FIRST AND ALWAYS HE IS A CANADIAN

Dr. Atherton Promptly Shatters Standard's False Campaign Against Him

Shameful Falsehood Resorted to as Only Way To Make Attack Upon the Liberal Candidate in York County—In Dignified Manner He Gives Assertion a Most Emphatic Denial

The Fredericton correspondent of the St. John Standard, having no fault to find with Dr. A. B. Atherton, insinuated in that paper this morning that the Liberal candidate in York was "said to have strong leanings towards annexation."

"Now that I have entered politics I do not suppose I ought to take notice of what opposition newspapers say about me. In regard to this annexation story, however, you might say for me that when I graduated from an American College, instead of remaining in the United States to practice my profession as I might have done to advantage, I came to Canada and settled down among my own people."

HOW THE TORIES MANUFACTURE ARGUMENTS AGAINST RECIPROCITY
(Collier's Weekly).

Not long ago a carload of Buffalo sheep was sold in the Toronto market at 25 cents a hundredweight less than the Canadian farmer could do it for, but at a net loss of \$140 to the politician who paid for the smart trick.

Attempt to Free 400 Political Prisoners in Portugal—Sentries Overpowered, But Troops Upset the Plot

Lisbon, Aug. 21 (via frontier)—An attempt was made yesterday to release 400 political prisoners from the Limoeiro prison in this city. A mob attacked and overpowered the sentries but the troops were being wrenched off, troops arrived and the would-be deliverers fled.

ECHOES OF THE GREAT CAMPAIGN

"Don't you tell anybody, whisper it quietly, but Sir John was in favor of reciprocity."—Rev. Dr. Curman.

BOTH CAN'T BE TRUE.
(P. E. Island Farmer.)
The Tory "arguments" against reciprocity are very contradictory. In the country districts they are telling the farmers the under reciprocity United States produce will come into Canada in such quantities as will ruin the home market.

WILL HELP THE FARMERS.
(P. E. Island Farmer.)
Under the reciprocity agreement the duties on all farm implements brought in from the United States are to be reduced from 2 to 10 per cent. This will no doubt compel Canadian manufacturers of farm implements, who have become millionaires under protection, to reduce the price of Canadian-made implements to the same extent.

TORY FAVORS RECIPROCITY.
(P. E. Island Farmer.)
The MacLeod (Alberta) Conservative convention, John Herron, the member for Macleod, during the past seven years, went back on Borden's trade policy. On taking the nomination he said:

WILL SHUN THE WEST.
Ottawa, Aug. 21.—The Hon. Clifford Sifton, who has been here conferring with George Preley, the Conservative whip, and completing arrangements for his anti-reciprocity tour in Ontario, Quebec and the Maritime Provinces, has just returned to Ottawa.

"Wait!" shouted a third back-bencher.

GREAT LONDON JOURNAL SHOWS UP FOLLY OF CONSERVATIVE CAMPAIGN

(London Spectator)

It is childish to say to Canadians that if they and Americans both become richer through new opportunities of trading with each other, Canada will be guilty of a disloyal act to Great Britain. Of course we know that tariff reformers here do not say that directly; they put the blame on British governments. But there is no escaping the simple fact that, after all, the proposed reciprocity agreement is an instrument between the responsible governments of Washington and Ottawa.

(Canadian Press)
New York, Aug. 21.—A Paris cable to the Tribune this morning says—Though there is no foundation whatever for the rumor current in London last night that Germany had declared war against France, it is a fact that the Franco-German negotiation is most unsatisfactory.

Position of France
Paris, Aug. 21.—Although negotiations between France and Germany looking to a settlement of the Moroccan dispute have been suspended for the present, the attitude of the French foreign office is that a settlement will be arranged ultimately if inexhaustible patience and moderation on the part of France can bring it about.

UNITED STATES FARMERS SAY CANADA GETS ALL BENEFIT
(American Agriculturist, Organ of United States Farmers)

"It would seem to be a foregone conclusion that reciprocity will win in the Canadian elections by a vote of two to one. Why? Because this measure will enormously stimulate Canadian agriculture without in any way injuring Canadian manufacturers.

