OLDER BOYS' CONFERENCE

The Older Boys' Conference at Hartland was opened on Friday evening, December 7, in the vestry of the United Baptist church. Rev. Waldo C. Machum of Fredericton, Field Secretary of Baptist Board of Religious Education and Rev. H. S. B. Strothard, Sackville, Field Secretary, Methodist Board of Religious Education, as leaders, together with a total registration number of 64 delegates were present, including sixteen local boys. Three Grand officers were elected by the boys as follows: Stanley Chapman, Grand Falls, Grand Praetor; Fred Young, Jacksonville, Grand Scribe; and Roy McIsaac, East Florenceville, Deputy Praetor. The Mayor of Hartland, L. M. McFarland, gave an address of welcome on behalf of the Town to the visiting delegates. This was responded to by Stanley Chapman. Mr. Strothard addressed this session on the theme "The Investment of Life." Four squares were then formed which were to work in competition during the conference. The following leaders of the squares were appointed: Rev. G. F. Bolster, Rev. H. S. B. Strothard, Rev. W. C. Machum and Sterling Wood, Principal of the East Florenceville High School.

The second session of the Conference was held on Saturday morning. The delegates were divided into two groups, "Youth Boys" and "All Others." Mr. Machum addressed the first group on "The Revised C. S. E. T. Program" and Mr. Strothard addressed the second group on "What is C. S. E. T.?" Mr. Strothard then gave a talk on Bible study for boys, after which Mr. Wood gave a physical drill. The squares then adjourned for their sessions.

The third session was held on Saturday afternoon at which Mr. Bolster gave an interesting address on "The Boy and the Missionary Enterprise." Mr. Strothard then led the discussion on "Mid-week Activities."

On Saturday night at six o'clock the entire Conference assembled in the building of J. Clark & Son, Ltd., for the Conference banquet. After thanks were returned by the Rev. Mr. Cameron of Plaster Rock, and the boys partook of a goodly repast, toasts were proposed as follows:

The King—proposed by Mr. Machum, responded to by singing of the National Anthem.

Canada—proposed by Ronald Smith, responded to by singing of "O Canada" and a talk by G. W. Montgomery.

Our Homes—proposed by Bruce Sutton, responded to by J. B. McCollum.

Public Schools—proposed by Paul Hestabrooks, responded to by A. Plummer.

Our Churches and Sunday Schools—proposed by Geo. Young, responded to by Rev. J. K. King.

C. G. I. T. Girls—proposed by Stanley Chapman, responded to by Margaret Kennedy.

The Ladies—proposed by Fred Young, responded to by Mrs. Bolster.

It was then moved by Mr. Bolster that a vote of thanks be extended to H. N. Dickenson, local manager of J. Clark & Sons, Ltd., for his kindness in allowing the use of the building for the conference banquet. Mr. Machum then gave a good-night talk on the theme "Que Vadis?" The banquet closed with benediction pronounced by Mr. Strothard.

Fifth Session was held on Sunday afternoon, at which Mr. Machum gave an inspiring address on "The High Way or the Low." Results of the Conference were then taken on decision cards.

The closing session was held at the close of the other church services in the United Baptist church on Sunday evening. This was a very inspiring and impressive service, it being the only session that the boys could show to the public the way and the manner in which the C. S. E. T. program is carried out. The delegates

of the Conference marched to reserved seats in the church while the congregation sang "Onward Christian Soldiers." The Grand Praetor then called upon the Grand Scribe to read the entire minutes of the conference. Following the Grand Praetor gave a short address on the aims and the C. S. E. T. work in general, making reference in his speech, that one of the boys who used to take a prominent part in C. S. E. T. work and (Continued on Editorial page)

HELP THE HOMELESS ONES

Will the Protestant people of New Brunswick provide an adequate home for the Protestant Orphans of the Province?

This question is being answered this week. The five days' province-wide appeal is on, and it is declared that never in the history of the province was there such a unity of purpose among the Protestant people. Denominational bars are down, and a common zeal to remove what has been a reproach to all is everywhere manifest.

There could be no more appropriate time than that which immediately precedes Christmas for an appeal in behalf of children, and these are the homeless and friendless children, for whom, He who was the Babe of Bethlehem would plead if He were on earth today.

The City of St. John is strong to raise \$150,000, and hopes an equal sum will be subscribed in the rest of the province. No less than seven hundred workers are combing that city for subscriptions. It is a wonderful and inspiring example of church union for a specific purpose.

