ERROR OF CLERK CAUSED THIS MAN'S DEATH

Jury Say Johnson Fortner Died Thru Swallowing Strychnine Supplied by Winnipeg Drug Clerk in Mistake for Epsom Salts—Crown to Investigate Further.

That the late Johnson Fortner, who died at his home, 482 West Richmond street, late Friday morning, took a dose of Epsom salts and strychnine, the substance of the evidence given by Dr. Kaufman, the analyst, at the Fortner inquest last night.

The exact proportion of strychnine in the mixture was 23.35 per cent, by weight, and it was estimated that the deceased took about 17 grains, while one grain is probably a sufficient quantity to produce fatal results.

The verdict arrived at by the jury was to the effect that the deceased came to his death by strychnine poisoning, the fatal dose having been purchased by a son of the deceased in a Winnipeg drug store. A recommendation was made that the crown make further enquiries as to the source from which the drug was purchased.

Dr. Yelkovich, the first witness called, stated that he was called to attend Mr. Fortner, and that while using a stomach pump the patient collapsed and expired within 45 minutes of taking the supposed dose of Epsom salts.

Jonas, the son, had been out west, and had sent home a vial, the contents of which he had purchased last May in a drug store immediately north of the Strand Theatre, on Main street, Winnipeg. He had asked for Epsom salts and had no reason to suspect that the substance given him was not what he had ordered.

Mrs. Fortner and one son, George, gave evidence as well as Jonas Fortner, and their stories agreed in every particular. Coroner G. W. Clendenning conducted the inquest.

The Dominion Alliance intends to enter the East York by-election fight, and a call has been issued for a convention of temperance electors of the riding to be held in Willard Hall, on Monday morning, at 10.30.

As a result of this convention, an independent temperance candidate may be placed in the field, and if it is decided not to take this step, the temperance advocates will discuss the question of placing their support in the coming election to the best interests of the temperance cause.

It is felt among members of the Dominion Alliance that East York is a strong temperance riding. The aggregate vote taken in all the local contests held so far, shows 1943 votes in favor, as against 1212 opposed.

REFERENCE IS POLICY OF UNITED STATES IN MEXICO NEGOTIATIONS ARE NOW AT END

Huerta Has Finally Rejected Wilson's Suggestions and Outlook is for Maintenance of Strict Neutrality at Washington—Will Prevent Shipments of Ammunition Over Frontier.

WASHINGTON, Aug. 20.—The negotiations between the United States and the Provisional Government of Mexico, conducted by John Lind and Provisional President Huerta, virtually have ended.

President Huerta has rejected in toto and finally the suggestion of President Wilson for ending the war in Mexico. The next step to be taken will be by the American Government. The indications tonight are that it will be this:

A return to the policy pursued by President Taft in the last months of his administration and followed by President Wilson up to the time he sent Ex-Gov. John Lind to Mexico City to try to effect an end to the hostilities and a restoration of peace thru mediation, of non-interference and the maintenance of a strict neutrality, a tightening up of the frontier guard to prevent the shipment of arms and ammunition to either faction in Mexico.

The foregoing was made known to the correspondent of The World tonight, by a high official of the administration, and it followed the receipt of another instalment of the 7000 word note from President Huerta to John Lind, rejecting the proposals of the American Government, and a despatch stating while the negotiations appeared to have ended in failure, there still were most cordial relations between the Provisional Government of Mexico and the United States.

The developments out of which has come the almost definite decision of President Wilson to return to a non-interference policy, are of three days. Ever since Monday, there has been little hope that the mission of Commissioner Lind would bear fruit. What little hope there was, however, ended tonight, when the full import of the Huerta note was digested by the president and his advisors.

Three Alternatives. When President Wilson sent Commissioner Lind to Mexico with three suggestions for settling the disturbances, he had in reserve three alternatives which he could adopt in the event of failure. They were: 1. Intervention. 2. Raising the embargo against the revolutionists obtaining arms and ammunition in the United States. 3. A return to the former policy of non-interference, always entertaining the hope that one side would quickly win out in the struggle of arms.

Like his predecessor, President Wilson never did seriously consider the revolutionists obtaining arms and ammunition in the United States. 3. A return to the former policy of non-interference, always entertaining the hope that one side would quickly win out in the struggle of arms.

Without hesitation A. Lapp went after him, but the drowning man in his struggles seized his would-be rescuer round the neck, and it was with great difficulty that Lapp was able to break away. He had a hard struggle to get to the shore owing to the backwash of the heavy swell that was running.

Brother Tried, Too. His brother made an attempt to recover Harrington and became exhausted by the efforts he made but fortunately A. Lepper of 47 Woodbine Beach and Herbert J. Flood of 22 Woodbine Beach, attracted by the boy's shouts, arrived on the scene and pulled them into safety, going into the water with their clothes on.

The boys had hardly been safely taken from the water when the body of Harrington was thrown on shore by the waves. Dr. F. R. Clemens was summoned and the pulmotor phoned for, but owing to the long distance it had to come, it was half an hour before it arrived.

Worked Three Hours. Attracted by the news of the accident, the residents of the beach flocked to the scene, and there was no lack of ready helpers in the efforts made to resuscitate the man. For three hours the doctor would not abandon hope, but shortly after that time the body began to get cold and it was fruitless to keep up any longer the gallant efforts.

Harrington was a man of 30 and worked at the Oxy-Acetylene works on Queen street. He had been married four years. There are no children. Chief Coroner Johnson was notified and decided that an inquest was unnecessary.

GIANT BREAKERS BROUGHT DEATH TO BATHER

Albert Harrington Caught in Swirl of Heavy Sea Off Woodbine Beach, Was Drowned in Spite of Gallant Efforts of His Brothers-in-Law.

With the waves dashing five feet high on to the beach at the Woodbine body of Albert Harrington lay on the sand for over three hours while a doctor and many willing helpers tried by every means in their power to bring back the spark of life.

Without hesitation A. Lapp went after him, but the drowning man in his struggles seized his would-be rescuer round the neck, and it was with great difficulty that Lapp was able to break away. He had a hard struggle to get to the shore owing to the backwash of the heavy swell that was running.

THAW TO BE DEPORTED TO VERMONT IF GIVEN FREEDOM BY COURTS TODAY

Way Open to Deport Thaw

MONTREAL, Aug. 20.—(Can. Press.)—John Clark, U.S. immigration commissioner at Montreal, stated tonight that according to the Canadian immigration laws, there should be no trouble about Thaw's deportation. The Canadian regulations provide that all persons who have been insane during the five years preceding their entry into Canada, are to be classed as "prohibited."

Thaw can also be placed on the other side of the border merely for having passed the line without inspection, declared the commissioner. In case action is taken on the ground of insanity, Thaw will be brought before the commissioner at Montreal, who will then act under the direction of the Washington authorities.

IS CONFIDENT OF RELEASE FROM PRISON

Pacing Up and Down His Cell in Sherbrooke Jail, Thaw Shows Effects of Nervous Strain—J. N. Greenshields, K. C., is Given Charge of His Case.

