WOULD HAVE DRURY NAME TWO CABINET POSITIONS OPEN, BUT

Suggestion Comes From Labor Members Elect in Niagara Peninsula Ridings-McBride's Departure From Conference Does Not Affect His Standing in I. L. P.

St. Catharines, Nov. 6.—A suggestion that Premier-Designate E. C. Drury name the two cabinet positions to be filled by labor members and permit the labor men to select the personnel is contained in a statement signed by Frank Greenlaw, and C. F. Swaysee, labor members-elect for the border ridings of St. Catharines and Niagara Falls, after a conference last night in this city. "We quite understand the reason for Mr. McBride's departure from the joint conference in Toronto," said the statement of the two members submitted to the press this morning, "that he left when Mr. Drury stated that he must have the final say in the selection of his cabinet ministers. the final say in the selection of his cabinet ministers.
"Mr. McBride's departure does not in any way affect his standing with the I. L. P. and in our opinion if Mr. Drury insists upon having any labor cabinet representatives he should name both and of course any choice he might make would have to be approved by the elected members and the provincial executive of the Independent Labor Party. "This, we believed, would be the only procedure giving a basis of true co-operation. "We are of the opinion," the statement concludes, "that it would

simplify matters and smooth things out if Mr. Drury would name the two cabinet positions to be filled by labor members and let labor men make their own choice."

The annual convention of the London eachers' Association, including the iblic, separate, technical schools and Collegiate Institute, opened this morning in the Normal School, An open discussion was held concerning material for the new readers to be published. Paper without gloss finish illustrations that correspond with the stories, and little gems of poetry selected from those written by the best of poets, were a few things suggested by the various teachers, who expressed their opinions.

their opinions.

Poor Illustrations.

It was said by some of the teachers, that the readers contained pictures which did not at all correspond with the article written on the same page with which they appeared. More sultable illustrations than are at present in the books, they said, could be procured. Inspector C. B. Edwards supported many of these suggestions.

Mr. Edwards had a brief report of the work of the schools. He said that the teachers and parents should be brought into closer contact with each other. This would have a greater influence of good over the pupil.

Peonies Coming To City From France To Adorn Gardens

Preparations Made at Springbank for Fine

Since the peony has been chosen as the civic flower the parks board is making plans to give it a prominent place in the city floral adornments next year. A large shipment is on its way here from France, and is expected to arrive within a short time.

Preparations for planting the roots are under way at Springbank. A fairly large hole has been dug, and leaves have been placed in the bottom of this as fertilizer.

One citizen, who observed the preparations, remarked: "There's another way and leaves the desk of the sanitary information of the preparations, remarked: "There's another way Young, the newly-appointed plumbing inspector, is also in need of a few square feet of floor space that he for the time being, in the relief office, and uses the desk of the sanitary information of the sanitary information of the relief which the relief office can offer seems about exhausted, and the city aldermen are therefore spending a sleepless night or two trying to figure how they can put three officials where one should be. evidence of civic waste. Parks Board Wants Arboretum at Park

This Is Nursery for Young Trees, Not an Animal.

An arboretum is going to be established at Springbank Park if the recommendation of the parks board is adopted by the public utilities commission this afternoon. This step has been taken only after some consideration and a careful perusal of Noah Websier to determine just what is an "arboretum."

To settle all fears in the minds of the uninitiated, it may be stated that an arboretum is merely an aquarium for trees. In other words it is a space in which trees are parked until they have reached a stage where they are fine a nursery, and they are graduated then from there to an arboretum, where they remain until needed.

This is the only drastic step the parks board is considering at this meeting. Three or four trees in Victoria Park are removed, together with the shrubs surrounding them. They will be replaced by flower beds.

Buchanan in a re-In the section in which double lang is proposed there is only a port to the public utilities commission on every second pole at present. A light would be placed on every pole under the new scheme.

Expenditure on the plan is well warranted, in view of the city's lighting expenses in the past, M. Buchanan thinks. The suggestion will be to extend the ornamental lighting system on Dundas street to the Western Fair grounds, and on Richmond street to the C. P. R. depot. Another will be to double the number of lights in the area bounded by the river on the south and west, by Central avenue on the north, and Adelaide street on the east, and to double the lighting on a number of the paved thoroughfares.

horoughfares thoroughfares.

Will Cost \$30,000.

