LIBERALS' QUEBEC STRONGHOLD Nationalist Candidate Has Majority of 200 LOST TO ANTI-NAVY PARTY

Surprising Result of the By-Election in Drummond and Arthabaska, Where Premier Laurier Lives and Was First Elected to Parliament.

WAS STRAIGHT FIGHT ON NAVAL PROGRAM

MONTREAL, Nov. 3.—(Special).—The Nationalist has taken a much hold upon French Canada than those who have lived here all their lives could have supposed, was made evident to-day by the return of the Nationalist candidate in Drummond and Arthabaska, and by the repudiation of Sir Wilfrid in his own home and county. The majority will be around 200.

A special from Victoriaville to-night says: All predictions of the vote proved wrong. In neither Drummond or Arthabaska did the government secure a majority. Drummond, that traditional home of Liberalism, made a volte face. Instead of the hoped for 500 majority for Perreault, it gave 50 for Gilbert. Arthabaska went about as expected, giving 125 for Gilbert. These figures, however, will be considerably altered when the official returns come in from the widely scattered polling districts.

English Vote Against Government.

One of the great surprises of the election was the English-speaking vote. There are about 500 English-speaking electors in the riding, and it was thought that the impassioned anti-imperialist appeals of the Nationalist would have turned these solidly to the Liberal banner, but this was not the case, and apparently the majority of them voted as they were used to, against the government.

A CHALLENGE.

The vote in the County of Arthabaska, in the Province of Quebec, yesterday against the Canadian navy, that might help in the defence of the British Empire, is a challenge to the English-speaking people of Canada that they must heed. It is one other manifestation of the Nationalist movement among the French-Canadians that means more for disunion than for unity.

The things that were said and done in the recent Eucharistic Congress, the assertion of the supremacy of church over state, the disloyal act of the administrator of the government of Canada, a French-Canadian member of the bench of the supreme court, in tendering, in his quality as such, homage to the legate of the Pope, the conduct of the speaker of the house of commons, also of Mr. Justice Anglin, the things that have been said since in Quebec that Ontario must accept the school system that Quebec determines for her, are all things that are more than significant. Most of all was the fact that a Montreal regiment of the Canadian Militia defied the orders of the department and constituted itself an armed body in rebellion, marching the streets and contrary to all the rules of discipline have been systematically blotted out of the way the English townships have been now in operation in the eastern Quebec, how a similar program is now in operation in the late autonomy bill, you will get further cause for a little serious thinking. Does anybody not know now that all the shops of the Canadian Pacific Railway have been designedly put in Montreal for the express purpose of affecting the parliamentary representation of Canada in the coming census. Mr. Bourassa will count Quebec. He stands yesterday.

Sir Wilfrid Laurier has got his life thrust in his own home.

BLOW TO GOVERNMENT REGARDED AS SERIOUS CONSERVATIVE ORGAN REJOICES IN VERDICT

Ottawa Ministers Decline to Discuss Nationalist Victory—Laurier's Prestige Broken.

Reading Asunder of Laurier's "Solid Quebec" Will Be Good. Says Gazette.

OTTAWA, Nov. 3.—(Special).—The victory of the National candidate in Drummond-Arthabaska struck consternation into the ranks of the government here to-night. The fact that not one of the cabinet ministers who are in the city could be induced to utter a word of comment is significant, and it is quite evident that the blow is regarded as of most serious character.

The opposition leader, Mr. Borden, and the chief Conservative whip, Mr. Perley, both refused to say anything on the subject.

The most rabid supporters of the government admit that this constituency was opened because Sir Wilfrid Laurier thought it was the safest seat he had in the Province of Quebec, and further, he relied upon his personal power in his native place.

Amongst the Conservatives the chief note is that Laurier's chickens are coming home to roost. In every political speech he has ever made in the Province of Quebec he has raised the cry of "Solid Quebec." He has sustained himself in power upon it, and the result is seen in the fact that, outside of Quebec, the Conservatives to-day have no office because Sir Wilfrid only holds office because of Quebec.

In general the situation at headquarters is one of dismay. Nobody expected the defeat of the government candidate. The premier is credited with having said that if he got less than a thousand majority it would be regarded as a blow to the government.

The question seemed to be only one of degree. The feeling seems to be that the moral effect of the defeat will be to show the country that Sir Wilfrid Laurier's prestige in Quebec is broken and that his government is doomed.

The premier arrived in Ottawa from Arthabaska late this evening, but refused to be interviewed.

STARVED WIFE AND CHILD James Bates of London Gets Six Months in Central.

LONDON, Ont., Nov. 3.—That James Bates, already convicted of ill-treating his wife, and also neglecting his baby, James Bates, Jr., aged 4 months, and that he died of inanition and starvation, was brought out before Coroner Dr. McLaren and a jury to-night. The verdict reached says:

"We believe from the evidence adduced that the father of the child did not provide necessary sustenance for his wife and child during the child's life, and that after we are not able to say from evidence that the death of the child was entirely due to such neglect, we are of the opinion that it must have conduced materially to produce it."

Mrs. Bates was brought from Hamilton by the crown to testify, and the father also gave evidence. He blamed his wife.

Bates was sentenced recently to six months in the Central Prison for non-support.

SYDNEY ALARMED Will Hold Meeting to Discuss Removal of Duties on Coal.

HALIFAX, Nov. 3.—(Special).—Sydney, Cape Breton, has become very much aroused over the threatened removal of duties on coal, and a public meeting will be held in the Lecture on Thursday, to consider the question. Following the request of the Century Club to Mayor Gunn. The Provincial Workmen's Association have taken the matter up, and three or four lodges have passed resolutions protesting against any interference with the present settled condition of the coal trade.

PERMANENT SECRETARIAT. (Canadian Associated Press Cable.)

LONDON, Nov. 3.—What is contemplated in the colonial office is a permanent secretariat for the dominions, whose official spokesman in the commons would be the premier. This expansion will not occur for some time.

DR. MACMURCHY DEFIANT AND DECLINES TO RESIGN ASKS JUDICIAL ENQUIRY

Sends a Printed Reply to the Board of Education by Request—Answers Criticisms of Her Attack on Inspection System.

In spite of the fact that it had been rumored widely that any further mention made of Dr. Helen MacMurphy's position as medical inspector in the public schools would result in considerable warm debate, last evening's meeting of the board of education was most peaceful. The cause was given; but none of the members seemed in any condition to take up the question with any degree of ferocity.

A printed letter from Dr. MacMurphy to the board, which was placed in the hands of each member, was not dealt with; but was sent on to the management of a copy of the report of the meeting of the board for consideration. In it she declines to resign, and calls for a judicial enquiry into the whole system. The letter reads:

"I beg respectfully to acknowledge the receipt of a copy of the report of the meeting of the board of education, passed by the board on Oct. 20, and also a copy of a resolution passed by the board at the same meeting.

"In reference to clause (a) of the report, I beg to say that my letter is a statement of fact, and therefore should not be misleading.

"The resolution states (1) That I 'tried to shake the faith of the public in the system of medical inspection in the public schools without making any suggestion for improving the system.' A statement of fact would arouse the interest of the public, but should not shake their faith in a good system.

Made Suggestions.

"The following suggestions for improving the system are to be found in my letter: (a) That the medical inspector be allowed to forward reports thru the secretary of the board. (b) That the medical inspector be allowed liberty of action.

UNION OF SOUTH AFRICA A GREAT IMPERIAL STEP

Bound to Play a Brilliant Part in History, Says Hon. Mr. Lemieux.

(Canadian Associated Press Cable.)
CAPE TOWN, Nov. 3.—At the Government House banquet Col. Jameson said that if the solution suggested for the impasse in Britain were successful, they might anticipate the first step towards union of the empire's five states. He eulogized Hon. Rodolphe Lemieux's settlement of the Asiatic difficulty in Canada.

The Australian Premier said that nothing had occurred in the world's history of greater effect than the union of South Africa. They now had five nations, willing to co-operate in common affairs, united by unseen bonds to see that justice was done to all peoples.

Hon. Rodolphe Lemieux aroused enthusiasm by an eloquent speech. He had sent a message to the people of Britain thru The London Daily Mail. In South Africa, as in Canada, England was great and generous, knowing that a brave foe makes staunch friends, granted the equality and freedom of self-government of the two one by the goodwill and mutual forbearance. Obstacles could be as successfully overcome in South Africa, which was bound to play a brilliant part in the history of the greatest empire the world has ever seen.

NEW PAPAL DELEGATE Mgr. Stagni, Archbishop of Aquila, to Succeed Sbarretti.

OTTAWA, Nov. 3.—(Special).—A cablegram received to-night announced that Mgr. Stagni has been appointed papal delegate to Canada, succeeding Mgr. Sbarretti. The new delegate is at present Archbishop of Aquila.

Mgr. Sbarretti was called to Rome during the summer, and the fact that he did not return to Canada for the summer congress, practically confirmed previous rumors that he would never come back.

ALGOQUIN PARK TIMBER SAVED FROM AX

Lumber Licenses Held by Munn Company Canceled by Ontario Government on Payment of \$290,000—Means Preservation of the Great Natural Park.

One of the most progressive steps yet taken by the department of lands, forests and mines for the conservation of the natural resources of Ontario was announced yesterday by Hon. Frank Cochrane, minister of lands, forests and mines, involving the settlement of the question that has arisen over the rights of certain licensees to cut timber within the boundaries of Algonquin Park, by a payment of \$290,000 out of the provincial treasury. The licensees are held by the Munn Lumber Co., Orilla, and include nearly every kind of timber found in that part of the province.

