GERMAN RESTRICTION ON BEER PRODUCTION

Breweries Limited to Fifty Per Cent of Usual Quantity of Malt. Canadian Press Despatch. AMSTERDAM, Feb. 14.—Restrictions have been imposed on the production of beer in Germany, to become effective Feb. 15, according to The Lokal Anzeiger. From that date until March 1, it is said, the breweries are forbidden to use more than 50 per cent of their usual quantity of malt, and after March 1 they must not exceed 40 per cent. The authorities later will fix definitely the amount of malt each brewery may consume.

Canadian Press Despatch. BERLIN, via London, Feb. 14.—The German foreign office, after studying the American note respecting the declaration by Germany of a war zone in the waters around Great Britain and Ireland, states that the terms are much friendlier than had previously been expected on the lines laid down in the complete newspaper despatches published here. The foreign office even recognizes that from the American standpoint certain of the points raised are quite justified. Germany, however, it is declared, intends to adhere to its own viewpoint. Various official diplomatic naval and military sources have been consulted, and the opinion has been expressed that the naval campaign can be conducted on the lines laid down in the admiralty proclamation, without involving difficulties between the United States and Germany. The Berlin correspondent's comment on the note while generally of a determined nature, is friendly. Conspicuous exceptions to the rule, however, are furnished by Die Post and Die

By Frederick Bennett, Special Correspondent to The London News and The Toronto World. Special Cable to The Toronto World. PETROGRAD, Feb. 14.—North the battle line now stretches over a front 80 miles wide, from the Niemen east to Tilsit, where there is fighting on the frontier down to the southeast corner of East Prussia. This position and swiftly conducted advance across both ends of East Prussia, is in itself a bitter disappointment for the German. Unquestionably Von Hindenburg projected the last operations in the north in the belief that he could bring off another Tannenberg. The Russian recently got some distance across the old scene of the battles of the early days of the war. The army in the north was in a region of plain partly covered with bare woods. It reached the neighborhood of Insterburg, where a strong German column formed at Koenigsberg was shot forward, at great speed into the gap between the Niemen and the advance Von Hindenburg sent another flying column across the northern edge of Poland behind a screen of cavalry, which has been in continuous fighting contact with the Russians in the region of Stargard. The southern German line has been pushed into East Prussia south

Canadian Press Despatch. LONDON, Feb. 14.—The British barque Andromeda, bound from Tacoma, Wash., for Falmouth, Eng., with a cargo of wheat, was wrecked near Palmouth Friday night, during a gale. Twenty-eight people aboard, including the captain's wife, daughter and six other persons, were rescued by means of a rocket apparatus early Saturday morning. One sailor was swept from the ship by a wave and drowned. U.S. AMBASSADOR TO CONFER WITH KAISER? Gerard Said to Have Been Invited to Eastern Headquarters. Canadian Press Despatch. LONDON, Feb. 14, 10.10 p.m.—The German Emperor, according to the Exchange Telegraph, invited the American ambassador to Germany, James W. Gerard, to a conference at eastern headquarters.

On their arrival becoming known, a small detachment of British troops landed in clear rear, and advancing over the hills made a surprise attack on their position at dawn Friday. The official report concludes as follows: "The enemy's force was annihilated. Over 100 prisoners were taken, among them a Turkish major. Over 40 of their dead were found on the field, and it is believed that none got away. Twenty camels were captured and the enemy camp and their stores were destroyed. Our losses were one Gurkha killed and one wounded."

Canadian Press Despatch. PARIS, Feb. 14.—(6.40 p.m.)—A telegram from Nish to the Havas News Agency says that the following statement was given out by the Servian Government today: "Yesterday large numbers of Albanians broke through our lines, crossing the frontier in the department of Prisrend. Before superior forces of the enemy, our troops, as well as the municipal authorities, were forced to retreat. The Albanians continue to advance in the direction of Zepod, Topoliana and Glavochitza. "The enemy succeeded in certain places in cutting the telephone and telegraph communications."

By a Staff Reporter. OTTAWA, Ont., Feb. 14.—The government has issued a warning to all vessels entering the ports of Halifax, Quebec or Esquimaux to approach with caution and watch for the signal of three red vertical lights at night or three red vertical balls by day, indicating that vessels cannot enter before examination.