One thousand lights would be required to carry out this plan, and 109 new ornamental lighting standards would be needed. The ornamental lighting would cost about \$17,000 to install, and the remainder about \$13,000, or a total of \$30,000. The annual cost of supplying power for the additional lights would be approximately \$13,000. The annual cost of street lighting at the present street lighting at the present \$30,000. The additions would

ring it to \$43,000.

He states that the London Electric Company had only 500 street lamps in operation, at a cest to the city of \$30. The lights were in operation only on nights when the moon was not shining. The public utilities since taking over the system have continually added to the number of lights, until now there are twenty times the number, while the cost remains at \$30,000. London Gets Off Easily. London Gets Off Easily.

London cost per capita for lighting the lowest in the province as well, Buchanan asserts. costs each taxpayer 51 cents a year. Guelph is the nearest competitor, the people there paying 57 cents each year. St. Thomas ratepayers are charged 75

REMARKABLE SHOWING

for the month of October almost equaling October of one year ago. You will admit that this is remarkable, when we remind you that October, 1918, was the month when the "flu" was at its worst, causing such an unprecedented clamor for various drugs, "flu" preventatives and remedies. This splendid showing, we feel, is only further proof of the ever-increasing popularity of Standard Drug Stores. That we intend doing our part to still further this popularity is evidenced by this list of

This will mean that the city cannot win its case against the Winnipeg Electric Railway Company on increased fares on the ground that the act is ultra vires or unconstitutional. The city, however, if local courts and parliament go against it, will go to the privy council, it was declared.

On the train returning to Paris, Joffre summoned the newspaper correspondents who had accompanied him on his tour, and one of them, a financial reporter, broached the subject of the exchange. Imitations Are Dangerous.

AN OHIO druggist writes to "The Practical Druggist," a prominent New York Drug Journal, as follows: "Please furnish formula for Castoria. All the formulas I have worked with are either ineffective or disagreeable to administer."

To this "The Practical Druggist" replies: "We do not supply formulas for proprietary articles. We couldn't if we wanted to. Your experience with imitative formulas is not surprising, but just what is to be expected. When Castoria is wanted, why not supply the genuine? If you make a substitute, it is not fair or right to label it Castoria. We can give you all sorts of laxative preparations for children, but not Castoria, and we think a mother who asks for Castoria would not feel kindly toward you if you gave her your own product under such a name."

Someone some day may try what this druggist was advised not to try, so beware. Remember that Fletcher's Castoria is safe and not an experiment.

Children Cry For

Mothers Must Use Care.

Why do we so often call your attention to imitations of Fletcher's Castoria? Because it is a baby's medicine and imitations are always dangerous, particularly imitations of a remedy for infants.

Druggists generally, the great majority, are reliable and think only of the welfare of their customers. But there is the other kind, as seen above, whose only aim is the greater profit in handling spurious goods. Again we say: beware.

Your own judgment tells you that Fletcher's Castoria having for over thirty years at great expense held up its reputation, must jealously guard it. Then, it follows that this company must use the very best of material. Must employ experts in the selection of the herbs.

Must retain skilled chemists in its manufacture. Your same good judgment must tell you that these irresponsible imitators are trading on your credulity and the reputation built up by Mr. Fletcher, during all these years, for his Castoria.

Take Two Bionin Grippe Tablets When a Cold Is Coming

Don't take chances with the smallest cold. Influenza and Grippe are in the air. Colds weaken the system and make it an easy prey for these dreaded diseases.

Thousands of boxes of Bionin Grippe Tablets were used with great success during the influenza epidemic last year. Not one person who used Bionin Grippe Tablets as a preventative took influenza.

Don't risk your health or life. At the first sign of cold take two Bionin Grippe Tablets

Almost immediately pain and aching will be relieved. If necessary, follow with one tablet

every two hours. Fever will be quickly reduced, circulation equalized, watery discharge from the eyes and nose will cease, and after three or four doses the bowels will move freely.

You can continue at work while taking Bionin Grippe Tablets. They do not cause perspiration—there is no danger of catching a fresh cold while using them.

Keep Bionin Grippe Tablets in the house. Take two when a cold is coming.

BISHOP FALLON'S ADVICE TO CANADIANS

Rt. Rev. Michael Francis Fallon, D.D., Bishop of the Roman Catholic Diocese of London, who has just invested \$60,000 of St. Peter's Seminary Funds in Victory Bonds, says:

"The Victory Loan of 1919 is, in my judgment, a patriotic obligation on all Canadian citizens and a safe investment for their surplus wealth.