In Protestant Churches all over the province an appeal was made last Sunday. In every centre in the province leading men have joined in the organization for the campaign. The press of the province has been most kind, and sympathetic with the movement which is universal.

The question as to the future control of the Protestant Orphan Home has been settled by the Board Managers. As soon as legislation can be obtained every county in the province will have a member on the Board of Directors. This will bring every part of the province into constant touch with the conduct of the institution, and enable each county to share in the benefit conferred upon the orphans. The Board feels that this course is not only fair to the counties but in the best interests of the Home.

No more desirable location for the Home could be formed than the fertile acres of the Manchester farm near Fairville. Plans of the buildings to be added have been published, and show that this will indeed be an ideal Orphan's Home, and a lasting monument to the Christian generosity and love of the Protestant people of New Brunswick. Every Protestant will desire to have some small share in the beneficial work.

"What if this were your child?" is an appealing slogan on the eve of the great Festival of Christmas.

GOD'S MESSAGE TO THE CHURCH

At the Hartland United Baptist church next Sunday morning Rev. G. F. Bolster will give the sixth sermon in the series on "God's Message to the Church" or "The Church with Its Strength." The subject is based on the letter to the Church at Philadelphia—Rev. 3: 1-13.

In the evening the pastor will again preach and will take for his subject "A Searching Question." Special music will be provided by the choir. A cordial invitation to all who are not worshipping elsewhere to attend these services.

Just unloaded a car of nice Nova Scotia apples. Price very moderate. Inquire Farmer's Store or A. R. St. Pierre.

TWO FIRES ON SUNDAY LAST

Judd McGee Loses Barn and Store
Burned at Jacksonville

A disastrous fire occurred at Lower Brighton on Sunday morning when the barn, wagon house and hog house of Judd McGee was totally destroyed. Notwithstanding the other buildings were close by they were saved by the diligent effort of the neighbors and friends who came from far and near.

The only cause for the fire that can be conjectured is that a tramp may have slept in the barn and carelessly thrown a match. Included in the loss was thirty five tons of hay, four head of cattle, four hogs, a lot of straw, a wagon, pump and harness. The loss was fully \$5000 and the insurance only \$700.

The general store at Jacksonville was totally destroyed by fire early Sunday morning while Angus Macdonald, the owner, his wife and two children were in Woodstock at the home of Mrs. MacDonald's mother, Mrs. Adams. The loss is a serious one to the community and to Mr. MacDonald. The property is valued at \$5,000 and there is some insurance.

The fire was first discovered at 3 o'clock in the morning when flames were seen coming out of the window of the living room. It is supposed that fire caught from the furnace which had been left burning slowly when the family went in to Woodstock at 9 o'clock on Saturday evening.

The smoke was so dense in the store that no entrance could be gained and all that the neighbors could do was endeavor to save the nearby buildings. The fact that there was no wind and that there had been a heavy rain on Saturday night helped to prevent the fire spreading. It was confined to Mr. MacDonald's property but claimed house, barn, grainery and all of the store goods. The store was a wooden building two stories high.

JOHN BOHAN DIES AT HOME IN BATH

He was a Well Known Produce Dealer
and Leaves Many Relatives
and Friends

The news of the death of John W. Bohan, at his home in Bath, Sunday morning, was heard with profound sorrow. He had been ill for several weeks and went to Montreal recently for medical treatment, but did not receive any benefit. Perhaps no man in Carleton and Victoria counties was better known than Mr. Bohan. For years he carried on a general produce business and had warehouses in many sections to facilitate the rapidly increasing trade that attended honest and progressive methods.

He was about 65 years of age, and is survived by a son, three daughters, two brothers and three sisters. His wife died about three years ago.

He was an ardent Liberal and one of the most prominent and influential members of the party.

Mr. Bohan was the son of the late Mr. Thomas Bohan. His son is Charles Bohan. The three daughters are Misses Genevieve and Elsie at home, and Mrs. W. J. Gorman. The two brothers are Matthew of Bath and Michael in Ontario, and the two sisters, Mrs. Lynch, of Fredericton, and Misses Mary and Catherine Bohan, of this place.

Mr. Bohan was a gentleman of outstanding character and had many warm personal friends wherever he was known. He will be greatly missed, not only in the community in which he lived, but by a large circle of friends and business associates. Much sympathy is felt for the family in their bereavement.

The funeral was held Tuesday and was largely attended. One of the latest funerals in the county.