DEMAND FIXED PRICES FOR WHEAT AND COAL

British Labor Leaders Threaten to End Truce if Request is Refused. ALLIES' FINANCES TO BE DISCUSSED Lloyd George's Statement in House Today Awaited With Interest.

Canadian Press Despatch. LONDON, Feb. 14.—Conferees under trades union and socialist auspices held simultaneously in London, Leicester, Liverpool, Portsmouth, Cardiff, Birmingham and Bradford yesterday to consider the high prices of food and fuel. The meeting in London passed a resolution calling upon the government to commandeer and distribute wheat and coal, and stating that if the government fails to fix prices at the same level as existed when war was declared then the labor party will be declared ended. An immediate increase of two pence (four cents) an hour in wages was demanded.

GERMANY PREPARES REPLY TO U.S. NOTE

Request That American Warship Convoy Merchantmen May Be Made. A CONFERENCE HELD American Ambassador and German Foreign Secretary Discuss Situation.

Canadian Press Despatch. BERLIN, Feb. 14.—(Via London, 11.30 p.m.)—The American ambassador, James W. Gerard, conferred last evening with the German foreign secretary, Herr Von Jagow, regarding the American note, and the German reply. Nothing has been made public regarding the conference, but it is learned that the foreign office is now preparing an answer to the American note, and the idea is entertained in certain quarters that Germany may suggest that the United States send an American warship to convoy American merchantmen thru the danger zone, thus guaranteeing the neutrality of the vessel.

Germany to Confiscate Domestic Oats Supply

Only Seed Oats and Necessary Fodder Exempted Under Order Which Becomes Effective Tomorrow—Maximum Price is Advanced.

Canadian Press Despatch. BERLIN, Feb. 14.—(Via London) The bunderath today decided to appropriate all the domestic stocks of oats, with the exception of seed oats and the grain necessary for fodder for horses. The order becomes effective Feb. 16. The bunderath also raised the maximum price of oats by 50 marks (\$12.50) per metric ton.

The action of the bunderath, or federal council, in expropriating the domestic stocks of oats is a further step in the direction of the German Government's policy of conserving the food supply of the country. On Jan. 26 the federal council ordered the seizure by Feb. 1 of all stocks of corn, wheat and flour.

RHEIMS BOMBARDED Infantry Clash at Various Points—Storm Checks Naval Activity.

Canadian Press Despatch. LONDON, Feb. 14.—In the west there has been a continuation of heavy artillery bombardments, in which Rheims has again suffered, and several infantry attacks on different parts of the line, in which both sides claim to have been successful. From unofficial sources comes the news that Saint Mihiel, on the Meuse, which the Germans have held so long, has come under fire of the French guns, which shows that the French have either made an advance in this region or have brought up heavier guns in an effort to dislodge the Germans.

COST OF LIVING STILL ASCENDS

Rapid Rise in Grains and Flour Was Chief Feature.

DAIRY PRODUCTS UP Sugar, Coffee and Potatoes Showed Tendency to Drop in Price.

Canadian Press Despatch. OTTAWA, Feb. 14.—According to the labor department's January record just issued, the department's index number of wholesale prices was higher for January, standing at 138.4 as compared with 137.5 in December, and 124.5 in January, 1914. The chief feature in the price movement was the rapid rise in wheat and other grains, and in flour.

WAR TAX ON FUR SKINS MEANS HIGHER PRICES FOR GARMENTS NEXT SEASON

The significance of the Dinesen fur sale is greater than ever since the announcement of the war tax on furs.

Notwithstanding the fact that the fur trade is still in a state of uncertainty, the prices are not altered, and selling at clearing prices proceeds as usual. Never have so many bargains been possible on furs of Dineen quality, and an investment now is simply gilded. The choice is still good, but you can't afford to wait another day in making your selection. The present has given out the emphatic message, "Every fur must sell this month, and he'll see that it's cleared out to the letter. Price cutting is the means employed to effect this clearance and it should surely succeed."

Notices have been sent out to Smith's Falls, Perth, Kemptonville, Merrickville and other towns in eastern Ontario, to keep a sharp lookout for aeroplanes. Later communication with Brockville says that the aeroplanes passed over Merrickville, N.Y., on their way over the St. Lawrence.

A few months ago an order was issued by the government and notices posted that any aeroplanes flying over Canadian territory without authority would be dealt with as enemies.

Sharpshooters were told off to various points of vantage on Parliament Hill. All pointed shots of the Dominion police are fully armed.

