YUKON'S DANCE HALLS REEK WITH IMMORALITY

Cemeteries and Court Records Cry Out Against These Licensed Dens of Vice—Disgraceful Conditions Described by Rev. John Pringle, the Presbyterian Missionary.

To the Editor of the Toronto News: I desire through the columns of your paper to expose to the Canadian people and to their government at Ottawa the evil institution which exists here unchecked and unheeded by those in power. It is a disgrace to us, an outrage upon the common sense of the people of Canada, yet, though infamous and intolerable, has the sanction of law. I refer to what is popularly known as the "dance hall," which, by a euphemism born in the fertile and polite mind of the Commissioner who legalized it, is known as the "music hall." Two of them are licensed in Dawson. They are in plain English dives of the worst kind, herding places for prostitutes of the lowest and most dangerous class. They are in the heart of the city on Front street, traps always set, but made especially seductive and enticing by the music which falls when men who have spent months in the most wearing toil come to the city with the fruit of their toil, weary and out of heart, and are met at every point by the seductive snares of liquor and lust combined.

The fiction which obtains here is that prostitutes are not allowed to reside in the city, but are permitted to ply their calling across the river in Klondike City.

SWARM ON THE STREETS.

The fact is that those whom one of our Commissioners, now Senator J. H. Ross, described from his place in the Yukon Council as "the most dangerous class of prostitutes, compared with whom the women in Klondike are princesses," swarm on our streets there were fifty-five of them in one establishment last spring—and here in the two music halls, the Orpheum and the Florida. They exist for the express purpose of taking men down the line and robbing them of their manhood and money. The sergeant of the town police station said to me a few days ago, "Cut out those two dance halls and I will police this town myself, for all the pimps, crooks and rascals would go with them. Within three weeks, one man, a miner, to my knowledge lost \$600 in an afternoon, and another, working for wages \$500 in a few hours, because of them. One who was robbed, take your medicine and do not squelk. A year ago last fall, two men, one of them a Canadian, committed suicide within three weeks, both immediately after the dance halls had done their work upon them. For as a police officer said to me a few days ago, "A large proportion of the suicides here are dance hall fruit," or, as another and prominent official remarked, "The cemeteries and the court records cry out against them."

UNMENTIONABLE ORGIES.

A slighting is shed upon the fitness and high moral ideas of the License Department here by the fact that the notorious woman who figured at the request in one of these cases holds the license for the "Old Inn," the scene of many unmentionable orgies. The Liberal, appeared at a farewell dinner given to a parting dance hall woman a few months ago, and the legalized music halls are both in the Yukon of the same high-minded commissioner.

In 1902 Commissioner, now Senator Ross, practically compelled the passage of an ordinance—there is no other explanation of its passage in the light of antecedent and subsequent events—which absolutely prohibited the presence of lewd women in licensed houses. It promised to ameliorate the condition of which we complained. Two months afterwards, the Commissioner being ill and unconscious at Whitehorse, the Acting Commissioner, now a judge in Saskatchewan, called a special meeting of the council and annulled the ordinance. The ordinance and the amendment to it are here in black and white to prove the truth of what I say. But it was going the limit to pass an ordinance licensing what everyone here knows is the lowest and most dangerous form of prostitution. We shall doubtless very soon have the privilege under the law of reading in our homes an advertisement such as greeted our eyes a year ago: "Thirty fresh girls coming in over the ice." There are about 200 scholars in the Public and Separate Schools of Dawson. No children anywhere are more promising, more vigorous in body and mind. How much longer are they to breathe this vile moral atmosphere which the law itself has created?

GOVERNMENT AWARE OF CONDITIONS.

The members of the government at Ottawa are aware of this condition. Again and again they have been appealed to, to rid us of this menace and disgrace, without result, without in some cases the courtesy of a reply. The latest answer is, that the licensing power has been delegated to the Yukon Council and that therefore, the federal authorities have no jurisdiction. Has there been delegates to the Yukon Council, or any other inferior legisla-

tive body, the power to frame inquiry by a law, to license prostitution in contravention of the criminal law of Canada?

But what is the Yukon Council? It is a body composed of eleven men, six appointed by the federal government, five elected by the people of the Yukon. It is therefore a subterfuge for a member of the cabinet to say that the government has no jurisdiction in this matter. If the men who are appointed to serve on the Yukon Council will not serve the moral interests of the people of the Yukon—and to be perfectly frank they are the last interests we should expect some of them to serve—let the government appoint those who will, or tell the present appointed members, all government officials that, if they permit this infamy to exist any longer under cover of an ordinance, their positions will be to let. They have shown themselves to be the subversive tools of the worst executive we ever had, in the perpetration of a wrong. Let the government tell them, if they are ignorant where the place stands here, and of all who are the enemies of immorality—and they constitute the majority of our people—appeal to the people of the East to help us stamp out this infamous and intolerable condition.

CLEAN MAN FOR COMMISSIONER.

I have a few words more to say. We are without a commissioner. Doubtless within a month or two an appointment will be made. Much depends upon the personal character and moral ideals of the executive. Send us a man to whom a drunken orgy will be but an incident among other things, a man who has no moral ideals, or who has ceased to regard them; who will prostitute the moral and material interests of the people to private or party exigencies; who will lead a lewd life before the people whose interests he is appointed to serve; who is by habit or business allied to the lowest elements of our social life—let the Government send such an one and discontent will persist and grow. Nemeses will run abreast of him from the start, and may thrust itself across the path of those who send him. The wicked walk on every side when the vilest men are exalted.

But give us a clean, sane, upright man, who will frown upon vice in official and private life alike, whose life itself will be a rebuke to the drunkenness, lust, gambling and graft, which have been our shame; who has high moral ideals and the courage to move persistently if slowly toward their realization, and he will effect the contentment of the great mass of our people as to moral and material interests alike.

John Pringle,
Presbyterian Minister,
Dawson City, Feb., 1907.

In connection with the above letter the following despatch from Ottawa is of interest:

"Senator Ferguson has given notice of the following significant queries: 'Is the Government aware that the Yukon Council, one-half of which is composed of appointments of the Government, and which is presided over by one of their officers, has granted licenses to at least two retail liquor shops in Dawson City, in connection with which immoral entertainments and practices are openly conducted? If the Government is not in possession of information on the subject will they cause an investigation to be made?'"

WOMEN'S MISSIONARY SOCIETY MEETS AT CHIPMAN.

CHIPMAN, N. B., March 13.—The W. M. S. in connection with the fifth district met in the Baptist Church at Chipman, N. B., on Wednesday, March 13th. Mrs. E. E. Crandall conducted the meeting. Quite a number of ladies from the different societies in the district were present. The meeting opened with a Bible reading by Mrs. M. G. McLean. Encouraging reports were received from Aids and Bands and a message read from Mrs. M. S. Cox, provincial secretary of New Brunswick. Papers and addresses on the different phases of missionary work were given by Mrs. Wayman of Apohaqui, Mrs. Todd of the Narrows, and Mrs. W. E. McIntyre of St. John. A solo was rendered by Mrs. Roy Miller. Much interest was added to the meeting by the presence of the Mission Band of Chipman under the efficient care of Mrs. G. H. King. Six boys of the band were presented with membership certificates, the presentation being made in earnest, helpful words by the pastor, Rev. Milton Addison. Rev. C. Currie of Newcastle, who was in attendance, also took part in the exercises.

THE POLISH HE NEEDED.

"I stopped down the street," said the man who prided himself on being blunt, "to get a polish on my shoes."

