely ran into his office and  
shut the door.

Thomas Moran, a policeman, who  
heard the disturbance, entered the sa-  
loon. The turkey rushed toward him,  
and Feely, who was looking over the  
partition, shouted: "Get out, Tommy,  
that bird is the devil himself." The  
policeman quickly backed out and  
flashed the door as the turkey crashed  
against it.

Feely came up behind the bird and  
grabbed it by its legs and neck. A  
large, strongly built crate was obtain-  
ed from a nearby grocery store and the  
bird again placed in captivity.

## ST. JOHN STAR.

ST. JOHN, N. B., NOVEMBER 27, 1903.

THE NEW FREEMAN AND THE  
IRISH.

Last week the Star published de-  
patches from Ireland to the effect that  
Wm. O'Brien had resigned from the  
Nationalist party and that Timothy  
Healy had assumed its leadership. John  
Redmond, for his action in making the  
New Land Purchase Act to the dis-  
advantage of its tenants. The Star  
also ventured editorial comment on the  
apparent dissensions in the Irish party.

The New Freeman took occasion to  
assert that such dissensions existed  
only in the imagination of the editor  
of the Star, and published a declara-  
tion of Mr. Redmond's that the party  
was united as one man and that Mr.  
O'Brien would withdraw his resigna-  
tion. The following despatch would  
seem to favor the Star's view:

DUBLIN, Nov. 26.—Wm. O'Brien, in  
a letter to John Redmond, the Irish  
leader, while acknowledging the sincerity  
of the recent resolutions of the  
Irish parliamentary party, and the di-  
rectory of the United Irish League, de-  
clines to withdraw his resignation as  
member of parliament for Cork city or  
to resume his connection with Irish  
politics.

The Star, at the same time, attribut-  
ed these dissensions to the fact that, as  
the Nationalist party had no quarrel  
with the government at the present  
time, their natural Irish love for a bat-  
tle had turned them against each other.

For this the Star is roundly rated by  
The New Freeman. That is rather sur-  
prising. It has been generally believed  
that Irishmen were proud of the fight-  
ing spirit of the race which has main-  
tained for centuries a national senti-  
ment in that little island under in-  
credible difficulties; which has bred men  
like Wellington and Roberts, and the  
thousands of other Irishmen with  
whose high bravery British history is  
full. A man who resents a reference to  
the existence of this fighting instinct,  
as the editor of the New Freeman has  
done, is either not an Irishman or has  
been separated so long from the home  
of Irishmen as to lose one of the strong-  
est characteristics of his race. And in  
so far as the editor of the New Free-  
man is able to assert that the Star  
"can only see Ireland and the Irish  
through yellow spectacles" and that  
"the Irish national party and the Irish  
national leaders are always subjects for  
its contempt and ridicule," it is ap-  
parent that he has drifted as far from  
respect for the truth as he has from  
the other Irish traits.

The Carleton Sentinel urges the  
claims of Carleton County in general  
and Wendell P. Jones, M. P. E., in  
particular for the prospective vacancy in  
the surveyor-generalship. It asserts  
that the upper St. John valley has  
been without cabinet representation  
for many years, and protests against  
the injustice of the neglect of a section  
of the province which has been so long  
a supporter of the government. The re-  
sult of all these rival claims will prob-  
ably be that Mr. Dunn will not get the  
collection.

The uncivil war between the Freder-  
ickton Gleaner and the Moncton Trans-  
cript goes sweetly on. To the Gleaner's  
taunt that the Transcript is only a  
local newspaper, that organ of Cana-  
da's winter port returns the following  
counter-check quarrelsome:

The Frederickton Gleaner says this  
journal is essentially a local news-  
paper. Possibly it is true that a view so  
broad of political issues is not taken by  
this journal as to change its political  
alliance three times in about as many  
years.

With Hon. Mr. Fitzpatrick, minister  
of justice, and Sir Frederick Borden,  
minister of militia, leaving for Eng-  
land, it does not look much like a gen-  
eral election in the immediate future.  
Still, this junketing business may be  
only a blind, and it behooves New  
Brunswick conservatives to follow the  
example set by Nova Scotia and get  
their men in the field as soon as pos-  
sible. Everything is to be gained and  
nothing lost by immediate organiza-  
tion.