VICKS IS THE THING FOR ASTHMA

Ontario Mother Tells of Stubborn Case Relieved

Mrs. Wilbert E. Collier, of Bowery street, Picton, Ont., says: "My little girl had a terrible case of asthma. I read about Vicks and sent out for a sample. I rubbed my child's chest and throat with it and put a fannel on. Vicks did her so much good that I bought two jars. She now sleeps well, and is a different child. I would not be without Vicks VapoRub in the house."

A good way to get relief from asthma is to rub Vicks over the spine from shoulders to hips; then melt a little Vicks in a spoon and inhale the healing vapors. Also insert some in the nostrils, snuffing well back. You will be delighted to see how it clears the head.

Vicks comes as a salve—the external direct treatment for all cold troubles—absorbed like a liniment and inhaled as a vapor.

Treatment with Vicks is especially desirable for children as it avoids so much internal dosing. Just as good too, for cuts, burns, bruises, sores and skin itching.

At all drug stores, 50c a jar. For free test size package, write Vicks Chemical Co., 344 St. Paul St., W. Montreal, P. Q.

Though Vicks is new in Canada it has a remarkable sale in the States. Over 17 million jars used yearly.

Sewing Circle Gossip

There was some discussion at the Circle this week about the prospect of England abandoning her free trade policy in favor of a protective tariff. Opinion as to the wisdom of such a change was about equally divided. A vote was subsequently taken as to the most popular coffee now obtainable on the local market, with the result that LUXOR was so acclaimed by an enormous majority.

INSURED FOR \$50,000

Mile. Lengien. Protects Her Limbs With Large Policy.

Mile. Lengien takes the greatest precautions to guard from possible damage the hand with which she makes her wonderful drives and volleys. She even shakes hands with her left hand in order that her right may escape the slightest harm.

As she is an amateur she would suffer financial loss if, by some injury, she were prevented from playing tennis again, otherwise she might follow the example of other notable people and take out a heavy insurance on the limb which has brought her to the topmost pinnacle of lawn-tennis fame.

Famous dancers and instrumentalists are almost invariably protected by some such policy, since the slightest injury to ankle or finger might cause the cancellation of a contract and the consequent loss of thousands of pounds.

For many years Paderewski paid \$4,000 a year for premiums against injury to his hands, which were insured for \$60,000. He had separate policies for his fingers, thumbs, eyes, and toes, and on one occasion, when a damaged finger-nail prevented him from appearing at a concert, he was paid \$5,000 compensation.

Kubelik, the great violinist, had his "bow" hand insured for \$10,000 against injury, and for \$50,000 against permanent disablement.

Pavlova is said to have protected her beautiful limbs by a most comprehensive insurance policy. The disablement of a single toe of her dainty foot might cost the underwriters no less than \$30,000, while her countrywoman, Mile. Nader-skowska, insured her feet against accident to the extent of \$62,500.

It might appear to be impossible to insure such an intangible thing as a voice, but Mile. Patti, who was one of the pioneers of this form of protection, was invariably insured for \$5,000 a performance. Since then her example has been followed by many famous singers.

When Mr. Tom Burke, the celebrated tenor, was booked for a series of 100 concerts throughout Canada and America, his impresario safeguarded himself by insuring the life of the singer for \$500,000.

It is not only those who amuse and entertain the public who insure themselves against the loss of their powers. The late Prof. Huxley was the first man on record to insure his eyesight, and would have received \$25,000 if he had gone blind; while it is stated that the hands of Sir Herbert Barker, the famous oculist, were insured for \$100,000.

When, however, a certain famous boxer tried to insure his hands against injury, the underwriters refused to quote him terms for the risk.

Did It on Purpose.

A new lodger had arrived at Mrs. Jenkins' establishment, where she "took in and did for" a few single and select gentlemen.

Binks was employed at a town some distance away, and therefore he had to be away early in the morning. On his second morning in the house he stumbled over a tin bath which had been left at the top of the stairs, and with a crash and a great shock to his constitution, he went head over heels to the bottom.

As the lodger picked himself up he heard a sleepy "Right-ho!" from one of the bedrooms above, and was surprised when he complained to Mrs. Jenkins to see that good lady chuckle.

"That was Mr. Brown," she explained genially. "He's such a heavy sleeper that only the clatter of someone falling down the stairs with a bath can wake him! He calls it his alarm clock!"

Home Basket-making.

