

# THE NOR-WESTER.

WARNER & SON, Proprietors.

TUESDAY, AUGUST 17, 1884.

## THE NORTH-WEST COUNCIL.

This body has concluded its deliberations after a session of a little more than a month. Our member Mr. Geddes returned by the train on Wednesday but we have not yet had an opportunity of ascertaining from him what has really been accomplished and it will be some time yet before the new and amended ordinances are published. In view of the amendments that have been passed during this and preceding sessions since 1879, it is absolutely necessary that the ordinances should be revised and codified in order that the people of the territories should be able to understand the system of laws by which they are governed, and we would suggest that the government appoint a commission of, say three: one of the Stipendiary Magistrates and two senior barristers of the Territories, to perform that work and to superintend the publication of a new and revised edition of the ordinances.

In another column will be found the latest reports of the closing days of the session. They are somewhat meagre and convey but little information as to the nature of the ordinances introduced and we will therefore have to wait until they are published before we can pass judgment upon them. There appears to have been several matters of public interest discussed and a radical change in the constitution of the Council was proposed by Mr. Oliver, Member for Edmonton who is an active member of that body, and a pronounced liberal in his views. His resolutions which we have published elsewhere) were voted down, and an amendment of Mr. Jackson, the member for Qu'Appelle, also an energetic and prominent member was passed. We presume that the school bill, introduced by Mr. Oliver in the previous session and ordered to be printed for circulation during the recess, was discussed but with what results we are not yet informed. We observe that it was proposed to reduce the average attendance of scholars, necessary to obtain government aid, from 15 to 10, which is a wise amendment in view of the sparse population of many of the settlements. We perceive that the sum of \$1000 has been appropriated to this district for public purposes, a sum far too small to meet with the wants of the people. It will take nearly that amount to rebuild the Elbow river bridge the want of which is severely felt by residents across the river, if it be true that the greater portion of the large sums collected in this district for whisky and other fines goes into the coffers of the Dominion Government, then we trust that our representative will make suitable application to the proper quarter so that we get some return for this and other public services. As we have before stated, thousands of dollars have been levied on the people of Calgary during the last year for fines, and we have a right to demand a return of some portion at all events, for our roads and bridges and for educational purposes. We notice that the Minister of Public Works intends to visit the North-west shortly. Advantage should be taken of his visit here to impress upon him the necessity of the Dominion Government building a court-house and jail in Calgary, and also giving a grant to the Elbow bridge. We observe that the members of the Council made a strike for their back pay and also for their indemnity for the present session. This is quite right. Many of them come from a great distance and they are entitled to their travelling fees as well as a moderate sum for their time and services.

## EDITORIAL NOTES.

Louis Riel made himself notorious some years ago as the leader of the Red River rebellion, for which he was outlawed, appears to be anxious to again become distinguished in public life. He has been for some time past in the North Saskatchewan district holding meetings among the French half-breeds, on the subject of their grievances in regard to their lands. There is no doubt that they have some cause for complaint and that there is no reason why they should not be entitled to the same privileges as their brethren in Manitoba. But we agree with our contemporary the Prince Albert Times, that they are going the wrong way about it to engage the services of a man like Riel who has been until lately an outlaw and is now an American citizen. There are plenty of able men in Prince Albert some of them connected by marriage with the half-breeds, who are much more competent and better fitted in every way to bring the wishes of the half-breeds before the Dominion Government and whose representations are much more likely to be successful than those of a man of such an unenviable reputation as Mr. Riel.

Our local scientists are airing the theory that the copious rains which have prevailed in this district during the present summer have been caused by the blasting operations in the mountains. The theory is rather fetched indeed. While admitting that artificial or other sudden explosions will discharge a rain cloud, it has yet to be shown that they will produce one and it also remains for the local scientist to show how it is possible for these explosions, confined as many of them are by the rocks they are intended to crush can make the wind blow steadily from the north east and the south east and from the quarter in which these explosions occur.