While no statement is forthcoming as to the fund from which the \$290,000 will be drawn, it is not unlikely that the amount will be issued to provide the amount. The negotiations have been carried on for nearly three months, and the settlement necessitated a survey of that portion of the park involved in the licenses, which was done under the personal supervision of the minister.

What the saving to the province is can only be estimated, but apart from the conservation of the natural beauty of Algonquin Park, and maintaining it as a forest reserve and game preserve, the value of the timber thus secured from despoliation is said to be in the neighborhood of one million dollars.

The following statement was given out yesterday by Hon. Frank Cochrane:

Beauty Was Threatened.

"It is well known that the destruction of the beauties and uses of the Algonquin National Park was threatened by certain timber licensees, proceeding to cut and remove varieties of timber other than pine, which their licenses gave them the right to do. As soon as the department began to act, the licensees proceeded and a settlement was requested the company to cease cutting, in order to arrive, if possible, at some arrangement whereby, without injustice to them or to the public, the park might be preserved to the people of the province for the use to which it was dedicated by act of the legislature.

"The company, known as the Munn Lumber Co., was asked to submit an offer to surrender its rights. Estimates and values of the timber were made by rangers appointed by the crown. Negotiations have proceeded and a settlement has been evolved, which, it is considered, should now be communicated to the people. The company agrees to accept \$290,000 for the complete surrender of all its rights, plus timber and everything else, over an area of 850 square miles. It also agrees to remove its mills, to take up the iron

HEBREW'S LEFT THE MEETING IN ANGER

Just Because They Were Not Allowed an Officer of Their Own—Thomas Hook Re-elected President of the Third Ward Conservative Association.

Flushed with elation over the enrollment of Dr. John Shayne among the ranks of the Conservative faithful in Centre Toronto, a large body of Jews attended the annual meeting of Third Ward Conservative Association, in St. George's Hall last night, to urge recognition by the election of one or more members of their race to office.

Falling in their purpose, they manifested their pique by stampeding for the door, under the leadership of Chas. Lewis, only to return in smaller numbers later in a somewhat crestfallen condition, to find out why there had been no dramatic intervention from the platform.

The meeting was lively, and at times exciting. E. J. W. Owens, who conducted the election, got mixed up in his procedure, while A. C. (Canada First) McConnell sprawled on the platform when rising to a point of order.

After President Thomas Hook had vacated the chair in favor of Mr. Owens, in order that the election might be proceeded with, Percy Gault said that as all the officers had given satisfaction to the association, it would be quite proper to re-elect the entire slate of officers, as usual. This attitude was met with a storm of protest, and seconded the motion.

Charles Lewis rose interposed with the suggestion that as the Jews comprised a large constituent in Centre and South Toronto, they were entitled to have one or two members of their race in office, and claimed that the Jewish members of the association had not been notified of the meeting.

"You have in men now on the executive," exclaimed Mr. McConnell, "Charles McDonald moved, in amendment, that the election of officers be proceeded with in regard to the individual offices, as usual. This amendment was lost on a division of 60 to 9, and the main motion stood by an overwhelming majority, and last year's officers were all re-elected.

Here the Jews trumped up while President Hook was thanking the members for their confidence, remarking as the last Hebrew disappeared thru the door, "The political atmosphere seems clear and free of all trouble. When the call to arms is sent out ward there will not only be prepared but anxious for the strife."

Thomas Hook Speaks Out.

Mr. Hook then proceeded to denounce the French-Canadian heartily. They had heard much about the German naval program, said he, but if that fleet ever menaced the shores of the St. Lawrence, it would not be the French-Canadians who would drive it off. For four weeks the country had been treated

MAY MEAN INTERVENTION BY THE UNITED STATES

Martial Law in Honduras as Result of Revolt of General Jose Valladares.

WASHINGTON, Nov. 3.—Martial law has been declared in Honduras, as a direct result of the revolt of General Jose Valladares, the deposed commandant of Amapala, against the government, according to cable advices to the state department to-day from Minister McCreery of Tegucigalpa. The Port of Amapala has been closed, and the island is in a state of siege.

The U.S. gunboat Princeton is in the harbor at Amapala, ready to take a hand in the revolution at the first sign of hostility towards foreigners or their interests. President Davila is preparing to send an armed force against Valladares, and in event of the government's failure to restore order on the island, the U.S. will probably be asked to interfere.

Commander Hayes telegraphed the navy department to-day as follows: "The commandant of Amapala has informed the foreign consuls that he has no intention of injuring foreign subjects or foreign property. There is no disorder at present."

Little faith is put in Valladares promises by officials of the United States Government, and the Princeton has instructions sufficiently liberal to permit her commander to meet any situation that arises.

Geniuses of the Stage.

A genius of the stage is one of the wonders of the world. For those who do not know a genius touches nothing he does not enrich. There are a few of these great artists in the world to-day. Berlin has such a magician in M. Reinhardt, and Paris, Andre Antoine; Vienna rejoices in Alfred Roller, who is probably better known in the world of grand opera than drama. New York has David Belasco, whose productions seem to outvie all others in elaboration of detail. The limit was thought to have been reached with "The Matrimony Failure," but subsequent productions such as "The Lily," "The Concert," and "Nobody's Widow," all show that the artistic limit of New York's genius has not been reached.

HAMILTON HAPPENINGS

BOARD WILL DISCUSS CARNEGIE LIBRARY

Special Meeting called for Monday Night—Principal Was Docked \$20.

HAMILTON, Nov. 3.—(Special).—The library board as its monthly meeting this afternoon was to have discussed the interior plans of the Carnegie Library, but as three of the members were absent it was decided not to consider the plans. It was, therefore, arranged to hold a special meeting at 8 o'clock on Monday night, when it is hoped there will be a full attendance. The board is of opinion that so important a matter should not be dealt with without the whole board being present. H. B. Whitton, who was appointed by the board of education as its representative on the board, in succession to Rev. Dr. Lyle, who resigned, took his seat for the first time, and was warmly welcomed. The Hamilton medical library asked to have its rent for the nine months it has occupied a portion of the library building, reduced, and also gave notice of its intention to vacate the rooms on December 1. The request was referred to the building committee.

Fingers Caught in Machine. While all work at the Canadian Westinghouse works this evening, Elmore Saam, 100 Birch-avenue, had one of his hands caught in a machine, and it was so badly mangled that it was necessary to amputate three fingers at the City Hospital.

At the meeting of the internal management committee of the board of education to-night, there was another discussion over the salary of J. B. Robinson, principal of the Caroline-street school. The subject arose through a letter which he had written to the board complaining that the secretary had "docked" him \$20 on last month's salary. He expected to get \$1400 a year, but it was explained that this amount was put in his contract by mistake, and that he had not signed the contract yet. Trustee Waddell moved that Mr. Robinson be notified that there was but one position open to him, and that was the one he occupied, at a salary of \$1200 a year. However after some discussion, this was changed to read that the offer which was made to him a short time ago of a position on the staff of the collegiate institute at \$1300, with an increase of \$100 at the end of the year, was still open to him.

Rifle for Cadet Competition. A committee was appointed to report upon the advisability of co-operating with the Hamilton Health Association in providing the teachers and equipment for a class room at the sanitarium. The application of Misses Medley, Montgomery and Burrows, public school teachers, for increases in salary, were refused. The daughters of the empire offered to present another rifle for competition among the cadets, and it will likely be accepted. The court of revision this evening heard the appeals in Wards 7 and 8, and made a total reduction of about \$13,000.

Wm. Burniston of East Flamboro, is under arrest on a charge of shooting at a had named Job. On Monday Job threw a stone at Burniston's horse.

GIVE YOUR STOMACH A NICE VACATION

Don't Do It by Starving It Either—Let a Substitute Do the Work.

The old adage, "All work and no play makes Jack a dull boy," applies just as well to the stomach, one of the most important organs of the human system, as it does to the man himself. If your stomach is worn out and rebels against being further taxed beyond its limit, the only sensible thing you can do is to give it a rest. Employ a substitute for a short time and you will not more than repay you in results.

Stuart's Dyspepsia Tablets are a willing and most efficient substitute. They themselves digest every bit of food in the stomach in just the same way that the stomach itself would, if it were well. They contain all the essential elements that the gastric juice and other digestive fluids of the stomach contain and actually act just the same and do just the same work as the natural fluids of the stomach. They relieve the stomach, just as one workman relieves another, and permit it to rest and recuperate and regain its normal health and strength. This "vacation" idea was suggested by the letter of a prominent lawyer in Chicago. Read what he says: "I was engaged in the most momentous undertaking in my life in bringing about the coalition of certain great interests that meant much to me as well as my clients. It was not the work of days, but of months; I was working night and day almost, when at a very critical time my stomach went clear back on me. The undue mental strain brought it about and hurried up what would have happened later on. "What I ate I had to literally force down and that was a source of misery as I had a sour stomach much of the time. My head ached, I was sluggish and began to lose my ambition to carry out my undertaking. It looked pretty gloomy for me and I considered my plight to one of my clients. He had been cured by Stuart's Dyspepsia Tablets and at once went down to a drug store and brought a box up to the office. "I had not taken a quarter of that box before I found that they would do all the work my stomach ever did; and as a rest or vacation was out of the question for me, I determined to give my stomach a vacation. I kept right on taking the tablets and braced up and went ahead with my work with renewed vigor, ate just as much as I ever did and carried out that undertaking to a successful issue. I feel that I have Stuart's Dyspepsia Tablets to thank for saving me the handsomest fee I ever received as well as my reputation and last, but not least, my stomach."

