A Big and Easy Way to Big Men.

The World thinks it begins to see light ahead out of the complicated situation in regard to the street railway and in regard to electric energy. What is wanted is our big men to get together and agree on something that will bring justice to all, doing harm to none.

Let us state what we think in the first place ought to be the main object in view. The Province of Ontario is one of the finest portions of the Dominion of Canada. It is inhabited by a progressive people; we have a great farming country; we have a great fruit producing country; we have timber and we have manufacturing industries; we have fine educational institutions. We sometimes think of ourselves as the backbone of all this federation. At all events we all wish to see Ontario grow, expand and become a still more important factor in the makeup of Canada. There is one thing, however, that we lack and this is, coal for fuel; but we have what partly fills its place as far as power and light are concerned, and that is, an private corporations, are endeavoring to corner the supply of electricity; and electrical energy makes light, makes power and some day will make heat for houses; and therefore we are not without the essentials of manufacture. But it is absolutely essential that this electrical energy for heat and light be distributed to the people at the lowest possible price. Ontario, as we have often said, can be the workshop of the great Canadian west if we have cheap power and cheap transportation.

The Province of Ontario thru the government, associated with the municipalities, have instituted the Hydro Electrical Commission for the express purpose of giving the people cheap power and light for houses and for factories. Certain rival interests, controlled by private corporations, are endeavoring to corner the supply of electrical energy and especially to prevent the province and the municipalities coming into the business. They naturally desire to see dear power instead of cheap power, because dear power means immense dividends. In fact they will water their stock up to the straining point in order to burden the factories and the people of Ontario to the highest limit so that they may have enormous dividends. Their object is directly opposite to the object of the public power policy. They seek to enrich themselves; the government and the municipalities seek to benefit the people and the state.

Now the people of Toronto and the people of Ontario have come to see that the City of Toronto, for some reason or other, is, and is destined to be, the hub and the centre of this province. It has now a population of nearly 400,000. It is rapidly growing and it occupies to-day over twice the territory it occupied some years ago. Nobody knows yet how much larger it will become. It is full of factories, it is full of educational institutions, it is full of business and is inhabited by a live, progressive and splendid type of the Canadian people. But in order that Toronto may be the best possible centre of Ontario from all these points of view it is necessary that Toronto should have the best possible facilities of local transportation and an abundant supply of cheap electrical energy for power and light. In a word Ontario can only be great if it has cheap power and light, and the same applies to Toronto, and something further applies to Toronto, that it must have cheap, and efficient local transportation.

Blocking the way of this cheap local transportation and a first-class system of street cars and tubes and of surface lines, there at present stand the charter and franchises of the Toronto Railway and five or more minor radial lines that have franchises in various portions of the city. The present surface trolley system is not equal to the demands, nor does it extend where it ought to extend nor is any proper provision being made for the entrance of the radials into Toronto. So that on the whole things are jumbled up and they are jumbled because of improvident, impolitic contracts made twenty or more years ago in the light of the then existing circumstances. In other words, the growth of Toronto and the development of Ontario so far as Toronto is concerned, is hampered by what men, most of them now dead, did more than twenty years ago. And these are things that are happening every day in the cities of America.

There is only one cure that we know of to this and that is the right of public condemnation, to use a legal term, and the expropriation of these acquired rights on a fair business basis. We would like to see Toronto take over all the street railway franchises within the city and all the electric power franchises now within the city. It has long been the custom of British law to allow property to be condemned in the public interest, and a fair price paid therefor. We have made provision for it already in regard to the Toronto Electric Light Company thru legislation establishing the Hydro Electric Commission; so that expropriation on fair terms is not a new thing. But in their desire for big dividends and for a big price for their franchises it condemned, the traction companies and the electric companies all oppose as much as possible any settlement; and in the meantime all the people of Toronto and all the people of the province suffer more or less; and the growth of Ontario and the growth of Toronto and the part we are to play in this confederation are held back to a discouraging degree.

And there is one more feature that we wish to point out, namely, as has often been pointed out, and it is now the subject of considerable discussion in the United States and elsewhere, there are two kinds of rights: the rights of property and the rights of man, and that when these clash the rights of man and humanity take precedence over the rights of property. Furthermore, the rights of property can be measured in dollars and cents, but the rights of humanity are measured in suffering, in inconvenience, in a curtailment of the necessities of life and things of that kind which cannot be measured in money but are measured in inconvenience; and there are political rights which involve the growth of a nation and the parts of a nation rights which involve the growth of national development. Therefore, doing their share of the work of national development. It follows as the day follows night that the only thing to do is to extinguish these rights of property in the interests of human rights and in the interests of the nation, and the rights of the people that are involved in the growth of the nation.

The whole thing then comes down to this: How to carry it out. We have a quick plan. If Sir James Whitney, as soon as he comes home, will take a hint from us or anybody else we would suggest that he appoint a commission of three of the best men he can name to enquire into the whole situation, and to recommend a feasible and reasonable scheme for the acquisition by the City of Toronto of the franchises above referred to.

We believe Mr. William Mackenzie is public spirited enough and desirous enough of seeing Toronto become a great city and the centre of the great transcontinental railway which he is now pushing to completion, to help a proposal like this for the betterment of Toronto.

We believe that there are men identified with the Toronto Electric Light Co. who would take a reasonable view of this matter, and if the big men, as we said, get together, and if the representatives of the city, eight in number, who sit in the legislature, joined in the work, and the city council also joined in the work, and the board of trade also did their part, and the Manufacturers' Association did their part, a speedy solution could be found. Even the newspaper men could help and our old and distinguished friend Senator Jaffray could be a power to this end.

Nobody's interest in these franchises would be injured. A reasonable amount would be paid for the shares and the bonds would be assumed by the city. Sir James Whitney has a colleague in his government, the Attorney-General, Hon. J. J. Foy, and Mr. Foy ought

\$80,000 ESTATE DEPENDS ON SANITY

Relatives of Old Michael Fraser Get Out to Annul His Marriage — They Bring Evidence to Prove Mental Deficiencies in a Whole Family.

BARRIE, Sept. 30.—(Special).—The idiosyncrasies of the 82-year-old bridegroom," would seem an appropriate title for the peculiar lawsuit that confronted Justice Britton in the assizes here to-day, by which Catharine McCormick, maiden lady, hopes to have her octogenarian second cousin, Michael Fraser, declared insane and incapable of handling his own affairs, whereby she hopes to annul his marriage to 35 year old Hannah M. O. Robertson of Dundas, last January, and thus prevent an estate of \$80,000 passing into the hands of strangers upon his death.

For a so-called "civil" suit, the evidence to-day showed anything but amity between the opposing factions, and the court room, which, this morning was the scene of one of the saddest tragedies, when two people were sentenced to death, was suddenly converted into a theatre of crude burlesque. Wave after wave of laughter swept the crowded room, as ridiculous instances pertaining to the case came to light from the witness stand. When Doctors Disagree.

There are three eminent sanity experts ranged on one side against equally eminent experts on the other, three who will attempt to show that old Michael Fraser was and is of sufficiently sound mind to appreciate the seriousness of taking unto himself a wife, and three who will say that he is a lunatic.

The defence of the marriage will be supported by the expert testimony of doctors N. H. Beamer, superintendent Mimico Asylum, Dr. E. Clarke, Toronto Asylum, and J. H. Cameron, M.D., insanity specialist of Toronto University. Associated with them are: Doctors Russell, ex-superintendent Hamilton Asylum; R. H. Sproule, superintendent Penetang Asylum; George Bowman, Penetang, and Richard Blake of Midland. On the side of the plaintiffs are Drs. Arthur, Luke, Johnson, and J. M. Cotton of Toronto, and Edward Ryan, superintendent Rockwood Asylum, Kingston. Dr. Ryan gave evidence this evening to show that Fraser was a victim of the disease, and it was unshaken in a rigorous cross-examination by Counsel John K. King, K.C.

Will Not Summon Fraser. Justice Britton decided to hold the balance of expert testimony for Osgoode Hall. The judge also intimated to Mr. King to-night that he would not bring old man Fraser down to-morrow from Midland.

The evidence of Robert McCormick and Catharine McCormick went to show that insanity was prevalent in the Fraser family, from the father of the seven boys down to Michael, the whole seven boys, Samuel, who was once reeve of Tay Township, and the only one that didn't show insane proclivities, they swore.

Richard Hartley and William Smith, neighbors, corroborated the observations of the McCormicks as to Michael Fraser's peculiarities, and told of the measures the second cousins adopted to detail the testimony of her brother, as to the tendencies of the whole Fraser family. She further told of an occasion when she called on Michael and he resented to her that his rheumatism bothered him. He was not as nimble, he said, as a lady who had been in the house Monday, who took her legs and put them up over her shoulders.

"I said that he wasn't a lady, Michael, and he burst into a silly laugh."

QUITS SOCIALIST PARTY RATHER THAN DIVULGE REPORT TO GOVERNMENT

James Simpson Revolts When His Comrades Ask Him to Let Them Have Advance Copy of His Report on Technical Education.

Think of it, Comrade James Simpson has been "read out" of the Socialist party, despite all his services to the cause, not alone from the platform times innumerable, but in his educational campaigns for municipal and legislative offices, as well as giving the prestige by virtue of his chairmanship of Toronto's Board of Education. And it all comes of his having accepted a government appointment as member of the technical education commission.

"We wish it known that we can no longer stand sponsor for his political actions and utterances," writes Arthur Taylor, financial secretary of local 24, Socialist party of Canada, in forwarding a copy of a resolution passed at a special meeting Sept. 7, which, after discussing the question of technical education, demanded that he submit confidential information to his associates, in the following language: "Resolved, that the process of capitalist accumulation springs from the constant invention of ever newer and costlier machinery; the value of which, as an economic force, is its labor saving qualities; the purpose of its introduction being the replacing of live human labor by a cheaper mechanical process, from which flows the ever recurring forcing out of employment the great masses of labor; and whereas modern production rests upon the physical sciences, technical education would make the workers more proficient wage slaves and greater producers of surplus value for the capitalist class, consequently technical education would have the same effect on the working class as labor saving machinery, which means the intensification of labor, increased exploitation of the workers and a constant swelling of the unemployed army, giving an ever increasing power to the capitalist class over the working class.

"Means Further 'Degradation.'" "Therefore, the benefits accruing from technically educated working class would be reaped by the capitalist class."

T.P.'S OWN STORY OF IRELAND OF TO-DAY

The Marvelous Changes of Thirty Years — Home Rule All That's Needed to Fill Cup of Satisfaction — \$2000 Was Contributed to "the Cause."

T. P. O'Connor, M.P., founder of The Star, The Sun, The Weekly Sun, "M. A. P." and "P. O." editor-in-chief of The Era, president of the United Irish League for a quarter of a century, was the greatest Irishman in Canada yesterday, and will remain long enough to celebrate his 62nd birthday on Oct. 8 on Canadian soil.

"Tay Pay" was here four years ago, and as he approaches the grand climacteric, gives every evidence of having developed and mellowed into one of the ripest and sanest minded men in British politics to-day. His address last night on "The New Ireland" was a model of moderation and eloquent exposition, and it is safe to say that had the Irish party been dominated by O'Connors for the last fifty years, Ireland would have been a generation further along in her renaissance.

Mr. O'Connor also addressed the Toronto Press Club last night, and it is no breach of confidence to say that a more high-minded standard was never set up for any body of professional men. Mr. O'Connor carries his ideals into his own journalistic practice and into his politics. They may be briefly defined as fair and clean. Mr. O'Connor while in Toronto is the guest of D. D. Mann and will attend the Woodbine to-day and remain over Sunday in the city.

Two Thousand Dollars Subscribed. He is here for the purpose of assisting in the replenishment of the war chest of the Irish parliamentary party. Mr. O'Connor would prefer to call it the peace-chest, perhaps, but it would not be so generally recognized, and that designation, it was under the banner of peace, however, that last night the replenishment went up in the neighborhood of \$2000. If all the other Canadian and United States burghs do as well the \$100,000 asked for will not be long wanting.

An Irish concert, in which Piper Murray, Donald McGeoghan and Miss Lena Hays as violinist took melodious notes preceded the address. President Roche of the local branch of the league introduced Hon. J. J. Foy, acting premier, as chairman of the meeting. Subsequently there was no treason talked and the sanguinary Sasseenach was comfortably buried away and unmentioned even in the briefest obituary notice.

All the joy and gladness for the new Ireland, and the mournful Irish airs which formed part of the preliminary program, were only a prelude to the sad, bad, bad old times. Echo of the new Ireland, the Irish harps have the greater joy, the Irish harps have all the greater joy, the Jack in the corner, and President Roche himself, raised the tune for "God Save the King," and with her rights in sight could afford to be happy and just.

Justice for Ireland. Mr. Roche said: "This is no political meeting. It is a meeting in the interest of justice to Ireland, the Irish people. The country of Ireland is a Kingdom of Irish hearts. The United Irish League knows no distinction of creed. It is our duty to help our fellows, and especially our Irish fellows."

Hon. Mr. Foy accepted his position with great pleasure, he said, and while waiting for the curtain to appear from behind the curtain and produce Piper Murray, who marched in bravely with his dromes and cantabars in full execution, while Mr. O'Connor, who is a modest gentleman, leaned on his two supporters, figuratively speaking, and was conducted forward to the address of the local league.

The address closed by asking his acceptance of "a hearty and unanimous expression of our confidence in the Irish party in which our revered low-citizen, Honorable Edward Blake, served so long and faithfully. This meeting would link his name with Mr. Redmond's and your own, in wishing success to Ireland and Ireland's cause."