Some generous hearted people in town are very much annoyed, because the Nor-wester does not back out a good deal of abuse and verbiage against the Mounted Police. We are in fact accused of "hauling on to the skirts" of the Mounted Police. That is not our business any more than it is to abuse them. The fact is the persons who make this complaint do not support either of the local papers. When they want to read a paper they go and borrow it, their objections are not essential only by their meanness. Such men have no idea of the duties of a journalist or a newspaper proprietor in a small place, and they are not likely to know. We have repeatedly said that our columns are open for those who may have public matters to discuss but they are not at the disposal of a cabal of mischief makers and fasteners upon any subject they may choose to discuss. It is true we may not know too much about our business but we have a "midling tight grip" upon the handful of things we do know about, and we don't purpose losing our grip for "society" of Tooley street tailors.

The remarks of our contemporary in regard to the necessity of a public hospital at McLeod apply with equal force to our own town. The necessity for a good hospital here is everywhere becoming more apparent. Who will move in the matter.

Our boys went to McLeod yesterday to play the cricketers there. As there are two or three old Oronsos there it is likely they will muster a good team. Our special reporter has gone with our club to report proceedings for this paper.

## NOR-WESTERS.

### GLEISCHEN.

Special correspondent to the Nor-wester. This is the country where it does not rain. I thought above remark was true last Tuesday and Friday for it did not rain but it poured down. The heavy wind accompanying it lodged the grain and vegetables some what and to-day every thing is right side up again and no damage done, on the contrary a great deal of good.

We are to have a post office established here with Mr. W. D. O'Leigh as postmaster which makes all Gleyschites happy.

New buildings are being put up by Mr. Beaupre and Mr. Grabo.

The C. P. R. buildings have been repaired which gives Gleyschite a decidedly better appearance than before.

Quite a number of our boys are at the front to clear up wrecks and it feels loomsom without them.

Crops here are doing well and the prospect of an abundant harvest is good. N. J. W.

### MELEOD.

Guests: Our High River correspondent sends us the following results of some of the branding there: North-west Cattle Co., 850 calves; Mount Heald Ranch Co., 140 calves, and Mr. John Quire 73.

Hon. H. M. Cochrane has bought 6,000 sheep from Richter & Hunt on the Teton, and 2,000 from Patterson on the Shonkin. They have taken the trail for the North-west.

of granting the privilege; but it will not finally be settled until after a meeting of the Dominion Cabinet is held (probably early next month) to decide whether the Dominion Government or the Lieutenant-Governor of the North-west Territories will issue the licenses. A strong effort was made by the temperance men to prevent the granting of licenses, and to abolish the permit system, but the intelligent public sentiment is strongly in favor of beer licenses being granted under proper restrictions.

The latest accounts from the Columbia River are to the effect that there are a number of dead boats there doing nothing and likely to continue at the business. About 200 entries have been made for mining locations but placer mining has been almost impossible up to this time, owing to the high water in the rivers caused, not so much by the rains as the melting of the snow on the mountains by the excessive heat. At Silver City the Healy (Alberta) mine is turning out some fine copper ore which the company intend to send to Swansea, Wales to be smelted. The present indications are that this mine is going to turn out very rich. The surface ore yields over 70 per cent copper and a considerable percentage of silver and other minerals. There is a prospect of Silver City booming again and that after the placer mining craze is over, the inhabitants will return and settle down to hard pan.

## MOOSE JAW.

The weather for past weeks has been all that could be desired, and we are well weathered that the crops are growing splendidly. Already a more buoyant spirit is beginning to pervade business circles in view of the excellent harvest now regarded as most assured. The report of the C. P. R. experimental farms, over which so many witnesses shook their heads, is said to be excellent. In our own neighborhood wherever good seed was properly sown, the well prepared soil, the harvest bids fair to be abundant. No one any longer doubts that the agricultural capabilities of the Moose Jaw district are first class.

## EDMONTON.

Mr. Tyrrell, of the geological survey, arrived in Edmonton last Saturday with his party. He is engaged in in tracing up the coal seams, and has little faith in the supposed coal deposits.

## FROM THE PEOPLE.

### BEER OR NO BEER.

To the Editor of the Nor-wester.

