UNITED STATES REVENUE.

Customs Tariff Now Yielding Sixteen Million Dollars Each Month.

Washington, Nov. 21.—The discussion as to the revenue-producing qualities of the present tariff law lends especial interest to a series of tables just issued by the treasury bureau of statistics, showing the receipts from various sources by months during a long term of years.

An examination of these figures shows that the customs receipts of the treasury department now amount to one-half of the ordinary expenditures of the government, which is about the usual proportion allotted to that branch of the revenue-producing service. The ordinary expenditures of the government, aside from those of the post office department, which is practically self-sustaining, are usually calculated at about \$100,000,000, and averaged during the years 1894 to 1897, \$300,500,000 per annum, and at about the same ratio in 1898, making the Pacific railroad and extraordinary war expenditures. The general plans of those charged with the duty of providing the revenues for the government have contemplated the production of one-half of the necessary expenditures from customs, and the remaining one-half from internal revenue and miscellaneous sources, or, in other words, a half-million dollars a day from internal revenue and the other half from customs.

It is interesting, therefore, to examine the detailed figures of the receipts of the government during this time in which the present customs law has operated under normal conditions, and to determine whether it is supplying its assigned proportion, one-half of the normal expenditures. The daily statement of receipts and expenditures issued by the treasury department for the month of December 17, the one hundred and fortieth day of the present fiscal year, the customs receipts, and during those days, amounted to \$73,340,423. Of this sum a little over \$1,000,000 was from the duties placed upon the war revenue act, so that fully \$72,000,000 of the \$73,340,423 received in these 140 days are the legitimate normal revenues from the duties levied by the customs law enacted in July, 1898, or a little more than the promised rate of a half million dollars a day from customs, under the new law. The receipts from customs during the past 10 days have averaged \$1,199,000 per month. This ten days' term includes the operations of four tariff laws, and it is therefore interesting to compare the operations of the new law at its various stages with this general average during a ten years' term, which includes the operations of four tariff acts. As it was not expected that the new law would in its first few months, operate normally in its productions of customs revenue, owing to the excessive duties levied by the tariff act, it is not improper to show, first, the average receipts during the first four months of its operation, including the calendar year 1897, and also to consider separately the last four months of its operation, dating from the beginning of the present fiscal year.

Receipts from customs, monthly average: Ten years, 1888-98, \$15,159,000; 1897, \$15,159,000; 1898, \$15,159,000; 1

VERY UNSATISFACTORY

The Final Lacrosse Match of the Season a Grievous Disappointment.

Squabbling and Discourtesy to the Visitors—The Decision Reserved.

Victoria and New Westminster met yesterday at the Caledonia park here in the last lacrosse match of the '98 season, and although the game produced neither a definite nor a satisfactory championship decision, "finis" may well be written to the history of the national game in the West if the ill-tempered discourtesy and unsportsmanlike conduct incidental to the match are ever again to be permitted in this city.

Not that the players in blue thus disgraced the city or their colors; it was rather the over-enthusiastic friends of the club, and the spectators who permitted these friends to pass unchecked beyond the bounds of decency in their expressions of approval to the visiting team. All through the match small boy contingent devoted itself assiduously to originating and voicing opprobrious epithets and remarks, encouraged by their elders along the fence, who would not themselves go to the lengths the youths would—but were glad to have the youngsters, much as the man who looks for an excuse to see the circus.

Nor did the persistent insulting of the Westminster team end with the impotent conclusion of the engagement on the field, for the young scum of boys followed the Royal City players back to town, and even went so far as to hurl a few stones and chunks of mud at them as they drove down Girardeau walk.

As for the game, Westminster unquestionably had the best of it, although the decision of Referee Dave Smith, giving the visitors the match, might possibly be set aside on appeal. The Westminster men had a 4 to 3 score in their favor, when Dave Smith, after the calling of a game, and although the decision may technically have been at fault, Victoria might do worse than show their sportsmanship and bow to the referee. Clever, calm and gentlemanly lacrosse is as fine a spectator's game as any the world has ever known; there is a wide difference, however, between such lacrosse and the winning of decisions by persistent squabbling, quibbling and all kinds of technicalities. The lovers of sport for sport's sake are as weary of the latter tactics as they are of lagging matches as extra features of the game.

Conditions were not fitting for a high grade game of lacrosse yesterday. It was too late in the year for the ground was slippery and untrustworthy; and Victoria, weakened by the absence of the Cullin brothers, did not present an aggregate strength equal to Westminster's. The running, checking and individual play in the early stages of the match eclipsed Westminster's, but on the other hand the men from the Fraser and more reliable and practised combination, and it is to be regretted that the science of lacrosse.

