MUTINEERS SURRENDER

After the "Red" Flagship Was Riddled and Fired.

Desperate Engagement at Sebastopol yesterday saw the scene of a desperate battle between the mutinous sailors and the troops in the forts on shore. During the battle the town and forts were bombarded by the guns of the cruiser Otchakov, which now lies a burning wreck of Admiral Point, its hull riddled with shells and its mounting red ensign of revolution hauled down. Many of the crew of the Otchakov were killed or wounded.

St. Petersburg, Nov. 30.—Sebastopol yesterday was the scene of a desperate battle between the mutinous sailors and the troops in the forts on shore. During the battle the town and forts were bombarded by the guns of the cruiser Otchakov, which now lies a burning wreck of Admiral Point, its hull riddled with shells and its mounting red ensign of revolution hauled down. Many of the crew of the Otchakov were killed or wounded.

Revolutionists Begin It.
According to the most detailed report received and purporting to come from the Admiralty, the battle began at 3 o'clock yesterday afternoon, when Lieut. Schmidt, not receiving a reply to the demands of the mutineers, opened fire on a fleet of 10 ships, to which the northern batteries of Fort Alcazar and artillery posted on the shore and several vessels which remained loyal replied.

During the naval battle the sailors on the shore, entrenched in the barracks, defended their position with machine guns and rifled against the attacking infantry. After an engagement lasting two and a half hours, with the Otchakov riddled and on fire, and the cruiser Dnieper and another vessel sunk, Lieut. Schmidt, who had been badly wounded, surrendered the 13th squadron. The mutinous sailors on shore surrendered to the British and Bieloostok regiments.

According to this report the Pantelimon, formerly the Krius, took refuge, was injured below the water line, and a torpedo boat is ashore on the rocks.

Town Will Have Suffered.
No details of the casualties or the damage sustained by the town are obtainable by the Admiralty, but owing to the concentration of the battle was fought it is probable that the town escaped without heavy damage. The demands of the mutineers are said to have included besides the 15 proposals dealing with the sailors' rights, the convening of a constituent assembly and the complete realization of liberties promised by the imperial manifesto.

BATTLE IN ST. PETERSBURG.

Government Attacks Soldiers Wearing Its Uniform With Some Success.

Anticipating early, yesterday morning began its struggle with revolution by burning such regiments as remained loyal to it against the army patriots entrenched in buildings connected with one of its favorite institutions. The attack developed into a battle that showed not only the preparedness of the insurgents, but their determination to withstand tyranny at all points and to shoot down their own comrades if those comrades remained the lackeys of the bureaucrats. Six regiments of Cossacks and other guards were employed in the assault on the mutinous soldiers.

The mutineers held several buildings belonging to the Military School of Electricity and were well provided with ammunition and supplies. They made a stubborn resistance, and had not a detachment of them commanded by a revolutionary officer lacking experience adequate to such daring work made an ill-advised sortie. It is believed they would have maintained their entire position until reinforced by revolutionists from other points. As it was, the survivors of the detachment making the sortie, as well as several scores of mutineers driven from cover by the concentrated fire of five buildings, were captured. Six regiments of Cossacks and other guards were employed in the assault on the mutinous soldiers.

The mutineers must have expected such a result, for they had the first battalion of Cossacks ambushed on the school grounds when it was challenged by several sentries. A satisfactory answer not being forthcoming, the soldiers of the school fully dressed and bearing arms, poured out of the building and formed on the defensive.

Bombarded For 20 Minutes.
The Cossack batteries riddled these guns on the buildings and the bombardment lasted twenty minutes, without apparent result, though there could be little doubt that the artillery was raking the defenses of the school troops with fearful effect. At that time the mutineers maintained their fire, the attacking regiments, though protected in part by the wall, suffered severely.

It is believed that, when news of the fight spreads to other parts of the army, the general military revolt long

PULSE OF RUSSIA STILLED.

Telegraphers on Strike—Crisis Precipitated by Government's Action.

St. Petersburg, Nov. 30.—The situation has again suddenly grown exceedingly grave. The Russian capital is shut off from telegraphic communication with the interior. The pan-Russian strike of the telegraph operators declared Tuesday has gone into operation, in protest against the alleged unwarranted arrest of the members of the Peasants' Congress at Moscow and also calling on the people to compel the employers of St. Petersburg, who locked out 70,000 men to open their doors.

The telegraph strike draws an impenetrable curtain between the capital and the provinces, which in such a crisis renders the position of the Government almost desperate, as being in constant and instant touch with the military and local authorities in the interior is imperative.

Circular Started It.
The telegraphers' strike is the direct outgrowth of the Government's circular prohibiting telegraph operators from joining a union, which prohibition is attributed to M. Durnovo, Minister of the Interior, for whose removal from office the radicals are vigorously working.

The Minister recently summarily discharged the leaders of the Moscow union and yesterday their colleagues sent a twelve-hour ultimatum to M. Durnovo and Premier Witte, demanding the reinstatement of the dismissed men and the withdrawal of the obnoxious circular. No answer being forthcoming, the telegraphers of Moscow after leaving their keys held a meeting in an adjoining building and upon the appearance of the police and troops sent to break up the meeting they declared firmly that they would not disperse even if the authorities used force.

No Wires Working.

Berlin, Nov. 30.—The Imperial post-office announces that all telegraph communication with Russia has been interrupted since noon yesterday.

Vienna Cut Off.
Vienna, Nov. 30.—Vienna is cut off from communication with Russia, except by way of Cracow, Galicia, and thence by mail.

Father Gapon in Hiding.
St. Petersburg, Nov. 30.—Father Gapon is here in hiding. In an interview yesterday he expressed the opinion that the revolutionary leaders were making a tactical mistake which he made before Jan. 22 of preaching an armed rebellion, a democratic republic and an immediate eight-hour day. He added that his residence abroad had opened his eyes. Time was necessary to realize the socialist ideals.

COREA'S EMPEROR PLACATED.

Marquis Ito Leaves Seoul, But Agitation Is Still On.

Seoul, Korea, Nov. 30.—Marquis Ito was received in a farewell audience Tuesday by the Emperor. He left yesterday on a special train for Fusan, his difficult task of placating the Emperor of Korea having been accomplished.

Japanese gendarmes or police are guarding the Imperial Palace and the residences of the Cabinet Ministers to prevent any attack upon them by objectors to the new Japanese-Corean agreement. The Emperor has been urged to repudiate the agreement and cause the assassination of the Ministers who signed it.

Martial Law Rescinded.
Tokyo, Nov. 30.—The rescinding of martial law and the restrictions placed upon the liberties of the press, has been passed by the Privy Council and will be promulgated within a few days. The vital items of the negotiations between China and Japan have been amicably settled.

