Cause of the Delay—Amount Meanwhile is Bearing Interest.

A good many enquiries have been made as to why the Lake Erie and Northern Railway has not yet paid the \$30,000 which the Municipal Street Railway made to get for the Paris to Galt end of the road. When questioned this morning by a Courier man, City Treasurer Bullard said that the sum was bearing interest at 5 per cent, and that the money was not needed now, as the city had plenty on hand. In any event, that money could not yet be paid without the necessary legal procedure, as shown by the following letter:—

By Courier Leased Wire. London, Nov. 21.—Robert P. Houston, member of Parliament, from Liverpool, and head of the Houston line of steamers, writes to The Times urging that the mercantile marine take sea law into its own hands and arm ships against submarines regardless of government restrictions. Mr. Houston says that if the British mercantile marine were to arm themselves with 2,000 pounds for each German submarine he probably would be able to sink 100 of them up to a total of 100,000.

GERMANY ABANDONS LAST HOPE OF STANDING IN CIVILIZATION

Stirring Denouncement of Her Exportation of Belgian Civilians—Entire City Council of Brussels Arrested by Huns

London, Tuesday, Nov. 21.—A despatch to the Daily News from Rotterdam says:— "The entire Brussels City Council, with the aldermen, were arrested on the 17th for refusing to surrender lists of the city's unemployed. They were released after 24 hours, when it was found that the lists had been taken by the Germans. As far as is known at Rotterdam no deportations from Brussels had occurred as late as Saturday."

Worse Than Invasion

"This, indeed, is a disaster worse than invasion, worse than the retreat from Antwerp, worse than the wholesale massacres of Louvain, Tammes, Andenne, Dinant—worse even than the ceaseless persecutions of the last two years. What is Belgium's answer to this new crime? "To-day her soul is stricken. Every one of these captives has to choose between death and dishonor. Their spirit is broken by the slow, gnawing torture endured in complete isolation. "In order to inflict new tortures upon her victims, Germany has had to abandon her last hope that she might still possess a rank among the civilized nations of the world. Since the beginning of the war she has piled up such a heap of horrors that the wildest imagination might well shrink from it. But these slave raids will be considered in the future the keystone of the ghastly monument. It is not only without justification, but without the slightest shadow of extenuating circumstances."

# "New York Night" at Wesley Epworth League

### Interesting Accounts of Meetings of Young Peoples' Societies of Various Churches Throughout the City.

There was a very large attendance at Wesley Epworth League last night when Mr. F. J. Porter gave a very interesting address on his trip to New York last summer. He described New York's large buildings and skyscrapers, among the most important being the Woolworth Building, which is 55 stories high, the Metropolitan Insurance Building, the post office and others. He said that no buildings are not allowed to be erected above a certain height.

He spoke of the railroads of New York and the network of elevated cars. Of the life of New York he spoke of as being one continual movement during the 24 hours of each day, of the unlimited wealth of the city and the business and social life.

While in New York Mr. Porter viewed a number of churches of which there are some of the finest on the continent.

In the course of his speech Mr. Porter said that it would take a great deal more time than he had been allowed to tell in every detail that the visit would ever remain fresh in his memory as one of the most interesting trips in his life. He said that when he was on a trip to Liverpool, some time ago, that when he arrived back in New York, he was certainly glad to be back on American soil. New York is spoken of as the Great White Way and from its blaze of lights for miles and miles, it certainly deserves its name.

Miss Lucille Graham read the lesson, while Miss Lily Newham presided.

**Zion Church**  
At Zion Church Young Peoples' Guild last night, the pastor, Rev. C. A. Woodside gave an interesting and faith-producing talk on "The Funny Side of Advertising." And that there is a funny side was entertainingly brought forth by the speaker, who read several advertisements—both poster and newspaper—as illustrations.

Prayers to the speaker's discourse instrumental and vocal solos were rendered by Mrs. George Scott, B.A., Caspell and Miss A. Hart.

**Alexandra Church.**  
The regular weekly meeting of the

Alexandra Y.P.S., was held last night. The topic for the evening was "The Russians in Europe and Canada," taken by Mr. Chas. Campbell. The committee appointed to supervise the sending of Christmas gifts to the members of the society overseas, reported that in all about forty-two parcels had been mailed.

**Balfour Church**

The regular weekly meeting of the Y. P. S. C. E. of Balfour Street Presbyterian church, was held last evening, which took the form of a debate, "Resolved that the influence of the home is more powerful on the child than that of the school." The affirmative was upheld by Miss Margaret Morrison and Miss Helen Edmonds, and the negative by Misses Winnifred Campbell and Helen Smithson. Splendid points were brought out by each side, and the judges had great difficulty in deciding who had won. However, after a lengthy discussion, they awarded their decision to the affirmative. The judges were Misses Baynor and Messrs E. Danby and Douglas White.