The greatest excitement prevails and the premier and cabinet ministers are being informed from time to time as to the situation. The Duchess of Cornwall is also being kept informed. The only lights in Rideau Hall or the government buildings are those in rooms which have heavy blinds and shutters.

The new governor, just appointed, is obliged to have all official documents countersigned by two officers of the general staff, one being German and the other Austrian.

BELGIAN DETERMINED TO GET TO FRONT

Canadian Press Despatch. LONDON, Ont., Feb. 14.—Tried, hungry and penniless, but determined to get to the battlefield, August Parquin, a Belgian reservist, en route from Chatham to Toronto by foot, dropped off here yesterday and sought aid at the city hall. Relief Inspector McCallum "staked" the soldier and gave him a ticket to Toronto where he expects to get transportation home from the Belgian consul.

ATTITUDE OF ITALY LIKE THAT OF U.S.

Protest Regarding Proposed Blockade Was Made Thru Ambassador. Canadian Press Despatch. ROME, Feb. 14.—Italy made virtually the same representations to Germany as did the United States, concerning neutral shipping in the sea zone created by the recent German proclamation, it was made known today. Italy, however, did not send a note to Berlin nor did she take any formal step, limiting her action to friendly observations thru the Italian ambassador to Germany.

NO TEUTONIC TAIN

Manifestation of Patriotism Takes Many Striking Forms in Paris.

Forbidden to The Female World. PARIS, Feb. 12.—The inborn artistic instincts of Paris, purified and intensified by the trials of war, have developed a complete revolution not only in Parisian fashions, but in painting, sculpture, household decoration, drama, literature.

During the last few days your correspondent interviewed half a dozen leading Parisian dressmakers, house decorators, furniture makers and prominent portrait painters, including Leon Bonnat, Francois Fleming and Baschet, Delmas and dramatic critics Henry Nidou, Camille le Senne and Jules Bois.

The effects of evening decolette are now to be attained, not by exposure of bare flesh, but by means of a diaphanous silk network or lace and sometimes transparent gauze.

Coming styles for household decorations show a revolution more thorough than those of dress.

One of these theatrical artists, Mlle. Mistiguet, whose new home near the Eiffel Tower had just been completed at a cost of sixty thousand dollars in the modern style.

A Versailles weekly illustrated paper, Le Vie Parisienne, appears today with a cartoon representing Mlle. Mistiguet kicking over all so-called new style Impressionist furniture and throwing all exotic futuristic objects of art out of the window.

Among Parisian artists who are making vigorous manifestations in favor of pure French art in household decorations are Jeanne Granier Rejano, Maithe, Chantal, Marcelle, Lender, Hugette Dastry, Alice Bayeau Yvonne, Mirval Marcelle, Monthill and a score of others.

ELECTION OF OFFICERS

County Master Returned for Third Term—Ward Seven News.

The North Toronto Ratepayers' Association placed itself on record on Saturday evening as being opposed to the Metropolitan bill for the double tracking of Yonge street, but the recommendation of the executive that the Metropolitan be diverted to Mount Pleasant road, while the city reserved full control of that highway and the right to operate the civic car system, was left over for further consideration, as was also a motion of Bryce and McKendrie that the city be asked to expropriate the Metropolitan to York Mills and give the company running rights for passenger traffic only.

Speaking of the recommendation of the executive, President G. A. Hodgson stated that the company had not been approached, but he said: "It has been stated to me that the Metropolitan is not wedded to Yonge street, and we feel that it is prepared to accept an alternative scheme." It was matter for debate whether Mount Pleasant road or Duplex avenue should be the alternative route, but the resolution of Mr. Bryce would leave the Metropolitan still on Yonge street.

"Mount Pleasant road was certainly not opened up to give to the Metropolitan," said Frank Howe, "and it were to hand over that road to the Metropolitan with the same franchise rights they have on Yonge street, I would be opposed altogether. But these people have vested rights, and we've got to respect them to a certain extent. There's no government and no railway board going to shut off the people in the north from getting into the city. We've got to find a way by some means, and this seems to me a fair proposition for solving the difficulty on Yonge street."

Members, Giuseppe and Markham opposed the resolution of the executive, claiming that the Metropolitan should have its own right of way, and that the continuation of the level crossing difficulty was advanced by Mr. West.