"If American Agriculturist were devoted to Canadian, instead of to American agricultural interests, it would spare no effort to secure a practically unanimous vote in Canada for the Liberal party and for its policy of reciprocity.

"We may as well go together. It'll be your turn if you stay long enough, and you may as well go now. I guess we must be a nest of traitors."

"That person out," said the Exalted Patriot. "Take his flag away from him. He is a traitor."

MARCONI WORKS ON NEW WONDER

Experimenting at Glace Bay With New Instrument He Has Invented to Improve System

(Glace Bay Gazette)
 Glace Bay may become even more famous within the next two weeks, through the instrumentality of Signor Marconi, the wireless wizard, who is to conduct a series of experiments at his wireless station there with a new and powerful instrument of his own invention. This invention, if successful, will greatly improve the present system and lessen the cost of Marconiograms all over the world.

The celebrated inventor, accompanied by Mrs. Marconi and his private secretary, Mr. McEwen, arrived in Sydney from Montreal on the I. O. R. express. He was met at Sydney by Mr. Wattmore, the local manager of the Glace Bay station, the party being conveyed to the Towers by a special S. & L. train.

When interviewed by a Gazette representative, Signor Marconi stated that he did not have much to say for publication at present. He was going to spend two weeks at the wireless station here, conducting a series of experiments with his new invention which he hoped would prove a greater success than any past experiments he had undertaken. Questions regarding the exact nature of the new instrument, and just what effect it would have in improving the present system, Mr. Marconi was very reticent, but stated that he hoped to break all previous records for long distance telegraphing. The greatest distance he has been able to send messages direct up to the present was from the coast of Ireland to Buenos Ayres in the Argentine Republic, a distance of 6000 miles. Experiments conducted at the Glace Bay station a short time ago, showed that the equipment there was capable of sending messages to Haly, a distance of 4000 miles. The new instrument has arrived in Glace Bay and will be erected at the towers immediately, when Mr. Marconi will commence his experiments at once.

Discussing the financial condition of the British Wireless Telegraph Company, Mr. Marconi stated the company was now doing a pretty successful business and paying dividends at the rate of 10 per cent. The present rate made for Marconiograms is 12 cents a word, but before that and the present year he expects with improved apparatus to cut these figures down to 10 cents a word.

On the way across from Liverpool Signor Marconi conducted a series of experiments with this, his latest invention, and kept up an unbroken communication with Haly on the Cornish coast, thus breaking the record for telegraphing at a distance of 2000 miles. He was particularly pleased at finding the messages received on board ship absolutely clear not having expected that they would be taken down so easily and believes that this addition to his scientific equipment will be of enormous importance and use.

Give the farmers, the lumbermen and fishermen their turn. Their prosperity means prosperity for the province.

BRITISH STRIKE IS SETTLED

This picture shows 17,000 dock strikers of London marching from the Connaught Gate to the East of London Docks. Mounted police are riding ahead to clear the way for the paraders. The dense crowd of spectators is of a typical East End kind. Since the picture was taken, 600,000 more railway men have been involved in the labor troubles. (Photograph by Underwood, N. Y.)

London, Aug. 20.-A great wave of relief swept over the country tonight when, shortly after 11 o'clock, the announcement was made from the Board of Trade offices that the railway strike had been settled and that the men would return to work immediately.

Most of the credit for settlement seems to rest on the shoulders of David Lloyd George, chancellor of the exchequer, who, in his statements to parliament and interviews with managers and the men, worked for conciliation when all others of the interested parties seemed to have given up.

A joint committee of five members, composed of two representatives of the railway companies, two of the men and a non-partisan chairman, will be appointed Tuesday to investigate the workings of the conciliation act of 1907, which the men claim is the root of all their grievances. This device overcomes the men's objections to a royal commission, which they contended, always has been in practice a synonym for delay.

Messages were sent to 1,800 branches of the labor union tonight saying: "The joint commission has settled the strike. It is a victory for trades unionism. All men must work immediately."