Refreshments were served by the social committee, and a most enjoyable and beneficial evening was brought to a close by the singing of the National Anthem.

### STEAMER MISSING

**Boston, Nov. 21.**—Fifty-three days out on a voyage ordinarily completed in 18 days, the Greek steamer Nicholas Athanassulis, from Penarth, Wales, for this port, was given up as lost by agents here today. The steamer called at Macra for bunker coal on September 29th, seven days after leaving the Welsh port. She had not been heard from since leaving Macra. The Athanassulis, a vessel of 2,244 tons, carrying a crew of 35 men, was under charter to load 175,000 bushels of grain here for delivery to the Greek Government at Piraeus.

**Unimpeachable.**—If you were to see the unimpeachable volume of unimpeachable testimony in favor of Hood's Sarsaparilla, you would uphold yourself for so long delaying to take this effective medicine for that blood disease from which you are suffering.

# STEAMER FIRED ON WITHOUT WARNING

### Hun Sub Makes Attack On British Vessel

By Courier Lined Wire.

New York, Nov. 21.—The British Steamship Siamese Prince returning in ballast after delivering a cargo of horses at Brest for the French Government, was fired upon without warning, presumably by a German submarine off the French coast on November 4, according to officers of the vessel, which arrived here today. Three shots were fired, the officers said, two in quick succession which passed over the port quarter and a third soon after, which dropped into the water astern. # BEST LIVER AND BOWEL LAXATIVE FOR FAMILY USE

Instead of nasty harsh pills, salts, castor oil or dangerous calomel, why don't you keep Cascarets handy in your home? Cascarets act on the liver and thirty feet of bowels so gently you don't realize you have taken a cathartic, but they act so thoroughly and can be depended upon when a good liver and bowel cleansing is necessary—they move the bile and poison from the bowels without gripping, and sweeten the stomach. You eat one or two at night like candy and you wake up feeling fine, the headache, biliousness, constipation, or bad cold disappears. Mothers should give Cascarets, sick, feverish or bilious children a whole Cascarets any time—they are harmless and safe for the little folks.

### Declares German Note to U. S. Regarding Sinking of That Ship.

**Berlin, Nov. 20.**—via London, Nov. 21.—Secretary of the United States received today the German reply to the sinking of the British Steamer Rowanmore and three steamers which were lost in September. In regard to the Rowanmore, the German Government denies that the submarine fired on lifeboats containing members of the crew and maintains that the men on the Rowanmore owe their lives to the precautions taken by the Germans and the skill with which the operations were carried out.

### Valuable Suggestions for the Handy Homemaker—Order Any Pattern Through the Courier.

# LADY'S ONE-PIECE APRON.

The general note of the season in dress designs is for long, loose lines—it is followed to a degree in the designing of aprons also. The illustration is an example.

Neatness and smart style characterize this serviceable garment, which is cut in one piece and adjusted with back straps that cross and button over to the shoulder fronts. The straight front is adorned with a shaped pocket of good size, placed at either side.

Those who tend the altar fires of the household gods will be thankful for an apron like this which is so easy to arrange over the dress and as easily removed. This feature alone will recommend it, as one may get ready for church or to make a call and by slipping the apron on prepare a meal in full contentment, because it covers the dress completely and when removed one has no dressing to do. A time and temper saver.

Plain and striped gingham, linen, chambray, etc., are suitable for this utility garment. To make it the only instructions necessary are written and printed on the pattern envelope.

The apron pattern, No. 8,000, cuts in sizes 36, 40 and 44 bust-measure.

To make in size 36 requires 3 1/2 yards 36 inch material.

To obtain the pattern send 10 cents to the office of this publication.

## Rippling Rhymes

By Walt Mason

THE BEGGAR

The snow will soon be flying, the snow we love so well, in drifts it will be lying along the hazel dell. The howling winds will grip us, and give our ears a bit, the morning frost will nip us, and make our whiskers stiff. But we who toiled and panted preparing for this time, are cheerful and enchanted to see the snow and rime, And now there is a comer to every worker's door—the man who loafed all summer and dodged the useful chore. The man who lounged, and fiddled, hard by the village Kirk, and who in anger brided when he was asked to work. In ancient chestnut phrasins, he asks for things to chew, for leeks and raisins, for pumpkin pies and slaw. His kids in countless numbers, are suffering for bread; his ants are robbed of slumbers because they have no bed. The same old, whiskered stork, you've heard for years and years, told by a sliver hoary, with alligator tears! He winks by your bounty, you give him tips and tea, and wonder why the county won't feed such scoundrels as he.

### CHURCHILL AND LLOYD GEORGE

They Have a Great Many Character-  
istics in Common.

Very alike in many respects are  
Lloyd George "the man of the mo-  
ment" in Great Britain and Winston  
Churchill, the most notable politician  
outside the Cabinet in that country.