Wanted to Come Here. For one hour and five minutes Mr. O'Connor held his fine audience in rapt attention. There were a few interruptions. Citizens Fred Watkins and J. Wright behaved once or twice in a way that called for police intervention, but Mr. Foy's remonstrance, the presence of the constable and Mr. D'Arcy Hind's expressed intention to go down himself and eject the uncivil ones, gradually soothed the troubled spirits.

Mr. O'Connor had hesitated about undertaking his mission to America, which he now visits for the fifth time, but when he decided to come, he stipulated that most of his time be spent in Canada. He wished to see the wonderful new west, and also the great arrival at a moment and a phase in the Irish struggle when Canada could have a profound influence on the result. There were some of his countrymen.

Allan, Burlington; press, Mrs. Nisbet; soldiers and militia, Mrs. Bowman, Dundas; fair work, Mrs. Woodruff; work among sailors, Mrs. Wolfkill; flower mission, Mrs. Elliott; prison reform, Mrs. Campbell; nursery, Mrs. C. Henderson. Life memberships were presented to Mrs. Smythe, Milton; Mrs. Arthur Boyle, Mrs. Nichols, Miss Bastedo, and Mrs. Byrn Smythe.

Another Death.
Another death occurred to-night from polio-myelitis. The victim was Muriel Alberta Smith, daughter of William and Mrs. Smith, 206 South Wellington-street, aged 1 year. About 5 o'clock this evening a team of horses backed a wagon over an embankment at Armstrong Brothers' gravel pit at the high level bridge and one horse was killed. Constable Barrett to-night arrested Francis Field on a theft charge preferred by James Vickers. Herman Cousins, 424 Mary-street, reported to the police that his son went nutting to-day and had not returned. Peter Bradley was arrested on a charge of threatening James Kennedy.

In the public school sports, held at the cricket grounds this afternoon, the Collegiate Institute carried off the majority of points and commercial schools were second. Voelker of Stinson-street school and Eaglesham of Central school won the individual prizes. Eaglesham secured the senior allround championship, and Dreker was second, the former having eight points and the latter seven. Strathcona school won the banner for the allround championship among the public schools. The districts finished in the following order: Strathcona, 20 points; Hess, 25; Queen Victoria, 18; Central, 16, and Ryerson, 15.

KILTIES NOT EXCUSED TO ATTEND LECTURE

Notwithstanding an invitation to hear T. P. O'Connor at Massey Hall and occupy free seats, the 8th Highlanders were true to the colors last night and paraded 500 strong. In view of the nature of the published invitation, which implied that members of the regiment would be excused from drill, Lieut.-Col. Robertson, before dismissing the regiment, complimented the men on the large turnout. In emphatic language he said that they had no quarrel whatever with the Irish cause, but as the annual fall drill was in progress, no such invitation could be construed as an excuse to stay away. No man but a fool or

a coward would do it. "No decent Irishman would take such a mean advantage to detract the attention of men from their duty," he declared. Brig-Gen. Cotton, who was an interested spectator of the drill, when approached by The World during the evening spoke briefly and said: "Absence from drill under such circumstances was quite impossible."

Explaining the situation to The World, Lieut.-Col. Robertson remarked that F. J. Roche had approached him with a view of having members of the regiment excused from drill last night for the purpose of attending the lecture, but the commanding officer made it plain that it was no part of his duty to accede to the request, as the meeting in Massey Hall was avowedly of a political character, and the King's regulations would not permit of any such proceeding. The regimental orders announce efficiency firing to take place at Long Branch ranges to-day, and the annual rifle matches next Saturday. Forty-four men have been added to the strength of the regiment, while 25 have been struck off.

The following paragraph on the subject of fall fashions will no doubt be interesting in view of the tendency to eliminate the "hobble" skirt: "The commanding officer has noticed a tendency on the part of all ranks to wear the kilt too low, and for the information of all concerned promulgates as follows: "The kilt is to be tightly wrapped and strapped around the body (apron exactly in front) and the end of the apron should then rest on the last pleat. The kilt should clear the ground by from one to two inches, according to the height of the man, when kneeling."

The plaid should be suspended from left of the centre of the back at waist under the doublet, or the end fastened by the loop of the left shoulder button. "The hose should be worn so that the top edge of the hose (when turned down) rests on the centre of the full of the calf. "Garter knots should be worn to the front on the outside of the leg. "Bonnets should be worn tilted to the right side."

On the other hand, several aldermen expressed themselves yesterday as of the belief that a longer period of testing the effect of reduction should be allowed. The increase in the number of arrests for drunkenness, as shown by the police records, is pointed out as a reason for waiting another year at least.

COUNCIL MAY DISCUSS REDUCTION OF LICENSES

W.C.T.U. Resolution To Cut Off 40 More May Be Given More Attention Than is Anticipated.

License reduction as an issue at the coming municipal elections is looming up in no undecided manner at the city hall, where the resolution passed by the Women's Christian Temperance Union, calling for the submitting of another referendum next January, to cut off 40 more hotel licenses, was seriously discussed by groups of aldermen yesterday.

Controller Foster expressed the belief that the board of control would send on a recommendation along the lines requested. He personally favors giving the people another opportunity to declare themselves, and Controller Spence's support is taken for granted by the temperance workers, who also look to Mayor Chappin, in view of his strong cold water speech at a temperance convention some months ago.

How the aldermen will regard the proposal is uncertain. Those who are known as decided temperance advocates are Ald. Hilton, Heyd, Welch, Weston, Graham, May, McCarthy and Baird. There are, however, several others who lean in that direction, although not perhaps so decidedly as may be desired by the more aggressive element. Ald. Chisholm, who is so classed, said yesterday that he would vote for another referendum, and if his stand is typical of the feeling among the members outside, those named who are looked upon as sure supporters of the referendum, there is bound to be another bitter struggle along the lines of that of two years ago. Controllers Spence and Foster and Ald. McCarthy and Baird are likely to take the leadership in the campaign.

On the other hand, several aldermen expressed themselves yesterday as of the belief that a longer period of testing the effect of reduction should be allowed. The increase in the number of arrests for drunkenness, as shown by the police records, is pointed out as a reason for waiting another year at least.

DR. HASTINGS THE MAN SO PROFESSION DECLARES

Strong Case in His Behalf Made Out—Decision Next Tuesday.

If the wishes of a representative body of Toronto's medical men carry weight with the city council, Dr. Charles J. Hastings of Wellesley-street will be appointed to succeed Dr. Sheard as medical health officer. It is true that when the question of filling the vacancy was up last April Dr. Hastings did not get the support of a majority of council, but circumstances are altered. At that time, a movement to retain Dr. Sheard was all-powerful, but with his resignation now finally accepted, the field is open, and Dr. Hastings' candidature looks promising. The high opinion of Dr. Hastings held

by the profession was shown in a letter containing the signatures of 65 of the most prominent practitioners, which the mayor received yesterday. It is addressed to the council and reads as follows: "Dr. Charles J. Hastings is generally recognized by the members of the medical profession of Toronto as an able physician. He has good, sound judgment, an unusual amount of common sense and excellent executive ability. A very careful, observant and conscientious medical practitioner. Apart from his ordinary professional work he has shown unusual interest in many matters pertaining to public health, having been a prime leader in three of the most live problems engaging the attention of sanitarians throughout the world to-day, namely, medical inspection of schools, the milk problem, and our city stums. "In 1905, in an address to the Ontario Medical Association on 'The Rights of Our Children,' he drew the attention of the members to the extreme importance of medical inspection of schools, after which a resolution was passed by the association endorsing said inspection, and a committee of the association was appointed to draw the attention of the provincial parliament to this important subject, of which Dr. Hastings was made convener. "His Public Service. "On various occasions he has drawn attention to the ever-increasing physical and moral dangers of our stums as hotbeds of disease and vice, and has pointed out the means by which they have been removed from cities of much greater magnitude than Toronto, in Europe and the United States. "As chairman of the Canadian Medical Association's Commission he has done a wonderful amount of valuable work, which has been generally appreciated by the profession of Canada and the United States. In fact, we may say he is an all round man. His knowledge of chemistry, having been a qualified chemist previous to entering the medical profession, his general knowledge of bacteriology and his exceptionally high appreciation of its value in preventive medicine, together with his study and knowledge of sanitary measures, well fit him for making use of scientific methods of investigation in a practical way. "With a strong personality, always approachable, with a high regard for the opinions of others, with broad experience and in his very prime, we believe that he is exceptionally well qualified for the position of medical health officer of Toronto, and we therefore respectfully recommend his appointment."

GOAL
If we sell over eighty thousand tons of coal in Toronto per year, which we do, and hold such contracts as the University of Toronto, Toronto High and Public Schools, Separate Schools and numerous large contracts other than these, there must be a reason. Think it over. We know you will eventually burn our coal, so why not now? We mine our own coal and belong to no combines, hence the low price of \$6.50 per ton. Offices all over the city. BETTER SYSTEM FOR ISOLATION
Judge Winchester Says Competent Superintendent is Needed.
If remarks made by Judge Winchester yesterday are to be understood as foreshadowing recommendations he will make in his report on the Isolation Hospital enquiry, he will propose to nominate the appointment of a "separate, competent medical superintendent."
His honor said, that, owing to the growth of the city, the hospital was too large an institution to be handled by one man as an incidental. If cross-infection could not be reduced to a minimum under the present system and with the present staff, there should be a change. It might be necessary to erect separate buildings for separate diseases.
The judge will have two prominent physicians visit the institution and re-

What \$10 Will Do in the Women's Cloak Section

To arouse big buying enthusiasm, we have arranged a great value-giving day in the Cloak and Suit Section, focusing attention on those garments marked ten dollars.

Women's Suits at Ten Dollars—All this season's goods, made in smart styles, some delivered too late for early Fall selling; others in broken color and size range, one line was more than double the price, while another was very nearly as good as all exceptional values. The materials are pearl serges, French and English worsteds, pearl corded Venetians, wide wale chevrot; coats are in neat plain tailored styles, silk and polo satin lined; 250 in the collection, which should go early at, each 10.00

Silk Dresses at \$10.00

A very smart collection of Taffeta Silk Semi-princess Dresses, in neat narrowed lines with waist trimmed in fine tucks and silk soutache braid, with embroidered net yoke; black, white, ivory, blue, amethyst; in the lot will be found a few coin-spotted delaine dresses, with flat satin band trimming on yoke, cuffs and around foot. To clear, each 10.00

JARVIS AND PARKDALE WIN N.S. RUGBY GAMES

Tea. Beaten in Close Competition on Trinity Campus—Harbord Scores Only One.

Jarvis were the victors over Technical in their first game of Group A in the High School League yesterday on the Don Flats. As the score will show, the teams were very evenly matched, and the play was hard and fast. Webb, the captain of the Technical boys, was the star of the day, with sure tackling and general all-round good play. Simpson Kelly, Leslie, Smith at left back made some brilliant runs for Technical. Captain Mills handled the Jarvis team well, and the half division did exceptionally well. The kicking was good, and the tackling of Murray and Adlard was the best for Jarvis. The teams:
Jarvis (5)—Full-back, Ritchie; halves, Dopp, Davidson, Small; quarter, Mills (captain); scrummage, Ramsdon, Mann, West; wings, Braithwaite, Smith, Harcourt, Peterkin, Adlard and Murray.
Technical (5)—Full-back, Lane; halves, Simpson, Smith, Webster; quarter, Lyons; scrummage, Ward, Keeler, Boyd; wings, Neilson, Flood, Kellogg, Bell, Heakes and Webb (captain).
Officials: J. R. Richards and J. F. Wren.

Tigers-Argonauts at Rosedale.
The Rugby season will open in Toronto today, with Hamilton Tigers playing an exhibition game at Rosedale with Argonauts. Tigers are running a special train to accommodate their rosters, and as Argos have a large following, the game should be witnessed by a good crowd. Both sides are not yet in the best of shape, nor have they perfected their team play, but at that the game should be a pretty good exhibition. Previous to the big game, Toronto Canoe Club and St. Michael's will play a Junior O. R. F. U. game, starting at 1 o'clock, and, with this double-header on the card, the spectators should not want for quantity this afternoon. George Ballard has been agreed upon as referee for the Tigers-Argos game. The probable teams are as follows, although the players will be changed at intervals:
Tigers—Back, George A. Smith; halves, Kid Smith, Barrie; quarter, Cotton, Simpson; quarter, Awrey; scrummage, Pfeiffer, Scott, Squires, Saylor, McFarland, Gerrard and Gessing; outside wings, Thompson, Glatney and Luton; middle and inside wings, Isbister, Barron, Brainer, Potticary, Mahoney and Walsh.
Argos—Back, Cotton; halves, Cotton, Binkley, Murphy; quarter, Newport; scrummage, Bill Brown, Hugh Brown, Russell, Bascroft, Patterson; inside wings, Grant, Hunter; middle wings, Sinclair, Wigle; outside wings, Knight, McMurray. Spares: Pud Kent, Ferguson.

Rugby Gossip.

The Rugby season opens in Montreal today with an exhibition game between Montreal and McGill. A lot of new faces will be seen on the line-up of both teams. Should Jack Williams go to Montreal instead of turning out with Ottawa, it will give the red and black a very formidable-looking aggregation. With Williams, Stinson, Ken Williams, Duckett and Hamilton, as well as available material for the back division, Chaucer's team would look pretty good.
Parkdale C.C. Juniors play T.A.C. at Varsity at 2:30. The paddlers are requested to be out on time.
Toronto will get its first taste of senior Rugby to-day, when Argonauts and Hamilton Tigers clash in an exhibition game at Rosedale. The game will be more of a tryout than anything else, and will show the good and bad of the two teams. Both teams have agreed to let each other change players as often as they see fit, and the scullers will try out all their senior material at an exhibition game at Rosedale, and, as the Tigers will do the same, those who journey to Rosedale to-morrow will be able to get a line on the other stars. Argos had their final workout last night at Bayside Park, and a general hibernating up in preparation for to-day was the order. Coach Ripley is confident that the blue and white boys will give the Tigers a good argument.

