Students Fight With Police-Cause of Trouble Refusal of Free University at Innsbruck.

Rome, Nov. 27. - Demonstrations against Austria, resulting from the prohibition by the Austrian Government of the institution of a free Italian university at Innsbruck, were continued throughout Rome yesterday, but were at all points broken up by the police, who gathered in large numbers especially around the Austrian embassy and Austrian consulate, against which the chief efforts of the demonstrators were directed. The crowds even invaded the public promenade in the gardens of the Pininico, and compelled the band to play the royal march, which was greeted with applause. At the university the students, to the number of about 1,000, held an indignation meeting, and then decided to make a demonstration in the streets of the city. The police were prepared for this, however, and as soon as the students emerged they attacked them, compelling them to re-enter the uni-The students showed their indignation by breaking the windows and furniture of the class rooms. ssociation of Growers Will Hold One in foronto Next Year.

Leamington, Nov. 27. - The Fruitrowers' Association, before concludng their anual meeting here yesterday, decided upon holding their next meet-ing in Toronto. A plan was also discussed and decided upon for holding a winter fruit fair in Toronto at the same time. The intention is to interest all fruit growers in this way, and bring them together at a competitive fair, thus stimulating them to more earnest effort. If successful the venture will probably be made an annual event, doing for fruit-growers what the Guelph

Fat Stock Show does for live stock-Yesterday's sessions were of a practical nature so far as the fruit-growers were concerned. They spent the mornng and afternoon listening to a series of addresses by the experiment station superintendents. The horticultural societies held their meetings in the Sunday school of the Methodist Church

and listened to a number of interesting papers.

A profession of righteousness was solemnly incorporated in the constitution. The funds, it was declared, were to be ings, for the employment of detectives, creased by familiarizing Canadians for prosecuting criminals and frauds, for putting down bribery and corruption, for engaging and paying organizers, for assisting local Conservative organizations and candidates advocating the principles of the association, A pledge was drawn up, in which the party candidate, in acknowledging the receipt fashions its own products on the Amerof money from the association, guaranteed to spend it only for legitimate purposes, and to return any portion of the sum he did not use in this way. The purity brigade raised \$19,673 for the Federal elections of 1900 and spent all but \$1,956. "The result," we are naively told, "was a majority of upwards of twenty in this Province for the party's the almost exclusive candidates." In the Provincial election British goods. Says the historian of the association: "The group of founders who undertook to demonstrate that elections could be won without corrupt expenditures do not claim that no corruption was practiced by Conservative workers in the last campaign, but in the main they are satisfied with the result of their labors, and they are satisfied also that only by such measures will politics be placed on a cleaner, saner and more economical basis-that is to say, by Reform from Within." Hitherto moralists have complained of the distribution of money at election time, but shey have sity must note with envious admiration been all wrong. That is the working creed of the new purity cult of the Conservative party in Ontario. It worked so well that the fund for the approaching Federal elections will no

doubt be vaster than has been. Modern Railway Methods.

The Pere Marquette has acquired runming rights over the Michigan Central across the Western Ontario peninsula. By means of this and similar leases in Michigan it can run its trains from Chicago to Buffalo. If necessary the Pere Marquette would have laid its own tracks to reach Buffalo, but it has adopted the more economical and sensible plan of renting tracks already laid. The money spent in paralleling railroads where one railroad is equal to the traffic is money wasted, and the public pays the piper in increased rates to make dividends on the unnecessary capital outlay. In the present instance the Pere Marquette saves the initial expenditure of millions of dollars, and the annual cost of the up-keep of over 200 miles of roadbed. The Michigan Central gets a handsome revenue, which is clear profit. The Pere Marquette will office down in Bracebridge constitutes doubtless take some business from it, but the competition would have been the same if the Pere Marquette had built its own road. The two companies have adopted the modern railroad principle. It is illustrated in all parts of P. S. R. tracks between London and St. Thomas. The Wabash crosses Ontario over the Grand Trunk tracks. The C. P. R. uses the G. T. R. line between Toronto and Hamilton, and between Toronto and North Bay. These are only a few of the instances of joint use and operation. The arrangement in every case works smoothly and satisfactorily. Yet the provision in the Grand Trunk Pacific Railway bill, guaranteeing running rights to other railroads, is called impracticable by opponents of the measure.