"The resources and credit of Canada are underneath every bond issued on the authority of this country; these resources are amply sufficient to meet many times over our present national financial obligations. If a Victory Bond is not a safe investment there is no safe investment in Canada.

"And the return on the investment is sufficient to justify the claim that Victory Bonds provide a just and equitable income on the capital invested.

"True patriotism implies that every citizen is obliged to sacrifice his wealth for the nation's safety.

"If men must die in a cause it follows necessarily that a much smaller demand is made on other men, who are asked to offer, not their lives, but their material possessions.

"Every Canadian, therefore, who believes that Canada has just emerged victorious from a righteous war cannot escape the patriotic obligation of enabling Canada to meet and solve the various problems arising from that war and that victory, and upon the solution of which depends the development of Canada's national life."

Outstanding Canadians without respect to creed or politics are unanimous in advising you to

should be instructed through the newspapers and otherwise in explicit detail as to how they are being bled by unfair taxes and exorbitant prices. Merely to inform the public of the facts, to inform with vigor and frequency, in the way that Victory Loan information is displayed, would go far to check undue profiteering on the one hand and to create an overwhelming demand, on the other, for a root-and-branch reform of taxation in the interest of the poorer classes. Why should not the Government directly teach its economic principles and plans to in the face of widespread popular disapproval, the public? The people should be taught that but that is not amazing when it is remembered the remedy for H. C. L. is not to grasp ever that the Borden Government retains power not after higher wages and salaries, but to act conby the will of the people but by a gross, auda- certedly through the Government to reduce

Mr. Drury says that no Liberals will have places in his cabinet. LORD FISHER'S "MEMORIES." [Westminster Gazette.]

Lord Fisher is not understood abroad as he is home, and therefore we say that we hope our foreign friends will not take quite seriously all that he says. His "Memories" in the Times have the characteristic touch which makes them very enterhe proposed to King Edward to "Copenhagen" the German fleet, he does not reveal what answer the King gave, except to make it plain that his plan was decisively rejected. At the time the suggestion was made, he points out, we had a fleet of sub marines, and the Germans had only three, and against our seven Dreadnoughts she had none. No doubt the idea was a practicable one from the naval man's point of view. We had the machinery that would have Jone the trick, but the trick was he ruled was capable. Lord Fisher, indeed, shatters Edward, that "he had the heavenly gift of proport and perspective."

HOMER IN THE CHAIR CAR.

[New York Times.] "When found in a parlor car on the Chicago an Alton train tonight," says a news dispatch, "the president of the United Mine Workers was reading the Iliad and the Odyssey," presumably one in each He was perusing "the stories of Ajax. Hercules and Nestor," we learn, skipping lightly from page to page, it would seem. "The world is about the same now as it was then," he said. Pernaps it is, though Mr. Lewis finds his way easier than that of Thersites, business agent of the Argive proletariat, when he reviled Agamemnon for profiteering, and tried to call a strike in the army camped before Windy Troy. But here is reason fear that the miners' president did not draw lessons as he might from what he read. Nestor was a wise man, not given to hard threats or hasty Hercules attained distinction by labor, not for refusing to labor or to let others labor. Ajax, it is a pity that Mr. Lewis's enthusiasm did not lead him to study the history this here as further told in post-Homeric writers; ne might have learned something about the unisdom of defying the lightning.

A WAR EPISODE.

[Philadelphia Ledger.] How an American serving in the British arm gave a London valet the shock of his life was related y a soldier returning from England. niless American, worn by a year's fighting with the British in France, wandered into a Y. M. C. A. Eagle Hut, London, and seemed so forlorn and needy that Mrs. Gowers, head of the Y. M. C. A. Hospitality League, and wife of Lloyd George's secretary, took him into their home for his leave. After a good night's rest the American put the valet "over the jumps," ordering his uniform pressed, and generally bossing the houseman manner far from what that factotum thought a humble soldier should assume. Finally the servant went to Mr. Gowers to ask who the American was. Mr Gowers did not know why the valet asked. "Hif I may say so, sir, 'e's makin' 'imself very much at 'ome, sir, makin' us all jump about a bit, an' 'e told be to send this cablegram," said the valet handing over a message which read as follows: "Dad. Beautifully Knit from the Softest Wool

LINER children's stockings than these cannot be made. For there is no finer wool than the soft, silky Australian lambs' wool from which we spin the yarn.

