CATHOLICS MAY SHARE IN SCHOOL WORK

Chairman McTaggart's Vote Broke Tie at Board of Education.

VALID TILL END OF YEAR

Motion is Beneath Dignity of the Board, Said Trustee Brown.

By the casting vote of Chairman McTaggart the board of education decided last night to exclude separate school supporters from public school projects.

Dr. McKay in proposing the exclusion of separate school supporters from public school work said he simply wished to include Toronto firms.

Trustee Jackson said that Dr. McKay by this general resolution was trying to get out of his recent vote a contract to go to a separate school firm.

Trustee Vokes said the resolution might be a popular one to vote for, but it was not good business.

Trustee Hodgson said he was in perfect accord with it.

Trustee Brown said the motion was beneath the dignity of the board, which should be too large to do such a small thing.

Trustee Fairbairn said it was the most ridiculous motion which had ever come before the board.

Dr. Noble declared it good business. The vote was:

Ayes—McKay, Hodgson, Noble, Steele, Conboy, Hopkins and Chairman McTaggart.

Nays—Brown, Vokes, Fairbairn, Jackson, Shaw and Ellis.

Trustee Hous on the other hand called away from the meeting or the motion would have been lost.

The motion is only effective until December 31.

Trustee Steele gave notice of motion that a report be made to the board of the school grounds and buildings in the employ of the board.

Special Direct Copyrighted Cable to The Toronto World.

LONDON, Nov. 19.—Snow, sleet and cold now prevail along the battle line in the western part of Belgium. Pneumonia and rheumatism are said to be claiming as many, if not more, victims than rifle bullets and shrapnel.

This is said to be especially true of the Germans, but the sufferings and consequent disablement are equally heavy among the French-British troops.

REVEALS GERMAN PLOT TO BLOW UP BRIDGES

St. Thomas German Sends Letter Alleging Deep Design of Alien Enemies.

ST. THOMAS, Ont., Nov. 19.—Lieut.-Col. Green of the 25th Regiment, St. Thomas, this morning was the recipient of a letter supposed to be written by a person of German birth in sympathy with the British cause.

The writer stated that there was a plot to do serious damage to city property by blowing up the big railroad bridge approaching the city and damaging the city waterworks, that 224 Germans live in and around St. Thomas, and the date also mentioned when it was proposed to perpetrate the deed.

It has been noted the past ten days that groups of able-bodied men have been rounded up in the city, and they all have the same excuse, "They came from the front."

The man who filled the letter has been identified by the police and is now in custody.

Petrograd and Constantinople Contract Each Other Flatly.

Canadian Press Despatch.

LONDON, Nov. 19.—A battle has taken place in the Black Sea between Russian and Turkish warships. As to its results, the reports are contradictory. Petrograd claims that the Russian cruiser Goeben, which by Russian ships, was struck by Russian shells, and she quit the encounter and disappeared in the fog.

Constantinople, Cite Berlin, makes no mention of the Goeben having been seen, but says a Russian battleship was badly damaged and that the others fled towards Sebastopol, off which place the fight occurred.

LABOR SHOULD KEEP CLEAR OF PARTY FIGHTS

Social Democrats Oppose Entry of Trades Council Into Civic Politics.

BAD SPLIT THREATENED

Meeting Called for Next Wednesday to Decide Point at Issue.

A communication from the bricklayers' union to the effect that they would enter the field with the endorsement of the Trades and Labor Council as a candidate for election to a municipal office on account of the excellent work done for the labor class by Controller Simpson during the past year, gave rise to a very lengthy discussion on the matter of political action by organized labor at the meeting of the Trades and Labor Council last night.

It was announced unofficially that the Social Democratic party had already nominated their ticket for the coming municipal elections. Fred Macmillan, vice-president of the Dominion Trades Congress, has been nominated to run with Controller James Simpson for the office of controller.

It was further announced that Lieut.-Col. Green of the 25th Regiment, St. Thomas, this morning was the recipient of a letter supposed to be written by a person of German birth in sympathy with the British cause.

FLOODS HAMPER ALLIES IN FLANDERS Russians To Shatter the Power of Austria Turkish Navy Defeated in Black Sea

RUSSIAN ARMY WILL SHATTER GERMAN POWER

About to Swing With a Crash in Austrian Poland.