"It may have seemed to some that the members of the executive are carrying a brief for the Metropolitan," said Mr. Hodgson. "They're not. The Metropolitan could not be stopped at York Mills, and some logical proposition must be advanced. Apart from the difference in gauge, there might be little objection to the Metropolitan coming down Yonge street, but on that street was the greater traffic. He favored recommending either Mount Pleasant road or Duplex avenue. He did not think St. Michael's Cemetery would prove an insurmountable obstacle. The third rail was not a safe proposition, unless the line was worked out as on St. Clair, where vehicles could not pass except at intersections. The Metropolitan franchise, supposed to expire in 1920, was renewable. They had therefore to deal with the company in a reasonable manner. The company would not consider the suggestion made by Mr. Leslie of going further east to get to the bottom of Yonge street."

Mount Pleasant road being constructed out of the general rates, argued W. G. Ellis, there could not be so great a cause of complaint as might be advanced by residents on other highways. He believed the Metropolitan would accept another right of way, but he said no objection to Yonge street provided it was widened and provided the rights were limited to those reasonable for an urban community.

Mr. Cuttill anticipated strenuous opposition from Moore Park. He considered the moving of the Metropolitan to Mount Pleasant road to be most inadvisable. The ideal system, he said, was to have cars on the concession lines, and Yonge street should be widened for a double track. That the recommendations were referred back was largely due to the representations of Ald. Risk, who considered that nothing should be done to prejudice the interests of the committee composed from the Ontario Hydro Commission, the harbor board, and the board of control. He himself had been advised to leave the matter alone, and he said, "I know there are bigger things coming, while" He said to himself as favoring the expressed opinion as to Yonge street was going to be the big business therefor.

The annual meeting of York County Orange Lodge on Saturday afternoon in St. James' Hall was one of the largest ever held, over 300 Orangemen from all parts of the county attending. The election of officers resulted in the re-election of J. Chancellor Boylen as county master for the third term, and J. G. Wright as deputy C. M. The other officers are as follows: Chaplain, Rev. Wm. Ashdown; Western recording secretary, John McClure; financial secretary, Fullerton McClure; treasurer, Ed. Conley; D. of C. Chas. Yetman; lecturers, Messrs. Goodwin and Legrow. After considerable discussion it was decided to hold the twelfth celebration this year in Oshawa. The master, J. C. Boylen, was also unanimously appointed as delegate to the provincial grand lodge at North Bay in March, and supreme grand lodge in Winnipeg during July. At the banquet which followed addresses were given by many prominent visitors, including ex-mayor Hooker, Harry Lovelock, past grand master of Ontario west; Wm. Lee, grand secretary; A. A. Gray, past county master for Toronto; Wm. Crawford, P. C. M. for West Toronto, and Rev. Bro. Perry, P. P. G. chaplain.

HISTORY

The Famous Book That Everybody is Talking About

The World's Big War Book Offer

We have made a special advertising arrangement with The London Times which enables us to offer The Times' recently published "History of the War" to our readers at the bare cost of handling.

The great European War is the most momentous happening that has taken place since civilization began. It will be a live, every-day subject as long as any of us live; and for a thousand years men will read and write about it.

The only really great book yet written about the present war—the only book that discards vague reports and confusing rumors and sets down nothing but historical facts—the only story of the war written from the standpoint of the historian—the only book that puts down in black and white the closely-guarded secrets of cabinets and boards of strategy—The London Times' "History of the War" will be for years the standard, authoritative work on the present conflict.

You must know the real, rock-bottom facts about this tremendous conflict—why it began—what powerful, hidden forces set it in motion—exactly what happened in the early operations that sent the French and English pell-mell in retreat to Paris—what secrets of warfare were locked in the minds of the silent generals.

The Thrilling Story of the World's Greatest War

We cannot recommend this famous book too highly, and we hope every one of our readers will take advantage of this offer.

The Times' story of the war will tell you all this—and more. It gives, for the first time, hundreds of important facts about the war that have never before been in print.

The London Times ILLUSTRATED

HISTORY OF THE WAR

The London Times—"the mother of newspapers"—has been for a hundred years the foremost newspaper of Europe. Not only in accuracy of information, in completeness of news, and in first-hand knowledge, has it always been pre-eminent, but also in breadth of view, for in the most severe crisis it has held itself above the jealousies and hatreds of the moment. The book which we have secured for our readers has been prepared by the staff of The London Times, assisted by twenty-eight military, naval and diplomatic experts. The London Times stands close to cabinet ministers and ambassadors, to general staffs, and to the generals in the field. In the present war it possesses avenues of information that lead deep into the heart of the conflict.