SHERBROOKE, Que., Aug. 20.—(Can. Press.)—Harry K. Thaw was still confident this evening that he would come out right in the end. He was pacing up and down the cell when seen by representatives of the press. Traces of worry were easily to be seen on his face. His eyes were a somewhat startling look and his lips trembled as he spoke, but he smiled cheerfully as he greeted his visitors.

Thaw swung round as the reporters entered and smiled pleasantly, but on first advances declined to make any statement as to his journey from Matteawan to Coaticook. However, when mention was made of the imprisonment of one of his alleged accomplices, Thompson, accused of aiding and abetting him to enter the country by stealth, Thaw denied the stealth part of it. Thompson was going thru to Detroit, he said, and chose the Canadian route to avoid going thru any of the other states.

"Do you expect to be released?" Thaw was asked. "They can't hold me on that commitment," he replied with disgust. "The proceedings are quite improper." "Then if you are released, and the commitment is quashed, the immigration officials will take up the case?" "That is quite another matter."

"If it is true, as Dr. Flint says, you considered yourself in honor bound not to escape?" he was asked. "I never said anything like that," was the indignant denial. "That's another of Dr. Flint's little tricks. He said I was in honor bound not to escape," and the prisoner swung on his heel and smiled.

"It is still possible that a reconciliation will be effected between yourself and your wife?" "I will see you tomorrow," was his cheery adieu as the reporters finally took their departure.

The Thaw case at Sherbrooke is what the defence described as a "prolonged and expensive legal proceeding."

FUGITIVE FROM MATTEAWAN WHOSE CASE HAS CREATED INTERNATIONAL PROBLEM WILL BE HURRIED TO ISLAND POND, BORDER POINT, TWENTY MILES FROM COATCOOK, QUE., SHOULD HE BE WINNER IN LEGAL BATTLE—IMMIGRATION INSPECTORS GIVEN FULL AUTHORITY TO ACT—CHAUFFEUR THOMPSON ARRESTED FOR ABETTING MURDERER'S ESCAPE.

SHERBROOKE, Que., Aug. 20.—(Can. Press.)—Should Harry K. Thaw be declared a free man, after the hearing of the habeas corpus proceedings here tomorrow morning, and it is considered practically certain that he will, he will be across the American border and in the State of Vermont by tomorrow night. The case so far as the Canadian immigration department is concerned, is wholly in the hands of Inspectors D. H. Reynolds and F. E. Whillans of Ottawa, and these two officials, immediately Thaw is released by the court, will take him into custody as an undesirable, under the Immigration Act, and rush the fugitive to Coaticook. At the immigration office there, formal deportation proceedings will be conducted, in the form of an official inquiry into the manner of Thaw's entrance into the country and his past history, which of course, as is well known, debars him from remaining in Canada. These formalities ended, he will be taken on board a G.T.R. train and conveyed to the border, where Messrs. Reynolds and Whillans will hand him over to the American authorities.

At Nearest Border Point. The point of deportation will be Island Pond, Vermont, the nearest border station on the G.T.R., about twenty miles south of Coaticook. The "thru" ticket to Detroit, on which Thaw hopes to evade the immigration authorities, and continue his journey thru Quebec and Ontario to the State of Michigan, will not serve that purpose. The immigration officials have not yet been shown the ticket by Thaw, they have learned that it was purchased in Coaticook, and reads from that point to Detroit. It is not, therefore, a ticket from one American station via Canada to another foreign point and does not qualify as "thru" transportation.

The only hitch in the deportation plan would be a further writ of habeas corpus calling upon the immigration officials to show cause why Thaw is not eligible to enter Canada. This would further delay action.

Crisis Today. Harry Kendall Thaw's legal fight against deportation to the United States after his dramatic escape from the Matteawan State Hospital for the Criminal Insane on Sunday morning last, will begin in the open in this Canadian frontier town tomorrow morning at 10 o'clock. He is to be produced then before Judge Glibensky of the superior court on a writ of habeas corpus obtained by his counsel this afternoon. If the writ is sustained he will be a free man. But for how long he will be free is problematical.

Thaw's Lips Sealed. Facing such a situation, Stanford White's erratic slayer, ordinarily loquacious, has shut his lips tight, and for once in his life has "refused to be interviewed." He has talked vaguely of matters not appertaining to his escape, but not one word has come from him regarding his flight from Matteawan, or of the inception of the plot that led to his delivery, or of the five men who spirited him away. Of these five, one is believed to be in jail in Sherbrooke. He gave the name of "Mitchell Thompson," and insisted that he was a resident of Toronto. But both Sheriff Hornbeck and District Attorney Conger of Dutchess County, N.Y., who looked him over today, said he was none other than "Gentleman" Roger Thompson, late of New York City, and reputed chauffeur of the black automobile that whisked Thaw from Matteawan at more than 60 miles an hour.

Chauffeur Under Arrest. Thompson was idling in the superior court room waiting for the Thaw case to come up when the immigration officers arrested him. He was quickly identified as one of the two men with Thaw when he was arrested near Coaticook yesterday. He denied that he had aided Thaw in (Continued on Page 3, Column 4.)

FIRES RAGING NEAR HALIBURTON GOVERNMENT AID IS SOUGHT

Conflagration Has Approached Within a Mile of Village and Great Damage in Surrounding District is Reported—Thousands of Cords of Wood Destroyed—Situation is Serious.

HALIBURTON, Ont., Aug. 20.—(Midnight.)—(Special.)—Bush fires which have been raging in the neighborhood for the past twenty-four hours, have now approached within a mile of Haliburton Village, and appear to be beyond control. The villagers are in a state of great excitement, and are preparing for a hard fight with the flames.

At Gelert, the fire is reported to be raging fiercely, the conflagration covering a large area. In the Township of Epsley the flames are spreading rapidly and the property of the lumber mill has been destroyed at Donald. The government has been asked to send aid.

Between Bobaygeon and Burleigh, it is reported that great damage has been done.

BOSSY SOUGHT PASTURES NEW

Peregrinating Cow Plunged Into Lake at Sunnyside and Swam Until Lassoed by Rescuers.

Wandering down from her customary pasturage on the commons near Indian road about half-past six last night a brown and white cow got into considerable trouble in the neighborhood of Dean's boat house, Sunnyside, and her life for several hours was far from placid and bovine.

She appeared on the boathouse platform at Dean's and when an attempt was made to scare her away she took to the water, and swam aimlessly for some time. Four lads in two rowboats set out to capture her, by the use of the lasso, and after half an hour succeeded in roping the animal, but she broke tether, and it was not until she was enclosed within the breakwater at Myers' that her safety was assured.

Dirigible Tows Another.

LONDON, Aug. 20.—(Can. Press.)—The novel sight of an airship towing her disabled companion was witnessed at Aldershot this afternoon. The British Army airship, Eta, and a naval airship were out manoeuvring when the machinery in the latter vessel became disabled. The Eta attached a hawser to the other dirigible, and towed her to the factory for repairs.

