

Highway Independence!

Red Seal "L"-head Continental Motor
Morse Silent Chain Drive
Full Force Feed Lubrication
Whirlwind Acceleration
Super-Sensitive Steering
Rifle Drilled Camshaft

MADE by Canadians to meet Canadian climatic and road conditions, the stamina of the New Star Car is never so fully realized and appreciated as on the long run.

No other automobile at or near its price has the staying power that results from the employment of the Red Seal Continental "L"-head Motor, full pressure lubrication and thermostatic control of the cooling system.

Thermostat Cooling System
1 1/2-inch Steering Wheel
Locomotive-type Brakes
Cold Rivetted Chassis Frame
Semi-elliptic Springs
Tasty, Durable Upholstering
Nation-wide Service Facilities

The consistent increase in Star Car sales is due to the quality of the car itself and to the maintenance of its resale value through safe, sane company policies.

The number of Star Car owners desiring to sell is proportionately smaller than that of any other automobile in its class.

Durant Motors of Canada, Limited Toronto, Canada

WIT AND HUMOR

Professional Touch
Dentist (extracting nail from a tire of his car)—Quiet, now. You won't even feel this.

.....

Her Alibi
"Didn't I see you taking a tramp through the woods yesterday?"
She—"The idea! That was my father."

.....

"According to a naturalist," says a London paper, "there is a fish that washes its young." But how in the world are the little ones dried

.....

Lady—You say your father was injured in an explosion. How did it happen?
Child—Well, Mother said it was too much yeast, but Father said it was too much sugar.

.....

Guilty Satisfaction
"You were going forty miles an hour," said the policeman, reproachfully.
"I'm no deliberate lawbreaker," said Mr. Chuggins. "I am ashamed of myself, but I'm kind of proud of the old fit."

.....

That's the System
Lady next door (struggling with wire netting)—Oh, Mr. Spivvins, do you know how to make a chicken-run?
The preacher—Well, I usually clap my hands and say 'Shoo!' in a loud voice.

.....

First Litigant—I'll follow you to the District Court.
Second Litigant—Oh, I'll be there.
First Litigant—I'll follow you to the Supreme Court.
Second Litigant—Oh, I'll be there, too.
First Litigant—I'll follow you to hell if I have to.
Second Litigant—Well, in that case my lawyer will be there.

.....

Wife—When I married you I thought you were a brave man.
Husband—So did everyone else!

One of these women who try to appear so young that they are even ashamed of having their children get big and give them away got on the street car with a little girl and gave the conductor full fare for herself and half fare for the child.
"Excuse me, madam," said the conductor, "but your daughter seems to be more than twelve years old."
The woman put on a coy expression and exclaimed: "Why, conductor, you would never take me to be the mother of a girl that age, would you?"
The conductor drew back and looked them both over carefully and then said, "Lady don't tell me that you are her grandmother!"

.....

Farmer—Sarah, do you want me to bring you anything from the city to-day?
His wife—Yes, Si, you might bring me a few jars of that traffic jam I see advertised in the papers.

.....

"What is a detour?"
"The roughest distance between two points."

.....

Ain't it the Truth?
Adam and Eve came down, they say, To see how the ladies dress today.
Said Adam to Eve: "Well, well, my dear,
There's little change since we were here."

.....

That Will Do it All Right
Stamp Orator, discoursing on the faults of wives: "Can you tell me anything that would drive a man to drink more than a lazy, slovenly woman?"
A voice from the audience: "Did you ever try a salted herring?"

.....

Some Gown!
Have you seen Mary's new evening gown?
"No, what does it look like?"
"Well, in most places it's very like Mary."

.....

Temptation
A country preacher in Alabama, a dusky divine by the name of Williams, noticed a new face in his congregation, and when the service was ended he hurried down to greet the newcomer.
"Mr. Martin," he said, "this is the first time you've been to our church. I'm mighty glad to see you here."
Whereupon Mr. Martin replied: "Ah had to come, pashon. Ah needs 'strengthenin'. Ah's got me a job 'whitewashin' a chicken-coop an' buildin' a fence round a watermelon patch."

.....

Woman's hair, beautiful hair
What words of praise tutter.
But, oh! how sick it makes me feel To find it in my butter.

.....

"Who was the meekest man," asked a Sunday School teacher. "Moses."
"Very well; who was the meekest woman?"
"Never was any."

