Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

The copy filmed here has been reproduced thanks to the generosity of:

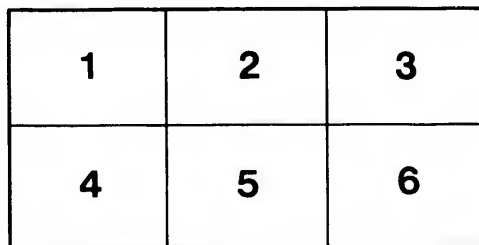

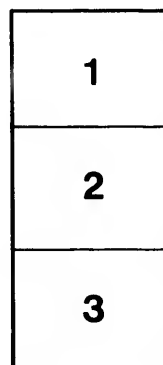

Izaak Walton Killam Memorial Library
Dalhousie University

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Izaak Walton Killam Memorial Library
Dalhousie University

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

THE FAMILY FRIEND.

VALUABLE CONCISE RULES FOR PRESERVING HEALTH IN WINTER.—Keep the feet from wet, and the head well defended when in bed; avoid too plentiful meals; drink moderately warm and generous, but not inflaming liquors; go not abroad without breakfast. Shun the night air as you would the plague; and let your houses be kept from damps by warm fires. By observing these few and simple rules, better health may be expected than from the use of powerful medicines.

HUCKLEBERRIES, dried, are a useful medicine for children. Made into tea, and sweetened with molasses, they are very beneficial, when the system is in a straggling state, and the digestive powers out of order.

THE FARMER'S FRIEND.

TO PREVENT HARES AND RABBITS FROM BARKING YOUNG PLANTATIONS.—Hares, Rabbits, and Rats, have a natural antipathy to tar; but tar, though fluid, contracts, when exposed to the sun and air for a time, a great dryness and a very blinding quality; and if applied to trees, in its natural state, will occasion them to be bark-bound. To remove this difficulty, tar is of so strong a savor, that a small quantity mixed with other things, in their nature open and loose will give the whole mixture such a degree of its own taste and smell, as will prevent hares, &c., touching what it is applied to.

THE VIRTUES OF POPLAR WOOD FOR THE FLOORING OF GRANITES.—The Lombard poplar is recommended as a timber adapted for flooring granites which is said to prevent the destruction of corn, by weevils and insects. Poplar wood will not easily take fire.

For High Water at Cape Sable add 5m. to time of High Water at Halifax. Tide serves same hour at Annapolis and St. John, N. B.

THE FAMILY FRIEND.

TO MAKE SALT BUTTER FRESH.—Put four pounds of salt butter into a churn, with four quarts of new milk, and a small portion of annatto. Churn them together, and in about an hour, take out the butter, and treat it exactly as fresh butter, by washing it in water, and add the customary quantity of salt. This is a singular experiment. The butter gains about three ounces in each pound, and is in every particular equal to fresh butter. It would be greatly improved by the addition of two or three ounces of fine sugar, in powder. A common earthen churn answers the same purpose as a wooden one, and may be purchased at any pot-shop.

EASILY-MADE SHORT CAKE.—One table-spoonful of melted butter, one pint of sour milk, a good half-spoonful of soda; stir in flour enough to make a stiff batter.

THE FARMER'S FRIEND.

CHINESE MODE OF PROPAGATING FRUIT TREES.—The ingenious people of China have a common method of propagating several kinds of fruit trees, which of late years has been practised with success in Bengal. The method is simply this:—They strip a rug of bark, about an inch in width, from a bearing branch, surround the place with a ball of fat earth, or loam, bound fast to the branch with a piece of matting; over this they suspend a pot or horn, with water, having a small hole in the bottom just sufficient to let the water drop, in order to keep the earth constantly moist. The branch throws new roots into the earth just above the place where the ring of bark was stripped off. The operation is performed in the spring, and the branch is sawed off and put into the ground at the fall of the leaf. The following year it will bear fruit.

TO DESTROY RATS AND MICE.—Mix flour of malt with some butter; add thereto a drop of oil of aniseed; make it up into balls, and bate your traps therewith. If you have thousands by this means you may take them all.

It is not what we earn, but what we save, that makes us rich. It is not what we read, but what we remember, that makes us learned.

For High Water at Cape Sable, add 56m. to the time of High Water at Halifax. Tide serves same hour at Annapolis and St. John, N. B.

THE FAMILY FRIEND.

TO KEEP ORANGES AND LEMONS.—Take small sand and make it very dry; after it is cold, put a quantity of it into a clean vessel; then take your oranges, and set a layer of them in the same, the stalk ends downwards, so that they do not touch each other, and strew in as much of the sand as will cover them two inches deep; then set your vessel in a cold place, and you will find your fruit in high preservation at the end of several months.

ANOTHER METHOD.—Freeze the oranges, and keep them in an ice-house. When to be used, put them into a vessel of cold water till they are thawed. By this means they may be had in perfection at any season of the year.

THE FARMER'S FRIEND.

TO PREVENT BLOSSOM AND FRUIT-TREES FROM BEING DAMAGED BY EARLY SPRING FROST.—If a rope (a hempen one, it is presumed) be introduced among the branches of a fruit-tree in blossom, and the end of it brought down, so as to terminate in a bucket of water; and should a slight frost take place in the night time, in that case the tree will not be affected by the frost; but a film of ice of considerable thickness, will be formed on the surface of the bucket in which the rope's end is immersed, although it has often happened that another bucket of water placed beside it for the sake of experiment, has had no ice at all upon it.

EASTERLY BLIGHT.—Where valuable fruit are infected with this blight, they may with little trouble and expense be cured, by fumigating them with brimstone strewed on lighted charcoal; this effectually kills it. But the workmen must be careful to get to the windward, as the fumes are very offensive and pernicious.

THE FAMILY FRIEND.

TO MAKE EXCELLENT AND WHOLESOME TABLE-BEER.—To eight quarts of boiling water put a pound of treacle, a quarter of an ounce of ginger, and two bay leaves; let this boil for a quarter of an hour, then cool and work it with yeast, the same as other beer.

CURRENT SURF.—To every quart of juice, add one pound of sugar, and one gill of brandy. Bottle and cork it tight. Do not put over the fire.

GINGER SNAPS.—Beat together half a pound of butter, and half a pound of sugar; mix them with half a pint of molasses, half a tea-cupful of ginger, and one pound and a half of flour.

THE FARMER'S FRIEND.

To INCREASE THE GROWTH OF TREES.—It may be depended upon as a fact, that by occasionally washing the stems of trees, their growth will be greatly increased; or several recent experiments have proved, that all the ingredients of vegetation united, which are received from the roots, stem, branches and leaves, of a mossy and dirty tree, do not produce half the increase either in wood or fruit, than another gains whose stem is clean. It is clearly obvious that proper nourishment cannot be received from rain, for the dirty stem will retain the moisture longer than when clean; and the moss and dirt will absorb the finest portions of the dew, and act like a screen, by depriving the tree of that share of sun and air which it requires. A common scrubbing brush and clean water is all that is necessary, only care must be observed not to injure the bark.

To PRESERVE GAME IN HOT WEATHER.—Game or poultry may be preserved for a long time, by tying a string tight round the neck, so as to exclude the air, and by putting a piece of charcoal into the vent.

THE FAMILY FRIEND.

SPONGE CAKE.—Take the weight of the eggs in sugar; half their weight in flour, well sifted; to twelve eggs add the grated rind of three lemons, and the juice of two. Beat the eggs carefully, white and yolks separately, before they are used. Stir the materials thoroughly together, and bake in a quick oven.

TO MAKE MUSTARD.—Boil some vinegar; take four tea-spoonsful of mustard, half a spoonful of sugar, a little salt and butter; mix well.

SAUCE FOR COLD ROAST BEEF.—Mix scraped horse-radish, made mustard, and vinegar, and sweeten with white sugar.

THE FARMER'S FRIEND.

CHEAP PAINT.—For the purpose of making the present composition to preserve all sorts of wood-work exposed to the vicissitudes of the weather, take three parts of air-slacked lime, two of wood-ashes, and one of fine sand; pass them through a fine sieve, and add as much linseed oil to the composition as will bring it to a proper consistence for working with a painter's brush. As particular care must be taken to mix it perfectly, it should be ground on a stone slab with a proper muller, in the same manner as painters grind their white-lead, &c.; but where these conveniences are not at hand, the ingredients may be mixed in a large pan, and well beat up with a wooden spatula. Two coats of this composition being necessary, the first may be rather thin; but the second should be as thick as it can conveniently be worked. This most excellent composition for preserving the wood is highly preferable to the customary method of laying on tar and ochre.

Do nothing to-day that you are likely to repent of to-morrow.

THE FAMILY FRIEND.

CORN OYSTERS.—One pint of grated green corn, one cup of flour, one dessert spoonful of salt, one tea-spoonful of pepper, one egg. Mix the ingredients together, drop, and fry them in hot lard. In taste they resemble fried oysters. They are an excellent relish for breakfast, and a good side dish for dinner.

GINGERBREAD.—Mix together three and a half pounds of flour; three quarters of a pound of butter; one pound of sugar; one pint of molasses; a quarter of a pound of ginger, and some ground orange-peel.