WRECK OF RUNAWAY ENGINE

Locomotive ran away from Bathurst street yards yesterday, and overturned just east of Bay street crossing, on the waterfront. The crew of another engine had to leap for their lives, and the locomotive traveled along to the Poolson yards. No one was hurt.

TORONTO BIRTH-PLACE OF MAN WHO DROVE THAW'S MOTOR CAR

(Special to The Toronto World.) SHERBROOKE, Que., Aug. 20.—Attorney Shurtleff, who represents Harry Thaw, also represents Roger Thompson, the chauffeur who drove him away and who was arrested today on a charge of having aided Thaw in escaping from Matteawan.

"I expect to get bail," Thompson said when he was held under \$500 on the charge that he had aided and abetted the escape of a prisoner from Matteawan Insane Asylum. "Mr. Shurtleff, my lawyer, will see to it that I am taken care of in that direction, and besides, I am a citizen of this country. I was born in Toronto, but I lived in New York for a long time, where I was engaged in mechanics. I will not say anything about the Thaw matter, but my coming here was in pursuit of my business as a salesman."

Thompson is a man about 35 years of age. He has blonde hair and has a refined voice. He wears a dark gray suit of the same pattern as that described by Wm. Gordon and Lewis Spence.

NEGLECT TO FENCE G. T. R. TRACKS COST THE LIVES OF FIVE MEN

Evidence Brought Forward at Parry Sound Inquest Indicated That Responsibility Rested With Railway and Not With Lumber Company—Verdict in Few Days. That the Grand Trunk Railway Co. had failed to provide as adequate protection this year as in the two years previous was brought out in evidence given yesterday before Coroner Lambert in the Parry Sound court house at the inquest into the death of the five men who were killed when a double-headed freight train crashed into a herd of cattle thirteen miles east of Depot Harbor recently. A former sitting of the inquest had been adjourned on the plea of the G.T.R. claims agent that an agreement entered into between the Hocken Lumber Company and the railway had stipulated that protection from cattle straying on the tracks at the lumber mill will be provided by that firm. Not in Agreement. President M. C. Hocken of the lumber company yesterday produced the agreement which had been entered into three years ago with the railway, and no mention of cattle protection was found in it. He stated that the mill was only operated during the winter, and that during the summers of 1911 and 1912 a fence to keep cattle from the tracks had been erected by the railway company. During the present summer the G.T.R. had neglected to do so, and he considered the fatal wreck to have been due to that cause. President Hocken was the only witness heard yesterday, and his evidence concluded the inquest. As the district of Parry Sound comes under the designation of an unorganized district, there being no county authority, the empanelling of a jury or the holding of a non-jury inquest rests with the crown attorney. In this case Crown Attorney W. L. Haight decided on a non-jury inquest. When the evidence was all in yesterday Coroner Lambert announced that he would give his verdict in a few days time.

NEWS OF WESTERN ONTARIO

GALT COMPANIONS WERE BEST DRILLED

Court Harmony Receives First Prize Offered by the High Court.

SARNIA, Aug. 20.—(Special).—The high court of western Ontario resumed business at 9 o'clock this morning. After the routine of opening was finished the H.C.R. called for reports of committees as follows: Companion Court Work—Companion Terry reported for this committee and impressed on the delegates the advisability of doing everything to encourage the companions in their work. Constitution and Laws—Regarding the payment of sick claims it was recommended that the supreme court be memorialized to permit the subordinate court officers to pass claims in the case of waiting for the meeting of the court. The places the next meeting recommended to the committee were Windsor, Niagara Falls and Woodstock. Niagara Falls was selected for the 1918 meeting. The election of officers to have charge of the affairs for the year was decided by the next three years resulted as follows: C. N. Greenwood, mayor of Stratford, high chief ranger; J. H. Laughton, Parkhill, H.V.C.R.; Dr. W. A. Henderson, Sarnia, high secretary; J. H. Hambley, London, high treasurer; Dr. Charlton Galt, high physician; John Porter, Simcoe, high councillor; B. Lancaster, St. Catharines, E. O. Zimmermann, high auditor. Appointed Officers—R. A. Harrington, Chapel, H. J. secretary; Rev. R. Decourcy Rayner, Hamilton, high orator; Campbell London, high orator; W. G. Burrows, Stratford, H.S.W.; Harry Way, Hamilton, H.S.W.; Sam Gofron, Berlin, H.M.; George Leest, Wallaceburg, H.A.M.; E. F. Bates, Sarnia, H.C.; Milton Osborne, Henshall, H.A.C.; A. H. Evans, London, H.S.B.; Robert Rutledge, Bradford, H.B.; Des Courant, Sarnia, H. messenger; Sidney Burke, Blenheim, H. messenger. After the election, Companion Mary Watt of Companion Court Harmony Galt, was called to the platform and presented with a handsome cheque, this being the first prize conferred by the high court for the best companion court in western Ontario.

FAT BEEF SCARCE RAIN IS NEEDED

Farmers in Western Ontario Feeling Effects of Drought—Stubble Plowing Difficult.

GUELPH, Aug. 20.—(Special).—Local drivers state that at present fat beef is becoming scarce and that they are experiencing difficulty in securing an adequate supply. They also state that prospects are not any too good for a further supply, owing to the shortness of the straw and the poor hay crop. Of lambs, too, there is a dearth. Farmers, who were wont to keep a flock of sheep, using the roadside for their pasture, have been forced by the advent of dogs and the speed fiend on motorcycles to abandon the habit of stubble plowing this industry. All of these things have had their share in the raising of the price of meat. Harvesting operations are nearly finished. Peas, which earlier in the season were expected to be a great crop, have proved to be a comparative failure owing to the drought, and will only thresh about half the average crop. Late oats are reported to be slightly rusted. The root crop is holding its own, but is badly in need of rain. The ground is so hard and baked that the farmers who are preparing the land for fall wheat seeding find it very difficult to plow, in some cases using three horses on a single plow.

NEW YORK BUYS HYDRO DEBENTURES

Four Million Dollars' Worth Purchased by N. W. Harris & Co.

CITY FATHERS PLEASED Express Elation That Ready Market Has Been Obtained for Civic Securities.

Toronto Hydro Commission has just sold \$4,220,000 worth of general 35-year debentures to N. W. Harris & Co. of New York and Chicago, at \$83.57, which is a fair price, considering the securities are only four per cent. At the price a 5.14 per cent. basis is given. The commission had been unable to market its securities in England, where \$5,000,000 worth had been offered. Antagonism to their purchase was set up by a broker who has since denied that his antagonism bore upon Canadian securities in general. There is considerable satisfaction in civic circles over a ready market for Toronto securities being available in the United States, where the money stringency is so effective in countries driven into excessive armaments, and consequently into extraordinary investments that produce no returns. During the past year Toronto has marketed \$20,000,000 of securities, \$14,000,000 of which were sold, and \$6,000,000 are being held as security for short-term treasury notes, and will be sold when the Royal Alexandra hospital is ready. The remaining \$6,000,000 of bonds will be marketed when required.