Cost \$70,000 to Make. This wonderful story of the war—accurate to the smallest detail, and filled with unique illustrations and clear-cut maps—cost The London Times \$70,000 in editorial preparation. This gives an idea of its immense value to the reader who wants to know the inside facts. This is our first announcement of this great book. In an early issue we will give complete details of the work, and how it can be obtained by our readers. It will be a big book bargain. Watch for the full story!

TODMORDEN WANTS MORE PROTECTION

Gowan Ave. Robbery Saturday Night the Third Since New Year's.

The third robbery which has occurred in Todmorden since the New Year took place at 9.30 p.m. on Saturday at the residence of S. Turton, 77 Gowan avenue. Mr. Turton is away in the States and Mrs. Turton had left the house unguarded while she visited a neighbor. On returning she had just reached the back entrance when a strange man rushed out and took to his heels down Page avenue. He was chased by men from a store opposite but made his escape. The man had presumably been in the house a couple of minutes and only fifty cents was missing from a purse, but some drawers had been ransacked and the contents strewn on the floor.

TO SEE BOARD OF CONTROL

The legislative committee of the county council will attend a meeting of the board of control on Tuesday morning at 10, to discuss the question of city property in the county being exempt from taxation.

Companies of the Home Guard and rifle associations throughout York County have been advised by County Clerk Phillips to submit their applications for a supply of rifles and ammunition to their local municipal council, giving full particulars. The applications will then be considered by the military committee and rifles distributed after inspection.

RESIDENTS COMPLAIN

Many complaints are being made in the district of the inadequacy of police supervision, especially by the storekeepers. At present, one constable has for his beat from the Don Mills road to the Scarborough town line, which the residents claim is altogether too much territory to be covered by one man. In conversation with The World last night, M. Maynard, Jr., who owns the store at the corner of Page and Gowan avenues, and who shared the burden, said: "This kind of

"I think there should be one constable for the populated section of Todmorden alone," emphatically stated Philip Fedler of Torrens avenue. He was of the opinion that the unemployment trouble was in some measure responsible for the recent burglaries in the locality, and urged extra police protection, if only until such time as the distress situation is alleviated.

BIG REVENUE EXPECTED FROM TAX ON LETTERS

Four or Five Million Dollars Additional Anticipated From This Source Alone.

By a Staff Reporter.

OTTAWA, Feb. 14.—The war tax on cent on letters and postcards, when it comes into effect, will yield a very considerable revenue. During the last fiscal year the number of letters mailed in Canada was 672,000,000, and postcards 11,000,000, a total of 782,000,000. If this same number were mailed in the coming year, they would pay in tax some \$7,370,000. Even allowing for a substantial decrease in business and social letters, the revenue should be at least \$5,000,000.

The Outlook Brightens

The World not only hopes but believes that the business situation has appreciably improved, and that it continues to do so. There may be some setbacks in connection with the war, but the ultimate triumph of the Allies seems to be assured.

Asquith said a short time ago that he foresaw an earlier end of the war than what he was first led to believe, and he has more information than anyone else on the subject. He knows the political side; he knows the financial situation in London and Europe; he is in touch with more of the great influences that effect a settlement of the war than perhaps any other man.

The belief in the best informed circles of the City of New York is that the end of the war is in sight, and New York is a great money and banking centre and very closely in touch with European bankers and banking. Sir Thomas Stuaughnessy, who returned from New York a few days ago, is credited with saying that he believed the war would be over before June, and he must have run across the prominent opinion of New York.

As to the financial situation, it continues to improve. Our banks may not be letting out a great deal of money; their reserves may be increasing, but most of the bad or weak accounts in connection with banking and general business have been liquidated or strengthened in some form, and therefore a great deal of threatened danger has been avoided.

We are getting money for public and municipal debentures from the United States in Quebec, in Ontario and in the western provinces thru to British Columbia. This money will go into circulation at once, and American investors are prepared to buy almost any first-class Canadian security in the way of bonds. There is no doubt that money is today accumulating in various centres of the world, especially in the United States, and the best possible field for investment for this money is probably in Canada; there ought therefore to be cheap money before any great length of time, especially for bonds and perhaps for mortgage investment, and later on for general business.