For one thing, they are both men  
of the very highest courage, and  
both rate courage in others as chief  
among the virtues. Both, again, are  
philosophers and guide themselves  
when confronted by the various  
problems of life by certain definite  
principles of practical wisdom. Each  
of them possesses a prodigious mem-  
ory. Mr. Churchill knows all the  
works of some poets—Bunyan and  
Shakespeare are his favorites—by heart.  
Mr. Lloyd George has a marvellous  
memory for anecdotes, and tells a  
good story well.

Another thing which would hardly be  
called a "well-read" man. Yet each  
has a wonderful fund of varied in-  
formation. Both are omnivorous  
readers of newspapers. Both have  
read a good many books—Mr. Lloyd  
George's favorite reading matter is a  
"historical" novel, and Mr.  
Churchill's military history.

If it is often mistakenly thought that  
both men are far from robust phys-  
ically. There could be no greater  
mistake. Both are exceptionally strong  
and muscular—Mr. Lloyd  
George, despite his small stature,  
weighs 190 pounds, and is of singu-  
larly sturdy build. Mr. Churchill,  
although he stoops, is as active as a  
cat, and can undergo the most  
strenuous physical exertion. Both  
men have a singular strain of youth-  
fulness in their make-up, and when  
away from work and responsibility,  
are fond of all kinds of boyish  
pranks.

At one time the two men looked  
to be running a neck-and-neck race  
for the leadership of the Liberal  
party. But it looks now as though  
Mr. Lloyd George has definitely out-  
distanced the other. He looks safe  
to be the next Premier, though one  
expects to see him the head not of a  
purely Liberal, but of another coal-  
ition Government.

Mr. Lloyd George is by far the  
more emotional of the two men; Mr.  
Churchill, by far the more logical.  
Thus, as one might expect, the for-  
mer is the better platform speaker  
and the latter the better debater. Mr.  
Lloyd George is very musical, while  
the particular form of art favored by  
Mr. Churchill is that of paint-  
ing.

Mr. Churchill, when he is in good  
form, can be very animated, but at  
times he is preoccupied and gloomy.  
Mr. Lloyd George, on the other  
hand, is always animated, and, when  
speaking, Mr. Churchill is apt to  
miss his sleep too much and too  
often, while the other has the en-  
viable habit of being able to go out  
to sleep at any moment and any-  
where he wants. Mr. Lloyd George  
cares nothing whatever for the pleas-  
ure of the table. He likes the very  
simplest kind of food, and cares not  
at all for wine, drinking very little  
and that little only for the sake of  
good fellowship. Mr. Lloyd George  
is a liking for a good  
cigar. Mr. Churchill, on the con-  
trary, is an epicure who appreciates  
the best of food and cooking, and  
likes a dinner of many courses. He  
is also a connoisseur of wines. He  
is blessed with a remarkably healthy  
appetite.

**THE SITUATION**

The news with reference to the Roumanians is disquieting. Yesterday's despatches indicated that Von Volkenhain's forces were making tremendous headway and it has now been established that they have made 60 miles in the last four days and are half way to the Roumanian capital. King Ferdinand's army in western Wallachia is in danger of becoming surrounded and they will be lucky to successfully effect a withdrawal.

A pleasing contrast to this condition of affairs is afforded in the fact that the Serbians, who not so long ago were in even worse plight, have commenced to come into their own again. After the capture of Monastir, the badly routed German-Bulgarian forces are hurrying northward in confusion. At the same time as the Serbian colors were being raised over King Peter's new capital, his men were driving the foe out of Makovo, fourteen miles northeast of the city. On the rest of the fronts nothing has transpired of importance.

**THE NICKEL QUESTION ONCE MORE.**

Mr. Hartley Dewart, K. C., the gentleman who recently won one of the 'Toronto's' in a bye election, based one of his chief appeals in that contest on the ground that the Dominion and Ontario governments were allowing nickel to be shipped to the enemy and that Canadian soldiers were victims on the field to that circumstance. Saturday night in a speech to his constituents returned to the charge. In this connection he used documentary evidence to support the claim that the "International Nickel Company," exploiting the Canadian product, still has affiliations with H. R. Merton and Co., of London, which firm before the war was bound up with the German trust and has since been criticised in a like regard. The conclusion reached by Dewart was that Premier Hearst, Hon. Frank Cochrane, and Hon. Mr. Ferguson should be driven from public life.

At another gathering held last night in the Queen City, Hon. A. E. Kemp, speaking for the Dominion government, made a complete answer. He conclusively showed that there had been co-operation throughout with the British authorities and that arrangements had been made which ensured the fact that Ontario Nickel could not reach the enemy. With said arrangements the British government had expressed complete satisfaction.