TRESHER MET WITH PAINFUL ACCIDENT

CHATHAM, Aug. 20.—(Special).—John McKenzie, a thresher, met with a very painful accident yesterday when he attempted to take out a cock in the bottom of his engine. There was 120 pounds of pressure on the pipe, and it broke, striking him on the head. His face was badly injured.

CHATHAM BURGLARS CLEAN OUT CASH BOX

CHATHAM, Aug. 20.—(Special).—Bates' cigar store on William street was entered some time last night and about \$25 in cash removed from a cash drawer. An entrance to the building was gained by breaking a pane of glass in a side window and turning the catch.

HARVESTING DELAYS RAILROAD BUILDING

But Sarnia Hopes to Have Extension Tapping Lake Shore District.

SARNIA, Aug. 20.—(Special).—A report from Sarnia, Ontario, states that the railroad, now partially built north of Goderich, will be continued southward to Sarnia as soon as engineers can be secured to survey the proposed line. The advantages to Sarnia of a railroad tapping the lake shore district are too manifold to mention and every effort will be made to bring the road here. It will be fall before any work can be done on the line owing to the scarcity of men, as the result of the harvesting in the northwest.

CHATHAM, Aug. 20.—(Special).—John McKenzie, a thresher, met with a very painful accident yesterday when he attempted to take out a cock in the bottom of his engine. There was 120 pounds of pressure on the pipe, and it broke, striking him on the head. His face was badly injured.

USE LIQUID AIR INSTEAD OF ICE

Viennese Expert's Scheme to Revolutionize Refrigeration Methods.

FOR USE ON TRAINS

Dr. Von Fischer Says He May Erect a Factory in Canada.

Dr. Von Fischer of Vienna who was in Toronto last night breaking his journey before going to Niagara Falls today, to inspect the power plant there, and who is managing director of extensive car shops in Austria, spoke of his plans to the World when seen at the King Edward Hotel. He is planning to erect a factory in Canada to produce liquid air. This liquid air is shipped from place to place in large glass receptacles; when stored it is kept in tanks of small size, and according to contents. With regard to the supply of power at Niagara Falls, Dr. Von Fischer stated that it was undoubtedly very cheap and that being so, he thought—albeit he was not anxious to commit himself—that he might be able to make arrangements with the Ontario Hydro Electric Commission to use the power from Niagara and manufacture quantities of this liquid air in Ontario. "Of course," said he, "it is primarily one of the most important uses of the power of the water, but should this be cheap enough, my company will doubtless inaugurate a branch here." Asked whether Toronto would be the location of the branch, he would not say, but he said he would be pleased with the fact that Toronto's convenient situation in this regard. One of the most important uses of the liquid air process is on the railroad trains. It has been tried in Sweden, where it has replaced the use of ice, and is found to be a cheap and efficient substitute. Dr. Von Fischer said that he had seen the Canadian Pacific Railway Co. in this connection, and that providing a branch company for producing liquid air was formed in Canada, the C. P. R. would in all probability opt the process for their refrigerator cars.

THREE HUNDRED K. OF C. PICNIC

Knights from Guelph, Stratford and Berlin Held Excursion to Waterloo.

BERLIN, Aug. 20.—(Special).—Three hundred members of Guelph, Stratford and Berlin K. of C. picnicked at Waterloo, Ontario, today. The picnic was held at the Waterloo Hotel, and consisted of 16 numbers, made up of two baseball matches, first by Stratford and Berlin, resulting in a victory for the former by a score of 9 to 7, and by Guelph and Stratford, the Kilties winning a fine pennant by a score of 16 to 2.

ENGINES RUN WILD ON G. T. R. TRACKS

Big Mogul, Without Crew, Collides With Yard Engine on Esplanade.

CHATHAM, Aug. 20.—(Special).—A leaking throttle allowing steam to get into the cylinder, caused big mogul engine 342 of the G. T. R. to get out of control in the yard. It had been standing in the yard for some time, and the engine had been started. The engine ran wild and headed east, to rush through the Toronto Union Station on the freight tracks at an estimated speed of sixty miles an hour and cut its wild chase just east of the Bay street crossing, where it ran into yard engine 2606, sending that engine at a high rate of speed eastward to Cherry street. The shock of the collision sent the big mogul over onto the C. P. R. track adjoining, and after tearing up about a hundred yards of track, the engine fell over on its side. Seeing the runaway engine bearing down on them, the crew of the yard engine, which was crossing Bay street, jumped to time to escape the collision. The yard engine was brought to a stop by the turning of a switch at Cherry street, causing the engine to fall over on one side in the ditch. As the nearest wrecking engine of the G.T.R. was at Hamilton, the C.P.R.'s wrecking engine was sent from West Toronto to the overturned engine at Bay street and a few hours later had it once over the tracks. At the same time a truck laying damaged rails with new track. No less than fourteen level crossings were passed by the yard engine 2606, before it reached Cherry street.

LOST HIS HOUSE AND ITS CONTENTS

CHATHAM, Aug. 20.—(Special).—Abad fire, the origin of which is unknown, took place early this morning, when the house occupied by Henry Smith, on Communication road, Sarnia, was burned to the ground, only a very few articles of furniture being saved from the front of the house. Mr. Smith and family escaped unharmed. The loss is partly covered by insurance.

“Beauty, Youth and Folly”

Something unusual in the way of burlesque will be seen at the Grand theatre next week, when Cooper's "Beauty, Youth and Folly" company will be seen in the abbreviated season. A new two-act piece, called "The Blue Rose," expressly written for the use of the organization, shows the popular comedian, James F. Cooper, in his well known character, Gus Grounch, in which he made such an emphatic hit last season, but with entirely changed surroundings. The piece is said to be intensely funny and

ATTRACTIONS FOR PRESS CLUB NIGHT

Success of Event is Fully Assured—Choruses Feature at Royal Alexandra.

This is Press Club Night at the Royal Alexandra, and it is sure to be a jolly night. Miss Haswell will sing a local topical song referring to current city events. Mr. Ponto will also sing some songs, and the two will present some special features, and it is expected that the Press Club members will give several choruses.

AT THE STAR

To furnish a production that can meet with immediate approval, and at the same time create a new departure in a certain field of amusement, is no easy task.

The Princess Opening

Klav and Erlanger's production, "The Count of Luxembourg" will be given its initial Toronto presentation at the Princess theatre on Monday night. Franz Lehar wrote the music and Glen MacDonough has provided the libretto from the German of Willner and Bodensky. Londoners, Parisians, Viennese and New Yorkers have heard this musical romance.

