### EXPRESS RATES UNDER REVIEW

#### Railway Commission Hears Expert Testimony in Montreal—Three Questions Considered.

MONTREAL, Jan. 5.—(Special.)—The railway commission sat here today for the purpose of hearing expert testimony on the question of express rates.

There were three main questions considered: First, the fixing of rates so that there should be a profit to the company. Second, the fixing of rates so as to get business in the face of short lines and water competition, and, third, the fact that whenever the express companies build up any good line of business the railways get after it and take away the business.

### ALEXANDER ROSE GIVEN A LIFE SENTENCE

#### Jail-Breaker Caught in West Virginia Goes to Kingston on Two Charges of Wounding With Intent.

Alexander Rose, the daring criminal and jail breaker, was yesterday sentenced to life imprisonment by Judge Winchester.

He received sentence in aazed manner and sank into the dock as the judge uttered the dread committal. Except for the sound of the judge's voice addressing the prisoner a deathlike silence pervaded the court room, and at the conclusion of the severe sentence all eyes were directed towards Rose, who almost immediately went off into a faint.

It was about twenty minutes after four o'clock on the afternoon of a jury in another case, when Rose was led into the dock by Constables Stewart and Brown. There the hat with bowed head to await his sentence. County Crown Attorney Drayton then addressed his honor, asking that judgment be passed upon the prisoner on the two charges of wounding with intent, on which he had pleaded guilty. The crimes for which he will have to pay the penalty were assaults on May 1 on Ethel Skitch in Wellwood's store and on Allan G. Duncan in a store at the corner of John and Adelaide streets. The third charge, that of breaking jail, Mr. Drayton did not press.

#### Judge's Interrogation.

"Rose, have you anything to say for yourself?" said the judge as the prisoner rose to his feet.

Mr. Curry, in appealing for mercy, addressed his honor, in which he drew attention to the fact that the prisoner had been subject to epileptic fits. "Your honor," he said, "I fear that anything I may say can avail little either as an excuse or reason why a clemency which in your honor's power should be exercised on behalf of the unfortunate young man, Alexander Rose. It is very hard to see a young man in such an unfortunate position. Mr. Curry realized his responsibility of having the prisoner plead guilty to the charges when he believed that the prisoner had no appreciation of their serious nature. He also realized his responsibility in waiving the plea of insanity, but upon careful enquiry he was prevented from entering such a plea, altho he had evidence to show that Rose suffered from epileptic fits, and also fits of uncontrollable emotion. He believed there was a great deal of responsibility in Rose's character and he would make up, but he knew that to raise the insanity plea, he would have to prove beyond the shadow of a doubt that the prisoner did not know what he was doing when he committed the crimes.

#### Conna's Patriotic Plea.

Mr. Curry appealed thru the court to take all the circumstances into consideration. He said drew attention to the fact that the motive for Rose committing such crimes did not appear to be with a purpose to satisfy himself, as was evident from the manner in which he had assisted his health among others.

#### The Life Sentence.

"Alexander Rose," said Judge Winchester, "you have pleaded guilty to two serious crimes, and if allowed to pursue them will inevitably lead to murder. You have started out evidently on a life of crime, and in dealing with your case I have considered all the pleas entered by you and your members of your family, and other people in your own as well as the interest of the community, and in ten years to come realize the gravity of your position. I sentence you to be confined in Kingston Penitentiary for the rest of your natural life."

#### Rose's Emotion.

Rose, on hearing sentence, collapsed, and his father, who was sitting on his right outside the box, leaned over to assist him. Besides the father, there were two brothers in the court room, and they appeared to take the sentence almost as hard as Rose himself. About 20 minutes later Detectives Tipton and Wallace took the prisoner away from the court house. At the time Rose was sentenced the court room was packed.

#### VICTIM OF MONEY SHARK

OTTAWA, Jan. 5.—(Special.)—The suicide of Hillman, draughtsman, who shot himself on Saturday, it is said was due to the fact that he had been unfortunate enough to get into the hands of a money shark.