Legations Become Embassies.
Tokyo, Nov. 30.—It has formally been decided to elevate the Japanese legations in London, Washington, Paris, Berlin, and St. Petersburg to the rank of embassies.

Field Marshal Oyama leaves Port Dalry to-day for Japan.

Gen. Linovitch is reported to be still at Kungshu Pass.

Minister Squiers Resigns.

Havana, Nov. 30.—The United States Minister, Herbert G. Squiers, has cabled his resignation to Washington. The Minister declined to be interviewed on the subject, but it can be asserted that the Cuban Government cabled a message of complaint to Washington against Mr. Squiers' attitude on the issue of Plines question, following his persistent opposition to the Anglo-Cuban treaty, which the Cubans have chosen to consider unreasonable.

E. V. Morgan, United States Minister to Korea, will succeed Mr. Squiers.

Judge and Game Warden Urge Advertising of Statutory Enactments

Unfortunate Man Unknowingly Became Technically Guilty—Fine of \$35, for Snipe Selling

"That Mr. Hartford is morally innocent of any thought of disobeying the law, I am quite convinced," said Judge Houston this morning at the conclusion of the case against William Hartford for selling snipe contrary to the revision of the game laws, "but there is no doubt as to his technical guilt. It seems to me that, in such enactments as the game laws, where it is necessary to make changes and revisions so frequently, they should be duly advertised by the Department in the newspapers within the district affected, and the people thus be protected against unknowingly breaking them."

Game Warden Wm. D. Wigle, who was in the court room, heartily concurred with the Judge in this suggestion and believed that the Department would be ready and willing to act thereon if the matter were called to their attention.

Hartford was charged with offering for sale on the Chatham market, through an agent, Mr. Murphy, twenty-seven snipe, which he had shot. Crown Attorney Smith appeared for the prosecution, and O. L. Lewis for the defence.

Mr. Lewis said the defendant admitted the charge, but said the offence was committed in ignorance of the change in the statute. He had a copy of the game laws in which the sale of snipe within certain time limits was allowed, and was not aware of the amendment until informed by Game Warden Wigle after the offence had been committed. He had made no effort to conceal his act from the officers.

Game Warden Wigle corroborated this statement and stated his belief that the defendant had erred unknowingly.

The Judge suggested a conference between the Crown counsel and the defence, an agreement being reached that the fine should be only \$35, which agreement the court incorporated in the judgment, the men being promptly paid.

The action of the court in taking into consideration the misfortune of the accused in not knowing the law was universally endorsed.

After giving his evidence the Game Warden made a somewhat interesting statement. "I desire, your honor," he said, "addressing the court, to state that it has been reported to me in connection with this case that I was interested therein or was anxious to avoid the prosecution of the accused. This I desire to publicly deny, and I should be pleased to have the court take cognizance of my complete disregard of my action in this matter, so that I may meet it properly and at once."

Both Crown Counsel and Mr. Lewis stated that nothing whatever could be said about the Game Warden, and Murphy and Hartford specifically denied the rumors to which reference had been made.

"You are perfectly right to mention this matter," Mr. Wigle, said the Judge, "because your position in this case is to be distinctly commended, and it is unfortunate that untruthful rumors should be put in circulation."

SPLENDID RECITAL

A genuine treat awaits all Maple City lovers of music in the exquisite recital which is billed for to-morrow evening at the Oddfellows' Auditorium, and the delightful musical menu should be greeted by a large audience. The artists include Frank S. Weltsman, the celebrated piano maestro, and W. Francis Firth, so favorably known as one of Canada's finest baritone, Miss Hillman, who, with such commendable enterprise, has arranged this splendid event, is to be heartily congratulated, and The Planet bespeaks for the recital the success it so well deserves.

HOCKEY MEETING

A very enthusiastic meeting of those interested in hockey was held in the Garner House last evening. There was a good attendance and, judging from the interest manifested, Chatham will have ample support for a hockey team this year.

O. K. Lawton, secretary of the local club, reported that he had received a communication from Tilbury with reference to joining the league formed between Tilbury, Amherstburg, Detroit, and Essex. Every club is in favor of allowing Chatham to come in, with the exception of Essex, who have not been heard from yet. It is almost assured that Chatham will be allowed to enter the league.

Another meeting will be held next week to arrange further particulars.

For Family Colds

A reliable cough and cold cure should be always in the house ready for use the moment the first symptoms appear. It is always easier, cheaper, and better to check a cold in the very beginning. It is safer, too.

Shilo's Consumption Cure, the Lung Tonic, has been tested for thirty-three years, and tens of thousands of homes in Canada and the United States to-day are never without it.

A dealer writes: "Shilo's Consumption Cure is without doubt the best remedy for Coughs and Colds on the market. Once used, my customers will buy no other."—L. Ealey, Nanawauke, Ont.

If it were anything but the best would this be so? Try it in your own family. If it does not cure, you get back all your money. We take all the chances. Neither you nor your dealer can lose. Isn't that fair? 25c. is the price. All dealers in medicine sell.

SHILOH

A Fortune in His Legs

During the reign of Queen Elizabeth an English gentleman of wealth named Corbet, of a distinguished family near Shrewsbury, bet that his leg was the handsomest in the country or kingdom and staked estates worth £80,000 on the subject. He won the wager, and a picture is still preserved in the family mansion representing the process of measuring the legs of the different contestants.

The Wornout Nerves, The Weak Heart, The Tired Brain, The Wasted Strength.

What a multitude of women there are who feel that these words exactly suit their case. From early morn until late at night they have been on the go, year in and year out, attending to the daily household duties, looking after the wants of her children and spending the rest of her time attending to social and church work. Is it any wonder then that sooner or later there comes a general collapse? The action of the heart becomes weak and palpitating, the nerves become unstrung, the brain feels in a whirl half the time and the usual force of vitality is lacking.

It is at this time a woman should look after herself. If she does not, serious female disorders may set in and often cause weary months and years of helplessness and miserable suffering. What she wants is something to build up her system. For this purpose there is nothing to equal

MILBURN'S HEART AND NERVE PILLS

They are the women's friend in every case of the word.

They will strengthen the weak heart, tone up the shaky, starved nerves, make the brain clear, and restore the lost vitality. Mrs. George Lohmes, Stanley Station, N.S., writes: "I was greatly troubled with weak and dizzy spells and was so run down I could not attend to my household duties. I bought two boxes of Milburn's Heart and Nerve Pills and after taking them I found that my trouble had all passed away. I am now strong and healthy again."

Milburn's Heart and Nerve Pills are 50 cents per box or 3 for \$1.25. If your dealer does not handle them, send direct to The Milburn Co., Ltd., Toronto, Ont.