Leisner & Kalbfleisch - Mildmay, Ont.

Modern girls give little thought to clothes. They've learned not to worry over trifles.

If you are living beyond your income, and kidding yourself with the belief that in some rosy future an increase of pay or the death of some mythical relative will enable you to get straight with the world, you are flirting with dishonor. In your secret heart you know that you haven't a ghost of a chance to come clean.

The whole truth is that you mortgage your honor to get a cake to which you are not entitled, and now, to save your self-respect, you pretend that a fairy will save you before the day of reckoning. And if you know you won't be able to pay the difference between you and your "charge" it and the chief who snatched a fur from the counter is wholly in your imagination.

MILDMAY COUNCIL

Notice is hereby given that the Mildmay Council will meet at a Court of Revision in Schnurr's Hall, Mildmay on Thursday, the 26th day of May, 1927, at 7.30 p.m. to hear and determine the appeals against the Assessment Roll for the Village of Mildmay for the year 1927.

All parties interested will please take notice and govern themselves accordingly.

J. A. Johnston, Clerk.

COURT OF REVISION

Notice is hereby given that the Carrick Council will meet as a Court of Revision in the Town Hall, Mildmay, on Monday, the 30th day of May, 1927, at 10 a.m., to hear and determine the appeals against the Assessment Roll for the Township of Carrick for the year 1927.

All parties interested will please take notice and govern themselves accordingly.

J. A. Johnston, Clerk.

OIL DRILLING CONTINUES

Drilling operations for oil on the farm of Robert Seifried in Minto Township, a short distance from Harpiston, goes merrily on and at the present time the driller, Howard McLuhan, is down 50 feet after encountering a gas flow at a depth of 37 feet. Mr. Seifried is optimistic as to the results to be obtained at this well and reports from the engineer recently received expect at any time to strike a flow of the much-sought oil, as the report regarding the survey is encouraging.

NARROWLY ESCAPED DEATH

During the electrical storm about 5 o'clock on Monday morning last Mr. W. J. Pierson's residence near Burgoyne narrowly escaped destruction and Mrs. Pierson and daughter, Marie, miraculously escaped death when a bolt of lightning struck their home and tore out a joist in the cellar just under where Mrs. Pierson and daughter were standing. The bolt came in on the telephone wire, tearing the phone off the wall, and passed on to the water pipes in the kitchen, bursting the pipes and setting fire to the linoleum on the kitchen floor. Here it followed the pipe into the cellar and ripped off a joist. Mrs. Pierson and daughter were standing near the kitchen sink when the bolt passed a couple of feet from them. For a time they were left in a dazed condition from the shock but soon recovered and were able to assist in putting out the fire.—Port Elgin Times.

BACON HOG CLUBS

Bacon Hog Clubs are proving very popular in Bruce and other counties, and are rapidly increasing in numbers. The requirements are as follows:

1. Any ten farmers having 20 sows can secure a Pure Bred registered Boar of approved Bacon Type Free of Charge, by organizing a Bacon Hog Club.
2. Members select a caretaker and decide remuneration.
3. Hogs are exchanged when their terms of usefulness expires or their own daughters are of breeding age.
4. If the services of a Select Type Bacon Hog are not available in your community, ask for full information, application forms, etc.

The hog industry is one of the main revenue producers on Bruce County farms. In 1926, 70183 hogs grading 32.2 per cent. selects were marketed. There has been an increase from 28.1 p.c. selects in 1923. Other counties are making more rapid improvement. In all progress good feeding is important, good breeding is essential. The quality of the sire is a prime factor, and should be carefully considered.