The opposition to the great transcontinental project has almost died out, and the Conservative party from present indications will not make it a leading issue in the next election. The Grand Trunk Pacific has already six-Winnipeg and Lake Superior will be ready for the grain traffic in the fall of 1905. The British manufacturer making for a market accustomed to his wares must differentiate for the Canadian market, which is accustomed to the wares of the United States, and

THE ONLY INFALLIBLE CURE IS CUTICURA

It is in the treatment of this most distressing of torturing and disfiguring skin and scalp humours, with los of hair, that the Cuticura remedies have achieved their greatest success. Original in composition, scientifically compounded, absolutely pure, unchangeable in any climate, always ready, and agreeable to the most delicate, they present to those suffering from Eczema the most successful curative of modern times. We know that this will be considered strong language by those acquainted with the character and obstinacy of the disease under consideration, but it is justified by innumerable successes where all the remedies and methods in vogue have failed to cure, and, in many cases, to relieve, even.

The first step in the treatment of the chronic forms is to remove the scales and crusts and soften the skin, by warm baths with Cuticura Soap. The scalp, ears, elbows, hands, ankles and feet will require frequently a thorough soaking in order to penetrate the thickened skin and crusts with which these parts are often covered. Dry carefully, and apply Cuticura Ointment, lightly at first, and where advisable spread it on pieces of soft cloth and bind in place. Take the Resolvent, pills or liquid, in medium doses. Do not use cold water in bathing, and avoid cold, raw winds.

Do Not Talk Enough About Their Country.

By H. J. Pettypiece, M.P.P., in Address Uiven at a Scottish Concert.

In the midst of an evening of everything Scotch, a keynote of Canadianism was struck at the concert in the First Congregational Church last night by Mr. H. J. Pettypiece, M. P. P for East Lambton. The speaker gave an excellent address, which was listened to by the large audience with the greatest pleasure. Mr. Pettypiece made a strong appeal for national spirit.

The programme in which this address was given, followed another features.

dress was given followed another feature of the evening that was most enjoyable. This was the supper served by the Ladies' Aid of the church. It was held in the basement and upwards of 350 people sat down to as fine a supper as has been given for some time

The tables were decorated and laden with the best of everything and did credit to the ladies.

The concert given in the body of the church, the floor of which was crowded when a most pleasing affair and was ed, was a most pleasing affair, and was under the charge of the Ladies' Aid. Rev. W. J. Clark, of the First Presbyterian Church, occupied the chair and his opening remarks were in that happy strain which characterizes all his platform efforts. Those who took part gave Scottish selections in every case. There were several recitations by Miss Anthistle. Her clever readings were thoroughly appreciated, and in each instance encored. Mrs. Wheeler gave some Scotch song in her delightful way, rendering "Blue Bells of Scotland" and "The Standard of the Braes o' Marr.'
Mrs. Munro, whose contralto voice it is always a pleasure to listen to, gave two songs in braw Scotch, an encore to "Doon the Bourn, Davie, Love," being

insisted upon. The gentlemen who contributed included a fine quartet consisting of Messrs. Wrighton, Anundson, Bock and Riddell, who sang two old favorites.Mr J. Arnold Thomson sang "Gather, Me Gregor," very acceptably, and responded with "Annie Laurie." Mr. Ernest Moule, also of St. Andrew's choir, rendered "Blue Bonnets Over the Border' and "Jock o' Hazeldean," in his usua fine voice, mastering the Scotch as wel as the music. Mr. Thomas Alexander told some of his inimitable Scotch stor ies. Not least by any means in favor were the pipers' selections by Messre McDonald and Falconer. Mr. Pettypiece, who came from To-onto purposely for this concert, an who was afterwards thanked with the