"Don't you think," asked his sarcastic companion, "that you begot at the wrong end?"—Baltimore American.

DOUBLE MURDER WAS COMMITTED.

GREENVILLE, Me., March 13.—A double murder was committed previous to the fire at the state fish hatchery on Moosehead Lake Monday, declares Dr. Hatch tonight at the conclusion of the adjourned session of the coroner's jury. He stated that at a second post-mortem examination this afternoon, on the body of A. W. Wilkins, the deposed superintendent, he found a bullet wound in the head of such a nature that, like that in Supt. Arthur L. Hershey's head, it could not have been self-inflicted, and his judgment, this evidence caused a change in the theory that there had been a murder and suicide.

The attention of the jury this afternoon was devoted principally to the autopsy and consideration of its results. The bullet entered Wilkins' head from one-half to three-quarters of an inch above the left ear and from one to one and a half inches to the left of the middle line of the skull, and passed into the brain, nearest the centre of that organ in a direction toward the right side. This made an angle impossible for a wound inflicted by Wilkins for the reason he was right handed, according to his brother, who arrived today. The bullet in Hershey's head entered through the top. Mr. Wilkins testified that his brother was not excited and not subject to fits of insanity.

Today's developments seemed to deepen the mystery and the county details have redoubled their efforts to solve it. If there was a double murder, they are unable to supply a possible motive for it. No money or valuables to attract robbers were kept on the place and it is not known that either man had any enemies. At first the officials thought there were two tracks about the place, but now they are not so sure but that there were some and they were obliterated.

SHOPPING.

There is nothing finer for the tempter than a new hat, no baler for hurt feelings than a fresh seaweed. Ordering new frocks takes a woman out of herself, but a woman out of her shopping, and the result may be disastrous.—London World.

SYNOPSIS OF CANADIAN NORTH-WEST
HOMESTEAD REGULATIONS

Any numbered section of Dom-
inion Lands in Manitoba, Saskatche-
wan and Alberta, excepting 5 and 24,
not reserved, may be homesteaded by
any person who is the sole head of a
family, or any male over 18 years of
age, to the extent of one-quarter sec-
tion of 160 acres, more or less.

Entry must be made personally, at
the local land office in the district in
which the land is situated.

The homesteader is required to per-
form the conditions connected there-
with under one of the following plans:

(1) At least six months' residence
upon and cultivation of the land in
each year for three years.

(2) If the father or mother, if the
father is deceased, of the homesteader
resides upon a farm in the vicinity of
the land entered for, the requirements
as to residence may be satisfied by
such person residing with the father or
mother.

(3) If the settler has his permanent
residence upon farming land owned by
him in the vicinity of the homestead,
the requirements as to residence may
be satisfied by residence upon the said
land.

Six months' notice in writing should
be given to the Commissioner of
Dominion Lands at Ottawa of intention
to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior,
N.B.—Unauthorized publication of
this advertisement will not be paid for.

NO IRISH CITIZEN ARMY.

Significant Omission in Haldane's New
Scheme—Price of Home Rule.

LONDON, March 15.—The Express
says it learns that Ireland will prob-
ably be debared from the right to fur-
nish its share of territorial soldiers
under Secretary of War Haldane's new
reorganization scheme. It says more
or less directly that the govern-
ment is unwilling to trust Ireland to
train citizens as soldiers, although it
is prepared to grant her a large meas-
ure of home rule.

Remembering that the Irish members
of Parliament did not comment in the
House of Commons on this shelving
of the Irish part of the army
scheme, the Express adds that it would
seem as if home rule were the price of
silence on the question, which is prac-
tically a slur on the trustworthiness of
the Irish as troops.

ST. JOHN STAR.

ST. JOHN, N. B., MARCH 14, 1907.

QUEBEC IN LINE.

The announcement that a system of
technical education will in the near
future be established in Nova Scotia,
is followed by a similar declaration by
Premier Gouin, of Quebec, who like
Premier Murray, has gone carefully
into the subject and has presented a
detailed scheme for this undertaking in
his province.

Mr. Gouin's last week placed before
the Quebec legislature his ideas on the
subject, and stated that three technical
schools would be at once established,
two in Montreal and one in Quebec
city. Upon the success of these insti-
tutions will depend the further ex-
tension of the system, and it is antici-
pated that before very long every in-
dustrial and commercial centre in the
province will possess at least one such
school.

The value of technical education in
these days of keen business competi-
tion cannot be overestimated. It is
desirable that any country should pro-
duce scholars, men capable of taking
foremost places in science and art,
but it is imperative that we should
also produce many others who are
qualified to enter the more material
occupations, men who can produce, who
can originate and who can add to the
economic wealth by well directed ef-
forts. Such is the duty of technical
schools, and the fact that these insti-
tutions if properly conducted play a
most important part in the prosperity
of a nation is evidenced by the some-
what remarkable success of those
countries which have adopted the sys-
tem. The best educated people are the
leaders today. Germany was the first
to take up this principle, not by gov-
ernment policy, but by means of
smaller organizations throughout the
country. Technical education is now
general, and Germany's exports of
manufactured goods have increased 71
percent during the past fifteen years.
Belgium was next in order to realize
the advantages of this form of instruc-
tion. Belgium's exports in fifteen
years have shown an increase of 57
percent. Britain was the last to
adopt this principle. British ex-
ports have increased 38 percent, French
imports 27 percent, in fifteen years. A
portion of these increases is of course
due to the natural expansion of inter-
national trade, but it is equally true
that the countries which have adopted
technical and commercial training as a
part of their educational systems have
captured proportionately the larger
shares of such increases.

Technical and commercial schools
provide not laborers, not apprentices,
but capable men who are qualified to
occupy positions as head men of in-
dustrial establishments, who supply
the accurate and practical
knowledge required in all branches of
commerce, who can direct, in the most
economical manner all branches of in-
dustry, and who by the development
of the country's natural wealth add to
its general prosperity.

FILING ON THE AGONY.

The suggested amendment to the
ward system bill provides for the elec-
tion of nineteen aldermen instead of
fifteen as at present. Just now there
are ten too many. Aldermen receive
two hundred dollars a year each. Some
of the present board deserve many
times this amount, while as to the
others—and these form the majority—
it would pay the city better to give them
the two hundred as an inducement to
stay away from city hall. The board as
it at present exists is a cumbersome
aggregation, and with four new mem-
bers it would be unwieldy. It would
also mean an additional outlay of eight
hundred dollars a year, money thrown
away. The feature in the amendment
which is receiving support is that by
the election of six aldermen at large
the formation of cliques among ward
representatives may be prevented.
The ward aldermen may in a simi-
lar manner be a check on the others.
This seems weak. It may possibly have
the effect predicted but may also re-
sult in multiplying the possibilities of
such combinations.

"TWENTY THREE"

Frederick seems to have won in the
severage disposal question; the legis-
lature has over-ruled the decision of
the provincial board of health; and a
bad precedent has been established. The
legislators, qualified no doubt, for all ordi-
nary matters of government, can scarcely
be regarded as experts on sanitation
and the ruling of those twenty-
three—the number is suggestive—may
well be open to criticism in the pres-
ent case being totally opposed to that
of a board thoroughly versed in such
matters. The effect of yesterday's vote
will be far reaching, and the pre-
sented Frederick is only opening
the way for endless complications in
the future.

A young woman in Frederick com-
mitted suicide yesterday. She had been
dishonored. The coroner has decided
not to hold an inquest. In so far as
the actual cause of death is concerned
no enquiry is needed, but what led this
unhappy girl to such an act? She is
lying dead. How about the man in the
case?