CUP CAKES.—Mix together five cups of flour; three cups of sugar; one cup of butter; one cup of milk; three eggs, well beaten; one wine-glass of wine; one of brandy, and a little cinnamon.

THE FARMER'S FRIEND.

To DESTROY VERMIN IN GRANARIES AND OTHER OUTBUILDINGS.—Cover completely the walls and rafters, above and below, of the granaries, &c., which are infested with weevils and other vermin, with quick-lime slacked in water in which t: e: o: b: wormwood, and hyssop have been boiled. This composition ought to be applied as hot as possible.

To DESTROY WORMS IN GARDENS.—Water your beds with a strong decoction of walnut-tree leaves where there are worm casts; the worms will immediately rise up out of the earth, and you may easily take and cut them to pieces, and fatten your poultry therewith, or feed fish in ponds with them.

By laying ashes or lime about any plant, neither snails nor worms will come near it. As the moisture weakens it, you must, more or less, continue to renew the lime or ashes.

Nothing is really troublesome that we do willingly.

THE FAMILY FRIEND.

ORANGE SYRUP is so easily made, and can be used so constantly with advantage, that no house-keeper should be without it. Select ripe and thin-skinned fruit; squeeze the juice through a sieve; to every pint, add a pound and a half of powdered sugar; boil it slowly, and skim as long as any scum arises; you may then take it off, let it grow cold, and bottle it off. Be sure to secure the corks well. Two table-spoonsful of this syrup, mixed in melted butter, makes an admirable sauce for a plum or butter pudding; and it imparts a very fine flavor to custards.

THE FARMER'S FRIEND.

To CURE THE DISEASE IN APPLE-TREES.—Brush off the White down, clear off the red stain underneath it, and anoint the places infected with a liquid mixture of train oil and Scotch snuff.

UTILITY OF CARROTS AS FOOD FOR HORSES AND OTHER STALL BEASTS.—Carrots are excellent food for horses, either given alone, or along with hay, likewise for fattening stall beasts. They make them eat straw, and very indifferent hay, greedily. If the same be given to cows, the milk will have a much less offensive taste and smell than when they are fed on turnips. *Remarks.*—It must be noted, however that carrots, though very excellent, are a very expensive food. They would not enable a farmer to pay his rent.

To DESTROY MOSS ON TREES.—Remove it with a hard scrubbing brush in February and March, and wash the trees with cow-dung, urine, and soap-suds.

THE FAMILY FRIEND.

NEW ENGLAND CHOWDER.—Have a good haddock, cod, or any other solid fish cut it in pieces three inches square, put a pound of fat salt pork in strips into the pot, set it on hot coals, and fry out the oil. Take out the pork, and put in a layer of fish, over that a layer of onions in slices, then a layer of fish with slips of fat salt pork, then another layer of onions, and so on alternately, until your fish is consumed. Mix some flour with as much water as will fill the pot; season with black pepper, and salt to your taste, and boil it for half an hour. Have ready some crackers soaked in water till they are a little softened; throw them into your chowder five minutes before you take it up. Serve in a tureen.

THE FARMER'S FRIEND.

To Preserve Turnips from Frost.—The best way is to stack them up in straw in the following manner:—One load of any kind of dry straw is sufficient for an acre of fifty tons' weight. Pull up the turnips, top and tail them, then throw them into a sort of a windrow, and let them lie a few days to dry. First lay a layer of straw next the ground, and upon it a layer of turnips about half a yard thick. Then another layer of straw; so go on alternately with a layer of straw and a layer of turnips; every layer grows narrower, till it comes to a point at the top, like a sugar-loaf. The last layer must be straw, which serves to keep all dry. You must observe always when you have laid a layer of turnips, to stroke or tap over the ends of the under layer of straw, in order to keep them close, and from tumbling out. The heap should be as large as a hay-cock; the tops may be given to sheep or cattle as they are cut off.

THE FAMILY FRIEND.

TO CEMENT BROKEN CHINA OR GLASS.—Beat lime to the finest powder, and sift it through a fine muslin; then tie some into a thin muslin; put on the edges of the broken china some white of egg; dust some lime quickly on the same, and unite them exactly.

TO PREVENT THE ILL EFFECTS OF CHARCOAL.—Set over the burning charcoal a vessel of boiling water, the steam of which will prevent danger from the flames.

TO CLEAN LEATHER CASES.—To clean hat cases, writing-desks, &c., dissolve in warm water a small quantity of oxalic acid, and wash the articles with a sponge wet in the solution. When dry they will look almost equal to new.

THE FARMER'S FRIEND.

IMPORTANT FACT IN AGRICULTURE.—Whatever may be the nature of the soil, or of the crop cultivated, it should always be the aim of the farmer to grow full crops. Partial and sometimes extensive failures will even then but too often occur; but to neglect making the best known preparations, or only to prepare for half a crop, has a direct tendency to unprofitable farming.

NECESSITY OF TAKING OFF SUPERFLUOUS SUCKERS FROM SHRUBS.—Many flowering shrubs put out strong suckers from the roots, such as lilacs, syringa, and some of the kinds of roses, which take greatly from the strength of the mother-plant; and which, if not wanted for the purpose of planting next season, should be twisted off, or otherwise destroyed.

Young ladies who have the good fortune to become farmers' wives will find it more profitable to know how to make Johnny-cake, butter, and cheese, than to play on the piano.

For High Water at Cape Sable add 50m. to time of High Water at Halifax. Tide serves same hour at Annapolis, and St. John, N. B.

TO TAKE MILDEW OUT OF LINEN.—Take soap, and rub it well; then scrape some fine chalk, and rub that also in the linen; lay it on the grass; as it dries wet it a little, and it will come out at twice doing.

TO PROTECT CHILDREN FROM BURNING.—Add one ounce of alum to the last water used in rinsing children's dresses, and they will be rendered uninflamable, or so slightly combustible that they would take fire slowly, if at all, and will not flame.

TO DESTROY RATS.—Cut a number of corks or a piece of sponge as thin as six-pences; stew them in grease, and place them in the way of the rats. They will greedily devour this delicacy, and will die of indigestion.

THE FARMER'S FRIEND.

CABBAGE FOR FODDER.—There is no vegetable that can be planted after the first of July that will give so great a yield of fodder as cabbage; and no one who is short of pasturage or winter feed should neglect this highly important adjunct to his other crops. The notion that cabbage should only be grown by the dozen, for cooking in the kitchen, is an old, and we may add, a foolish one. Grow them by the thousand, and after pasture fails feed them from where they are growing to every domestic animal on the farm. When the ground freezes pull up your cabbage crop and store it in the cellar or barn, or under the straw, until you can feed it out.

RATS and other vermin are kept away from grain by a sprinkling of garlic when packing the sheaves.

MONEY skillfully expended in drying land by draining or otherwise, will be returned with ample interest.

THE FUMES OF BRIMSTONE USEFUL IN REMOVING STAINS AND SPOTS IN LINEN, &c.
 —If a red rose be held in the fumes of a brimstone match, the color will soon begin to change, and at length the flower will become white. By the same process, fruit-stains or iron-moulds, may be removed from linen or cotton clothes, if the spot be previously moistened with water. With iron moulds, weak muriatic acid is preferable, assisted by heat; as by laying the cloth on a tea-pot or kettle, filled with boiling water.

TO MAKE ECONOMICAL WICKS FOR LAMPS.—When using a lamp with a flat wick, if you take a piece of clean cotton stocking, it will answer the purpose as well as the cotton wicks which are sold in the shops.

THE FARMER'S FRIEND.

HOW TO GET FRUIT TREES TO YOUR LIKING.—In October or November take a branch of an apple or pear tree, such as suits your taste. Take off down to the third year's growth; cut it smooth and rub it on a red hot iron, so as to scorch and shut the pores of the wood thoroughly; then bury in the ground all but the last year's growth. If placed in good ground, and well taken care of, you will have fruit in five or six years. I have sometimes dipped the lower end in melted resin, but yet think burning preferable. I have a tree near my door that is nine feet high, and well proportioned, that I took from a graft four years ago; to this resin was applied; and whatever sprouts sprang up next summer were bent down and became roots. We can get fruit considerably quicker in this way than from seed; and we know what we have growing, and when grown the whole tree is of the same kind; and whatever sprouts come from the roots in after years can be transplanted without grafting. In cases of drought the first year they should be watered.

For High Water at Cape Sable add 50m. to time of High Water at Halifax. Tide serves same hour at Annapolis and St. John, N. B.

THE FAMILY FRIEND.

TO EXTRACT GREASE FROM SILK.—Scrape French chalk, put it on a grease-spot, and hold it near the fire, or over a warm iron, or water-plate filled with boiling water. The grease will melt, and the French chalk absorb it. Brush it off; repeat if necessary.

TO MAKE AN IMPROVED CANDLE.—Make the wicks about half the usual size, and wet them with spirits of turpentine; dry them, before dipping, in the sunshine, or in some favorable place, and the candles will be more durable, emit a steadier and clearer blaze, and be in every way superior to those made in the ordinary way.

THE FARMER'S FRIEND.