“Silver King” at the Grand

“Mr. William Corbett,” who is starred this season in a magnificent revival of “The Silver King,” is considered one of the most versatile actors on the American stage. Mr. Corbett's particular fitness for the role of Wilfred Denver that he has given him all rights to this famous play for the United States and Canada. No expenses have been spared in making this one of the finest attractions now on tour. An excellent company has been engaged.

Music at Hanlan's

Miss Soller, the Swedish conductor, and her orchestra, who have achieved so many triumphs in Europe, is duplicating her success at Hanlan's Point today. Large numbers of men have been despatched there to commence on the building of a station, roundhouse, sidings and the divisional point at the beginning of the new town, which is situated on the bank of the Jackfish River.

Pinafore Kiddies at Shea's

Manager Shea has certainly been fortunate in securing originally headliners for the summer offerings at Shea's, and for next week he is presenting us the leading attraction "The Pinafore Kiddies," who will present a twenty-minute version of Gilbert and Sullivan's "Pinafore." All the principal parts will be seen in the abbreviated opera, including Little Buttercup and Dick Deadeye.

SPECIAL FEATURES IN CIRCUS PARADE

Sells-Floto Organization Arrives in Toronto This Morning.

MANY WILD ANIMALS Every Cage is Open So That All Can See Jungle Denizens.

Of course when the Sells-Floto circus comes here today, it will give a parade, which will probably come down the street about eleven o'clock in the morning. The Sells-Floto circus is the only big traveling organization that always gives its patrons the full benefit of this free spectacle. Others cut out the street parade as one time or another, the real reason being that they did not have exactly what they advertised, but when the Sells-Floto circus comes here, it is especially requested by the management that you go and see the street parade, because if you don't even care to go to the circus afterwards, you will see much that is interesting, entertaining and educational while watching the parade. Some of the things that you will see and hear are as follows: The famous Scotch Kilty Band from Toronto, Canada, the greatest organization of its kind in the world. You will hear the Sells-Floto Concert Band under the direction of Park B. Prentiss. As the line of march proceeds, you will notice Devlin's champion souars, performing all kinds of intricate and sensational military movements. You will hear Bert Klav Sersnadum, the largest musical instrument ever carried on wheels and featured in a parade.

TRACE ORIGIN TO INDIAN JOURNALS

Some Oklahoma Papers Originally Printed in Cherokee, Choctaw or Shawnee.

7999 Fancy Blouse, 34 to 40 bust.

ADA, Okla. To the Cherokee Indians does history accord the first place in the publication of a newspaper in the native Indian language. But a few short years—only seven—after Sequoyah had completed the syllabary of his native language, a syllabary that required 80 characters to express the Cherokee tongue, there appeared the Cherokee Phoenix, a weekly publication printed in Cherokee and part in English.

This paper was issued at New Echota, the Cherokee capital in Georgia, and continued until the tribe migrated to Oklahoma, where, several years later, its publication under the name of Advocate was resumed at Tahlequah, the new capital of the nation in Oklahoma.

The Advocate was published by the nation, the funds being paid out of the national treasury, and was mailed free to all Cherokees who were unable to read English—the only known case of a government issued a free newspaper.

The first newspaper printed entirely in an Indian language, and one of the very first if not the very first, published in Oklahoma, was printed in the Shawnee language and called The Shawnee Sun, and issued from the Shawnee Baptist Mission press in the early part of 1835.

Monthly Periodical.

The Creeks and Choctaws had a monthly periodical issued in 1870, and known as Our Monthly. In 1873 this (known as the Shawnee Sun) was transferred to Tallahassee, Creek nation, and continued until 1875. From Atoka in 1872 the Choctaws and Chickasaws printed a sheet known as The Indian Advocate. This paper was issued until 1877, when it united with The Oklahoma Star and was moved to Muskogee. This paper was known as the Indian Journal, and was followed closely by the plan of The Cherokee Advocate, first being printed in the Creek language and part in the English. It also was for some time the official paper of the Creek nation. The Indian Journal in 1884 issued an official paper at Atoka known as The Indian Champion.

The Chickasaws and Seminoles never issued an official paper.

The Muskogee Phoenix was issued in 1887, first being printed in English. The Creeks and Choctaws attained quite a circulation.

The Indian Herald.

It was published for six years. The Indian Herald was published at Pawnee, Neb. in 1875, but was in no sense an Osage publication. The Indian Moccasin at Afton was under the editorship of a native Indian, and attained considerable success during the two years of its life from 1887 to 1889.

The Indian School Journal, devoted to the interests of the Chilocco Industrial school at Chilocco, Okla., began publication about 1893. The work done from a typographical viewpoint, compared favorably with any of the southern and reflected great credit on the skill and energy of the Indian boys attending the school.

The Indian Advocate was issued monthly by the Catholics, under the direction of the Benedictine Fathers from the Sacred Heart mission, near Stonewall.

Some of the early Indian journals mentioned.

SLEEPLESSNESS

Cold feet will often cause a baby to be restless. If the child has a rather poor circulation it is a good plan to let him wear woolen stockings in bed and to put a hot-water bag into his crib when the mother goes to bed. Never put a baby into a cold bed; he has not enough animal heat both for his own use and to warm the bed besides. Neither should he be weighed down under layers of heavy clothing. Have the baby's blankets of wool of a good quality and they will then be warmer and lighter than several pairs of blankets that are chiefly cotton. Children who will persist in kicking off the blankets should be made to use a sleeping-bag made of a pair of old crib blankets sewed into a large bag and having a draw-string at the top which may be tied under the arms, and besides this, in very cold weather an extra flannel sacque worn over the night-dress. They can then kick about all they wish inside of the large bag and will not wake up because they are cold or keep the tired mother awake trying to see that they are covered.

Constipation is a frequent cause of restless nights. Every child or infant should have at least one bowel movement from the bowels every day, and if at bedtime this has not taken place, the mother will have to give a suppository (given suppositories are best) or, if this fails to work, an enema or injection. When this has to be done at night, however, a doctor should be consulted, for there is something wrong with the bowels if the mother cannot get the child to stool in the morning than if he wakes up as well as several times during the day.

Why Stay Up?

Travel on busy lines particularly at some holiday season is often associated in the public mind with crowded trains or aisles filled with standing passengers, and indeed, the most complete equipment is required to cope successfully with the ever growing traffic out of and into Toronto.

Patrons of the Canadian Northern lines, however, need have little fear of crowding or of being obliged to stand at any time, as special provision is made for sufficient equipment to handle the demands made upon this railway and every effort is being made to see that all passengers are provided with a comfortable seat. Particular attention is directed to the service east of Toronto to Port Hope, Cobourg, Belleville, Trenton, Picton, Napanee and all intermediate points.

BROWNIES

Not cookies, which are usually nice with ice cream or as an accompaniment to the cup of tea, are given the name of brownies, if made after this recipe. Into a bowl are beaten two cup-fuls of sugar, and then add half a cup-ful of melted butter and a cupful of flour. Next stir in two squares of unsweetened chocolate and a teaspoonful of vanilla. The last mixture is spread with chopped walnuts, set in a pan lined with buttered paper. Bake in moderate oven and cut off into squares while still hot.

