FIRE INSURANCE BUSINESS TO BE PROBED

New York State Commission to Investigate for Scandal in all Branches Except Life Insurance.

ALBANY, N. Y., March 31.—The disclosures unearthed by Superintendent of Insurance Hotchkiss in the fire insurance investigation now under way in New York has spurred the legislature to action.

THEY OILED THE WHEELS

Buckley and Late "Andy" Hamilton Worked Together.

NEW YORK, March 31.—How Wm. H. Buckley, accelerator of insurance legislation, and the late "Andy" Hamilton, former keeper of the life insurance "yellow dog," worked shoulder to shoulder in oiling the legislative wheels at Albany, for good and substantial consideration, was brought out to-day in the fire insurance enquiry conducted by William H. Hotchkiss, assistant superintendent of insurance, Hamilton, the evidence showed, received no less than \$500 from certain companies in 1901.

ELECTS SUMMARY TRIAL

Atlas Will Come Before Judge Winchester This Morning.

Rev. George M. Atlas was arraigned in sessions yesterday morning and, at the request of T. C. Robinson, K.C., his counsel, the latest charge, that of subornation of perjury, was traversed in the May sessions. Immediately afterwards Atlas was taken before Judge Winchester, where William Douglas, also of counsel for the defence, made application for the reduction of bail fixed at \$20,000 by Judge Denton. The judge refused to reduce the figure and the attorney-general was consulted, but there, too, the amount fixed by Judge Denton was upheld, so that Atlas, who has been unable to secure bonds in that amount, was taken to the jail.

AND SUICIDES

Time Has Come To Reorganize

Ottawa Citizen, Conservative Organ, Declares That Dissension is Rife and a Cleaning Up Imperative.

OTTAWA, March 31.—The Ottawa Citizen (Cons.) to-morrow will say: "Recently the idea has been put forward in certain quarters, that the holding of a Conservative convention, as originally proposed, should be postponed until some time nearer the holding of the next general elections.

"The circumstances under which the present convention has been suggested are very different. Not only the Conservative party throughout the country, but more particularly the opposition in the federal house, needs reorganization and stimulation.

U.S. MAY FIGHT JAPAN SAYS FRENCH ADMIRAL

Believes That Situation in Orient Gives Every Cause for a Conflict Between Them.

PARIS, March 31.—The memoirs of Vice-Admiral Fournier, commander of the Mediterranean squadron of the French navy, in which he discusses particularly the possibility of a war between the United States and Japan and the resultant danger of dragging all Europe into a terrific conflict, were issued in book form to-night. The memoirs have caused something of a sensation in political and diplomatic circles.

RESTRICTING THE OPERATIONS

Sponsor for the St. Lawrence Power Trans. Co. Make Concessions.

OTTAWA, March 31.—(Special).—F. P. Pardee, of West Lambert, who is sponsor for the St. Lawrence Power Transmission Company, has given notice that on the third reading he will move the following amendment: "Nothing herein contained shall be deemed to constitute an approval by parliament of any future development of water power by erecting a dam or across the St. Lawrence River, under Act 1, Edward VII, chap. 3, instituted an act to incorporate the St. Lawrence Power Company; or otherwise, nor shall the company hereby incorporated be authorized to transmit power generated by the St. Lawrence Power Company; or other power generated by and in connection with the works already constructed by the said St. Lawrence Power Company."

"WHIP" TAYLOR'S BIRTHDAY

Seventy Years of Age—Presented With Nice Souvenir.

OTTAWA, March 31.—(Special).—George Taylor, M.P., for Leeds, is 70 years old to-day. For a quarter of a century he has been chief Conservative whip, and it is his custom on his natal day to place apples of his own growing on the desks of all members. They are choice specimens, and the members chunched them this afternoon with relish.

Will Need One or More for Atlantic Service.

HALIFAX, N.S., March 31.—(Special).—The new matter of a short time until the C. P. R. will build one or more new liners for the Atlantic service was the information given to-night by Arthur Piers, general manager of the C.P.R. Atlantic steamship service.

ASQUITH TRYING TO BRING ON CRISIS

Gives Notice of Motion of Closure on Big Issues—Churchill Intimates That King May be Asked to Create New Peers.

LONDON, March 31.—The official opposition amendment to Premier Asquith's resolution on the veto power of the house of lords was removed in the house of commons to-day by Sir Robert Bannatyn Finlay.

It declares in favor of a strong and efficient second chamber and expresses willingness to consider proposals for the reform of the upper house, but it declines to proceed with the government's proposals which destroy the usefulness of any second chamber.

Churchill's View. Winston Spencer Churchill, the home secretary, declared that when the veto resolutions were disposed of, the government would advance with the budget, regardless of the consequences. Unless the house of commons carried the budget, it was idle, he said, to look to the King or to the country to carry the veto bill; but he predicted that at the proper time and under the proper circumstances they would succeed in carrying both the veto and the budget measures to the steps of the throne.

Mr. Churchill closed with a significant statement. "The time for action," he said, "has arrived. Since the lords have used their veto to affront the prerogative of the crown, and have invaded the rights of the commons, it has become necessary that the crown and the commons, acting together, should restore the balance of the constitution and restrict for ever the veto power of the house of lords."

300,000 MINERS STRIKE IN BITUMINOUS FIELDS

Nine States Affected by "Walk-out"—Suspension May Last Several Months.

ST. LOUIS, Mo., March 31.—Three hundred thousand organized miners of the bituminous coal fields of Pennsylvania, Ohio, Indiana, Iowa, Missouri, Kansas, Oklahoma, Western Kentucky, and Arkansas quit work to-night.

The miners, members of the United Mine Workers of America, declared the walk out was not a strike, but merely a suspension of work pending an arrangement between themselves and the operators for a wage scale for another year, the old scale having expired with the month of March. The men demand an increase of pay, in some instances of five cents a ton, and in other instances more, and certain changes in working conditions. Confidence is expressed by the operators that there will be no general coal famine, large supplies of coal having been secured in anticipation of the walkout.

N. S. GOVT. WILL APPEAL ON PROHIBITION POLICY

Bill is to be Brought Down on Monday—Halifax May Be Omitted From Dry Belt.

HALIFAX, March 31.—(Special).—The local legislature will likely propose next week. The prohibition bill will be introduced on Monday; it will likely call for provincial prohibition outside of Halifax City, but some members will insist on its provisions applying to the whole province.

AN OBSTACLE ALREADY

To Future U. S. Trade Negotiations With Canada.

WASHINGTON, D.C., March 31.—The house to-day agreed to the senate amendment to the diplomatic bill, increasing to the extent of \$25,000 the appropriation for extending trade relations of the United States. This it is feared may affect the state department's proposed trade convention with Canada.

Will Need One or More for Atlantic Service.

HALIFAX, N.S., March 31.—(Special).—The new matter of a short time until the C. P. R. will build one or more new liners for the Atlantic service was the information given to-night by Arthur Piers, general manager of the C.P.R. Atlantic steamship service.

MAS AT THEIR CHILD THEY BURIED?

Parents Say Body is Not That of Their Boy, Whom a Neighbor's Girl Says She Saw Alive Later.