COMFORTS FOR CATTLE.—Good stables, good food, and good water, are the prime comforts for cattle in winter. For summer, whatever else they may have, how can they get on without a scratching pole? Rev. Sydney Smith, of England, was something of a farmer, and used to visit his cattle daily, and feed and pat them until they knew his voice and welcomed his coming. He used to do all in his power to make them comfortable. He has been heard to say, "I am for all cheap luxuries, even for animals; now animals have a passion for scratching their back bones; they break down your gates and palings to effect this. Look! this is my universal scratcher, a sharp-edged pole, resting on a high and low post, adapted to every height, from a horse to a lamb. Even the Edinburgh reviewer can take his turn; you have no idea how popular it is. I have not had a gate broken down since I put it up. I have it in all my fields."

Office open every day (except Sunday) from 4½ o'clock in the morning till 5 in the evening.

The Mails for the United Kingdom are closed at Halifax every alternate *Thursday* evening at 8 o'clock. Letters, &c., for England—which may be dropped into the box after the hour of closing, and up to the arrival of the Packet—will be forwarded in a bag, loose, but such letters must be prepaid by stamps. The Royal Mail Steamers leave Boston for Halifax and Liverpool, G. B., every alternate *Wednesday*, arrive at Halifax on *Thursday* evening, or very early the succeeding morning, leaving Halifax immediately after receiving the Mails. Letters will also be received on board the Steamers after the Mail has left the Post Office. Must be prepaid by stamp.

Letters to and from England, 12½c. single rate, *prepayment compulsory*, can be prepaid by using a 12½ cent. stamp. Newspapers free.

The postage on books from Great Britain to Nova Scotia, or *vice versa*, is, for a packet not exceeding 4 oz., 7c. currency; not exceeding ½ lb., 12½c.; ½ lb., and not exceeding 1 lb., 25 cts., and so on, adding 25 cts. for every additional pound, or fraction of a pound. One book package may contain separate Books, Publications, Almanacks, and Maps and

Paper, Parchment or Vellum; the latter three materials may be written or printed on; the package may contain the name and address of the sender. Rollers may accompany prints and maps, and markers may be sent with books. No letters must be sent with or written on a book package, and no such package must exceed two feet in length, width or depth. The postage must in all cases be prepaid by stamps.

Closed Mails for the United Kingdom *via* United States are made up at Halifax to meet the Steamers leaving New York for Liverpool. Letters to be specially addressed "*via New York.*" Letters 17c.; newspapers 2c. each—must be prepaid.

Mails are made up to be forwarded by the Canadian line of Steamers, *via* Pictou and River De Loup—postage same as by Cunard line. Letters must be specially addressed by this route. Letters for Canada also forwarded by this route, closing every Monday evening after the departure of the R. M. S. for England.

The Mails for the United States, *via* Boston, per Royal Mail Steamers, are made up on *Tuesday* evening of the week in which the Packet from England is due, at 8 o'clock. Should the Steamer not arrive by 6 o'clock the following morning, *Supplementary Mails* will be made up. Should the Steamer from Liverpool arrive previous to Tuesday night, the Mails, as heretofore, will be closed *immediately on her arrival.*

A Closed Mail for Canada is made up and forwarded at the same time in charge of the British Officer. Letters so forwarded must be specially addressed "Closed Mail for Canada." Postage 12½c., viz.: 8½c. packet rate, and 4c. Colonial rate—prepayment optional.

The Mails for Bermuda and the West Indies (*monthly*) are made up finally at Halifax on the Thursday evening of the week in which the Royal Mail Steamer is expected to arrive from Boston, at 8 o'clock. Letters 8½c.; when posted in the interior, 5c. additional, which must be prepaid. Newspapers 2c. each, which must be paid by stamp.

Letters are forwarded *via* Bermuda for Chagres and the Pacific, Chili and Peru; postage 33c. must be prepaid; 5c. additional when posted in the interior. Havana, Honduras, Lagnyra, Mexico, Venezuela, and the British and Foreign West India Islands. Postage to Foreign West Indies, 8c. when posted at Halifax; 5c. additional when posted in the interior—must be prepaid. Newspapers 2c. each, to be prepaid by stamp.

The Mails for Newfoundland (and Cape Breton during the Summer months) are made up at Halifax once a month during the months of December, January, February and March, and once a fortnight during the months of April, May, June, July, August, September, October and November, closing finally on the Thursday evening of the week in which the R. M. Steamer is expected to arrive from Boston. Postage 8½c.; when posted in the interior 5c. additional. Newspapers 2c. each, which must be paid by stamp at the time of posting.

The Mails for St. Pierre and Miquelon are forwarded to Newfoundland, from whence they are despatched by the French Packet. Letters 8½c. packet rate, and 5c. inland—prepayment optional.

All letters are charged by weight, and a uniform rate of postage of 5c. on a letter not exceeding half an ounce in weight has been established throughout British North America; less than ½ oz., 5c.; more than ½ oz. and less than 1 oz., 10c.; more than 1 oz. and less than 1½ oz., 15c.; more than 1½ oz. and less than 2 oz., 20c. Throughout Nova Scotia pre-payment is compulsory. Letters not prepaid are forwarded

Letters posted in any town within the Province for delivery in the same town are liable to the rate of 2c. for every half ounce—double rate if not prepaid when posted.

The postage on all letters posted in Nova Scotia, and addressed to any place in this Province, as well as to the United Kingdom, must be prepaid by stamp.

Official letters, addressed to the Provincial and Military Public Departments, are to be treated as heretofore.

Newspapers pass free to any part of the Province, British North America, (Newfoundland and Bermuda excepted,) and the United States when sent by land mail—to be put up in covers open at the ends.

Printed Circulars, Prices Current, Handbills, and other printed matter of like description, put up in covers open at the ends, and without any written communication, may be sent to any part of the Province to any place within the same, as well as through Nova Scotia, at the rate of 1d. per ounce—prepayment optional, except when addressed to the United States, in which case the postage must be prepaid.

Pamphlets, Magazines, Periodicals or Books, bound or unbound, done up in covers open at the ends, unaccompanied by any written communication, may be transmitted as above mentioned, through the mail, in this Province: not exceeding 2 oz. in weight, free; and when exceeding 2 oz., 1c. for every oz. up to 48 oz., beyond which weight they cannot be sent by mail.

British reprints of copyright works from the United States, by *land mail or steamer*, charged letter postage.

For Dartmouth *daily*, postage 2c.

For Musquodoboit Harbor, every Tuesday morning, at 9 o'clock.—Return Mail due on Monday afternoon, at 5 o'clock.

For Prospect on Saturday afternoon at 2 o'clock. Return Mail due on Saturday morning at 11 o'clock.

For Ketch Harbor, Portuguese Cove and Sambro on Saturday morning at 7 o'clock. Return Mail due on Monday.

✍ Letters for *Registry* must be posted half an hour previous to the closing of the mail by which they are to be forwarded, and the postage as well as the registration fee must be *prepaid*.

Letters *prepaid by stamps*, and dropped into the Letter Box during the night, and up to 5 o'clock, A. M., will be forwarded by the mails despatched same morning.

When the mails from England arrive before 9 P. M. they are delivered the same evening, and after that hour at 6 next morning.

All other mails arriving before 7 P. M. will be delivered the same evening; if after that hour, and before 8, at 6 o'clock; and if after 8, at 7 o'clock the following morning.

The Postmaster General is not liable for the loss of any letter or package, unless such loss should arise from his own default.

Land Mails made up at Halifax at 8 P. M.

MONEY ORDER SYSTEM.

1. Single Orders may be issued for any sum under and up to One Hundred Dollars, currency, but a single Order shall not exceed that amount.

2. The charges for Orders (to be paid in advance by the party applying) are as follow :

Under and up to \$10	5 cents com.
over 10 not exceeding \$20.	10 "
" 20 " " " " " " " " " "	15 "
" 30 " " " " " " " " " "	20 "
" 40 " " " " " " " " " "	25 "
" 50 " " " " " " " " " "	30 "
" 60 " " " " " " " " " "	35 "
" 70 " " " " " " " " " "	40 "
" 80 " " " " " " " " " "	45 "
" 90 " " " " " " " " " "	50 "

3. The Money Orders shall be made out upon forms supplied by the Head Office, and no Order will be valid or payable unless given upon the regular printed form.

4. Persons applying for Money Orders will be required to state the particulars upon a Form of Application provided for that purpose.

5. When, for sufficient reason, the purchaser of a Money Order desires to change the place of payment named therein, the issuing Postmaster will take back first Order and issue another, charging commission as for an original Order.

6. If a wrong name has been inserted in an Order the remedy is similar to that in the foregoing case.

7. Parties procuring Money Orders will please to examine them carefully, to see that they are properly filled up and stamped. This caution will appear sufficiently important when it is understood that an Order defective in any important respect will throw difficulties in the way of its payment.

8. When a Money Order is presented for payment at the office on which it is drawn, the Postmaster, or Clerk employed, will use all proper means to assure himself that the applicant is the party named and intended in the advice, and upon the payment of the Order will be careful to obtain the signature of the payee to the receipt at foot.

9. When, through illness or other insuperable difficulty, the payee—that is, the person named in the advice—is prevented from presenting the Order in person, the Postmaster will be at liberty to accept a written authority from him in favor of a second person, provided always that such written authority is satisfactorily proved to be genuine.