There is no need to dwell upon the enormity of the charge which Mr. Dewart, for political reasons, is trying to bring home to the Conservative administrations at Toronto and Ottawa. His impeachment means in all of its bald hideousness that members of those two governments, many of whom have sons at the front, are either deliberately or carelessly feeding the foe with one of his most necessary attributes in the matter of armor plate, guns and projectiles. Such an allegation is a gross and gratuitous insult, not alone to the men whom he seeks to impale, but also to the intelligence of the Canadian people.

Unfortunately the British government failed to appreciate a proposal made many years ago by the late Hon. A. S. Hardy, that John Bull should control Canada's nickel deposits—over seventy per cent. of them in the world are located in Ontario. Also, unfortunately a former Liberal government of this province, failed to insist that the refining should be done here. Both are lamentable facts, but they have now gone into past history.

That the authorities, both Provincial and Dominion, have in conjunction with the British government taken every possible precautionary step, with regard to circumstances as they exist, no sane or reasonable man can doubt. Those who seek to establish otherwise are in reprehensible and deplorable and unparliamentary work.

**CANADA NOW AND AFTER THE WAR**

The war has served to greatly enhance Canadian trade figures. When hostilities commenced, our total for the previous year had been \$1,061,000,000. At the end of the twelve months to September last, the figures were \$2,014,000,000 and they are still piling up at a record pace. Manufactured exports rose from \$63,355,893 in 1914 to \$361,455,527 in 1916, war orders accounting for most of the difference, and as Sir George Foster pointed out recently in Toronto, when hostilities cease, what then?

The moment the bells of peace ring, the doors of munition factories will be closed and the wheels of other industries contributing to them will cease.

"The war has taught the Empire that mobilization, standardization, organization and co-operation—that those four things are winning this war, and the lesson will be absolute after the war if not before the war is over, that these same things must be applied in the world of business. So, in Great Britain they are doing that, and so they are doing it in the United States. Read their scientific journals, read their trade journals, read the results and reports of their great conventions. The United States is alive on the borders of the south to the borders of Canada, looking to the future, making preparations—scientific, financial, including the engineering and the application of business ability, making preparations for what shall succeed the war. France is doing the same on a scientific and uniform basis; so is Russia; so is Italy, in lesser degree but still doing it; all the countries are doing it; so is Japan. What is Canada doing? She may be thinking a great deal. She may be doing something, but to my eye there is not much that can be scanned upon the surface as yet. How long shall we go on in that way?"

Without much doubt the capitalists of this country will need to wake up to the situation. The Allied countries will want to buy our goods as much as possible, but industrial products and enterprise will have to be right on hand if the possibilities are to be adequately met. Otherwise this country will find itself badly distanced in the keenest competitive race this world has ever yet seen.

Emperor Francis Joseph of Austria, is reported to be in a somewhat serious condition. He is now 86 years old and his life has been crowded with domestic and other tragedies but the chances are that he will yet live long enough to see his heterogeneous country dismembered.

It is a merry race which Mayor Bowley is running with President Wilson in the matter of letter writing. At last reports the Mayor wasn't quite up but his hot breath was on the President's flank.

**Those New "Bran Foods"**—a new one is born every week—a recognition of the need of food laxatives instead of drug laxatives. The problem of presenting bran to the human stomach in combination with a nutritious, easily digested food was solved twenty years ago by the invention of **Shredded Wheat Biscuit**, the food that supplies all the body-building material in the whole wheat grain in a digestible form, combined with bran, which is Nature's laxative. A body-building, strength-giving food. Serve with milk or cream or sliced peaches and cream or other fruits.

**SAGE TEA BEAUTIFIES AND DARKENS HAIR**

Don't Stay Gray! It Darkens So Naturally That Nobody Can Tell.

You can turn gray, faded hair, naturally dark and lustrous again, after night if you get a 50-cent bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well-known oculist here, because it darkens the hair so naturally and evenly that no one call tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

Millions of folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

This preparation is a toilet requisite and is not intended for the cure, mitigation or prevention of disease.

**GERMANY ABANDONS**

(Continued from page 1)

London, Nov. 21.—(New York Sun cable).—Under the title "The agony of Belgium; how slavery was prepared with starvation as a weapon," The Times says that rigorous measures are in force to prevent personal communications from the invaded part of Belgium reaching England. The following article is by a neutral commercial agent who has just returned from Brussels, where he lived many years:

"A spirit of revolt has been awakened, which has grown stronger month after month, especially among the latrine classes. When the entire output of a boot factory was commandeered in behalf of the German soldiers, the master was aggrieved and the workmen exasperated. They realized that they were assisting the enemy by presenting him with men's boots.

"The metal engineering trades have suffered worst of all. The great Cockville Works were taken over indiscriminately after the fall of Liege and since then all the iron and steel and electric works in the valley of the Meuse have fallen into German hands.