"As long as I live I will doubt that it was our little boy that was buried." Mrs. Frederick Cooke's voice trembled as she made this statement in her shabby little house at 4 Blackmore-ave. yesterday afternoon.

This mother will to-day apply to the attorney-general for an order to examine the body so that she may be quite sure whether the child who died Jan. 19 in the isolation hospital and was buried the following day in Mount Pleasant Cemetery was her little two-year-old son, Stanley Ronald Cooke, or another.

The little fellow was sent to the hospital Jan. 14. On the morning of Wednesday at 9 o'clock the mother telephoned to ask how he was, and was told that he had died three hours before. An order to bury was given the Hopkins Burial Co. and the next day the body was taken from the hospital morgue. There was a ticket on it bearing the name of Stanley Cooke. It was the only body in the morgue.

At the graveside at Mount Pleasant the parents and a neighbor were shown the little face thru the glass which covered the coffin. Then they declared that it was not their child. "I was sure it was not my child," said the mother. "I had seen him the afternoon before he died and his face was plump and round. This child's face was thin and drawn; also it was the face of a child of four or five years, while my little boy was only two years old. They told me the child and I did not feel strong enough to make a fuss, so the burial went on."

Two weeks after the burial, Alvin, the 11-year-old daughter of W. H. Vanickie, then of 59 Davenport-road, but now of 12 Cumberland-street, was taken to the isolation hospital suffering with diphtheria, and three weeks later was taken home. She knew nothing of the supposed death of her brother, and she said that when she had seen him in the hospital, her mother replied that this was supposed to be the little fellow who had died before she had been buried and that she had seen him in the hospital.

May Exhume Body. The matter was reported to the chief coroner last night. He said it was a matter which should be taken to the attorney-general and that the exhumation of the body would doubtless be ordered. He said that owing to the cold weather the child could be easily identified, particularly as the parents' picture of their little son had a distinctive scar upon his knee, and that his toes were webbed in an unusual way.

The parents will take the matter to the attorney-general this morning and will ask for an order to have the body taken up, so that they may make sure of the identity.

E. Hopkins, undertaker, was told of the matter last night, and explained that his man, whom he consulted about the case, had removed the body at the request of the parents. He said he had a ticket on bearing its name, and that it was the only body in the hospital morgue at the time. The man remembered the protest of the parents at the side of the grave, where they had viewed the body for the first time after death, but thought at the time their doubts had been satisfied.

The Cooke live in a little cottage in Blackmore-ave and their case has interested the entire neighborhood. Many have urged them to investigate the matter but they have hesitated, not wishing, as they said, to cast any doubt on the hospital authorities. But the woman is terribly worried. Her husband is little less disturbed in mind. They are hoping now to have their doubts laid at rest by the certainty as to the fate and disposal of their child.

HAMILTON HAPPENINGS

ALDERMEN IN REVOLT AT CONTROLLERS' WAYS

Members of Property Committee Threaten To Give Up Duties Because of Reports

HAMILTON, March 31.—(Special.)—Two members of the property committee, Chairman Birrell and Ald. Kingston, announced this evening that they would not attend any more meetings of the council this year unless the board of control mended its ways. Other members of the committee made a vigorous attack on the controllers because they had turned down a recommendation that a contract for a steel cage and grill work for the city treasurer's office be given to Chadwick Bros. at \$120 in favor of the Canadian Wire Goods Co., whose tender was 25 cents lower. The claim of the committee is that the latter company did not tender on the specifications submitted. Members of the committee stated that it was simply a waste of time for them to attend meetings, as their reports were cut to pieces by the board. Ald. Kingston described the controllers' action as "rotting." Ald. Birrell said he had killed the board of control for Hamilton, and Ald. Kingston's contribution was that the controllers had made fools of themselves. Ald. Birrell also accused the mayor of "rotting" the aldermen, and said that his habit of leaving the chair during council meetings to weave his magic spell around the aldermen would have to be stopped. Sub-committee members named to rearrange the location of weighing scales, and to define the duties of Market Clerk Hill.

James A. Orland, aged 71, the engineer of Bay-street fire station, died this afternoon at his residence, 27 North Queen-street. He had been ill only a week. For 23 years he had been in charge of the engine at the central station.

There was a small fire this evening at the Canada Screw Company's factory. Some jade in the district gave Chief Ten Eyck incorrect directions, then he found that he had been fooled. He gave orders and called several of the boys, whom he threatens to have summoned.

Sergeants J. E. Birch, Knox and Robinson and Constable Hilliard, who have reached the age limit, turned in their clothes this evening. Constable Settler has been appointed deskman at No. 3 Police Station, and Constable Aiken, driver of the patrol wagon. The four new sergeants, Hawkins, Campbell, Lacey and Crisp, will commence their duties Friday.

Kamiray Ladouce, a Pole, was severely burned about the face, neck and arms at the metal works on the twelve street, when the boiler exploded. Immigration Officer Dow captured a foreigner who had sneaked himself into the country this evening, and will deport him.

Street Railwaymen in Arms.—Trouble has cropped up between the street railway and the union. The union complained that the company was violating the agreement made under the strike, and which was renewed a year ago, stipulating that the men on the third-class runs must be allowed to complete their day's work within twelve hours, but according to the schedule of the company, it took them from 11 to 12 hours to run the twelve hours. The company admitted that it was guilty of a technical breach of the agreement, and has made a new schedule to come in force Monday which is strictly within the agreement, but it changes the second and first-class runs so that they are unattractive to the men, besides cutting down the number of working hours for those on the third-class. The union will meet next Saturday afternoon.

On April 1 the civic dog bylaw will come into force, prohibiting dogs, muzzled or unmuzzled, from running at large.

The aldermen have awakened to the fact that they got the worst of the new annexation agreement under which the city assumed the whole cost of cement walks in the annex. Many of these walks, according to the aldermen, have not been constructed on the proper grades.

PHONE CO.'S NEW PLAN TO MAKE PUBLIC PAY

Rates For "Extra Listing" Jump From \$1 to \$2—Manager Dunstan Explains.

If you wish to have your name appear on the "extra list" in the Bell telephone directory, the privilege will cost you \$2 for the future, instead of \$1. This is the latest notification sent out by Manager K. J. Dunstan, and it is causing considerable dissatisfaction among subscribers.

The "extra list" is made up of the names of persons who wish to be singled out from the designation of the ordinary company with which they are connected. For instance, John Brown of the firm of Jones and Brown, desires to have his business address given separately for the convenience of the public. All the apparent difference this makes to the telephone company is the expense of printing his name, yet he is to be taxed \$2. It is little to be wondered at that irritation is abroad.

"Extraordinary Growth." The notification explains that there has been an "extraordinary" growth in telephone business during recent years, and consequent increase in demand for extra listings, which has involved a corresponding increase in size, number and expense of publications of the telephone directory. It is added, "It has become impossible for us to continue to publish such a list at the present rate of \$1 per line, in future the charge for such extra listings will be \$2 per line per issue."