In spite of the liberal ridicule direct-  
ed at Seymour E. Gourley, his out-  
spoken courage and his indefatigable  
efforts for his constituents have won  
their confidence to the extent of a un-  
animous renomination. Mr. Gourley  
may have slopped over occasionally,  
but nobody doubts his independence  
and his courage in expressing his con-  
victions. Parliament needs more men  
of that stamp.

The brutal way in which that Que-  
bec doctor tried to murder another who  
threatened his practice is in painful  
contrast with the more civilized methods  
in this city, where they are content with  
driving rival practitioners out of town.

Senator Ellis, whose back was threat-  
ened with the party whip a few months  
ago, now wields that powerful weapon  
as much as emphasis as if his ac-  
quaintance had always been with the  
handle end instead of the lash.

### NOT YET.

Without a collector.

And the county court of western New  
Brunswick is without a judge.

And the inspector school district of  
Westmorland and Albert is without an  
inspector.

And Prince Edward Island has no  
post office inspector.

And Nova Scotia has none.

And the vacancy on the Nova Scotia  
supreme court bench has not been  
filled.—Sun.

The nomination of a liberal conser-  
vative in North Cape Breton and Vic-  
toria and the renomination of Mr. S.  
Gourley in Colchester leaves only two  
constituencies in Nova Scotia unpro-  
vided with opposition candidates.—Sun.

SORROW, MY SORROW.

(By W. D. Howells in Harper's).

Sorrow, my sorrow, I thought that you  
would be  
My faithful mate, and bear me com-  
pany  
While I should live, but now I find  
that you,  
Like joy, and hope, and love, have  
left me, too.

Sorrow, my sorrow, you have left me  
more  
Forlorn than all the rest that went be-  
fore;  
For you were last to come and longest  
to stay.  
And you were dearest when you went  
away.  
Sorrow, my treasured grief, my hoard-  
ed pain,  
Where shall I turn to have you mine  
again?

II.

Wherever there are other breasts that  
ache,  
Wherever there are hearts as like to  
break,  
Wherever there are hurts too hard to  
bear,  
Turn and look for me, you shall find  
me there,  
But not to take and have me for your  
own,  
Or keep me, as you thought me, yours  
alone;  
If you would have me as I used to be,  
Beyond yourself you must abide with  
me.

ABANDONED BABY  
CUDDLED BY DOG.

Deserted By Mother, Little One Is  
Found in Vacant Lot and Life  
Saved by Mongrel.

NEW YORK, Nov. 26.—He was only a  
shabby mongrel dog, but he lay all  
night on a windy, open lot, and kept  
an abandoned little baby cuddled to  
his shaggy breast so that it should not  
freeze to death.

John Kormoy, who lives at No. 500  
Waite avenue, in the Bronx, was cross-  
ing the lot, which is at 18th street  
and Union avenue, early yesterday  
morning, when he heard the piping  
wail of the babe. At a loss to under-  
stand the sound at such a time and  
place, he looked about until in a  
clump of bushes he came upon the  
strangely assorted sleepmates.

Both were homeless derelicts, but  
with the instinct of comradeship in  
misfortune the animal held the infant  
close and licked its cheeks. It was  
evident that the child, which was bar-  
headed and clad only in a thin white  
frock, had been left on the lot during  
the night and found there by the other  
outcast, dumb, but with more feeling  
than the mother of his charge.

Kormoy took the infant and started  
with it for the Morrisania station.  
On the way he met Policeman Knowles,  
who sent for an ambulance from Le-  
banon Hospital, where the child will  
be cared for.

The dog followed the policeman for  
a block or two and then, evidently sat-  
isfied that his companion of the night  
was in good hands, quietly stole away.

FREDERICKTON NEWS.

FREDERICKTON, Nov. 26.—The sen-  
ate of the University of New Brunswick  
held its annual meeting today, there  
being present Chancellor Harrison, Mr.  
Justice Barker, J. D. Hanson, H. V. R.  
Bridges, Wm. Brodie and Dr. Scott,  
secretary.

Dr. Harrison's report showed that the  
present attendance at the university is  
134, the largest in its history. The  
chancellor recommended the establish-  
ment of chairs in forestry and chemis-  
try.

The gift of \$4,000 to the University,  
recently announced, was officially ac-  
cepted by the senate and the donor  
thanked. \$300 more has been offered by  
the same person towards increasing the  
salaries of those professors who are not  
now receiving more than \$1,000.