There Was a Limit.

An Irishman one day went into the shop of a barber to get shaved. After being properly soaped and the latter about half applied the barber was called to an adjoining room, where he was detained for some time. The barber had in the shop as a pet monkey, which was continually imitating its master. As soon as the latter left the room the monkey grabbed the brush and proceeded to finish lathering the Irishman's face. After doing this he took a razor from its case and stropped it and then turned to the Irishman to shave him.

"Stop that!" said Pat. "Ye can tuck the towel in me neck and put the soap on me face, but, begorrah, yer father's got to shave me!"

SINGAPORE IS THE KEY

BECOMES NEW NAVAL BASE FOR BRITAIN IN THE FAR EAST.

Imperial Government Adopts a Novel Policy As a Result of Her Recent Treaty With Mikado's Empire—Entirely Changes Focus of Activity—Opinion Is That It Tends to Guarantee Peace.

Great Britain's new naval policy in the Far East, of which the purchase by the Government of the docks of the Tanjong Pagar Company at Singapore is the first material manifestation, is attracting widespread attention. It would seem almost that the Government had endeavored to mitigate the sensational effect of the announcement by stating in an official communication to the press that the purchase is to be made by the Colonial and not by the home Government, and suggesting in semi-official statements that the Imperial Government has nothing to do with the matter except approving the transaction. It is further stated that the Government of the Straits Settlements found the Tanjong Pagar Dock Company unable to cope with the ever increasing trade of the port, and that it was desirable in its commercial interests that the Colonial authorities should take the docks in hand and bring them up to modern requirements.

Be that as it may, the naval correspondents of the London papers are discussing the scheme from the point of view of naval strategy. The Daily Telegraph says:—"The policy, often advocated for London, is

SINGAPORE AND ENVIRONMENTS.

being carried out at Singapore. The advantages of this arrangement are numerous:—

"1. The docks cannot, for instance, pass under foreign control by purchase from the present owners.

"2. The British fleet in time of war will have first claim on the docks and coaling wharves—the latter an even more important matter.

"3. The neutrality laws will be strictly enforced against belligerents, probably with more success and promptitude than is possible while the docks belong to a private company.

"4. The trade of Singapore is still increasing, and will be further developed and encouraged by the Colonial Government, and the profit arising from the docks undertaking will go to the assistance of Colonial finances instead of enriching private individuals, the shareholders of the existing company.

"Singapore will be increasingly used by British squadrons, and once a year the three forces in Chinese, East Indian and Australian waters will be concentrated there for joint manoeuvres, but it will not become a dockyard even in the sense that Trincomalee is a dockyard. Now that Trincomalee has been reduced to a cadre, and in view of events in the Far East, it will be of enhanced importance to the British fleet, owing to its strategic and commercial situation. By the purchase of the docks British interests will be consolidated and safeguarded, but no doubt will thereby be cast on the Imperial exchequer. In view of the many strangely sensational statements—founded purely on fiction—it is well to emphasize these facts.

Singapore is the key to the British command of the sea east of Suez. Englishmen of this generation have to thank Sir Stamford Raffles, who recognized early in the last century the value of the island, which is twenty-seven miles long by fourteen broad. In 1824 it was bought from the Sultan of Johore for £13,500 and a life annuity of £5,400—not an excessive sum for what has become the emporium of the East owing to British enterprise.

It was a good bargain for the British Empire and British trade, and owing to recent events the port has become the essential strategic point for the maintenance of British naval supremacy in Eastern waters.

The Morning Post says that the withdrawal of the British battle ships from the China squadron, leaving it with cruisers only, foreshadowed the rise of Singapore to greater prominence as a British naval station, for one effect of the alliance was to reduce the demands to be made on the British fleet in Far Eastern waters and to bring the focus of British naval activity proportionately nearer home.

The island of Singapore is about eighty miles north of the Equator, its breadth from east to west being twenty-eight miles and from north to south fourteen. The strait separating it from the mainland of Malaysia, is nowhere more than two miles wide. The Tanjong Pagar docks lie to the south of the town, a mile and a half from the postoffice, with access by tramcar.

The coal sheds are declared to be capable of holding 100,000 tons of fuel, and vessels are coaled by Chinese coolies with surprising celerity. Singapore has for many years been famous for this rapidity of coaling, but the people of Moji, in Japan, facing Shimoda, are now considered to outstrip all others in this work.

In addition to the forts—one of which, Fort Serapong, 301 feet above sea level, entirely commands the approaches from the westward—the port is effectively defended by mines, &c., and it may be accounted a strong position for the purpose to which it will be devoted in respect to the British navy.

The elevation of Singapore into a naval base of the first order, as seems to be the intention of the Government, may, concludes the Morning Post, assuredly serve as an indication of the British resolve to render the Anglo-Japanese alliance a guarantee for the peace of the Far East.

The Government's scheme does not, however, meet with the approval of every one. Lieutenant Carlton Bellairs, interviewed by a Daily News correspondent, said that if it should turn out that the Imperial Government has not brought about the purchase for strategic reasons, but that it was to be acquired and worked by the Straits Settlement Government as a commercial undertaking, it might be most valuable experiment, and one he would like to see adopted by the Australian Commonwealth in the case of Sydney Harbor. But if the proposal were one for a new fortified naval base he regarded it as a reversal of the policy of concentration recently pursued and an outlay to which a dying Government should certainly not commit the country.

"It is absurd to say that when the docks are purchased no further outlay will be required," he went on. "That is always the story, but later on expenditure is demanded. If none be needed, why not leave the docks in mercantile hands? They could always be used by the navy in time of need."

"Is this proposal part of an agreement with Japan?"

"Oh, of course it is tacked on to the Japanese Alliance. An excuse is found for all these dockyard proposals in every corner of the world. They tacked on the millions we are spending in Simon's Bay to the South African War fever. Wei-Hai-Wei was on account of the Port Arthur scare, and Rosyth Dockyard came up with the scare about the German navy. At the Colston banquet in 1901 the Chancellor of the Exchequer pointed out that we had incurred liabilities of £23,000,000 in connection with these naval dockyard schemes. Now our liabilities for naval works since 1895 come to £24,000,000, without including Rosyth and Singapore. And this money does not come into the naval estimates at all."

den room of Glamis Castle. The secret of this room is known only to the Earl of Strathmore, the heir-apparent, and the factor of the estate.