Sir:—I am glad to find that the meeting for the promotion of temperance announced in the three protestant churches last Sunday resulted in the formation of the Blue Ribbon Society whose officers are Rev. Mr. Dyke, President; Mr. Robertson Vice-President; Mr. Armour, Secord Vice-President; and Mr. Rankin third Vice-President; Mr. Spencer Douglas, Secretary, and Messrs. Ingram, Douglas and Clark members of the committee. The society which is non-denominational will hold its meetings fortnightly in the Methodist church commencing Monday evening the 19th inst. at 8 o'clock when it is hoped that all imbued with a sense of responsibility for the welfare of the community will be in attendance. The desire is to provoke discussion on the subject of temperance, and to create a squad moral sentiment giving evidence that a large portion of our people are opposed to not only the drinking customs now prevailing here, but that they are determined to maintain for this North-west country the advanced position it holds as a prohibitory district.

The out-cry for a beer license is a great mistake, and if carried out will be but the introduction under sanction of law of all the evils of the drink traffic. Beer will be but a cover for ardent spirits and revelry, profanity and riot will prevail.

Did you—unfortunate victim of a wife—did you hope in coming to this country that you would be safe here? that your husband, with a passion for drink, would learn to be sober and kind, and that once more fortune would smile upon your household, and all would be peaceful and happy? Did you—broken hearted mother—on parting with your dear and only boy, comment him to God's care, and pray earnestly that in all his wanderings he might be kept free from the alluring cup? Sister, are you concerned for your own hearted and manly brother? Or yes, God's help has been invoked, the earnest and heartfelt prayer has gone up and your heart, anxious, goes, "are at peace. But see! The evil one is at work and your boy's tender hopes are ruthlessly shattered. Your heart may be torn and lacerated by anguish and disappointments, but what matters it when many debasing appetites must be appeased. Would you expect—would you dare to interfere with his liber? Away with the idea. We are not serfs, we are free men. WE SHALL have beer. Poor infatuated beings! Beware lest your selfishness possess you of your better nature and that at last when He comes to take account of His servants you may be obliged to hear the significant words "Inasmuch as ye did it to the least of these my brethren ye did it unto me."

Yours etc.

BLUE RIBBON

Calgary, 6th 1884.

## BANKRUPT STOCK.

The undersigned having purchased the above amount of Bankrupt Stock, consisting of

# NORTHWEST COUNCIL

## Proceedings of the Territorial Parliament.

Changes wanted in the Method of Administration. An Insurance Bill.

Regina, July 28.

Council met at 2.30 p. m. His Honor the Lt. Governor presiding.

The former minutes of council were read and approved.

Mr. Oliver moved to introduce an ordinance respecting real estate.

His Honor thought as the session was drawing to a close that a day or two should be set apart to consider the various resolutions on the books but that in the meantime to expediate matters this business on hand should take precedence.

Mr. Ross introduced an ordinance to enable trustees to hold land in the territories.

Mr. White presented a petition from the Manitoba Agricultural Society asking for a grant. Mr. Jackson moved that it lay on the table till tomorrow.

Mr. Oliver introduced an ordinance to provide for electrical districts in the Northwest. Referred to committee on miscellaneous subjects.

Mr. White moved, seconded by Judge Royleau:

That the Dominion Government be asked to give a grant to establish a law library in the Northwest.

Mr. Goides introduced an ordinance to amend the ordinance respecting stolen horses. It received its first reading.

Mr. Turriff brought in a motion to the effect that the Dominion Government be asked to increase the accommodation of the Council chamber.

Moved by Mr. Oliver seconded by Mr. Ross:

That the requirements of the present regulations in regard to aid to the Northwest schools are too stringent and it is advisable in the case of schools now organized under Northwest ordinance that the average attendance required in order to secure aid from the government should be reduced from 15 to 10.

That since there appears to be but little prospect of the Northwest being provided with local railway communication in the near future it is the more necessary that the leading trails throughout the country should be surveyed and placed in the hands of local government with funds for their improvement, and

That the great trail from the boundary line through Fort McLeod Calgary and Edmonton for the Athabasca landing is one of the most important of the country and it does the navigable waters of the Mackenzie river system with the outer world it is of the highest importance that the Federal and Local Governments should unite to place and keep it in thorough repair as well as send it out to the great Peace river, so that the country may be opened up.