Stuart's Dyspepsia Tablets are for sale by all druggists at 50 cents a box.

DR. MAGMURGY DEFIANT

Continued From Page 1.

"Three other suggestions to improve the present system were made by me to the chief public school inspector, one on Sept. 28, and two on Oct. 10. These suggestions were adopted. (2) That I 'ridiculed the method.' A statement of fact is not ridicule. (3) That I made misstatements regarding the head of the department. Two statements were made regarding the chief public school inspector: (A) That he obstructed progress in medical inspection. (B) That the chief public school inspector attaches due importance to the part of the teacher and the school nurse in assisting medical inspection, and in this I entirely agree with him, as is shown by my letter, by my statements before the management committee, by my reports, papers and addresses at meetings of the British Medical Association, the Ontario Medical Association, the Academy of Medicine, Toronto, the National Education Association of the United States, and the International Congress of School Hygiene. But my letter was not written about the part of the teacher and the school nurse, but solely about whether or not I should accept the appointment of medical inspector.

Defining inspection. "Medical inspection by a duly qualified medical practitioner, not inspection by a teacher, nor inspection by a school nurse, the each of these inspections has its own place, and is a very important one. But the chief public school inspector does not seem to understand the work of the medical inspector, and if he is to be head of the department of medical inspection, and is to direct the medical inspectors appointed by your board, then it must be apparent that this fact, and his lack of medical training and knowledge, necessarily obstructs progress. Such obstruction is unusual in professional work. One profession is never subordinated to another. The board has not placed its legal adviser in a position of the chief public school inspector. "In this connection it may be well for the board to know that I received 22 names of girls from the office of the chief public school inspector from Sept. 26 to Oct. 20, and from Oct. 20 to Oct. 21 I have received no names. (b) That his attitude of mind towards medical inspection of schools may be judged by the above regulations. This has been abundantly proved by the chief inspector himself. He has defied, approved of, and commended in every way these regulations, both before the board and in the press. Which of the above is the misstatement? "Declines to Resign. "(4) That I asked to be allowed to remain on trial for three months. The words are: 'I am willing for any reasonable period, say three months, to continue to carry out faithfully and to the best of my ability the above instructions, if such is the wish of the board.' I beg to reply to your board that I know of no reason why I should resign the position to which you have appointed me, but since the board have asked me to resign, and as the words 'falsehood,' 'falseness,' and 'fiction' have been used in reference to my letter, and as it is in the public interest that the facts should be clearly ascertained, I therefore would say that I would welcome an immediate investigation before a judicial authority, to be agreed upon, and would facilitate such investigation by every means in my power. I would respectfully remind the board that the chief public school inspector, appearing before the management committee, expressed the wish for an investigation, and would assure the board that I am ready to resign at once if the result of such investigation gave me any reason to think that my resignation would be in the public interest."

LEG CRUSHED, HE DIES

Alfred Scott, a brakeman, a Victim of Accident in Don Yards.

Alfred Scott, 154 Bathurst-street, a brakeman on the Grand Trunk Railway, died in Grace Hospital last night at 10.30, after having his right leg amputated above the knee. Scott was coupling cars upon the siding behind the Davies' packing plant at 5.30 last night, when he climbed up between the engine and the tender. His leg was crushed to a pulp. He was hurried to the hospital in the police ambulance. Driver John Egan making a record run, but the man died from loss of blood and shock after the leg was taken off. Scott was 27 years of age, married, and had three children. An inquest will be held.

TRANSFER GRANTED

FORMER ALDERMAN DEAD

WINDSOR, Nov. 3.—John Sepner, a pioneer Windsor business man, and former alderman, is dead from a sudden stroke of heart failure. Mr. Sepner had lived in Windsor nearly all his life. He was 76 years old. When a boy he learned the cobblers' trade, and later started a shoe shop in Sandwich-street East, where he was in business until a few years ago, when he retired. Mrs. Sepner died several years ago, but six children survive him.

A RAP AT TORONTO

Sir Alfred Mond Warns Against Getting Views of Canada Here.

(Canadian Associated Press Cable.) LONDON, Nov. 3.—Sir Alfred Mond, in a lengthy interview in The Morning Leader, said the people of England ought not to take their views of Canada from Toronto, the headquarters of the Conservative protectionist party. Sir Alfred Mond found in the eastern part of Canada, relatively little known of the strength of the movement in the west towards free trade, and yet he was surprised at the number of free traders even in the east. He was still more surprised at the fact that the leading and most influential newspapers in the east were free trade papers. The Morning Post says it is now realized that the vociferous assertion here of a sweeping free trade agitation in Canada is a record achievement of political bunkum. The typical pillar of the glorious cause of Mond.

LEG CRUSHED, HE DIES

Alfred Scott, a Brakeman, a Victim of Accident in Don Yards.

Alfred Scott, 154 Bathurst-street, a brakeman on the Grand Trunk Railway, died in Grace Hospital last night at 10.30, after having his right leg amputated above the knee. Scott was coupling cars upon the siding behind the Davies' packing plant at 5.30 last night, when he climbed up between the engine and the tender. His leg was crushed to a pulp. He was hurried to the hospital in the police ambulance. Driver John Egan making a record run, but the man died from loss of blood and shock after the leg was taken off. Scott was 27 years of age, married, and had three children. An inquest will be held.

MR. DEWART'S COMMENT ON SHAYNE DEPARTURE

Also on Liberal Prospects Generally in the City at 7th Ward Association Meeting.

"No Jewish citizen of Toronto has ever been discriminated against because of his nationality, but I want to say that neither Mr. Robinette or myself will ever descend to 'slobber' over the Jews, as has been done by certain men in this city, whether successful or not," said H. H. Dewart, K.C., at an annual rally of the Liberal Reform Association, held at the Grand Hotel last night. The three score and odd Liberals present applauded to the echo, and continuing Mr. Dewart said, "And I say this, that men like Maydon, Garry, who abhorred over them, did not do justice to and misrepresented the better class of Jews in this city. They do not want, and they do not appreciate it, they are just as honorable and as self-respecting as any Christian citizen and they don't want that kind of thing."

Up to the time that Mr. Dewart had this speech, the meeting jogged along in happy-go-lucky style. From that time on the meeting was characterized by snap and ginger. Dr. J. H. McConnel, the newly-elected president, was in the chair, and together with Alan Thompson, who was re-elected secretary, there were on the platform T. C. Robinette, K.C., W. J. O'Reilly (secretary of the Liberal Reform Association), George Gibbard, J. E. Hay and Mr. Arlidge.

Safe Seat for Robinette.

Mr. Dewart paid his compliments to Dr. Shayne, who had just retired from the Liberal Association to join the Conservative ranks started his remarks as to the Hebriens, and declared that when a fellow was converted over, it was well to enquire into the causes which had led to his change of heart. He made a strong appeal for one seat, if not two, in the next federal election.

"JOE" THOMPSON CHOSEN BY SECOND WARD ASSN.

Unanimously Elected as President —Hon. G. E. Foster Refers to Quebec By-Election.

Joseph Thompson was elected president of the Second Ward Conservative Association in Victoria Hall last night without opposition. John Wright was nominated to oppose him, but withdrew amid great applause. Mark Irish, the retiring president, was presented with an illuminated address in appreciation of his energetic efforts while in office.

The hall was crowded and was peculiarly marked for enthusiasm and cordiality. At various stages through the balloting for officers cheering greeted the appearance of each nominee. Hon. Dr. Fyne, Hon. Jas. Duff, T. E. Whitesides, M.L.A., A. E. Kemp, W. K. McNaught, M.L.A., George E. Foster, M.P., and A. Claude Macdonell, M.P. Mr. Foster proved a stirring advocate of the protective policy in the few minutes he was on his feet. He was thunderously cheered when he announced that he was back again in politics, willing and able to do what he could for the principles of the Conservative party and the country. Regarding reciprocity dangers, he said it was no longer possible to go in in the fact couldn't be got over. But who were in favor of reciprocity? The attitude of the Conservative party was the stand that the rank and file of both parties would take. There wasn't a Liberal speaking for

KILLED BY STRAY BULLET
Duncan Dewar, Aged 40, Victim of Hunter's Rifle.

OTTAWA, Nov. 3.—A telephone message from New Glasgow, near Aganville, says Duncan Dewar, aged 40, living near there, while out hunting was accidentally shot in the head and instantly killed.

A man named Cameron, in the bush at some distance, was shooting, not knowing of the presence of the Dewar party. A stray shot, supposedly from his rifle, was the cause of Dewar's death.

JAPAN BUYS MONOPLANES.
MONTREAL, Nov. 3.—Count Ferdinand de Lesseps was in the city today en route to Japan, where he goes to conduct military aeroplane tests. Japan has ordered ten monoplanes and will also use machines of other types in extensive operations. The count declares the practical stage in airships has been reached.

In the Afternoon Court.
John Mullen, 1960 Davenport-road, was fined a dollar without costs by licensee I. eta o rddndi shrill p Jacob Cohen, J.P., in the police court yesterday afternoon for selling milk without a license. He said he wouldn't do it any more, especially as winter is coming on and the Jersey cow didn't give nearly as much milk as in summer.

"We've only got one little Jersey cow," he said, "and I don't have a spare, and we sold it to the little boy. He can't see the boy and made enquiries."

Lewis Willis, taxicab chauffeur, was fined \$20 and costs for speeding.

The following cases were settled out of court: Ernest Hatfield, doc without a muzzle, \$1 without costs; Edward James Kelly, worked a suffering horse, \$2; Alexander Proctor, the same, \$2; Michael Wallberg, obstructing the sidewalk, \$2; Charles Swires, driving horse on sidewalk, \$1; Mrs. Louise Patton, speeding motor on Dundas-street, \$20; J. W. Walsh, speeding motor on Bloor-street, \$20.