The Canadian west, as far as its farming is concerned, improves in outlook. The Dominion Government will spend millions in seeing that every farmer has seed wherewith to plant, and to carry over any farmer in distress until his crop comes in. There are many reasons why there should be a large yield of wheat in the west as well as a good price for the grain, and one of these is in sight there will be a quick pick up all across the Canadian continent.

No city seems to be in better shape as a city, as a business centre, as an investment centre, than Toronto, and as a consequence there ought to be a growing activity in business from now on. Our Ontario farmers were never in better shape than they are today, and they need no great stimulant to increase their production of crops and live stock.

We have some more bad weather to encounter before the spring is well under way; we have some business shocks to sustain perhaps and some setbacks in connection with the war, but we will be very much surprised if on the whole from now on times do not grow steadily brighter and if the triumph of the allies is not the great event of the coming summer.

Divine or Parliamentary Right

Infatuated as the Kaiser is with the belief that he rules by divine right and is responsible for his actions only to God, his ally, it is not impossible to many dream of replacing our constitutional king by the representative of the elder and disgraced branch of the Stuart family. To do that requires, of course, the complete subjugation of the United Kingdom, and the Kaiser may be crazy enough to think this possible even yet. That he regards parliamentary government with aversion is undoubted, and in this he has the sympathetic backing of the Prussian aristocracy—the Junkers as they are proud to style themselves.

But the war is far more likely to result in the reform of the Prussian system of representation, which excludes the mass of the people from any share in the policy or conduct of their government.

If the Kaiser hopes to place a Bavarian prince on the British throne he will be in accord with the Jacobite societies formed to promote the cause of "legitimate" principles in the United Kingdom. These societies have been hitherto given a kind of amused toleration and their members regarded as harmless cranks. But if there is anything in this story of the Kaiser's design, they may possibly be regarded with less equanimity. How any sensible man can believe in divine right is much of a mystery, unless, like the Kaiser, he is born in the purple and finds it profitable to maintain the fiction. Our own King, with his parliamentary right and careful observance of constitutional usage, holds his throne by a better and more lasting tenure.

Catfish Pond

There does not appear to be any strong feeling either way on the question of filling up or scooping out the swamp at the southern entrance to High Park.

The commissioner of parks seems to have set his mind on cleaning it out, and there have been pictures drawn of a pleasure pond with canoes and dinghies, and swans and an islet somewhere amid the rolling waters. It does not appear, however, that there will be any greater flow of water than there is at present, which is about sufficient to float a child's toy boat. Without a current of water the pond would be a stagnant sheet, and a greater mosquito breeder than ever. If the water is given a good flow into the lake there would be none left in a short time and the filling up could easily be accomplished.

It seems to be forgotten, also, that the harbor commissioners have a plan for enclosed lagoons and rowing courses not more than a stone's throw away on the other side of the Lake Shore road. In the presence of these, with the wide, breezy fresh air expanse of the lake alongside, it is improbable that many would desire to paddle in the pond there.

Filling up the space would give a fine large field for athletic sports and games, of which there is much need, and its proximity to the shore road would be a recommendation to those who have not time to spend in going far. Before anything is done about digging out the mud hole these things should be well considered.

War Taxes

Far and away the heaviest tax imposed by the new budget is that on letters and postcards. One hundred per cent. increase on postcards and fifty per cent. on letters will certainly have a different effect to what is anticipated. The circular letter men have already protested that they can distribute by hand at \$4 a thousand, instead of the \$20 which will now be exacted under the city rate. Should the postoffice business keep up to its normal level the revenue would amount to about \$7,500,000. Last year's mail handled 678,145,000 letters, \$4,498,000 postcards and 15,600,000 registered letters, a total of 758,145,000 pieces. There has been no complaint anywhere about the tax levy, such criticism as has arisen being directed to the wisdom or unwisdom of the particular rates and articles selected. At all events these payments are only a part of the inconsiderable price we pay for our national life and our British liberty.

European Immigration After the War

Among the questions raised by the war is its influence on European immigration. Many hold that it will be followed by a great outflow from that stricken continent, but this opinion appears to be based on assumption rather than on argument. To some extent emigration may be affected by the issue of the war—a Europe dominated by Prussian militarism would certainly not provide a desirable residence for millions of liberty-loving people. But if, as the allies believe, militarism will be crushed and the nations, delivered from that nightmare, are free again to resume their normal course, it may well happen that emigration will not only decrease, but for years be brought practically to a standstill.