TWO ENORMOUS FRONTS

One Will Guard Carpathians, While Other Strikes at Craiova.

Special Direct Copyrighted Cable to The Toronto World.

PETROGRAD, Nov. 19.—With a force of 1,500,000 men formed in two fronts, one guarding against any possibility of the Austrians attacking the Carpathian Mountain passes, while the other strikes hard at Craiova, the Russian army is about to swing around with a crash which may shatter the power of Austria and Germany in Austria-Poland. The Russians are within 25 miles of Craiova, the last stronghold of the Teuton allies on the Russian frontier, and despite the German feint at Warsaw and the stubborn resistance of the Austrians, the columns of the czar's mighty army continue to press on to the assault on the fortress and the eviction of the enemy from the frontier fortresses.

The German advance in considerable force along the narrow battle front of the west bank of the Vistula River is being held by the Russian army. The German plan also is intended to relieve their troops in East Prussia by giving a wide flank along the entire line, by rendering the Russian further advance untenable.

It is reported here that the Russians in East Prussia have driven back the Germans on the Angerburg-Gumbinnen front, and have captured the territory between the Vistula and Wartha Rivers. The Russian advance guard was forced to give ground.

Extensive destruction in the region through which the Germans have passed, cannot be considered accidental. It is believed that the Germans are in order. Today Poland presents a still more striking example than Belgium, of the determination of the German forces to ruin their enemies.

West of the Vistula River, in the neighborhood of Warsaw, Poland is one of the most important military operations. The German forces have been destroyed and factories with modern machinery, especially in the Lublin region, have been destroyed or ruined beyond repair.

Public opinion in Russia demands liquidation and sequestration of all German property, including land.

MILITARY MEN TO INQUIRE INTO HARRISON'S DEATH

Victim of Drowning Apparently Had Worked in Toronto as Chauffeur.

Special to The Toronto World.

KINGSTON, Ontario, Nov. 19.—The body of Private Frederick W. Harrison, who was drowned yesterday, is described as that of a man of about 35 years of age, of medium height, with a mustache, good looking, dark hair, well built. The body is now being held at the James Field, awaiting the arrival of an agent for the funeral home not yet been completed.

The military authorities will hold an enquiry as to his death tomorrow. A card was found in his pocket bearing the names, Death and Watson, electricians, Toronto, and it is believed that he drove a motor truck for that firm. It is also believed that he has a sister in Toronto, whose name is unknown. It is understood that he was well known to several Toronto people, and had corresponded with them. His wife and one child live at Munroe, Washington State.

An Even Fifty.

Many thanks are due to Frank Score, the merchant tailor prince of Toronto, who is fifty years old today. Mr. Score has the good fortune to be one of the few men in the city who are growing old, his father, R. J. Score, being one of the few men in the city who are still living.

Russians Driven Far Back Into Poland by Germans Reverse Has Resulted in Retirement of Fifty Miles Toward Warsaw, Petrograd Admits, While Berlin Remains Silent—In Western Theatre of War Little Change Noted.

Canadian Press Despatch.

LONDON, Nov. 19.—Although only meagre reports are at hand from any of the scenes of hostilities, it seems probable that in the western strip of Poland, with its northern and southern boundaries respectively the Vistula and Wartha Rivers, and the western front the border of Posen, the most severe contest for supremacy is proceeding.

Petrograd has admitted a gigantic reverse in Poland—a reverse in which the Russian armies have been pushed back at least fifty miles from the German border, toward Warsaw—but Berlin remains reticent concerning the operation.

In the eastern theatre of the war that newly commenced battles are "proceeding" is all that the German war office has to say. Along the East Prussian border the Moscovites claim they are continuously pressing forward, making inroads into German territory. Here also Germany makes no claim. As for Poland, she merely says: "The battles are proceeding."

With regard to the operations southward in Galicia and southern Russian Poland, the Russians, according to unofficial reports, are still following up previous successes against the Austrians. On the other hand, a news agency despatch from Vienna declares the Austrians have captured 70,000 prisoners and a large number of guns.

The letter has been forwarded to Ottawa. Concealed in the men's boarding house was a rifle, ammunition trunk and a military rifle and several hundred rounds of ammunition.

A Dominion secret service officer is here tonight investigating the matter and the men will be taken to Kingston.