NAILS ARE INDIGESTIBLE.
MONTREAL, Nov. 3.—A man was released from the Royal Victoria hospital who had 25 board nails taken from his stomach, following a surgical operation. The man posed as a vaudeville performer, and swallowed nails as part of his stunt.

Ward Six Conservative Annual Meeting.
The annual meeting of Ward Six Liberal Conservative Association will be held to-night in Odell's Hall, Queen and Northcote-avenue, at eight o'clock.

Soccer Notes.
The Pioneer football team meet the Sunterlands at Dovercourt Park on Saturday next. Kick-off at 2:30 sharp. All Pioneer players and supporters are requested to be on hand not later than 2:15. The Pioneer team will be selected from the following players: McCorkery, Wilding, Gray, Harris, Ball, Ruddick, Standing, Campbellton, Hatton, Ball, Whiting, McLaughlin, Dawson and Laidlaw.

The Devonians play their T. & D. match with Wychwood at the Pines, Kick-off at 2:30. After the splendid performance on Monday of defeating Broadviews a good game is anticipated. All Devonians are asked to be on hand in good time.

The Baraca-Broadview game will be played at Scarborough Beach next Saturday afternoon. Only one point separates the two teams, so that each needs to stay in the running. Both teams are playing fast and clever ball and from the blow of the whistle it will be a battle royal and a fight to a finish. Manager Gilchrist is endeavoring to have the Scotts transfer middle straightened out and if successful Scott will figure on the forward line for the Baracas.

Moore Park v. Broadviews at Moore Park. Kick-off at 2:45. Players to be at club rooms at 2:15. J. Gaw, secretary.

Ward Working Boys' Race.
A large number of young boys who work in factories, stores and places of business have prevailed on Controller Ward to hold a working boys' race for all under 18 years of age, the same as last year. As the boys' races at the big Ward Marathon are limited to school pupils only, Mr. Ward has decided to give a silver cup and several of his friends other prizes, for a five-mile race for all boys under 18 years of age who work. The race will be over the same course as last year, starting at the corner of Queen-street and Gwynne-avenue. All persons entering must be employed in shops or offices. The race will take place at 3 o'clock p.m. Saturday, Nov. 13. Entries are asked to be on hand in good time.

Motor Cycle Church Parade.
A motor cycle church parade and service under the auspices of the Toronto Motor Cycle Club will be held at St. Andrew's Hall, foot of Esther-street, at 11 a.m. Sunday next, Nov. 6. The Rev. J. D. Morrow will preach a special sermon. All motor cyclists and wheelmen generally are invited to meet at Knox College at 10 a.m. In case of rain the parade will be on foot.

HARNESS HORSE NOTES.

The Exponent (2:14) looks like another 2:10 trotter for his sire, Biggen, 2:04 1/2.

Grace (2:08) is the third trotter by Peter the Great, 2:07 1/2, to trot in 2:10 this season.

The Albe (2:04) looks to be sure of getting on without being trimmed. The little black fellow gets better instead of showing any signs of going stale.

Earl J. (2:03 1/2), the gray pacing stallion in the stable of Walter Cox, has the distinction of being the fastest five-year-old pacer of this year.

About 90 new 2:10 pacers have already been reported this season. The hundred mark is likely to be reached when the returns are all in. Evelyn W. (2:03 1/2) by the Spy, is the fastest of the 2:10 pacers.

The three-year-old trotting colt, Toddlers, 2:13 1/2, by Todd, 2:14, has been picked up first money in the colt races at the fairs. Last week he added the \$500 stake at Richmond, Va., to his list.

Many horsemen believe that it is not best to campaign a trotter severely in his or her four-year-old form. Some have of that age, Directum (4), 2:05 1/2, fully at that age, is one of them. Joan (4), 2:04 1/2, a grand-slaughter of Directum, is about as high class as any trotter now performing in public races, and she is only 1 years old. She holds the race record for 4-year-old fillies and with all conditions favorable the 4-year-old trotting mile, might lower the 4-year-old trotting record, if asked to do so.

Maher's Weekly Horse Sale.

The attendance at Maher's Horse Exchange yesterday was fair, considering that this has been an off week. About 30 horses were sold, as well as a number of sets of harness, blankets, robes etc. Also a registered Irish terrier dog. A number of city work horses were sold at fair prices and several did not reach the reserve prices set on them by the owners. James Smith of Toronto, Jamaica bought a splendid type of work horse, weighing about 1500 lbs., splendid good flat bone, excellent feet and all over one of the real good kind; a dark dapple grey. Mr. Smith paid 247.50 for this one. McKay & Carr of Cobalt bought a nice bay gelding raising 3 years, a good kind of a road horse; this fellow brought \$300. Jos. Russell, M.J., bought a good heavy bay gelding for use in his brick works; this one was a splendidly put together gelding, good sound flat clean bone and extra good feet, close coupled and looked able to move his share of any load. Mr. Russell paid \$250. The management were pleased with the result of the sale.

Justice Brooke, the new champion trotting colt, is bred to George Wilks thru Baron Wilks (2:15) and Alcantara (2:23). The man is still living who a few years ago warned breeders against inbreeding sets of Wilks strains he must feel like going into seclusion. The dams of both Baron Wilks and Alcantara were by Brooks, 2:09 1/2 (a 3-year-old), inherits still another strain of the Road mare (dam of Mambrino, Patchen, 58), thru Kentucky Clay, 1:54, that got the dam of Autograph (2:14 1/2).

RAILWAY EMPLOYEES ASK MANY IMPROVEMENTS. Commissioner Reserves Decision—Trains Must be Better Equipped With Emergency Tools.

OTTAWA, Nov. 3.—(Special).—The railway commission to-day ordered that all passenger, mail, baggage and express cars of trains be equipped with proper tools for use in case of emergency. The tools, the order states, must be put in a conspicuous place and be easily accessible.

Several representatives of signal manufacturers were heard. Each spoke in favor of advantages of his particular signal for use at level crossings. The board will consider this matter and specify later the kind of signal that must be used at all level crossings.

Calvin Lawrence on behalf of the legislative committee of the Brotherhood of Locomotive Engineers, presented recommendations of that body in respect to safety and comfort of employees. He asked for an order to compel the railway companies to provide suitable accommodation for engine drivers and firemen at divisional points.

He complained that at a number of important points, including Brockville, they were compelled to sleep on benches or in the stations.

Chairman Mabey remarked that if he was able to order the companies to provide a good bed he would also be able to order that they provide a nice porters' room for breakfast.

Mr. Lawrence maintained that it was highly important that men should be given proper accommodation, and incidentally complained that the railway company was endeavoring to supply this need, charges pretty heavily for this service. Decision was reserved by the board.

Mr. Lawrence went on to request that railways be compelled to provide improved appliances, including air bell rangers, storm windows and improved snow plows. Chairman Mabey said these matters would be discussed with railway officials before any action is taken.

LIBERALS' QUEBEC STRONGHOLD LOST

country. In Canada the best way to be an imperialist is to be a good Canadian first. In this election, he said, the voice of the people had been heard for the preservation of their liberties. He charged that the battle had been won, despite corruption on the part of two governments. "You have won," he said, "because of your faith and love of your country, as your heroic forefathers did before you." (Cheers.)

French-Latin Stock Wins. But they must be just, and did not want to conquer their adversaries, so much as to fight for their common country's good. "It is not a fight against Great Britain, or the empire, but one for our own people, and our French-Latin stock has again shown itself, and I appeal to you, old Rouge, and old Bleu to join us with Nationalists in a tricolor for the safety of all corrupt government." (Cheers.)

A Cruel Blow. No government has ever received such a cruel blow as was administered to-day, and no public man ever so emphatically condemned the house of his friends as the once idol of the French-Canadian people, the Prime Minister of Canada.

The unfortunate part of the whole business is that the victory has been obtained by the basest appeals ever made to national prejudice and pride. Mr. Bourassa stated this evening that the men who voted for Mr. Gilbert were royal Britishers, and perhaps they are, but the men who went to the polls to-day to vote against the navy did so because they were honestly convinced that Laurier had betrayed his race, and had become the tool of the English.

Of course, Laurier is doomed, and, as the national feeling has been so deeply manifested to-day, it is probable that he could carry only a few provinces, except, perhaps, Quebec East. The result to-day is also the punishment of those Liberals who carried the district of Montreal in 1896 for Laurier on the anti-militarist issue.

Will Kill Laurier. This has been pounded into the people ever since, and, while it told against Conservatives for years, it now sounds the death knell of Laurier in his own province. The French electors of Drummond honestly believed that their sons were liable to be taken away and die for the defence of the empire, and as they know nothing about the empire outside of the Province of Quebec, they conscientiously voted against the government.

The appeal now being made all over the province has answered by every parish priest in the country, is a dangerous one, but it will kill Laurier politically, all the same.

Bourassa's future program is already being discussed. The Nationalist leader will certainly return to Ottawa at the next federal elections, with perhaps 25 members at his back, and may be more. He cannot support Mr. Bourassa, for both he and Moore have been quite as outspoken against the leader of the opposition as the leader of the government.

The Balance of Power. Should the English-speaking provinces go strongly Conservative, the Nationalist centre would be powerless and harmless, but, should the parties be evenly balanced, then Bourassa will be the arbiter of the house of commons and the government of Canada. He will certainly stand for a constituency at the coming federal election, and will, of course, be a man to be counted with.