"M. Rensen, director of important angular steel works, who refused to continue operations for the invader, was made a prisoner and sent to Germany. The machinery of the International Electrical company and of similar concerns was carried across the Rhine. All the stocks of copper and brass and enormous quantities of tools were commandeered and thousands of skilled artisans were thrown out of work.

"The latest requisitions of the German tyrant are all the leather belting in the country. Idleness is therefore forced upon the people. The German statement that the workmen preferred to be maintained on public charity is untrue. Look at also what was done in the agricultural districts. The Germans took the whole crop of seeds. There was a plentiful potato crop, but the bulk of it was sent to Germany. Latterly they have carried off all the cattle, oxen, sheep, cows, even goats. Every week a thousand animals are passing through Liege from the frontier. Now you will understand why starvation is driving these industrious, thrifty people to desperation."

Simcoe, Nov. 21.—(From our own correspondent)—The prisoners Leflar and Jacobs were brought before Squire Earl yesterday at 11 o'clock on the charge of attempting to escape from custody. Each was arraigned separately. H. P. Innes advised them not to plead and the Acting Crown Attorney desired to require each to give evidence against the other. Mr. Innes held that as both were accused of the same offence in the same place and at the same time, neither could be used as a witness against the other without giving evidence against himself and the bench so ruled. Chief Justice gave enough evidence to secure a commitment and the men were returned to gaol.

RECRUITING IN HALDIMAND

To Be Carried on For 215th—Urge Council of That County to Co-operate.
A representative meeting of the residents of Haldimand county was held on Saturday afternoon in Dunnville for the purpose of discussing the recruiting situation there, and effecting a suitable organization to carry on the work. Col. Morris of the 215th was present and reports that prospects from that section are very bright. The county council at its next meeting, on December the 5th, yesterday when he waited on by a committee composed of representatives from the different townships, who will urge upon that body the necessity of its support and co-operation. Mr. Williams, who has charge of recruiting in this district, will also be present.

Captain Nelson, of the 213th battalion, formerly known as the American legion, is in the city to-day for the purpose of securing any of his countrymen who may be resident here and who wish to enlist with the 215th. He will be at the headquarters of the 215th this morning arranging for quarters in which to carry on his work.

Many Absent.
At the present time there are no less than one hundred and eighteen members of the battalion absent, taking courses at Toronto and St. Catharines. Fifty-five N.C.O.'s and men left yesterday with Lt. Houlding to attend courses in bombing and machine gun work at St. Kitts.

It was announced this morning that Ptes. Hucklebridge and Batson of the "Mad Fourth" who are home on escort duty had been transferred to the ranks of the 215th.
One Recruit.
One recruit was signed up this morning in the person of William Fraser of Newmarket, aged eighteen years. Fraser had recently come to Galt in search of employment, but hearing of the local battalion, he decided to "do his part" as he expressed it this morning and accordingly arrived in Brantford last night. He was taken on the strength to-day.

Must Go to the Front.
In respect to the enlistment of men, new regulations are now in force. When the prospective recruit has been successful in getting into the local battalion, he must then come up before a medical board and again be examined.
This is done to prevent the immense wastage which previously occurred as a result of the fact that the soldiers had to be discharged, in cases where the age of the applicant is in doubt, a birth certificate must also be produced.

Pte. Robert Finnegan, 140th Battalion, was committed at Forest for trial, charged with shooting Pte. Moses Wolfe, an Indian deserter.

### By Supplying List of Unemployed—Huns Take Personal Census.

By Courier Leased Wire.  
 London, Nov. 21.—The common council of Antwerp has refused to deliver lists of the unemployed to the Germans, according to a Reuters' Amsterdam despatch quoting The Telegraaf. As a consequence, the despatch says, the Germans are now calling men of all classes to the police stations for examination as to the identity of their papers. These men are said to be given the choice of a German labor contract of three or six months or immediate deportation to Germany. The Telegraaf adds that an official letter has been sent to all burgomasters demanding lists of unemployed under penalty of deporting citizens of all classes to Germany.

## Music and Drama

At the Grand "Charley's Aunt."

It would be impossible to find a play that has such a large following, so many ardent admirers who will solemnly swear by its laugh-producing qualities as "Charley's Aunt" which is the attraction at the Grand Opera House, matinee and night, this week. Brandon Thomas wrote it, almost every theatrical manager in the civilized world has produced it from one to ten or twenty times during his career, every actor and actress who ever donned grease paint and wig has played in it one to twenty or more times, or their education has been sadly neglected.

In these days of war we speak of thousands of people who with the nonchalance we generally bestow upon the daily abusions of a pet canary. Thousands are being killed or wounded; thousands more are advancing or retreating; other hordes are "Somewhere in France." We think in multitudes. That being the case, it is not overstepping the limit to admit candidly and unreservedly that twenty million people on both sides of the Atlantic Ocean have seen "Charley's Aunt." And so far as the best and most authentic statistics record, not one of that vast multitude has been known to sit through the performance without smiling, laughing or just plain gawking. It can't be done, unless the auditor be deaf, dumb and blind, and he doesn't count.