Mr. Dunstan says that the number of telephone books in Toronto is now about 40,000, or more than what it was many years ago, when the rate was \$1, and that the doubling of the charge is therefore justified, but is sidestepping the question of getting sidetracked by the charge. He has had patrons tell him that they are surprised that he should be able to charge so much for printing and the trouble that must be taken to insure accuracy, and also of collecting the fees.

CANADA FACES UNIFIED LABOR IN THE FAR EAST

Hon. W. L. M. King Says This Is the Problem Which Confronts Country.

"The result is that before the close of the present session parliament will be asked to make a liberal appropriation for the purpose of appointing a commission on technical education. This was the important announcement made by Hon. W. L. M. King, minister of labor, at the Ontario Club last night. The occasion was the fourth and most successful of the series of banquets to be addressed by members of the Dominion Government.

Speaking of the yellow peril, he declared it was not a matter of immigration, but was represented by the industrial development of the Orient. The question of holding our own against the different provinces of the Orient, and the problem Canada had to face, was the subject of his address. On account of the cheapness of labor in the Orient, which he said could be and duty paid, that they could be manufactured in the United States. One concern, he instanced, had an annual return on the capital which amounted to 200 per cent.

There were, he said, only two things that could save Canada from the competition of the Orient. One was the spreading of the light of the Christian truth. "Let me say to you," he said, "that it is our duty to endeavor to raise the standard of the people of other lands to the standard of our own, which will come, and it will have its commercial advantage as well as its moral value."

Mr. King expressed the belief that the department of labor had been neglected in the past, and that the work had progressed and misapprehensions had been cleared away. He said that the labor party was not the enemy of the employer, but the laboring man was a large factor in every community.

The first step in regard to labor legislation had been an effort towards the unification of labor laws in the different provinces of the Dominion. The improvement and settlement of industrial conditions, if it can be accomplished without legislation, are likely to be more permanent and satisfactory.

The industrial efficiency of the working classes can be best brought about by technical education, said the minister of labor. "This cannot be done alone by the Dominion Government, but only with the co-operation of the provinces. Hon. Mr. King promised that a commission, perhaps five men would be appointed to carry on an investigation all over Canada, then they would go to the United States for information, and finally journey to Europe, visiting Belgium, Germany and other continental countries. The report of the commission would include a plan for technical education which he would commend itself to the different provinces and make for the betterment of industrial conditions."

The ultimate result of the work of the department of labor, observed Hon. Mr. King, would make for industrial peace in the Dominion. Under the Industrial Disputes Investigation Act, which was passed three years ago, eight disputes between employer and employee had been submitted to a board of arbitration. Of that number seventy-four had been settled. The seventy-four disputes settled had affected 37,000 workmen and saved to them a sum equal to \$2,000,000. He was strong in favor of union and organization, and the anti-trust and combine bill now before parliament was designed to prevent the men from combining with one another for their own benefit.

TORONTO WILL OPPOSE EASTERN RADIAL LINE

Ontario Government Also Protests at Branch of Federal Charter at Grand H. W. & G. Bill.

OTTAWA, March 31.—The Hamilton, Waterloo and Guelph Railway Bill came back to the railway committee at noon with the new section 5 adopted by a sub-committee, regarding the terms of entrance to the City of Toronto. In four minutes the bill had passed the committee. Mayor Geary, who with Controller Spence and H. H. Dewar, K. C. appeared for the city, was not prepared to prejudice the city's position by accepting the amendment.

Clause eight was amended so as to provide that the company must build their own terminals and stations, issuing their own securities. The original intention was that the terminals be built by a separate company, the railway guaranteeing bonds.

The bill to incorporate the Toronto and Eastern Railway was next taken up. Mr. Fowke explained that it was to run from Toronto to Cobourg, with a branch to the Toronto and Eastern, and a coal ferry to Charlotte. The company would build on its own right of way and would be operated by electric traction.

R. G. Code, on behalf of the Ontario Government, opposed the bill on the ground that it was a local enterprise and a federal charter should not be granted. Mayor Geary said Toronto would oppose it on the same grounds as the Ontario Government.

The bill to incorporate the Montreal, Kapatchuan and Rupert Bay Co. to build a railway, Montreal to Hudson Bay, a distance of 450 miles, was reported.

A deputation opposed extending the time to construct the Kingston, Smith's Falls and Ottawa Railway, and consideration was postponed till Tuesday.

The sub-committee on James Comer's bill to incorporate the International Canal Company from Lake Superior to Lake Winnipeg to-day adopted the principle suggested by G. Lynch-Staunton, K.C., on behalf of the Ontario Government, that the private company shall not be given the right to expropriate lands or municipalities without their consent.

MONTEAL CUSTOMS An Increase of Three Million Dollars for the Fiscal Year.

MONTEAL, Mar. 31.—(Special.)—The total customs receipts for the fiscal year ending on March 31, 1909, were \$16,352,229, against \$12,835,908 last year, an increase of \$3,516,321. The receipts for March 1910 were \$1,509,594 against \$1,321,490 for March 1909.

Appendicitis How To Avoid It and Escape a Surgical Operation, Told By One Who Knows.

A Simple Method That is Always Efficacious—Trial Package Free. It has only been a few years since it was discovered that a surgical operation would cure appendicitis; in fact, it has been but a short time since the disease was discovered and named.

Whenever there is an inflammation of the appendix, caused by impacted faeces in the small cavity opening into the intestine, you then have appendicitis.

The older doctors used to call this inflammation of the bowels, and were puzzled to know the cause. Even now, with all the knowledge we have of the human body, a physician can not tell you why we should have an appendix, why we find it where it is, or what are its functions. If it has any use at all, it is a mystery.

The disease for which the operation is a cure is usually caused by indigestion, and in many cases follows a large and indigestible meal. Physicians have until recently recommended an operation, but now, as it is known that it is caused by indigestion or dyspepsia, a cure without an operation is assured.

SUFFRAGETTE TELLS STORY OF MOVEMENT

MISS OLIVIA SMITH OF RECENT LEGISLATURE FAME LECTURES ON Her Experiences.

A very interesting address was given last evening in the People's Institute by Miss Olivia Smith, the militant suffragette, formerly of London, England, on "What I Learned from My Experience." She is the young lady who created a sensation at the recent prorogation of the Ontario Legislature. Miss Smith has a very winning way of presenting her case and proves herself a worthy pupil of her first teacher along suffragette lines, Mrs. Pankhurst.

"If woman can gain her emancipation in this particular to-day," said Miss Smith, "she is emancipated for all eternity. It is the last great struggle."

MISS OLIVIA SMITH, who is a free, fair, and winsome woman, has only lived, this to-day, in the psychological moment, when the women of the hour, of we delay now, years, long years of waiting may follow, and unless we succeed now we are further back than we were before. The first thing to be got rid of is the fear of being ridiculous. We have got rid of many other fears, but the fear of being ridiculous is with us still.

"I am here to-night requested to tell you the story of the movement as I know it, and also why I moved as I moved. The first thing to be got rid of is the fear of being ridiculous. We have got rid of many other fears, but the fear of being ridiculous is with us still."