Fredrickton was visited this evening  
by Hon. A. G. Blair. He is staying at  
Frogmore, the residence of his daugh-  
ter, Mrs. R. F. Randolph. It is hinted  
that while here he will straighten out  
some local political differences.

"BOYS WILL BE BOYS."

The above is a very true saying, and  
the sentiment has been embodied in a  
song which has made a great hit in  
the opera of Mr. Pickwick, in which  
DeWolf Hopper, the comic opera star,  
is this year appearing. The above song  
will be given its first public rendition  
in St. John on Friday evening next by  
the celebrated tenor—Harold Jarvis—at  
the Opera House, as the final number  
of the first night's programme of the  
Jarvis-Smith concert. Another popu-  
lar selection to be sung by Mr. Jarvis  
will be Hope Temple's Rory Darlin.

Owen A. Smyly, elocutionist, imper-  
sonator, singer and ventriloquist, will  
complete a programme the excellence  
of which will be undisputed.

Plan opens at Opera House box office  
on Wednesday morning.

A HAPPY THOUGHT—I am going  
to send my laundry to Ungars.

RUMMAGE SALE.

The rummage sale, which is being  
continued by the King's Daughters at  
the corner of Union and Waterloo  
streets, was well patronized yesterday.

The former sale was in charge of the  
Doorkeeper's Circle, but this sale is be-  
ing conducted by the Guild, the mem-  
bers of which are now making a de-  
termined effort to pay off the mortgage  
on the Chateau hill building.

### Oil May Go Up.

Prices in Toronto Has Raised Three  
Cents Per Gallon.

Within the past few days, retail  
dealers in Toronto and other Upper  
Canadian cities have made an advance  
of five cents per gallon on high grade  
illuminating oil. So far as can be as-  
certained, the reasons for this advance  
are not such as will affect the St. John  
trade. In Toronto, the principal de-  
mand is for Canadian oil and for some  
time the Canadian crude oil was quite  
cheap, resulting in a correspondingly  
comparatively low price for refined oil.

Now, however, Canadian crude is  
worth more than American and whole-  
sale dealers have been compelled to  
put up the price. In sympathy with  
this, the retail merchants have made  
the advance of five cents, which is con-  
siderably more than the wholesale ad-  
vance, but is in anticipation of an-  
other raise.

These conditions do not apply to St.  
John, where scarcely any Canadian oil  
is used, but at the same time it is  
stated by the agents here that American  
has a strong tendency to advance.

This is on account of the scarcity of  
the crude product. St. John agents  
are unable to predict what may hap-  
pen, but admit that there may be a  
slight advance at any time. On the  
fourth of the present month an increase  
of one half cent per gallon was made,  
bringing the best grade of kerosene to  
25 cents.

DUNDONALD'S SUCCESSOR.

Rumor Says Lt.-Col. Otter Will Be  
Appointed.

TORONTO, Nov. 26.—There is much  
comment here on the proposal to ask  
Imperial authorities to amend the B.  
N. A. Act to permit a Canadian officer  
to command the militia and the rum-  
or that Lt.-Col. Otter will succeed  
Lord Dundonald. "Thirty years ago  
I advocated this very change," said  
Col. Denison, who paid a high tribute  
to Col. Otter, and added, "In fact, I  
doubt whether any other officers with  
the titles of lieutenant-colonel, com-  
manding divisions of from five to sev-  
en thousand men, should not have the  
title of major-general. That is what  
they are, in fact they do the di-  
vision work of a major-general. They  
should have the rank and pay of the  
position which they fill under the  
lesser title. It is a shame that cap-  
able officers commanding these divi-  
sions do not receive the higher com-  
pensation. The brains and energy and  
training required for the work in any  
other vocation commands twice the  
compensation."

A \$10,000 SPEECH.

New York Alderman Gets an Appra-  
iation by Raising a Laugh.

NEW YORK, Nov. 26.—Peter Heller,  
alderman, caused the appropriation of  
\$10,000 for the celebration of the open-  
ing of the Williamsburg bridge to be  
reduced to \$10,000 yesterday.

Mr. Heller made his first oratorical effort,  
although he has represented the Wil-  
liamsburg district for nearly two years.