TURKS DRIVEN FROM TRENCHES BY BRITISH

Canadian Press Despatch.

LONDON, Nov. 19.—The British again have been successful in an attack on a Turkish position. The force operations on the Suez at Arab River and the Persian Gulf drove from their trenches an Ottoman force and captured a number of prisoners and guns according to reports which were current today in banking circles. The bank of England, however, reports that applications have not yet been actually computed, as their total is not officially known. FIGHTING IN FLANDERS

Allies More Than Holding Their Own in France and Belgium.

Special Direct Copyrighted Cable to The Toronto World.

LONDON, Nov. 19.—A feature of the fighting in the western theatre of war as reported by the French war office, was the capture of Tracy-Le-Val, close to the western angle of the battle front, by France's Algerian troops. While the allies were more than holding their own against the Germans in France and Belgium, the Turks were having a battle at sea against the Russian Black Sea fleet off Sebastopol.

Following the defeat of the Russian forces on the west bank of the Vistula River, the German advance in force east of the Vistula indicates another raid on Warsaw, the purpose of which is believed to halt the rapid Russian advances in East Prussia and against Craiova.

Using Boats and rafts. Military observers agree that the fighting in Flanders may continue several months. Both armies are using boats and rafts in attacks on the flooded area between Nieuport and Dinanade. For the first time since the war started, artillery has proved ineffective. French machines today crossed on rafts the inundated approaches to Schoorbakke, West Flanders, while a British force charged by road. The fighting was desperate, but the Germans were routed with heavy losses.

According to advices from Vienna the Serbian army is in full retreat before the Austrians, and the rear guard detachments of Serbians have been captured by Austrian cavalry. It is reported that the Russians are being checked east of Craiova by a newly concentrated army, which has been reinforced by German troops.

Goeben Was Damaged.

Despatches from Petrograd say that the Russian ministry of marine, regarding the naval battle in the Black Sea, announced that the engagement took place last Tuesday, when a division of the Black Sea fleet, returning from its cruise to Sebastopol, near the coast of Anatolia, sighted a detachment of Turkish ships, including the Goeben and Breslau, which were bought from Germany. The first salvo of 12-inch guns from the Russian flagship Admiral Evstafiy struck the Goeben and caused an explosion amidships, setting her on fire.

Nov. 12: The nature of the situation on our front has not altered since the last letter. The Germans have continued to press generally along our line and have focused their attention mostly around Ypres, but there has up to now, not been a resumption of the violent attacks against that place, which the 13th was windy, with much rain. On our left, the morning passed in desultory shelling, which gradually swelled in the afternoon into fierce bombardment of the section of our line running south to the Menin-Ypres road.

At one point, but they were driven out again and the assault was repulsed. Here again our losses, though heavy, were much less than those of the Germans.

As each successive attempt to take Ypres by assault fails, the bombardment of the unhappy town is renewed with ever-increasing fury.

LAST HONORS PAID TO GREAT SOLDIER

Body of Lord Roberts Borne to Cathedral thru Drizzling Rain.

PATRIOTISM STIRRED

Indian Troops Formed Special Escort - King Attend.

Special Direct Copyrighted Cable to The Toronto World.

LONDON, Nov. 19.—The guard of honor which met the body of Field Marshal Lord Roberts at Waterloo Station at noon today, and escorted it to St. Paul's Cathedral thru a drizzling rain, offered a more impressive military display than the lord mayor's parade, or the display at the opening of parliament, both of which took place this month.

Troops from every available regiment were in the line. Khaki uniforms prevented its being a brilliant military display, but the long ranks of olive drab swinging along between the crowds roused London to a pitch of patriotic enthusiasm which has not been equaled since the war began.

Indians in Line. A special escort was formed of a detachment of Lord Roberts' own beloved Indian troops, paying their last honors to their former leader whose death was caused by his trip to France to see them in action against the Germans. The dramatic value of the display in fostering recruiting was not uncalculated. That the government had this in mind in procuring the consent of Lady Roberts and her children to a public funeral and burial in St. Paul's, instead of the private interment at the country seat at Ascot, cannot be doubted. That the recruiting officers will benefit by the impression on the public, cannot be doubted, either.

King George attended the ceremony in person, and representatives of the King and Queen of Norway were present.