The Rugby football players of the Toronto Canoe Club are requested to be at the Rosedale Athletic Clubhouse by 1:15 sharp, as the Junior O.R.F.U. game with St. Michael's College must be started at 1:30 sharp, as the senior game between Argonauts and Hamilton must commence at 2 p.m. It is necessary for the players to bring their football clothes with them and dress at the above clubhouse. The team will be picked from the following: R. Coppig (captain), Jolliffe, Awrey, Ferguson, Kerland, Riddy, Kennedy, Livingston, Foster, Reilly, McGregor, Clerk, Smith, Carson, Leavens, Green, Wilson, Morgan, Fountais, Higginbottom, Minns, Howitt, VanBuskirk and Gibson.

BREAD AND PUBLIC HONESTY.

The Globe yesterday published a letter on "A Standard Loaf," in which The World was misrepresented entirely, and as The Globe is not likely to make any correction, we think "Public Honesty" ought not to be left in his evident darkness. The Globe's correspondent declares that "The McNaught bill is considered the most iniquitous piece of legislation ever passed by any Anglo-Saxon legislature, as it practically legalized public robbery in allowing the bakers to reduce the weight of a loaf of bread without consulting anyone but themselves. If bakers are to be allowed to tamper with weights, why not others? As a case in point, what an outcry would be raised if farmers only gave twelve ounces for a roll of creamery butter and sixteen ounces for dairy, or if they were allowed to sell a bag of Delaware or other choice potatoes at 80 pounds to the bag instead of 90 for ordinary. Yet that is what The World and the get-rich-quick bakers are fighting for, and yet, forsooth, the former claims to stand for public rights and ownership."

The absurdity of this hardly requires emphasis, but it is on this absurdity that the whole Globe campaign is based. The Globe's correspondent is arguing on the supposition that the price of a bag of potatoes never changes. Everyone knows that the price of potatoes is changing constantly. The range has been between 40 cents and 45.00 this year, while the weight of the bag has remained stationary. The price of flour and the other materials that enter into the composition of a loaf is constantly fluctuating. To meet the fluctuation either the loaf must be varied in size or the price must be altered from time to time. The larger the standard loaf evidently the more frequently the price must be varied. With a loaf which will be small enough to approximate to the normal value of five cents, evidently the convenience of consumers and their interests will be most easily met.

It is quite clear that for some considerable time past the price of good bread in Toronto has been fixed at four cents a pound. A 20-ounce loaf has been sold at five cents. On increasing the weight to 24 ounces the bakers say they must charge six cents or make a poorer quality of bread.

The Globe and its friends say that they don't get enough value for five cents. This, we submit, is not a matter that can be arranged by legislation. It is arranged by competition, unless The Globe and its friends are willing to advocate the establishment of public bakeries. The price of creamery butter and the price of dairy butter has nothing to do with the loaf problem, for the price of both kinds of butter fluctuates all the time. Why does it fluctuate? Because the weight of a pound of butter is fixed. But suppose the price of butter was determined by the amount sold for 25 cents. Does The Globe or its correspondent mean to suggest that the roll of butter would not fluctuate in size?

There is no moral principle involved in fixing a standard for the size of a loaf or any other merchandise, but there is a moral principle involved in trying to get more than one is entitled to. Justice is all that either the bakers or the public should get in this matter. The McNaught Act was a just act because it permitted the baker to meet conditions in the most economical way, and because it insisted that the public should know what it was getting and how much it was paying for it.

The Nettle Act falls in justice because it insists that the public shall not be able to purchase legally any loaf of certain weights at any price, and because it is a local effort to interfere with the freedom of trade—which is something different from the fairness of trade—between dealer and consumer. The public, on the whole, is getting less bread for its money under the Nettle Act than it did under the McNaught Act. The Globe will be coming enough to find this out some fine day.

MONTREAL'S DANGER. Montreal is in a perilous state these days. The city is confronted with two proposed mergers, either of which will impose a serious and lasting burden on the community. One has in contemplation the consolidation of the Montreal Light, Heat and Power Co. with the Montreal Street Railway Co., and the other the amalgamation of the Canadian Light and Power Co. with the Street Railway Co. On Thursday The Montreal Herald, which is thoroly identifying itself with the public interest, published two carefully prepared tables analyzing the capitalization of the companies affected by the proposed mergers and showing to what extent it will be increased, if these are

effected. Under the Power-Street merger the original par value of the stocks (\$31,228,000) will be increased to \$71,568,000, the "water" this injected in the shape of capital without corresponding advantage, standing at \$40,340,000. Under the Canadian Power-Street merger the original capital at par value, \$24,428,000, representing a cash investment of \$17,626,000, will be raised to \$47,426,000, showing \$29,800,000 of "water." Even these monstrous figures, in the opinion of The Herald, do not disclose the true amount of the fictitious stock which these companies are now carrying, and will carry, if either of the mergers is completed as proposed.

What this stock manipulation means for Montreal is sufficiently obvious. As The Herald says: "On this forty millions of shadow capital Montreal will be expected to pay handsome dividends to the men who hold this stock, their heirs, administrators and assigns while grass grows and water flows. The extraordinary thing is that at this time of day and with all the light that has been poured on similar high financial methods in the cities of the United States, a huge stock juggle of the kind, so succinctly revealed in cold figures, should continue to be prosecuted. Quebec, too, has a public utilities commission, but there appears to be considerable doubt as to the power of the city council to require an investigation into the prices presently charged for electric light and power, and even as to the scope of the commission's jurisdiction. The section of the Revised Statutes of Quebec bearing on the question provides that every amalgamation shall be subject to the consent of the commission and shall have no effect until the order authorizing it is published in the official gazette. What measure of protection this very general provision affords will no doubt be tested, but the Montreal situation again brings into strong relief the absolute necessity of endorsing public service commissions with the amplest possible powers of control in connection with the capitalization and stock manipulation of franchise-holding corporations. Incidentally, too, it furnishes a valuable object lesson to Ontario and to the whole of Canada. But for the power policy of the Ontario Government, Toronto and all this section of the province would certainly have had to face an even more formidable merger, nor is the danger entirely removed. Of equal importance also is the character and calibre of the men who compose public utility commissions. To do their work effectively they must be strong and capable and fully responsive to the claim of the people for a square deal from public service companies."

AN APPRECIATION. To commemorate the 25th anniversary of its foundation, Le Presse of Montreal has issued a special number of unusual interest and attraction. Profusely and beautifully illustrated, it contains not only a brief history of its progress and expansion, but an appreciation of the Montreal of to-day, its eminent citizens and principal industries. The number does large credit to an engaged in its production and our popular and esteemed contemporary has every reason to feel gratified at the high place it holds among our French-speaking fellow-countrymen.

IN PERIL FROM FIRE. Boy Aflame From Gasoline Blaze—Men Leap for Life. G. M. Saturo put up a gallant fight for the life of his hired boy, Felpo Doff, 15 years, and the safety of his little grocery store at 21 Eastern-avenue yesterday morning. The lad was lighting a gasoline stove when his clothing caught fire. Saturo carried him to the street and smothered the flames with his coat. He then grasped the stove and threw it into the yard. The boy was burned about the legs and body and was taken to the General Hospital.

IMPARTIAL OPINION

The Globe is at present publishing from day to day articles from its travelling commissioner in the United States on the present political situation in that country. These articles are of the most intense interest to Canadians. The Globe is the only Canadian paper with a staff correspondent in the field.

If Canada is to deal intelligently with the question of her relations to the neighboring republic, it is of prime importance that her people be well informed as to the currents of events in the United States.

The articles from The Globe's commissioner constitute the best means of securing the desired information.

ALLEGED MAIL ORDER FRAUD

Samuel Goldsmith, Outfitter, in Hands of the Police.

More than 100 letters complaining of the operations of Samuel Goldsmith, 207 St. Clarence-avenue, led to his arrest yesterday by the police upon a charge of obtaining money by false pretences. The letters, which were sent thru the Toronto Outfitter Company he secured from William Chisholm, of Loch Lomond, Cape Breton. Goldsmith's office was originally in Yonge-street. When the police had troubled him there too frequently with requests to make good promises made in his mail-order business, he moved to another office and continued the same business. He operated by advertising to outfit anyone with anything. The ads were inserted in papers in distant parts of the Dominion. Witnesses have been brought from all parts of the Dominion to testify at his trial.

Safe Ends in Manslaughter.

MONTREAL, Sept. 30.—Sentence will be pronounced by Justice St. Pierre on Monday on Louis Garceau and Joseph Pittore, who were found guilty of manslaughter with a recommendation to mercy on a charge of having caused the death of Faustin Peltier on June 23.

Peltier, who was asleep in a coal yard, where he and the two prisoners were employed, was tipped out of a cart as a prank. Falling on his head he died from the injuries received.

DEATH OF LADY EDGAR SUDDENLY IN LONDON

Prominent Torontonian and President of the Woman's National Council.

The death took place suddenly yesterday in London, England, of Lady Edgar, widow of the late Sir James David Edgar, K.C.M.G., F.C., the death of whose brother, Col. J. Bramley Ridout, was chronicled only yesterday. Lady Edgar, accompanied by two of her daughters, Miss Beatrice and Miss Marjorie, left Toronto last spring for a prolonged visit to England and the continent. After a visit to Rome she returned to London in June to be present at the trouhourtime of her son, Keith Edgar, an officer of the Royal Engineers stationed in India. After this Lady Edgar spent the season touring abroad with friends in England and Scotland. For some time during the summer they were the guests of Lord and Lady Aberdeen at the vice-regal lodge in Ireland. Up to the last Lady Edgar had been in the best of health.

Matilda Ridout, Lady Edgar, was a daughter of the late Thomas Gibbs Ridout and a grand-daughter of Hon. John Ridout who was surveyor-general of Canada from 1810 to 1829. She inherited literary tastes, writing several interesting and valuable books, dealing with Canadian affairs. One of these, "The Years of Upper Canada in War and Peace," was largely compiled from records and letters left by her father and grandfather, both of whom took an active part as officers in the War of 1812. Another well-known work of hers is "The Life of General Brock." Matilda Ridout married James David Edgar in 1869. She was actively interested in her husband's political career, accompanying him to British Columbia when he was despatched thither on an important political mission by the Mackenzie government in 1874.

In her former residence on Bloor-street she was noted as a most charming hostess. She died at 1898, as wife of the Speaker of the house of commons at Ottawa, she filled an important social position with grace and dignity.

As president of the Woman's National Council, Lady Edgar accompanied that great organization to the Pacific coast in the summer of 1897. Lady Edgar is survived by the following children: Jas. F. Edgar, barrister, Toronto; Miss Maud Edgar, M.A., who is principal of a lady's school at Montreal; Mr. Pelham Edgar, M.A., Ph.D., professor of Victoria University, who is at present in Europe with his wife; Mr. D. Keith Edgar, lieutenant Royal Engineers, Montreal; Miss Beatrice Edgar, and Miss Marjorie London, and Mr. Herbert Edgar, secretary of the Toronto Club.

Two brothers and a sister also survive—George, Ridout, John, Ridout, and Mrs. Daisy Edgar, all of whom are in Toronto, and other relatives in Toronto.

Re Miles.—W. S. Edwards, for subsequent encumbrancer. Motion by subsequent encumbrancer for an order for payment out of moneys in court. Notice to be served on mortgagor and other encumbrancers. Ontario Lime Co. v. Greenwood.—R. Greer, for Greenwood, H. H. Shaver, for plaintiff. An appeal by defendant Greenwood from order of the master in chambers. Judgment: The material in this case is most unsatisfactory and leaves much in doubt. Mechanics liens have been registered against the property, one being the lien of plaintiffs. This purports to be based on a contract with Greenwood for the sale to him of lime to be used in erection of the houses. Greenwood now moves to vacate the lien on the ground that he has no interest in the four houses save as landlord. On the material before me I cannot say that the applicant has so clearly demonstrated that the lien was not an enforceable one that it should be vacated upon a summary application. Motion dismissed. Costs here and below in the cause.

Single Court. Before Middleton, J. Re John Larkin Cook Estate—M. L. Gordon, for trustees, F. W. Harcourt, K.C., for infant. Motion by trustees for the appointment of a new trustee in the place and stead of Andrew Darling, deceased. Order made, appointing James W. Bain in place of Andrew Darling, deceased, and vesting properties in present trustees and him. Costs here and below in the cause.

Re John Henry Speis—G. H. Kilmer, K.C., for applicants. Motion by applicants, on consent, for an order appointing George Monkman and Esther L. Brown trustees in the place and stead of Bernard Saunders, deceased, and of Esther Saunders, deceased, as executors of old trustees to be passed by the registrar, and estate vested in new trustees. Costs out of estate.

La Rose Mines v. Argentum Mines—H. E. Rose, K.C., for plaintiffs, An ex parte motion by plaintiffs for an injunction. Injunction granted restraining defendants from entering upon, trespassing or mining on the land in question until the 15th October next.