 Books and the love of them, are among the few things that an adverse fate cannot take from you. When asked if she were lonely in the remote country town to which she had gone after six years at Washington, Gail Hamilton once wrote:

"We do have the best of company. Swinburne has been down here for three weeks or so, charming me with his choruses, and Mill is always here at call, which is about once a year. He is a great rest and solace and hope to me. I have a call every evening from Louis Napoleon. In fact it would take me a long while just to name the people who come to see me and who talk their very best in my society."

### For Private Use in War Is Advice of France

By Courier Leased Wire.

### BOMBS FOUND ON AMERICAN SHIP

Twenty Missiles Remained Unexploded During a Fire.

New York, Nov. 20.—Twenty unexploded bombs were found in the sugar cargo of the American Steamship Sarnia upon her arrival at Cherbourg, France, after a voyage, starting from New York on September 2, during which the vessel caught fire from a cause unknown, according to fourth Mate Waybrance of the Sarnia who arrived here to-day on the American Line Steamship New York from Liverpool. Sugar made up the bulk of the cargoes of the Sarnia and the barge Avondale, which she had in tow upon leaving New York. The fire at sea was extinguished without serious damage, Wybrance said, and the two vessels put in at Havre to discharge part of the cargo. It was not until they reach Cherbourg that the sugar was unloaded. The Sarnia before the war was a Hamburg-American Line Steamship, and since transferred to the French Government by A. H. Lamborn and Company, New York sugar brokers. An officer of the latter company said to-day that no word had been received here of the finding of bombs and that the fire was not a serious one.

### FIRE BURNED FOR THREE YEARS

Sealed Mine in British Columbia Is Found Still Aflame.

Fernie, B.C., Nov. 21.—After being sealed and supposedly completely barricaded from the outside air since 1913 for the purpose of extinguishing a fire in number one mine at Carbin surface, indications to-day showed that this fire was by no means exhausted and was in fact extending to an alarming degree. Assistance was sought from here to deal with the situation since great loss is threatened unless the fire is promptly extinguished.

### WAR WIDOWS TO COME TO CANADA

In Order to Relieve Congestion in the Old Country.

Chicago, Nov. 21.—Thousands of British war widows and their children are to be transported to Canada with the expectation that many of the women will be married to Canadian farmers, according to plans outlined here to-day by David Lamb, of London, commissioner of the International Emigration Society of the Salvation Army. Commissioner Lamb, who has made a tour of Canada, said he had received assurances of the support of the plan from both the Canadian and the British Governments. "At the close of the war," he said, "men will return from the trenches, expecting with reason, that their old positions, now filled by women, will be open to them. But women, especially widows with children, will not willingly give them up." Mr. Lamb said that the demand for the privilege of such emigration is such as to enable the army to select only those suited physically and mentally to be good colonists. He added that no woman will be placed aboard ship until arrangements had been made for her employment.

### Hunger Stalks Through Belgium NOW!

While we in Canada are bringing in the harvest, filling our store-rooms and stocking our pantries with an abundance of good food—our Allies in overrun Belgium are facing another winter of near-starvation.
Women and children there by millions have gone for two years on short rations, for the Belgian Relief Fund has never been sufficient to provide full fare. Consequently they are in no condition to stand the still greater privations threatened on account of the growing number dependent on the Fund. Anything less than the present meagre allowance of bread and soup would, in thousands of cases, fail to hold bodies and souls together.
Shall we—can we—go on eating our three square meals a day—living well if not luxuriously—while Belgian children, pinched and cold, sobbingly beg their mothers for bread enough to stop the gnawing hunger?
\$2.50 a month in the hands of the Belgian Relief Commission, will feed a Belgian family. A cigar less a day—a night missed from the theatre—simpler refreshments after an evening's cards—the price of any one of a dozen such habitual luxuries would provide the food that means life for a Belgian mother and her children till the end of the war.
Won't your own meals taste better when you know some little Belgians also are enjoying the food which you provide? Whatever you feel that you can spare, send your subscription weekly, monthly or in one lump sum to Local or Provincial Committees, or send Cheques payable to Treasurer.

By Courier Leased Wire.  
London, Nov. 21.—Col. W. Spencer Churchill, former first of the admiralty, who has a prominent figure in newspaper discussions recently, yesterday told The Sunday Pictorial a story of the siege and fall of Antwerp. Churchill says that the admiralty's outlook urged the importance of Antwerp and the vigorous measures for its defence but that nothing was done during the entire month of September, when the German bombardment started and the insistent cry for aid came from the Belgians, he did the Anglo-French government consult and decide upon steps to be taken.