CROOK OUTWITTED BY POLICEWOMAN

Advertised for Lady Companion and Now He Will Be Deported.

Stanley Francis, a hospital orderly in Toronto, will be deported as the result of a mania which he does not deny for conversing with women not of his acquaintance. He was clever enough to devise some very ingenious plans for satisfying his mania, but he was not clever enough to carry the thing thru when one of Toronto's policewomen walked into his trap.

Stanley advertised for a young woman of good appearance who would be willing to go to California as companion to an elderly gentleman. The only applicant was a policewoman, who found Stanley in the best of spirits and proceeded to find out just where the fraud lay. Never suspecting that he was being carefully watched, the young man talked freely and enjoyed the interview immensely.

The policewoman accepted the position and came back later to make final arrangements. This time an officer was with her, and under his questioning Stanley's logic gave way and he confessed that the elderly man of the story, his own father, was in Liverpool and in need of no companion. He explained his actions by a mania for the company of pretty women.

THE GOOPS AND THE NURSERY

CLIMBED TO TOP OF MOUNT ROBSON

Two Parties Recently Scaled Highest Peak in Canadian Rockies.

EDMONTON, Alta.—Robson, the highest peak in the Canadian Rockies, which rises 13,700 feet above sea level, will never be a playground for the inexperienced climber, according to reports brought to Edmonton by members of the Canadian Alpine Club, on their return from a ten days' camp in the heart of the Jasper National Park.

The ascent was reached by the party, five members of the party of 50 American, English and Canadian climbers, accompanied by Swiss and Austrian guides, achieving their object. Dr. Walcott, secretary of the Smithsonian Institute, found interesting fossils, and Mary Vaux of Philadelphia gathered much data in measuring glaciers in the district.

The first white man to scale the heights of Mount Robson was Rev. G. B. Kinney, who was accompanied by Donald Phillips. They made the ascent the middle of August, 1899, when they were forced to camp for 96 hours at an altitude of 10,000 feet during a blinding storm, and subsisted on such birds and marmot as they could capture.

Tried Recipes

Griddle Cake (With Sweet Milk).

Into one pint of sifted flour mix one-half teaspoonful salt, three level teaspoons baking powder and one level teaspoonful sugar. Beat two eggs till very light, turn into them one cup of milk, but do not stir much, so that it destroys the lightness of the eggs. Stir the egg and milk mixture into the flour, and beat well and then add enough milk to make a batter about like thick cream. Beat the batter vigorously, and especially before each frying. It does no harm for the batter to stand awhile. If you like the crisp edges and texture of a regular fritter you may use a considerable fat and fry the cakes in an ordinary spider, dropping the batter from a spoon in small portions into the hot fat; but if you prefer the smooth delicate brown surface similar to that of an oven-baked cake, you will use a large griddle, which may be heated uniformly hot, and then rub the surface all over with a bit of ham or pork rind held on a fork, using just the merest film of grease. This coating of grease, being free from moisture that always accompanies butter, will form no steam bubbles, which, as they rise, leave a bare spot on the griddle and an unbrowned spot on the cake. Drop the batter from the end of the spoon, making the cakes round and of uniform size. When full of bubbles and before they look dry on the top turn them over with a cake turner or a broad knife. If any portion of the batter spatters out on the edge push it immediately up to the center, so that there may be no waste and no ragged edges. When they stop puffing they are usually brown and done. Serve them right side up. Right side is the meat side that had the first browning, as that is more uniformly browned, and therefore, more inviting. Regular heat so that it will not require a second turning. Serve them with butter and raspberry syrup.

BLUEBERRY PUDDING

Mix and sift two cupfuls of baking powder (level measurement) and one-half teaspoonful of salt. Work in two table-spoonfuls of butter, using the tips of the fingers, then add one cupful of milk, gradually, mixing with a knife. Pick over blueberries; there should be one cupful and measure one-half table-spoonful of flour and add to first mixture. Turn into a buttered mold (having mold hot) more than two-thirds full, and fill on buttered cover. Place mold on a trivet in kettle containing boiling water, allowing water to come up half way around mold. Cover closely and steam one and one-half hours, adding more boiling water as necessary, always being sure that water does not reach a lower temperature than the boiling point. Serve with season sauce—Woman's Home Companion.

AMERICAN SINGERS IMPRESSED BERLIN

Great Future Predicted for Former Soloist in New York Church.

BERLIN.—Eleanor Singer-Schmidt, who has been singing leading roles at the new Municipal Opera House of Charlottenburg, one of the most successful institutions of the kind in the world, has returned more rapidly than most of her contemporaries. Two years ago she was a comparatively obscure soloist in a New York church choir. Her success in one of the most popular of the musical capitals of the world.

The attention of the directors of the Charlottenburg Opera House was attracted by her first appearance, which she made in a specialty company. As a result of her first appearance, she has been engaged for a number of seasons in the most important of the musical capitals of the world.

Miss Singer-Schmidt is also a popular soloist and has the distinction of being the first American to appear at the Berlin Opera House, who has sworn enemies of the "American" in America, which sell the "Bohemian Courier" call her the "great singer of the future."

Partly over her rapid rise in the Berlin Opera House, she has sung some of the music of her "Bohemian" for her own amusement, and she has been taking her first steps in the direction of her own company, which she has engaged for the tour of "Bohemian" in America, which sell the "Bohemian Courier" call her the "great singer of the future."

BOWLING IN MUSKOKA.

A challenge cup was presented to the Elm House, Lake Joseph, by the Doherty Manufacturing Company to represent the championship of Muskoka Lakes. A rink from Clevelanda went over at once and annexed the cup. Elgin House immediately challenged, and in a rubber match played on the 17th, the rangers took Clevelanda by storm and again obtained possession of the coveted trophy. The enthusiasm of the bowlers of the lake district is greatly aroused, and it is safe to predict that during next summer there will be keen rivalry between the different hotels for possession of the trophy. Love of the Elgin House has planned to take the lead in the matter of first-class greens. Already provision is made for eight rinks. A Toronto expert is to be on the ground this fall and next spring, so as to have the lawn in good shape for the season of 1914.

BOWLING AT ACTON.

WHITE SOX TAKE FOUR GAMES FROM CHAMPIONS

CHICAGO, Aug. 20.—Chicago made a clean sweep of the series with the Boston world's champions today by defeating the visitors 1 to 0 in the last appearance of the eastern club in Chicago. The game was a pitchers' duel between Jim Scott and Fred Anderson, the Brockton, Mass. recruit. Scott allowed the visitors three scattered singles. During the present series the world's champions were able to make but one run. Score: Chicago 1, Boston 0.