Divisional Court. Before Meredith, C.J.; Teetzel, J.; Clute, J. Herring v. House—Sale (Windsor), for defendant. Motion by defendant for leave to set down appeal from judgment of the chancellor. Leave given to set appeal down for the October sitting of the court. Reserved. Carter v. Canadian Northern Ry.—I. F. Hellmuth, K.C., for defendants, W. J. Elliott, for plaintiff. An appeal by defendant from the judgment of Latchford, J., of 6th June, 1910. This was an action to recover \$480 which plaintiff alleged he paid to defendants on certain conditions for stock in a syndicate to be formed, that the conditions had not been fulfilled and plaintiff therefore demanded his money back. At the trial judgment was given in favor of plaintiff for the \$480 sued for and costs. Defendants' appeal therefrom argued and judgment reserved. Dawson v. Dawson—W. J. Mackay, for plaintiff, C. R. McKeown, K.C., for defendant. An appeal by plaintiff from the judgment of Magee, J., of 4th June, 1910. The action was for \$525 and interest, alleged to be due to plaintiff by defendant under an agreement with plaintiff's father, who conveyed his farm to defendant, burdened with an annuity to plaintiff of \$52.50 per year. At the trial the action was dismissed without costs, and without prejudice to any other action which

DRINK HABIT

Cured by Gatlin Treatment in Three Days Without Hypodermic Injections or any Disagreeable Features

In this advanced civilization, everything being rush and push, the very stress of existence, the pursuit of wealth, the fight to forge ahead, bring on a kind of nervousness that makes drunksards of men. They drink moderately at first, but soon the poison begins to work on the nervous system, most particularly the brain—it brings on a condition of nerves, mind and stomach that nothing but MORE alcohol will relieve. Treatment is the only salvation.

A Perfect Cure in THREE DAYS

For ten years past the Gatlin Institute has been curing the liquor habit in three days. In three days not only does it do away with all craving and desire for liquor, but also cures that nervous condition which demands alcoholic liquor. Eleven thousand men and women have taken the Gatlin treatment—there has never been failure to cure in any case. Hundreds of men owe their business standing, their wealth and health to the Gatlin treatment.

No Hypodermic Injections, No "Substitutive" Poisons, No Bad After-Effects

Three days at the Gatlin Institute are attended by no more inconveniences than stopping at any first-class hotel for three days. There are no hypodermic injections with the treatment—it contains no poisonous, sedative or stimulative drugs, therefore is harmless. Any child could take it. Each patient is accepted for treatment under contract that he shall be cured by his entire satisfaction or treatment shall cost nothing. The Gatlin Home Treatment for those who cannot come to the institute for three days.

tion to local 24 before I submit it to the government. The position I hold on industrial training and technical education was at the request of the Trades and Labor Congress of Canada, and the request of local 24 that I should submit my report to their censorship is both presumptuous and unnecessary in the interest of party discipline. My knowledge of technical education, and the members of the local, and I regret that the last clause of the resolution was adopted.

Regrettable But Necessary. In forwarding my resignation as a member of local 24, I do so after the most deliberate consideration of the import of the resolution adopted on Sept. 18, and I regret exceedingly that such a course is made necessary. Dur- ing my many years' association with the comrades of local 24, I have endeavored to take a clear position in harmony with the Socialist party plat- form and constitution, and the records of the party will show that my actions have been generally approved.

In severing my connection with local 24, I wish to assure the com- rades that my zeal in the interest of socialism will be none the less be- cause I have ceased to identify myself with that particular local of the So- cialist party. Time alone will indicate how loyal I am to the working class, and I am prepared to continue my work in their interest with the same ardor as I have in the past, realizing that the unit in the working class can only rise with the mass.

EVANGELICAL ALLIANCE DEPUTATION ARRIVE Archdeacon Madden and Canon Hanson Will Address Many Gath- ings in Next Few Days.

During the first four days of next week, Toronto is to have the privilege of hearing two of the leading workers of the Evangelical Alliance, in the persons of Venerable Archdeacon Madden and the Rev. George H. Hanson, M.A., D.D., who arrived in Toronto yesterday afternoon. This deputation has been sent as a result of a meeting held in this city two years ago, when a resolu- tion was adopted requesting the British council of the alliance to send representatives to Canada in the in- terests of the alliance and Christian union generally.

The alliance promotes freedom of conscience as distinguished from mere toleration as the birthright of every man and is the only organization of every world that comes to the aid of those who are persecuted for the faith of Christ.

The first of the meetings will be held on Sunday, Archdeacon Madden preaching in St. Paul's Anglican Church, and Dr. Hanson at Trinity Methodist at the morning services. At four o'clock Sunday afternoon, a union meeting will be held under the aus- pices of the Y.M.C.A., in Association Hall, in the evening Archdeacon Madden will preach in St. Anne's, and Dr. Hanson in Cooke's Presbyterian Church.

On Monday, both will address the general mission association at 10.30, and will also speak to all the minis- ters at a noon luncheon. In the evening a mass meeting will be held in Association Hall, on Tuesday evening, Archdeacon Madden will address the students of Wycliffe College, and Dr. Hanson will speak at Knox Church. Wednesday evening, the archdeacon will conduct services in St. John's Presbyterian Church, and Dr. Hanson at Parkdale Presbyterian Church. A farewell meeting will be held on Thursday evening in the Bible Training School, Sir Mortimer Clark presiding.

When seen last evening, Venerable Archdeacon Madden spoke of the won- derful enthusiasm with which the citi- zens of the west. Branches have been organized in the larger centres with the ob- ject of not only influencing the citi- zens, but also the towns throughout the province.

"We found a very strong feeling in favor of co-operation amongst the churches," said the archdeacon, "and if possible federation in view of the increasing difficulties created by the influx of immigrants in the far west. All the churches recognized the folly of overlapping, both on its financial and spiritual side."

Archdeacon Madden is the guest of Canon Plumtree at the St. James' rectory, and Dr. Hanson of Robt. Kil- gour at a Beaumont-road.

T.P.'S OWN STORY OF IRELAND OF TO-DAY

Continued From Page 1.

In the habit of saying and writing— he would not have been the finding of saying the thought—that nothing had been done for Ireland in thirty years. Difference in Thirty Years. "When I started in public life thirty years ago, Ireland was a nation of paupers and slaves. Thirty years after Ireland is transformed into a nation of prosperous and free men."

What would be the political conse- quences? As American capitalist was afraid of socialism. A nation of 3,000,000 men, owning their own prop- erty was the biggest barrier that could be put up against socialism, was Mr. O'Connor's argument. (Ap- plause.)

Thirty years ago the laborers of Ireland were the scandal and shame of civilization. They lived in cabins which General Gordon declared to be worse than anything he had seen among the Indians or the Hottentots. To-day there were 85,000 new slate- roofed houses, with white-washed walls, and from half an acre to an acre of ground attached. As Mr. O'Connor enlarged on this aspect of the new Ireland, and described the soil of Ireland, covered with the 85,000 "houses," there was loud applause.

The List of Reforms. So he went through the list of reforms, the new county councils, the new elementary education system, the new Irish university, the wonderful work done by the congested-districts board, with its five million dollars for the compulsory purchase of land for the people living there; and the 3000 ten- ants who had been restored to their homes, some of them after 20 or 25 years. These men were driven off by O'Donoghue, L. Cosgrave, L. V. McBrady, Frank T. Lee. A large number of priests were among the audience, which was a representa- tive one. The subscriptions announced were: W. Gough \$50, W. Dineen \$25, G. J. Foy, Limited, \$40, John Stor- mott \$25, L. V. McBrady \$25, Thos. Long \$20, Eugene O'Keefe \$20, L. Cos- grave \$100, P. Burns \$25, W. Rea \$25, Hon. J. J. Foy \$100, E. J. Hean \$15, H. H. Dewart \$30, F. P. Lee \$15, E. J. Day \$5, W. J. T. Lee \$10, Hon. E. J. Davis \$10, H. H. Dewart \$10, P. J. Cronin \$20, A. M. Orpen \$25, A. Anglin \$25, J. Richardson \$10, J. G. O'Donoghue \$10, J. O'Neill \$100, Hume Blake \$25, F. L. Lofus \$25, Father Minahan \$25, Wm. Claude Cox \$25, A. Friend \$10, J. Egan \$10, W. C. Egan \$25, George Hickey \$50, John Cleary \$10, M. J. Cassettey \$5, in- dependent Home Rule \$50, Herbert Leech, M.L.A. \$10, Father Breach \$5, Friend \$10, Father Casey \$5, Thos. Rand \$5, W. S. O'Connor \$5, D. Hinds \$5, Friend \$5.

What more did he want? They wanted Ireland governed by Irish prin- ciples. Was there anything unreason- able about that? In the imperial par- liament, the Irishmen made eloquent speeches, but in Scotland or England or Walesmen heard them. They never wanted to hear them. It happened all round to Scotland and England and Wales as well as to Ireland.

That the influence of the system. And it must be remedied all round," was his conclusion. The great Indian Empire, with its budget, was always supposed to be in a few hours of his July afternoon.

"I don't like the position the Irish party is in at present. I wish the Irish party had a larger majority, and I wish they were not so divided. The position it has, can it be right to place the control of the whole British Empire in the hands of one party? And I say that, that also I am a member of that party myself, and I am proud of it."

Home Rule for All. If the time came when the colonies were to be governed by a parliament elected by the people, would the govern- ment in it. He was not going to fore- shadow any method by which the idea could be carried out. That would be premature and thought had not yet matured upon the question, but the idea all agreed upon the principle. How could a parliament be imperial and local at the same time?

He believed, therefore, that a local parliament was coming for England, Scotland and Wales, as well as India, Canada had solved the problem with a logical and rational system. So they would in Britain, and he thought the imperial assembly devoting its time to imperial affairs and in which all the empire would be represented.

May Realize in Next Year. The Scotch and the Welsh were already convinced. The English were slower, but he would not be surprised to see home rule by next June. He did not say it was probable, but that it was possible. The conference of Liberal and Conservative leaders in England made him hope for this result. Personally he knew nothing of their doings, but he was sure that they would come to a reasonable and rational agreement which would satisfy the moderate and reasonable men of all parties.

If the Liberals did not betray the principle to which they were pledged, and he thought that inconceivable, the veto of the house of lords would be abolished. In that case, home rule would be possible. The Conservatives did not agree that the Liberal party, with a majority in the house, must have the same freedom to pass its laws as the Conservatives. The country would certainly result in the democracy of England ruling a Liberal majority which no con- stitutional sovereign would ignore.

Dr. Edward Ryan, medical superin- tendent of Rockwood Asylum, King- ston, examined Fraser on June 13 last, in the presence of Doctors Raikes, Jules Johnson, Clarke and Cotton. He found the heart enlarged and harden- ed. Fraser had the date of his birth correct, and gave the names of his brothers, but wasn't clear as to whether they were living or dead. First, he said two were dead, and he had seen John two months ago. None had died in the asylum. He had said Monck was the present governor-general and Car- tier was premier. He didn't know who represented the county in the parlia- ment.

Dr. Ryan is positive. Dr. Edward Ryan, medical superin- tendent of Rockwood Asylum, King- ston, examined Fraser on June 13 last, in the presence of Doctors Raikes,

Your Ideal of Perfection in Player-Pianos

Are you delaying the purchase of YOUR player-piano until certain imper- fections are removed, and that perfection which you naturally desire in YOUR instrument shall have been more satisfactorily obtained? Then come—see—hear the

Mason & Risch Player-Piano

and determine for yourself how nearly it realizes your ideal. We have succeeded in entirely eliminating that "unnatural stiffness" of the action which many people have considered the only shortcoming of player-pianos. By a unique control of the pneumatics we get the effect of the "human touch," so perfectly as to leave no distinction from the artistic touch of master fingers. Its wonderful rendition of difficult selections is absolutely void of all mechanical characteristics.

Until you have heard the Mason & Risch Player-Piano you have no fair con- ception of how thoroughly it is possible to satisfy the most exacting requirements. May we not have the privilege of demonstrating it to you?

You are cordially invited to call and examine this splendid instrument at your early convenience.

800,000 ESTATE DEPENDS ON SANITY

Justice Britton: "Apparently, there was some mania, some mania against schools and taxes, as his brother John was?"

Acted Quirly. "Yes, just the same." From John's death on Aug. 31, he had acted queerly towards women. "He asked me to marry him on the day of John's fun- eral, and again on the second of Octo- ber. While the funeral service was on he asked Miss Brown to sit on the piano, and he wanted both her and me to sit on his lap."

Mrs. McCormick intimated that it was an evidence of insanity on Michael's part to want to marry his second cousin.

How She Loved Him. "Did he speak of Miss Robertson?" "Yes, and I said, 'don't talk non- sense,' and he said, 'perhaps it is non- sense.' She used to sit on his knee and kiss him and told him she loved him better than King Edward or anybody in the universe."

When He Got Foolish. Richard Hartley of Midland adduced that Michael was a fine fellow until eight or ten years ago, when he got foolish.

Some Peculiarities. Wm. Smith, one of the men employ- ed by Executor Robert Erwin, William Findlayson, and Dr. McGill to "keep out intruders" said that while he was staying with Michael the old man ask- ed him how old his daughter was. When he answered 13 years, Fraser said he wished she was 21, and she would be mistress of Ballacastle, the Fraser homestead.

Other peculiarities witness reported were that Fraser would go to bed with

Toronto Barrister Said to Have Been Swindled of \$15,000.

(Canadian Associated Press Cable). LONDON, Sept. 30.—J. H. Smythe, who posed as a Colorado millionaire, was sentenced to two years. It is stated that amongst his amazing exploits was the obtaining of \$3000 from a Toronto barrister. When the latter came to England with the object of regaining the money, Smythe borrowed \$20 in order to go to the continent to obtain \$3000 from another man, and he did not return.

BRENDAN BEATS OSAGE BOOZEMAN WINS AT 12 TO 1

Three Favorites in Front on Friday at Woodbine Park—Big Card on To-day.

Three favorites, as many second choices and two long shots were the winners on Friday at Woodbine Park. The steady breeze, the fast ground, as far as added money was concerned, and both went pretty well according to form. Musgrave was the winning horse, leading the last two races. The afternoon was fine and warm, and the crowd up to the best day of the meeting.