artists of the evening in a hearty vote gave an inspiring address. He spokabout Canada. There was no excus necessary, he said, for one to speal bout Canada. There was no excusnécessary, he said. for one to speal about Canada. He didn't think Cana-dians spoke enough about their own country. If the United States erred i ndulging too much in spread-eagleisn Canadians erred in the opposite direction. The speaker then referred to Auld Scotia, which he described as small enough to be dropped into Lake Huron without interrupting navigation He told of the difficulties the people of he old land had, and how it was ne for so large a percentage o he women to work at trades that here vere considered only men's. The Scottish people had the spirit, spirit that he thought Canadians should have. Instead of Canada being exaggerated in the eyes of other nations, i had been misrepresented abroad. The

first story taken back to the old coun try by Jacques Cartier was a disma one, and so it had been ever since. The Hudson Bay Company had found i to their interest to keep back settle-ment, and had advertised Canada as an unfit land, and did so even after the had been at work. The C. P. R. was

good deal. Mr. Pettypiece, in the course of his remarks, described Canada as the better half of the American continent, and he called on them to have the patriotic spirit that had characterized the Scottish people for centuries. This country was ours to cultivate, ours to rescue into service and started in pursuit of ple that would be a source of strength to the empire, and to the glory of the Creator, where the one flag waved, and where, please God, one flag would ever

MUNICIPAL TAXATION

The Principle of the Old Personalty Uphelu.

Toronto, Nov. 27. — More diverse views were presented at the meeting of the assessment committee of the Legislature yesterday—some favorable and some unfavorable. Frank Mc-Lean, K.C., of Hamilton, solicitor for the Ontario Municipal Association, upheld the principle of the old personal alty tax, and suggested the taxing of furniture above \$1,000 instead of the proposed house tax. The secretary of the Manufacturers' Association. F. J. Younge, strongly supported the bill on behalf of that body. Representatives of the single tax body commended several features of the bill and suggested an amendment exempting all houses up to \$700 from the real property tax. This, is was contended, would encourage the building of bouses in the cities. in the cities, and solve a serious urban problem. The committee will meet again tomorrow and then ad-journ until next Wednesday.

> Ottawa, Nov. 27. - Judging by indescribable confusion letter received in the city, F. Guertin, of Ottawa, a woodsman, who disappeared from a camp above Mattawa some weeks ago, has met a terrible death. ceived by P. Mullin from his brotherin-law, William Burns, who was employed in the same camp as Guertin. Burns and Guertin were members of a gang employed by Fraser & Co., to work in one of their camps during he winter. Guertin had strange hallucinations, and one night he left the camp presumably to return to home in Ottawa. He was not seen afterwards, and as he did not arrive at his home, a search was made for him. Burns stated in the letter that in company with two Indians he searched the country about the camp for a couple of weeks, but no trace of Guertin could be had. The Indians, who were well acquainted with the country, expressed the belief that Guertin had been run down and devoured by wolves that overrun the district. Guertin's mother resides at Cumberland street.

He was born on the Governor's road, in the township of Nelson, Halton County, on Nov. 22, 1807, and consequently at the time of his death had just passed his 96th nirthday. He remained in Halton County until he was 32 years of age—and some of those years were full of excite-ment. Besides experiencing all the hardships and privations so common to the pioneers of those days, Mr. Mc. These were Miss Tuttle and Mr. Jeffrey, who, now that the critical period had come, straightened themselves boldly in their seats and met the glances concentrated upon them with dignity, if not with assurance of complete innocence. But from the carefulness with which they avoided each other's eyes and the almost identical expression mirrored upon both faces, it was visible to all that they regarded their cause as a common one, and that the link which they denied, as having existed between them prior to Mrs. Jeffrey's death, had in some way been supplied by that very tragedy; so that they now unwittingly looked with the same eyes, breathed with the same breath, and showed themselves responsive to the same fluctuations of

> REDFERN ON THE SLUMP. Washington, D. C., Nov. 26.-Jockey Arthur Redfern, the Canadian jockey, is winding up the season as he began the bank men in last year's city league his efforts elicited a groan from the teams who will play exclusively with grandstand. After Carbuncle's fine race of yesterday his stable mate, Highlander, became a warm fancy.