There is no doubt that today's affray at Llanelli, Wales, where troops fired on a mob killing two men and wounding two others, had much influence in ending the strike. The Liberal government had almost its existence at stake because the strike, as it depends on the working classes for its power. The shooting of citizens by the military occurred less than in the United Kingdom than in any other European country and is particularly repugnant to all classes. The settlement was reached at a conference between David Lloyd George, the chancellor of the exchequer, and the executive of the men's societies. Assurances have been given by both parties to the agreement that they will accept the findings of the commission, and the government has assured the railway companies that it will propose to parliament next session legislation providing that increase in the cost of labor due to improvement of conditions of the railways will be valid justification for a reasonable increase in charges within the legal maximum.

MONUMENT AT CATON'S ISLAND WAS UNVEILED SATURDAY

In spite of the disappointing weather conditions on Saturday, about 120 people, mostly members of the N. B. Historical and the Natural History societies went on the new ferry steamer Governor Carleton to Caton's Island, where a monument marking the first settlement of European in New Brunswick was unveiled.

The monument, which is a large slab of grey granite, is a simple but dignified structure. It is placed near the beach, where it is supposed the French pioneers from St. Malo landed their landing. A cairn of stones, piled in cement, forms the base of the monument, while a large slab of grey granite is nicely polished, surmounts the cairn.

Col. Sturges, Rev. Dr. Raymond, Dr. G. U. Hay, Dr. G. F. Matthew, James Lovell, and Mayor Frink were the speakers at the unveiling exercises. Dr. Matthew assisted by T. O'Brien, president of the N. B. Historical Society, unveiled the monument. The speakers for the most part dealt with the movement to have the cairn established there in fitting memory of an important event, and Mayor Frink made some remarks complimentary to the ladies who had interested themselves in the project of having a monument there, which he said, "was not the first good and commendable work done by the ladies of St. John."

James Lovell, the owner of Caton's Island, expressed pleasure at being present and was glad to see this monument started. He said he would be greatly pleased to meet the members of the New Brunswick Historical Society and give them a deed of the land upon which the monument stands, so that it may always be accessible to the general public.

On the way back to the city the members of the New Brunswick Historical Society passed resolutions thanking all who had helped to make the outing a success. These included: His worship the mayor and common council, chairman of the ferry committee, Superintendent of Ferries Waring, E. Mooney & Sons, members of Carleton Cornet Band, James Lovell, W. H. Thorne, James Holly and the following who lent the services of their motor and other boats in transporting the people to and from the island: Commodore Thomson, Herbert Roberts, C. Winter Brown, Walter White, G. H. V. Belyea; also to the ladies and Dr. R. Jack, who reserved refreshments. Various residents in the neighborhood who rendered services were also thanked.

Superintendent Waring was very much pleased with the running of the new ferry steamer Governor Carleton and expressed the opinion that she was thoroughly suited for the work she is to do. On this trip everything had passed off without a hitch, the boat being very steady in the heavy wind, encountered in Grand Bay, and the beach.

While going up river on the steamer, Rev. Dr. Raymond and Dr. Matthew gave talks on the history of the St. John river, which proved very interesting. Dr. Matthew gave a sketch of the geological formation along the St. John, while Dr. Raymond dealt with the settlement and early history of the river.

The Carleton Cornet Band played several selections during the trip.

All teas may look alike to you - but the difference in Red Rose Tea is in the taste and the smell. Another marked difference is the agreeable strength that puts real quality in the cup with less tea in the pot. Will you try it.

RED ROSE TEA "is good tea"

Canada's total trade with all countries last year was valued at \$769,094,389. More than half of it, or \$404,137,940 was in trade with the United States. Does that fact lessen our loyalty to the Empire?

The best way to build up the Empire is to build up Canada. Larger free markets for Canadian products will bring about the result.

SAYS MAN WITH REVOLVER ATTACKED HER IN OFFICE.