The ancient trade of basket-making is booming in many villages where marshy land is available for growing osiers—willows whose pliable twigs are used in furniture and basket-making.

This work, which is helping thousands of families to meet the hard times in agricultural industry, was learnt by many women and children during the war, when observation balloons and shell baskets, gun timber fittings, and other basket articles were required.

To-day these women, with children's help, are turning this war knowledge to profit. Their husbands are renting cheap land, often waste, low-lying land beside railway lines, and every process of the basket-making is being done at home.

The Shark Sucker.

The shark sucker, a defenceless and retiring fish, fastens itself to the surface of the voracious shark, but it is not harmed by the shark and the shark sucker does no harm to the shark, except to retard its motion. Shark suckers are carried about by sharks often to great distances. They attach themselves by a large sucking disk on the top of the head, which is a modified spinous dorsal fin. If the shark is caught and drawn out of the water, these fishes often let go and plunge into the sea, swimming away with great celerity.

Longstanding.

Daniel Guettier, ex-president of the Bordeaux, France, Chamber of Commerce, is the head of a firm established in 1725. At that date another Daniel Guettier was head bailiff to the Comte de Segur, whose estates comprised the celebrated vineyards of Chateau Lafite and Chateau Latour.

A Mr. Barton, whom the Dublin clubs sent frequently to France to secure supplies of claret, did business with Daniel Guettier, and they formed a partnership to trade in wine on their own account. The partnership has ever since been continued by the two families, who are now represented by the fourteenth of each name.

Sewing Circle Gossip

There was some discussion at the Circle this week about the recent defeat of prohibition in Alberta. The majority of our members denounced the change which had taken place in public opinion out there. But the wife of the radio operator took a different view. She said she believed in permitting people to drink whatever beverage they liked. As for herself, she said there was nothing she liked so well as LUXOR ORIENTAL COFFEE.

LOCAL AND PERSONAL ITEMS

On Wednesday evening the management presented Clara Kimball Young in "A Woman of Bronze." This was a rather pathetic photo play, with a touch of the eternal triangle included. In this picture, a strange phase of it was the fact that the father of the star, E. M. Kimball played an important part. Others in the cast were John Bowers and Floyd Whitlock. On Saturday evening Dustin Fardum played in a Fox special "The Yosemite Trail" a tale of former days in the wild and woolly west. Each evening a Fox news and an educational film supplemented the headliner.

Rev. Hugh Miller and B. E. Cliff called a meeting of the citizens in the Farmers' Hall on Monday evening to consider ways and means of pushing the Protestant Orphanage Fund drive this week.

Amateur "doctoring" of electric wiring has burned many a home.