Glamis Castle, Forfarshire, the stately home of the Strathmores, has many legends connected with it. The older portion of the castle dates back 900 years. It has continually been added to, and in 1830 was the scene of a disastrous fire which necessitated much rebuilding. It was to Glamis that Malcolm IV. was brought to die after a treacherous assault by Kenneth. His ghost is said to haunt the castle. Another ghost that of the widow of the fifth Lord Burn as a witch at Edinburgh in 1537. This family secret chamber is said by some persons to date back no further than 1685, when it was designed by the

Legend, however, has it that it holds a monstrous creature, a half-toad half-man, endowed with immortality by the Devil, who carried off Earl Beattie after a Sabbath card party, and left this dreadful being in his place. History discounts this by proving that Earl Beattie died a natural death in 1454, and was duly buried at Dundee.

Remarkable Lunar Rainbow.

I recall many lunar rainbows during the half century since I was an observant boy and, if memory serves me, one double lunar rainbow. But the most perfect of these bows that I recall I saw on the edge of Darlington, S. C. I was in a road leading north, with extensive fields east and west; hence my opportunity. The full moon had just risen above the tops of the distant woods, and the bow in the west was materially less than the span of a sun rainbow, but its depth, or thickness, was proportionately much greater. The rainbow colors were distinct, but pale, as if the arch were built of pale mother-of-pearl, and they changed and faded less rapidly than the sun rainbows I have seen.

When in camp on John's island, South Carolina, I saw a brilliant sun rainbow with one foot of the arch so near we could stand on it or pass behind and in front of it, but we did not "dig for gold."—Macon Cor. Scientific American.

Colds and Coughs

THE CAUSE OF COLDS.

How Can We Prevent "Taking Cold."

One of the most distressing things that the average human being is subject to is "catching cold." In itself it is not serious. Some people ascribe all kinds of causes, namely, that they went out without their hats, forgot to close the windows, got the feet wet, or some such accidental exposure. The truth is, we could not catch cold if our blood was active and vigorous. The fact is that the skin and bowels are active, that you are often correctly given. If you are accustomed to leading an active outdoor life and suddenly stay indoors you are liable to bring on a cold. Eating too much, than is needed to nourish the body, will cause a cold—in fact the stomach plays a very important part. The person who can keep out in the pure air and sunshine, keep his muscular and functional system thoroughly active by exercise, can commit all kinds of indiscretions without taking cold. Perhaps one of the greatest physicians of his day is Dr. R. V. Pierce, at such times you should see that the skin and bowels are active, that you are breathing fresh, pure air, that you are drinking freely of water, and try first to get the blood into circulation by some means or other. You will notice that when you catch cold your feet are usually cold, because the circulation is not vigorous.

After years of experience in an active practice, Dr. Pierce discovered a remedy that suits the conditions in a blood-maker and tissue-builder, which also at the same time alleviates the cough. He called it Dr. Pierce's Golden Medical Discovery—an alternative extract that assists in the assimilation of the food—so that the blood gets what it needs and there is perfect elimination of waste matter.

Not Encouraging. "But," said the persistent suitor, "if I were to prove to you that I would go to the ends of the earth for you—" "First," replied the Boston girl, "you would have to prove to me that the earth really has ends, and that, you know, is quite impossible."

A Little Problem. Two men find in a cellar an eight gallon can full of wine; also an empty five gallon and an empty three gallon can. They wish to measure out two lots of four gallons each. How can they do it? Figure it out. It is not so hard.

Suppose. If your fingers grew out at your elbow and your toes sprouted out at your knee,

How funny, indeed, that would be! And suppose that your nose went on crosswise, That your ears dangled down from your chin and your eyes looked out backward, not forward. A fine pickle you would be! —Washington Star.

The matrons of the Edison Orphanage at Lowell, Mass., U.S.A., wrote they had a siege of whooping-cough in their institution. They said that every case was promptly relieved by Vapo-Cresolene. Its value in coughs and colds was so great they always kept it ready for use. You know how it's used, don't you? 'Tis heated by a vaporizer and you inhale it. Write us for a book that tells all about it.

Vapo-Cresolene is sold by druggists, or sent express prepaid on receipt of price. A Vapo-Cresolene outfit, including a bottle of Cresolene, complete \$1.00. Send for free illustrated booklet, "Lunging, Mites Co., Ltd., Agents 48 St. James Street, Montreal, Can."

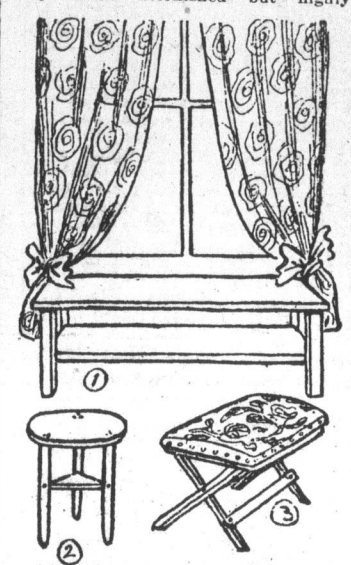

FOR YOUNG FOLKS

THE BOY'S DEN.

Suggestions That May Help His Owner in Making It Attractive.

Often boys display much ingenuity and artistic taste in fitting up their "dens" with furniture and decorations from their own hands.

With the necessary carpentering tools, a few pots of paint and furniture stain, a few brushes, etc., the boy will show his room proudly to his parents and friends, who in turn will be not only much astonished but highly

HELPS FOR THE BOY'S ROOM.

pleased with what he has accomplished. And often the furniture he builds is more serviceable, as well as more artistic, than the cheaply put-together stuff that now floods the market and fills the homes. Besides this, his "den" is characteristic of himself, and he will feel a pride in its originality. A few rough drawn designs for odd pieces to help furnish a boy's "den" are given here. In following them the young cabinetmaker will begin to discover cover points for improvement, and gradually he will become his own designer, as well as being skilled in the use of tools.

No. 1 shows a convenient and artistic window bench with shelf for newspapers, etc. It is made of any kind of wood the boy finds at hand and may be simply painted to match the color of the woodwork in the room or stained some pretty contrasting color.

No. 2 is an odd bit of a table made with broomstick legs, a barrel end for the top and a three cornered shelf.

No. 3 is a "cross legged stool," a necessary acquisition in a boy's den. It is of cherry colored wood, with padded seat covered with burlap.

The Carrier Bee.

You often have heard of carrier pigeons and the part they play in war, but how many boys and girls ever heard of carrier bees?

These little honey gatherers have such a sense of direction that they can always fly straight to their hives, even from places they have never visited before.

We are told that a few years ago a beekeeper trained some of his insects as message carriers. Knowing they will always fly home from any point in a range of four or five miles, he tied tiny notes for his little daughters on the bees and sent them loose in a totally unfamiliar place. In a very short time they were back at their own hives, messages and all.