Miss Margaret J. MacLean, stenographer in J. A. Pugsley & Co's supply store, who was found bound and in a hysterical state on Friday night makes the statement that she was attacked by a man. Though still in a nervous state she was able yesterday to tell what happened. Her assailant was published in one of the papers. "It was while I was engaged writing this letter that a strange man entered the warehouse on Front office. It was usual for the customers to come from the warehouse in the office where I worked and on that account I did not go out when I heard the door open. All this time I was sitting with my back turned towards the door feeling that the man had no apparent intention of coming into the office. I got up from my seat at the typewriter and I then saw the man. I heard him say: 'If you move or make a noise, I will shoot you.' I became terrified and was unable to move. I supposed that he meant to rob the premises but knowing that he would find very little money in the office I reasoned that he would be nothing gained by attempting to raise a cry at perhaps the cost of my life. I immediately after making the man rushed up to me, tied a handkerchief over my mouth and then taking hold of my hands tied both of them behind my back. After this he threw me on the floor and with the revolver struck me over the forehead. As near as I can remember he hit me twice. After receiving the second blow I became unconscious and have very little memory of the incident. I know not the least idea how long I lay in an unconscious state. When I recovered I was in a daze and could not remember what had happened. As soon as I recovered my senses, I immediately after making the man rushed up to me, tied a handkerchief over my mouth and then taking hold of my hands tied both of them behind my back. After this he threw me on the floor and with the revolver struck me over the forehead. As near as I can remember he hit me twice. TORY CANDIDATE IN CARLETON COUNTY LET CAT OUT OF THE BAG

(Fredericton Mail.) A gentleman from an river who was in the city this week, tells a good story at the expense of the United States Tory candidate in Carleton County. "Oh," was the reply, "he said reciprocity was a good thing, they could not dispute that, but they had to stand up for the party."

AMUSEMENTS IN ST. JOHN; WHAT THE PLAYHOUSES OFFER

OPERA HOUSE. "Baby Mine," Margaret Mayo's finest of all funny plays, which comes to the Opera House for a four night engagement on Monday next, is now in its second year at the Vaudeville Theatre, London, where it has kept the stage in a whirlwind of matrimony since the opening night, and is likely to do there forever. "Baby Mine" comes to St. John under the direction of William A. Brady, Ltd. Everyone who sees "Baby Mine" is assured, will enjoy well afterwards and rise in good humor in the morning. Clean, wholesome laughter is very healthy; it makes the blood circulate and it cleanses the mind of peevishness, discontent and boredom. "Baby Mine" surely will shake your sides from their rise to drop the management declares. It is described as cleverly written, well staged, and is to have the best of the best of the best organization. In the cast are such favorite metropolitan players as Edw. MacQueen, John A. McCabe, J. H. Davis, F. O. Benson, A. G. Andrews, Nanon Welch, Elsa Von Beulow, May Fernal and Evelyn May.

THE GEM. A splendid opening bill is announced for presentation at the Gem Theatre today and tomorrow when, in addition to the usual fine programme of pictures, the orchestra will play a few new selections, and Jack Morrissey will sing "The Honey Moon Glide." The leading picture number is declared a thrilling story of the western wilderness produced by the Essanay Co., entitled "The Backwoodsman's Suspicion," or "The Faithful Wife." It is a story of the jealous love of a backwoods husband for his pretty wife, which jealousy is intensified when a young actress, searching for them attempts to teach her grammar, causing situations which darken the husband's mind. A comedy with a sting of the dramatic element in life is offered by the Vitagraph Co. in "The Latent Spark" the story of a child over the top of a father is illustrated in Selig's domestic story "Unto Us a Child is Born" and shows a happy reunion of a family couple separated through a mistake.

THE UNIQUE. Visitors to the Unique Theatre today will be transported to the country, mid the features of the farm and there be told one of the sweetest stories yet by the "Theatrical Company" under the name of "Man Fears." It will bring back all the memories of camp life and past vacations and to those who have not had a holiday coming it will be an index of the good time in store for them. A rare experience will also be offered today that of looking at the national Fete de Paris held on July 14 from the dirigible airship "Adjutant France." There will come a trip to the tobacco fields of Cuba where another excellent drama will be unfolding the Imp Co. "A Penitent Prince." The picture shows also contains some excellent features. Miss Gertrude Mann will enter upon the final week of her engagement, and the descriptive home song, "Where is My Wanderer Boy Tonight?"