ST. PETERSBURG, March 13.—Kru-
shovian, a member of the Duma, who
is notorious as the leader of the Anti-
Semites at Kishineff, has telegraphed
to the Union of the Russian People at
that place describing the Duma as a
rabble, with a melon headed president
who is under the thumb of the Jews.

LUMBER CAMP ISOLATED
BECAUSE OF DIPHTHERIA

Over 200 Woodsmen Held in Camp Near
Bemis, Me.

RUMFORD FALLS, Me., March 13.—
At the request of Dr. A. G. Young, sec-
retary of the State Board of Health,
the lumber camps of Cummings Broth-
ers & Carter, containing over 200
woodsmen, were quarantined today for
diphtheria.

It was learned that in the past three
weeks numbers of men have been taken
sick and left for their homes. Two of
them were brought here in critica! con-
dition.

One of them, Arthur McWilliams, of
Bridges Island, died last night and
the other is just alive. The camps
are located near Bemis and in Frank-
lin county.

DREADNOUGHT DEFECTS.
Private Letters Complain of Boats'
Room Heat and Poor Manoeuvring.

LONDON, March 12.—The Chronicle
says that the official accounts of the
Dreadnought's behavior on her trip to
Tribland are not altogether supported
by private letters.

The engine and turbines worked ad-
mirably, but the heat in the engine
room exceeded anything ever experi-
enced by those on board. The staff suf-
fered severely.

Owing to her great size, her man-
oeuvring qualities are not so good as
those of the smaller ships. She cannot
keep her station with respect to ships
with reciprocating engines at twenty knots.

RAN WITH CORPSE IN
ARMS; THEN FELL DEAD.

TOCOPOLO, Miss., March 13.—A
tragic event occurred between here and
Pontotoc Saturday. A little boy, the
son of Mrs. Charles Moulding, of
Spring Hill, Miss., was playing in a
sage field, which was on fire, and got
gloriously at the crowning moment of
his career, and snatching him up, brought
him to the house. Going to the mirror, she
herself dropped dead after exclaiming,
"My boy is dead!"

IT'S YOUR LIVER.
If your tongue is coated and
your complexion is muddy or sal-
low, your liver is out of order.
Headache, indigestion and a vari-
ety of troubles will result unless
you help the liver. You can help
it quickly and most thoroughly
by using Brown's Cascara Tab-
lets.

EVANS IS DEAD.
Fried Michaud, of Caswell, Me., Now Faces
Murder Proposition.

LIMESTONE, Me., Mar. 13.—Thomas
Evans was so pleased with the lively
dinner at Caswell, Me., on March 11,
that he died in the hospital at St. Basil, N. B.,
Monday morning from the wound
suffering from a heavy charge of buck-
shot in the abdomen.

The affair grew out of a quarrel
Evans being on Michaud's premises at
the time. Michaud is now in Houlton
jail, awaiting the action of the grand
jury. Evans made an anonymous
statement last Thursday to Justice
Charles A. Berry of this town.

It has not been made public, fur-
ther than that Evans admitted that he
was partly to blame, but not wholly.
He said he thought Michaud was not
all right in his mind. Evans was 23
years old and a widow survives.

POINT FAIRFIELD, Me., March 12.—
Three physicians, Drs. Damon of Lime-
stone and Thomas and Simecock of
Caribou held an autopsy on the body
of Thomas Evans at Caswell Planta-
tion today and gave a decision that
death was caused by gunshot wounds
inflicted by Fred Michaud, Evans was
shot March 11 and died yesterday in a
hospital at St. Basil, a village over
the New Brunswick line. Michaud is
in jail at Houlton awaiting the action
of the April term of the grand jury.
It is probable that no inquest will be
held.

MILAN, March 12.—The village of
Altoce has been visited by an outbreak
of cerebral spinal meningitis. This is
the first time this fever has made its
appearance in Italy. Six deaths have
already occurred in Altoce and many
people are moving away from the vil-
lage. The fever appears to have been
brought in from Switzerland.

DEATHS.
ELDER—At Los Angeles, California,
on the 12th inst., Mrs. John Leonard, 71
years of age, formerly of this city, in the
73rd year of her age.

DICKSON—On March 13th, at the
Brook street, Margaret, widow of
Capt. Alfred Dickson, in the 88th year
of her age, leaving three sons and one
brother to mourn her sad loss.
Notice of funeral hereafter.

WOODS—Entered into rest, March
12th, Frank Horne, only son of
Bertha T. and the late Francis E.
Woods, in his 20th year.

SMITH—In this city on the 14th inst.,
Caroline Smith, widow of the late
Daniel N. Smith, of McDonald's Point,
aged 77 years.

Funeral service at the residence of C.
T. Estley, 121 Princess street, Friday
evening at 8 o'clock. Interment at
McDonald's Point, Saturday.

RAFFERTY—In this city, on the
14th inst., James Rafferty, in the 60th
year of his age, leaving a wife, two
sons and one daughter to mourn
their loss.
Funeral from his late residence, 223
Waterloo street, on Sunday, at 2.30.
Friends invited to attend.

JEWS IN EUROPE.
Most Successful Bomb Outrages Charged
to Their Account.

(From the Guardian.)
Roughly speaking, the Semites in
Europe may be divided into Span-
ish-Jews and Polish-Jews, repre-
senting the two great branches of the
Hebrew race. It was in Poland that
the Semites found a refuge when
hunted and hustled out of every other
country in Europe. That King of Pol-
and who extended to them tolerance
and hospitality is now known to be
doing. About 14 per cent. of the
present population of Russian Poland—
not to speak of the slices of that an-
cient kingdom now appertaining to
Prussia and Austria—are of the blood
of Israel; and at Warsaw, for exam-
ple, this people may now be seen in
all its pristine purity of race at least,
if not of person. A visit to the ghetto
of Warsaw takes the tourist, as if by
a single step, back to the Dark Ages,
and even to pre-Christian times.

Warsaw is the racial reservoir from
which, directly or indirectly, flow the
various streams and streams of the
Semites who find their way to the
Thames or to the bay of New York.
It was once said that Jewishness is
a part of the westward current of
Jews from Poland, and that all the
insanity and immorality of Europe
is due to the Jewish race.

In Poland itself the Jews are the
love of freedom which compels these
emigrants to seek their fortune over-
seas, but it can scarcely be said that
they are not among the unemployed.

Many of them look to London or
New York as the Zion of their
dreams, and to Jerusalem itself as
the renovated capital of their repa-
triated race. On the other hand, it
is not true that they are not in Pol-
and. In Poland itself the Jews are
a Semitic imperium in a Slavonic im-
perio, for this is the meaning of the
Jewish nationalism which has begun
to assert itself so energetically within
the last six years.

Such money propaganda is carried
on by Jewish factors, who obtain en-
trance into all the garrisons and for-
tresses, and by Jew agents, who are
sent to the front to act as a
helpful to the Bund as the revolver,
which is smuggled into the country by
the Jews in immense numbers. "The
past year have been perpetrated by
Jews"—as Bow Street police court has
also helped to testify. That is a very
significant fact, which goes far to
account for the "pogroms" of Belos-
tok and other places—that, and the
popular belief that all the Jews are
rich and a natural prey of those who
are not.