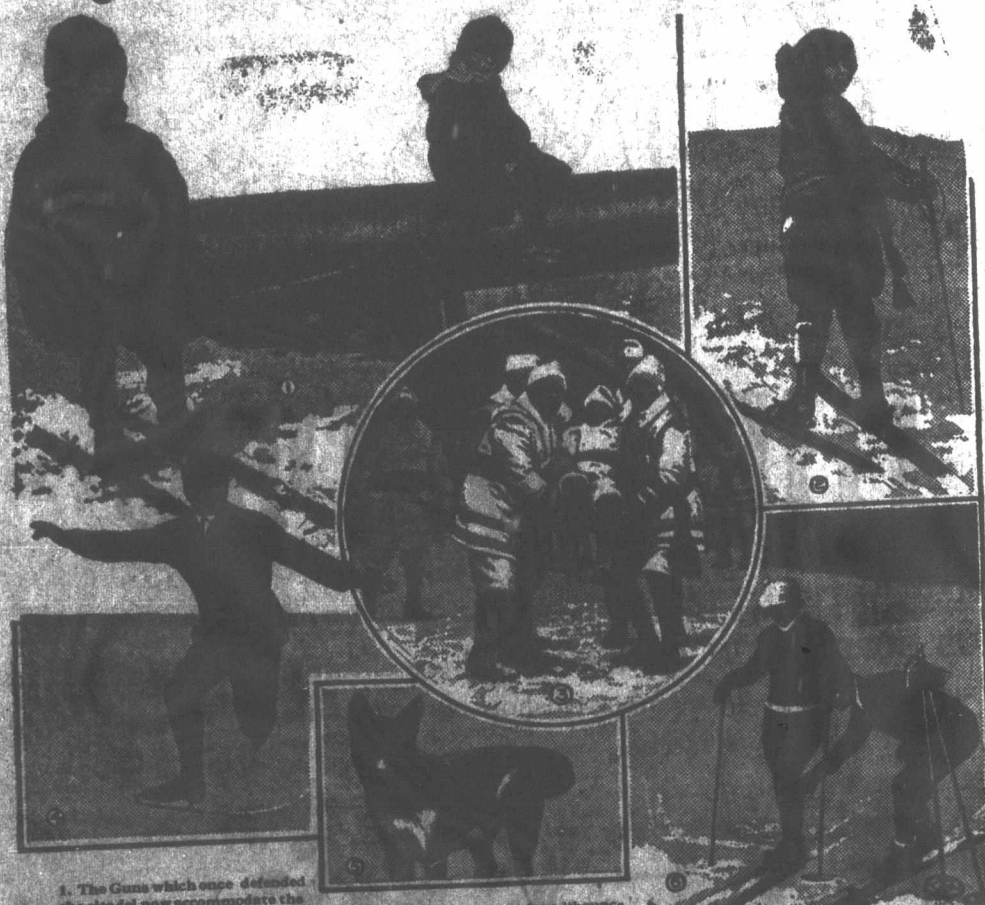

A drop light is needed—a wire is connected with another by simply twisting the ends together, and the light is suspended by giving the wire a turn about a hot steam pipe. At once you create a serious fire hazard.

This agency is in a position to help you avoid such dangers and to offer you the soundest possible indemnity against loss by fire. Just telephone for a policy and be protected.

Quebec to Repeat Carnival Success

1. The Guns which once defended the citadel now accommodate the small quail. 2 and 3 are ski-ing scenes. 4. These are out for a "bounce" good time. 5. Skating in the Exhibition Grounds is also the order of the day. 6. "Wag" was born this year to the Chateau Frontenac dog team and he will probably figure largely in the dog race featuring the Winter Sports Program.

QUEBEC is again to have a real, live carnival that shall be truly representative of the wonderful sporting attractions of the ancient Capital. The success of the dog races held in Quebec last year has encouraged the organizers to sponsor a very much bigger program for this year, and a comprehensive series of sporting events will be held on February 21, 22, and 23, in which all the sports for which Quebec is so naturally adapted will be represented, and culminating in a grand masquerade ball at the Chateau Frontenac. In addition to the international races for the Eastern Dog Sled Derby Trophy, there will be events in snow-shoeing, skiing, ice racing, curling and skating. The whole of these events will take place within the Exhibition Grounds, and it is proposed to once again give Quebec an ice palace.

The people of Quebec take, and naturally, a great pride in their wonderful old city, and the ancient capital is not so large that its people cannot get together on occasions to face on mass. A carnival in Quebec is not to be forgotten, for the whole populace absorbs the spirit of the

season, drawing its visitors into the gay vortex, so that even the walls which rang to laughter centuries ago lose their aged atmosphere, and lend themselves to the festive reason of its even and exhilarating climate. Its accessibility and natural and artificial opportunities for sport, Quebec is the home of the winter sports for the continent. Each wintry season, more people are attracted to it, and for long periods it becomes the social centre, as well as the sporting centre of North America.

Practically everything that is carried on is on an open scale—Quebec is the soul of hospitality. A hundred rinks invite you to skate, as far as you can see, ice-dial hills invite you to sled through their myriad glorious glades, of toboggan slides there are not a few, and there are many excursions which simply must be made on snow-shoes. As for evening entertainment, the ball room of the Chateau Frontenac is the scene of a dance nightly. There are moonlight excursions, events on all illuminated rinks, music, song and dance—a thousand things to do.

OLDER BOYS' CONFERENCE

(Continued from first page)

Conferences, although now yet in his youth, is taking a prominent part in the British Elections, andolph K. Jones of Woodstock. He heartily thanked the leaders of the Conference and all those who helped in making the conference a success. At the close of his address he called on the Deputy Praetor, who also expressed his appreciation on behalf of the delegates for the way that the boys were entertained during their stay here. He then read the attendance report, giving demonstrations and Towns represented which is given below:

Denominations Represented—

Baptist	31
Methodist	13
Presbyterians	13
Church of England or Anglican Church	3
Reformed Baptist	2
Advent Church	2
Total Number Denominations represented	7
Towns Represented and number of delegates from each—	
Woodstock	17
Hartland	16
Florenceville	14
Grand Falls	3
Jacksonville	3
Bristol	2
Biggar Ridge	2
McAdam	2
Bath	1
Debec	1
Fredericton	1
Lakeville	1
Waterville	1
Number of towns represented exclusive of Hartland	12

Messrs Strothard, Wood and Machum then spoke on behalf of the Methodist, Presbyterian and Baptist denominations respectively, giving their views in regard to the work that this Conference was assembled to accomplish. The Top Notch badges were then presented by Mr. Machum to the winning square, which was led by Mr. Strothard. The Fellowship Circle was then formed by the boys forming a circle around the Church, and a short and impressive closing followed, after which the Grand Praetor declared the Conference closed.