And there is no better process than ours of knitting that lovely yarn into hosiery.

Little Darling Stockings are made especially for babies and kiddies up to seven. Soft and warm, silken heel and toe. Not a fear of chafing-knit closely, but affording perfect' ventilation. You will admit you never saw anything finer in infants' clothes.

Little Daisy Stockings are made in sizes up to twelve years. They have extra strength in heel and toe. There is unusual wear, as you know, in these famous stockings. And there is the protecting warmth that romping, tireless legs must have.

A wide range of colors—dainty shades, and dark—or fast black.

Ask for Little Darling or Little Daisy where you buy your children's clothes. Write to us if they cannot supply you.

WHAT TO DO WHEN NERVES GO WRONG A SPECIALIST'S ADVICE.

Men and women who suffer from weak nerves, who tire easily, can't sleep, have brain fag, low vitality, general weariness, loss of strength, dufled ambition, lack of will power, or any of those symptoms that so surely arise from poor, unsteady, unstrung nerves or nerve force run low, should try taking a little Ferro-Peptine with their meals for a few days and note results. This preparation is the greatest ginger-up stimulant and nerve vitalizer ever known for putting the good old "pep," ambition, courage and real vital energy into a tired, run-down and shattered nervous system.

amoution, courage and real vital energy into a tired, run-down and shattered nervous system.

Here is a test worth trying. The next time you feel tired, blue, or when your nerves are fairly crying out, take a Ferro-Peptine nerve tablet. Then wait for just ten minutes, and note results. Ferro-Peptine seems to go straight to the nerve cells and starts work the minute it reaches them. It brings a ten-minute change from that awful dull, weak, lazy, don't-give-a-hang feeling, to brightness, strength, clear-headedness and courage. It calms and strengthens the nerves of people who get the "jumps" and fidgets, and gives them poise, power and tremendous reserve energy. Ferro-Peptine Tablets are absolutely harmless, contain no dope or habit-forming drugs, and are always safe, easy, pleasant and efficient. Standard Drug Co, and many other leading druggists in London and vicinity sell it in large boxes—42 tablets to a package—on an absolute guarantee of satisfaction,

EGGETT-JOYES.

The home of Mr. and Mrs. Daniel Joyes, 634 Hamilton road, was the scene of a happy event on Tuesday at 8 p.m., when their youngest daughter, Daisy, became the bride of John W. Eggett, also of London. Rev. Dr. McCrae performed the ceremony in the presence of thirty guests, and Mr. and Mrs. J. Gordon Joyes attended the bride and groom. The little bride looked very sweet in a dress of soft white silk, and carried pink and white carnations. The young couple will reside in London. A delightful Halloween masquerade was given under the auspices of the West Lorne Continuation School on Priday night, when numerous ghosts and witches might have been seen flitting about telling the fortunes of the guests. An interesting feature of the party was the staging by the W. L. C. S. girls of the scene from Shakespeare's "Macbeth," where the three witches are preparing for Macbeth's arrival.

Miss Ella Pethnick and Hugh McColl won the prize for being the best dressed couple, and Miss Mary Carson, as a Roman cavalier, was most attractive. Refreshments were served, after which the witches took their flight and the company dispersed. BETTER **FLOORS** Use this better Polish. After the ceremony, during the signing of the register, Mrs. F. J. James, cousin of the bride, sang very sweetly, "Oh, Promise Me."

The guests, numbering 30, retired to the dining-room, which was daintily decorated with pink and white, where a dainty wedding dinner was served by cousins of the bride. The bride wore a travelling suit of brown serge, with hat showers of confetti and motored to Sarnia, where they took the train for the Detroit.

Williams were the ceremony, during the significant in the cut, for years had been the centre of reconstruction and philanthropy. Francois says that he was a visionary and a philanthropist, who at the same time was disloyal to his fellow-workers, and a trickster. He wanted notoriety either to satisfy his personal vanity.

Envolved Red Cross.

Although this man to suit his own ends envolved the world-wide conception of the Red Cross Society, there were other men in Geneva at that firm who had higher ideals and were sifted with greater wisdom than Dun-samesented the phili-

These five men organized the conference in 1863, and constituted the original international Red Cross committee.