It is always well to remember that out of 230,000 votes polled at the last federal elections in Quebec, 110,000 voted Conservative, and this has generally been forgotten by most people who have discussed Laurier's alleged incompetence in this province. To-day, for instance, every French Conservative voted against the government, not because they loved Bourassa, but because they hated the Laurier circle.

The feeling here in opposition circles is one of jubilation. They regret that such a campaign was resorted to, but they say Laurier profited by it away back in the 1880s, and that he was in 1886, and to-day the chickens have simply come home to roost.

Bourassa's Comment. Mr. Henri Bourassa, being seen after the news arrived from the county, said: "I want it plainly understood that the campaign which has just concluded so gloriously was by no means an anti-British campaign, for every man who voted for Mr. Gilbert was quite as loyal to Great Britain as those who voted for Laurier's candidate. The victory was won by Britishers who wanted a referendum for the navy, and this is only the beginning of the end. I am confident, right up to the end, and I am confident that the sentiment expressed so emphatically to-day in Drummond and Arthabaska is the sentiment of the whole province for the English, but I do not think it was very heavy, but I believe it went against the Laurier government."

Before the news was known, Mr. Bourassa had a scathing article in Le Devoir, evidently written under the impression that the government would win, for he said: "Whether the government wins or loses Sir Wilfrid Laurier is sinking down in the mud, and his end is not far remote."

The Entering of the Wedge. F. D. Monk, who was also seen, stated that this was only the beginning of the end; that the edge of the wedge had been entered, and would be driven home till the end had been accomplished. He was confident that Drummond and Arthabaska spoke to-day for the whole province.

Sir Wilfrid on the Scene. Sir Wilfrid came down after all, contrary to the reports of yesterday. About 9.30 Mr. Perrault, the Liberal candidate, called on him, and the premier and he walked to the polling booth, not far from the dirty little office still bearing the weather-battered sign, "Laurier, Laverge & Co." regarding the days when there was a general movement among those gathered there. A man with the voters' list stood near, and to him the premier gave his name.

"Wilfrid Laurier," the officer said, checking the name off the list. The ballot dropped and Laurier, the former member for the riding, had cast his vote. Then he and Mr. Perrault walked off together. It was in this riding that Sir Wilfrid was first returned to parliament. It was here also that he met his first, and

Some Nationalist Sentiments.

"English lords who do not want to do their duty, to pay the taxes to the colonies to make us pay those taxes. I am surprised that one of the members of the house of commons, whom you have enriched, should come to you and say: 'I am an imperialist, who want to sacrifice Canada's interests to plunge us into wars with which we have nothing to do. This is an attempt by Ontario and the provinces of the west to coerce Quebec and I am prepared to serve you.' What has England ever done for you? She has no need of your help. She is strong enough to defend herself."

"If Mr. Gilbert is elected it will mark Sir Wilfrid Laurier under a heel, that he has gone into power in the past with the whole of Quebec behind him, of whom does that we are to have a general election next year. I am prepared to serve you, I am ready to go abroad and fight when we are not consulted."

"We talk to you of Canada, our country, not of England. Canada years ago I am prepared to serve, I am ready to fight in Canada for the Canadian flag as my friends and I am prepared to go abroad and fight when we are not consulted."

"I feel I may make the remark without sacrilege that the sacrifice of duty would not have been complete had there not been a woman present to mingle her tears with those of the men who were asked to make the sacrifice. Your sons and husbands will be taken from you to serve in this navy."

Armand Laverge, Bourassa's Lieutenant. Practically his only political defeat, when in 1877, on his first being admitted to cabinet rank in the Mackenzie government, he returned for re-election and was defeated by a majority of 22. It is significant that in that campaign, 88 enemies of his own nationality. Then, as now, he was attacked as a traitor to his race, that at that time the grounds were religious, and now they are imperialist.

The constituency normally is very solidly Liberal. It was close fighting ground in confederation times, going Liberal in 1867 by 24 and Conservative in 1872 by 14.

Past Records. The history since then has been as follows: Liberal. Conservatively. 1874 778 700 1877 1,880 1,902 1878 1,981 2,143 1882 1,811 2,421 1887 (acclamation). 1891 3,150 2,197 1896 3,561 2,256 1897 3,022 1,374 1900 (acclamation). 1904 3,758 1,277

From 1887 onwards the record as to Liberal majorities has been: 1887 Joseph Laverge accl. 1881 Joseph Laverge 962 1886 Joseph Laverge 1,208 1891 Louis Laverge accl. 1890 Louis Laverge accl. 1904 Louis Laverge 2,576 1908 Louis Laverge 834

In 1904 it will be noted that only one Conservative candidate obtained a vote. In 1908 the vote polled was 674, of which Mr. Laverge obtained 3754, and his opponent 2920. It will be seen that the constituency has been in the Liberal family for 23 years of Canada.

He represented it for ten years and became a judge in 1897; his brother Louis succeeded him; and Armand Laverge, Mr. Bourassa's friend and supporter, for both he and Moore have been quite as outspoken against the leader of the opposition as the leader of the government.

Liberals Worked Hard. The Toronto Star's staff correspondent, a few days ago wrote: "It is said that the Liberals are not neglecting anything to assure the return of Perrault. The Star was told that there was one Liberal canvasser to every twenty-five voters in the riding. This is probably an exaggeration, but the Liberals are bound not to be caught napping, and are working hard."

The two candidates were thus contrasted: "Perrault is an example of the best type of French-Canadian, a stout, dark-skinned, big, carefree fellow of thirty-five or so, carefully dressed, well groomed, speaking cultured French and fluent English, the latter, of course, with a strong accent, and a keen and sagacious eye, all over the platform at once, the very opposite of the Nationalist, who is a thin, pale, nervous young fellow in his way, a prosperous young farmer in his riding, a fine fellow, the political bee came to roost in his bonnet. He is the typical farmer in appearance, splendidly developed, wide of shoulder and arm, broad-chested, plugging up a little speech conscientiously out of a little notebook beforehand, shodded, clean, fair-skinned and ruddy haired."

MURDEROUS ASSAULTS. Neighbors Broke in Door and Found Musgrave in Pool of Blood. FORT WILLIAM, Nov. 3.—(Special). The victim of the apparently murderous assault at the hands of a couple of supposedly unknown men within ten days, R. J. Musgrave, a prominent farmer of O'Connor Township, 14 miles northwest of here, is in a critical condition at his home. When two neighbors, who had been engaged to harvest a crop of potatoes for him, called at his home this morning, they were compelled to break in the door. Musgrave was lying on his back, and was unable to move. Regarding consciousness for a few minutes about noon, Musgrave told of being struck down by a club in the yard. Two men attacked him ten days ago, but help arrived before he was seriously injured. Robbery was not the object, as a considerable sum of money was in the victim's pockets untouched. He had no enemies, so far as is known.

Should Organize. Mr. Foster chastised the Liberal-Conservative party for being lax in its organization. It was quite impossible in detail all that happens in parliament and when the session is over the members should be called to their constituencies to meet and talk to the people. Since the Dominion House last met, there had not been 20 meetings. Since the Dominion House last met, there should have been meetings in every riding in the Dominion thrice over.

OUR MOTTO—"Every needy consumptive must be cared for."

Paying Our Debts

Try as one will one cannot get away from the fact that one owes a duty to the other fellow, and more especially if, as Whittier has said, the other fellow is the "weaker one." If his weakness is consumption he is the weakest of them all, for here is a disease that is carrying off more people every year than some half-dozen other contagious diseases. AND IT MIGHT ALL BE PREVENTED. The

Muskoka Free Hospital for Consumptives

Is putting up a good fight to make conditions different. Much is being done. Two hundred and fifty needy patients are being cared for to-day in the two free hospitals at Muskoka and Weston; 5,000 have been cared for since the work started in Muskoka. But in doing the work the Trustees are adding every month to the heavy overdraught at the bank. They want to further extend the accommodation, but the present obligations are somewhat appalling—reaching over \$80,000. Let us each one think of the other fellow. Make his case ours, and five hundred patients may be cared for during the year now opening.

This is not preaching. It's a little bit of human kindness.

TRADES COUNCIL PROTEST TO AID G.T.R. STRIKERS

Warm Discussion Before Motion Was Adopted—Delegate is Chosen to Go to St. Louis.

Fulminations against the Grand Trunk Railway because it is alleged that they are not living up to the agreement on which they took back their striking trainmen, and objections on account of the poverty of the union, to send a delegate to the coming American Federation of Labor convention to be held in St. Louis this month, were heard at the meeting of the Trades and Labor Council last night. A vote on sending a delegate was carried, 89 for and 18 against. J. H. Kennedy will go.

There was some objection taken to joining with other unions and protesting against the way the Grand Trunk was said to be acting.

"They did not ask for any help when they were on strike and they fought for themselves. I don't see why we should but in now," said Secretary Sanderson.

"We know that the G. T. R. is the cheapest and most unthankful corporation to work for that is on the continent," declared Delegate Alkins. "They evade every obligation to their employees that they can, whether they do it honorably or otherwise. We ought to protest against the way the G.T.R. is using its employees."

Joe Gibbons thought the council should take the part of the men, who had been "gulled into accepting an agreement which was not carried out afterwards."

London Heard From. A communication from the London Trades and Labor Council said: "We have knowledge of many acts of persecution against the men who have been reinstated, which were evidently intended to terminate their employment. The council sent a resolution which had passed, reading: 'That the London Trades and Labor Council do appeal to the Dominion Government thru the minister of labor to see that the G. T. R. carry out the agreement which the men made thru the government, to the spirit and letter; that the government do notify the railway that the continual acts of persecution of employees by local officials must be discontinued forthwith.'"