It might be said that the verse of Scripture on which the laws and aims of the C. S. E. T. boys work is founded, is Luke 2:52. "Jesus increased in wisdom and stature and in favor with God and man." This gives the four-

fold program that they have adopted, being to develop themselves intellectually, physically, spiritually and socially.

The remarkable open weather, while pleasant, is real disastrous to business interests of the county. Lumbermen are having great difficulties with their work and Christmas trade is likely to suffer. It is a remarkable fact and one never known before that at this date, December 12, there has been no floating ice whatever in the river. A few inches of snow fell yesterday, but not enough to make seliging. What is needed most for the lumbermen is hard freezing and then snow.

Dr. W. B. Somerville, who a few months ago came to Hartland to work up a practice, has gone to Andover, Me., a small town near Rumford. He reports that the opening there is an excellent one and that while he intended to return to Hartland to close up his affairs he has been busy every minute while in his new location. He will find it difficult to come back even for a brief stay. The people will be sorry to have Dr. Somerville leave, but are glad to know that he is meeting with such good success.

There is a considerable improvement in produce at the present time but the open weather is making it exceedingly difficult for handling dressed poultry and meats. Today dealers are paying 22c for chickens and they seem to be plentiful. Turkeys, ducks and geese have not yet come into the market but dealers would pay 40c to 45c for turkeys and 30c for others. This class of poultry will not come on the market until the end of next week. Today potatoes are bringing \$1.40; pressed hay \$11; oats 40c; pork 10c to 15c; beef 8c.

The Church of England Women's Association held a very successful sale of work at the store once occupied by Carter & Young, Canada road, on Wednesday last. During the evening refreshments were sold at popular prices. Dainty hand painted articles for Christmas found a ready sale, as did the needlework. A brisk business was done at the bazaar, and Miss Roberta Hammond who presided at the TICKET WICKET, sold many tickets. Most of the tickets however were one-way-ones only, only one person having a return. At the time of writing this we were not in a position to know who it was that made the return trip. The handsome sum of \$165 was realized from the proceeds of the sale.

M. Abbis was called to Montreal a couple of weeks ago on account of the death of his sister, Miss Mary Abbis, who died on November 20, after a long illness, aged 51 years. The funeral service was held on Nov. 24 from the Church of Notre Dame de Lourdes, and interment was made in Mount Royal Cemetery. Mr. Abbis was accompanied to Montreal by Mrs. Abbis. They returned on the following Monday. Mr. Abbis says that when he was there Montreal was covered with snow.

Mr. and Mrs. Harry Babin, whose marriage announcement was given in our columns a short time ago, have been the guests of Mr. Babin's mother for the past week or so. On Tuesday Mrs. Babin and her daughter, Miss Emily Babin, held an afternoon tea in honor of the bride. Mrs. Aaron Lawson and Mrs. J. W. Hall poured the tea and coffee, and assisting the hostesses were Mrs. A. Sullivan, Mrs. S. Burpee and Miss Agnes Hebert. Among those present were Mrs. J. McKenzie, Mrs. T. J. Scott, Mrs. Wm. Matheson, Mrs. J. M. Stevens, Mrs. R. B. Owens, Mrs. A. Brebner, Miss L. Brebner, Mrs. J. W. Hall, Mrs. A. Lawson, Mrs. Alex Dunbar, Mrs. J. Dunbar, Mrs. R. Sergeant, Mrs. F. Griffin, Mrs. F. S. Mr. and Mrs. Babin left for Hull, Que. on Wednesday by the Temiscouata. Mr. Babin holds a position in Hull at the Bank of Montreal. The Observer joins with their many friends in Edmundston in wishing them very much happiness.

WANT SNOW, HE SAYS

Donald Fraser, of Frasers Limited, Edmundston, when asked yesterday about conditions in the lumber business in the north western part of the province, said that the very fine weather and lack of snow made it almost impossible to get lumbering operations there started. "He thought, however, that the season would be a successful one as most operators intended to make fairly heavy cuts."