Having borrowed money at usurious rate of interest, he was unable to pay and all his effects were seized, leaving his family in a condition of want.

#### Took the Veil.

At St. Joseph's Convent yesterday morning four young ladies took the initial step into the Sisterhood of St. Joseph. The parents and friends of the young ladies were in attendance, as well as many of the clergy, and the pupils of the school. Those who took the veil were:

Miss Mary Miller, Toronto, name in religion, Sister Mary Immaculate.  
Miss Lydia Mitchell, Toronto, Sister Mary Juliana.  
Miss Stella Brasseur, LaSalle, Que., Sister Mary Stella.  
Miss Vida Eagan, Tottenham, Sister Mary Vida.

In addition, one sister took her first vows, and four their final profession. The ceremony was performed by his Grace Archbishop McEvay, the sermon being preached by Rev. Dr. Teefe, C.S.B.

Three of the young ladies are graduates of St. Joseph's Convent and the Toronto Normal School.

Miss Eagan is a cousin of Rev. Wm. Egan, who was ordained to the priesthood two weeks ago.

#### Two Centuries to Learn Daring Feat.

Those who attended the Harry Lauder concert were amazed at the remarkably daring yet graceful exhibition of contortionist skill of Miss Koyoshi of the Japanese troupe.

Miss Koyoshi is the last daughter of the famous Yamamoto family of Japanese acrobats, who had been the glory of the Japanese stage for many centuries before America was thought of. Her mighty performance, as given on her present tour is thrilling enough to add to the glory of her family. Balancing on a slaty piece of 12 wooden blocks about the size of bricks, mounted on an elevation of larger blocks, she stands first on her feet, turns her body backward, transfers her weight to her hands, and swings back again while the slender pile of blocks trembles with her weight. It is a trick which she has learned in two centuries, and makes them breathless with suspense until it is over.

"I took exactly two centuries to learn to do that trick," smiled the little acrobat. "Oh, yes, I know I don't look that old, but you see, I began when someone else left off. I began

the very day I was born. When I was a wee mite of a baby my father began to train me. Every day and every day, not missing once, I had to do something to make me strong and ready for this work. My father taught me as his father taught him and his father and grandfather taught."

K. Yamamoto, sitting on the edge of a very American trunk, was pleased with the appreciation of his ability as a teacher.

"My teacher is not an acrobat," he explained in halting English. "We are not acrobats, we are artists. You must understand that she trained for that trick alone. No acrobats learn tricks. We learn the art. In America and England you have acrobats. In Japan we are having artists. I do not have to teach my girl one thing like this she does in this show. She must know more than that. A Japanese artist is taught how to dance, taught music and art and dramatics. They must know how to act plays as well as do what you say—stunts. They must know history to give the plays of the country, politeness, dressing and grace. Koyoshi baby have to learn music, so I have to begin right away as soon as she come."

A Japanese baby, destined for the stage begins young," said Miss Koyoshi. "At three and four it is as strong and fearless as it ever will be. Trained up like a foot ball, it is balanced on a juggler's feet, much as they toss a ball—perhaps you've seen an act like that. Then it makes a pretty top to a pyramid of human actors. You've seen a Japanese baby with a troupe smile and kiss its hand—and it always makes a what-you-call 'hit'."

### In Society.

Mrs. J. A. Brett, formerly Miss I. Dodds, was the hostess, who received her many lady friends at her post-nuptial reception at 81 St. Joseph-street Monday evening. Mrs. Brett was most ably assisted by her sister, Miss Dodds, in welcoming the guests, of whom there were about fifty present to pay their respects to the bride-hostess. The luncheon and supper parlors were decorated with a pleasing color-scheme of green and red. The candle-labra were festooned with gaily crepe poppies and wedding bells. Mrs. Brett, who is a soprano vocalist of merit, entertained her guests with songs in the course of the afternoon. Mrs. D. W. Ross poured the tea, aided by two most attractive attendants, Miss Ina Jackson and Miss Mabel Snell, both prettily garbed in pale blue. Mrs. Brett appeared to advantage in a rich gown of white brocaded silk trimmed with chiffon and pearls, while Miss Dodds wore a blue and white contrast in pink silk furnished by Mexican opals.