10. Any Money Order Post Office may repay an Order issued by itself, such Order to be signed by the remitter. If remitter be unable to apply personally, caution to be observed as provided in paragraph 9.

11. For the present, the Offices in this Province which are authorized to grant and pay Money Orders are as follows, viz.: General Post Office, Halifax, Post Offices at Amherst, Antigonish, Annapolis, Arichat, Baddeck, C. B., Digby, Guysborough, Kentville, Lunenburg, Liverpool, Pictou, Port Hood, Port Mulgrave, Shelburne, Sydney, Truro, Windsor and Yarmouth.

12. Postmasters, when not in funds, may defer payment of money for six days for the purpose of obtaining a supply from the Head Office.

pieces) in the Province, at a rate of postage subject to the following conditions:

1. No letter or letters shall be enclosed
2. The parcel shall not contain any explosive substance, glass, liquids, or other matter likely to injure the ordinary contents of the mail, under penalty of the forfeiture of the parcel.
3. The weight of the parcel shall not exceed 3 lbs., nor the size exceed one foot in length or breadth, or six inches in thickness.
4. Parcels must be prepaid at the following rates, and by *postage stamps* (not by *notes*):

If weighing less than 1 lb. 25 cents.
 More than 1 lb., and not exceeding 2 lbs. 50 " "
 More than 2 lbs., and not exceeding 3 lbs. 75 " "

5. The parcel may be registered, on prepayment, also by stamp, of a registration fee of 10c., in addition to the above rate.

6. The parcel shall have the words "*By Parcel Post*," plainly written over the address. It should be well and strongly put up, and be legibly addressed to the Post Office address of the intended receiver, including the name of the County in which the Post Office is situated. The following is an example of the mode of address recommended

BY PARCEL POST.

To _____,
 _____ Post Office,
 County of _____, N. S.

Sent by _____,
 _____ County.

7. If the name and address of the sender be written on the parcel, it will, if delivery should fail from any cause, be returned unopened to the sender on payment of an additional rate of 25c. for the return conveyance.

8. If the number of stamps affixed to a packet be insufficient to prepay the proper rate, the amount deficient will be rated unpaid, with a fine of 10c. in addition.

Separate Mails are not made up at the Post Office in Halifax for any of the Way Offices except those lying between the City and the nearest Post Office.

Letters for the Way Offices are forwarded to and received from the Post Offices to which they are subordinate, on the days above named.

PACKETS FROM HALIFAX.

The Steamer for England arrives from the United States at Cunard's wharf fortnightly, that is about midnight every other Thursday, and the same week the Steamer from England arrives and proceeds to Boston.

Messrs Cunard & Co. have also Steam Packets running to Bermuda monthly and St. John's, N. F., fortnightly,—the latter touches at Sydney during the summer months.

The Steamer *Eastern State* leaves Brown's wharf every other Tuesday for Boston, and touches at Yarmouth on the way. Messrs. J. M. Watson & Co., have two packets running continually to Boston, viz: the barque *Halifax* and the brig *Boston*.

A packet runs between Halifax and Liverpool, Queen's Co., leaving Crown's wharf occasionally through the month.

Two fine schooners—the *Sylvia* and the *Friend*—sail about every ten days for Lunenburg,—the former from Black's, and the latter from J. M. Watson & Co.'s Wharf.

The Guysboro' Packet sails from the Long Wharf.

The Sydney (sailing) Packet generally starts from Caldwell's wharf.

LIGHT HOUSES.

On the coast of Nova Scotia, and on the coast of New Brunswick, in the Bay of Fundy.

SAMBRO ISLAND—West entrance Halifax harbor. *A fixed light.*

CROSS ISLAND—Entrance to Lauenburg Harbor. *Two lights—flash light above, fixed light below.*

IRON-BOUND ISLAND LIGHT—Off the entrance to LaHave River. *A bright, flash light of ten seconds' duration, followed by an eclipse of thirty seconds.* The lantern is placed on a square wooden tower, painted *white* on the southern side of the Island, and is visible from all points of approach. Elevation seventy-five feet above sea level.

PORT MEDWAY—*A fixed white light* on Admiralty head, W. side of the entrance of the port. Building square, painted *white* with *black square* in the centre of seaward sides, forty feet above sea level, and stands within thirty fathoms of the shore.

LIVERPOOL—South end of Coffin's Island. *A plain revolving light.*

FORT POINT harbor light, at the head of Liverpool harbor, southern entrance of the river. *A bright fixed light*, visible from all points of approach, and must be left on the larboard hand when entering the harbor.

RAGGED ISLAND HARBOR LIGHT—On Gull Rock, off the entrance of the harbor. Building square, and painted *white*, exhibiting a *clear, fixed light*, at an elevation of fifty-one feet above the sea level, and is situated in lat. 43° 39' N., and in long. 64° 66' W.

SHELBURNE—McNutt's Island. *Two fixed lights*, one above the other.

BARRINGTON—Baccaro Point, east side of the entrance to Barrington Bay. *A flash light of fifteen seconds.*

CAPE SABLE—The lighthouse now building on Cape Sable, in the County of Shelburne, is intended to show a *red fixed light*. The building is an octagon, and is to be painted *white*.

SEAL ISLAND—The first light on approaching the Bay of Fundy is on the south point of Seal Island. *A plain, white light*, elevated about eighty feet above high water mark, and may be seen, on approaching the Island, from any point of the compass. A very dangerous rock, under water, but upon which the sea always breaks, called *Blonde rock*, about three and one-third miles S. by W., by compass, from the Light House. Between this rock and the Island there are some dangers—the ground is rocky throughout, and large vessels, therefore, ought not to attempt passing between them.

PUBLICO HARBOR LIGHT—A Beacon Light on the S. E. side of the entrance to Publico Harbor, situate on the E. side of the entrance to the Bay of Fundy, about thirteen miles northerly of Cape Sable. Building square, painted *white*. *A fixed red light*, on the seaward side, twenty-

A FOG BELL has been erected on the E. Cape of Yarmouth harbor, a few feet to the southward of the Light House, and about one and a quarter miles from the extreme outer point of the Cape. Strikes seven times per minute. Bell not in operation at night.

BRIAR ISLAND—*A plain, white light*, situate about half a mile N. E. from the N. W. point of the Island.

WESTPORT—Peter's Island, at the South entrance of the Grand passage. *Two white lights*, placed horizontally, to distinguish it from Briar Island Light, at an elevation of forty feet above high water mark.

DIGBY GUT LIGHT—On the W. side of Digby Gut, from Briar Island north-eastward. *A fixed, white light.*

PORT WILLIAMS—On the E. side Bay of Fundy, Annapolis County, at a distance of say five miles shows a *white light*, on nearer approach a *green light*.

MARGARETTEVILLE—On E. side Bay of Fundy, Annapolis County, at a distance of say five miles shows a *white light*, on nearer approach a *red light*.

BLACK ROCK LIGHT—On the southern shore of the Bay of Fundy. *A fixed, white light.*

APPLE RIVER LIGHT—North side of the entrance to Apple River, in Chignecto, or Cumberland Bay. *Two fixed lights*, placed horizontally.

PARTRIDGE ISLAND RIVER—An octagonal light beacon, on the W. side of the entrance to Partridge Island River, Parrsborough, on the N. side of the Basin of Minas, and exhibits a *plain, white light*, at an elevation of thirty feet above high water,—rise and fall about forty-five feet. The tower is white, and stands close to high water mark on the beach. Vessels can only enter the harbor at high water, and must lie aground on the soft bottom when the tide is low.

HORTON BLUFF LIGHT—In the Basin of Minas, ninety-five feet above sea level, high water; rise and fall forty to forty-five feet. Building square, painted *white*; stands sixty feet from the Bluff, and shows a *white light*, which may be seen in clear weather over the greatest part of the Basin of Minas, (after passing Cape Blomelon,) and above the Five Islands, and up Windsor River, until intercepted by the continuation of the Bluff to the southward of it.

BURNSCOAT LIGHT—At Burncoat Head, southern side of the Basin of Minas. *A plain, fixed white light.*

MEAGHER'S BEACH—E. side Halifax harbor. *A fixed bright light.*

DEVIL'S ISLAND—An octagonal building on the S. W. point of Devil's Island, at the entrance of the Eastern passage to Halifax harbor, and exhibits a *red light* on the seaward sides, to distinguish it from Sambro and Meagher's Beach lights; stands forty-five feet above high water mark; rise and fall six feet. The tower painted dark brown, with a white belt between the Balcony and Lantern to distinguish it in the day time.

EASTERN BEAVER, OR WILLIAM'S ISLAND—*A white revolving light.*

WHITE HEAD ISLAND LIGHT—On the S. W. point of White Head Island. The tower is square, painted *white*, stands seventy-five fathoms from the water's edge, with an octagonal iron lantern, sixty feet above sea level at high water; rise and fall six feet. The light is distin-

gnished by *bright flashes* of ten seconds duration, followed by eclipses of ten seconds, displaying alternately three flashes and three eclipses in a minute. The light will not be totally obscured during the eclipse.

CANSEAU, CRANBERRY ISLAND—*Two fixed lights*, one above the other.

GUYSBOROUGH HARBOR BEACON—On the W. side of the entrance to the harbor, head of Chedabucto Bay. *A fixed light*.

