DISASTROUS FIRE AT HEAD TIDE

House and Barn of Albert Mann With Practically All Their Contents Destroyed.

A most disastrous fire occurred at Head of Tide on Saturday morning about 7:30 o'clock in which Mr. Albert Mann lost his house and barn with practically all their contents. The fire originated through some wood which had been placed under the stove the previous evening catching fire. No one was in the house at the time, Mrs. Mann having gone to the barn to milk and Mr. Mann having gone to the woods to new eggs. Neighbors were the first to notice the fire and immediately gathered about to render assistance, but without proper fire fighting apparatus could do nothing but save a few household articles, the fire having gained such headway before being discovered. Before the fire had reached the barn all the cattle had been released. Both buildings were burned to the ground, Mr. Mann losing practically everything. In the barn were stored some five tons of hay and 100 bushels of oats, thrashing mill and other machinery. Only a little of the smaller machinery was saved. Mr. Mann's loss will be in the vicinity of \$4,000, and it will take considerably more than this to now replace what he has lost. There was no insurance upon any of the property. Neighbors are today assisting him in hauling lumber from the mill with which to rebuild, an act of kindness which is very much appreciated by Mr. and Mrs. Mann.

GERMANY DOES NOT WANT EX-KAISER

Minister Gives Assurance That No Indulgences Will Be Granted.
(By Joseph Hering.)
Berlin, May 28.—Pan-German agitation for return of the Kaiser family has caused much alarm among the true friends of the republic. All the more because it is generally regarded as an attempted resurrection of the spirit of Prussianism with reactionary plots against the republic in the background.
The proposed petition to Parliament to permit the return has not been produced yet, but it is almost certain it will be unsuccessful. Minister of the Interior Heinemann, speaking to The Gazette correspondent today, said:
"I am thinking that the persons who are arranging that petition cannot be fully informed about the Hohenzollerns' intentions, for I have good reasons to believe that they do not intend to apply to the Parliament for permission to return, but even if they did Parliament may be trusted to deny permission. There is certainly danger that the presence of the Kaiser and the Crown Prince here might intensify reaction and cause the Republican Government more or less serious feeling, which we must guard against by refusing to extend any such invitation."
"It is said that a powerful clique of pan-Germans whose leaders fear having to appear with Wilhelm as co-defendants have conspired to bring the Hohenzollerns back to Germany, hoping that public sentiment may rise in their favor and shield the Hohenzollerns as well as their co-defendants against appearing in an international court," observed the correspondent.
No Serious Danger.
"The German people," the minister replied, "might shield a man like Hindenburg, whom all respect for his unswerving devotion, duty and patriotism, but would never do that for Wilhelm, who, with whatever grounds, is generally regarded as responsible for the monstrous calamity of the war and its consequences. Neither can Wilhelm and his clique ever expect the German people to raise a banner in their defense, and what little sympathy the Hohenzollerns still have among certain classes would disappear quickly if they in any way exerted political activity."
"Nobody knows what happened exactly during the last few days before the outbreak of the war, but the whole German people for years witnessed the Kaiser's conduct that made war unpreventable, though he may not have intended it. It is true that Hindenburg, too, has mixed in politics, or perhaps his name was used by others for bad politics, but he is an old man, who will be forgiven for the sake of any other fine human qualities, while Wilhelm and the Crown Prince can expect no such indulgence."
"There is no fear that either Wilhelm or the Crown Prince will return without the Government's permission, and that will not be forthcoming."
Minister Heinemann seemed confident that there was no serious reactionary danger at present though apprehension in many well-informed circles is growing constantly.

SAD ACCIDENT AT RICHARDS

Aged Lady Struck by Engine and Instantly Killed.

A particularly sad accident occurred about seven o'clock Friday morning at a crossing near Richards, whereby Mrs. Peter Wilmot was instantly killed by a light engine.
Mrs. Wilmot who shortly before the accident was talking to Robert Nelson, a returned soldier, who she had seen for the first time since his arrival home, had just stepped upon the track when the light engine was coming along. It is supposed that she was excited and became confused. She was killed instantly.
The train hands and neighbors picked up the body, which was brought to the station here by the train crew. She is survived by a husband, who has the sympathy of all in his sad bereavement.