THE MISSISSIPPI FLOODS

Universal sympathy is evoked, far and wide by the reports reaching us day after day of the loss of life and suffering caused by the overflowing of the Mississippi, especially in its lower course. Reinforced by its tributaries the inundation has spread over some of the million acres of the lowlands of the south in which are included between forty and fifty cities and towns, while hundreds of thousands have been driven from their homes, and an unknown number have lost their lives. The Mississippi is a sluggish river and through a large part of its course the low country through which it flows is protected by levees or dykes which confine its waters within its channels. In all the Mississippi has some two hundred and forty tributaries which drain over a million and a half square miles. When these become swollen by rains the accumulated flood sometimes bursts through the dykes and submerges wide territory as in the present case. In the year 1882 one of the worst floods in the history of the nation occurred along the southern reaches of the river. In 1912 another vast rising of the waters took its toll of life and property. According to reports the present floods surpass either of these great disasters, and every day swells the list of sufferers. Federal government is being criticized for its parsimony and neglect in failing to take adequate measures to prevent such tragedies. It is said that the levees should be built higher and an expenditure of \$20,000,000 a year for several years is required, instead of the present grant of half that amount. Just how much of this disaster may be attributed to the waters of the Great Lakes diverted into the Mississippi through the Chicago canal it would be impossible to estimate; but this water has undoubtedly added its quota to the flood.

Beauty Shop—A place that is to erase the work done by chance.

A speed of 200 miles an hour now claimed for a suspension way in Germany. The United States had better look out or she will lose her title as the "hustle."

Mr. John Macartney of Warrington police magistrate for the northern part of the County, and his wife are enroute to the former's old home in Scotland. During his absence Magistrate Walker will look after all police court work of Bruce.

Several young men from Palmerston were hailed before Magistrate Hellyer in the police court in Harriston recently, and assessed \$5 and costs for gambling in railway cars at the junction town. Another case, a charge of non-support, was held over until further advice from Toronto, where another similar case is pending.

WHEN BANK OF MONTREAL TOKENS WERE USED FOR SMALL CHANGE

FOUNDED before Canada had any currency of its own, the Bank of Montreal in the early part of the Nineteenth Century obtained authorization from the British Government to issue copper tokens for small change.

Reproduced herewith are the two sides of the one-penny token of 1838 and of a "habitant" token of 1837. The obverse of the former shows a picture of the building used by the Bank of Montreal at that time, the obverse of the latter a typical farmer of Lower Canada, now Quebec. The reverse of both coins is the same, showing the arms of the city of Montreal.

Throughout its long history, the Bank of Montreal has always been active in serving the financial needs of the people of Canada, steadily extending its services as the need and opportunity for it arose.

GRADE CROSSING

of four months, with there interest deductions: Within this period there were 69 crossing accidents, 408 occurring in broad daylight. Sixty of the trains involved were running at less than 20 miles per hour, the classes of trains being half passenger, half freight. There were 120 deaths, 214 injuries. Seven deaths were due to trying to beat the train. Sixteen accidents were due to defective brakes, seven to drunken drivers, sixty-one to stalled engines. Two hundred and eighty drivers broke through gates. Sixty-three per cent of the accidents happened on crossings with unobstructed views on either side. These facts have led one cynic to remark, that drivers involved in such accidents, if spared from death, belong to a class incapable of reformation and it is a waste of effort to either side. How, then, can the work of making crossings safe be speeded up? The answer, broadly speaking is: by legislation, education and correction—and the slaughter of fools that won't STOP—LOOK AND LISTEN.

If the wife thinks she's a martyr you can bet two to one the husband gets his own breakfast.

HAT IN RING

The Advance-Times learns from close political friends that Ex-Mayor George Spotton, that he has finally succeeded to continuous pressure from all parts of the Riding of North Huron, that he offer himself as a Candidate in the coming bye-election. It has been impressed upon him that when the Progressive movement was at its height, he ran neck and neck with the late J. W. King, being so close, that on the recount, Mr. Spotton was given the seat by the County Judge, but this was reversed by a High Court Judge. He has thrown his hat in the ring, and those who know him, know he will go in after it, regardless of the results. Apparently his friends feel that since the Conservative Party will have no permanent leader, and no new platform, until the Winnipeg Convention on October 11th, that there is no time to be lost. We are told that he has organization well under way, and there is no man in the riding who has more personal friends ready to get into the harness than he. The King Government may now rest assured they will have a real fight from this doughty warrior. We are also told, that if the North Huron Conservative Association should happen to call the party together for advice, Mr. Spotton would ask to be endorsed by any convention called "on the square," and abide by their decision. Mr. Spotton feels that inasmuch as he fought so valiantly for the party in the past, that his friends will give him one more chance to finish his work.—Wingham Advance-Times.