The pall-bearers were Lord Kitchener, Admiral Lord Fisher, Sir Edward H. Seymour, Field Marshal Sir Evelyn Wood, Field Marshal Lord Grenfell, Field Marshal Lord Methuen, General Sir James Hills-Jones, General Sir Robert Biddulph, Lieut.-General Sir Archibald Hunter, General Sir Alfred Chesley, General Sir Charles Egerton, and Admiral Lord Charles Boreas.

On the flag-covered coffin were the plumed hat, sword, medals and decorations of the revered leader. Following the gun carriage on the central ket was borne, came Lord Roberts' favorite horse, shrouded with black and with the boots of the late rider, reversed in the stirrups.

Bagpipes and muffled bands formed part of the cortege. At the procession near St. James' Park, an artillery salute was fired.

There were wreaths from King George, Lord Kitchener, Sir John French, Gen. Joffre and King Albert of Belgium.

A slight rain and cold breeze did not prevent thousands from assembling

TOOK A VILLAGE BY USING BOATS

Brilliant Exploit Performed by British Infantry and French Bluejackets.

GERMANS SURPRISED

Abandoned the Place and Left Much Booty for the Victors.

Special Direct Copyrighted Cable to The Toronto World.

LONDON, Nov. 19.—A brilliant exploit of arms was performed by a small British force of infantry, supported by French blue jackets, in capturing the strongly defended village of Schoorbeke, in West Flanders, which stood like an island in the centre of a great inundated area. The mixed forces used armored automobiles, flat boats and rafts in the successful attack on the town. A strong German force occupied the village from which they were able to keep up a galling fire on the advanced positions of the allies. The only way the town could be attacked on land was by a single road, while another back of the town gave the Germans their only route of escape.

While the flood prevented the leader's men from debouching from the village, they also kept the Franco-British forces at a distance as the machine guns of the enemy strongly dominated the one road which led like a causeway to the German position. A night attack was decided upon, and the British were chosen to attack along the road and bring about a diversion which would draw the enemy's attention from the real attack, which was left to the French soldiers.

The blue jackets spent almost the whole afternoon in building rafts and flat boats.

Put Out in Boats. When the time came for the attack the British troops, mounted in two armored motor cars, went down the road toward the town to draw the Germans' attention and fire. In the dark and the falling rain the soldiers put their improvised rafts and flat boats afloat over the flooded fields and began to pole toward the town. The Frenchmen approached close to the rear of the German position before they were noticed. The Germans having devoted all their attention to the British sweepers along the road in their motor cars, the Germans were taken by surprise in the rear and broke and fled along a narrow causeway to them. In their flight they abandoned everything.

When the blue jackets and Britons entered the town they found much rich booty. The Germans also abandoned their dead and wounded.

600 CANADIANS PRESENT.

LONDON, Nov. 19.—Six hundred members of the Canadian contingent attended the memorial service at Salisbury Cathedral today in honor of the late Lord Roberts. The divisional staff was largely represented and the proceedings were most impressive. Hon. G. H. Perley attended the St. Paul's funeral service, where several Canadian officers on leave were also present.

"I believe the Canadian apple to be the finest in the world." - Sir Geo. E. Foster

The Geography of the Apple

A Message from the Government to the School-children of Canada

YOUR father and mother know most everything about the Canadian Apple-how it has come to be the finest in the world-why it is so good for children and grown-ups to eat-and why loyal Canadians everywhere are buying a barrel for the winter.

But here is something they don't know. So you learn this rhyme today and surprise them at the dinner table tonight, by reciting

"APPLE GEOGRAPHY"
Through the valley of Evangeline
In the Province by the sea,
Grows the famous Gravenstein,
So sought by you and me.
Prince Edward Island, true to name,
Grows the fruit of royalty,
The King, they call it, and its fame
Has spread far o'er the sea.
New Brunswick grows the Pippin rare
An apple large and mellow;
And other kinds no white less fair
In tints of red and yellow.
La Belle Quebec the Fameuse grows
A dainty fruit, the same
It's rightly called "Queen of the Snows"
The world well knows its name.
Ontario 'neath smiling skies
Grows fruits of many kind
In her rich orchards Northern Spys
Most everywhere you'll find.
Now Manitoba, famed for wheat
Is planting apple trees also,
For hardy apples, large and sweet
Her fertile plains will also grow.
Saskatchewan no apple grows
But she feels not the loss;
To her from Okanagan goes
The Spitzenberg, the McIntosh.
Alberta raises kind and wheat
That earn the world's first prize
But not an apple fit to eat,
She imports all her Spys.
Between the mountains and the coast
Grows Jonathan and the Wealthy;
It's hard to tell which does the most
To make her people healthy.