Should the allies win a decisive victory the lot of the persecuted peoples who have hitherto sought a refuge on the American continent will certainly be considerably alleviated. Poles, Jews, Armenians, Slavs and the other races that have in recent years com-

DISCUSS FACTORS IN WAR SITUATION

Greatest on Saturday Were Retirement of Russians and British Air Raid.

FROM SUNDAY WORLD

Lusitania, Flying Her Own Flag, Bound for New York.

Retirement of the Russian forces in East Prussia and the recent British air raid appeared Saturday as the biggest factors in the military situation. On the other hand the diplomatic field would seem to be dominated by the United States notes to Great Britain and Germany, and especially to Germany, where the newspapers and the public are insisting that the German submarine policy must be pursued.

DR. PLATON REICH TELLS OF BELGIUM

First of Series of Lectures Began Saturday at Trinity College.

EUROPE'S BATTLEFIELD

Twenty Times Have Its Inhabitants Been Forced to Rebuild Their Homes.

Trinity College lecture hall was crowded to the doors Saturday afternoon when Dr. Platon Reich, introduced by Provost Macklem, gave an address on "Belgium, Yesterday and Today." The lecture constituted the first of a series to be given for the next six Saturday afternoons.

Dr. Reich's father, until he was forced to flee to Holland with other refugees at the outbreak of the German devastations, had been a resident in Belgium for fifteen years, during which time the speaker had learned much of the ruthless war against a peaceful and progressive nation. Dr. Reich said: "Twenty times in the course of history has Belgium been the battlefield of Europe, and twenty times have its people rebuilt their beloved country, attained a position of respect among nations and lived in prosperity, and now, in reports from Liege, it is stated that to rich and poor alike is noted out per day one bun and one bowl of cabbage soup!"

The further statement that people are forced to walk eight miles to get two loaves of bread gives only a small idea of the suffering of the brave Belgians.

The soil of clay and sand, thru the energy of the inhabitants, has been made marvelously productive. The mineral treasures are great, the manufacture of lace and nets is famed. Of the agriculturists 42 per cent. are women, and wages have doubled in the last fifty years. In Antwerp Belgium has the third finest port in Europe.

Dr. Reich gave fascinating descriptions of Belgium's former struggles and her subsequent progress under Leopold I, Leopold II, and the present King Albert, who has proved himself "a man, a hero, in whom the Belgians have full confidence, and for whom and their beloved country they are daily giving their lives."

AUCTION SALE AT UNION STOCK YARDS.

For this coming Wednesday's auction sale at the horse department of the Union Stock Yards, a further consignment of imperial army horses will be offered. These horses are in excellent condition and will be cashed for the high dollar. There will also be a number of drivers and farm horses offered.

STUDENTS FAVORED WHO GO TO WAR

Medical Men in Fifth Year to Be Granted Their Degrees.

SUNDAY WORLD ITEMS

Inquiry Into Charges Against Deputy Chief Noble Was Adjourned.

Students of Toronto University in arts and medicine, registered for the session of 1914-15, who enter upon active service, are to be granted their year in full. Medical students in their fifth year will be granted their degrees if their record has been satisfactory to their faculty.

A proposal to increase the tax upon bar sales will, it is understood, be introduced at the coming sitting of the local legislature by Hon. W. J. Hanna. The adoption of the increase would materially increase the revenue of Ontario.

Allan Stucholine, Labor member from Hamilton, will not be on hand. He is confined to his bed thru illness.

Enquiry adjourned.

Enquiry into the charges against Deputy Chief Noble was commenced Saturday. No evidence was taken and adjournment was made until Feb. 22.

Estimates for 1915 have been passed by the property committee of the board of education. They total \$1,922,500.

Efficiency tests are the order at the Exhibition Military Camp. Uniforms were issued Saturday to the members of the Motor Machine Gun Battery, and Sporting events were carried off with considerable enthusiasm.

Probate is asked for the late P. G. Kimmner's will. The estate amounts to \$19,270.

The Toronto Board of Trade has sent a number of suggestions to the board of control relative to the fire department reorganization.

Jimmy Dunlop, the boy who was injured by Mollie Martin, is reported to be getting along well.