HEARTY WELCOME FOR NANCY FOUR

London, June 1.—The crews of the three American seaplanes which started the memorable trans-Atlantic flight completed so gallantly by the N.C.-4 through her arrival at Plymouth yesterday came to London this afternoon and were given a hearty reception as their train stopped at the railway station.
One of the first to reach Commander Read of the N.C.-4, after he came from the train, was Harry G. Hawker, who shouted his congratulations as the commander was being led about on the shoulders and heads of a score of men.
The Royal Air Force officers joined with the American Navy men in arranging the welcome, and took part in the procession to the Avon Club house, where Hawker was conveyed to his arrival in London. Tonight the Americans, joined by "guests" of the Royal Air Force.

BIG LOSS IN FIRE AT CHIPMAN

Damage of \$140,000—Two Million Feet or More of Lumber Destroyed—Whole Village Was in Danger.

A fire which did damage to the extent of \$140,000 totally destroyed the Sayre & Holly Lumber Company's fine plant at Chipman on Monday afternoon and between two and two and one-half million feet of lumber, valued at about \$80,000 went up in smoke with the mill. How and exactly where the fire started is a mystery, as before its discovery the blaze had taken on a good hold on the mill and the employees were able to get away in time. In some cases it was impossible to get their coats, so quickly did the flames spread.
The lumber is wholly covered by insurance but the mill which is valued at \$60,000 is only about half covered.

Feeble Old People Vinol is What You Need

because it contains the very elements needed to replace weakness with strength, viz: Beef and Cod Liver Peptones, Iron and Manganese Peptonates, and Glycophosphates, with a mild tonic wine. This is a splendid combination to restore strength, vitality and vigor. It has given ninety percent satisfaction for sixteen years. **HERE IS PROOF:**

Malone, N.Y. "I am 84 years of age and got into a feeble, weak and nervous condition so I could not sleep. Vinol has not only built up my strength but it has given me a good appetite and I sleep all right now. Without doubt Vinol is the greatest strengthener for old people obtainable."—Mrs. S. B. Wells.

Winchester, Va. "I am a farmer's wife, 75 years of age, and pneumonia left me in a weak, run-down condition, so I could hardly keep about and do my work. A neighbor brought me Vinol and I have built up my strength so fast that I think it is the best medicine I have ever taken."—Mrs. Jennie Chapman.

For all run-down, nervous, anemic conditions, weak women, overworked men, feeble old people and delicate children, there is no remedy like Vinol.

THIS WEEK, NERVOUS MOTHER

Tells How Lydia E. Pinkham's
Vegetable Compound
Restored Her Health.

Philadelphia, Pa.—"I was very weak, always tired, my heart ached, and I felt sickly most of the time. I went to a doctor and he said I had nervous indigestion, which added to my weak condition kept me worrying most of the time—and he said if I could not stop that, I could not get well. I heard somewhere of Lydia E. Pinkham's Vegetable Compound and I bought a bottle. I took it for a week and felt a little better. I kept it up for three months, and I feel fine and can eat anything now without distress or nervousness."—Mrs. J. Warriner, 2842 North Taylor St., Philadelphia, Pa.

The majority of mothers nowadays overdo, there are so many demands upon their time and strength; the result is invariably a weakened, run-down, nervous condition with headaches, backache, irritability and depression—and soon more serious ailments develop. It is at such periods in life that Lydia E. Pinkham's Vegetable Compound will restore a normal healthy condition, as it did to Mrs. Warriner.

PHYSICIAN, UNAIDED, BUILDS A HOSPITAL

Took Three Years, But He
Finished the Job.

Hastings-on-Hudson, May 28.—A hospital, completely built by the physician who owns it, was completed here yesterday. It was not merely built by the physician's money, but literally by the physician's own hands, and is a monument to his determination, for he undertook it after he had failed to raise enough money by subscriptions, and kept at the work unaided, for three years, until yesterday, when he finished the job.

The physician is Dr. Godfrey Jenks of this village. Several years ago, Dr. Jenks started a movement to raise funds to build a hospital here, but owing to political opposition he was unable to raise the necessary amount. Thereupon he began to build it himself in Olinda Park district. The work was done by his own hands, except the occasional carrying of a heavy beam, when he was obliged to call in a laborer to help. The hospital is complete and modern. It is a two-story structure with wards and operating room on the upper floor and a reception room on the first floor.

Dr. Jenks is associated with the Homeopathic Hospital at Yonkers.

When the war began he enlisted as a surgeon for overseas service. The people of Hastings thereupon got up a petition which they sent to Washington, saying that in his absence "this communication is left without a doctor," and asking that he be sent back. He was sent back accordingly, against his will. He at once resumed work on his hospital.