ARCHAT BEACON—A light on Point Morich, on the south-east side of the southern entrance to the harbor. Building square, painted *white*. *A white light*, thirty-four feet above the sea level.

EDDY, OR SAND POINT LIGHT—On Eddy, or Sand Point, on the west side of the south entrance to the Strait of Canseau, distinguished by *two white lights* placed horizontally, twenty-five feet above the sea level. Building square, painted *white*, with a *black diamond* on the seaward side.

WEST SIDE OF THE GUT OF CANSEAU—*A fixed white light*.

CAPE GEORGE—The lighthouse now building on Cape George, in the County of Sydney, is intended to show a *white revolving light*, at intervals of thirty seconds. It is a square building, and is to be painted *white*.

PICTOU LIGHT—On the south-east side of the entrance to the harbor. *Two fixed lights*, vertical—upper one *white*, lower one *red*.

PICTOU ISLAND LIGHT—On the south-east point of the Island. Building square, and painted *white*. *A white fixed light*, fifty-two feet above high-water mark.

PORT HOOD LIGHT—Changed from *white* to *red*, when seen from the northern entrance, to distinguish it from the Margaree and North Canso Lights.

SEA WOLF, OR MARGAREE ISLAND LIGHT—Situate on the N. W. side of the Island of Cape Breton, nearly midway between Port Hood and Cheticamp Harbors, and distant from Cape Breton two and a half miles. *A plain white light*. The lantern is placed on a square wooden tower, painted *white*, near the centre and summit of the Island. The lantern is 298 feet above sea level—visible from all points of approach. To vessels in proximity to the Island the light may become obscured by the abrupt cliffs or sides of the Island, which may serve as a guide to tack or anchor by, as hundreds of vessels find anchorage on the south-east side. The chief landing is near the south-east end, in shore, where a few fishing stages and boats are kept in use during the fishing season.

ST. PAUL'S ISLAND—*A fixed light* on the north-east end, and a *flash light* on the south-west end. Both *white lights*.

LOW POINT LIGHT—East side of Sydney, C. B., Harbor. *A fixed white light*.

FLINT ISLAND LIGHT—On Flint Island, on the eastern coast of Cape Breton. Lat. $46^{\circ} 11' 5''$ N., and Long. $59^{\circ} 45' 20''$ W., and exhibits a *bright, flash light*, every fifteen seconds, visible from all points of the compass. The light is sixty-five feet above sea level, and can be seen at the distance of twelve miles.

SCATTERIE ISLAND.—*A white revolving light* at the east end of the Island.

LOUISBURG.—On the east side of the entrance to the harbor. *A fixed light*.

their approach to a very dangerous range of shoals and ledges, which extend from the Old Proprietor to the Seal Islands, off Machias, a distance of about twenty miles. A *white, flash light*, twenty seconds dark and forty seconds light, in each minute. Building painted in stripes, *vertical, black and white*. Between the northernmost and southernmost of the Murr Ledges, there is a range of dangerous rocks and shoals, many of them almost above water, and extend eastward from the Light House about four miles. From this range further southwardly, about six miles from the Gannet Light, lies a dangerous breaker called the Bull; this may be avoided by keeping three remarkable headlands near the S. W. end of Grand Manan open.

MACHIAS SEAL ISLAND LIGHT.—Two *fixed, white lights* upon the Machias Seal Islands, forty-five feet above high water, and bearing from each other E. S. E. and W. N. W., distant about 200 feet, by which circumstance, of two Light Houses at the same station, they will be immediately distinguished from all other lights upon the coast, British or American. Both buildings painted *white*. Vessels standing to the northward between these lights and the Gannet Rock, should tack or haul off the moment they bring these lights into one, as they will be then not more than three-fourths of a mile from the Murr Ledges, if more than five miles to the east of the light.

HEAD HARBOR LIGHT.—Next in order after passing Grand Manan and the plain white light (American) on West Quoddy Point, is Head Harbor Light, placed on the N. E. extremity of Campo Bello, and is a guide to vessels entering the main channel to West Isles, Moose Island, and the Inner Bay of Passamaquoddy; it enables vessels also at all times to enter Head Harbor. A *fixed, white light*. Building painted *white*, with a *red cross* on it.

POINTE LA PRENE LIGHT.—Upon this projecting headland two lights are placed, one above the other, in the same house, and distant twenty-eight feet. Both lights are seen from every point of the compass where they may be useful; both are *fixed and white*. Building painted *white and red*, in stripes, five feet broad each, horizontally.

PARTRIDGE ISLAND LIGHT.—At the entrance of the river and harbor of St. John, N. B. A *fixed, white light*. The building painted *red and white* in vertical stripes.

QUACO LIGHT.—A *revolving, white light*, placed on a small rock, off Quaco Head, showing twice full and twice dark in a minute. The light can be seen from any quarter where a vessel can approach. Building painted *white and red*, in horizontal stripes.

CAPE ENRAGE LIGHT.—On a point of that name in Westmoreland, nearly opposite Apple River Harbor, N. S. Building painted *white*, and about 120 feet above the tide mark. A *plain, white light*.

WEST QUODDY LIGHT.—This is an American light, placed on the west side of the entrance in the St. Croix, by Lubec and Eastport.

A LIGHT HOUSE has been erected upon CAPE RACE, Newfoundland a *fixed white light*, from sunset to sunrise. The light is visible to seaward from N. E. by E. round by the S. E. and S. to W., and is elevated 180 feet above mean water level of the sea, and may be seen in clear weather 17 miles from a ship's deck. The tower is striped red and white vertically. It stands close to the old beacon which has been cut down. The Lighthouse is in Lat. 46 degrees, 39 minutes, 19 seconds, N., Long., 53° 2' 28" W. Bearings magnetic. Var. 24° W.

In the River and Gulf of St. Lawrence and Strait of Belle Isle:

BELLE-ISLE LIGHT.—An island at the eastern entrance of the Strait of Belle-Isle, separating Labrador from Newfoundland, situated at the extreme south west point of the island. A *single fixed white light*. Building—circular stone tower, faced externally with fire brick of a light colour. Lat. $51^{\circ} 53' 0''$; Long. W. $25^{\circ} 26' 0''$. Whole horizon lighted, and seen in fair weather $28\frac{1}{2}$ nautical or $32\frac{1}{2}$ statute miles.

POINTE AMOUR LIGHT, Labrador Coast, Strait of Belle-Isle, at the south east point of Forteau Bay, Lat. N. $57^{\circ} 27' 30''$; Long. W. $56^{\circ} 53' 40''$. A *single fixed white light*—two thirds of the horizon illuminated, and seen in fair weather $18\frac{1}{2}$ nautical or $21\frac{1}{2}$ statute miles. Building—a circular stone tower, faced externally with fire brick of a light colour.

ANTICOSTI LIGHT at the extreme west end of the island of Anticosti Lat. N. $49^{\circ} 52' 30''$; Long. W. $64^{\circ} 35' 0''$. A *single, fixed white light*—two thirds of the horizon illuminated, and seen in fair weather 15 nautical or 18 statute miles. Building—a circular stone tower, faced externally with fire brick of a light colour.

CAPE ROZIER LIGHT.—East coast of Gaspé, at the extreme point of the Cape. Lat. N. $48^{\circ} 51' 0''$; Long. W. $64^{\circ} 35' 0''$. A *single fixed white light*—two thirds of the horizon illuminated, and seen in fair weather $16\frac{1}{2}$ nautical or $19\frac{1}{2}$ statute miles. Building—a circular stone tower, faced externally with fire brick of a light color.

Signals will be given at or near each of the above four light houses by means of an air or fog whistle, sounded at short intervals during foggy weather and snow storms, or by a nine pounder gun, fired every hour, in case of the whistle being out of order.

EXPLANATION OF SIGNALS

Made on the Flag Staff at Citadel Hill, when vessels are seen or reported from an Outpost.

One ball close up,	1 sq. rigged.	A pendant under a ball	6 sq. rigged.
One ball half hoisted,	2 do.	do. over a ball,	7 do.
Two balls close,	3 do.	do. under 2 b's close,	8 do.

An upper yard having been added to the Ship Staff, it will be used exclusively to designate Steam Vessels, thus:

One ball East or West indicates a Steam Vessel repeated in that quarter.

A small ball out and a large one in, a Branch Packet or Merchant Vessel.

A large ball out and a small one in, a Man-of-war Steamer, or Royal Mail Steamer.

Numbers will be indicated as directed from the lower yard.

The lower yard is now used for sailing vessels only.

When the description of vessel in sight is ascertained from the Citadel, the following descriptive colours will be hoisted at the mast head:

A Union Jack, Flag Ship.

Do. with a red Pendant over it, a two decker.

Do. with a blue Pendant over it, a Frigate.

Do. with a blue and white Pendant over it, a Ship or Bark-rigged Sloop-of-War.

Do. with a white Pendant over it, a Brig-rigged Sloop-of-War.

Do. with a red and white Pendant over it, a Schooner or Cutter-of-War.

A white Pendant with two blue crosses, a Transport or a vessel with troops on board—if a Man-of-War, the Union under.

A white Pendant with a blue ball, a Steamer—if a Man-of-War, the Union under.