Every boy and girl who loves his country should eat one of the ripest Canadian Apples every day. Your mother knows 209 ways to serve apples. 209

MOBILIZATIONS MUST BE DULY ADVERTISED

OTTAWA, Nov. 19.—As a sequel to the Toronto Home Guard mobilization incident, Major-Gen. Sam Hughes today issued instructions to the general, divisional and district officers commanding that no further instructions shall be given in mobilization without the people being fully apprised in advance. It was understood, he says, that this was to be done in Toronto, but it must have been overlooked.

SENSATIONAL SUIT SALE

Hickey's Offer Scotch and English Tweed at Wonderfully Low Price. Today will see the starting of one of the most sensational clothing sales ever held at Hickey's, 97 Yonge street. As a special opportunity this firm is offering a large number of men's suits, which are regularly sold at \$18, \$20 and \$22, for \$12.50. The selection of patterns is very large, and includes some of the latest Scotch and English tweeds. The cut of the suits is of the latest New York style, while the workmanship is up to the high standard on which the house of Hickey has built up its reputation. The sale will continue on Saturday if necessary, but, in spite of the large number of suits on offer, it is doubtful whether there will be nearly enough to supply the demand.

STYLES
Not many styles will come from Paris this year. France is in the grip of war. The shops of the great modistes and milliners are closed.
Every year we send millions of dollars to foreign countries for feathers, flowers, hats, gowns, jewelry, silks, etc., for feminine adornment.
Yet these things are produced in Canada. Canadian artisans and Canadian workpeople are creating and producing dainty frills and furbelows that are hard to beat.
It remains for Canadian women to buy them.
The mere fact of an article being imported gives it no added value. On the contrary it should be a reproach at a time like this when Canadian industries need your support.
These things are made in Canada, of good material and good workmanship, and they're being sold at prices that discount imported articles every time.
It's a splendid thing to knit socks and Balaklava caps for soldiers, but you will be showing yourself strangely inconsistent if you pass up the work of your fellow Canadian women for something that foreign women have turned out.
INSIST THAT IT BE "MADE IN CANADA."

Is the Love of Some Men Worth Holding?

By WINNIFRED BLACK

Copyright, 1914, by Newspaper Feature Service, Inc.

I READ it in the paper the other day.

It was in the woman's column, a letter from an unhappy wife who had learned how to be happy.

"I have six children," said the woman who had just learned how to be happy. "I have worked very hard ever since I was married. My husband used to ride away every Sunday morning and leave me with the babies and my work."

"Part of the time I was on crutches, and most of the time I was wretchedly ill. I'm afraid I neglected my looks a good deal, and my husband was very unkind all the time."

"Just before my sixth baby came my husband told me I had to go right on doing the work without any help, for he expected to put the money he had saved into more land. My heart broke—and then and there I made my whole life over."

"I saved my strength; I took care of my looks; I put on an egg and butter every day, and I went to the neighbors and the neighbors came to see me."

"My husband is proud of me now, and is very kind; he takes me out with him every Sunday. It was a hard lesson to learn, but I learned it."

"Any woman can keep the love of any man if she only tries hard enough. I know, for I had to try."

Teaching: Miss Grand Opera.

How interesting and how edifying the comment printed with the letter! "It can be done," was the encouraging heading.

What a cheery message, to be sure! How thrilling and uplifting!

I suppose it is possible to teach a pig to sing grand opera—or something that you could pretend he meant for grand opera—if you wanted to take the time and the patience to do it.

But why?

What does a woman want of the love and attention of a creature who would leave her alone on her crutches with her work and her children day after day, while he went out to amuse himself?

And you little pig woman with the crutches, lay your hand on your beating heart and tell us, tell us true, what did that man do to keep your love?

Did you "love" him when he treated you as no kindly man would treat a dumb brute?