HOTTEST PLACE ON EARTH

The Thermometer is a Very Poor Indicator.

Discussing the hottest place on earth, a "Returned Exile" writes: When travellers from the deserts of India, the banks of the Zambezi, and the back blocks of Queensland began to compare thermometer readings it is probable that none will yield pride of place until the highest figures known to meteorological science have been reached and surpassed.

In India, Jacobabad has an evil reputation, but there the retired Indian colonel is beaten on his own ground, as I can claim to have spent a fortnight at Shikarpur in June, the hottest month of 1905, one of the worst years on record.

Shikarpur is not many miles from Jacobabad, and, having no garrison, has not acquired similar fame, but is even more sultry, being surrounded by trees which keep the breeze that might otherwise bring a breath of early morning coolness from the desert.

When I was there the mercury on several occasions touched 128 degrees in the shade, and for more than ten days on end never fell below 100 degrees at any moment of the day or night.

Contrary to popular belief, the most intense heat is not to be found near the Equator, and often outside the tropics altogether. The highest reading in my experience—131 degrees—was taken in Manchuria, but that was in a railway carriage between Port Arthur and Harbin, and would not be accepted as "official." Further north still, at Blagoveshensk in Siberia, where the thermometer in winter falls to 60 degrees below zero, extreme heat is common in the summer, but only for brief periods.

In the southern hemisphere readings of 110 degrees, and 115 degrees are frequently reported from Western Australia and Northern Queensland, Burke and Townsville being notorious in this respect.

But so far as human comfort is concerned, the thermometer is a very poor indicator, and the figures are hardly worth arguing about. In the sticky heat of large cities in July it is possible to be almost melted at 80 degrees, while 50 degrees in the dry Sahara is perfectly bearable.

To vary an old saying, "A woman is as cool as she looks, and a man as hot as he feels."

Least Said, Soonest Mended.

Mr. Brown was calling on an old friend; but, unfortunately, Mr. Brown was one of those people who, with the best intentions in the world, always manage to say the wrong thing.

"I declare," he remarked to his friend's wife, "it quite surprises me to find you here. I thought you had gone to the States."

A stoney stare from the lady soon made him realize that he had said the wrong thing again.

"Er—er not that your home life is anything but," he continued—"er—er—that is to say, that it makes me all the fonder of my own home, or rather that the— as someone once said a hair of the dog that bit you—er—which isn't, of course, what I mean. But when a man is lonely he can enjoy the society of almost anybody."

"Sir!" broke in the lady angrily. "I mean," floundered Mr. Brown, "that, be it ever so humble, no, no, yours is not that—but there's no place like one's own—but I mean—well I must be going. Good-day!"

That One Went, Too!

The Hughes' household was one procession of cooks. One day they entered the kitchen, and the next they went out by the door. None of them seemed to know the slightest knowledge of how to boil an egg. A new "treasure" had just arrived, and Mr. and Mrs. Hughes sat down to breakfast on the morning after her arrival, with hope in their hearts. "Haggis's cooking was anything like her looks, then it would indeed be good."

But, alas, when the bacon was placed on the table Mrs. Hughes had only to take one look at it to see that it was burnt to a cinder.

"Dear," said the wife to her husband, "the bacon is all burnt again! I'm afraid you will have to be satisfied with a kiss for breakfast this morning!"

"All right!" responded the husband gruffly. "Call her in!"

Just Like a Man!

Mr. Young's husband had not found life a path of roses since he had led his chosen to the nuptial altar. He was always trying to please his wife, but somehow he never could guess. One evening, on arriving home, he said to her: "Well, Hilda, you can't guess what I've been doing to-day."

"Making a fool of yourself, as usual," replied the loving Hilda, ungraciously.

"That's as you look at it, dear. But I have done something really good. I've insured my life."

"Well," was the snappy reply, "I always knew you were mean! Insured your life, indeed! Always looking after yourself first!"

See Jewels.

Visitors can be seen roaming the English sea coast for valuable stones. The sea collects the jetsam of ages and specimens of every geological formation. Among others found are corals, chalcidony, amethysts, agates, onyxes, and pieces of Jasper. The "Blue Ruby" is a garnet found to the eastward of Belle Harbor, on the coast of Eife. Other parts of the coast have their special jewels. Onyx can be found almost anywhere. As for pearls, it has been stated that they have been found in cockles at Con-way.