A red Flag pierced white, Royal Mail Steam Packet from England.

A blue and red Flag crossed white, do. from Boston.

A white and blue Pendant, do. from Newfoundland.

A white and red Pendant, do. from Bermuda.

A blue Pendant, a Ship.

A blue and white Pendant, a Barque.

A red Pendant, a Brig.

A red and white Pendant, a Brigantine.

A white Pendant, a Sloop or Schooner.

A blue and white Flag, horizontally divided, a Foreign or Neutral fleet.

A white and blue Pendant vertically divided, a Foreign or Neutral Man-of-War.

A Foreign or Neutral Merchantman, National Flag with descriptive Pendant.

When an English Packet arrives between Evening and Morning gun fire, a red triangular flag will be kept flying at the mast head from 7 till 8 o'clock.

HACKNEY CARRIAGES.

[*Extracted from an Ordinance of the City, passed May 15th, 1861.*]

Any person or persons having a license in full force, who shall stand his carriage in any other than its appointed place or manner, or not have it properly numbered, or any driver or person in charge of a licensed carriage who shall not produce the tables of fares and distances when thereto required, or who being upon his stand disengaged shall refuse to convey any person seeking to employ him, or who shall in any way violate this ordinance, shall for each offence, besides being liable to have his license revoked, forfeit and pay such fine as under and by virtue of this Ordinance may be adjudged against him. And the owner or driver of any such carriage who shall demand or extort from any person or persons a sum beyond the rate of fare herein established, or hereafter to be established, may be so fined and shall forthwith forfeit the license for such carriage and be liable to refund to the party grieved the sum so extorted, with costs of prosecution. Livery stable keepers, not occupying the stands of said City shall be liable, in every respect, to this Ordinance, except as to going on the stands.

DR. HOOFLAND'S
BALSAMIC CORDIAL,
FOR THE SPEEDY CURE OF

Coughs, Colds, Influenza, Croup, Hoarseness, Bronchitis, Disease of the Bowels arising from Cold, Incipient Consumption, and for the relief, and (if at all possible) cure of patients in advance stages of the latter disease.

Catarrh, or Common Cold, as it is familiarly called, is worthy of study, and serious enough to be avoided, if possible. Dr. Bell says: "I will not say that Colds are to our inhabitants what the *Pague* and *Yellow Fever* are to those of other countries but I can aver confidently that they usher in diseases of greater complexity and mortality than these latter."

In the danger of *Bronchitis and Pneumonia*, which often follow in the train of a neglected cold, the *Phthisis Pulmonalis*, the tubercular irritation of which is developed by the same cause, we surely have proof and argument sufficient for attention, not only to the preventive means, but also to the curative ones of a disease which, however mild in its inception, is directly or indirectly productive of such diversified and alarming results.

This lesson should be particularly impressed upon those who have any constitutional tendency to *pulmonary Consumption*.

The use of the Balsamic Cordial, agreeably to the direction accompanying each bottle, will readily cure the most distressing case of cough.

Coughs sometimes proceed from a disordered or dyspeptic state of the stomach, in which case the German Bitters should be used. In cases of weakness or general debility of the system, resulting from a protracted cough, the German Bitters will be found of great benefit.

In cases of *acute Inflammation of the Lungs*, the prominent symptoms generally are—hurried and painful respiration, imperfect arterialization of the blood, cough and expectoration, attended with excitement of the heart, fever, various derangements of the digestive and urinary symptoms, prostration of strength, &c. The lungs may be diseased without any of these symptoms being prominent, but the murmur produced during inspiration and re-spiration, and the alternate contraction and expansion of the chest, evident to both sight and feeling, all furnish most important physical signs in case of disease, and should receive prompt attention.

This disease is usually caused by a cold settling on the lungs and the use of the Balsamic Cordial soon performs a cure.

The terrible fatality of diseases resulting from a "*common cold*," may be seen by a glance at the following statistics, taken from the records of the Board of Health of Philadelphia, confessedly one of the healthiest localities in the Union:

1852.—Total deaths in Philadelphia,	- - - - -	10261
Died of Consumption,	- - - - -	1912
" all other diseases,	- - - - -	8349
		10261
1853.—Total deaths,	- - - - -	9749
Died of Consumption,	- - - - -	1895
" all other diseases,	- - - - -	7854
		9749
1854.—Total deaths,	- - - - -	11514
Died of Consumption,	- - - - -	2178
" all other diseases,	- - - - -	9336
		11514

From these figures it will be seen that nearly one-fourth of the total deaths in the country are caused by Consumption, to say nothing of the numerous other diseases springing from a "slight cold."

The Proprietors are in the possession of certificates showing that the Balsamic Cordial has effected cures where all other remedial means have failed. Give it a trial.

These invaluable Medicines are prepared only by Dr. C. M. JACKSON, 418 Arch-street, Philadelphia, and are for sale by Druggists and Store-keepers in every town and village in the United States, Canada, and British Provinces, at 75 cents per bottle. H. A. TAYLOR, Halifax, N. S., Wholesale and Retail Agent.

DR. HOOFLAND'S Celebrated German Bitters,

PREPARED BY

Dr. C. M. JACKSON, Philadelphia, Pa.,

WILL EFFECTUALLY CURE

LIVER COMPLAINT, DISPEPSIA, JAUNDICE,

Chronic or Nervous Debility Diseases of the Kidneys, and all diseases arising from a disordered Liver or Stomach—such as Constipation, Inward Piles, Fullness or Blood to the Head, Acidity on the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or Weight in the Stomach, Sour Eructations. Sinking or fluttering at the pit of the Stomach, Swimming of the Head, Harried and Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a lying posture. Dimness of Vision, Dotts of webbs before the Sight, Fever and Dull Pain in the Head. Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest & Limbs, &c. Sudden Flashes of Heat, Burning in the Flesh Constant Imaginings of Evil, and Great Depression of Spirits.

The Proprietor, in calling the attention of the public to this preparation, does so with a feeling of the utmost confidence in its virtues and adaptation to the diseases for which it is recommended.

It is no new and untried article, but one that has stood the test of a ten years' trial before the American people, and its reputation and sale is unrivalled by any similar preparation extant. The testimony in its favor given by the most prominent and well-known Physicians and Individuals in all parts of the country is immense, and a careful perusal of the Almanack, published annually by the Proprietor, and to be had gratis of any of his agents, cannot but satisfy the most sceptical that this remedy is really deserving the great celebrity it has obtained.

Principal Office and Manufactory, No. 418 Arch Street, Philadelphia, Pa.

FROM J. NEWTON BROWN, D.D., EDITOR OF THE ENCYCLOPEDIA OF RELIGIOUS KNOWLEDGE.

[Certificate.]

Although not disposed to favor or recommend Patent Medicines in general through distrust of their ingredients and effects I yet know, of no sufficient reason why a man may not testify to the benefit he believes himself to have received from any simple preparation, in the hope that he may thus contribute to the benefit of others.

I do this the more readily in regard to "Hooiland's German Bitters," prepared by Dr. C. M. Jackson of this City, because I was prejudiced against them for years, under the impression that they were chiefly an alcoholic mixture. I am indebted to my friend Robt. Shoemaker, Esq., for the removal of this prejudice by proper tests, and for encouragement to try them when suffering from great and long-continued debility. The use of three bottles of these Bitters at the beginning of the present year was followed by evident relief, and restoration to a degree of bodily and mental vigor which I had not felt for six months before, and had almost despaired of regaining. I therefore thank God and my friend for directing me to the use of them.

Philadelphia, June 23rd, 1860.

J. NEWTON BROWN.

These Bitters are for sale by all the Druggists in the British Provinces at 75 cents per bottle. H. A. TAYLOR, Halifax, N. S., Wholesale and Retail Agent.

AYER'S Compound Extract Sarsaparilla.

No one remedy is more needed in this country than a reliable *Alterative*, but the sick have been so outrageously cheated by the worthless preparations of Sarsaparilla abroad, that they are disgusted even with the name. Yet the drug cannot be blamed for the impositions from which they have suffered. Most of the so called Sarsaparillas in market contain little of the virtues of Sarsaparilla or anything else. They are mere slops,—inert and worthless; while a concentrated extract of the active variety of Sarsaparilla compounded with Dock, Stillingia, Iodine, etc., is, as it ever will be, a powerful alterative and an effectual remedy.—Such is Ayer's Extract of Sarsaparilla, as its truly wonderful cures of the great variety of complaints which require an alterative medicine, have abundantly shown. Do not, therefore, discard this invaluable medicine, because you have been imposed upon by something pretending to be Sarsaparilla, while it was not. When you have used AYER'S—then, and not till then, will you know the virtues of Sarsaparilla.

It cleanses and renovates the blood, instils the vigor of health into the system and purges out the humors which make disease. It stimulates the healthy functions of the body and expels the disorders which grow and rankle in the blood. Its extraordinary virtues are not yet widely known, but when they are it will no longer be a question what remedy to employ in the great variety of afflicting diseases that require an alterative remedy. Such a remedy that could be relied on, has long been sought for, and now, for the first time, the public have one on which they can depend. Our space here does not admit certificates to show its effects. But the trial of a single bottle will show to the sick that it has virtues surpassing anything they have ever taken. Sufferers from Scrofula, Scrofulous Swellings and Sores, try it and see the rapidity with which it cures. *Skin Diseases, Pimples, Pustules, Blotches, Eruptions, &c.*, are soon cleared out of the system by it.

St. Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ringworm, &c., should not be borne while they can be so speedily cured by AYER'S SARSAPARILLA.

Female Diseases are caused by Scrofula in the blood, and are generally soon cured by this EXTRACT OF SARSAPARILLA.

No remedy has ever been found so valuable in the various complaints of children, such as *Sore Eyes, Sores about the Mouth, Discharges from the Ears, Disordered Digestion*, connected with *Tumid Bowels, and Disordered Evacuations*, almost always indicative of WORMS, and for which condition AYER'S SARSAPARILLA is the one thing needful as a vermifuge.

Ayer's Pills

Are particularly adapted to derangements of the digestive apparatus, and diseases arising from impurity of the blood. A large part of all the complaints that afflict mankind originate in one of these, and consequently these PILLS are found to cure many varieties of diseases.

Subjoined are the statements from some eminent physicians, of their effects in their practice.

AS A FAMILY PHYSIC.

From Dr. E. W. Cartwright, of New Orleans.

"Your PILLS are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease."

FOR JAUNDICE AND ALL LIVER COMPLAINTS.

From Dr. Theodore Bell, of New York City.

"Not only are your PILLS admirably adapted to their purpose as an aperient but I find their beneficial effects upon the liver, very marked indeed. They have in my practice proved more effectual for the cure of *bilious complaints* than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people."

DYSPEPSIA—INDIGESTION.

From Dr. Henry J. Knox, of St. Louis.

"The PILLS you were kind enough to send me have been all used in my practice, and have satisfied me that they are truly an extraordinary medicine. So peculiarly are they adapted to the diseases of the human system, that they seem to work upon them alone. I have cured some cases of *dyspepsia* and *indigestion* with them, which had resisted the other remedies we commonly use. Indeed I have experimentally found them to be effectual in almost all the complaints for which you recommended them."

DYSENTERY—DIARRHŒA—RELAX.

From Dr. J. G. Green, of Chicago.

"Your PILLS have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses, for *bilious dysentery* and *diarrhœa*. Their sugar-coating makes them very acceptable and convenient for the use of women and children."

CONSTIPATION—COSTIVENESS—SICK HEADACHE—FOUL STOMACH —PILES—DROPSY—PLETHORA—PARALYSIS—FITS, &c.

From Dr. Edward Boyd, Baltimore.

"DEAR DR. AYER: I cannot answer you *what* complaints I have cured with your PILLS better than to say *all that we ever treat with a purgative medicine*. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your PILLS afford us the best we have, I of course value them highly." Price 25 cents per box, or 5 boxes for \$1.

AYER'S CHERRY PECTORAL,

For the rapid cure of Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues.

Prepared by Dr. J. C. AYER & Co., Lowell, Mass. Sold by all Druggists.

AMERICAN COLLEGE OF PHARMACY.

This certifies that JOHN L. HUNNEWELL, of Boston, Mass., is a duly elected Member of the above named Association. In testimony whereof are signed the names of the proper Officers.

H. T. KEIRSTEIN, President.
 W. J. M. GORDON, Vice-President.
 JAMES T. SHAW, Corresponding Secretary.

The Combination of Triple Medicines now perfected in every department, placed at prices within the reach of all, and calling for special attention, are,

I. HUNNEWELL'S UNIVERSAL COUGH REMEDY,

Which without the slightest restraint upon its use every hour, and containing no ingredients to disturb the most delicate constitutions, become a perfect enemy to all THROAT AND LUNG COMPLAINTS, from that terror to children, WHOOPING COUGH, for which it is certain relief to OLD AGE with its infirmities, and by a timely application, will not only check that blight on the American climate, CONSUMPTION, but rob the GRAVE of many of its early victims.

For Hoarseness, so common to Public Speakers and Singers, it is without a parallel.

For Sore Throat, a certain cure. Large bottles 50 cents, small do 25c.

II. HUNNEWELL'S TOLU ANODYNE.

Which has drawn such loud praises from Thousands who have tested its true character, and found it a sure and immediate relief for Neuralgia, Gout, Rheumatism, Tooth Ache, Ear Ache, Bowel Complaints, St. Vitus Dance, bleeding at Lungs or Stomach, Distress in Chest after eating, and for all Nervous Complaints, to that chief of all causes of Disease, Insanity, and Depression of Spirits, the

LOSS OF SLEEP.

For Common Headache, Nervous Headache, and Violent Sick Headache, it has no equal, to which I can give most undoubted references, and to which special attention is asked. 50 cents per bottle.

III. HUNNEWELL'S ECLECTIC PILLS.

Designed as the great Mercerial substitute, and assistant to the Tolu Anodyne and Universal Cough Remedy, when cases to which they are adapted are aggravated by Indigestion, Bileousness, &c., &c., producing all the requirements of a gentle and thorough Family Physic, without coming in contact with the usual objection of making a Pill Boe of the stomach. A Single Pill at night, or one night and morning, will in most cases produce a gentle and thorough physic. By taking a single Pill every 2d or 3d night, and following it regularly, living on good food, Indigestion is thoroughly cured, and the stomach loses none of its tone.

For Worms, they are a safe and sure cure. 25 cents per bottle.

THE BEST AND SAFEST REMEDY FOR WORMS

IS

WOODILL'S IMPROVED WORM LOZENGES.

MORE than SEVEN THOUSAND BOXES sold in one year—the first of their introduction. They have given UNIVERSAL satisfaction, and the Proprietor has received over *Twelve Hundred* testimonials, in their favor from the most reliable sources.

WOODILL'S WORM LOZENGES

Never fail to effect a perfect cure. They are palatable, and act immediately without physic.

☞ Read the published testimonials; ask for WOODILL'S WORM LOZENGES, and observe that they are of a red color.

Having examined the prescription from which Woodill's Worm Lozenges are prepared, I can state that they contain the most wholesome ingredients. I can also certify that they are efficacious, having used them in my practice. (Signed.)

Halifax, Feb. 9, 1860. HENRY B. FORMAN, M.D., Surgeon.

"I can strongly recommend Woodill's Worm Lozenges, having used them in my family. They are palatable and readily taken by children. *Halifax, Dec. 13, 1860.* T. SOUTHWALL."

"I have used Woodill's Worm Lozenges in my family, and find them an efficacious remedy for Worms. Can confidently recommend them to the public as a valuable remedy. *Guyshorn, Dec. 17, 1860.* H. R. CUNNINGHAM."

"I have purchased and sold Woodill's Improved Worm Lozenges for the past year, and have also used them in my family. From my own observation, and from information from my customers, I can recommend them to the public as a safe and effectual remedy for worms. *Bridgewater, Dec. 22, 1860.* BENJAMIN HARRINGTON."

"I have used Woodill's Worm Lozenges in my family for a considerable time, and find them to surpass anything I have used. *Sambro, Dec. 23, 1860.* J. B. HAMBLIN."

"I have given your Worm Lozenges a fair trial, and feel that you are entitled to my certificate. I have given them to my children with wonderful success, having tried every other remedy without any benefit before your Worm Lozenges were recommended to me. I will advise all my neighbors to get them. *St. Margaret's Bay, April 6, 1861.* LOUIS RHYNO."

☞ Woodill's Improved Worm Lozenges are manufactured only at the CITY DRUG STORE, Halifax, and sold by dealers in medicine generally throughout the Province.

 REV. S. HUMPHREY, A.B., TEACHER OF LATIN, &c.

This Institution, which has been in successful operation about nineteen years, offers superior advantages to those who wish to procure either a partial or a complete course of Academic Study. It is situated in a quiet country village, which is easy of access, pleasant, and remarkably healthy; the Academic buildings, occupying beautiful positions, are spacious, and for the purposes for which they are designed altogether unequalled in these Provinces; the various apartments are commodious, well ventilated, and suitably furnished; all the plans, regulations, and arrangements, scholastic and domestic, are those which having been tried have been found best adapted to promote the comfort and facilitate the improvement of the Students. The Board of Instruction consists of competent, experienced and successful Teachers, who devote themselves in term time to earnest and persevering effort to facilitate the progress of their respective classes. Adequate provision is made for thoroughly teaching all the branches of Science and Literature usually included in the curriculum of the Academic or the Collegiate Institution.

☞ The charges for Board, etc., and Tuition are only from £27 10s. to £32 10s., N. B., Currency, per annum.

TERMS OF FOURTEEN WEEKS EACH ARE TO BEGIN AS FOLLOWS:

- Thursday, October 31st, 1861.
 Thursday, February 6th, 1862.
 Thursday, July 24th, 1862.
 Thursday, October 30th, 1862.

☞ For further information apply to the Principal. ☞

Facts and their Consequence.

It is a fact that Langley's Cordial Rhubarb has obtained a deservedly high reputation for the cure of Diarrhoea, Dysentery, Cholera, &c.

It is a fact that Chiswell's Pectoral Balsam is a most serviceable assistant to nature in all cases of Coughs, Colds, Hoarseness, &c.