Mrs. Charles Levy, Devon-street, will not receive until the first Thursday and Wednesday of February, not January as reported yesterday.

Mr. Waldron Left Italy. A letter has just been received at Bandmaster John Waldron's house, 263 Carlton-street, dated from Venice, and from which it would appear he had just left southern Italy previous to the earthquake. He further stated he hoped to reach Toronto about January 12th.

#### Heard Her Death Sentence.

To obtain temporary relief when suffering is a great boon, but to be permanently cured and restored to health after being assured that one has not a year to live, is an experience that cannot fail to bring joy to any heart. This is what Mrs. A. E. Tornan of Norwich, Ont., says PSYCHINE accomplished in her case.

Writing on Aug. 11, 1928, she says: "It is ten years since I took PSYCHINE, and I have not taken ten dollars' worth of medicine since, I should not have lived out the year had it not been for PSYCHINE. I am now in excellent health." Can any testimony be stronger than that?

If you are feeling worn out and run down, try PSYCHINE. You will be surprised at the result. PSYCHINE thoroughly builds up the system, and imparts new life and vigor.

The greatest of tonics, PSYCHINE, restores the throat, lungs, heart, stomach, digestive and blood-making organs to perform their proper functions. The only specific known that will cure chronic weakness, catarrh and decline, sold at all druggists and stores, 50c and \$1. Send for a free sample to Dr. T. A. Stocum, Limited, 32 Spadina-avenue, Toronto.

### Public Amusements

The artistry of David Belasco is again abundantly evidenced in "The Warrens of Virginia," which begins an engagement at the Royal Alexandra Theatre beginning Monday, Jan. 11. In the first act setting, which is that of a section of a hotly contested battlefield, Belasco, it has been said, has excelled even himself for impressive actuality and has provided a picture of the carnage of strife such as even Gribayedoff never put on canvas.

The interest excited by the announcement of a return engagement here of the comic opera triumph, "The Gay Musician," indicates that a capacity house will greet Manager John P. Stocum's company at the Princess Theatre to begin a week's engagement on Monday evening, Jan. 11. The charming music of Julian Edwards, the clean and refined book and lyrics, the superb cast of principals and the powerful central chorus render the performance the musical feast of the season. Mr. Edwards will himself conduct the production Monday evening.

Andrew Mack, the greatest of Irish singing comedians, will appear for the first time in his new play, "Sergeant Devill McCare," by Cecil De Mille, at the Grand next week. This play is different from any others in which Mr. Mack has been seen, and its story is intensely interesting through. The play is laid in Western Canada, dealing with military service in those parts. Mr. Mack will play the role of Sergeant Devill McCare, the only Irish character in the play, all others being Canadian. The time of the action is the present. Mr. Mack will render a number of new Irish songs, among them, "O, You Glen" and a beautiful waltz, "Somewhere."

Barney Gilmore, the popular actor, will appear at the Majestic Theatre next week in a noteworthy revival of his greatest success, "Kidnapped in New York." The story of this play deals with the abduction and holding for ransom of the baby daughter of a wealthy New York broker by members of the well-known band of terrorists known as the Black Hand.

Next week's show at the Gayety will be given by the Lid Lifters Burlesquers. The enterprising management has spent several thousands of dollars in scenery and costumes alone. The full strength of the company will be presented in two new and lively burlesques.

Miner's Americans are hitting the road, and the next week at the Gayety to-night the necktie shower will take place. Next week the Thoroughbreds will have for an extra attraction Monday night a finish wrestling match between Harry Gatenby and Tom Williams for a purse of \$100, now up with one of the local newspapers.