"That thou killed a Jew" a
man in Poland is asked when he laun-
ches out into unwonted extravagance.
But the point to be noted is that the
revolutionary party not only in Pol-
and but throughout the rest of Russia
is largely recruited from the Jews, who
are all the more dangerous by reason
of their superior brains. It is not to
be doubted that the recent troubles in
Russia have to a very large extent
been engineered and fomented by the
Jewish portion of the Russian people,
and the misery of every place and
of a society from which they have had
to suffer.

COMPANIONSHIP OF BOOKS.
"Will you go and gossip with your
housemaid or your stable boy when
you may talk with kings and queens
and the mighty of every place and
time? Into that you may place al-
ways, in that you may take fellow-
ship and rank according to your wish.
From that, once entered into it, you
can never be ousted but by your own
fault."—John Ruskin.

JOHN ALEXANDER DOWIE;
SKETCH OF HIS CHARACTER

(Small and Empire.)
Death comes as a melancholy anti-
climax to the career of John Alexan-
der Dowie, the founder of Zion City,
and one of the most widely known re-
ligious leaders of his day. He died
gloriously at the crowning moment of
his career, when he led his hosts to
New York in 1903. He would have been
canonized by his followers, and the
movement that he represented would
have been only stimulated by the
event. Now that movement is nei-
ther stimulated nor retarded. It is no
longer a force to be reckoned with by
reformers or politicians. Separated from
his family, deserted by his lieutenants
followed by the announcement that
he was arrested a hundred times for vio-
lating city ordinances. He was peiled
in the streets and lampoons in the
newspapers, with the inevitable result
that his little sect grew. Eight years of
this kind of treatment in Chicago were
followed by the announcement that
Dowie had lost of money, and a
change came over the susceptible pub-
lic mind. He established a new indus-
try, that of making lace, and was
hailed enthusiastically as a public
benefactor.

HE MADE MILLIONS.
Other factories were started in the
model city on the shores of Lake Michi-
gan, and soon the Dowie empire was
prosperity, for Dowie Elijah himself
admitted that he had made \$5,000,000
out of the enterprises. He made the
announcement at a meeting, and said:
"Do you not believe God intended I
should have money?"
"Yes," cried the congregation as one
voice, although many of them were in
poor circumstances themselves. The
incident shows the mastery of
Dowie. The stockholders had to sur-
render all power of administration to
him, and each signed a contract wal-
ling the right to examine the books
without his consent. Dowie's name was
on every wagon and store in the place.
He was Zion City.

THE NEW YORK FAILURE.
The beginning of his downfall was
the failure of his spectacular crusade in
New York City. He invaded the metrop-
olis with hundreds of followers, and
engaged Madison Square Garden for
his meetings. The newspapers were
filled with anticipations of his visit,
and hundreds of thousands of people
were prepared for a great revival. But
the crusade fell flat. New York was
curious, but critical, and Dowie's ex-
travagant denunciations of those who
did not agree with him made the fail-
ure ridiculous. Dowie's health began
to fail, and, appointing Voliva his su-
perintendent, he took a trip round the
world. Thereafter misfortunes crowd-
ed thick upon him.

A CHRISTIAN MAN.
That the world is any the worse for
his life and example we do not believe.
A Chicago attorney thus pronounced
his obituary.
"Personally I entertained the highest
regard for Dr. Dowie, and have no hesi-
tation in saying after several months
of very intimate association, that I
considered him the most sincere, the
most devout, and the most conscien-
tious Christian man I have ever met.
His greatest weakness was that he
was liberal and generous to a fault."

THE STAR, ST. JOHN, N. B. THURSDAY, MARCH 14, 1907.

ONLY MASSES OF CHARR'D FLESH

Fifty Bodies Were Recovered During Yesterday.

Relatives of the Men Killed in Warship Explosion at Toulon Crazed With Grief.

Toulon, March 13.—The efforts to recover the bodies of those killed by the explosion on board the French battleship Iena here yesterday, which have been conducted with energy for 24 hours, have not yet resulted in definitely fixing the number of casualties. But after the last roll call tonight there were still unaccounted for eight officers and one hundred and ten men. There is little doubt that all these missing men perished. The roll call was applied only to the crew of the Iena, but as it is believed that some 22 or 23 arsenal hands were engaged on board the battleship at the time of the explosion, it is feared that the total number of dead will reach one hundred and twenty. In the morning a naval hospital here was instructed tonight to prepare mortuary space for one hundred and twenty bodies.

Minister of Marine Thomson made a second visit to the Iena late today, after the dry dock had been emptied of water, and made a careful examination of every part of the battleship that was accessible. The interior steel planking and the partitions of the battleship show signs of having been subjected to enormous pressure. In many cases they are bulged out or indented. The gap in the side of the vessel acted as a safety valve for the vast volume of gas generated by the burning powder, without which the explosion would have had even more disastrous results.

All day long weeping mothers, wives and other relatives of the missing men thronged the approach to the hospital, and those that loved were still alive, and eagerly scanning the stretchers that were brought in.

Fifty bodies were recovered during the day, but only twelve of them could be recognized. The remainder were formless masses of charred flesh.

At 7 o'clock the Minister Thomson was revived by a rumor that several men had been brought out alive, but unfortunately this proved to be untrue.

After the roll call Minister Thomson reviewed the survivors and addressed to them a few touching words, after which the men who were engaged in searching the vessel for bodies of their task, at which they will work all night.

Two of the wounded died in the hospital this evening and others are expected to die within a few days.

The prince of the Asturias, a brother-in-law of King Alfonso of Spain, has arrived here to convey the condolences of his majesty to the French navy and to visit Rear Admiral Mancosen, who was wounded. The rear admiral attended King Alfonso during his majesty's visit to France.

At 7 o'clock the Minister Thomson was revived by a rumor that several men had been brought out alive, but unfortunately this proved to be untrue.

After the roll call Minister Thomson reviewed the survivors and addressed to them a few touching words, after which the men who were engaged in searching the vessel for bodies of their task, at which they will work all night.

Two of the wounded died in the hospital this evening and others are expected to die within a few days.

FREDERICTON WINS ITS CASE

Legislature Approves Dumping Sewage in River

By Vote of 23 to 19 Members Pass Resolution Making St. John River a Sewer.

FREDERICTON, N. B., March 13.—The house met at three o'clock. On motion of Hon. Mr. Sweeney the bill to authorize the issuing of debentures by the city of Moncton was referred to the committee of the whole to correct a verbal error agreed to, reported to the house and passed.

Hon. Mr. Pugsley in reply to inquiry by Mr. Hazen, said the amount due to Bank of N. B. A. at 14th February, 1917, was \$1,043,153.98, of which amount \$899,408.11 was for capital expenditure authorized by law. The rate of interest charged by the Bank of N. B. A. is 5 per cent. net daily balance.

There was due to Bank of N. B. St. John, on Provincial Hospital account at same date, \$49,877.77 at 5 per cent; and at credit of sinking fund in People's Bank of N. B., Fredericton, the sum of \$13,879.48.

Hon. Mr. Pugsley presented the petition of Thos. McAvity and many others against any change in the St. John civic elections until the question was first submitted to the people.

Mr. Currie introduced a bill relating to the valuation of the Parish of St. Mary's and a bill to change the date of holding municipal elections in York.

Mr. Clark presented a petition of J. Sutton Clark and others for a bill to incorporate the Canada Atlantic Terminal Railway Co.

Mr. Hill favored Fredericton. Renewing the debate on the Fredericton sewerage question Hon. Mr. Hill favored Fredericton's claim. He said: I read some short time ago a decision of one of the judges of the supreme court of the United States on a question similar to this one, and he laid it down as beyond question that the city of that country were a natural drainage system and it was out of the bounds of reason that any town which happened to be locally situated below another should have power to deprive the latter of the advantages which nature had provided.