That this Council desires to maintain the stand taken in the memorial of last year in regard to the various matters touched upon, and to reiterate the opinion therein contained in regard to colonialist companies in general and in particular and most emphatically to press against the agents of the companies being allowed to act as agents of the government.

That owing to the immense distance of the western and north western parts of the territories from the Atlantic seaboard by present routes of travel, what raising cannot be carried on at a profit in those districts. The grain has to be exported by sea routes while the country would be the case where railway communication established with Hudson Bay. It is therefore advisable that steps should be taken by the government of the Northwest Territories towards joint action with the Government of Manitoba, having for its object the construction of a railway to Hudson Bay to be constructed and operated under local control.

That while the localities and boundaries of the different provincial or postal districts in the Northwest make those districts well suited for the erection into provinces at some future time, it is not advisable at present to attempt to divide the territory and place each one under the control of a petty or provincial government.

That although the present form of local government in the territories has been reasonably satisfactory in the past the changes which have taken place since the Northwest Act was passed have been such as to give cause for present dissatisfaction and to make it advisable, without waiting until the number of representatives required by the Northwest Act for the formation of a legislative assembly be decided to provide for the organization of a legislative assembly at once with a less number of members under the provisions similar to those of sections 21 and 22 of the Northwest Act of 1880 and that in any case changes should be made in the method of qualifying districts for the election of members to the Northwest Council so that important localities such as Melville Hat, Fort McLeod and Battleford should not be debarred from sending representatives to the Northwest Council, while full representation should be given other localities in accordance with the spirit and interest of the Northwest Act of 1880; and that no person not directly responsible to the people of the Northwest should be allowed to vote in the Local Legislature or to sit at the Council Board; that it is the duty of this council as representing the people of the Northwest to protest against the method now frequently pursued by the Federal Government in the matter of letting contracts for works and supplies required in the Northwest (that is without advertisement in the localities where the contracts require to be filled) as being unfair to the people of the territories and also to the country at large.

That it is the opinion of this council that it would be of great advantage, both morally and socially, to the Northwest territory if the government would allow the establishment of breweries for the manufacture of beer so that some of the surplus barley grown in the country might be utilized and money kept in circulation in the country that is annually sent out for liquor.

Moved in amendment by Mr. Jackson, seconded by Mr. Turriff, that in the opinion of this Council it is the duty of its members in their legislative capacity to enact such measures as will conduce to the peace and prosperity of the Northwest Territories.

That as an executive Council, they are required to aid the Lieutenant-Governor in the government of the said Territories.

That we believe it to be the duty of the Executive Council of the Northwest Territories to look carefully into matters affecting the said Territories, and where, by reason of the extraordinary growth and development of the country, laws and regulations made by the Dominion Government are found unsuited to the present requirements of the country, such representations should be made to the Executive Council to the Dominion Government as will enable them to legislate in the interests of the said Territories.

That we believe the feeling of the country to be strongly against the introduction of party politics into this Council, well as against any action of the Council being taken in such a way that either political party in the Dominion parliament could use it for political purposes.

That the memorial transmitted by this Council at its last session to the Dominion Government we believe fairly set forth the requirements of the Territories.

That the action of the Dominion Government in dealing liberally with the proposed Hudson Bay Railway is satisfactory to the people of these territories.

That the system of letting contracts by the lowest tender at present followed we believe to be in the interest of all the parties.

That His Honor the Lt. Governor has indicated his desire to leave such representation made by the Executive Council to the Dominion Government as will enable the Northwest Territories to be divided for local purposes on the basis as nearly as may be of representation by population, and that the matter of establishment of businesses in the Territories should also receive consideration; This council do not consider that action in Legislative session is called for.

That the matter of lessening the average attendance public schools from 15 as a present requirement in order to secure Government aid, to 10, be referred to the Executive Council in order that the desired change be brought more directly to the notice of the Government. That this council is of the opinion that the requirements of the Government should be made as liberal as possible, owing to the sparsely settled condition of the country in some districts it is in most instances impossible to comply with the present regulations.

Mr. Jackson held that the resolutions must be considered together.