Owen A. Smily will introduce another of his pupils in recital at another of his pupils in recital at the association Hall Jan. 14, when Miss Clara Prathis, assisted by Donald McGregor, Ada Davis, the Oxburn Mandolin Club and the Y.M.C.A. orchestra

will give an evening of dramatic and humorous readings. Miss Prathis has been specializing as a dramatic reader and there will be one or two numbers on her program that have never been rendered in public.

The Toronto Conservatory School of Expression has issued invitations for a recital of an arrangement of St. Macnaughten's popular novel, "The Fortune of Christina McNab," on Saturday evening, Jan. 9, in the Conservatory Music Hall. Invitations may be secured at the office of the Conservatory of Music.

The Lauder performances take place at 2.30 and 8 to-day and to-morrow. The world-famous Scotch comedian is now completing his whirlwind tour, which has proved the greatest popular success of any tour ever undertaken, either musically or dramatically. Twice a day in every city visited the largest auditoriums have been crowded with laughing and delighted audiences held under the spell of this wondrous little Scotchman, the Napoleon of public performers. The excellence of his company is such that the audiences agree that the program is easily the most enjoyable. While the sale of seats has been very large there are still locations available for all four concerts. Mr. Lauder will be welcomed by the mayor at the city hall at 12.30 p.m.

He Ran Away. PEKIN, Jan. 6.—After his dismissal Yuan Shi Kai fled to Tien Tsin. He later reconsidered his flight and because of reassurances he returned to the capital. His fate is still problematical.

CANADA'S POLITICAL AWAKENING.

Those who trust the people and have their best interests at heart cannot but rejoice at the overwhelming majorities recorded on Monday for public-owned Niagara power.

The Conservative party of Ontario is entitled to no little credit in bringing this about. The motion upon which this development is based was put thru the legislature without hardly any discussion.

The first lesson to be learned from Monday's vote is that the hydro-electric power policy must be speedy and thoroly put into effect, and, that, to bring this about, the government should be ready to pass all needed legislation and especially to enable municipalities to recover their franchise and to connect them up with the state-owned Niagara power.

2. There must be a readjustment within each party based upon this power question. It is perhaps the most important issue of state policy and the most far-reaching in its consequences ever submitted to British statesmanship.

3. People who, have been secretly knitting the power policy, no matter who they are, no matter how high their position, should be done or made to take out a license and wear a badge.

And this recalls The Spectator and The Times and the Cataract Power Company. The Cataract Power Company was beaten out of its boots in Hamilton. The people have declared for cheap light for the small home, cheap power for the small factory and cheap street lighting for all.

As the Conservatives cut a poor figure in Hamilton, so the Liberals fell into a bad hole at Brantford. Brantford was almost the only black spot on the map. There has long been an organized but secret opposition in that city to public ownership and it has manipulated the Liberal organization.

But more remains than to instal Niagara power in the cities and towns ready and eager to receive it. The Whitney-Beck policy means more than that. Niagara power must be distributed to the farmers, thus making life more livable, making the farm more profitable, and guaranteeing the farmer light, heat and power, the cheapest and the best.

The Globe says that Monday was "a great day—for local option." Was it not a great day for public power? Greater, even!

partisan politics to be found anywhere on the face of the earth. The issues which are dealt with by these papers are not broadly taken and discussed, but peanut politics are dished up daily to their readers, and it is supposed that the masses are directing and leading public opinion.

In the Police Court. The following penalties were imposed in police court yesterday: Albert Donnelly, theft of coat, committed for trial; Peter Somerville and James Carroll, assault J. P. Sam, \$10 and costs; Thomas Foley, theft of clothes, 15 months in Central.

Invited to Germany. LONDON, Jan. 5.—The German-Canadian Economic Association, a body of influential Germans formed for the promotion of better trade relations between Germany and Canada, invited Mr. Fielding to visit Berlin as their guest and accept a public banquet. He has been obliged to decline.

Writs Issued. The grand judge of the A. O. U. W. has issued a writ against Robert Rodgers for alleged slander, in a statement reflecting on the standing of the order. George T. Mariatt seeks to recover \$3000 damages from the Robert Elder Carriage Works.