When the patient is treated with Stuart's Dyspepsia Tablets, the unhealthy conditions prevailing rapidly disappear, the stomach and intestines are placed back in their normal condition, every organ of the body operates as it should, and the inflammation is reduced and the operation is avoided.

Conscientious physicians, who are looking after the best interests of their patients, will always keep a supply of Stuart's Dyspepsia Tablets handy in their office, where in cases of sudden attacks of indigestion they can relieve the patient at once.

Whenever heartburn, gas in stomach or bowels, heart disease or stomach troubles, sour eructations, acidity or fermentation are present, act at once. Take a dose of the tablets and get relief as soon as possible.

English-speaking Canadian. Sir Geo. Cartier, after offered the leadership more than once, always maintained that he could do more for the Province of Quebec as second in command, and that is the opinion still of the leading French Conservatives, both in what is the opinion still of the leaders to hear of the revolt down in Quebec, and what is worse, has tending to place blame upon very innocent shoulders, all of which has created a ferment in a teapot, especially with those who know very little of the inner scenes in the Conservative family circle.

Rufus Pope Started It. As a matter of fact, the two men who have done more to create an anti-Borden feeling in this province are Rufus Pope, ex-M.P. for Hampton, who first wrote Mr. Borden advising that gentleman to retire from the leadership of the party.

The alleged alliance between Mr. Monk and Mr. Bourassa has absolutely no meaning, and is a pure invention, or a dream. Mr. Monk is the one man in all the French section of the Conservative party who has never believed in Mr. Bourassa's star.

It was the support given to Bourassa that made Monk sulk in his tent, and it may be taken for granted that also they are seemingly together on the naval bill. Monk has all along refused to appear on the same platform with the Nationalist leader. Lately 'Bourassa' has been leading the charge at Monk, but no mistake will be made in the supposition that these men will never come together in any formidable movement against the navy or any other bill emanating from the government benches.

It was Mr. Bourassa, while discussing the bill, who coupled Mr. Borden's name with that of Sir Wilfrid Laurier, calling it the Laurier-Borden scheme, and thus damaging the present leader amongst the French Conservative anti-Dreadnought party, but to all this Mr. Monk is a complete stranger.

Wm. Brand Adds His Story to the Pittsburg Carnival. PITTSBURG, Pa., March 31.—Wm. Brand, former president of common council, who was brought from the penitentiary to testify before the grand jury to-day, contributed his full confession to help the graft probes in trailing the "men higher up."

District-attorney Blackiey, when the jury recessed to-night, said that Brand had completely given way in the grilling.

"I don't believe that he could have suffered more in years of imprisonment than he has by the worry and humiliation of the last week," said Mr. Blackiey. Brand's confession, and that of Chas. Stewart yesterday, leaves but one more important witness to be heard, it is said, before more sensational cases are publicly sprung. This witness is Councilman Hugh Ferguson, who was at the courthouse to-day seeking opportunity to tell his story.

Chief Thompson took his first ride in the new fire department automobile yesterday when he went to a small fire.

# EATON'S DAILY STORE NEWS

## What Are Your Spring Clothing Requirements This First April Day?

The great clothing stocks of this Store have been restrengthened for the first Saturday of April.

Such scope is presented in these wonderfully varied assortments that the man who would pay as little as ten or twelve dollars for a suit, and the man who demands the very best of ready-tailored garments, can be equally well and satisfactorily fitted. Both in the new spring clothing of our own make and in the carefully chosen stocks from foremost manufacturers, there is displayed only what is new and approved in fabric and style.

### HERE IS BRIEF DESCRIPTION OF SOME OF THE NEW GARMENTS:

**Fancy Worsteds Suit at 12.50**—A tastefully designed and well-tailored single-breasted sack suit in new spring materials: browns, olives and greys, showing neat stripe effects; Italian cloth body lining; sizes 36 to 44.

**Excellent Choosing at 15.00**—Stylishly-tailored Three-button Sack Suit, with nicely shaped lapels and close-fitting collar. Choose from an immense range of new stripe patterns on pleasing grounds of strong drab, olive, grey and brown. Serviceable twilled Italian cloth linings; sizes 36 to 44.

**Our 12.50 Navy Blue Suit**—Made from our own specially woven "Eaton serge," a soft twill-finished English cloth in a desirable blue shade, fast indigo dyed; three-buttoned single and double-breasted sack coats with broad, long lapels and close-fitting collar; twilled body lining of good wearing quality.

### Waterproof Coats

**AT 11.50**—Fine Olive Paramatta Cloth Coat, with Raglan shoulder and Talma pockets, buttoning close at neck with military collars; seams are all sewn.

**AT 13.50**—Raglan Waterproof Coat, in reseda, green and fawn English Paramatta cloth; strapped or raised seam effect.

### Some of THE EATON BRAND Suits

In this superb clothing service the haircloth interlining is run clean down coat fronts from top to bottom; the collars are hand made, lapels hand padded, button-holes hand worked.

**AT 16.50**—Imported British worsteds, in dark olive shades with small broken check patterns; single-breasted sack coats with best of linings and interlinings.

**AT 18.50**—Imported English worsted material, in a slate grey shade, with colored pin stripe running through it; three-button sack coats; best of workmanship.

**Black Suit**, in a three-button sack model of conservative design, with fairly broad lapels; made from an English vicuna cloth, and lined with twilled Italian cloth. Price 15.00.

**AT 18.00 AND 20.00**—Extra quality imported black vicuna cloth, made up into stylish three-button sack suit; haircloth and French canvas interlinings and best of body linings.

## In Spring, Fancy Lightly Turns to Thoughts of Cleaning House

WHEN Spring comes, sweeping the earth with her life-giving sunshine, clearing from the dark corners the remnant snows of winter, spreading a carpet of fresh green blades, and hanging the trees and hedges with buds bursting into soft-toned drapery, then are we accustomed to follow Nature's example. We turn to the freshening and beautifying of our dwelling-places. House-cleaning is an essential part of reasonable existence.

### TIME'S MELLOWING INFLUENCE

Every year the task becomes less arduous. The housewife who lives and pursues her duties in this second decade of the twentieth century numbers many blessings. The ingenuity of the ages has brought countless offerings to her door. Invention has dealt drudgery a hard blow, and whereas muscle and perseverance were once the chief means of keeping an establishment in order, an intelligent selection of appliances is now the main requisite. That stormy period on the domestic calendar known as "Spring cleaning," when a general upheaval of all that makes for family peace and comfort was formerly wont to occur—such a time has been shorn of its horrors. Rooms now lie practically undisturbed, and those who wield the brush and duster are no longer bowed to the ground with weariness.

### THE RESOURCES OF THE STORE IN RESPECT TO THE MATTER

To begin with, there is the "Automatic Vacuum Cleaner," a tried and proven device for the extraction of dust and dirt from carpets, upholstery, curtains, mattresses, without moving any from their place. It is sufficiently light in weight to be easily carried up and down stairs, and requires only a child's strength for the working. The absolute and complete manner in which the machine draws away every particle of dirt that lurks in an apartment is only understood when the power of suction is realized. The price of the "Automatic" is twenty-five dollars, a less sum, possibly, than the cost of once removing and cleaning rugs and hangings by ordinary method. And the cleaner will serve a lifetime. It is being demonstrated daily in the Curtain Section on the Third Floor.