Francois, however, claims that the Red Cross ideal essentially sprang from the cosmopolitan and religious spirit of Geneva, just as Protestantism sprang from its Calvin, and the democratic ideal from its Rousseau.

Pretty soon they'll have the pitchers using nothing but their heads, and then a lot of them will be in the out-of-work class.

That the whole rugby game as played in Canada will be changed next year is a practical certainty as a result of this year's experiences, as is also the standardization of the rules under one governing body. There has been a feeling for some time general that the Canadian game is not open enough. The American style of play with eleven men and the forward pass has brought the game the popularity it has achieved in the United States. While the adoption of the American game in its entirety is not considered advisable to the best interest of the games here, it is considered among the experts that an adjustment between the English game, which is by far the most open of all three, and the American would give Canada the best rugby played.

In the meantime, the rugby controversies wax fast and furious between Montreal, Hamilton, Toronto and Ottawa. The Kilt, Hergovitch, Burkhart, Quilty vs. Hamilton Tigers and Argo protest, and finally the wholesale dislike on the part, of Toronto for Shaughnessy's regulations juggling, has brought the game more interest than it has held at any time since the war. It's great for the game, but must be hard on the talk organs of the fans in the various cities.

The Shaving Service for Everyman-Everywhere.

The Psychology of a Clean Shave

(Part of an Editorial in Collier's) Shaving as it is practiced today marks a step

forward in civilization. This statement may sound ridiculous, but it isn't. Here's proof: Each of our soldiers who went abroad took as part of his regular equipment, and by order of his government, a safety razor. * There were two reasons, the military authorities say, why a soldier had to be clean shaven. First it enabled the gas mask, which was worn almo constantly at the front, to fit more tightly over th face. Second, a clean shave kept up the morale a soldier and of an army.

You know how it is yourself. You know the direct bearing a clean shave has on your personal morale. Compare the way you feel in making an important call or attending a special meeting when you are freshly shaved with the way you feel with a day's growth of stubble on your chin. There's all the difference in the world. It seems a trivial thing to have such an effect upon you, but for some psychological reason, it does have that effect - and you know it. †

What has brought about this change in men's habits? It's not so long ago but that we can remember the beard in all its varying degrees of opulence. Every family album shows how prevalent it was.

There are two reasons - just two :** The safety razor made shaving easy. It transformed shaving from a fairly long, decidedly unpleasant and slightly dangerous operation to one that was finished before the bath water had ceased running.

It saved time. Compared with the old style razor it saved several minutes. While individually these minutes may seem unimportant, taken in the aggregate, multiplied by the number of days in the year, and again by the millions of men won over to the use of the safety razor, the amount of time saved is enormous. ¶

"Finished before the bath water had ceased running."

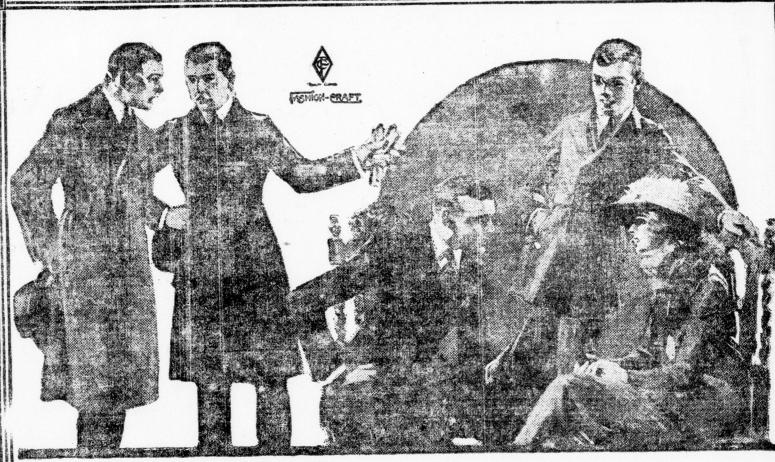

*In all the allied armies during the war, more Gillette Safety Razors were in use than all other razors put together.

Keep count for one day of the number of times you stroke your chin. So many times do you develop confidence-or the reverseaccording to the smoothness of your chin.

**The Gillette not only makes shaving easy, but it abolishes stropping and honing - two exceedingly delicate operations in which few shavers are really successful.