Some Dolls. Most dolls are born in Thuringia, a province of Germany. Thuringia is sometimes called puppet land on this account. Almost the entire population is employed making some parts of the dolls which are sent to every country in the world except India. The little Hindoos are said to be the only children in the world, all countries having something which the little girl can rock to sleep and love. That the American girls love dolls, one has only to read that last year over \$8,000,000 worth of dolls came into this country, and nearly all of them from Thuringia.

Conundrums.

Why should a housekeeper never put the letter M into her refrigerator? Because it will change ice into mice.

Why is bread like the sun? Because it rises from the yeast.

What is the cheapest feature of the face? Nostrils, two for a cent (cent).

What is the smallest room in the world? Mushroom.

It Quiets the Cough

This is one reason why Ayer's Cherry Pectoral is so valuable in consumption. It stops the wear and tear of useless coughing. But it does more—it controls the inflammation, quiets the fever, soothes, heals. Ask your doctor about it. We have no secret! We publish the formulas of all our medicines. J.C. Louis the Great's Size.

Louis the Great had even and tolerably regular features without any strongly marked characteristics. By all his contemporaries he is spoken of as a tall man, but he had a way of raising his head, surmounted by the monstrous wig he wore, and of swelling his chest that created the impression of height, for when the sepulchres of the kings were violated by the convention and his body was dragged out of his coffin it was measured and found a trifle over 5 feet 6 inches.

SICK HEADACHE

Many varieties of headache exist, those most prevalent being sick or bilious headache, nervous headache, headache from constipation, etc.

Headache is an effect of disease, the cry of the suffering body for relief from some depressing disorder.

Undoubtedly the cause must be removed in order to cure the headache permanently. Wrong action of the stomach, liver or bowels is responsible for nine out of ten cases of headache.

In sick headache (a very common form) there is sometimes nausea and vomiting and usually constipation.

In nearly all forms of headache

Burdock Blood Bitters

has proved itself a specific—a medicine that has cured where all others failed.

Keep the stomach, liver and bowels in perfect working order by the use of nature's regulator and tonic, Burdock Blood Bitters, which cures all forms of headache by removing the cause.

Miss L. Smith, Morrisburg, Ont., writes: "I desire to let you know how much good Burdock Blood Bitters has done for me. I was troubled with headache all the time, and could get no relief, until a friend told me of your Burdock Blood Bitters. After taking two bottles of it, I can say that I am completely cured."

B.B.B. is for sale at all druggists and general stores. Do not accept anything "just as good."

Virtue. Virtue is more to man than either water or fire. I have seen men die from treading on water and fire, but I have never seen a man die from treading the course of virtue.

Concerning Shoes.

Customer—I notice some shoes in the window that you have labeled "Temperance Shoes." What kind of shoes are they? Dealer—They are warranted not to be tight.

A letter has been received from ex-Ald. G. G. Taylor, noting the safe arrival of his party in New Mexico. Mr. Taylor accompanied his sister and daughter, and will spend a couple of weeks with them on their return.

GOT MIXED

On Tuesday night about nine o'clock a commercial traveller arrived at the Grand Trunk depot from the East. He decided to take a walk up town and started out at a brisk rate. About ten o'clock James Dodson heard a man prowling around near the Park street Methodist corner. It was so dark that Jim had to feel around until he found him. He was aided, however, by the complimentary exclamations given out at different intervals from the unknown man, and so he soon found him. It turned out to be the before mentioned commercial man who told the officer he had been stumbling around in the dark for an hour. The light committee had been around they would have learned what visitors think of Chatham's electric light service.

STOLE THE TEA

Thomas Maynard was Robbed Last Evening—His Losses Include \$27.74 in Money

Thomas W. Maynard is to-day lamenting the loss of about ten pounds of tea and \$27.74 in money. Last night, according to Maynard's story, he went home about twelve o'clock and went to bed. When he got up in the morning a number of packages of tea and the above mentioned sum of money were missing.

Maynard is agent for a certain brand of tea and lives in the Scane Block. He keeps his stock of tea in his rooms. He claims that some time between one o'clock and four this morning some one entered his room, climbing up the fire escape at the rear and opening the back window. Maynard is a heavy sleeper and the robbers were able to walk into the room where he was sleeping and take the money out of his trousers pocket. They made their exit through the front door. He suspects there was a woman in the case. Maynard reported his loss to the police and Tom Groves will investigate the matter.

CHRISTMAS CANADIAN MAGAZINE.

Packed full of good things is the Christmas number of our national periodical, The Canadian Magazine. The illustrations are wonderfully well done, and are over fifty in number. These include full-page plates of such famous pictures as Correggio's "Holy Night," Del Sarto's masterpiece, "Madonna of St. Francis," and his "Apostle James," and Sir J. E. Millais' "A Disappointment." There is also a splendid series of full-page plates, showing the harbors and ports in Canada—Victoria, Port William, Sault Ste. Marie, Depot Harbor, Toronto, Montreal, St. John and Halifax. These pictures indicate Canada's marine possibilities in a most graphic manner. The two leading articles are "Andrea del Sarto," by Herbert M. Vaughan, and "Canada, After Twenty Years," by Sir Gilbert Parker. The stories are excellent, and are by Nellie L. McClung, Jean Flewett, Alice Jones, and Verna Sheard—all Canadian women. The description of "A Prairie Fire," by Douglas Robertson, is a vivid bit of word painting, and its vividness is increased by the illustrations. The book reviews are especially good this

month, and the departments of comment and criticism are thoroughly interesting. The cover is a beautiful piece of work, with the Sistine Madonna as the centre-piece in the design.

KILLS AS WELL
AS TORTURES

Fatal Results From Indigestion Unless Promptly Cured—Dodd's Dyspepsia Tablets The One Sure Cure.

Don't imagine because you say the pains and aches and discomforts that follow a hearty meal are "only indigestion" that you are not wrestling with a dangerous malady. Indigestion not only tortures; it kills. It weakens the body so that it is an easy mark for infectious diseases. It is the cause of Appendicitis. The time to check it is now. The means of checking and curing it is Dodd's Dyspepsia Tablets. The proof is thousands of cures like that of Adamard Coderre, of St. Jacques de L'Achigan, Que. Mr. Coderre writes:

"I suffered from Dyspepsia caused by inflammation of the stomach. I tried different medicines without getting any relief, when hearing of cures by Dodd's Dyspepsia Tablets I decided to try them. Two boxes cured me completely."

To Confer With Sir Wilfrid.

Victoria, B. C., Nov. 29.—Premier McBride and Finance Minister Taché left last night for Ottawa, where they have an appointment with Sir Wilfrid Laurier for early next week. The business to be discussed is merely a variety of departmental and detail matters. The Ministers return in mid-December.

Guilty of Manslaughter.