What was there about "him" to love—or—be honest now for once—didn't you wish time and time again that he would never come home again; that he would go away somewhere with his own kind and leave you in peace with your children and your work and your honest self-respect and your decent pride?

Were you really glad when you saw him coming home to you—after every other place was closed?

Why did you want to keep that man? Reason it all out, just for once. What was he worth to you?

Your devotion, your self-sacrifice, your hard work, your courage—all these appealed to him not at all.

Why "Takes the Trouble?"

Even the Irish children that you had borne in anguish and reared in loneliness and misery—they did not bind him to you.

How did you get him back? With a new ribbon and a pair of fancy shoes?

Do you care for one so lightly held and so easily lured back again?

Is it possible that men are what women such as you try to make them out to be, shallow-souled animals with the heart of a tiger and the brains of an ape?

I don't believe it. I couldn't live if I believed it.

Talk about feminists, and their war with men! Why, no indictment in the world is, or ever could be, so savage as the charge you bring against the whole masculine sex when you write such a letter as that and ask those who read it to approve not only of you and your husband's actions, but of the poor, weak, cruel, shallow-hearted thing you were at such pains to "love" back to his own home again.

Take good care of your charming husband, madam the Street. Don't turn him loose upon the world. The women of brains and of character and of honor or of pride wouldn't know what an earth to do with him.

TO THE WOMEN OF TORONTO

Nearly six weeks ago we began advertising the merits of NO-EG to the public.

We knew that NO-EG was a first-class substitute for Eggs in baking and cooking, and also that it was almost impossible to get FRESH EGGS at any price.

All that was left to the public was Shop Eggs, none of which could be guaranteed as absolutely fresh. Notwithstanding this fact, the public found the price of Eggs soaring.

We instructed our travelers to call upon every Grocer in Toronto and inform them of our plans, etc., and with very few exceptions the Grocer was interviewed with regard to NO-EG. Many were very courteous, some sceptical, while others were unwilling to listen to us.

We appreciated the grocer's position, and realized that he was perfectly justified in not being too enthusiastic until the public demand was created. This we set out to do.

Then the public began to inform us that they could not get NO-EG from their grocer, and whenever we secured his name, an interview was arranged.

Up to this time we had supposed that the grocer's caution was due to his desire to be sure that NO-EG was alright, but while this may have been the case in a few instances, we especially began to realize that there must be a deeper and more selfish motive. What, then, could be the reason?

CAT OUT OF THE BAG.

Words dropped here and there began to cause us to wonder and think, and finally to direct some pointed questions to men who, we knew, would tell us the truth.

We found? Why this? That a number of grocers in Toronto had signed such heavy contracts for eggs as to make their position irksome. Under ordinary circumstances they had more eggs contracted for than they could sell.

What, then, would happen to them if they encouraged NO-EG?

Now, then, perhaps you will realize why you were unable to get NO-EG at your grocer's when you enquired for it, and we want you to do yourself and us the favor of going to your grocer right now, and demand that he supply you. If he will not, send us his name and address and we will take the matter up.

TO THE PUBLIC AT LARGE

We have adopted the somewhat extraordinary stand of taking the Public into our entire confidence, and asking for their co-operation. There is no reason why the Consumer, the Retail Grocer, the Wholesale Grocer, and the Manufacturer, should not be working together unitedly in the interests of each other.

TO THE GROCERS OF TORONTO

We would like you to read what we have addressed to the women of Toronto before reading what we are about to say to you who are not handling NO-EG, and we would like to ask you a few pertinent questions, but

before doing so, want to say that we have religiously adopted from the commencement of our campaign a policy that centred round a deep desire to work in the interests of the grocers of Canada. To this end, we have turned a deaf ear to all other forms of trading, believing the grocer to be a very reputable citizen, and one who should be patronized and supported to the full.

Remembering these facts, we want you now to answer if you can a question we are about to put to you, namely, "Why are you not supplying NO-EG to your customers and forcing them to go to other grocers and avenues of trade?" Before you answer, please read the following, given from the viewpoint of the three great communities in trading, namely—the Consumers, Retailers, and the Wholesalers. We will view the matter logically from the standpoint of each.