BROOKS STEAM MOTORS

As Mildmay has a number of investors in Brooks Steam Motors stock, the following from the Toronto Telegram will be of interest to them: "Aylett Mary Bodle, G. E. H. Gilmore and W. A. Dover, who are suing on behalf of themselves and other shareholders of the Brooks Steam Motors, Limited, have added a number of paragraphs to the writ issued against O. J. Brooks, J. W. Ridake, Brooks Securities, Limited, Banking Service Corporation and Brooks Securities, Limited. In one of these paragraphs they claim \$2,000,000 damages from O. J. Brooks and Brooks Securities. They also ask for a declaration that the issue of 380,000 out of 400,000 shares of common stock in the Brooks Steam Motors, Limited, to Orr G. Trask, under agreement with the defendant, Brooks Steam Motors, Ltd., dated April 7, Steam Motors, is invalid, and that the issue of 100,000 shares of common stock to O. J. Brooks, under an agreement with Brooks Steam Motors, Limited, of the same date, is invalid and beyond the power of the Brooks Steam Motors so to do.

WALKERTON.

The auditors in going over the books of the Walkerton Electric Light & Power Co. have discovered a deficit of some thousands, and whether or not this is an error in the entries on the part of the book-keeper, Mr. Lorne Carr, has not yet been determined. When Mr. Carr learned that there was an alleged shortage in the funds over which he had control he voluntarily surrendered himself to the authorities. Bail to the extent of \$10,000 was immediately procured for him and on appearing

before Magistrate Walker on Wednesday morning last no plea of any kind was entered on his behalf by his solicitor, Mr. Campbell Grant, and as a consequence the preliminary hearing was adjourned until Thursday next, May 19th.

To find a third of his sheep-fold slain by dogs and their partly chewed carcasses strewn over the scenery in full view of the Brant Municipal Hall whence he must look for recompense for the raid was the unhappy discovery of Mr. Alex. Knoll of Solway, when he strolled back to the field early Saturday where he had left his flock of eighteen Oxfords serenely browsing the previous night. One of the six was still breathing when found, but as it had been eaten right through to the shoulder blades and both hams chewed off its back legs, Mr. Knoll promptly put it out of misery with an axe. Another sheep that had escaped through the gateway is still missing and whether the dogs caught and finished it in the chase is as yet unknown. The remaining eleven had been chased through the swamp into the bush, where Mr. Knoll found them in a terrified and somewhat damaged state.

The position of license inspector, under the O.T.A., being abolished this month, Mr. Widmeyer, who has held that appointment in the County of Bruce since August, 1923, is to be absorbed into the Provincial Police Force. He was notified officially last Thursday. Although no definite time was mentioned in the communication, it was intimated that his duties will commence during the latter part of May. He has been operating with Provincial Constable Thomas Bone in investigating cases of crime. This, in addition to his five years' experience on the Toronto Police Force, qualifies him for his new post. In the interval between his resignation from the force in Toronto and his appointment as License Inspector here, Mr. Widmeyer and his family resided at Waterloo and Mildmay. His friends will be glad to learn that he will continue to "carry on" in Bruce.

CONCERNING DOGS

People who own dogs, who care for them and prize them, and who pay license fees for them, are entitled to know just where they stand. That's right, isn't it? And people who don't own dogs, but who are continually bothered with other people's animals snooping in and scattering garbage around, running through flower beds and gardens and musing up lawns, ought to know where they stand. That's right, isn't it? If you happen to own a dog you grow attached to it and are inclined to look with leniency on its depredations. If it chews up one of your bedroom slippers, uses the parlor rug on which to gnaw a hole—well, dogs will be dogs, and they'll grow out of it, or you'll train them better, and so on and so forth. Those who prefer flowers and neat lawns and covered garbage cans think they have a right to indulge in their hobbies unmolested from any source whatever. They bother no one and ask a similar consideration of the golden rule. Who's right?

CROP REPORT

Below will be found a brief synopsis of telegraphic reports received at the Head Office of the Bank of Montreal from its Branches.