After some discussion on the Lt. Governor ruled that the resolutions must be considered as a whole. Mr. Jackson's amendment was carried on the following division: Yea, Messrs. Richardson, Royleau, White, Jackson, Turriff, Hamilton, Leal, Irvine and Goides; Nays, Messrs. Oliver and Ross.

Mr. Goides introduced an ordinance to amend the ordinance respecting stolen horses. It was read a first time.

Mr. Jackson submitted a financial estimate showing a balance to the credit of the council in the Bank of Montreal and that there was to be refunded by the Dominion Government last year's indemnity to members of council amounting to \$24,000 and the estimated revenue to be derived from permits brought the total revenue up to \$10,000.

Mr. Oliver thought the Council should wait until they heard from the Federal Government with reference to indemnity to members.

His Honor stated that he had been informed by the Deputy Minister that the indemnity to the members of council for that session was now lying in the bank of Montreal here.

Mr. Jackson resumed the debate and presented estimates of the amount required to be expended in his district. Several other members submitted estimates and Mr. Jackson moved, seconded by Mr. Macleod:

That the sum of \$500 be appropriated to the Battleford district, and that His Honor Judge Royleau be counted a member for the purpose of expending the same.

That \$1,000 be appropriated to the Regina District.

That \$1,000 be appropriated to the Moose Mountain District.

That \$1,000 be appropriated to the Broadview District.

That \$1,000 be appropriated to the Qu'Appelle District.

That the sum of \$500 be appropriated to the Macleod District and that His Honor Judge Macleod be counted a member for the purpose of expending the same.

That \$1,000 be appropriated to the Lorne District.

That \$1,000 be appropriated to Calgary District.

That \$1,000 be appropriated to Edmonton District.

And that the Members representing the several districts be empowered to expend the various appropriations and that the money be paid over as requested by such member by the Lt. Governor on the production of a certificate signed by three commissioners recommended by the members and acceptable to the Lt. Governor "such certificate to certify that the amount of money purporting to have been expended and is signed by the members representing the said district and that members may appropriate portion of such funds to encourage agricultural societies.

The motion was carried.

His Honor the Lt. Governor stated that he had telegraphed from Sir John A. Macdonald to the effect that the Minister of the Interior on his return from Europe will take into his serious consideration the question relating to the "half breeds" in the Northwest Territories.

**Somnambulism.**

On Wednesday night the guests of the Royal were alarmed by a loud noise as if somebody was breaking in or out of the house. The door proceeded to investigate and discovered one of the boarders, a man from the vicinity of McLeod, seated on the street in his "robe de nuit," with a somewhat bewildered expression on his face. He explained that he had been dreaming of robbery, thieves etc. and in order to escape from his imaginary pursuers, he had taken a bedline through his bedroom window on to the roof of the verandah from whence he crawled to the street a distance of ten or twelve feet. Strange to say he sustained no further injury than a few bruises on his feet.

**Why a Reporter was Chosen as a Favored Suitor.**

(Set your life every time on a Newspaper man.)

Two fashionably dressed ladies were sitting in front of their cottage at Mountain Drive one evening last week talking over the late arrivals and laying their plans for the summer campaign.

"How is this Edith, I hear you have broken your engagement with young Couper?" said the elder.

"Yes mother, I judge it best to tell you I have."

"In favor of whom pray? He is good for \$10,000 a year now, and will come in for a large estate when his father dies. What young millionaire has he now centered your affections upon?"

"He is not a millionaire at all mother; I am engaged to Charley Pencil."

"Who is he? How much is he worth?"

"He is a reporter on the New York Constitution and just money enough to take him through a month's vacation."

"My child why will you throw yourself away? You will reduce me to beggary."

"Wait mother, please wait until I tell you. In the first place he is acquainted with every body, and then he gets free passes to all the shows and theatres; he attends all the big receptions and"

"Are you crazy child? Those things will all come with money and position."

"Hold on till I have told you. He knows all about the latest scandals in high life—things the papers won't print you know—and he told me some horrid scraps the Blanks got into when they were in Europe last summer, and when he had in his possession the secrets of all the big people of the country."

"Bring him to meet me, I approve of your choice, Edith. Why did you not tell me of this before."—Boston Globe.