The books had pretty much all they could attend to and regardless of the defeat of the favorites the public rushed in to get shaved. It is now up to closing day with all those favorites including the O.J.C. Cup, down for decision.

Hours, at long odds, was best in the opening event, but had to drive a dangerous lead at the start. Dr. Barley, always in the vanguard, took third easily. Detroit and Cooney L. were backed without response.

Footprint made every post a winner in the second race, and finished second and third. Jim L. was promising at the start, but dropped back.

Liberty Lass won the three-horse novice steeplechase, leading the entire distance, but the result might have been different had not The King hit the last jump, when he was showing a nice finishing sprint. Orno came along and took second.

O'Fallon from Dufferin Park scored a clever win on Acumen in the fourth, in the second race, but he was given a dangerous lead at the start. Dr. Barley, always in the vanguard, took third easily. Detroit and Cooney L. were backed without response.

Picolata squeezed thru the opening on the rail turning into the street and then won the maiden purse and landed a lot of stable money. Garneau made up a lot of ground to get the place, with Huetamo, the short-priced favorite, doing tolerably well to show. Carman's Merry Lad, Archibald up, was naturally well played and looked out of place bringing up the rear.

The \$700 selling steeplechase had a close finish. Brendan, slight favorite over Osage, stayed in front thru the entire field and won by only three lengths from Osage and Nick. The other three were only a neck apart, second and third. These three were backed two ways.

The Canadian bred distance race was a gift for Cape Sable, the odd-on choice. Onspring and Mendip had a nice tussle for the place.

Amory that ran away and was disqualified after finishing second on Wednesday, tried to make it another run away affair in the last race of the day, but he was out of the race, and succeeded in mirably until Bob Co caught him at the wire in a dead heat with the last furlong. Ozer just beat Houghton for third. Herpes was a false alarm.

Light Cigars Not Mildest. Probably there is not one smoker in a thousand who is not surprised, and, indeed, incredulous, when he is told that the color of a cigar is absolutely no guide to its strength. Yet such is the case, and a fact well known to cigar manufacturers and importers.

But of recent years the inclination of smokers toward light-hued cigars has assumed the proportions of a "craze," and the producers are finding much difficulty in meeting the demand. The manufacturers and Cuban tobacco raisers would now gladly correct the error; but after having carefully classified their products under the style of cigars, and in the lead for a decade, they find it next to impossible to dispel the illusion.

A maker of Havana cigars uses but one grade or blend of tobacco in the making of his cigars. Exactly the same stock is used in his conchas as in his perfectos; in his claros as in his maduros. After the cigars are made, however, his "selector" takes them in hand and classifies them according to the relative shades of the wrappers. This is done to effect a uniformity in the appearance of each box of cigars, and to enable the dealer to readily indulge the whims of the self-deluded smoker.

Inasmuch as the wrapper constitutes not more than one-tenth of the cigar, it will readily be seen that the degree of its strength or mildness is very inconsiderable in effect. In this connection, however, it is interesting to note that tobacco traders versed in the intricacies of the industry rigidly bar the light-colored wrapper from their own smoking tables, knowing that it generally indicates that the leaf was prematurely cut and imperfectly cured, and that it impairs the flavor and burn of the cigar. Cubans, who, by the way, are notably partial to mild tobacco, avoid smoking light colored cigars just as they would avoid eating a green orange or an unripe banana.

The prejudice of these natives and of tobacco traders is a logical one, and serves to throw into bold relief the peculiar misconception of facts which is both amusing and embarrassing to vendors of the fragrant weed.

Whether cigar makers will ever awaken to the fact that a dark cigar is, if anything, milder and invariably sweeter and more aromatic than a light cigar remains to be seen.—The Tobacco Leaf.

All these fine brews come in Crown stoppered bottles. Sold by leading Hotels, Cafes and Dealers generally.

SAVED FROM THE KNIFE

Appendicitis Cured By "Fruit-a-tives"

Newburgh, Ont., Feb. 12th, 1910. "Just about a year ago, our daughter Ella (fourteen years), was taken with terrible pains in the right side. The pain was so severe that we had to carry her to bed. We at once put her under the care of a first-class doctor, who pronounced it a case of appendicitis and advised an operation. "We took her to a hospital in Kingston where she was again examined by an eminent specialist. He said she had appendicitis and must be operated on at once if we wanted to save her life. As we had taken her to Kingston to have this done, we were ready, but our daughter was afraid and cried and begged so pitifully that we hesitated. "An uncle came in with some 'Fruit-a-tives' and taking them, God's results were apparent almost from the first dose, and the continuous treatment cured her. "Fruit-a-tives saved our daughter from the surgeon's knife and today she is enjoying the best of health. "J. W. FOX (Father), LILLIAN FOX (Mother). Words cannot express the gratitude of Mr. and Mrs. Fox. Ella will always remember 'Fruit-a-tives' as the discovery of an eminent physician, and the only medicine in the world made of natural fruit. A box, 6 for \$2.50, or trial box, 25c. At dealers, or sent postpaid, on receipt of price by Fruit-a-tives, Limited, Ottawa.

AT THE THEATRES

At the Royal Alexandra. Henry E. Dixey, the distinguished American comedian, will appear at the Royal Alexandra next week. George Paston and W. B. Maxwell's three-act farcical comedy, "The Naked Truth," at present the laughter-rage of London. Wm. A. Brady is directing Mr. Dixey's tour, and promises to give Toronto players one of the most amusing plays ever seen here.

"The Naked Truth" was first produced at Wyndham's Theatre in London, Charles Hawtree appearing in the role of "Bunny" Darrell, and as the principal comedian in the good-old Gilbert and Sullivan comic operas. Later he appeared with Augustin Daly's famous stock company, touring the country for seven years. For the past few seasons Mr. Dixey has remained in New York City exclusively, playing in "The Man on the Box," "The Devil," "Mary Jane's Pa," and other comedies.

"The Naked Truth" he will be supported by a representative American company of fun-makers, including Miss Marie Nordstrom, Miss Ruth Shepley, Miss Isabel West, Miss Dorothy Davies, Miss Lillian Dix, Miss Blanche Bryant, Miss Marie Pert, and the Messrs. Herbert Standing, Spotswood Alkon, Kenneth Davernport, Frederick Roberts, George Ives and Thomas W. Slater.

At the Princess. Admirers of J. E. Dodson, who will be remembered for his interpretation of the role of Sir John Cotnam, in "The House Next Door," presented by him at the Princess Theatre last season, will be pleased to know that Mr. Dodson will be seen again in this theatre in the same play, all of next week, with matinees on Wednesday and Saturday. Mr. Dodson is justly entitled to the title given him, namely, the foremost character actor on the American stage.

"The House Next Door" is a bright and entertaining comedy, which has been played by Mr. Dodson during the past two seasons. Sir John Cotnam is a gentleman of the old school, whose family bears with his irascible tantrums with the tolerance born of love. The generosity and benefits bestowed by Sir Isaac Jacobson, his neighbor, he regards as insults, to the raging old aristocrat is at Sir Isaac's benevolent mercy. The last bitter shock comes when he discovers that his son and daughter are in love with the corresponding members of Sir Isaac's family. Sir John's rapid endeavors to break off the matrimonial engagements are the burden of the tale. Sir John's prolific sources of new but futile insults, and the dignified consideration with which it is disregarded by the family against which it is aimed keep the humorous interest constantly alive. Yet, with so fierce a disposition, Sir John, as Mr. Dodson makes him, is liked, and, in the end, nothing but sympathy is felt for the whimsical old aristocrat.

"The Dollar Princess." The most delightful of all last season's musical comedy successes, "The Dollar Princess," commencing Oct. 10, for a full week's run, after a record of ten months of crowded houses and uninterrupted popularity in New York.

"The Rosary" at the Grand. Can one ever mind poison a whole household? Is the human brain capable of producing disastrous effects upon a household by adverse suggestive thoughts? Do we realize adequately how our mental attitudes influence our lives and the lives of those about us? All these questions are asked in "The Rosary," a new play by Edward E. Rose, which will be presented for the first time in this city on Monday evening next. And the answer? Well, the play is the answer. For one-half its course it builds up a condition of affairs in a typical American family of to-day. The inner life of each member is shown, and there is the subtle feeling produced that all is not right, that one mind is not in full accord with the peace and happiness of that household. There are no words spoken directly that tell this, but it is in the air. Nor can any one point to the one who is working against the general harmony. Then suddenly the crash comes and the house is in chaos. The husband doubts his wife, drives her out and faces absolute ruin. Then comes the power of the mind that seeks only truth and goodness; the mind that has harbored only good thoughts. It is that of Father Kelly, the priest, who solves the mystery and brings each member of the little family circle back to peace and happiness.

At Shea's Next Week. The patrons will find a rare treat provided for them in the appearance of Mme. Adelaide Norwood. This is Mme. Norwood's only appearance here in vaudeville, as she soon re-enters the grand opera field. Her friends have implored her again and again to visit Toronto, and finally their Manager Shea her appearance was arranged for. Mme. Norwood first won the hearts of Toronto music lovers when, as prima donna, she filled a local theatre when her name was announced. Since that time she has created many roles in grand opera and in Europe met with splendid success.

Ce Dora, the "Girl in the Golden Globe," has not been seen in Toronto in three seasons, and her offering is more sensational and daring than ever before. She is a beautiful girl, and mounted on a mammoth golden globe that is so constructed that she is in full view of the audience at all times. She circles the lower portion of the ball until she attains a fearful velocity, and then drops the globe again and again.

George Felix, assisted by the Barry Sisters, is appearing here for the first time in the rejuvenated "Boy Next Door." The young Barry Sisters sing and dance cleverly, while as a pantomime comedian, he has no equal on the stage, and his "silence and fun," acrobatics are always features.

And Leo Garrillo has been away for a year and comes back with a new monolog, new stories and a lot of new Chinese jargon. The Be Boy Trio are merry singing and dancing bellhops, who have been favorites everywhere. The Long Acire Quartet are among the best male quartets in vaudeville.

Keep Baby's Skin Clear

Mothers, do you realize the importance of caring for baby's tender, easily irritated skin? Neglect or unsuitable methods may give rise to simple rashes or tiny sores. Torturing, disfiguring humors follow and threaten to become permanent. Not only is Cuticura Soap the purest and sweetest for baby's bath but, assisted by Cuticura Ointment, it affords the speediest and most economical method of clearing baby's skin and scalp of eczemas, rashes, itchings and irritations, and of establishing a permanent condition of skin and hair health.

Cuticura Soap and Ointment are sold by leading druggists and grocers. Send for free literature to the care of skin and scalp.

"The Beauty Trust"—Gayety. "The Beauty Trust" will be next week's attraction at the Gayety, offering the latest musical burlesque "A Bear Combine," an original uproarious travesty with many comedians and songwriters to entertain and create an abundance of laughable situations and introduce numerous pretty musical numbers and ensembles. Rice & Cady, the German comedians, former stars in numerous musical shows, are the chief entertainers, assisted by Lew Dunbar, Wm. Cogan, Ethel La Vere, Stella Raymond, and a large chorus especially selected to maintain the title. A big company of competent experienced entertainers chosen from the best of musical comedians, present a clean, wholesome performance, qualified to appear in the highest class theatres; costumes expensive and fetching, scenic and electric effects a revelation, many specialties adding tune, music tuneful and catchy. A snappy, happy, and interesting with the time; to lovers of a clean burlesque, a rare treat.

New Theatre Company Coming. The management of the Royal Alexandra Theatre, who have announced that detailed arrangements have just been completed with Director Ames of the New Theatre Company of New York City for the first visit of that organization to this city, have announced that performances will be given in the Royal Alexandra Theatre, beginning Monday evening, Oct. 21, and two plays are announced for presentation, "The Whimper" and "The Merry Wives of Windsor," and Piner's, "The Thunderbolt." These plays will be given with the full strength of the New Theatre Company, which will number between forty and fifty. Several members are noted English artists. This visit is made possible by the occupancy from Sept. 26 to Nov. 1 of the Royal Alexandra Theatre by a special company in the presentation of Masterlinck's "The Blue Bird," the great London success of last season. Subscription here for the initial performance of both plays are soon to be opened.

The Children's Chorus. The rehearsal of the children's choir in connection with the Mendelssohn Choir have been resumed under the direction of A. L. E. Danvers. At one rehearsal, personally supervised by the conductor, the children's choir sang the splendid progress they had made, both in Benoit's children's cantata, "Into the World," and the thrilling masterpiece "The Pleasure of the Crown." On account of the simpler construction of the Benoit work, Dr. Vogt has decided to postpone public presentation of the complete work, but the organization of a children's chorus of at least four times the size of the choir now having "Into the World" in rehearsal, will appear at the Royal Alexandra week of October 10. Messrs. Schubert promise every identical feature of the original New York production.

Russian Dancing. Among the novelties that the coming amusement season will introduce, none is more strongly forecasted than the development of a craze over Russian dancing. The fad has London and Paris in its grasp and secured a strong hold on New York and Boston last March when Mme. Anna Pavlova and M. Michael Mordkin, greatest of Russian dancers, had a brief season of four weeks under the auspices of the Metropolitan Opera Company. Their return this season is expected to spread the fad thruout the entire country.

Humors of Art and Music. No entertainment in recent years has achieved such instant and enthusiastic recognition by the public and press in London and Great Britain as the unique recitals of Percy French and Dr. Collinson, Ireland's greatest entertainer. These two accomplished inventors and exponent of the humors of art and music have been famous for a long time in Great Britain. French for his rapid artistic sketching and humorous stories, Irish and otherwise. They come to Massey Hall under the auspices of the Knights of Columbus on Wednesday, October 12. Sale of seats begins October 7.