THE CONSUMERS' STANDPOINT. 1. NO-EG is fully guaranteed to do all that is claimed for it, and is absolutely pure and fresh. 2. The price of NO-EG is right, because it gives the consumer the equivalent of 40 eggs for 25c, or eggs at 7 1/2¢ a dozen.

THE RETAILERS' STANDPOINT. 1. We guarantee the sale of NO-EG, because we know it will do all we claim for it and more. We are conducting a campaign of advertising, and creating a demand which we are confident you have already felt. 2. The price to you has been fixed in consultation with the some of the brightest intellects and business men of the country. 3. The grocer is guaranteed our fullest protection.

THE WHOLESALE GROCERS' STANDPOINT. We have the good-will of the Wholesale Grocers, because we have proved to them that all we have said in the foregoing is correct, and we are earnest and ready to protect the interests of all concerned. Against the Wholesale Grocer Trade we have nothing to say. We know that they are in a position to supply the demand of the Retail Trade.

SOME NO-EG FACTS

NO-EG gives you the equal of 40 Eggs for 25c. NO-EG is guaranteed to be pure and wholesome. NO-EG has no disagreeable stale egg flavors.

JEALOUS HUSBAND USED REVOLVER

Police Seek Robert Brown Who Shot His Wife and a Male Boarder.

As the result of a shooting affray at 206 Spadina avenue early yesterday morning, Mrs. Robert Brown and Norman Smith, both of the above address, are lying in St. Michael's Hospital, wounded by bullets, and Robert Brown, the woman's husband, is wanted by the police on a charge of shooting.

Brown, with his wife, boarded at 206 Spadina avenue, and about 7 o'clock in the morning he went into the room where Smith was dressing and charged him with making love to his wife. On Smith denying the allegation, Brown drew a revolver and fired at him three times, the first bullet entering the left leg and the other two piercing the right. Not satisfied with the damage he had done he ran into his wife's bedroom and shot her in the left thigh. He then made good his escape, and up to the present the police have not been able to locate him.

The shooting is attributed to jealousy on the part of Brown, altho Smith declares that as the couple have only been at the house about a week, he would not have known the woman had he met her on the street, and would not have known the man either except for what happened yesterday.

Brown has been married about one year, and came to the city from Rochester, N.Y. The police have a good description of him. He is 25 years of age and had lately been employed with the Feller Box Company on Dundas street. His wife's parents live on Euclid avenue.

What German Professors Teach

What German professors employed on this side of the Atlantic think about the war and the rights and wrongs of it, is fairly well represented in Prof. Walter Rauschenbusch's article in The Chicago Congregationalist and Christian World. It is entitled, "Be Fair to Germany," and appears in the issue for Oct. 15.

Opinion, we believe, generally favors an allowance of higher rates, not because the errors of railroad finance and management, past and present, are condoned, but because it is recognized by all but a small minority that public utility where any is deserved at this time would fall upon innocent and guilty alike and cost a great deal more than it is worth.

It is true that the railway situation is serious and that if it could be cured by any reasonable levy of taxation upon the shippers of the country, it would be well to cure it as quickly as possible. But the roads are in their present situation, not because of the European war, not because of railway rate legislation, not because of any unavoidable disaster, but solely and entirely as a result of watered stock, fraudulent bond issues, bank manipulation and looting from the inside by buccaners of the J. Pierpont Morgan type.

Another fact I should like to explain—German hostility to England. There is no doubt that the feeling against England has been tense for years, and the conviction prevailed that some time the matter would have to be fought out.

For the rest, Prof. Rauschenbusch puts the blame of starting the war on England. This was on account of Germany's "commercial invasion," which "aroused and angered English interests." And he states: "In many conversations with leading men in Germany I found that they were bitter against England because they foresaw that England would let her French allies take the real sufferings of war, while she took its possible gain.

Against the English they feel differently.

This article is commended to the earnest attention of President Falconer and the board of governors of Toronto University. They will be able to judge of the kind of spirit the people of Ontario are expected to pay for in order that it may be imparted to their sons and daughters at the provincial educational headquarters.

There is no difference between the views of Prof. Rauschenbusch and those of any other German professor and reservist of the German army.

Prof. Benzinger and his son, who are shooting British and Canadian soldiers at the front, and other German professors here, can, as Germans, have no other opinions than those expressed in this article of the Rochester professor, and they are only a little less careful in disseminating them.