WILHELMINA CARGO NOT FOR SOLDIERS

Germany Will Give a Binding Assurance to That Effect.

Canadian Press Despatch, WASHINGTON, Feb. 13.—Count Bernstorff, the German ambassador, discussed with Secretary of State Bryan today, the case of the American steamer *Wilhelmina*, whose cargo of foodstuffs destined to civilians in Germany is held by the British authorities at Falmouth. The ambassador, reiterated, it was learned, that the attempt which he declared Great Britain made was to starve the civil population of his country by preventing the foodstuffs from entering Germany, would have to be met in retaliation by Germany's attempt to cut off commerce with the British Isles. In that connection, the ambassador reasserted on behalf of his government that binding assurance would be given by Germany that none of the food stuffs imported would be used by the army or for military purposes, and that such assurance should be accepted by the United States Government and used as considering the *Wilhelmina* case. The ambassador made it plain that until the prize court had acted in the *Wilhelmina* case, there could be no change in the attitude of his government.

The Time is at Hand The New Day Dawns

"HE THAT SAT UPON THE THRONE SAID: 'BEHOLD, I MAKE ALL THINGS NEW.'"

The Night of Sin is Passing—Morning Has Come—Awake From Nocturnal Hallucinations—Evidences That the Day is Here—Meaning of Modern Improvements, Educational Facilities and Progress in All Directions—God's Blessings Increase Discontent—Humanity About to Learn a Great Lesson Respecting Their Fallen Condition—The Result Glorious.

BUFFALO, N.Y., Feb. 14.—Pastor Russell is here today. We report his address on the text: "At the name of Jesus every knee shall bow..."

In the past we have been so intent on blotting out our own sins and schemes and trying to get the proper state of the mind...

The completion and glorification of the Church of Christ, which will be the result of the Divine plan...

Paradise Restored. Rapidly the knowledge of the glory of the Kingdom will be made out to all...

That Day Has Come. Chronologically we are entering the great seventh day, earth's thousand-year Sabbath...

Truth Discerned Aids Faith. As we readily come to realize that we are living in the dawn of the time for the long-promised blessing of the Day of earth...

Stiff-Necked and Stiff-Kneed. We may indeed rejoice in the dawn of the dawn of this New Day, we may indeed rejoice in the greater knowledge to every age...

Our blessings thus far are not drawing the thanks of the angels, but rather the thanks of the angels...

GERMANY AGAIN WARNS NEUTRALS TO KEEP OUT

Hague Legation Declares Ships Will Run Great Risks Round British Isles.

Special Cable to The Toronto World. THE HAGUE, Feb. 14.—(Via London)—The German legation has again warned neutral vessels against entering the war area around the British Isles...

"Since Germany, following the example of Great Britain, declared as the war zone on and after Feb. 18, English and Irish waters, the British have declared all the ports of England to be war ports...

"Moreover, according to a reliable source, a great number of British merchantmen have been armed in order to destroy German submarines by shells or by ramming them.

"Germany, therefore, is again obliged urgently to warn all neutral ships against entering English coast waters after Feb. 18, as from that date the German admiralty will prosecute the war with all means at its disposal...

"The annual dance and concert of the Toronto World will take place in the magnificent new seven-story building on Richmond street on Tuesday evening, Feb. 15, at 8 o'clock.

Mrs. Alfred Hayes gave a tea on Friday afternoon for her guests, Mr. and Mrs. Gray.

MILITARY SERVICE INSPIRES LOYALTY

Q. O. R. Parades at St. Paul's Church Was Impressive Sight.

FINE MUSIC HEARD Band and Organ United, Forming Accompaniment for Singing.

Probably the greatest military service in the history of Toronto was that held in St. Paul's Church yesterday afternoon when Ven. Archbishop Cody preached to 1900 members of the Queen's Own and of the men picked from this regiment to go with the Queen's Own and third contingents.

The church was decorated with many flags and trophies of the war. The music was conducted by the Q. O. R. brass band and the church organ.

At the close of service the National Anthem was sung with accompaniment of band and organ making a most impressive scene before the men departed for the front.

The route of the parade to the church was by way of Queen, Yonge and Bloor streets.

The troops returned by way of Yonge, College and University avenues.

Making Bandages. Sir William Osler Chapter L.O.D.E. will meet tonight and Tuesday at 8, in St. James Cathedral Parish House, for the purpose of making bandages.