"Dot \$10,000 will not sufficient itself  
for der duppie," he said. "Why dot  
breege will be all electrified. She will  
be lit up, mit flags she will be dec-  
orated from end to end in der day-  
time and the illuminations will be at  
night time immense. Meester Low,  
Mayor, will come from der Man-  
hattan and walking mit der aldermen  
an' dot President of Brooklyn, Mees-  
ter Swanstrom, will come from der  
Brooklyn and walking mit soldiera.  
Dey will be dere at night, an' der  
soldiers will be dere mit der pands playin'  
music."

"Red Lights on the bridge" asked  
Ald. Caulkin.

"Allover it-dis way," answered the  
alderman, spreading out his arms.

The appeal was irresistible.

STATIONERY POINTS.

The newest color in paper is to-  
paz. The wallet envelope continues to be  
popular.

Ragged edged envelopes are decided  
novelty.

White linen lawn is the stationery  
leader at present.

A parchment paper with mottled sur-  
face in blue-gray tints is a novelty.

Genuine tapestry in Bagdad design  
covers one of the handsomest of the  
stationery cabinets introduced this  
season.

Dotted Swiss paper is another new  
production. It has a surface resembling  
chiffon sprinkled with large and small  
dots and may be had in white, blue,  
French gray and greenish hue.

The West India liner Oruro left St.  
John for the first time in the inst.  
and should be up to Halifax or St. John  
in about nine days.

SIX YEARS.

Expected Her Friends Would  
Find Her Dead.

Mrs. C. Bondreau, Campbellton, N.B.,  
was completely cured by

MILBURN'S  
Heart and Nerve Pills.

She tells of her experience in the follow-  
ing letter: "I was troubled with a pain  
in my heart and weakness for six years.  
Most of the time I could not lie on my left  
side. I consulted a doctor but got no re-  
lief and was completely discouraged. I  
did not think I would live long and ex-  
pected my friends would find me dead. A  
friend brought me a box of Milburn's  
Heart and Nerve Pills and I took them to  
please her, not thinking they would do me  
any good. I had not used half the box  
when I commenced to feel myself getting  
better and by the time I had taken two  
boxes I was completely cured and can re-  
commend them to all sufferers from heart  
trouble."

### CONSERVATIVE NOMINEES

For Colchester and Cape Breton North. Unanimously elected.

TRURO, N. S., Nov. 26.—One of the best conventions in the history of the liberal conservatives of Colchester this afternoon unanimously nominated E. E. Gourlay to again be the party standard bearer in the dominion elections. Mr. Gourlay closed a speech of acceptance by declaring that the swing of the victory from British Columbia to Nova Scotia is with the conservatives; that the government knew it and is hurrying the election on two years ahead of time in hopes of snatching a victory. He read a letter from R. L. Borden saying he would be at liberty to address a meeting in Truro Dec. 11.

NORTH SYDNEY, C. B., Nov. 26.—At a convention of the liberal conservatives of the north riding, comprising North Cape Breton and Victoria county, this afternoon, John McCormack, mayor of Sydney Mines, was nominated as the candidate for the federal house in the interests of the conservative party. After the convention speeches were made by R. L. Borden and others.

Conservative candidates have now been nominated in nearly all the other counties of Nova Scotia.

### AN I. C. R. WRACK.

Two Trains Crashed Into Each Other With Terrible Force.

QUEBEC, Nov. 26.—The intercolonial express from Halifax, which left here shortly after noon today, ran into an open switch at De Lothbiniere station, forty miles from here, at two o'clock.

The freight was standing on the siding, and the locomotives came together with a terrific impact. Engineer Stoddard of the express stuck to his post and had his right leg fractured in three places, besides sustaining internal injuries which it is feared may prove fatal. Fireman Ruel was also severely injured.

All the cars of the express left the track, but none of the passengers were injured beyond a severe shaking up. The maritime express from Montreal was delayed several hours.

### OTTAWA.

The Minister of Justice Will Soon Leave for England.

OTTAWA, Nov. 26.—Hon. Mr. Fitzpatrick, minister of justice, may leave shortly for England in connection with the appeal of Prince Edward Island against the dominion in regard to the redistribution act, by which the representation of the province in the house was reduced from five to four members.

The premier left for Quebec this morning, and there will be no full cabinet council till next week at the earliest.

Mr. Chamberlain has sent a letter of appreciation to the Ottawa Sons of England for their recent telegram of support.

C. E. Leroy of the geological survey has accepted the position of field geologist for the Imperial Chinese Railway and Mines administration, and will leave for his destination from Vancouver on December 28th.