HERB. W. EDWARDS INJURED.

Herb W. Edwards, of Des Moines, Iowa, got a fall on an icy walk last night, spraining his wrist and knee. "The next day," he says, "they were so sore and stiff I was afraid I would have to stay in bed, but I rubbed them well with Chamberlain's Pain Balm and after a few applications all soreness had disappeared. I feel that this bottle of Pain Balm saved me several days' pain, to say nothing of the suffering. This liniment is for sale by all druggists."

ARMY IN SPIRIT OF REVOLT.

No Reliance Can Be Placed Even in Russian Line Regiments—70,000 Men Out.

St. Petersburg, Nov. 29.—The military officers here admit that no reliance can be placed on the line regiments, not even on those now stationed in the capital.

According to the officers the spirit of revolt pervades the whole army from Vladivostok to the European frontier. The officers further point out that the state of affairs at Sebastopol, Odessa, Simferopol and Tiflis shows that the revolutionary spirit has spread to southern Russia, trans-Caucasia. The garrison of St. Petersburg has formulated a series of demands involving the complete remodelling of the service.

Seventy Thousand Men Are Out. The workers' council threatens the country with another general strike, compel the employers of St. Petersburg, who locked out about 70,000 men Monday, who refused to return to work under the old conditions, to reopen their doors. Delegates have been despatched to cities in the interior to ascertain whether they will support the movement.

Many Workmen Destitute.

Destitution is causing many workmen here to turn against the agitators. During the last strike actual starvation prevailed. The men had nothing to buy food nor to bury the dead. There was a case of workmen remaining naked in bed at home, having pawned every stitch of clothing to relieve the hunger of their families and themselves.

200,000 WORKMEN PARADE.

Austrians Want Reforms and Demand Equal and Direct Suffrage.

Vienna, Nov. 29.—The Austrian Parliament opened yesterday one of the most important sessions in its history, as it will have to decide the questions of suffrage and the nation's attitude towards Hungary. As the members took their seats, a monster popular procession, variously estimated to number from 100,000 to 200,000 workmen, was filing past the Parliament Buildings. The marchers, dressed in array, thus voicing their universal demands for equal and universal suffrage.

Emperor Francis Joseph spent the day at the Vienna Palace, from the windows of which he could witness the silent filing of his people. Premier Baron Gautschi von Frankenthurn in the meanwhile was laying before the deputies the Government's bill providing for equal suffrage.

Every Austrian male over 24 years of age has a vote, but the voters are divided into five classes and the votes cast by certain classes, notably the landed proprietors, various chambers of commerce and urban dwellers are infinitely more effective in securing the election of a deputy than the votes cast by the ordinary people, to the extent that sometimes a dozen land owners votes count as much as 300,000 votes cast by the ordinary people. The result of this system is that the voters in the classes can secure parliamentary protection and favoritism at the expense of the masses; consequently, the masses are demanding in no uncertain tones the abolition of all suffrage privileges enjoyed by the privileged classes. The movement applies only to Austria.

T. H. LLOYD ARRESTED.

Newmarket Lawyer Out on Bail Taken on Two New Charges.

Toronto, Nov. 29.—Feeling that T. H. Lloyd, the Newmarket lawyer, accused of serious default, that he was on the point of leaving County Crown Attorney Drayton ordered his arrest on two new charges. This was effected last night by County Constable Burns, after a search extending over two days. Until he is placed on trial next week, at the December sessions, he will be held without bail.

Since Lloyd's release last spring on bonds amounting to \$2,500, supplied by his father and his cousin, it was thought Lloyd might make an attempt to escape. He disappeared two days ago and charges of theft from Mrs. Hammond and Elias Toole for \$300 and \$80 were laid.

Late last night Detective Mackie and Constable Burns placed him under arrest.

He was locked up in No. 1 Police Station. An attempt was made to obtain bail, but it was refused. He will appear before Magistrate Ellis in the County Magistrate's Court this morning to answer the charges.

Funeral of Rev. Dr. Warden.

Toronto, Nov. 29.—The funeral of the late Rev. Dr. Warden took place yesterday afternoon. Private services were first held at the home of Alexander Warden at 100 Spadina road, after which the public services took place at Bloor Street Presbyterian Church at 2:30 p.m. The burial at Mount Pleasant Cemetery. The services were conducted by Rev. W. G. Wallace. Addresses and prayers were given by Rev. Dr. Armstrong of Ottawa, moderator of the General Assembly, Rev. Principal Gordon of Queen's University, Dr. Campbell of Montreal, and Rev. D. C. Hossack, moderator of Toronto Presbyterian.

Their Glory Faded.

London, Nov. 29.—(C. A. P.)—The proposed memorial in London to colonials who fell in the Boer war will not be erected. The Moon and the Weather.

An old jingle on this topic runs—
The moon and the weather
May change together;
But change of the moon
Does not change the weather.
If we'd no moon at all,
And that may seem strange,
We still would have the weather.
That's subject to change.

But does anyone suppose that the moon's changes affect the weather? No doubt some people will presume from the moon's appearance that it is going to be fine or wet; but a barometer, too, will foretell that. If we'd no barometers at all—and it doesn't seem strange—we still would have weather that's subject to change.

HOW TO CURE TOOTHACHE.

Any aching tooth can be relieved instantly with Nerviline. Fill the cavity with batting dipped in Nerviline and rub the gums with Nerviline also. If the face is swollen and sore bathe the painful parts with Nerviline and cover with a flannel. This can't fail because Nerviline kills the pain outright and prevents it from returning. Stronger, quicker, more satisfactory than any other liniment, Polson's Nerviline has been the largest seller for nearly fifty years; try it yourself.

Crushed to Death.

New Glasgow, Nov. 28.—Daniel McRae, an employee of the N. S. Steel Co. Company, was instantly killed yesterday while engaged in repairing an iron buggy at the shears. He was kneeling down under it, when some one accidentally laid a train of buggies start down upon the place where he was working.

THOUSANDS DIE OF CONSTIPATION.

No condition causes so many incurable diseases as constipation. It not only prevents the kidneys from eliminating the poisonous wastes, but causes anaemia, stomach trouble and indigestion. Why won't you use Dr. Hamilton's Pills and get cured? This excellent medicine restores normal bowel action in one night. Thousands say so. Your system will be pure and clean, you'll be free from headaches, no more sour stomach—in short, you'll have jovial spirits and perfect good health. Dr. Hamilton's Pills are sold everywhere, 25c. a box. Get the genuine.

License Commissioners Resign. Toronto, Nov. 28.—Toronto's three license commissioners resigned three new ones appointed in their stead, and the resignation of the Toronto board of license commissioners sent in to the Government as a result of the change, which they regard as a direct reflection on their work and an interference, occurred yesterday.