This is a matter of interest to the whole province and not to Fredericton only. The hon. member for Sunbury said that some 50 or 100 families would be affected in that county alone if the sewage was allowed to go to the river. In Fredericton who will be affected if it does not. What about the doctrine of the greatest good to the greatest number? In my own neighborhood we had something of a similar difficulty, but we set about to help ourselves and the people of Sunbury county must do the same. I cannot believe that it is so impossible to obtain a supply of water as the opponents of the resolution would have us believe, and I regard it as only just and equitable, and in the interests of fair play, to vote for the resolution.

Defending the River. Mr. Glaser—if the resolution which has been proposed by the member for York is carried and the sewage from the city allowed to be discharged into the river, then I say that a great injustice will be done, not only to the people living on the banks of the river below the city, but also to parts of the city itself.

The proposed outfall is just below the bridge, but the city extends more than three miles below that point, and how are the hundreds of people living in that portion of it going to fare? I don't think the city have adopted the best system they could have done at all. They took the matter into their own hands and proceeded to do to the enormous expense they did without even asking the permission of the Board of Health, which they knew very well they had to do, and then when they have spent all this money they seem surprised that the board should stop them going any further. At the inquiry it was proved beyond doubt that there are hundreds of families who have no other source of supply but the river; they don't use that water from the choice, but simply because they can't get any anywhere else. Even Dr. Atherton, one of the city's own doctors, calls attention to the public press to the increase of pollution of the river and the great danger arising from it. The hon. member for Charlotte says we must get our water from some other source. Well, if we can't get it we can't, and there the matter ends.

I wish to say that it will be a bad day for all the people living on the banks of the river when Fredericton sewage is allowed to be turned into it.

MR. MYLES TAKES CHARGE MARCH 18th.

ATTEND OUR Alteration Sale

If You Want to Save Money.

Among the inducements we offer is the Dry Goods Stock of I. Corkery, which will be sold for less than fifty cents on the dollar.

KINGS CO. PROBATE COURT.

HAMPTON, Mar. 13.—In the probate court, Kings Co., this afternoon, an action on petition of Fanny F. Parlee, widow, administratrix of the estate of the late Henry S. Parlee, of Studholm, farmer, deceased, to sell real estate, returnable today, it was on motion of Arthur Freese and with consent of the other counsel in the case, continued till Monday, April 8th, at the office of Judge McIntyre, Sussex.

Mr. Freese was made an administrator of the estate of the late W. M. McNair, of Cardwell, deceased, on adjourned day only passed and a decretum thereon. Ora P. King, proctor.

SENT "POP" TO JAIL SO SHE MIGHT SEE SUITOR

Daughter Admits She Lied When Accusing Father of Attacking Her.

WASHINGTON, Pa., March 13.—Edith Wise, the 16-year-old daughter of Constable Samuel J. Wise, today admitted on the witness stand that she had deliberately lied when she swore an information against her father charging him with an attack upon her.

She said she was mad as a cat and wanted to get even with him because he interfered with my receiving the attentions of a young man. I thought that if I got put in jail he couldn't prevent the man from coming to see me.

Constable Wise is one of the oldest constables in point of service in Washington. Since his arrest last Thursday he has been in jail, but was released on his daughter's confession and taking the girl with him started home.

NEW QUICK FIRE RECORD.

Made by British Fusilier in China Squadron in Practice.

HONG KONG, March 13.—The British China squadron has achieved a world's record in light quick firing practice. The cruiser King Alfred made twenty hits in thirty-eight rounds from 3 pounders and 100 hits in 143 rounds from fourteen 12 pounders.

The best record with the 3 pounders was a run in one minute of fourteen rounds with twelve hits. This is a record in the light quick firing class.

The best score with the 12 pounders was twelve rounds and eleven hits, the first instance of eleven hits being made in a minute from a 12 pounder. The average of hits made by fifteen 12 pounders was 10.9 per minute, which is a world's record.

A DYING GLASS.

In the glass collection at the Museum of Art in Dresden, Germany, there is a large drinking cup which stands apart from other art objects under a heavy glass cover. It is of Dutch workmanship, and the inscriptions and style show that it was made early in the eighteenth century. The vessel is remarkable because it is known in the museum, says a Berlin paper, "as having consumption which can be communicated to other objects of glass.

From that account it is isolated. There are remedies against this glass disease, which is usually developed because of defects in the glass mixture, but these have not been applied to the Dutch vessel in order that the progress of this wasting disease may be observed.

ATTENTION CALLED TO ALLEGED CHARGE OF MR. GIRARD M.P.P.

Mr. Brodeur Denied There Was Any Truth in the Statement at all—Hudson Bay Papers.

OTTAWA, March 13.—Both in the Senate and the Commons today, the attention of the government was called to the fact that Mr. Girard, member of the Quebec house from Rouville, stated that he had been told by Hon. Mr. Brodeur that G. C. Desaulles would be put into the senate to fill the vacancy caused by the death of Sir Wm. Hingston, that he (Mr. Brodeur) had the resignation of Mr. Desaulles in his pocket to take effect immediately before the next general election, that he would then resign and Mr. Brodeur would take the senate seat and the senate leadership.

In the Commons Mr. Brodeur denied that there was any truth in the statements and doubted if Mr. Girard made them, as the press dispatches indicated.

Senator Landry called the attention of the senate to the dispatch. He seemed from the dispatch Hon. Mr. Scott was soon to yield the leadership of the upper house and he would inquire the foundation for the report and what notice the government proposed to take of it.

Hon. Mr. Scott said that the statement showed its absurdity on its face. Mr. Desaulles had been appointed in the Ottawa way by recommendation of his excellency.

Senator Landry—Will the government take any notice of the report? Hon. Mr. Scott—It certainly will not. Sir MacKenzie Bowell said: When I read the article I could not help congratulating myself on the fact that history repeats itself. It is quite evident that my honorable friend has some traitors in his camp, and it is an old saying that misery loves company.

Under such circumstances I can, from the bottom of my heart, sympathize with my honorable friend. The only difference between the event to which I have referred and the present occasion is that the honorable gentleman was forewarned and I was not. He can sit in the senate until the next general election, when his place will be usurped by one of his colleagues. Sir MacKenzie said that the interview alleged a bargain over a senate seat, and if what was stated were true the sooner the country knew it the better.

Sir Richard Cartwright said that if Sir MacKenzie Bowell or Senator Landry were willing to rise in his place and say that he believed these charges to be true and that he would undertake to prove them, the house would be bound to make an investigation. Until such declaration is made he would not recommend that no attention be paid to the matter by the house.

Senator Loughheed continued the debate on Senator Ferguson's motion for the Hudson Bay papers. He said Sir Wilfrid Laurier had practically committed the government to the development of the tario and Saskatchewan were after the port of Churchill. Senator Loughheed thought none of the three should get the Dominion papers. He would like to see the government should build a national port owned and administered by the Dominion. The government should build and own the railroad from Saskatchewan to Churchill and should give free running rights to any railroad which desired to haul freight over it. He was confident that four transcontinental railway systems would make use of it. Docks and wharves and all port equipment should be built at Churchill by the Dominion and administered by a commission which would not interfere with the federal government but the western provincial governments. If the federal government were not willing to bear the whole cost of equipping Churchill he knew that public sentiment in the west that the provincial governments would bear a share of the cost. There had been a land grant to aid building a railroad to Hudson Bay. The grant had lapsed. The government should not renew to a railroad company, but would do better to turn these lands which he estimated at five million acres, over to commission which could realize not less than five dollars an acre for them, thus providing a fund of \$25,000,000. Senator Loughheed said eight million dollars would build the road to Churchill, not being necessary. Another eight millions or a third of the fund should suffice to equip Churchill. This would leave about eight millions in the hands of the commissioners, which could be well used to bonus com acre by this route. The eight million dollars should produce three hundred thousand dollars a year. This would enable a bonus of a cent or a cent and a half a bushel to be paid for 10 grain carried out of Churchill. He congratulated the government upon having decided to develop the route.