Alexander McLean, formerly head of the well known parliamentary printing firm of McLean, Rogers & Co. of this city, has been appointed commercial agent for Canada in Japan. Mr. McLean is an old-time newspaper man.

Chronic Constipation surely cured or money back. LAXA-CARA TABLETS never fail. Small, chocolate coated, easy to take. Price, 25 cents. At druggists.

### AN M. D. CARRIED REVOLVER.

SHERBROOKE, Que., Nov. 26.—Dr. Beland of St. John was today sent to the court of King's bench for trial on a charge of carrying firearms for purposes dangerous to the public peace. From the evidence it appears that a short time ago a man named Reid was injured in his mill, and Dr. Beland was sent for. Word was sent back that he was ill and could not come. Dr. Turcotte was then called, and immediately responded. He fixed up the injured finger and was driving away from Reid's place when Dr. Beland appeared. Dr. Turcotte proceeded on his way home, and had not gone far when bullets began to sing around his head. He drove as fast as he could and was soon in a place of safety. Soon after he passed Dr. Beland's house, when the door was opened and another shot was fired in his direction. None of them hit him, but he naturally objected to being made a target of by his opponent, and the arrest followed.

### FOUGHT ST. JOHN'S BATTLES.

George W. Fowler, M. P., spent yesterday afternoon and evening in the city. Many citizens of both parties took this opportunity—the first they have had—to thank him for his services to St. John during the last session, and especially for the interest he took in winter port matters and in St. John railway connections. Mr. Fowler assured his friends that it was a pleasure to do what he could for a neighboring constituency with which his own was intimately associated. St. John and the province had the misfortune to lose their representative in the ministry during the session, and this naturally imposed additional obligations upon private members.

### RICHARDS WILL CASE.

At the conclusion of the evidence in the Richards will case at Newcastle the judge of probates delivered judgment, stating that in his opinion the second will had been duly proven and that the same was allowed.

In delivering judgment, Judge Thompson found that Dr. Atherton had witnessed the second will, that the testator's mind was clear and sound, and that no undue influence had been exercised.

Work has commenced on the construction of an addition to St. Luke's church, Main street, for the purpose of Sunday school and young people's organizations connected with the church. The building will be about 43 feet square and three stories high, and will include primary school rooms, choir vestry, guild room, rectory's room, kitchen and toilet rooms.

Green's bargain gives in pipes.

### WINTER PORT MATTERS.

C. P. R. Steamer Lake Michigan Due Here on Saturday.

The C. P. R. str. Lake Michigan should reach St. John Saturday. Manifests were received yesterday at the custom house for 4 cars meats, 1 car cream separators, 12 cars flour and 2 cars grapefruit for shipment.

Str. Alouette of the Donaldson line will put out all her inward stuff at the I. C. R. berth.

Str. Dunmore Head was reported to have left the other side some days ago for St. John. She has not sailed yet, in fact she is not expected to depart for St. John till Tuesday next.

The Donaldson str. Glasgow, now on her way here from Glasgow, has on board 700 tons of coal and a lot of general cargo.

Str. Manchester Corporation did not leave Halifax when it is expected she would. She will be held over there till Saturday night. This is because of the fact that the Manchester Trader will not depart till Monday.

The Furness line str. John City, Capt. Bovey, from this port for London, reached Halifax at 2:30 yesterday afternoon.

### CATHEDRAL HIGH TEA.

The cathedral high tea and sale, which has been held every night this week in the York assembly rooms, was brought to a close last evening. The affair from start to finish has proved to be most successful, and the proceeds will undoubtedly be far beyond the expectations of those who were in charge. The ladies of the congregation have spared no pains to make the enterprise a successful one, and they have a right to feel flattered at the results. Each night the crowd in attendance grew larger until last evening it was almost impossible to move around from room to room, while the booths and counters were simply besieged. It was not until after eleven o'clock that the crowd dispersed and the many attendants could retire for a much deserved rest.

The final statement of the affair will be given out, but the secretary is delighted over the amount which has been taken in. In the voting contest for the most popular barber, Gibbs won with 340 votes, Daley winning second with 256 votes.

### WILL LAND AT ST. JOHN.

All the steerage and intermediate passengers are to proceed on the steamer to St. John. This is in consequence of a recent announced decision of the C. P. R. declining to pay \$2 to the I. C. R. for each ticket from Halifax to St. John as was before customary. The mail will be landed here.