He Knows.

Dead man at Wilkeson (to a witness): Oh, what awful heat! The magistrate (abutting): Can you hear? Man: No, but I know her of old.

Seeing in the Observer of November 28 a record of a day's threshing from 8 a.m. to p.m. done by Perry Barker for Geo. Grainger, 374 bushels, I thought we could go some back in Aberdeen as Will McIntosh started the wheels going in Rod Lee's barn while after the school bell rang at 9 o'clock and when they came out of school at 4 o'clock there was 284 bushels bagged and dumped in that time. And mostly led by Mr. McIntosh who is 75 years old.

James Cammack has 24 foxes, a bobcat, some mink and other small furs to his credit.

THE PROTESTANT ORPHANS' HOME

Sunday, December 9 will be set aside in every Protestant church in New Brunswick as Orphans' Sunday. If the request of the Provincial Campaign Committee in charge of the campaign to raise \$250,000 for the Protestant orphans is carried out. Letters have been sent to every Protestant clergyman in the province requesting that this be done, that special sermons be preached at the services on that day stressing the responsibility of the Protestant people for the proper care of the little unfortunates who have been left as orphans. It is believed that this plan will be generally carried out and with this as a prelude to the great drive to start Monday, December 10, the Provincial Campaign Committee have no doubts as to the measure of the response from the Protestant people who are aroused as never before. This is by far the greatest Protestant movement in the history of New Brunswick and there is every indication that the stigma that the Protestants do not properly provide for their orphans will be wiped out with so generous a response that a record for giving will be established of which the whole province will be proud.

Local campaign organizations have been formed in nearly every county in the province and it is confidently believed that before the end of this week the whole of New Brunswick will be thoroughly organized and ready for the great effort. Wherever organizations have been effected the most prominent people have gladly assumed the responsibility for raising the local quotas and are taking up the work with an enthusiasm that insures success. The movement is gaining strength and momentum daily and there is no doubt as to the outcome.

It is indeed a remarkable offer, the Family Herald and Weekly Star for fifty-two weeks and a large picture of this splendid woman who by her heroism, self-sacrifice and abounding trust and faith in God, by her sweet purity and astounding courage in the face of unspeakable horrors, came to be regarded as a living saint and the wonder woman of a Great Empire. The picture is in the true colors of the original, size 18x24 inches, on rich, heavy paper. The subscription price of the Family Herald and Weekly Star of Montreal is only \$2.00 a year.

MADAWASKA COUNTY AGRICULTURAL SOCIETY

(Edmundston Observer)
The Madawaska County Agricultural Society held a meeting at the office of J. W. Hall on Saturday night, about twenty persons being present. The chair was occupied by Honore Cyr, President. Matters of importance came before the meeting, the chief item of interest being the question of purchasing some pedigree cattle for the society. After a full discussion of the subject it was decided that it was to the benefit of agriculture in the county to have some pure bred stock on hand and the secretary was instructed to get into communication with the Agricultural department in regard to getting some, and within a short time it is expected that the society will own some cattle that will be a source of pride to the agricultural interests of the province.

The directors decided to take the membership dues, and the districts were apportioned to them, so that the whole field might be covered. The following officers were elected for the ensuing year: President, Honore Cyr; secretary, G. Boucher; directors, Pierre Beaulieu; M. Beaulieu, Paul Theriault, Jim Theriault, F. Michaud, A. Michaud, Ferdinand Michaud, E. Thibodeau, T. Pelletier, D. O. Martin, J. F. Rice, T. Michaud, T. M. Richards, Jr., Ed. Rice, J. W. Hall and the Hon. J. E. Michaud.

THERE'S PLENTY OF BUSINESS ABOUT

When you hear anybody complaining
That times are the devil for trade,
While he takes up your time in explaining
How easily losses are made,
Just tell him to take off the sackcloth
And put on his hat and come out;
You can very soon prove
Once you get on the move
That there's plenty of business about.

Though it isn't like '19 or '20
When any darn fool could succeed,
And you've got to hike around good and plenty
To rake in the orders you need,
What else do you want if you're honest?
There oughtn't to be any doubt
If you hunt out your buyer
And shape like a trier,
There's plenty of business about.

One step won't take you very far,
You've got to keep on walking;
One word won't tell folks who you are,
You've got to keep on talking;
One inch won't make you very tall,
You've got to keep on growing;
One little ad won't do it all,
You've GOT to keep them going.