We do not mind fair criticism, but misrepresentation and falsehood will not be tolerated from British writers, and there is no reason why we should suffer it from aliens.

Unrepentant

The Chicago Tribune says that the railways must be allowed to charge higher freight rates, not because the service is worth it, but because the whole transportation system may collapse unless the railway companies get more revenue. It makes no difference, according to The Tribune, how the companies got into their present situation or who is to blame for the disaster; it is up to the public to get the horse out of the ditch.

Opinion, we believe, generally favors an allowance of higher rates, not because the errors of railroad finance and management, past and present, are condoned, but because it is recognized by all but a small minority that public utility where any is deserved at this time would fall upon innocent and guilty alike and cost a great deal more than it is worth.

OVERREACHING!

and the German character prevail over all the world."

Professor Cramb's lectures, delivered before the outbreak of war, have had ample verification, both then and since. As between the British idea of disseminating free institutions, tolerance in religion and the principle of self-government, and the German idea of the rule of might, disregard of the rights of smaller and weaker nations, an impassable gulf exists.

Short Cigars and Cross Currents. In regard to the course of General Sir Robert Borden's administration, it might be just as well to point out that Sir Robert Borden assumes and has assumed responsibility therefor; and repeatedly has had his attention drawn to it, and that therefore he approves of it.

Editor World: My committee think it possible that some of your fruit producers and exporters may feel disposed to contribute some fresh or preserved fruit to this organization (which is approved by the admiralty and war office) for distribution amongst the warships of H. M. fleet in the North Sea.

During the past sixteen days we have despatched upwards of 900 large cases and barrels of produce to the fleet and several parcels to army camps and military hospitals, and have received many highly appreciative letters of thanks from the officers in command, who express the earnest hope that we may be able to keep up the supply. Unfortunately the fruit season of the United Kingdom will shortly end, and then we shall have to fall back on the tinned or bottled article and imported fruits.

He gave no account of the action in which he gained distinction.

MELBOURNE, Nov. 19.—A novel step is about to be taken by the government of New South Wales, with a view to preventing any curbing of the wheat supply. INSURANCE COMPANIES FIGHT PROVINCIAL TAX

May Appeal to Courts Against the Assessment of One Hundred and Fifty Thousand Dollars. The life insurance companies of the province are apparently determined to contest in the courts the right of the government to tax them according to the legislation of last session. It is understood that up to date no payments have been made to the provincial treasurer from these companies, and the fact that the year is closing and that all have declined is thought to indicate an appeal to the courts. The revenue involved is approximately \$150,000.

WOULD-BE VOLUNTEER IS SHOT AND KILLED

Canadian Press Despatch. BRANFORD, Ont., Nov. 19.—Samuel Bonfield, thought to be an ingersoll, shot himself under the eye in the headquarters of the Brantford Dragons shortly before noon. He had not applied for enlistment, his previous actions showed that he thought of this, and the dragons' officers do not know anything about him. He was removed to the hospital and died within an hour. The evidence does not show whether the action was accidental or deliberate. A revolver was used.

O'Keefe's PILSENER LAGER. "JOHN BULL" RETURNS TO BEER. "What is the cause of the revival in popularity of Beer and Ale as table beverages?" asks the London "Pall Mall Gazette." That there is a return of their ancient vogue in the restaurants of London is noted by Charles Pond, restaurant-owner. "Beer has been coming into fashion again for some time," he says, and the tendency is becoming more marked. I was dining in a West End restaurant last night and was surprised to notice how many men were drinking beer. People have found out, I suppose, that beer is one of the best and purest of foods, and realize its value as they have not before. O'KEEFE'S PILSENER LAGER is Canada's favorite light beer. Rich in food values, delicious in flavor, mildly stimulating. If your dealer will not supply you, phone us, Main 4202, and we will see that you are supplied at once.

About These Fur Prices

You wouldn't be interested in a fur sale at 50 per cent. discount if you were afraid the prices were marked twice too high! The main point of your interest would be the intrinsic value of the furs—not the prices they used to be marked at.

With this point in view, we direct your attention to the following list. If you have not sufficient experience to be a good judge of furs yourself, bring along with you tomorrow the best fur judge you know, and let him try to duplicate these values anywhere in town. We would welcome this test—as it would clinch the sale for us.