SENATORS NOW HAVE GOOD LEAD IN CAUCK

OTTAWA, Aug. 20.—The Senators won another interesting game today by 6 to 3 from Berlin, the champions making their last appearance of the season. With London's loss to Peterboro, the Senators now have a substantial lead which will decide the championship. Pitcher Kane allowed eight hits but only allowed himself to be hit only once by the visitors. Schaeffer was hit freely through batting. Score: Senators 6, Berlin 3.

SUMMARY OF CROP CONDITIONS SHOWS FAIR SEASON IN ONTARIO

Fall Wheat, Barley, Oats and Hay Are of High Standard and Bulk Well—Apples, However, Are Cut in Two by Adverse Weather Conditions.

Old Man Ontario reads this morning the summary of his general crop conditions, prepared by the department of agriculture. In some ways it is a very fair season, and in one or two cases the weather conditions have proved to have worked in favor of the growing things. Fall wheat, barley, oats and hay are of high standard and bulk well. Apples, however, are cut in two by adverse weather conditions.

The returns until Aug. 13 were compiled as follows: The season of 1912 will be remembered as one of the most favorable for the harvesting of hay and grain crops so far have stood up well for cutting, and have been housed under perfect conditions.

Fall wheat: The promising outlook for this crop described in the May bulletin has been realized. The average yield per acre is large—although there is considerable range in individual returns, even in the same counties—due to the early start and the fact that the straw is rather short, but clean and of good quality generally. Oddments only were made of rust and smut, and injury from the Hessian fly and other pests was comparatively small. Cutting ranged from the 15th to the end of July.

Spring wheat: The crop is now confined largely to the eastern half of the province, and is not increasing in general favor. The average yield is good, but the sample is well spoken of in the early part of the season, yet the crop has turned out to be a most satisfactory one. The grain is plump and of excellent color, and is well up to weight, and there will be a good average yield per acre.

Barley: Like the other spring grains, barley did not get a good start owing to the comparatively late start of the season, yet the crop has turned out to be a most satisfactory one. The grain is plump and of excellent color, and is well up to weight, and there will be a good average yield per acre.

Oats: Most of this crop had been cut when correspondents reported. The straw as a rule is short, but, as in the case of the other cereals, it is unusually clean and of good quality. The grain is well up to weight, and there will be a good average yield per acre.

Hay and Clover: The hay crop has done much better in the western part of the province than in the eastern part, but everywhere the cut was well cured and is of excellent quality. The chief drawbacks to the crop were the late spring frosts and the dry weather of June. A good promise of clover seed is reported. Cutting was general from the 15th to the 25th of July, and in some instances even later.

Apples are Scarce. The effects of the frosts which occurred early in May during the period of fruit bloom is discernible in the reports of correspondents to hand. Apples appear to have suffered considerably, and the subsequent drier weather has also been

There is no lack of money in the band when the gypsies' depopulation of five members interviewed Robert Birmingham at the immigration office in Toronto. The gypsies displayed a roll of bills which he declared totaled one thousand dollars. This did not make a great effect, however, and at the conclusion of the interview it was understood that the band would depart at once.

IRON ORE NEAR PRINCE ALBERT

Find Has Occasioned Considerable Excitement as Auto Trail Indicates.

PRINCE ALBERT, SASK.—Frequent reports have been made by prospectors that Northern Saskatchewan contains rich deposits of iron ore, and that time will see them fully developed. In bright, open country, a few miles north of the city, a small deposit of iron ore has been discovered recently with a capital of \$100,000 for the purpose of working what is described as a rich deposit of iron ore a few miles northwest of the city. The company has obtained a lease from the government of 1,300 acres of land and an iron trail bed exists somewhere on the property there is abundant surface evidence in the thick ferric deposits which cover the ground in the neighborhood of several springs bubbling all around and in the bed and on the banks of the creek which carries their runnings into the North Saskatchewan river.

WILL WED OLD LOVE WITH FIVE CHILDREN

She has announced her engagement to Raymond R. Miller, a wealthy real estate owner of St. Louis, N.D., to whom she said "No" when he asked her to marry him sixteen years ago.

AUTO THIEF WAS CAUGHT RED-HANDED

"The path of the transgressor is hard," at least this was the opinion of a man who gave his name as Charles White, after being taken to the court street police station this afternoon, for attempting to steal Mr. W. G. Lumbers' automobile on East River house, when two men strolled along. One grasped the wheel while the other endeavored to crank the car in an endeavor to get away with it. They reckoned without the owner, however, as Mr. Lumbers happened to look out of the window of the wholesale house, just at the opportune moment. With another gentleman he hurried to the scene, and altho the man who had just cranked the car made it difficult to identify, the other man was captured, and was temporarily lodged in the warehouse until the arrival of a policeman.

The 1914 Russell-Knight Cars will be on view at the Canadian National Exposition, Toronto.

The Safe Car to Buy: The 1914 Russell-Knight

After a year of exhaustive tests, the improvements that placed the 1913 Russell-Knight a year ahead of its competitors have been refined and improved to the point where it would seem that motor car engineers can go no further.

Ever a pioneer in improvements called for by Canadian road conditions, the Russell-Knight 1913 Model led with left-hand drive, centre control, electric lighting, electric starting, power pump, tonneau windshield, and tonneau heating. These were, indeed, radical departures, and it is no wonder that many 1914 models are being heralded now as possessing such conveniences. With the 1914 Russell-Knight, however, they are proven Standard equipment.

Think what that means. Standard equipment--not experiments! A whole year has been devoted to refining and perfecting these features. Twelve months of rigorous road tests, in every Province of Canada, have taken place. Twelve months of sifting of countless reports and data from hundreds of owners, drivers, and Russell agents have passed by. Twelve months of painstaking factory research, investigation, and improvement are behind us.

Now, with augmented power in an engine built under the personal supervision of the greatest staff of automobile engine experts in the world, headed by Charles Y. Knight—with a grace of line, with a degree of comfort and convenience impossible without this expenditure of time and experiment, 1914 Russell-Knight comes to you as the safe car to buy.

As to the superiority of the Russell-Knight sleeve-valve type of engine over the poppet valve, there is no longer any question in the minds of experienced motorists. The recent test of one of America's most noted makes of poppet valve motors before the Automobile Club of America, compared with that of the Knight Engine made four years ago before the Royal Automobile Club of Great Britain, determines the superiority of the 1914 Russell-Knight engine embodies all the improvements that Knight engineers the world over have devised; for all work together for the common good of Knight licensees.

Unworthy feature, there is none. Untried feature there is none. Old and unused ideas masquerading under the guise of modern wonders there are none. But the 1914 Russell-Knight does come as a tried and proven car of such merit as can be found nowhere else on the market to-day. Any doubt in your mind as to the suitability of the 1914 Russell-Knight can be readily solved by a "turn at the wheel." A demonstration, more complete than you could ask for, will be arranged on application.

Russell-Knight 1914 Chassis and Standard Bodies are as follows: Russell-Knight, four-cylinder '28' Road... \$3,200 Russell-Knight, six-cylinder '42' Seven-seater Model... \$5,000 Five-passenger Touring Car... \$5,250 Five-passenger Phaeton... \$5,000

Both chassis are built with Landaulet and Limousine bodies at proportionate prices. Catalogue on request. All quotations F.O.B. West Toronto.