General—Wheat seeding in Western Canada, is from ten days to two weeks behind the ten year average, owing to the backward season and it is likely that there will be a decrease in coarse grains. The weather however, is now good over the Prairie Provinces and operations are gradually becoming general. In practically all districts the seed bed is in excellent condition with abundant moisture stored in the ground. In Quebec the favorable Spring weather has enabled the farmers to get an early start in cultivating their land, while in Ontario, operations are also well advanced, the season being three weeks earlier than last year. In the Maritime Provinces the Spring opened early but the weather lately has been cold and development is backward. In British Columbia, the Spring is three weeks late, but prospects are good. Details follow:

Prairie Provinces
Alberta, Western Area—Seeding is from 10 to 50 per cent completed. Northwestern Area—Not more than 10 per cent. of seeding has been completed. Southwestern Area—Seeding 50 per cent. completed. Saskatchewan—Northern Area—Wheat seeding general, with seed bed in excellent condition, except in some areas where there is too much moisture. Southern Area—Wheat Seeding is general in all but a few localities and 10 to 20 per cent. has been completed. Owing to heavy rain and snow last autumn and winter, and the lateness of the Spring season the acreage sown to wheat will likely be somewhat less than last year.

Manitoba—Adverse weather has interfered with work on the land, and little plowing has been done except in well drained areas. Only a small percentage of wheat seeding has been completed, and a decrease in wheat acreage likely, with increase in coarse grains.

Province of Ontario
There is a smaller acreage of Fall Wheat this year, but the crop has wintered well, although some fields are patchy. The weather has been ideal for seeding, which is nearly completed, and a larger acreage than normal has been sown. Ground is now being prepared for corn. In the southwestern section of the Province, fruit trees are well covered

More beautiful and durable than any Shingle Stain

PROTECTO

A superior preservative paint, for shingles, fences, barns, all rough wooden surfaces & composition roofings

That roof of your home needs safeguarding against the constant attacks of wind and weather. The garage roof, too, is important. And those shingle sidings, and garden fences. They need PROTECTO to ward off the elements and shield them against costly depreciation. PROTECTO is a revelation in beauty and will add real charm and joy to your home.

PROTECTO is the newest triumph of paint manufacturing, the preservative paint that has definitely replaced shingle stain as a preserver and beautifier of all unfinished outside wooden surfaces.

PROTECTO protects the surface as shingle stain never could. Made of Cresosote and Pure Linseed Oil, it seals up the pores of the wood with a waterproof film that sheds water like a duck's back. It makes shingles warp proof and curl proof. And it beautifies them with brighter and more lasting beauty than the finest shingle stain ever made.

You'll like PROTECTO because of that matchless beauty. And you'll like it, too, for the money it will save you. It has double the covering capacity, double the life and double the protective value of old style shingle stains.

Write for our beautifully illustrated free color book, showing actual color photos of lovely painted homes, to guide you in selecting color schemes for the interior or exterior of your home or summer cottage. Address, The Canada Paint Co. Limited, 572 William Street, Montreal.

CARLSRUHE

Mr. and Mrs. Peter Hoffarth received very sad news this week from their son, Edward, who lives near Shaunavon, Sask. His wife took ill very suddenly and died within a few days. The funeral took place on May 4th. Surviving her are her husband and nine children, the youngest is 3 months old and the oldest is 14 years. The deceased was a daughter of the late John Fischer of Mildmay. His many friends here extend our sympathy to the bereaved husband and family.
Forty Hours' Devotion, which were held here, closed on Tuesday evening. Rev. Father Hoffarth was assisted by the following Priests: Rev. Father Ford of Chepstow, Rev. Father Lenhart of Deemerton, Rev. Father Montag of Mildmay and Rev. Father Haller of Hanover.
Mr. and Mrs. Henry Ruetz of Walkerton visited at the home of Mr. and Mrs. John Ruetz on Monday.
Mr. and Mrs. Eric Hennings, Miss Talita Montag and Mr. Rudy Hennings of Kitchener spent the weekend at their home here.
Mr. Joseph Montag Jr. left for Kitchener on Sunday.
Mrs. J. P. Hundt is visiting relatives in Mildmay.
A large number of relatives and friends of Hanover surprised Messrs. Charles and Fred and Miss Tillie Russwurm at their home here and spent a most enjoyable evening.

DUNLOP TIRES

THAT splendid appearance of Dunlop Balloons is no guesswork. That rugged road resistance is not there by chance. That adequate resiliency was no blind selection.

You receive the benefit of thirty-three years of honest thinking, careful planning, judicious experimentation when you buy DUNLOP TIRES to-day.