In the adjacent Paint Section will be found the sundry tools and prescriptions for the proper care of woodwork and floors—for the former ready prepared paints, enamels and varnishes, with correct brushes for the easy application of the same, and for the latter a capital floor restorer to be used in conjunction with the well-known "Diamond E" wax, which in turn is rubbed to a polish with a special weight brush. For oiled floors we have provided a convenient can-like arrangement with long handle, from which "Lustrine" oozes gradually, and is rubbed in with an attached cushion, and for the preservation of linoleum is the well-recommended preparation, "Linolustre." "Diamond E" Floor Lac, and "Diamond E" Varnish Stain, that accomplishes the dual operation of staining and varnishing in one application, are two admirable productions, the first designed for the treatment of floors in imitation of hardwood, and the second for the renovation of old furniture, picture frames, wainscoting, etc.

On the Main Floor, the Drug Section contributes some valuable items to the list of labor-saving devices. "Dustbane," a sanitary sweeping compound, a substitute for the old-time sprinkling of salt or tea leaves; "Dutch Cleaner" and "Taylor's Quick Cleaner," for the scouring of paint and marble; "Powdered Ammonia," for sinks; our "Electric Soap," for scrubbing; "Shinec," for window-cleaning, and our own brand of "Furniture Polish."

### THE BASEMENT COMES TO THE TOP

Here you get fibre and galvanized pails of the best sort, stair whisks, a clever little brush for radiator pipes, scrubbing brushes of the newest design, a splendid type of ladder, with iron bolts securing each step, and first, perhaps, in interest, a trio of sanitary contrivances, viz., a dustless brush for polished floors and linoleums, chemically treated in such a way that all dust is absorbed instead of being scattered, with a string mop head and a cloth duster boasting the same characteristic. This hygienic absorption of dust seems the laudable aim of all late effort in the direction of household devices.

Equip yourself here for this campaign.

## BOYS' SUITS Prepare For School Again!

**Three-Piece Suits**, stylishly tailored from imported fancy worsted materials. Neat striped pattern in a pretty shade of smoke grey. Double-breasted coat, knee pants, Italian body linings; sizes 29 to 34. Price 7.50.

**Navy Blue Three-Piece Suit** of an English clay twill worsted. Beautifully tailored in the double-breasted style, with stitched cuffs, knee pants. Superior quality body linings; sizes 29 to 33. Price 7.50.

**AT 10.00**—Three-Piece Suits cut from new importations of English worsteds of very fine quality, great variety of patterns in the season's newest shades of grey, brown, and fawns. Coats double-breasted, two and three-button, showing long lapel, knee pants, sizes 29 to 34.

**Bloomer Suits**, the season's most promising fashion in boys' wear. Made from an imported tweed in a pretty shade of grey, with striped pattern. Double-breasted coats, loose fitting bloomers, strap and buckle fasteners and belt loops; sizes 29 to 33. A particularly attractive value at 5.00.

DESIGNED BY THE EATON CO. LTD.

## The Spring Overcoat

Three examples of the splendid range of values:

**AT 12.39**—Single-breasted Chesterfield Coat, about 45 inches long, of imported black vicuna cloth in a pleasing soft finish. Body of coat lined with a good quality twilled silk, Glassade sleeve linings; sizes 34 to 46.

**12.50**—Fancy chevrons and worsteds; one a medium light grey herringbone diagonal weave made up in buttoned-through effect; others in fawn chevrot and oxford grey worsted diagonal herringbone, cut in fly front Chesterfield styles. Linings are of a good wearing quality; sizes 34 to 44.

**15.00**—Fine English worsted fabrics, a grey shade diagonal weave, with Celtic stripe, or a plain weave in an olive slate shade. 45 inch single-breasted Chesterfield coats, well lined with Italian cloth; sizes 34 to 44.

## Young Men's Suits

Such care and discrimination is exercised in our selection of clothing for young men that satisfactory choosing is assured all tastes.

**AT 12.50**—Single-breasted Suit with slightly dip front coat, showing long, shapely lapels. A dark grey and black small checked and worsted with colored pin stripe of green; sizes 32 to 37.

**14.00**—Double-breasted Suit in a fancy worsted; three-button coat, with long lapels. Choose from olives and stone drabs, with pin stripes of green. Trousers cut full at thigh and peg top style; sizes 32 to 37.

**15.00**—A splendid range of the new browns, greys and slates, some diagonal woven effects in the fabrics. Single and double-breasted coats with long graceful lapels and close fitting collars; the single-breasted having slightly dipped fronts. Best of linings; sizes 32 to 37.

## English Footballs for Senior League Games, \$2.50

Just arrived, a large shipment of English footballs, made by Frank Bryan and Co., London, England. These balls are of best English leather and perfectly shaped. They are used in many of the Old Country League games, and are exceptionally good for the moderate price. Two styles: the "Croydon" in plain, smooth leather; the "Shire" is pebbled grain leather. Either one would prove an excellent ball to adopt for Senior League games. Our price 2.50.

Other Footballs range in price from 1.50 up.

Shin Pads .30 to 1.35.

Ask for a copy of our Special Sporting Goods Catalogue; it contains official Eastern League Baseball Schedule.

PARKDALE CRICKET CLUB

Officers Elected at Annual Meeting—Dr. Bennett Champion. The Parkdale Cricket Club held their annual meeting and supper at Williams' Cafe. A splendid supper was served to the members, after which a few songs, etc. were rendered. The secretary read his report, giving the following averages for last season: Batting: Dr. A. Bennett 15.6, W. Bottemley 14.0, W. Wilson 11.0, W. Maroney 9.2, C. Thorford 8.6. Bowling: Dr. Bennett, average per wicket, 5.8; C. Thorford 5.1, Burton 5.0, Wilson 4.6, Eade 3.9, Maroney 3.2. The treasurer also gave his report, showing a balance in favor of the club. The following officers were elected for the ensuing year: Hon. president, J.S. Wilson, past commissioner, president, A. W. Black, hon. vice-presidents, W. W. Vickers, Archdeacon Inglis, John Hall, S. W. Black, secretary, Chas. Whitaker, 306 Marcherson-avenue, Toronto; treasurer, W. Bottemley, executive committee, Dr. Bennett, C. Thorford, W. Maroney and officers-at-large, representative, Dr. Bennett, Chas. Whitaker, captain, W. Whitaker.

Management of the Regina team at the tournament at Montreal, will turn out with the Capitals this summer.

Soldier Athletes Are Most Active at Stanley Barracks

STANLEY BARRACKS, March 31.—All the British United Football Club defeated Stanley Barracks by a score of 3 to 1 last Saturday here, the Barracks Club is nevertheless a strong one, and many changes will probably be made in the team to play in the T. & D. League. Henry, who played left half last year, will be between the posts this season, and Dennis has been replaced by Clifton, who is a new man, showing up pretty well. Jack West, another new man this season, is placed at left back and he is a great improvement to the team. Carpenter will probably be given a trial. There is some talk of sisk lined, Reginald T. T. & D. League. Catway is captain for 1910, and Duffy has been appointed secretary.