FOWLER'S AUTO IS TOWED OUT OF TROUBLE ON THE HAZEN ROADS

Serious State of Affairs at West Quaco Where Delayed Bridge Works Leaves Danger of Fatality

Strenuous complaint is being made by the residents of West Quaco, and those who have to use the roadway there, about the condition of "what" is supposed to be a bridge across the Mosher Creek. When a Frederickton man was given the contract to construct a new bridge with concrete piers it was expected that the conditions would be improved but the bridge is now declared of less benefit than it was formerly, because it is said the contractor tore away the old bridge, and erected a temporary foot crossing. This has not been improved upon for three weeks and trains are compelled to ford the stream which at low water is some five feet deep and at high water as much as eight, with the fording place fifty feet wide.

At night the residents say there are two lanterns, one at each end of the bridge, and no light to show where the teams should cross in order to avoid the deep water. There have been one or two narrow escapes from accidents, and to strangers passing that way, the crossing is particularly hazardous and there is danger of a fatality.

Where the teams now cross is where vessels were built some years ago. It would be impossible for automobiles to make the crossing and any motoring parties from St. John are advised not to go by way of the Mosher Creek.

For three weeks this condition of affairs has been endured by the people of the locality, and so far only an abatement has been partly completed, some of the "faithful" being at work, and it is expected it will be easily three weeks longer before the inconveniences will be lessened.

The roadway is the main thoroughfare between St. John and St. Martins. This does not speak well for the "better roads" planned by the government, and one of Mr. Hazen's friends was probably impressed with the fine policy of the government in that regard last week when he had an unpleasant experience in fording the stream.

On August 14 George W. Fowler, of Sussex, was passing with a party from Sussex and attempted to cross the stream, but as it was too deep, he abandoned the idea, and his automobile was pulled ashore by a team of horses.

TWELVE ON BENCH

Drunkennes Charge Against Most of Them in Police Court Today

No less than twelve prisoners occupied the bench in the police court this morning. The most of them were charged with drunkenness. The first man up was Sam Watson, a sailor, who was charged by Captain Frankland of the S. S. Norton with refusing duty on the ship and also with obstructing the fisheries and in their work. He admitted being drunk and was remanded, William Kennedy and Andrew Jensen, two shipmen of Westcott's, were also before the court, charged with absenting themselves from the ship without leave. They, too, were remanded.

George McNeill, charged with assaulting John Withers in Charlotte street on Saturday night was fined \$20 or two months in jail. The assault took place in front of the Lyric theatre about 7 o'clock. McNeill is claimed struck the other man on the head and knocked him down. In falling he struck his head on the curbstone and received a bad gash. James McLaughlin was charged with being drunk in King Square and also with destroying the flower beds there. He pleaded guilty to the first charge and was fined \$8. He was remanded on the other charge, and was told by the court that if found guilty he was liable to a heavy fine.

John Thompson and John Mudge were fined \$8 or two months in jail with hard labor on the charge of drunkenness and Samuel Arsenau, William Dalton, Patrick Murphy and Charles Clarkson, \$5 or thirty days in jail with hard labor on the same charge. David Werang, a foreigner, was remanded on a like charge.

John Jones, reported for driving a motor cycle in the city without a light, was fined \$5. He was told that he was liable to a fine of \$25.

The case against Harry Short, arrested on suspicion of assault on Gladys Swineman, a four year old girl, will be given a further hearing this afternoon.

CAMPAIGN LIAR GETS EARLY START

A fake story that originated in Conservative circles was current in the city last evening to the effect that Sir Wilfrid Laurier had been assassinated. So persistent was the rumor, and so frequent were telephone calls of enquiry that a wire was sent to Montreal and the answer promptly received that there was no foundation whatever for the story, which was utterly false in every particular.