"Mike" Finlayson for Victoria was the undisputed lion of the day, while Cheyne for the visitors showed a fine display of stick-handling. Colin Blair, Beltry and young Stephen Westminister were equally conspicuous, but deserve censure rather than praise in consequence. The battle raged with varying success, a per centum of the time, until the end of the sixth game, when with a 4-2 score against them, and the time allowance measurably near, the hearts of Victoria's players and supporters were heavy within their breasts, and their goal scored by Bland revived enthusiasm and hope, and when a point was raised as to the deductions for rests from play, and the night was darkened, the ball was at no time visible to the grand stand when the signal was given to commence play. It had progressed possibly ten minutes when the referee's whistle sounded and the announcement was made that he gave the match to Westminster on account of darkness. Then the vials of wrath were opened; Westminster's late and late in possession, and the chagrin and disappointment found forcible expression. The decision, it was contended, was directly contrary to precedent created when Victoria and Westminster drew with the match well in favor of this city; however, the decision was by Victoria, who did it gained nothing for the town by insulting the Westminster team because of the ruling.

The first was the game more in detail. The first was an end to end playing back and forward of the rubber somewhat factually, while the match settled to morose serious business. Wide shots on goal were numerous, and it was not until after nine minutes that a fairly executed concerted advance was made by the visitors home bound. There was a flag by Oddy in possession, and he was hard checked and went down with a yell. As he fell, however, he threw, and the first game had been registered for the reds.

The second was infinitely faster. Victoria secured from the face-off, and Finlayson making a fine play, started a four-pass combination play which landed the ball with Frank Smith. The latter did the honors with neatness and despatch.

Encouraged by this lightning success, Victoria's home kept the first half of the third game altogether in Westminster territory, the rubber never once passing centre field in two full minutes' play. Then the fight went with a rush to the other end, and Norman had the opportunity to distinguish himself by saving Victoria's flags from three dangerously close shots. By this time half of Westminster's team had been hunched in front of the Victoria goal, and Campbell, picking the ball out of the scuffle, swiped it through.

New Westminster in the fourth played the best combination seen during the day, while Stephens and Finlayson did Trojan work for the blue, supported by Tite, Beltry and George Williams, each of whom was playing a gentlemanly, effective game. It was of no avail, how-

HORNETS MANUS SPING

The Redoubtable Rugby Men of Nanaimo Defeated by a Score of Eleven to Nil.

Victoria's Crack Combination Fully Justifies the Confidence Expressed in It.

The first match of the season between the Victoria Rugby team and the Hornets, of Nanaimo, was played at Nanaimo yesterday afternoon, and resulted in a fine exhibition of the grand old game of Rugby, and the many friends of the Victoria club who accompanied them to the match, and who witnessed the fine combination and excitement that for years never been equalled in the province.

Victoria had the advantage of the kick-off, which was so promptly followed up by their forwards that the Nanaimo back failed to return, and the Hornets were at once forced to touch down. Nanaimo had now to kick-off from turned by Martin, but the ball was well returned by the Victoria forwards, and the Victoria forwards worked along the touch-line, which the Nanaimo forwards had the advantage, and worked the ball slowly down to Victoria's 25; finding an opening in the Victoria's defence, the Victoria forwards broke through the Victoria's defence, and the Victoria forwards broke through the Victoria's defence, and the Victoria forwards broke through the Victoria's defence.

OLD WORLD COMMENT.

The Bishop of London on the Resurrection—Ary and Arriet Method of Courtship.

Lord Kitchener Welcomed as a National Leader—Old Age Pensions.

From the London Truth. RESURRECTION.—What the Bishop of London says is interesting, nor should I dream of setting my views as to what will happen after death against his. But some observations of his about the resurrection that he reads a few years ago are calculated, I should imagine, to raise one more dispute as to the tenets of the church of which he is so distinguished a prelate.

NEW CANS FOR SALMON. Samples Now Being Made at Hull for Submission to British Columbia Canners.

Mr. W. Travis, of Glasgow, Scotland, is a gentleman who claims to have invented a receptacle for salmon, the place of the tin can in the canning industry. He is a guest at the Russell and is having some simple cans made, the material he has discovered. The cans are being made by the E. B. Eddy Co. and when they are ready Mr. Travis is intending to bring them to the notice of the canners of British Columbia.

LICENSE CANCELLED. Mr. G. C. Sauer Believed of His Right to Sell Liquor.

The license of Gregory, Clement Sauer to sell liquor at the Bank Exchange saloon was yesterday cancelled by the board of licensing commissioners on account of his having several times been convicted of selling liquor on Sunday and also on public day. A man of the board, Mr. Robert Redfern and Commissioner T. B. Hall, further decided that the license would be re-issued to a suitable person. Magistrate Hall, who took his seat as a commissioner for the first time, wanted to go further and make the cancellation absolute against the house as well as the license.

COSTER COURTSHIP.—There comes a time in the history of every knight of the narrow when his heart is softened and subdued by the power of the tender passion. He loses interest in sport, and no longer finds satisfaction in pummeling his "mate."