WHAT CAUSES SNORING

When asleep, people that snore breathe through the mouth instead of the nostrils, which are choked with catarrh. Just use "Catarrh-zone" before retiring and you'll quickly cure the snoring habit. By destroying the cause of catarrh and healing the membranes, Catarrh-zone makes a complete cure in every case. It clears the nostrils, stops the discharge and prevents dropping in the throat in a few minutes. Nothing so pleasant or certain to cure snoring, catarrh or colds as Catarrh-zone—that's worth remembering.

Sixteen Are Dead.

Lincoln, Mass., Nov. 28.—After a day spent in clearing away the wreckage of Sunday night's disaster at Baker's Bridge station, it was settled that sixteen persons lost their lives, twelve were seriously injured and a score cut and bruised as the result of the collision.

ZANGWILL HOPEFUL

Continues Efforts to Establish Autonomous Jewish State in British Uganda—The World's Jews.

Israel Zangwill, by no means discouraged by his failure to induce the delegates to the recent Zionist conference in Switzerland and to accept the English Government's offer of land in Uganda, is back in London eager to continue his efforts to found an autonomous Jewish state. Speaking of his future plans, he said:

"My ideal of the solution of the Jewish problem is now, as before, a thriving, populous and autonomous Jewish colony under British protection. Its basis must be agriculture, but at the same time commerce will flourish and it will be a city of refuge for all the oppressed Jews of the world."

"What we want is a virgin territory in the British Empire capable of receiving an immigration of a hundred thousand persons a year. It is quite possible that this new state may have small beginnings, but before I plant the acorn I must have room for the oak."

"Three elements are necessary for the success of the project—the people, the patrons and the philanthropists. All these we have."

Good Agriculturists.

"The current idea that the Jew is essentially a financier is a myth. Naturally he is an agriculturist. Moreover, they are not tied in the soil. There is already an annual stream of a hundred thousand Russian immigrants whose one wish is to find a home where they can live in comfort. There is, too, a large shifting middle class population, always anxious for fresh fields to invest its money. The idea of an autonomous Jewish state is a real one, where there will be no outsiders, no outsiders are bound to appeal to their patriotic instincts."

Remarkable Facts.

The active reappearance of Israel Zangwill as propagandist-in-chief for the Uganda Zion, and the appearance in London of the latest edition of the "Jewish Year-Book" have combined to make the Israelite a leading topic in the papers. Some remarkable facts have been brought out.

It is stated for example, that notwithstanding the immense influence of the race the total Jewish population of the world is but a trifle over 11,000,000, divided in this way:

Europe 8,786,122
Asia 342,432
Africa 382,432
America 1,574,922
Australasia 17,403

Grand total 11,102,389

In London and New York.

Another segregation shows that in Greater London, out of a population of six and a half millions, there are only 138,869 Jews in the British Isles, 22,166, and in the entire British possessions, 349,971. Against these figures stands the interesting fact that in Greater New York there are nearly twice as many Jews as in the British possessions, the figures being 672,776.

New York, then stands easily in the first rank as the home of the Free Jew. Interesting figures of the Jews in other cities are as follows:

Łódz (Poland) 150,000
Vienna 150,000
Amsterdam 60,000
Philadelphia 75,000
Constantinople 60,000
Berlin 86,153
Chicago 90,000
Paris 150,000
Rome 7,121
St. Petersburg 15,270
Dublin 2,700
Jerusalem 41,000

Jewish Influence.

But mere figures do not convey any idea of the influence of the Jews, since the importance of the work they have done and are doing in the world is out of all proportion to their numbers. Putting aside the great financiers like the Rothschilds, Sir Samuel Montagu and the rest, and disregarding the numerous philanthropists of whom the late Sir Moses Montefiore was a conspicuous example, the lists of celebrities published in "The Jewish Year Book" are full of unusual interest.

In the world of music we find the names of Offenbach, John Brahms, Goldmark, Henry Russell, Dr. Cowan, Mandelsohn, Joseph Mass, Sir Julius Benedict, Rubinstein, Joachim and Sir Arthur Sullivan. The appearance on the list of this last name, it is believed, will be a surprise to many people.

The theatre has largely attracted the genius of the Jew. Judith, Rachel, Sarah Bernhardt, Ada Menken, Genia Polansky, David James are among the names included in the official lists, with, among dramatists, Alfred Sutro, Ludwig Fulda and D'Ennery.

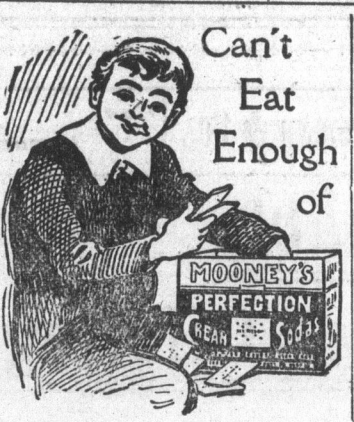

But there might have been added Arthur Collins, the manager of Drury Lane, and many talented English players, including Miss Julia Neilson, Miss Lily Hanbury, and Lewis Waller. H. J. Byron, the author of "Our Boys," Mrs. Keeley, the famous comic actress, and Halévy, the French dramatist, each had one Jewish parent.

Distinguished Jewish Writers. The list of famous Jewish writers is long and distinguished. It includes Sidney Lee, the editor of the Dictionary of National Biography; Israel Gollane, the scholar; Mr. Zangwill, Mr. Lucien Wolf, well known as a political writer under the name of "Diplomatist"; George Brandes, the Danish critic; Lombroso, the Italian; Catulle Mendès, the French novelist and critic; Jean de Bloch, the Russian writer on war; Vamberg, Max Nordau, the late M. Blowitz, and many others. Sir P. C. Palgrave, the historian, was a Jew, as was Baron Reuter, the founder of the Reuter News Service.

Josef Israels, the Dutch painter, was a Jew; Rosa Bonheur was a Jewess, and the art tradition is carried on by Solomon J. Solomon, Ludwig Mond, the great chemist, and Sir Felix Semon, the physician, are Jews. There have been many well-known Jewish chess players, of whom Steinitz is perhaps the most famous name.

The Jew has been prominent in the recent annals of the English law. Sir George Jessel, master of the rolls, was a Jew; while another master of the rolls, Sir A. L. Smith, and a lord chancellor, Lord Herschell, had each one Jewish parent.

NEW ROUTE TO SOUTHERN CALIFORNIA.

The opening of traffic of the San Pedro, Los Angeles and Salt Lake Railroad, known as the Salt Lake Route, between Salt Lake City and Los Angeles, makes available a most desirable short line to Southern California. This will doubtless be of great interest to the ever increasing number of people who journey each winter to this sunny clime.