"The Midnight Song" Coming. "Le Fiedra" musical spectacle, "The Midnight Song," undoubtedly the largest musical amusement on stage—there are 250 persons on the stage at one time in a principal scene in the second act—will appear at the Royal Alexandra week of October 10. Messrs. Schubert promise every identical feature of the original New York production.

Massey Hall Band Concerts. One of the most successful features with regard to the series of high-class band concerts, the first of which takes place Saturday evening, October 8, is the stipulation insisted upon by Conductor John Slitter that all concert bands shall consist of the proper instrumentation as used by the famous Grenadier Guards' Band at the first concert will include such well known classics as the celebrated tone poem "Pines and Lilies" famous Hungarian Rhapsody, number two, as played by the Grenadier Guards' Band at the exhibition. The more popular quartet will include the favorite quartet from "Rigoletto" arranged as an instrumental quartet as well as Sir Joseph's Barby's setting of Lord Tennyson's poem "Sweet and Low" for male choir. Popular prices will prevail.

The first program in full is: Overture, "Zampa"; some poem, "Pines and Lilies"; Hungarian Rhapsody, No. 2; Lullaby (part song for male choir); "Sweet and Low"; quartet from Verdi's "Rigoletto"; solo for the great chimes, "Bells of St. Martin"; grand military fantasia, "Our Soldiers"; Egyptian Serenade, "Amina"; descriptive piece, "A Hunting Scene."

The Mountain Ash Male Choir. The visit of the Mountain Ash Male Choir from Wales at Massey Hall on Monday evening next, October 2, is sure to draw a crowded house because the singing of this organization, under the direction of Prof. T. Glyndwr Richards, who is recognized as the most able conductor who ever stood before a body of singers, is of a very high order. No musical organization has achieved greater success than the Mountain Ash Male Choir, wherever they have appeared both in Europe and America. It is seldom indeed that an entire body of singers has the distinction of being invited to dinner with the organizers of the event. The choir had had their first success in singing before His late Majesty, King Edward VII, and were afterwards named by His Majesty.

Member of Duma Goes to Winnipeg to Give Evidence. WINNIPEG, Sept. 30.—(Special.)—Longinus Theodor Geras, fugitive member of the Russian Duma, has arrived here from Chicago to give evidence on behalf of the Federalists, whose extradition is sought by the Russian Government. Geras was one of 35 members of the Duma who were indicted and one of those who escaped. He was pursued across country for seven months, but finally made his way out with the assistance of a forged passport. Interest in the Federalist cause is increasing. The names of the prominent fugitives who are fighting to have the prisoner released.

Arrangements Completed for Invasion of the American Shoe Market. (From The Montreal Herald, Sept. 27.) John W. Miles of New York has taken over a portion of the sales agency for the Slater Shoe in the United States. He spent some months in the city, and had made an extensive enquiry into the shoe trade of America before concluding his present arrangements. Mr. Miles said that the advent of the Slater Shoe into the United States had caused considerable furore in the shoe trade there, and the Massachusetts Shoe Manufacturers are already wondering whether they did not make a grave error in reducing the tariff to a mere ten per cent. He had also noticed much comment in The English Shoe Trade Journals where special mention was made of the possibility of the Slater Shoe being sold in the English cities. "The style of the Slater shoe is equal to those of the best shoemakers," he said. "The latest are in the prevailing styles, and the belief is general that the sterling make of these shoes will commend them to our own people. I have not the least hesitancy in saying that there is no shoe made in the world which possesses the all-round qualities of the Slater shoe for styling artist. Prices of the Slater shoe which offers the wearer so much real value for its cost," concluded Mr. Miles.

Toronto Symphony Orchestra. The public sale of tickets for opening concert, Thursday evening, October 6, will open at Massey Hall on October 5. The ticket class, under the direction of Alice E. Mansfield, Mus.Bac., will meet at 9 o'clock, and the senior under T. C. Jeffers, Mus.Bac., at 11 o'clock.

Received into Sisterhood. CORNWALL, Ont., Sept. 20.—(Special.)—Miss A. Huot, daughter of P. A. Huot, Alexandria, and Miss Catherine MacDonald, daughter of Angus MacDonald, of Glen Robertson, made their final vows and were received into the Sisterhood of the Hotel Dieu Order of St. Joseph. His Lordship Bishop MacDonald of Alexandria presided. Rev. Father A. A. McRae of Dickinson Landing preached the sermon.

TO JOIN PARLIAMENT ST. WITH BLOOR ST. VIADUCT

Ald. O'Neill Asks For Estimate of Cost—Bloor Street Widening.

The scheme of a viaduct to connect Bloor-street with Danforth-avenue is supplemented by a viaduct to connect the head of Parliament-street with the other viaduct at the point where the two sections composing it meet on Castle Frank Heights, was the proposal made at the works committee meeting yesterday by Ald. O'Neill. It was referred without discussion to the city engineer for a report on the engineering cost, and to the tube experts, but that this report contemplated an additional bridge.

Ald. O'Neill said afterwards that he was afraid the Bloor viaduct would divert trade from the central portion of the street. The opinion of Controller Foster and Ald. Chisholm, both strong advocates of the viaduct, was that the original plan should first be carried out, as the auxiliary viaduct could be built later if deemed advisable.

Widening Bloor Street. Ald. McCausland announced that he would introduce a by-law to restrain the building of houses within 20 feet of the north street line on Bloor-street, from Dundas-street to High Park, so as to avoid unnecessary expense in that direction. It is widening from 66 feet to 86 feet. The greater portion of that section of the street is not built upon and only a few old houses are in the line of the proposed widening.

The committee thought Mr. Rust's proposal to prevent corners of buildings projecting more than 18 inches over the street line too radical. "It seems to me we are sitting up at night figuring out means of preserving the life out of merchants," said Ald. Maguire. On Ald. Dumas's suggestion, the limit was increased to 24 inches.

Depositing of garbage in Rosedale ravine is to cease. Property Commissioner Harris reported that Rosedale residents had protested to him. A resolution of condolence with Ald. Wilson on the death of his wife was passed and will be forwarded to him.

SOCIETY NOTES

Mrs. E. Haw announces the engagement of her daughter, Pearl McLennan, to Mr. James McIntosh, Irving son of Mr. John Irving of Edinburgh, Scotland. The wedding will take place quietly in October.

Mr. Henry T. Flynn will receive for the first time his residence, 590 Shaw-street, on Tuesday, October 5.

Hon. Thomas Crawford will this afternoon lay the corner stone of the Salvation Army Citadel on Dovercourt-road and Northumberland-street.

FUGITIVE FROM RUSSIA

Undoubtedly Jessie Alexander's greatest success has been won in comedy. She has included in her repertoire for her recital on Tuesday next at Association Hall several sketches on humorous lines. A musical treat will be afforded by the cello solo of Leo Smith.

Among the novelties that the coming amusement season will introduce, none is more strongly forecasted than the development of a craze over Russian dancing. The fad has London and Paris in its grasp and secured a strong hold on New York and Boston last March when Mme. Anna Pavlova and M. Michael Mordkin, greatest of Russian dancers, had a brief season of four weeks under the auspices of the Metropolitan Opera Company. Their return this season is expected to spread the fad thruout the entire country.

CRIED DAY AND NIGHT

Mrs. R. E. Sanford, Inverary, Ont., writes: "My baby was sickly for over a week with bowel and stomach trouble and cried night and day. Nothing I did helped her in the least till I began giving her Baby's Own Tablets. They helped baby right away, and now she is a big, healthy child, with fine rosy cheeks. The tablets are certainly a wonderful medicine and I recommend them to all my friends who have children in the house."

What Baby's Own Tablets have done for Mrs. Sanford's baby, they have done for thousands of other little ones, simply because they go to the root of so many childhood ailments—that is, they drive all impurities from the stomach and leave it sweet and healthy. Sold by medicine dealers, or by mail at 25 cents a box. From The Dr. Williams Medicine Co., Brockville, Ont.

WESTON, Sept. 30.—(Special).—The fair opened here to-day under circumstances the most auspicious, and if to-morrow's weather is even reasonably propitious, the town will see the biggest and best fair in its history. To-day was wholly given up to the parade and subsequent sports of the high and public school children, the parade from the school grounds being exceptionally fine.

WOODBRIDGE. The Women's Institute will hold their monthly meeting at the home of Mrs. Arthur Harris on Wednesday afternoon, Oct. 16, instead of the regular date, Oct. 4. Miss Libbie Duncan of Toronto will be present, and address the meeting. Subject, "How to Make Our Town Attractive."

NORTH TORONTO. Mayor is Alive to Gravity of Situation in Northern Suburb. NORTH TORONTO, Sept. 30.—(Special).—"I want to express my hearty concurrence with the views enunciated in The World of Thursday morning under the caption 'North Toronto Must Also Be on Guard,'" said Mayor Brown yesterday. "The problems under hand are vital to the best interest of the town, and city and great care must be exercised in dealing with them."

Etobicoke, has been officially notified that the C.P.R. has applied to the railway commission for the right to cross the necessary roads along the present right of way, in preparation for the new double track lines. The township is given 15 days in which to file their objections to the application. A large force of laborers, about 250 in all, are already engaged in the work of grading near

FARM LANDS SELL WELL. An evidence of the steady advance in the value of farm lands in the York Township is found in the sale of the Elizabeth Duncan estate on the 2nd concession of West York, containing 100 acres of land, and which was sold the other day for \$15,500. The buildings are in poor repair, and the farm has been leased for the last 23 years. The sale was made by N. J. McEwen, the well-known auctioneer of Weston, to the Robins, Limited, and is only one among the many property transfers made by Mr. McEwen within the last few months. It is understood that the property will continue under lease for the present at least. The farm is within about four miles of the north-western limit of the Town of North Toronto.

WYCHWOOD PARK. (Special).—An interesting event will be the formal induction on Monday evening, Oct. 3, of the Rev. William John Brain, M. The Right Rev. the Lord Bishop of Toronto will conduct the service, which will take place at 8 p.m., and cordial invitation is extended to all.

WEST TORONTO. Geo. Hoodless, 54 Miller-avenue, West Toronto, died suddenly near Napanee early Friday morning. He was traveling in charge of a series of cattle bound for Sydney, N.S. He was 42 years of age, a native of Hamilton, and leaves a widow, two sons and two daughters.

VEGETABLE GROWERS. First Meeting of Season Takes Place on Saturday Afternoon. The regular monthly meeting of the Ontario Vegetable Growers' Association, the first since the holidays, will be held at the Albion Hotel on Saturday, Oct. 1, at 3 p.m. Exhibit—rises heads Paris Golden Celeri, first prize \$2; second prize, \$1.50, and third prize, \$1. The president, George W. G. Gray, will give an address on "The best way to store celery for winter use." A large attendance is expected, as this is the first meeting of the winter season. Saturday is the opening day of the Weston Fair, and as many of the members will doubtless wish to attend the banquet in the village in the evening, it is desirable that the members meet promptly on time. George Syme, Jr., the president, and Frank P. Reeves, secretary.

AFTERMATH OF SCARBORO FAIR. An error in the report of the Scarborough Fair, attributed the first prize in the floral bouquet to Mrs. T. G. Gray instead of Mrs. T. A. Peterson. Only two awards were made in this class, and Miss Thaid of Scarborough won second honors. Each of the exhibits was marked by the excellence. The Malvern Brass Band, a musical organization that would do infinite credit to a big town, gave a delightful rendition of many of the most popular airs, which were greatly appreciated.

BOLTON FAIR. Do not miss the Bolton Fair on Monday and Tuesday next. The train from Toronto leaves the Union Station at 12:30, Oct. 4, calling at intermediate stations, and returning leaves Bolton at 10:30 p.m. There will be a special display of agricultural and dairy products, fine arts, ladies' work, etc. Large prizes are being offered for horses, cattle, sheep and poultry, as well as a special prize for speed. On Tuesday a band will be in attendance, with a grand concert as the closing event.

CHATHAM, Sept. 30.—(Special).—At the meeting of the Kent County W.C.T.U., it was decided to institute a campaign against the use of cigars by minors. The association will personally see that the law is more strictly enforced. They will also seek to have the evils of intemperance taught in the public schools. Mrs. Holstead of Wallaceburg was elected president. Col. Hodgkinson, D.O.C., of London, has approved the plans to enlarge the 24th Regiment to the size of a county regiment. Several towns have indicated a desire to contribute companies. The companies in Wallaceburg will be the first to enter.

WANT JUDGE TO ENQUIRE INTO WATER ANALYSIS Discrepancy in Reports Moves Controllers to Action—Dr. Sheard's Letter.

The proposal that Judge Winchester be asked to enquire into the bacteriological branch of the medical health department, "making any recommendation relating thereto which his investigations lead him to think are desirable," was made by Controller Spence, and approved by the board of control yesterday. It arose from the wide difference between the analyses of water by Dr. Fleming, the city bacteriologist, and those of the provincial department, the latter showing a much greater degree of coli commun contamination. Dr. Fleming succeeded Prof. Shuttleworth two years ago.