Cycling. Campbell and Wolfe are training hard for the first of July championship races at Waterloo. They are both really men at 5 miles, and will ride "Planet" cycles this season. Poulton is another likely cyclist man, and he also may go to Waterloo.

Running. There are a few good men in the running line here. The best are Veary, Rose, Pace, Campbell, Burford and Doyle. Veary and Pace are good at 5 miles, the former doing the same in 23.15-25. Rose is good at from 1 to 3 miles, and did the mile last week in 4.25-1.5. Campbell and Doyle are fast at 10 yards and the quarter mile. Doyle does the distance in 1.5, and Campbell in 1.5. As good, also his time has so far not been taken correctly. Burford is too heavy runner to do much, though he can do the mile in 5 minutes flat.

Boxing. Jones, Martin, Fletcher and Foster are new boxing men in the Barracks. Jones boxed a draw with Foster at the station square a week or two ago. Martin went down against Fletcher for the lightweight championship, and the Fellow Brothers gave a good sparring exhibition. Jones was champion of the Mediterranean fleet of the British navy in 1906.

Baseball. The Royal Canadian Dragoons defeated the Royal Canadian Regiment on Easter Monday by a score of 24 to 3. The game was a slow one, both sides getting very few runs. The regiment fielders were putrid. The Dragoons team was as follows: Kelly, catcher; Campbell, pitcher; Ferguson, pitcher; Matthews, pitcher; Davis and Kelly, catchers and quick work was a feature of the game, while Davis and Kelly did some fair batting. Campbell tried hard for a new player, but was slow in the field. Matthews was good, as were Berteau and Green. Carpenter and Duffy of the Regiment were only pinch, though the latter, altho Carpenter "faked" the ball several times.

Lacrosse. It is reported that a lacrosse club will be formed here. Among the present men of the game are: Campbell, Ferguson, McMullen, Lindsay, Kelly, Davis and Berteau.

Seaford Lawn Bowling Club

SEAFORD, March 31.—At the fourth-annual re-organization meeting of the Seaford Lawn Bowling Club, held last night, the following officers were elected: President, G. F. Rogers; secretary-treasurer, J. C. Greig; managing committee, the following: Mr. Bright, A. Wilson, W. G. White, W. Fraser.

Central Y.M.C.A. Fencing Club

C. Q. Fraser, the popular secretary of the Central Y.M.C.A. Fencing Club, is resigning his position as secretary of the club and is being replaced by Mr. Fraser, who has accepted a responsible position in the city. Mr. Fraser managed the men who won the recent Canadian Championships in Montreal, having accompanied them on their tour. It will be hard for the Central Club to replace his executive ability, as much of the club's success is due to his useful and sportsmanlike conduct. Not only the Central and local clubs, but those outside, join in wishing Mr. Fraser the best of success in his new position. Mr. Fraser sent the following letter to the members of the club: "I am sorry to see that I have to leave the club on March 29. It is necessary to tender my resignation as secretary of the Central Fencing Club. As you are aware, I expect to leave the city to take up my residence in Regina, consequently this action becomes necessary. It is indeed hard to part from such kind associations, and especially from the gentlemen of the club, but I shall not forget you and the club that I shall not forget your and your success in connection with the fencing club, and promise here that I shall always retain the deepest interest in the club's success, and kind memories shall always be mine."

H. S. Cooper won the weekly spoon shoot of the Toronto Revolver Club last night. Scores: H. S. Cooper, 81; J. P. White, 80; Todd & P. Thompson, 79; A. Hutherford, 76; George Barber, 71.

Hamilton vs. Toronto at Pool

Saturday night will see some great pool playing in Toronto, the Hamilton Bowling and Athletic Club sending five teams to compete with the members of the clubs of the Toronto Inter-Club Pool and Billiard League. The organization of the Toronto league has proved a great success, and has added greatly to the interest in the game. It having also developed some first-class players, the matches between Stantion, Kid Alkens, Rickard and other well-known pool players ought to give the public a good chance to show their ability. The following are the Toronto clubs where matches will be played: Lederkrans, St. Mary's, Royal Canadian Bicycle Club, Houson and Toronto Bowling Club.

Ladies' Tailored Suits

Every season accentuates the growing popularity of Ready-to-Wear Suits for Ladies. This growth in favor has been largely promoted by the vast improvements lately achieved by ambitious manufacturers in this line.

There is an unprecedented display of enthusiasm this spring over our display of beautiful headwear. The furore is, however, just what we expected, knowing the elaborate preparations to please made by this department.

MONTEAL BANK HARD HIT? Said to Be Involved to Extent of \$1,000,000 in Bank Failure.

NEW YORK, March 31.—There is plenty of talk to-day on Wall Street about the Bank of Montreal mix-up with the defunct United States Bank of Mexico.

There is a well authorized report to the effect that President Ham obtained over a million dollars from the Bank of Montreal on his own personal guarantee the very day before the collapse.

It is also alleged, says the gentleman from Mexico, that there will be no real loss to the Bank of Montreal, as regards their dealings with the defunct bank, but well-informed people are asking what they will do as regards their claim against Ham personally.

Sir Edward Laugel, Montreal, March 31.—(Special.)—Sir Edward Laugel was interviewed regarding the Mexican Bank matter and he laughingly stated that the bank, or those in charge, were able to owe seven millions and being asked another question, stated that it would really make no difference in their balance sheet.

MONTEAL "ORGAN" ON BORDEN'S LEADERSHIP

The Gazette Finds the Party's Fight For Success Hampered by the Corrupt Voter.

MONTEAL, March 31.—(Special.)—The Gazette will say editorially to-morrow that the party's fight for success in the coming election is hampered by the corrupt voter.

Some newspapers, which have not always helped the party in its difficulties, are making much of a suggestion, and a desire, for it may hardly be called a movement, to bring about the retirement of Mr. Borden from the leadership of the Conservative party in parliament.

Mr. Borden has been chief of the opposition for a period covering two general elections, and he is still at the head of the opposition.

There is the precedent of Alexander Mackenzie's case for retiring a premier who fails to hold the confidence of the country.

That the gains are not greater is not his fault. He and his colleagues and associates have been, and are, pitted against the most powerful, most daring, most unscrupulous political organization ever seen in Canada.

It is not enough that the opposition shall make its case and win the confidence of a majority of those voters who pay attention to the issues.

Have they always remembered that Canada is a wide country, and that, by magnifying into seeming national issues local and provincial questions, they may influence one constituency, they may be sacrificing in other constituencies.

That Lumsden Enquiry IS ROUNDLY CONDEMNED

Minority Who Resigned From Investigating Committee Give Reasons to the House.

OTTAWA, March 31.—(Special.)—A long discussion took place in the commons today over the Lumsden investigation and the reasons why the Conservative members of the committee resigned from it.

The matter was introduced by Haughton Lennox, of South Simcoe. He quoted from sessional papers to show that thirteen contractors on the national Transcontinental Railway, at \$37,169,101, had cost \$60,792,982, and that the total cost of the road computed for schedule items only, would be \$124,124,041.