WITHDRAWAL OF FOREIGN TROOPS FROM RUSSIA

Winston Churchill Makes Announcement.

London, May 29.—Winston Spencer Churchill, Secretary for War, speaking in the House of Commons yesterday forebade the possibility of the withdrawal of foreign troops from Russia by the end of the summer, owing to the favorable situation. As soon as peace was signed he added the Rhine army could be reduced from ten to six divisions and still more when it was seen that peace was being effectively carried out.

THE JEWS MARCHING FOR AN IDEA.

Boston, May 31.—Down the straight street as far as eye can see, a dense, regularly moving line of people approaches the square with the usual mounted police escort leading in orderly array. The Jews of Boston, from every country, of every shade of orthodoxy—of every age and condition all degree of mentality, of every diversity of form and feature, except that upon every countenance is traced, more or less legibly the stamp of their historic lineage. They commemorate their fellows massacred in countries of Europe these later months; they ask help for those still suffering; they say—and these are American citizens who carry the banner—they say to America: "We look to you." They say—and this banner is carried by Jewish youths in the United States uniform—"We fought for democracy. We ask freedom from persecution for the Jews." They wear somber badges with the words, "We protest against pogroms."

They float the American flag, and beside it the beautiful blue and white Hebrew flag with the Star of David in the center, with "Zion" for its only legend. These are all the insignia; there is no planned spectacle for the eye. This multitude is marching for an idea.

Aged men and women with the marks of oppression upon them; strong men, and women whose eyes hold a story of other, less peaceful, scenes; young men and women whose faces are touched with deep feeling; still others who are there because they are Jews, and must respond to the call of race and faith. Some of the men bear children in their arms; many a woman carries a baby while a toddler clings to her skirt. Boys and girls of every grade of nature march headlessly or grately. A mingled—you might say, if your eyes were hidden, a motley crowd. But a crowd with an idea.

An over and over the band plays—and they play nothing else—the aged and old music of the Day of Atonement, solemn, sweet, and searching; the strain of mourning, repentance, of consecration, which Hebrews in all lands know. The music expresses an idea.

So they throng on, in a seemingly never-ending line; a few to enter the hall of meeting, the rest—20,000, 30,000—to stand for hours in the street, or on the Common, where they hear no faces that are spoken. Their presence is their expression of the idea—Freedom.

Impressive sight, not soon to be forgotten; the first great protest of a very ancient race to a very young race, in the language of atonement.

"I see Henry Ford is going to start a newspaper."

"Does he know anything about running a newspaper?"

"Just know a heap. I notice he waited until he got \$40,000,000 before arranging to run one."

THE PROPOSED PARK.

Our uptown contemporary is not in favor of establishing a park on the beautiful and convenient site on Water Street. It is afraid that the rising generation may be tempted too near the bank and fall into the shallow water and get wet.

The site of the park is a most satisfactory one in every respect. In Moncton, St. John and other cities their parks or squares are in most cases as near or nearer the water as the Campbellton site, and we do not read of daily drowning accidents in these city parks.

The people of the town generally agree that the Council has made a wise start and it is the freely expressed hope that the work will be proceeded with at once.

The Tribune says "it greatly fears the present Council has made a mistake in this matter." If the Tribune had so expressed itself when the present Council reduced the license fee for moving picture theatres it would have come nearer the truth, but its readers have remarked that it even suppressed the motion in reference to this matter, which will eventually, unless the new bylaw is rescinded, mean the loss of \$600.00 per year revenue from this source. We may add that very strong pressure is being brought to bear for the reconsideration of this matter.

Dear Editor:
From a report of the last Town Council proceedings, our readers will be disappointed to learn that the General Supt. C. N. Rys. says that our subway will not be built this year.

Montreal—Hunger is everywhere in Red Russia and epidemics are now breaking out. In Moscow there are 3,000 cases of typhus per week and 85 per cent. of the hospital staffs are unable to work, while it is asserted that cholera has broken out in Petrograd. Nevertheless, Red circles in Petrograd refuse to entertain the idea of accepting Nansen's scheme for provisioning Russia, and they regard it as a stab in the back which would be fatal to the Bolshevik leaders' position. Numerous Bolsheviks are now arranging their affairs as best they can and fleeing to the south, and the mass of people are beginning to feel themselves deserted.