The bill to establish the Intercolonial and Prince Edward Island Railway employees' provident fund was given a third reading.

In the Commons an amendment to the post office act was introduced transferring some powers from the superintendents of mail services to post office inspectors and allowing postal officials on business to travel free on lines subsidized by the government.

The power export bill was put through committee.

KING EDWARD SENDS MESSAGE OF PEACE.

PARIS, March 12.—While in this city recently King Edward sent a message of peace and goodwill to the Kaiser, through Prince Radolin, the German ambassador in Paris, during his recent visit to the French capital.

His majesty summoned Prince Radolin, and had with him a long conversation, during which he assured the ambassador that his visit to the French capital had no political significance, and was merely an expression of the personal pleasure of himself and the queen.

The assurance was timely, as a portion of the German press had begun to revive old stories of the king's hostility to Germany, and to suggest that the visit to Paris had some distinctly German motive. An official hint had the effect of putting an end to these journalistic hostilities.

"BUMPS" McAVITY WINS A CUP

He Scored the Most Points in an Oratorical Contest Among Rothersay College Boys.

ROTHERSAY, N. B., March 12.—A very interesting oratorical contest took place in the reading room of Rothersay College last evening. The speakers were members of the debating society in connection with the college, of which Rev. H. R. Trunpou is president. Rev. Mr. Daniel, rector of Rothersay, and Principal I. E. Moore of the college, with President Trunpou, were judges.

The boys chose their own subjects and their efforts were certainly a pleasant surprise to the judges and those privileged to be present. Malcolm McAvity, who spoke on South Africa, was awarded the prize, and in giving the decision Rev. Mr. Daniel spoke warmly of the oratory of the boys and was followed by Principal Moore, who also complimented them upon their effort.

The boys who took part in the contest and their chosen subjects were: E. T. Alward, Capital and Labor; James Adams, The 20th Century in Canada; S. E. Calhoun, Nelson; R. J. Daly, Hannibal; Edward Domville, The British Empire; Ernest Kirk, Penitentiaries; Paul Kuhring, The Spanish Armada; Malcolm McAvity, South Africa; Jas. Peters, The Printing Press; Ward Pitfield, Charlemagne; Richmond Flewelling, Electricity.

There were several speeches considered in many respects quite equal to McAvity's, but his arrangement of facts and general grasp of his subject won the prize.

The enjoyment of the evening was added to by the music of The Glee Club and Mrs. Moore and the refreshments.

Mrs. A. P. Barnhill, Mrs. John E. Moore, Mrs. G. Fred Fisher, Mrs. C. E. Allan drove out from the city today, had lunch at Kennedy's hotel and after an hour or two returned home.

E. A. Flewelling of Perry's Point is visiting St. Martin's.

Fred Boyle of Penobscot is visiting his aunt, Mrs. Catheline, today.

"HANDS OFF ONTARIO;" SHOULD BE WARNING

ORANGEVILLE, Mar. 13.—Hundreds of delegates are in attendance at the 48th annual meeting of the Provincial Grand Lodge of Ontario, West, which opened here this afternoon. Grand Master, Col. J. H. Scott's address was followed with keen interest. The Privy Council's decision in the Grattan School case formed a basis for earnest warning to preserve the rights of the public schools. "The finding of the court in the last appeal," said the Grand Master, "has been received with general satisfaction. It determined that the Public School act of this province does not confer any special privileges in the matter of teacher's qualification. It is hard to foresee the tremendous conflict in the no distant future, and the present is an opportunity for Ontario to follow the precedent of the sister provinces and give immediate warning to trespassers in a notice bearing device in clear and unmistakable English letters, 'Hands off Ontario.'"

CITY COUNCIL ENDORSES POLICE COMMISSION BILL

MONCTON, March 13.—At a meeting of the council of the Board of Trade this afternoon a motion was unanimously passed endorsing the Moncton police commission bill now before the provincial legislature and calling upon the four county members to support the bill in accordance with the overwhelming sentiment of the business men of the community. The bill has met with some opposition locally, a strange feature of which is that it is opposed by the extreme liquor party as well as extreme temperance party. A solid body of business men occupy the position favoring the bill, as it will put an end to the farce local police administration.

DIED FROM POISON.

GRANBY, Que., March 13.—F. C. Bannill, graduate of Bishop's College, Lennoxville, and for some time principal of the academy here, died yesterday from strychnine poisoning, supposed to have been taken while in health which necessitated his retiring from the principalship some months ago.

CONSTABLE KILLED

WOODSTOCK, March 13.—Hot on the trail of Frederick Forbes, who escaped from the Woodstock jail yesterday morning, Constable Archie Pow was killed near Beachville at one o'clock this morning by driving over an embankment at the roadside.

JURY FINDS HYMAN JACOBSON NOT GUILTY

WOODSTOCK, N. B., March 13.—The trial of Hyman Jacobson was finished this afternoon, the jury, after a brief absence, bringing in a verdict of "not guilty." The prisoner was on the stand in his own defense and told a reasonable story. Mr. Hartley for the prisoner and Mr. Hayward for the crown made telling addresses. The learned judge charged very impartially in the main, pointing out the fact that the jurors must decide as between the conflicting evidence of Calla Aboud, an Assyrian crown witness, and the person's version of what took place. The only other case was a remand, McEvaney v. Taylor, in which the recovery of certain moneys is sought. Connell, K. C., for the complainant, M. L. Hayward for the defendant. This will be heard in chambers tomorrow, an application for further postponement being refused.

HEADACHE AND NEURALGIA FROM COLDS LAXATIVE BROMO QUININE, the world wide Cold and Grip remedy removes the cause. Call for full name. Look for signature E. W. Grove, 25c.

NOT RESPONSIBLE.

Letters similar to the following have been received by several people in this city and throughout the province: St. John, N.B., Feb. 13. Dear Sir:—The book debts of The Sun Printing Company, Limited, of this city, including all accounts due The Sun Printing Company up to the 31st day of December, 1906, have been placed in our hands for collection. Kindly remit the amount as stated above within one week from date and oblige. Yours truly, (Signed) POWELL & HARRISON.

C. P. R. TO MAKE CHANGES IN STEAMSHIP SERVICE.

MONTREAL, March 13.—The C. P. R. has decided on some changes in the steamship service. The Empresses of Ireland and Britain go to the Orient service, two of the Orient fleet to go to reorganized New Zealand and Australian services and two Empresses are to be built larger than ever for the Atlantic. This will be officially announced when Mr. Shaughnessy gets to England.

DISCUSSES BRITISH TREATY OBLIGATIONS

LONDON, Mar. 13.—According to a Melbourne newspaper J. G. Ward, premier of New Zealand, who has been in Melbourne conferring with Sir Alfred Deakin, says: "At the conference we shall seek a definite understanding from the Imperial government as to the position of the colonies with regard to British treaty obligations. We do not want Great Britain to enter into treaties with foreign peoples that would give them the right to claim entry into the colonies. I am ardently in favor of the creation of a permanent Imperial council of advice sitting in London. Sir Wilfrid Laurier in private letters to me expresses himself as favorable and we the hon. of Sir Alfred Deakin, the three of us ought to be able to carry it through."