### PARTOR CONCERT.

Miss Lagrin's Pupils Delight Large and Critical Audience.

The parlor concert last evening given by the pupils of Miss Annie L. Lagrin, assisted by Mrs. Charles Freese, J. A. Kelly and A. C. Ritchie, was a great success in every way, and much appreciated by the large number present. The programme was good throughout, the concerted numbers were much enjoyed, especially as there is so little of that work in local amateur concerts.

Much praise is due the pupils who made their first appearance on this occasion. Their work was marked by its carefulness, clear enunciation and excellent phrasing, reflecting great credit on their teacher. Miss Margaret Lindsay, Miss Fannie Trentowsky, Miss Ella Payne and H. A. Allison were the soloists and proved a welcome addition to the concert platform.

### R. K. Y. CLUB SMOKE.

The city club room of the R. K. Y. Club was the scene last night of a large gathering of the members of the club, along with friends. It was a pleasant affair and all who attended it declared it so. The programme included selections by the Yacht Club orchestra; songs by Harry Doody, Mr. Kingmill, Wm. Fox, P. H. Ruel; banjo quartette by members of the club; banjo duet by Messrs. Davidson and Hester; black and white dancing by Arthur Purton.

Commodore Thomson made a most interesting address on the Happy Day Past, Present and to Come. The club members were delighted with the general commodore's remarks.

The company sat down to clam chowder supper, which was much enjoyed. Speeches were made by many of those present. Deputy Mayor McGoldrick made a most entertaining speech.

### ST. MARY'S REUNION.

A congregational reunion was held last evening in St. Mary's church school room from 8 to 10 and was well attended. After singing a hymn and a short opening service the rector, Rev. Dr. Raymond, delivered a very interesting address dealing with the work of the several church organizations. The financial statement submitted by the wardens showed the work to be in a hopeful condition. The latter part of the evening was spent in social intercourse, with music, etc., including a gramophone solo by J. A. Lipsitt. Refreshments were served at the close. The entertainment proved so enjoyable that there is a great probability that it will be repeated several times during the winter.

### ST. JAMES' CHURCH.

St. James' church school house was the scene of a very pleasant meeting last evening, when the members of the congregation assembled for a social gathering. The interior of the building was tastefully decorated with flags and bunting by the Young Men's Association, while the arrangement of the refreshments was wintry left in the hands of the King's Daughters' branch. During the evening several gramophone selections were rendered, followed by readings by Misses Holt and Miss McCre of Trinity church.

Later on light refreshments were served by the ladies of the congregation assisted by the members of the Y. M. A. and all expressed themselves as having spent a most enjoyable evening.

### SYMPATHY OF MANY FRIENDS.

Friends of Conductor Cobb of the C. P. R., who resides at Brownville Junction, express much sympathy with him in the loss recently of a three-year-old son. The other night Mr. Cobb's residence was the scene of a social gathering, taking him her little boy. She lighted a fire, and having occasion to go down stairs, left the youngster there. When she returned to the room in which she had left a few moments before lighted the fire, it was to discover the little fellow dead. He evidently had gone too close to the fire and his clothes took fire. The result was his death within a few moments.

### SUSSEX.

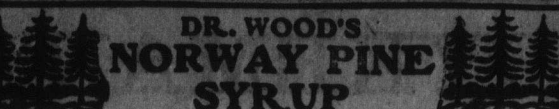

SUSSEX, Nov. 26.—On Thursday evening the members of Zion Lodge, No. 21, A. F. & A. M., Sussex, together with their wives and a number of invited guests, celebrated the anniversary of their one hundred and eleventh year of existence and the recovery of the old charter granted on the 15th day of August, A. D. 1792. The guests, after spending a brief period in social conversation, were invited to the dining hall below, which had been most tastefully decorated for the occasion, and a sumptuous repast was partaken of and most thoroughly enjoyed by all.

### MISSION STUDY CLASS.

The mission study class of German street Baptist church met last evening at the home of Mrs. G. O. Gales and the religion of China was generally discussed under the three heads of Confucianism, Taoism and Buddhism. Very interesting papers were read by Mrs. McIntyre on Confucianism, Miss Emma Colwell on Buddhism and Miss Vaughan on Ancestral Worship.

During the winter the study of the different features of China will be continued, including its history and geography in general.

## CHEWED HIS LIP OFF

Brutal Assault on Alexander Long—on by James Ramsey, Alias Jimmy the Squealer.