IT IS FAR BETTER TO BE AN OLD MAN WHO FEELS YOUNG THAN A YOUNG MAN WHO FEELS OLD

Years count for nothing if you have the vitality. You can feel young all your life where there is ample nerve force to back your courage. Let me make you a "HEALTH BELT MAN." Let me supply you with that vim, vigor and manly strength which conquers all obstacles. A man at 60 should be in the prime of life; early decline units you for the world's work. I have seen more than 100,000 debilitated men; the lack of vital vigor is responsible for most failures; you can't command the attention and admiration of women or even men if you lack personal vitality. My HEALTH BELT fills you full of vital force; it strengthens weakened parts; it gives you courage to meet squarely any evil which may look into yours. You become as attractive in your personal influence as the strongest, most full-blooded man you know. Thousands upon thousands

have been cured by my HEALTH BELT. Worn nights for two or three months, it sends the continuous tonic current of electricity into your system all the time you are sleeping. No privations, no medicines, no restrictions, excepting that all dissipation must cease. Cures weak back in one night; benefits from first hour. It has special attachments which carry the current to the weak parts. Used by both sexes for rheumatism, kidney, liver, stomach, bladder disorders, etc. John Muhlolland, Tyne-side, Ont., writes: "Your Health Belt restored me to manly vigor. Use my name as you see fit." Quarrel in Crowd Ends in Murder. NEW YORK, Sept. 30.—An express train in the subway was the scene of a mysterious murder at 1 o'clock this morning. A well dressed young man, apparently returning from the theatre, was the victim. His assailant, according to the police, was Chas. Wright of Elizabeth, N.J., who was arrested. According to bystanders, the two men stood near each other in a crowded car. They did not appear to be quarrelled, but suddenly it was noticed that they were having a violent quarrel about something. Then came a shot.

HOW TO REDUCE THE COST OF LIVING

Every Rent Payer in Toronto May Materially Reduce the Cost of Living by Becoming the Owner of His Own Home

It costs no more to own your own house than it does to pay the rent ordinarily charged. It is a simple problem in finance that may be profitably faced by any family paying rent and living comfortably in Toronto.

We will show you how it is done. This is a problem we have successfully solved for many families. We will sell building lots in Alexandra Gardens and arrange to put up a house of neat, artistic design to suit your taste, and you may pay for your home as you now pay rent.

Alexandra Gardens is located in the best section of the most promising district of North Toronto—a suburb that is already well built up with high class residences. Thirty minutes' car ride from corner of King and Yonge St.—north up Yonge—stop 19 on the Metropolitan Cars.

You are in a position to own your own home and it will cost you nothing to discuss the subject with us.

Come in any time, or phone Main 7475, and say: "I want to talk to your company about owning my own home."

TWO SERIOUS CASES

Judge Denton Refuses to Allow Bail to One Accused.

"This is one of the most serious cases which have come before this court," said Judge Denton yesterday after the jury had returned a verdict of guilty in the case of Jas. Murphy, charged with indecent assault upon Catherine Kemp, but acquitting him of a charge of theft. The judge refused to allow him out on bail. The assault occurred when two girls had gone to a stable with Murphy and another man on the night of Labor Day after the close of the exhibition. They said he had promised to drive them home.

Virginia Harrison, 15 years, told in the sessions court yesterday afternoon of an alleged indecent assault upon her by William Menary, aged 35 years. She said that he had taken her to a coal yard on the night of July 27, where the assault took place. Menary's defence was the alleged unchaste character of the girl. The case will go to the jury this morning, when T. C. Robbette, K.C., will open with his address.

Sale of School Lands.—The minister of the interior states that an auction sale of school lands will be held at Yorkton, Sask., during the autumn.

WORK OR GET OUT

That Will Be the Ultimatum to Professional Beggars.

At a meeting of a committee of Associated Charities, yesterday afternoon, to deal with the subject of adequate accommodation for homeless men who flock to the city during the winter months, every year, a report was made by Rev. S. W. Dean of his recent trip, when he investigated conditions in New York, Chicago and Winnipeg. A large building in New York is equipped with ample accommodation for all the homeless men who were willing to comply with the work test. The feeling was that whatever action should be taken the professional beggar should be compelled to work or be driven from the city.

An effort will also be made by the society to have the lodging houses of the city inspected in regard to overcrowding, sanitation and the supply of baths.

Sunday School Rally Day.—An immense Rally Day has been arranged for Oct. 16 by the Sunday School Commission of the Church of England. Special services are to be held and special addresses given in every Anglican Church in the Dominion.

The purpose is to bring definitely before the members of the church, young and old, the importance of this great educational factor in the church.

JUDGE MORSON SARCASTIC AS TO THE BREAD LAW

Suggests That the Legislature Should Define What It Means by the Words "Small Bread."

Judgment was reserved by Judge Morson in the appeal of the Nasmith Co. and James Dempster, bakers, against the conviction by Magistrate Kingsford for infraction of the Nicksie bread law.

According to his honor, the whole case hinged on the real meaning in the act of the words "small bread" and if it was small bread if sold in attached sections.

In the police court the Nasmith Co. was fined \$5 without costs for selling loaves of bread not weighing 24 or 48 ounces, and in a weight exceeding 10 ounces. The magistrate found the 10 loaves exhibited did not amount to the aggregate required by the act. He held the act meant that customers were to receive a loaf weighing 12 24 or 48 oz., and that to allow the sale of joined loaves "would give the dishonest baker an opportunity to sell a loaf weighing less than 24 oz., which was exactly what the act desired to prevent."

"Your honor has doubtless read Magistrate Kingsford's judgment," said H. J. R. Snow, counsel for the appellants. "I have," admitted Judge Morson, "and I don't know exactly what he means, after reading his judgment." "The question is," continued Mr. Snow, "what is small bread?" "That is it. And the legislature in their wisdom haven't seen fit to define what it is. It is left to the baker, apparently, to decide what is meant by 'small bread.' What object did the legislature have to accomplish in tinkering with the law anyway?"

James Dempster volunteered the information that in baking phraseology, a "large loaf" implied a pair of "small loaves," and Baker Carrick said that many bakers were now labelling their "small bread," altho not required to do so by law, in order that the public might see what it was getting.

"I must find that this was 'small bread' when baked," said Judge Morson. "The only thing to decide is whether it remains 'small bread' if sold attached. With all due respect to the people who want to prosecute this case, they didn't go about in the proper way to get the proper kind of evidence."

"I suppose in a case of such importance, I shall have to reserve judgment," said Judge Morson.

"The legislature should define 'small bread,'" said Mr. Robbette, appearing for Mr. Dempster.

"No doubt that will happen at the next session," said his honor.

Busy Berlin.—Sept. 30.—(Special.)—This has been a year of substantial growth for Berlin. Population shows an increase of about 900, bringing the total up to 14,500. And in nine months over 125,000 worth of new buildings have been erected.

MAY BE MORE ARRESTS IN ATHENS BANK CASE

Teller Pleads Guilty to Theft and Will Give Evidence Against Former Manager.

BROCKVILLE, Sept. 30.—(Special.)—On the 15th inst., Robert E. Cughan, manager of the Farmers' Bank in Athens, and Melvin Forrest, teller in the same institution, were arrested and brought here to answer to a charge of theft.

The accusation against Cughan is "that within the past five months he did steal and convert to his own use a sum believed to be in the neighborhood of \$500. The same charge rests against Forrest, with the amount at \$500. Both cases came up to-day for a preliminary hearing before Police Magistrate Deacon.

Forrest elected to be tried summarily and pleaded guilty. He was remanded for sentence, and will be used by the crown as a witness against Cughan, who pleaded not guilty.

Forrest, it is understood, will make restitution and throw himself upon the court for mercy.

Up to the hour of adjournment only four witnesses had testified in the Cughan hearing, the principal evidence being given by Delos Spence, who was recalled from the Phillipsville branch on the 7th inst., the day Forrest was discharged by Cughan. He entered upon his duties the following day, and on checking up his cash found a shortage of over \$1000. Cughan told him there had been a mistake, and that in order to show a correct balance, a false entry was made. He also testified to Cughan putting thru a false note on his father, Abel Cughan, for \$240. Spence told of other irregularities in the work of Forrest and Cughan, the former putting in a forged cheque for \$600 purporting to have been signed by Wm. Morris, to keep the track clear, should the inspector drop around. Spence says Forrest showed him the forged note the day he left, remarking, "Let me show you the way I got Cughan going."

General Manager Travers of the Farmers' Bank and Inspector Fitzgerald were present. It is likely that other arrests may be made.

LIEUT. GZOWSKI BURIED

Officers and Detachments From Regiments at Camp Followed Body.

(Canadian Associated Press Cable.)—LONDON, Sept. 30.—At Aldershot today several thousand spectators witnessed the funeral of Lieut. Gzowski in the military cemetery. The interment was of the most impressive character. The Burts, to which the Q.O.R. was affiliated during the stay, furnished a fitting party. The band and drums of the battalion followed. Among the chief mourners were Lord Strathcona and about 100 officers, with a detachment from nearly all the corps in camp.

The friends of Mrs. E. F. Coxwell of 10 Aberdeen-ave. will be pleased to hear of her recovery from her painful accident of several weeks ago.

BUILDING IS BOOMING

For Nine Months Total is Nearly Fifteen Million Dollars.

That there is no cessation in building activity in Toronto is made apparent by the returns for the year up to Sept. 30, as compared with a like period of nine months in 1909. The value of buildings for which permits were issued shows an increase of \$1,754,821, while there were nearly 1000 more permits.

The statement is:

	1909	1910
Approximate value of buildings Jan. 1 to Sept. 30, 1910	\$13,094,877	\$14,849,508
Approximate value of buildings for the month of Sept., 1910	1,046,055	1,332,585
Number of buildings for which permits were issued for the month of September, 1910	622	626
Number of new buildings erected Jan. 1 to Sept. 30, 1910	5402	6508

The residence of the late John Davidson has been sold by Mrs. Davidson for approximately \$30,000. This property is situated at No. 126 St. George street. The purchaser is Mr. Bethune.

The property at 20 to 22 East Richmond-street, north side, has been sold for \$50,000. This property is occupied by three stores. There is a frontage of 45 feet by a depth of 105 feet. The name of the vendor and purchaser are not given.

MONTREAL TO WELCOME T. P.

Preparations have been going on here for some time to fully welcome T. P. O'Connor, who will speak at the Monument National on Thursday evening, Oct. 6. Doherty, M.P. for St. Ann's.

Death Knell of Preference.—LONDON, Sept. 30.—(C.A.P.)—Rt. Hon. Alexander Ure, Lord Advocate of Scotland, speaking at Glasgow, said that Canadian farmers have blown the colonial preference idea clean out of the water. Preference could not survive. Laurier's tour in the west and the words and acts of the western farmers, altho dictated by very plain enlightened self-interest, damned preference forever.

Headquarters of the Camorra.—CINCINNATI, O., Sept. 30.—Detectives who are investigating the murder of Joseph Luviers, an Italian, two days ago, say they have located the American headquarters of the Camorra, or "Black Hand," thru the confession of an unnamed Italian.

The officers say they have positive proof that the headquarters are located in a little town in New York.

MORE MONEY is being made by those who invest in town lots at the beginning of Western Canada's future industrial and commercial center than in any other way. You can invest \$10.00 a month, or as much more as you wish. It is estimated that one hundred million dollars was made in the year ending July 1st, 1910, by those who had the foresight and the courage to make such investments. It's all good, clean money, too. Let us send you, free of charge, a copy of the publication, "British Columbia, Bulletin of Information," containing synopsis of land, mineral, coal and timber laws, and up-to-date news of development in Canada's largest and richest province—British Columbia. All Roads Lead to St. Clair Gardens and Annex

St. Clair Gardens and St. Clair Gardens Annex are NOW the most accessible, homelike properties in beautiful north-western suburbs of Toronto. These properties are served by Davenport Road and Carlton-Lansdowne cars. City officials have plans now ready for the building of proposed car lines on St. Clair Avenue from Yonge Street to the old limits of West Toronto; and on Davenport Road from Dupont Street to Albany Avenue, up Bathurst Street to St. Clair Avenue. When these plans are put into motion, the Mayor believes that the new car lines will be operating by July 1st, next year. The man who is wise buys lots NOW in this district about to be served by this most perfect car service—for from now on until next summer St. Clair Gardens property will double in value.

The Road to Industry

There is no street car fare for an artisan to pay going and coming from work. In St. Clair Gardens, he is within a few minutes' walk of the Canada Foundry, and many other large industries. There is plenty of employment. The man who owns a nice little home of his own near his work comes about as near as he can get to contentment on this earth. The homelike sites are large enough for home, garden, and stable, and can be secured for prices as low as \$15 per foot—with a few dollars down, and easy terms for the balance.

The Road to Independence

The man who owns a home in St. Clair Gardens is independent. He can go with us and secure a nice home-site on terms entirely satisfactory to all concerned. We have special opportunities to-morrow; we invite you out to see them—in St. Clair Gardens and Annex.

Take the cars, or phone us for appointments. Our motor cars will be waiting at the end of the Davenport Road car to take you to the Davenport car line station. Take the SATURDAY AFTERNOON, from 1:30 to 6, to see the cars and to see the homes. Our motor cars will be waiting at the end of the Davenport Road car to take you to the Davenport car line station. Take the SATURDAY AFTERNOON, from 1:30 to 6, to see the cars and to see the homes.

To-day, (Oct. 1st)

and we'll show you over this property. It won't be so long before you'll be able to buy, but the PROPERTY will surely speak for itself. It is a beautiful home-site on the Davenport Road car to the property, which is located on the east side of St. Clair Avenue, north of St. Clair Avenue; or take a Davenport Road car to the property, which is located on the east side of St. Clair Avenue, north of St. Clair Avenue; or take a Davenport Road car to the property, which is located on the east side of St. Clair Avenue, north of St. Clair Avenue.

THE ROAD TO HOME OWNERSHIP

Starts at Robins' Office, and is an easy road to travel. Any man—laborer or banker—can go with us and secure a nice home-site on terms entirely satisfactory to all concerned. We have special opportunities to-morrow; we invite you out to see them—in St. Clair Gardens and Annex.

PROMOTIONS IN FIRE DEPT. 3 CAPTAINS ARE NAMED

Also Five Lieutenants—Seven Men Added to Department—Opening of Perth Ave. Station Monday.