WANT CARETAKER FOR ISOLATION HOSPITAL.

At a meeting of the Board of Health yesterday afternoon it was decided to advertise for applications for the position of caretaker of the Isolation Hospital. The term of Charles Walker, who has been the caretaker of the Institution since its establishment will expire next month. The term is for five years. The members also discussed the smallpox situation, and decided to send a physician to the lumber camps at Musquash to report upon the condition of affairs there at the present time. The patient, Fred Lambert, who is in the Isolation Hospital is said to be improving in health.

STABLES SOLD

STOCKHOLM, March 13.—The Rigsdag adopted today the amendment moved February 27th that the stables of Crown Prince Gustave be sold to meet a deficit of \$25,000 in the Crown Prince's private budget, and small stable accommodation be given him in the royal stables, on condition that the proposal to increase his allowance be dropped.

SCRAMBLE FOR JEWELS.

Thief Drops Contents of Tray He Had Stolen from Window. LONDON, March 12.—More than \$2,000 worth of jewelry was stolen from the shop of Messrs. J. White & Co., of Ludgate Hill, under extraordinary circumstances on Saturday evening. William Taylor, a laboring man, put his foot through the plate glass window, snatched a tray full of valuables, and ran away. A quantity of the goldware and jewels poured out of the broken window on the pavement, and before the police could intercept unscrupulous members of the crowd which had gathered scrambled for brooches, lockets, rings, watches, bracelets, chains, earrings, studs and other valuable articles, and made off with them. Taylor was captured in St. Paul's churchyard and taken to Bridewell Police Station, where he was charged with stealing about 100 gold brooches, fifty gold rings and other articles of jewelry. The firm is insured against burglary.

STEP-MOTHER OF HON. W. S. FIELDING DEAD

WINDSOR, N. S., March 13.—Mrs. Charles Fielding, widow of Charles Fielding of Noel, Hants county, died at her home today, aged 77 years. Her husband predeceased her about two years. Mrs. Fielding was the step-mother of Hon. W. S. Fielding, finance minister. G. Harding, stipendiary magistrate of Halifax, and Mrs. Horace Fleming of Halifax, P. M. Fielding, president of the Windsor Tribune Publishing Company, Ltd., Windsor, is the only surviving member of the late Mrs. Fielding's family.

HIGH PICES RECEIVED.

TORONTO, March 13.—The tender of E. B. Foss & Co., of Thessalon, Ont., and Bay City, Mich., for the right to cut pine timber on Range 10, Algoma district, has been accepted by the provincial government. The prices obtained are the highest yet received as a result of any timber sale, namely, a bonus of \$102 per 1,000 feet, board measurement, in addition to dues of \$2 and \$3.50 for square timber, with dues of like amount.

ROOSEVELT WON'T RUN AGAIN FOR PRESIDENT.

LOS ANGELES, March 13.—In an interview here Dr. Nicholas Murray Butler, president of Columbia University, said: "President Roosevelt will not run for president again, no matter what pressure is brought to bear upon him."

RESOLUTIONS ADOPTED

SAN FRANCISCO, Mar. 13.—The San Francisco Board of Education today adopted resolutions agreed upon at the conference with President Roosevelt in Washington, rescinding their order segregating Japanese pupils in public schools. It is said the board will abide by this action, provided the President retains his attitude regarding the limitation of Japanese immigration.

NEW COMET MAY HIT AND END THE WORLD.

ROME, March 12.—Prof. Matteucci, the distinguished scientist and authority on Venusian, states that toward the end of March the substance of the new comet discovered by Signor Biacchetti will come into contact with the atmosphere of the earth. The consequences, he foresees, may be dangerous to the earth. His brother is of the same opinion as to the peril to the earth. Both astronomers hold that if the actual nucleus of the comet is merely crossed by the earth, the danger will be brief, though necessarily acute. If, however, the earth collides with not the nucleus but the tail of the comet, our atmosphere will probably be ignited, and every trace of life will be immediately and violently destroyed. Prof. Matteucci adds that other important phenomena are to be expected as the result of the recent appearance of a huge spot on the sun.

NEW YORK, March 13.—J. P. Morgan called for Europe today on the steamer Baltic. It is not definitely known how long he will remain abroad.

DETECTIVES DO NOT THINK YOUNG MARVIN KIDNAPPED

DOVER, Del., Mar. 13.—That the private detective agency which was employed to solve the mysterious disappearance of young Horace Marvin from Kitts Hammock, near here, does not believe the child was kidnaped developed today, when Governor Lea was petitioned by the Superintendent of the agency to call out four hundred volunteers to aid in the search. The four hundred men are to be used as a human dragnet and are to search every inch of ground in the neighborhood of Kitts Hammock for the missing boy. Governor Lea probably will call for volunteers for the work tomorrow.

ROOSEVELT WON'T RUN AGAIN FOR PRESIDENT.

A BIG CALCULATION IN WATER

The ocean, sea and lake surface of our planet is estimated at something like 145,000,000 square miles, with an average depth of 12,000 feet, and if calculated to contain not less than 2,700,000,000,000 tons of water. The rivers of the earth are estimated to have a flow sufficient to cover thirty-six cubic miles of the above area each day. Now, if all the oceans were suddenly dried and the rivers could keep up their present rate of flow, which, of course, they could not without ocean evaporation, it would take 3,500 years to refill the basin.

Advertising to us seems to be as impartial and just a game with as little of luck and as much of mind as we can ever hope to find.—M. Harry Martin, Martin Firearms Co., New Haven.

LOCAL NEWS.

A bunch of keys found on King street yesterday, await an owner at the central police station.
The police report that the telephone wires were broken on Princess street yesterday.

The funeral of Mrs. Katherine Turner took place at 2 o'clock this afternoon from her late residence, Adelaide St. Rev. Mr. McLaughlin officiating. Interment was in Cedar Hill.

Last evening in the rooms of the Everyday Club a step dancing tournament was held which was probably the best entertainment of the kind ever given by local people in St. John. Ten of the best dancers in the city took part. Active members of the club are requested to meet tonight at 7.30.

There were three prisoners in the police court this morning. Two for drunkenness were fined \$4 each, while Robert Bell, for wandering about Mill street and not giving a satisfactory account of himself, was remanded to jail.

The contract for the structure of the new lower bridge at St. George, has been awarded by the department of public works to C. J. B. Simmonds, at a price approaching three thousand dollars. The contract for the superstructure, a massive span with approaches, will be made this week.

There will be a public temperance meeting of Queen Square Methodist church on Friday evening under the auspices of the Temperance and Moral Reform Committee. Short addresses will be given by Rev. Mr. Dickie, of St. Stephen's Presbyterian church and Rev. Mr. Cobbe, of Brussels street Baptist church. Some of the city's favorite singers will assist in a short musical programme.

James Rafferty, section foreman on the I. R. terminal in St. John, died this morning at his home, 223 Waterloo street, as the result of a stroke of apoplexy. Mr. Rafferty is survived by his wife, two sons and one daughter. He had been in the employ of the I. C. R. for eighteen or twenty years and was regarded as a most capable man. Some months ago, owing to ill-health, he was forced to stop work but recovered after a few days' rest. He was a devoted father and a conscientious worker. He was fifty years of age.