James Ramsey, otherwise known as Jimmy the Squealer, has added another characteristic to those which already make him well and unfavorably known in police circles. Last night he chewed the lower lip of at least a considerable portion of it, off Alexander Long.

Very little is as yet known of the affair, but about half past nine Mrs. Longon went into her home on the Westmorland road and found Ramsey sitting on the table. Her husband was also seated in the room, the lamp was out, and the windows were broken. There were other signs of trouble, so Mrs. Longon after taking an inventory complained to the police that Ramsey had assaulted her husband. About an hour later Officers Covey and Greer arrested Ramsey. Longon did not appear anxious to give him in charge or to make any complaint. When arrested Ramsey bore marks of the fight. His face was badly bruised and scratched. It was found that Longon was in an even worse condition. A large piece of his lower lip had been chewed out and the wound was bleeding profusely. The man was taken to the hospital about midnight, where Dr. Lunney found it necessary to put a number of stitches in his face. He was unable to appear in court today. Ramsey is charged with assaulting, beating and biting Longon and with breaking a lamp and four panes of glass in his home. The men live next door to each other, and it is said that both had been drinking.

## COLD WEATHER SHARPENS TRADE

Improvement in all Business Lines—Trade in Upper Canada Brisk.

NEW YORK, Nov. 27.—Special telegraphic advices from correspondents of the International Mercantile agency, regarding the state of trade throughout the United States and Canada are summarized as follows:

Improvement is shown in industrial, agricultural and commercial lines. Pittsburgh looks for general gains in demand for iron and steel from now on, except for iron ore, pig iron and billets, and in the latter after January 1.

New England shoe and leather industries are quite active. The favorable influences are felt by reason of the prospect for a reduced Pennsylvania soft coal output next week, but the attitude of organized labor at Chicago, Fall River and elsewhere in accepting necessary reductions of wages is regarded as a favorable indication. Farmers will not be bit by prospective trade depression owing to good crops. Southern planters will profit unprecedently through the high price of cotton.

East of Chicago railroads reports notable increase of business due in part to close of navigation. General trade shows more snap owing to colder weather. This applies to the country generally.

Philadelphia bankers look for a fairly favorable business for six months to come.

New York grocers report a good demand for high class staples.

Trade at Montreal is improved owing to the rush prior to the close of navigation. Collections are only fair. Holiday trade is brisk at Toronto, and demand for seasonable goods is active, precedently through the high price of bank statement shows that call loans have been contracted.

## STRIKERS MAY SETTLE

Western Miners Sorry They Rejected Operators' Proposition—Want Chance to Reconsider.

DENVER, Colo., Nov. 27.—Although there are no new developments, the feeling is general that the strike in the northern coal fields will be settled in a few days; the men are said to be disgruntled over their action in rejecting the proposition of the operators and are clamoring for another vote. President Wm. Howells, of District No. 15, has telephoned Mgr. Spang, of the Great Western Coal Co. that he will no longer oppose a settlement of the difficulties in the north and it is believed that a vote which will settle the strike there will be taken in a few days.

## G. P.'s. ON STRIKE.

Part of the Gang Quit Work, But the Cells and Fasting Soon Brought Them Around.

The members of the chain gang had cold feet yesterday and were not inclined to work. Early in the morning they got out of bed and had breakfast—good, pure, wholesome food and lots of it. Having eaten, they felt better and decided that as the morning was quite too chilly they would not go to the park. When the time came to march out, in accordance with their decision, they refused to budge and quietly settled down to a day's rest.

The guards were at a loss to know what to do, but sent for Deputy Sheriff Rankine, who delivered an oration. He pointed out the many advantages of a healthy occupation, and incidentally mentioned the inconveniences of refusal, such as lack of companionship and a want of variety in the menu. In this manner he so worked on the feelings of the men that all but four or five decided that on the whole there was nothing like work to keep one in good trim.

So they went out, with only warm mitts and socks, and light clothes on other parts of their bodies, and the four or five others remained behind. These, by the way, had just eaten breakfast and were not feeling hungry. They went back to their cells and stayed in there instead of enjoying that elevating companionship and communion of souls so common in the jail.

But when dinner time came they began to feel that emptiness and longed for the fresh pots of Egypt, the roast beef to which they had been accustomed. Instead of this, they got bread and water—good, pure, wholesome food and lots of it—and at supper time their strength was renewed on the same dainty viands. This morning the men went to work. The strike was over and the whole fourteen are shovelling dirt.