Tive dollars invested in a Gillette means ten minutes saved each day, or an ordinary day's working period saved every 48 days or so.

There is a Gillette dealer waiting to show you Gillette Safety Razor sets—today!

Chief Liberal Whip Succeeds in Separating the Combatants.

[Special to The Advertiser.] OTTAWA, Nov. 5 .- Bad blood, both within and without the chamber, was shown during the deliberations of the Commons today. During the afternoon, while Hon. J. A. Calder was presenting to the House the report of the soldiers' civil re-establishment committee, he was subjected to a series of pertinent questions by Col. J. A. Currie of East Simcoe. In his answer to one of these he evoked the remark from the East Simcoe man that he was "dodging the question."

Several interruptions occurred, and Dr. Cowan of Regina, sitting behind the colonel, advised him to 'go back to his dugout."

The member for East Simcoe bided his time, and at 6 o'clock, when recess came, he approached Dr. Cowan in the came, he approached Dr. Cowan in the corridor, and with the lacenic remark. "You insulted me in the House just then," drew his open hand with a resounding smack, first across the right and then across the left cheek of the member for Regina.

The latter in retaliation brought his walking-stick down across the head of the colonel, and the altercation increased in fury. But James A. Robb, chlef Liberal whip, acting in the capa-

chlef Liberal whip, acting in the capa-city of peacemaker, separated the com-batants and peace settled over the battlefield.

The colonel was still in a combative mood. In the House later in the evening he precipitated himself into the debate with zest and vigor. Mr. Caldehad made a threat which has frequent ly been made by the present Government, but which is now but little heeded. He declared in fine that the Government had no intention of granting further general gratuities to soldiers, and that if parliament didn't approve of that stand then it would be necessary for the Government to resign Major the Government to resign.
Major Andrews, of Centre Winnipeg,
thought that the Government's figures
re expenditures, were misleading, and
declared that the policy of borrowing,
which the Government had pursued ince the war commenced, was wrong, anada had made money out of the war, and that money had to be tapped by taxation. He moved that the com-

"They are quite as good as the 'lyans," remarked Assistant Chief Whip Davidson of Annapolis.
"If it had not been for the support the honorable gentlemen have crossed into this chamber. One-third of the supporters of this Government were elected by the help of the soldiers'

"That isn't true," came from some-"That isn't true, came from some where behind.
"Well, at least, a quarter," amended Col. Currie. "The soldiers' vote was used in Canada, and it was used abroad to elect members. You know that, Mr. Speaker."

A Red-Hot Debate.

The reference brought laughter.

Dr. Edwards interrupted to say that not half a dozen members had been elected by the soldiers' vote, and a quarrel started as to the war record of Dr. Edwards. "I sent my only son to the front, and he remained there till the finish," said the member for Frontenac, hotly.

"The medical profession was badly meeded overseas." retorted Col. Currle. "Why didn't you go with your son?"

"I offered my services and they were declined," said Dr. Edwards. Mr. Speaker intervened at this point, and stopped the dialogue, though Dr. Edwards was heard to mutter, "Till attend to you." He adjourned the debate

BEWARE OF TENDER. INFLAMED GUMS

Pyorrhea, with a premature loss of teeth, is almost inevitable if you do not properly care for your gums. Here is the explanation:

As you age, the body tissues naturally relax. You see this tissue loosening in the neck. It goes on in your gums, too. As you grow older, your gums shrink below the normal gum line. Through lack of care they become spongy and inflamed. Then you have Pyorrhea (Riggs' Disease). Four out

of five people over forty have Pyorrhea.

And many under forty, also.

Don't let a tender gum spot develop. These tender spots breed disease germs which enter the system through tiny openings—infecting the joints or tonsils—or causing other ailments. Immediately get Forhan's, which positively prevents Pyorrhea if used in time and used consistently. Forhan's tones the gums and hardens them. They in turn keep the teeth healthy. Brush your teeth with Forhan's. It cleans them scientifically-

keeps them white and clean.