Guilty on One Count. Wesley Benson of Newmarket was yesterday tried before Judge Winchester on two charges, one of stealing from R. C. Harman a robe and the lines of some harness, and the other of receiving stolen goods. The articles had been found in Benson's stable. This was the second trial, but the jury disagreed. The new jury sworn yesterday found him not guilty of the theft charge, but guilty of the second. Accused was allowed out on bail to appear for sentence at the end of the session.

BIG STRIKE ON OTTISE RICH ORE AT 30 FEET

Men in Main Shaft Open Up Body of Shipping Ore, Which is Being Bagged.

The mining sensation of the week at Otisse is the rich strike that has been made on the main shaft of the Otisse Mine at Silver Lake.

On the Clinton, they have found a body of ore ranging in width from six to eleven inches, the ore bodies being about one-half inch thick.

Getting Good Results. "R. C. Longley is in charge of the shaft of some 35 men and is getting splendid results."

When the machinery is installed and in good running order I believe that it will be possible to produce a carload of high-grade silver ore every month.

Mr. Otisse expressed himself as delighted with the development of all the working mines in the Montreal River district and in speaking of the honanza discovery on the Otisse he was positively enthusiastic.

Day's Doings in YORK COUNTY

DOCTORS HOLD POST-MORTEM AT AGINCOURT

Body of Late Mrs. Blythe Terribly Bruised—West Toronto Police Court.

AGINCOURT, Jan. 5.—(Special).—Dr. Silverthorne and Dr. Chutterwick of Toronto conducted the post-mortem examination of the body of the murdered woman, Mrs. Blythe, at the Blythe house this forenoon. Dr. Slisley of East Toronto, who has been retained by the defence, and Coroner Dr. Courts were present during the whole of the examination which was very thorough, lasting for three and a half hours.

The conclusion arrived at is said to have been that Mrs. Blythe's death was due to shock consequent upon the terrible injuries inflicted by her husband, a C.P.R. sectionman, on Sunday night.

Body Terribly Bruised.—The condition of the dead woman's body is said to show terrible injuries, resulting from the beating, the legs being greatly discolored and bruised. The wounds were, however, for the most part in the lower parts of the body.

Interest in the awful tragedy grows apace, and when the inquest opens on Friday morning there will be more applicants for admission than the limited accommodation of the largest hall at the village can reasonably be expected to furnish.

Shielded Her Husband.—Bit by bit evidence is coming out which serves to show the brutal nature of the prisoner, now safely lodged behind the bars of the county jail, when the deceased appeared with her face marked, she gave fictitious reasons assigning them to one cause or another. On one occasion, when the landlord questioned her concerning a black eye she attributed it to a fall from an apple tree. In the light of recent developments, the truth of the statement is disproved.

Interment at Agincourt.—Following the post-mortem the body of the late Mrs. Blythe was this afternoon interred in the Knox Church Presbyterian cemetery, the service being performed at the house and graveside by Rev. Mr. Fenning, rector of Grace Church, Markham Village. No public service was held in the church, the local board of health for Scarborough Township having closed Knox Church among others, owing to the smallpox epidemic in the neighborhood.

The services were simple and were attended by quite a number of the neighbors and villagers. Pending some definite disposal of the two children they are being looked after by Mr. Walker, an adjoining neighbor.

Depends Upon Findings.—Discussing the possible line of defence, T. N. Phelan, counsel for the accused, briefly stated this morning that the line of defence adopted would depend largely upon the findings of the doctors and the facts which might be brought out at the inquest.

WEST TORONTO. Officer Recounts Story of Escape of Prisoner.—AGINCOURT, Jan. 5.—Such a commotion gathering as assembled in the police court this morning was never before witnessed in West Toronto. There were Poles, Austrians, Russians and Jews and the confusion of tongues was so much in evidence that it required four or five interpreters to disentangle them. The case in point dealt with the theft of furs, etc., from H. N. Morrison's store on Christmas Eve.