AN UNINTERESTING CASE IN CIRCUIT COURT

Enlivened by Tiffs Between the Opposing Lawyers.

The case of McLaughlin vs. Mawhinney was argued at this morning's session of the circuit court. The case is an uninteresting one, and arose over a portion of ground near Musquash. The plaintiff is Daniel McLaughlin, who claims to own the land. Geo. V. McInerney appeared for the plaintiff, and most of the morning was taken up in recalling the names of former owners of the land. Mr. McLaughlin's parents resided at the place, and when he moved away he put George Hargrove in charge of the property, which is divided in lots numbered 21, 22 and 23. About two years ago, Mawhinney claimed a portion of the ground as his, and a surveyor was engaged to look over the property.

Neither party would agree to a settlement so the matter was brought in to the courts. Mr. McInerney produced as evidence a copy of the deed of the land. It is necessary in a case of this kind that the attorney produce an affidavit to the effect that neither he nor his clients know anything of the original copy. Mr. McLaughlin was asked on which lot his father resided. Witness replied that his father had built his house on lot 21. When asked on what part of lot 21 the house was situated, witness answered that it was next to 22. Mr. McInerney then told his witness that it could not have been next to lot 23 and then a sharp encounter took place between the counsel for the plaintiff and Recorder Skinner, who represented the defendant. The latter made the startling remark that Mr. McInerney had gone up close to his witness and whispered in his ear to make him change the statement. Judge Gregory here remarked that he considered no fair lawyer would do that, and he looked upon Mr. McInerney as a counsel in good standing. From this out the opposing lawyers were at odds every few minutes. Recorder Skinner objected to several questions and Mr. McInerney expressed the opinion that the recorder was hard to satisfy. The latter asked that Mr. McInerney speak louder as he could not hear him. The counsel for the plaintiff replied that he (the recorder) was not supposed to hear the last remark.

Mr. McLaughlin in giving his evidence stated that there was no line between lots 21 and 22, but he knew pretty near where the two lots were. The ground over which the dispute has arisen has been in the possession of the McLaughlin family for many years, as the witness' father lived on it when a young man and he has been dead for nearly fifty years.

THIS EVENING.

The St. John. Co. Branch of N. B. Temperance Federation meets Friday evening in the W. C. T. U. rooms, Germain street.

BRIDGE REPAIRS WAIT FOR STREET RY. PROPOSITION

Engineer Wetmore Studying Mr. Hildebrand's Report, But it is Not Likely Anything Will Be Done Until an Agreement is Reached for Running Cars Over the Suspension Bridge

The report of consulting engineer William Hildebrand, of New York, on the Suspension bridge, was presented to the provincial government only a few days ago. The delay, which, however, caused no inconvenience, was due to Mr. Hildebrand's illness. While the report has not been formally considered by either the government or the department of public works, A. B. Wetmore, provincial engineer, has been making a careful study of the voluminous document with a view to advising the department as to future repairs.

In conversation with the Star this morning Hon. Mr. Labllois said that the conclusions reached by Mr. Wetmore, who had made an examination of the bridge, agreed in every detail with those drawn by Mr. Hildebrand, and thus there can be no question as to the wisdom of adopting whatever course may be recommended. Mr. Hildebrand in his remarks pays a high tribute to the ability of the projector of the bridge, giving him credit for the designing of a splendid structure.

As to the department's probable action, Mr. Labllois could not state anything definite. While it would seem advisable in some respects to go ahead with the alterations required for ordinary traffic, still looking to even the immediate future the requirements of the Railway Company will come up for discussion. While no definite proposition as to the running of cars has yet been made, it is believed that the railway company is now prepared to enter negotiations for running rights over the bridge and pending the completion of any agreement which might be made it is best to go slow with plans for repairs. The bridge, by the addition of several new cables, by certain less costly changes, can be made permanently safe for trolley car travel at an expense not exceeding \$45,000. This would permit the operation of a single car line.

A director of the railway company said to the Star today that any talk which had so far been indulged in was purely informal, the company had not made a proposition to the government, but of course there is a strong demand for the running of cars over the bridge and the directors would be inclined to meet in so far as possible the wishes of the people.

Col. McLean is now in Fredericton and today or tomorrow will likely have a chat with Mr. Labllois on the question. This is a purely departmental matter and need not be brought before the house.

It is asserted in connection with the St. John bills at Fredericton that advantage was taken of the absence of those who opposed the ward system to prepare compromise measures. It is said that on Monday or Tuesday night at ten o'clock to members of the bills and by-laws committee by common clerk Wardroper, requesting the presence of those members at Fredericton at ten o'clock on Wednesday morning, for the purpose of appearing before the municipalities committee in connection with the St. John bills. The majority of the members went to the capital on Tuesday afternoon, and it is alleged that they, who were in favor of the ward system, then arranged in the absence of any members of the council or others who opposed the bills. It is set out that if the latter had been present the presentation of conditions before the committee would have been materially different. Some of the members who attended at Fredericton on Wednesday morning are not what would be called overjoyed at what they consider was rather unfair treatment.

It appears that Aid. McGoedek was for a time strongly in favor of supporting a measure to provide two aldermen for each ward, making 26 in all, but this was turned down by the other members.

The ice in the Victoria Rink is fortunately in good condition for the speed events tonight in which Duffy, Wood and Logan are the principal racers. Hughie McCormick, the champion of the world, will be on hand with Fred Breen, and with match races and four senior open events along with senior and junior boys' races, the programme promises to afford the best night's speed events yet offered.

STEAMER GOWANBURG IN A BAD POSITION

Pounding Heavily This Morning—Wrecking Steamer Gone to Her Assistance.

NEW YORK, March 14.—The stmr. Gowanburg was still fast ashore off Great South Beach, near the Lope Hill life station this morning. The crew voluntarily remained on board. Early today a wrecking steamer reached the scene and prepared to haul the Gowanburg off the beach at high tide. About ten o'clock the captain reported to the livesavers that the steamer was lying broadside to the beach and was pounding heavily, that her pumps were so choked as to be useless, and that he had not been able to see the wrecking steamer owing to the fog.

The German steamer Terfies is aground in Bay Channel. She struck bottom during the dense fog. Eight tugs have been sent to her assistance.

Wm. Porter, who was very seriously injured at a village on Washademoak Lake a few days ago, while blasting stone died in the hospital on Tuesday night. The body was sent to the Washademoak this morning for interment.

WHY FANCY WORK IS SO POPULAR A PASTIME DURING THE LENTEN SEASON!

APPROACHING SPRING, when homes are to be renovated and brightened; when every housewife and diligent daughter takes particular delight in having the house looking spick and span, is the particular season for the making of Art Needlework. Furthermore, an almost complete abandonment of social gaieties in wide circles, because of lenten observances, gives impetus to the handicraft. Catering directly to those engaged in this lovely work, we submit our new and enlarged supply of materials, which include:— CUSHIONS, CUSHION TOPS, CORDS, DOYLIES, TABLE CENTRES, ETC. SHIRTWAIST PATTERNS, COLLARS, TEA COSYS, LAUNDRY BAGS, ETC.

BESIDES THESE, we can show an endless variety of designs for all kinds of fancy stitching, introducing the newest work known as Wallachian, a German idea. Stamping done to order from a new collection of charming designs.

All the Famous Silks, such as Belding, Paul & Co's, Corticelli and Heminway's.

SPECIAL Our window display today and tomorrow will demonstrate the completeness of our line of fancy work goods, and show some exquisite work as exhibited by Belding, Paul & Co.

MANCHESTER ROBERTSON ALLISON Limited.