If gum-shrinkage has already set in, start using Forhan's and consult a dentist immediately for special treat-

the employers' pr In principle, the employers' proposals recognized the 48-hour week; in practice they were opposed to it. Under the employers' proposals, Mr. Gompers claimed, not only was it permissible to work 56 hours a week, but also under work 56 hours a week, but also under certain circumstances 300 extra hours of work a year might be imposed. In other words, the employers could, if they wished, work the employees 163 days in each year sixteen hours a day and let them go idle for the balance of the year. "We want the eight-hour day." FOUR REASONS WHY SHREWD MEN ARE BUYING VICTORY BONDS 1919

1. Security.

CHREWD men are buying Victory Bonds because Victory Bonds are backed by Canada's guarantee that she will repay the full amount stated on the face of the bond—the fiveyear bonds on November 1st, 1924; and the fifteen-year bonds on November 1st, 1934. And she not only binds herself to pay the money back, but she pledges all of her vast resources as security for her promise.

2. Income.

CHREWD men are buying Victory Bonds because the interest return is unusually good considering the absolute security. You will be paid 5½% per year on Victory Bonds— 2½% more than you can get in the Savings Banks. Unlike many other investments, you have absolutely no worry as to the prompt payment of the interest.

3. Saleability.

CHREWD men are buying all the Victory Bonds they can pay for now and all they will be able to pay for during the next ten months under the instalment plan, because they know that if at any time they should need ready money they can sell them. There will always be a ready market for Victory Bonds.

4. Advancement in Price.

CHREWD men are buying Victory Bonds because they consider them to have an excellent prospect of advancing in price.

ALL of Canada's previous issues of Victory Bonds have advanced. You can sell your Victory Bonds 1917 and 1918 even in this short time—one and two years—and get more than par for them. What will Victory Bonds be worth when the world finally gets back to a normal basis-when interest rates come down - when Canada will be able to borrow again at 4%, or even less?

TATAR conditions have created the opportunity for you to buy the very best of Government securities on unusually attractive terms. Do not miss such a good investment opportunity, but buy to your limit.

Major Andrews stated that he was not in favor of handing over two or

ven one thousand dollars in cash proiscuously to all returned men. But miscuously to all returned men. But he said there was all the difference in the world between indiscriminate handouts and supplying the absolute need of these men. He felt sure that the people of Canada would be willing to supply this need if they knew that it was important. The question then became one of ways and means.

Major Andrews read a news dispatch which stated that Australia was giving which stated that Australia was giving a cash gratuity of £50 for every year they served to all soldiers below the rank of officer. This showed that other countries besides Canada were facing the question of providing for the re-turned soldiers. He characterized state-ments to the effect that the self-respect f soldiers might suffer by the payment of a small cash gratuity as "cheap clap-trap" and "rot."

HOPE OF AN EARLY SETTLEMENT OF COAL STRIKE ABANDONED

Miners Declare Withdrawal of Injunction Would Bring Peace in 48 Hours.

WASHINGTON, D.C., Nov. 5 .- Labor leaders, visibly disturbed by the Government's refusal to withdraw the in-junction proceedings against officials of the United Mine Workers, agreed with the United Mine Workers, agreed with the operators on one important point—that the statement of the Government's position swept away all hope of immediate settlement of the strike.

The restraining order issued by Federal Judge Anderson at Indianapolis last week was made returnable Saturday. Counsel for the miners will go into court that day and ask for dismissal of all proceedings. One of two things will happen: The court, according to officials here, either will grant the plea of the miners or continue the temporary injunction until a later date for a final hearing and put into effect a mandatory order to John L. Lewis, acting president of the United Mine Workers of America, to call off the strike. erica, to call off the strike.

Whatever the court does, it in itself is expected to be the next important move bearing on the question of settling the strike.

Peace In 48 Hours. Representatives of the miners and other labor leaders emphasized today that withdrawal of court proceedings would bring peace to the coal fields within forty-eight hours. Lewis' statewithin forty-eight hours. Lewis' statement that the miners would be willing to negotiate a new wage agreement "without reservations," meant, they said, that the slate would be wiped clean and demands for a five-day week and a six-hour day, together with a 60-per cent wage increase would be withdrawn. But labor leaders declared there was no hope of miners returning to work in a body until the new wage agreement thad been ratified. had been ratified.

As was the case yesterday, there were few reports to the department of justice from its agents in the field, and generally the strike situation was described as unchanged. With colder weather over most of the country and the big decrease in production, a few disquieting reports came from different sections where available coal stocks were limited. The fuel administrator of Iowa sounded an alarm in a telegram to Director-General Hines, in which he contended that the people of his state should have coal for their homes ahead of that assigned to locomotives hauling "luxurious trains" across the continent.