He further observed that in thirteen contracts which were made at a cost of \$42,225,830, which showed that rock was growing where it had not existed before the contracts were let.

Enquiry a Farce. Mr. Lennox described the Lumsden investigation as an "absolutely damnable farce," which was why he and the two other Conservatives left the committee.

WOULDN'T THIS BE LOVELY FOR WOULD-BE MATRONS?

Experimental Domesticity Latest Fad of the Board of Education.

Are the young girls of to-day being taught to handle the dust-pan and broom with the same adroitness that their mothers were in the good old days?

That is a problem that is seriously worrying the members of the management of the board of education at present.

The girls will be developed into first-class housekeepers, but Dr. Ogden of the union that a whole lot of improvement can be made, and to prevent the calamity of any eligible young maiden marrying a Toronto girl who has not made an intimate acquaintance with the dust-pan and broom, he has brought in a motion to effect that the board provide a "home building."

This is to be a house, close as possible to one of the central schools of the district, but which should be equipped with all varieties of furniture, utensils and belongings that should be found in every well regulated and comfortable home.

Here the would-be matrons may stroll every time they feel that it would be advisable to have a "argument" with dust-pan and broom and learn how to use the rolling pin and poker to good effect.

Taking the wrinkles out of the bed clothes will also be another asset for any young girl on a still hunt for a "hubby," while no doubt scrubbing floors and spring house-cleaning will not be forgotten in the domestic curriculum. It will also be probable that building fires, cutting kindling wood, handling the coal scuttle, and other little ladylike household duties will be taught, as well as washing the face and hands.

Then there is cooking. This part of the household duties will have to be handled very gently and with a great deal of tact, or trouble will loom up on the horizon from the domestic committee yesterday. The doctor has included in the subject of household economy is to be thoroughly taught, while the baby should not be forgotten. Public Amusements

Annual T.M.A. Benefit.

To-day is the day of the annual benefit of the Theatrical Mechanical Association, which will be held at the Royal Alexandra Theatre in the afternoon.

The program is an exceptionally good one and will be a rare treat to the patrons. The opening number will be an overture by the combined orchestras of the local theatres, and should not be missed.

The first piece on the program will be a comedy in three acts, "The Servant in the House," which returns to the Princess Theatre for one week, beginning April 4, has been called the most daring play ever presented on the American stage.

The second act of the play tells of three brothers who meet in England since the retirement of Kellar. Young, who has become a clergyman, famed for his eloquence; the second is a scavenger; the third is Bishop of Bangor.

first piece Mr. Curtin has invested \$5,000 in the production. This in itself is an assurance that the offering contains nothing but the best for the reason that there are few managers prepared to risk such a large sum of money in a production at popular prices.

Hilliard's Exacting Role. The tremendously strenuous role assumed by Robert Hilliard in "A Fool There Was" inspired by Kipling's poem of the vampire woman, is such a tax upon the actor's vitality that he is compelled to omit mid-week matinees.

Robert Hilliard, who was at Lennoxville College in the early seventies, is renewing many old friendships that weak among former classmates now prominent in the business and social life of Toronto.

All theatrical stars receive from time to time curious communications and peculiar requests, but James T. Powers of the "Havana" Company, now at the Royal Alexandra, thinks he has a prize winner in the following. One evening upon his arrival at the theatre he found a letter addressed to him and reading as follows: "Dear Mr. Powers—I am so glad to visit the Casino Theatre to-night with a young lady from out of town, and I am in a grand predicament, for I told the friends of the stars in the city that I was in New York. Now Mr. Powers, I want to make good with her, so I ask you to look down at me in the orchestra. I will be sitting in the front row, seats A2 and 4, when you see me I will give you a sign, and you can understand my 'Hello' girls and there is a young man sitting in A2 and 4. I want to give him a sign when you see him, but we will, I said the girls, and a few minutes after I had made their entrance, a much embarrassed young man and woman hastily left the theatre."

Home of The Hat Beautiful.

MILLINERY

The word "stylish" has become so commonly used by advertisers in relation to women's headwear that it has ceased to bear any vital significance, for the reason that it has been applied not only to very ordinary hats, but indeed to merchandise of a very opposite character to "stylish."

If a quarter of a century of constant growth in knowledge, growth in experience, growth in sales is an index of success, then may we, without boasting unduly, lay claim thereto.

Some people have yet to learn that style and economy are not antagonistic terms, but a happy combination developed in their highest significance at this store.

The ladies of Toronto will be pleased with the display we are making now of exquisite models in Royal Blue, Taupe, Coquelicot and Black Hats. Do not expect to pay much more than half what you are asked for goods of equal merit elsewhere.

LOSS IS OCCASIONED BY IRRATIONAL SPELLING

William Mitford Presents Case For Simplified System to Convention.

The 49th annual convention of the Ontario Educational Association held its closing sessions in the university building yesterday.

William Mitford, speaking in part from his experience in teaching Italian to read English, gave a paper on the losses occasioned by our irrational spelling.

Chief among the many excellent views with which the lecture was interspersed were those depicting the work of the late Professor H. J. Hunt, of the University of Toronto, who had been invited to give the address.

At the morning session a very interesting address was given by Miss Van Rensselaer of Cornell University, "The Education of Girls."

A woman who keeps her refrigerator and back door clean has as large a part in citizenship as one who casts a vote.

"Science opens up a new and interesting world for girls. I refer to the study of chemistry and physics. Women would know more about sliding doors, plumbing, windows, and the differences between hot air and hot water furnaces, so that a mechanic does not have to be called in every time anything goes wrong."

A committee of the inspectors and training departments have made arrangements with a view to closer relations and partial union of these two sections.

The action arises from several editorial articles in the Chronicle published on the Battlefield Commission.

Would-Be Suicide Escaped. MARSHVILLE, March 31.—Jesse Adams, the young man who took poison after being arrested on a charge of theft, got out of the house of C. J. Cook, where he was under treatment, last night between 8.30 and 10 o'clock, and escaped. His present whereabouts are unknown.

Garneau Alleges Liege. QUEBEC, March 31.—Sir George Garneau, president of the National Battlefield Commission, has taken an action for \$999 damages against The Chronicle. The action arises from several editorial articles in the Chronicle published on the Battlefield Commission.

# Realty and Building

The real estate market is showing remarkable vitality for this season of the year. No doubt the situation on Yonge-street has contributed its share to make business lively, but in the main there has been a strong demand for houses and house property. The house selling for five or six thousand dollars is the most popular feature of the market, while there has also been a large call for those around four thousand dollars. There is no danger of a slump so long as this state of affairs lasts even if there should be a fall in business among business properties.

Compared with other cities Toronto has long been noted for its fine residential districts. Even when West Wellington-street was the home of the elite, Toronto was spoken of as a city of "stately homes." From year to year this characteristic has developed, and the homes of this city to-day represent all that can be hoped for in the way of environment, comfort and taste.