#### On Charge of Espionage and High Treason Against Hungary.

Vienna, Nov. 20.—The supreme Landswehr Court has rejected the appeal of the Bohemian leaders, Dr. Kramarz, Dr. Rosenhain, Herr Cervinka and Herr Zamasol, who were condemned to death for high treason and espionage in war time. The death sentences against the men, therefore, became valid.

A despatch from Vienna June 4, said Dr. Kramarz and the other three members of the Hungarian Czech party, who were charged with leading a movement to bring about a rapprochement between Bohemia and Russia, had been found guilty and sentenced to death. Dr. Kramarz is leader of the Young Czechs; Dr. Rosenhain is a deputy in the Diet; Herr Zamasol is a bookkeeper, and Herr Cervinka is the editorial secretary of the newspaper Narodny Listy. After their trial King Alfonso appealed to Emperor Francis Joseph in behalf of the convicted men.

### "I TOLD YOU SO" SAYS CHURCHILL

By Courier Leased Wire. London, Nov. 21.—Col. Winston Spencer Churchill, former first lord of the admiralty, who has been a prominent figure in newspaper discussions recently, yesterday began in The Sunday Pictorial a story of the siege and fall of Antwerp. Col. Churchill says that the admiralty at the outset urged the immense importance of Antwerp and the need of vigorous measures for its defense, but that nothing was done during the entire month of September. Only when the German bombardment started and the insistent cry for help came from the Belgians, he says, did the Anglo-French governments consult and decide upon steps for relief.

### GERMANS ORDER HOUSES REBUILT

Amsterdam, via London, Nov. 21.—According to The Telegraph, the Germans have ordered the owners of houses which were wrecked in Diest, Belgium, in August, 1914, to rebuild as rapidly as possible. If they are unwilling to re-erect their houses, they must remove the wreckage and make the site into a garden. The town of Diest, the Belgians have been ordered to rebuild the belfry of the church toward which the Germans offer a subsidiary of 600 pounds from the Belgium budget. The town has protested against the order.

### Boston Leads in National League

New York, Nov. 20.—The Boston Braves led the National League in team fielding last season, according to the official averages issued last night by Secretary John Heydler. Eight pitchers got through the entire season without an error. They are Hughes, Boston; Bentz, Anderson and Sallee, New York; Coombs, Brooklyn; Jasper, St. Louis; Dale, Cincinnati; and Adams, Pittsburgh. Walter Holke of New York, is the nominal leader of the first basemen with a percentage of .997, but he played in only 34 games, while Jack Daubert of Brooklyn and Jack Miller of St. Louis led the rest of the league, both having averages of .993. The official figures give Lew McCarty of the Giants the best record among the catchers, although he tied for first place with Geo. Gibson, who was released by Pittsburgh in the middle of the season and Emil Hahn of Cincinnati. All three have a percentage of .989. McCarty, however, figured in 51 games for the Robins and Giants, whereas Gibson caught only twenty-nine and Hahn only eighteen. Mike Morrey, of Brooklyn, finished on top among the third basemen with .965, while Rabbit Maranville of Boston, was the best shortstop among the regulars with a percentage of .947. Groh of Cincinnati led the second basemen with .980, while Flaek of Chicago, has the best average among the regular outfielders, with .991. Fitzpatrick of Boston, formerly of Toronto, is the nominal leader, having a perfect fielding average of 1.000 in the outfield, but he played in only 28 games.

We have a good Port Wine at \$4.00 a case, while our "St. Augustine," an excellent Wine, 8 years old, only \$5.50 for one dozen quarts or \$1.50 per Imperial gallon. War tax stamps are included in these prices. We have a score of other brands, all excellent value.

### MAYOR WRITES TO CHIEF ENGINEER

#### Of G. T. R. With Reference To St. Paul's Avenue Subway.

The following letter has been sent by His Worship Mayor Bowley to Geo. A. Mountain, Esq., Chief Engineer of the Board of Railway Commissioners for Canada, and to the said Board.

Brantford, Nov. 20th, 1916. In the matter of St. Paul's Avenue Subway in the City of Brantford, and the Grand Trunk Railway Co. of Canada.

Memorandum of the case presented on behalf of the City of Brantford against the Grand Trunk Railway, relative to the cost of the said subway.

1. As to location of proposed subway. It is situated on a Township base line of a leading thoroughfare through the Township of Brantford and South Daunties from the City of Brantford to the cities of Galt and Kitchener in the County of Waterloo and is the direct road into the City of Brantford from the Villages of St. George, Glenora and Blue Lake. This road thus being a thoroughfare out of and into the city for many thousands of people, also the main thoroughfare into and from the city to the elevated plateau of Terrace Hill with its three thousand odd of population.