Railway traffic is at a standstill, owing to the complete breakdown of the system, which is hampering Lenin in his defensive operations and hindering civilians in their flight. It is almost impossible to leave Petrograd. Passengers stand on the platforms waiting for trains, while agents plunder their luggage with the cynical remark: "Wherever you are going, you can dispense with this."

But the flight from Petrograd continues mostly towards the Finnish frontier, for pausing to think how they shall get through the cordon of Red Guards between the city and the Finnish frontier and many being shot down even by Finnish guards who can-

not distinguish a Bolshevik and an anti-Bolshevik.

Within Petrograd Zinovieff and his defence committee are showing practically at sight all those suspected of sympathy with the various armies converging on the city of despair.

DICKSON—STEEVENS.
A quiet but pretty marriage was solemnized at Campbellton on Tuesday morning at 9:30 a.m., when the Rev. Father Wallace united in marriage Miss Mabel Corrine, daughter of Mrs. Ellen C. Stevens of this town, and Mr. Frank H. Dickson of Moncton.

The bride was becomingly dressed in a navy blue suit with hat to match. Only the immediate friends and relatives of the contracting parties were present at the ceremony.

Mr. and Mrs. Dickson left on the "Ocean Limited" for a three weeks trip to Boston and on their return will reside in Campbellton.

The gifts received by the bride which included silverware, cut glass and china, were many and beautiful.

When Soldier Alex. Methot, who had seen so much of the war in France and Germany, returned to his home here last week, he met his home very proud of the welcome he received at his own home from those who are most dear to him. Besides a sumptuous supper, at which attended all the members of the family, their friends and neighbours, an interesting event, was the presenting to the brave soldier, by his two sisters, Mary and Valentine, of a beautiful Toilet Set, accompanied by the following address, which was read to him by his sister Miss Phenomena Methot, of the James Wallace store staff as follows:

Dalhousie, May 19th, 1919.

Dearest Brother—

Welcome Home Dearest Brother: Father, Mother, Sisters and Brothers, deem it our pleasant duty to welcome you home again. Yes! Welcome with all the joy the word expresses, joyous emotions and deep feelings fill our hearts the knowledge of your safe arrival after years of absence from us. How we missed you! Yet the noble impulses which prompted you to leave home and friends, to go forth and offer your services for your country, and the cause of the human liberty, were known to us, and as a consequence our humble yet devoted prayers went forth for your safety and safe return. Again we bid you Welcome Home, and in conclusion, ask you to accept the accompanying little gift as a very humble token of our love and heartfelt gratitude.

DALHOUSIE

Dalhousie, June 3.—Mr. James R. Gardiner, Bathurst, N. B., was here last week posting notices forbidding the killing of Migratory Birds.

During the session of 1917 an Act was passed at Ottawa known as The Migratory Birds Convention Act. In the Schedule of the Act passed under the word Convention we read the fol-

lowing:

Whereas many species of birds in the course of their annual migrations traverse certain parts of the Dominion of Canada and the United States; and

Whereas many of these species are of great value as a source of food or in destroying insects which are injurious to forests and forest plants on the public domain, as well as to agricultural crops, in both Canada and the United States, but are nevertheless in danger of extermination through lack of adequate protection during the nesting season or while on their way to and from their breeding grounds.

His Majesty the King of the United Kingdom of Great Britain and Ireland and of the British dominions beyond the seas Emperor of India, and the United States of America, being desirous of saving from indiscriminate slaughter and of insuring the preservation of such migratory birds as are either useful to man or are harmless, have resolved to adopt some uniform system of protection which shall effectively accomplish such objects, and to the end of concluding a convention for this purpose have appointed as their respective plenipotentiaries:

His Britannic Majesty, the Right Honourable Sir Cecil Arthur Spring Rice, G. C. V. O., K. C. M. G. etc. His Majesty's Ambassador extraordinary and plenipotentiary at Washington, and the President of the United States of America, Robert Lansing, Secretary of State of the United States.

Among the birds included in the terms of this convention are:—
Brant, wild ducks, geese, cranes, plovers, snipe, humming birds, swallows and all other perching birds which feed entirely or chiefly on insects.

It is to be hoped that Mr. Gardiner will receive the assistance of the general public in the practical effort that is being made by the Government of the American Continent towards the protection of the heritage that was handed down to man for his use.