Sheriff Ritchie said today that he was aware that the clothing worn by some of those who are compelled to work was not sufficiently warm for this weather. Nothing but the mitts and socks has been supplied as yet and it is no wonder the men complain of the cold. Meanwhile, Ald. Lewis is interesting himself in their behalf.

## NAVIGATION CLOSED.

Stmr. Beatrice E. Waring Made Her Last Trip.

River navigation for this season is closed, the Beatrice E. Waring being the last boat to arrive at Indiantown. This steamer and the Hampstead here remained on their respective routes longer than any of the others, and both left Indiantown yesterday, the Waring about noon and the Hampstead at three o'clock. The latter went to Wickham and started right down river again instead of waiting until morning. She reached her wharf shortly after midnight, and will now lay up for the winter.

The Waring got as far as Earle's landing in the Belleisle yesterday and the Hampstead, started at once on the return trip. She came to the foot of the reach and laid there for the night, reaching Indiantown this morning. This was the Waring's last trip. Reports from the river are to the effect that the skim of ice which has been slowly forming during the week has been made much firmer by the cold of the past two days, and is now sufficiently heavy to keep the point off the steamers. In some of the coves the ice is comparatively strong.

## POLICE COURT.

Michael Boyle, who comes from somewhere up country, took charge of the streets yesterday afternoon. He was in a car on Paradise Row, in which there were a number of ladies, and repeatedly stood up and loudly announced that he "didn't care a— for anybody." His statement was accepted without comment. Later, on Charlotte street, while still drunk, he assaulted ladies and children by pushing them off the sidewalk. Officer Totten arrested Boyle, who was this morning fined eight dollars or thirty days for drunkenness. No mention was made of his other offences.

Michael Hillan got two months for being drunk on Water street, and Charles T. Murray, a young fellow who was slightly muddled last night, and who is going away on the Lake Champlain, paid two dollars for the same offence.

## A USEFUL INVENTION.

In Scovil Bros' store there is a specimen of plumbing which will be of interest to many in the city who are engaged in this work. The specimen consists of a number of connections of lead pipe and fittings and is in illustration of an invention calculated to do away with pipe joints and in fact make practically all joints without the use of solder. George Hyatt is the inventor, and he claims that his method has successfully stood some severe tests. The principle involved is a simple one, and consists in applying pressure to the lead pipe by means of inner and outer threaded fittings. The lead pipe is clinched by the threads on both sides, and the joint can be made very quickly.

## LOSERS BY THE FIRE.

Dowling Bros. will not occupy the store on King street, which it was said they were looking for, but are now negotiating for a place on Charlotte street, which may be leased until their own premises are repaired.

## INVENTOR SEEKS PARDON.

Convict Who Designed Electric Chair for Executions in Massachusetts Wins Freedom.

BOSTON, Mass., Nov. 26.—Henry K. Goodwin, an electrician, who is serving a life sentence in the Massachusetts State Prison for murder and who built the electric death chair in that institution, has applied to Governor Bates for a pardon. He has been in the prison eighteen years for killing a Lawrence attorney, Albert D. Swann, who he said robbed him of patents he had obtained for a telephone switchboard.

Goodwin has invented several electrical devices since he has been a prisoner, besides building the electric chair which he has placed in readiness for every execution that has taken place at the prison. His petition for pardon is headed by Representative William S. Knox, who was a law partner of Goodwin's victim.

## CATTLE WORTH \$50,000 KILLED.

CROWN POINT, Ind., Nov. 27.—In a blinding snowstorm here yesterday a valuable herd of short horn cattle, con-

signed from Ohio to Chicago, where they were to be exhibited at the live stock show, was killed in a train wreck on the Pan Handle Railway. The wreck, which was due to a rear-end collision, is attributed to the snowstorm, which prevented the engineer of the stock train from seeing the freight train that preceded him. The loss on the cattle is estimated at \$50,000.

## TO STOP STREET CAR CROWDING.

LONDON, Nov. 27.—The North London authorities have adopted a novel method of suppressing the over-crowding on street cars. Finding that the arrest and fining of conductors was insufficient they are now resorting to the arrest of passengers, including women, whom the magistrates fine for "aiding and abetting" conductors in contravening the anti-crowding law.