Last Friday a raid was made on the house at 76 Victoria-street and the missing goods were found. John Kraciek, who committed the burglary, managed to escape. Peter Karmitski of 16 Maud-street, Toronto, who was accused of receiving the stolen goods, was remanded till further evidence is taken.

P. C. Hess of the West Toronto Police Force was the first witness called. He said: "On New Year's Day P. C. Hughes and myself went with city Detectives Guthrie, Twigg and McKinney to 77 Victoria-street to search the house for the stolen goods. In the kitchen, when we entered in Toronto, Borenstein, John Kraciek and one or two women. The detective told me to watch the two men, as he believed from the description that one of them was the man they wanted. Mr. McKinney and his associates then proceeded to search the house. One of the women left the kitchen and came into the hallway, and I stepped out after her to see if she had any goods concealed. Hardly had I done so when the door was slammed to from the inside and bolted. Detective McKinney then appeared and we threw ourselves on the door, bursting it open. The window was open and Kraciek had disappeared.

When Borenstein, who was charged with obstructing the police, took the stand, he swore that he did not interfere with the door. He had merely come to Kraciek's house to get a pair of pants for his little boy. "It was Mrs. Kraciek," said he, "who did it. She bolted the door after Hess had stepped out of the room." Mrs. Kraciek was not present in court. Borenstein was fined \$20 without costs or three months in jail. He will pay the fine this morning's World a typographical error gave the impression that it was a Toronto policeman who allowed Kraciek to escape therefrom, was a member of the West Toronto Police Force.

The municipal elections yesterday created not a little excitement throughout the township, and a large vote was polled. The members of the council for 1909 will be: Reeve, J. Gardner (acclamation); councillors, Wm. Davidson, D. Pendergast, Robert Gardhouse and Thomas Webster.

THORNHILL. THORNHILL, Jan. 5.—(Special).—Pending the report of the specialists engaged to analyze the water secured at the 1200 foot depth on the Page Farm, about a mile and a half west of here, drilling operations are suspended. The water when submitted to local tests, as holding has a strong iron and falling gas it is not improbable that a salt well may eventually be developed. The company having the matter in charge have shown commendable enterprise in the prosecution of the work. The shaft is at present plugged up to restrain the flow of water.

WYCHWOOD. Hillcrest School Was Scene of a Delightful Concert Last Night. The scholars of St. Michael's and All Angels' Sunday School held their annual tea and entertainment last night in the Hillcrest Public School. There was a crowded attendance of the parents and friends of the children. The proceedings opened with a speech from the rector, Rev. J. W. Brain. The choir, by special request, sang Christmas carols very effectively. The program consisted of recitations, dialogues, songs and musical drills.

A specially pleasing feature of the entertainment was a "Doll Song," with action accompaniment, given by the juveniles, which the audience appreciated heartily. Songs by the Jacobs children, entitled "Three Little Soldiers," recitation, "My Santa Claus," by Mary D'Esch, also deserve special mention. There was a distribution of prizes for attendance and presents were given to the juveniles from the Christmas tree.

NEVEE WM. KEITH Of Newmarket, Elected by Acclamation. HOW CHICAGO GUARDS MILK. Provisions of Law Which Has Just Become Effective. From The Chicago Tribune. The new milk law—Health Commissioner Evans' bill to the babies of Chicago—the new effort officially recently. Active measures to see that dealers comply with the stringent provisions of the ordinance will be begun by the health department once the ordinance is put into effect.

EARLS COURT. Ratepayers Have Petitioned Inspector Fotheringham to Investigate Charge. EARLS COURT, Jan. 5.—An investigation will be held in Dufferin-street school on Saturday morning at 10 o'clock by Inspector Fotheringham re the recent election of school trustees. The inspector has been petitioned by 176 ratepayers to hold this investigation and the reasons stated were: "That the vote was taken by ballot, contrary to the School Act. That several ratepayers were refused the privilege of voting after the chairman refused their right to vote." Another charge is that several non-ratepayers voted, that separate school supporters voted, and the meeting was closed before the necessary ten minutes elapsed to demand a poll.