Chief Thompson last night sent out notifications of the following promotions in the fire department: To be captains: Lt. Alfred Everest, of Hose 10, Yorkville-avenue, to command that section...

The following men from the eligible list for promotion were promoted to report Monday: Dummett, Skelding, Leppin, McMillan, Smith, Keys and Wells.

The three new captains are men of experience and possessed of the best of records. Capt. Everest joined the department January 1, 1883, and had many years of down town work before being to Yorkville-avenue, where, during the illness of the late Capt. John Smith, he had charge of the section.

As the promotions are to fill vacancies on hose wagons, those who have the experience in that line of the work have had the call for promotion. Coulter having served most of his time with Hose 6. As all the lieutenants were originally created Jan. 1, 1886, they were placed on an equal basis, and the promotions since made have been for the merit of their services since that time.

The Howland-avenue fire station is fast approaching completion, and the new East Toronto station is well under way, so that additional promotions and more men for the department will be required before long.

The present promotions are in line with the policy of promotion for efficiency established in the department.

BOURASSA SUSPICIOUS

Says Strathcona Fund Should Be Carefully Watched.

MONTREAL, Sept. 29.—(Special.)—The little Canadian named Henri Bourassa, sees imperialism in everything. Now Le Devoteur wants to know what the Quebec Government is going to do about the Strathcona Fund, as it will be remembered that sometime ago the Canadian High Commission gave a quarter of a million for the instruction of the Canadian youth in military and physical drill.

Le Devoteur reminds its readers that Lord Strathcona is an ardent imperialist, and says that this fund should be watched.

Suggests Dr. Harrison. Dr. S. M. Has, 556 Palmerston-boulevard, writes The World: "As a busy medical practitioner I have not time to more than thumb your paper, but I am more than anxious to see the right man appointed medical health officer of this city. It is a most important public office and one requiring professional knowledge, combined with executive and business ability in the man who fills it. It does seem to me that Dr. W. S. Harrison, who, while controller, brought about such important and needed sanitary reforms as the filtration plant for the improvement of our water supply, etc., is the one whose medical training and municipal and business experience eminently fit him for the position, and I know his appointment would be looked upon with favor by the medical men I come in contact with. I write this only in the public interest."

Editor World: May I relate an incident? I happened to be in a branch bank this morning when a gentleman, of between 70 and 80 years of age, entered, and asked a clerk if he could consult a directory. He was courteously directed to the volume, when the branch manager appeared and harshly told the clerk not to grant the request at the same time violently ordering the gentleman to "get out."

What makes the incident worth noting is the fact that circulars issued by the same bank remark on the politeness and attention which customers will receive from the officials. A. F.

New Registration in South Wellington. Pending Sir James Whitney's return, the members of the government are in favor of holding the South Wellington by-election on or about Nov. 1. The voters' lists used in 1908 will not serve for this election, and a registration for manhood suffrage voters will have to be held.

Had Lived in Toronto. John Peter, 168 Howland-avenue, is certain that the man found in the Niagara River below the falls last week was W. M. G. McGill, aged 26, who came to Toronto from Ireland last April, a month before he was at Eaton's, and lived at 432 Bathurst-street.

Governor Acquitted. DRS. MOYNE'S Iowa, Sept. 30.—The jury in the libel case against Governor Carroll has returned a verdict of not guilty. Governor Carroll was placed on trial a week ago charged with criminally libelling John Cowley, former chairman of the state board of control.

Speculation Picks Up a Little Wall Street Prices Harden

New York Securities Work Higher by Degrees—Toronto Market Withstands Adverse Influences With Little Difficulty.

World Office, Friday Evening, Sept. 29.
A partial collapse of the much talked-of power merger in Montreal, and the slump in the Asbestos stocks, are having a temporary influence on speculation in domestic securities. There is a realization of profits going on in the market, but between the two, prices to-day made an excellent showing against this pressure.

Good buying was admitted to be still in effect in Rio, which after a fifteen point advance reacted only about one point. This was more remarkable when it is considered that the expected increase in the dividend for the current quarter did not materialize.

Speculative securities, with the exception of Black Lake, were firm in today's operations, but there were few advances. The active securities were Rio, Twin City, and Mackay, all of which either held at yesterday's prices, or made fractional advances.

In the more investment issues there was a continued buying demand for Maple Leaf preferred.

A speculative movement in Quebec Light & Power has developed on the Montreal exchange, but the stock is not sufficiently attractive to buyers here, to attract much trading.

With the end of the month it is anticipated that the banks will recompose their loaning rates, and with this in sight there is a strong feeling that the market will, as a whole, continue to improve.

RUMOR DENIED

Bell Interests Have Not Acquired Western Union Company.

TORONTO, Sept. 29.—In regard to rumor that Bell interests had acquired majority of Western Union stock and were preparing to offer five shares of American Telephone in exchange for seven shares Western Union, President T. N. Vall of American Telephone Co. says: "There is absolutely no share of truth in this rumor. American Telephone has not had and does not now have plans for acquisition of any additional shares of Western Union. We are anxious to remain minority stockholders."

WALL STREET POINTERS.

Columbus & Hocking Coal and Iron reorganization plan issued offering better terms than original proposals.
Sub-treasury gained \$1,889,000 from the banks yesterday, making cash net gain since Friday \$9,915,000.
Joseph says: Well, how about Western Union. It will look attractive in the 80's. Chesapeake & Ohio is regaining its laurels, and "there is a reason." The higher it goes the scarier will be Canadian Pacific. Buy Coppers.
The policy of bullish specialty operations in a sluggish but irregularly improving market seems to be likely to be maintained for the present. It may be significant that the market advances on had developments. We continue to suggest that the operation be conservatively followed. Bullishly inclined daily traders may buy on little recessions with stop order protection, favoring the railroad list, and accounting moderate returns on the major portion of holdings on demonstrations of strength—Financial Bulletin.

Nothing seems likely to materialize during the balance of the week to stimulate business. Some activity, accompanied with lower prices, may follow the publication of the preliminary treasury movement estimates, which promise to divulge a very heavy loss sustained by the banks. Apart from this, professional operations will dominate, and a continuing back and filling and with narrow price movements will be witnessed.—Town Topics.

Twin City Earnings.
The earnings of the Twin City Rapid Transit Company for the third week of September amounted to \$146,768, an increase over the same week last year of \$9482, or 6.91 per cent. and over the corresponding period of 1908.

Eastman Kodak Company "Melon."
The Eastman Kodak Co. of New Jersey has declared an extra dividend of 10 per cent. on the common stock, payable December 1.

ON WALL STREET.
Erickson Perkins & Co. had the following: Buying on unfavorable news now seems to be regarded as the proper thing. A sound basis has been laid for a good stock market and by degrees it should work higher. Purchases, however, should be made only on weak spots, not on bulges. We understand that there has been a good deal of re-investment of money during the last week in anticipation of the Oct. 1 payments. Local banks appear to have lost over \$11,000,000 cash on the week's movements, and will therefore probably make a poor showing to-morrow. But this is likely to be ignored by the stock market. Most of the cash loss was on sub-treasury operations.

Chas. Head & Co. to R. R. Bondard:
The copper outlook is better, very heavy exports and large consumption at home, reducing the stocks on hand. The Producers' Association figures are expected to show a strong copper position for the balance of the year.

MARKET SHOWS RESPONSIBLE SUPPORT.

World Office Friday Evening, Sept. 30.

The Toronto market has settled into a rut, from which it may take a few days to get away. Speculative holders in such issues as Rio and Mackay are taking profits. This operation is sufficient to prevent advances, and, until these offerings have been absorbed, steady prices are all that can be promised. With the declaration of another dividend on Rio, it is now known that no change can be made in the rate until next year. The Montreal market is at present having a period of liquidation, and this to some extent is an influence on local sentiment. Taken as a whole, the Toronto market shows responsible support.

RIO MAKES GOOD SHOWING.
Playfair Martens & Co. in a circular letter say of Rio de Janeiro: "The activity in this issue has completely overshadowed the rest of the market. Canadians have evidently awakened to the immense possibilities ahead of this company. In view of the active interest at the moment in the stock, the following may be of interest:
Taking the earnings for May, June, July and August as a basis, the net earnings for 1910 would be \$5,519,508. Deduct dividend of \$1,500,000 p.c. on common stock \$1,575,000
Interest on bonds, 1,675,000
Total \$2,339,508
Deducts on stock and debentures not owned by company \$60,000 4,110,000
Leaving a surplus of \$1,709,508 which is equal to nearly 10 per cent. on the common stock.
As the earnings are increasing from month to month, it would seem that at the end of the year the net earnings would exceed the \$5,519,508 estimated above.
The gas plant which is now under construction has not as yet contributed any net revenue to the company. When this plant is completed, some time in January, it will largely increase the earnings and materially reduce the operating expenses.
The assets of the company in round figures are \$76,000,000 and the bonds roughly are \$32,000,000.
Thus leaving \$44,000,000.
The telephone, gas, light, power, city tramway and suburban tramway departments are all in their infancy, and situated in the capital of the country whose future is bright and only of later years has come into prominence.

THE NEW SIMPSON SYSTEM OF MAIL ORDER SERVICE

J. Wood, Manager.

What Your Dollar Means Now

WHEN you walk into a store with a dollar bill you can get in exchange for it some article, marked in plain figures, \$1.00. But the Mail Order customer has had no such straight deal; he has had to sit down and attempt to figure out the postage, express, or freight rates, and finally give up about a dollar and thirteen cents for this same dollar article.

We Have Changed All This

NOW the Mail Order customer sends one dollar to this store and gets a dollar's worth back. Never again will he have cause to regret the heavy transportation charges and wonder if they haven't eaten up all the saving that the catalogue price indicated. Now he knows that the price he sees printed in our catalogue is just what he pays for the goods delivered at his nearest railroad station, unless they are particularly heavy and bulky.

Your Nearest Store

NO matter where you live, this makes Simpson's, for all practical purposes, your nearest store, and brings the advantages of shopping here within the reach of all, on exactly the same terms. Our immense stocks are bought direct from the manufacturers for cash. This means that the greatest economies are now available to you if you make this store your chief source of supply.

Simpson's for Service

IF you have never sent us an order under this new system you have no idea of our improved Mail Order Service. It reduces to the minimum any trouble there may have been in shopping by mail. We sell only worthy, honest goods, made for service, and the prompt response to your request for return or exchange means a degree of comfort and satisfaction almost equal to personal shopping. Get a catalogue and send us a trial order to-day.

The Latest Advances of Modern Store Keeping

A Beneficial Evolution and Revolution in the Retail Mail Order Trade of Canada

WITH the issue of our Fall and Winter Catalogue for this year we announced that we would pay charges to destination on practically all the goods advertised therein. We realized that the time had come to serve on equal terms every citizen of this great Dominion, by offering to every Mail Order customer the advantages of Simpson Quality, Simpson Variety and Simpson Economy, right at your own door without extra cost and without trouble or risk. That this offer has been appreciated is vouched for by the tremendous growth of our Mail Order business since the announcement was made.

The Beneficial Effects of This Plan

It goes without saying that this is one of the biggest retail undertakings ever planned by a Canadian store, and eventually its benefits will be felt by every Canadian who buys goods by mail.

Because This Step Forward Must be Followed

by every other store doing a Mail Order business in Canada.

We were told that it was ruination; that we wouldn't do it for very long; that it was meeting mail order customers more than half way. Well! we want to meet them more than half way; we want to meet them on their doorsteps and say, "The price you're paying for this article is exactly what you'd pay if you came to the store and bought it yourself"—and we're going to keep right on saying this until every Mail Order customer in Canada is benefiting by it.

Good News For Christmas, Three Months Ahead

Our Christmas Catalogue is now being printed. Apart from being the most beautiful we have ever published it will be the most useful to Mail Order customers between now and Christmas. You'll be able to tell just exactly how far your Christmas money will go, because every article mentioned will be delivered to you for just exactly the printed price, no extras of any kind. Think of buying anything you need for Christmas, from Toys to Cut Glass, without having to pay any delivery charges. In thousands of homes this will be welcomed as a great boon, lessening life's drudgery and adding to its comforts.

If you have sent us an order within six months you will receive our Christmas catalogue without asking for it. Otherwise, your address on a post-card will bring it.

Our Ideals Develop

OUR ideals grow as fast as they are satisfied; ten years ago we realized the unfairness of the old law, *caveat emptor*—"let the buyer beware," especially as applied to Mail Order customers, for it put them at a tremendous disadvantage. So we offered to take back goods that were unsatisfactory and pay the charges both ways; and this put things on an equitable basis. But there were greater things to follow:

How it Happened

SOON the proportion of our Mail Order customers became so large that we were bound to consider their convenience and place them, as nearly as possible, on the same basis as our city customers. To give them the advantages of personal shopping was an impossibility. But we did the next best thing, and asked them to shop by proxy without extra charge. Their representative now buys the goods and they are delivered for exactly the same price as if the shopping had been done in person.

The Foundation

THIS unparalleled Mail Order Service has been made possible by the good-will of hundreds of thousands of customers. They liked the foundation-stone, "one price to all," upon which the business was built. They appreciated our offer to take goods back that were unsatisfactory, and pay the charges both ways, because it simply meant we could not afford to sell them something they didn't want or to disappoint them in quality.

The Emancipation

THE Canadian Mail Order customer need no longer suffer the disabilities of the past. He may now rejoice in the fact that the middleman has been laid on the shelf; that henceforth he will send his own money to the big market, instead of getting the middleman to do it, who still has to pay the freight, and who charges a profit on top of it. This will be a national movement making for better goods at lower prices throughout the Dominion.