2. I respectfully urge the point that there was no mandate from the people of the city in the election of a council to close up this great leading highway and I venture the opinion that had such an issue been presented it would have met with overwhelming defeat. I may be reminded that this By-law was validated by an act of the Provincial Legislature. Everyone knows that very few indeed in any locality are against the proceedings by which private Bills are carried and of the methods by which they can be defeated.

3. Assuming although the assumption would hardly be that the city should be bound by so impudent and unjust a bargain then by no stretch of the imagination could all the thousands of people requiring the use of this public highway be bound by what they did not directly or indirectly give their sanction or consent to, and therefore all these people should have a right the Grand Trunk Railway Company should respect. This right is to compel the construction by the Grand Trunk Railway Company of this subway. Why? Because these people should not be compelled to go up and around over a quarter of a mile to the Grand Trunk overhead bridge, necessitating in loads of practice one quarter of a full load with all the attendant loss of time, expense and inconvenience.

As to the cost of this structure, the foot traffic over where this subway is proposed to be constructed has become increasingly dangerous, there being no railway whistling in Brantford, and trains running past this point at 50 or 60 miles an hour at night, often dark and foggy. The necessity for a foot subway is obviously in the highest interest of the Grand Trunk itself, the cost of which is wholly a matter for the Grand Trunk Railway Company. Then arises the more serious question of the cost of the balance of a subway of at least 40 feet in width, with the necessary depth. Nothing less should be constructed because of the very large requirements of the traffic, both pedestrian and vehicular. The depth required in order to keep the same free from water would necessitate a very considerable expense in grading down and up to St. Paul's Avenue, and to meet that grade to the South of the proposed subway on St. Paul's Avenue, a very substantial and expensive grade both way at the intersection of Brant Street and St. Paul's Avenue, as well as north, on Alonzo street, I thereby propose that the city at its own cost should bear all the cost of the necessary grades and the Grand Trunk Railway Company should bear all other costs, thus giving back to the people of the Township and the City of Brantford the rights the Grand Trunk Railway Company should never have deprived them of.

All of which is respectfully submitted.

J. W. HOWLBY, Mayor.

P.S.—Please acknowledge receipt and oblige.

### ENGLAND FIXES PRICE OF MILK

#### Food Control Regulations Already in Force There.

London, Nov. 21.—The Board of Trade has begun work speedily under the new food control regulations. Two orders have been issued which will come into operation on Nov. 28, dealing with wheat and flour. One regulates the percentage of flour which may be milled from wheat, varying for the different qualities from 72 to 78 per cent, and stipulates that after January 1 only flour made in accordance with this schedule may be used for the making of bread or articles of food.

The milk order fixes a maximum price not exceeding the price which prevailed on Nov. 15, or alternately the price which prevailed in the corresponding month before the war, the amount being two pence per quart. This order makes the maximum price approximately six pence per quart. The order does not apply to condensed milk or dried milk or milk preparations.

### MAN WHO WOULDN'T DOWN.

Dismissed for Intemperance, He Enlisted and Regained Commission. An official despatch from Canadian Headquarters contains the following:

The whole Canadian army has learned with sympathy and delight of the reinstatement of Lieut. O. B. Jones to his commissioned rank. Deprived by court-martial of his commission because of an act of intemperance while on duty, Lieut. Jones immediately enlisted as a private in a well-known regiment. He showed not only strict devotion to duty, but conspicuous gallantry upon several occasions. He became a corporal, then won his sergeant's stripes. He was awarded a D.C.M. for his reckless courage and again a bar for his medal.

On September 15 he was in the thick of the fighting. It was said of him that he was perpetually out killing Germans. His conduct was such as to recommend him for further promotion. He was so severely wounded that it is improbable he will be again able to serve his country as a soldier; but he is now reinstated as a soldier, and he has won back his honor.

### He Accompanied Him.

The well-known novelist, Mr. Jack London, although he has permanently taken up his abode in California, pays periodical visits to England to see his publishers and transact other business. On the last occasion he was over there he was introduced to a noted musician.

"I, too, am a musician in a small way," said Jack London. "My musical talent was once the means of saving my life. There was a great fog in our town in my boyhood. When the water struck our house my father got on a bed and floated with the stream until he was rescued."

"And you?" asked the musician.

"Well," said Jack London, "you see, he accompanied him on the piano."

### As Born.

Wild of eye, a man burst into a barber's shop.

"You remember selling me some patent hair restorer last week, you hoary-headed old swindler?" he roared, angrily. "I swore it would restore my hair to its original state, didn't it?"

"And didn't it?" asked the barber, as he went on shaving another customer calmly.

"Didn't it?" roared the enraged man. "You obtained my money under false pretences. Why, it even removed the little hair I had left, and now I'm as bald as the pavement!"

"Then there's no false pretence about it," said the barber. "I said it would restore your hair to its original state, and you know, sir, most of us are born bald!"