At the last session of the Quebec Legislature a law was passed reserving certain territories in the province of Quebec as a refuge for wild birds which species tends to disappear. These reserves are specially at Percé Rock, in the Co. of Gaspé, Bird's Rock situated at the northeast of the Madeleine Islands, in the Gulf of St. Lawrence and a certain part of the Island of Bonaventure, in the Co. of Gaspé.

These are the last refuges of certain wild birds in our country, which interest all friends of nature and science.

Pius Michaud, M. P., arrived here on Friday by limited and with Hon. C. H. LaBelle made a thorough examination of our two public wharves and the breakwater. He saw many citizens he could during the few hours he had at his disposal.

A grand "Welcome Home" was given to the returned soldier Andrew Wallace, who arrived here on Wednesday, after four years of faithful service at the front. He is a brother of Alex. Wallace, who gave his life for his Country about the middle of the war.

On Wednesday evening a great number of the hero's friends went to the home of his parents, Mr. and Mrs. Alex. Wallace, where a splendid programme of amusement was enjoyed after which dainty refreshments were served. Soldier Wallace looks well after his hard experience.

The Whist Party and dance held by the Dalhousie Athletic Club on Thursday evening, was a grand success. Over one hundred persons attended and financially a nice sum was secured placing the Club on a splendid footing.

At Ed River, the Basket Social held on Friday evening for the Soldiers Memorial Hospital, at Campbellton, was also a successful affair. The handsome sum of \$200, was realized and the ladies in charge are delighted.

At Upper Charlo, the entertainment given by Miss G. Saucier, teacher of the Upper Charlo School, and nine lady associates proved to be a wonderful success. With the concert and sale of baskets the ladies realized the handsome sum of \$246.00 which goes to the new R. C. Church fund.

Mr. and Mrs. D'Anjou and Mrs. D'Anjou's sister, Mrs. Piquet, who formerly lived in DeVosville, spent the week end in town and were the guests of Mrs. E. R. Gaudet and the Misses Samson, at the Queen.

Mr. Daniel Mercier, aged 74 years passed away here on Thursday after an illness of several months. He was a native of Maria, P. Q., was an industrious man.

Mr. LaBelle left for St. John, N. B., by Monday's limited to attend the New Brunswick Tourist Convention. Mrs. Louis Silas, aged 69 years died at the home of her daughter, Mrs. Wilfred LeNasseur, Dalhousie, on Wednesday. She was highly respected.

Among the guests present were Mr. John Casey owner of large properties in Upper Dundee, Mr. A. Jean a "returned hero" and Mr. and Mrs. Charles Pelletier.

GREAT BRITAIN THREATENED WITH GENERAL STRIKE

London.—The labor minister's hurried visit to Paris is connected with a dangerous cloud arising on the British industrial horizon. A deputation from the Trade Union Congress saw Bonar Law about the "four points" of the Triple Alliance policy on the abandonment of the compulsory military service; the abandonment of the Russian adventure; the raising of the blockade; the release of conscientious objectors; the alternative being a general strike. Altho' it is doubtful whether the Alliance could altogether bring this strike about, it is certain such a cessation of work could be organized as would have a paralyzing effect on the business of the country. The four points originated with the miners several weeks ago when they met to recommend the acceptance of the Sankey report. Later the points were discussed at a Southport conference and have now obtained the blessing of the Labor party executive. The Trade Union Congress is like warm on the question of a general strike, but demands come from such influential bodies that the parliamentary executive finds it impossible to ignore them. Drastic actions would have the support of two and a half million workers of the railways, mines and transport services; but would be opposed by a new combination which is being formed under Will Thorne and Ben Tilt consisting of the National Union of General Workers, the Amalgamated Union Labor, the dockers, carters, gas workers and some others. All these are firm against direct action and favor established parliamentary procedure. Textile workers are in the balance; but the whole situation is most delicate and difficult.

COBLENTZ WILL BE NEW RHINE CAPITAL

Paris, June 2.—Coblentz will be the capital of the new Rhine republic, which was proclaimed yesterday in several Rhine cities. The new government and national assembly will meet here, but the provisional government will sit at Wiesbaden.

Portions of the proclamation have been telegraphed to the Echo de Paris from Metz, one clause of which shows the movement must be separatist, but anti-Prussian.