Third—Then the extract is drained through percolators, acting somewhat like a coffee percolator.

Fourth-To insure a thoroughly pure medicine, it is carefully pasteurized by heat in special apparatus, and bottled hot.

Throughout the entire process, from the crude herb to the finished medicine in bottle, cleanliness and exactness are the watch-words.

The Reliability of Testimonials Guaranteed

The testimonials published by the Lydia E. Pinkham Medicine Company come to them unsolicited. Never knowingly have they published an untruthful letter, never is a letter published without the written consent of the writer. The reason that thousands of women from all parts of the country write such grateful letters is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives, once burdened with pain and illness. It is easy to realize how these poor, suffering women feel when restored to health; and their keen desire to help other women who are suffering as they did.

The Power of Inspiration

EORGE BROWN'S ambition was to build up a Great Family Newspaper that would be a source of inspiration to each succeeding generation to go forward.

He wanted them in reading The Globe to get a broad outlook on life, and sympathy for, as well as an understanding of their fellows that make men and women of us all.

He urged upon others the same unselfish devotion to public service that he himself rendered.

All men and women cannot rise to positions of fame and fortune, but they can do something to leave the world better for their coming.

The Globe has been a part of the family life of many men and women who have come from humble circumstances to rise in the service and estimation of their

It has received a daily welcome in the homes of thousands who have left the world brighter and better for their sojourn here.

To give some idea of the exceptional influence The Globe has in the homes of its readers, take the result of a test of The Globe's circulation.

Out of 2,949 renewals of subscriptions made to The Globe in the usual course of business for a period prior to April 1st this year, 1,969 subscribers answered the question "How long has The Globe been read continuously in your family?"

This is the result:-

Readers for 50 years or more 255 or 13% 436 or 22% 681 or 34% 962 or 48% " " 1340 or 68%

On the basis of this test, out of the 30,000 families who subscribed to The Globe 30 years ago, 17,000 families are subscribing to it today; and out of the 45,000 families who subscribed to The Globe 10 years ago, 30,000 families are subscribing to it to-day.

In the 75th Anniversary Edition of The Globe on March 5th, 1919, names and addresses were printed of 300 families who have read The Globe continuously for 50 years or more.

The Globe has enjoyed three generations of leadership and inspiration of the people. What it has been in the past it will be in the future.

To maintain this position-to give The Globe a place in every hometo stimulate the aspirations of the people as well as to record daily events -is the fulfilment of the policy laid down by its founder, and continued from George Brown's time down to the present.

Free-A 10-Day Tube Send the coupon below and see for yourself how Pepsodent cleans teeth.

Apply Pepsin

Every Day to Your Teeth

All Statements Approved by High Dental Authorities

To Fight Film

DENTAL SCIENCE has proved that the great tooth wrecker is a slimy film. You can feel it with your tongue. Most tooth troubles are caused by it. It clings to the teeth, enters the crevices, hardens and stays. And teeth will discolor and decay where that film stays, however much you brush them. That is why millions of tooth brush users fail to save their teeth.

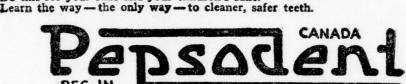

That film is what discolors — not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Scientists have for years sought ways to combat that film, but the methods proved inadequate. Then one man, after extensive research, applied activated pepsin—a digestant—to the film. And many clinical tests seem to clearly prove that he solved

this great film problem. We ask you to see for yourself. This pepsin method is employed in Pepsodent, and we offer a 10-Day Tube. See what it does when you use it. See the results in ten days. It will show you a way to clean your teeth as you never have cleaned them before.

See How They Glisten

Analysis shows that the film is albuminous. Pepsin digests albumin. The object in Pepsodent is to dissolve the film, then to constantly combat it. But pepsin alone is inert. It must be activated, and the usual agent is an acid harmful to the teeth. So pepsin long seemed forbidden.

Now a harmless, activating method has been found. And that method, used in Pepsodent, makes efficient pepsin possible. Able authorities have proved Pepsodent by convincing clinical tests. It has been adopted, and is now endorsed, by leading dentists everywhere. It does what nothing else has done, and everyone should use it. We urge you to prove it yourself. Ask us for a 10-Day Tube. Look at your teeth and see what it does. See how they glisten. Do this for your sake and your children's sake.