Is This the Secret? Delegate Gibbons was of the opinion that when the leaders of the strikers had been called to Ottawa, threats that they would pass a resolution which would cause them to give in.

The G. T. R. had been fed at the trough for years and years. If they

do not play fair by the citizens of the country, it is time that they went out of business," he said. The motion to protest was then put to the vote and was carried.

Delegate Roberds did not think that a representative should be sent to the A. F. of L. convention. "In Toronto the labor movement has not advanced as it should have advanced," he said. "There is work to be done that will require funds. There is work to be done and we should use our money for the advancement of the cause in Toronto."

Delegate Barnes declared that there was money coming in if the members were paying their dues.

Delegate Alkins thought that the resources of the union should be husbanded in order to secure legislation for the betterment of the workingman. The expenses of the trip were estimated at \$150. After it was decided to send a delegate, they voted to allow him \$175.

There were only two nominations, E. Alkins was nominated, also, but withdrew because he had opposed sending a delegate.

Bill Posters in Peril. The Billposters' Union No. 46, wanted the council to help them to prevent being wiped out of existence by the passage of A. D. Phelan's motion to abolish city bill boards. It developed that the local war in had standing, not having paid dues since January. The matter was referred to the organization committee.

The propaganda to keep the Russian conspirator, Federnako, from being extradited to Russia, will be supported by the local unions. Federnako conspired against the Czar of Russia, but escaped to Winnipeg, where he succeeded and joined a union. He was arrested and a fund is being raised to prevent his extradition. Delegate Hoop of Winnipeg is traveling around the country lecturing and raising money. He will lecture in Toronto Sunday next.

Chancellor McKay of McMaster University was to have addressed the country lecturing and raising money. He will lecture in Toronto Sunday next.

Seven new delegates took the oath of office. German Aviation Contest. The German ministry of war has decided to award a \$25,000 prize for an overland aviation competition, the details of which have not as yet been announced.

THREE MEET FAWFUL DEATH FALL 83-FT. INSIDE TANK

Scaffolding Collapsed and Men Tumbled to Destruction—One Other Had a Narrow Escape.

THE DEAD. JAMES McVEY, 420 East George-st., Toronto. ROBERT McGREGOR, boarding at Weston. ELZA MEHTA, known as Louis Smith, 18 Eastern-avenue, Toronto.

The loss of a copper—and two men went to work, one of them to the half-dozen men engaged in the construction of the big 83-foot iron water tank at Weston, there was a feeling of uneasiness yesterday morning, a presentiment of approaching evil. And so it was that two of them, McGregor and Fay, decided to toss a copper—heads go to work, tails go down to the city for the day—in the hope that Fate would guide them aright.

The two men, with McVey and the Macedonian went to the top of the tower. One of the huge pieces of metal was in place ready for bolting, and there is only one more plate to go on. Inside the tank, which is 20 feet in diameter, at the top, was the scaffolding erected of new lumber during the morning. A plank six inches wide and two inches thick extended over the platform about three feet. The section being put in place, did not join properly at once, and the three men inside had been pulling together on one end of the scaffold. This strain caused the entire structure to give way, and the men fell about 80 feet, down among girders and scaffolding supports to the bottom of the tank, among the debris of the scaffolding.

Terribly injured, they were alive when their fellows brought them to the open thru the narrow porthole at the base, but all were dead when Dr. Charlton, Bull and Keys arrived. They were stretched out on the last curved plate that was to have been placed in position during the afternoon and covered with a sheet, until removed to James Gardhouse's, undertaking rooms.

Miracle Saved One. Almost a miracle saved the life of John R. Fay, who, with McGregor, had gone to work reluctantly. He was perched on a ladder outside the tank, working on the plate that was being bolted, having only a moment before been inside on the scaffold. He had shovelled a couple of bolts thru and McGregor and the Macedonian were darning on the nuts when he heard the crash. Had it not been for these last bolts, it is probable the plate, too, would have fallen, and he with it.

The tragedy occurred about 11:30. An inquest was opened by Coroner Charlton and adjourned until Wednesday at 7:30 in the town hall. The men were employees of the Toronto Iron Works. McVey, the foreman, formerly lived in Buffalo, where interment takes place. He leaves a wife and family. His skull was fractured, and his arms and one leg broken.

McGregor was 32 years old, and was only recently out from Liverpool, Eng., where he leaves a wife and three children. His skull was fractured and his back, arm and leg broken.

Elza Mehta leaves a family in Macedonia. He was about 30 years old. His head was battered to a pulp and his legs and arms broken.

The water tower, or stand pipe stands 90 feet high at the top of the last tier, which was just being completed and is to hold 158,000 gallons of water. It is situated on the southwestern part of the Rowntree farm, Weston, the highest point in the town. The pipe is made of sheet iron. The scaffolding was ruled by the workmen themselves from tier to tier.

Saw Them Fall. One workman, who, it is said, had refused to go aloft because of his feeling of unseen danger, said "I was speaking to the foreman, McVey, a few seconds before the accident. I turned around for a second, and then I heard a crack, as if something had given way. I looked up and saw the three throw up their hands and then disappear. As they went down I thought I heard a cry, but it was all so suddenly that nothing remains clear in my brain. It all seems like a dream, hazy and indistinct."

McGregor and Fay were old-time companions, and they had been in a series of accidents. They met about six years ago on freight boat Bell-schock, which they were wrecked off Montevideo, South America. The second serious accident was when these two men were wrecked off the coast of Spain four years ago. The fruit freighter Evantria. The third accident was the wreck of the White Star liner Republic about 18 months ago.

GRAHAM ON RAILWAY POLICY OF GOVERNMENT

Hints at G. T. R. Ottawa-Toronto Service, Via Brockville—Takes a Fling at Hydro Power.

BROCKVILLE, Nov. 3.—(Special.)—Hon. G. P. Graham, the minister of railways and canals, was in the home of his friends to-night, when he spoke to the Young Liberals' Club. The minister traversed a wide range of political subjects, dealing with the Grand Trunk Pacific, the Hudson Bay Railway, the Georgian Bay Canal scheme, the enlargement of the Canadian Navy, the deepening of the harbors, etc.

"All these projects," he argued, were necessary to keep pace with the rapid development of Canada, and the large expenditures which they entailed he stoutly defended. He dealt minutely with his railway policy, and intimated that at his present rate of construction the Canadian Northern would class with the C.P.R. and the G.T.P. in becoming a transcontinental line.

Mr. Graham took credit for helping his constituency in the Brockville, Westport and Northwestern Railway, and he threw out the hint that in the distant future the Grand Trunk would have direct communication of its own between Ottawa and Toronto thru Brockville. He spoke in the strain of a man having some inside information without imparting details.

As to the Hudson Bay Railway, he stated that at the coming session arrangements would be made for laying rails from the Pas Missis to a port on the bay. He was very enthusiastic of the possibilities of this line, if for nothing more than for colonization purposes, and the opening up of good farming territory.

He handled the coming reciprocity negotiations with the United States tenderly, saying enough, however, to give his audience to understand that from Mr. Fielding, to whom he gave a fairly good bill of health, was ready to discuss the subject with Washington in a few days. The Canadian people could depend, said Mr. Graham, that just as good returns would be exacted for concessions granted, and the revision of the tariff would be in the interests of the Canadian people.

A Fling at the Hydro. He also took a fling at the Ontario hydro-electric commission, saying the commission never made a genuine offer of cheap power to Eastern Ontario. This section of the country, if the minister is sincere, would be given redress and an opportunity of competing with western Ontario by the powers that be at Ottawa, as he is at present working out a plan by which eastern Ontario will get all the power it needs for manufacturing purposes at a small cost.

He was thought he referred to another projected phase of the Long Sault development scheme. Mr. Graham did not conclude without making a reference to the G.T.R. strike. He said he was blamed for taking a pleasure trip thru western Canada while trouble was on at home. He assured his railway friends that his sympathies were with them, that he worked quietly, pleading their cause with Mr. Hays, and since returning had moved heaven and earth to see that the strikers got their old jobs. He took a good deal of credit for having accomplished much in this regard.

KING PLOWING MATCH. The annual match of the King Plowmen's Association, which will be held at Richmond Hill this afternoon, on the farm of Mr. Thompson, on the outskirts of the village, bids fair to be one of the best in the history of the society. It is expected that between 50 and 60 plowmen will take part, and Secretary Saigeon stated on Wednesday that \$500 had been raised toward the prize list. The ground is said to be the very best and everything points to a record attendance.

SONGS OF AULD SCOTIA HEARD IN MASSEY HALL

Sons of Scotland Concert Provided Highly Enjoyable Entertainment.

John Tamson's bairns filled Massey Hall last night to overflowing on the occasion of the annual concert of the Sons of Scotland, the 16th in succession. F. S. Mearns was chairman, and ranking the bagpipes next to the Bible as a national influence, he called on this agent of musical stimulus without delay.

The program was of generous length and every item was endorsed, and sometimes the response received the same attention, so there was no complaint from even the keenest in the audience, and the performers must have excelled in the enthusiastic appreciation which attended them.

The songs were all classical favorites, and Miss Jessie MacLachlan repeated her frequent triumphs in "Angus Macdonald," "My Ain Folk," "March, March, Ettrick and Teviotdale," "Comin' Thru the Rye," "The Hundred Pipers" and some Gaelic airs, which she sang in accordance with her resolve never to omit from her programs some songs in her mother tongue.