Thirty-Three Years' Merit

DUNLOP OFFICIAL SERVICE DEPOT
Jack Schweitzer, Mildmay

HUNTINGFIELD

Mrs. Robt. Jeffrey (nee Margaret Darling) took seriously ill quite suddenly on Sunday night of last week, but has now almost fully recovered.
Rev. Mr. Lundy of Kippen exchanged pulpits with Rev. C. N. MacKenzie last Sunday.
The Session of McIntosh will take the Endeavor topic at McIntosh church next Sunday evening.
Miss Frances Gilson, teacher at P. S. No. 4, Howick, was a guest at Mr. J. J. Harris' over Sunday. A joint congregational meeting of

Belmore and McIntosh United Churches will be held next Monday evening to extend a call to a pastor to succeed Rev. C. N. MacKenzie.

R. J. Douglas, executor of the J. I. Scott estate, purchased a 69 acre farm on Concession 2, Turnberry, at a mortgage sale last Saturday.

Mrs. John Duffy had the misfortune to step on a rusty nail last Friday, from which resulted a serious attack of blood poisoning. Prompt measures were taken to combat the trouble, and we are glad to report that Mrs. Duffy is now progressing very nicely.

A gent giving his name as Fred Durham of Toronto was in this section last week endeavoring to secure evidence of irregularities against Mr. Alex. P. Mewhinney, M.P.E., in connection with his election campaign of last fall, and whose election to the Legislature has been protested by Lieut.-Col. W. H. Fenton, defeated Progressive candidate. While many were of the opinion that the protest would be dropped, it would seem that Mr. Fenton intends carrying it through. At any rate interest in the protest, which is supposed to be heard in June, has been revived by the activities of the Toronto gent here.—Port Elgin Times.

TORONTO STOCK MARKETS

Butcher grades at the opening market of the current week at the Union Stock Yards lost some of the strength in price trend displayed during the previous market session and values generally fell off from 15c to 25c per cwt. on killers. The run of fresh cattle was around 800 head in excess of the preceding week, and the heaviest for a month, which made the market a little burdensome for buyers' requirements. The undertone appeared to be easier throughout the whole buying movement with buyers holding off anything but really choice.

Three loads of choice weighty steers sold at from \$8.70 to \$8.75 a cwt. These went to packers. Choice near-heavies and handweights were mostly turned over at from \$8.85 to \$8.90 a cwt. with a small number of sales made at the day's top of 9c per pound. One load of in-between steer destined for Montreal made \$8.60 a cwt. On Monday last extra prime weighty heaves brought \$9.35 per cwt. at the top. Fair to good butcher steers cleared yesterday at from \$7.50 to \$8.65 a cwt., with heifers weighed in with steers. Butcher cows, which have been a strong market feature for the last few weeks slumped, and prices were shaded downward about 25c a cwt. lower, with the best going at from 7 to 7 1/4c per pound, with only a few reaching the peak at 7 1/2c per pound. Fair quality cows brought from \$6 to \$6.75 a cwt. The trade in butcher bulls, steady to firm, was an exception to the weaker feeling. The best bulls held steady with previous markets at from \$6.50 to \$7.50, with medium grades moving out of the yards at from \$5.50 to \$6.25 a cwt., generally firm with last week's closing prices. The run of baby beef was increased, and with a broader supply on hand, packers took the three tops at 12c per pound, steady with last week, with the bulk selling from \$10.50 to \$11.50 a cwt. Some common heaves sold as low as 9c per pound. Three loads of Western stockers included in the day's receipts sold between a spread of from \$7 to \$7.10 a cwt. An average load

JUBILEE

WHY NOT TREAT YOUR BUILDINGS TO A COAT OF PAINT?

Nicely painted buildings is a good sign of prosperity in a community.

We handle a full line of Sherwin Williams Paints and Varnishes.

Government tests show this paint to be of a very high quality.

Good Quality Paint covers more surface and wears much longer.

We are glad to give you any information on painting you may desire.

THE CORNER HARDWARE

Prices ranged from 680 pounds each sold at the top figure. Milkers and springers were firm for choice grades, with \$90 to \$100 apiece quoted for the best offering.
An odd lot of yearling lambs brought \$13 to \$14.50 a cwt., according to quality. Good spring lambs sold from \$13 to \$15 each, with lower grades at from \$10 to \$12. Sheep were scarce, and what there was usually showed indifferent quality, counts on inferior