HOLLAND LANDING. Funeral of One of Early Pioneers Took Place Yesterday. HOLLAND LANDING, Jan. 5.—(Special).—The funeral of the late James Nesbitt, one of the oldest and most respected residents in North York, took place in the village cemetery here to-day. There was a large attendance of old time friends and acquaintances from all parts of the country.

ETOBICOKE TOWNSHIP. Es-Deputy Reeve Turns Tables on Reeve Gardhouse. MIMICO, Jan. 5.—(Special).—Complete returns from all parts of the township show the election of Russell Warner by a majority of 47 over Reeve John Gardhouse. Mr. Warner has had previous experience in municipal life, having been for some years deputy-revee. When J. D. Evans, one of the best municipal legislators who ever sat in the York County Council voluntarily retired last year, Russell Warner essayed the task of winning the reeve-ship. He was opposed by John Gardhouse, the well known farmer and stock breeder, who won with a keen contest by a vote of 603 to 485 for Warner and 225 for John Bryans. Monday's vote was Warner 536, Gardhouse 499.

VAUGHAN TOWNSHIP. Deputy Moves to First Place and John T. Saigeon Enters Council. While the resignation of Reeve Issach Devins, and the return of D. C. Longhouse by acclamation deprived the municipal election on Monday of some of its interest, the fight for councillors has not been keener in years. For first deputy J. A. Cameron and for the council J. S. McNair, Wm. Thomas and John T. Saigeon were elected. The last named is new to municipal life, but one of the best known and popular men in the township, and will make an ideal councillor.

TORONTO GORE COUNCIL. TORONTO GORE, Jan. 5.—(Special). The council for 1909 will be: Reeve, Wm. H. Grubbe first deputy and Mark Gardhouse, W. J. Kay and J. Dandridge councillors.

SHARE OF PROSPERITY DEMANDED FOR WORKERS

Textile Employes Ask for Wage Increase, Shorter Hours and No Blacklist.

MONTREAL, Jan. 5.—(Special).—The rise on the textile stocks has caused the operatives to look for more pay, a demand being made to-day on the Dominion Textile Company by the officials of the Canadian Federation of Textile Workers for the elimination of the ten per cent cut in wages which was enforced by the company last May.

The workers also want the hours of labor changed from 60 to 55 and they demand the abolition of the "blacklist," which they claim is a boycotting device.

L. A. Girard, secretary-treasurer of the Canadian Federation of Textile Workers, stated that the matter had been under consideration for some time. Meetings had been held at McGill, St. Henri and Hochelaga during the past week and the workers were unanimously of the opinion that the old rate of wages should be restored.

He said the cotton mills were at present running their fullest capacity. In fact, the scheduling that St. Henri was working overtime. He was strongly in favor of a 55-hour week. He said women and children should not be forced to commence work before 7 o'clock. The factory hands at present, he said, commence their labors at 6 a.m. Mr. Girard said that the "blacklist" was inhuman.

The officials of the Dominion Textile Co., when seen, said they had received a request for the restoration of the old schedule of wages, but the present state of trade would not warrant any long shut-downs in the United States, and as far as they could understand, the employees were satisfied to leave well enough alone. The company simply could not raise the wages at present, but when trade conditions improved the matter would be considered.

HINDOO RIOTERS AFLAME BRITISH TROOPS FIRE

Racial Religious Troubles Break Out Between Mohammedans and Hindoos.

That the outbreaks in India over religious sacrificial observances have serious possibilities is unquestioned, for the rioters are particularly zealous in their beliefs. The recent Indian mutiny of 1857-8 was immediately caused by the introduction into the Sepoy army of a new rifle, whose use required the touching of grease in handling the cartridges. This caused the religious prejudices of the Sepoys.

CALCUTTA, Jan. 5.—The religious riots between Mohammedans and Hindus, have taken a more serious turn again, requiring the intervention of British troops to-day at Titagarh, who fired on the Hindu mob. The Hindus had resumed the attack on the mosque at Titagarh because the Mohammedans had sacrificed cows.