L. Cockburn, fresh from Britain, appeared for the first time and sang in powerful voice and with fine expression and taste "The March of the Cameron Men," "Scots Wha Hae," "Cam Ye By Athol" and other songs. "The Standard on the Braes of Mar," "Leezie Lindsay" and several others, eliciting cordial approval. Harry Bunter contributed several Harry Lauder items in his clearest manner, and he concluded the house with his costume in "I'm to be married to-day."

Flora Melvior Craig aroused the old Jacobite feeling by her rendering of "Cam Ye By Athol" and other songs. Piper George Murray played several solos and accompanied the attractive and excellent dancing of Annie Ross, May Nesbit, Margery Munro and Hatley Gordon, and Robert Buchanan was the accompanist. It was the general opinion at the close that the concert was the most successful ever given by the society.

Could Not Walk Ten Yards Without Resting WEAK HEART WAS THE CAUSE

Mrs. Robinson Collette, Rogersville, N.B., writes: "I am now enjoying the best of health after having used your Milburn's Heart and Nerve Pills. I was troubled with a weak heart, and was afraid to draw a long breath for the pain it would cause me. I could not sleep at night, and it was impossible for me to walk ten yards without resting myself. I cannot speak highly of your Heart and Nerve Pills, for they are the greatest pill I have ever used, and I can recommend them to all sufferers."

Thousands of people go about their daily work on the verge of death and yet do not know it. Little attention is paid to the slight weakness of the heart for the simple reason that one thinks it will right itself, but there is where the mistake is made. It is only when a violent shock comes that the weakness of the heart becomes apparent.

On the first sign of any weakness of the heart or nerves, filling energy or physical breakdown, the use of Milburn's Heart and Nerve Pills will soon produce a quick and permanent cure.

BOARD OF TRADE FLATLY OPPOSED TO RECIPROACITY

"Inopportune and Undesirable," is Declaration of Council, Given in Resolution of Protest.

At a meeting of the council of the board of trade, the following resolution was adopted: "Whereas the prosperity of our farmers and the development of commercial and industrial resources were never so great as at the present time, and whereas the change in the tariff on imports from the United States would injure our established industries and adversely affect the inflow of United States capital now largely finding its way into Canada thru the transfer of American industries, established here with a view to securing a portion of the trade in this country, and whereas the board of trade of Toronto believes it undesirable that Canada should become entangled in tariff arrangements with the United States, which might create new and uncertain conditions and embarrass or destroy our established industries, and whereas Canada has already expended enormous sums on railways and canals and is now expending large sums in building of transcontinental railways for the purpose of more closely uniting distant portions of our vast Dominion, and developing a great and self-reliant nation, and whereas this board of trade believes that reciprocity would adversely influence our national system of transportation by directing trade southward to the United States, and believes that reciprocity would not only disturb the channels of trade by transferring to the United States merchants the exportation of a considerable portion of our natural and manufactured products, but would also withdraw ocean shipping from our Canadian ports, and to a degree, destroy direct communication with the rest of the British Empire, and further, this board holds with unqualified approval Sir Wilfrid Laurier's pledge that nothing will be done to injure or prevent a policy of mutual preferential tariffs with Great Britain, and resolved, that in the opinion of the Board of Trade of Toronto, reciprocity with the United States under present conditions would be inopportune and undesirable."

GREAT PEACE CELEBRATION

Canadian and American Veterans to Meet in Winnipeg in 1912.

WINNIPEG, Nov. 3.—(Special.)—To celebrate one hundred years of peace between Canada and the United States, a monster demonstration of veterans will be held here in 1912, to which will be invited old soldiers from all America. The celebration will also commemorate the British victories during the war of 1812. Next year the local veterans' association will invite all veterans from western Canada and the northern states to a demonstration to be held here during July, and it is expected several thousand old warriors will be in attendance.

A BIG DOCKET.

WELAND, Nov. 3.—(Special.)—Justice Clute, presiding at the high court here this week, has the heaviest docket in the history of the county. The heirs of Levi Well, who was killed in the M.C.R. yards here, were awarded \$200, Melvin Brooks, who was struck by a journal from a passing M.C.R. train, was awarded \$150. Belthazar Koch, a Buffalo machinist, brought action against the Imperial Amusement Co. of Crystal Beach. Last June, his daughter was killed on the scenic railway, and the plea was set up that the cars were improperly guarded. The jury made an award of \$500.

Busy Business Men's Service.

It is a well-known fact that you can enjoy a comfortable night's rest and be fresh for business next day when you travel between Toronto and Montreal over the "only double-track line," viz., the Grand Trunk. The 10:30 p.m. train from either end of the line lands you in Montreal or Toronto for breakfast. There are four trains daily in each direction, and if you have time, take advantage of riding on "Canada's fastest and best train, the International Limited," which makes the day run along the St. Lawrence and Lake Ontario in seven and a half hours. The equipment and service is "up-to-date"—all ways in the land.

City Ticket Agent Horning, at northwest corner King and Yonge-streets (phone Main 4299), will do the rest.

BOTH LAURIER MEN

A. E. Kemp Tells Ward One Tories Election Doesn't Interest Him.

The Ward One Conservative Association held a meeting last evening in Oddfellows' Hall, Broadview-avenue, to complete their annual elections, which were partly decided by acclamation last week. President R. H. Gror occupied the chair, and short speeches were made by Hon. J. S. Duff, Hon. A. R. Pyne, T. M. Whiteside, M.L.A., and A. E. Kemp, ex-M.P.

Strong approval of the protectionist policy was voiced, and reference was made to the Arthabaska-Drummond election. Mr. Kemp declaring that he would not cross the room to learn the result in that constituency, as both candidates were equally Laurier men. The elections resulted in A. H. Gilmour being chosen secretary and J. Bell Tyler of the association. The question of an executive committee to represent the sub-divisions of the ward was discussed. The auditor's report was presented, and showed a balance of \$102.01, and a membership of 533, at the end of the year just closed.

SHOES BY THE BILLION.

Scores of New England Towns Making Footwear for the World.

There are more than a hundred cities and towns in New England where shoes and collars are made. Since the close of the Civil War these have manufactured and shipped no fewer than 4,000,000 pairs of shoes, of which three-fourths have gone thru what advanced New England calls "that wonderful nerve centre of our leather and footwear industry, Boston."

Boston may well pride itself on being the world's leading shoe and leather mart, for it is to-day the headquarters of 350 shoe manufacturing concerns, 260 leather companies and firms, 107 dealers in shoe manufacturers' goods, 65 shoe manufacturers' agents, 52 glazed kid concerns, 60 hide and skin dealers and brokers, 16 shoe machinery makers and dealers, and nearly 300 miscellaneous concerns.

While comparatively small quantities of either leather or shoes are manufactured in Boston itself, it is the great buying, selling, distributing and financial centre of the industry and has been such for many years. The statistics of the industry for Massachusetts alone are stupendous. In 1908, according to the report of the director of the Massachusetts Bureau of Statistics, the total capital invested in the manufacture of boots and shoes, cut stock and findings, was about \$42,000,000, and the total value of the product for that year was approximately \$170,000,000. Lynn, the great centre for the manufacture of women's footwear, claims an annual product of \$50,000,000, counting the collateral industries, whose

name is legion. Brockton leads the way in the manufacture of men's shoes and has 135 factories in which footwear and accessories are produced. Last year it shipped 500,000 cases, or 20,000,000 pairs valued at \$53,000,000, an increase of \$12,000,000 for the year. Its 13,000 workers receive \$9,000,000 in wages annually. Brockton also possesses the largest hat factory in existence, doing a business of about \$1,000,000 annually.

Haverhill, the world's leading slipper city, has been dabbling in leather and its products since 1643—this is no infant industry in New England—and to-day it has 100 factories producing 20,000,000 pairs of slippers and low cut shoes a year, of a value of \$30,000,000. Nothing decadent about this.

Haverhill, Lynn, Peabody (the great leather tanning town), Salem, Beverly, Danvers, Marblehead and Newburyport, all having some connection with chamois, are located in a Massachusetts county—Essex—which produces one-seventh of all the shoes and leather made in the United States.

There are a good many other things about the New England shoe business that the New England public does not realize. How many, for example, know that they are making shoes out of Panama hats in Lynn or that one of the big concerns in that city on a cable order from England had a large quantity of mourning shoes made up from an instantly created style and readiness for shipment to England in connection with the obsequies of King Edward VII. within a week?

One of the most marvelous developments of the shoe industry has been the perfection of the almost human machinery that now performs more than a hundred of the operations required in fashioning the modern shoe. This represents another New England triumph, for most of the wonderful machinery is made right here in Massachusetts and practically all of it has been invented by clever New Englanders.

Because he intervened to prevent the Italian called "The Black Hand," Frank Notta, police court interpreter, declares that he fears that harm will be done him by the disappointed agitators.

MRS. THORNLEY IS NOW PRESIDENT OF W.C.T.U.

Mrs. McKee of Barrie, Who Retires After Ten Years' Service, Becomes Honorary President.

OWEN SOUND, Nov. 2.—(Special.)—At this morning's session of the W.C.T.U. Convention, Mrs. S. G. E. McKee of Barrie, president for ten years, indicated her intention of retiring, and Mrs. H. M. Dettler, North Bay, was elected honorary president.

Mrs. Newton, Salford, in an interesting paper on medal contests, said that the Ontario contest had been regarded as being of the highest standing by the world's convention in Glasgow.

Mrs. A. McLeod, Owen Sound, in her report on work among sailors stated that the union were doing good work among the 40,000 sailors of Canada's rapidly growing merchant marine.