Under the influence of the grand passion 'Ary and Arriet waded down dark turnings together, he with his arm twisted lovingly around her neck, until they reached an open space where some philanthropic society has planted garden seats. Here they all very close together in one corner of the seat—their heads resting on each other's—gazing silently at the stars until it is time to go home.

QUEBEC GIRL. Compelled by Female Weakness to Give up School.

Now She is Healthy and Strong—Dodd's Kidney Pills Cure Women's Ills. St. Caegeod, P. Q., Nov. 28.—The case of Mrs. J. E. Dowd, of Gerard street, Quebec, has been a parallel to the case of the Quebec girl who has brought happiness into a stricken home, by restoring a beloved daughter to health and strength.

FAME'S PATHWAY. Prince Albert Monaco is Saving a Magnetic Observatory Built in the Azores.

The late Woodstock railway company's nephew, who was murdered in South Africa, has left a large estate. The greater part of this money is to be held in trust for his infant son. RESERVED VESSELS.—A very valuable reserve of vessels is available for England, though not, perhaps, at very short notice, for the numerous small and fast passage boats and mail steamers we possess, which would be most useful for scouting in the Channel and watching hostile torpedo craft.

At a meeting from Lord Salisbury and Mr. Goschen these ships would be used to take them except to the hour of alarm.

FIRE AND HURRICANE. Steamer Utopia First Burned and Then Nearly Wrecked.

Passengers and Crew Had Given Up Hope When Assistance Arrived.

The steamer Farallon, Capt. Roberts, arrived at Port Townsend early yesterday morning from Skagway, bringing news of the two accidents to the steamer Utopia, both of which came very near sealing the fate of the little Alaskan liner. On the night of November 20, the Farallon was entering Gastineau channel, 12 miles from Juneau, signals of distress were heard, and upon answering them it was discovered that the Utopia was drifting helplessly towards a reef extending from Point Arden on Admiralty island.

CUBA AND THE CUBANS. Dr. Charles N. Thomas Tells About Uncle Sam's New Possession.

"Cuba and the Cubans" is rather a large-sized subject to deal with in an hour and a half, so Dr. Charles N. Thomas in his lecture at South Park school last night could only touch here and there on the general topics affecting that most interesting island. The lecture was in aid of the school library fund, and was given by Dr. Charles N. Thomas in his lecture at South Park school last night could only touch here and there on the general topics affecting that most interesting island.

IN BRITISH COLUMBIA. Grand Forks Townsite Sold to Eastern Men Who Will Start a Promising City.

The townsite of Grand Forks, British Columbia, has been sold to a syndicate of eastern men. The syndicate consists of Messrs. J. H. B. Smith, of Roseland, and J. A. Smith, of Grand Forks, who will start a promising city. The townsite is situated on the coast, and is a promising site for a city.

Handsome Quarters of the B.A. Corporation—A Valuable Copper Property.

The B.A. Corporation has secured handsome quarters for its headquarters in the city. The property is a valuable copper property, and is situated in a prominent position. The corporation is a well-known one, and has a long history of success.

GRAND FORKS TOWNSITE.—A transaction recently been completed through the agency of R. Armstrong and J. A. Smith, of Roseland, by which the entire townsite of Grand Forks, with the various additions and some hundred acres of land, has been purchased by Toronto capitalists.

THE GRIM REAPER. Deaths That Occurred in the City and District Yesterday.

The death occurred at St. Joseph's hospital yesterday of Michael M. Serpell, who has been a resident on the West Coast of the Island for about 20 years, as trader and hotelkeeper. He was for some time associated with Mr. Charles Spring, when that gentleman had trading stations along the coast. Later he opened the hotel at Alberni which is now being conducted by his sons, one of whom, George, was with his father at the time of his death. Deceased was 47 years of age. Besides two sons he leaves a widow. The funeral will take place at 2:45 from Hayward's undertaking parlors and at 3 o'clock at St. Andrew's R.C. cathedral.

B. A. C. BUILDINGS.—The officials of the British American Corporation at Roseland now have their headquarters in the handsome building on the corner of Third avenue and Spokane street.

LE ROI DEPOSE.—One of the closing scenes of the sensational fight between the Furner and Peyton factions for the control of the B.A. C. mine was enacted in Spokane on Wednesday, when all of the civil actions were settled by the opposing attorneys.

A MISSING HUSBAND.—Mrs. W. J. O'Brien, who is seriously ill at her home in Nelson, is desirous of learning the whereabouts of her husband, William James O'Brien, who left Seattle April 1, 1896, on the schooner Ella Johnson for Cook's Bay.

GREAT COPPER PROPERTY.—A dispatch from Grand Forks, B. C., says that the Knob Hill mine has been discovered.