ANTICIPATED A "SCOOP"

If Harry Hawker happens to drop into a London cinema this week, he may watch the cheering spectacle of his own burial services on the Atlantic. An ambitious cartoonist on the staff of the Pathé Weekly News films anticipated the "scoop" of Hawker's death and drew a touching picture of the list of names given to the dauntless aviator. The cartoon showed the Sopwith airplane falling to its fate in a very turbulent movie of the Atlantic and then pictured Uncle Sam tenderly tending a wreath on the choppy waves that marked the final resting place of the crew. Most of the larger motion picture theatres ran the cartoon last week and it was still running in some of the houses at the very moment when the newshy outside were shouting the joyful "extras" of Hawker's recovery.

ENGLAND'S BILL FOR TRANSPORTING AMERICAN SOLDIERS

The Amount Fixed at \$2,000,000. Washington, May 30.—England's Bill for transporting a million American soldiers across the Atlantic in British ships is approximately \$2,000,000. This and the fact that President Wilson advanced \$5,000,000 of his special fund, and probably more to Czechs Slovaks were the two chief developments of yesterday's hearing of Secretary Baker, General March, and other war department officials before the House Military Committee.

LEMONS MAKE SKIN WHITE, SOFT, CLEAR

Make this beauty lotion for a few cents and see for yourself.

What girl or woman hasn't heard of lemon juice to remove complexion blemishes, to whiten the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with orchard white this way. Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well and you have a whole quart of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle, then this lotion will remain pure and fresh for months. When applied daily to the face, neck, arms and hands it should help to bleach, clear, smoothen and beautify the skin.

Any druggist will supply three ounces of orchard white at very little cost and the grocer has the lemons.

COPENHAGEN CHEWING TOBACCO

Copenhagen is used differently from ordinary chewing tobacco. Take a small pinch, for a snag, and put it between the lower lip and gum, in the centre. Afterwards you can increase the size of the pinch to suit the strength of the chew you desire.

Copenhagen is strong, because the tobacco of which it is made is cut into fine grains which makes it impart its strength thoroughly and quickly.

There's a little "twist" goes a long way, showing that Copenhagen is not only an unusually economical chew, but also one of the finest quality, better made of the best, old, rich, high-flavored tobacco.

ENGLISH FOOD PRICES HIGHER THAN CANADIAN.

While the cost of living in Great Britain is declining, it is an error to suppose that prices in the majority of foodstuffs are yet down on the level where they can be reasonably compared with Canadian prices in the same classes. The British food controller has just discontinued the retail control of Canadian cheese, a standard middle-class British grocer and has fixed the following maximum prices to the producers:

Carbonyl whole milk 31 c. per lb.

Partial skimmed, containing 25 c. fat 28c. per lb.

Wholly skimmed with less than 25 c. fat 26c. per lb.

These prices must be added the eventual cost of distribution and profits of wholesaler and retailer before the price to the consumer can be obtained. Comparison is well in favor of Canadian prices.

BELGIUM MAKES WAR PREPARATION.

Frontiers Closed—Soldiers Recalled From Leave.

Amsterdam.—A despatch received here from Eindhoven states that the Belgian frontiers have been closed and that all Belgian soldiers have been called from leave. It is reported that general mobilization will be ordered at the termination of the period given the Germans to sign the treaty of peace.

FRANCE ALSO HAS ITS LABOR UNREST.

Paris, June 2.—A Bethune despatch to Harnay says that the Union miners in the Pas de Calais department have called a general strike for this morning and that it is expected the miners of the Artois coal fields and that of the Nord Department will join the movement in two or three days. The employees of one of the principal stores in Paris voted to strike this morning.

These movements, it is said, are caused by other dissatisfaction with the employers' offers of increased pay to meet the increased cost of living or their methods of applying the eight-hour day law or both.

GOOD PROSPECTS OF APPLE CROP

A Pictou despatch says that reports so far received from A. G. Turner indicate that the prospects of the apple crop in the province are the best they have been for about six years.

Communications from all parts of the province state that trees bearing all varieties show a very heavy blossom, having passed the winter in good condition, so that they now look well. Some of the trees that were affected by the severe weather of the winter of 1917-18 are now in better condition than they were last spring.

In this province last year the fall crop was about half the average crop and the winter variety was only very light. The prospects this year are better than they are in Quebec, Eastern Ontario and Maine, and about the same as they are in Nova Scotia. All that is needed now is warm weather and a good apple crop will be assured in this province. It is expected that more farmers will help their trees by spraying this year.

Oil and truth are bound to come to the top some time.

Perpetual motion seems to be a success as a perpetual failure.