SITE TOO VALUABLE FOR INCINERATOR

Property Committee Report Against Transfer of Cattle Market Annex. Altho the board of control declared yesterday morning in favor of transferring the city cattle market annex to the incinerator site, the property committee disapproved in the afternoon of the transfer. The disapproval was based on the report of Commissioner Chisholm that the property has a value of \$150,000. It was held by the committee that the property is too valuable for incinerator purposes. No mention was made by the committee of any other available site for an incinerator. The matter will be threshed out in the council.

SMALL REWARDS FOR ILLICIT FISHING

Report of Dynamiting of Grand River by Construction Gangs is Ridiculous. GALT, Aug. 20.—(Special.)—A Bramford despatch today tells of game wardens being up at a construction camp on the Lake Erie and Northern Railway, near this town, where they were alleged to be dynamiting the river to secure fish. The report is laughable. The river is at a low water stage and might be waded at any point between here and Paris, and as for fish, there is practically nothing but small chub and shiners now remaining in these waters, which in the days of yore, before the stream was polluted with mill and factory effluents, was a famous haunt of black bass, pickerel and pike. To catch a game fish in the Grand River hereabouts is now a rare occurrence.

Geologists Were Pleased. Civic entertainment of the delegates to the international congress of geologists was so appreciated by the local committee that an effusive letter of thanks has been sent to Mayor Hocken by the secretary, W. A. Parker.

AT TRIBAL FEAST LO DANCED TURKEY TROT

"Bunny Hug" and "Tango" Also Accompaniments of Ancient Indian Celebration. RENO.—Lo, the poor Indian, to whom the poet once referred as a person of untutored mind, has not only brought his mind around to the civilized way of thinking, but has tutored his feet in the intricate abandon of the "hug" and the "trot."

They are sticking to the old chants and dances, and they view the capers of the younger generation with that same dismal, make-me-laugh look which was the fashion of another day. The young folks do the trot on platforms with modern musical instruments and Broadway "successes" furnishing the necessary stimulus.

The Indians came from all parts of Nevada to attend the encampment, and some of them walked as far as two hundred miles in order to get there. The fête is in celebration of the fact that game is abundant and fishing good. Save for the intrusion of the trot music the old tribal rites govern the celebration.

NOTICE OF SALE IN RE WALTER M. FAREWELL, ASSIGNOR.

Sealed tenders will be received by the undersigned solicitor for Edward Mundy, assignee, for the purchase of the stock-in-trade of the above named assignor, who carried on business as a boot and shoe merchant at the Town of Oshawa, up to Wednesday, August 21st, 1913. The tenders must be in writing and sealed. The highest or any other tender not necessarily accepted. Stock valued at about \$800.00. Dated at Oshawa, this 18th day of August, 1913. D. A. J. SWANSON, Solicitor for the Assignee, Oshawa, Ontario.

NOTICE OF SALE IN RE WALTER M. FAREWELL, ASSIGNOR.

As indicated exclusively in The World on Saturday the deal whereby the Canada Transportation Lines acquires the Canada Interlake Line has gone thru. Montreal reported at the week-end that the first payment of money due to Interlake interest was made to the Prudential Trust Company in the eastern centre. The whole amount to be paid in is set at \$1,500,000, and the fact that these behind the promotion are in a position to make the payment is taken to mean that negotiations for the successful financing of the project has been completed in London.

EUROPEAN CROPS NOT PROMISING CATTLE MARKET PRICES EASIER

Reported Rain Damage in Canadian West Another Bullish Factor. Lambs Lower—Hogs Firm—Sheep and Calves Steady.

CHICAGO, Aug. 20.—Wheat today was dominated largely by the foreign situation, bullish cables imparting strength that lasted throughout the session until the final hour when the market weakened somewhat on profit-taking sales. At the end prices were 1-1/2 to 3-8c higher. Corn closed at a net advance of 1-8c to 1-2c. Oats declined 1-4c to 3-8c. Provisions were 2-1/2c to 1-1/2c higher.

The cables brought news of wheat shorts covering at Liverpool, told of rather unfavorable conditions in Germany, France and Hungary, and carried predictions of experts that for some time yet Europe would depend on America for most of her choice, dry wheat. To this bullish news was added opinion that damage was to be feared from further rains in the Canadian northwest. Another thing that helped send prices upward were the large export shipments of wheat and flour, which equaled 1,197,000 bushels. Good milling demand, especially from the southwest, also served to stiffen prices. Primary receipts of wheat today were 1,339,000 bushels.

Corn Held Firm. Some of the recent bull snap was out of the corn market today as traders believe that a turn is due. However, there was a firm tone and influential buying caused price recovery after each dip. One sustaining factor was the prediction of an authority that the total corn crop because of the recent drought in the southwest would be only 2,250,000,000 bushels. Oats eased off in the late trading. Selling by leading commission houses for southwest account was the feature of that market. High prices at the yards, reflecting in some degree losses caused by cholera in certain sections of the corn states, stiffened revision prices, the bulk of the stock being reactions on liberal offers.

Every Fertile Valley has its Happy Homes

WHEN you cut across the continent in a transcontinental train, you begin to realize the power and the glory of this big Canada, as well as its magnitude.

You travel thru province after province, each one as big as a European monarchy. You wind along little streams and rushing rivers, and on the banks are clustered the little homes of men.

Fields are white or green or brown according to the season. The little fences dividing ownerships are like pencil lines.

But even in your rushing at sixty miles an hour there's a feeling goes thru you, that somehow you are looking at the real independence of Canada.

You get the feeling of distance in the wide stretches and as you look down and out, it somehow seems to you that here is a life that does not grit, a life that does not pinch, a life where everything is free and wide and open, where men and women are strong and vigorous with the plenty of good food, and where children have color in their cheeks.

RALLY FOLLOWS AFTER PRESSURE

Local Securities Return to a More Buoyant Attitude After Weakness.

SPANISH RIVER HIGHER

Investment Brokers Are of Opinion That Market is Working Higher.

The undertone of the Toronto stock exchange was slightly better yesterday and the volume of business expanded somewhat. Foreign news was less ominous and traders were inclined to take a more optimistic view of the future.

SPANISH RIVER IS UP AT MONTREAL

Net Gains Extended Through Majority of the Active Issues.

MONTREAL, Aug. 20.—The majority of active issues of the local stock exchange closed with net gains today, some stocks moving into new high ground for the first time.

MEXICAN NEWS WILL BE WATCHED

Erickson Perkins and Company (J. G. Beatty) wired: Weakness of Southern Pacific, which its decline was small, sentimentally affected other stocks during the afternoon.

WINNIPEG GRAIN MARKET

WINNIPEG, Aug. 20.—Trading was slow on the local grain exchange today. All quotations were within narrow limits.