Environment is a large factor in the situation of a home, and buyers of property would do well to consider all the elements that go to make a site desirable. The general growth of the city now days is northwards, and all along the hill overlooking the city suburban subdivisions have been laid out. Still further north exclusive high-class residential sections have been created. Of these there are more advantageously situated than Glen Grove and Edgewood Parks, which are controlled by the Union Trust Co. These properties are splendidly placed, of easy access and superlative health value. At the point where Glen Grove Park connects Yonge-street widens to 106 feet. The section is beautifully wooded and a residence consisting of four blocks in the interior is to be set aside for park purposes.

"The restrictions," said an official of the Union Trust Co. yesterday, "are ample to insure the continuance of the district as a high-class subdivision. No houses are built costing less than six or seven thousand dollars. The lots are large and not more than two houses are allowed upon a frontage of 152 feet."

"It is a fact," said another official of the company, "that neighboring property is being offered for sale at a much higher price than we are asking. The district is lighted, has sidewalks and waterworks laid, and it is unlikely that the present price can be continued long."

Gough Bros. have purchased Nos. 291, 292 and 295 Yonge-street for \$112,500, which is about \$2250 a foot. The property has a frontage of 50 feet and a depth of 123. Since the sale of their store property some time ago to the T. Eaton Co., Ltd. Gough Bros. have been dealing in real estate, and in this case it is not stated whether the property is to be used for business purposes or will be held as an investment.

# BOYBOYS SUBSCRIBE TO FUND FOR NEW HOME

Shame Citizens by Their Action—Some Gave as Much as Ten Dollars.

In view of the fact that the public has not yet become enthusiastic about the "Newboys' Home," the little news vendors decided at a meeting at the Labor Temple to show that they themselves were ready to make a sacrifice. Some of them gave as high as five dollars and one boy ten dollars towards the fund. The decision of the meeting was to start a subscription list among themselves to apply to the big fund, and the fact that of fifty or more boys who were present the amount totaled \$42.61, is evidence that they gave what they could. Some of the donations may appear "ridiculous miles," but nevertheless, they exemplified a spirit of sacrifice and a deep desire to better their conditions. A few of them were only able to give five cents, but five cents to them is more than five dollars to thousands of citizens in the City of Toronto, who would feel that there was something radically wrong during the rush hours if they did not hear the newboy's voice in the streets.

Here is the list of those who contributed and where the name is not given it is because the little lad was unable to write or spell it.

**Serious Fire at Chatham.**  
CHATHAM, March 31.—Fire at 6 a. m. to-day in Jas. King's hardware store, 1214 Bay-street, destroyed the place while smoke and water damaged the stock of C. Austin & Co. dry goods, to the extent of \$10,000. Geo. Weynfeld's clothing stock also suffered. Loss to building is \$4000.  
Chief Pritchard was cut by falling glass and firemen Pritchard and Elliott were overcome by smoke in the basement but soon recovered.

**Insulted Chinese Official.**  
OTTAWA, March 31.—Last evening Dr. Siao, the secretary of the Chinese consulate, was held up near the post-office by a well-dressed man, who spat in his face and used insulting and obscene language reflecting upon the Chinese. Siao endeavored to seize his assailant and Detective Jollette rushed to the scene. The man, however, made good his escape. He is thought to be a doctor in the city and will be prosecuted.

# COBALT Mining Stocks Generally Steady, With Some Weak Spots--COBALT

## Cobalt Stocks Generally Dull And Price Changes Narrow

Cheaper Issues But Little Changed, With Exception of Advance in Cobalt Lake—Drop in Nipissing.

World Office, Thursday Evening, March 31.  
General dulness pervaded the mining stock market to-day, and with a few exceptions securities remained comparatively unchanged from previous session. Trading was of a fair volume, but no special demand was noted for any of the listed issues.

Cobalt Lake was the most active issue for the day. The shares displayed a better upturn than has been apparent for some time, the stock advancing over a point from yesterday's low, and closing around the top figure. Interest in the proposed decrease in capitalization of this company has subsided to a certain extent of late, but the shares are still in good demand in the market.

Timiskaming exhibited a firm tone, the shares holding firm between 49 1/2 and a point above that figure. Little Nipissing on the other hand was easier, losing a point from the opening sale and closing at the bottom, these shares being evidently under some pressure. Fluctuations were decidedly narrow in the other cheaper issues, and prices were but little changed from those current during yesterday's session.

The higher priced Cobalts were subjected to some pressure and quotations were lower. La Rose sold off to 4 1/2, a net loss of four points from yesterday's low figure. A small block of Nipissing changed hands at 23 1/2, or thirty-five points below yesterday's price. No reason was assigned for the drop in price, but it was thought that insiders had withdrawn their support both here and in New York.

Prices at the close were generally shaded. The drop in the so-called investment issues was not without its effect on sentiment and traders in the main were disposed to look with a little less confidence upon the market situation.

### COBALT STATISTICS

**Growth of Camp in Five Years Vividly Illustrated by Figures.**

NEW YORK, March 31.—The progress of the Cobalt silver district is vividly illustrated by the following summary of statistics for the five years from 1904 to 1909: Total production, 62,000,000 ounces, payments in dividends \$10,000,000, expenditures for machinery and plants, \$2,000,000. The production of Cobalt in 1909 amounted to 25,000,000 ounces of silver, or 12 per cent. of the total output of the world. The value was about \$12,500,000, dividends paid last year were \$2,415,000, against \$3,380,000 in 1908. There are now twenty-four companies shipping ore and twenty companies paying dividends averaging over 20 per cent.

### CHANGE IN DIRECTORATE

Rumor That Mr. McGibbon Will Be Elected to Nipissing Board.

NEW YORK, March 31.—An official of the Nipissing Company is authority for the statement that Mr. D. Lorne McGibbon, formerly president of the La Rose, will shortly be elected a director of the Nipissing Co. This rumor, however, has no definite information is obtainable.

### HIGH GRADE ORE

Shipment of Twenty Tons From Lucky Godfrey Will Realize \$56,000.

COBALT, March 31.—The lucky Godfrey shipment was the cause of considerable excitement and jubilation at Elk Lake City as it is the first shipment of ore that has so far left the camp. The shipment consisted of from eighteen to twenty tons and half of it is high grade ore.

The high grade will probably run 30,000 ounces to the ton, while the low, containing silver shot will rock will go for 10 to 15 cents. The value of the shipment is reckoned that the shipment will be worth \$56,000.

HAWES' CLAIM BONA FIDE AND IT WILL BE PRESSED

An Explanation of Evidence Given Before the Royal Commission at Edmonton.

"A wicked calumny," was the comment yesterday of N. F. Davidson, K. C., of Davidson and Henderson, solicitors for Alfred Hawes of Toronto, in referring to statements made concerning Mr. Hawes at Wednesday's session of the royal commission investigating the Great Waterways Railway deal at Edmonton.

In brief, it is alleged that Minty was purporting to represent Mr. Hawes in the matter when he had already, unknown to Mr. Hawes, accepted a retainer from Clark and the Waterways people, to whom he proposed to sell the explosion in the Alberta Government, and it is likely that had there been no obstacles placed in the path of the promoters, a settlement would have been made.