It is a fact that Langley's Antibilious Pills, by combining aromatic, tonic and aperient qualities, remove all oppressive accumulations, regulate the secretions of the liver, strengthen the system, induce a healthy appetite, and impart tranquility to the nervous system.

It is a fact that when you are transported with anguish arising from the exposure of the delicate nerve of the tooth to the cold air, Langley's Aromatic Tooth Powder possesses properties, rendering the teeth and gums firm and the breath agreeable.

It is a fact that Howard's Furniture Polish will, when applied to Furniture, be its own best recommendation.

The practical result to be deduced from these facts is that every farmer, every laborer, every fisherman, should keep a family supply on hand against the time of need.

These Dictionaries have received the approval of the most eminent literary men, both in England and America. The Royal quarto Dictionary, although first published in January, 1860, has already become the standard work in most of the literary institutions of the country; while the smaller works have been extensively introduced into the best Academies and Common Schools. They are now the authorized Dictionaries for New Brunswick, as will be seen by the following certificate.

Education Officer, Fredericton, 22nd August, 1861.

The Board of Education having authorized Worcester's Dictionary for the use of Public Schools in New Brunswick, I have much pleasure in recommending the work to the favorable consideration of Teachers.

JOHN BENNETT, *Chief Superintendent.*

Worcester's Royal Quarto Dictionary.

1854 PAGES, 1,000 ILLUSTRATIONS.

This is entirely a New Work, and all the new words, synonyms, and illustrations will be found in their proper places.

Attention is particularly called to the following testimonials selected from among hundreds of the same import.

From the Rev. W. Whewell, D. D., Master of Trinity College, Cambridge, Author of "History of the Inductive Sciences."

I have repeatedly consulted the Dictionary since it has been in my possession, and have seen reason to think it more complete and exact than its predecessors.

From E. Ryerson D. D., Superintendent of Public Instruction for Upper Canada.

I have for several years used Webster's, as the best Dictionary of its kind—always excepting its orthography—but I regard and recommend for our Schools and Public Institutions, Worcester's Dictionary, as a very great improvement upon that of Webster's pictorial edition.

**A CURE FOR CONSUMPTION, COUGHS, COLDS, ASTHMA, BRONCHITIS,
General Debility and all Scrofulous Humors.**

Have You Tried It?

This important question should be asked every individual who is suffering from Pulmonary trouble in this fickle climate. Have you tried Wilbor's Compound of Cod Liver Oil and Lime? It will not nauseate, like the plain Oil, but is, on the contrary, pleasant to the taste; moreover the Phosphate of Lime is, in this combination, a most remarkable aid to the healing properties of the Pure Cod Liver Oil, as the following certificate—selected from a host of like grateful acknowledgments—will amply sh. w. No person should neglect for a single hour a cough or any affection of the Lungs, lest the most serious consequences follow. Dr. Wilbor's preparation is both safe, simple, and sure in all ordinary cases, and has performed some very, rising cures in decided Consumption, where ordinary medical aid has failed:—

CHAMBER STREET, BOSTON.

A. E. WILBOR—Dear Sir: My little daughter, eleven years old, having been declared to be in a Consumption, I resolved, as a last resort, to try Cod Liver Oil. This in its simple state my daughter could not retain on her stomach, and it was found on each trial to be too nauseating to remain. A friend suggested to me that your preparation of Cod Liver Oil and Lime could be given without causing this nausea. I procured a bottle, with little hope that my child would be permanently benefited by it; but was gratified to find she could take it without nausea, and retain it in the stomach. This was one point gained, but to our great delight by the time a second bottle had been used, a manifest improvement was apparent in my daughter's health, and now she is so completely recovered as again to mingle with her playmates, and attend school. I consider it my duty to make these facts known.
MARIA D. HANSON, Dover St. Boston.

This simple testimonial is sufficient to show those who wish for an article of remarkable healing qualities, pleasant to the taste, and sure in effect, that such may be had in Wilbor's Compound of Cod Liver Oil and Lime.

CAUTION.—On account of the great reputation of this Compound for all Lung Complaints, the subscriber would caution the afflicted against using any except that manufactured by him, as he has the only receipt in the United States for combining the PURE OIL with LIME in a proper manner. Therefore as you value your health, purchase not except that manufactured by

BROWN'S BRONCHIAL TROCHES

Cure Cough, Cold, Hoarseness, Influenza, any Irritation or Soreness of the throat, relieve the Hacking Cough in Consumption, Bronchitis, Asthma and Catarrh, clear and give strength to the voice of

PUBLIC SPEAKERS AND SINGERS.

Few are aware of the importance of checking a Cough or "SLIGHT COLD" in its first stage; that which in the beginning would yield to a mild remedy, if neglected, soon attacks the Lungs. "Brown's Bronchial Troches" are a most valuable article, especially so at this season of the year, when Coughs, Colds, Bronchitis, Influenza, Hoarseness and Sore Throat are so prevalent. The Troches give sure and almost immediate relief.

BROWN'S	"That trouble in my throat, (for which the Troches" is a specific) having made me often a mere whisperer."	X. P. WILLIS,	TROCHES.
BROWN'S	"I recommend their use to PUBLIC SPEAKERS."	REV. E. H. CHAPIN,	TROCHES.
BROWN'S	"Have proved extremely serviceable for HOARSENESS."	REV. H. W. BEECHER	TROCHES.
BROWN'S	"Almost instant relief in the distressing labor of breathing peculiar to ASTHMA."	REV. A. C. EGGLESTON,	TROCHES.
BROWN'S	"Contain no Opium or anything injurious."	DR. A. A. HAYES, <i>Chemist, Boston.</i>	TROCHES.
BROWN'S	"A simple and pleasant combination for Coughs, &c."	DR. G. F. BIGELOW, <i>Boston.</i>	TROCHES.
BROWN'S	"Beneficial in BRONCHITIS."	DR. J. E. W. LANE, <i>Boston.</i>	TROCHES.
BROWN'S	"I have proved them excellent for Whooping Cough."	REV. H. W. WARREN, <i>Boston.</i>	TROCHES.
BROWN'S	"Beneficial when compelled to speak, suffering from Cold."	REV. S. J. P. ANDERSON,	TROCHES.
BROWN'S	"I heartily unite in the above commendation."	<i>St. Louis.</i>	TROCHES.
BROWN'S	"EFFECTUAL in removing Hoarseness and Irritation of the Throat, so common with SPEAKERS and SINGERS."	REV. M. SCHUYLER,	TROCHES.
BROWN'S	<i>La Grange, Ga.</i>	Prof. M. STACY JOHNSON,	TROCHES.
BROWN'S	Teacher of Music, Southern Female College.		TROCHES.
BROWN'S	"I have been much afflicted with Bronchial AFFECTION, producing Hoarseness and Cough—		TROCHES.
BROWN'S	The "Troches," are the only effectual remedy, giving power and clearness to the voice."		TROCHES.
BROWN'S		REV. GEO. SLACK,	TROCHES.
	Min. Ch. of England, Milton Parsonage, Canada.		

Brown's Bronchial Troches.

Cures Cough, Cold, Hoarseness and Influenza. Cures any Irritation or Soreness of the Throat. Relieves the Hacking Cough in Consumption. Relieves Bronchitis, Asthma and Catarrh. Clears and gives strength to the voice of SINGERS. Indispensable to PUBLIC SPEAKERS. Soothing and simple, CHILDREN can use them,—As they assist Expectoration and relieve Hoarseness.

THE SCIENCE OF HEALTH.

EVERY MAN HIS OWN PHYSICIAN.

Holloway's Pills and Ointment.

Diphtheria, Ulcerated Sore Throat, and Scarlet and other Fevers.

Any of the above diseases may be cured by well rubbing the Ointment three times a day into the chest, throat and neck of the patient; it will soon penetrate, and give immediate relief. Medicine taken by the mouth must operate upon the whole system ere its influences can be felt in any local part, whereas the Ointment will do its work at once.

Bilious Disorders.

In whatever form diseases attacks the liver, it is repelled and exterminated by these searching, painless and irresistible Pills.

Let the sick whom the faculty have abandoned, resort with confidence to this powerful antibilious agent, and a restoration to health and activity will be the unvarying result.

Scrofula, Erysipelas, and Salt Rheum.

No remedy has ever done so much for the cure of diseases of the Skin, whatever form they may assume, as this Ointment. No case of Salt Rheum, Scurvy, Sore Heads, Scrofula or Erysipelas, can long withstand its influences.

Dyspepsia.

The great scourge of this continent yields quickly to a course of these Anti dyspeptic Pills, and the digestive organs are restored to their proper tone; no matter in what hideous shape this hydra of disease exhibits itself, this searching and merrring remedy disperses it from the patient's system.

Piles, Fistulas, Bad Legs, Old Sores and Uleers.

Cases of many years standing that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

Sickly Females.

Should lose no time in trying a few doses of these regulating and renovating Pills; whatever may be their complaint, they can be taken with safety in all periodical and other disorganizations; their effect is all but miraculous.

***Sold at the manufactory of Professor HOLLOWAY, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicines, throughout the civilized world, in pots and boxes at 25 cents, 63 cents and \$1 each.

☞ There is considerable saving by taking the larger sizes.

N B.—Directions for the guidance of patients in every disorder are affixed to each box.