Miss Agnes Sproule of Port William, who for 20 years has labored among the lumbermen of that part of Ontario, reported that she traveled by water, by rail, and on foot a distance of 100 miles, delivering many addresses in various towns and camps.

At the evening Rev. Dr. Abraham addressed a large gathering on various phases of the local option question.

TECHNICAL SCHOOL SITE STAY WHERE IT IS

Board of Education Frown Down Dr. Ogden's Suggestion to Leave College Street.

"I am sorry that Dr. Ogden is so serious in this matter," remarked Trustee C. A. B. Brown when Dr. Ogden, at last night's meeting of the board of education, once more presented his motion, which was shelved some time ago by the board, in connection with abandoning the present site for the new technical school on College-street.

The plans have all been before the government, and we are all ready to go ahead with the work. Any delay will be a great menace to the success of this institution. It was only to-day that we appeared before the board of control, asking that body to hand over the deed of the technical school site, in order that the new building might be proceeded with," said Mr. Brown.

Dr. Ogden's chief complaint was that in a few years' time the location of the school would be satisfactory to the present expanding condition to the west and north of the city. He proposed that Toronto was to be a great city, and an educational centre, and that the seventh ward would be a "hive of industry" in the very near future.

Trustee Rawlinson accused Dr. Ogden of being inconsistent, inasmuch as he had only three years ago favored the present site, and had voted against all the others that were suggested.

Trustee Rawlinson then took back the detailed statements he had made; but in a general manner stated that the doctor was very foolish and of a very changeable mind.

Altho Trustee Dineen seconded Dr. Ogden's motion, he was of the opinion that unless the mover could suggest a better location than the College-street site, it was the best that could be procured.

WINNING, Nov. 3.—(Special.)—William Mackenzie, president of the C.N.R., has given \$10,000 to the local Y.M.C.A.

THE TALK OF THE DAY

Apparently every new invention brings with it some evil. The British Medical Journal points out that among distinctively modern diseases are the poisoning produced by the fumes of calcium chloride electrolysis; the headache, dyspepsia, cardiac failure and sensory disturbances traceable to the manufacture and use of aniline dyes; the frothing of the blood, known as calcium disease, which follows the rapid decomposition of workers in the conditions of bridges; the functional neurosis known as telegrapher's cramp, resulting from the use of the Morse key; the numerous affections of the skin, lungs, digestive tract and eyes due to irradiation of industrial origin.

And You, Mr. Husband

How do you feel when breakfast is late, and then only half cooked? You feel sore all day, don't you? It's aggravating to have a cook get up late and have the coal range balk. The cook, to hurry matters, throws on a bit of wood. That don't hurry the fire any, but it fills the house full of smoke, which don't improve your temper. Let us suggest that right now, this very day, you order a gas range. Have your cooking done by gas, and your breakfast will never be late—neither will any of your other meals, for gas is always ready, it's clean and it's cheap. Add to this, you won't have to look for a new cook every week.

York County and Suburbs

WEST TORONTO, Nov. 3.—(Special.)—A fire broke out in the Foley Theatre early this morning and did considerable damage. Police Constable Bundy turned in the alarm, which was responded to by three fire stations, Lansdowne, Dundas and Keele-streets. After an hour's hard work the flames were brought under control, but not till after \$300 damage had been done. The fire was confined to the stage, altho the whole length of the theatre was badly smoked up. All the scenery was burned up and the piano was taken off the piano. One of the actor's wardrobes was also burned.

LATEST MOVE CANADIAN PACIFIC RAILWAY.

The Canadian Pacific Railway continues its policy of improving its train service between Toronto, Montreal and Ottawa. Commencing next Monday, the 7th inst., the train from the attractive North Toronto Station, Yonge-street, will arrive at 4:30 p.m. and depart at 10 p.m. daily, except Sunday—the wait to enable passengers who arrive at depot in good time to get to bed before departure of train—a feature which will be greatly appreciated by the traveling public.

He Bore It Grinning.

Capt. Kendall, the capturer of Crippen, was talking in the smoking room of the Montrose about the horrors of seasickness. "Some men bear it well," he said, "I took a Liverpool to Canada last month, and the poor fellow did have a time! Sick from the first day to the last. "But he bore it well, and when we reached Father Point he said to me: 'Captain, I think I'll go straight back with you.' "Why?" said I. "I thought you were going to make an extensive tour of the 'No.' I think I'll go back now," he said, gulping as a nasty swell lifted our bow. I see by your rate card that

bulls, 1180 lbs., at \$4.25; 1 butcher bull, 1100 lbs., at \$4.00; 1 butcher bull, 1050 lbs., at \$3.75; 1 butcher bull, 1000 lbs., at \$3.50; 1 butcher bull, 950 lbs., at \$3.25; 1 butcher bull, 900 lbs., at \$3.00; 1 butcher bull, 850 lbs., at \$2.75; 1 butcher bull, 800 lbs., at \$2.50; 1 butcher bull, 750 lbs., at \$2.25; 1 butcher bull, 700 lbs., at \$2.00; 1 butcher bull, 650 lbs., at \$1.75; 1 butcher bull, 600 lbs., at \$1.50; 1 butcher bull, 550 lbs., at \$1.25; 1 butcher bull, 500 lbs., at \$1.00; 1 butcher bull, 450 lbs., at \$0.75; 1 butcher bull, 400 lbs., at \$0.50; 1 butcher bull, 350 lbs., at \$0.25; 1 butcher bull, 300 lbs., at \$0.00.

REALLY COSTS SOMETHING TO ENTER HOUSE OF LORDS

There Are Heavy Fees to Be Paid by Recipients of Titles in Great Britain.

Altho titles cannot be bought in Great Britain in the open market, as they are in many continental countries by merely paying so much gold "over the counter," new members of the peerage are not permitted to enter the House of Lords for nothing, says M. A. F. They have to pay pretty heavily for their peerage in stamps duties, Crown office fees, and a certain amount of money to offer him an address that the mystery came out.

A GOOD WORD FOR WOMEN.

"Our men and women in the main are broad-minded and take a large interest in state and local affairs," declares Governor Brady of Colorado. "There is no doubt in my mind that the mere fact that women are permitted to vote in national elections will have a tremendous effect for good in the selection of party candidates and in the passage of needed laws. Not only is the woman vote always cast on the right side in contests where moral issues are at stake, but the fact that they are permitted to vote enables them to bring influence to bear on men in other ways. It has been pointed out that women vote in national elections with their husbands and fathers, and that they are apt to be swayed by prejudice in local elections, but there has never been a time in my experience when I have found the woman advocating any measure which would not bear the light of day."

Mr. Reed says: "About twelve or fifteen years ago I was bothered with stomach trouble. I consulted physicians without number, and had concluded that there was no help for me, when I happened to think of a cure that I had heard of in Texas. So I went to a new house and got a little pall of sand.

Out-Door Life
—DURING—
November

IF Canadians would spend as much time as possible out-of-doors during the present month, they would prove November to be one of the most healthful and invigorating months of the year.

The first thing to do is to provide yourself with warm clothing—the kind that will keep out the chill, and yet look smart. Old country people best appreciate the kind of clothes needed for this out-door life, and that is one reason that English and Scotch Tweeds are so admirably adapted for it.

The men's Fancy Ulsters that we're selling tomorrow are all made of this sterling stuff; fifteen, sixteen and eighteen dollars were the prices marked on these Ulsters before size and color range was shattered. If we still have your size in the pattern you want, we will offer it to you to-morrow at \$9.95.

A Good Worsted Suit for \$15.00

Men's English Fancy Worsted Suits, new brown and olive tones; the latest three-button single-breasted sack; carefully tailored and finished with best quality linings and trimmings; sizes 36 to 42. Price \$15.00.

The Kind of Clothes Boys Need Now

Boys' Heavy English Tweed College Ulsters, in a handsome dark grey herringbone weave, single-breasted style, with convertible collar, splendidly tailored; sizes 26 to 28, \$8.50; sizes 29 to 32, \$9.00; sizes 33 to 35, \$10.00.

Boys' English Tweed Two-piece Suits, in a handsome dark mixed grey, double-breasted style, best quality linings; sizes 27 to 32, \$6.50.

Men's Winter Comfort at Very Low Prices

We have just secured another lot of overmakes and samples from the manufacturers of the well-known "St. George Brand" Underwear; Scotch wool, natural wool, and elastic ribbed shirts and drawers, and good assortment to choose from.

2000 garments Men's Underwear, shirts or drawers, perfect in every way, to be cleared Saturday at about half the regular price; all sizes in the lot. Regular values would be \$1.00, \$1.25 and \$1.50. Special purchase price Saturday, 79c.

500 Suits of Men's Good Quality Flannelette Pyjamas, heavy winter weight, frogs and pearl buttons, military collar. Special price Saturday, \$1.49.

Men's Wool Sweater Coats, heavy winter weight, no collar, fronts and cuffs piped with different color; a good, serviceable coat for winter wear; easily worth \$2.50. Saturday, \$2.00.

Saturday Sale of Men's Hats
(Old Wanless Building)

600 Men's Stiff Hats, correct fall 1910 styles, and fine English fur felt, mostly black, a few colors, in brown and fawn. Regular \$2.00. Saturday, \$1.00.

Men's Soft Hats, in newest American and English shapes, colors fawn, brown, slate, grey and black, and fine grades fur felt. Specially priced at \$1.00, \$1.50 and \$2.00.

The SIMPSON Company Limited

Boots Strong Enough

For the foot of time; boots built to withstand rough weather and hard wear. Another Saturday boot sale for men, women and children that will insure foot comfort, as well as economy for thousands of families during the coming winter.