All eyes were on Highlander, and mighty was the roar which greeted Redfern as he allowed himself to be out-maneuvered and outridden by Fuller on Meistersinger, a 15 to 1 chance, who beat Highlander on the post by short margin.

It was a selling race for two-yearolds and up, at seven furlongs, down the Columbia course. Redfern had Highlander leading comfortably to the final sixteenth, where Fuller came stealing along with Meistersinger, and suddenly, to the consternation of the oackers of the favorite, the outsider was abreast of Redfern's mount. Then in a hurricane finish Fuller got up

and won much as he did with Gaviota at Aqueduct. It is reported that Redfern's contrac expiration. Hicks has been signed by the stable for 1904 to do the middle-

TRYING THE SIDE-STEP GAME. It does not look as if the Rough Riders were overly anxious to play the champion Varsity team for the Canadian championshop, as a dispatch has been sent out from Ottawa stating that the Toronto team exceeded the time given them for the acceptance of the Rough Riders' challenge. This is pot the case, as Varsity has been in not the case, as Varsity has been in correspondence with the eastern team daily since word was received that Ottawa would play. The students Ottawa would play. The students asked for a guarantee of at least part of their expenses, and when they

were refused they besided to go after the honors if they were not given anything at all. Max Yeates, formerly of London, sent word to Ottawa yeseastern champions were not too anxious to play from the start and now when they find that Varsity are willing to pay their own way they are trying to side-step the match. The Varsity team will leave Toronto on Friday night, and will play almost the same team that represented them against McGill last week. A WORD TO THE WISE.

Indians Threaten to Kill the United States Government Teacher.

Washington, Nov. 26.-Indian Commissioner Jones received a telegram from Dulce, N. M., late tonight stating that the Jacarilla-Apache tribe of Indians was preparing to go on the warpath and wipe out of existence the Indian school at Lamberton, in that state, kill the industrial teacher, spoil educational plans of the bureau and raise Cain generally. The commissioner immediately tele-

graphed Indian Agent Johnson at Dulce, urging him to use every effort to quell the disturbance. Troops will be asked for, if the agent requests that this step be taken. Settlers in the vicinity are in a state of panic. The Jacarilla-Apaches number about 1.000 and are "blanket Indians," which means, according to the Indian bureau translation, that they wear blankets, ive in tepees, worship the Indian Manitou, participate in "sun," "ghost," "corn," are generally uncivilized. William Sayles is the industrial teacher. He went from Washington last month with a book of instructions

on 'How to Civilize the Indians." It is said that the wrath of the Indians was aroused over the teaching order that the Indian pupils should take

The wise course adopted by the board was to call for tenders for asphalt blocks, and also for ordinary asphalt, of any class, so that the people will be at liberty to accept any tender submitted. This conclusion was arrived at after it was shown that there was only one firm in Canada that made asphalt blocks, and the aldermen did not care to tie themselves up hand and foot to any company. In order that no complication might arise in any particular, it was also decided to allow the petition to lay over for a while, but this does not interfere with calling for the

The Ladies' Aid and officers had a double object in doing so-first, to show their appreciation of the financial aid rendered the church by the congregation generally, and secondly, to afford an opportunity to become better acquainted with those who had more recently become identified with the church. The pastor, Rev. A. K. The programme included vocal solos by Mrs. Thompson, Mrs. Page, Misses Nobbs and Isaac, and Mr. A.