In anticipation of a large volume of this class of traffic a handsome equipment of modern vestibuled trains has been placed in service in connection with the Overland Limited train of the Chicago, Union Pacific and North Western Line, the most luxurious train in the world. This forms a new and interesting route by which first class tourist travel can reach the sunshine and flowers of Southern California, travelling on fast schedules and in luxurious comfort. Jury Snubbing.

Mexico has an ingenious plan for facilitating verdicts in jury trials. Two superintendents Jurors are drawn to sit near the jury box and listen to the evidence and arguments. If any of the regular jury falls ill or is otherwise disqualified from going on, one of the "snaps" takes his place. In this way they avoid what is often seen in American courts—a long trial rendered useless when it is nearly finished by the sudden illness or death of one juror.

THOSE ANNOYING BLACKHEADS

External applications will never remove pimples or blackheads. Only by stimulating circulation and purifying the blood can be done. For quick, sure release from these pests use Ferrozone; it drives all humors from the blood, makes the skin healthy, tones up the system. With the pure nutritive blood made by Ferrozone it's impossible to suffer from any skin disease. You'll have a smooth, delightful skin, healthy color and beautiful complexion by using Ferrozone—and you'll feel immensely better as well. Fifty cents buys a box containing fifty chocolate coated tablets at any drug store.

Largely Attended and Impressive Funeral of the Late Herman Jenner—Many Tributes

The funeral of the late Herman Jenner, whose death occurred at Quebec on Friday morning last under peculiar and sad circumstances, took place yesterday afternoon from the family residence on the Middle Road, Raleigh. A large congregation, representative of friends from Chatham and the county, gathered at the Methodist church at Charing Cross to pay their respect to the memory of the deceased and to extend sympathy to the bereaved. The service was conducted by the Rev. S. Salton, who preached an impressive sermon suited to the solemn occasion. In the service the minister was ably supported by the Charing Cross choir. At the close of the sermon Mr. Harry Collins, of Chatham, also spoke a few words appreciating the life of the deceased. The pall-bearers were Messrs. Geo. Rieborough, Thos. Jenner, James Shepley, Walter Vestor, Leslie Shepley and Harry Collins. The interment took place in the family burying place at the Middle Road cemetery. Among the floral wreaths were several from Quebec, one being from the I. O. O. F., of which Order the deceased was a member. The deceased was born about thirty years ago at the old homestead on the Middle Road. His father, the late Thomas Jenner, was one of the sturdy old pioneers of Raleigh and was most highly respected throughout the county. After completing the course at the home school, Herman attended the Chatham Collegiate Institute and took the Junior Leaving, obtaining the silver medal for general proficiency. After attending the county Model school he taught for a few years in Harwich with much success, and then took a course in business training at the Canada Business College, graduating in honors with the silver medal. About four years ago he took the position of Commercial Master in the Quebec High School, which he filled till the day of his decease with great credit, retaining to the last the respect and esteem of those with whom he worked. Besides taking a deep interest in his school work, Mr. Jenner was prominent in athletics and with no mean talent in that direction, he, for several years, sang in the choir of the English Cathedral at Quebec. Lately, however, he attended the Methodist church, of which he was a consistent and faithful member. Besides his widowed mother there remains four brothers and two sisters to mourn his loss. The Planet extends to these bereaved ones its sympathy in their deep affliction.

CANADA'S HOSPITALITY.

London Standard Congratulates Laurier on Invitation to Jews.

London, Nov. 30.—(C. A. P.)—The Daily Standard, referring to Sir Wilfrid Laurier's invitation to the Jews of Russia to make Canada their home and refuge, says: "The reason he gave was one which must specially appeal to ourselves, the love and admiration of his countrymen for those British institutions, equal rights for all. We congratulate Sir Wilfrid Laurier and ourselves upon so remarkable an endorsement of the principles which led us in like manner to afford a hospitality we have never had to repent." The Pall Mall Gazette says: "Mr. Prefontaine's present mission to this country is a welcome sign that the Dominion Government is alive to its imperial responsibilities."

WILL GET UNIVERSAL SUFFRAGE.

Austrian Workmen Receive Assurance From the Premier.

Vienna, Nov. 30.—Tuesday the Premier promised to bring in by the end of February a bill providing for a full and free universal, equal and direct suffrage.

The people made known their demand by monster demonstrations throughout the country. From only one town, Austroitz, are serious disorders reported. There the troops fired on disorderly demonstrators, killing two and wounding thirty. Hundreds of thousands of men paraded there.

In Vienna the masses marched silently, but earnestly, with unmistakable determination.

RE-ORGANIZED

Christ Church has Again Formed an Energetic Chapter of the Brotherhood of St. Andrew

Christ Church Chapter of the Brotherhood of St. Andrew was re-organized last evening, under very auspicious circumstances. There was an excellent attendance of young men, and a very promising and bright future is before this society.

Some time ago Christ Church had a very active Chapter of the Brotherhood, but of late it has been allowed to drop. Rev. Mr. McCosh, rector of the Church, has taken the matter in hand once more, and, through much earnest effort, has succeeded in once again reviving interest in this splendid branch of church work. The young men who joined last evening are all earnest church workers, and the society promises to be a very vigorous one.

E. R. Dryer was appointed director, J. W. Shackleton vice-director, and Frank Thomas secretary. The other officers will be elected at the next meeting.

GOOD BUSINESS

Marks Bros. presented "The Black Flag" at the Grand last night to a large and well pleased audience. It can easily be said that last night's performance was the best ever presented in Chatham by any repertoire company. The specialties were the best in the land, while the moving pictures captured the house.

Mr. Ernie Marks, who manages and owns the company playing here this week, takes the leading role in all his plays and is to-day the most popular and best known actor in Canada. This is speaking volumes for Mr. Marks' future, as he is also the youngest actor in Canada or America playing leads.

To-night the bill will be "The Emerald Isle," Ernie Marks playing Con. O'Callaghan and Kitty Marks plays Molly McShane.

New specialties and moving pictures will be introduced to-night.

SUNDAY SCHOOL TEACHERS

The normal class met in William St. Baptist S. S. on Tuesday evening and listened to good addresses from Rev. A. H. MacGillivray, M. Houston and Fred Collins, on the subjects of Jerusalem, S. S. Organization, and the London S. S. Convention respectively. Although the weather was unfavorable there was a fairly good attendance, thirty-three in all, every Sunday School but Holy Trinity being represented, Park St. S. S. leading. The meeting was both enjoyable and profitable.

St. Andrew's S. S. will have the next meeting, when "The Tabernacle" and "S. S. Officers" will be the topics.