The Hindus destroyed the sacred furniture in the mosque and panted demolished the walls. Inflamed Mohammedans gathered to the defence of the mosque and were subsequently surrounded by a military cordon, which formed a barrier between the Mohammedans and the Hindu rioters, who assaulted the military in an endeavor to come to close quarters with the Mohammedans.

The troops fired on the zealots, killing and wounding a number of them. Isolated combats between Hindus and Mohammedans are taking place throughout the disturbed districts. Mohammedans are making their way to Titagarh to revenge the Hindu insults to their faith.

Deal With Turkey. BERLIN, Jan. 5.—The British government, it is learned, has reached an understanding with the Turkish Government whereby the Sultan as head of the Mohammedan faith shall use the influence of the priesthood in India to support the British rule there in return for active British diplomatic support in the Turkish controversy with European powers.

Law Reporting in the Bible. Luke's Account of Paul's Trial Computed by Professor Burdick. Prof. Francis M. Burdick of the Columbia Law School delivered an address on Morningside Heights on "St. Luke as a Law Reporter," says The New York Post.

After analyzing the apostle's account of the trial of Paul, and pointing out the care and accuracy with which he narrated the legal steps involved, Prof. Burdick said: "Professor Ramsay has declared that the author of this is entitled to a place among the historians of the first rank. I submit that a careful study of his account of the great trial of St. Paul will convince any one that he is entitled to equal praise as a law reporter."

He did not know of any historian who has excelled in his narrative an account of a judicial trial so satisfactory to a lawyer as is this by St. Luke; one in which the various stages are accurately followed, and in which matters of procedure as well as of substantive law are presented with certainty of him who spoke from personal knowledge. It is equally remarkable, I think, that the sacred writer preserves perfect coolness throughout his recital of the trial of Paul. Paul's addresses is much fuller than that of the prosecutors, he indulges in no tirades against them, nor does he show any more than a faint glimmer of resentment and the itching palm of Felix. The tone of the entire narrative is that of serene confidence in the ultimate victory of the cause impersonated by Paul.

COLD WEATHER IN SIGHT Soft Spell Has Been Due to Direction of Winds, Says Observatory Man.

"We have not had the normal condition of wind," said R. F. Stupart, the director of the Observatory last night, in answer to The World's query as to why the last few weeks have been so mild. "We generally have northwest winds, but we have been having more south winds than usual. The weather has not been phenomenal; it is only 1.1 degrees warmer than the average for the last 29 years."

The records show that the Canadian winters are not getting milder as has been said. The records go back to 1830. The mildest ten-year period was in the 30's and the coldest ten-year spell was in the 80's. In the west now the weather is about 20 degrees below the average. Within a very short time Toronto will have very weather. To-night it will be extremely cold and windy. The reason the cold weather did not arrive as soon as was expected is that a heavy rain and wind storm was developing over Virginia and Carolina on the coast. It held back the cold about 12 hours.

Discovery of Uranium. Uranium, a rare metallic substance, of the so-called bequerel rays, of which Madame Curie was experimenting when she discovered radium, has been found in quantity on the property of the Green Mountain Mining and Milling Company near Tyson, Idaho, east of Spokane. Rock containing the values was encountered in tunnel No. 3 more than a year and a half ago, but as it showed only traces of copper and gold and no evidence of other metals, it was thrown on the dump, where it remained until a few days ago, when a veteran prospector from the Black Hills recognized its value. Assays made in Spokane show the rock carries 3.7-10 per cent uranium and is worth \$130 a ton in its present state. The ore was found on a four-foot ledge, running 12 feet south of a parallel to the gold-bearing vein, which has been under development several years. It occurs in two forms. One is a dark green glossy ore, light in weight. The other being pitch-blende, black and heavy. John A. Johnson, Jr., Arthur W. Davis, A. T. Bennett and F. N. Griffith of Spokane are interested in the property.
